the value of reciprocity, but undoubtedly the development of the North-West and the linking of Central Canada's future with the North-West by means of the C. P. R. have changed the views of the great bulk of the people of Canada. The opinions and wishes of the people of the Eastern Provinces are entitled to much more consideration than the Citizens seem disposed to give them, and their interests should not be neglected; but, in truth, no such change has taken place in the opinions of the people of the other Provinces as the *Citizen* seems to imagine.

and purity in the conduct of public affairs. It endevours by bribery to persuade the people of this Dominion that the general good must be subordinated to gross individual interests. It aims at convincing the masses that political integrity is a thing existing only in the practical minds of political theorists and imbeciles. The deadly poison of bribery is steadily doing its work in undermining the foundations of our political vitality. With the loss of honor and virtue will go self-respect, and the struggle of the lower elements of human nature will lead to more and rapid destruction. This policy of anarchy has for its object nothing greater than the retention of office and the exercise of a little brief authority. Amidst the war of contending elements power is seized and held. Are we prepared to go on contending that an abandoned set of politicians may flourish on our degradation and misfortunes?

AGRICULTURAL. In the fall the colt should be taken from grass gradually, at first only night then part of the day, and so on until the change is made from green to dry fodder, then give plenty of clean, sweet clover hay, with the same quantity of oats as before, sometimes changing them for corn. This will be plenty until the colt is eighteen months old, when it may be increased to three quarters. Some writers say, "You should let the colt grow thin, always keep him growing, and if you have followed the foregoing rules, using your own judgment, you will have a colt that will be a credit to you as a breeder and also a credit to your pocket."

Wholesale Murder in England—A Father Destroys His Four Children to Get Rid of Them. A shocking crime was perpetrated at Courtenay Place, near St. James Street Station, Walthamstow, a father having drowned three of his children—Charles, aged three and one-half years; Herbert, two and one-half years, and Frederick, aged sixteen months, and so seriously injured a fourth—John, only seven days old—the one of them died shortly afterwards, and the death of the second was hourly expected. The man's name is William Gouldstone, aged 43, employed by a firm in Lower Thames-street, city. His wife was confined of twins, and she had a woman in the house to nurse her. One evening Gouldstone returned home rather earlier than usual. He seemed in a very bad mood and said to the nurse that he wanted her out of the house while he had a chat with his wife concerning the medical expenses of the confinement. The woman went out of the house, and just before going she heard the father ask for the boy Fredrick. The woman was surprised a short time after, and on going to it she was horrified to discover the dead bodies of three children in it. At the same moment she heard screaming in the room where Mrs. Gouldstone was in bed, and she knocked at the door, but was unable to gain entrance. She called for assistance and the door was burst open. Then it was found that the enraged father, had struck the children at their mother's breast with a hammer. The police were at once sent for and the man was taken into custody and conveyed to the Les Bridge-road Police Station. When the nurse asked the prisoner what he was doing, he said:—"Never mind, I am happy now, and she is a single woman." No motive, says the *London Globe*, can be assigned for the murders, except one, viz.—that the prisoner has on more than one occasion grumbled with his wife because she had children so quickly.

IRON, OAKUM, BOILER PLATES, RECEIVED in store, Ex. Bureau "Paramatta," and S. S. "Hibernia" and "Caspien." I. & F. BURPEE & CO., 230 Boiler Plates, Best R. R. and P. P. Lee & Logan, SAINT JOHN, N. B., St. John, Feb. 16, 1883.

Cardinal Manning on Ireland. Cardinal Manning who has been interviewed on the Irish Question speaks very freely as follows:—"I am very hopeful indeed of Ireland... great deal of good. The Land Act has done immense and widespread. Disputes about rent are no longer questions to be fought out by landlord and tenant and settled in any arbitrary fashion. They are matters in which landlord and tenant both see compelled to bow to the judgment of an impartial Court. Justice has taken the place of injustice. A large number of cases have already, as you know, been brought before the Land Court for investigation."

Cardinal Manning on Ireland. Government having done what it has for the tenant farmer, I should like to see it next approach the question of the Irish laborer. I suppose there are eight hundred thousand or a million laborers in Ireland whose condition at this moment is almost beyond description. It is only eight days that their material comfort should be attended to. Hunger and thirst and cold are not things likely to promote peace and stop discontent in Ireland. The laborers should have the means of decent livelihood given them; they cannot be allowed to starve if we are to see an end of agitation and disorder.

A Policy of Anarchy. The *Globe* has consistently labored for a strong, united, and harmonious Canadian nationality. It gave its assistance to the formation of the present Confederation of Provinces. It has ever since striven to bring into active existence kindly and sympathetic feelings between the various Provinces of the Dominion. It is with regret, then, we witness the systematic effort of the Dominion Government to nullify all efforts towards the material unification of the people. The policy pursued by the Tory party has for its legitimate result anarchy, confusion, and disaster. Sir John Macdonald and his allies have astoundingly used their influence and opportunities to weaken the bonds of Confederation and destroy the feelings of mutual sympathy existing between the populations of the different Provinces. Racial antagonisms have been appealed to, religious prejudices have been worked upon, local preferences and interests have been cynically and unscrupulously utilized. The interests of one Province have been deliberately placed at variance with the interests of another, religious bigotry has been intensified so that amid contending factions the prize of authority and government might be seized by self-seeking politicians. A policy of monopoly has been introduced to add to the disintegrating forces at work among us. The material unification of the people of the Dominion has been put in opposition to those of the other. Constant irritation and friction is the result of plundering the agriculturalist and consumer for the benefit of the manufacturer and railway king.

Reciprocity Not a "Dead Issue." Canada prospered so greatly with the United States in force, and it is so generally felt that a fair Reciprocity Treaty would do to day of immense advantage to both countries, that all parties in Canada have professed themselves favorable to the making of such a treaty. One of the main arguments employed to reconcile the people to the heavy taxation imposed by the tariff of 1879 was that by taxing United States productions heavily a reciprocity treaty would be more surely obtained. To satisfy the people who desired reciprocity, and to prove the sincerity of the Government authorities was taken for the Governor in Council to reduce or abolish certain imposts when ever reciprocal free trade was agreed upon with the United States. One member of the Government told his constituents that he was a champion free trader, and consented to such a tariff because he believed it to be a sure means of obtaining the reciprocity they so much wished for. The sincerity of all these professions and protestations was always doubted by many.

Now the Ottawa *Citizen*, the home organ of the Dominion Government, throws out the mask and proclaims that reciprocity is no longer desirable. It calls it a "dead issue." It asserts that a very great change of opinion on reciprocity has come over the feelings of the people since the opening up of the North-West and the construction of the Canada Pacific Railway. There may be some, it admits, especially in the eastern portions of the Dominion, who yet believe in

the value of reciprocity, but undoubtedly the development of the North-West and the linking of Central Canada's future with the North-West by means of the C. P. R. have changed the views of the great bulk of the people of Canada. The opinions and wishes of the people of the Eastern Provinces are entitled to much more consideration than the Citizens seem disposed to give them, and their interests should not be neglected; but, in truth, no such change has taken place in the opinions of the people of the other Provinces as the *Citizen* seems to imagine.

AGRICULTURAL. In the fall the colt should be taken from grass gradually, at first only night then part of the day, and so on until the change is made from green to dry fodder, then give plenty of clean, sweet clover hay, with the same quantity of oats as before, sometimes changing them for corn. This will be plenty until the colt is eighteen months old, when it may be increased to three quarters. Some writers say, "You should let the colt grow thin, always keep him growing, and if you have followed the foregoing rules, using your own judgment, you will have a colt that will be a credit to you as a breeder and also a credit to your pocket."

LOCAL AND PROVINCIAL

The Police Magistrate's Office will be removed in the latter part of this month to the Perk's building on Carleton Street.

Attorney General Blair's youngest child, 19 months old, died on Friday evening of diphtheria.

The receipts of the Police Office, in this city, for August were \$154.40; in St. John the receipts for the same month were \$300.

If the person who sent us an anonymous letter on Thursday last will kindly give us his name in confidence we will be happy to communicate with him.

Mr. C. A. Sampson, Secretary of School Trustees, has removed his office to the corner of Waterman and Queen Streets, entrance from Queen Street.

Mr. Jas. R. Howie is remodeling and fitting up in the lower part of the city, and which commands a fine view of the river is beginning to present an imposing appearance.

More than Ordinary Interest was centered during the baptismal ceremony on Sunday in St. Paul's Church on which occasion Mr. and Mrs. J. R. Howie presented their first-born child for baptism. The child received the euphonious name of George Elliott Archibald Francis.

Kicked by a Horse. The City Teamster, John Virtue, was kicked in the groin last Friday while attending to the City horse which has since been removed to his home, and he has suffered much pain ever since. Doubts were at first entertained of his recovery, but now the indications are that he will be all right again in a few days.

Heard Alex. Macdonald in a speech before the Greenock Chamber of Commerce on Wednesday week, declared that the people of Canada would never consent to a Federation of the British colonies.

A terrific Gale, accompanied by thunder and lightning, did considerable damage at North Sydney, C. B., on Wednesday evening last. The tower of the new Roman Catholic Church was blown down, involving a loss to the contractor of \$200. One new building in course of construction was blown down, and a foot from its foundation. A vessel at anchor was driven three miles up the harbor, some schooners were driven ashore in the Bay. The telegraphic wires were prostrated. No lives were lost.

Annals of a Preacher. Rev. A. H. Williams recently preached on a Sunday evening in the Baptist meeting in Alma, Albert County, and the service was interrupted by several small boys, whereupon the preacher intimated that the "children were exhibiting the spirit of rebellion by their fathers." When Constable Robt. Thompson's little boy told him that Mr. Williams had said, he hurried to the latter's boarding house, and gave him quite a thrashing. The second act in the drama was now finished in the committee of Thompson for trial at the County Court for assault. The case excites much interest in Albert County.—St. John Globe.

The Shaw's Affairs. Wyman, the assigned of Shaw and Brothers, thinks that Shaw will stay in Canada until his presence is required by creditors. He does not think the Park Bank will make trouble in the settlement of Shaw's affairs. He is confident that Shaw will be liquidated according to the provisions of a non-resident debtors act under the statutes of New York, and were merely for additional security, in order if Shaw was taken within the limits of Massachusetts, to cause his arrest and to compel him to give bonds, virtually amounting to an attachment. George W. Morse, Shaw's Attorney, has gone to Montreal, and is at present in Montreal, and lately made a tour of inspection of the various tanneries he owns in Canada. He is at present conferring with his brother, the senior member of the firm of Shaw, Childs & Co., regarding the state of his affairs.

A fatal Burned to Death. A fatal accident occurred yesterday afternoon in Portland. Mrs. Price, who resides on the McCookery road, near Connor's rope-walk, left her house for a few minutes about 8 o'clock on Monday morning, to get a pail of water at the well. While she was out her seven-year-old daughter who she had left in bed got up and, while walking about the room, got too close to the stove and set her hair on fire. The little girl was so terrified when she found her clothing burning that she ran back to the bed and buried herself in the clothing, but the little one did not awaken for five minutes before the flames which communicated with the bed clothing. When the mother returned she found the little girl struggling in the bed amid a mass of flames. She called out for help, but before assistance could arrive from the rope-walk it was too late. The child was lifted from the bed, but her flesh was so terribly burned that it was impossible for her to recover. Dr. Wm. Christie was sent for and arrived promptly, but the unfortunate child was beyond medical aid, and died about an hour after the accident. Coroner Rigby was notified, and a coroner's inquest was necessary.—Telegraph, 1 inst.

The Fishermen in Restigouche. A Campbell correspondent of the Carleton Place, in an interesting article, gives the following facts relative to fisheries in that section:—"The Restigouche and its tributaries with the smaller streams emptying into the Bay have always been noted for their fishing attractions. Indeed the whole country round is dotted with fishing waters. Salmon and trout are the two kinds in demand. The most notable fishing grounds in Restigouche are situated about thirty miles above Campbell, and are now the property of the Restigouche Salmon Club. Originally owned by Mr. Daniel Fraser, these grounds attracted, before the opening of the railway, some of the best fishermen of England and the United States. When the railroad was building Mr. Fraser opened a large hotel, which was well patronized by the lovers of the Quebec side, about thirty miles below here. The net fishing has proved very good this year. The best catch by one stand of nets I have been seven thousand and one (7,001) pounds, which would bring its own weight in fish. The best catch by one stand of nets I have been seven thousand and one (7,001) pounds, which would bring its own weight in fish. The best catch by one stand of nets I have been seven thousand and one (7,001) pounds, which would bring its own weight in fish.

CITY COUNCIL

No Explanations from the Water Committee. The regular monthly meeting of the City Council was held last evening. Ald. Van der Horst, in the absence of Mr. McLaughlin, presiding. The Auditor reported accounts as follows:—

Public Works.....\$3446 61
Roads and Streets..... 304 81
Comptrolleur Account..... 286 82
Fire Dept..... 1 00
Sewerage..... 92 00

Checks were ordered to issue for above amounts. On motion of Ald. Moore cheques were ordered to issue for value of Treasurer for \$21. The petition of Isaac Anderson for relief from taxes was referred to the Assessment Appeal Committee.

On motion of Ald. Moore an order was issued in favor of P. Dugan for \$125 for labor; another cheque was ordered in favor of Treasurer for \$8.17—money advanced.

The petition of P. McDonald, Jeremiah Haslam, Wm. Ash for relief from taxes were referred to the Assessment Appeal Committee, also the petition of Mr. C. G. D. Roberts for reduction of his taxes; also the petition of Mrs. J. McGee for relief from taxes. John White from poll tax; B. McCaffrey for refund of certain amount of his property tax; and David Day for relief from certain taxes.

The petition of Mr. Alex. O'Leary for a sewer from the yard of the Golden Fleece building to connect with sewer on Regent Street was referred to the Road Committee.

Mrs. O'Neil's and Mrs. Murphy's petitions were referred to the Alms House Commissioners with power to act.

Ald. Berchall, on behalf of the Water Committee, presented the monthly report. The report recommended that cheques issue in favor of Treasurer for four thousand and the treasurer to reimburse him for money advanced on account of contract for piping, and also to employ Committee to provide money to meet bills now due.

Ald. Farrell asked for some information concerning the \$4,000 and old paid Mr. Newman, the Committee having issued a cheque with their own signatures attached for the amount mentioned. He wanted to know why a request was made to refund Treasurer as amount had never been handed. After some little discussion, and when the Water Committee failed to make any satisfactory explanation as to their signature, the Alderman characterized the whole proceeding of the Committee in connection with this matter as illegal. To this there was no reply.

The report was adopted with an amendment that Alderman Vandine, who is the chairman of the Mayor as Chairman of the Board of Water Commissioners, and the Alderman in charge of the Water Committee do not.

Ald. Farrell, Chairman of Police Committee, reported that he had leased building, known as Perk's building on Carleton Street, for Police Office, till 31st of May at rate of \$100 per year.

Some questions as to the cost of sidewalks and other public works arose on a friendly footing among Aldermen and brought on an unparliamentary discussion, which terminated in Alderman Macpherson calling "Ald. Thomas 'A sucker,' 'A dirty sucker,' 'A small rooster' motion." Some other minor matters were attended to, including the passage of an order to purchase 5 branch pipes for the fire department. Council adjourned.

A trip to the Miramichi.—Along the Valley of the Miramichi, through the Fertile, and down the River to the Sea. The report was adopted with an amendment that Alderman Vandine, who is the chairman of the Mayor as Chairman of the Board of Water Commissioners, and the Alderman in charge of the Water Committee do not.

The report was adopted with an amendment that Alderman Vandine, who is the chairman of the Mayor as Chairman of the Board of Water Commissioners, and the Alderman in charge of the Water Committee do not.

decided to postpone business along this section until we returned. We passed quickly through Dunsmuirville and other small parishes, and at 7.30 o'clock we arrived at Blackville, and were well feasted and entertained at Mr. Wm. McLaughlin's. We spent upwards of an hour here in the company of Mr. and Mrs. McLaughlin and family, and enjoyed ourselves thoroughly. Mr. McLaughlin is one of the wealthiest farmers of the North; has a palatial residence, and a farm that for abundance and richness of production has few equals in the Province. He has in use all the latest and improved labor saving machinery, including Wood's New Enclosed Grass Mowers, manufactured by Messrs. McParlane, Thompson & Anderson, of this city. This mower he believes has no equal in Canada, he has used it for some time, finds that it does work capitally, and that it is very reliable and easily kept in repair. We are now 25 miles from Newcastle and 7 or 8 miles from Regent Bridge. Our horse harnessed us again late to the road. We must leave Blackville early on our return. Passing down we find Mr. Peter McLaughlin and Mr. Jas. Wilson on the bridge carrying on conversation. We take a little time, and although there are many names to our subscription list. We make another short stop at Mr. John L. Scofield's establishment—a general country store. This is one of the neatest, best stocked, and well arranged stores we have seen since we left Fredericton. Mr. Scofield was for some time in the employ of a Fredericton merchant—this may account for the neat arrangement of his establishment. Another subscriber, and of we go—not to stop I promised my friend until we had arrived at Regent Bridge. At half past ten we re-embarked on the steamer, and after a short stay at the Shumway Hotel, where his plenty of accommodation for travellers. Mr. Holtz keeps a fine house of entertainment, and has the happy faculty of making out a bill at the end of the day. Mr. Holtz is a factory worker, and an excellent officer he is. Adding his name to our list in the morning we start for Newcastle at half past seven. We call at Mr. F. H. Jardine's, who has a fine lot in the best horse. He had just been notified that a note he had endorsed had been dishonored, and he was requested to furnish with make payment. "This" he said "is a bill to swallow. Call on your way back gentlemen, and you will find me no doubt in better humor." We passed on. Driving through the village of village of Decoy we soon afterwards reached Newcastle, and here we rested for a day before we attempted to do any business.

A young lad named Dougan, who lives on Campbell Street, had his face badly hurt by falling from a tree in O'Dell's grove on Sunday afternoon last.

The Gibson's Father Co. Determined to put the best and the nearest finished leather into the foreign as well as the local market, have engaged the services of one of the most competent men in the business to superintend their Japanese Department. He will arrive here from New York, N. J., in a few weeks.

Five Workmen Apprehended. A traveller from Quebec while at Newcastle the week before last took a fancy to visit two or three of the pleasure boats, built by Messrs. Ben Miller & Co., of this city, that he purchased it at the original cost, and shipped it to Quebec. This speaks well for the workmanship of our townsmen. Mr. Ben Miller and his partner may open a market for his make of carriages in the Upper Provinces.

Belleville, Ont., Sept. 1.—Last night while Alex. Smith, a carter, was returning from work he placed his 4 year old boy on his back and let him walk on the water. The boy fell into the water and was drowned. The boy died within a few minutes.

Woodstock Notes. The members of St. Luke's Church will hold a fancy sale and give a croquet team in the rink, on September 13th inst.

John Stickey was up before Police Magistrate Dibble last week for violation of the C. T. Act, and fined \$30 and costs.

The new bridge over the Medwanak is finished, and the trains passed over it on Monday last.

Prof. G. A. Addison, of St. John, intends opening a singing class here during the present month.

Local Amusements.—The concert given in the hall on Thursday evening of last week, was in every way a decided success, the audience being large and very attentive.

The choice programme was carried out to the letter, and scores were made of the evening.

We cannot say too much in praise of the singing by Miss Barrows, who appeared first with her Donohoe, which was well received and approved, by singing over the last verse.

This lady created a sensation in her beautiful rendering of such songs as, "At the Fall Meeting of the Chatham Fair," "The Berry Cross," in all of which she showed great command of voice, which was duly appreciated in the audience by applause at the end of each song.

The quartet for the evening consisted of Miss Cripples, Miss Harrison, Mr. Deacon and Mr. Smith, and was loudly applauded in singing the "Sweet Pastoral" by Mr. H. Grant presided at the piano, and his manipulations were much admired.

Suffice to say, that the entire programme was carried out in a manner very creditable to all concerned. X. X.

Sporting Matters. The Moncton Driving Park hold their fall meeting on Thursday, the 13th inst., instead of the 15th, as at first advertised.

Agate. Newark, N. J., Aug. 31.—Trial heats in the professional rowing regatta took place on the Passaic river this afternoon. The course was the late Adams' race course, and the race was won by the late Adams' crew.

For the first heat the starters were George Gaisel, New York; Wallace Ross, St. John, N. B.; Geo. W. Lee, Newark; William Elliott, Newark; and George Gaisel, Newark. Mr. Elliott and Gaisel stopped rowing, and there was a desperate contest between Lee and Ross, for the heat, Lee finally winning in 19 min. 48 sec. Ross' time was 19 min. 48 sec.

The second heat was between James Ten Eyck, Peckskill; John McKay, Halifax; Geo. H. Homer, Boston, and James H. Riley, Saratoga. All the start finished, and the race was won by Ten Eyck and McKay pushing him back. Homer won by a McKay's length in 19. 52. Ten Eyck second in 19m. 02s.

ST. JOHN NOTES. Exhibition matters are progressing favorably. While the building is not yet completed, it has been thought advisable to rush them forward to completion as rapidly as possible and therefore extra help is being sent in from the Province. The French reinforcements are considered insufficient—at least 10,000 men will be required.

A detachment from the 101st Noyals that was sent to the front of home policy. The French reinforcements are considered insufficient—at least 10,000 men will be required.
