Forty Varieties of Mankind in Friendly Rivalry.

CET DAYS FOR FUTURE DECPLAYS. The Far-Foreign Visitors Are Much More

Interesting to Each Other Than to Us-

Who Are the Fairest Peop!s on the Grounds, Irish or Swedes? WORLD'S FAIR, Aug. 5.- [Special.] -The proper study of mankind is man, says Pope, and here one may take him (including her) in details of every shade of color, shape of face and style of raiment— the Edenic alone excepted, though a few of the plaisance people come sufficiently near to that. The most northern man ere is from latitude 70 degrees or there abouts, and the most southern from Patagonia, and as to heat, well, in the fine medium weather now prevailing the Alaskans lie in the shade and pant while their black neighbors sit in the sun to rest. Man is certainly here to be studied and man is likewise here to study him.

In colors one may range through forty varieties, from the lily white lady of Dublin to the shining black beauties of Dahomey, not to mention the sallow denizer of the Mississippl delta or the Anglo Afric-American dude of Chicago. Add to the list those queer burlesques of humanity, the higher anthropoids now on exhibition, and one may trace the rectification of the facial angle, as Darwin has it, from the prognathous to the dolichoephalic that is to say from the ape to the Greek, or from the shovel-faced Krooman of Guinea to the cultured Christian of Brooklyn.

Everybody knows by this time that the many colored folks of the Midway plaisance are as a whole the most interesting part of the show taken as a show. That is they interest a larger number of people and interest them longer. I may add incidentally, though it has little connection with the immediate subject, that so far as I can see the art galleries interest the fewest people and that of all who go through then not one in ten goes a second time. You see man has to acquire some knowledge to appreciate art, but he is born with the capacity to get interested in his fellow men. Of all who go through it has little connection with the programan and Egyptimus. The Indians may be said to have a coler of their own, especially the beginnant, but I have a subject on the studied and man is likewise here to study him.

In truth, as an object of interest at all even of music is a mere must be soarthing in it, for even among an official and could be claused by a vigorous course of culture, the bridge and its legal to have a color of the last was a face of the sail blacker Guinea man. Officials and old visitors say that when these grades worship and the sail blacker Guinea man.

Officials and old vi abouts, and the most southern from Patagonia, and as to heat, well, in the fine

men. Of all who go through the plaisance at least three out of four go through it again if they have time.

In truth, as an object of interest at all seasons, nothing interests the average man so much as his fellowmen, but the amusing feature of the case is that these far-foreign people are much more of a show to each other than they are to us. This was some time a mystery, but a little reflection shows why it must be so. White men have visited every part of the world and their products have penetrated even those remote and dangerous sections where they as yet dare not go. We make rum for the pagans of central Africa, crosses for the Christians and pocket knives for the Mchammedans, and the latest business joke (as jokes go for age in Singliand) is that a factory in Birmingham is now turning out brass gods for the Hindoos. So hearly all the savages have seen white town and all have scent their products and know comething of them; but savages do not travel and therefore have not seen each other.

By a near trick of the authorities the extent of the first used, and this was followed by a concert in the hall by the world's best personant in the first used, and this was followed by a concert in the hall by the world's best personance where they are the products and therefore have not seen each other.

The rest of Marcia Oatville's story is nauseatingly old. The man of action was a pleasant change after the absorbed man of thought. The breezy self-confidence of the child of fortune was exhilarating after a long spell of that thoughtfulness which is left behind by one single failure. Craven Lester could not stand up against this reverse of fortune. He was bewildered and saw Marcia Oatville's love slipping through his fingers without knowing how to stay it.

THE GREAT SOUTH AMERICAN

Stomach Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years. It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk. This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians,

who have not brought its merits and value to the knowledge of the This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nervine tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen

bottles of the remedy each year.

IT IS A GREAT REMEDY FOR THE CURE OF Nervous Prostration, Debility of Old Age Nervous Headache, Sick Headache, Nervous Chills, Loss of Appetite, Paralysis, Frightful Dreams, Nervous Paroxysms and Nervous Choking, Hot Flashes, Palpitation of the Heart, Mental Despondency, Scrofula, St. Vitus' Dance. Nervousness of Females, Nervousness of Old Age,

Indigestion and Dyspepsia. Dizziness and Ringing in the Ears. Weakness of Extremities and Fainting, Impure and Impoverished Blood, Boils and Carbuncles, Scrofulous Swellings and Ulcers, Consumption of the Lungs, Catarrh of the Lungs,

Bronchitis and Chronic Cough, Neuralgia. Pains in the Heart, Pains in the Back, Chronic Diarrhea Delicate and Scrofulous Children. Failing Health,

All these and many other complaints cured by this wonderful Nervine Tonic. NERVOUS DISEASES. As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply al the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves.

For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous de-Tangement.

To the Great South American Medicine Co.:

DEAR GENTS:—I desire to say to you that have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done meany appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottlee of it. I must say that I am surprised at its wonderful powers to cure the stomach and peneral nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand.

The Great South American Nervine Tonic Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the one and only one great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic. Wonderful curative powers of the South American Nervine Tonic.

Harrier E. Hall. of Waynetown, Ind., says:
