OR RAILWAY AND COMMERCIAL RECORD.

No 37 SAINT ANDREWS, N. B., WEDNESDAY, SEPTEMBER 10, 1851. [Vol. 19]

THE BRIDE SHIPPED TO ORDER.

Lived in Virginia during the winter of 1848. At an evening party in Richmond, there were twelve mothers, twelve daughters, and a tolerable sprinkling of fathers, sons, widows, and widowers present, with Laurie Todd in their midst, and you may be sure we had some fun. Conversing with an ancient lady, she remarked that her grandfather left Scotland when young, and settled in Virginia. He became a merchant and a planter, and grew rich. His agent in Glasgow was Alexander McAlpin, to whom he entrusted two or three cargoes of tobacco every year, and received in return cash, hardware, dry goods, &c. He had flocks and herds, men servants and maid-servants, horses and mules; but one thing he yet lacked—he had no pretty wife to sing with him when he came home at night, fatigued with counting money, and satiated with worldly pelf, for he had more of that than heart could wish. So, after a while, he concluded to take a wife—as soon as he could catch one.

But here was the rub. His time was so occupied with his business that he could not find time to look about him for a wife; and worse than all he was a bashful man. When he saw a maiden of twenty advancing in his path, he would cross the street, fearful of being killed by a shot from her sparkling eyes. But a remedy was at hand, however. He had often heard his parents speak much in praise of the bonny lassies of Scotland. A bright idea struck him. When he was leaving the office, his clerk was copying a duplicate order for sundries to be sent as part of the return cargo. He thought to himself that he would order a young lassie for a wife, as the last item on the list. The article was ordered accordingly.

At the same time, he wrote a private letter of instruction to his agent Mr. McAlpin, giving a minute description of the article wanted, as to age, height, wealth, &c. In short she must be a bonny Scotch-lassie; to be sent on the return of his own ship; her name to be on the manifest bill of lading, &c. He promised, on arriving, to have her stored in a house of a respectable widow whom he named, and if agreeable to the parties concerned, he would make her his wife in thirty days, after her arrival. If not, and she wished to return, he would pay expenses, loss of time, &c.

When Mr. McAlpin had finished reading the letter of instructions, he slowly removed his spectacles, muttered to himself, "The lad (his correspondent, who was thirty years old) is daft; he tells me to send him a wife, as if she were a barrel of salt herrings; gude ken the fash (trouble). I was to get a wife for myself. I'll see what the gude wife says." (A bright idea.)

Next day Mrs. McAlpin sat in council with Mrs. A. B. Invitations were sent to ten matrons, whose daughters were in and out of teens to assemble at Mrs. McAlpin's boarding. Each matron was requested to bring with her a daughter who was not "over young to marry yet." All being present an hour before tea, Mr. McAlpin read the letter, and made an explanation. They then sat down to tea. After tea, each lass gave her ultimatum, when it was found that only three were willing to accept the offer. These three agreed to draw lots, to decide the preference. Mary Robinson drew the longest straw, and was hailed as the bonny bride.

In ten days thereafter they set sail for America. They entered Chesapeake Bay after a voyage of twelve weeks, and in two days more they were in James River. When Mr. Crawford, our hero, heard of the arrival of the ship, he, with four servants, repaired to the wharf, admiring Nature's wildest grandeur. She had recovered from her sea-sickness when four days out. The beautiful breezes on the broad Atlantic had imparted on her pretty face a beautiful freshness. There she stood, her cheek tinged with the roses of Sharon, and her bonny brow white as the lily of the valley. Crawford sprang on the deck and was introduced by the captain. He looked on Mary with love and admiration; her soft hand lay in his; he was dead!

They all descended from the ship, and repaired to the mansion of the widow aforesaid. On the thirtieth day of probation, the lovers were united in the holy bonds of wedlock. In conclusion, the sprightly and venerable widow remarked, that a happier couple were never linked together. —[House Journal.]

European Intelligence.

The American steamship *Atlantic* arrived at New York on Monday morning last, with 100 passengers, and four days later intelligence from all parts of Europe.

The *Atlantic* has made the most remarkable trip on record. She left New York for Liverpool on the 6th Aug., arrived there on the 17th, and discharged cargo; left again on the 20th, and arrived at New York on the 1st inst.—having been absent only 25 days and 17 hours.

The steamer *America*, from Boston, arrived at Liverpool on the 17th, 8 hours after the *Atlantic*. It will be remembered they left Boston and New York respectively the same day.

Trade in the manufacturing districts presented no new feature. In all branches of business a continuance of activity was manifested.

The English funds had declined $\frac{1}{2}$ at London. Corn was 1s. lower.

The number of visitors to the Exhibition on the 15th was 57,000. The Commissioners have decided to close the building on Saturday, October 1th. On the 15th the Commissioners will meet to receive the reports of the several juries, when a selection of exhibitors, local commissioners and others is required. At the close of their proceedings leave will be given exhibitors to remove their goods. The reports of the juries and the names of those receiving prizes are to be published in the London Gazette.

The challenge of the yacht *America* remains unaccepted. She has entered for a regatta at Cowes on the 22d, when the Queen's cup will be run by six vessels of the Royal Yacht Squadron also.

Castelli, Guisani & Co., a Greek house, failed on the 16th for £700,000.

IRELAND.—The reports of the potato rot indicate no farther extensions of the blight.

The Roman Catholic priests in Ireland have indicated their determination to set at naught the prohibition and penalties of the Ecclesiastical Title Bill. Drs. Cullen and McHale have issued letters in support of their determination, showing that the Catholic Hierarchy is not dead, notwithstanding the recent act of Parliament. An aggregate meeting of the Roman Catholics is about to be held, which promises to furnish abundant viuperation and defiance of the Government.

DENMARK.—The King had a narrow escape on the 14th—the horses of his carriage having run away, completely destroying the latter.

NEWFOUNDLAND.

We yesterday received our files of papers from this island. The weather had been rainy, with cold winds, very unfavourable for curing the new fish, which it was feared would receive serious injury. No symptoms of the potato disease had appeared; and the crops throughout the island were expected to be very abundant. The N. F. Courier says: "The news from the shore fishery continues to be very good; in some places, as usual, there has been a scarcity of bait and fish, but we believe a good average catch will be secured. From the Labrador we learn that cod seems to be doing very well, but the hook-and-line fishery was less successful. The crops of every kind are in a very promising condition. The crop of hay will be very good. Barley has been in ear for several days. Wheat and oats are very fine and vigorous, and the potatoes are progressing most luxuriantly. No blight, and we shall have happiness and plenty throughout the land during the coming winter."

Mr. Gisborne is progressing very fast with his line of Electric Telegraph from Saint John's to Conception Bay. This improved means of communicating intelligence appears to have roused the people of Newfoundland very considerably, and will undoubtedly lead to other improvements. —[New Brunswick.]

FROM THE WEST INDIES.

By the British mail steamer *Merlin*, at New York, we have St. Thomas date of the 21st, Bermuda to the 27th, Demerara to the 9th, and Surinam to the 7th Aug. On the 18th, St. Thomas and vicinity was visited with a frightful hurricane, which lasted 15 hours, causing the destruction of a large amount of property. All the small craft in the harbor were driven ashore, and many larger vessels were severely injured.

The gale was also severely felt at Saint Croix. At Bassin, the vessels in port got foul of each other, and did considerable damage.

Demerara papers contained advices from Surinam to the 7th inst., from which we learn that there had been no abatement of the yellow fever since the previous accounts. According to government returns over one hundred persons died of the fever in the small town of Paramaribo during the month of July.

On the 24th inst., an unsuccessful attempt at desertion was made at Bermuda by several soldiers, who were discovered just as they reached a vessel bound for New York.

QUEBEC AND RICHMOND RAILROAD.

Mr. Morton's report will, no doubt, be read with interest and attention by all classes, and we sincerely trust the Corporation will bestir themselves, and by a prompt issue of their Debentures, enable the Railroad Committee to place under immediate contract, the line between the Beancour and Richmond, a distance of 62 miles, and which line Mr. Morton states is common to all routes.

For many reasons we think Mr. Morton's suggestion (that the terminus should be placed in such a position as will facilitate a connection with the Great Trunk Line to Halifax) a good one, and with this in view, we would suggest that the Commissioners to be named by the Provinces, should in the ensuing winter determine the route from the Beancour to the St. Lawrence.

Objections are made by some that the interests of the city would suffer, if the line were commenced this fall at Richmond, and the Beancour, as produce otherwise distinguished for this market would find its way to Montreal; but, we may state, these objections carry no force, when it is considered that the 30 miles near the city can be begun in Spring, and the whole line be simultaneously finished.

If contracts were at once given for the 62 miles, in sections of 5 miles, Quebec would gain fully a year; and now that the Seat of Government is so soon to be brought back, we think sound policy dictates prompt and immediate action.

As the line will be merged into the great Government scheme, we think the Corporation will be shortsighted if they do not enter heartily into the matter. If they do not, and if nothing is done, the Government undertake

NEW CALCULATING MACHINE.

An extraordinary calculating machine is now placed in the Russian Court. It is the invention of a Polish Jew, named Szafer, a native of Warsaw, and works sums in addition, subtraction, multiplication and division, with a rapidity and precision, that is quite astonishing. It also performs the operation of extracting the square root and the most complicated sums in fractions. The machine, which the inventor calls *Arithmetica Instrumentalis* is about the size of an ordinary toilet, being about 18 inches by 9 inches, and about four inches high. The external mechanism represents three rows of cyphers. The first and upper row, containing 13 figures, immovable; the second and third, containing 6 figures each, movable. The words addition, subtraction, multiplication, and division are engraved on a semi-circular ring to the right, and underneath is a hand, which must be pointed to whichever operation is to be performed. The figures being properly arranged, the simple turn of a handle is then given and the operation is performed at once, as if by magic. The most singular power of the instrument is, that if a question be wrongly stated, as, for instance, a greater number being placed for subtraction from a lesser, it detects the error, and the ringing of a small bell announces the discovery. The inventor has exhibited the power of this wonderful calculating machine to the Queen, Prince Albert, and several persons of distinction. The inventor also exhibited a machine for ascertaining by weighing the fineness of gold and silver, but this is to be submitted to further and more severe tests. Both machines are, to say the least, extremely curious, and have been rewarded by a silver medal by the Russian Government. During the week the directors of the Bank of England visited the machine.

The disciples of Emanuel Swedenborg regard all death as a translation to a higher state of being. "We say," writes one of their eloquent ministers, of our departed friends, "They are gone!"—the angles say, "They are come!" "We say, "They are dead!"—the angles say, "They are alive!" "We say, "They are fallen asleep in Jesus,"—the angles say, "They are awakened to a blissful and joyous resurrection morning." And this faith of the "New Church" is sufficient to staunch the fountains of paternal or fraternal sorrow of its believers, we have ourselves had an opportunity of seeing. It is not many months since we attended the funeral of a young friend, who with his family, belonged to the church of Swedenborg. The scene at the house surprised while it gratified us. There was no dead silence, no darkened windows and darker faces, glooming in the sad habiliments of woe; but the windows and doors open; the apartments were light and cheerful; there were no suppressed sobs or violent weeping. Until the minister began to speak, hopefully and cheerfully, of the departed brother, who had gone to another and a better world, the friends and acquaintance of the deceased gathered about the coffin which stood in the hall, and spoke affectionately and familiarly of the spirit which lay so lately formed the passive clay that lay before them. No bitter tears were shed—no heart seemed wrung with anguish. Certain it was, to our eye, a perfect realization of the strength and sincerity of a faith which could thus "overcome the darkness of death," and illumine the gloom of the grave. —[Knickerbocker.]

THE ENGLISHMAN'S DRESS.—I have said a few words of the nice and cleanly habits of the English, in their houses and cities. In their persons they are equally remarkable for their virtue. The Englishman, if not always handsomely, is at least always appropriately and neatly dressed. Dress is almost a part of his religion. The fashions of England are not of so much elegance as those of France or America, which in this particular is French rather than English. An English coat is a clumsy structure compared with either a French or an American one. Not the English is always better brushed; and for his hat, it looks as if it were every day newly varnished. His linen is perhaps oftener changed than with others. But whether that be so or not, one thing is clear, that although a London atmosphere will in the case of a stranger mark it throughout in black streaks in a few hours, for some unfortunables reason the Englishman's bosom and wrists maintain their staidness white. There are those, I am persuaded, from what may be observed at home, persons on whom a fly never lights, and a grain of dust never falls. It is the only way of accounting for their shirt collars. Insects and dust, as a general thing, abhor and shun the Englishman. —[ib.]

COSSINO.—Take care how you spend your time in loafing about at corners, shops, taverns, and such places, in talking over the news—not to say the scandal of the town. It is a miserable habit to fall into. It brings on itching ears and scolding tongues. It

LAW RESPECTING NEWSPAPERS.

Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions. If subscribers order the discontinuance of their papers, the publisher may continue to send them till all arrears are paid. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills, and ordered their papers to be discontinued. If subscribers remove to other places, without informing the publisher, and the paper is sent to the former direction, they are held responsible.

CONSUMES TIME, INJURES REPUTATION, AND UNITS FOR THE HEALTHFUL CONVERSATION OF SOCIAL LIFE.

Beware of it, and if you have anything else to do, set yourself about it, as quick as possible, lest the habit become fixed and incurable.

A lady in South Carolina says she goes heart and soul for the Union, for, if States may separate when they please after making a bargain of Union, the next thing will be the right of the men claiming to succeed from their wives the moment they disagree, or happen to get offended with them.

OS HAND.—A farmer hired a sailor to dig a patch of potatoes upon condition of being allowed a bottle of whiskey to be given with. In about an hour, the farmer went to see how the son of Neptune had progressed with his business of farming, when he found him holding to a stump, the bottle lying empty at his feet, and no potatoes dug. "Halloo, you rascal!" said he, "is this the way you dig potatoes?" "If you want your potatoes dug," said the sailor, hiccupping, "bring 'em on, for I'm not going to run all round the lot after 'em."

A FAIR RETORT.—A young lady, dressed in the Bloomer costume, who had wit as well as independence, was present at an evening party a short time since, where she attracted the attention of the gentlemen and the sneers of some of the ladies. One extremely sensitive lady, who, no doubt, envied the appearance of the new costume, remarked to the wearer, that it was a very immodest dress and unbecoming a lady. The witty fair one replied, "If you should pull your dress up enough to cover your shoulders, it would be shorter than mine!" The modest lady, whose dress seemed in danger of falling from her person, immediately fainted and fell into the arms of a lemonade waiter. —[N. York Pathfinder.]

NOTICE TO THE PUBLIC.

A SUPPLY of POSTAGE STAMPS has been received from England, and will be on sale at this Office on and after FRIDAY next the 6th inst. They are of the respective colors and values as under, viz:—
Scarlet—Three Pence.
Yellow—Six Pence.
Blue—One Shilling.
Supplies will also be immediately forwarded to all Postmasters throughout the Province, and through them to the Wey Office Keepers, from whom the Public will be able to obtain them at cost prices, in any quantities they may require. N. B. The Postage Stamps should be affixed to the face, or direction side of the Letter, at the Right hand upper corner.

J. HOWE,
Postmaster General.

MEETING OF COURTS.

The Courts of General Sessions of the Peace and Common Pleas, for the County of Charlotte, will sit at the Court House in St. Andrews, on Tuesday the 16th day of September next, at 12 o'clock.

The Courts of Oyer and Terminer and General Jail Delivery and Nisi Prius for the said County will be held at the Court House in St. Andrews, on Tuesday 4th day of November next, at 12 o'clock.

At which time and place all Magistrates, Coroners, and Constables of said County, and all persons required to be at these Courts, are hereby Publicly Notified to give their attendance.

By Order of Her Majesty's Justices,
THOS. JONES,
Sheriff of Charlotte.
St. Andrews, August 27, 1851.

STEAMER NEQUASSET.

THE STEAMER NEQUASSET, Capt. CAREY, having been put in thorough order, has again commenced her usual daily trips between Eastport and Calais, touching at St. Andrews and Robbinston both ways. She connects with the Steamer Admiral, now plying between Boston, Eastport, and St. John on Tuesdays and Fridays, until further notice.

Family Tickets for the Season may be had on application to

ROBERT KER, Agent.

FOR SALE.

THE lot of Land and premises, with the Cottage thereon, situate on Princess Royal Street, in the Town of St. Andrews, formerly occupied by John S. Jarvis.

For terms of sale and other particulars apply to

GEORGE D. STELLI.

ENCAMPMENT, NO 318.

THE Regular Quarterly Meeting of High Knights Templars and Knights of Malta, will be held at Masonic Hall, on Monday evening next, the 5th inst, at half-past 7 o'clock.

By Order of the G. C. C.
Sept. 3, 1851.

European Intelligence.

TRADE WITH AMERICA.—A parliamentary return has been issued, showing the trade of the United Kingdom with the States of America in the last four years. In 1847 the declared value of British and Irish produce and manufactures exported to the United States of America was £10,074,161 in 1848, £9,564,909; in 1849, 11,971,028; and in 1850, £15,194,961. The imports from the United States have increased. In the three years, (last year's account not being made up) the official value of the imports was respectively, £20,319,882, £23,916,855, and £26,554,944.

The St James's Theatre, London, will be opened on Monday next, by Mr. Bartram, of New York, for the purpose of introducing the youthful dramatic artists, Miss Ellen and Miss Kate Bateson, who created an immense sensation throughout the United States during the last two years.

HIGHLAND REGIMENTS.—An Order has been issued for the killed Regiments, viz. the 42nd, 78th, 79th, 92nd and 93rd Highlanders, to wear in future, as a forage cap, the Glen-gary bonnet, instead of the one hitherto in use. This change does not affect those High-land corps wearing trousers, viz. the 71st, 72nd, and 74th, who are to continue the old forage cap.

EXTENSIVE FIRE IN GLASGOW.—On the 20th August, one of the most destructive fires, as regards loss of valuable property, that has occurred in Glasgow for some time, broke out in the extensive stores of Messrs. C Tennant & Co., which destroyed a large amount of valuable goods, consisting of oil, shunac, madders, sage, turpentine and sulphur. The sum of £47,000 was insured up on the goods destroyed, and £6000 on the building.

DEADLY COLLIERY EXPLOSION.—Thirty to Forty Lives Lost.—On Monday night, one of those disastrous and fatal events which are so frequent in the coal mining districts, took place at Washington colliery, which is about two miles from Washington station of the York, Newcastle, and Berwick Railway, and we regret to say, that the explosion has resulted in the death of from thirty to forty persons, most of whom were in the health and vigour of youth.

No language can describe the intense grief and horror of those who, on the first report being given, rushed to the spot, and remained to witness the blackened and disfigured corpses of their husbands, children, and fathers, who only a few hours before left them in their usual health.

Some of the French factors established in London have announced their intention of selling wheat and flour by auction.

CANADA.

LEGISLATIVE COUNCIL CHAMBER.

TORONTO, 30th August, 1851. This day at 12 o'clock, His Excellency the Governor General proceeded in state to the Chamber of the Legislative Council in the Parliament buildings. The members of the Legislative Council being assembled, His Excellency was pleased to command the attendance of the Legislative Assembly, and that House being present, a number of Bills were presented in Her Majesty's name by His Excellency the Governor General, after which His Excellency was pleased to close the fourth session of the third Provincial Parliament with the following

SPEECH: Honorable Gentlemen of the Legislative Council, and Gentlemen of the Legislative Assembly.

I thank you for the diligence with which you have performed your laborious duties during the protracted session, and I trust that the Province will derive benefit from the many important enactments which you have passed. The grants which you have made, for the erection of light houses and for other improvements in the navigation of the St. Lawrence, and the relief which you have afforded shipping by the remission of light dues, and the reduction of the emigrant tax, will no doubt prove advantageous to the trade of the Province.

It is highly satisfactory that the favorable state of the revenue should have enabled you to adopt these measures. The measures which you have matured with much care and deliberation for the encouragement of railway enterprise will, I trust, be productive of very beneficial results to the Province at large by extending trade, enhancing the value of property, promoting the settlement of the country, and leading to increased intercourse between the sister colonies.

Gentlemen of the Legislative Assembly. I thank you for the readiness with which you have granted the supplies necessary for the public service.

Honorable Gentlemen and Gentlemen. The satisfactory condition of the provincial revenue and credit, the progress of public improvement, the creditable appearance of Canadian industry at the Exhibition of Industry of all Nations, and in harmony with which the three branches of the Legislature co-operated for the public good, have attracted much attention to the Province and removed some prejudices and misgivings engendered by years of disquiet.

At the close of Parliament I feel that I am entitled to congratulate you on the share which you have had in bringing about these gratifying results. It is my firm resolution to continue to administer the government in conformity to the wishes of the people of the Province, as expressed through the local government, believing that this course of proceeding on my part is best calculated to secure contentment and peace, which are the foundations of national prosperity, and trusting that the religious principles and good sense of

the people of the Province will induce them to eschew violent and extreme courses, to cultivate habitual respect for the law and rights of property, and to cherish towards each other feelings of mutual kindness and good will.

THE GREAT RAILWAY IN EGYPT.—The Viceroy has made arrangements for the construction of a railway between Cairo and Alexandria, and has signed an agreement, for that purpose with Mr. Burthwick, now in Egypt, on the part of Mr. Robert Stephenson. Mr. Burthwick intends returning to England, to send out a staff of engineers to commence operations forthwith. This undertaking will confer inestimable advantages on Egypt by bringing forth the resources of the country, besides facilitating the transit of passengers and merchandise to and from India. It is calculated that the line be completed in about two years and a half. The whole length will be about 130 miles, and it will cross the Nile at the barrage where a substantial bridge is nearly finished, having been made by French engineers with the object of damming the Nile for the better irrigation of the land—an attempt in which they have signally failed after having spent an immense amount of money.

A CLERGYMAN KILLED.—The Rev. H. J. Durbin of the M. E. Church, and the agent of the American Bible Society for Southern Indiana, met his death a few days ago, under the following circumstances:—He had preached from Greensburg, Ind. after preaching, for Vernon, when a storm came up while he was riding through the woods; and seeing the trees beginning to fall he attempted to return, when a large tree fell on him, breaking his thigh, and otherwise injuring him. He managed to reach a house however, but so much injured that he died in four or five days afterwards.

LARGE YIELD OF WHEAT.—We learn that Col. John S. Gittings raised on twelve and a half acres of ground five hundred and three bushels of wheat, averaging forty and a half bushels to the acre. Let him beat this who can.—Balt. Amer.

Naval.—H. M. S. Cumberland, 70, Capt. Seymour, with the Flag of Vice Admiral Sir George Seymour, Kt., G. C. H. will sail for Havanna early in the ensuing week. Later accounts from Cuba, via Telegraph from New York, has, we are informed induced the Admiral to proceed thither. The Cumberland has bent sails, and taken on board her powder, stores, &c. and is now ready for any service that may be required. It is said that the men-of-war at present employed in protecting the Fisheries, will also be ordered off to Cuba.—Halifax Novascotian.

COMMUNICATION.

To the Editor of the Standard. Dear Sir,—I perceive by some communications in your paper, that some persons consider themselves unjustly and illegally assessed for an Engine Tax: by giving the following extract from the Standard, they will see that the assessment can be redressed by application to the Sessions, which will commence the 16th inst.—

1850. Page 68. 13th Victoria. Article 22. Any person thinking himself overrated, either as to property or income, may appeal to the next General Sessions after he shall have had notice of such assessment, and they shall give such relief as shall appear just, either by directing the sum overrated not to be collected, or if collected, to be repaid.

A TAX PAYER.

[The above, so far as it goes, is correct—but "a Tax-Payer" must see that it does not apply in the present instance.—Editor Standard.]

[FOR THE STANDARD.]

Mr. Editor.—On referring to the 6th article of the 6th section of the 13th Victoria, Cap. 30, it will be found that the Justices are not permitted to raise one farthing for the purposes of the Fire department, beyond one hundred pounds in any one year. It will also be found by the 21st article of the 2d section of the said act, that if the assessors exceed the warrant by any greater sum than ten per cent., the assessment becomes illegal. The words of the section are these:—"In every assessment now or hereafter to be made, such assessment shall be deemed and taken to be legal, although the aggregate amount thereof shall exceed the sum so ordered to be assessed, provided that such excess be not more than ten per cent." It is evident that, by one of these articles, the Justices are not authorized or permitted to have the town assessed for more than one hundred pounds in any year, while the other sets forth, that the assessment to be legal shall not exceed this one hundred pounds, by any greater sum than ten per cent. Notwithstanding that the Justices and Assessors are restricted as herein stated, it will be found on examination of the tax book, that the assessment amounts to nearly, if not quite, one hundred and seventeen pounds. Will any man say that this is legal? Surely no person will be foolhardy enough to contend, that this is carrying out either the spirit or the letter of the law.—From this and preceding articles, it is to be hoped that the Justices will, on application being made to them for that purpose at this September Sessions, see the propriety of quashing the assessment—failing in which, it will be necessary to apply to the Supreme Court for a Mandamus to compel them to do that, which, if done without this latter alternative, will be received by the Tenants of the East, as well as the West End, as an act of favour.

I am, Sir, yours,

A TENANT & TAX-PAYER.

of the West End.

Subscribers indebted for the Standard will be called upon during the present month, when it is expected they will pay our collector.

passage in her at Halifax for Liverpool. [1b.]

UNPRECEDENTED DESPATCH.—The ship Avon, Captain Johnson, 1020 tons register, arrived at Quebec on the 19th August, discharged 500 tons ballast, began to load on Saturday, 23d, and completed on the 29th, including her deck load—being only nine days in port.

Melancholy Accident.—On the 25th ult., a fire broke out in the dwelling house of Mr. Luther Porter, at Cornwallis, Nova-Scotia, after the inmates had retired to rest. The family consisted of four aged persons and three children. Unfortunately the flames obtained such headway before any alarm was given, that Mr. Porter was so badly burned before he could make escape, that he died on second day after, and a grand child was burnt to cinders. The rest of the family escaped without saving hardly an article to cover them.

Boat Race.—The Promethus with California dates to July 31, arrived this morning with 250 passengers, 50,000 dollars on freight, and 300,000 in the hands of passengers.

The steamer Oregon, bound from California for the Isthmus, has on board nearly two million in gold.

Business prospects better, importation, largely in excess of demand.

The California markets are generally firmer with more activity. Boots and Shoes better, still overstocked. Lumber sells freely, and there is a slight improvement. Bricks very firm, 20 to 20 dollars, according to quality; Laborers' wages \$5 to \$6 a day; Carpenter's wages declined; Mining operations progressing satisfactorily.

General news possess no feature of interest. From the San Francisco Post of the 1st of the preceding fortnight, as follows:—

The events of the past two weeks are of a less exciting character than those embraced in the summary by the last steamer. No great outrage has occurred to heighten the excitement, which has been gradually subsiding under the operation of the amended criminal code, which took effect on the 1st inst., and which allows the jury a discretion to punish, either with imprisonment or death, those guilty of arson, burglary, robbery, &c. (among many other heinous but necessary provisions).

The reports from all the mining districts are more favourable than at any period during the present year, and the shipments of gold for August and September, will doubtless exceed those of any previous months.

MARRIAGES.

On the 7th inst. by the Rev. Wm. Temple Mr. W. A. Eaton, to Miss Lucy A. McNeil, both of Eastport.

On the 24th inst., by the Rev. Dr. Alley, Mr. Andrew Lamb to Miss Jane Ougherton, both of this town.

On Friday evening last, by the Rev. Dr. Alley, Mr. Henry Waycott to Miss Frances Bartlett.

On Sunday evening, by the Rev. Mr. McDivitt, Mr. William Sharkey to Miss Elizabeth Keal.

Some evening, by the Rev. Mr. McDivitt, Mr. John Coogan to Miss Eliza Hagerty.

On the 17th ult., by the Rev. Dr. Alley, Mr. George Saunders to Mrs. Mary Kivill.

DEATHS.

On the 22d ult., at the residence of his mother, Woodstock, in the 21st year of his age, Jeremiah, second son of the late Jeremiah Connell, Esq., deeply regretted by a numerous circle of relatives and friends.

On Saturday morning at St. John, after a short but severe illness, Aleda Alice, daughter of the late Rev. Mr. Busby, aged 22 years.

SHIPPING JOURNAL.

PORT OF ST. ANDREWS. Arrived at St. George.

August 30th.—Ship Caledonia, Kent, New York.—D. T. Wetmore, ballast.

Sept. 4th.—Brig Olive, McCulloch, New York.—J. Sherlock, corn.

5th.—Barque Theodore Lincoln, U. States.—D. & T. Wetmore, ballast.

Cleared at St. George.

Aug. 30th.—Barque Volant, Morrison, Liverpool, deals.—D. Gilmer.

Ship Isca, Price, Newport, deals.—H. E. Seeley.

Sept. 1st.—Ship Motley, Myhill, London, deals.—E. & J. Wilson.

The Barque Volant, Morrison, from St. George, for Liverpool, which was towed into this harbour on Monday last by the Negresse, went ashore at Herring Cove, Campo Bello, on Friday night—extent of damage not ascertained.

Arrived at Europe from St. Andrews, Aug. 19th, Alexandria, at Gravesend.—Sailed 19th, Tropic, from Deal, for this port.

St. Stephens Bank.

ST. STEPHENS, Sep. 1, 1851.

A DIVIDEND of Four per Cent, will become payable on the 20th inst.

D. UPTON, Cashier.

CARD.

THE Subscriber respectfully returns his acknowledgments to those Ladies who kindly presented him, on their return from the pleasure trip, with a handsome case, for his vessel, with her name neatly worked in the centre. This genuine mark of favor, is the more highly prized by him, as the work of the fair daughters of St. Andrews.

JAS McMASTER, Master of Packet, &c.

Sep 10 1851.

CHARLOTTE COUNTY SOCIETY.

1st premium, £4.—2d premium, £3.—3d premium, £2 10s
On Horses.
The following regulations will be strictly observed.
1st—All animals, except dairy produce, or domestic manufactures, entered for competition, must be bona fide the property of the person entering the same, and the growth or production of this County.
2d—None receiving premiums must be kept over one year, for breeding.
3d—Persons entering stock or any other article for competition at the show, must hand a list thereof in writing to the Secretary, before 10 o'clock on the day of the Fair, as no entries will be received after that time, and all persons not paid up members of the Society, must pay an entrance fee of 5s. each.
4th—No person shall receive more than one premium on the same kind of cattle or other articles entered by him.
5th—Cattle and horses entered for competition must be provided with suitable halters.
6th—The quantities of roots, beans &c., raised by each person competing, must be proved by his affidavit in writing, accompanied by a certificate from two freeholders of the correctness thereof, and the quality of the samples exhibited will be considered in awarding the premiums.
7th—No person appointed to act as a Judge and award premiums on any description of articles entered, shall be allowed to enter any article of the same description for competition.
8th—The Society reserve the right of rejecting any articles entered, should the Judges think them totally unworthy of premiums.
The following Gentlemen are requested to act as Judges and award the premiums viz:
John Wheatley, Isaac Snodgrass, John Bolton, Jos. Walton, J. Trenholm, Henry Orest, W. Hatch, D. Clark, W. Whitlock, M. S. Hamlin, J. Lochart, John Irwin, John Farmer, H. Hutchings, T. T. Odell.

The following Committee of Arrangements will exercise a general supervision—
Messrs. D. Mowat, R. Stevenson, and M. J. C. Andrews
A suitable hall will be provided for the reception of Cattle.
By order of the Board
ALEX. T. PAUL, Secretary
St. Andrews, Sep. 3, 1851.

By the deed of settlement the Directors have power to appropriate one-tenth of the entire profits of the Company—
1st. For the relief of aged and distressed parties assured for life, who have paid five years' premiums, their widows or orphans.
2d. For the relief of aged and distressed proprietors, assured or not, their widows and orphans, together with five per cent. per annum on the capital originally invested by them;
3d. For the relief of aged and distressed parties, thereby securing advantages to the living, not to be found in any former existing company.
All Policies by this Company indispensible.—No charge for Stamps.
Assurances against paralysis, blindness, insanity, accidents, and other bodily and mental affliction.
Chief Offices—76, Cheapside, London.
JULIUS THOMPSON,
Agent for New Brunswick,
St. Andrews, August 26, 1851.

TO LET.
IN consequence of the Admiralty having declared the remaining stores to be sold off, the Government Property at Welchpool, Campobello, WILL BE LET for a term as may be agreed upon—
The property consists of Provision Stores, Boat House, Coal House, and "all left"; is well situated, the stores spacious, and admirably adapted for doing an extensive business in dry, pickled, and smoked fish. Any quantity of salt, iron, paint, palm oil, and of British staple and fancy Goods, can be disposed of to advantage by whole sale or retail, owing to its proximity to the United States.
Campobello, August 19, 1851.

NOTICE.
I hereby give, that the following Law, passed at the last Session of the Legislature will be enforced for the County of Charlotte.
That in every Dam now built, or hereafter to be built or placed across the various Streams and Rivers in this Province, a proper and suitable Fishway shall be made and kept; provided that in those already erected, the proprietors thereof shall be allowed until the first day of October next to make the Fishway required by and under this Act.
That no slabs or edgings, or Mill rubbish, sawdust excepted, shall be allowed or put, directly or indirectly, by any person or persons, in any of the Rivers or Streams of this Province.
JOHN ALEXANDER, JAMES BROWN, Wardens of Fisheries for Charlotte.
St. Andrews, Aug 1, 1851.

JUDSON'S CHEMICAL EXTRACT OF

CHERRY AND LUNGWORT,
FOR THE CURE OF
Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and CONSUMPTION.
DO NOT NEGLECT IT.
CONSUMPTION.

Can be and has been cured in thousands of cases by this only certain remedy. JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT, and no remedy has ever before discovered that will certainly CURE CONSUMPTION.
The most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and ulcerated and the case so utterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, has been cured by this wonderful remedy, and are now as well and hearty as ever.
It is a compound of medicaments which are peculiarly adapted to and essentially necessary for the cure of
COUGHS AND CONSUMPTION.
Its operation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough, and assists nature to expel from the system all diseased matter by excretion, producing a most delightful change in the breathing and chest, and this, after the pre-cautions of the very best medical men and the inventions of kind nursing friends and Nurses, have failed to give the smallest relief to the Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE persons have been deceived in buying medicines which were said to be infallible cures, but which have proved only palliatives, and that medicine is not only a palliative but a cure for ulcerated lungs. It contains no deleterious Drugs and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as Spitting of Blood, Coughs, hoarseness, in the side and chest, night sweats, &c. &c.
About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen, and Merchants, have been sent us for this medicine, but the publication of them looks too much like Quackery, [will show them to any person calling at our office.] This medicine will speak for itself and enough in its own favour where it is tried.
Caution.—This medicine is put in a large bottle and you must find the name of Comstock & Brother, Proprietors, New York, on the splendid Wrapper around the bottle. All orders must be addressed to Comstock & Brother, No. 9, John St., New York.

CARLTON'S RING BONE CURE.
For the cure of Ring Bone, Blood Spitting, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.
The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at those changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Hives, Worms, Bots, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptoms of disease appears, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretory glands, and therefore have the same effect upon the Horse, the Ox, the Ass, and all herbivorous animals—all diseases arising from or producing a bad state of the blood, are speedily cured by them. Remember not ask for CARLTON'S CONDITION POWDERS, and take no others.

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES, and for the cure of all diseases of man or beast that require external application, and for contracted cords and muscles, strengthen weak limbs, and is also used for sprains, bruises, saddle galls, swelled legs, sores of all kinds on horses.
CARLTON'S ointment for Horses and Cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety nine cases out of one hundred any of the above complaints. They have been used by Farmers, liverymen, stage proprietors and others, with the most marked and decided success.

CAUTION—None can be genuine unless you find the name of J. Carlton Comstock on the wrapper of each article.

COMSTOCK'S VERMIFUGE
This is the most extraordinary remedy for Worms ever used; it effectually eradicates Worms from both adults and children. It cannot harm the most delicate infant or strongest adult, and never fails to completely root out and destroy all kinds of Worms. The cost, 25 cts. per bottle, puts it within the reach of all, and all parents who are without it are wantonly exposing the lives of their children to those fell destroyers of youth,—"Worms." Look for the name of Comstock & Brother, proprietors, on the wrapper of each bottle.

RHEUMATISM.
Comstock's Nerve and Bone Liniment, is warranted to cure any case of Rheumatism, Gout, Contracted Cords, and Muscles, or stiff joints, any injury to the neck or spine. Price 25 cts. CARLTON'S LINIMENT FOR THE PILES &c. It is now used in the principal hospitals, and in the private practice of our country by an immense number of individuals and families, first and foremost, for the cure of the PILES, and also extensively and effectually as a reliable remedy in all the following complaints:—
Rheumatism, Acute or Chronic, giving pain, or Colic, Sore Throat, Hoarseness, Ulcers, and over the chest. All Bruises, Sprains, and Burns, Curing in a few hours. Sores and Ulcers. Whether fresh or of long standing, and fever sores.
In operation upon adults and children in reducing rheumatic swellings, and loosening coughs and tightness of the chest by relaxation of the parts, has been surprising beyond conception.
CAUTION.—All of the above named articles are sold only by New York by Comstock & Brother, No. 9, John Street, five doors from Broadway.
Sold also in St. Andrews, by Odell & Turner, D. Clarke, S. L. Tilly, St. John; L. Ryder, D. Stephen; J. W. Brasley, Fredericton; H. Ferguson, Woodstock; G. Spicer, Robinson; by our Agents in every Town in New Brunswick. Enquire for Comstock's Almanac for 1855 which is given gratis.

CURES FOR THE UNCURED.

Holloway's Ointment.
AN EXTRAORDINARY CURE OF SCURFULA OR RYD'S AIL, Extract of a Letter from Mr. J. H. Alliday, 209, High Street, Charleston dated the 22nd of January, 1850.
To Professor HOLLOWAY,
SIR,—My eldest son, when about three years of age, was afflicted with a Glisular swelling in the neck, which after a short time broke out into an Ulcer. An eminent medical man pronounced it as a very bad case of Scurf, and prescribed for a considerable time without effect. The disease then for four years went on gradually increasing in violence, when besides the ulcer in the neck, a sore appeared under the eye, and a third formed below the left knee, and a third under the eye, besides seven others on the left arm with a tumour between the eyes, which was expected to break. During the whole of the time my suffering boy had received the constant advice of the most celebrated medical Gentlemen at Charleston, besides being for several months at the General Hospital, where one of the surgeons said, that he would amputate the left arm, but that the blood was so impure, that if that limb were taken off it would be then even impossible to subdue the disease. In this desperate state I determined to give your Pills and Ointment a trial, and after two months perseverance in their use, the tumour gradually began to disappear, and the discharge from all the ulcers perceptibly decreased, and at the expiration of eight months they were perfectly healed and the boy thoroughly restored to the blessings of health, to the astonishment of a large circle of acquaintances, who could testify to the truth of this miraculous cure. Three years have now elapsed without any recurrence of the malady, and this boy is now as healthy as heart can wish. Under these circumstances I consider that I should be truly grateful were I not to make you acquainted with this wonderful cure, effected by your medicines after every other had failed.
(Signed) J. H. ALLIDAY.
CURE OF ACUTE RHEUMATISM OF FOUR YEARS' STANDING.
Extract of a Letter from Mr. John Pitt, Dalry, 15th Jan. 1850.

To Professor HOLLOWAY,
SIR,—It is with the greatest pleasure that I write to thank you for the benefit I have received from your Pills and Ointment, which have completely cured me of the Rheumatism, under which I suffered for this last four years, at times I was so bad as hardly to be able to walk. I had tried every kind of Medicine that was recommended without receiving any benefit. I at last thought I would give your medicines a trial, and purchased from Mr. Hollin, Chemist of this Town, two Boxes of Pills, and two of Ointment, and in three weeks, and two of them, and the blessing of God, I was restored to health and am now as well able to walk as ever I was in my life. I am well &c. in this parish, having been sixty-five years in it, with an exception of ten years I served in the 24th Regiment of Foot.
(Signed) JOHN PITT.
CURE OF A BAD LEG OF SIXTY YEARS' STANDING.
Mr. Barker, of No. 5, Graham's Place, Drypool near Hull, had ulcers on his leg from the age of eighteen until upwards of eighty, and although for many years he had sought the first advice in the country, nothing was found to cure them.—He very often suffered most excruciating pain for long periods together, which incapacitated him from attending to his business.—He had given up all hopes of getting a cure, when at last he was persuaded to try Holloway's Pills and Ointment, which he did, and however wonderful it may appear, the leg was thoroughly healed by their use, and by continuing to use the Pills after his leg was well, he has become fit for his usual and hearty as now to be more active than most men of fifty.

N.B.—The truth of this extraordinary statement can be vouched for by Mr. J. C. Reinhardt, 24 Market Place Hull, February 20th, 1850.
CURE OF A DESPERATE CASE OF RING-WORM OF SIX YEARS' STANDING.
Lima, 13th of November, 1849.
One of the most eminent Surgeons in Lima (the Capital of Peru) had a child covered with Ring-worm for more than 6 years; in vain he exhausted all his art in his endeavours to effect a cure. Not succeeding, he consulted among his brethren, the most celebrated medical practitioners of the City, but nothing was found to do the child service.—When he was persuaded by Mr. Joseph P. Hargue the English Chemist and Druggist, residing at No. 24, Calle de Palacio, to try Holloway's Pills and Ointment, which was done, and after using six large Pots of the Ointment, with a proportion of the Pills, the child was radically cured, to the surprise of the whole medical profession. The name of the parent, from motives of delicacy, is withheld.
The Pills should be used conjointly with the Ointment in most of the following cases:—
Bad Legs, Bad Breasts, Burns, Bruises, Blisters of Muscles, and Sand Fles, Fistulas, Coco-bay, Gout, Glandular Swellings, Lunger Piles, Rheumatism, Scalds, Sore nipples, Chilblain-foot, Chilblains, Chapped Hands, Corns (soft), Concretions, Contracted & Stiff Joints, Elephantiasis, Sore throats, Skin diseases, scurvy, sore heads, Tumours, Ulcers, wounds, Yaws.
Sold by the Proprietor, 244, Strand, near Tampliar, London, and by all respectable Vendors of Patent Medicines throughout the Civilized World, in Pots and Boxes, at 1s. 1-2d., 4s. 6d., 11s., 21s., and 33s. each. There is a very considerable saving in taking the larger sizes.
N.B.—Directions for the guidance of Patients are affixed to each Pot or Box.
ODELL & TURNER, St. Andrews.
Wholesale Agents for Charlotte County.
CAUTION—None are Genuine unless the words "Holloway's Pills and Ointment, London," are engraved on the Government Stamp, pasted on every Pot and Box; with the same words woven in the water-mark of the Books of directions wrapped round the medicines.
Should unprincipled Vendors recommend parties asking for Holloway's Pills and Ointment not to buy them, but to take something else in their stead, they do so only for the purpose of getting a greater profit; by what they wish them to purchase.
