THE Toronto PICKET WIRE FENCE CO'Y.,

151 & 153 River Street, **TORONTO. ONT.**

The Cheapest and Best Farm and General Purpose Fence.

This cut represents our Combination Fence (with gate made of the same) composed of five double strands Bessemer steel wire firmly interwoven with pickets at a uniform distance. The pickets are supported by the cables in such a way that breakage is impossible and the pickets cannot be pulled out, making a fence that will turn all stock.

The **advantages** this kind of fence has over barbed wire are plain to any one. Stock can not be injured by it; you can drive your team up to it in plowing; it is ornamental, and a sure protection against all marauders. It does not draw all the strength from the adjacent ground, to the injury of your crops, nor make a harbor for vermin nor is it continually getting out of order, and tempting stock to become breachy and troublesome, like the plank fence; nor like the worm fence, occupying so much valuable land. In fact, it is the coming fence; **it has come** and has **come to stay.** We carry in stock or make to order all kinds of farm, field, orchard or vineyard, market garden, poultry yard, town or city plain or ornamental fence at from 50 cents to $1.50 per rod, according to style and quality.

We are also sole agents for the Favorite Fence Machine. To those seeking a light manufacturing business, that can be conducted the whole year through or to those whose time is partially occupied, and desire a business that can be taken up and dropped at any time, to "hitch on" to their other business, the making of the combination fence with the Favorite Fence Machine, offers a profitable, safe and pleasant business, as the old rail and board fences are rapidly going to decay and scarcity of material places the price of old styles of fencing much too high. This cut shows a bale of combination fence as it leaves the fence machine ready for use or shipment. Six rods to a bale is a convenient amount to handle, but bales can be made larger or smaller if desired. **Send for Price List.**

PREFACE.

The publishers in presenting the fourth edition of their Business and Farmers' Directory of the Counties of Dufferin, Halton Peel and York, have endeavored to merit the approval of the public, by presenting a work that will be found the most complete of the kind ever published in the district. It will be found to contain more information of a nature valuable to business men of all branches than any other publication heretofore placed in the hands of the people.

Among the contents will be found the name of each farmer and owner or tenant of a lot outside the limits of each city, town, or village, with post-office lot and concession, and complete list of towns with the business people alphabetically arranged, also a separate list of business people classified with reference to their business ; the whole combined making one of the most complete directories ever published.

A work of this kind involves a great amount of expense and labor, and th pnblishers have spared neither, but have made every effort to make a reliable work worthy of the confidence of business people.

Thanking those who have kindly given us information, also the business people and the public generally who have given the work their support, we remain,

Respectfully Yours,

UNION PUBLISHING CO.,
Publishers.

THE TUCKER

Cabinet Letter and Document

FILE,

With Automatic Suspension Device.

For Labor Saving and Office Convenience it is admitted to be the best and quickest FILE in the market. Testimonials given from the best offices in Canada on application.

For the Legal Profession for the Counting Houses, for the Government Offices, our Document File has no equal. GIVE IT A TRIAL.

35 FILE CABINET.

Patented Dec. 31st, 1881, and Jan. 7th, 1885.

The above cut represents a 35 drawer Cabine Letter File —one of our regular stock—made of black walnut, oil finished, and nickel trimmed. The cut so well describes the system that a description is scarcely necessary.

THE TUCKER FILE is acknowledged by the principal business houses in Toronto and elsewhere to be the best system in the market, for the following reasons :

1st. By means of the automatic suspension device the file drawer is drawn out partly and suspended on the face of Cabinet, enabling the operator to place letters into the file with least possible work, and also of reading the same in the file drawer without removing it.

The reason the Tucker system is supplanting all others is because it is much more accurate, simple and easy to file and refer to letters.

Papers are not mutilated by wires, which is the case with punch or wire files. Dates are not destroyed, which is frequent in punch files.

Papers are firmly compressed by means of a lever clamp.

CAPACITY:

THE TUCKER FILE has the largest capacity of any known system no matter how full the File becomes, all papers in it are easy of access.

TRANSFER CASES:

THE TUCKER TRANSFER CASE is made to take the contents of an individual file, and is simple and most complete.

SIZES OF CABINET:

CABINETS, supplied in sizes ranging from 4 files up to 63 in one cabinet; where more files are wanted the Cabinet can be made in two sections.

WOOD:

Our Cabinets are made principally of Black Walnut, but we make them to order of Cherry, in Mahogany finish, White Ash, and Birch.

SINGLE FILES & SECRETARIES:

We supply the Tucker Single Letter File, Single Document File, and Little Secretary, the latter is a small single file cabinet with a door and good Yale lock, made for private use. It is an ornament as well as a very useful article of furniture for ladies' use.

The Tucker system of filing was awarded the Diploma over all others at the Industrial Exhibition, Toronto, 1886, and at the American Institute Fair, New York, 1885.

For further information, cuts and circulars will be sent on application.

THE WORLD'S
Star Knitting Machine Works
ESTABLISHED 1872.

CREELMAN BROS.,
Manufacturers of
IMPROVED · KNITTING · MACHINES
—For Family and Factory Use.—
GEORGETOWN, ONTARIO, CANADA.

THE **WORLD'S STAR** will knit all garments used in any family, and any article that can be knit by hand. The coarsest yarn in cotton, silk or wool can be knit. No family can afford to be without one. Money made by knitting from 30 to 60 pairs, per day, of good plain seamless ribbed hosery.

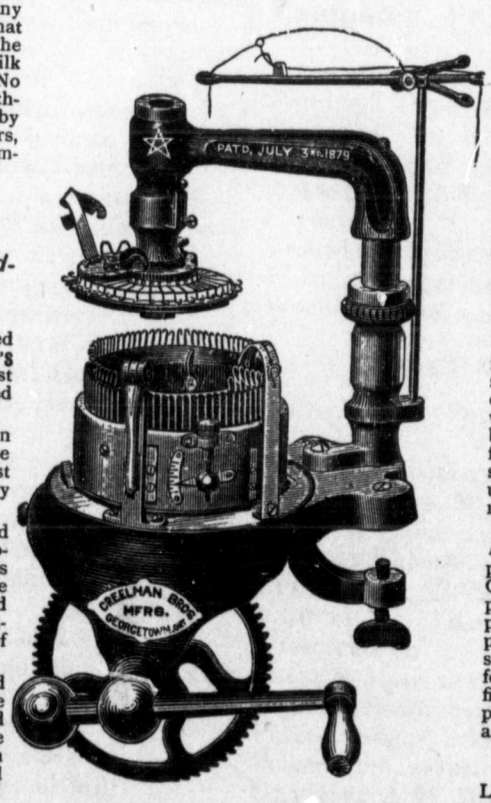

Silver MEDALS and AWARDS at all the Leading Exhibitions.

THE reason we succeed here is because the **WORLD'S STAR** is the simplest, most practical and easiest worked machine in the market.

THE reason we succeed in foreign markets. There the **WORLD'S STAR** is the best and most valuable Hosiery Knitter.

THE reason we succeed where there is most opposition. The **WORLD'S STAR** is there and proves itself to be the simplest and best, and always stays, for it is the leading **STAR** of all makes of Knitting Machines.

THE reason we succeed everywhere. There the **WORLD'S STAR** is the friend of the rich, the poor, the blind, the lame and even the little children find pleasure in learning and using it. *It is so wonderful, simple,* and so profitable that children can make more money using it than heads of families can at regular occupations.

MAKE up your mind to come and see for yourself. Do not let anyone prevent you; do not listen to or believe the representations made by those who are prejudiced, or who know nothing about our machines, or those interested in other machines, who are jealous of the success we are having.

THEIR sole object being to persuade you from seeing the **WORLD'S STAR,** which is so much more simple than others, and that does the work so much quicker and better, and such beautiful fashioned goods. Inspection invited. Don't buy until you have seen our new machines. *They are the best.*

MANUFACTURERS should run their machines by power when practicable. Goods can be produced ten per cent. quicker and at ten per cent. less cost. We supply power attachements, shafting connections, etc., for any of our machines, and fit up factories to run by power. Write for quotations and particulars.

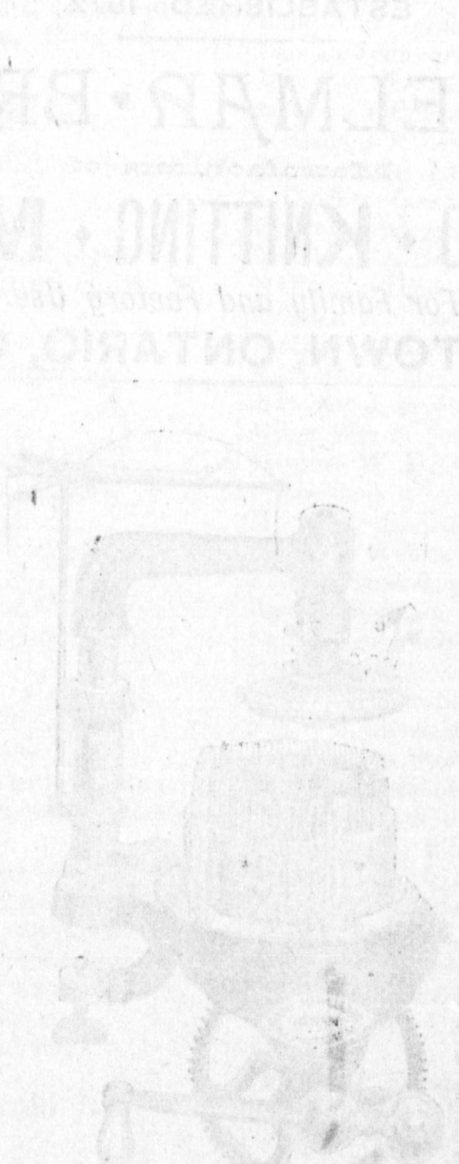

N. B.—Knitting Machine Latch Needles supplied for any make of machine.

COTTON YARNS.

All [illegible], colors, twists, mixes, etc., kept in stock always. Prices as low as good cotton can be sold. Satisfaction guaranteed. Send for Price List.

Railway fare paid by us, to any one within 100 miles, visiting our Factory and purchases one or more of our Celebrated Knitting Machines at our regular Retail Prices. Send for Circular and address.

THE "VOCOPHONE ORCHESTRA" ON THE PICNIC.

Young and old can play any tune on the funny Vocophone with ease, by simply singing into the Instrument. They are capable, under expert manipulation, of producing most facinating music and are a never ending source of amusement. They range in size from one to three feet long. Used in a burlesque act by concert troups, etc., they will be found very amusing. For masquerades, seranades, wedding or surprise parties, pic-nics, excursions by water or land, they are especially suitable. They are now made of material which is very light but ALMOST UNBREAKABLE, except by extremely rough usage. Their great novelty, combined with the effective music produced, will create an immense sensation wherever they are seen and heard.
