Legal Decisions  
1. Any person who takes a paper regularly from the Post Office—whether directed to his name or another's or whether he has subscribed or not—is responsible for the payment.

2. If a person orders his paper discontinued, he must pay up all arrears, or the publisher may continue to send it until payment is made, and collect the whole amount, whether the paper is taken from the office or not.

3. The courts have decided that refusing to take newspapers and periodicals from the Post Office, or removing and leaving them uncalled for is prima facie evidence of intentional fraud.

### POETRY.

#### The Station Despair.

We must trust the conductor, most surely,  
Why millions of millions before  
Have made the same journey securely  
And come to that ultimate shore;  
And we, we will reach it in season;  
And ah, what a welcome is there!  
Reflect then, how out of all reason  
To stop at the station Despair.

At midnights and many a potion  
Of little black water have we  
As we journey from ocean to ocean—  
From sea until ultimate sea—  
To that deep, dark, and all-offensive  
Of passion, concern and of care—  
That vast sea of Eden set islands,  
Don't stop at the station Despair!

Go forward, whatever may follow,  
Go forward, friend-led or alone;  
Ah me, to leap off in some hollow  
Or fen in the night and unknown—  
Leap off like a thief, try to hide you  
From angels, all waiting you there!  
Go forward! whatever betide you,  
Don't stop at the station Despair!

#### CHAPTER III.—Continued.

He did not see me, he did not see her. He was walking away with hurried steps as an expression of the deep gloom and despondency upon his face. I should have run after him to ask him about Mary, but somehow the presence of that woman with the fair hair and steely eyes prevented me. So I went straight on to the house he had just left, and only turned at the door for a last glance at his rapidly disappearing figure.

The woman in the gray dress had left her seat, and seemed to be following him at a distance.

I found Mr. Marshall as kind as usual, but not quite as cheerful. Hilary had just been with him, he said.

"I know," I said, "probably with a slight tightening of the lips. I saw him go down the steps just before I came in."

"Ah! Did you speak to him?"

"No, he raved off with a scowl black enough to frighten anyone. Oh, Mr. Marshall, Tom says poor Mary's going mad; if she is, it is this Hilary who is driving her to it, I'm certain."

Mr. Marshall's look changed to one of deepest gravity.

"Sh—oh, my dear, you mustn't say things like that lightly. I am afraid myself that all is not quite right between them, but you must not lay all the blame hastily on the shoulders of the man, for no better reason than that you have seen him with a frown on his face."

"Are you satisfied with this treatment of Mary?"

He gave me a shrewd glance, and after a pause, during which he made pen and ink sketches on his blotting-pad, he said—

"Really I am hardly in a position to judge; I have only once seen Mary to the two months she has lived at Battersea. She seemed to have grown haughty and fanciful—so much so, indeed, that I was quite offended, and have never, as I tell you, been to see her in her own home."

"But she was not mad?"

"Oh dear, no. I should think that is only a fancy of Tom's, who thinks any girl must be mad who doesn't jump at him."

Of course this speech gave me a sharp stab of jealousy. Tom had offended and disgusted me, but I was still faithful.

"You don't think so, do you, Mr. Marshall? I hesitatingly began again, trying to repress more closely personal feelings and to keep to Mary, "that is—that this Hilary Gold—is what people call 'fate'?"

"My dear, he said hastily, "I am not much in his confidence. If there is in him a tendency to extravagance, and—well the amusements which extravagance in a young man usually means, we may trust that a happy marriage will cure him. We know that a taste for racing may lead a man a little astray, but—"

"Racing!" I interrupted in alarm. "Why, if he is inclined that way, he might run through all poor Mary's money in a few months."

"Indeed he might. But remember, I only suggested; I don't know."

But the suggestion in his tone was stronger than the words, and I was

THE ACADIAN

WOLFVILLE, N. S., NOV. 13, 1891.

Hon. Samuel Chipman.

This week we record the death of a man who for the last three quarters of a century has occupied an important place in the history of King's county, and especially of King's county. Hon. Samuel Chipman passed away, at his home at Chipman's Corner, this county, on Tuesday morning last, at the advanced age of 101 years and 23 days. Until quite recently the deceased has enjoyed excellent health, and has been a man of unusual activity for his years. Lately, however, he has been failing gradually in strength and vigor. On Saturday he was taken sick with a cold, and on Tuesday passed peacefully away. He had been talking with his son-in-law, and lay down to rest. In a few moments he died without a struggle. The following particulars of his life are copied from the Western Chronicle: The late Samuel Chipman was born in Cornwallis at the place now known as the Stratat Farm, on October 18th, 1790. In 1830 he was elected to the House of Assembly for Kings, succeeding his father, William Allen Chipman, and he took an active part in the struggle for responsible government. In 1844 he was defeated by Mayhew Beckwith, and remained out of parliament until 1851, when he was re-elected. In the government formed after the general election of 1855, Mr. Chipman was given the office of Financial Secretary, and appointed a member of the Executive Council, from which he retired in 1857 on the defeat of Mr. Howe's government. In 1869 Mr. Chipman was again elected to the North Riding of Kings County. In 1863 he was appointed a member of the Legislative Council, where he sat till 1870, when he was appointed Registrar of Deeds for Kings County. This office he held till about four years ago, when he received a retiring allowance and was succeeded by Mr. Brown. Mr. Chipman was married twice. His first wife was Elizabeth, daughter of the late Col. Henry Gesner, Sr. She died in 1825, leaving four children, all of which are still living. They are Mrs. Primrose, of Lawrencetown, widow of the late Dr. Primrose; William Allan Chipman, of Halifax; Mrs. Sharp, of New York; and Mrs. Stead, of Malden, Mass. Mr. Chipman married a second time, in 1842, Jessie, daughter of the late Thomas Haselin, of Edinburgh, Scotland, who was killed by falling from the Port Williams bridge in 18--. By her he had seven children, of whom five are still living: Russell Chipman, of Cornwallis; Isaac Chipman, of Chipman's Corner; Joseph Chipman, who is in the Northwest; Samuel Chipman, of Stearn Mill Village, and Mary, wife of Charles J. Pines, of Chipman's Corner.

The deceased was highly respected throughout the county and Province. He was a member of the Masonic order, and was considered the oldest Mason in America. The funeral took place yesterday afternoon, with Masonic honors, and was very largely attended.

Perhaps there may be some among the readers of the ACADIAN who have never heard of the "Acadia Club." This is a flourishing organization, which meets once a month, during the college year, in the library of Acadia College. It is now in its fourth year, and has a membership of about thirty, among which are some of the ablest and brightest minds in the county. For the first two years Dr. Sawyer was president, since then the chair has been occupied by Prof. Caldwell. Prof. Wortman is Secretary. At the last meeting, on Monday evening, the Jews were discussed, and an excellent paper was read by Rev. W. Dawson, of Canard. The paper showed a close study, and familiarity of the subject. Considerable interesting discussion ensued, after which the meeting was brought to an end.

Dr. Borden has admitted bribery by agents and has resigned his seat in the Commons. The election trial was to have taken place on Monday next, but we presume this action will make a trial unnecessary. Thus we are to have another election in this county. It is not reported when it will be likely held, but probably not until the new lists are completed.

King's County Agricultural Society.

DIRECTORS' REPORT FOR 1891.

Mr. President and Gentlemen:—

Your directors in presenting the 102d annual report are pleased to congratulate the Society on its increased membership, its improved finances and the superior advantages now enjoyed by the members in the use of thronged animals. The Society controls three thoroughbred Shorthorn bulls, and owns a fourth; controls a thoroughbred Jersey bull, a thoroughbred white Yorkshire boar, and owns a thoroughbred imported Shropshire ram, for which \$50 was paid at the government auction sale in Halifax at the close of the exhibition. Thirty dollars paid to Dr. Fuller, Grand Pre, secured the services of the beautiful Shorthorn bull, "Earl of Warwick," for another year. This bull has proved to be a very valuable animal; is a sure sire of very

fine calves; and is remarkably quiet and kind. He was awarded fourth prize at the exhibition, in competition with older and fatter animals. A sum of \$30 was voted for each of the districts—Wolfville and Long Island—and Messrs Jas. Elderton and Robert Palmer have purchased a Shorthorn for the use of members in those sections. Mr. Charles Reid is paid \$30 for keeping the Shorthorn bull, "Aron," for another year, for members in Avoport; and Charles J. Patterson, Horton Landing, \$25 for the use of his thoroughbred Jersey bull. Dr. Fuller also receives \$20 for the use of his boar for a year, and keeps the ram for his services. The fee for Shorthorns for members is 50 cents; Jersey, \$1.00; boar 40 cents; cash; ram, 20 cents for each ewe. Members have the privilege of taking three ewes, and they are to be kept a fortnight. Your directors commend the wisdom of the Society in providing only thoroughbred animals. We trust this old, historic society will always keep its members to aim at the highest and best in the breeding of stock, and the practice of agriculture. We would recommend that the ram be kept a number of years, and his location changed yearly. We would also recommend the purchase of two or three pigs, and their exchange year by year. We are inclined to think that thirty dollars should secure the use of a bull for any section for two years at least; and we would advise the society to purchase animals in the future and sell them at auction on conditions.

The anniversary dinner, held at the American House, Wolfville, Dec. 10th 1890, was a success in every respect. The tenant farmers' delegates, Messrs Hutchinson, Murphy and Major Stevenson were present and made interesting addresses. They were accompanied by Attorney General Longley and Prof. Geo. Lawson, who, together with Barclay Webster, M. P., and several members of the Society, addressed those present. These dinners are a pleasure and profit to the Society, and we hope to make an anniversary dinner one of the prominent institutions of the Society.

The season of 1891 has on the whole been favorable for farming operations. The spring was fairly early, and ploughing, seeding and planting were completed in good time; and the growth of vegetation was all that could be desired. In the early part of the season it was rather cold and dry, and some were fearful of failure in the hay crop, but timely showers and warm weather were sent in good time by a kind Providence, and that important crop in this district has proved a full average in quantity and quality, and the fine weather in the first of the haying season enabled the farmers to secure the bulk of the crop in most excellent condition. The grain crop for the district for '91 was never excelled in quantity or quality. Oats were a splendid crop, yielding 40 and 50 bushels per acre, and weighing over the standard. Wheat and rye were a little behind. Oat, barley and peas were sown together by some, and the crop was very large; and the ground feed made from it will be of the finest quality—a ration suited to either horse or cow. Last season's failure of the grain crop necessitated the buying of large quantities of feed. Tons of it were sold and fed in our district, but this season the cash for that item will be saved and it will be just that much in our pockets. Barne and granaries are well filled with fine fodder. There will be a large surplus for which there will be a demand at good prices, and this will compensate the farmer to a large extent for the failure of the potato crop, for I am sorry to say we must write down the potato failure in our district this season. The weather was favorable for planting and the plants grew finely. There were some cold rains, which seemed to check the hatching of the first eggs of the beetle and our farmers must have the credit of using the plaster and paris green mixture most faithfully this season, so that we can report absolutely no loss from the pest. The crop was a fine yield—above the average—but from a half to three quarters of it rotted. In some cases quite large patches were not worth digging, and some farmers who planted a small area will not have enough for home use. Early planted and early dug potatoes were sound, and the real varieties were also sound. "Beauty of Hebron," planted early, were sound, and "Garnet Chili" and "Dakota Red" were a fine crop and also sound, while the white varieties, "Burbank," "Albert," "Proflig," "Armenian Giants," etc., were very rotten. There is a lesson in this which we will do well to learn. Plant next season "Beauty of Hebron" early, and dig and market early; and for a field crop later plant the red varieties. Potato bugs have ceased to be a terror. One application of the poison at the right time in many cases is sufficient. The right time is when the eggs have all hatched and the grubs are partly grown, but before they have grown large and numerous enough to strip the leaves off. In some cases a second application is necessary. To be effective three barrels of plaster per acre and three pounds of paris green to the barrel are necessary. It should be thoroughly mixed and stand a few days before being used, and every plant should be well covered when the dew is on and as long as possible. This method proves sure death to the bug, farmers no longer fear it. The rot is a more difficult matter to deal with; but we hope the course previously advised will conquer that also.

Carrots, parsnips, beets, onions, mangels, were a good crop; but turnips are small, owing to the wet weather in September. The yield of all these roots in this district with careful cultivation is enormous and profitable. Cabbages and cauliflower also grow well and are a most reliable and profitable crop here. Cucumbers, for pickles, are also a paying crop. This season the cut-worm destroyed the first plants, but the second planting did well and a few of our farmers turned a nice penny from a patch of cucumbers. Small fruits were a good crop. The season was most favorable. In our district more attention is given to raspberries, currants, and gooseberries than to strawberries. Plums and pears were a fine crop, but apples were below the average. In quality, however, they were superior to last year. They were a good size, well colored and more free from the scab (Tasidadium dentricum) than last year. A remedy for this has been found by spraying the tree with a solution of ammoniacal copper carbonate, beginning in May before the leaves come, again after the blossoms fall and at intervals of two or three weeks until the end of July. In varieties, gravensteins were up to the average—very fine in color and color—leading the others in this respect. Ribstones came next, and golden russets followed. Kings were a light crop and inclined to spot. Bishop pippins were an improvement on the last few years. The crop in quantity will be 25 per cent below the average. About forty barrels of gravensteins were shipped very early, but were too green and arrived in poor condition and sold low. The first full cargo cleared Sept. 19th, in the S. S. Ottawa—gravensteins with a few ribstones. This cargo averaged \$2.85, net, for gravensteins, and the ribstones brought 24c. to 26c. C. Y. Johnson, of Wolfville, made the highest sales—\$32 for thirty-five barrels gravensteins. The Kong Pros cleared next from Kingsport, with about 8,000 in the Province, with many more, and leaving 1400 behind. Two hundred of the gravensteins were shipped to Boston, prices quoted there being \$3.75 to \$4.25, which would net \$2.00 in spite of the McKinley tariff. The Damara sailed lately with about 7,000 more, and the bulk of the harder varieties are still on hand. The prices realized have been fair. Speculators last year bought the bulk of the crop, but this year none but local buyers put in an appearance. The freight, including the Damara's cargo, was 90 cents, but freights have been advanced to a dollar, all freights having advanced, grain 60 per cent. Immense quantities have gone on the London market, some 700,000 having arrived to date as against 74,000 at same date in '90; the bulk has gone from New York and Montreal. Next spring our farmers will plant more plums and pears and fewer apples. The area on most farms has been pretty well filled up with apples in the past three or four years. There can be no mistake in planting orchards, provided more are not planted than can be well cared for. There is danger in that direction. It will pay to raise a barrel of apples for one dollar, and the poorer apples and windfalls can be sold for exportation. Near London, Ont., apple barrels cost 27 cents, and speculators bought for 75 cents and \$1.00 per barrel. We can do better than that in Nova Scotia. Posts were not very troublesome this season. Canker-worms did no harm, and caterpillars, though hard to fight in some orchards, were conquered, and I saw no orchards stripped, except a few small groups of trees in Wolfville. We neglected to say our farmers are growing more careful about destroying pests. Poultry, lamb and beef, a fair price. On the other hand the price of family groceries, etc., was never lower. Thanksgiving Day.

Three thousand years ago Moses instructed the Israelites to keep a feast after they got established in the Holy Land.

The Greeks had a nine days' feast of similar character, and the Romans also had one in honor of Ceres, goddess of grain.

The Saxons had a harvest home, and after them the English. Our Thanksgiving comes from the Puritans, and it will be noted that, like all its predecessors, the observance bore special reference to the harvest, and if the harvest failed, there was no Thanksgiving.

We have outgrown that narrow view of the day, and it is safe to say that Thanksgiving day will never be omitted again, no matter what calamity falls on the country.

We have discovered that there is always something to be thankful for. Sorrows and disappointments come to all, but there is no life so dark that it is without one ray of sunshine.

Did you ever think what it is not to have a single friend in the world? There may be such persons somewhere, and can you not be thankful that you have friends and relatives?

Life is mostly struggle and strife, and that is why we should look on the bright side as often as possible.

Thanksgiving day is the period when we should put out of sight everything that is not bright and joyful. It is the day when, if any of your friends or relations are estranged from you, it is your duty to hunt them up and effect a reconciliation.

True philosophy means to make the best of everything. Give thanks for what you have and forget what you have not. For one day only look on the bright side of life and give thanks with all your heart and soul, and you will have your reward in a feeling of happiness that will remain with you for many a day.

Her Last Journey.

Swiftly the train sped through the darkness. Rushing over meadow, over swamp and stream, thro' the hillsides through the tunnel, passing growing crops in the fields and cabin clearing in the dense woodlands.

In the sleeper at a father. To his breast there clung a little child, a lass with golden hair and fair, blue eyes, the image of its mother.

There, my darling, you are here with Papa, and he smiled amid the tears that trickled down his cheeks.

"Mamma gone," piped the childish voice, "poor Mamma no more," and then, with studied, serious face, the little one peered through the window, out into the darkness.

Then the tears fell faster down the father's cheek. His eyes were dim now, his voice was choked. He could not talk. He only gazed in mute agony through his blinding tears at the childish face turned up to his.

And the angels laid the golden-haired child to sleep again.

"For Mamma," the murmured, stroking the motionless cheek of the father. "Baby throw Mamma a kiss," and with tiny hands, so soft, so pink, she wafted upward a little kiss that sped faster than the train upon the wings of night.

A kiss, divinely sweet, fraught with holy passion, a kiss the angels wafted onward, upward through the portals of the undiscovered country, to the realms of heaven.

"O, God; O, Father," moaned the man, and with the golden head nestled on his bosom, his eyes closed, his head sank backward, and the train sped onward through the night and darkness, over stream and meadow, through hillsides and the tunnel.

And the mother? In the city in the morning, amid the noise and bustle at the station, men with hardened faces lifted trunks and boxes from the baggage car.

Parent--I came to ask about the situation you advertise for my son. He has just graduated from college, and--Shop-keeper--Oh, that doesn't signify. What he knew before he went there'll probably come back in time.

Don'ts for Subscribers.

Don't forget to send the amount due when you order your paper discontinued.

Don't forget to send your old as well as your new address when you change your paper.

Don't keep the publisher waiting a year or even longer for your subscription but pay promptly.

Don't forget that it is just as great a sin to defraud a paper out of its just dues as it is to cheat the butcher of the baker.

Don't let it escape your memory that the new postal laws make it a larceny to take a paper and refuse to pay for it.

Don't think because you are good for the amount, that we ought not to be in a hurry to get it; but remember so long as it is in your pocket it does us no good.

Don't forget, dear readers, that those who defraud a paper out of what is due will have to settle the bill in the next world, in a place where no paper can be published on account of the calorific state of the atmosphere.

Don't get excited and stop your paper if you see something in it that does not agree with your idea, but remember that there is a chance, and a large one too, of your being wrong, and the article may call forth words of praise from nine-tenths of the subscribers.

Of Special Interest.

The object of this article is to call attention to Seavey's East India Liniment. It is the best on earth. Of course they all say that, but we mean, we mean by our claim. You buy a bottle from your druggist or dealer for 25 cents (not a very large investment) and use it for any ailment for which it is recommended, some of which are cramps, sprains, rheumatism, cholera, diarrhoea, pain in stomach or bowels, neuralgia, &c. It does not work to your entire satisfaction go back and get your money. This offer has been a standing wherever this wonderful remedy has been introduced, and now our offer has yet been returned, but on the contrary hundreds of testimonials prove that East India Liniment will do all that we claim for it, and more. We could fill this paper with them but have only room for a very few.

A. G. Grant, Conductor I. C. R., Stelleron, says: I am pleased to state that I have used Seavey's East India Liniment myself and in my family with the most satisfactory results.
