

The Evening Times and Star

ST. JOHN, N. B., JULY 22, 1911.

The St. John Evening Times is printed at 27 and 29 Canterbury street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE EVENING TIMES THE DAILY TELEGRAPH

New Brunswick's Independent newspapers. These papers advocate: British connection, Honesty in public life, Measures for the material progress and moral advancement of our great Dominion.

BOOM THE EAST

Mr. J. D. McKenna, of the Sussex Record, contributes an article to the Maritime Merchant on the subject of booming the east. Mr. McKenna remarks that as a journalist he is not interested in the man who talks about the wonders of the west, but has an eager ear for the man who has reasons to give for his belief that the east is quite as good or better for a young man than the west.

HINTS FOR NEW BRUNSWICK

New Brunswick may learn something from British Columbia. Take the matter of fruit growing, for example. At the annual meeting of the Victoria board of trade, Acting Premier Young delivered an address in which he said: "The department of agriculture has six horticulturalists in the field giving demonstrations in care and management, and the inspection of all imported nursery stock, and spraying regulations are being rigidly enforced."

maps, so that, on a modest estimate, the advantages and opportunities of British Columbia were placed before one and a half to two million people. In addition to government publications special articles were published in many of the leading magazines and newspapers of the English-speaking world, and thousands of unsolicited articles and news items appeared in the press of Canada, Great Britain and the United States.

When will New Brunswick have a publicity department? Is it not time we made a beginning?

It appears to be the law in Toronto that on Sunday one may purchase and take away from a store ice cream in a cone, but not in a pail or in the form of a brick.

One result of the decision in the early closing cases will probably be that the small stores which need the little trade they may get in the evenings will not be disturbed. It was probably not intended that the first place to interfere with them.

Dr. Melvin has demonstrated the value of a medical health officer in St. John. The public health is of importance that prompt and decisive action in such cases as a threatened outbreak of diphtheria must be heartily commended.

The most absurd of the Conservative statements about the results of reciprocity is that it would reduce our east and west trade and send it from Canadian to American ports, as from St. John to Portland. There is nothing to prevent Canadian goods from going free through American ports now. Reciprocity will not alter the situation in that respect.

The citizens read with amazement last evening that a prosperous and expanding local industry, which employs a very large number of persons, was asking concessions from another city, with the apparent intention of removing its plant from St. John. It would certainly be an amazing fact if the removal should actually occur.

The Standard this morning in its new column said: "An engineer from the Militia Department arrived in the city yesterday for the purpose of inspecting Fort Howe with the object of ascertaining what improvements could be made in the site. He was favorably impressed with the possibilities of constructing a circular drive way, and will probably make recommendations along this line to the department after another tour to complete the inspection."

THE PEOPLE WILL RULE Day of the House of Lords as Master Has Departed - The Final Stages of the Change

London, July 21.-The constitutional revolution tonight appears to be an accomplished fact. Great Britain in the future will be governed practically by the house of commons, with its hereditary upper house possessing only a veto with a time limit of two years. The peers find their one gleam of hope in the predictions that the next Conservative government will overturn Asquith's revolution and restore the old conditions, but the radicals are confident that in such matters the hands of the clock will never turn back.

Eight Canadians in Finals The Canadians still continue to do good work at Biele. Eight Canadians have qualified to shoot in the final stage of the King's match today.

DON'T HUG A DELUSION

Something "Just as Good" An Impossibility—If Not the Original Have Nothing At All.

For a woman to adorn her head with false braids, puffs and rits, or a man to wear a tope, is like buying an off-brand hair preparation instead of Newbro's Herpicide. The "false hair" and the "off-brand" are both substitutes for the real thing. The original is always considered to be better than any imitation or substitute. "Something just as good" is a happy word of the rankless kind.

Newbro's Herpicide is the original remedy and does as promised. It cures dandruff and thousands of satisfied users have made it standard. It keeps the hair from falling out. It keeps the scalp clean and stops itching. It keeps the hair soft and wavy. It keeps the hair from falling out. It keeps the hair soft and wavy. It keeps the hair from falling out. It keeps the hair soft and wavy.

Applications may be obtained at good barber shops and hair dressing parlors. Send 10c in postage for sample and book on "The Care of the Hair" to The Herpicide Co., Dept. B, Detroit, Mich. E. Clinton Brown, special agent.

READY ANSWER

An Irishman, an Englishman, and a Scotchman happened to meet together. In the course of conversation the Englishman said—"Look here, if I was not an Englishman I would like to be a Scotchman." The Scot answered that if he was not a Scotchman he would like to be an Englishman. Feeling that they were leaving him out in the cold they turned to him and the Englishman said—"Now, Pat, if you were not an Irishman, what would you like to be?" "What would I be if I wasn't an Irishman? Sure, I'd be ashamed of myself!"

Don't Meddle With a Corn

Don't pare them. That doesn't help for long, and paring too deep has caused blood poisoning a good many thousand times.

Five million corns per year removed in this cheap, simple way. It never fails. No pain, no pain, no discomfort. Why don't you take advantage of this wonderful invention? Go get a package now. Get rid of corns.

A in the picture is the soft B and was. It loosens the corn.
B protects the corn, stopping the pain at once.
C wraps around the toe. It is designed to be comfortable.
D is rubber adhesive to fasten the plaster.

THREE THOUSAND CHILDREN AT PLAY ON BOSTON GROUNDS

Average for a Day is 2,000 To 2,500; Women Also

Games, Kindergarten Work, Story Telling, Picture Gallery and Spray Bath Some of Features in Carrying on of Great Work

The Charlebank playground probably has the largest attendance of any in Boston. It is not unusual for 3,000 children to play in it in a single day. The average attendance is from 2,000 to 2,500. The women use it also. Day after day they come, some of them early in the morning, bringing the babies and little ones, out from the tenements into the shade of the playground, its leafy arbors and pavilions. No men being allowed here, they are quite untroubled and free to do as they please. Often they bring their lunches with them and calling their family together at noon spread it out on a newspaper on the green turf and enjoy it at the open air.

Usually every summer they have a baby show. Some of the babies taken to the playground are perfect beauties, but it is not for beauty the prizes are given. They are for the best cared-for baby and the neatest carriage. The prizes themselves consist of pieces of crocheted or raffia work done by the children.

The playground differs from all others in the city, for it is not conducted by the school committee, but is under the Boston park commission, with Mrs. Kate Gamble, Wells and Mrs. E. H. Williams in charge. It was started as a women's and children's gymnasium and playground sixteen or eighteen years ago, with Mrs. Wells as chairman of the committee managing it. The school committee gave the right to use the school yards for playgrounds and Miss Ellen M. Tower directed this work. The school committee decided to incorporate the playgrounds as a part of its regular responsibilities three or four years ago, but the Charlebank playground did not come under the school and the park commissioner asked Mrs. Wells and Mrs. Williams, who had been on the committee from the first, to continue in charge. This they have done. The work is quite different from that of the other playgrounds.

Methods Adapted to Times

The occupations now consist in innumerable swings, gymnastics and kindergarten games. A merry-go-round has been added to these for amusement, and an inclined plane for sliding, of which the children never tire.

Croquet and tennis added within the last two years have attracted an entire class of girls, who come from their shop work for an hour or two of play in the late afternoon. A departure this year is the admittance of the older boys, for whom there is no place nearby. They are permitted to remain as long as the playground is open, but if there is an objection the preference is always given to the women and girls.

The grounds are open from 8 o'clock in the morning until a half hour after sunset, with an interval always in charge. The work is so arranged no one has more than an eight-hour day. Miss Loftus is assisted by Miss Eleanor H. Quinn and during July and August by Miss Brackett. Mrs. Mulhern, the janitress, also assumes charge at times.

Miss Loftus does not believe in organized play for these children during the summer months, but adapts the program of the day to the conditions of the weather and the needs of the children. Every morning when it is hot the grounds are thoroughly soaked. This cools, freshens and cleans them, although it does make puddles; but it is much better for the children, Miss Loftus thinks, than the sun-baked earth. If necessary they are wet again later in the day and as often as seems well for comfort.

Alms Educational

While free play is the law, it is the kind of free play that is firmly regulated. Kindergarten games with weaving and other light work are a feature of each day, but there is no set time for it during the summer. Doll's dressmaking, which has been added this year, is found to hold fascinations quite unexpected. For this work and other quiet games the children go into the gymnasium building if they visit, particularly in rainy weather, but the playground abounds in trees and on the other side of what might be called the out-door gym with its swings, teeters, slides and merry-go-round, is plenty of grass, together with drooping trees, arbors and seats in shady places. Mothers and children can be in the heart of the activity and noise if they want to, or they can withdraw to where it is quiet. In May and June several kindergartens from nearby schools hold their sessions in this pleasant place.

These are also good places for the story telling. Story telling and story reading are an important part of the good times at the playground, especially when it is very warm. The children hear the story and sometimes "tell it back," or act it out in what they call dramas. An elevated platform has been built for this

so that all may see. The children like dramatics, finding in them an outlet for their natural love of mimicry.

The improvement in the children, and also their elders after they have been coming to the playground for some time, is said to be remarkable, especially in cleanliness. The playground does not take all the credit for this. It cannot be fixed in any one place, the playground, the schools and the settlement houses all coming to bring about a change in these who attend them. It can hardly be expected the children will be made over, but it is expected they will be given an impetus toward better things. The children love their teachers and are very susceptible to any influence shown them.

On that afternoon at 10 minutes before 4 o'clock full 600 children were enjoying their swings and slides, when suddenly five minutes later not a child was to be seen. There was to be a free distribution of ice cream on Blossom street at 4 and they wanted to be on hand.

Opportunities Discussed

The mothers learn many a lesson in discipline on these grounds. Few of them have much idea of how to make their children mind and often have to appeal to the teachers to gain the slightest act of obedience.

One of the things which the children enjoy is the picture gallery. They are invited to bring to any picture they may particularly like. They talk about those they have. In this way it is hoped to draw them away from the so-called comic supplement and arouse in them an enjoyment of wholesome art. They bring their pictures from newspapers, magazines or anything else they can get hold of. They are fond of writing letters to the teachers. These are generally an account of the child's fondness for the teacher and in substance mean "I love you," or "You look so nice."

One of the features of this playground is the spray baths. This year they have been enlarged so that 40 or 50 persons can be accommodated at a time. They have just been put into operation and are supplied with hot and cold water. Previous to this only about a dozen could be taken care of at one time. Even then they often come in droves, sometimes 300 in a single day. This was especially true on Friday, which precedes the Jewish Sabbath. The baths are exclusively for women and children. They enjoy them hugely.

How much it means to them can hardly be appreciated by those who have at least one porcelain tub in their own homes ready for them any moment of the day or night they care to use them, but someone who came for the first time not long ago. When she had finished she told how much she had enjoyed it, and said she was going to come right along now. She had not known there was such a place and had been going from Allen street, where she lives in the heart of the North End, to the Dover street public bath house.

As now arranged, children under 10 can be taken together eight at a time. All older go into the individual baths.

The Charlebank is open all the year round. When school commences the hours change. The place being closed during school time. Every afternoon and all day on Saturdays the work consists of gymnastics, swinging, games, dramatics, and many direct educative influences which are called play. The evening classes four times a week for the older girls include gymnastics, folk dancing and basketball.

MONARCH KNIT

-the comfiest coat you can wear in the cool of the evening on the water.

"MONARCH KNIT" is justly the vogue. Because of intrinsic merit and apparent style, fit and shape. Most woollen coats and sweaters are knit in sections and sewn together. The shape is a chance—the style not even a good guess, and there's no surety of the lastingness of either. It's different—a good deal different with "Monarch Knit."

If you want a stunning, comfy coat for evening wear on the water or for auting just tell your merchant that you want a "Monarch Knit" coat. He's a personal friend of yours—besides he has excellent reasons for giving you full particulars. Here are two—you'll tell your friends where you got your dandy coat or sweater, and—you'll buy more "Monarch Knit" goods.

The Monarch Knit Co. Ltd. Des Moines, Ia. Factories also in St. Thomas, C. St. Catharines, Ont. and Buffalo, N. Y.

ANOTHER CASE OF THAT DOUBT

(Continued from page 7.) upon whom it happens to be located. During his stay in the city he visited the modest Staten Island house, occupied by his illustrious grandfather during the latter's exile here, following his first unsuccessful effort to re-visit Italy. Like the liberator, his grandson is a soldier of fortune and stands ready to fight wherever there is need for the service of a lusty musketeer, to whom the sea is as much an element to the war god of Mars.

Haiti's Navy If the republic of Haiti filled a more imposing position on the map of the Caribbean sea, the disposition of the local prints to treat as a joke the destruction of that nation's navy the other day might prove a case belli. As it is, the little republic must stand by and allow the joke-smiths to have their play unchallenged. As described by the officers of the steamship Albatross on her arrival here the loss of the navy, which consisted of a single ship salvaged from an obsolete age, while a dramatic incident in the lives of the participants, presented many humorous features to cynical white observers of the wreck.

When the Albatross touched at Haiti President Simon was starting out to inspect the navy and give it a test.

The captain of the navy had seen service on a tug and the first and only engineer was a bartender who had abandoned his calling as a life saver to take up the more stirring and the grim calling of a sea warrior. President Simon summoned the army, which consisted of about 800 men, some without shoes and all with uniforms and plumes. He and most of the army accompanied him aboard the President Simon, but, being cautious he had a yacht follow in the wake of the bergain gunboat. The President Simon put out to sea and ran full tilt on the first reef. A big hole was jammed in her tin bottom and the filled and settled, the water reaching up to the waists of the members of the terrified army. The yacht which had trailed her part in the crisis of Haiti's army. The navy had already succumbed. The Albatross put out her boats and rescued the army, taking it to Cape Haiti and landing it there. The army did not bother to form ranks on landing. It dispersed in all directions to seek shady cafes, and there hold many meetings in groups.

Through the Guard Among the older men in the office of the billion dollar United States Steel Trust, who were able to recall the blowing

up of the office of the late Russell Sage, the \$90,000,000 money lender of Wall street, by Norcross, a lunatic, the sudden invasion of Judge Gary's office here by a crank the other day brought back disagreeable memories. Before any one realized it, the visitor who was later identified as C. E. Piper of Atlanta, brushed by the host of the Trust and, dashing into the office of Judge Gary, chairman of the board of directors, demanded to see either him or President Parrel, both of whom are now in Europe. The incident is principally significant as revealing the comparative ease with which a determined man, unopposed by the presence of an army of guardians, is able to penetrate to the inner sanctum of the most prominent of corporation heads, supposed to be inaccessible except to those persons who call to mind the large number of experiences of a like character of J. Pierpont Morgan and other well known bankers and financiers, who with the constant prey of mendicants and those obsessed with imaginary grievances. In the present case no harm was done, as the man was unopposed and peacefully disposed. What might have happened if he were otherwise, it is not hard to guess him to be elected to do so he could have shot up the office.

DIFFERENT Judge—Willie—Did the Doctor make you take nasty medicine when you were sick? Freddie—No; it was father who made me take it.

AFTER 7 YEARS SUFFERING

I Was Cured by Lydia E. Pinkham's Vegetable Compound

Waurika, Okla.—I had female troubles for seven years and was very nervous and so nervous I could not do any thing. The doctors gave me for different things but did me no good. I got so bad that I could not sleep day or night. While in this condition I read of Lydia E. Pinkham's Vegetable Compound and began its use and wrote to Mrs. Pinkham for advice. In a short time I had gained my average weight and am now strong and well.—Mrs. SALLIE STEVENS, R. F. D. No. 3, Box 31, Waurika, Okla.

Another Grateful Woman

London, Ont.—I feel as if I could not tell others enough about the good Lydia E. Pinkham's Vegetable Compound has done for me. I was so weak and tired that I could not rest nights. A friend recommended your Compound and I soon gained health and strength and could rest and sleep better. I know other women who have taken it for the same purpose and they join me in praising it.—Miss Wm. A. BUFFY, 905 Dame St., London, Ont.

Lydia E. Pinkham's Vegetable Compound has surely cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, and nervous prostration.

PERSONAL AND SOCIAL NEWS OF THE WEEK IN ST. JOHN

Automobiling is termed by many the most popular amusement in St. John at the present moment and as there are hundreds of miles of roads stretching north, east and west in the province and beyond, it is not surprising that the kind of scenery he most delights in. If he prefers the hills and mountains, with a view of the river, he naturally steers his steers towards Fredericton, if on the other hand he yearns for a touch of salt air, the Spruce Lake road furnishes the desired quality, or he might steer for St. Martins where, as an old "globe trotter" recently expressed it "Time seems never to be found either on this continent or in Europe," but for those who have a preference for fertile valleys, watered by streams and shaded by sylvan woods, the Sussex road will meet every expectation. As it is stated that already there are over two hundred motor cars in the city alone, it is not to be wondered at that all roads have their patrons. At Fredericton last week and two adjoining parties were in the city, Mr. and Mrs. J. Royden Thomson, Mr. and Mrs. John M. Robinson and Dr. Hector Yvonne. They registered at the Queen Hotel for over Sunday. Mr. John E. Moore, Mr. Arthur W. Adams, Mr. B. B. Bickle, spent Saturday night in Fredericton, returning in Mr. Moore's car Sunday evening. Mr. and Mrs. J. B. Morris are making a tour in the province in their car. Mr. and Mrs. James Seely, who had a motoring party, as far as the Quebec Golf Club and have returned in their car. Mr. and Mrs. James Seely, who had a motoring party, as far as the Quebec Golf Club and have returned in their car. Mr. and Mrs. James Seely, who had a motoring party, as far as the Quebec Golf Club and have returned in their car.

Mr. and Mrs. R. Kellie Jones are occupying their cottage at Duck Cove. Mrs. Roland Frith and children are spending the month of July at St. George. Miss May Travers is the guest of Mrs. Nell at Chatham. Mayor Frink, Mrs. Frink and family have taken one of Mr. Jack's cottages at Duck Cove and are residing there at present. Mrs. Ives, of McLeod, Alberta, is the guest of Mrs. J. V. Anglin, Lancaster Heights. Mr. Bayard Coster left last evening for Fort Arthur to join Mr. R. Hazen on a surveying trip. Miss Mary Warner is visiting friends out of town. Mr. and Mrs. Fred Sturdee passed through the city on Sunday. Mrs. Sturdee will visit relatives in Halifax, while her husband is in Sydney (C. B.). Mrs. Murray MacLaren and family are spending a few weeks at Duck Cove. Miss Vera MacLaren was the guest last week at Robesay of Miss Alice L. Fairweather. Miss Mary L. Harrison, on Tuesday next, will be the guest of friends at Amherst (N. S.), and expects to make an automobile tour through Nova Scotia with her husband. Mrs. Gromland and daughter are the guests of Mrs. McAlpine for the holidays. Mrs. McAlpine entertained at afternoon tea yesterday. Mrs. George Wetmore, of Yarmouth (N. S.), this morning. Mrs. N. Abbott, of Montreal, and son, Mr. Charles Abbott, were guests at the Royal this week. Miss McKay, of Florida, is in the city for the month of July. Mrs. Jones, of Fort Arthur, sister of Mrs. George Wetmore, Germain street, left for home yesterday afternoon. Mrs. Fred Gayre, Miss Ena MacLaren, Miss Marie Sayre, Mr. John Sayre, Miss Jean Trueman and Mr. Ronald McAvity expect to spend this week-end at the house of Mrs. St. Andrews by automobile. Mr. Alexander Macaulay leaves today on a business trip to London and Paris. Mrs. John S. MacLaren, Mrs. James Mack and Mrs. Andrew Jack were guests this week of Mrs. Roy Campbell at Westfield. Mrs. Julian Fairweather and Miss E. Fairweather, of San Francisco, were guests last week of Mrs. Edwin Stewart, Sydney street. Mrs. Fred Knowlton entertained at luncheon at the Albatross on Tuesday last Wednesday in their honor. Dr. J. Boyle Travers has so far recovered from his recent illness at the city hospital that he has been moved to his residence at Lancaster Heights. Miss Jean Leavitt is in St. Lambert visiting Mrs. N. C. Bourne. Dr. Richard Morris, of Everett (Mass.), accompanied by Mrs. Percy Robinson, arrived in their automobile to visit relatives in Morristown. Mr. and Mrs. L. R. Harrison, registered at the Dufferin last week-end. Mrs. Freeman Lake and child expect to sail from South Africa about Aug. 9, for St. John, where they will be guests of Judge and Mrs. Tuck, Orange street. It is possible that Mrs. Percy Robinson, of Toronto, will be in the city at about the same time, to visit her parents, Judge and Mrs. Tuck. Mrs. L. R. Harrison and Miss Mary L. Harrison entertained a party of friends on board the yacht Dream on Thursday afternoon, going up the river as far as Bel-

party of friends on board the Corinthian on Sunday at the close of the annual yachting excursion up river. Among those on board were Miss Thomson, Rev. G. M. Campbell, Judge Armstrong, the Misses Celia and Avis Armstrong, Mr. and Mrs. R. Downing Paterson, Hon. R. J. Ritchie, Mr. and Mrs. Robert Leavitt, Mr. Joshua Clawson, Mr. A. O. Skinner, Miss Edith Skinner, Mr. Gordon Kerr, Mr. and Mrs. Alfred Porter and Mr. D. Arnold Fox. An interesting incident occurred at Robesay one day last week, which showed unusual pluck and presence of mind on the part of a young English lady who is visiting friends at one of the camps in the Park. Enjoying a row on the river, accompanied by her maid, she let an oar slip overboard. Without a moment's hesitation, the lady, who is an expert swimmer, sprang over the side of the row-boat, swam some distance, captured the runaway oar, climbed into the boat and calmly proceeded to enjoy her hour of recreation. The friends of Miss Rosalie A. Waterman, of Rockland road, were delighted to learn that she had captured the \$300 scholarship from McGill University. Her scholastic achievements have been numerous and brilliant. She has been doing special work under Dr. Bridges during the last year. Mrs. Brigstock, widow of Venerable Archdeacon Brigstock, arrived from England on Wednesday and is the guest of Mrs. Charles Weldon, Chipman Hill. Mrs. J. H. Scammell and children, of Fredericton, and Miss Katherine Scammell, of Chicago, are guests of Mrs. J. H. Scammell, Douglas avenue. At Robesay today, the tennis tea will be in charge of Mrs. John M. Robinson, Mrs. Leonard Tilley and Mrs. Harold C. Schofield. Mr. and Mrs. Wm. G. Pughley left on Wednesday for Portland (Me.)

The League Standing.

Club	Won	Lost	P.C.
Calais	3	7	.300
Fredericton	8	4	.666
Marathon	8	6	.571
St. Stephen	7	7	.500
Woodstock	5	8	.385
St. John's	3	8	.273

Today's Games.
At St. John's-Marathon vs. St. Stephen.
At Calais-Calais vs. Woodstock.

St. John's Besten.

The St. John's were defeated in Fredericton yesterday, 6 to 2. Tift pitched for Fredericton and Ford for the Saints. The game was fairly interesting. The winners played a new man, Bob Ganley, a big league outfielder, who has been signed. The Fredericton team of sixteen players will be cut down today. Four men are to be released after an exhibition game this today.

Local Notes.

The Nevralips of this city will go to Hampton today to play a match with the Hampton team. The members of the team are requested to be at the depot at 1 o'clock.

The Barbers of the city have issued a challenge to the Royal Hotel nine for a game of ball to be played on Monday next. A team from Moncton defeated the Truro team in Truro yesterday, 13 to 2. The Monctonians had things much their own way.

The Simms' ball team defeated the East St. John's last night, 15 to 3. One of last year's St. John's, pitched for the winners, and Jennings and Barrett for the losers.

The Big League.

National League results yesterday were:—St. Louis 6, New York 4; Cincinnati 7, Brooklyn 6; Pittsburgh 7, Boston 5; Chicago-Philadelphia game on account of rain.

American League—Cleveland 4, Boston 1; New York 6, Detroit 4; Chicago 2, Philadelphia 10; St. Louis 3, Washington 2.

Eastern League—Providence 3, Toronto 6; Jersey City 8, Rochester 9. (12 innings).

The Ring.

Canadian Besten.

"Jimmy" Mitchell, of Brooklyn, had a little better of "Dick" Howell, a Canadian, in the main bout of ten rounds at the Long Acre Athletic Association, New York, on Wednesday night. It was a hard fight from first to last and the honors shifted as it progressed. Howell had the better of the early rounds, and in the fourth it looked as though he was going to win with a knockout. In the fifth round he hooked a vicious left swing to the Brooklyn writer's jaw, which staggered him and had him groggily. Mitchell held on for keeps and the boys saved him.

Howell had the margin in the next round, too, but Mitchell gained strength rapidly. In the sixth he came to life in fine style, and boxing at long range, easily outpointed the Canadian. He landed the test round Mitchell did much the cleaner blow. Nine-seconds of the bell that the Canadian landed were on Mitchell's back or kidney, and while they must have hurt considerably they did not damage him to any great extent.

The Turf.

Northern Spy, well known here, although a winner in the first and second heats in the 213 on the Granite Park track at Dover, N. H., on Wednesday, lost to Major Strong, which won the last three heats. Spy was a favorite.

Cricket.

In a well played cricket match on the Park Square yesterday afternoon, the Bermudians of St. John, defeated the local club by 22 runs.

AMUSEMENTS IN ST. JOHN; WHAT THE PLAYHOUSES OFFER

NICKEL

The International Sweepstakes Motor Race proved to be a great attraction of the Nickel yesterday and this interesting picture, "World's Most Daring Drivers," will be shown today for the last time. Forty-six cars started in this race of 800 miles and as they whizz around the great course at a terrifying rate of speed, they hold the crowds in breathless suspense at the fear of something happening. There were the usual number of wrecks, cars and wounded drivers. The Primal Call is a strange society drama by the Biograph company. Mother must have money to satisfy persistent creditors so she selects a handy millionaire for the daughter to marry. How this wealthy suit, who is not favored by the girl is supplanted in an accidental manner by a giant seaman makes an interesting story. The other pictures are: A Gambler's Chance, Lubin, explains how a care free office boy saved his employer's fortune; A Hero—Almost, a most laughable comedy. Gertrude Dudley again today in My Old Kentucky Home, and Harry Dudley in The Niles. Overture: Wine, Women and Song, waltz; Barber's Screech, intermission; Dick's Badger, waltz; Flag of Victory, march; I'd Rather Say Hello Than Say Good-Bye, two-step; Romance of a Rose, reverie.

THE LYRIC

Jas. E. Waters will close his engagement at the Lyric tonight, after making one of the biggest hits in the history of this popular house. It is his best visit for some time. Mike Ward, a black-faced comedian, who was the hit of the bill at the Lyric's Theatre, Halifax, is in the city. He is exceptionally funny and his song and jokes new and original. In his party on Monday special picture features are to be announced.

MORNING NEWS OVER THE WIRES

G. M. Bosworth, vice-president of the C. P. R., who returned yesterday to Montreal from England, said that two new ships were to be built by the C. P. R. to be ready by 1913 for the Pacific service. Each will cost \$2,500,000, will average 18 knots, and carry 1,200 passengers.

A stormy scene was enacted yesterday in Vierbo, Italy, in connection with the Camorra trial, when a dispute occurred between Messrs. Fabroni and Lioy lawyers for the defence and prosecution. While the fight was in progress, the other lawyers fled from court, while the prisoners hurriedly retreated to the streets.

The incident into the drowning of John Bowers, a young Englishman, near Westport was resumed in Burton yesterday by Coroner Perley. The evidence of Charles Bowers, father of the dead man, and George Barker, who found the body, and of Captain Flowers, Mate White, Engineer Lewis and Purser Waldon of the steamer was taken and adjournment was made till Wednesday afternoon next at 5 o'clock. L. A. Curry, K.C., appeared for the St. John River Steamship Company, and R. B. Hanson in the interest of Charles Bowers.

In the stock market in Wall street yesterday Canadian Pacific stock reached another record mark, 247.

Among the increases granted to the I. C. R. officials, it is announced that the division superintendents have been raised to \$2,700 a year, the former rate varying from \$2,300 to \$2,500. The wages of the I. C. R. policemen have been increased ten per cent, and it is understood the men at the coal plant in Moncton will be raised two cents an hour.

The Conservatives of Kings-Albert are arranging for a convention next month to nominate a candidate for the Federal House of Commons.

Toronto, July 21—George William Torrance, of Toronto, agent of the White Star line, died in Montreal today. He was on his way back to Toronto from Halifax when he was taken ill. He was a prominent member of the Ontario Jockey Club.

How Drugs Wreck the Nerves

Every dose of drugs that you put into your stomach weakens your nerves. Every time you kill a pain or an ache by unnatural means—by stupefying the nerves with poisonous drugs, you are hurting them, and any one can see that in time, by steady dosing, your nervous system will be broken down completely.

Drugs not only weaken the nerves, but they upset the stomach, rendering it unable to supply the nourishment for the nerves and organs of the body. Drugs destroy the digestive juices of the stomach; therefore you do not get the proper nourishment from your food. You may eat heartily, but if your digestive apparatus is out of order you won't get much good out of your food.

So many people are doping their stomachs with drugs trying to overcome some chronic disease or weakness and wonder what makes them so nervous, restless and unable to think clearly. They naturally blame the disease for it, but the trouble is really caused by drugging.

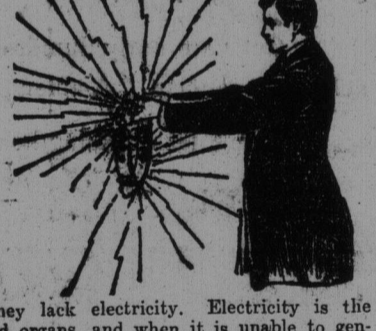

The life of the nerves is electricity. If they are weak it is because they lack electricity. Electricity is the force which the stomach generates for the support of the nerves and organs, and when it is unable to generate this force it must have artificial aid. This is electricity—artificial electricity as applied by Dr. McLaughlin's Electric Belt.

My method of curing disease is to go down to the very foundation of the trouble and remove the cause. When I have removed the cause nature will do the rest. If your nervous system has lost, which in turn gives the necessary stimulus to the nerves.

Electricity is a fluid from the old system of medicine. It does by natural means what you expect drugs to do by unnatural means. It is Nature's way of curing disease, for it gives back to the nerves and organs the power they have lost, which is their life.

My Belt is easily and comfortably worn over the body during the night, and gives out a continuous stream of that strength-building, nerve-giving force which is the basis of all health.

If you haven't confidence in electricity, let me treat you at my risk. I will give you the Belt on trial without one cent or risk to yourself. Give reasonable security and I will take your case, and you can

PAY WHEN CURED

Dear Sir—This is to certify that I was cured of a sore, weak back, which bothered me a great deal at times, especially after heavy lifting. Your Belt cured me completely, and my back is perfectly strong now, and I can do heavy lifting without any bad after-effects.

W. G. ARNELLA, Poplar, Ont.

Dear Sir—I am pleased to tell you that my Belt is all right now. The distressed feeling that I had before, when I tried to get up to walk, has all gone. I must say I gave your Belt a good test, for I labored every day in the week at heavy lifting work. Your Belt is all you claim for it, if a person only gives it a fair trial. I am a great believer in electricity.

A. W. Spinnery, Yarmouth, N. S.

THE CENSUS

Ottawa, July 18—Archibald Blue, chief census officer, has issued the following: The newspapers have been reporting on the census, especially in the large cities of the Dominion, and notwithstanding the care of the census office to enjoy a performance of accurate and full work on the part of the enumerators, it is possible that in some instances persons and even families have been passed over. It is known at the office that many reports of omissions are without foundation, and that generally the enumeration has been well and fully made, although it is yet too early for a final decision. The fact is that the census of a district or enumeration area was often not completed when complaints were first publicly made. The census office earnestly trusts that the name of every man, woman and child in the country, as well as all other information called for in the schedules, should be recorded as the statute and the instructions require. But lest there should be an inadvertent omission on the part of any enumerator, the office respectfully invites the co-operation of the public for the completion of a full census. To this end, persons who believe or suspect that they have not been taken are asked to notify the chief officer of the census at Ottawa, giving their names, post office address, street and number if residing in cities, towns or villages, or concession and number of lot if residing in country places. Letters containing information of this nature are postage free, and if it is found that such persons have not been enumerated in the returns made to the census office, means will at once be taken to remedy the defects through the local officers of the census who were employed in the work and who are responsible if any mistakes have been made in their respective enumeration areas.

COUNTRY MARKET PRICES LAST YEAR AND AT PRESENT

A tour of the country market today discloses that conditions from the consumers' standpoint are not as good as last year and inquiries do not hold out any promise of a betterment.

The following retail prices will give some idea; eggs that sold last year for twenty-two cents now bring nineteen cents, but are likely to go to twenty-two.

As for meats, beef by the cut is fourteen to twenty cents, as compared with sixteen and eighteen last year. There is not much domestic beef.

A GOOD BOOM ST. JOHN PLAN

A novel and attractive means of advertising St. John has been undertaken by the advertising committee of the board of trade in the issuing of postal cards containing a map in which particular attention is paid to New Brunswick, while Nova Scotia, P. E. I. and parts of Quebec, Ontario, U. S. States and Newfoundland are also shown.

The card contains a diagram showing the steamship connections which may be made at this port, as well as the railroad connections between here and other parts of the maritime provinces.

These cards are to be placed on sale in the stationery shops about the city, and it is hoped that tourists will use them in writing to friends elsewhere, and indicate where they are staying.

Another use to which the cards will be put, and the one which is expected to prove the most advantageous to the port, is the distribution of the same through the mails from widely scattered points as ordering cards or cards of acknowledgment by wholesale firms.

Mrs. Palmer of Durham Street Enjoys Life At 92

DAYS OF NAPOLEON

She Has Brought Down Through The Years no Liking for Bonaparte — An Interesting Chat With Her For Times Readers

Born when Napoleon Bonaparte was at the height of his power, Mrs. Annie Palmer, of 140 Durham street, recently celebrated her 92nd birthday.

As Mrs. Palmer still likes to be independent, she lives alone in her own house. Her sons are married and have their own careers, and she would rather live apart and look after her own home.

The introduction of the street car and the more extended use of electricity are matters of yesterday to Mrs. Palmer.

In the earlier days of its history the city was liberally filled with British regulars. The trip on snow shoes to the 10th regiment from this province to Quebec in the middle of the winter showed the endurance of the Tammy Atkins of almost a century ago.

Mrs. Palmer has a special word of praise for Queen Victoria and the house of Brunswick. She has been a loyal subject of six of the Emperors in succession, but she admired the Queen sovereign more than any other.

THE COURT HOUSE

Some Comment Over Need For and Advisability of Putting on New Roof

In view of the fact that it has been about decided to erect a new municipal building, much surprise is being expressed that so much money is being expended in repairing the old court house.

Those who follow civic matters closely will remember that this roof was put on in the year 1900, but eleven years ago. The ordinary life of a galvanized iron roof is ten to twenty years, and sometimes longer.
