THE WAR ONLY ABOUT HALF OVER, SAYS WILL IRWIN, AMERICAN CORRESPONDENT

No End Till Enemy Driven Back To Own Ground

SURE OF ALLIED VICTORY

Mastery of Air Feature on Western Front—Canadian Doctor, Back From France, Says Every Able-bodied Man in Canada Will Be Needed

New York, Nov. 27.—The Times says: "According to Will Irwin, war correspondent, who returned here yesterday from France on the American liner Philadelphia, the war will end when France and Belgium have been cleared of German troops. For the allies to make peace under any other conditions, he said, would mean the death of English and French nationality."

Mr. Irwin said the allies would continue the offensive along the twenty-eight miles of the Somme front all winter, every fine day. It was impossible to operate during the heavy rains, as the mud was so deep that the artillery could not be moved. In some of the trenches he visited the mud was waist high. Mr. Irwin spent a week with the Canadian troops just prior to leaving the front. "There can be no question whatever as to who will win," Mr. Irwin said, "but the war is only about half over. The Germans are putting up a wonderful fight, but they cannot win. One of the most marked features of the west front is that Germany is totally out of the air. You never see a German airplane over the allied troops in France, but the air is filled with British and French planes as thick as buzzards. There are hundreds and hundreds, possibly thousands of them in the air every day, and it is the death of any German airman who ventures against them."

Every Able-bodied Canadian Wisconsin, Ont., Nov. 27.—(Toronto Globe)—Addressing the North Essex Conservative Association Saturday, on the occasion of his election as vice-president, Dr. Paul Person, who recently returned from France after serving two years with the Canadian Army Medical Corps, said it would be necessary for every able-bodied man in Canada to get into uniform before the end of the war. "but it will take every man and all the resources of the British Empire to do it. It is the duty of Canada not to waste time and energy on a war-time election, as is hinted, but to make every effort to aid recruiting. Men are badly wanted by the Canadian divisions in France."

L.T. COL. GUTHRIE TO CROSS CANADA TO GET MEN FOR KILTIES

New Recruiting Campaign in All the Provinces is Being Started

Fredrickton, N.B., Nov. 27.—The 20th MacLean Kilties Battalion, which now has authority to recruit all over Canada, is prepared to start a new recruiting campaign in the various provinces. Lieutenant-Colonel Guthrie is to leave Fredrickton tonight on a trip which will take him through to the Pacific coast. He is to be accompanied as far as Toronto by Capt. T. R. McNally, late of the 1st Battalion who will remain in Toronto and direct the campaign in Ontario with the committee of Clan MacLean, which now has representatives in each county of that province. Major Frank Eason, who has been in Toronto, will accompany Col. Guthrie to the coast, and it is expected that Captain J. P. McPeake, the Kilties' paymaster, and Captain E. Alban Sturdee, late of the 20th Battalion, will also be members of the party, while Transport Sergeant Fred Lawney, who lived for a number of years in British Columbia, is going to that province to carry on recruiting work there.

To look over the ground in Nova Scotia, Lt. Col. Guthrie had selected Major C. R. Merseure and Captain J. D. Black, and Lieut. Ray L. Brewer and N. Cameron McFarlane. Major Merseure is also to spend a few days in Prince Edward Island, accompanied by Lieut. C. E. Blair and Sgt. Major Deane and Pte. Wood, the last two named being Prince Edward Island boys. During the Christmas holidays, when the larger centres are bound to have many young men coming in from the woods and elsewhere, it is proposed to carry on an active recruiting campaign for the Kilties. This will be true of New Brunswick, as well as the various other provinces.

WIRELESS OPERATOR DIES ON SHIP; WAS P. E. I. MAN

Quebec, Nov. 27.—H. C. Cook, wireless operator on the C. G. S. Montcalm, died on last Friday, when the vessel was steaming to this port. His body will be sent to Charlottetown, P.E.I., where he lived. Cook leaves a wife and several children. He had been connected with the marine department for some time.

THE PEOPLE OF CANADA

Those Who Make Sacrifice and Those Who Do Not

(Toronto Star.)

On every street in the city, and wherever you care to look throughout the country, you will find two families preserving towards the war attitudes so entirely different that you might almost suppose that the two families were of different races. You might suppose that one family wanted Canada and the allies to win, while the other family did not care very much one way or the other. The men of one family have gone away and are fighting in the war, the men of the other family have stayed at home and are making more money right now than they ever did before. To the door of one house the postman now brings an irregular and anxiously awaited intervals a foreign letter marked "On Active Service." To the door of the other house a chauffeur now rolls up a handsome limousine.

These people are not of another race, these who do not go to war and whose sons do not go. They are not a different race, but they are in process of becoming one. They elect to stand aside, to keep behind the ramparts along with the women, the young and the old, the usurers, and the money-changers, while men of sturdier stock arm and march forth to defend the city.

SHAPING INTO TWO SEPARATE PEOPLES.

These men, these families, they have their excuses, and they consider them fine ones. They tell them to each other, and each one as he listens despises the excuse of the other, and hastily tries to do better himself, but does not. They are very busy; their sons are doing work so important that they cannot leave it, besides, their sons were not strong when quite young—as if anybody could not say the same thing—and could never stand the rough life. But what they mean is that they are fond of their sons, they feel that war is dangerous to those who engage in it, and these are nice comfortable times here at home and miles of money coming in.

So it goes. Two separate peoples are shaping up among us, side by side, on every street. One not only talks patriotism, but lives it; saves the race and keeps alive virtues and traditions of which all have made boasts; suffers, sacrifice, and triumph. There is not a family among all those who mourn, or who watch and wait and fear, but is ennobled by its sacrificial service for mankind—not a member of any such family who is not made the richer in mind and feeling throughout all his or her days by the new light that now envelops the family shrine and makes of it a holier place. But for others in Canada prosperity abounds. The war is far away. These others here are doing just what the people of the United States are doing—standing pat and making money out of Europe's ruin.

THOSE WHO FALL FOR US IN BATTLE.

At the front, the men of Canada who have gone there, have shown a valor, a tenacity, a fortitude, a cheerfulness under hardship, that has won the world's admiration. These men, these boys, have shown qualities that their country here at home lacks at this hour. Every man in Canada should have read, if he did not, a letter published in The Star a short time ago, from a boy at the front. He wrote telling his mother that he, other sons, his brothers, had fallen in the fight.

"It is hard, mother dear," he wrote, "to write you today, for, by the time this letter reaches you, you will know that your baby boy, my dear old brother, went to glory, along a path which only men go, fighting for you and for God, and for our glorious Empire and flag. I know he died in the way all soldiers want to die. Of the seven boys in my section who left the trench, I alone hit the enemy's lines. . . . I was able to stand up to it, all mother dear, by divine Providence, I am sure, and live to fight again. You have lost one of your boys, mother, and you may lose another, but we are not afraid to die, and we shall all meet again, where wars shall be no more. He was a man, mother dear, remember him as a man, a great big man, who acted a man's part all through."

He acted a man's part all through, and all these boys are not afraid to die if need be, as this same writer says in his letter, "for the ashes of his fathers and the temples of his gods." But here at home let us preserve for these boys the temples they defend, and make the country worthy of these dead. Another Toronto boy wrote a letter before going into battle, and left it in safe hands to be mailed to his mother in case he fell. The mother received it, and in it he said that if the letter reached her "my duty to my country will have been served, but to you, I owe much more. My only regret at this hour is my want of opportunity to add to the comforts of your life and fulfill the obligations of a son to a mother."

AND HOW ARE WE DOING HERE AT HOME?

At home here in Canada, many things go on as if there were no war except a foreign one away from somewhere out of which we can, if we are clever, make a pile of money. Business is humming. Everybody's busy. Stocks are on the rise. Any fellow with a little money can make a pile if he keeps his eyes open. There's talk of a general election, and the politicians on both sides are flying about discussing the chances.

In Canada in these days carrying herself as a country should that has these armies at the front—armies in which the casualties for October numbered upwards of 14,000? Do those in high places who ought to be giving the country leadership know what is going on around about them, in the homes of the people, where every day messages arrive telling them know that their sons, captains and lieutenants, sergeants and privates are dying gladly that their country may live? It is impossible to believe that any man who knows what is in the hearts of the people from whose homes have gone forth the 850,000 men under arms, can look with patience on the failure of the nation as a nation to turn aside from selfish pursuits in business and politics, and devote the entire mind, energy and resources of the country to the strengthening of the hands of the armies at the front. More men are needed in arms to support those already at the front of battle. Preposterous profits are being made in the manufacture of the munitions our soldiers use and in the supplies they require. The foods and necessities of the people are being cornered and combined to the public injury.

What we need here at home is a general acceptance of the standard of devotion expressed by the soldiers at the front, who die gladly that their country may live. If men will lay down their lives for Canada, other men, not called upon for this sacrifice, ought gladly to lay down lesser things. All that is required is that a few men, who are leaders among us, should stand out together, renounce partisan politics, suspend parties, organize a National Government, and proceed to make the country at this time one worthy of the sacrifices of those who die.

HUNTSMAN KILLED BY HIS OWN GUN

Harold Eden, of Gaspé Bay, tripped over a fallen tree, causing the discharge of his gun which killed him outright.

THEATRICAL MAN IS KILLED IN FEARFUL FALL

New York, Nov. 27.—Joseph Brooks, theatrical manager, was killed today by a fall from his eighth floor apartment in West 79th street.

Corsican, First Of Winter Port Steamers In; Many Wounded Soldiers Aboard

The Allan liner Corsican arrived this morning from Liverpool with 965 passengers, a fair-sized cargo and a large quantity of mail. The latter contained 825 bags for Russia, and 125 bags for Japan. Many soldiers were on the steamer, some wearing colors which identified them as returned heroes who had been decorated for conspicuous gallantry on the battle field, while others bore physical evidence of their encounter with the Hun. As the steamer swung into her berth at Sand Point a little after seven o'clock the members of the 50th Battalion Band struck up the air "Oh! Canada," and the soldiers gave three rousing cheers. The reception committee, were on hand and extended a hearty welcome to all. Owing to extremely rough weather after leaving Liverpool, the officers did not think it safe to allow the pilot to leave the ship, and he was brought to Canada.

The train containing the mail got away from West St. John about 2 o'clock and a special carrying the troops left about an hour later. The bride and groom were on the train. The arrival of the steamer was anxiously awaited by Rev. H. Bennett of Upper Jersey, who knew that his bride-to-be was on board. This lent a touch of romance to the scene, and the meeting was a happy one. The wedding is to take place tomorrow in the Mission Church, Paradise row. Some of the experiences of the bride and groom are given below.

NONE HAVE YET REPORTED SIGHT OF SUBMARINES

Getting ready to find out what all can best do for cause. Ottawa, Nov. 27.—R. B. Bennett, M.P., who succeeded to the post of director-general of national service, is actively preparing to launch the campaign. "The regulations outlining the responsibilities of the national service board," said Mr. Bennett today, "specifically provide for the substitution of non-essential industries must be prevented from absorbing an undue proportion of the manpower of the country. Our board must determine the manner in which men can better serve the nation at this time, whether in a military or industrial capacity; to provide for the substitution of non-essential industries must be prevented from absorbing an undue proportion of the manpower of the country. Our board must determine the manner in which men can better serve the nation at this time, whether in a military or industrial capacity; to provide for the substitution of non-essential industries must be prevented from absorbing an undue proportion of the manpower of the country. Our board must determine the manner in which men can better serve the nation at this time, whether in a military or industrial capacity; to provide for the substitution of non-essential industries must be prevented from absorbing an undue proportion of the manpower of the country. No ships to send it to England, where it is sorely needed. C. P. Williams, of Australia—the "wheat king," and his stack of wheat, in course of construction, and already amounting to a million bushels or more.

DO YOU FEEL SEEDY?

If You are Nervous, Depressed, Sleepless and Suffer from Sick Stomach, Headache, Constipation and Indigestion You Need Ferronone to build Up the System

Thousands are in this dreadful condition, only half alive, unable to stand the strain of work and worry. There is no sense or reason in trying to be comfortable with the idea that it will pass off and that you are going to be better soon. Unless the system is cleansed of the impurities that poison the blood, you will never be better.

The best remedy is Ferronone. It achieves marvellous results in chronic wasting diseases, nervous prostration, faulty nutrition, heart disease and stomach troubles.

Ferronone promotes healthy digestion which results in all food being assimilated. Nutrition is vastly improved, the blood grows rich and red and gives stability to the entire system.

Disordered conditions cannot exist where Ferronone is used. It attacks disease at the very foundation, and by keeping the body well nourished and supplied with strong blood and a powerful nervous organization prevents and keeps away all manner of sickness.

There is no blood builder, nerve tonic and strength producer that can equal Ferronone, and few people are so well that could derive great benefit from its use. It is valuable in Nervous Dyspepsia, Anemia, Weakness, Impure Blood, Bronchitis, Neuritis and Rheumatism. It is prepared in the form of a chocolate coated tablet and is both pleasant and convenient to use.

Ferronone produces that high standard of health so much desired by every one. It brings back the rosy tint to the pale cheeks of the Anemic girls and women. It puts grace and elasticity into their movements, gives lustre and brightness to the eye and symmetry and roundness to the form. It gives a man new strength and energy with which to pursue his daily toil and can be relied upon at all times to benefit and give perfect satisfaction.

You can't invest half a dollar to better advantage than in a box of Ferronone. Your druggist has it.

LOCAL NEWS

The one hundred and twenty-fifth anniversary of the Queen Square Methodist church was celebrated yesterday.

E. O. Leahy's dredge, Leonfield, has just finished a \$10,000 contract for dredging both sides of Long Wharf and berths 15 and 16.

By working until midnight on Saturday, the crew of Corey & Stevens finished the granite block paving in Main street in record time.

Members of St. Andrew's Society attended special service in a body yesterday afternoon at St. John's Presbyterian church, with Rev. J. H. A. Anderson, minister of the church, serving as chaplain.

Detectives Barrett and Briggs visited a house in Union Alley on Saturday night and several bottles of liquor were seized in the home of George Hope. He is now at central station charged with keeping liquor for sale without a license.

The river steamer Hamstead was released from the ice on Saturday and was able to reach the city after being caught in the ice since the recent cold spell. The Viking went to her assistance. Both steamers returned to the city on Saturday.

Two slight Sunday fires brought the fire department out twice yesterday afternoon. A slight fire in the house of Mrs. Ellen McNamara caused little damage. Another alarm called the department to Pond street. In this instance a mattress was destroyed.

The members of the Red, White and Blue Circle of the Soldiers' Comfort Association held a most successful tea and sale Saturday afternoon at 18 King street, the proceeds of which shall be utilized for patriotic purposes. The band of the 160th Battalion was present. Mrs. Osborne and Miss L. Campbell poured the tea.

H. O. Bank, athletic director of the Y. M. C. A., gave the most of a series of talks on sex education to a group of sixty-nine boys on Saturday evening. H. A. Porter, yesterday morning, spoke on the life of John Wycliffe before about thirty-six boys. Last evening the first meeting was entertained by Mr. and Mrs. W. C. Cross. An address was given by A. M. Gregg.

A river of ink is formed in Algeria by the union of two streams, the water of one being impregnated with iron and the other, which drains a great swamp, with gallic acid. This combination of iron and acid forms a purp ink.

SAYS MUCH MILK GOING FROM NEW YORK TO ALLIES

New York, Nov. 27.—Declaring that purchasing agents of the Entente Allies outside his agents by 25 per cent. in the purchase of raw milk from New York State dairymen, Loton Horton, president of one of the largest milk distributing companies in this city, in a statement today predicted milk riots in this city within a few weeks, unless steps are taken immediately to curtail exportation of milk products. "Our local milk supply is affected seriously by the enormous drain for foreign markets," Mr. Horton said. "In my estimation, fully 100,000 quarts of milk that should flow daily into the local markets are being shipped abroad in clean and powdered and evaporated milk. It is time the public knew that Europe threatens to drain New York's milk supply dry. I have fifteen men out searching for additional sources as far west as Chicago. The situation is serious."

BIRKS DIAMONDS—AN INVESTMENT

THE Diamond, unlike ordinary merchandise, does not deteriorate through age or wear, neither does its brilliancy change nor fade. From the moment it leaves the hands of the cutter, a Birks Diamond possesses a certain fixed value, which is covered by the Cash Value Guarantee—a condition under which it is purchased. We know of no other offer of merchandise that is accompanied by a greater assurance of value. A gift piece in Diamonds is therefore doubly satisfactory to giver and recipient.

Our catalogue will be mailed to you immediately upon receipt of request

GRAND COMPLEXION IMPROVER! BETTER THAN COSMETIC

When it's so easy to bring back the bloom of youth to faded cheeks, when skin disfigurements can be removed, isn't it foolish to plaster on cosmetics? Go to the root of the trouble—remove the cause—correct the condition that keeps you from looking as you ought. Use Dr. Hamilton's Pills and your skin will have a complexion to be proud of. How much happier you'll feel—pimples gone, cheeks rosy again, eyes bright, spirits good, joyous health again returned. Never a failure with Dr. Hamilton's Pills, get a 25c box today.

MORNING NEWS OVER THE WIRES

Efforts are being made to raise capital to build a three-masted schooner of four or five hundred tons on the Miramichi this winter. She will be an ocean-going vessel.

An order-in-council has been passed by the government in Ottawa authorizing the department of railways of Canada to call for tenders for the construction of two steamships for trade between eastern Canadian points and British Columbia points, via the Panama Canal.

William Duncan of Fredericton has accepted a position on the St. John police force and will take up his new duties on December 4.

Premier Clarke and Mrs. Clarke have returned to their home in St. Stephen after a visit to Boston.

The Duke of Devonshire has accepted the office of chief scout of the Boy Scouts' Association in Canada. He is the third governor-general to occupy the position.

General Sir Sam Hughes left Ottawa last night for his home in Lindsay. On his return to Canada he will make some of the United States army officers.

On his return to Canada he will make his first public statement as to why he quarrelled with Premier Borden and other members of the cabinet.

DISCUSS TEMPTATIONS TO SOLDIERS IN ENGLAND

Toronto, Nov. 25.—The question of temptations to Canadian soldiers in Great Britain was discussed yesterday at a meeting of the executive of the Council of Social Service of the Church of England. It was decided to communicate with the Archbishop of Canterbury with the object of ascertaining the conditions, what steps are being taken to meet them and what the representatives of the church in Canada can do to help.

RECENT DEATHS

Mrs. Catherine Crowley, widow of James Crowley, died yesterday at the home of her son, John Crowley, of this city. She is survived by four sons and two daughters.

The death of Richard J. Haley, occurred at the residence of his mother, 89 St. James street, on Saturday. He is survived by his mother, Mrs. Mary Haley, and three sisters.

The death of John O. Vanwart, of Ewaldville, occurred at an early hour this morning. He is well known throughout the province. He was seventy-nine years of age and is survived by his wife and ten sons.

Edwin K. Snodgrass died yesterday at the General Public Hospital from pneumonia. He was a native of Hampton, but made his home in St. John and was in the employ of the St. John Railway Company as motorman. He was twenty-five years old and is survived by his wife, three sons, one brother, his parents and three sisters.

FOUR RECRUITS AND SIX CASUALTIES

Four recruits were secured on Saturday in the city for the naval service: George Lyons, Chatham; Fred Phillips, Bath, N. B.; Walter Meyers, Sackville, and William McIvor, St. John. The names of six New Brunswick men appear in the midnight casualty list—wounded and missing: L. Buchanan, South Bay; wounded, C. Loggie, Chatham; Driver C. DeGrace, St. Oliver; H. M. Campbell, Blackville; R. F. O'Regan, St. John; and previous report, J. J. Little, Grand Falls.

HAD BOILS For Six Months B. B. B. DROVE THEM AWAY

When the blood becomes impure the very first symptoms which manifest themselves are a breaking out of various forms of skin trouble such as boils, pimples, sores, etc., to get rid of these troubles you must cleanse the blood thoroughly with a good blood remedy. The best blood cleansing remedy on the market today is Burdock Blood Bitters.

Thousands of people from one end of Canada to the other have used it during the past forty years, and have nothing but words of praise for its cleansing properties.

Mrs. Rufus Beers, Upper Main River, N.B., writes: "I want to say a few words about your medicine, Burdock Blood Bitters. I had boils for over six months and sometimes was so bad I could not work. I tried lots of cures but nothing would drive them away for good until I took B.B.B. In a short time I was all better. It is a dandy medicine. I keep it in the house all the time."

Burdock Blood Bitters is manufactured only by The F. Milburn Co., Limited, Toronto, Ont., but so well and favorably is it known that there are many imitations on the market. See that our name appears on the wrapper.

THE WAR
This morning's advice from the Allied capitals leave the extent of the Roumanian reverse still in doubt, though commandingly it is had enough. Nevertheless, in regarding it one must remember that though Roumania is still suffering heavily from its mistaken policy of invading Transylvania without properly guarding its other fronts, and while the Allies have lost, through the Roumanian reverse, a great chance of shortening the war considerably, the German success in the Balkans is, after all, only an offset to Roumanian's entry on the side of the Allies.

THE FORMALIST
(Lakeview, N.J., Nov. 22, 1916.)
The President, The White House, Washington, D.C.: Because of the closeness of the vote, I have awaited the official count in California, and now that it has been virtually completed, permit me to extend to you my hearty congratulations upon your re-election. I desire also to express my best wishes for a most successful administration.

AGAIN, THE KAISER
The Kaiser has not been quoted so often as late as in earlier stages of the war, but the death of his ally or dupe—Emperor Francis Joseph of Austria, has called forth a characteristic utterance. In a message to the new Emperor he says the government of the late ruler of the dual kingdom "will live in the history of the monarchy as a period of blessing"; and:

HOW TO GAIN FLESH

Remarkable Statement of a Woman Who Was Nothing But Skin and Bones
Laugh and grow fat is a homely saying, but Mrs. Elizabeth L. Morris of Hammond, La., tells of a more reliable method. She says: "I cannot say enough in praise of Vinol, for it saved my life. I was weak, nervous, run-down, could not sleep, was unfit for work and was nothing but skin and bones. Three doctors had all failed to help me. One day I saw Vinol advertised, took courage and bought a bottle, and it soon made me feel better. I continued its use and such a change! I have regained my strength, flesh and health, am perfectly well, and the doctor was surprised to see such a change in me in such a short time." Elizabeth Morris, Hammond, La.

LIGHTER VEIN.

An American visiting Dublin told some startling stories of the height of New York skyscrapers. An Irishman stood it as long as he could, then asked: "Ye haven't seen our newest hotel, have ye?" "The American thought not." "Well," said the Irishman, "it's so tall that we have to put the two top stores on hinges." "What for?" asked the American. "So we could let 'em down till the moon went by," said Pat.

THE PILGRIM'S PRAYER.
(By James W. Foley, quoted from Pictorial Review for December, 1916.)
Lord, now at Christmas time, help me to be the boy I ought to be:
To learn my lessons in the way My teacher wishes, every day;
In school hours keep me to be good And me like Uncle does some day;
And when my teacher's cross and bored Help me forgive her, please, dear Lord.

Dear Lord, if you just understood How I want always to be good, I know you would forgive me when I happen to be bad again;
You can't expect a boy like me To be as perfect as can be, For there are many reasons why I can't, no matter how I try.

But often when I go to bed, And think of my sins and bad, I'm sorry, when she's gone away, If I was naughty on that day, And I like Teacher, even tho' She scolds for things I do not know, And does not always seem to see How hard the lessons are for me.

Help them forgive me more and more Than they have ever done before.

D. McNicoll Dead

David McNicoll, formerly vice-president and general manager of the C. P. Railway, died on Sunday at Guelph, Ont. The funeral will take place in Montreal on Tuesday afternoon.

Mr. McNicoll was born in Arbroath, Scotland, in 1862 and entered the service of the North British railway as a clerk when fourteen years of age. A few years later he came to Canada and entered the service of the Northern railway and later was identified with the Grey & Bruce railway. He entered the service of the C. P. R. in 1888 as general passenger agent, eastern Ontario division, and rose steadily until he became general manager and vice-president. He retired from active service two years ago on account of ill-health.

He was president of the St. John Bridge & Railway Company, a director of the Toronto, Hamilton & Buffalo railway, a director of Molson's Bank, and an acquire of the Order of St. John of Jerusalem.

Mr. McNicoll was a frequent visitor to St. John and was deeply interested in the development of this port.

TRAVELLERS' OFFICERS.

Nominations for officers for the Maritime Commercial Travellers' Association, whose annual meeting will be held on December 8, has resulted in the election by acclamation of the following:

President, James C. Jones, vice-presidents, Nova Scotia, A. Milne Fraser; New Brunswick, D. McKinney; directors, Nova Scotia, C. Blackie, F. W. Budd, H. E. Pyke; New Brunswick, L. C. Armstrong, E. R. Fenwick, E. A. Hoyt.

A MOTHER'S TROUBLES

A mother's unending work and devotion drains and strains her physical strength and leaves its mark in dimmed eyes and careworn expressions—she ages before her time.

Any mother who is weary and languid should start taking Scott's Emulsion of cod liver oil as a strengthening food and bracing tonic to add richness to her blood and build up her nerves before it is too late. Start Scott's Emulsion today—its fame is world-wide.

Mrs. Harriman's Gems Recovered

She Lost \$65,000 Worth—\$40,000 Ruby Had Been Sold for \$650 to Opician

New York, Nov. 27.—Jewels worth \$65,000, which were stolen early this month from Mrs. E. H. Harriman, have been recovered after the arrest of Arthur F. Daggett, an employe of the Farmers Loan and Trust Company of 415 Fifth avenue, where the jewels were kept, and his brother, Orville Daggett of Brooklyn.

Detectives Boyle and Griffin of police headquarters, arrested Arthur in the basement of the bank, where he was at work. At about the same time, Orville Daggett was arrested in Brooklyn.

When the detectives locked up the prisoners, they said that all the jewels had been recovered and would be brought to headquarters.

When the fact of the robbery was made public on November 18, by the publication of the list of missing gems, it was not known whether they had been stolen from a safe built into the wall in the home of Mrs. Harriman at Fifth avenue and Sixty-ninth street, where she kept them occasionally for short periods, or from a box in the vault of the trust company.

The Daggett brothers were both well dressed, middle-aged men of respectable appearance. Orville said he was forty-eight years old, a clerk, unmarried, of Brooklyn. The brother, Arthur F., said he was forty-two years old, married, and lived at Larchmont. The detectives refused to say whether or not either had made a statement after the arrest. Both men were arrested on a complaint sworn to by C. C. Tegethoff, agent for the E. H. Harriman estate. The following is the description of the stolen jewels:

Two oval-shaped rubies; one oval-shaped diamond, estimated at 8 1/2 to 10 carats. Each is set in platinum, and they are attached to a chain one-fourth to one-half inch long between each pendant, each chain containing five or six small diamonds.

The time of the theft could not be determined when the jewels were first missed by Mrs. Harriman on opening her jewel case on Monday, Nov. 18, the opening night of the grand opera season.

After Mrs. Harriman had opened the jewel case and found it empty she remembered that she had not seen the pendant since last March, when she had put it into a leather case on her dresser after attending a dinner. It was then put in the wall safe in the Harriman residence, and a few days later returned to the vault of the trust company. The companies which had insured the jewels raised objections to paying burglary insurance because it was impossible to specify where the jewels were at the time of the theft.

An effort was made to trace the jewels secretly through private detective agencies, but news of the theft came out when circulars describing the gems were sent to pawnbrokers in every city in the country.

A \$40,000 ruby was part of the jewelry stolen from Mrs. Harriman and was sold to an opician for \$650, according to police.

The Whole Body Needs Pure Blood

The bones, the muscles, and all the organs of the body depend for their strength and tone and healthy action on pure blood.

If the blood is very impure, the bones become diseased; the muscles become enfeebled, the step loses its elasticity, and there is inability to perform the usual amount of labor. The skin loses its clearness, and pimples, blotches and other eruptions appear.

Hood's Sarsaparilla makes pure blood. It is positively unequalled in the treatment of scrofula and other humors, catarrh, rheumatism, dyspepsia, loss of appetite, that tired feeling. Be sure to get Hood's and get it today. All druggists.

ice statements. The ruby passed through several hands and was to have been sold to a Fifth avenue jeweler, who notified the police of his prospective purchase. This clue led to the speedy solution of the disappearance of the Harriman valuables.

BE PATRIOTIC—WEAR RUBBERS

British Government Has Given You Rubber at Low Price, So You Can Wear Rubbers and Over-shoes to Protect Your Expensive Shoes

Before the war a cow cost sixty dollars, now a cow's hide costs as much. This means expensive shoes—the same quality as before with a price fast approaching double that formerly paid.

"What's to be done?" asks the man or woman in moderate circumstances.

"Buy Rubbers and Save your Shoes" is the answer the British Government gives. The British Government has put the price of rubber down so that you may benefit. Think of this and think of the rise in the price of other staple articles.

Then, be patriotic and wear rubbers—rubbers made from British Government rubber—and save your shoe leather from winter's snow and fall rains.

ABYSSINIA CONTINUES TRUE TO CHRISTIANITY

Washington, Nov. 26.—Abyssinia, the oldest Christian country in the world, has put down another attempt to bring it under the sway of Mohammedanism. Details reaching here through official sources of the revolution fought out on the African plateau show that the overthrow of the young emperor, Lidj Jesu, by his mother, Ouizero Zeoditu, followed the emperor's conversion by his father to the Mohammedism and efforts to change the national religion. Lidj, who is about 20 years old, succeeded his grandfather, the famous old Emperor Menelik, whose oft-reported death was officially admitted three years ago. Ouizero Zeoditu is now on her father's throne with the title of Empress of Ethiopia.

Johnny Kilbane Will Stake Title

Will Give Hommey a Chance for the Featherweight Championship on New Year's Day

However loath they are to concede it, Johnny Kilbane, featherweight champion of eastern fight fans. Like Mike Gibbons, America's premier middleweight, writes Dan Lyons in the New York Globe, he is in rather bad odor around the metropolitan district. While it cannot be denied that both men are truly self-made pugilists, it is in a big match here they prove dismal disappointments.

In New York Kilbane has yet to perform in a manner befitting one of his high position. He has fought here many times and often since he outpointed the crafty Abe Attell for the world's title. This was four years ago last Feb. 22. Since that time he has had about ten fights in the greater city's Queensberry rings. In only one of them did he show the form expected of him. That was when he chucked with Kid Julian, the tough and rugged upstate boxer, at the St. Nicholas A. C. three years ago last October. The champion stopped Julian that night in five or six rounds, if we remember correctly.

On New Year's day Kilbane will engage in his second 20-round championship fight within six months. On July 4 he met and flattened George Chaney, the Baltimore knockout artist, in a bout at Cedar Point, Ohio. Chaney had been a rival of the champion for a long time, and

many fans had come to the conclusion that Johnny was afraid of him. Finally, when his price was met, Kilbane took on his "dangerous" rival and conclusively demonstrated his superiority. On Jan. 1 next Kilbane is billed to box Jackie Homeny, 29 rounds to a decision in Baltimore.

Like Chaney, Homeny has been seeking the match for a long time. He has already faced the Ohioan twice. On Jan. 31 last they fought six rounds in the Olympia A. A. of Philadelphia. In Nov. 22, 1915, they engaged in a 12-round fight in Toledo. Since their last meeting Homeny has been pestering Kilbane for a real championship fight. He has his chance at last.

"Pape's Diapepsin" Ends All Stomach Distress in Five Minutes

Time it Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't sit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there. Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

Some time ago a young man in the army, whose folks live in an interior town of Arkansas, was sent to the Philippines. Upon his arrival in the islands he sent a cablegram to his father back home. The day after the message arrived the father was speaking about it to a friend.

"Great thing, that cable, Bill," remarked the parent. "Just think of that message comin' all them thousands of miles!"

"Yes," was the hearty response of Bill, "and so thunderin' quick, too."

"Thunderin' quick!" exclaimed the father. "Well, I should say so! When I got that message the muckage on the envelope wasn't dry yet!"

"There's really no necessity for man and wife to quarrel," said Mrs. Patter. "We never have any words in the house. When I feel tired and irritable, I wear a cardinal-colored ribbon, and then Mr. Patter lets me have my own way, and I treat him just the same as usual."

"O-o-o," exclaimed her friend, "I wondered why you'd been wearing red so much lately. That explains it!"

To Cure a Cold

not only must the local irritation be soothed and the coughing stopped, but the system must be strengthened to enable it to throw off the cold. Mathieu's Syrup of Tar and Cod Liver Oil is an effective tonic, combining in a unique manner the healing properties of Tar with the up-building qualities of Cod Liver Oil and other valuable medicines. In most cases a permanent cure is effected no matter how deep seated the cough.

Mathieu's SYRUP OF TAR & COD LIVER OIL STOPS COUGHS

Sold in generous size bottles at all dealers. THE L. L. MATHIEU CO., PROPRIETORS, SHERBROOKE, P.Q. When the cold is feverish the use of Mathieu's Nervine Powders with the Syrup is advised. They allow fever and stop the pain. Sold everywhere, 25 cts. per bottle.

ORDERS UNLIKELY TO BE CANCELLED?

(Montreal Gazette.) New York, Nov. 25—Suggestions that the Allied governments plan to cancel many of their orders for shells and other munitions here, following the cancellation of one rifle contract, may be dismissed as not worthy of serious consideration.

England and France, it is claimed, are now able to supply all their munition needs. Similar claims were made six months ago, just before large shell orders were placed here. And munition orders are being placed even now.

Only a month or so ago contracts for 3,000,000 fuses were let to the American Locomotive Company; New York Air Brake, within a fortnight, closed orders for 2,500,000 cartridge cases, and 1,600,000 detonating fuses; and the Scoville Manufacturing Company is understood to have taken a large fuse contract. Inquiries for French shells are now in the market, and will probably be placed soon.

This hardly looks as if the Allies can depend entirely on their home factories for their needs. The fact is that there has been a great deal of talk over certain contracts. The Russian contracts, which had only recently to be modified and the time for their fulfillment extended to April 1, 1917.

But concerns which have given satisfactory deliveries and goods on original orders, and are now engaged in filling new contracts, are not in the slightest danger of having cancellations. Specific statements that shipments of rifles for the French government have practically ceased imply much less than the facts of the case warrant. With the exception of Belgium, probably no mem-

When the Back is Lame IT IS A SIGN OF Kidney Trouble

Beckache is the signal sent out by the kidneys the minute they become over-taxed.

Those who heed the warning when it first comes, usually have but little trouble. The danger lies in delay. You can ward off the lame, aching back by curing the aching kidneys beneath—for it is really the kidneys' aching and not the back, that is the trouble.

Doan's Kidney Pills are a special remedy in kidney and bladder troubles only, they are not a "cure all."

Mrs. Wm. Traverser, Campbellton, N. B., writes: "It is my pleasure to write you in regard to your Doan's Kidney Pills. I have been using them for kidney trouble which used to affect my back so I could hardly bend down, nor could I lift anything. I learned about your pills from your B. B. B. Almanac, so I began using them, and in no time I was completely cured. I give all the praise in the world to Doan's Kidney Pills. I always recommend them to my friends."

"When asking for Doan's Pills always see that you get the oblong grey box with the trade mark of a 'Maple Leaf' Price 50c per box, three boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Specify "Doan's" if ordering direct.

Blue Suits, Fast Colors

Notwithstanding the dye problem, we have some lines of blue suits that are guaranteed. Others, while not absolutely guaranteed, we feel sure are all right.

Considering the increased cost of fabrics and labor, it's astonishing what value we are giving in a blue suit ready-tailored at \$28, guaranteed fast. Others at \$20, \$25, \$29, \$31, ready to finish to your measure at short notice.

A quiet but sorrowful motorist sat one afternoon by the side of a car that was drawn up near the pavement. A man in another car, who had passed the disconsolate one that morning, slowed up on coming level with him again, and in-quired:

"How long have you been here?" "Several hours." "Can you find out what is the matter? Inlet valve all right?" "The other smiled. 'That's all right,' 'Trouble with the spark plug?'" "Think not."

"How are the batteries?" "All right." "Get plenty of spirit?" "Yes, plenty." "Your tires look all right. What is wrong?" "O," replied the waiting motorist, "there's nothing the matter with the car. But ever since 10 o'clock my wife's been in that house. She came to see her sister's first baby."

Professor—You should study harder and try to take a degree. Freshman—Waste of time. When the governor dies and I inherit his millions I'll endow a university and they'll give me more degrees than I'll know what to do with."

A Message From Sir Robert Borden

In his urgent appeal for National Service, on October 23rd, Sir Robert Borden said:

"Let us never forget the solemn truth that the nation is not constituted of the living alone. There are those as well who have passed away and those yet to be born. So this great responsibility comes to us as heirs of the past and trustees of the future. But with that responsibility there has come something greater still, the opportunity of proving ourselves worthy of it; and I pray that this may not be lost."

Prove Worthy of the Trust

MARK H. IRISH, Director of Munitions Labor, National Service Board, Canada.

Canadians Best Troops in France

Even Arrogant Germans Concede Them Second Place

Result Easily Foreseen

British Are Masters of Air and Have Better Artillery, and New Armies Will Put Forth Magnificent Effort

Brigadier-General Swift of Quebec, who reached home from the Ancre recently, said to a Montreal Gazette reporter that although he had not as yet spoken for publication, he felt that the Canadian army deserved all the praise it had received. General Swift claims that the Canadians are the best troops in France today, a claim which, he says is borne out by all they have accomplished.

"And what is the enemy's opinion of the Canadians?" he was asked. "It is well known at the front that the Germans say that while they themselves are the best soldiers in Europe, the men from Canada are absolutely without fear and certainly come second to the men from over the Rhine. This is a great compliment to men who were plying peace vocations a year or two since."

The individual efforts of the Canadian soldier, he says, commands the admiration of the whole army, for, although the Canadians' discipline may not be perfect, they get in their work and the Germans have a mortal fear of the men from the Dominion.

Enemy on the Run
As for definite results, General Swift would make no comments, but there was no doubt, he added, about the enemy being on the run. Their morale is now exceedingly low, and they surrender at the slightest opportunity, throwing up their hands before the British can get near them. They are in a fine disposition to quit, but this is not a question to be decided by the private soldiers. He could not say that the German troops were a fine-looking lot of men, judging by batches of prisoners taken on the Ancre. They could not be compared to the men on the British side.

General Swift says that there are now about two million British troops in France, and they occupy something less than a hundred miles of the western front. As for next spring's effort, he says:

"We have two million more men across the Channel being rapidly put in shape for the spring campaign, and then we will see the most magnificent effort ever seen in the world."

Asked why the British did not take over more of the three-hundred mile front, General Swift replied that the British army was now defending by far the most important section of the western line, and was preventing the Germans from reaching Calais.

Speaking of the wonderful French achievements at Verdun, General Swift said he did not think General Joffre would ever have given up that fortress, even if the enemy had paid the awful price of sacrificing another hundred thousand German lives. There were always from the start big reserves ready to support the defenders of Verdun.

Speaking of the heroism of certain regiments at the front, and the claims made on their behalf by Montreal newspapers, General Swift thought it was a mistake to single out any particular regiment, as they had all done well and had covered themselves with glory all along the line.

Tanks are Efficient
Asked if he had seen the famous "tanks," which had wrought so much havoc on the enemy, General Swift answered in the affirmative. He confirmed Lloyd-George's statement that they little resembled the pictures appearing in the American and Canadian newspapers. He had heard rumors of strange fighting machines about to appear on the front a week or two before they really lumbered along. They caused much amusement, but were a wonderful auxiliary to the fighting efficiency of the British troops. They looked like a house on wheels. The Germans have not yet captured one of these tanks. Some have been disabled, but with the splendid system of repair shops at the British rear, these tanks, as well as machine guns, rifles, heavy artillery and everything else that can be thought of as a fighting arm, can be made as good as new in shortest time. A tank that is put out of business is simply moved to the rear, and shortly appears again at the front.

"At present," added the general, "we are masters of the enemy in the air, have better artillery and as many machine guns. They are outmanned, and with a superior fighting force on our side, the result in the long run is not difficult to foresee."

The Australians had also made a splendid name for themselves as a fighting unit, said General Swift, and they were a credit to the people of the Commonwealth.

Had His Goggles Shot off in Air

Canadian Flyer Warned Verdun of Attack

Mistake Foes for Friends and Had Several Thrilling Experiences and Narrow Escapes

The following letter has been received in Toronto from a Canadian aviator in France, dated November 8:

One of our Canadian flyers had a very exciting experience last week. He was flying up from our base to join the rest of us near Nancy. On approaching the city he saw another machine on the same level, and flying in the same direction as himself. This he took to be another of our chaps who was coming up the same day. He admits that he followed the other machine for nearly ten minutes, being within one hundred yards of it all the time. Suddenly it turned, but he took no particular notice, thinking he was merely turning to see the aerodrome. Then came the "putt-putt" of a machine gun and his goggles were splattered by a bullet. He swung round, and to his amazement the apparently friendly machine had shot at him from behind and below. He threw off his goggles, and with eyes smarting from the wind,

"The Perfect Day" is the day when you work in harmony with law.

Health comes from Harmony. Get in harmony with Nature's laws by eating Shredded Wheat, a simple, natural, elemental food which supplies the greatest nutriment with the least tax upon the digestion. Try it for breakfast with hot milk or cream. Delicious with sliced bananas or other fruit. Made in Canada.

Waged an unequal combat. To add to his predicament, he saw five more enemy machines coming down at him, so he decided to make a run for it.

No doubt owing to the excitement he overlooked doing the best thing, which was to have shut off his engine and gone down as quickly as possible, since he was still over friendly country. However, he flew north in an endeavor to get away. This carried him before the wind, so he was soon many miles into enemy territory. When he thought he had out-distanced the other machines, he began to edge around more to the west and then southwest. Flying thus for 45 minutes, he thought that surely by this time he was back over the lines again, especially as he had been shelled, but not during the last fifteen minutes.

Mistake the Aerodrome
Now he saw what appeared to be an aerodrome, so shut off and spiraled down. Remember, he had no goggles, so had to keep his head very well inside.

Having got down to about 200 feet, he was just straightening out for a landing when to his amazement he saw black crosses on the machines which were standing outside the hangars. He had come down over a German aerodrome! Opening the throttle, he flew at the 200 feet of height, not daring to lessen his speed over the ground by attempting to climb. He says that mistles seemed to rain about him. They fired all kinds of guns and rifles, but missed. He crossed the country at the same height, seeing trenches everywhere with shells bursting at him in all directions.

Next he saw a body of troops coming along a road which he took to be reinforcements, and then a bare spot caught his eye, so he thought he would see if it were good for a landing. Coming over to it, he says, it looked like a "perforated cheese." Afterwards he found out it was merely what was left of Fort Douaumont at Verdun! It was very smoky and the place really did not look suitable to land on, so, as he saw a town a little distance away, he flew over towards it. There were not many buildings left standing, but he felt sure he was in friendly country by now, so was looking out for a good field, when he spied an aerodrome. This time he made sure that the planes had rings painted on them and not black crosses. Having landed safely, he found he had come down near Verdun.

The French flying squadron there treated him grandly, and since the weather was had for the next few days he had a good opportunity for a look around.

He reported the reinforcements he had seen, which he knew now to be Germans, so that the French were prepared for the attack which the Germans launched that night to retake Douaumont. You see this took place the day after the French had regained Fort Douaumont on October 24.

There are not many buildings left standing in Verdun; possibly one in twelve. But the town has been kept from the Germans and that is the main thing.

With his clothing and some food in a bundle weighing about 40 pounds hung over his shoulder, Steve Bonnaeus, aged 102, of Summit, Conn., walked into Fiskdale, Mass., looking for a job as a wood chopper for the winter. Mr. Bonnaeus carries his birth certificate with him to prove his age.

THE VILLAGE BLACKSMITH

Certainly knows good tobacco when he smokes it--that's why he has adopted Master-Mason the tobacco which smokes easier, lasts longer, tastes better and gives more satisfaction than other tobaccos ready cut and sold in tins or paper packets.

SNOKE Master Mason

"IT'S GOOD TOBACCO"

it is made of selected, fully matured tobaccos, pressed into a solid plug so as to seal in, as-it-were, the natural moisture and fragrance of the tobacco and ensures that mellowness and smoothness so much appreciated by smokers.

Equal by test to the very best, Much better than all the rest.

Say MASTER-MASON to your dealer---he knows.

SUBMARINES AGAIN
OFF AMERICAN COAST

The British cruiser Lancaster, stationed fifteen miles southeast of Sandy Hook, sent out by wireless a general warning last night for all ships flying the flags of the Entente Allies to be aware of German submarines on this side of the Atlantic.

A raid by six German torpedo boat destroyers on the English coast, which took place on Thursday night, was officially announced on Saturday. The raid was ineffective. They appeared off Ramsgate.

RAILROAD MEN WERE IN GRAVE DANGER

Columbus, Ohio, Nov. 25—More than 100 railroad men narrowly escaped death early this morning, when fire broke out in the railway Y. M. C. A. building. Rapid spread of the flames cut off the exit from the upper floors, where the men were sleeping. A general alarm brought the city's entire fighting force to the scene in time to control the fire and enable the railroad men to leave the building.

SOUTHERN CANADA POWER.

At a meeting of the directors of the Southern Canada Power Company F. W. Teale, formerly vice-president and general manager of the Porto Rico Railway Company, was elected vice-president of the company, and J. B. Woodlyatt was appointed manager.

YALE WON MATCH

It was not Harvard, but Yale that won the big football match at New Haven on last Saturday. Morning paper reports gave Harvard the victory. As this did not agree with word received here on Saturday, the Times made inquiry at Canadian Press headquarters and received information that Yale had won by a score of six to three.

New York, Nov. 27.—Yale's victory over Harvard by a 6 to 3 score, which gave to the sons of Eli the championship of the aristocratic "Big Three" carried with it a rather empty glory. Brown University, pitted in succession against Yale and Harvard, whipped both those teams and did it with such rousing enthusiasm that the Providence team today undoubtedly holds a double clinched snuffbox on the eastern championship.

MILK IN HALIFAX

A telegram sent by The Evening Times to its Halifax correspondent to ascertain the price of milk there, as compared with the present and proposed rates in St. John, brings the following reply:

"Price of milk, including unpasteurized, advanced to ten cents on October 1; certified milk, twelve cents. Efforts here are being directed towards improving the quality of the milk which is held to be largely responsible for high infant mortality rate."

ENGAGEMENT OF INTEREST

Calgary papers announce the engagement of Miss Macburn Elizabeth McTear, second daughter of Mr. and Mrs. William McTear, 542 14th Avenue, west, to Arthur Hugh McGuire, of Calgary, but formerly of this city. Mr. McGuire, who is the eldest son of Mr. and Mrs. Thomas McGuire, 21 Dorchester street, is now located in Calgary, where he is district sales manager for the Canada Cement Company, Ltd. The wedding will take place at an early date.

HIGH COST OF LIVING TOPIC AT CITY HALL

An Investigation Proposed—The Matter of Lots Wanted for the New Elevator

The offer of the Dominion government for city lots at Reid's Point required for the site of the new grain elevator was before the council in committee meeting this morning. In addition to \$28,870 for two lots the government also offers \$800 for the city's interest in the lots. The matter was held over until the Thursday meeting.

An hour was devoted to the discussion of the high cost of living, as reflected in the prices of various commodities, arising from a motion for an investigation into the proposed increase in the price of milk. The mayor was asked to confer with the city solicitor regarding the best methods to be adopted by the city in regard to this and other commodities.

The reason why St. John has not more paved streets was shown by a table presented by the mayor giving the amount of the debt assumed by the property owners for local improvements in this and other cities.

Another letter from the Mayor of Toronto thanking the people of St. John for their kindness to the 180th Battalion was read.

The committee met at 11:30 o'clock with Mayor Hayes presiding and all the members present.

Elevator Lots

When the meeting came to order the commissioner of harbors submitted a report from the city engineer, giving details of the offer of the Dominion government, \$1.50 a square foot, or \$28,870 in all, for two city lots between Prince William and Water streets, required as part of the site of the new grain elevator. In addition to this the government offers \$800 for the city's interest in a portion of the lots. The offer is producing a rental of \$8 a year.

Commissioner Russell moved that the city accept these offers, Commissioner Wigmore seconding.

In amendment to the motion, Commissioner McLellan moved that the offer should not be accepted until it is learned whether other property owners are willing to accept the same rate or are going to take the matter to the Exchequer Court.

Commissioner Fisher said he could not support the sale of the corner of the city lot now used for street purposes and for existing tracks.

The mayor was inclined to support this view, but had no desire to question the general price or to harass the government and was prepared to support the original motion.

Commissioner McLellan said that the city's corner lot was more valuable than the others. He also said that, when the city sold one of these lots to Vassie & Co., Ltd., the latter agreed to keep up the retaining wall. If the city sold other lots without such an agreement, it left to the city the expense of keeping up the retaining wall.

After considerable further discussion and a consultation with the city solicitor, it was decided to allow the matter to stand until Thursday, in order to give time to secure information from the railway regarding the intention re the use of the corner now used for street purposes.

ROPE CASE ENDS

Fire Alarm Tampering—A Liquor Case Also on Police Court Docket

In the police court this morning a preliminary hearing in the case against Louis Dritz, charged with the theft of rope from Wiggins' wharf, West St. John, the property of A. B. Ruchty, was resumed. Major L. P. D. Tilley, appearing for the defendant, recalled him in his own defence. Benjamin Titus, J. Fred Sewell, S. M. Sewell and A. R. Blenden, men engaged about the wharf on the day in question, were called for the defence.

Rubin Brown said that he was working about the wharf. He saw Dritz dragging the rope over the cap of the wharf, and it was placed in the defendant's wagon. He saw Thomas Lynch hand the rope from the end of the scow to Dritz. The two were only about four feet apart.

Mr. Tilley said this corroborated the sworn statement of his client, that he had purchased the rope from Lynch. He asked for the prisoner's release.

The magistrate said that there was sufficient evidence to commit the prisoner for trial, but as there was not a strong presumption of guilt, he would release him out on bail in \$500 for himself and two persons in \$200.

In the police court this morning further evidence was taken in a case against Joseph Flynn, charged with drunkenness and also with tampering with fire-alarm box No. 122, in Mill street. James Robinson was also brought into court.

Fire Chief George Blake called a local minister, who said that on last Thursday between 5 and 6 o'clock he was going down Mill street and noticed the two defendants. They had been drinking. He saw Flynn catch hold of the arm of the fire-alarm box and turn it. He called a policeman and had the men placed under arrest. He did not want to prosecute the men. Chief Blake also said that he did not wish to push the case, but the fire department were forced to protect themselves. The magistrate allowed Flynn out on a deposit of \$40, and Robinson out on \$8. E. J. Henneberry appeared for the two men. The case will come up again on Friday.

George Hope was charged with keeping liquor on his premises, in Union Alley, for sale without a license. The case was the outcome of a visit by Detectives Barrett and Briggs on Saturday night. The evidence of Detective Barrett was taken and was to the effect that the liquor confiscated was Jamaica rum of home manufacture. The prisoner was remanded.

MORE OF THE 26TH ARE HOME

Pte. E. M. Robertson Brings Back the Distinguished Conduct Medal—Pte. S. Emery and Pte. John Connell Return

Private Egbert M. Robertson, of the 26th Battalion, arrived in the city this morning en route to his home in Digby. He wears the much coveted Distinguished Conduct Medal, with which he was decorated on the king's birthday.

Private Robertson is a son of Mr. and Mrs. E. M. Robertson of Digby, but formerly of St. John. He was the employee of the T. H. Estabrooks Company, Ltd., prior to going overseas.

His left foot was blown off and his right leg below the knee smashed. A shell did it, and killed his chum, Private J. C. Johnson, of Saxeby, Quebec, who was also a member of the 26th. The battle was raging and the German artillery were hurling shells into the Canadian line with great rapidity. Suddenly a German high explosive shell struck just under his feet, killed Johnson instantly and wounded him. It was about fifteen minutes after he was struck before he knew it. He had meant while struck to the phone.

He spoke in high terms of Lt.-Colonel J. L. McAvity and the other officers of the battalion.

Of the imperial hospitals, he says, nothing too good can be said. Pte. Robertson crossed on the steamer Grampian, Westport, and arrived in Quebec on last Monday. He will leave for his home in Digby tonight.

Pte. S. Emery.

Private Samuel Emery, of the 26th, arrived home from the front this morning, and was taken to his home at 299 Westmount road, where his wife and family reside. He was invalided home because of injury in a train accident in France. He hopes he will be able to go back again.

Pte. John Connell.

Private John Connell of North End, arrived home this morning after spending about two years on the western front. He was taken to his home at 299 Westmount road, where his wife and family reside. He was invalided home because of injury in a train accident in France. He hopes he will be able to go back again.
