MONKLAND HOTEL.

TEA GARDENS AND PLEASURE GROUND.

MR. COMPAIN has the bonor to announce to the Public, that he has LEASTD, for a term of years, MONKLAND FARM, containing about 200 acres of Land, beautifully wooded, the late Residence of the Governor General, which he has fitted up as a PUBLIC HOTEL and RESTAURANT.

Gentleman desirous of piving Disput Purios

may be accommodated by giving notice the day before.

Lee Creama, and other Refreshments, of various kinds, always ready.

The Healthy Situation of MONKLAND, (which contains apwards of SIXTY ROOMS, on the rising ground to the West end of the Montreal Mountain, and commanding a Splendid View of the River St. Lewrence, the Lactime Rapids, the Ottawa River, and the adjacent country,) is too well known to require eny remark; and the Extensive Grounds situached, afford a large and perfectly safe PLEASURE GROUND, in which children may roam at pleasure. All this will, he feels confident, justify the support of those whose desire it is to retire in the country during the heat of Summer, and be still within a few minutes walk of the City.

It is his intention to establish a LINE of COMMISUSES from his house in Place D'Armee. OMNHBUSES from his house in Place to Monkland. For Terms, apply of the Restaura

THE CONNECTICUT MUTUAL LIFE INSURANCE COMPANY is unablished upon the purely sastual system, with a Tariff of Premiums as low as is particulate with the permanence and ascurity of an Institution of this character. Every person taking out a Policy is a member, and entitled to vote at the Annual Meetings. The Dividends are declared emissally on the flat January. All persons insuring previous to that day, participate in the profits of that year, which are passed to his credit upon the books of the Company; to be paid during the life of the insured, in the order of votation, from the excess of a capital of profits having been obtained, the Directon will be authorized to pay the first year's Dividends at the close of the present facal year; afterwards, each years Dividends, in regular order, will be redeemed, as the funds of the Institutions exceed the above two hundred thousand dollars. It is supposed that each person will be required to pay three sunnual Premiums before his Dividends will be redeemed. This isesture in the conditions of this Company, over those who do not redeem or pay the Dividends until the death of the insured, is peculiarly favorable to the member, as the redeemption of Dividends will assist in the payment of the Annual Premiums, after a few of the first years have elapsed, or take up notes given for Premiums.

The assured, on surrender of his Policy, at any time after three years, will receive its equitable value. All Premiums amounting to Afty dollars, or more, on Policies running five years or longer, may be paid one half by Mote; to remain a debt on the Policy, until cancelled by Dividends; or the Folicy becomes a claim.

This Company was organized in December, 1846, and its prosperity has hitherto been unparalicied. It is now in the third fiscal year of its existence; and numbers (October, 1849) nearly a cen thousand members; with a constantly increasing accession. Its losses have been small, compared with the numbers which might have een exp

Marriage requires the fuffilment of several conditions, in order that it may be really the cause of mutual happiness. Could the veit, which covers the origin of domestic veretchedness, be raised, and its true source in every instance disclosed, in how many could it be traced to physical disqualifications and their attendant disappointments. Excesses are always injurious; the gift which, when used in moderation, he frought with advantage, becomes, when abused, the prolific source of mischief, and of greater or less injury to the constitution and vital powers. The particular excesses, on the nature and consequence of which this Treatise professes to dilate.

The particular excesses, on the nature and consequences of which this Treatise professes to dilate, are productive of greater misery to the human frame than any other to which it is subject.

This Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease. Nor are those the sole contents of the work: the means of escape, as well as the nature of the danger, are pointed out in clear and intelligible imaguage. It deservedly requires the closest stitution and study, for what subject can be of more importance than the preservation of health, and of the physical. cashbilities of which every man should be hgible language. It deservedly requires the closest situation and study, for what subject can be of more importance than the preservation of health, and of the physical campbilities of which every man should be possessed. It unfortunately happens, that, the unhappy victim of excessive indulgence and vicious habits, whether acquired in early life, or from the foilies of advanced age, while suffering from their invariable consequences, answisely entertaine a fear of explying to a qualified physician forvalled. Shame and the dread so frequently, but erroneously, unertained, that these complesiane are beyond the reach of art, slike restrict him, and prevent his seeking for gaint ance where alone it can be procured. In exting thus, he forgest that accurate discrimination in as certaining the causes of discanse, sympathy with the sufficer, and above all, eaerest, invarialy characterize the intelligent and practical physician, and to the medical man, who can show by his possession of the requisite legal qualification, that he is entitled to suffeen and respect in his professional pursuits, the utmost confidence should be extended. DR. Laberties for many years, is a guarantee for his professional experience, which has preference almost soft; to the treatment of these duestees.

REDUCED RATES OF PREMIUM-HALL CREDIT RATES OF PREMIUM.

THE greet and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to stable parties to avant themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance company transacting business in Canada. The Directors have also resolved to extend to British North America the advantages afforded by the HALP CREDIT RATES of PREMIUM which have been so highly approved and are so by the HALF CREDIT RATES of Pagestics which have been so highly approved and are so generally adopted by Policy Helders in the United Kingdom. The most liberal conditions are likely wise offered to 'be Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

"Why," replied the master, holding it towards
the lantern, although it flapped and struggled as
he did so, "by dead reckoning since noon, ser,
about fity miles east by south of Cape Sparty rento,
which'll set us somewhere nigh hans eighty annohirty miles south-east and by south of Cape Carbonnyraw, sir."

"That won't do with this stiff gale," said the
captain; "and with what we may have beforelong! We must certainly weather the cape a
good deal clearer than that, Junes. Mr. Abbot,"
continued he, addressing the bluff, like first lieutenant, who had just appeared on teck, "you will

MONTREAL, April 12, 1860.

Sin,—My father and myself have prescribed the Plantagenet Water in our practice for a considerable period, and the invariably expressed satisfaction of the Patients has amply corroborated the favorable opinion already entertained of its virtues. By a rational and jedicous prescription, very obstimate, and, in many instances, apparantly very opposite cases, were amenable to its beneficial effects. These were most manifest in derangements of the elementary functions, dyapepsia, &c., as well as in rhe amatic, s-rofulous, and skut diseases.

TO PATHERS OF PAMILIES.

Bile and foul state of the stomach occasions more
sickness and deaths in families than all other causes
of disease put tingether. Sometimes whole fam hee
are taken down by malignant fevers. Fever and Ague,
and other dangerous disorders, as I proveding from a
bilious and foul state of the stomach. No parent can
be so ignorant as no, to know the great d-ager existing from hillounces—no parent would be guilty of
causing the DEATH OF THEIR OWN CHILDREN!!!

Cassing the DEATH OF THEIR OWN CHILDREN!!!
Yet thousands of children and adults die every year through argiect of parents to attend to the party symptome of bile and foul stouach.
Superfinity of bile may always be known by sume unfavorable symptom which it produces, such as sick stoacch, headsche, less of appetits, bitter us-to in the mouth, yether tint of the skin, languidness, costiveness, or other symptoms of a similar nature. Almost every person are at times bilious, the neglect of which is sure to bring on some dangerous disorder, frequestly terminating in death. A single 25 cent box of Dr. Haisey's Guis-coated Furest Pills, are sufficient to keep a whole family from bilious attacks and sichness from air months to a year. A single dose, from I to 3 of these mild and excellent Pills for a child; from 3 to 4 for an adult, and from 5 to 6 for a grown person, carry off all bilious and morbid matter, and restore the stouach and howels, curing and preventing all manner of bilious attacks, and many other disourders.

ing all manner of bilious attacks, and many other disorders.

S A L T S A N D C A S T O R O I L.

No reliance can be placed on Nalts or Castor Oil. These, as well as all e-mono purgatives, pass oil without touching the bile, leaving the howels coative, and the stomach in as bad condition as before. Dr. Halsey's Forest Fills act on the gaulducts, and carry all morbid bili-us matter from the stomach and bowels, leaving the system strong and booyant, mind clear, producing permanent good health.

Dr. Halsey's Forest Fills are unlike all others They set directly on these vital organs of the Stomach, Liver, Kidneys, die-, which secrets the fluids of the body, and separate the imperitue from the blood. While they purge all bil ous and morbid matter from the stomach and bowels, they cleanse and renew the blood, thereby destroy the seeds of disease. The Forest Fills do not weaken, but give strength and animation to both body and mind. They neither cause griping or any inconvenience whatever, and the patient is better able to attend to business while under their influence than before taking them. They are mild in operation, yet powerful in restoring health.

The great amount of good these Fills have done

under their influence than before taking them. They are mild in operation, yet powerful in restoring health.

The great amount of good these Pills have done for the sick and afflicted, have induced thousands to commend them to their friends and the public. Individuals of worth and integrity in almost every part of the country, have testified to the world in favor of their great effects in curing disease.

Never has any remedy had more relibbe and grouper proofs of the good qualities than Dr. Halsey's Forest Pills.

Testimonial after testimonial, showing their great powers of curing mainout every class of disease, have been tendered to us by individuals of undoubted character and respectability. The tollowing testimony is from a respectability. The tollowing famous more Pills, for soveral years back, I have had much sick.ass in my family of billound disorders, and Agus and Fesses. In the Fall of 1848, two of my sone were taken at the same time with billous fever. In former seasons, when schness occurred in my family, I had always employed a physician; but at this time having two b-zes of youtr Furest Fills in the house, I concluded to try them I gave to each of them as Fills, and tour hours after I gave them three Fills more. They soon oper ted, bringing away much blick and green matter. On the following day, the lever had left them, and they both recovered without any more medicine. Since this time, I have a laways kept your Fills at hand, and in all cases of sickness we have need them with the most happy results.

An article which, in every respect, supercodes Sugarboth on account of its healing virtues, and its durability. The discouvery of this improvement is the result of a succession of experiments during three years. For the invention of which, Dr. Halsey has been awarded the only patent over granted on Fills by the Government of the United States of America. The Guny-Conted Forest Pills present a beautiful transparent, glossy appearance. The well known wholesone quittites of pare Gom Arabic with which they are contect, renders them still better than Dr. Halsey's Sugar-Conted Pills. The Guny-Conted Pills are never liable to injury from dampsess, but remain the same, ratening all their virtues to an indefinite pariod of time, and are perfectly free from the diagreeable and unusating taste of Medicine. GREAT CUME OF LIVER COMPLAINT OF TEN YEARS STANDING! NEW YORE, Jan. 9, 1848. TEN YEARS STANDING!

Dr. Halsey Dear Sin:—Having taken your forcest Wine and Piles to remove a disease of the Liver, from which I have suffered severely for yopwards of ten years; and, having adhered closely to the directions which accompany the Medicines, I have recovered my health, notwithstanding all who knew me thought my case incurable. Previous to taking the Wine and Piles, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my firends spoke despairingly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundreds who are dissuaded from taking your excellent Medicines, in consequence of the deception and inefficiency of many advertised remedies patforth by unprincipled men, in flaming advertisements.
