## MAYOR GAYNOR WILL SOON BE CONVALESCENT CHOKED VICTIM TO DEATH, BODY IN BARREL

### Improvement Was kept up well This Morning—Police Now Have Theory that Gallager Had an Accomplice in His Attempt on Mayor's Life.

New York, Aug. 15—Mayor Gallagher, the assailant, may have had an accomplice. This Gallagher denies, but a man with a police record is under suspicion. Mayor Gaynor will be taken to the Adirondacks just as soon as his condition permits but whether or not he will undergo an operation to remove the bullet before his trip to the mountains has not been fully determined.

"One more day and we will be able to call Mayor Gaynor a convalescent," was the statement made at St. Mary's Hospital to-day. His attendants were frankly cheerful and more optimistic than on any previous occasion.

## AN INTERESTING AND INTELLIGENT VISITOR

### John Sark, Jr. of Lennox Island Visiting the Restigouche and Miramichi.

The ADVOCATE had a pleasant call last week from Mr. John Sark, Jr., of Lennox Island, the Indian reserve of Prince Edward Island, and is a son of the ex-chief of that place. Mr. Sark is a fine specimen of the once great race who inhabited our Maritime Provinces. His splendid physique, and athletic appearance brings him up to the ideal pictured by the early explorers and pioneers. He is a graduate of St. Dunstan's College, completing his Arts Course two years ago. His education is above the average even for a college graduate, he speaks English, Latin, French and Micmac with equal fluency and has a good grounding in some other languages. He had been paying a visit to the

Mission across from Campbellton at the time of the big fire and is much interested in the relief of the town and proposes taking an active part in raising a relief contribution when he returns home, and stopped over at Miramichi to visit M. O'Brien, son of Sheriff O'Brien, with whom he attended college and is graduate of the same year. The young man is an excellent conversationalist and takes a lively interest in all matters of public as well as of local interest. He reports hay and grain, and in fact all crops excellent on the island; and takes a special pride in the fact that POCOWICH (Rum) and autos are prohibited in his native province. Mr. Sark has returned to his home.

## HOWE'S GREAT LONDON SHOWS.

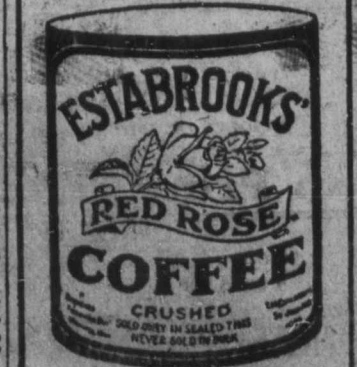

### The Show Will Be at Chatham on Thursday, August 18th.

The Halifax Herald says:—Howe's Great London Shows, or in common parlance Howe's circus, gave two performances in Halifax yesterday to audiences that filled the tent. The memory of this writer does not recall a previous visit of Howe's circus to this city, for it is an old aggregation, but it was never before before circus-goers—and who is not a circus-goer—will be glad to have it with us another season. The show is good, clean, wholesome and lively. It is not the "biggest show on earth, does not pretend to be, but it all that it advertises itself, and that is saying much. There are several features that single the show for pre-eminence. The Eddys, in their different acts, for they appear more than once, are splendid performers, graceful and clever. The Japanese troupe are really very fine, and the equestrian work of William Wicket brought hearty applause, as also did the other acts mentioned. The gay apparel, the tinsel and the general circus atmosphere, that so entrances the young, were here, from the opening march to the closing act, which, strange to say, was not the true honest chariot race. A particularly strong feature of this circus is the work of the clowns, of whom there are half a dozen clever fun-makers. The jugglers, well kept, the animals, and the training of their kind, and the work of trained elephants, are all things to be said about. One thing more remains to be said about the show, and that is the officials, who are obliging and they have nothing to minister

to the convenience and comfort of their patrons. Good order is maintained on the grounds, and the whole show is praiseworthy. The circus appears Thursday in Church. Chief of Police Rodland informed The Herald last evening that the circus was one of the most orderly he had ever seen. There was not an objectionable feature in the entire performance. Not a complaint was heard regarding short change, and the officials were most courteous. Yesterday morning a lady lost her purse, but it was returned to her last night, a small boy having found it on the grounds.

## AGED NORTH SHORE FARMER DISAPPEARS

### Alexander Loban, of St. Margaret's, Wandered Away Friday Night Last.

Chatham, Aug. 14—Alexander Loban, an aged farmer living at the village of St. Margaret's, seventeen miles from here on the Richibucto road, disappeared from his home last Friday evening and has not been seen since. It is feared he became deranged and wandered off into the woods. Practically all the inhabitants of the village were scouring the woods in all directions today. Loban and an unmarried daughter, who kept house for him, lived alone and it was during her temporary absence he disappeared. He had not been acting like himself lately and fears for his safety are entertained.

## HOWE'S GREAT LONDON SHOWS.

### Traits of Circus People Little Known to the General Public.

"Circus women seldom marry other than circus men. They are most devoted wives and mothers, who take life seriously and soberly. Many of them are devout church women and real Christians. "There home life in winter is pleasant and agreeable. Some of them, but not many, work in the theatres in the winter time. It is a most curious fact that very few of them care to live in the large cities, but make their homes on farms or in small towns. There they pass the time away in the usual social functions and household affairs, many of them preparing their wardrobe for the coming season on the road. Few of them ever become dependent upon their families or the public authorities. They, of all women in the world, most truly appreciate and enjoy the comforts and blessings of a home after being compelled to be away for six months in strange towns and among strangers every day, and in the narrow confines of a sleeping berth on a circus car every night. "It is a hard life, but by no means an unhappy one. The rigorous labor and good food and abundant sleep bring health and attendant good spirits and pleasant disposition. Charity finds its truest sense abides among them. The slightest call for aid from them always elicits a ready and hearty response. The women with a show like this are surrounded by their male relatives and men, each one of whom considers himself the protector of their welfare and their honor. Circus women are a credit to their calling and an honor to their sex. "Don't forget the date of Howe's Great London Shows exhibiting at Chatham on August 18th. Excursions on all lines.

## LACK OF PURE BLOOD

### The Cause of Most Illness—The Cure, Enrich the Blood Supply.

Any illness caused by lack of blood will be benefited and cured by a course of treatment with Dr. Williams' Pink Pills. These Pills increase the red matter in the blood and enable it to carry to every organ and tissue an increased supply of oxygen, the great supporter of all organic life. This has been proved by cures in thousands of cases not only in Canada but in all parts of the world. More people today owe health and happiness to Dr. Williams' Pink Pills than to any other medicine. One of these is Mr. James Starr, of Galahad, Alta., who says:—"A few years ago I became ill and very weak. Some days I would have a hot dry fever and on others would be bathed in cold sweat. I grew weaker and weaker until I could do no kind of work and was finally confined to my bed. I tried several doctors, who cost me considerable money, but did me no good, as I was still getting weaker and weaker. I asked the last doctor who attended me to tell me frankly if he could cure me and he told me my case was so complicated that he did not think he could help me. I told him I had heard a great deal about Dr. Williams' Pink Pills and asked him if he thought they would help me. His reply was: "Well, they won't do you any harm and they may help you." I sent for a half dozen boxes at once and began taking them. After taking three boxes there was no doubt they were helping me, and I continued using them for some time longer. With the result that I am now as strong and hearty and can do as good a day's work as any man in my neighborhood. These Pills are sold by all medicine dealers or may be had by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## TWENTY-FIVE CHINESE LIVE MONTH IN ROOM 20FT. SQUARE

### The Atmosphere of Which was so Bad That it Extinguished the Flame of a Lantern.

Seattle, Aug. 13—Twenty-five Chinese stowaways who had eluded the inspectors at Vancouver B. C., were captured aboard the British steamship Kumeric, recently arrived from Hong Kong by immigration authorities yesterday. The Chinese had walled off room twenty feet square. They had been confined to this den since the steamer left China early in July and planned to slip ashore when

the steamship reached Portland where she is going to load lumber. In their little den they cooked their food, ate and slept. A lantern used in the search was thrust into the room but the poisonous air instantly extinguished the flames. The men were half clad and some were ill from their long confinement and scant provender of tea rice and water.

Halifax, N. S., Aug. 14—Burned to death while placing a light in the hall to guide her daughter up the steps, on her return from work was the sad fate of Mrs. MaryAnn Doyle, about nine o'clock last night. The aged woman and her daughter returned from church and the latter started

down town to meet her sister, Mrs. Doyle was tired and said she would place a lamp in the hall and retire. The daughter had only left the house a few minutes when a lad who was playing on the street a few feet away heard someone calling for help, and summoning assistance, went to the Doyle residence and found the aged lady a mass of flames on the floor. While in the act of placing the lamp on a chair it fell to the floor and exploded, the flames igniting her clothing. She was taken to the Infirmary but died in less than an hour. EVERYONE SEEMS TO BE TAKING "FRUIT-A-TIVES" Demand Always Increasing Because "Fruit-a-tives" Cures

The real value of any article may be judged by the demand for it. Steadily increasing sales are the surest indication of intrinsic merit. This applies to a medicine as well as to a breakfast food. First introduced to the public in Ottawa, the fame of "Fruit-a-tives" quickly spread until to-day these fruit juice tablets are known and used in every section of the Dominion. THE RELIEF WORK AT CAMPBELLTON

How Money Received is Disposed of by Those in Charge.

MR. MCKENZIE'S LETTER.

In answer to the numerous inquiries that have been made from time to time in the press as to the use to which the Campbellton relief committee was making of the money which they were receiving from time to time George G. McKenzie, chairman of the committee, has sent a letter to the Graphic in which he details their plans for the coming winter and the manner in which they intend to provide relief. At the time the letter was written the committee had received the sum of \$57,178.85 and had expended \$2,158.85. Mr. McKenzie also enclosed a list of the money and supplies received on Monday. Following is the letter: Campbellton, N. B., Aug. 8, '10. To the Editor of the Graphic: Sir,—I notice from time to time inquiries as to what our committee is doing with the cash that has been received. This is a very proper question.

The funds received have been deposited in our three local banks in about equal proportions in the name of the financial committee as a relief fund. The amount received at this writing is \$57,178.85 and \$2,158.85 has been expended for food, supplies, building of relief station, household utensils, bedding and the administration of the general relief.

All our committee men numbering ten, excepting the chairman of the general relief committee, are giving their services free. Of course we have to pay all our assistants, but in many cases their work is a form of relief to the families they represent.

The large proportion of our relief fund is intended to house the poor through the coming winter. To some of these we expect to give moderate aid towards rebuilding their homes, but only those who have been rendered destitute through the late fire. Another class are utterly penniless but must be housed through the winter and we are striving to provide them with shelter.

We are now taking applications from those who think they ought to receive aid in rebuilding or who must be housed. In a few days we hope to have the list completed when our committee will have to decide who will have to be helped, and to what extent. This step has been delayed so that we may be able to judge what amount we will have at our disposal to do this work. The taking of these applications began on Saturday and now (Monday at noon) has reached 100. We fear that not more than one-fourth of the applications are yet on file. This our most serious problem. We will also have to aid many families towards housekeeping, but to a very moderate extent, such as purchasing a stove or necessary bedding. Then again, we will have to provide food to quite a number—but this number is gradually diminishing and will diminish for quite a while.

There is plenty of work now for our working population and this will be so until the weather becomes too cold for building and other work of this class. When that time arrives we expect we will have to provide a great many families with food and fuel or assist them until the work again becomes active.

This is a bare outline of our plans and we know we have to face a situation. One town has been almost annihilated and we hope to retain the greater part of our population but for this we must assist in the work we have outlined. To do this we must have the general assistance from the people of this town and elsewhere if it can be obtained. Yours very truly, G. G. MCKENZIE, Chairman of the Committee.

DOUBLE TRAGEDY ON THE GRAND BANKS.

Captain and One of the Crew of Portuguese Fishing Vessel Became Demented Over Poor Prospects for Fish, and Both Plunged into Sea.

Louisburg, C. B. Aug. 9.—Worried over the scarcity of bait and fish, the captain of a Portuguese schooner fishing off the Grand Banks jumped overboard and drowned himself several days ago, to be followed by one of his crew three days later. Both along the shore and on the Banks there is a great scarcity of bait and fish, something unusual for this time of the year. An American fishing schooner that arrived here today brings the news of the suicide of the Portuguese captain and one of his crew.

The crew of the American schooner state that they have been fishing near the Portuguese vessel, and one day they noticed one of the crew leap overboard. Upon making enquiries it was learned that three days previously the captain, who had been greatly

worried over the scarcity of bait and fish, had committed suicide. The dories had been away all day and when they returned reporting no bait, the captain became suddenly pemented and jumped overboard, exclaiming, "No squid, no fish, here goes!" The man they had seen go overboard was the second to commit suicide, he saying the same as the captain. The crew were greatly agitated over the matter, and unless conditions improve it was feared that others of the crew might end their lives in the same manner.

The scarcity of bait at this season of the year is altogether unprecedented, and if it continues, few of the many vessels engaged in hand-line fishing will be able to declare dividends for their owners for the season's work.

Big Lemy afterwards visited a museum and took great interest in the Indians of the 15th century in their ancient war paint.

A GOOD SUGGESTION

The suggestion has been made to take the present school grounds for a public park and erecting two schools one nearer each end of the town, so that children from the various ends would not have so far to travel to school. The present grounds could be converted into a park with little expense. Campbellton Graphic.

Your Grocer Knows EVERY good grocer is willing and anxious to please his customers. Sometimes if he happens to be out of the goods you ask for, he may recommend a different brand rather than keep you waiting. But when it comes to flour, he knows that Ogilvie's

Royal Household Flour

is one of the things for which there is no substitute. No other flour is "just as good." Ogilvie's "Royal Household" is in a class distinctly by itself. To offer a substitute for "Royal Household" would be like offering oleomargarine to a customer who wanted prime dairy butter. No good grocer would do it. When you tell him you want Ogilvie's Royal Household Flour, he will send that and nothing else.

#### DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO, Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

#### WILL OPEN NEW SCHOOL

The School Board at a meeting on Monday evening reached a decision to open a new class in the Adams school. Owing to insufficient accommodation for Grades III and IV the action was necessitated. The new room will relieve the situation.

#### ANDER-NORDIN

A very interesting event took place at the residence of the bride and groom Nordin. Northumberland county on August 10th, when Mr. Joseph Ander of Norrkaping, Sweden was united in marriage with Miss Agnes Nordin of Heranosand, Sweden. Rev. P. J. Stackhouse B. D. a friend of the bride and groom came from Amherst to perform the ceremony. After the ceremony a bountiful elaborate supper was served on the veranda. During the evening about forty of the Swedish workmen with their families were entertained with a supper. The grounds were brilliantly illuminated with electric lights chinese lanterns and fireworks were set off. The bride received many beautiful and costly presents. The entire furniture of the house which was chiefly of the mission kind was a present of the relatives of the bride and groom. Among those present from outside were Mr. Eric Ander of Norrkaping, Sweden, who came out specially for the marriage. A sister of the bride Mrs. Bromes was present as were also her two brothers Mr. Knute Nordin who is in charge of the woodworking factory at Campbellton and A. W. Nordin managing Director of the Swedish Canadian Lumber Co.

The happy couple will leave for a tour of Upper Canadian cities and will visit Niagara Falls and the Thousand Islands.

On their return they will reside at Nordin where Mr. Ander is employed as secretary treasurer of the Swedish Lumber Co.

A host of friends on both sides of the Atlantic extend congratulations and good wishes to Mr. and Mrs. Ander.

THE AIRSHIP MAY BE BLESSING FOR P. E. ISLAND.

Canada, a weekly journal printed in London and devoted largely to enlightening the British mind in regard to Dominion affairs, makes the following reference to our winter difficulties and how they are to be remedied by airships.

"Aviation is likely to prove a boon and a blessing to Prince Edward Island, between which and Canada the keeping open of winter communication costs much money yearly. Occasionally no mail is received on the island for almost a month's stretch, and the citizens of that territory become seriously irritated. A tunnel under the Strait of Northumberland was at one time projected at a sum in the neighborhood of twenty million dollars. That tunnel is now farther off than ever. A few flights further in aviation and the transference of letter mails in packages of two hundred pounds by means of aeroplanes over the thirty miles of ice-breakers of the straits in a few minutes will have become an accomplished fact."

There are several rather glaring inaccuracies in Canada's statement. There has been no occasion within a generation past in which no mails were received on the island for nearly a month, as stated, although the winter steamers have been prevented from crossing for as long as that. The mails, however, got across by the capes without any break exceeding a week or ten days. Then again, nobody has proposed a tunnel to cost twenty millions. A reliable offer to complete the work for half that sum has been before the Dominion Government for years. And the tunnel is, we believe, not farther off, but nearer than ever.

But the idea of trying what an airship can do at the capes is a good one, and we are glad to learn that the fame of the project has spread across the Atlantic. It was at the capes that one of the first submarine telegraph cables was

POLICE, AS USUAL, WERE NEARLY TOO SMART

Montreal, Aug. 12.—A practical joke evidently played by some medical students, might have caused the arrest and perhaps conviction, of an innocent man, had not a small piece of wire been found attaching the lower jaw to the upper jaw of the human skull, which was found by some men working in a dump at the foot of Metana street yesterday.

The skull was taken to the morgue and in the meantime the police had started investigations, and no doubt in a short time would have picked out a couple of likely looking culprits and a story no less interesting and with as many horrible details as that which has been thrilling the world for the last month might have developed from these bleached bones, had not Dr. McTaggart found this little piece of wire which made it quite evident that this was not a murder but a weird form of joke.

The interesting investigations being carried on by the police, who almost had their hand on the man, had to be interrupted.

JOE GANS, ONCE PREMIER IN HIS GLASS, IS DEAD

Consumption Carries Off Former Lightweight Champion at Age of 34

Baltimore, Aug. 10.—Joe Gans, former lightweight champion pugilist, died this morning.

Gans died of consumption which manifested itself about a year ago. Late last spring he went to Arizona with the hope of restoring his health but the disease had been too deeply seated and he declined rapidly. He was brought here last week to die. He was thirty-four years old.

Joe Gans true name was Gant, the name Gans having been fastened upon him early in his ring career by a mistake of a referee.

He began his ring career in 1894, but prior to that time he had made a name for himself as a fighter about a fish market in this city where he was employed. His first fight for money is said to have brought him only \$4. The largest purse for which he ever fought was \$33,000, he having agreed to give Nelson the remainder, win, lose or draw.

Gans won the title of lightweight champion from Frank Erne, in Fort Erie (Ont) in one round in 1902, and lost it to "Batling" Nelson in 1908 in the 17th round.

laid down and has proved of great utility. If the airships are to be of any real utility it is time that they were put to some steady work, which, after all, is the best test of value. The width of the straits is but seven miles, and in winter it is much less than that from edge to edge of the board ice, on which the start and the landing would be made.

Here then, is work needing to be done, where the conditions are favorable for airship trials and also for any development of which these machines are capable. For ourselves, we are not as sanguine as some are with regard to regular mail or passenger traffic by airship, but we would like to see the trial made and the better it shall succeed the better everybody concerned will be pleased.—Charlotte-town Guardian.

I. C. R. BUILDINGS SOON UNDER WAY

Ottawa, Aug. 9.—The work of reconstructing the round house and shops of the I. C. R. at Campbellton, which were destroyed in the recent disastrous conflagration in that town, will be commenced without delay. It is estimated that the buildings will cost at least a quarter of a million dollars, and the tenders will be called for at once.

**GREAT DIVORCE PLAY**

One of the best theatrical companies that has visited this town for some time was the great divorce play "The Final Settlement." The opera house was well filled on Friday last and every one went away well pleased. The company is well balanced and every member was good in their respective parts. Instead of the failures of the weak woman the weak man took his turn this time and the pathetic story portrayed is all too common in real life. **A HOME-MADE AUTOMOBILE**

Fredericton has not only an amateur aeroplane builder but yesterday a home-made automobile appeared on the streets. The new machine is the property and manufacture of a young man named Gough, who is employed as engineer at the Bijou moving picture theatre. The new auto is built on the same plans as the old tricycle only it has four wheels, and besides the driver will carry another passenger. It does not run noiselessly by any means, but it gets over the ground at a pretty rapid rate of speed.—Gleaner.

**MANY IMPROVEMENTS**

**GRACE CORBETT.**

Death has again entered the home of Mr. and Mrs. William Corbett, Jr., and claimed their only surviving daughter Grace, after an illness of nearly a month. For the last twelve days the little one has been hovering between life and death, and despite all that loving hands and tender nursing could do, she succumbed to the disease Thursday morning at 7 o'clock, at the age of three years and seven months. Bright, happy and cheerful, Grace carried sunshine wherever she went. She had always a smile and a pleasant word for her friends. Her death following so closely that of her little sister, is a sad blow to her bereaved father and mother and friends. They have the sympathy of their numerous friends in their double bereavement.

The funeral took place on Saturday afternoon, and was largely attended. Rev. Mr. McArthur conducted service at the house and grave.

**REV. FR. MAGUIRE**

That the loss sustained through the departure of Rev. T. Maguire from Newcastle will be a great one, was unmistakably demonstrated on Wednesday last when the members of the Children of Mary assembled at the convent for the purpose of giving expression to their gratification to the reverend gentleman for his indefatigable endeavors. Rev. Fr. Maguire, who will leave Newcastle on Tuesday to take the important pastorate at St. Margarets was suitably remembered. The presentation of an address and thirty dollars in gold marked the gift. All the members of the Sodality were in attendance. Miss Mary Craig read the address, the presentation being made by Mrs. Hugh J. Morris. The address was signed on behalf of the members by Miss Mary Craig, Pres., Mrs. H. J. Morris, Treas and Miss Mollie Hennessy, Sec. Rev. Fr. Maguire responded in a few brief but eloquent remarks. He spoke feelingly of his connection with St. Mary's and the Sodality and said that he would always remember the period of his labors in Newcastle.

We Want Your **WOOL** YARN

You want Our

The demand for our Yarns has grown to such proportions that we have decided to cut out all other lines we were manufacturing and make nothing but Yarns. So we take the opportunity to let you know that we will not manufacture or carry a stock of anything but Pure Wool Yarn.

We also decided that we would not be satisfied to make Yarn that we could say was just as good as any other. But we are making a pure Wool Yarn that we know to be the BEST ON THE MARKET.

All our Yarns are manufactured from Pure New Brunswick Wool. It is admitted by all who profess to know that for making a good strong all-purpose Knitting Yarn, New Brunswick Wool is really the Best in the world.

All the Dyes, Soaps, Oils, etc., that we use are the very best we can buy and are something that we know will not injure the wool in any way. We are very careful to see that all the machinery is kept in perfect working order to make sure that the Wool Fibre will not be broken or cut in going through the different processes of manufacturing. In fact we are doing the very best we can to put up an article that will satisfy our customers in every way.

We have a large stock of our Yarns on hand in all the different sizes and colors we manufacture, which we will be pleased to let you have in exchange for your Wool.

Washed wool taken in exchange for Yarn at..... 25c. per lb.  
Unwashed wool taken in exchange for Yarn at..... 18c. per lb.

**Dr. Pierce's Favorite Prescription**

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. **THE ONE REMEDY** which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

**THE ONE REMEDY** so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine or know its composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

**The Bread and Butter Age.**

The growing child needs more good food at frequent intervals than the adult. Nothing is better and safer between meals than a slice of the good home-made bread. Formerly graham or whole wheat bread was favored; but Dr. Woods Hutchinson, the prominent hygienic writer, and other experts, have pointed out that the coarser flours are really less easily assimilated and are inferior in food value to the best white flour.

**"Beaver" Flour**

is a product uniting the merits of the coarser flours with the delicate, white, appetizing qualities appreciated by children and grown people alike. It is not a crude mixture, but an exactly proportioned scientific blend of Manitoba Spring Wheat and Ontario Fall Wheat. The famous Manitoba No. 1 Hard contains the gluten and proteids which build bone and sinew, and we balance this with the right proportion of the best Ontario wheat, softer, whiter and richer in carbohydrates, to make a perfect food.
