THE ALDINE, Not for Sale in Book or News Stores

THE ALDINE, while issued with all the regularity; has none of the temporary or timely interest characteristic of erdinary perodicals. It is an elegant miscellany of pure, light and graceful literature; and a collection for pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, The Aldine is a unique and original conpared with rivals of a similar class, THE ALDINE is a unique and original comception—alone and unapproached—absolutely without competition in price or character.
