One of the City's Private Bills Will Bring Up Question of Bi- Ambitious Program Drawn Worrying People in

A DANGEROUS CLAUSE MANY OTHER SPEAKERS OTHER DISTRICT NEWS

W. A. Clarke Claims That No Annual Meeting of Ward Fairbank Ratepayers Want Man Could Call Land His Own.

A clause in one of the city's private bills relating to the expropriation of property, is causing owners in the townships a good deal of uneasiness. It is Clause 4, in Bill No. 54, which will give the city power to compel an owner to hold land for expropriation at a future date simply by intimating that the land will be required.

w. A. Clarke, the York Township clerk, claims that as the clause now stands, it may work out very unjustly in many cases, and that it is really more in the nature of confiscation than expropria-

"Suppose that a man had ten acres in the township," he said, "and the city decided it was needed for a park; no definite promise need be made that the land would be purchased by the city, or any date set for the deal going thru. That owner will just have to pay taxes on the property and await the city's pleasure, and in ten years he might be informed that the property would not be required. During the interim he might have disposed of the property two or three times, and have lost a large amount of money because his land was tied up.

"Why, when you consider the thing for a minute, you can see how the city could speculate with half the land in the township under this 'we intend to expropriate' outrage.

outrage

Actual Wording Counts,

"Of course, the intention of the bill may not be so sweeping as that clause actually reads, but it is the actual wording which will count, if disputes occur, and when that is passed no man, either in the city or its neighborhood, will be able to call his land his own.

"Suppose a blanket of that kind had been placed on some property in the township ten years ago, what would the city expect to get it for today—its value ten years ago, or its value today? If the owner did not get the present value of the property, it would be sheer robbery—nothing less—and to my mind that's what that clause would permit the city to do." South York Member's Suggestion Created Discussion of Federal District Plan in House-Hon. Sam Hughes' Alleged Willingness to Aid Ulster's Cause Touched on.

By a Staff Reporter.

OTTAWA, March 20.—The house spent all the day in committee of supply on estimates of the public works department. These included the initial appropriation for the big departmental block on Wellington street to cost \$3,000,000, and led Mr. W. F. Maclean of South York to inquire whether we should begin building expensive government of lices until the capital of the country was definitely and permanently fixed by common consent at Ottawa. There were many objections, he said, to Ottawa as a capital, the climate being disagreeable in the sunamer and winter alike. This ellicited some discussion as to the federal district plan for which the people of Ottawa have already declared by a plebiscite.

CGS are so easily prepared that it would seem that every one should know the seven hundred different ways of preparing them, that it is said every French chef must master before receiving his diploma. Yet I know seven hundred different women who cannot make an attractive dish of fried eggs, whose boiled eggs are always too hard or too soft, and who vow they will never attempt an omelet.

And there is nothing so simple in the whole line of cookery as this same omelet, it is only a mass of fluffy bubbles, and all that is needed to insure its beautiful lightness is a little care.

The trouble with omelets is that they stick—to prevent this rub the frying pan, or the omelet griddle, with a piece of suct or a cloth dipped in dripping, wipe it off and their butter it and pour on the egg mixture. It is the butter that sticks, you see; not the eggs, and this simple trick prevents all this.

Yes, it is simple, very simple, but it are culties a deftness of touch in the turning and a certain wise knowledge of heat to get the best result, but get it once and you will never fail again. Sides is a ruin.

The fancy omelets are simple too, for they are made just as the plain ones are, but how differently they tasted. The famous "omelette aux fines herbes" is made just as directed above, but with the salt and pepper add the "jardiniere." This is just a little parsley, thyme and sweet marjoram. Again it may be a few spikes of chevril, some leaves of cress and sorrel and a few drops of enion. In frying these allow a little more butter than usual.

Very elaborate omelets are baked in silver dishes, and are dignified by the name of souffles; they may be sweet or plain, or made with oysters or chicken. Success depends upon their being very light and delicate. The Personal Feeling.

The action of yesterday on the part of the Equal Franchise League was thought by the organization to be the best course to pursue, in view of the fact that the Canadian Suffrage at its last executive had rescinded its acceptance of the president and proxies of the league and affiliated societies.

The second annual Older Girls' Conference was held in Carlton Street Methodist Church yesterday, extending from 3.30 to 9.30 o'clock. The conference was largely and enthusiastically attended, over three hundred being registered for the banquet at 6.30.

Secrets of Health and Happiness

If Common Sounds Annoy, Your Hearing Is Imperfect

By Dr. LEONARD KEENE HIRSHBERG A. B., M. A., M. D. (Johns Hopkins). Copyright, 1914, by L. K. Hirshberg.

HERE is no doubt that everybody is intensely concerned with his hearing. If a crust of wax, a particle of dirt, a bug bacteria, or a "noise" interferes with your sense of hearing, Old Nick is in a fair way to seize you for your evil thoughts.

The perceptions and impressions received through your ear differ from those received by your neighbor. No two people hear exactly alike, even when a clock tolls the

Sweet is every sound, saith the poet. Sweeter the voice, but every sound is sweet, myriads of rivulets hurrying through the lawn, the moan of doves in immemorial elms and murmuring of innumerable bees.

Perhaps there is nothing that appeals and saddens more by night, as well as day, than an enormous silence DR. HIRSHBERG without a sound to break the lifeless splendor of the whole. Mirth and music depend for the cheer they give upon a clean auditory

sense and perfect hearing. Even Orpheus, whose golden touch could soften

musical provocation. Church organs are particularly obnoxious to certain and make huge leviathans forsake unsounded deeps to dance on sands, needs make an aweet music for the deaf.

In some persons the sense of hearing differs in one ear from that in the other. Dr. Heldmann of Vienna treated two musicians, one of whom always perceives in the affected ear, especially during damp weather, tones an octave lower than in the other ear.

Other musicians under like conditions perceive tones an octave higher. Dr. Cheyne reported a patient whose veins when he heard drums beaten, would spurt blood with great force.

Other physicians report sufferers with deafness who are relieved only when bass drums are banged.

There are instances of strange auditory idiosyncrasies, which resemble those of sight. Just as the sight of names a black cat, or a white-robed figure at night, sends some women into hysterical convulsions, so the rustling of olicided silk, the sharpening of pencils, squeaky wheels, shritcking infants and grate-like noises affect many.

A gentleman at the court of the German Emperor has nose-bleeding whenever heard a clap of thunder or some of the passages in Tristan and Isolde.

When a certain chaplain in England hears the 53d chapter of Isaiah, as well as verses in the Kings he always has a sensation of ley frigidity at the top of the boat.

It is no unusual thing to find certain of the court of the passages and the court of the court of the german Emperor has nose-bleeding whenever a coording to Dr. George M. Gould, could not endure the bland founds of music, although he experience, means some trouble in the auditory ravine.

Any of these unusual conditions, any of these unusual conditions, of sounds with personal experience, means some trouble in the auditory ravine.

A profusely illustrated booklet entitled "America and How to See It," which deals with the subject in a very clear, concise and comprehensive manner, has been issued by the Union Pacific Railway system. It deals with the attractions offered in a domain 1500 miles from north to south and 3000 from east to west, with an are of more than 3,500,000 square miles. A strong point made is that a land whose offerings are sufficient to compel the European to spend the time nd undertake the long journey to reach before arriving should comalready here, and to whom such knowledge is of much greater import-

A comparison given of the expens attached to European and American travel goes to show that the accomodation and service in America is it modation and service in anything superior to that of Europe anything superior to that of Europe while the cost is not as high. The mileage cost of travel is about a third less here than in Europe. The booklet shows a variety of routes which may be taken and gives a very complete list and a concise description of the places of interest to be visited.

VICTORIA BC. March .—The bill providing for an extension of the Pacific Great Eastern in a northeasterly d'rection, into the Peace River country for a distance of 330 miles, was introduced in the legislative assembly. The bill provides for a new bond guarantee for the new extension of \$35,000 per mile at 4½ per cent. A further provision is made for an increased bond guarantee of \$7000 per mile on the main line of the Pacific Great Eastern, already projected from Vancouver to Princa George. The total bond guarantee given the Pacific Great Eastern amounted to \$11,960,000 at 4½ per cent, the mileage covered being \$10 miles.

New Statute of British Columbia Satisfactorily Received by Many.

VICTORIA, B.C., March 19 .- Many are the complaints received by Hon. William R. Ross, minister of lands, for the timber royalty bill, in which the principle of profit-sharing in the timber resource was a feature. Prominent Canadians and residents of the United States, including members of the cabinet of that country, have sent letters warmly commending the new

The secretary of the department of agriculture of the United States writes: "The plan of readjusting stumpage values of timber at stated intervals in sales from public lands whereby the public will derive a fair share of the increase in lumber values is one with which I am in hearty accord. You will doubtless be interest. cord. You will doubtless be interested in learning that a provision of this character is included by this department in all contracts for sales of timber from notional forest lands where the period of contract is in excess of five years, and that it has been accepted as equitable by timber operators. I feel that you are to be heartily congratulated on this pro-gressive legislation."

A "glass snake" is found in Arkarsas. This creature is 12 to 18 inches long, gray in color, has a small mouth and travels by making its serpentine curves vertically in-stead of horizontally. If picked up by the tail that appendage may be snapped off in sections-hence its name. The joints that have been snapped off are dry, there is no blood to be seen and the space between the backbone and the skin is empty. Hints on Beauty

"We do such lot of talking about the breath of life'. MAGGIE TETTE and seem to have

us. We really starve for air. If air were costly, I think we would have a better appreciation of it. We are all prone to undervalue what is free. No one may dare hope to be beautiful or well who has not the knowledge of breathing.

"And no one can be really lovely without a happy heart. Happiness is the supreme beautifier. It is a glorifier."

I add a hearty indorsement to this voman's opinions. Until we learn to breathe we are

Until we learn to breathe we are vasting time trying to achieve beauty. This is most particularly the time of the year when we need to clear our lungs of all impurities and fill them with tresh fuel.

Science has figured that each and every adult needs 2000 cubic feet of air each hour. Less than that means creathing over stale air and storing the system full of poisons. It means making the nicest kind of a nesting place for germs. It means dulling our minds and weakening our bodies and making us generally inefficient.

It means having bleary eyes and sale

generally inefficient.

It means having bleary eyes and sallow skins and pimples and red noses and colds. There is no beauty lotion made strong enough to undo the damuge worked by breathing bad air.

There are many rules for what is known as "rhythmic breathing." Of them, I think the best is to inhale during the time of seven heart-beats and hold the breath during four, Then canale during seven and rest, relaxed, during four. If you will try this a few cxhale during seven and rest, relaxed, during four. If you will try this a few times, you will catch the fascination of h. It will give you the sensation of new life and energy and set your being in harmony. Don't think to snort in a whiff of air and use muscular contraction to pouch out the chest means deep breathing. Real breathing means gradually filling every cell of the lungs and setting the effect of the lungs and setting the effect of the breath way down in the waist muscles.

As for happiness, it is a beautifier because it sets the body and mind in tune it stops worry. It alids digestion. It changes the expression of the face Perhaps it is not possible for all of us to be perfectly happy, for the gift of perfect happiness is not given to many but I do contend we can all make the effort to be cheerful.

Advice x x to Girls By Annie Laurie

My Dear Miss Laurie:

I think you are the one who can heip me most in this affair.

I am deeply in love with a man I am deeply in love with a man several years my senior and he says age does not matter. I feel that way about it, too. I believe he thinks a lot of me, for he tells me so himself, and I just think the world of him. Does it do any harm if I show him my regard. I am afraid if I don't show it he will think I want to be clear of him, and he might leave me. Please do advise me how to act sincerely yours, BROWN EYES. P. S.—He is 25 years old and I am 18.

HY, Brown Eyes, you gaw me quite a shock. I was just going to write you a deep deadly serious letter all about De cember and May and how terrible was for them to try to marry each other, when I happened to see you little whispery postscript.

"He is 25 years old and I am 18." What fearful difference do yes think eight years makes between you in the name of common sense? Most men are younger at 25 anyway than a girl is at 18. Men are never muck more than grown-up boys-sh-h, that's a secret and a very valuable one; don't ever let a man know that you know it. And 25, why, I thought by the way you spoke he was 70 al the very least.

Don't you know that most men don't know their own minds at all until they're at least 25, and haven's you heard that in most highly civilized communities the girls do not marry these days until they are some, where between 25 and 30? What on earth would you want with a boy of 18, tell me, pretty maiden?

Why shouldn't you show him you like him, if you do like him; if he is in love with you why shouldn't you be with him-if he intends to marry you? But I wouldn't do too much presentgiving if I were you; that's the man's part of the courtship. Let him do the giving and you do the thanking. Don't be worried-he won't "leave" se easily as you fear. Love is just about he strongest chain there is, and where t binds there is little that can be

No complaint of misrepresentation has reached. We are heart and soul with the recent resolution passed by the Orange body, which pledged itself to see that Ireland was not separated from the empire. Does The Telegram want us to do more than that?

Was it not Rev. Dr. Kane, the Ulsterman, who threatened to kick Queen Victoria's crown into the Boyne if the Irish church were disestablished? People of hot blood and excitable temperament like the editor of The Telegram are apt to say picturesque things like that, and while the editor of The Telegram may not be a typical Ulsterman he undoubtedly gives expression to the kind of things he thinks typical Ulstermen would say. The real Ulsterman is not so loquacious about his actual sentiments. We beg leave to refer The Telegram to George Birmingham's (Canon Hannay's) book "The Northern Iron." Canon Han-

As Canadians we desire to see fair olay in Ireland. We do not think bullets will lead to fair play. They have not done so in the past. We believe that Ulster is profoundly capable of governing the rest of Ireland, but this could only be thru united co-opera ion and home rule in the Ontario sense. It took a little brush in 1837 to get a clear point of view in Onland, but it is impossible to predict what may be the result of outside meddling. If this be "a riot of misrepresentation" The Telegram may make the most of it.

as a Cook's tour guide on such state occasions. When the Tramways Company furnishes a special aldermanic car, Crepeau holds the bag.

"The city hall is a sweet-scented sink-hole of pollution if men like Crepeau speak the truth. Their greedy official hands take toll of contracts, levy tribute on ordinances, and prey upon the poor city laborers. Graft upon the poor city laborers. Graftgraft—graft, is written over the door days, on the lintels, and on the door

Named Three Aldermen. In regard to getting civic contracts. Mr. Crepeau is reported as telling the Burns agent, whom he supposed was a contractor, that he had some "pull." Mr. and Mrs. B. Webber, Meredith Michael Judge," he added, "will suppressent, and Miss Isabel Cassels have port me. You will have to pay for work in order to get it. I can get the work in order to get it. I can get the three aldermen I have named on our side."

In engaging Crepeau, the Burns man professed that he wanted advance in-formation regarding the probabilities of the Street Railway Company, whose president is E A. Robert, and the Autobus Company, getting franchises, as he was anxious to get a little of the stock. Crepeau professed his ability to give the information and said he was sure the street railway would get its franchise in the end.

Held Over Application.
According to Mr. Beck's article,
Crepeau added: "I was talking to Mr.

LUBBS

No

or council to do this until after the elections. And they will not take the matter up at Quebec at this time. Robert told me this himself only a short time ago. After the election they will put the thing thru. They are afraid it might defeat some of the aldermen and members of the board of control if they voted for it at this time."

Said the Burns man to Crepeau: "I want you to be a good fellow at Quebec and buy the boys some wine for our bill. If you could get some of the people up there for our bill I wouldn't mind paying them \$1000. Now I am gains to give your work." mind paying them \$1000. Now I am going to give you expense money." Here Mr. Sampson (otherwise a Burns detective) produced a roll of bills. "There is one hundred dollars, besides that I will carry you on my list and give you a salary," handing the second assistant city clerk \$100 in graft money.

Accepted Money.

"Thank you," said Crepeau, as he accepted the money and put it in his pocket. "All right I will do anything you want me to."

Incidentally Crepeau is alleged to have tried to get the Burns man to take up a bill that another company was interested in giving rights to a race track with liberal privileges at a suburban place, incorporated under the Township of Baie D'Urfe. But caution was advised, inasmuch as Crepeau was reported as saying:
"No, the mayor and the aldermen of
Montreal are all scared to death of

newspapers. In this other place (Baie D'Urfe) you can get anything you want. Gouin the prime minister, owns a lot of property there."

This is how Mr. Crepeau advised the detective to proceed with his bill: "The way to get it thru is to say that the profits will be divided between charitable institutions," said Crepeau. "That's the way to get these things thru. Say the profits are for charity." Crepeau is recorded to claim power thru the fact that he played with both sides of the civil administration, that is to say, with the board of control on one side and the city council on the

Mr. Beck concludes his long article ows: "Crepeau made several other calls upon the Burns agents, both in Mont-real and in Quebec. On Dec. 23 he called upon Sampson in the Duluth building and received a nice Christmas present in cash as a reward for his faithfulness. On almost every occasion when he was asked he repeated his assertion that the Tramways people footed the bills for the aldermanic lobbyists on their visits to Quebec."

The city council happened to be in session this afternoon when Mr. Beck's new paper appeared on the streets, and Mr. Crepeau at once addressed a letter to Mayor Lavallee asking the council to suspend judg ment on the accusations made against him. He added that he would be able to vindicate his honor.

Demanded Explanation.

Ald. O'Connell moved that Mr. Crepeau be brought before the council forthwith to explain the matter.

forthwith to explain the matter.

Several members objected to proposal, on the ground that powers of the council in relation to such charges were indefinite. Ald. O'Connell, however, persisted in his motion. "My name is mentioned in this report as having been re-peated by Mr. Crepeau to these peo-ple," said Ald. O'Connell, "and I tell the council straight that unless Mr. Crepeau is brought right now I will tomorrow morning take out a warrant against him."

Asserted Innocence. Mr. Crepeau was thereupon sum-moned and he asserted his ability to

vindicate his honor and disprove the charges. Mr. Crepeau said he had already instructed his lawyer in the matter. The article, he said, was a tissue of malicious and criminal allegations made for the purpose of ruining his reputation and blasting his career. The council decided to ask the city attorney to give a written opinion defining what powers the city coun cil had to take action on the charges made, and the mayor was instructed to call a special meeting on Wednes-day next for consideration of the

attorney's report.

The revelations, it is expected, will have an effective bearing on the civic elections, which take place here of

all pure Virginia leaf, free from any artificial flavoringa cool, mellow smoke.

ing the finals, and the games are becoming harder every time out. Last night at Ravina Rink a semi-final and Northern League winners, 6 to 4, at the Arena. It was a grand little tussle all the way, with the Dutchmen's weight turning the tide in the second half. The Londoners had the better of the play in the first half, and showed more speed than any team that has played at the Arena this season. Berlin came fast all the way, stopped up the college boys and were doing better at the finish than at any time during the contest.

Both teams showed pretty combination furnout, with London at times trying too much passing, especially when in close to the goal. McAvoy was the speedlest man on the ice, and went the full route at top speed. Dave Reld gathered all the London tallies and checked nicely. He was the only man for the losers to bore in close to the net. Gillies was good in spots, and Schumacker did his best work in the first half.

Truschinski was a horse for work, and his lone rushes carried him to the net every trip. He checked hard and kept stating the London torwards into the fence thruout. Boettger didn't strike his stride until the second half, and then he had it over every man on the ice, Soleman fitted in nicely into the team play and scored three goals.

London combined in telling fashion in the first round, and, with fast breaking, had it over the Berliners. The college squad led at half-time. 3 to 2. Berlin's second tally coming after the timer's generated the second thalf, and then he had it over every man on the ice, Soleman fitted in nicely into the team play and scored three goals.

This afternoon at the Arena the senior and juvenile series will also reach the semi-finals, when three games are staged. The first game will start at 2 o'clock sharp, with Broadviews of the Beaches League and the Mail Order team of the Eaton House League holding the centre of the stage in a senior battle, while at 3 o'clock Kew Beach, senior champions of the Beaches League, will endeavor to dispose of the Vermonts of the Civic League. At 4 o'clock Aura Lee and Westmoreland will meet in a semi-final juvenile game.

Opening of Competition at Hartford for American Honors.

HARTFORD, Conn., March 20,-Com etition for the American figure skating hampionship of America, and in two ther championships was begun here tonight on the Arena ice rink. As the judging is done on both free and prescribed figure skating, the decisions will not be given until tomorrow, competitors being required only to skate on form today. The contests are the first to be held in this country under the international style recently adopted by the Skating Union of America. They are restricted to amateurs.

In the ladies championship competition on prescribed figures, the contest today narrowed down to two members of the skating factory Club of Boston—Miss E. E. Rotch and Miss T. Weld. They will meet tomorrow for the championship are: Norman Scott of Montreal, Dr. Kingsley Field, N. W. Nies, L. W. Howland and A. W. Atkinson of the Skating Club of Boston, and Vincent Winn, of New York.

The third championship is in pair skating for the first time in the U. S., and the entrants in the preliminary figures were: Miss Chevaller and Norman Scott of Montreal, Miss Weld and Mr. Niles of Boston, Mr. and Mrs. Ivving Brokaw of New York, Miss Crocker and E. M. Howland, and Mr. Scott of Montreal, Mr. and Mrs. E. E. Rotch and Mr. Crocker of Boston.

This was followed by a competition in waltzing, the couples being Miss Chevaller and Mr. Scott of Montreal, Mr. and Mrs. E. E. Rotch and Mr. Crocker of Boston.

Championship Hockey FIGURE CHAMPIONSHIPS Over in Toronto for Year

The championship hockey season, amateur and pro., is at an end so far as Toronto is concerned. Lester Patrick's Victoria team disbanded here yesterday, the players departing on their several ways. Toronto may hans together for another week and are negotiating for games in New York either with the touring Vancouver team or the winners of the pro. series now on in Gotham. Sydney, the Maritime League champions, have abandoned their challenge for the Stanley Cup, and unless Torontos arrange to go to New York, will disband.

Here is how they will distribute themselves:

Harry Holmes—His home is here.

C. C. Wilson—Back to Ottawa.

John Marshall—To Montreal.

Harry Cameron—Home to Pembroke.

"Con" Corbeau—To Penetang.

George McNamara—Back to his electrical businiess at Canadian Soo.

"Cully" Wilson—He is a Winnipeg boy but will stay in Toronto and play lacrosse.

Frank Foyston—Barrie will be his sume

NEW CRICKET SHIELD FOR THE RUNNERS-UP

C. and M. Committee Prepare for Annual Meeting-Six New Clubs.

The Church and Mercantile Cricket

League will this year have 17 clubs. • The

committee held a session last night and put things in shape for the annual meeting, which will be held at Mr. Eastmure's residence, 110 Pembroke street, on Saturday, March 28, at 8 p.b. An interesting discussion is expected on proposed changes of the rules.

The committee decided to recommend that in future the Eastmure cup be presented to the champion club at a smoker, to be held not later than two weeks after the close of the season.

A new shield of beautiful design will be given for the runners-up, thus assuring trophies to the champions of both sections. Six new clubs were recommended for membership, viz, St. Mathews, East Toronot, Woodgreens, Olivet, St. Marks of West Toronto and the Albions. It was impossible to recommend the admission of Newmarket and other outside clubs that had applied, and thus St. Georges, Oshawa, will have to be dropped. The clubs remaining in the C. & M. are: ing, which will be held at Mr. Eastmure's St. Georges, Oshawa, will have to be dropped. The clubs remaining in the C. & M. are:

Western section—Dovercourt, Old Country, St. Edmunds, St. Cyprians, Yorkshire Society.

Eastern section—St. Davids, Eatons, St. Clements, Bedford Park, Toronto Electric Light, Evangelia.

After this year the entrance fees must accompany all applications for membership.

Torontos Must Defend Stanley Cup Challenges

OTTAWA. March 20.—(Special.)—
"There is nothing to all this talk about a disagreement over the Stanley Cup," stated Wm. Foran, cup-trustee.
"The cup trustees made all arrangements with Mr. Emmett Quinn as regards the handling of the trophy by the two big leagues, and I understand that they have arranged everything amicably. We will not forbid any team defending the trophy wherever they will, providing it is on Canadian soil. The N.H.A. champions are quite at liberty to defend it at the coast."

ocast."
Mr. Foran further stated that Mr. Quinn had agreed that the N.H.A. would abide by the rules of the trustees in regards to defending the cup. This means that the Torontos will be required to defend the silverware if the challenge of the Sydney Maritime League champions be pressed.

provements to Lansdowne Park will be made by the Ottawa Baseball Club before the opening of the Canadian League season, on which the curtain will go up with the Toronto team as visitors on on Thursday, May 14.

The the Ottawas have many worries on their hands just now, Lansdowne Park will receive special attention. Manager Frank Shaughnessy signed up a lease yesterday with the Central Canada Exhibition Association.

As there were no other applications for use of the field, lacrosse being a dead issue here, it looks as if baseball would hold full sway in Ottawa. In other years the Ottawas had to scramble for the dates. Last spring there was the professional soccer club and the Ottawa Lacrosse Club also had to be accommodated, and they do not seem to think they are an attraction any more.

LONDON, March 20.—With startling suddenness the outlook in Ulster has become one of great gravity, and predictions are freely made that the long-threatened "war" is now only a matter of days. A rumor was current last night that the British Government is preparing for the military occupation of the province.

The atmosphere in Ulster itself has grown suddenly electrical. Important developments may occur there at any moment and sinister rumors abound.

Military Strengthened.

There are several signs and portents indicating early and momentous action on the part of the government. The guards have been doubled and the garrisons strengthened at the military barracks, in accordance with the intentions announced early in the the intentions announced early in the week, with a view to preventing possible raids for munitions of war by the "Covenanters," and it is persistently reported that the arrest of the leaders of the Ulster volunteer force is imminent.

Meanwhile there is unusual activity among the Ulster volunteers. Forty members of the motorcyclist corps left Belfast yesterday under secret

Dopraved Conduct in Home.

Acting Commissioner Graham proceeded with the case of a five-year-old daughter of a deaf and dumb couple. The charge was that of depravity and immoral conduct in the home in the presence of the child, whose life is also in danger at times, due to the mental deficiency and conduct of the mother. The woman, who is suffering from blindness, is to be cared for at Bellamy Home until a suitable place is found for her. The husband is employed at the Polson Iron Works, where he earns good wages. MRS. W. N. KELLY

HAGERSVILLE, ONT., Aug. 26th, 1913. "I can highly recommend 'Fruit-a-tives,' as they did me an awful lot of good, and I cannot speak too highly about them. About four years ago I commenced taking 'Fruit-a-tives' for a general break-down, and they did me a world of good. We bought a good many dollars' worth, but it was money well spent, because they did all that you claim for them. Their action is so pleasant, compared with other laxatives, that I found ONLY pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women, on account of their mild and gentle action, and I trust that some other women may start taking 'Fruit-a-tives' after reading my letter, and if they do. They have interfered with our business and neglected their own. They have repeatedly blocked our efforts to administer the city's affairs to the best of our ability. I do not denote the control of the control

appointment.

"The aldermen claim that they are looking after their business, and that the board of control is a nuisance. If this be so, how comes it that the new building bylaw drafted over two years ago still lies unpublished, when its putting into effect would make for greater safety for the citizens? What about the new health code commencement. the new health code, commencement upon the compilation of which was started at the first meeting of the present council over two years ago? The health code has been finished for months yet have the claims of the present the code has been finished for months yet. yet have the aldermen displayed any anxiety in having it made public? They never ask about it, and

"I do not pretend to outline the form of administration Montreal should have," Dr. Lachapelle continued, "let it have." Dr. Lachapelle continued, let it be a commission, a board of control, or a board of directors of seven or nine members. But I certainly maintain that under existing conditions a proper administration of the city is an absolute administration of the city is an absolute into a proper lateral points of interest occupied the attention of the French public today in connection with the recent assessing.

York County Highway Commissioners submitted a statement for 1913,
showing \$95,593.58 expended upon construction and \$16,685.25 on maintenance. The city had paid \$20,000 towards its third of the expenses for con-

struction and \$16,685.25 on maintenance. The city had paid \$20,000 to wards its third of the expense for construction and has a balance of \$12,000 to pay. Also \$3000 will be paid by the city for its fifth share of the cost of maintenance.

Commissioner Harris recommended that the bill in the legislation to compel the city to supply water to York Township be opposed, inasmuch as the city plant is only large enough for the city be an outside the city to oppose the city to oppose

"There should be a board made up of representatives of the three townships to co-operate with the city council," said Reeve Silverthorne. "The Humber valley is between the city and Etobi-coke now, but when the Home Smith subdivision is annexed the city will be across the Humber and into our township. That will bring us an overflow of population from the city and the need for water and a sewerage system. It would be better to meet the problem for the three townships now by planning for a greater Toronto. Engineers should be put into the field at once. Any plan for being content with connecting an outside system of sewerage with the city system in the meantime would be starting at the wrong end. To start at the right end we should begin arranging a broad scheme for sewage disposal for the three townships, and for a water supply and for electric light and power.

'Of a certainty the city must get hold of the Interurban Electric Company's system if the Humber valley tract is

ships and the city want to plan for a

would be to annex York Township, said Ald. Wanless. said Ald. Wantess.

"We may need legislation before we can go ahead with any plan of cooperation between the townships and the city," Ald Smith said.

"Our people would say we would be paying for a report on a plan for a greater. Toronto," Reeve Syme said. "Annexation is the easiest solution of the problem."

"Do you agree upon combining to get a report upon a plan of water supply and a sewerage system?" Ald. Wickett

enquired.

"The problem is plaintly that for York Township and Toronto," said Ald. Wantess fait Scarbero and Etobicoke will soon be involved."

It was then decided to combine for a report if the retenance of the town It was then decided to combine for a report if the ratepayers of the townships do not object and to get from Commissioner Harris the estimated cost of preparing a plan for water supply and sewerage system for the three townships. Another conference will be held in a few weeks.

NEW LOW RECORD FOR BRAZILIANS

Stocks of the Two Foreign Prospect of Favorable Deci-"B's" Again Pressed For Sale.

terday morning in the easiest kind of way, and the former made a new low record at 77.3-4. London was again blamed for the further depression in these stocks, and there appeared to be a foundation for the statement. Reassuring articles as to the financial position in Brazil are failing to stem the stampede and in the meantime local brokers are under the strain of furnishing a protection against loans to at least as low as 60.

The whole market was affected by the weakness of the foreign securities, but 'liquidation was not very extensive and prices maintained a fair degree of steadiness.

Rogers was offered down to 122 exdividend, but without transactions.

During the afternoon a firming up in the New York market had some influence here and a little rally developed in Brazillans and Barcelona, but the buying was only that of traders.

Investors have temporarily been rightened from the market and this support therefore cannot be counted on.

At the close there was no assurance that havidation in the speculative issues had been completed.

AMERICAN ISSUES

QUIET AT LONDON

today.

The stock market opened irregular and weak especially in the British and South American sections under further liquidation. The home rule crisis weakened consols, and they lost half a point. The 'market picked up a fraction generally near the close on covering, but finished unsettled. American securities were quiet and featureless during the forenoon. Later the list hardened on light buying and closed steady.

NEW YORK. March 20 .- An adwas associated with intimations from Washington that the administration favored an advance in freight rate for the eastern lines. Speculative opinion for some time has inclined to the belief that the railroads would the belief that the railroads would obtain part if not all, of the five percent increase sought, so that the overnight despatches from Washington were readily accepted by traders. Railroad shares were bought steadily thruout the session and prices advanced in a quiet even way, which indicated underlying strength. Industrial stocks held back for a time, but at last joined in the upturn, altho their gains as a whole were less important. The market was slow in getting under way, chiefly on account of renewed pressure from abroad. Cross Currents in Market

Mining stocks were somewhat irregular yesterday, but altho prices eased in a few issues, others were strong. These cross currents indicate a most natural marnow and are the best evidence of the vitality of the market as a whole. Those stocks not heavy. Great Northern is being bought and this will force the price up. We peterson Lake on the present, or any further reaction. The present spell of ease is merely preliminary to a continuance of the upward movement.

d somewhat heavy at a decline to 1-2c for the day. Wheat showed a net loss of 1-8c to 1-2c and eats were unchanged to 3-4c down. In provisions the outcome varied from last hight's level to an advance of 5c. poration ADA was apparent that the edge was the corn market, at least for the time being. Notwithstanding that mins still threatened the full success of the Argentine harvest, offerings from Argentine were said to have greatly increased and there were reports that nearly a million bushels of argentine corn had been bought in 24 hours for the United States. Simultaneously Misseurl River dealers sent word that evernight sales to feeders had suddenly fallen off, and advices from the east said cash buyers in that freetion were not following the prethis spring. Random Notes on the Mining Stocks.

Sugars are quoted in Toronto, in bags, per cwt., as follows:
Extra granulated, St. Lawrence. \$4 21 do. do. Redpath's 4 21 Beaver granulated 4 11 No. 1 yellow 3 81 In barrels, 5c per cwt. more; car lots, 5c less. The mining market was slightly under the influence of the depression on the Toronto Stock Exchange yes terday and traders tried their hands at short selling in a few issues. This action was effective in making lower quotations, but the small amount of actual stock which came into the market for sale prevented any attempt at drives. as a bull argument. Those looking to
the future, however, argue that the
re-opening of the property is a big
thing and that by reducing the present capital by half and leaving 1.
000,000 shares in the treasury sufficent treasury stock will be available
to put the Jupiter company in a position to raise all the money necessary for development purposes.

A deal is under way for the Roches-Yester, Last wk. Last yr. Wheat, this week, 8,000,000 bushels, against actual shipments last week of 8,968,000 bushels. Of this total Europe will take about 7,210,000 bushels.

Erickson Perkins & Co. (J. G. Beaty), 14 West King street, Toronto, report the following fluctuations on the Chicago Board of Trade:

MONTREAL, March 20.—Negotiations are in progress for the purchase of the Prudential Mines property at Elk Lake by an English syndicate, which last summer sent an engineer to visit this and several other properties in the silver camps. The Prudential property is made up of five forty-acre claims, adjoins the Elk Lake townsite, and is about half a mile from the railway station. A number of Montreal and Toronto people have been interested in it for some time.

Much of the capital now going into Porcpine has come from Cobalt. The Timmins-McCarthy-Dunlap Syndicate were among the pioneers of the silver Porcupine. And the marked success of the Hollinger, which they now control has done much to prove the great value of the new gold field.

The "Dome" people are mostly Americans, the they were firmly anchored at Sudbury before moving to Porcupine. Their 80 stamp mill, now mearing completion, is undoubtedly the most officient and modern in the

struction. It will soon be crushing 1000 tons of ore per day and when the low grade odds and ends of the big "glory hole" are cleaned up and tho real vein material, which is now blockdeeper levels, the Dome will beyond doubt prove very profitable to its shareholders.

The Crown Reserve of Cobalt took up the McEneany at an early date. This 40-acre prospect was then for the most part masked with a heavy overburden but ample capital and that

disease.

SEEDS, LIKE EGGS, the more direct they go from producer to user, the less they cost, and the better they are. The more middlemen handle the greater the delays, and the weaker the life germ or bud. Many tested seeds won't even sprout outdoors. You don't want chicks to just "Cheep" and die or seeds to just sprout and rot. You want them strong, vigorous, making big, lusty crops, be it chicks or vegetables. Then you must have fresh eggs, and fresh seeds direct from producer to user.

We offer direct importations from Growers, not dealers, Fresh New Crop Seeds, direct to you, just our one small profit between you and them. Better Seeds for Less money. The 30th Century way of doing business.

DECIDEDLY it pays to get OUR list before buying a thing.

IMPERIAL SEEDS, Regd.,

valuable "intangible asset" known among men as "the Carson luck" eventually worked wonders. Now the Porcupine Crown, the present owners, have a 5 ft. vein carrying \$70-ore below the 400 ft. level. This can-

at drives. An accumulation of short property is very favorably situated on contracts will be a splendid basis for the great mineralized zone which exanother upward movement, which is expected to follow when the market pine Crown on the west to the Dome has again become settled.

The arrangement with the McKin.

A deal is under way for the Rochester property in Cobalt. Two orders are being considered, but President Poucher has not yet prepared any statement on behalf of the company. On good authority it was stated yesterday that R. B. Lambe, consulting engineer of the Peterson Lake Company, and E. Segsworth of the Seneca-Superior were in London, and that a deal for the both properties was expected to be consummated.

MONTREAL, March 20.—Negotiations are in progress for the purchase of the Prudential Mines property at the largest owners of mining ground in Porcupine, having altegether about 2,000 acres in scattered blocks in Tsdale and Deloro. In its early stages of development they purchased 50,000 shares of Hollinger at \$5 per share, and 50,000 shares at \$7. The profits on resale were over \$500,000, which met very nearly the entire cost of the 2,000 acres. Then they pulled out of Porcupine for the time being and hied away to California, where after spending \$200,000, they uncovered moderately payable ore about 2,000 ft. down in an old abandoned property. Now they are patiently wasting until work on surrounding walting until work on surrounding properties make their Porcupine hold-

ings more valuable.

The Scottish-Ontario followed the example of Bewick, Moreing & Co., and withdrew for the time being from and withdrew for the time being from the great Canadian gold field. This and the big fire of 1911 has dampened the arder of English investors to a considerable extent. But the big Lendon house of Ehrlich & Hamilton has now obtained a foothold and English capital is again becoming interlish capital is again becoming inter-

and choice vegetables ready to plant out in May. Procure a heap of fresh stable manure, turn it several times for a week or more so that it heats evenly, place a trame 6 feet by 3 or larger on top; add a layer of seil and then put a glass cover on your frame.

You may produce succulent radishes and lettuce while frost is still in the ground outside. You may grow robust little plants of tomatoes, cucumbers, cabbage, oelery and others, ready for the Spring. Dozens of beautiful flowers, too, like asters, stocks or salvias, are produced in this way. Your hotbed anticipates the Summer for you, in fact,

Opening Consisting of Pattern Hats direct from Paris and New York, will take

the centre of the stage on Monday. Many new features have appeared during the month since earliest Spring openings were held. Paris has evolved more than one new mode, and the adoption of several new shades calls for attention.

Easter Millinery

For Easter and Later Wear, we are holding a special opening, showing modes which are making their debut abroad just now, and others which hail from New York. Every mode shown is authoritative, and a splendid array of advance models is to be included, things that would ordinarily appear only after the early Spring offerings were over.

From "Louison" and "Marguerite et Leonie" come quaint pattern hats which aptly illustrate the slant effect, with high back bandeau, and the vogue of cornflowers and corn-

Leontine contributes a charming model which will be the season's choice in a dress hat for girls and young women, the "Butterfly." The brim is of lace, with high flare at the back over a bandeau masqued with ribbon

Montagnard, the new peacock greens, mastic, bisque and beet-root are a few of the newer tones. Tappe of New York contributes a new type of poke, using tiny currants to trim.

Other New York Pattern Hats include clever turbans and toque effects, and the small hats with novelty brims are legion.

Come and try on those that appeal to you. The department is arranged for your pleasure and everything will be displayed freely.
