### British and French Troops Are Consolidating the Positions Captured on Saturday and Sunday and Are Continuing to Advance in Spite of Desperate Resistance By the Enemy---French Troops Took Dompierre, Curly, Becquincourt, Bussus, Frise, Fay and Mereaucourt Wood, While British Took Montauban, Fricourt and Mametz, All Strongly Fortified.

### COUNTER-ATTACKS AGAINST FRENCH AT HARDECOURT EASILY REPULSED WITH HEAVY LOSS TO THE ENEMY

#### Four of the Captured Towns Are Only Seven Miles West of Peronne, on the Chief German Railway, and This Town Now is Threatened---Fifty Square Miles of French Territory Held Until Saturday by Germans Has Been Recaptured---British Aeroplanes Brought Down Scores of Enemy Air Craft---Thousands of Prisoners Taken and Thousands More Germans Killed While Allies' Casualties Are Light---First Line of Section of Enemy's Trenches Captured With Loss of Only One Man---Official Reports of Big Drive

LONDON, July 2.—The official British despatches, issued today, reported the continued success of the combined Anglo-French offensive. The Germans put into operation strong counter-offensives during the night and are apparently making desperate resistance, but the British troops have occupied Fricourt and the French have captured Curly and have seemingly nowhere had to yield the ground already gained.

The German lines in some places have been penetrated to a depth of two miles and the prisoners taken by the French and British in the two days number thousands.

North of the Somme, where the French and British armies make contact, various points of tactical value have been taken. The allied struggle is to extend the hold over the rolling plateau of from 500 feet high, which stretches around Albert. At Fricourt, Contalmaison and Gommecourt the Germans made a most desperate resistance with a view to defending the high road which extends from Arras to Bapaume and Peronne, and which is one of the main arteries of the western operations.

The German official report generally confirms the success of the first day's British operations, admitting the withdrawal of the Germans from their first line trenches and the abandonment of heavy material therein.

**British Public Determined and Confident.**

The British public still displays the same quiet enthusiasm, determination and confidence, fully understanding that no great drive like that carried out by the Russian commander, Gen. Brusiloff, is possible against the depth, strength and rail-power of the formidably organized German front, and that great sacrifices and possibly setbacks must be prepared for. Many regrets are heard that Kitchener had not lived to see the results of his work. This is the first great battle in which the military legions he created are being put to the test.

Kitchener's armies have virtually replaced the first small expeditionary force, sent out under Field Marshal French, which had to sustain the earlier battles of the war. It is also the first time that a great offensive has been carried out under well organized, co-ordinated, allied strategy, not on the western front alone, but over the whole field of operations, and confidence is felt that the allied commanders have no intention to risk reckless sacrifices of life for a mere spectacular advance. As one correspondent writes:

"There is no longer any attempt to pierce as with a knife, but slow, continuous, methodical push, leading to the day when the enemy's resistance will crumble at some point."

**BY FREDERICK PALMER**

**BRITISH HEADQUARTERS IN FRANCE, Saturday, July 1.—** Via London, July 2.—The close of the first day's offensive over the longest front the entente allies have attempted, and the most extensive action of the war for the British, finds both the British and French consolidating their gains. South of the Ancre River, where the infantry swept forward, Curly was captured by the French, and Montauban and Mametz were taken by the British with almost unbroken success, the against heavy curtains of fire and delays due to stubborn resistance at some points, and particularly for the British from a German trench called "dancing alley."

Word came back that the destruction by artillery of the first line trenches was so complete that one British bat-

place was visible to the observer before the British opened another artillery attack which seemed to be churning it to dust, making it impossible for any human being to survive even in the strongest redoubt. The British mortars also were busy, the projectiles glinting under the sun as hundreds of them followed one another like the juggler's balls, into the vertex of fire. So swift is the transport that some British wounded may already be in London.

Prisoners are being brought in in batches as they are gathered from the dugouts not destroyed by artillery.

The destruction of six German anaerage-shaped observation balloons by British airman early in the week, evidently was a serious loss, as none had been replaced. It was noticeable that the British aeroplanes over the battlefield greatly outnumbered the German machines.

**German Statement a Lie.**

Indignation was expressed by both the British and the French staffs over the statement in today's German wireless communication that a British air raid over Lille had bombed the Church of St. Saviour. The statement was freely branded by the officers as a lie. Lille, it was pointed out, has been within reach of the British heavy guns for a year, without a bombardment, and that the entente allied machines bombed only railway stations and military points and continue to do so.

Reuters' correspondent at British headquarters in France, suggests that the comparative feebleness of the German artillery in response to the British bombardment, arose from the same cause as the shortage of food in the German trenches, namely, the deadly character of the almost ceaseless British barrage of fire, which for the past week has hampered the German transport service. He warns the British people that although the situation looks promising, too much should not be expected, and adds:

"We are fighting a determined, resourceful foe and the he has now been smitten harder than ever before by the British army. It would be unwise to underrate his powers of resistance in the face of a highly menacing position."

**Preparations Kept Secret.**

Infinite care and pains had been taken to keep secret the preparations of the great offensive, and the section of the line where the big push was to be made. For many weeks the work went on, with silence required on the part of all officers, but most of them were so limited to their own areas that they did not know what was happening in the others.

At all the messes including the officers', the subject was barred from discussion altho all knew. The only spoken references took place at consultations, and the official orders naturally bore on the matter. Battery emplacements were constructed and batteries were placed in position, and troops were marched up at night with no lights. The soldiers and company officers only understood that they were expected to leave their trenches

at a certain time with a certain objective.

Before the action Gen. Sir Douglas Haig moved his temporary headquarters nearer the front, where the chiefs of his staff departments were at call and reports from all sections came promptly by telegraph and telephone which carried his instructions back to the front, while he was also in touch with French headquarters by telephone.

With the attack beginning at 7.30 in the morning, by 6 o'clock the staff had reports as to whether the different units had already held the first line of German trenches or were advancing beyond. It was known how far each had carried out the part assigned to it. Difficulty in keeping up communications thru the curtains of shell fire and making observations thru the smoke were not the smallest items of the preparations.

**Saw Whole Advance.**

During the bombardment the Associated Press correspondent made a most picturesque journey, working his way forward thru transport reserves on the march to a high point, and had a view of the shelling in the darkness which was probably the most terrible display of fireworks in all times.

Far in the distance those flashes in quick succession are the French 'T's on the hills above the Somme. Other flashes of the same kind far to the north are the British field guns. Nearby, the small calibre made ugly sharp flashes from their muzzles, and the big calibre larger ones, and the missiles go swishing thru the dewy night air and burst in balls of expanding flame.

A flaming sheet is laid across a ridge, and that is the barrage of fire of the German guns anticipating a British attack. Sheets and chains of man-made lightning show trees and buildings, or ruined walls, in weird silhouettes.

As the pieces of German flares slowly rise with dependable, steady illumination between the trenches, green and red and other signal lights add to their variety until the eyes ache and sensations are numbed with the thought of the struggle that is proceeding.

The first batch of wounded from the British front in France arrived at Charing Cross Station this evening. A crowd assembled at the station and the police had considerable difficulty in securing passage for the Red Cross vehicles thru the lines of flag-waving people.

**British Army Rejoices.**

There is rejoicing in the British army at the close of the second day of the battle of the Somme, over the taking of Fricourt, which the capture of Mametz and Montauban yesterday left as a sharp German salient. The British guns surrounded it with curtains of fire, and, after a heavy pounding, the British troops rushed thru the debris, taking the surviving prisoners at 2 o'clock this afternoon.

Later they stormed Fricourt wood, and from the neighboring hill it could be seen that the Germans, as they were forced from the wood, were holding up their hands in surrender.

Included in the same panorama was the bombardment of LaBoiselle, followed by a British infantry attack. When it faced the machine guns, which the artillery had not reached, the line advanced unwaveringly into the German positions and was lost to view. The possession of Fricourt and the wood means command of the ground toward Bapaume, and the German guns, which had been hidden in the valleys of the front, have now been disclosed to the British observers and must withdraw or be put out of action.

North of the Ancre the day was quiet except for violent in and out fighting in the sections of the first line German trenches held by the British. Here the Germans in great force in the day attack kept to their dugouts forty-feet deep during the bombardment. They then rushed out with machine guns to resist the British advance. Ulster troops drove thru the ridge north of Thiepval most gallantly, but were forced to retire before the fire of the machine guns.

The northern attacks yesterday served as a diversion which led to the success at Fricourt today and Montauban the same day. A German counter-attack at Montauban yesterday was moved down by the British machine guns.

The weather was fair and hot today, merciful to the wounded. There are many tales of heroism. Scotch pipers played their regiment to the charge. A private of 18, when all the officers of his company had been killed, came on and captured a machine gun.

Many German dead are lying on the ground taken by the British at Montauban and Mametz, and the British litter bearers were busy today bringing in the German wounded.

**What the Papers Say.**

The London papers in their editorials deal with the situation on the British front in somewhat reserved fashion, some of them pointing out that it is not yet known whether this is really the long-awaited "big push" or only another feat in greater force than any of the previous movements.

The Graphic remarks: "Our bombardment is still being maintained along the whole front, and the enemy does not know whether we may not at any moment rush another stretch of line. The necessity of sending adequate reinforcements to cope with the situation may necessitate the Germans"

**MEN'S HATS FOR EVERY OCCASION.**

The enormous choice in summer headwear for men at Dineen's, 140 Yonge street—should influence many every man to visit this well-known store. Straws and panamas are selling freely at from \$2 to \$5 for straws, and \$5 to \$15 for panamas. There is a wealth of variety in hats and caps for bowling, touring, yachting, golfing and all outdoor recreations. You'll surely find the hat or cap you need at Dineen's.

**PARIS, July 2.—**An artillery preparation, the violence of which has never been equaled, marked the attack of the Franco-British troops in the joint offensive yesterday, says a semi-official note. "For more than a week, in fact, the continued preparation from the North Sea to Champagne gave an inkling of it. The British in particular, on the entire sector they occupy, had been methodically continuing an alternative system of intense bombardments and sounding operations here and there.

"According to the preliminary information, the allied losses were slight by reason of the efficiency of the preliminary work, while those from the Germans were said to be quite heavy." The first day of the offensive is considered to have been fully satisfactory, altho not as overwhelming as has happened before in similar operations, but it was extensive and important, says the note, which adds:

"It is especially important because it is rich in promise that the effort now is not a doubtful attempt to pierce the line, but rather a long continued drive which will be methodical and which will economize life. It will be exercised from line to line until the day when the enemy resistance, continually hammered, will break at some point."

**May Be Deciding Stage.**

The battle of the Somme, now in full progress, marks the opening of the Franco-British offensive, long expected as a critical if not decisive stage of the war.

Early reports today show that the entente allied forces are sweeping forward along a 25-mile front. The French already have taken about 6,000 prisoners, while the allied lines have enveloped within the last 24 hours, nine villages and fifty square miles of French territory held until now by the Germans.

The fighting lines extend between a great number of small villages which are usually devoted to textile industries, while the outlying agricultural sections are level fields chiefly devoted to beet culture for the extensive sugar production of France.

The intense bombardment of the last four days was the signal for an advance over these level fields beginning at 7.30 o'clock Saturday morning. The allied artillery then lengthened their range so as to shut off all communication between the first German line and the German reserves in the rear. This made it impossible for the Teutons to utilize their perfect organization of shifting of troops and for the bringing up of reinforcements. It is thought by the French military observers that the Germans miscalculated the intentions of the entente allies and expected the attacks further to the north.

The villages which the French captured in the first sweep include Dompierre, Curly, Becquincourt, Bussus, Frise and Fay and the Mereaucourt wood and these and the towns taken by the British—Montauban, Fricourt and Mametz—were all found

to have been strongly fortified by the Germans.

The allies, profiting from their experience in the war, quickly threw up strong earthworks around the villages thus taken in order to protect them against counter-attack. It was not before night, however, that the Germans were able to deliver any counter-attack. This was centred against the French position on the outskirts of Hardecourt, and it was repulsed with heavy losses, ending in a precipitate retreat.

In addition to the military success the territory overrun by the allied troops has an exceptional strategic value. Four of the towns captured by the French are only seven miles west of Peronne, on the chief railway from the German centre at Cologne to the German front in the region of Novon and Soissons.

The German headquarters is at St. Quentin, 25 miles southeast of Peronne. Already the French forces threaten Peronne with the evident purpose of cutting the trunk railway there, which is an indispensable artery for German military reinforcements.

A correspondent at the front in describing the capture of Dompierre says the soldiers of one corps, taking example from their commander, went into battle covered with flowers.

"That," said a general, pointing to a carnation in his buttonhole, "will fade yonder where the Germans are now." The correspondent continues:

"Two regiments covered themselves with glory in the fight for Dompierre, which had been transformed by the Germans into a veritable fortress. In the face of a fire from the machine guns that had survived the bombardment intact, they rushed posts with such impetuosity that the Germans were captured before they had time to put their quiklocks into action."

**Furious Fighting.**

"In the streets of the ruined village there was furious hand-to-hand fighting. Of the German garrison defending the town not one man got away. When it was over 140 bodies lay on the ground. The survivors were prisoners."

"The battle flag of one regiment, riddled with bullets, was carried into the village at the head of the first company."

"Two Scotch regiments in the region north of the Somme went over 3 lines of German trenches without a halt, stopping only inside the village of Montauban, where they put several hundred Germans to the bayonet and took the entire staff of a regiment prisoners."

Desperate fighting continues around Verdun and altho this field of action is separated by nearly one hundred miles from the fighting in the north, Verdun is considered part of the vast military plan now unfolding.

The French have now taken the aggressive at Verdun, today's report showing an attack on Dead Man Hill with heavy German losses, and the taking of prisoners.

### WILSON TO AVOID WAR IF AT ALL POSSIBLE

But if Absolutely Necessary He Will Take Action Against Mexico.

OPPOSED TO CONQUEST

President Made Candid Speech to New York Newspapermen.

NEW YORK, June 30.—President Wilson in his speech before the New York Press Club here tonight indicated plainly that he is opposed to war with Mexico until it is absolutely necessary. At the beginning of his address he launched directly into a discussion of the Mexican situation, telling of the hundreds of letters he is receiving every day imploring him to avert hostilities except as a last recourse. "I am for the time being the servant of such people," he declared.

President Wilson said he had received many letters from property owners in Mexico, but that there had been many others from persons whose names never would be known, saying to him: "For God's sake don't start war with Mexico unless it is absolutely necessary. Do you think the glory of the United States would be enhanced by a war of conquest in Mexico?" He asked his fellow-guests and paused as if awaiting a response. The question he propounded solemnly was greeted with a loud chorus of "noes."

### TAX ON WAR PROFITS IS PASSED IN FRANCE

PARIS, June 30.—The bill imposing a tax on all extraordinary and supplementary profits during the war was passed finally today by both the senate and the chamber of deputies.

TIGHT BINDING

### Who Pays the Penalty?

Last April two of our representatives solicited applications for life assurance from a prominent Toronto wholesale merchant and his son. They succeeded in selling to the father a policy for a considerable amount, but the son could not be induced to protect his dependents in this way against the financial loss which would result from his early death. Less than two months afterwards the daily newspapers

recorded the tragic story of the younger man's accidental death. His failure to act when action was possible deprives his family of the insurance money which he could have secured to them so easily. Have you made any provision for your wife and little ones in case you should die suddenly? An Imperial Home Protection Policy will do it. Write for particulars to-day; tomorrow may be too late.

### THREE BATTALIONS LEAVE EXHIBITION

Queen's Own, Sportsmen and Buffs Went to Camp Borden Sunday.

### OTHERS GOING SOON

Units Not Up to Strength Will Leave Recruiting Staffs Behind.

Exhibition Camp presented a very busy scene in the early hours of Sunday morning. During the holiday, with the exception of the guards and the supply depot men, practically all the officers and men were out of camp until after nine o'clock at night. Long before 6 a.m. Sunday, however, the three battalions Queen's Own, 168th, Sportsmen's, 180th and the Buffs, 198th were astir and preparing in an orderly manner to leave Toronto for Camp Borden. In two sections the 168th left at 6.30 and 7 via the G. T. R., and at 7.30 and 8 the Sportsmen followed by the same route, while the 198th left at 8.30 and 9 by the C. P. R. Owing to the men being out of camp on Saturday, and also on account of the early hour there was only a small crowd to see them off, and while all were excited at the thoughts of getting away from Exhibition Camp there was absolutely no confusion. A rear party of about twenty-five from each of the three battalions was left behind, and are busily engaged in cleaning up the vacated buildings in order that they will be in the best possible shape when turned over to the Exhibition Board. These parties will meet with the 21st until Tuesday, when they will follow the rest of their battalions to Borden. A party of engineers are also busy around the grounds, but they are quartered in Stanley Barracks, this leaves the grounds free of troops except for the 21st, the camp hospital and a few of the supply depot. These men will also be away from the grounds by the end of the week. The 204th, 205th, 216th, 177th and the 17th will, it is at present understood, be in Camp Borden before Friday of this week. The battalions not up to strength will, however, leave behind them small recruiting staffs to carry on the work of enlisting men in Toronto.

### PEASANTS OF RUSSIA GIVEN CIVIL RIGHTS

PETROGRAD, July 2, via London.—The Russian Duma today adopted a bill according to peasants the civil rights are given to other classes of the population.

### FRIENDS OF VENIZELOS HOLD DEMONSTRATION

Labor Unions of Athens and Piraeus Cheer Leader and Allies.

ATHENS, via London, July 2.—Eleutherios Venizelos was the subject of an extraordinary demonstration this morning, originating with the labor unions of Athens and Piraeus, and these joined later by hundreds of the demobilized reservists. The manifestants surrounded the home of Venizelos and cheered until he was forced to appear upon his balcony.

An attempt made by the anti-Venizelist to break up the gathering was met with a formidable display of revolvers by the demonstrators. One man who cried "Down with the traitors" was set upon by the crowd. That the Venizelist enthusiasts coupled the cause of the former premier with that of the allies was shown when the marchers proceeded later in the day to the French and British legations where similar demonstrations occurred.

### TWO BODIES RECOVERED.

WINDSOR, Ont., July 2.—The bodies of two unidentified men were taken from the Detroit River near the American side today by the police. The bodies were remarkably alike in appearance, both men having red hair, and the clothes of each being almost identical in pattern and cut.

### VOLUNTEER SYSTEM BECOMING OBSOLETE

A. E. Donovan Believes Some System of Registration is Needed.

### NEED OF MEN URGED

Six Recruits Obtained During Recruiting Meeting at Loew's Theatre.

Six recruits came on the platform at Loew's Theatre last night and some more gave their names to the recruiting sergeants. A. E. Donovan, M.L.A., made the appeal, which was somewhat novel. He showed the male section of the audience that if they were to come into a fortune about the first thing they would do would be to see England, Scotland, Ireland and France. Following up this argument he could not understand why the men of Toronto had not at least sufficient spirit of adventure to want to go overseas. Mr. Donovan declared that the voluntary system of enlistment had become obsolete. The only way in which to back up the boys in the trenches, he said, was by some system of registration. He did not believe Canadian boys were cowards; they simply had yet to reason the thing out with themselves. General Logie's 2500 men, he said, were walking the streets of Toronto if only the spirit of patriotism and adventure could be instilled into them. He was loud in his praises of the women's work in the war.

Major Bennett of the 201st Battalion, could not understand how the single young men of Toronto could stand back and let the married men with families fight for them. After this war he declared two things must be accomplished. First woman's suffrage must be passed by the government; and, secondly, there must be a system of national training. The major had been twice wounded at the front, and says he hopes to come back because he believes there is luck in odd numbers.

Staff Sergt. Major Don G. McMillan, also of the 201st Battalion, who has returned from the front to qualify for a commission, said the 21 months ago when the first division left the need for men was urgent. Now, after nearly two years of fighting, it is even more so.

Capt. Fieby, 198th Battalion, said that any eligible man who worked night for his country should be disenfranchised. Any man with self-respect about him, he declared, would jump into khaki at the first opportunity. Miss Constance Boulton declared she was proud to have had a hand in organizing the Dominion Day women's parade. It was for the empire, she said, in spite of the remarks passed about it by some women of Toronto.

Not an Entertainment. During the meeting Chairman Oliver Hezlewood took occasion to rebuke the audience for demanding an encore from one of the vocalists. Mr. Hezlewood made several attempts to speak but was drowned out by applause. "This is not an entertainment," he said. "It is a recruiting meeting. You must permit those in charge of this meeting to conduct it in accordance with the wishes of the people."

### TRAVELING SALESMAN DROWNED

C. S. Collins Represented a Baltimore Ink Company.

WINDSOR, Ont., July 2.—Efforts to recover the body of the man who jumped or fell into the river at Sandwich Friday afternoon have been so far fruitless, but it is learned that the man was C. S. Collins, a traveling salesman.

### BOY FATALLY INJURED.

STRATFORD, June 2.—A schoolboy, 15 years old, son of Alex McKenzie of this city, the boy whose skull was fractured when he was struck last night by a moving truck, is still unconscious at the hospital, and there is little hope for his recovery.

### FINE GARDEN FETE AT "BEN MACREE"

Beautiful Grounds of Mr. and Mrs. A. M. Hoberlin Crowded Saturday.

### PATRIOTIC PURPOSE

Was Given in Aid of the Two Hundred and Thirty-Fourth.

One of the most successful of the Dominion Day celebrations was the military garden fete given by Mrs. A. M. Hoberlin at the beautiful home of Mr. and Mrs. A. M. Hoberlin on the Lake Shore road at Fort Credit. Ideally situated, the magnificent grounds lent themselves perfectly to the occasion, and the artistic decoration, together with wonderful weather, not to mention the fascination of fish pond and "cone" stalls, succeeded in drawing a vast and happy crowd from a very early hour in the afternoon, while the dancing pavilion held its quota well on in the evening, when a light breeze off the water made one-stepping a joy. Mrs. Hoberlin was not only a most cordial hostess but was herself the originator of this splendid entertainment on behalf of the men of the 234th, Her able assistants were John A. Walker, Mrs. Kerstman, Miss Beardmore, vice-president; Mrs. Fatchett, treasurer; Mrs. Frank, secretary. In charge of the various booths were the members of the general committee, including in the refreshment booth Mrs. Lynd, Mrs. MacKay, Mrs. White and Mrs. Price, Mrs. Foy, Mrs. Bull, Mrs. Innis, Mrs. Jennings. The home-made candy booth was in charge of Mrs. Clark and Mrs. Earl; flower stalls, Mrs. Charles Hamilton and Mrs. May; the main booth, ice cream, cake, etc., Mrs. Gannon; to trip the light fantastic, Mrs. Donnelly. The popular fish pond, most effectively done, was conducted by Mrs. McKay. Red, white and blue bunting, flags and myriads of little lights, hung in Japanese lanterns, augmented the decorative scheme, which was most entrancing.

A very important feature of the afternoon was the program of community patriotism in which boys and girls of every age. Also a very fine concert was given, and there were many other features. The fantastic to excellent orchestral music. This feature was excellently managed by Messrs. Adams and Lee. Patriotic speeches maintained the spirit of the day, and were delivered by Col. Wallace, O.C. of the 234th Battalion; John M. Gooey, Col. Muller, and Mr. Gibbons. Many holiday motor parties made "Ben Macree's" their headquarters for several pleasant hours.

### LIGHT INFANTRY UNIT HELD FINE MEETING

Forceful List of Speakers at Its Recruiting Gathering at Metropolitan Church Grounds.

The Toronto Light Infantry had a forceful list of speakers at its recruiting meeting in the grounds of the Metropolitan Church last night. Miss Maud Bell, who is active in the interests of the battalion, delivered an eloquent appeal for the men to go to the front. She said that the men of the "tap, tap, tap" of duty's drum. Sergt. Major McMillan, who returned yesterday morning, spoke of the immediate need for men, in order that the big push may be successfully followed up. Sergt. Givens and Corp. Mackay, who is active in the interests of the battalion, depicted the thrilling scene when they charged at the call of "Come on Canadians." Altho the Toronto Light Infantry, along with the other battalions finds recruiting light, they are obtaining a class of men. Several men who have lately joined the ranks have come from as far away as New Orleans, Louisville and one man came from Arizona on Friday. All are fine type of men, who have answered the call for men. The citizens' committee met Friday night and outlined a full schedule of meetings for this week.

### PLAYS, PICTURES AND MUSIC

#### MADISON THEATRE.

In all of her previous productions Blanche Sweet has had husbands thrust upon her. She has been pursued by hundreds of admirers, but in her forthcoming production, "The Thousand Dollar Husband," which will be seen at the Madison the first half of this week, she buys a husband and, strange as it may seem, the man does not at all relish the situation. In this play Miss Sweet is first seen, as a Swedish maid of all work at a college boarding house. She is madly in love with one of the students and when she suddenly becomes wealthy and the young man faces ruin, she offers to pay his debts if he will marry her. He does, and then starts the development. It is an original and well staged play, and the acting is exceptionally good from the entire cast. The Ford Canadian, a monthly topical of Canadian events, will be shown for the first time as part of this program. "Don't Awful Night" is the "Cub comedy offering."

#### AT THE STRAND.

Ret Beach's greatest story, "The N'er-Do-Well," filmed by V.L.S.E., will be presented at the Strand Theatre all this week. This wonderful film play is in ten acts and made in the Panama Canal zone, where a company of Belg players repaired to get realistic atmosphere. An all-star cast, including Kathlyn Williams, Wheeler Oakman, Eugene Bessner and other stars appear in this picture. Beautiful tropical scenery abounds, together with unusual sights along the Panama Canal. There is not a dull moment in the production, which is a worthy successor of "The Spoilers," and it is said even to surpass it in interest.

#### THE HIPPODROME

"After the Wedding" Joseph Hart's comedy of laughs and tears will head-line the bill at the Hippodrome this week. The sketch deals with the trials of a young married couple and the note of pathos it obtains is relieved by some bright, clever lines and amusing situations. Frank Mills, the famous Triangle star will be featured in the latest release, "The Moral Fabric," a picture dealing with the disastrous results that accrue to members of a "free life" cult. The Morton Jewell trio of Indian club swingers have a novel act, in which they perform many unique feats requiring skill and dexterity. Mabel Mack is a singing comedienne, with a host of new songs, while the Jewell trio are eccentric singers and dancers. Prince Kinosh appears in an unusually clever novelty, while Whelan and Dolan will present their superior ferpichorean offering. Keystone film comedies will close a bright bill.

#### "GIRLS" AT THE ALEXANDRA.

Tonight, the Robins Players with Edward H. Robins, will inaugurate their tenth week at the Alexandra Theatre, when they present for the first time in stock, "Girls," the delightful comedy success, by Clyde Fitch. "Girls" has to do with three young women who take an oath to always remain single, but when the right man comes along everything is disturbed in a most laughable way. The many ludicrous situations are screamingly funny. All the members of this organization will be seen to advantage including Edward H. Robins as Edgar Holt; Reina Caruthers as Violet Lansdowne; Vivian Laidlaw as Kate West; Frances Neilson as Pamela Gordon; Nelson Travers as Luella Purcell; Eugene Frazier as George H. Sprague; Jerome Reager as Frank Lott; Emma Campbell as Mrs. Bennett; Jack Amory as Mr. Bennett; Webb Chamberlain as the janitor; K. J. Sheen as Willis and Edward McLean as the messenger boy. Matinees will be given on Wednesday and Saturday.

#### HURT IN MOTOR WRECK.

GODERICH, July 2.—J. Lannon, proprietor of the Union Hotel of this place, lost control of his automobile today while driving at a high speed and the car smashed into a telegraph pole. His wife, sister-in-law and three children were thrown out, all escaping serious injury. Mrs. Lannon sustained a broken collarbone and is thought to have been hurt internally.

### TORONTO TROOPS AT CAMP BORDEN

Four Thousand Soldiers Arrived Yesterday on Eight Trains.

By a Staff Reporter. CAMP BORDEN, July 2.—Upwards of four thousand Toronto and Simcoe County soldiers, the troops of the 168th, 180th, 198th and 15th Battalions, arrived here today on eight military trains. Each train brought about 500 soldiers including the officers, non-coms and men of two complete double infantry battalion companies, with the exception of two details left by each unit in Toronto, are to clear up the battalion quarters at Exhibition Park and the other to carry on any work necessary in the city to bring the regiments up to strength. Major Mitchell was in command of the 168th Queen's Own Rifles Overseas Battalion. Lt.-Col. R. Greer was in command of the 180th Sportsmen's Battalion and Lt.-Col. John A. Cooper commanded the 198th (Hunt-the-Huss) Canadian Buffs. Due to the strenuous work put in by the battalions' respective advance parties, the Q.O.R., Sportsmen's and Buffs found the tented city ready for their quarters for their summer training quarters. They were in high spirits over changing from the hot-trick quarters to the new white tents in the open air. The movement of the troops from the tracks to their camp quarters made a lively scene. The battalion motor car trucks did good service in transferring the troops' belongings from the trains to the tents. Pleased With Camp. Officers and men expressed pleasure over the inviting appearance of the camp. Each of the Toronto units has for its battalion location a fine sloping piece of dry ground, with pine wood-land at the rear eastern border of their territory. Owing to the arrangement of the camp in brigade areas, seniority placed the Q.O.R. Battalion nearest to the railway stations. The Buffs' Battalion, which has its site near the southeastern corner of the camp, was able to march across from the train to its new home under canvas in about twenty minutes. The members of Lt.-Col. R. Greer's Sportsmen's Battalion liked their quarters as the site of their rows of tents is next to the Q.O.R. at the south. Lt.-Col. D. H. McLaren's 15th Simcoe County Battalion also arrived today and went into camp on grounds located just west of the Toronto Queen's Own Battalion. As the 15th was enrolled in towns of this county its members will be within easy reach of their own homes while in training. The 15th is the first of two overseas Simcoe battalions authorized during the winter. The other Simcoe County overseas unit has the 177th Battalion, now being raised, is also so quartered at camp, but having a strength of about 800. It is commanded by Lt.-Col. J. B. McPhee. The location of Camp Borden in Simcoe County has been of special benefit to the two county battalions, because it last week caused the county council to make these units liberal recruiting grounds. Warden Martin says that the Dominion Government took over lands that were for the most part of little agricultural value, and the pay roll at the camp would be over a million dollars a month, which would mean added prosperity for Simcoe County. He was, therefore, glad to support the giving of aid to the local battalions. Captain Finlayson of the 15th Battalion says that all the municipalities around Camp Borden have made grants to the battalions, totaling about \$5000 each to the 15th and the 177th. Today's weather was favorable all the morning to the incoming troops, although rather warm for work in the sun. The heat lessened during the afternoon by a thunderstorm.

### ENCOURAGING RESULTS FOR HUMANITARIAN SOCIETY

Flag Day on Saturday Six Thousand Five Hundred Dollars.

### SIX HUNDRED WOMEN

Bishop of Toronto Appreciation of the Service of Women Volunteers.

Much encouraged by the results of the Toronto Humanitarian Society's flag day, the Bishop of Toronto, in his appreciation of the generosity of the citizens of Toronto in contributing their funds to the society, they women workers for their own and those who, in the hour of need, enabled them to preach the gospel of humanity by the means of the society. They feel that it is their duty to express their appreciation of the society's efforts, and they are greatly pleased as a consequence in the fund-raising of the society. The above message of the Bishop was read at the society's meetings on Saturday. The cash are about \$1600 more than last year. All over the city the society's appropriate yellow flag was seen. Most noticeable was the parade practically every man, "Be kind to animals" badge, Team-Owners Association and twelve wagons decorated with and drawn by some of the best of horses in the city. About six hundred women throut the day as collectors, highest individual amount was \$75.00, while several exceeded \$50 each. The collection coppers almost filled two barrels during the day the Bishop of Toronto, the president of the society, and personally expressed his appreciation of the services of the women.

### HEAVY THUNDERSTORM VISITS NIAGARA

Telephones Put Out of Service—Electric Employes Struck.

NIAGARA FALLS, Ont., July 2.—About 5 o'clock today a severe electric storm happened in some time in the district for nearly one hour before 5 o'clock darkness set in. The district soon followed with thunder and lightning. The streets were flooded in many of the low-lying sections. The premises of the Bell Telephone Company were flooded to five feet, putting the entire out of use. Trouble was experienced with the street lighting. Not in many years has there been so great on Dominion Day as this year. James Elliott, an employe of the municipal electric light plant, escaped death from electrocution 8.30 tonight, while working on a pole at the national bridge, after the electric storm of today. Elliott was on the pole and fell on his arms and legs were severed.

### From a Small City With Plank Sidewalks and Four Post-office Employees, the Place Has Become the Second City in the Dominion.

By F. MAY SIMPSON.

When the clock struck midnight on the 30th of June, 1867, the bells of St. James' Cathedral joyfully rang out and proclaimed the birthday of the Dominion of Canada. We are told that this first of July was the greatest celebration that the city of Toronto had ever had.

Forty-nine years have passed, and again we celebrate. Time has dealt kindly with us. We have been prosperous; we have been progressive; we have grown to be a large city. Forty-nine years is not a far cry but what a transformation has taken place! We do not want to bring the old times back again, but simply to glance into the past and get a bird's-eye view of what it contained for our future.

To give here the briefest summary of the past is to give the even since Confederation in regard to education, libraries, museums, music, art, traffic, finances, manufacture, etc., would be impossible, the outlook is so vast.

**A Yankee Look.** As far back as 1867 a writer describes Toronto as "a thing of yesterday, a mushroom, compared with the antiquity of Montreal and Quebec, the rivalling the one and exceeding the other in trade and population. It is built in the American plan of straight lines, preferring the chess-board to the maze, and the regularity of art to the picturesque irregularity of nature. The streets are long and straight. There is a Yankee look about the place which it is impossible to mistake, a pushing, thriving, business-like, smart appearance in the people and in the streets, in the stores, and in the banes and churches."

**A Source of Complaint.** The roads which were back as far as 1847, seem to have been a source of complaint. One writer tells us "it was no unusual sight to behold the heavy lumber wagon sticking fast in the mud, up to the axle, in the very middle of King street."

**A Closed Book.** The telephone, the street car and many modern devices were a closed book fifty years ago. Grahame Bell, the inventor of the telephone, set up his first line from Brantford to Toronto in the year 1876 and the battery was in Toronto. The Bell Telephone in Toronto has now thirty-three thousand telephones. An event of more than passing moment was the transition from the horse car to the electric in 1892.

**Parents Were Implored.** In the year 1840 there were nine churches in the city of Toronto, today there are nearly three hundred. The Exhibition buildings were opened by the Earl of Dufferin in 1876. The Toronto Exhibition now occupies 440 acres of land and is the greatest annual fair in the world.

**We Celebrate.** Again we celebrate, but this year it is with a hush upon our lips, with eyes that are brimming over with tears, and with hearts that have died for the sons of our land who have died for that land. This Dominion Day we are listening to the clash of arms, the most dreadful of the world ever known. We in Canada are making history in a thousand different ways. Many are doing noble things that will rise to light perhaps only in the distant afterthought of the world.

**Grew Rapidly.** It was during 1872-74 that Toronto began to make rapid strides in commercial enterprise. The streets had begun to spread out indefinitely. Bloor street had long since ceased to be anything more than a boundary line between Toronto and Yorkville. King and Yonge streets monopolized the lion's share of the retail business. The city broadened out and absorbed Yorkville in 1888. In 1884 property east of the Don, together with the village of Eronkton, were taken in. Toronto joined Toronto and Yorkville. King and Yonge streets were taken in. Some instruments were taken in exchange and must be sold quickly. Some of the terms are as low as 50 cents per week. These plans have been overhauled and are in fine condition.

**Encouraging Results for Humane Society.** Flag Day on Saturday Realized Six Thousand Five Hundred Dollars. SIX HUNDRED WORKERS. Bishop of Toronto Expresses Appreciation of the Services of Women Volunteers.

**Heavy Thunderstorm Visits Niagara Falls.** Telephones Put Out of Service—Electric Employee Injured. NIAGARA FALLS, Ont., July 2.—About 5 o'clock today one of the severest electric storms which have happened in some time raged over the district for nearly one hour. Before 5 o'clock darkness again enveloped the district, followed by a heavy thunder and lightning. The rain fell in sheets, accompanied by many of the low-lying sections of the streets were flooded to a depth of five feet, putting the entire district out of use. The Electric Company was flooded to a depth of five feet, putting the entire district out of use. The Electric Company was flooded to a depth of five feet, putting the entire district out of use.

# INSPIRING SIGHT AS WOMEN MARCHED

### Thousands Lined Streets at Great Patriotic Parade Saturday.

AN OBJECT LESSON

### Evidence of What They Have Done to Assist Empire's Cause.

Inspiration to patriotism traveled in an electric wave all along the route of the women's parade on Saturday afternoon, when the women of Toronto were splendidly represented in the magnificent outpouring which gave the realism to the things they had done in the past and their will to increase their offerings from now until the close of the war.

I had thought that with my last "talk," I was finished for a time with the fake school of motion picture acting. I find myself, however, still in a belligerent frame of mind. An inquiry received with my last mail has probably had something to do with it.

## Our Place at the Front

There is an old proverb about children and fools not being allowed to see half-don work, and it may be well to remember it in connection with the British offensive launched in France against the Germans on Saturday. After the splendid sweep made by the Russians over the Austrian lines and the capture of 217,000 prisoners which Petrograd announces, it is perhaps not unnatural that British patriots should expect something similar on the western front. But such expectations would not be based on the facts.

In the first place the British offensive was only over a twenty-five mile front, after a ninety-mile bombardment, while the Russian advances covered about a 275 mile front. That the British and French should have secured 10,500 prisoners on their more limited field indicates that a severe blow has been given the Germans. We may take it also that what has been done is only a beginning. And further than this, we are not aware what the real aim of the British and French allied strategy is. It is unusual for a general to announce to the enemy what he is going to do, and yet apparently the widest publicity had been given to the statement that an attack was being intended. Perhaps the attack is only a feint after all. Perhaps it was intended as a diversion to relieve the pressure on Verdun, which was recently becoming rather heavy. In fact the work, whatever it is, is only begun and not even half done, so that we may well suspend judgment until more definite news comes to hand.

There has been a steady tendency to undertake the strength of the enemy, and with the veiling censorship covering the actual situation in France and Belgium, public interest has never been allowed to develop the enthusiasm with which the progress of the Boer war was greeted. Some of the ablest and most popular British writers for the press have been giving out views which are the reverse of encouraging to British hopes, but this has only stiffened the determination of the people in the British Isles to carry out their first resolves. It has been somewhat different in Canada, and it is unfortunately rare to find the spirit of self-devoted patriotism which will give up all for the cause among the younger generation. It is even regarded as disloyal, or unwise at least, to refer to such a state of affairs.

In the presence of the exceeding difficult task which presents itself to the British army on the western front, it is surely necessary that the urgency of the case should be placed before the young men who are needed in the ranks with all earnestness and insistence. We do this the more readily and constantly because we have no pessimistic feeling about the ultimate result. But it is not desirable that the tremendous task be finished as soon as possible, and the intolerable burden of war got rid of as soon as may be. How can this be done if we do not bend all our energies and devote all our resources to the speedy ending of the job? Is it the desire of any among us to have the war hanging over us for one year, two years, an indefinite length of time, merely because we do not rise to the occasion and finish it?

There are too many young men asking Cain's question these days—Am I my brother's keeper? And too many of them answering that these things in France and Belgium are none of their business. In the face of the fierce struggle now proceeding it seems less than we might expect in any British community that such apathy or indifference should exist. As the news comes in during this month, and as the long roll of honor grows longer, and the homes that have done their best for their country and their country's traditions and ideals, and have now become shrines for the memory of those who gave life and

## RUSSIANS REPEL FIERCE ATTACKS

### Austro-Germans Definitely Fail to Counter Big Advance.

### FORCES ENEMY BACK

### Left Wing of Czar Passes Beyond Kolomea—Enters Carpathians.

SPECIAL CABLE TO THE TORONTO WORLD.  
LONDON, July 2.—Desperate attacks against the Russian lines in an attempt to drive their advance in Galicia and Volynia have been definitely repulsed, it was announced by Russian headquarters in an official statement. The attacks were preceded by gusts of fire and launched by infantry in massed formations near Tlumacz.

The chief centre of the desperate attacks of the enemy are sectors between the Austrians and the Stokhod rivers and also south of the Stokhod.

The Austrians, in an official statement issued at Vienna, claim that Austro-German troops in Volynia drove back the Russian south of Uginow, west of Torchy and near Sokul. Count Von Bothmer dispersed Russian cavalry near Tlumacz.

The Russians' left wing in Bukovina and eastern Galicia continues to force back the Austro-Germans over a front south of the Dniester and it has occupied many places south of Kolomea.

The offensive northwest of Uginow defeated the enemy in a violent struggle and threw him back in the direction of the heights near Berezova. The Austro-Germans were driven back in a series of attacks, and they took a portion of these heights.

The Russians have also fought for and captured several strong positions in the Carpathians leading into Transylvania. The enemy tried to take the offensive northwest of Uginow, but the Russians pushed him back to the west of this point, following him up in his withdrawal, have taken mountain positions.

Germans Seized.  
Newly arrived German troops attacked the Russians without avail in the Lipa River region. The Russians in repelling them took 423 prisoners. On June 28 and 29 the Russian Ltchitzky made 808 officers and 14,774 men prisoners and it captured four guns and 30 machine guns. The total number of prisoners taken between June 4 and June 30 is 217,000, including officers.

Win West of Kolomea.  
Capture of the Austrian positions west of Kolomea in eastern Galicia has been effected by the army of Gen. Ltchitzky, was announced at Petrograd tonight. Up to the present the Russian offensive has been directed against the Austro-Germans in the Kachev sector and put the enemy columns to flight with heavy losses. The Russians destroyed the fugitives in massed formations and their attacks made by reserves of the enemy hurried up to stop the debacle.

The text of the Russian official statement follows:  
On our western front the enemy continues to make desperate attacks against some sectors between the Styr and Stokhod and south of the Stokhod. Yesterday afternoon the enemy artillery opened fire on the Russian positions of Koptchik, Ghelenovka and Zabary, southwest of Sokal. An energetic attack then followed but was repulsed.

"Northwest of Kiselin, near the Village of Trystyl, we observed enemy artillery firing and put them to flight. Southeast of Kiselin our fire stopped an offensive by mass formations of the enemy. At the Village of Seniawa and in the same region, near the Village of Seublin there was a warm engagement.

"South of the Village of Zaturze, near the Village of Koschoff, we stopped an Austrian offensive by a counter offensive. We repulsed hostile attacks and 30 machine guns. The total number of prisoners taken from June 4 to June 30, inclusive, amounts to 217,000 officers and men.

"In the region of the Lipa River the enemy continues to bombard our front with heavy artillery and field artillery. We repulsed desperate attacks recently made by newly arrived German troops and inflicted heavy losses. Up to now we have captured nine officers and 418 men in this region."

took advantage of his last opportunity to thank the citizens of the east end for the manner in which they supported him. Capt. Bell-Smith drew attention to the fact that while there are still the streets in mud and that it was sometimes aggravating to see that young men are not recognizing their duty, the honorarium still refused to make use of the objectionable word 'slackers' or 'shirkers.'

## GREAT VICTORY FOR ALLIES

### (Continued from Page One)

abandoning the enterprise against Verdun."

The Express says: "The war has entered a fresh and probably the last phase. Our hopes may well be high, but our patience must continue."

The Daily News says: "The fact that Germany has lost the offensive does not mean that she is not still a formidable foe. We cannot tell what her temper may be under the shadow of defeat—whether she will fight to the last ditch, or seek to save the utmost from the wreckage. It is enough to know that the great current of the war has changed and that, humanly speaking, there is no power visible that can turn the current back into the old channels. The end may still be far off; we cannot tell. But today we know that victory is assured."

The Daily Telegraph compares the new offensive to the beginning of a great musical composition, saying: "With so good an overture we may expect the main body of the work equally to flatter our hopes."

The Morning Post says: "The task confronting the allies is long, bloody and difficult. The people at home must steel themselves to the painful fact that the offensive must involve heavy losses. The end is not in sight, but the thing must be fought to a finish and we shall see to it that the sacrifices are not made in vain."

The Daily Mail declared that the allies' offensive is the surest and quickest way to victory.

"Prussian ambitions," it says, "can never be broken on French or Russian soil. Unless the allies can invade Prussia and dictate peace on Prussian soil all the great sacrifices will have been in vain. Germany kept the horrors of war from German soil, and in that fact is its great strength. We can never regard this war as won unless the avenging sword of the allies thrust clear into the heart of the German Empire."

## OTTAWA IS ENTHUSIASTIC.

OTTAWA, Ont., July 2.—Military headquarters has no more information concerning the big British and French offensive than is contained in the London and Paris official despatches. They are unable to say therefore to what extent the Canadians are taking part in the fighting.

While the officials here are enthusiastic over the great British and French drive and view with a good deal of satisfaction the general effect it will have, they talk seriously of the heavy fighting that will have to be done, with all the accompanying serious losses that will have to be borne before the Germans are conquered in the west. There is there a great labyrinth of trenches and a huge mass of defensive works that only the most strenuous and persistent attack will overcome.

According to the officials here the immediate value of the big drive from Arras south will be the relief of the pressure on Verdun. The Germans will have to fall back all along to keep their lines intact. It will also prevent the Germans sending reinforcements to the east to operate against the Russians.

What is expected to follow is an offensive by the British along the line from Arras to the coast and a movement by the troops at Saloniki.

## BRITISH ADVANCED INTO SHELL HOLES

### German Trenches Were Gone, But Men Were Waiting in Craters.

### BAYONETED BY RUSSIANS

### British Made Short Work of the Crews of Machine Guns.

LONDON, July 2.—A wounded man gave the following account of the infantry fighting:  
"Everything possible seemed to have been thought of beforehand and for weeks we have been having rehearsals of every movement. We were all ready for the charge by six o'clock but the artillery, which had been pounding all night, continued the argument for an hour. Then the bombardment slackened and our pulses quickened as we realized our moment was at hand.

"The preliminary signal went down the line and a few moments later came the command to go forward. Our fellows hopped over the parapets and tore across the uneven ground to where the first lines of the German trenches used to be. As a matter of fact those trenches had ceased to exist. They were battered to bits.

"We did not literally charge the enemy's advanced trenches. There was nothing to charge. What we did charge, however, our shells had dropped during the week and in these holes the Germans awaited us with machine guns. As we approached they turned the guns on us.

"Some of our fellows carried bombs and hurled them into the holes as soon as they were within reasonable range. But we did not finish them all in that way. There did not happen to be a bomber handy every time a machine gun sang out from a shell hole, so our lads, instead of waiting for someone with a bomb, just charged the holes. Often, with a whoop on their lips, they took flying leaps into the holes.

"It was a thrilling affair while it lasted. A dozen or perhaps a score of men would converge on a hole and take a leap almost simultaneously. The next moment the hole was filled with a struggling mass of British and German humanity, while the guns, of course, were silent."

## APPEAL BY LAURIER TO FRENCH-CANADIANS

### "Grievance in Ontario" Should Not Stand in Way of Recruiting.

### COURTS WILL DETERMINE

### Liberal Took Decided Stand in Speaking at Bromo.

BROMO, Que., July 2.—Sir Wilfrid Laurier, speaking here yesterday afternoon at a Red Cross rally, clearly revealed his opinion that French-Canadians should not hold back from enlisting in Canada's overseas forces because they believe they have grievance in Ontario.

"We must have more soldiers, and must count on every man, irrespective of race, or origin, to do his share," the Liberal chief said. "I especially urge my French-Canadian friends to do their part.

"There are men amongst them," he added, "who tell them they must not enlist because they claim we have grievances in Ontario. Let me tell them that the grievance must be settled by the law courts, and there are duties and obligations, as well as rights, and those who want their rights recognized as citizens of the empire must be prepared to do their duty to the full."

## DISORDERLY ON STEAMER.

Gus Darrell, 20 William street, and Joseph Tilley, 211 Lansdowne avenue, were arrested last night by policemen 89 on a charge of being disorderly on board the Chippewa, which bound for Toronto. Thomas Nicholson, a passenger, who interfered, had his left arm fractured in the fight. He was taken to the General Hospital.

## LEAFS AND HUSTLERS DIVIDE DOUBLE BILL

McTigue Lost First Thru Wildness—Shocker Beat Ritter in Second.

At the Island on Saturday before big crowds in the morning and afternoon Toronto and Rochester split even on the holiday bill, the former taking the first game 4 to 2, while the Leafs annexed the afternoon affair with a 3 to 2 victory. The Hustlers won the game in the first inning on three bases on balls from McTigue and two infield hits. The second game was a scrappy contest and was only won in the ninth. Shocker and Ritter engaged in a sterling pitching battle, both allowing only six hits.

At Baltimore—The Orioles crept up a little closer on the league leaders Saturday when they took a doubleheader from Richmond, while the Clams were losing twice to Newark. The scores were 4 to 8 and 5 to 0. The initial contest being a hot one, Newark's pitcher and Apple hurled superbly for the locals, while Crane, Kopf and Russell fielded sensationally. In the second game Lewellyn made two home runs over the left field fence.

At Newark—Newark climbed back into the first division by defeating Providence twice Saturday afternoon, 5 to 4 and 5 to 2. Both games were marked by hard hitting. Newark was out in the second, but both Bright and Smallwood kept the Providence hitters well scattered.

At Montreal—Dominion Day proved to be a festive holiday for Pat Donovan's team, the champions of the International League celebrated the occasion by netting their percentage with two decisions over Dan Howley's Royals.

ROCHESTER AGAIN TODAY. The Leafs wind up the series at the Island today, playing the third with Rochester. McTigue, who allows that he must work every nook and cranny to be effective, or Herbert will be on the mound, with McKee catching.
