London Subway Tie-up Result of Revolt of Union Men

UNEMPLOYED MINERS ARE INDICTED

COMMUNISTS ARE DECLARED BACK OF GREAT STRIKE

Gigantic Network of Underground Traffic Lines Paralyzed.

IS BIG TEST

First Real Tryout in Rebellion of the Rank and File Against Old Leaders.

(United Press.) By Lloyd Allen, Staff Correspondent.

London, June 6.—A strike, which is charged to Communists, paralyzed London's gigantic network of subways today. Power house workers in approximately two-thirds of the city's plants overruled objections of organized labor leaders and walked out.

Not more than 10 per cent of the subway trains, which carry millions to and from work each day, were in operation, and street cars, buses and cabs were unable to handle the overflow. Many thousands tramped to work from the suburbs.

Here Are Demands.

The power workers demanded an advance of 10 shillings a week and a minimum wage of three pounds a week, with one week's paid vacation each year.

Labor leaders declared the strike unofficial and charged that Communist influences were back of it.

Six thousand train operators and station employees joined the strike today. The executive of the National Union of Railwaymen met to discuss this aspect of the case.

Trade union officials believe that the present strike is the first big test of the revolt of the rank and file of workers against previously recognized leaders. For this reason they say, the dispute may become one of the most important in industrial history.

Officials Oppose

London, June 6.—(Canadian Press.)—Trade union circles continue to oppose the strike. The whole staff of the Wood Lane Power station went out this morning, necessitating the closing of the Central London Railway, which serves the whole west end as well as connects with the leading main line railways. Another from Piccadilly to Hampstead was forced to close this forenoon.

The underground railway estimates that 6,000 of its men are on strike in sympathy with the dockworkers and restricted service is in effect on this as well as the other lines in and out of London which are worked by electricity. With the Whit Sunday holidays approaching a lack of trains will not be much felt in the city, but the holiday-makers are likely to be greatly affected.

Lieut. W. W. White piloting one of the planes leaped to safety with a parachute. The Mexican boy paralyzed by fear was unable to move from under the falling planes and was crushed beneath the wreckage.

London Woman Is 7 Times Widower

London, June 6.—Mrs. Jane Rebecca Whall of Portsmouth was left a widow last week for the seventh time. She wears four wedding rings on the third finger of her left hand and three others on the third finger of her right hand. She says her life has been one long romance. All were the best men in the world, and it is impossible, she says, for her to pick any one in particular who excelled as a husband, and she holds the memory of each very dear.

Swallows Ring; Defies Police

Chicago, June 6.—Science came to the aid of the police who had arrested Carl Laroux under suspicion that he had stolen a diamond worth \$100 from Messrs. G. S. Sons, jewelers of West Madison street. With the use of a fluoroscope the ring was revealed in the youth's stomach after a thorough search had been made of his clothing.

Laroux asked to be shown an engagement ring, but examination of a tray full resulted in his rejection of all of them.

The clerk was about to replace the tray in the vault when one ring was noticed to be gone. Laroux denied the police who were called to find it. He was taken to the county hospital, where the X-ray showed its hiding place.

Fatal Result Attends Motor Car Accident in Fredericton—67 Years Old

Mr. Johnson was driving his car through the private lane on the property on which he resides to his garage when Miss Clowes suddenly appeared in front of his car as he swung from University avenue into the road. GERMANY ACCEPTS THE DAWES REPORT

The Middle Parties Are Agreed Upon a Resolution of Approval.

By CARL D. GROAT. (United Press Staff Correspondent.)

Berlin, June 6.—The Marx Government was scheduled to obtain from the Reichstag today formal approval of its acceptance of the experts' report. The Middle parties had agreed upon a resolution of approval, which like-wise instructed the Government to do its utmost to accomplish the so-called points of honor, the return of prisoners, and repatriation of those expelled from the Ruhr and Rhineland etc.

Openly opposed to Marx, the Nationalists had votes of lack of confidence to propose, but these were expected to meet defeat. The Reichstag is to recess until June 24.

BURGERS ASIATICS TO TAKE ACTION

Twenty-five Thousand Japanese Hear Fiery Speeches on American Exclusion.

Tokyo, June 6.—Twenty-five thousand persons heard fiery speeches, bitter resolutions and other expressions of the most intense opposition to the ban against Japanese immigrants to the U. S. at a meeting here last night. The phrase "We must punish America for the sake of world peace, and this is a matter for all the Asiatic races," recurred in many of the speeches.

Kotaro Mochizuki, a member of parliament and proprietor of an English news agency, proposed that May 26, the day on which President Coolidge signed the immigration bill, be observed annually in Japan as a "day of national humiliation." A resolution passed declaring in part:

"The American anti-Japan movement, worse than disregarding international morality, is fostering racial conflict. We, the Japanese people, cannot submit to this situation, and will oppose exclusion to the end."

Would Muzzle Scandal-Mongers

New York, June 6.—"If I had my way, I would muzzle all scandal-mongers and back-biters," declared Magistrate James V. Short in Gates Avenue Court, Brooklyn, after hearing more than a half dozen cases in which neighbor charged neighbor with spreading scandal. "The muzzling of dogs is obligatory," Magistrate Short went on. "I believe that a woman who spreads scandal about another woman is far more dangerous than an unmuzzled dog, and her sting is worse than a dog bite. We could put a stop to this practice by murdering such women and in that manner letting the public know the type they are."

Zita In Money Troubles Again

Budapest, June 6.—(By the Associated Press.)—The former Empress Zita of Austria-Hungary again appears to be in financial difficulties.

Count Julius Andrássy, former premier and personal friend of the royal family, has left for Lequeto, Spain, to spend Whit Sunday holidays with the ex-empress and, it is said, to meet here several Hungarian aristocrats who will confer on the state of the ex-empress' exchequer. It appears that Zita's household at Lequeto costs \$3,000 a month to maintain and subsidies from King Alfonso and her relatives apparently have not been forthcoming of late.

CHAMBER PUTS IT UP TO MILLERAND

If He Does Not Resign his Cabinet Will Likely Be Defeated.

(United Press.)

Paris, June 6.—The battle of the Elysee with President Millerand resisting the efforts of the new majority of the Left to oust him from office in his confidence is more than ever being carried on in an unconstitutional manner, continues to be fought.

M. Millerand, who according to those in his confidence is more than ever resolved to carry out to the very end what he considers his duty, planned to resume his consultations with political leaders this morning.

M. Herriot, who yesterday declined to form a Ministry while M. Millerand continued in the Presidency, is consulting with M. Painleve, Briand, Boncour, Varenne and other group leaders. The plan of the Leftists is to leave the Chamber of Deputies, after dealing with the formal business of ratification of mandates, will follow the example of the Senate and adjourn until Tuesday, by which time the Cabinet President Millerand is seeking to form ought to be ready to appear in the Chamber. If it is then placed in the minority the Leftists expect to draw up their own conclusion and act in conformity.

It is expected President Millerand will have picked the Irish question to draw up his own conclusion and act in conformity.

The existing arrangement between the British and the Irish government regarding passports, whereby Irish passports will be passed by the British consuls, might be temporarily continued.

Creation of the Irish legation here would probably cause serious consideration of similar action by the Canadian Government, and the London Foreign Office is reported as weighing the possibility of like proposals from Australia, New Zealand and South Africa and Newfoundland. There is reason to believe, however, that Australia and New Zealand would be unlikely to continue the present arrangement, whereby their interests in the United States are represented by the British ambassadors.

Which would be effected by the Free State's sovereignty through the establishment of a legation is regarded in Irish international quarters as of the highest importance.

THE BOOTLEGGERS ARE OUT GUNNING

Does This Liquor Go Through New Brunswick to Quebec Woods?

Quebec, June 6.—With a man named Johnny Pelletier in the hands of the U. S. customs and revenue men, and the latter officials with two of their men wounded, the run-running situation in Temiscouata county is taking on a more serious aspect. The alleged chief of the bootleggers is said to have sworn to get even with the customs men, and is said to have recruited a large force, armed from head to foot.

The U. S. officers who were wounded sustained their casualties in an unsuccessful effort to pierce the lines of the bootleggers in the forest country.

U. S. authorities are reported here to have made representations to Ottawa in order to secure Dominion intervention, and it said that Hon. P. J. Veniot, Premier of New Brunswick, has also been approached to obtain assistance in suppressing the traffic. The operations are being conducted amidst thick forests on both the Canadian and American side, and what renders the task of handling the situation more difficult is that the Canadian customs officials have no legal authority to intervene further than to seize liquor which might have entered here in contraband.

It is now believed that the huge stock of liquor available does not come except in a few cases from illicit stills in the neighborhood, but from St. Pierre, Mig, through New Brunswick, which is only a few miles from the border point where the activities are reported.

If such is the case it is thought that the stock originally formed part of cargoes brought across the ocean by schooners and which could not be landed with success on the American coast.

Wanamaker Carries \$6,000,000 Insurance

New York, June 6.—The most heavily insured man in this country is Rodman Wanamaker. He carries life insurance policies aggregating \$6,000,000, according to an announcement by the Association of Life Underwriters of Philadelphia.

Wanamaker, who heads the list of 65 American business men each of whom carries more than \$1,000,000 life insurance, has just taken out another policy for \$1,500,000, thus bringing his policy to a total of \$8,000,000.

Briton and Turk Are at Odds Again

London, June 6.—(United News.)—The Constantinople correspondent of the Morning Post cables that negotiations between Britain and Turkey over the status of the Mosul have been broken off. The English representative insisted that the question be referred to the League of Nations for arbitration, but the Turks refused, according to the dispatch.

PLANNING IRISH REPRESENTATION AT WASHINGTON

Lindsay Crawford Mentioned as Possible Trade Representative in U. S.

NEGOTIATIONS ON

The Relative Status of British and Irish Legations under Discussion.

(United Press.)

Washington, D. C., June 6.—Negotiations now proceeding between London and Dublin concerning the content of a proposed establishment of an Irish legation in Washington hang mainly upon delimitation of the Irish as distinct from British representatives at functions in the United States, and the precise character of the Irish representative's credentials.

The Free State Government is understood to regard as essential that its representatives here shall possess the title and powers of a minister and enjoy extraordinary rather than a consular rank.

One of the first tasks of the proposed Irish minister, it is learned, would be the conclusion of a United States-Ireland commercial treaty on the most favored nation basis.

Lindsay Crawford.

It is considered possible that the appointment of Professor Smiddy as Irish minister will be followed by naming the present Irish trade representative in New York, Lindsay Crawford, as Irish trade commissioner. It is not unlikely that an Irish consul would also be appointed.

The existing arrangement between the British and the Irish government regarding passports, whereby Irish passports will be passed by the British consuls, might be temporarily continued.

Creation of the Irish legation here would probably cause serious consideration of similar action by the Canadian Government, and the London Foreign Office is reported as weighing the possibility of like proposals from Australia, New Zealand and South Africa and Newfoundland. There is reason to believe, however, that Australia and New Zealand would be unlikely to continue the present arrangement, whereby their interests in the United States are represented by the British ambassadors.

CURE FOUND FOR SLEEPING SICKNESS

Drug Which Has Proved Successful in Number of Cases Told of.

Atlantic City, N. J., June 6.—Discovery in an antiseptic developed in the late war of a drug which promises to prove a positive cure for sleeping sickness was announced to the convention of the American Psychiatric Association today by Dr. E. A. Strecker, and Dr. G. F. Wiley, both attached to the Pennsylvania Hospital for Mental Diseases in Philadelphia.

They described the new drug as "Neutral Acriflavine." It is injected in the veins of the patient, and has already proved successful in cases in the Philadelphia Institution. Finding of the drug, the doctors said, served to overcome one of the most difficult obstacles in the treatment of sleeping sickness—the discovery of a medicine which could penetrate the tissues without destroying them.

YOUNG FRANKS WAS CHANGE VICTIM OF STUDENT SLAYERS

Just Happened Along With Choice of Child to Slay Being Considered.

BOTH INDICTED

Cold-blooded Confession of Leopold Tells Amazing Story of Crime.

(Canadian Press.)

Chicago, June 6.—The confession of Nathan F. Leopold jr., made public last night by Robert E. Crowe, states attorney, after the grand jury had indicted Leopold and Richard Loeb, both millionaires' sons and brilliant university graduates, on 26 counts, charging the kidnapping for ransom and murder of Robert Franks, May 21, was revealed as an unemotional, coldly matter-of-fact document.

"The next problem was to get the victim, and we were undecided until that day," said the confession after it related the plans for capturing, slaying and disposing of a child in preparation for demanding \$10,000 ransom. Franks' Chance Victim.

"Then we decided to take the most likely looking subject that came our way. It just happened to be Robert Franks. Richard was acquainted with him, and called him over and introduced him to me and then asked Robert to go for a ride.

"Richard said, 'Come on in; I want to ask you about a tennis racket.' I got in the car then and stepped on the gas and we proceeded. As we turned the corner, Richard put one hand over his mouth and with his right hand beat him on the head. He did not wake up as readily as we expected, and Richard pulled him to the back seat and forced a club or gag into his mouth. I guess he was instantly suffocated."

In coldly formal language the confession related the disposal of the body after it had been stripped. Leopold said that at first he feared there would be difficulty in forcing it into a casket, where it was found. When the body struck in the casket, Leopold said he forced it further by pushing with his foot. Hydrochloric acid was poured over the face of the dead boy. Took Lunch on Way.

With the victim's body in their automobile covered with a robe the slayers stopped at a restaurant and sandwiches before carrying out their plans for the burial and first demand of ransom.

Elaborate details had been worked out for the collection of the money, which was to be placed in a safe deposit vault and kept for a year before being spent. The process of getting the money was decided on first, then a means of notifying the father of the victim was arranged, and finally the disposal of the body was planned, the confession said.

Extreme care had been taken that there might be no slip in putting the plan into effect, but neither of the youths had bargained on the discovery of the body the day after it had been hidden, the finding near the body of a pair of glasses later identified as Leopold's, and the father of the slain boy forgetting in his excitement part of the directions for delivering the money.

Leopold said that through field glasses he and Loeb watched children at play on the afternoon of the kidnapping to determine who should be their victim. Two were under contemplation when the Franks boy happened along. The intention from the first had been to kill the victim, said the confession.

Doubt was expressed by State Attorneys as to a story told by Mrs. Louise Hobbs, 45, mother of three children, who yesterday filed suit for \$100,000 damages against Leopold and Loeb, charging them with having kidnapped and attacked her two weeks before Franks was kidnapped.

Casey, Back Bay florist, to his wife, Macy Evelyn Casey, according to her testimony in Suffolk Probate Court, where she is trying to secure separate support from Casey. "The florist added: 'I will pay them on the installment plan so that the memory will fade with me.'"

TOM FOLEY TALKS OLD TIME SPORT

Meets Friends on Visit to St. John—The Olympic Bouts.

Tom Foley, who was looking after the Nova Scotia boxers in the Olympic trials, made arrangements this morning to take charge of the three Olympic prospects, who are to go to Toronto for trials June 20 and 21. He said he agreed to go to Halifax today to complete some business arrangements and return to Rothesay next Monday or Tuesday. He will remain with the boys for eight or ten days and will then leave for his home. Mr. Foley is managing Roy Chisholm and Nelder Healey and as both are to engage in important bouts in Glace Bay, the former on June 18 and the latter on June 26, he felt that he would be doing them an injustice if he neglected them at the present time. His present arrangement, however, is expected to work for the benefit of his professional charges as well as the boys who are endeavoring to make the Canadian Olympic team. Speaking to a representative of The Times-Star this morning, he said he had thoroughly enjoyed his stay in St. John. He renewed old acquaintances with Dan Britt and other members of the old roses and Alerts, whom he played against years ago while a member of the Standards and Resolutes baseball teams of Halifax. His brother, Jim Foley, was at one time a member of the Roses. He also met Traffic Policeman Andy Duffy, and talked over the days when his brother Bart was winning fame as a speed skater. He also took opportunity of visiting Fred Logan's boat-house, where he inspected a new shell recently constructed by Mr. Logan and Harry Belyea for the former's son, Willie. He pays a tribute to the workmanship displayed in the construction of the shell and the oars. The Bouts Last Night Speaking of the bouts in the Arena last night, Mr. Foley said he considered they were exceptionally good and he is confident that the three boys selected to go to Toronto will make an exceptionally good showing and would not be surprised if they could win a place on the Olympic team. He said that Wright who won the 147 pound class event from McLean was greatly disappointed because he had not been selected to go to Toronto. He is a marathon runner and has entered in the five mile race in Moncton on Saturday. He informed Mr. Foley that if he had known the winner of the 147 pound class was not to go to Toronto he would have confined his efforts to training for the race. Mr. Foley said he was greatly pleased with the showing of Wright who scored a

victory over McLean, who knocked him out in the Maritime championships in Halifax a few weeks ago. He felt that if he could have had Wright under his wing for another couple of weeks he would have been qualified to compete in the big trials in Toronto. The boxers who competed in the preliminary trials here but who were not selected for the Canadian trials, left this afternoon for their homes in Nova Scotia. Jimmy Cruickshank, "The Fighting Cop," was also greatly disappointed because he was not chosen to go to Toronto. William Cavanaugh of Westville, N. S., Louis Donoghue of this city, and "Nicky" Kennedy of Halifax were due to go to Rothesay this afternoon to start training for their final test in Toronto. McLean of Sydney was accompanied here by "Big" Dan McLeod who is a well known and popular boxing coach.

MISSIONARIES MAY BE IN DANGER

Fredericton, June 5.—At the convention of the Provincial Government's meeting this evening it was announced that Hon. Dr. J. E. Hetherington, Provincial Secretary-Treasurer, had been appointed acting Minister of Lands and Mines. He will continue the duties. Premier Veniot had been acting minister since the resignation of Hon. C. W. Robinson upon his elevation recently to the Senate. The appointment of Hon. Dr. Hetherington as acting minister means there will be no immediate permanent cabinet changes and apparently there will be no by-elections just now. Mr. E. Golding, of St. John, manager of the New Brunswick Railway Company, which owns extensive timber lands in this province, was appointed a member of the Forest Advisory Board, succeeding Archibald Fraser, of Fraser Companies Limited, who has resigned. Chief Engineer. R. R. Weston, of St. John, was appointed chief engineer of the new Brunswick Electric Power Commission. He has been acting as chief engineer since the retirement of C. O. Foss, some time ago. Hon. Dr. E. A. Smith presented the monthly report of the Hydro Commission which the hydro lines have been extended to Sussex Corner, Morridale and Leger Corner and that a survey to Cady's has been undertaken. He also reported on the progress of surveys at Grand Falls. A delegation consisting of Chancellor Jones and B. M. Hill of the University Senate appeared before the Government and asked for a further grant of \$25,000 towards completion and finishing of the new war memorial building at the University of New Brunswick.

NEW PURDY MAKES GOOD TIME ON RUN

The new motor-ship D. J. Purdy was given her trial trip last evening and after the return trip the captain expressed great satisfaction with her performance. The engines were not opened out to their full extent, but despite this, on the return trip she made the run from Belyea's Point to Indiantown in 21 minutes.

The boat went as far as Craig's Point and back and everything went smoothly. The residents along the river and the suburbanites watched her progress with keen interest and many complimentary remarks on the fine appearance she made on the water were heard. It is hoped to have her ready for service by Monday of next week.

Gum Chewing Aids the Teeth

You have the authority of doctors and dentists for this statement. Your own experience will prove it, if you will use WRIGLEY'S after every meal.

The following quotations from a recent work on teeth and health are worth remembering:

"Dentists have found that the exercise of gum chewing brings about a better nutrition of the teeth."

"The cleansing action of the gum between the teeth helps to keep them free from the particles which lodge in the crevices and cause decay."

The busy man—or woman either—rarely has time to clean the teeth after eating. Yet they should be cleaned, and

WRIGLEY'S

will do it. Also it will aid digestion and furnish welcome refreshment to mouth and throat.

Sealed in its purity package, bringing all its original goodness and flavor to you.

ST. JOHN DELEGATES ENTERTAIN SESSION

Reports from the several districts were received at the sessions yesterday of the Women's Missionary Society of the New Brunswick and Prince Edward Island Conference of the Methodist church, which is holding its annual convention at Woodstock. A most interesting exercise was given by the St. John delegates in the afternoon when they put on an afternoon tea at the W. M. S. Health Centre. The patients were introduced by Dr. Hope and treated by Dr. Faith, who was assisted by the nurse, Miss Works. The work of the mission field was graphically set forth by the exercise "Watchman, What of the Night."

DIVERTING ST. JOHN WATER.

In the House of Commons on June 5, while the matter of diversion of water from the Great Lakes by the Chicago Drainage Commission was under discussion, both Mr. Caldwell of Carleton-Victoria and Mr. Michaud of Restigouche-Madawaska brought up another case of diversion, in which this city and province are much interested.

EVERYBODY'S BUSINESS

(Vancouver Sun) The little skirmish in the Federal House Wednesday, during which Hon. J. A. A CONTRAST.

(New York Commercial) Italy suffered war damages to the extent of about two billion dollars. That damage has now been repaired. Before the war, the country, measured in gold, was not quite twenty-two billions. Now it is twenty-one and a quarter billions.

Some More High Finance.

(Kincairdine Review) Francis Nelson, late sporting editor of the Globe, thinks that the Home Bank had nothing on a bank in one of the southern states. It was managed by negroes and patronized by them.

THE completion in 1886 of the Canadian Pacific Railway, a project that had received the moral and financial support of the Bank of Montreal, cast a bright ray of promise across the then somewhat troubled economic life of Canada.

Canada at last was spanned by rail from coast to coast, opening up for profitable development the fertile territory lying between. The Bank of Montreal signalled the completion of the line by establishing a Branch at Vancouver and later at Victoria, thus completing its transcontinental chain of Branches and bringing to the Pacific Coast banking facilities essential to the successful development of the great economic potentialities there.

Of its 567 Branches, 53 are situated in the Province of British Columbia.

"What new things?" laughed Nancy. "Do you suppose we sell odd things in this store, Mister Coon, now do you?" Mister Coon looked kind of sheepish as he answered, "Oh, excuse me! I know that of course. But I mean one of those extra new things where you have to tack sticks on your chinney and have a lot of boards and wires sticking up into the air."

The pleasure of opening the presents occupied considerable time, after which games were played by the merry throng of 25 young women. Miss Elsie Rupp favored the guests with several solos. Refreshments were served under the direction of Miss Gladys Whelpley. Miss Margaret Barker, Miss Ruby Morrison and Miss Marion Belding. Mrs. F. E. Whelpley presided over the tea. Mrs. J. G. There was a pretty decorated cake with candles, colored icing and the most surprising gifts for everybody inside. Lovely pink and lavender baskets, filled with tempting candies, were at each place and roses made a pretty floral decoration on the table and in the rooms. SISTER MARY'S KITCHEN
A Daily Menu For The Stout and Thin
EAT AND--
Lose Weight—Gain Weight

Four tablespoons shredded pineapple, 4 tablespoons crab meat cocktail, 1 head lettuce, 2 tablespoons strawberry ice, 2 macaroons, 4 ounces boned loin of lamb, 1 tablespoon mint jelly, 5 slices pickled beet, 2 thin crisp pieces gluten toast, 1 thin piece rolled oats bread, 1 thin piece rye bread.

Total calories, 1141. Protein, 254; fat, 419; carbohydrate, 568. Iron, .0208 gram.

Two tablespoons prepared cocktail sauce are included in the crabsmeat cocktail. One tablespoon catsup or chili sauce or the cocktail sauce means about 10 calories.

The lamb is roasted and no gravy is included in the serving. If your caloric allowance is 1200 calories per day you may add two level teaspoons of butter and use it as you please.

You see you can eat "sweets," but you must eat them sparingly and sacrifice some place else. The strawberry ice and macaroons "stand" you about 300 calories and only one-fourteenth of

them are protein, the rest are fat and carbohydrate.

The head of lettuce, pineapple and onion provide the mineral salts and vitamins.

Four tablespoons shredded pineapple, creamed potatoes (4 tablespoons), 2 slices broiled bacon, 3 ounces calves liver, 2 corn muffins, 2 tablespoons marmalade, 1 tablespoon butter, 4 tablespoons crabsmeat Newburg on two triangles toast, 1 head lettuce with 2 tablespoons strawberry ice, 2 macaroons, 1 cup cream of asparagus soup, 4 ounces boned loin of lamb, 1 large potato roasted with meat, 2 tablespoons gravy, 2 tablespoons mint jelly, 5 slices pickled beet, 1 baked onion with 1 tablespoon butter, 4 tablespoons sweet cherry salad, 1 chocolate eclaire, 1 pint whole milk, 3 large stuffed prunes with lettuce salad, 2 hard rolls, 2 tablespoons butter.

Total calories, 4182. Protein, 532; fat, 1729; carbohydrate, 1821. Iron, .0274 gram.

There have been so many inquiries

as to how to arrange the menus for the day that I have planned the breakfast using the first six items. Luncheon and dinner can be arranged to suit the convenience and needs of the individual.

Remove the stones from large sweet cherries and fill with Neufchatel cheese

moistened with heavy cream and combined with finely chopped pecans. Serve on hearts of lettuce with a whipped cream dressing.

Cleaning Reed. Clean reed and willow baskets by rubbing with a stiff brush.

Fresh Mustard Mixed in a Moment

Fresh and sweet as a garden after rain

IN all Nature, nothing gives us more pleasure than to see the return after rain of a wilted, dust-laden garden to sunlight, freshness and purity. There is a sense of utter cleanliness—all soil and stain have been taken away. So it is with Sunlight Soap. Clothes washed with it are fresh and sweet as a garden after rain.

Nothing but purity can come out of Sunlight Soap, because nothing but what is pure and good goes into it. There is never any change in the standard of its manufacture; never are cheap make-shifts resorted to; Sunlight Soap is always up to the highest standard of soap purity and efficiency.

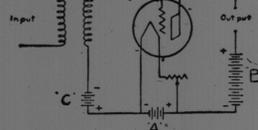

A Guarantee of Purity is on every bar of Sunlight—which means that it is the cheapest soap you can buy. Every ounce is pure, valuable, cleansing soap material.

Use Sunlight—the good soap for the home.

This is the first of a series of articles designed to impart in simple easily understood language, facts about Radio. Number two of the series will appear at an early date.
