RUSSIAN CRISIS HEARS ITS CLIMAX

"The Situation is More Serious Than We Earlier Thought, and it is Impossible to Say What Developments May Ensur in the Next Few Hours." ---Premier Kerensky.

CIVIL WAR BEGINS IN RUSSIA KORNILOFF'S GUNS OPEN FIRE

REVOLT IS FORMIDABLE KERENSKY'S ADMISSION

Revolutionary Forces, Marching on Petrograd, Reported Bombarding Government Positions With Heavy Guns—Kerensky Arrests More Generals and Declares the Revolt Will Be Suppressed.

Petrograd, Sept. 11.—General Korniloff's march toward Petrograd continues. According to a statement circulated at the Winter Palace early this morning, and which is repeated in today's newspapers, but which has not been officially confirmed or denied, the first collision between the troops and the government forces already has taken place, the followers of Korniloff having begun the hostilities by bombarding government positions with heavy guns.

The government is still holding back news concerning the military situation. A further report is to the effect that at ten o'clock last night two columns of Korniloff troops entered Gatchina, 35 miles from Petrograd, without opposition, and that other forces are moving on Pskov with the aim of cutting the Petrograd railroad.

During the night telephonic communication with Pskov (central Russia) ceased. The army of General Korniloff operating against the capital is believed to consist of the following: Several Cossack regiments, the First Cavalry Corps, the "Savage" division, "Tse" Turcoman horsemen, so-called Korniloff battalions, railroad and sapper units, heavy artillery divisions and some batteries of light artillery. All the troops are under command of General Korniloff, former commander of a division in the army.

Predict Failure. M. Nekrasoff, minister of finance, today told the Associated Press that the towns of Pskov and Dno, on the railroad station at Dno were all in the hands of the government troops. In the chancellorcy of the council of ministers, it was reported that the government had been informed unofficially that at the front the troops loyal to the government have, in many cases, arrested their Korniloff commanders, and that therefore there are indications that the revolt will fail.

The government has suppressed the Moscow Vremya, a pro-Korniloff Petrograd newspaper, as a punishment for printing prominently Korniloff's proclamations, while printing those of Kerensky in contracted form.

GENERALS ARRESTED.

Petrograd, via London, Wednesday, Sept. 12.—(British wire press)—An official announcement says: "The superior officers everywhere are acting in accordance with the revolutionary commissaries of the government and the committees at the front. General Denikin (commander on the southwestern front) and the whole of his headquarters staff have been arrested. General Erdell, former military governor of Petrograd, who disobeyed army commands, has also been arrested, together with several members of his staff.

The Baltic fleet, with its officers, has unanimously placed itself on the side of the provisional government. "Only small detachments of troops have been moved towards Petrograd by Korniloff. They declare they have remained detached regarding their neutrality. The further advance of these detachments has been arrested and the bonds between them broken. Individual units of them have sent delegates to Petrograd with the request that they be furnished with orders to arrest those commanders who have betrayed the provisional government.

Defence of Petrograd.

The government has taken measures to put Petrograd in a state of defence against attacks, and the hope is entertained that all bloodshed or civil war will be avoided. "Evidence of the loyalty of the troops and people to the provisional government is being received from all the provinces, while all public organizations have announced their determination to supply the revolutionary government by every possible means. "It is essential to the safety of the fatherland that complete unity of action be preserved. The government

BRITISH STORM POSITION UPON SOMME FRONT

Northumberland Troops Repulse Three German Attacks Near Villaret.

GUNFIRE IN BELGIUM

Germans Lose Ten Machines in Renewed Aerial Fighting.

London, Sept. 11.—Heavy fighting of a local nature has occurred between the British and the Germans on the Somme front, the British capturing a German trench nearly a quarter of a mile in extent. There were artillery duels in the neighborhood of Ypres also, according to the official report from British headquarters in France tonight. The text reads: "As a result of local fighting in the neighborhood of Villaret, reported this morning, the Northumberland troops engaged extended their gains southwards a further four hundred yards, occupying a German trench. Several prisoners were taken by us; our casualties were light.

"This morning the enemy attacked our new positions, advancing in close formation, but was driven off by our fire. Later in the day two bombing attacks were made by the enemy from the south against our right flank, but were also repulsed, our troops consolidating the captured trenches. "Artillery activity continues on both sides in the Ypres sector. The enemy's artillery activity was particularly marked during the day south-east of Ypres and in the Nieuport sector. "On Monday a thick haze again prevailed and made work difficult. Despite this, observation was carried out for our artillery both by balloons and by aeroplanes. During the day our machines bombed two enemy airbases near Cambrai and near billets near Douai. During the night they dropped bombs on airbase searchlights near Courtrai. "In the air fighting yesterday three German aeroplanes were brought down; seven others were driven down by one pilot. In one case this pilot descended within fifty feet of the ground and set fire to a machine he had brought down. He then regained our side of the line, still flying at fifty feet, and was attacked by three hostile machines. Three of our machines are missing.

Don't allow your unreasonable summer hat to linger on in service. Don't try to get away with a last year's winter hat. Your hat is the most conspicuous article of attire, and a new fall hat will cost only \$2.45—hard or soft felt. In the newest shades—regular three-fifty value. Barbiolo fine Italian soft felts; \$4.50. Dineen's, 140 Young street.

What the Grain Growers Now Want to Know.

This announcement of fixing the price of wheat by the officials of the Dominion Government for No. 1 northern at \$2.21 a bushel, and the lower grades in proportion, will go some way toward settling the wheat situation. But another important question remains: What is to be the policy of the British Government, acting for itself and the allies, as buyers, in regard to taking the grain as offered? And the United States Government is also to be the only purchaser in the States. Will these governments take the grain as fast as offered? In other words, how are the purchases to be financed and will this be satisfactory to the farmers? No announcement has yet been made.

The uncertainty in this respect has already had something to do with the difference in price that prevailed in Ontario last week in regard to this year's crop of fall wheat. With \$2.21 at Winnipeg for No. 1 northern that ought to make our fall wheat in Ontario at Ontario points worth about \$2.20. Will our government or the British Government take this wheat as offered or will the millers be allowed to take it? Or will our dealers refuse to buy it only as they can dispose of it to our mills or to the British public buyer?

Our parliament has this session passed a law that facilitates the operation of our banks in making advances on wheat in the farmer's own granaries or stored by them in elevators. Will the public buyer, because of this, say to the farmer: "Yes, we'll give \$2.21 for your wheat, but we'll take it as we want it and can ship it; but until we want it you'd better sell it to your bank." Or will the three governments frame up a great, big international financial scheme that will enable them to pay the farmers as fast as they can thresh and deliver?

An official of the United Farmers of Ontario, at a recent meeting, said, in answer to a question on this subject, with a good deal of justice: "Yes, the governments have undertaken to safeguard the consuming public by fixing the price and protecting them from the speculators (including the millers), from exploiting these consumers; but will they safeguard the grain-grower by getting him his money as soon as he is ready to deliver?"

VON SANDT'S DISMISSAL IS VEILED IN MYSTERY

Traces of Humanity in Treatment of Belgians Probable Reason.

London, Sept. 11.—Dr. von Sandt, the civilian governor of Belgium, has been dismissed, says an Exchange Telegraph despatch from Amsterdam today. "The dismissal is incomprehensible," adds the despatch, "as the government had trusted him to write the history of the occupation of Belgium. He was the only German official in Belgium who ever gave any evidence of humanity in treatment of the people."

PRICES FIXED FOR CANADIAN WHEAT

Two Dollars and Twenty-One Cents for Best Grade.

FIGURES ARE OFFICIAL

Prices Are Identical With Those at Minneapolis and Duluth.

Winnipeg, Sept. 11.—Official announcement was made here this evening of the prices fixed on the 1917 crop of wheat by the board of grain supervisors for Canada on a basis of Fort William and Port Arthur, which are identical with those set by the United States for the same grades on a basis of Minneapolis and Duluth.

Following are the prices: No. 1 Manitoba northern, \$2.21; No. 2 Manitoba northern, \$2.18; No. 3 Alberta red winter, \$2.21; No. 2 Alberta red winter, \$2.18; No. 3 Alberta red winter, \$2.15. Prices on the other grades of wheat will be fixed as soon as sufficient information about quality of new crop has been secured by the committee. Flour millers in the interior west of Fort William and Port Arthur will be permitted to pay in excess of the fixed prices a maximum of one cent per bushel diversion charges. The board has decided that the prices on wheat loaded out of elevators in Canada, licensed as private shipping and milling elevators, shall be as follows: The price fixed above the price of wheat loaded or shipped out of such elevators. Minimum will be not more than four cents less than the fixed price, grade for grade. The buyer in addition pays the f.o.b. charges.

Situation in U. S.

In the United States the American millers and the allies are required to pay to the United States grain corporation one cent on the wheat purchased, in addition to the fixed charges. In accordance with the request of the United States food controllers the board of grain supervisors for Canada has decided that Canadian flour millers, the allies and other consumers of Canadian wheat will be required to pay in addition to the above fixed price a sum of two cents per bushel to the board, and the allies, including the United States, a further amount not exceeding two cents per bushel, the money accruing from these sources being to create a fund out of which will be paid the carrying charges on wheat in country elevators. Following are the prices: Basis—Minneapolis and Duluth—One dark northern, \$2.21; two dark northern, \$2.18; three dark northern, \$2.15; one dark hard winter, \$2.21; two dark winter, \$2.18; three dark hard winter, \$2.15. The mixing of grades at terminal points is prohibited to the United States.

Franco-Russian Force Captures Two More Villages Near Lake Malik.

Paris, Sept. 11.—The French war office has issued the following tonight: "Eastern theatre, Sept. 10: French and Russian troops have extended their progress in the region around Lake Malik and have occupied Grabovitsa and Prenshtit and the heights which border Cereval between these two villages. In the course of their operations yesterday and today they took more than one hundred and fifty prisoners, including four officers, and captured three guns, four machine guns and other material. "British aviators have successfully bombarded enemy camps in the region of Rupil."

PETROGRAD IS ORDERLY

LITTLE ALARM SHOWN

News of Korniloff's Revolt Belated in Arrival—Government Seems Confident, No Display of Force Being Made.

Petrograd, Sept. 10.—The mass of Petrograd's population knew nothing of General Korniloff's revolt until today, when the newspapers, contrary to their Monday custom, published the all-night sessions of the cabinet. The government is apparently confident of its position, as no display of force is being made. Even at the Winter Palace, during the all-night sessions of the cabinet, the special precautions were taken, although this morning two armored motor cars were stationed in the palace square. In the yards of houses in the Vyborg quarter, however, soldiers are stationed, and small bodies of troops and numerous political agents have been sent to various suburbs of the capital.

The population of Moscow was also ignorant yesterday as to the revolt, but the council of deputies there, the day of Saturday night, and the next day declared itself in permanent session. The council in accord with the local military and executive authorities, including the commander of the troops, General Verkhovsky, whose loyalty to the Petrograd government seems beyond doubt, took special measures against counter-revolutionary manifestations. Verkhovsky's Threat. In this connection, the council of deputies declares that General Verkhovsky was recently summoned to headquarters at Mohilev by General Korniloff, who expounded the details of the plot and invited the general to join. On his giving a categorical refusal, General Korniloff threatened to arrest him, to which threat General Verkhovsky responded: "If I am not allowed to return immediately all the railroad officials on the line connecting Mohilev with Moscow will declare a strike, thus cutting you off from the rest of Russia."

FEAR REIGN OF TERROR LOOMS UP IN RUSSIA

Washington Believes Complete Ascendancy of Either Korniloff or Kerensky Would Mean Salvation of Country.

Washington, Sept. 11.—Whether Russia faces anarchy or a reign of terror as the fruit of General Korniloff's revolt against Premier Kerensky's provisional government depends largely, in the opinion of officials and diplomats here, upon the speed with which the situation develops. If the deposed commander-in-chief, now reported marching on Petrograd with troops personally loyal to him, makes a spectacular show of strength within the next few days, it is believed strong political influences now secretly wavering in allegiance to the government may swing over, give him a preponderance of authority, and pave the way for a powerful dictatorship. If Premier Kerensky, on the other hand, is able to hold fast to the support of enough of the various political groups on whose attitude the allegiance of the army largely depends, he may crush the revolt quickly, adopt some of the strict disciplinary rules advocated by the Korniloff element, and weld the democratic forces into a stronger government to fight Germany.

Evils of Civil War.

The complete ascendancy of either Kerensky or Korniloff would satisfy most persons here most interested in Russia's well-being. It is the middle situation, the conflict which would make Russians kill Russians, which they fear and which, judging by today's unofficial despatches, seems entirely possible. Civil war then might lead to either separate peace with Germany or restoration of the monarchy, with its inevitable train of evil consequences.

Out of the haze of the Russian situation as reported unofficially to date, officials developed the impression that the provisional government probably could count on the support of the navy, a large part of the army particularly in the interior, railway employees and industrial workers. Korniloff probably expects the back-

Gen. Korniloff's Forces Are Marching on Petrograd

and Premier Says Developments of Next Few Hours Cannot Be Foreseen, But He is Confident of Triumph.

Petrograd, Sept. 11.—In answer to a request, Premier Kerensky has made the following statement to the Associated Press for transmission to the American people: "In view of the fact that the cabinet is sitting uninterruptedly, discussing measures, the premature announcement of which is impossible, I am obliged to withhold a general statement until later, when conditions and prospects may be clearer than now. You may, nevertheless, announce the following: "The situation with respect to the conflict between the provisional government and the army is more serious than we earlier thought, and it is impossible to say what developments may ensue in the next few hours. But as regards the fundamental issue, there is no doubt. The Petrograd government is absolutely unanimous for the measures they are preparing for putting down the revolt. "So much for the government. Regarding the nation, I declare that I have no doubt whatever that the mass of the population is behind the government in its new fight for freedom, and, that being so, I have no doubt whatever about the triumph of our cause. In that triumph I have absolute and unqualified faith. "Lyoff 'Man Behind.' "It is declared that Lyoff's emissary, Vladimir Lyoff, is one of the chief organizers of the revolt. It is added that Korniloff is under his influence, and that in order to make a breach inevitable he exaggerated to Premier Kerensky, Korniloff's demands. Lyoff is a striking personality. He spent twelve years as a member of the duma, championing church reforms and is the organizer of the Moscow economical congress. During his occupancy of the post of procurator of the holy synod he cleansed the church of Rasputin's adherents by a series of audacious measures. Attempts to prevent a civil war are still being made, but the insistence of the finance minister, M. Nekrasoff, who refuses to accept the generally prevailing opinion that the conflict has already virtually begun, M. Nekrasoff endeavored this afternoon and evening to enter into negotiations with the adherents of General Korniloff by wire, but without result. Stand by Korniloff. At Premier Kerensky's request a deputation of Petrograd Moslems proceeded on a locomotive to meet a "savage" division of Caucasus tribesmen and Turcomans who are mostly their co-religionists and implored them to abandon Korniloff, whom they look upon as the enemy of the revolution. The spokesman of the division answered that they would obey only Korniloff's behests, and that they were against the revolution, adding that the real enemies of the revolution were the Petrograd Bolsheviks and the council of deputies, whom they must be suppressed. March on Petrograd. General Korniloff has ordered his troops to detain at the railroad station at Dno, and to march on and besiege the City of Petrograd. Government infantry still is moving out of the capital to oppose Korniloff's forces. General Denikin, commander of the Russian armies on the southwestern front, has telegraphed to Premier Kerensky that he intends to support General Korniloff. According to reports from the Winter Palace, where the government council was in session this afternoon, a considerable force of supporters of General Korniloff already have passed Duga on the way to Petrograd. "The government refuses to make a statement, but Foreign Minister Tarschenko informs the Associated Press that he believes that Korniloff's forces consist of only a few hundred men. The town and railroad station at Luga are in Korniloff's hands. "Tear up Treason. By order of Premier Kerensky, the railway track between Luga and Petrograd has been torn up in places, and being engaged on the work all Luga are forces which so far have stood firm for the government. General Korniloff's main support appears to be the so-called "Sikava" or "Sav" division, which was formerly stationed at Pskov and consisting of

Community Silver Plate

Renowned For the Beauty of Its Designs And the Super-excellence of Its Quality—Flatware Such As the Bride Delights In

DO YOU NEED new knives and forks—and spoons, too? Is there a bride upon whom you had thought of bestowing these very important items of household equipment? If for any reason or other you are meditating the purchase of flat tableware you'll be interested in Community silver plate.

For how delightful its patterns are—so dainty and so distinctive. And how excellent it is in general make-up—heavily silver-plated and beautifully finished. She who knows any-

thing concerning silver plate knows the charm and worth represented by the word "Community."

With nickel base, silver-plated, it is featured in a number of designs to harmonize with various schemes of furnishing. Our artist has indicated three of them:

"Patrician," a plain grooved design of exceptional dignity and refinement—in bright finish. "Georgian," likewise in bright finish, showing a thread edge and tiny Adam motif set into the top of the handle. "Louis XVI.," in French grey finish, with bright medallion for the engraving of an initial or monogram, a tiny floral scroll circling the medallion.

Prices, which are the same in all three patterns, are as follows: Per doz. Per doz.

Little Talks on Modes and Makers.

THE ORIENTAL RUG is as well established now among our household gods as the silver teapot or the drawing-room sofa. Young Mr. Household and his wife, who furnish their abode with any pretension to dignity and artistic effect, take this type of floor covering for granted.

The Oriental Rug. The modern eye, casting its glance over all ages and all places in search of the beautiful, sees the Eastern carpet and knows that none other is so fine or so fair. It has become one of the first principles in up-to-date practice of interior decoration.

And yet how little knowledge one finds floating about in regard to Oriental rugs. We know pictures and their painters. We see feathery foliage of misty grey-green, with glimpses of limpid lake below, and we recognise a Corot. We behold the portrait of a man, and note the perfection of flesh tints in face and hands, and the minute detail of pattern in the broad lace collar about his neck, and we have not to be told that Franz Hals was the artist. We are shown a plate of egg-shell china delicately embellished with pink hawthorn, and it is familiar to us as Limoges. The little dressing-table of tawny mahogany with straight edges inlaid with bands of satinwood we classify at once as the inspiration of Sheraton.

But the characteristics of the various designs of Oriental rugs, though vividly distinct, are not generally familiar. And what an interesting study they present—these Bokaraks, Serbands and Kermanshahs!

The very term "Oriental" conjures up visions of mystery, romance and colorful splendor. Our fancy is thrilled as we stop to speculate on the origin of the Persian carpet in its glowing beauty, and rich significance of design. Does it represent the ceaseless task of some dark-eyed maiden weaving it knot by knot for her wedding dowry? What bit of sentiment does that near-like motif imply? Why is the wool so fabulously soft and silky, and the colors so fabulously mellow?

The Oriental rug is worthy of intimate acquaintance. We shall endeavor to set forth from time to time in this little column the distinguishing features of some of its outstanding designs.

GORGEOUS DISPLAY OF WINTER FABRICS

Smart Fall Hats and Tailored Costumes Shown at Murray-Kay's.

"RICH, BUT NOT GAUDY"

Surprises for Buyers Who Anticipated Shortage in Woolen Weaves.

Autumn, with its varying moods and suggestions of frost, is with us, and fall fashion is getting out her warm fabrics and rich colorings with which to clothe and decorate the daughters of Eve.

At Murray-Kay's yesterday the counters were besieged by flocks of fashion's devotees every one anxious to see, and if possible secure, the first and most exclusive of the varied assortment of headgear, of which a large number always begins a season's shopping with her hat, and this year for the most part she must choose a hat of medium size, of plush, felt or velvet, with an occasional design or combination in corded silk or tulle.

Colors generally are not as riotous as last season's. The burgundy, beetroot, turquoise blue, sand, anemone and Paddy green are an occasional touch of flame in combination with black are all favorites.

Attractive Models. Of sand and black, egg blue with a narrow velvet trim and crown of sand-colored pleated felt with a wing stretching coronet, must choose a hat of medium size, of plush, felt or velvet, with an occasional design or combination in corded silk or tulle.

One attractive model was of sand and black, egg blue with a narrow velvet trim and crown of sand-colored pleated felt with a wing stretching coronet, must choose a hat of medium size, of plush, felt or velvet, with an occasional design or combination in corded silk or tulle.

Feather hats in shades are something of a novelty. Bandeaux of feathers in many shades were also seen, and burnt goose is largely used as a trimming.

Many Surprises. Surprise is in store for buyers who anticipated a shortage in handsome woolen weaves. There seldom has been a more varied assortment of coats and mantles generally than are to be seen at Murray-Kay's.

An extremely attractive coat was of Pekin blue velvet cloth beautifully lined with satin of the same shade. Fanned bands of velvet and squirrel fur fell down the sides, the same fur being used in high collar and cuffs. Buttons of the cloth, closely in two rows dividing the panels to the foot of the skirt, and straps at the back waistline gave a smart finish to an altogether novel garment.

Another novel garment is a novel still was a long tunic of velvet in beige shade in velvet cloth. It was finished with broad bands of seal and had a cape which pointed down the center of the waist, and which might be taken up and thrown over the shoulder or wound about the neck into a comfortable arrangement.

A figure was presented for by the handsome loose model in the black broadcloth and sable fastened with large buttons, a touch of black in the narrow bands of silk is simply gorgeous, some hundreds in many ranges of woolen materials and beautiful linings being on view.

Cotton Next Year. This season's opportunity ought to be embraced, as it is prophesied that next year forty per cent of the coatings will be cotton. Utility wraps for afternoon or evening wear of black velvet with finish of deep saffron, and the standard design that last more than a season.

A decidedly new note is seen in the coat-dress, one particularly noticeable of heavier cloth, with collar and cuffs of beaver fur, prettily touched with hand embroidery in French blue, the collar being lined with the same shade, and a novel wrist-band of fur adding a smart finishing touch. Separate skirts are also the vogue, some having the narrow baroque effect, and all being puffed on the hips.

In dinner and afternoon dresses quaintness reigned supreme. One beautiful model was of tulle and chiffon, over an underskirt of pink silk with gold threads. The hat and the bodice embroidered in silver. Another exquisite frock was of rosin-egg blue satin and net, with silver ornaments and wide wing sleeves of the net. The same model is to be found in white Misses' and children's dresses of a variety of design, all made on the premises and presenting touches seldom found outside the shop of a French modiste, are all to be got at Murray-Kay's.

Brocade and Tweeds. Brocade frocks for suitings as well as Bannockburn tweeds are to be got in a variety of colors, browns, greys, wistaria, reseda, myrtle being popular shades. Gabelines are still in favor. The routine cloth is also shown in all shades and a fine assortment of figured silks for kimono and linings, Duchesse mouseline, tulle and tulle are all among the newly-imported goods.

No autumn outfit is complete without the newest in footwear, and Murray-Kay has the latest and something to suit every taste. Boots are

FOR BELGIAN RELIEF

The Belgian Relief Committee, 80 West King street, received last week \$376.48, making total to date \$108,293.83. The funds now being received will be used to alleviate the distress among Belgian children, thousands of whom are suffering from the results of insufficient nourishment. Five hundred dollars was forwarded to Mrs. Adamson last week. A welcome gift from the Wingham Women's Institute was \$25 worth of yarn, which will be knitted into socks before shipping.

The McGill street Y.W.C.A. sent 11 dozen new garments for children, and excellent clothing and quilts, some from Fergus W.P.L. (also \$60), Palmerston W.C.T.U., Thousand Island Park, Pittsburg, Pa., Roonbuck and the York Road W.C.

At 80 West King street a contribution box for small coins produced \$11.13 during the week, and a milk box from Oakville per Mrs. Greene \$24. MAKE NEW REGULATIONS REGARDING PRINCIPALS

Three Years From Now, Public School Heads Must Hold First-Class Certificates.

A new regulation issued by the department of education states that after August 31, 1920, all teachers wishing to qualify for principalship of a public or separate school, having four or more teachers, must hold a permanent first-class certificate. A first-class certificate, which is a high school diploma, must be held by one or more of the principals of a school. These are separate or public schools, which hold a permanent second class certificate, and whose competence has been duly attested, may, on application to the deputy minister, be endorsed by the minister as valid for principalship.

Until August 31, 1920, a valid for or collegiate board may employ as class grade A certificate or qualified under the regulations of 1914. Assistant in these schools, who hold a certificate and a degree from a British university after a course approved by the minister of education. After July 1, 1920, the board, if unable after duly advertising to obtain such a teacher, may employ an assistant as a teacher holding a first-class certificate. In 1919 examinations for high school entrance, history will be included in the list of subjects set by the department.

STATION EMPLOYEES GET INCREASE IN SALARIES

Ten Dollars Extra Per Month is Given, in View of High Cost of Living.

Word was received yesterday that the Union Station employees had been granted an increase of ten dollars per month. Two members were overlooked, however, and this has caused considerable comment in view of the drastic action for another month or two, as by that time much of our Canadian business would have been taken care of, but now we are in a position to strike, if it does come thru later on, the Grand Trunk will fall down as it did last winter.

Anthracite dealers state that there is practically no stock on the market, and advise the public not to delay getting in fuel in the hope that the stove size will come along. The public, however, would take no drastic action for another month or two, as by that time much of our Canadian business would have been taken care of, but now we are in a position to strike, if it does come thru later on, the Grand Trunk will fall down as it did last winter.

RECOVERS RING.

Soldier in Division Court Claimed Article Had Been Given Him by Plaintiff.

In the division court yesterday before Judge Morson, Arlene Fawcett Joseph Corby, a soldier in the 2nd Canadian Infantry, claimed that she had recovered a ring valued at \$50, now in the possession of the chief constable, who had redeemed it from pawn where it had been pledged for \$200. Corby, who was a soldier at the time of the trouble, stated that Miss Fawcett gave him the ring, and he had sold it to get married. The plaintiff denied giving the defendant the ring to keep, and Judge Morson gave judgment in her favor.

BUILDING PERMITS.

Brick Factory to Be Erected on Spadina Avenue to Cost \$75,000.

Of the seven building permits granted by the city architect yesterday the largest was that of W. J. Keene, 279 East Front street, to erect a brick factory at Spadina avenue and Bulwer street at a cost of \$75,000.

CITY MAY PROSECUTE.

In response to a communication from Mayor Church that he take steps to protect the Toronto public against the receipt of milk products by the Toronto milk dealers, Hon. J. E. Lucas, attorney-general of Ontario, has recommended that the new order-in-council recently passed by the Dominion Government, the initiative for prosecution rests upon the municipality.

CRIMINAL SESSIONS OPEN.

Judge Costaworth Urges Jurors Not to Forget Men at the Front.

Grand Jury at the opening of the quarterly sessions yesterday, stated that altho the country and the empire was still at war, the machinery of the law could not stop. In performing their duties he urged the jurors not to forget those who are taking place at the front. His honor intimated that as he is a member of the tribunal to act under the Military Service Act, counsel must see that every case they are interested in goes on for trial on the date appointed with as little delay as possible, and that as little delay as possible must be made during the term of the sessions.

ALIEN DID NOT REPORT.

For failing to report to the registrar of alien enemies between May, 1915, and September of this year, Steve J. Stevenson, was fined \$200 without costs or three months in jail by Magistrate Denison in police court yesterday morning.

MEET IN WOODSTOCK.

The annual meeting of the Baptist convention of Ontario and Quebec will take place in Woodstock this year, from October 17 to 24, when some 500 churches will be represented. The chief speakers at the convention will be Dr. De Blois of Boston.

HARVEST RETARDED BY POOR WEATHER

Department of Agriculture's Weekly Report is Very Encouraging, However.

FALL SEEDING LATE

Potatoes and Roots Grow Vigorously as Result of Recent Rains.

According to the weekly report submitted to the Ontario Department of Agriculture, the weather conditions during the last week have retarded the completion of grain harvesting, but also some oats are yet out in the shock, the fields generally have been fairly well cleaned of spring grains.

Fall wheat seeding is later than usual owing to the delayed harvest, but it is expected that a large acreage will be sown despite this. Corn is doing well, save on heavy soils, and the ensilage varieties are not coming as well as usual. Recent rains are bringing potatoes on, and roots are growing vigorously. The demand for clover promises a good yield, and a large return of seed is expected from this crop. Apples are scarce, and the situation in this regard is commanding attention. In Prince Edward and Dundas Counties prices for fall varieties of the Duchesse apple, No. 1 and 2, are nearest shipping point, are quoted at \$3.50 a barrel, while No. 3's bring \$3.00.

Live Stock Good. Owing to excellent pasture live stock are in fine condition. Market prices are firm for all classes of animals, but sales are slow. The demand for poultry is increasing. The milk flow is relatively good, but owing to the high price of grain, milk feeds, dairymen are not satisfied with the prevailing price of cheese at the factories.

Excepting in the case of corn, fodder supplies will be fuller than usual. Although some farmers are still looking for temporary assistance, and some of the urban help has gone home, the agricultural crisis in this province has been met, and passed most satisfactorily. However, the threat of a late and seeding fall wheat, train tiling, and taking up roots will keep the remaining days of the outdoor season very busy on most farms. Tractors and large horse teams are looked to as the chief agencies to help out in this regard, plowing campaign now in progress.

FOOD CONTROLLER ISSUES "FOOD SERVICE" BOOKLET

Gives Data Regarding Need for Thrift and Statistics of Food Shipments.

A recent publication from the department of the food controller, "Food Service," is a booklet which will be of value to speakers endeavoring to enlist the public in the food service campaign. Everything in the booklet is guaranteed to be accurate, as it was only after the data had been gone over by experts that the publication was issued.

The heavy demand made upon Canadian foodstuffs since the war is well covered in a table showing the increase of shipments since 1914 of bacon and beef to Great Britain. In that year 28,621 tons of bacon and 190,787 pounds of beef were sent to these countries. In 1917 the shipments increased to 297,284,673 pounds of bacon and 33,728,791 pounds of beef. As the herds have not increased the consumption at home must decrease, states the food controller.

PUPILS GET HOLIDAY.

Unable to Heat Winchester School According to Standard Principal Orders Dismissal.

Some eight hundred pupils of the Winchester Street School had their expected holiday yesterday. The school furnace has been under repairs for some time, and as they were not fixed it was found impossible to heat the building. Regulations state that if temperature of the building is not up to 60 degrees by 9 a.m. the highest registered in the building at 8.30, no Principal Car dismissed the whole school.

EDITH COPELAND REMANDED.

Wife Not Guilty to Charge Arising From Death of Florence Cook.

In the sessions yesterday Edith Cope land, charged with mistreatment of Florence Cook, and for omitting without lawful excuse to use reasonable knowledge, skill and care and so causing the death of said Florence Cook, pleaded not guilty and was remanded until Sept. 18 on bail of \$2000. Harry Ellis was jointly charged with assaulting Clara Gordon and doing bodily harm. A plea of not guilty was entered on this charge, and a remand was ordered until Sept. 18.

BUSINESS AGENT FINED.

R. A. Cox Found Guilty of Interfering With Farmers' Dairy Drivers.

An echo of the recent trouble at the Farmers' Dairy was heard yesterday when R. A. Cox, business agent of the Milk Drivers' Union, appeared before Judge Costaworth. He was charged with intimidation in that he interfered with the drivers of the Farmers' Dairy in the pursuit of their lawful duty. His honor found him guilty and fined him \$10 or a month in jail. The money was paid.

ROTARY CLUB'S SUCCESS.

Altho the food production campaign of the Rotary Club is in its first year the yield of vegetables thru the cultivation of city plots is stated to be worth about \$50,000. There were 728 plots in the city under cultivation, and the average value of each lot is placed at \$43 and the cost of production at \$5.25. In some instances the owners sold their crops for \$100.

Women and the Franchise Bill.

Mrs. L. A. Hamilton's letter on the extension of the franchise to women is a noble exposition of a spirit which should more widely prevail.

The War Needs of Canada THE NEED FOR GOVERNMENT CONTROL OF FOOD PRICES

By Benjamin Appthorp Gould

The economists have for years been telling us that there is no way of regulating the action of the law of supply and demand in determining prices.

It is thus evident that in regard to all food staples of which a surplus is produced in Canada the government can absolutely control the market.

So far as food prices are concerned, regulation thru the control of imports and exports is comparatively easy in maintaining a minimum price for staples where home consumption exceeds home production.

It is well to note that the United States, which has only been in the war five months, has already adopted the above suggestions.

because in such case the foreign buyers would not take what was offered as surplus, but would buy the cheaper product available at home.

Reject Amendments. Dr. Neely's amendment was declared on division. Mr. McCraney moved an amendment limiting the vote to soldiers' female relatives to those born within the British dominions.

Posting of Lists. After the recess George McCraney of Saskatoon urged that the posting of the lists made by the enumerator should be done as long as possible before polling so that the opposition could have an opportunity of pointing out errors.

Mr. Meighen declared that it would never do to go that far. The ten days allowed by the bill might, however, be extended to twelve. The writs would be issued five or six weeks before election day.

Mr. McCrea (Sherbrooke) said there were from 12,000 to 15,000 officers overseas who had not been able to get home in the war. Were their female relatives to get the vote?

Mr. Meighen replied that Mr. McCrea had very much over-stated the number of unemployed officers. He had omitted the number by ten times.

OPEN UP THE GAP LARRYTTES WIN TWO

Leafs Now Have a Lead of Two Full Games Over Birds.

The weather man brightened up the atmosphere a little for the homecoming of the Leafs yesterday, and a warm feeling was put into the hearts of the loyal fans that crossed the bay to cheer on Larry and his merry band.

The Montreal outfit made it lively in the opening clash, the Leafs getting the decision 10 to 6. The final set was won by Larry's boys never faltering in the final drive for the rag, and opened up the gap by taking Don Howley's crew into camp in both ends of the double-header.

To make matters much better the Providence Grays again did that spitting act, and the Leafs now have a lead of two full games, or nearly twelve and a half points. They should be able to hold this margin, and the piece of burning looks as if it is coming this way.

Larry's Larrypets had a hard row to hoe in the opening clash. The Royals had one big inning, and it took us some time to get back on even terms again. We won out, 10 to 6, and all was well.

A dumb play started in change of pitchers and a few bad moments for the fans. Good club work made it right again, and the march to the pennant went merrily on.

Justin started for the Leafs, and it looked right when the locals put over the run in the first inning. The Royals had a walk and Whitman's single landed him on third. Larry raised a sacrifice fly to count him.

The Leafs went right back for more and came alone with two runs in the first inning. Larry's boys were with him, and he opened the fireworks with a sacrifice fly on centre. Moran rolled to three corners, and would up by falling to get any. Zimmerman came thru with a hit to score two, and another run on Smith's bad bouncer.

CITY READY FOR WINTER WEATHER

Commissioner Chisholm Has Four Thousand Tons of Coal in Store.

BOUGHT AT LOW PRICE

Supply Adequate to Keep All Civic Buildings and Plants in Operation.

This week we will have all our coal for the winter in place, said Property Commissioner Chisholm to a reporter for The World yesterday. "I don't want any publicity regarding it, tho. Last year the papers gave some details of the quantities and the prices, and the coal men kept after me all winter about it," said Mr. Chisholm when asked for further information about the kinds and quantities of coal required to keep the civic buildings and plants operating over the winter.

The total quantity, however, it was learned, amounts to over 4,000 tons of both hard and soft coal.

Last year the city had some difficulty, along with other consumers, in securing a sufficient coal supply, and determined that if at all possible they would not face another winter without enough coal to see them thru.

Accordingly last April the bulk of the anthracite coal was ordered and has been coming in since, until now it is practically all placed in the cellars of the various firehalls and other buildings where it will be used during the winter.

The bituminous coal was ordered between April and June and has been stored in the most available of the city's yards at the civic abattoir, which uses over fifteen tons a day, there are some 700 tons in storage.

Behind the abattoir, in part of the old cattle market, there is a long pile, almost 200 feet long, fifty feet wide and running as high as eight feet, in which it is estimated there are some 2,500 tons of bituminous lump and slack coal. This is the reserve heap from which during the winter coal will be drawn to supply the various plants under the property commissioner.

While Mr. Chisholm refuses to give any details this year of the prices at which this coal was secured, those in close touch with the fuel business state that the city has been most fortunate in securing its coal.

In one instance it is stated that a small number of cars were purchased at \$1,400 less than they would have cost ten days later.

The coal purchased, while showing a little weathering on top of the pile, where it has been exposed to the elements for some time, is all first-class stuff, and under present conditions it is very doubtful if the quantity could be secured at any price, so that local dealers give unstinted praise to the way Commissioner Chisholm and his staff have looked after the interests of the city in the matter of fuel for the buildings in the property department.

PLAYS, PICTURES AND MUSIC

TYPES IN "THE SKY PILOT"

The play "The Sky Pilot" abounds in "types." They are all of a distinct pattern, and great care was therefore exercised by the management in the selection of the cast. "The Sky Pilot" will be seen in this city at the Royal Alexandra for the week of September 24.

"CANARY COTTAGE"

Adequate proof that the advance claims made by "Canary Cottage," which will open a week's engagement at the Alexandra for one week beginning Monday, Sept. 17, have been lived up to is proved by the series of capacity houses that have been attracted in New York, Chicago and Boston.

CARTER, THE MAGICIAN.

All the world loves a well-remembered magical entertainment. Everything else has its day. Mystery will always charm. Genii, ghosts and hot-goblins, Arabian nights and fairy tales seek and find auditors beyond the threshold of the nursery. Carter, the magician, who comes to the Grand next week, says: "An old trick well done is far more effective than a new one poorly presented."

AT STAR THEATRE.

With an all-star cast and a chorus of twenty girls, "The Aviators" will open at the Star Theatre matinee Sept. 17. In presenting this show the management is giving the burlesque patrons a production that is bound to appeal to them, as it has a combination of everything that goes to make a really great show.

"STEP LIVELY, GIRLS."

Such an extraordinary investment as has been made by Arthur Pearson in costumes and gowns for the big spectacular burlesque musical comedy, "Step Lively, Girls," is seldom indulged in by managers of this class of entertainment. The engagement of "Step Lively, Girls" at the Gayety begins on Monday matinee and is for one week.

"POLLY OF THE CIRCUS."

No better treat for the family this week than the circus play "Polly of the Circus" at the Regent. Max Marsh is exceptionally well cast as "Step Lively, Girls" at the Gayety begins on Monday matinee and is for one week.

BANQUET AT SCARBORO BEACH.

To mark the closing of a successful season and in recognition of the services of its employees, the management of Scarborough Beach Park arranged a banquet to the park staff at "The Inn" last night. A feature of the evening was the presentation by the staff of monogrammed silver-mounted umbrellas to Messrs. Hubbard and Rust and gold cuff links to Mr. Widdowson. A musical program was provided by Messrs. W. Smith, T. Barford, the 10-year-old boy twins of Mr. Irwin, Mr. Daly and Mr. Hamp, and Scottish dances by Miss Vaughan. A life-size photograph of the most popular young man on the park staff was presented to Freddie Casburn.

TO HAVE MEDICAL BOARDS.

Will Examine Men Called Out as to Their Fitness for Service. Ottawa, Sept. 11.—The military service council had a conference with the military authorities yesterday afternoon. It is proposed to have medical boards under the Military Service Act appointed and instructed in the militia department. The boards will examine and certify the physical condition of men coming within the scope of the class called out by proclamation. They will sit at each mobilization centre. Submission for examination within the time limited for application for exemption will be voluntary. The idea is to give the man called out an opportunity of satisfying himself as to his status from the medical point of view.

Simple Home Treatment to Remove Hairy Growths

(Beauty Culture) Two or three minutes' use of a delicate paste will banish every bit of hair from your face, neck or arms. This paste is made by mixing some water with powdered delatone. After the paste is removed, the skin should be washed to free it from the remaining delatone and it will be clear and spotless. You will not be disappointed with this treatment if you are sure to obtain real delatone from your druggist.

GREAT ENCOURAGEMENT.

PAYS WARM TRIBUTE TO LATE LIEUT. J. GOOCH

Met Death While Going Over Parapet to Act as Brigade F.C.O.

Warm appreciation of the courage and ability of the late Lieut. John Gooch, C.F.A., is expressed in the following letter addressed to his parents, Mr. and Mrs. F. H. Gooch, 120 Crescent road, by Capt. A. F. Bennett, A.C., 6th Battery, C.F.A.: "I couldn't write you before, as the battery has been going ever since poor John got killed on the morning of the 15th. His death has been a terrible blow to me, but to you all, the men of the battery, and the infantry to act as F.C.O. for his brigade on the morning of the attack, and was killed instantly while going over the parapet of our front line. His telephone were all with him at the time. A volunteer party went up later in the day to bring his body out, but were not allowed to enter the trench. He was a great many wounded to come out first, so they brought out one of our wounded men. On the following morning to get him, and they had just started back when the officer was badly wounded with one of the men. The last officer I had took another party up and got the body that afternoon, and he was properly buried well behind the lines here. All the men and officers of the brigade who could get away attended the funeral. A photograph of his grave, with the location, will be forwarded to you by the registration graves committee. If it is not, let me know, and I will take it up."

"I was so glad, and know that you will be, to know that we were able to get his body. He was all with him at the time. A volunteer party went up and got the body that afternoon, and he was properly buried well behind the lines here. All the men and officers of the brigade who could get away attended the funeral. A photograph of his grave, with the location, will be forwarded to you by the registration graves committee. If it is not, let me know, and I will take it up."

VERMONT WOMAN IS GUILTY OF MURDER

Jury's Verdict Mentions Second Degree for Killing Crippled Little Girl.

St. Johnsbury, Vermont, Sept. 11.—Mrs. A. Kenniston was found guilty of murder in the second degree today for participating in the killing, July 5, of Alice Bradshaw, the crippled eight-year-old daughter of a neighbor. The jury's deliberations lasted but forty minutes.

Mrs. Alvin Kenniston, a neighbor of the Bradshaw family, was arrested with Miss Etta Hicks, housekeeper for the girl's father, John Bradshaw, on July 8. According to the police, both women confessed to killing the child because she was a bother. Later, John Kenniston, a farm hand, was arrested. He has since pleaded guilty as an accessory after the murder and testified at Mrs. Kenniston's trial that under her direction he had carried Alice's body from the spot where it was hidden beneath some brush to the swampy field in which it was discovered August 8. County authorities planned to open the trial of Miss Hicks soon.

SWEDEN WILL ASK BERLIN TO EXPLORE

Foreign Office Disclaims Any Knowledge of Conspiracy Disclosed.

WASHINGTON ANGRY Sweden's Answer to Charge Regarded as Quite Unsatisfactory.

London, Sept. 11.—An official statement on the Swedish attitude towards the revelations in the German despatches regarding Argentine ships thru Swedish diplomatic channels follows: "The United States Government here has this year, in certain special cases, transmitted letters to and from Turkey, and at a time when with America, and in a state of war with Germany, the protection of American interests, in the summer of 1916 the British side was the transmission of telegrams between Germany and North America should cease. No formal demand was made, but it was understood that the Swedish minister should be asked to take measures to prevent any repetition of the incident.

U. S. IS ANGRY.

Washington, Sept. 11.—Sweden's answer in the Buenos Aires Puroles Venetian correspondence disappointed the American Government. It was plainly displeased that Sweden appears not to regard her offence seriously.

STEAMERS ARRIVED.

Buenos Aires, Sept. 11.—The foreign minister announces that the steamer Oran and the steamer Santa Rosa, both of the messages sent by Count Loxburg thru the Swedish legation to the German foreign office, arrived at French ports in June after Loxburg had sent his despatch.

MAY MEAN WAR.

Amsterdam, Sept. 11.—The Dutch Handelsblad says the Swedish Government has committed an act forbidden by international law, and must await the consequences of whatever the Telegram asks: "Will it mean war for Sweden?" and expresses the belief that Germany had been subjected to such provocation that it would not hesitate to declare war against Sweden.

RULES OF HEALTH FOR DYSPEPTICS

DIETING UNNECESSARY

There are two ways by which people suffer from indigestion, dyspepsia, sour stomach, flatulence, etc., can become the trouble. First, as practically all cases of indigestion are directly or indirectly due to acidity and fermentation, they can be eliminated from their diet by foods which ferment and form acid, such as all starches and sugar and foods containing them, thus prohibiting bread, potatoes, fruit and most meats. The only safe foods are gluten, wheat, spelt and small quantities of white meat of chicken or turkey. This diet is almost a starvation one, but it is sometimes quite effective. The second way, which appeals especially to those who like to eat hearty meals of good food, is now being advised. In this connection it is interesting to note that since the widespread use of bisulphated magnesia was established in 1912, patients have arranged to supply it in 5-grain tablets, two or three of which are equivalent to a teaspoonful of the powder and are much more convenient to carry.

FOR THE EMPRE

Captain Lewis Brock Henry, son of Mr. and Mrs. J. Edgar Henry, Maple Grove Farm, was killed in action south of France, Aug. 26. Capt. Henry was in his 25th year. In 1912 he graduated with high standing from the Ontario Agricultural College at Guelph. Before the war he was an officer in the 7th (Westward) Regiment.

ACCUSED OF HORSE STEALING.

Special to The Toronto World. Belleville, Sept. 11.—W. J. Shoemaker, alias J. Waters, was today brought back to Toronto on a charge of horse stealing. On Saturday last the accused hired a horse and buggy from a livery firm in Trenton, N. J., and instead of driving to Gananoque, where he was apprehended,

FOUR TYPES OF SERVICE BADGES AUTHORIZED

Thirty-Five Privates Pass Examinations in Operation of Lewis Automatic Rifle.

Camp Borden, Sept. 11.—It is understood the government has authorized four types of water service badges, which are not yet ready for issue. Headquarters here has received a number of enquiries for them, but of course can do nothing at present. When they are ready notice will be given thru the press.

KAISER: If I can't rule her, no one shall.

Special to The Toronto World. Belleville, Sept. 11.—Arthur McGINNIS, collector of customs for the port of Belleville, died last night. Although he had been in ill-health for some time he was in his office Saturday. He was born in Quebec on Christmas Day, 1852. For years he was in the grocery business in this city. In 1892 he was temporarily appointed in the customs department, and in 1912 was appointed collector upon the death of Wm. Webster. Mr. McGinnis was prominent in municipal matters and official of the A.A.A. and various societies. For years he was a member of the school board, library board and of the local patriotic board. He was identified with the Masons, Oddfellows, Foresters and Orange societies. He was a member and official of Job Street Presbyterian Church. A widow, one son and one daughter survive.

EASTERN APPLES TO SUPPLY WEST

Hanna Announces Nova Scotia Will Ship Crop to Prairies.

Winnipeg, Sept. 11.—According to W. J. Hanna, food controller, who was in Winnipeg today, western Canada will obtain apples from Nova Scotia. He stated that the British Columbia crop was 75 per cent. of normal. Ontario and Quebec have only 15 per cent. of the normal crop, but Nova Scotia has 100 per cent. normal. The latter province usually exports a large quantity of apples, but this year the crop has been unusually large and the west, and the food controller's department has arranged for the distribution of the surplus apples to the west. The price has also been fixed, and the wholesalers and retailers are expected to distribute on the basis of fixed prices. Another point made by Mr. Hanna was that it would be a great mistake for Canada to change the standard of flour. It was true that the standard of flour was lowered, but this would be much more than to export the loss that would accrue in export trade after the war.

WINNIPEG GRAIN MARKET.

Winnipeg, Sept. 11.—With the same buyers in the market yesterday there was an active demand for cash wheat at 12 1/2c. The market was steady around previous quotations. Offerings were not large. Demand for spot oats was also good, but offerings were small. Prices for straight grades were unchanged. Barley was in demand for grocers, with prices 1/2c higher. The market for oats for future delivery, however, was a decline of 10c to 1 1/2c during the day. The market for wheat was a decline of 10c to 1 1/2c during the day. The market for flour was a decline of 10c to 1 1/2c during the day.

Western Crop Prospects Are More Favorable

Winnipeg, Sept. 11.—The Free Press estimates of the crop of 1917 as follows: Wheat, 1,414,250,528 bushels; barley, 1,371,028,065; oats, 1,371,028,065; flax, 1,371,028,065. This estimate is based on an inspection of the three prairie provinces made by the commercial editor and the reports of over two hundred local correspondents. The value of the crop of 1917 is estimated at \$1,371,028,065, as against \$1,371,028,065 for the famous crop of 1916, \$220,000,000 for the crop of 1915, the year prior to the war, and \$128,000,000 for the crop of 1910.

SUNSHINE CAUSES SETBACK TO CORN

Prices Go Down at Chicago on Return of Warm Weather.

Chicago, Sept. 11.—Indications that but little damage had been done by frost brought about a material setback today in the price of corn. The market closed heavy, 1c to 1 1/2c net lower, at \$1.17 1/2 to \$1.18 1/2. The latter price was a decline of 1/2c to 1 1/2c and provisions to 1/2c. The weather was not so hot as it had been, and the corn crop was not so well as it had been. The market was a decline of 10c to 1 1/2c during the day.
