ANSWERING YOUR What's New for this Spring

The secret is out! You've the key to the whole spring fashion situation, if you amble around through Farrah Fashion Sections in all their spring readiness!

And you won't need a guide to tell you how new and up-to-the-minute such things as these are, which are among the spring arrivals at Farrah's store.

The Fashionable Wraps and Coats

The very swagger spring wrap styles place one in a quandary, but they need not, because fashion has favored mannish Coats, Capes and partially, leaving the pleasant choice to you.

\$15.00 to \$75.00

The Suit of Tweed

There is a great preference for Tweeds and novelty effects in suits. Tweeds are so informal, so youthful, so durable that it is small wonder they have become so popular.

\$16.50 to \$35.50

ANNUAL MEETING WOMEN'S AUXILIARY

The Annual Business meeting of the Women's Auxiliary in connection with St. Andrew's Church, Newcastle was held in the Rectory on Thursday March 1st, the president Mrs. Bate sitting in the chair.

Following the President's annual address, Mrs. Fraser Harris, the Recording Secretary, stated that there were twenty-nine members, including four who had joined during the year. Thirty-three meetings had been held during the year. Two dozen new Prayer Books had been bought for the church. During the year the auxiliary had held a Food Sale, Stummage Sale and Tea, and Bean Supper and Fancy Sale.

Mrs. Knowlton of St. John had furnished them with the monthly report of the Diocesan Board Meeting.

Pledges had been made and paid towards the general Pledge Fund, Educational fund, and Divinity scholarship fund.

Reference was made to the President's long sickness and enforced absence of three months from the meetings and also to the fact of Miss M. Bate leaving in the near future.

The Secretary's report finished with "We have tried to live and work in accordance with our motto. May we in the ensuing year launch further out into the deep—so live and act that each tomorrow will find us further than today."

The Dorcas Secretary, Mrs. J. W. Davidson stated that a boy's complete outfit including bedding was being prepared for one of the inmates of the Indian Home at Onlog Lake.

Mrs. C. Sargeant, treasurer, in her report, showed that including the previous year's balance the sum of \$568.12 had been passed through her books. From this amount \$250.00 had been paid towards church renovation and reconstruction in addition to the cost of Dorcas work, church electric lights, flowers, benevolence, etc., leaving a balance on hand of \$154.78. From this balance a further grant of \$100 was immediately voted towards the Reconstruction debt. The new money paid to the treasurer amounted to \$7.83 Thankoffering, given to missions, and \$42.30 talent money. Actual balance to carry forward from March 1st, 1923 amounts to \$97.08.

Miss Marion Bate reported for the Junior Auxiliary. It had a membership of twenty-one members—had worked to provide a little Indian Girl's outfit at Lac La Ronde and had a balance on hand of \$32.36.

Mrs. Walter Morell, Superintendent of the Little Helpers branch said that it had a total enrollment for St. Andrew's and St. Mark's

Rheumatic Pains

Are relieved in a few days by taking 30 drops of Mether Seigel's Syrup after meals and on retiring. It dissolves the lime and acid accumulation in the muscles and joints so these deposits can be expelled, thus relieving pain and soreness. Seigel's Syrup, also known as "Extract of Roots," contains no dope nor other strong drugs to kill or mask the pain of rheumatism or lumbago; it removes the cause. 50c. and \$1.00 bottles at druggists.

Send a DOMINION EXPRESS MONEY ORDER

Miss Annie Robertson Is "Miss Miramichi"

Before an Audience of 2,000, Local Young Lady is Chosen by Three Montreal Gentlemen Who Kindly Acted as Judges.

Miss Annie Robertson, daughter of Mr. and Mrs. Albert Robertson, Newcastle was chosen tonight as Miss Miramichi at the Carnival held by the Newcastle Curling Association. The rink was filled to its capacity and the judges had a most difficult time arriving at a decision.

The five contestants were:—Miss Annie Robertson, Miss Laura Williston, Miss Margaret Thompson, Miss Helen Dickson and Miss Lillian Fitzpatrick, (Nelson). The latter three young ladies were eliminated and the choice made between Miss Robertson and Miss Williston, the former finally receiving the selection. The judges were three gentlemen from outside points and great enthusiasm was shown by the general public. A full account of the carnival will be given next issue, as this week's paper is now ready for the press.

CHATHAM DEFEATS SUSSEX 5 TO 4

About 1,400 fans saw the Chatham team emerge victorious in one of the fastest hockey games played this season when the fast Sussex team went down to defeat five to four. The game was full of thrills. The feature of the game was the sensational stops made by the goal tenders of both teams. Finnegan was called upon to stop many hot ones and it was due to him that a larger score was not run up. Currie made several sensational end to end rushes but Finnegan's good work saved Sussex.

LeClair scored early in the first period and then almost simultaneously McMahon and Keoughan scored. H. Radcliffe scored about the middle of this period while Keoughan was in the penalty box. Just before the whistle blew for the end of the period Keoughan scored. Score 3-2.

LeClair scored again in the second period and in rapid succession McMahon and Currie tallied for Chatham. This period ended five to three. Immediately after the face off in the final period Lamb beat out Carvell, making the Sussex final tally. Both teams worked like demons but were unable to score further.

The final tally stood five to four in Chatham's favor. Jack Twadell refereed.

Churches of 87 members and that \$44.00 had been contributed for missions through its agency.

Officers for the ensuing year were elected as follows:

- President—Mrs. Bate.
- 1st Vice-Pres.—Mrs. Brownlow Maltby.
- 2nd. Vice. Pres.—Mrs. Harold Ritchie.
- Recording Secretary—Mrs. Fraser Harris.
- Corresponding Secretary—Mrs. Samuel Wallin.
- Dorcas Sec.—Mrs. J. W. Davidson.
- Treasurer—Mrs. C. Sargeant.
- Junior Superintendent—Mrs. S. V. Sisson.
- Superintendent of Little Helpers—Mrs. W. Morell.
- Delegates to Diocesan Annual Meeting in Fredericton next May—Mrs. Bate, Mrs. Morell, Mrs. Sisson.
- Substitutes—Mrs. Brownlow Maltby, Mrs. C. Sargeant, Mrs. T. Davis.

THE MILLERTON WOMEN'S INSTITUTE

The Millerton Women's Institute held their February meeting at the home of Mrs. M. Monahan. There were present eleven members and a number of friends. Roll call was answered with Valentine greetings. The Delegates report was read and listened to attentively by the members. A spelling match was indulged in with Mrs. Scott the President and Mrs. W. McN. Matthews remaining on the floor until the last. Mrs. Matthews gave a reading on the Institute's poems and Mrs. Lorne Dawson also delighted the meeting with a reading entitled, "Dr. Helen McMurchy's Reading on Maternal and Infant Mortality." The next meeting is to be held at the home of Mrs. Wm. Curtis. The meeting was closed by a luncheon served by the hostess after which the National Anthem was sung.

NEW LIEUT-GOVERNOR SWORN IN WEDNESDAY

The last of the present series of changes in officialdom in the administration of affairs of the Province of New Brunswick took place Wednesday evening when a new Lieutenant-Governor was sworn in at a public ceremony at the Assembly Chamber of Legislature, just one month after a new Premier had assumed office.

Hon. William F. Todd, of St. Stephen, became the Lieutenant-Governor succeeding Hon. William Pugsley, when Hon. Mr. Todd took the necessary oaths of office, after the official commission of his appointment had been read by Kodolphe Boudreau, C.M.G., Clerk of the Privy Council, Sir Douglas Hazen, as Chief Justice of New Brunswick, administered the oaths, after the new governor had sworn allegiance to His Majesty the King.

The great seal of the Province of New Brunswick was then delivered to the new governor by the deputy Provincial Secretary, R.W.L. Tibbitts, and in scarcely 15 minutes from the time it commenced, the ceremony was completed with the presentation of a huge bouquet of American Beauty roses and carnations to Mrs. Todd. The presentation was made by little Miss Mary Barker, granddaughter of Robert S. Barker, who became official Secretary to Mr. Todd as the seventh governor under whom he served. Lieut.-Col. W.J. Osborne was also in attendance with the new governor, but was not in uniform.

CHATHAM DEFEATED AT CHARLOTTETOWN.

By a score of 4 to 1 the Abbies hockey team, champions of the eastern section of the New Brunswick and P.E.I. hockey league, defeated the Chatham sextette, the north shore champions in the second play-off game of the league Wednesday night.

The score at the end of the periods was 1-0, 2-0 and 4-1. In the first and second periods the Abbies had to work hard for their goals, Chatham putting up a splendid fight and the play was close throughout, Morgan having quite a number of hard shots to ward off.

It was on the whole a good exhibition of hockey but lacked combination. The first period was unexciting the second was very fast with hard skating. There was a tendency to "rough it" and Referee J. J. Twaddle handed out twelve penalties during the game. In the second half of the last period the Abbies outskated the Chatham team and bombarded the latter's goal heavily.

ROYAL YEAST CAKES
 RICH IN VITAMINES
 MADE IN CANADA
 The importance of Vitamines in food is being recognized at the present time to a greater extent than ever before. It has been conclusively demonstrated that yeast is rich in this all important element. Many people have received great benefit physically simply by taking one, two or three Royal Yeast Cakes a day. STEAMER IN ICE

Mr. George Watt, collector of customs at Chatham received word last Friday from Richibucto, that a large unknown steamer had been seen about half way between Richibucto Cape and Prince Edward Island.

Winter Hard On Baby

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. William Medicine Co. Brockville, Ont.

THAT ATLANTIC SUB-DIVISION

A line of railway will presently connect the Transcontinental with Toronto and the Grand Trunk system throughout Ontario and the State of Maine.

Cochrane, Ont., is protesting against Toronto control of the Transcontinental. That Ontario town would sooner be under the railway jurisdiction of Moncton. One reason doubtless is that Toronto now has no direct communication with the Transcontinental. That will be changed. The new line was projected long before the present railway controversy arose. It is right enough that an important centre like Toronto should have a direct connection with the Transcontinental where it runs through Northern Ontario. Perhaps when the new line is completed Cochrane's objection to Toronto may cease, or at least be modified.

For the Maritimes the important question is—what will be the effect of this new line connecting the G. Trunk system with the Transcontinental at a point near Cochrane upon through traffic? Will Toronto have a tendency to exert a pull upon Transcontinental traffic in the direction of the Grand Trunk system? Quebec City has an interest in this question. The Winter port probably has a greater interest, though it appears to be unconcerned. The traffic on the Transcontinental now may not be important; but it may be of great importance in the future. And the principle of the railway policy established now will determine the future of the "Atlantic Region" and Maritime ports.

PARTED BY WAR

Civil Strife Caused Separation of Noted Churchmen.

Missionary Centennial Recalls Affection Between Bishop McIlvaine and Bishop Polk, on Opposing Sides.

A striking memory of Civil war history is awakened in connection with the centenary of the Episcopal Missionary society, falling this year, which centers about two devout bishops of the church. Bishop McIlvaine of Ohio and Bishop Leonidas Polk of Tennessee, life-long friends, whose consciences made them 'enemies' when the war divided the country.

Bishop McIlvaine was the elder of the two and was chaplain at West Point when young Polk, son of the family which gave a President to the United States, arrived at the academy bent on a military career. At the end of four years Polk was graduated into the army; but so marked was the influence that McIlvaine had exerted that, a few years later, the chaplain having in the meantime been elevated to the episcopacy, Polk resigned from the army and took clerical orders.

With the passage of the years it fell out that McIlvaine and Polk became identified as leaders in the movement within the church which resulted in the dispatch of missionary bishops into the unsettled areas of the country, and brought about those triumphs which are being acclaimed now in the missionary centennial. Polk was made the first missionary bishop of Arkansas and later first bishop of Louisiana.

Then came the war between the states, which arrayed father against son and brother against brother; and these two devout men of the church did not escape the perplexities of the situation. Bishop McIlvaine answered the call of Lincoln and went to England with Archbishop Hughes, Henry Ward Beecher and Thurlow Weed to exert their influence against British recognition of the Confederacy. Bishop Polk answered the call of Jefferson Davis and became a general in the Confederate army.

Thus actively aligned on opposite sides in the conflict, the stage was set for one of the most dramatic episodes of the war. Back in the West Point days the two men had entered into a solemn compact that when they separated, wherever they might be they would pray, each for the other by name, every Sunday morning. And now, the one fighting in the field for the South, and the other engaged in a delicate diplomatic mission for the North, enemies as to the political principle which was involved, their solemn compact was sacredly carried out until the end came with the death of Bishop Polk at the battle of Pipe Mountain.

History tells of the success of the mission to England, of which Bishop McIlvaine was a part.

The kind of soldier Bishop Polk was is related in the general orders issued by Gen. J. B. Johnston, commanding the army of Tennessee on June 14, 1864, the day Polk fell. It read:

"Comrades: You are called to mourn your first captain, your oldest companion-in-arms. Lieut. Gen. Polk fell today at the outpost of this army—the army he raised and commanded, in all of whose trials he shared, to all of whose victories he contributed. In this distinguished leader we have lost the most courteous of gentlemen, the most gallant of soldiers. The Christian, patriot, soldier has neither lived nor died in vain. His example is before you; his mantle rests with you."

There is a striking picture, too, of this warrior-bishop contained in a letter he wrote to his wife less than a month before he fell.

"You will be interested," he wrote, "in hearing that the first night of my arrival with the army I baptized Lieut. Gen. Hood. It was on the eve of an expected battle. The scene was a touching one—he, with one leg, leaning on his crutches, a veteran in the midst of his and my officers and I the officiating minister. His heart was fully in it."

A few nights later he also baptized General Johnston.

Corrosion of Metals.
 The committee on corrosion of iron and steel of the American Society for Testing Materials reported that tests which have been in progress for five years in the Pittsburgh district on uncoated metal sheets are nearing completion and have reached the point where the committee definitely concludes that "copper-bearing metal shows marked superiority in rust-resisting properties as compared to non-copper-bearing metal of substantially the same general composition, from which superiority we may truly anticipate a marked increase in the service life of copper-bearing metals under atmospheric exposure of uncoated sheets." Other corrosion tests are being conducted in different parts of the country, and before very long a final report may be expected in which results of importance will be stated.

Nothing Wrong to Him.
 Mother was terribly upset by Tommy's appearance, particularly his unwashed face.
 "Tommy, Tommy," she scolded in great distress, "how can you look so filthy, so dirty, so unclean, so unclean as this in the middle of the morning?"
 "No, mother," said Tommy, with a contented smile, "I don't wash my face, because I don't want to wash it."

THE BROAD VIEW

The arrangement of an Atlantic divisional section of the Canadian National Railways is a matter of great importance to every citizen of the Maritime Provinces.

If it were a matter of the removal of a hundred families or so from Moncton, or the subtraction of a few hundred miles of railway from the jurisdiction of some divisional superintendent, it might be passed over lightly. If the divisional arrangements affected only a few localities, then any complaint would be sectional, but there are issues involved which make the question one of national importance and especially so to the Maritime Provinces.

If the proposed arrangement is adhered to, the western terminal of the Atlantic Division of the C.N.R. will be at River du Loup, a point about 300 miles east of Montreal, and

MURINE For Your EYES

one at which little if any through or export freight originates. The next western divisional point, Toronto, will embrace the sources of traffic at the head of the Great Lakes and Montreal. It will also include the Grand Trunk Railway system with its outlet at Portland, Maine.

Citizens of the Maritime Provinces should not lose sight of the fact that the Toronto division will be anxious to make the very best possible showing in earnings for the division, and will naturally route all through freight to Portland, Me., while the Atlantic Division will be left without a solitary point at which export traffic originates.

It has always been recognized that those who laid the foundation of the National Railway system, intended that every pound of freight originating at a Canadian point should be carried through Canadian ports the whole year round; but it would seem, under the present scheme, with Toronto authorities anxious to make their division pay and not showing and great sympathy towards the Maritimes, there is a grave danger that

Justice to the principles laid down by the Confederation Fathers will be done.

Montreal is the logical boundary for an Atlantic Division and it is strange that any change should be thus early made.

No one wishes to array east against west, but the question which has arisen may well be made a test case, as to whether all parts of Canada are to have an equal recognition given to their just claims.

We want to see the C.N.R. put on a paying basis as well as any other portion of the dominion, but we also want to see the Maritime Provinces treated as well as Montreal or Toronto. In so far as "No Politics in the C.N.R." is concerned, this system belongs to the people of Canada and therefore must be controlled by the Federal government. As to detail of management, it is generally understood that it would be better to have the railway out of politics, but the policy of the railway should be made by the government. This is what was intended when the government gave Sir Henry Thornton a free hand in management. The Government like any other owner has the right to dictate policy and principles regarding the management of the business.

This question is one which should be looked at in a broad way; one which affects the Maritime Provinces as a whole, and not any particular point. Because of this, it is a matter of deep concern to every citizen and every man in the Maritime provinces and one which every Maritime Province member should be keenly interested in. If they fail to interest themselves they are misrepresenting their constituencies and should be told so in no uncertain manner.

Reserved Seats on March 20th 75 cents
Orchestra Seats \$1.00

Tickets Sold at the Door

Doors open at 7.30 p. m.—Performance begins 8.15 p.m.

EXPLANATION

Owing to Dollar Day advertising in this issue, we have been forced to withhold from publication, a large amount of local and general news, as our subscribers will bear with us in this issue, as the merchants of Newcastle are desirous of making Dollar Day a grand success this year and to do so realize that it is most important to have the event well advertised through the local press.

FANCY SKATING

The fancy skating at the local rink drew a large crowd. The ice was in good condition and the exhibition of skating much enjoyed.

DRIVING WITHOUT BELLS

Complaints have been received of people driving without sleigh bells. This is a serious offence and drivers are liable to severe punishment.

CALLED MODERN ST. FRANCIS

Charles Caleb Pierce Tramped and Preached Through California 42 Years—Welcomed Everywhere.

Memories of a host of picturesque figures in the history of California are evoked by the centennial of the missionary society of the Episcopal church, which was celebrated November 6. The mind goes back to that morning in January, 1848, when Jim Marshall picked up some bits of yellow metal in the tail-race below Sutter's mill up in the Sacramento valley, and the cry of "Gold!" like the shot fired at Lexington, was heard round the world. The rush of the '49ers followed, and in the vanguard was Rev. Flavel Scott Mines, who erected the first church building on the Pacific coast, Trinity church, San Francisco, which was opened on October 28, 1849.

Probably no name has a more lasting place in California annals, however, than that of Charles Caleb Pierce, called by Bishop Moseland "a modern St. Francis," who, beginning his missionary career in 1851, devoted his life to the people of El Dorado county. Without private means and according to accept a salary, Pierce established headquarters in a rude parish church at Placerville. Sunday always found him there. Regularly each Monday morning he packed his bag with religious literature and "hit the trail." Six days a week, week in and week out, he walked over the county, averaging 60 miles each week, every house his home, a place at the table of whatever house he visited or a spare bed always being certain wherever he happened to be. He always traveled on foot. His charity was unbounded, and he was the friend and helper of all.

For 42 years he tramped and preached about El Dorado county, and in all that time he never left the county but twice, and on both occasions against his will. Then, March 15, 1908, the news flashed through the county, "Father Pierce is dead!" Universal mourning followed.

Hogs Plow Orchard.

Hogs take the place of plows and harrow in the cultivation of one of the best producing small apple orchards in Ontario. Most orchardists plow and replot and harrow and ditch the land between the rows of trees. J. W. Tuttle of Currie merely turns in a drove of hogs.

"When I bought my farm, four years ago," said Mr. Tuttle, "the orchard had been allowed to grow wild. I gathered only three bags of apples that fall. In the spring I sprayed and pruned the trees and turned 80 hogs into the orchard. They rooted for their living all summer.

"By fall every foot of soil had been turned up by their snouts. The land looked as if it had been plowed. And it had, for these four-legged plows had done a thorough job and had gone as deep as a plowshare. I gathered 32 barrels of apples that season. That was the direct result of plowing and manuring my land with hogs."

"Next year I got 85 barrels and the third year 200 barrels. This year I have more than 200 barrels."—Detroit News.

BOARD OF TRADE

At a meeting of the Newcastle Board of Trade, held last Wednesday evening in the Town Hall for the purpose of considering the advisability of sending delegates to Amherst, N. S., on Friday to attend the joint meeting of Maritime Province Board of Trades, in connection with having the C. N. R. Atlantic Division extended to Montreal, it was decided not to send delegates and a resolution was passed urging that Sir Henry Thornton be given a free hand to put the C. N. R. on a paying basis.

BACK AGCHED TERRIBLY

Mrs. McMahon Tells How She Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for a run-down condition after the birth of my baby boy. I had terrible pains and backache, and was tired and weak, not fit to do my work and care for my three little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do."

—Mrs. J. R. McMAHON, 153 Harvey St., Chatham, Ont.
Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has for nearly fifty years been restoring sick, ailing women to health and strength. It relieves the troubles which cause such symptoms as backache, painful periods, irregularities, tired, worn-out feelings and nervousness. This is shown again and again by such letters as Mrs. McMahon writes, as well as by one woman telling another. These women know, and are willing to tell others, what it did for them; therefore, it is surely worth your trial.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book, upon "Ailments Peculiar to Women."

MONTREAL NEEDS OPEN HOSPITAL

The Montreal Star of March 1st, refers to the address given by Miss A. M. Fish, Bacteriologist and Pathologist, to the Kiwanis Club of Montreal at their weekly luncheon.

In her speech on "Hospitals and their Relation to the Community," Miss Fish traced the history of hospital development and showed how Montreal should have an Open Hospital; so that people with moderate means could receive Hospital treatment, which they were denied at home.

Miss Fish has the largest Clinical Laboratory in Montreal. She is a daughter of our present Mayor, Mr. C. E. Fish.

(The following is taken from the Montreal Star)

Montreal needs an open hospital, where the people with moderate means may be taken by general practitioners and receive the treatment and benefits incidental to private service such as they were denied at home.

This was the message of Miss A.

M. Fish, bacteriologist and pathologist at the Women's Hospital, to the Kiwanis, at their weekly lunch today, when seating accommodation was at a premium owing to the presence of a large percentage of the women and friends of members.

In her speech on "Hospitals and Their Relation to the Community," Miss Fish traced the history of hospital development, characterizing modern institutions as a magnificent tribute to the work of the medical profession.

It could not be said, however, that the hospitals served the people with moderate means as they might. Sickness at home was not amenable to the treatment given in hospitals where there was every convenience; the result was unsatisfactory. Another objection to home treatment was the restricted treatment owing to limited housing accommodations of today.

Proved in West

Therefore, if there was an open hospital—and they had proved very successful in western Canada—many a tragedy would be avoided, "and if we had had one, it would have gone a long way towards reducing the infant mortality of last year," she declared.

The Women's Hospital of to-day was founded in 1873; since 1885, with its accommodation of 75 beds, it has treated 11,000 cases but the need for more commodious quarters now was very apparent and, in fact, very urgent.

There was an increased population and a correspondingly increased demand for treatment, so that they had to take action very soon. Therefore, it was proposed to inaugurate a drive

Norway's Seas

Many fathoms under the seas, Nature provides an abundance of sustenance for the codfish that makes its liver-cells prolific in vitamin-bearing oil.

Scott's Emulsion

serves thousands of children and grown people with cod-liver oil in a form easy to take. It is a food- tonic that helps energize and build up the body.

Scott & Bowne, Toronto, Ont. 22-37

SAVED FROM AN OPERATION

Restored to Health By Taking "Fruit-a-tives"

Made of Fruit Juices and Tonics

The most convincing proof of the true worth of "Fruit-a-tives" as a medicine for women is found in the letters written by them to "Fruit-a-tives". For instance: "I suffered with all the symptoms of female trouble, pains low down in the back and sides, constipation and constant headache. A doctor advised an operation. I started taking "Fruit-a-tives" and this fruit medicine completely relieved me of all my misery."

Mrs. M. J. GORSE, Vancouver, B.C.

50c. a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

for funds in which she hoped the Kiwanis would assist because it was noble work.

"There is a very large number of obstetrical cases that can only be handled in hospital quarters" and this was another point in favor of a new building because with the present limited accommodation all that is desired could not be carried out.

CANADIAN TRADE

Dispatches to Dun's Review from branch offices of R. G. Dun & Co. in the principal cities report that while recent weather conditions have tended to restrict wholesale buying in many parts of the Dominion of Canada, the volume of business being placed shows substantial improvement compared with conditions a year ago, and sentiment regarding the future remains highly optimistic.

Retail trade in most sections is quite satisfactory for this season, reflecting well maintained manufacturing activity, and, with prospects bright for a large amount of new building and further improvement in industrial lines, the belief is general that Spring and Summer trade will establish new records in many departments. Collections, as a whole, are about fair.

Montreal reports that weather conditions have interfered to some extent with business in wholesale trade but a very satisfactory number of orders are being received from dry goods and other staples and the rising tendency to prices of many commodities is expected to stimulate buying in the near future. Collections are fair.

Wholesale and retail business is quite satisfactory for this period at Quebec, and merchants generally anticipate an active Spring and Summer trade. Collections show some improvement.

Wholesale trade at Toronto shows more or less gain over conditions last year at this time in most departments, and, though many buyers exercise considerable caution in their operations, the upward trend in prices of many kinds of merchandise resulting in a more general disposition to anticipate requirements. Industrial activity is well maintained, and a cheerful sentiment as to the future almost.

BLACKVILLE MAN ARRESTED

Maurice Lambert, of Blackville, charged with concealing or destroying goods which might have been used by the trustees, was arrested last week on a warrant out of the Supreme Court under the Bankruptcy Act. Lambert made an assignment on Feb. 8th, to the Canadian Credit Men's Association, giving as his assets \$1,300 and book debts amounting to \$25. It is alleged that Lambert had purchased goods to the amount of \$13,000 in October, and that previous to the fire, which occurred in December, had part of the goods removed. This is the first case of the kind in New Brunswick.

NEARLY 20,000 REFUSED

ADMITTANCE TO CANADA
Ottawa, March 3—A total of 19,636 immigrants was refused admission to Canada during the fiscal year ended March 31, 1922, it was announced in the House today. Of this number 18,553 were rejected at the international boundary and 1,083 at ocean ports. The total number of American citizens refused admission was 10,268.

BATHURST HOLDS CUP

The Bathurst curlers retained the McLeilan Cup last Wednesday night against the Halifax Mayflowers by a more than 2 to 1 score, the totals being Bathurst 67, Mayflowers 33.

INFLUENZA LEAVES
THE BLOOD THIN

To Restore Full Health, Tonic
Treatment is Recommended.

Probably the most treacherous trouble that afflicts the people of Canada during the winter months is influenza—or la grippe as it is often called. The disease is treacherous, because often after the characteristic symptoms of the trouble have disappeared it leaves behind it a weakened and debilitated constitution which makes the victim an easy prey to other troubles. All this is due to the fact that the attack of influenza has left the blood abnormally weak and thin. Weak blood means impaired digestion, a feeling of tiredness after slight exertion, and often a nervous breakdown. This condition will continue until the blood is restored to a rich, red, disease resisting condition. For the purpose of enriching and stimulating the blood no other medicine equals Dr. Williams' Pink Pills. These pills act directly upon the blood, and through the blood upon the nerves and in this way act as a restorative to the whole system. Thousands throughout Canada have proved the value of Dr. Williams' Pink Pills in cases of this kind, among them is Miss Ida M. Fraser, R.R. No. 2, Thessalon, Ont., who says: "I passed through a severe attack of influenza which left me pale, thin and weak. Indeed I was so weak I could scarcely stand upon my feet. The medicine I was taking in the hope of bringing back my health did not help me, and I was greatly discouraged. Finally I decided to try Dr. Williams' Pink Pills, and from the time I had taken the first box my health began to improve. I used six boxes altogether, and found as a result that I was again strong and healthy, and I think that in cases of this kind they are worth their weight in gold." If you have passed through an attack of influenza, your speediest way to regain full strength is through the fair use of Dr. Williams' Pink Pills. You can get these pills through any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Newcastle Rinks Win
The Merritt Trophy
Four rinks of Newcastle curlers went to Chatham Wednesday as challengers for the Merritt cup and succeeded in wresting the trophy from the local holders by a score of 54 to 46. The rinks in the afternoon had secured a lead of 20 points over the Chatham rinks and this practically assured them of success. The Chatham curlers however went on the ice in the evening determined to make a big effort to overcome the handicap, but the best they could do was to secure a lead of 12 points for the evening and thus the shiretown curlers won out by a lead of 18 stoness. The rinks and scores were:

Here and There

Regina, Ont.—Mr. Ritchie, the station agent of the Canadian Pacific Railway, has received instructions from headquarters to rigidly enforce the no trespassing order on the property of this company. This is particularly in reference to people walking down the railway track. When accidents happen it always entails a trouble to the company and lately there have been complaints that school children have been using the railway as a thoroughfare.

Vancouver.—"I have been in the Alps and the Pyrenees, but I have never seen anything like the catenary wire with Banff," said William Faversham, famous English actor, when speaking at Hotel Vancouver. Mr. Faversham spoke of the wonderful international dog races staged at the winter carnival, and said that he had on special invitation visited the great motion picture plant at Banff.

Invermere, B.C.—An appropriation had been passed for the building of a depot at Lake Windermere by the Canadian Pacific Railway. Lake Windermere is the depot for the whole of the Lake Windermere district. It enjoys the distinction of being the only station on the Lake Windermere branch between Golden and Fort Steele, which has enjoyed the benefit of an agent since December, 1914. A modest little portable depot, a box car on the ground, has done duty all these years but with the proposed opening of the Banff-Windermere road on the thirtieth of June, there is no doubt thought that it is time the old box car took a move.

Ottawa.—The Canadian National Parks Branch of the Department of the Interior is commencing the construction of a hydro-electric generating station in Cascade creek in Banff National Park to supply light and power for the town of Banff, Alberta. The dam at the outlet of Lake Minnewanka constructed in 1912 to provide storage facilities, will be utilized and will ensure a steady flow of water for power purposes without further impairing the scenic attractions of the locality. Electric power for Banff is at present obtained from the steam plant of the Bankhead Mines. The work will be undertaken by day labor.

Winnipeg.—Seven thousand cars of grain have been loaded between September 1, 1922, and Feb. 1, 1923, for the western coast by the Canadian Pacific Railway. This represents 10,234,000 bushels of grain for export from Vancouver. The shipments comprised 6,175 cars of wheat, 162 cars of barley and 50 rye. Exports from the western coast were destined as follows: The Orient, 896,880 bushels, and the United Kingdom 987,905 bushels. As at January 31, there were 900,000 bushels of Canadian Pacific grain in the elevator at Vancouver and 500 cars in transit carrying 735,000 bushels of wheat. The present movement west is averaging 25 cars a day.

Fort William.—The contract for the construction of a building to replace number five freight shed, was awarded by Canadian Pacific Railway officials to the C. W. Hall-Aldinger Company, of Winnipeg. It provides for two fire walls which will divide the new structure into three compartments. The new dock along the new shed will be of concrete. It is the present intention to use the end of the shed nearest the Canadian Pacific Railway subway for the handling of local freight instead of the end nearest the city subway dock as was the case with the old shed. It has been decided that the new arrangement will be more satisfactory to company officials and to concerns having business with them. Discussing the new shed to-day, D. C. Chisholm, division superintendent, said that the new structure would be of frame construction very much like the shed it will replace, aside from the fire walls and the concrete wharf.

Winnipeg.—Under the auspices of the railways, the provincial government and livestock associations of the province, two livestock improvement trains, similar to those which toured the province last year will again be operated in Manitoba during the coming summer. The 1923 trains are to be known as "the Livestock Improvement Trains." They will give attention to the following departments: The benefit of improved quality in cattle; demonstration and sale of purebred sires, both beef and dairy breeds; the production of fodder crops; the dehorning of cattle and other work in connection with the cattle industry; the breeding, feeding and marketing of bacon hogs; the demonstration of desirable mutton types and docking and castration of lambs; demonstrations and exercises on poultry raising, with the selling of eggs for hatching purposes; home economic lectures and demonstrations for women and lectures and education motion pictures for girls and boys. The dates for the trains will be from Monday, April 30, onward for four weeks. This will cover about the same dates as last year which were found very satisfactory.

PROPERTY FOR SALE AT A BARGAIN
Sited in Derby, six miles from Newcastle, containing thirty acres, eight under cultivation, balance well wooded, twelve room two-story house in good condition, good barn. For terms and particulars, apply to:
C. G. AMOS
Newcastle, N. B.

L. S. BROWN TO BE
GENERAL MANAGER

The selection of L. S. Brown as General Manager of the Atlantic Division of the Canadian National with headquarters at Moncton will be gratifying news to the Maritime Provinces. The original proposal was to make the divisions from Brockville to Winnipeg west and from Brockville east in which case there might have been some uncertainty as to where the headquarters of the Eastern Division would be. It has now been arranged to have a Maritime Division thus upholding the contention of the Maritime Provinces that separate treatment must be accorded the I.C.R. Mr. Brown was born at Newcastle, N.B., and as a youth entered the service of the Intercolonial as a machinist apprentice at that place. Later he went to the telegraph service and became a train despatcher at Campbellton. Mr. Brown was chief despatcher at New Glasgow; and for several years superintendent of the Eastern Division. From New Glasgow he went to Moncton as general superintendent, Eastern Lines, and since the war was transferred to Montreal as Assistant General Manager.

LOCATED AT BLACKVILLE
Dr. W. S. Fitzpatrick, a graduate of Dalhousie University with the class of 1920, has located at Blackville. Dr. Fitzpatrick has lately been relieving at Berwick, N. S. He is a former student of St. Thomas College, Chatham.

Bake with
BEAVER FLOUR
OBTAIN bread with that delicious home-made flavor—pies, cakes and pastry with tender, delicate, flaky crusts. Beaver Flour is made from the finest of selected Ontario Winter Hard Wheat combined with enough Western Hard Wheat to give it strength. Beaver Flour is the original blended flour—and blended flour is recognized by all qualified experts to be the best flour for general baking purposes.

MAN OF LETTERS THANKS TANLAC

Canadian Writer Declares He
Never Saw Its Equal For
Building One Up.

"Tanlac is a faithful old friend that never fails me," declared James A. Brain, 671 Gerrard St. E., Toronto Ont., recently. Mr. Brain is one of Toronto's best known citizens, and in addition to being a successful business man, he has written many poems and songs that have gained wide popularity.

"I've been taking an occasional treatment of Tanlac for four years, and it keeps me in fine condition. Why, right now, I feel like I could hold ground in a foot race with any man my age in Canada.

"Before taking Tanlac, I was all run-down, had little appetite, and was suffering from indigestion. I wasn't sleeping well and was often so weak and nervous I couldn't attend business.

"Well, Sir, all these ailments disappeared with my first treatment of Tanlac, and to this good day I've been eating, sleeping and feeling fine. In all my seventy years, I've never seen the equal of Tanlac, and I just wouldn't be without it."

Tanlac is for sale by all good druggists. Over 35-million bottles sold.

GRIPPE PREVALENT

Grippe has been almost epidemic in town during the past two or three weeks, but fortunately the malady has been of a very mild type in the great majority of cases. Many persons are still suffering from the disease and physicians have been kept pretty busy of late. A number of the teachers in the public schools are among the sufferers.

The Glare of the Sun

is apt to hurt your eyes if they are rather sensitive to strong light, and we advise your using our SNOW Goggles. They are made in blue, green, brown and smoke color and are just the thing to wear on the water, in the country, etc.

NEWCASTLE, N.S.

FRETTING NAUGHT BUT FOLLY

Subj. Mary... Subject... of the... of the...

In that doleful, delightful book, "The Education of Henry Adams," occurs a phrase, "the folly of fret," which is better than the usual expression, "the uselessness of worry."

Many sermons have been preached, many lectures delivered, many medical opinions pronounced, many household homilies uttered, on that theme.

The trend of applied science in our century is toward the reduction of friction and the elimination of waste. And a big part of friction and of waste is worry.

We worry about the human machine. We imagine that all sorts of dreadful things are about to happen to us. Our thoughts ought to be on our work--and they are diverted by our worries.

We worry about losing a position in business or our standing in society. There would be less excuse for anxiety if we would spend the energy consumed in trying to do our work still better, trying to serve the community more effectively the community we live in, striving to discharge the various and delicate offices of friendship with increased tact and perception and sympathetic selflessness.

Worry is quite another matter from a proper carefulness, that weighs a proposition and looks all round its object ere acceptance.

A man who investigates before he buys, who considers alternatives and who asks questions before deciding, who makes no leap in the dark, is not open to the reproach of one whose "folly of fret" merely leads him in frantic circles, like a tethered donkey.

All his fuss and clamor issue in nothing but an ecstasy of motion and emotion.

Man power is too precious to be thrown away in these gyrations that are the pantomime of futility.

Give us more of the calm, big men who plan and then proceed. They seem to have time. They do not operate in a flutter and a fever resembling the hen yard or the stock pen. They make up their minds and preserve their equanimity. Seeing them so cool and controlled, those who do everything in a panic or a paroxysm try their best to excite them by telling them the horse is burning down or the world is coming to an end.

But these quiet and capable ones are not deceived. They know that it is not for man to say when his own life or his own work shall end. In trust and peace they continue on their way--avoiding "the folly of fret" that victimizes and weakens other men.--Philadelphia Public Ledger.

Relics of an Extinct Race.

Relics of an extinct Indian race are being uncovered on the Santa Ynez river by a road construction gang under the direction of Ranger R. Forsythe of the Santa Barbara national forest. The discovery is at a point two miles upstream from the foot of the grade of the San Marcos road on the other side of the mountain.

One such relic brought in to Forest Supervisor Thomas B. Sloan's office was a matter of much speculation. It appears to be a piece of black soapstone in the shape of a cylinder about 1 1/2 inches in diameter and four inches long, with a half-inch hole the length of it. The relic is highly polished, and when first excavated was said to be of a softness that permitted scarring its surface. Exposure to the air evidently had hardened it, however, in a few hours.

Forsythe said two other relics similar to this one have been uncovered, and one of the bones of the forearm of a man also has been found.--Santa Barbara Press.

Some Exceptions.

Among the witnesses called in a trial in a southern court was an old darky.

"Do you swear that what you tell shall be the truth, the whole truth and nothing but the truth?" intoned the clerk.

"Well, sah," returned the witness, shifting uneasily, "dis lawyer gemun kin make it a powful lot easier on hisself an' relieve me of a mighty big strain ef he'll leave out anything about gin an' chickens. 'Cepin' for dose, Ah guess Ah kin stick to de truth."--The American Legion Weekly.

No Joke.

Ex-Chancellor Day of Syracuse university, bawling the high price of books, clothes and what-not, said at a dinner:

"Will this thing never end? I heard a story the other day. A charitable lady on a seashore boardwalk dropped a nickel in a beggar's hat. But the beggar returned the nickel to her, saying in not unkindly tones:

"Excuse me, lady; I don't want to hurt your feelin's, but I'll have to return this here nickel back to you. If we take less than a dime we lose our union card."

Manifold Uses Phonographs.

Appreciation of music is taught in the schools of Mansfield, Ohio, with the help of phonograph records. In the seven schools of the town there are 37 phonographs. The machines were paid for by the pupils' music club, which includes 500 boys and girls. Each school has a complete library of records and the school principal receives an amount of \$1,000. A special notebook in music appreciation guides the teachers in this work, and the music appreciation of the town schools could be the making of a masterpiece.

ECZEMA

MOOSE SLAUGHTERED

It is reported that moose and other game is being slaughtered in the vicinity of Tabusintac River and near Rogersville as well. It is alleged that the snow is so deep and soft that hunters on snowshoes can come up to the animals in a few minutes and slaughter them at will.

SNOW WASTING RAPIDLY

The snow although it fell in huge quantities this winter has been wasting rapidly during the past few days as the sun has been exerting considerable power. It is not anticipated that there will be any unusual quantity of water from melting snow this month. It is probable however, that there will be some more heavy storms before spring arrives.

An Acute Attack Quickly Helped

Montreal Lady Rubs Away Her Cold Troubles With Vicks.

Miss Lachance of 1142 Wellington St., Verdun, Montreal, Que., says: "I had occasion to use Vicks Vapo-Rub during the winter, while suffering from acute LaGrippe, and it gave me instant relief. I used it as per directions on label and also rubbed it over aching spots--throat, joints, forehead and around the nose for cold in the head--and found it very beneficial in every way. It was recommended to me by a friend who uses it as a family remedy all the time."

Vicks VapoRub comes in salve form, and for head or chest colds, you just apply it over throat and chest and cover with a warm flannel cloth. The body heat releases vapors that are inhaled all night long into the throat and lungs--Menthol, Camphor, Thyme, Eucalyptus and Turpentine. Vicks is also absorbed through and stimulates the skin, aiding the vapors to relieve congestion. Usually colds go in one night and croup is commonly relieved in 15 minutes.

By invitation of the manufacturers, fifteen thousand families in Canada tried Vicks last winter for cold troubles, the only condition being that they would report results. The above is just one of the enthusiastic reports received. The above statement is just one of the dozens that can be quoted right in Newcastle.

At all drug stores 50c a jar. For a free test also package, write Vicks Chemical Co., 344 St. Paul St., W. Montreal, P. Q.

The Vicks is now in Canada. It enjoys a remarkable sale. Over 10 million jars used yearly.

DOLLAR DAY

It was decided on Friday at a meeting of the local Retail Merchant's Association to hold...

Saturday, March 10th. The Merchants are now busily engaged preparing for this annual event and it is their intention to make this year's Dollar Day a greater success than past years.

The savings which the public are assured is a matter which should be seriously taken into account and by making purchases on Dollar Day they will be well repaid. Make it your business to be in Newcastle on Saturday, 10th. inst.

JUNIOR CURLERS

The Chatham Juniors defeated the Newcastle Juniors at curling on Sat. in the Newcastle rink. The score was 9-11.
