Following the accident they went to Roxboro drive, and stole Mr. Hewitt's car from the ST. MATTHEW'S CHURCH BAZAAR front of his house, and went back to the scene of the crash. In the meantime Policeman Linklater, No. 344, who was due to go on duty at 10.45 p.m., noticed the number of Mr. Davis' car on the board and listed as stolen. He remembered the motor car on Carlaw avenue which had been abandoned, near his home, and which he noticed on his way to work. He informed the desk sergeant of the matter. 66 TES, I have." "And what is the result?" "Not very satisfactory."

"What seems to be the trouble?"

"Well, your blood is thin. It is lacking in what we call the red corpuscles. It does not contain enough of the nutritive qualities to properly supply nourishment to the nervous system."

"But I am not nervous."

"No, you are not, in one sense. Your hands do not tremble. You are not easily startled or excited. But nevertheless your nerves are not in good condition. There is not enough nervous energy in your system to work the machinery of the body.

every heart beat and of every breath you breathe is no indication that this action is not the result of nervous energy.

You really have two brains—one with which you think and act voluntarily, another one which, without any conscious effort on your part, controls the action of the various organs and members of the

body. It is the failure of this sympathetic nervous system, as it is called, which most frequently causes trouble.

"Because nervous energy is lacking there is weak functioning of the vital organs. The digestive fluid does not flow properly in the stomach, and you have nervous indigestion—the action of the liver and bowels is slow and weak, and you suffer from constipation. And so it may be with other organs. While they are not really diseased, their action is weak for lack of nervous energy. What you need is a good restorative.'

"What do you think of using Dr. Chase's Nerve Food?"

"There is nothing better. You know we doctors prefer to prescribe our own favorite treatments, but I have seen such splendid results from the use of Dr. Chase's Nerve Food by my patients that I no longer hesitate to recommend it."

The active and concentrated ingredients of Dr. Chase's Nerve Food are approved by the best medical authorities as a means of building up the exhausted nervous system. The experience of many thousands of people go to back up the professional opinion, and hence the enormous success of this great food cure. 50c a box, 6 for \$2.75, all dealers. or Edmanson, Bates & Co., Limited, Toronto.

Considerable friction was evident at the meeting of the Hydro-Electric Power Commission to proceed with final surveys and the purchase of rights-of-way now authorized by the munici-

mallway Association at the city half yesterday afternoon when Controller Maguire Introduced a resolution that gratitude be expressed for the vindication of the Hydro Commission as was found in the Clarkson audit. He referred to a published criticism of the Hydro, and pointed out that there was no need in meeting the criticism as it was entirely unfounded.

The passing of the resolution was opposed by Mayor Buchanan of Ingersoll. He moved that an amendment be added calling for independent audit. "The Clarkson report shows that the criticism of the Hydro was not justified." declared Controller Maguire. "The slanderoys statements published in The Post have been refuted. WORK OF British women to the Belgians, Serbians, Portuguese and recently to thousands of Americans. In the canteens of the Y.M.C.A. done nearly 34, 000 women had worked.

As a result of the war, said Miss Fraser, 72,000 women had gone into banks, 200,000 were in government of fices, a million were in munitions, and a million and a quarter were employed who had never before been in industrial or professional work. The worn derful work of the women on shells was demonstrated by the statement that the French and British women were making 90 per cent. of all shells, and that out of 980,000 only two were defective. Three thousand acres of this has already been given to returned men. The women who work behind the lines in France were described as doing telegraph, telephone, repairing, cooking, working on salvage plants and anything that required to be done.

On the work of reconstruction, Miss Fraser thought women are going to have a good deal to say. She prophesise that the 6,000,000 women who will vote at the next election will return Lloyd George with a big majority for a coalition government. The German colonies, she stated, would never be returned to Germany, and she expressed the wish that every man whowill sit upon the peace board would see the abomination of desolation in France before taking that place.

"The Romance of Old Bill," as re lated in the film of "The Better 'Ole."

Everyday Life in the Trenches as Lived by Old Bill, Bert and Alf.

is a stirring story containing a strong

vein of humor and a message to all who see it Old, Bill is played by Charles Rock, in whose experienced hands Bairnsfather's character is admirably bresented. The striking charm about these master studies is that they are so thoroly unstudied. The characters reek—that is a sound word to use about the trenches—of truth. We see Old Bill, that philosopher of the trenches; Alf and Bert, those life studies in khaki, the comedy of the uniform. Khaki and cachinations is the motto for "The Better 'Ole." is better than any play. Only a percentage of people have seen the legitimate version. The screen version begins with a prolog, in which we vision Rouget de L'Isle singing the "Marseillaise," we see the Three Mus-keteers of Dumas. THE STARS OF BETHLEHEM.

THE STARS OF BETHLEHEM.

Sporting Editor World: I have frequently heard Canadian-born sports remark, "Can't see what there is in football for old country people to flock in thousands to see."

As a sport from the old country I must admit that football, as far as I have seen in Canada, is not up to the old country style and would suggest to the various Toronto League clubs a day off on Saturday to attend the big match with Bethlehem Steel Works and learn something. There is also a great opportunity for the Canadian-bred sport to see the old country game which Canadians say "we go crazy over."

I have seen the majority of the Bethlehem players perform with their old country league teams, and know there is a big treat in store for Canadians "to get in on." With "charity" the object of their visit, I feel sure a bumper gate will greet them. Old country born who have followed football will not need any invitation when they see the names of the Bethlehem team.

The war demands in Europe have brought petroleum to the front as never before, and have demonstrated conclusively that oil is the fuel of the future. Science and invention have provided many new avenues of consumption, and well-posted authorities state that such developments as oll-burning ships and locomotives are now a virtual necessity. Indeed, such great strides have already been made that London, Nov. 28.—Money, 3 per cent. it is already clearly evident that production must be largely increased if an oil famine is to be avoided.

These conditions are fully recognized both in this country and across the border, and the result is seen in the fact that oil operators everywhere are laying big plans for the opening up of new territory and the bringing in of new sources of production.

Prices Are Moderately Firm, With More Gains Than

Montreal, Nov 28.—With the New York market closed because of the American Thanksgiving holiday, and the session in Montreal Stock Exchange limited to the morning, business in Canadan securities proved a dull and desultory affair today. Prices were moderately firm in most directions, with the few changes showing more gains than losses, but there was little evidence of initiative, either on the buying or selling side. Wayagamack common was the most active stock of the day, with a total of about 300 shares, and was also one of the stronger features, the price advancing ½, to 52, with 52½ the closing bid. Dealings in the steel stocks were on a small scale, 100 shares of 1½, arise of ½, and 75 shares of Canada at 59%, a rise of ½, and 75 shares of Canada at 59%, a rise of ½. The removal of the depressing influence of the decline in like issues in the next market checked what little selling pressure existed the previous day, and buyers found stock in small supply.
