FEELING HEATED TO

London Press Comments on the Fashoda Affair are Cooler This Morning, Yet the Idea is Expressed That French Dreams Must be Dispelled—Paris Municipal Council Urges the French Government to Avert a Conflict With Britain—Dreyfus Said to be in Paris—Cable News.

London, Oct. 21.—The London morning papers have cooled down to an exceedingly cautious and conservative tone in dealing with the Fashoda question, apparently realizing that the public on both sides of the channel is heated to danger point. There is a marked effort to avoid an offensive tone. The Times says: "Sir Michael Hicks-Beach has gone some way to persuade our neighbors that we really mean what we say. The time has come when it is absolutely necessary to dispel French 'dreams' on this subject, unless very dangerous consequences are to result; but the Chancellor of the Exchequer might have performed the operation more dexterously." The Daily News, which voices the general feeling, says: "The country is determined to maintain its rights, but there is no occasion to provoke our opponents or to add fuel to the controversy." The Trafalgar celebration, falling to-day, is a particularly unfortunate coincidence, and may have just the effect of adding to the fuel which the Daily News deprecates. If any warm-blooded patriots take advantage of the occasion to get up a Fashoda demonstration.

The Feeling in France. Paris, Oct. 20.—The drift of opinion on the Fashoda question among commercial men in Paris, was shown by a resolution adopted this afternoon by the Municipal Council of this city, urging the French Government, without sacrificing the material interests of the country, to use its utmost efforts to avert a conflict with Great Britain over this dispute.

DREYFUS IS IN PARIS. Brought from Devil's Island to the Gay Capital. Paris, Oct. 20.—An evening newspaper announces that Captain Albert Dreyfus is already in Paris, and is now confined in the fortress at Mont Valerien, to which he was secretly brought.

WILL SUE THE OBSERVER. Esterhazy Denies His Assertion Regarding the Dreyfus Case. London, Oct. 21.—Major Comte Ferdinand Walsin Esterhazy, who has hitherto not denied the London Observer's assertion that he had claimed to be the author of the Dreyfus document, will sue The Observer for libel, because of that statement.

GERMAN EMPEROR'S VISIT. Strict Police Precautions Being Carried Out to Ensure the Safety of His Majesty. Constantinople, Oct. 20.—Emperor William, usually accompanied by the Empress, is engaged in a ceaseless round of sight-seeing, though he adheres closely to the program of pleasure to be visited and his route is revealed only to those personally concerned and immediately beforehand.

ALMOST A PLAGUE PANIC. Owing to Negligence of a Bacteriological Department Employee. Vienna, Oct. 20.—The death of Barisch, the employe in the bacteriological department of Professor Notnagel's establishment here while assisting in cultivating plague bacillus for purposes of scientific investigation, has almost created a plague panic in Vienna.

Remains to be Cremated. London, Oct. 20.—The remains of Harold Frederic, the newspaper correspondent and author, who died yesterday morning at Henley will be cremated at Woking cemetery.

A DISTINGUISHED MISFIT. From The Montreal Gazette. Rev. Mr. McCaughan, who came from Ireland last year to occupy the pulpit in one of Toronto's leading churches, has practically severed his connection therewith, and will go to Chicago. A somewhat bitter complaint about the finances of the church, made from the pulpit, was the first intimation the public had that everything was not well in the relations of minister and people. The complaint seems hardly to have been justified, and probably the separation will be for the mutual welfare of St. Andrew's and its minister. Mr. McCaughan seems to have been a distinguished misfit.

SPAIN WAS TOO KIND. The Late War Has Taught Them a Severe Lesson and They Will be Governed Accordingly. Manzanillo, Oct. 20.—Col. Sanchez Parron, Spanish commander here, stated to a correspondent that the loss to Spain of her colonies would not prove an unmitigated evil. "Hereafter," said the Colonel, "the youth and strength of our country will not have to be given up for military

THE BURNED POINT

Speaking of the inscription of Cuba, Gen. Patterson attributes this to the over-kindness of Spain and the efforts of a few rascals, such as Gomez and the agitators, who inflamed a lot of lazy malcontents, such as can be found in any country.

BEHIND AMERICAN CITIES. British Metropolis Cannot Equal Us in Fire Appliances. London, Oct. 20.—New fire engines, constructed on the American plan, are being experimented with here, and horses are being attached to ladder wagons. The change is in part due to recent newspaper criticism of the antiquated London methods of reaching fires. Chemical engines, water towers and hook and ladders are still unknown in London.

Have Reached the Limit. Berlin, Oct. 20.—A despatch to the Frankfurter Zeitung from Trentin, says that all railroad negotiations have stopped, the Government being disinclined to give further concessions.

Mr. O'DYNAMITE (delegate from the Fenian Brotherhood of Chicago): Say, Mr. Man, while youse mugs is havin' monnymints put up for anti Britishers all over de lot, wot's de matter wid givin' General O'Neil a statoo or monnymint at Ridgeway?

PEGLEG BROWN Was Arraigned at London Yesterday for Murdering Constable Tooby. London, Oct. 20.—Mistle Brown, the alleged slayer of Constable Tooby, was arraigned this morning before Police Magistrate Parke. The evidence is much the same as that already given in the accounts of the tragedy. Only witnesses and others having some connection with the proceedings are admitted to the court room.

DEATH CAME SUDDENLY Well-Known Citizen Expires While at Work in the Home of a Relative. Samuel Gooding, a retired gentleman living at 84 Nassau-street, died suddenly yesterday afternoon. Mr. Gooding's niece, Mrs. McDevitt, owns a house at 38 Major-street, and she had some small repairs to do to the property. Mr. Gooding volunteered to do the work, and started yesterday morning. At noon he went home and ate a hearty meal, returning to the Major-street house about 1 o'clock. The house is occupied by Mr. A. J. Crawford, an insurance agent, and Mrs. Crawford went out about 8 o'clock. When she returned two hours later she went upstairs to see how Mr. Gooding was getting along, and was unable to open the door. Becoming alarmed, she ran out and telephoned her husband, Mr. Crawford came, and in the meantime a number of Klondikers. The Yukon is now freezing over. J. H. Payne of Seattle, L.A.W. track rider, said several steamers were on sand bars in the river and ice was forming round them when he left.

SIGNS OF PROSPERITY. Never since the time of the boom a few years ago has had been so valuable or houses so scarce as at present in the northern part of the city. It is almost impossible to get a house or store of any kind in that vicinity, and the extensive building operations that are now going on there speak well for the future prosperity of Toronto. The Bank of Commerce is erecting a handsome building on the corner of Bloor and Yonge-streets, and the Imperial Bank on the opposite corner have put in a new front in their building, and have also made interior improvements. Mr. F. Simpson's building a large store on Yonge-street, just north of Cedar, and Mr. Johnson is erecting two handsome stores at the corner of Bloor and Yonge, which, when completed, will be a great improvement on the buildings that have just been torn down. Mr. P. Maher, whose livery stable was burned a short time ago, is also rebuilding, and numerous merchants are making improvements in their places of business. This renewed activity clearly shows that there is a boom in real estate.

PROMISES TO SPEND MONEY RIGHT LOYALLY

Mr. Tarte, at Sorel, Claimed That There Would be a Surplus of Two Millions This Year and Any Government That Could Gather in Shokels Like That Should Spend Them—Sir Louis Davies Complimented Sir Wilfrid and Mr. Tarte.

Montreal, Oct. 20.—(Special.)—The demonstration held at Sorel to-day in honor of Hon. Mr. Tarte was not the success that the Minister expected, although Sir Louis Davies and Hon. Dr. Borden were present. Out of a dozen French Liberal members, only one, Mr. Dupre, M. P., was present from Montreal, and this appeared to nettle the Minister of Public Works, as he was quite defiant when he spoke of those who were crying out that the Government did not want Conservative support. These men said Mr. Tarte could not certainly want to remain in power. He said he had gone into the Cabinet to represent the many thousands of Conservatives who had supported Sir Wilfrid Laurier at the last general election. He had not been asked to deny his past and did not intend to. In fact, had he been asked to do so, he might not have accepted office. Mr. Tarte claimed that the surplus for the current year would be over \$2,000,000, and added that any government making money this way should spend it in a liberal and legitimate manner. For his part he intended to spend money right loyally, as this was what the people wanted.

Sir Louis Davies made a funny speech. He said that he was deeply touched when Mr. Tarte had pointed out to him the spot where, forty years ago, he and his mother used to sell fruit on the market place of Sorel, and Sir Louis said that as Mr. Tarte was now one of the greatest statesmen of Canada, this only showed what could be done by a man of ability and integrity. Sir Louis challenged any Tory to meet him in public and he would show that every promise made before the election had been fulfilled. He also claimed that the Conservatives by their rejection of the Yukon bill had driven \$20,000,000 worth of trade from Canadian to American channels. Regarding the Quebec conference, the Minister of Marine said his lips were sealed, yet he could say that the Americans had met them in a friendly spirit that there was a strong probability that most of the vexed questions would be settled to the satisfaction of both countries. If Sir Wilfrid Laurier could make a favorable treaty, Sir Louis said that this would be the crowning point in the career of the greatest statesman Canada had ever produced. Hon. Dr. Borden did not say anything of great interest.

THE SOUTH ONTARIO FIGHT

Rally at Oshawa Last Night in the Interest of Mr. Charles Calder.

The Candidate Was Enthusiastically Cheered—Mr. Carscallen of Hamilton Arraigned the Government, as Did Also Mr. Hoyle of North Ontario—The Contest is Growing Warm. Oshawa, Ont., Oct. 20.—(Special.)—The fight in South Ontario between Hon. John Dryden, the unseated of the people, and Charles Calder, the unseated of the courts, is raging fierce, far and wide. To-night the Conservatives held a grand rally here in the Music Hall, as a counter-blow for the big Dryden gathering of two nights ago. The feeling here is at the highest tension and the climax must have been reached to-night, when 1000 people surged into the hall. They were in a friendly mood. They applauded Mr. Calder when they entered, they clapped every sentence he spoke, and they hurrahed him with the Queen.

Mr. W. F. Cowan, hon. president of the Y.L.C.A., who presided, had a group on the stage with him, in which the domestic and the imported were mingled. Henry Carscallen, Q.C., M.L.A. of Hamilton, and W. H. Hoyle, M.L.A., North Ontario, came to plead the cause of their co-exilee, while sitting near were noticed ex-Mayor Hare, Oshawa; ex-Reeve Coultard, Oshawa; Dr. T. E. Kaiser, Oshawa, and the man who was being honored, the Conservative candidate, was unexpectedly present. He looks unassuming, but has been a frequent, though never defeated, candidate for municipal, as well as legislative honors.

Mr. Calder was unexpectedly received. The reception tendered Charles Calder was enthusiastic. He pointed out to his constituents that the polling booths, which had signalled themselves by corruption, had given increased majorities for Mr. Dryden. He said but few words before setting himself, reproached the Government for singeing out the town of Oshawa,

GEN. HUTTON IS SATISFIED

Inspected the Books and Rooms of the 13th.

Mr. G. H. Mills Presented With an Address-Widow of the Late Dr. Roseburgh Dead - Wholesale Butcher's Narrow Escape - A Preacher Who is a Book Agent - Other Notes From the Ambitious City.

Hamilton, Oct. 20. (Special.)—This morning Major-General Hutton, his aide-de-camp, Lieut. Bell, and Quartermaster-General Foster, drove to the Armouries, accompanied by Lieut-Col. McLaren, Quartermaster-General, to inspect the books and rooms of the 13th Battalion.

It was hoped that the general would remain until to-morrow evening to see the main drill, but pressing engagements necessitated his going to the Niagara Falls.

"Comme Il Faut."

Trivialities bias impressions! A Covert Coat of good material, which fits well, and wears well, may be damned by some petty solecism against good form in dress.

This season's correct length is arbitrarily placed at "half the wearer's height."

The Covert should hang straight and full at back, with vented side seams.

Horn Buttons should be used, and lapels must be of same material as the coat.

In shape these lapels should be short and wide.

Most men who buy at this Store, value the little characteristics of a Gentleman's coat—the ear-marks of "correct" dress.

Our Coverts may be worn with confidence—they are neither faddish, extreme nor common in appearance.

They will not last any longer for that, neither do they cost any more because of it.

If this means anything to you, pay us \$15.00 for a silk lined Covert coat, which any tailor, who could make such a coat, in such a style, would have to charge you \$25.00 for.

Your money back if dissatisfied.

ACCOMMODATION NOTES AND DIVISION COURTS.

A not unimportant sight in every part of Canada is the man who has been ruined by endorsing promissory notes for some friend or relative. Not infrequently also do we see families of the poorer classes broken up and scattered by reason of judgments and distress warrants being issued against them for small accounts.

Archbishop and Mayor of Montreal Cannot Agree.

Letter Expressed Himself Against What He Called "a Wholesale System of Church Exemption," and Received a Very Strong Letter in Consequence—Matter Not Likely to End Here.

Montreal, Oct. 20.—(Special)—There is great interest manifested over the quite recent discovery that the Archbishop of Montreal has had quite a serious tussle with the city's chief magistrate, Mr. Raymond Prefontaine, M.P., and most likely a future Cabinet Minister.

The other evening at the banquet given to the Mayor by 200 leading citizens at the Place Viger Hotel, His Worship, in discussing civic affairs, expressed himself against such a wholesale system of church exemption as now exists in this city.

It appears that Mr. Bruchet was hurt and displeased at the Mayor's words and His Grace immediately penned a personal letter to the Mayor, expressing his great surprise at the words alleged to have been used by His Worship at the banquet in question.

The Archbishop told Mayor Prefontaine that he was greatly surprised to hear such a statement from the Mayor, a Catholic, and language from him to indicate his displeasure.

Margaret, a Wait.
There is a quaint picture in J. J. Kelso's
office at the Parliament Buildings, that of
a small maiden, with the device "Margaret,
I'm a Year Old Today." A brown, laugh-
ing face peeps out, showing a little child-
like mouth, in which several scattered teeth
are visible. To the right of the picture,
Margaret has a little snub nose, one only of
lace of age, and good nature permeating
the eyes and chubby chin. Large generous
ears make up the picture, and the warts
a home. Conjectures are at the present
stage full, but it is thought when Mar-

THE HOOSIER PROTESTED.
A Bit of a Wrangle Over a Resolution Proposing Thanks to Great Britain.
Washington, Oct. 20.—At the meeting of the House of Deputies of the Episcopal Convention, a letter to the Earl of Russia was agreed upon, declaring that the convention held with joy and great peace manifested, which the Earl had issued. Rev. B. A. Taylor, of Los Angeles, said that in view of the action relative to the Earl of Russia, it was eminently proper that the house adopt the pending resolution expressing thanks to Great Britain for the sympathy shown towards the United States during the recent war with Spain. It was particularly appropriate on this occasion, he said, with an eminent English Churchman, the Dean of Hereford, was present. The resolution aroused spirited controversy.

Mr. J. S. Statenberg of Indiana, argued in vigorous tones that the resolution had no place before the church convention, but was political in character, and was more proper for the consideration of Congress. When Mr. Statenberg moved to table the resolution, there were murmurs of "No," "No," and the motion was lost. The resolution was then adopted by viva voce vote.

John Chinaman Declines Cordwood Tax in British Columbia.
Vancouver, B. C., Oct. 20.—(Special.)—The life of a Chinaman in British Columbia is not a happy one just now. Organized labor throughout the province is endeavoring to establish a boycott on all restaurants and hotels employing Chinamen, and the new B. C. Government has decided to collect a cordwood tax. This is a tax of 25 cents a cord on all wood cut on Government reserve for fuel purposes. The Chinamen most affected by this tax are those who collect it in the past by the Turner Government, and now the Semlin Government have decided to collect it. They are not very pleased with the news. Mr. Chinaman, who says "Me pay two bittee cord, no no profit make; allies same me no profit make." The government has decided to pay their cordwood tax upon thousands of cords cut for this season's market.

A Severe Blow to the Warden, who has suffered from influenza, was received here late last night from Syracuse, N. Y., telling of the death of George Metcalfe, son of H. Metcalfe of this city. It is a hard blow to the convalescing warden. Deceased was well-known in Syracuse and last week spent considerable time with a Kingston visitor there. The cause of death is not yet known. PRESIDENT OF THE C. P. R.
Will Be Here Sunday—Grain Coming in—Delegates Go to Fort Wayne, Ind.—Railway News.

Mr. Peter Brass of Hamilton, a well-known citizen of that burg, has been appointed building inspector for the Grand Trunk. His duties will extend over the entire system.

The Central Ontario Railway is about to build a spur line from Ormsby through the village of Bancroft.

It is reported that the old railway shops and round-houses, built at East Selkirk during the time when the Canadian Pacific was under construction from Pat Portage west to the west. The sheds will hold over 200 people, and may be used as a quarantine station.

Mr. C. E. Usher, general passenger agent of the C.P.R., went to Montreal yesterday afternoon for a meeting of the ticket agents in Detroit.

General Superintendent McQuinn and Superintendent Fitzhugh of the Grand Trunk, are at present engaged in inspecting the western district of the middle division.

President Sir William Van Horne is expected to return from his western tour on Sunday. At present he is in Minneapolis and will confer there with railway officials on the differential question.

Robbed.
The residence of William Parr, vice-president of the Woodstock Fair, on lot 5, corner of Vaughan, was entered by burglars on Wednesday, during the absence of the family. Every lock and door in the house was broken open, beds were overturned and drawers turned inside out. Evidence of the thieves were looking for money, but they did not get any. Mr. Parr took all he had in the house with him, but the thieves were looking for more. The contents of the drawers were scattered about the floors, but with the exception of the articles enumerated above, very little else was taken.

A Brakeman Injured.
Woodstock, Ont., Oct. 20.—(Special.)—J. (John) A. Brakeman on the C.P.R., who was riding at London, accidentally fell off the van of a moving train near here last night. Four wheels went over his leg and two of his ribs are broken. He was taken to London, where his injuries were attended to.

DUTY TO HUMANITY.
Clearly Expressed by Mr. James Monahan, Carleton, N.B.

Gentlemen: I feel in duty bound to humanity to let you know what Dr. Ward's Blood and Nerve Pills have done for me. I have been troubled with kidney complaint for several years. I tried a number of doctors with only partial relief, then I sent for a box of Dr. Ward's Blood and Nerve Pills, and they did me more good than all the doctors and other medicines combined. I would have been in my grave long ago if it hadn't been for Dr. Ward's Pills. I am 70 years old, and I am sure I owe my life to this medicine. My wife has also derived great benefit from Dr. Ward's Blood and Nerve Pills, her trouble being dyspepsia, liver complaint, and a run-down system. I would like to see every man, woman and child who is troubled with the very best of health. Yours truly, James Monahan, Carleton, N.B.

Financial cable from London says: The stock markets here were flat throughout the day, despite a feeble attempt at a rally at mid-day, and prices closed at the lowest. The depression was increased by the rise in the Bank of France rate. Nevertheless the Paris bourse was surprising-ly calm, and even bought some of its specialties. The decline here was led by consols on bear sales, 1 1/2 per cent. being paid for put options in consols until the end of November, and small insurance risks on stock transactions at Lloyd's against war with France, being effected as high as 20 guineas until the end of the year.

Americans were flat, German specialties were sold from Berlin. Politics are checked and even demoralizing business, but there is no real alarm as yet. The stock exchange is well prepared for a general recovery in the sense that the speculative account for a rise is very small, but on the other hand there is scarcely any bear position to support prices. In the weekly statement of the Bank of England, consols and bullion shows a decrease of £20,000. Over £250,000 more was exported for the week, but cash has come back from home circulations. The decrease of £1,740,000 in other deposits is explained by the decrease of £1,600,000 in Government securities, and of £500,000 in other securities, the former indicating the bank's borrowing from the market, and the latter showing revenues by the market to the bank. The reserve increased £340,000.

NEW YORK GOSSIP.

Henry A. King & Co., 115 Broadway, east, received the following despatch to-day from New York: The volume of business on the exchange today was slightly larger than yesterday, and the course of prices generally showed improvement. A face of an immense order of domestic commission orders and selling for foreign account, which was comparatively large, was the feature of the day. The sale of the recent trading. The sales for London account were variously estimated at from £1,000 to £20,000. Aside from the apprehended European political complications, the news of the day was mainly encouraging features of heavy export engagements of grain and merchandise, favorable railway earnings and increased ease in money market. Money on call ranged at 1 1/2 per cent. The lowest figure recorded for some time. The foreign selling referred to was attributed in part to the demand of the tendency of money advance in the discount market. The Bank of France from 2 per cent. to 3 per cent. Manhattan led the market in point of activity, and rose over 2 per cent. from an earlier low point, on reported rumors regarding its electrical equipment. The stock market showed a general decline, and after a moderate recovery, closed at a low level. The close was strong at about the highest prices.

TO BE "SPREAD-EAGLED."

Uncle Sam's Soldiers Are Defective in Discipline and Must Be Punished.

Camp Meade, Middletown, Oct. 20. - Lieut. Col. Moore, in command of the 1st Virginia regiment, has been having men ordered to "spread-eagle" Private Mace, Mose and Plank. He says they are old offenders, and if they do not obey their superiors they will repeat the punishment. Mose was "bucked and gagged" recently for swearing at an officer. Col. Moore says it is necessary to resort to corporal punishment among the rough element in the regiment to maintain discipline. Some of the men in this command were recruited in the West Virginia mountains, and the officers say they are constantly causing trouble. Charges of conduct unbecom-ing a soldier will probably be preferred against the men, and they will be court-martialed.

Some peaceful settlement, he believes, will be reached soon.

Deliveries in Buffalo

Deliveries in Buffalo - Describes its Features and Where it is Likely to be Found - its History So Far as Ontario is Concerned - Its Commercial Significance - The Government to Aid. Buffalo, Oct. 20. - (Special.) - Not the least interesting of the valuable papers read to-day before the convention of the American Institute of Mining Engineers, was that of Mr. Archibald Bruce, the Bureau of Mines, Toronto, Ont., upon corundum. After giving much historical and geological data concerning the mineral, he discovered in Ontario by the late Henry Hunt about 51 years ago in crystalline limestone in the Township of Burgess, in the County of Lanark. In the rock specimens collected by Dr. Hunt here he afterwards discovered a great number of crystalline grains of a transparent mineral, varying in color from a light rose to a deep sapphire blue, which he identified as corundum, and from their color referred to the variety known as Oriental sapphire and sapphire. He deemed it probable that further examinations might develop larger and more valuable specimens of these rare and costly gems. No subsequent attention appears to have been given to this locality, and the mineral was practically re-discovered in 1897, by Prof. Miller of the Kingston School of Mining.

The Largest Deposit.

The largest known deposit of corundum in the province is located on a farm of 24 years ago on the farm of Henry Robillard, in the Township of Raglan, Renfrew County, but at the time it was believed to be a cover to be sapphire or phosphate of lime, and 20 years elapsed before the mineral was correctly identified. Twenty years ago Prof. Coleman, now of the School of Practical Science at Toronto, picked up some boulders of nepheline syenite in the vicinity of Oshawa, on the shore of Lake Ontario, which held corundum. Twelve years ago, in 1886, Nesbitt T. Armstrong, a farmer and mill owner in Carleton Place, discovered on Oct. 14, in the 14th concession of mineral on lot 14, in the 14th concession of that township, but did not know its name, and did not suspect it possessed any value. Some crystals labeled "sapphire" from the part of Carleton Place, Ontario, were shown by Mr. W. F. Ferrier of the Geological Survey at Ottawa, and in 1890 he found, upon examining them, that they were corundum. He took steps at once to ascertain the precise locality from whence they came. In the corundum in the place upon the lot on which Armstrong's discovery was made ten years before. Then, for the first time, the fact was established on the best authority that the mineral had been found to exist in Canada in any quantity, and that it was valuable as an abrasive material on account of its great hardness.

Recent Surveys.

The last week of September, Mr. Blue said, he had spent with Prof. Miller of the Kingston School of Mining in going over the more westerly land from its eastern end to the village of Bancroft on the Hastings road, on the line between Dufferin and Frontenac. Only a few of the principal properties were visited, including the block location in Brudenell, the Robillard location in Raglan, the Armstrong location in Carleton Place, and a recent discovery in Dufferin not far from the York River. All these are large, easy of access, and favorably situated for mining. An expert who has examined the Robillard Hill estimates the corundum in sight at several millions of tons. There is certainly a large quantity of it in some places it will run 30 to 40 per cent. of the rock mass. A lot of several tons of rock taken from the large Armstrong location in Carleton and treated at the Kingston School of Mining, yielded from 12 1/2 to 15 1/2 per cent. of corundum. The Dufferin location property contained, a few days ago, a specimen having a width of 30 to 40 feet and a length of about half a mile. Over the portion examined, about 150 yards, the surface was thickly strewn with small crystals of corundum, ranging in color from pearl to blue. A sample of the rock carried nearly 10 per cent. of corundum, and was remarkably fine. The corundum of this character ought to be well suited for the production of aluminum, especially as the nepheline itself, the principal constituent of corundum, is in abundance, and amounts to 30 per cent. of the mass.

Keep an Open Mind.

Makers of aluminum assist because of the presence of iron and other impurities, corundum is unsuited for the production of that metal. But, Mr. Blue contends, it is safer to keep an open mind, and to develop the mineral, than to assume that it is impossible to find a method of producing pure corundum at low cost, or to assume a process to make aluminum out of an impure ore. Prof. De Kalb at Kingston succeeded last winter with a small experimental plant in extracting corundum 99.61 per cent. pure from rock that carried 5 per cent. of magnetite iron. The Ontario ore possesses the same feature, that its gangue is brittle and easily broken up and separated from the corundum. It will eventually add greatly to the value of the mineral. In view of the extent and apparent richness of the corundum fields in the province, the Government has taken steps aimed at developing the deposits and establishing a home industry. S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Electric Oil for inflammatory Rheumatism, and three bottles effected complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with Rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others if it do so much for me."

WHEAT MARKETS EXCITED

Further Sharp Advance in Liverpool

Prices.

Export Demand Continues Extremely Heavy, and Despite Big Declines Cash Wheat Rises at All United States Points—Chicago Futures Moved Up 2c in Two Days—Corn Higher—Notes and Gasoline.

Thursday Evening, Oct. 23. Liverpool wheat again showed marked strength to-day. There was a partial retreat in the afternoon, but at the close the spot article reflected an advance of 1/8 cent, and the futures advanced 1/4 cent. The cash article advanced 1/4 cent, and the futures advanced 1/4 cent. The Chicago market opened up very strong after the recovery of Wednesday, the higher cables and the continued heavy export demand which it reflected to the coast being the main causes. Northwest and primary receipts were large, but prices for the country. The Chicago close was less strong than the opening, but it reflected the following net advances over the figures of Tuesday: Oct. 23c, Dec. 24c, March 2c.

Spot market at Liverpool to-day advanced 1/4 cent, and futures 1/4 cent. The strong export demand, and the fact that the bad weather in the Northwest, which interferes with the marketing of grain, advanced Chicago futures 1/4 cent to 1/2 cent per bushel to-day.

Peas advanced 2d further at Liverpool to-day, being quoted at 40s 4d. The cash article advanced 1/4 cent, and the futures advanced 1/4 cent.
