BRITISH TAKE 500 YARDS OF TRENCHES NEAR LESBOEUF

HAIG'S MEN PUSH NEARER PERONNE-BAPAUME ROAD

British Only Short Distance From Main Artery Immediately Behind German Lines North of Combles.

Germans Fiercely Contesting Ground Around Thiepval—British Lose Section of Hessian Trenches, but Quickly Drive Invaders Out—Rain Halts Activity on French Front.

Steadily the British troops are pressing forward toward the Peronne-Bapaume road, the main artery immediately behind the German lines north of Combles. After taking 500 yards of trenches southwest of Le Sara, General Sir Douglas Haig's men made additional progress in the capture of 500 yards of German trenches east of Lesboeuvs.

The British occupation of territory between Thiepval and the Ancre is being contested strongly by the Germans. A German counter-attack, following the entry of the British into a section of the Hessian trenches resulted in the forcing back of the holders. The section was regained later, however, by the British, London says. Heavy fighting also has occurred around the Stuff redoubt. Rain is hampering operations on the remainder of the Anglo-French front north on the Somme, according to official statements.

Paris mentions no activity following the advance between Fregicourt and Morval toward Sailly, on the Peronne-Bapaume road.

QUIET IN THE OTHER WAR THEATRES.

There has been no great activity on any of the other fronts in Europe except in Transylvania, where the Austro-Germans have repulsed the Rumanians at Hermannstadt. Vienna says the Teutonic forces also have occupied the heights east and southeast of the town after violent fighting. The battle in this section, however, has not yet been finished. The intense fighting in the region of Koryniza, on the eastern front in Russia, appears to have come to an end. Berlin and Vienna say that the Russian prisoners have increased to 41 officers and 3,000 men. The forces under Prince Leopold of Bavaria here also took two cannon and 33 machine guns. Berlin records the repulse of a Russian advance near Godulchki, and Petrograd claims the defeat of a German attack near Cukalov. Fighting continues in the Carpathians, but there has been no change in the battle lines.

In Macedonia the Entente Allied troops are withstanding Bulgarian attacks. The Serbians have checked four attacks against positions on the Kalmakalan plateau, and the French have withstood assaults along the Broda river.

Gain of 500 Yards East of Lesboeuvs.

Bulletin—London, Sept. 29.—East of Lesboeuvs, on the Somme front, British troops have occupied 500 yards of German trenches, says the official statement issued by the British war office tonight. There was heavy fighting near Thiepval. The British were forced from a section of the "Hessian trench," but regained it later. The statement adds that more than 500 prisoners were taken in this fighting. The statement reads:

"Rain fell heavily today, and except for intermittent shelling, there was little activity on our centre and our right wing of the battle front. Some slight progress was made east of Lesboeuvs, where we occupied 500 yards of enemy trenches.

"In the Thiepval area there was heavy fighting around the Stuff redoubt. Having taken an important section of the Hessian trenches, we were forced out of it by a counter-attack, but regained it later in the day. "In this section during the past 24 hours we have taken prisoners eight officers and 521 men.

"In spite of the weather our aeroplanes have done useful work attacking the enemy's reinforcements on the move. "Yesterday enemy aircraft patrolled actively behind their own lines but showed little enthusiasm. An enemy machine was destroyed. One of our machines has not returned.

"Enemy Warship Sunk in the Danube. "Bucharest, via London, Sept. 30.—The official communication issued today by the Rumanian war office follows:

"Fighting has occurred along the front, and was especially severe northwest of Boddar and north of Sibia. The enemy retreated eastward, leaving two officers and 200 men in our hands. South of Sibia (Hermannstadt) active fighting continues.

"Southern front: Our artillery sank

SUBMARINE FREIGHTER BREMEN MET FATE IN THE ATLANTIC?

Life Preserver Marked "Bremen" Picked Up off Cape Elizabeth Yesterday—Small Crown Printed on One Side and Name of Maker in Wilhelmshafen.

Portland, Maine, Sept. 29.—A life preserver marked "Bremen," the name of the German submarine freighter which has been generally expected to arrive at some Atlantic coast port for the past week or more, was picked up on the ocean side of Cape Elizabeth today.

The name "Bremen" was stenciled in black letters two inches high on both sides of the buoy. On one side of the canvas covering was printed a small crown. Over this mark were the words "Shute-Marke," meaning "marked by trade mark."

Senator Costigan Died Suddenly at Ottawa Last Night

In Parliament or Senate Since Confederation, One of Canada's Oldest Statesmen—Funeral at Grand Falls.

Special to The Standard. Ottawa, Sept. 29.—Senator, the Hon. John Costigan, one of Canada's oldest statesmen, former cabinet minister of parliament or senate since Confederation, died today at the residence of his daughter, Mrs. Walter Armstrong, 152 Carling avenue, in his 82nd year.

Senator Costigan had been in failing health for about a year. However, yesterday he seemed much improved. He was able to get up and spend the evening in conversation with his friends. He was quite conscious until about an hour before he died. His friends were encouraged by his apparent recuperation yesterday so that the sad news of his death comes as a distinct shock.

During his long residence in Ottawa, for he has made it his home ever since he became a cabinet minister, he had never missed a year that he did not visit his old province of New Brunswick. He was a keen hunter and fisherman and every fall would find him hunting deer in the forests of that province. This year he again planned to spend some weeks in the open during the late fall and left his fishing tackle early in the summer. However, when he reached Quebec he was so weak that he had to return to Ottawa. His robust health, he used to say, was due to his vacations spent in the forests.

During the past twelve years Senator and Mrs. Costigan have resided with their daughter, Mrs. Walter Armstrong, 152 Carling avenue. His widow survives him and is in fairly good health. The late Senator leaves one son, Mr. Harry A. Costigan, of New Brunswick, and two daughters, Mrs. Walter Armstrong of Ottawa and Mrs. Cameron Bliss of Winnipeg. He leaves one sister, Mrs. Catherine Lawlor of Chatham, N. B.

Senator Costigan will be buried in the family plot at Grand Falls, N. B. Arrangements for the funeral have not yet been completed, but it is expected that the remains will not be taken from Ottawa until Sunday morning.

Member of First House of Commons. Hon. Mr. Costigan was eighty-one years

PRES. WILSON TELLS HYPHENS HE DON'T WANT THEIR VOTE

Angered by Message Accusing Him of Pro-British Tendency Serves Notice on Disloyal Americans.

New York, Sept. 29.—Stung to anger by an avalanche of insulting and insistent communications, demanding that the government take certain action with regard to Germany, President Wilson, through the medium of a telegram addressed to Jeremiah A. O'Leary, president of the so-called American Truth Society, an organization formed for the purpose of aiding the German propaganda, today served notice on the hyphenates that he wants no "disloyal" American to vote for him. The president's message, which was in reply to a telegram from O'Leary accusing him of being pro-British, was sent from Long Branch, N. J. and reads:

"Your telegram received. I would feel deeply mortified to have you or anybody like you vote for me. Since you have access to many disloyal Americans and I have not, I will ask you to convey this message to them."

ACCUSE U. S. OF INGRATITUDE TO GERMANY

"Great Concession" in Restricting Submarine War Not Appreciated.

NATION FAST LOSING HER NEUTRALITY

German Press Bitterly Charges Americans With Aiding the Entente Nations.

Berlin, Sept. 29, via London, Sept. 30.—Immediately on the heels of the utterance of the imperial chancellor in the Reichstag concerning the submarine campaign the afternoon newspapers generally print strong criticisms of the neutrality of the United States, based on the news of the death of the American aviator Kiffin Rockwell, and the presence of other American aviators on the western front.

They connect this evidence of American sympathy for the Allies and the supplying of war materials by firms in the United States as an indication of futility of concessions to the American standpoint with regard to submarines. They declare that these facts show how American respect for neutrality is vanishing, and how America is misusing the present form of submarine warfare to cover the active participation of American citizens in the war on the side of the Entente Allies.

The Lokal Anzeiger, in a bitter editorial, declares the United States, permitting her citizens to fight on the side of the Allies, has displayed base ingratitude toward Germany, and feels aggrieved that the "great concession" made by the Teutons to the United States in restricting her submarine warfare has not received due recognition.

WATCHING TREND OF EVENTS IN BERLIN.

Washington, Sept. 29.—The state department is watching the trend of events in Berlin, and is keeping informed of the political movement for a fuller use of the submarine. Officials suggested today, however, that the fact of Ambassador Gerard's return at this time proved in itself that no crisis is either at hand or expected. Were that the case, it was said, the ambassador would be held in Berlin.

BRAVE TALK BY GERMAN LEADER ON THE SOMME

Crown Prince of Bavaria "Talks for Publication" and Professes Confidence in Ability to Check Allies.

Berlin, Thursday, Sept. 28, via London, Sept. 29 (Delayed).—The latest fighting on the Somme evidently has not shaken the confidence of the German military leaders in their ability to prevent a breach in their lines. The Berliner Tageblatt's special war correspondent interviewed Crown Prince Rupprecht of Bavaria, commander of the German forces on the Somme, Tuesday, and the Crown Prince's utterances expressed complete confidence in the situation for the present and the future.

The Crown Prince is quoted as having said that since the offensive began the Entente Allies had gained some ground, but there could be no thought of this decisively changing the situation.

Whistling to Keep Up Courage. "It is impossible to predict how things will go here afterwards," said Prince Rupprecht. "But one thing is certain, namely, that we have everything prepared so thoroughly that we are able to contemplate the situation with equanimity, whatever comes. The offensive will certainly not reach an early end.

"We can reckon upon an offensive of great persistence and with heavy attacks, accompanied by an enormous expenditure of ammunition. But we have taken precautions. Our artillery has been reinforced, and likewise our aeroplane corps, and our fliers have had fine successes in the past few days, although they have had hard fighting against increased numbers. Our artillery derives advantages from the successful work of the aeroplanes, after having formerly been much exposed to observation by hostile aviators.

"Our troops have been striking with the utmost strength, and the enemy has found the nut too hard to crack. It is my distinct opinion that the enemy is trying to force a decision at this spot and during this year, and he has not yet succeeded. He will have to put up with a winter campaign and continue his fighting next year."

GERMAN CHANCELLOR SILENT ABOUT BELGIUM

"NO PEACE WHILE GERMAN PEOPLE IS CONTENT TO BE RULED BY MILITARY CASTE"

SILENCE OF GERMAN CHANCELLOR CONCERNING BELGIUM, A SIGNIFICANT FEATURE OF HIS SPEECH IN THE REICHSTAG, LORD CECIL POINTS OUT.

Offend Neutrals if He Tried to Justify German Invasion, and His Own Nation if Favored Giving Up that Country.

London, Sept. 29.—The address of the German chancellor, Dr. Von Bethmann-Hollweg in the Reichstag is more remarkable for what it omitted than for what it said, according to Lord Robert Cecil, minister of war trade, who, in discussing the speech with the Associated Press today, declared the most significant fact in connection with the chancellor's utterance was his failure to mention Belgium.

An Old Trick.

Dr. Von Bethmann-Hollweg's denunciation of England, while violent, contained nothing really new. It was merely the old trick of attempting to convince our allies that we are trading on their efforts and bleeding them to death in the process, but recent events on the Somme ought to convince him of his error. The idea that we want a world supremacy is fantastic.

Discussing this phase of the chancellor's speech, Lord Robert Cecil declared: "You will note that in this race for commercial supremacy England is the chief opponent to be feared, the United States being left out altogether."

Lord Robert continued: "Anyone can readily see that we made no preparation for any such contest for world supremacy."

"I note in the portion of the speech devoted to efforts for peace that my name is used, but I cannot understand his complaint. That Germany was once ready for peace means nothing, as naturally everybody is always ready for peace on his own terms. The Germans are ready, not for peace, but for a truce, to enable them to prepare to enforce their own terms on the world. There will be no peace as long as Germany is content to be ruled by a military caste."

Discussing the reference in the chancellor's speech to the death of the King of Roumania, the minister of war said:

"Of course, it is quite possible that the strain imposed by the war may have caused his death, as the king was an old man; but it is also quite possible that the theory of the cause of death may be based on Dr. Von Bethmann-Hollweg's imagination."

Submarines Not So Pleafiful.

Lord Robert stated that he believed the German imperial chancellor was sincere in his declaration that Germans are ready, not for peace, but for a truce, to enable them to prepare to enforce their own terms on the world.

The hull in submarine warfare is due to a shortage in submarines, and it is always increased when instruments are at hand. The only change I note is that no British passenger liner has been sunk since the Sussex. The number of submarine victims has been increasing steadily in the last three months, and our allies and neutrals have suffered virtually as much as we have. In June the British lost two ships without warning; the other

allies lost one without warning, and neutrals lost five, including three without warning. The figures for July show the British lost two that were not warned and neutral countries nine. In August the British lost one without warning; our allies one without warning, and neutrals twenty-six. To September 24, the British lost five vessels without warning and neutrals twenty-six.

"Eighty-one British lives were lost during the period covered above; during August and September Norway lost 33 ships, with a total tonnage of 47,000 tons; Sweden lost 11; Denmark 7; Holland 3; Spain 5, and Greece 6."

Most Concerned About His Own Doubtful Position.

London, Sept. 30.—All the morning newspapers devote a major part of their editorial space to a discussion of the speech of Imperial Chancellor Von Bethmann-Hollweg in the Reichstag, contrasting its mild tone with former utterances. The editorials all assert that, aside from the attacks on England, the chancellor said little that was new, and perhaps disappointed those who expected him to make more extended peace overtures.

"It is perfectly clear," says the Daily News, "that Dr. Von Bethmann-Hollweg's speech was dictated far more by the exigencies of the political situation in Germany than by anything that is happening outside. What the chancellor is concerned about throughout the speech is primarily to re-establish his own shaken authority, and, secondarily, to raise the spirit of the nation to meet the storm breaking over it."

The Graphic says that the dominating note was the old story of hatred for Great Britain, and continues: "This is the only possible comfort for the disillusioned German people. For ourselves, we only have to note with interest the declaration that Germany is ready for peace. We are not."

London, Sept. 29.—The evening newspapers publish lengthy reports of Chancellor Von Bethmann-Hollweg's speech, contrasting it with his earlier utterances, and drawing the conclusion that Germany fears defeat and is anxious for peace. The Standard says the chancellor makes it clear that peace must be on the whole a German peace, but there is now no talk of vast indemnities, great territorial acquisitions, and so forth. "The chancellor labors to make the world believe the conflict was forced on his country by England. How came it, then, that England, France and Russia were indifferently prepared while Germany was prepared to the last? "

"If the slaughter of the youth of France and Russia really affected the Germans to tears, it is curious that she never thought of ending the carnage when she was in a position of undoubted advantage."

The Standard concludes with the remark that neutrals must now be told, with the utmost politeness, of course, that terms of peace are no concern of theirs.

The Westminster Gazette says: "There is nothing for it but continuance of the war until Germany is definitely and decisively defeated."

U. S. WARSHIPS ECORT INTERNED CRUISERS TO PHILADELPHIA.

Norfolk, Va., Sept. 29.—The interned German auxiliary cruisers Kron Prinz Wilhelm and Prinz Eitel Friedrich left the Norfolk navy yard early today for Philadelphia, where they are to be laid up for the remainder of the war. A squadron of American battleships waited off the Virginia coast to escort the cruisers up the coast and serve the double purpose of preventing their escape and guarding against interference by Allies' warships.

The Prinz Eitel Friedrich went out under her own steam, while five tugs towed the Kron Prinz Wilhelm.

AMHERST, N.S. DISAPPOINTED LAWYER TAKES HIS OWN LIFE AT SPEECH OF CHANCELLOR

William G. Pugsley, Registrar of Probates, Found Dead in His Office with Bullet Through Brain.

Special to The Standard. Amherst, N. S., Sept. 29.—William G. Pugsley, a prominent local lawyer, committed suicide here today, sending a bullet crashing into his brain from a revolver held close to his ear. No cause has been given for the death, but at the inquest held this afternoon the jury returned a verdict that the deceased came to his death by a bullet in the right temple fired by his own hand for reason unknown.

The body was not discovered until two o'clock this afternoon. Mr. Pugsley did not make an appearance at his home last evening and this afternoon his mother, Mrs. Amos Pugsley, called up Mr. D. S. Biggs on the telephone, and asked him if he knew where Mr. Pugsley was. Mr. Biggs said that he would look in the office. In company with Stipendiary Magistrate McKenzie, a great friend of the deceased, the two gentlemen went across to the court house, where Mr. Pugsley had his office, being registrar of probate. The door was found locked, but on looking through the transom the body was observed inside. Fearful of accident, a doctor was summoned and he authorized that the door be broken in, and Mr. Pugsley was found dead. The doctor stated that he had been dead for over twelve hours and that death was instantaneous.

The deceased is survived by his parents, Mr. and Mrs. Amos Pugsley, one sister, Mrs. Gertrude Trethewey, wife of Major Trethewey, now on the firing line, and one brother, Thorley Pugsley, in the Canadian west. The deceased is a graduate of Mt. Allison in the Arts class of 1898. Later he embarked upon a legal career and graduated from Dalhousie Law School, Halifax. Mr. Pugsley was known throughout the three provinces as a most enthusiastic golfer and curier.

N. S. OFFICER KILLED AFTER HEROIC ACTION

Lieut. Pringle, Single Handed, Attacked German Machine Gun and Killed Crew with Revolver.

London, Sept. 29.—(Montreal Gazette Cable)—Details which have just reached London of the death in action of Lieut. Pringle, son of the Nova Scotia chaplain, show that he made a heroic stand before he fell a victim of a German bullet. As his battalion, which was composed mainly of Montreal men, was advancing toward the German trenches Lieut. Pringle discovered a concealed machine gun and, single-handed, he charged and killed the whole crew with his revolver. After he had accomplished this he was instantly killed by an enemy bullet.

Captain Chrysler and Captain Whitlans were wounded in the same action. Lieut. Eric Dennis, son of Senator Dennis, of Halifax, hit on the head by shrapnel, was saved by his helmet.

A young soldier with the Nova Scotia battalion lost part of his nose by a shell fragment but refused to stop fighting, saying he was going to get a Hun before he stopped. He got to the German trenches, captured a German, and marched him back to a dressing station for treatment.

The auto 'bus was bought only a week ago. The fire is supposed to have started from short circuiting of electric wires.

SEPTEMBER WEDDINGS

Wood-Stevens.

At Marton, on Thursday evening, at the home of Mr. and Mrs. Stephen Stevens, their daughter, Alice Marie was married to Benjamin L. Wood, a popular grocer of Fairville. Rev. Gilbert Earle officiated. The house had been tastefully decorated for the occasion, the ceremony taking place under a beautiful arch of pink sweet peas hanging from the centre.

The bride, who entered the room with her father, looked charming in a dress of Copenhagen blue silk with old rose hat, and carried a bouquet of roses and carnations. She was unattended.

Following the ceremony, supper was served in the dining-room, decorated in pink and white, with brightly colored autumn leaves, making the whole effect very pleasing. Only immediate relatives were the invited guests.

The couple received many testimonials of esteem. The groom's present to the bride was in gold, while from Mr. and Mrs. Stevens, parents of the bride, they received cut glass and silver. Master, Hall Fairweather of St. John also remembered them with furniture.

Wood-Uniacke.

In St. Stephen's chapel, All Saints' Cathedral, Halifax, on Wednesday morning, Mildred Alice, daughter of Mrs. James B. Uniacke, of Halifax, and Captain William Truman Wood, of the 85th Highlanders, son of Lieut. Governor and Mrs. Wood, of New Brunswick, were married by Very Rev. Dean Lively.

CREW ABANDONS SCHOONER. St. Pierre, Magdalen Islands, Sept 27.—Five members of the crew of the schooner Adra, bound from Gaspereaux, to St. Pierre, with a cargo of lumber and shingles, arrived here today and reported that they had abandoned their vessel 10 miles off Cape La Hune, Nfld., early yesterday morning. The schooner sprung a leak and began to fill so fast that the men were forced to take to the boats. The captain declared that the ship was not insured.

THE ISIAH K STETSON. Capt. Hamilton of the schooner Isiah K Stetson, from St. John for New York, before reported in collision Tuesday night in Long Island Sound, with the steamer Lexington, says the vessels sighted each other about the same time, which was shortly after midnight. Both veered off, but the Lexington struck and put a large hole in the schooner's side. Her lumber cargo kept her afloat and a tug which responded to the Lexington's whistling took the Stetson in tow to Newport. The steamer apparently was undamaged.

AGAIN IN COLLISION. The steamer Storstad, which rammed the Empress of Ireland two years ago, was again in a collision which will cost the owners of the other craft something like \$20,000 to repair, while while the Storstad escaped with only minor injuries. The accident occurred at North Sydney, while the Storstad, in ballast, was coming down from the coal pier of the Dominion Coal Company, and another Norwegian steamer, the Hatters, was on her way to a berth at the pier. The impact ripped a number of plates off the latter steamer and badly damaged her bow.

SCHOONER PURCHASED. St. John's, Nfld., Sept. 28, says another new purchase and quite an addition to our mercantile marine has been made by the Smith Co. Ltd. They have acquired the fine schooner A V Conard of Lunenburg, a vessel of 147 tons register. She will be used as a fish carrier.

They Can't Prove Anything BY Listening

You have seen pictures of artists listening to their talking machine records but you have never seen pictures of great artists singing or playing in direct comparison with their talking machine records.

Above you will observe Thomas Chalmers, famous baritone, of the Boston Opera, singing in direct comparison with Edison's Re-Creation of his voice, as he has done several times in public, to prove that Mr. Edison's new invention, The New Edison, Re-Creates the human voice so perfectly that the original cannot be distinguished from the Re-Creation.

The NEW EDISON

is not a talking machine. It is the world's greatest musical instrument—the instrument of Edison's New Art, Musical Re-creation.

We are licensed by Mr. Edison to demonstrate his Marvellous New Invention.

Come, Hear the New Edison, then judge for yourself.

MAKING READY FOR SETTLERS AFTER THE WAR

Provincial Government Already Grappling with Problem of Placing Newcomers on Land when Peace Comes

The advisory board which has been appointed by the lieutenant governor in council under legislation passed at the last session of the legislature, in connection with land settlement after the war met in the government rooms yesterday afternoon with the farm settlement board and discussed very fully the steps to be taken in the carrying out of this scheme.

New Brunswick has taken the lead in this matter of land settlement after the war and the government has already received an expression of appreciation from the economic board at Ottawa for their labors and the policy adopted.

It is proposed to form committees along the line of the National Transcontinental Railway and steps will be taken immediately to choose suitable locations for these committees. It is the intention of the boards that they have made a selection of a site to have the soil given a thorough analysis by experts in order that they may be sure it will be suitable for their purpose.

In a short time the boards will choose the site of the first settlement, and have the test of the soil made this fall so as to be in a position to take care of any desiring to participate in this scheme should the war finish this winter.

A committee was appointed to draft rules and regulations governing these centres and will report at the next meeting of the boards when the regulations as adopted will be submitted to the governor in council as required by the act.

The advisory board, which is composed of Capt. J. E. Masters, Moncton, chairman; Chester C. Hayward, Newcastle, and A. B. Wilnot, Fredericton, were well satisfied with the steps already taken by the farm settlement

board in preparing to grapple with this problem of after the war colonization and they hope to be in a position to place men immediately at the close of the war.

Hon. J. A. Murray, minister of agriculture, under whose department the work of placing these communities comes, was present at the meeting.

Seventeen at Campbellton.

The total results of the recruiting campaign to fill the 236th for the week ending Sept. 30th were 109 men. The aim of Lieut. Col. Guthrie was to obtain one hundred men, but this mark has been surpassed by nine.

The most successful meeting was held last night at Campbellton when seventeen recruits signed the honor roll. The speakers were Judge McLatchey, Lt. Col. Guthrie, Major Laurie, Lieut. Mowatt and Dr. A. W. Thornton. A successful meeting was also held at Hatfield's Point, two recruits, Charles Clayton and Harold Miles, signed on. The speakers were Captain Giggay, Lieut. Seeley and J. D. McKenna.

NEW CHANGE FOR BOYS TO DO THEIR BIT

Men are Urgently Needed for Composite Battalion at Halifax—Recruiting Sergeant Here—Military Notes.

Men are urgently needed at Halifax in the composite battalion to take the places of those who have recently volunteered for overseas service. Sergt. J. J. Sullivan of Halifax arrived in the city yesterday for the purpose of enlisting men to go to Halifax. In conversation with The Standard Sergt. Sullivan said that there are openings in the engineering corps, the infantry battalions and artillery units. As the physical standard is not so high for home service men who are unable to proceed overseas on account of some slight physical deficiency have an opportunity of doing their bit by enlisting in the composite battalions at Halifax.

Recruits for any one of the above units can get full particulars from Sergt. Sullivan at the recruiting office on Prince William street.

NEWS AND COMMENT FROM THE FINANCIAL WORLD

A MEMORABLE DAY ON NEW YORK MARKET

Dealings Total 1,750,000 Shares with Enormous Amount of Trading in Industrials—U.S. Steel Again the Leader.

New York, Sept. 29.—Dealings on the stock exchange today rounded out the fourth successive week of five full sessions, and one week-end or two-hour session in which transactions reached or exceeded one million shares.

Today's turnover of 1,750,000 shares was not only the largest, with one exception, for the current movement, but was even more noteworthy for the enormous proportion of industrials dealt in, that group as a whole completely eclipsing the rails, copper and other issues in which speculation recently was most active.

United States Steel led throughout, rising to 120 1/2, a new record on sales of about 350,000 shares. Other iron and steel shares conspicuous for their strength and activity included Republic Iron and Steel at the new record of 83 1/2.

STEELS RETAIN MOST OF THEIR GAINS

Profit-Taking Sales Caused Moderate Reaction in the General List, Railroads Being Specially Affected.

(McDOUGALL & COWANS). New York, Sept. 29.—After Steel common had advanced to a new high record at 120 1/2 in one of the busiest days of trading that has yet been seen on this movement, profit-taking sales throughout the general market caused a moderate reaction in the list.

Some of the railroad issues were carried below yesterday's closing levels, but in the steel and equipment specialties which had been particularly strong in the morning, a good part of the gains still remained.

THE ELEVATOR DISCUSSION.

"St. John's worst enemies are within her own borders." This was once said of this city on an occasion very like the present when a question of port improvement had aroused much discussion and was being vigorously opposed by newspapers not in harmony with the Government of the day. In the present case Hon. Mr. Hazen secured, and not without difficulty, a vote for the construction of a grain elevator to serve the Canadian Government railways. Engineers, thoroughly competent, looked over sites for the structure and decided upon one. The contract for the elevator foundations has been let and construction will start almost immediately. The whole operation will mean an expenditure of hundreds of thousands of dollars and when completed this port will have an additional grain handling plant with a capacity of 300,000 bushels and the surety of eventual doubling of that accommodation.

Is there anything in this whole proposition that should arouse the bitter opposition of the Telegraph and Times except that the Government and the Minister responsible for the construction represent a political party opposed to that whose representatives the Telegraph is kept alive to boost?
The elevator will be a benefit and a boon to St. John. That is not denied. Yet the Telegraph opposes the boon and then hypocritically tells its readers that its stand is taken in the interest of the port rather than to help any political party. The Telegraph contends that as the work has been delayed to a point where it is not possible to finish it in time for this season's business, no harm can be done by further postponement until another site can be selected. This journal of the home and fireside does not presume to criticize the judgment of the political wonder who diffuses light through the columns of the Canterbury street newspaper, but is the Telegraph editor quite sure of his ground? Does the Telegraph know for a certainty that the money now available for the elevator will be available next year if no start is made on the work? Canada's war bills are increasing. Already it has been found necessary to stop work on some public works contracts and to hesitate before making others. Is there not a possibility that the next twelve months may see further action along similar lines? If the war is not over in twelve months and Canada's war expense continues to grow, will we be as sure of the elevator next year as we are now?

These matters might well be given some slight consideration by those who are so free with advice to delay construction on the elevator until some other site is secured. The principal purpose of these critics, however, is to criticize and arouse opposition to the project. They are not particular as to the facts of the case.

AFTER THE WAR.

As long as Canada's sons continue to face death on the battlefields of Europe it is natural that the thought of all Canadians should be turned to the war and matters connected therewith, and that the first effort of this country should be devoted to making it certain that Canada shall do her full duty. But the progress of the campaigns of the Allies has been such that at least there comes a glimmering of a day when the men in khaki will return to civilian life, and when this country shall be the Mecca for hundreds of thousands of war weary residents of the Allied countries who will desire to make a new start in life mid fairer and sweeter scenes far away from the haunting memories of blood and fire. It is wisdom to prepare now against the day when the homeseekers in thousands will pour into Canada, when the signing of peace treaties will create new conditions of national life, when industries now prosperous will find their markets gone and others now suffering from the commercial disruption consequent upon the world struggle will come into new life and vigor.

Canada after the war will be a new country, with new problems and added responsibilities. First there will

be the thousands of returning soldiers to care for and fit into their former places in civil life. This in itself will be a task of great magnitude, complicated possibly by the fact that many of the men who left sedentary occupations to don the uniform will find that two years in the open has bred a distaste for the routine of the office and the workshop, and a longing for the bigger, broader outdoor life. Then there will be the newcomers, and all indications are that the next ten years will bring them to Canada by the hundreds of thousands. New elements will be introduced into the population, new ideas and ideals will supplant those of two years ago. It will require careful thought and considered action to weld the various elements of the new Canada into an harmonious whole and place the newcomers so they may work to the best interests of themselves and the country of their adoption.

The commercial problems to be solved will be many and mighty. New markets will be opened, new avenues for development will appear, the country will find itself in a condition similar to that of the United States of thirty to forty years ago in experiencing its first great growth. The settlement of Canada's vast vacant spaces will be one of the first questions to require attention. Already the Government of New Brunswick has taken up this matter and is preparing to go ahead on a comprehensive plan. That is wise. Other provinces may well do likewise. In fact it is high time to consider all the problems to be grappled with and solved in the future.

The great progress made by the German armies during the first six months of the war afforded an unforgettable lesson in the value of preparedness for war. It is for Canada to teach the world the lesson of the value of preparedness for peace. The ten years following the present conflict are likely to form the most important period in Canada's history. It is for Canadians themselves to make that history glorious.

A MONTREAL OPINION.

The Montreal Mail, an independent newspaper, has not been misled as to the real purpose of the Carvelites in the Carleton county by-election campaign. The Mail takes the opposition statements that the fight was necessary in the interests of honesty and good government with considerable salt and uncovers the real purpose of the vicious campaign waged by the Dark Lantern Brigades and his associates, viz, the glorification of Carvell and the weakening of the administration at Ottawa. Commenting on the splendid victory of Hon. Mr. Smith and his colleague the Mail says: "The disappointment expressed in the acid comment in the more partisan Liberal papers of New Brunswick over the result in Carleton County, will not, we believe, find much of an echo in the country generally. Whatever the merits of the local questions brought up for discussion, it was quite obvious that bigger game was being stalked under cover of them. This was nothing more or less than a too evident desire to defeat Mr. Smith and his colleague on the Conservative ticket, and then herald it as a victory that would weaken the Ottawa administration. The result of the election dashed these hopes; and the Federal members who had journeyed to New Brunswick to oppose Mr. Smith and his running mate found that they had violated the so-called political truce without any appreciable result except to demonstrate anew that the agreement which is supposed to exist during the war is not binding when partisan advantage is expected to be reached. It must have required considerable restraint on the part of Hon. J. D. Hazen, the Federal New Brunswick minister, to abstain from active participation in this struggle, knowing as he did, the conclusion that would be drawn from a Liberal victory. That he did abstain is to his credit; and further, is to his material benefit. It did not require the defeat of Mr. Smith and his colleague to find Mr. Carvell's status, which is something already well established. The weakening of the Ottawa administration in war time is too grave a matter for

consideration and discussion to make it a subject of vital importance whether Mr. Carvell's personal and political influence is built up or knocked down at this juncture, especially in a contest, which in the last analysis, has very little to do with Ottawa affairs."

HON. JOHN COSTIGAN.

Senator Costigan, whose death is chronicled this morning, was one of the last survivors of the old school of representatives who sat in the first parliament of Canada. After six years in the Assembly of New Brunswick he was elected for Victoria county in the first Canadian parliament in 1867 and held that seat without a break until he was appointed to the Senate in 1904. He was a member of Sir John Macdonald's cabinet as Minister of Inland Revenue and continued in that office until Sir John Thompson became premier when, on the reconstruction of the cabinet he was appointed secretary of state. Later, under Sir Charles Tupper and Sir Mackenzie Bowell he was Minister of Inland Revenue. In his public service the late Senator Costigan had the reputation of an excellent administrator and an efficient departmental head. He was popular among all classes and numbered hosts of friends in both political parties. His death removes an old landmark in New Brunswick politics and closes a career which might have met more public approval had it been marked by a more steadfast adherence to his party allegiance.

HUNTING FOR EVIDENCE IN "TACK" CASE

Automobile Association Still Working to Find Miscreants Who Strewed Tacks on the Public Road.

The person or persons guilty of strewing the Westfield road with tacks, thus causing great inconvenience and loss to automobilists have not been apprehended and brought to justice. While the placing of tacks on the road is considered one of the meanest of acts, the fact that heavy logs were also placed across the highway at night adds to the seriousness of the offense and it is only a miracle that some persons have not been badly injured or killed as a result.

The placing of logs on the highway has happened on more than one occasion. One business man reported to the New Brunswick Automobile Association that on one of the roads in the suburbs he came to one of these log obstructions. This log was placed immediately over the brow of a hill and was banked with stones to make it solid, and placed in such a position that the headlights of the car would throw its rays over the obstruction when the front wheels of the car reached the top of the hill.

Fortunately, for the gentleman driving the car, he was going at a very slow speed at the time and saved damage to his car, and perhaps injury to the occupants. This log was not on the Westfield road.

On another occasion, a couple of years ago, a log was placed across the highway leading to Lorneville, and during the same summer a wire was stretched across the same road at such a height that should the windshield be lowered the wire would catch the driver of the car on the head and would mean, perhaps, instant death. These matters were reported to the New Brunswick Automobile Association officials but no clue to the guilty persons could be found.

Around the first of this month a large number of cars were stalled on the Westfield road because of damage to tires by tacks strewn along the road, and one automobile alone picked up no less than twenty-eight tacks in its tires. In addition to this F. G. Spencer had a narrow escape from injury one night when he found a heavy log across the highway near Ketepec station.

tee of the New Brunswick Automobile Association was held and it was decided to procure the services of one of the best detectives in Montreal. The offer came to St. John on the 12th of this month, and only a few days after the obstruction had been found on the road. His presence here was known to but few of the persons interested, and for eleven days and nights he occupied one of the camps near the highway, patrolled the district night and day and made inquiries, and not without some result. Suspicion rested on a couple of persons but so direct evidence could be secured that would justify an arrest. Some persons who it is believed might be able to throw light on the question are reluctant to do so, perhaps owing to fear of personal injury. The association last week offered a substantial reward to any person who would produce evidence that would convict those who placed the tacks on the road, but so far the information has not been received.

Although much time and considerable money has been spent by the association in trying to find the guilty persons, the search for evidence will continue, and it is hoped that before long the miscreants will be brought to justice.

was a native of Fairville, a son of the late Dr. J. H. Gray, a prominent physician of that place. Shortly after the death of Dr. Gray the family moved to the West, and Mrs. Gray now resides in Vancouver.

The fallen hero followed the sea, and at the outbreak of the war was in Australia. Wishing to do his bit for the old flag he journeyed half way round the globe to his old home to enlist, arriving here last fall. He enlisted with the 64th at Sussex, and was afterwards transferred to the 55th, with which unit he went to Valcartier and trained there. On the arrival of that battalion in England he was drafted to the 36th. Shortly after going to the 36th he took a special machine gun and bombing course, and was a member of the first Canadian machine gun brigade to go to France.

He is survived by his mother, Mrs. Ellen Gray, Vancouver; three sisters, Mrs. W. L. Doherty, St. John; Mrs. Albert Mencahons, Vancouver, and Miss Muriel, who lives with her mother at Vancouver.

Thus another name is added to the already long list of boys from New Brunswick who have done their bit and laid down their lives in defense of the right, and Wendell Gray, who travelled half way round the globe that he might enlist in his native city to the mad ambition of one man to rule the world.

Ottawa, Sept. 26.—All the details of the contracts for the erection of the new parliament buildings were agreed upon at a meeting today between the parliamentary building committee and the representatives of Peter Lyall and Sons, the contracting company. The formal document will be signed in a day or two. The only changes in the original tentative agreement are that the company will supply the manufacturing plant for the cutting of the stone, etc., the government to keep it in repair and the decision to locate the power plant outside the main building. The contractors, as originally arranged, will be remunerated on a percentage basis. They will receive 8 per cent. on cost up to four million dollars, 7 per cent. up to five millions, but nothing above five millions.

Unity of The Empire Is Greater Than Ever Before

British Colonies All Over the Globe Are Doing Their Bit to Help Motherland in Her Hour of Need

A Convincing Answer to German Prediction that "Far Flung Empire" Would be Dismembered — Unity of Purpose Sole Aim of the Dominions.

(By Phillip H. Patchin.)
London, Sept. 26.—It has often been said that one of the things Germany counted on in the Great War was the defection in the British Empire. The Irish situation was to have embarrassed Britain, as was revolt in South Africa and in India. None did. After a year and a half of war there was an Irish rebellion, but its greatest effect has been internal political turmoil, while the war goes right along without interference. There was a revolt in South Africa, but South Africa took care of that herself, and England went on sending troops to France, as many really as she was then capable of training and equipping. India has proved loyal. As a whole India is strongly loyal and Indian troops fight for the King-Emperor on three continents. Britain's "far-flung Empire" did not topple apart as was predicted by Germany. Instead, it surprised itself almost, by its unity of purpose. The result is going to be a closer-knit Empire than ever, a federation, in fact, of colonies and Mother Country, an amalgamation of four and a half hundred millions of most diversified people, all with their say as to their government and their destinies.

Anxious to Fight Common Enemy.

The sun never stops shining on British soil somewhere or other, and since August, 1914, it has never ceased to shine upon restless Britishers and restless natives in every quarter of the globe who were making their way here or there to do khaki and fight the common enemy. It is one of the wonderful things about this war—this rush to the colors in all quarters of the globe, from Wel-Hat-Wel to the Falklands, from South Africa to Vancouver, from the Seychelles, Zanzibar, India, Uganda, Saskatchewan, the Gold Coast, St. Helena and the Bahamas, in an endless stream, all ready to fight. There is doubtless not a city of size in all the world, except enemy cities, that hasn't furnished an exiled Englishman, while no end have come from all sorts of out-of-the-way places. And every last one of the colonies, dependencies and protectorates has furnished its quota. It isn't quite so remarkable that the Englishmen have been stirred to strife as that the native population of British colonies have been inspired to khaki, or whatever other fighting dress is furnished them.

In the Strand any day there may be seen the Canadian and Australian, the Maori, the South African, sauntering about seeing the sights, either back from France on leave, or perhaps just in from over the world and about to go across the Channel. Now and again there is an ebony face under the cap of the King's uniform—a soldier from the West Indies, while often there are Indians. Not only in men have the colonies done great things—they have furnished some of the finest fighters of the war—but they have contributed much in money and in provisions, thus lightening the heavy-burden of Great Britain.

Canada and Australia, of course, being the largest, have done the most. Canada's forces will ultimately number half a million men. Australia has already furnished three hundred thousand. South Africa has done nobly. At the commencement of the war she undertook her own defence, and thus released for European service the Imperial regiments stationed there. South Africa suppressed the German-fomented rebellion, later sent men to German East Africa, where General Smuts is now using them in a successful little war for Germany's last colony, and has sent many more than 10,000 men to Europe, where this month some of them did wondrous work in Delville Wood during the Big Push. South Africa sent, too, a hundred men to the Royal Navy.

India Has Done Its Share.

India's contributions in men and money are enormous. She has furnished a large force to fight in Europe. In munitions and supplies the colonies and dominions have done magnificently. In munitions Canada and Australia naturally lead. In Canada it is estimated that there were 200,000 men engaged in munition works. Also, already furnished three hundred thousand of their own troops. An official report says: "But perhaps even more important than the output of munitions is the assistance which the Dominions and Colonies have rendered in enabling His Majesty's Government to control in a large degree the world's supply of some of the most important commodities, e. g., wool, meat, wheat and a number of metals, so as to secure supplies for Great Britain and her allies and to divert them from channels through which they might reach the enemy."

supplies have been great. It is impossible to tell how many Indian troops are engaged. There are still some in Europe, many in Mesopotamia, others in East Africa, and in North China, Hong Kong, the Malay States and elsewhere, still others are doing garrison duty and thus releasing the white regiments. India's treasure chests have been opened and money furnished for the prosecution of the war while the gifts of Indian Princes and potentates to the Red Cross and to other things have been characterized by true Oriental magnificence.

Colonies and protectorates of Great Britain have been discovered since the war was begun which probably had been forgotten by many Englishmen. They have all participated to the fullest extent possible. The contingent from the West Indies must number about 12,000. Some of these fighters are in Europe, others in Egypt. The men came from Jamaica, Barbados, British Guiana, the Windward and Leeward Islands, the Bahamas, British Honduras and Trinidad.

Then, too, merchants living there have subscribed to raise and send home bodies of men for enlistment in British regiments. Bermuda sent ninety Europeans who have been attached to the Lincolnshire Regiment and there is a force of 250 more to join the Royal Field Artillery. The far-off Falkland Islands, which are almost south of South America, have done their bit, furnishing a volunteer force of 140 volunteers which did effective work in a scheme of defence against the squadron of von Spee. Ceylon, the Straits Settlements, the Malay States, all have sent every available man.

Malay States Sent Battle Cruiser.

The Malay States contributed a first-class battle cruiser and sent nearly 700 Europeans home. From Hong Kong, Shanghai, Tientsin, Chefoo and Wel-Hat-Wel many men have been sent home, usually at the expense of British merchants.

British Africa has likewise done well. The war at once reached the Gold Coast, Nigeria, Sierra Leone and Gambia on the West Coast. The West African Frontier Force jumped to 6200 men while a regiment of 800 called the West African Regiment was raised, 7000 men altogether, besides thousands of carriers. The East Africa Protectorate Uganda and Nyasaland have always a force known as the King's African Rifles which numbered 2000. Now it is 6000 or more. These are natives. The European residents have been formed into volunteer forces, and most of them are now in the front lines.

Colonies Bear the Whole Cost. Canada, Australia and New Zealand are not draining the Imperial Treasury for the upkeep of their troops. They bear the whole cost—pay, equipment, transport, hospital arrangements, etc. Newfoundland, which has sent a couple of battalions of infantry, and 1500 men to the navy, pays her contingent and bears the cost of transport to England. South Africa bore the whole cost of the German Southwest Africa campaign and paid for the suppression of the rebellion. The various colonies of the West Indies have done well. They pay for the transport of the men and arrange for separation allowances and pensions. Jamaica has provided an equivalent of \$300,000 a year for 40 years, while Trinidad is giving \$60,000, British Guiana \$50,000 and Barbados \$10,000 a year. In the East Indies the story is the same, all colonies and protectorates doing their utmost.

Gifts in kind and in money have flowed in upon England. Gifts of every variety came from all sides, from governments and individuals.

Canada sent wheat, oats, flour, cheese, potatoes, salmon, hay and coal. The Canadian Government sent one gift of a million bags of flour, New Zealand furnished meat, wine, butter, cheese; South Africa corn, fruit and tobacco; the West Indies sent sugar and coconuts. Ceylon made a present of £1,000,000, or \$5,000,000, to be paid in installments covering 10 years. The Straits Settlements have given £1,000,000 and promised another £1,000,000 if the finances of the colony permit. They have also waived a debt of \$150,000 owed them by the Imperial Government. The island of Mauritius sent £20,000 and a million pounds of sugar for the navy and another million for the army. Nigeria has offered to pay the charges for interest and sinking fund of one per cent. on a share of the Imperial War Debt amounting to £5,000,000.

There is no precise way of estimating but it is known that the contributions to relief funds—Belgian, Red Cross, etc.—are well over a million and a half pounds. Through an organization known as the Overseas Club the colonies were some months ago set to contributing aeroplanes. More than 50 have been provided. The Malay Peninsula contributed more than £25,000 for this purpose, furnishing 16 machines, while the Sultan of Johore sent along more than £31,000 in addition to other great contributions.

Canada has made a loan of £10,000,000 to the Imperial Government and the Malay States have raised another of \$15,000,000. Many of the colonies have subscribed heavily in war loans. Besides government subscriptions there have been many from individuals and bodies throughout the Empire.

Next week is "Synod week." First Presbyterian church, Truro, N. S., will set the mecca of ministers and elders from all parts of the provinces by the eastern sea. Tuesday evening the opening will be held, and then the serious business of the church will engage the earnest consideration of "fathers and brethren" until probably noon on Friday. Several committee meetings will be held before the opening session, while relays will be sandwiched in between sessions, making it all an intensely arduous task for a great many of those who attend. The town of Truro has always been well peopled with Presbyterians. Their history goes back a full century and a half and does honor to the finest traditions of the church. The retiring moderator of the Synod is Rev. H. R. Grant, whose message to the churches within the bounds will be delivered at the opening sederunt. The church within whose walls will be combined worship and counsel during these days is a new one, having recently arisen from the ashes of the building that stood for nearly a century on one of the most beautiful church grounds in the maritime provinces. Rev. W. P. Grant is minister.

for the long lines stretched out on every front could not all be shortened in a day. And then, some lines could not be shortened at all, save at the cost of complete surrender. In it all, the cause has suffered. Now after two years or more, readjustment has been fairly well accomplished, but the accumulated arrears of these years have totalled \$170,000, a large sum, but not so large when we consider that the missionary effort of our church at home and abroad has touched the million dollar mark annually. The war must be carried on to a finish and the patriot will not slacken his effort until the end has come. But the work of the church at home and overseas is also patriotism, the highest patriotism, and the task we touch is a task which calls for the doing every day and every year, in peace and in war, "till each man find his own in all men's good, and all men work in noble brotherhood." Let the deficit that hampers be removed. "Roll ye away the stone."

The bride was becomingly gowned in a

handsome suit of blue velvet and wore a black hat with peach colored wings. Following the ceremony the happy couple took the Maritime for a short honeymoon trip, followed by many good wishes of their friends. On their return they will reside on Queen St. The bride is a native of Upper Sackville, N. B. Capt. (Rev.) Harold Tompkinson, until recently chaplain of the No. 2 Construction Corps, left Sackville last week to take up pastoral duties in Victoria Church, Sydney. Capt. Tompkinson, who was attached to the 14th for a time as lieutenant, was forced to retire from active service through physical unfitness, resulting through rheumatic fever rendered him unable to perform the duties of an army officer, and after a final examination at St. John, he was reluctantly forced to resign. Capt. Tompkinson entered the army about a year ago as a private in the 85th, was promoted to a lieutenant, and later accepted the chaplaincy of the 14th, on condition of his health being able to stand it. Lately he has spent much of his time recruiting for the 14th and No. 2. The pulpit which Mr. Tompkinson has taken over, was formerly occupied by Rev. Louis Buckley, an old Mount Allison student and football player, who has taken a travelling secretaryship with the Y. M. C. A. On Saturday afternoon Mrs. George Fawcett, Middle Sackville, was the hostess at a very delightful five o'clock tea. Mrs. Fawcett was assisted in serving by Miss Muriel Harper. The guests included Mrs. Albert Fawcett, Mrs. Wesley Wharton, Mrs. Fred Ayer, Mrs. Fred Fawcett, Miss Ethel Ayer, Mrs. Winnie Stebbins, Miss Muriel Harper, Miss Violet Carter, Miss Dell McAulay, Miss Miles, Miss Annie Armstrong, Miss Alice Thistle and Miss Margaret O'Connor. The many friends of Private Douglas Wells, prisoner of war, will be glad to learn that his injuries are all but beginning to heal. Private Wells was wounded over a year ago, and during all the time he was held in the German prison camps, his wound remained open. Recently he was transferred to Switzerland, where he is now on the way to recovery. Mr. H. W. Jones and family left on Saturday for a two week visit to Boston and other New England cities. During Mr. Jones' absence, Relief Agent Bulmer will have charge at the station. The many friends of Mrs. Anna Buchanan, for a number of years matron of the University Residence, will deeply regret to hear that she is dangerously ill in a hospital at Halifax. She entered the hospital only a day or two before the date on which she had planned to return to Mount Allison. The Daughters of the Empire entertained the workers from Cookville and West Sackville in the I.O.O.F. Rooms, on Friday last. Mrs. J. Fred Allison presided, and those serving were Mrs. Wylder Hoar, Mrs. Horace Ford, Miss Etta Ayer, Mrs. Edgar Ayer and Miss Gretchen Allison. Mrs. Reynolds Weldon, Upper Sackville, was at home to her friends for the first time since her marriage, on Wednesday afternoon and evening, the 15th. She was assisted by Mrs. Charles Weldon. In the dining-room Mrs. B. Black poured while Miss Besie George served the lunch, and Mrs. Ernest Wheaton ushered. The house was prettily and tastefully decorated with flowers. A large number of friends took advantage of the fine day and many pleasant calls were made on the bride. Despite the inclement weather on Saturday night and early Sunday morning the platform of the I. C. R. station was crowded when the train bearing the 146th passed through about three o'clock in the morning. All day long interest was expressed in the bulletins which announced the latest word from the train, and in the evening a large number of out of town friends and relatives of the soldier boys were in evidence on the streets. As the hour drew near at which the train was first expected, the crowd at the station grew larger and larger. Later it was learned that the train would not be in before midnight or later, and numbers of the townspeople went home for a few hours, putting their faith in the fire whistle, which was to blow a warning half an hour before the train was due. There were others, however, from out of town, who remained at the station continuously till after the boys were gone. The whistle sounded about two o'clock in the midst of a terrific down-pour of rain. At the station the crowd was so dense that movement of the train was hardly possible, and anyone who got out from under the sheltering eaves found it impossible to get back to shelter again. The scenes when the train came in were pathetic in the extreme, and as the band played "God be with you till we meet again," the tears flowed from many eyes. In the midst of the pouring rain, with the station lights glinting a short distance into the pitch darkness and flashing on the wet wood of the cars, with the sob and laughter, with the heartfelt farewells and the light good-byes, with the hum of many voices and the sound of that saddest of all parting hymns, it was a striking scene and one that many who watched the train steaming away into the darkness will never forget.

Uncle Dick's Chat With the Children

My Dear Kiddies:— Although the Corner, your favorite part of The Standard has been running for over a year now, and hundreds, in fact I might say, thousands of boys and girls have joined during that time, I never remember receiving so many letters during one week before, from children asking to join, as I have in the last six days. From all parts of the Maritime Provinces they have been arriving and as the space is somewhat limited, instead of greeting you individually in the usual answers to letters column I want to do so here. All you boys and girls who have written asking permission to join our large and happy club, have a warm hearty welcome, and a special invitation to write me whenever you wish, tell me what you like best in the Corner, about your homes, your school work, and yourselves, and then watch for my reply in the Corner each week. Try also in the contests to win one of the splendid prizes and for your own pleasure will want others to share the pleasure you thus derive, and get them to join also.

There have been an extra number of entries received in the last contest, many of them being correct, but after carefully taking into consideration the ages, the writing, etc., the prizes are awarded as given in another column. The correct answers were as follows: Petrograd, New York, Constantinople, Kitchener, Australia, and Thames.

This week's new contest, is one which I am sure you will all enjoy, and I shall expect to receive some splendid results. I am pleased to see that so many kiddies are doing their best to win one of the four extra prizes which will be awarded in three weeks' time, and already, I can see that it is going to be a very difficult matter to decide which will be the highest in number of marks.

I had a letter from Gladys McKnight of Collins this week, and was delighted to see that Mildred Titus had written to her as I requested you all to do some time ago. Now just try and spare a few minutes to write not only to Gladys, but to other invalid kiddies whom you may know. You know how much you like to get a letter, or a book, when you are sick and unable to enjoy the fun the rest are having. Well now, just try to cheer some little kiddie who is shut in the house through sickness, by sending them a letter, a book, or a bunch of flowers, and in that way you will be spreading sunshine, and helping them to forget their loneliness, and perhaps pain.

No doubt, you will be pleased to see that I am publishing the pictures of three of our happy members this week, but I should like to have others, so will you let me have more pictures of yourselves. Then, later on I shall give them in our Corner. With best wishes and heaps of love From Your Uncle Dick

When Belinda Scored

A curly headed girl in a pink sun-bonnet and gingham dress swung to and fro on a garden gate, while she watched with interest a freckle-faced boy bending over a fishing pole. "Boy," she called softly. "What'er he want?" he demanded without looking up. "Are you going fishing, Billy-boy?" came in eager tones from the little girl.

said Billy grudgingly. "Oh, Billy," cried Belinda with shining eyes. "Just then a shrill whistle was heard and the next moment Billy's chum came to view swinging a fishing pole over his shoulder, while he kicked up the dust with his little bare toes. "Say, Billy, 'er ready?" he shouted cheerily. "Yep," answered Billy. "Now then slow-poke," addressing Belinda. "What? Is she coming?" asked Jack in deep disgust. "We don't want any girls hanging 'round after us." "She's going to bait our hooks for us," answered Billy briefly. Arrived at the pond, Billy commanded Belinda in no gentle tones to hurry up and get their hooks ready, while they fixed up the lines. "Trembling all over, Belinda knelt on the grass and took one of the worms in her hand. "Ouch! Ouch!" she screamed in terror, dropping it quickly into the pail again. "What's smatter?" asked Billy sternly. "It—it wiggles so," returned Belinda lamely. "Don't be such a goose, said Jack. "We didn't bring you here for fun, you know," he added darkly. Frightened Belinda nerved herself for another attack, but, as she felt the worm squirming beneath her touch, it was too much for her tender little heart and the tears coursed down her cheeks. "You bad, wicked boys," she sobbed. "To hurt those poor little worms."

(Continued next week.)

Uncle Dick's Weekly Hints

BAZAARS. Here are a few hints if you intend holding a bazaar. Have a good variety of things for sale. Small and novel articles sell the best. If you have an artist among your numbers, secure his services to decorate these articles. See that stalls are well attended by kiddies not afraid to push the sales. There should be no muddle or disorder among the articles for sale. Each stall-keeper should aim to keep their stall as neat and attractive. Lastly, don't let the floors become littered with paper; appoint some kiddies to pick up the waste, and keep them tidy.

Birthday Greetings

Uncle Dick wishes many happy returns to the following kiddies who will be celebrating their birthdays this week: Fred Wade, Hampstead. Wm. D. Gray, 230 St. James Street, West. Georgia Britton, Woodstock, N. B. Fred W. Harris, Queen Hotel. Retia Thomson, Hampstead. Hattie Buston, Marsh Bridge. Ada West, Coles Island. Dorothy Roach, 155 Leinster St. Frieda Blair, 31 Carleton. Eleanor O'Leary, Richibucto. Phyllis Smith, Milltown. Laura Belle Cole, Coles Island. Eleanor Johnson, Coldbrook.

Will all members of the Allies Aid, please call to see Uncle Dick, THIS MORNING, SATURDAY, at 10.30 o'clock, as it is intended to arrange for a tea in about two week's time, when the drawing for the picture will take place.

MY NIECE'S WEEKLY RECIPE. Orange Pudding. Put one cup of milk in double boiler. When hot add a beaten egg yolk into which you have stirred one-quarter cup of sugar and a heaping teaspoon of cornstarch. Cook until it is thick, but don't let it cook too long, as it will then grow watery. Slice one orange very thin, then cut into small pieces. Pour the cooled custard upon this. Just before serving beat one egg white stiff and put it on the pudding in dots.

Well—perhaps—for this once, Margaret MacKerzie, St. Stephens (Top) Jessie McKiel, Long Reach, (Bottom), and Marion Aird, 24 Main Street, City, (Right). Marion's picture was taken with the camera which she won in one of the contests, last month.

BEDTIME STORIES FOR THE CHILDREN

Uncle Remus tells more Stories. Mr. Wolf makes a Failure.

Sometimes you will find it easier to copy these drawings much larger on another piece of white paper before coloring. After coloring, cut out each figure separately. Now fold in the centers, as shown by the arrows, and paste each figure, "back to back," so that you will have three posts made into one, which stands alone and faces in three directions like this top view A. Next week comes the "Mill-Maid of Three-Face Town."

Jack Murray, Marksman

(Continued from last week.) That was a new cry for the Mary Ann, and no mistake. Jack was in his bunk, but he wasn't asleep, and he heard it. He and the captain tumbled up from below like a couple of rabbits whose happy family party underground has had the unwelcome addition of a stoat. Yes, there she was, plainly visible, flying low. Was she wounded after a visit to Kent, or—? Ah, it was soon apparent what she was after. The crew of the Mary Ann saw the big steamship in the offing come around three points to harbor, evidently with the object of running under her whistle she still had way on, for it was now evident that the Zepp, had stopped her engines and was preparing for a coup. Suddenly a stream of fire shot from the airship. "It's some sort of infernal contraption they've got for spitting out fire," cried the captain. "But they missed this time. They'll fire yer yet! Naught can save her!" Then Captain Jagers nearly jumped out of his skin for the second time in twenty-four hours, an acrobatic feat in which he was joined by his crew, every man-jack, men and boy. They thought for a moment that, unawares, another Zepp had come up behind, and dropped a bomb on the Mary Ann's deck! Bang! This time they realized what was happening. "Bravo, Master Jack!" yelled Bill Baxter, rushing to the rail.

(Concluded next week.)

The time has gone by when it is necessary to argue "women's rights." The war and all the changes in thought and feeling brought about by that terrible event, have shown the world that women's service to the state, her value as an economic unit, her adaptability and resources are far greater than was ever thought.

And people have come to realize, everywhere in the British Empire at any rate, that if woman by her work can help to save the state she cannot justly be refused a voice in the management of that state's affairs.

All the old, parrot-like objections to women's suffrage look ridiculous now. They belong to that long-dead period, the years before the war. And today we find that the idea that a woman should not vote because she cannot fight is as obsolete as its corollary that her place is the home and, no matter what her circumstances, nowhere else.

The women of British Columbia have earned the suffrage. They have worked for it; they have convinced the doubter by their excellent management of public business; and by their self-sacrifice for great patriotic objects they have proved they can fill his place at home as well as supply his war-needs in the most efficient way.

The scenario editor of one of the big eastern companies received the synopsis of a scenario, entitled "The Flivver," by telegraph last week. The synopsis consisted of about fifty words, telling the plot succinctly. The editor showed it to several directors, but none was interested. The last one he showed it to suggested that he reject it, and telegraph it back to the author—collect.

Who's Who and What's What in the Picture World and on the Stage—Favorites and What They Say and Do.

THE LYRIC TO OPEN NEXT WEEK.

The Lyric Theatre will open its doors to the public next week. The Messrs. Givan have spared no expense in providing their patrons with everything up to date, and as a result of their enterprising Sussex will have as nice a little theatre as can be found anywhere, says the Sussex Record.

The front of the building has been covered with a metallic sheathing of a special design. The finish represents stone, with brick trimmings, and is very neat and attractive.

The foyer has a Scotch tile floor of a neat pattern. At the right hand side of the entrance is a cloak room, and the stairs leading to the balcony, and on the left the office, while between the doors leading into the auditorium, is situated the ticket office.

The color scheme followed in the painting and decorating of the house is terra cotta, white and gold, and the effect is most pleasing.

The chairs which have been installed are of the latest design, having patent hat and umbrella racks. The furnishings throughout are all mahogany finish, and the fixtures and rails solid brass.

The curtain on which the pictures are to be shown is set in a black wall.

A Powers machine of the very latest type is set on a solid bed of concrete, and there will not be the slightest vibration, and the pictures should be very clear and steady.

Everything in connection with the new theatre is modern and up to date in every particular. The attendants will all be in uniform.

Two iron posts bearing a cluster of three lights each have been placed in position in front of the entrance.

A Gentleman's Agreement.

As the advertised feature "The Shop Girl," was objected to by the censors (Perhaps by and by the film producing firms will choose some decent plots and realize there are scenes not fit to put on any screen), a varied programme was given at the Imperial theatre yesterday afternoon. "A Gentleman's Agreement," was a Balboa picture and its chief interest lay in the studio location. The story dealt with a girl who got a chance to act in the movies.

The director becomes devoted to her but her affections go to the leading man. The director is adored by the leading lady. There was, however, in the past an agreement between the two men that in consideration of Sidney having saved Richard's life Richard agreed to give up to Sidney anything he possessed. When the demand came to give up Ruth Richard lived up to his promise like a gentleman and the youthful lovers are left in one of those tender scene embraces.

A comedy, "Pipe Dreams," (without any pipe) followed and caused some amusement. It was all about a would-be writer who was movie struck and thought she could write scenarios. "The light house-keeping" was a clever thought.

The Kendal-Weston players pleased with their comedy, "The Servant Not in the House." This is a sparkling little play and well acted.

This was an especially good number of the "Secret of the Submarine." The hunt after the books is very exciting and there is certainly a most "fifty" party at the house of one of the purchasers. The staircase is the scene of some wonderful falls.

"Fighting Blood."

William Farnum in the William Fox production of "Fighting Blood" was no "Little Minister," but possessed of strong muscles and, by heredity, fighting blood. He saw red when animals were ill-treated or an injustice done. Last evening at the Imperial the large audience enjoyed the comedy which was interspersed between the events of the story and admired the struggle made by "Tom Hardy" the jailbird preacher to overcome his rage. There is a splendid service held in the Wild West where they didn't care for preachers but were gently persuaded to listen to his words. And the love story comes out right in the end, to tune of "A Perfect Day."

Rehearsals will begin October 1st, for a play in verse called Seremonda, in which Julia Arthur will appear.

T. Hayes Hunter, who is director general of "The Crimson Stain Mystery," the sixteen-episode photoplay presented by the Consolidated Film Corporation, is an alumnus of the University of Pennsylvania and was stroke car in the famous Varsity crew of 1899.

Claire Alexander, George Ovey's leading woman in Cub-Mutual comedies, is only eighteen years old and has been in pictures but four months.

The Stage Children's Fund, of which Mrs. Millie Thorne is president and Lee Schubert, honorary president, will hold a bazaar at the McAlpin Hotel Nov. 24 and 25, for the purpose of buying a summer home for the children of the stage.

"Dulcie's Adventure" the second of the Mary Miles Minter features produced by the American Film Company,

Inc., for release through the Mutual, has been completed, and will go out to the public on October 2.

Y. W. P. A.

The members of this association are spending a busy weekend. There were eighty-two Y.W.P.A. workers engaged in patriotic affairs for the last three days of this week. Sixty-two of the members were helping Military Molly to make money for soldiers families. They had charge of the candy table which was well supplied with delicious home-made sweets, of the soft drinks table, and the ice cream booth. At the Imperial Theatre for the three evenings eighteen girls were acting as ushers. It is no small matter to arrange for such a large corps each evening and the Y.W.P.A. are being congratulated on their excellent organization.

SALE AT ORANGE HALL.

Last evening the rooms of the Orange Hall were nicely decorated for a bazaar given by the "Ladies of the Good Cheer." This is the sewing circle in connection with the Orange Ladies Benevolent (Johnson 18) and the proceeds from the sale are to go to the "Ladies' comforts."

Last year these ladies sent some splendid boxes to the boys in the trenches, and the grateful letters received in acknowledgment made the society feel they would like to make a similar donation this year. The circle meets each week. They have baked fruit cakes and knit socks and with the money received last evening will purchase other comforts for our fighting men.

HONORS FOR THE BRAVE.

The first batch of British ladies (the French "heroine of Loos" was before them) to be awarded the new Military Medal "for bravery and devotion under fire" includes five trained nurses and Lady Devotile Fielding, says the Ladies Field. Lady Devotile Fielding was not a trained nurse when she went out with the Monro Motor Ambulance, although she has learned a good deal since in the most practical of all schools. A fine motorist, she made herself especially useful in collecting the wounded, and the risks she ran without receiving a scratch were amazing. Her knowledge of languages and of Belgian dialects stood her and those whom she helped in admirable stead. She has been decorated by King Leopold and commended by the French.

STYLE NOTES.

Beard trimming is seen on many of the red gowns and blouses. Most of the latter are of Georgette crepe in pale colors, trimmed with beads of contrasting colors. On dark tulle and satin gowns, beads in gay colors are observed forming the only trimming on bids fair to be a very popular color for early fall; hats, veils, bags and neckwear all being noted in this color. The large Shetland veils are especially popular in purple.

Among the early models of the new fur, the flat fur shows a decided revival, mole-skin, seal and even mink being shown in abundance. Australian opossum, which has been in disfavor for several years, is revived and beautiful sets are seen in this handsome, rich gray fur. Large cape and stole effects are the most popular.

There are well grounded rumors that tighter fitting fur coats are to be worn again this winter. Some of these are in the tight basque effect, with full ripple skirt attached. The greater number of the coats are longer than for several seasons past.

Some of the smartest fall turbans are made entirely of ostrich feathers. Satin and silk turbans are draped in veils. These veils are worn back from the face and fall nearly to the knees in the back. They are made of georgette crepe or chiffon.

Vests are again popular. The strictly tailored models are of white pique. Colored or gandy is used for the more extreme styles.

Clipped beaver in combination with silk or satin is being used for many of the new fall hats.

The Japanese collar is the newest in neckwear. It is oblong in shape, thus leaving the neck free at the sides. The upstanding portion at sides and front gives a high effect.

TO REGAIN A HEALTHY GIRLISH COMPLEXION

If you would have a clear, fresh, girlish complexion, one ounce of ordinary mercurial wax will add you in this direction more than dozens full of cosmetics. It produces a natural beauty. This wax, procurable at any drugstore, completely absorbs a bad complexion, revealing the healthy young complexion. The wax is applied at night, like cold cream, and is washed in the morning with soap and water.

Another valuable rejuvenating treatment is the use of powdered salicylic acid. It is used in a 1-2 per cent. witch hazel. This is a remarkable action in smoothing out lines and "firming up" the loose skin.

Around the City

Only One Drunk. The city was rather dry so far as arrests were concerned last night, as the police only found one lone drunk to look up.

Bank Book Found. A bank book No. 100 of the Haymarket Square branch of the Bank of Nova Scotia was found on King street yesterday by Police Constable Ross and the owner can secure the same on application at police headquarters.

Hon. Robert Rogers Coming. The secretary of the Board of Trade has received a reply from Hon. Robert Rogers, Minister of Public Works, to their request for a conference on the matter of port development and the extension of the breakwater to Parridge Island. The minister stated that he would be very pleased to come to St. John and discuss these matters with the board and would arrange to do so just as soon as possible.

Mill Street Closed. Mill street between Union and North streets was closed yesterday to through traffic and the street railway and the department of public works are working hard to get the necessary repairs made as quickly as possible. Last night the commissioner had a crew of men on all night and it is proposed to work night and day until the street is again ready for traffic.

Miss Pickering Honored. A most enjoyable time was spent in the Temperance Hall, St. James St., Thursday evening, in honor of Miss Ruby Pickering, when a large number of friends and associates in the N. B. Telephone Exchange tendered her a surprise party prior to leaving for Bangor, Maine, where she is to make her home. Music and games were enjoyed and refreshments served. During the evening W. Cunningham, on behalf of those present, presented Miss Pickering with a club bag as a token of esteem in which she is held.

Harbor Revenue Increasing. The month of September has been another good one for the harbor and the receipts for the month will be in the vicinity of \$1,000 more than for the corresponding month last year. Prospects are exceedingly bright for the coming month of October as it is expected that a number of steamers which would ordinarily load at Montreal will have to come here, the congestion being so great at that port. Oats are being bagged now on the West Side for export and steamers are expected in now any day for the purpose of loading these.

Retail Market. There was only a moderate display of produce in the country market yesterday, though no shortage was reported in any department. Moose steak sold at from 20c. to 25c.; venison 16c. to 22c.; chickens, 22c. to 25c.; per pound; roast beef 14c. to 25c.; lamb 15c. to 22c.; pork 20c. to 24c. Vegetables remain at about the same prices as last week, except that potatoes are a trifle dearer, 30c. per peck being asked for and obtained. Apples are coming in freely and there is still a limited supply of blueberries and cherries; currants are also obtainable. Retailers say that trade is rather on the quiet side now.

The Water Inspection. Commissioner Wigmore said yesterday that the water department were already getting results from the inspection of water services and a very appreciable saving was already noticeable. A test just made showed that the city was using at least 1,000,000 gallons less per day than it was before the inspection started. The people were beginning to realize that the water would be shut off was not merely an idle threat but that the department meant business, and in consequence they were having the defective plumbing repaired with the result that the water was saved.

Military Molly's Friends Turned Out in Force Last Night—Large Amounts Realized by Different Booths.

Bigger, brighter and better than ever the patriotic fair was in full swing last night and Military Molly was on hand at St. Andrew's rink to welcome the more than 3,000 persons who called to see her and incidentally spend some money for the benefit of the Patriotic Fund. The different booths all did a rushing business and it is estimated that about double the amount taken the first night was received last night.

The following young ladies from the West Side S. C. A. and Junior Red Cross were busy all evening selling tickets for the piano and \$500 drawing: Misses Ann Bray, Gussie Emerson, Violet Moore, Viola Tobin, Mollie Tobin, Mildred Long, Hortense Woodrow, Amos, Isobel Thompson, Fairweather, Emma Babbitt and Quinlan.

The door prizes were drawn by Military Molly and the lucky numbers were: 1st, 1379; 2nd, 2398; 3rd, 2453. None of these were claimed, but together with the prizes for Thursday night may be obtained by calling at the rink.

Molly had flags enough for everybody and she took in over \$50 from their sale. The music of the City Cornet band as usual added much to the pleasure of the evening.

This afternoon and tonight will be the grand finale, and everything in the place has got to be disposed of before midnight, so come and get your share of the good things.

Lotteries including the piano and \$500 drawing will all be drawn for tonight and two Gladstone slugs will be auctioned off.

In the afternoon from 2.30 to 6 o'clock the kiddies will be welcomed, admission will be five cents, and particular care will be taken that they are all right. The games will be in full swing, so let the children come and have a good time.

Those having sweet peas or other flowers suitable for boutonnières and who wish to donate them to the Military Molly Fair can send them to the St. Andrew's rink today, or phone M 3108 and they will be sent for.

INSURANCE MEN HOLD BANQUET

President of Canadian Life Underwriters' Association Guest of Local Members Yesterday.

J. Burt Morgan, Victoria, B. C., president of the Canadian Life Underwriters' Association, visited the city yesterday and was entertained by the local association. In the afternoon he was taken for an automobile trip around the city and was tendered a banquet at Bond's in the evening. Mr. Morgan is making a trip from coast to coast visiting all the provincial associations and outlining plans for the coming year.

G. A. Hewitson, president of the local association, occupied the chair and had on his right the guest of the evening. Guests in addition to Mr. Morgan were His Worship the Mayor, J. A. Likely, president of the Board of Trade, and Hon. L. J. Tweedie. The toast list included that to the King, the Province, the City, the Life Underwriters' Association, the Profession and the Guests. Songs were sung by E. W. Bonnell and Steve Matthews.

Mr. Morgan in his address dealt with the past, present and future of the business, and he mentioned three things in particular for which he thought the association should work. They were: Uniform beneficiary laws, uniform license laws in all the provinces, and a determined effort to have the benefits and principles of life insurance taught as a part of the educational system of the country. The gathering broke up about midnight after joining hands and singing Auld Lang Syne.

Sir Edward Morris, Premier of Ancient Colony, Says all Men Needed can be Secured Voluntarily.

Sir Edward Morris, prime minister of Newfoundland, and a member of the Imperial Defense Committee, accompanied by his wife, passed through the city last night on his way home from a visit to the battle front in Europe. He was most optimistic regarding the outcome of the war, and declared that nothing less than a complete victory over the central powers would satisfy the Allies. This, in his opinion, he said, would mean the pulling down of the Hohenzollern house and the division of Germany into the kingdoms which existed previous to the war of 1870, the complete restoration of Belgium, Serbia and France, along with an indemnity for damages inflicted and the cost of the war.

Premier Morris arrived in Quebec on Saturday from London, but was called to New York on business. He said that he had the pleasure of visiting the firing line, shortly after the grand offensive of July 1st, near Albert, in the recaptured district. Only a short distance from where the party was shells were bursting. He stated that the Canadian hospital at Boulogne was the last word in efficiency.

"What is the feeling in England regarding the length of the war and the terms of peace?" queried The Standard representative.

"As far as I could gather, the statement issued by Lloyd George yesterday is the opinion of the public in England, and further that no interference will be permitted by outsiders until Germany has been defeated and the restoration of the small countries has taken place."

Premier Morris said that he had visited several headquarters on the firing line, where Newfoundland units were stationed and the men were in the best of spirits.

He said that there would be no need of compulsory service in Newfoundland as he felt confident that the island would furnish all the men that were necessary without recourse to conscription.

The premier left last night on the Halifax train for North Sydney, thence to Newfoundland.

A Bad Home. Mr. and Mrs. Pinney, East St. John, received a cable Thursday morning stating that their son, Frank, who had been wounded in the last offensive, had died of the wounds received. Later in the day they received another cable stating that their son, Gordon, was also wounded. Both boys enlisted in the 26th Battalion and had been at the front for many months.

The 165th Here Monday. The 165th Battalion will arrive in St. John on Monday morning between the hours of eight and nine o'clock. It is requested that the ladies who are on the reception committee meet at the armory at eight o'clock on the morning of that day for the purpose of preparing lunches. Persons wishing to donate cakes and other articles for the soldiers' luncheon will kindly send them to the Soldiers' Club, Sydney street, this afternoon, or to the armory before nine o'clock Monday morning.
