FOUR POLICE OFFICERS GOT \$2,400,000 GRAFT IN A YEAR CONFESSION OF GAMBLER ROSE

"Bald Jack," Who Confesses He Collected Money For Lieut. Becker From Illegal Resorts, Says Becker and Three Other Officials Divided Spoils Equally—Four Separate Bureaus for Obtaining Rake-Offs Maintained—Immunity For Becker If He Reveals All.

NEW YORK, July 30.—(Can. Press.)—Sworn statements tending to show that the annual graft collected by high police officials in New York City from gambling houses and other illegal resorts within the last year was \$2,400,000 are in the hands of District Attorney Whitman to-night.

Three Other Officials Named

Mr. Whitman, it was learned, has the names of the other three police officials whom Rose has named and his further efforts in this now most sensational "police exposure" that New York has ever seen will be directed toward strengthening the evidence which points against them.

The name of a former prominent city official has been brought to the attention of the district attorney as having been closely connected with the "graft system" but it was learned that the evidence thus far obtained against him is not of a tangible nature.

The evidence, however, is being closely followed by the detectives in the employ of the district attorney.

Price of Becker's Freedom. It also became known to-night that if Lieut. Becker will sell all he knows, not only in respect to his own alleged complicity in the murder, but will unfold the inner workings of the graft system in so far as it may involve the "men higher up," he will be granted mercy, and on that condition only.

The alleged fact of the \$2,400,000 graft fund was told to Rose by Becker, the little, bald-headed gambler, said in a sworn statement to-day. Becker, he said, told him that he handled \$400,000 a year, and that equal amounts were handled by three other officials. This, he said, came in collections from gambling houses, poolrooms, houses of ill-repute, and the like.

Rose said he had collected gambling graft for Becker for months, and he promised the district attorney that he would obtain for him the rates paid by gambling houses, make a tabulation of what these receipts amounted to monthly and yearly, and how the money was handled. That there were other collectors besides Rose, is the assumption of the district attorney, who hopes to identify them.

Becker, he said, gave him liberal commissions for his work. "Becker told me that he was the prince of the police department," Rose said. "He paid me liberally out of my collections, but I never was able to keep what I got. I was a fool gambler, and gambled it all away."

Part of the business between the gamblers and the police, the district attorney was told, was boldly done thru cheques, although his efforts to secure evidence in this form have proved fruitless.

"Bridgell" Webber, the gambling house keeper, who has also confessed, and whose story largely resulted in the arrest of Becker, promised Mr. Whitman, it was learned, to corroborate Rose's statement in regard to the collections. Incidentally, Webber to-day admitted to the district attorney that \$2000 was the sum which he received to pay the men who actually fired the shots which killed Rosenthal.

District Attorney Whitman this afternoon fulfilled his promise to Rose, Webber and Vallon, the three gamblers who confessed yesterday, to have them transferred to another prison than the Tombs. They were taken from the original courts building in a locked and heavily guarded prison van to the west side court prison. The gamblers told Mr. Whitman they were sure that the Tombs was filled with "stool pigeons" and that they would be blackjacked if sent back there after making confessions.

Patrolman File Exonerated. At the trial to-day of William J. File, a patrolman, charged with having failed to take prompt and efficient measures to arrest the murderers of Rosenthal, two of Rosenthal's table companions at the Metropole on the night of the murder, John J. Hickier and Christian, alias "Boob," Walker, testified that File had manifested every sign of anxiety to get the prisoners.

ASQUITH WILL VISIT CANADA SLIGHT INCREASE OF METHODISTS

Will Accompany Churchill on British Dreadnought and Confer With Canadian Cabinet at Ottawa.

LONDON, July 30.—(Can. Press.)—The London Daily Mail states that it is now understood that Premier Asquith, the first lord of the admiralty, will visit the Dominion after the return of Mr. Borden and his colleagues, but the date has not yet been definitely fixed.

ANY festive that has been felt by some sections of the French-Canadian population might be removed by the speeches which have welcomed Mr. Borden and the Canadian ministers to Ottawa, which will encourage them in their demonstration, and out of comparison to the French Canadians, Quebec would be an ideal place to hold the celebrations.

Host of Graft Charges

NEW YORK, July 30.—(Can. Press.)—Another development of to-day, in which many persons professed to see a sidelight upon the investigations started as a result of Rosenthal's murder, was the resignation of Raymond R. Fosdick as commissioner of accounts of the city. In this capacity Mr. Fosdick has been the chief investigator of the administration. Before his retirement was announced Mr. Fosdick said that for months past he has been receiving as many as 25 letters a day, alleging that there was graft in the various city departments.

TURKISH CABINET GIVEN SUPPORT

Promise to Start Peace Negotiations Allays Ill-Feeling—Threatened to Resign.

CONSTANTINOPLE, July 30.—(Can. Press.)—The new Turkish ministry received a vote of confidence in the chamber of deputies to-day after it was announced that the government was willing to enter into peace negotiations with Italy, and the new ministerial program had been read. The government was sustained by a vote of 115 to 48, after the grand vizier had declared that the government would resign unless parliament gave its sanction to the program.

Representatives of the committee of union and progress, constituting a majority of the chamber, sought to delay the vote by proposing various qualifying amendments, but the government adopted a firm attitude and insisted upon an immediate and unqualified vote. The result showed that the committee was afraid to provoke a conflict which might furnish a pretext for dissolution. It is understood, however, that the government contemplates submitting to the chamber tomorrow a bill reinforcing the sultan's prerogatives in the matter of dissolution, thus forcing the chamber either to vote its own extinction or provoke a conflict with the same result.

SON ACCUSES FATHER

Arson Charge Brought Against Sharbot Lake Farmer.

KINGSTON, July 30.—(Special.)—Shortly after the home and barn of George Offord, near Sharbot Lake, was destroyed by fire, Offord was placed under arrest, charged with arson. It is alleged that just before the fire was discovered, Offord was seen coming out of the barn with an oil can. His son swore out the warrant for his arrest.

Disagreeable Facts of Harmful Effect of So-called Prohibition, Which Causes "Blind Pigs" and Other Vices to Flourish, Will Scarcely Reach the Ears of Touring Liberals.

COBALT, July 30.—(Special.)—The visit of Mr. N. W. Rowell and his Liberal following here ought to be productive of some educational results. Naturally, when a party of legislators or investigators formally visit a town, the most agreeable side is presented to them, and disagreeable truths are not

obtruded upon the welcome. The visitors see only the bright, gala phases of the industrial and social factors, and if the visit of observation is a very brief one, as this is, it can hardly be expected that the visitors, however much they seek information, can learn much of those underlying conditions which necessarily are not visible on the surface.

Short as their stay has been, however, it is probable that Mr. Rowell and his following have, in the course of sundry conversations, learned at least something of social conditions in Cobalt. No doubt, in order to avoid making slips later in the speeches that he will deliver in the older parts of Ontario.

CIVIC ABATTOIR AND SIDINGS IN STANLEY PARK

Joint Conference of City Officials and Drivers Decides to Prepare Plans for Large Municipal Distributing Plant With a Capacity of About 1500 Head Weekly.

TO GO SOUTH OF KING ST.

That Stanley Park would be the best site for the proposed civic abattoir, that siding facilities should be provided, and that the new cattle market should be up-to-date in every particular and have a minimum capacity of 1500 head a week, were recommendations passed at a special meeting of representative cattle dealers, members of the civic council and civic officials at the city hall yesterday afternoon. It was also decided that Dr. Hastings should communicate with W. R. Perrin, Jr., of this city, with reference to securing data and specifications necessary to draw up the plans. After Controller McCarthy had been elected chairman, the possibilities of the new cattle market were discussed on a trade standpoint, and the dealers present claimed that in time the business carried on with outside points would be larger than the local trade. With this in view and taking into consideration the competition with other cattle markets, it was urged that the very best siding facilities should be provided. This was the first point decided upon, and it was agreed that the city should make all the necessary arrangements with the railways.

Stanley Park Best Site.

At their meeting, held in the morning, the drivers were unanimous that the section of Stanley Park south of King-st., would make the best site for the new abattoir. This suggestion was agreed upon by the city representatives. It was shown that it would be the most convenient location which could be secured. A service could be obtained from all the railways, and its proximity to the local trade was another big asset. Again it was shown that if this arrangement was made, the abattoir building could face on King-st., at which section the offices and salesrooms could be placed.

Handle Large Supply.

Regarding the capacity of the new market, it was agreed that it should be able to handle 1500 head of cattle a week. This number will be above the requirements at first, but it was believed that the trade requirements in the future will warrant such provision being made. The plans are to be drawn up to provide every facility, and Aid. O'Neill, Aid. Rowland and Charles Mabee were appointed a special committee to see that all the requirements were provided for in the plans.

The abattoir building will likely be constructed of buff brick, with a red tile roof. Its front on King-st. will be exceptionally attractive. The floor of the building will be a glazed white tile brick.

Those present at the meeting were: Arthur Talbot, president of the Drivers' Association; Frank Hummel, president of the Live Stock Exchange; Charles Mabee, representing the Wholesale Butchers' Association; David Walker, superintendent of the cattle market; Controller McCarthy; Aid. Rowland, Aid. O'Neill, Dr. Hastings, Commissioner Chisholm and City Architect McCullum.

HYDRO ENTERS RICH FARMING DISTRICT

Adam Beck at Uxbridge Tells Members of Midland Association How Cheap Power Will Revolutionize Agricultural Industry of Ontario—Is Cordially Received.

UXBRIDGE, July 29.—At a meeting in the Music Hall to-day, attended by about 200 representative farmers and merchants from the district around, including south to Scarborough, and north to Brechin, the Midland Association of the Hydro-Electric Power Union was formed with Mayor Norman R. Beal of Uxbridge as president, Warden D. A. Brown, first vice-president, H. P. Coulson, Stouffville, second vice-president; H. P. Cooke, Uxbridge, secretary-treasurer, and an executive committee of one member from each municipality. Among those present were: Alex. McCowan, M.L.A., Reeve Raham, T. C. Nicholls, Dr. Shier, R. J. Moore, Wm. Hamilton, H. J. Gould, Uxbridge; Reeve Smalley, Councilor Paisley, Uxbridge; Township: Robert Bain, J. R. Meyer, Scott; D. A. Brown, Geo. Will, Thorpe; J. G. Cornell, W. D. Annis, S. Arbro, A. E. Stabback, Woodville; Dr. W. A. Sangster, J. A. Heise, F. Rae, R. Miller, J. H. Ratcliffe, George Collier, Stouffville; R. C. Teft, A. Wideman, C. F. Whitby, Markham; J. High, C. Padgett, Markham Township; John Fallowdown, J. Wetherill, also stated by Hon. Adam Beck that the cost would go down with the increase of consumption, and with double the power used the price would be 10 per cent for the anticipated demand of 1900 a horsepower less. In every case the horsepower from the eight municipalities

ties in the Uxbridge division. These were approximately: Bradford, 200 h.p.; \$50; Newmarket, 400 h.p., \$40; Aurora, 250 h.p., \$45; Richmond Hill, 100 h.p., \$45; Markham, 250 h.p., \$45; Stouffville, 150 h.p., \$45; Uxbridge, 250 h.p.; Port Perry, 200 h.p., \$54.

Rates Not Too High.

It was pointed out to objectors who thought the rates rather high, that Boston was paying 15 cents per K.W. hour, and that Uxbridge would only be half as much, and that Port Stanley was highly gratified to be able to get power at 10¢ a horsepower. It was also stated by Hon. Adam Beck that the cost would go down with the increase of consumption, and with double the power used the price would be 10 per cent for the anticipated demand of 1900 a horsepower less. In every case the horsepower from the eight municipalities

CHANGING WEATHER IN WEST MAKING HARVEST UNCERTAIN

Doubt as to When Crops Will Be Ripe for Gathering in Is Causing Uneasiness, and Distribution of Army of Men Is Unusually Ticklish Problem.

WINNIPEG, July 30.—(Special.)—It is always a difficult matter to so calculate the need for harvest labor as to land the men right on the field just when they are needed. Last year quite a number of Ontario farm laborers who came west to see the country and make a few weeks' work at high wages got on the ground too soon, and as some of them were unprepared for an idle interval, there might have been serious inconvenience if the local authorities where they landed had not helped the situation out by finding work on municipal improvements.

This uncertainty as to the start of harvest is rather aggravated this season by the changing conditions. The next fortnight is all important, and given good bright weather and drying winds, a real start should be made the third week in August. Wet, inclement weather would push harvesting back dangerously near the frost zone. Light frosts are common enough around Aug. 3, but generally not sufficient to damage the wheat, which by that time should be hardening. Then a fortnight of warm weather may be looked for till real damaging frosts come, after the first week of September.

SYNDICATE BUYS LYRIC THEATRE

Talk of Its Use as a Wood-working Mill—Probably Will Be Continued as Show Shop—Price \$75,000.

Again has that home of Hebrew historians, the Lyric Theatre, on Agnes-st., figured in a realty transaction. Six weeks ago it was practically turned over, but a little technical difference of opinion set matters back. Now it is really sold. The vendor is Simon Babonvitch and Westro, Minaker and Nicholson disposed of it for him, to a small numbered syndicate, headed by D. MacLaren. The purchaser is connected with lumber interests, and it was said yesterday that the property would be converted into a wood-working mill and yard. It is however, too valuable for that—the sale price was \$75,000—and what is most likely to happen is the redecoration of the premises at the end of the present year's tenancy and its continuance as a show house.

The building is at the northeast corner of Agnes and Teravay-sts., with a frontage of 67 feet and a depth on Teravay of 100 feet.

ST. CATHARINES, July 30.—(Special.)—The Village of Port Dalhousie, which is changing to hydro-electric power, may have to resort to candles and coal oil lamps for a few weeks until the hydro system can be installed. Until the present power and lighting have been obtained from the Maple Leaf Rubber Co., which in turn has lately been obtaining power from the Lincoln Electric Co. of this city. The rubber company has now been notified the power company can only supply power and lighting to the village at additional cost, otherwise it will have to close off its service entirely. The village council think such action has been taken owing to the transfer to the hydro and have advised residents to use lamps until the hydro-electric is secured, which will take a few weeks.

ACCIDENTALLY THROWN FROM CAR IS VERDICT

Jury in R. A. Smith Inquest Comes to This Decision After Deliberation Lasting a Quarter of an Hour—Evidence Brought Out Nothing New.

GOING 15 MILES AN HOUR

That R. A. Smith came to his death thru being accidentally thrown from his motor while coming from the Lennox picnic, at Jackson's Point to Toronto on the night of July 17, was the verdict brought in by a jury under Coroner Crawford at the inquest held in the city morgue building, Lombard-street, last night. The jury were only out about 15 minutes. The evidence briefly summed up, went to show that Mr. Smith, who was riding in the front seat with his chauffeur, Herbert McKenna, had been thrown from the car when the car left the road just a few feet on the other side of the culvert, which was about half a mile north of Richmond Hill. There were two lights burning there. McKenna had swerved for the one, and then seeing the other, had swerved directly. This shot the machine into the ditch. He put on the emergency brakes, the machine came to a sudden stop, and Smith, Ross and Campbell were thrown out. Unluckily, Mr. Smith was killed. No blame attaches to anyone. The car was only going at about a 20 mile an hour clip all the way home. When the accident occurred it had slowed down to 15 miles.

JAPAN ENTERS UPON NEW ERA

"Great Righteousness" Succeeds "Intelligent Administration"—Death of Emperor Affects National Life Little.

TOKIO, July 31.—(Can. Press.)—The era of Taisai—"Great Righteousness"—has commenced. The era of Meiji—"Intelligent Administration"—closed with the accession of Yoshihito. The death of the Emperor Meiji, while causing widespread grief, has had small effect on normal conditions here. There has been a remarkable absence of demonstrations of any kind and, aside from closed banks and commercial houses, the crepe-bound flags at every entrance and evident signs of mourning by foreigners and natives alike, the nation moved along on its accustomed business.

A special chamber in the palace has been arranged for the reception of the coffin containing the body of the dead emperor. The coffin reposes on a raised dais, covered with a white cloth, in the centre of this simply furnished apartment. It was surrounded thruout the day by the members of the royal family. The emperor and empress, the dowager empress and the imperial princes and princesses formed the sole guard and kept vigil, which will be maintained thruout the private lying in state prior to the funeral. This is expected to take place about Sept. 1, although the exact date has not yet been determined.

A company of imperial infantry surrounded the palace. Thousands of prominent personages called at the palace during the day. These included the entire diplomatic corps. The Emperor Yoshihito, was occupied to-day with business of state. He conferred with the councillors, took active part in the arrangements and appointed the chief officials of his household.

IN CANADA IT'S MIDSUMMER.

It is really what you call mid-summer in Canada, and should be the time you will require a new straw hat for wear during the balance of the season. This opportunity to get something at Dineen's sale that is worth twice the price asked would prove an attraction of a very tempting nature. The Dineen Company is offering rare Panamas at \$3.49, regular value \$5 and \$6, and straw sailors at one dollar each, regular two and two-fifty value. Dineen is also sole Canadian agent for Henry Heath of London, England, and Dunlap of New York, two of the best hatters in the world.

## BECKER ORDERED GUNMEN TO MURDER ROSENTHAL

Leader of "Strong Arm Gang" Was Desperate Over Dead Man's Intention to Tell All He Knew, and Exclaimed "Rosenthal Has Lived Too Long—He Has Got to Be Put Out of the Way."

NEW YORK, July 30.—Rose and Rosenthal has lived too long. He has got Webber's confession of their complicity in the murder of Rosenthal caused a sensation in official circles that is without precedent, but the arrest of Lieut. Becker, and the placing him in the Tombs was the climax which threatened to shake the American police system to its foundations. District Attorney Whitman firmly believes that the story of police graft is as yet only half told, and the next two or three days will see the arrest of several officers higher up in the service. "Big Jack" stated that Lieut. Becker approached him, and feeling desperate over Rosenthal's intention of telling all he knew of his relations with the police department, exclaimed, "Rosenthal has lived too long. He has got to be put out of the way."

R. to-day announced the dates of the numerous harvest excursions which it will run to carry to hand the crop this year. The excursions will commence from the maritime provinces on August 12. The second, leaving on August 15, will be for the benefit of prospective harvesters in the Province of Quebec and in Eastern Ontario as far as Kingston and Renfrew. The third will leave August 20 and will be run from Toronto and west to Sarnia and south thereof, while a fourth will start on August 23 from Northwest Ontario and the district between Toronto and Kingston and Sharbot Lake.

## DRYDOCK FOR QUEBEC

Delegation Will Urge Request on Hon. Mr. Monk. QUEBEC, July 30.—The Quebec Board of Trade, together with the Harbor Commission, the municipal authorities and leading citizens of Quebec will form a delegation to interview the Hon. F. D. Monk, minister of public works, who will visit here to-morrow. They will insist upon the urgent necessity of having a dry-dock built at Quebec. The illustration of this necessity having just been given by the experience of the Empress of Britain, which will be obliged to go to England for permanent repairs. The George Davis Company of Quebec have been commissioned to make temporary repairs, and have a wrecking plant at work clearing away the tangled steel of the Helvetia, which encumbers the Empress' bow.

## BRISTOLIANS ARE COMING

Delegation, Including Lord Mayor, at Montreal To-night. MONTREAL, July 30.—(Can. They consist of the lord mayor of Bristol, with the lady mayor and Miss Wills. Mr. and Mrs. G. Palliser Martin and Henry Riseley. Mr. Riseley has taken great interest in promoting trade between Canada and the port of Bristol, and was a member of the Bristol delegation which toured Canada a couple of years ago. Sir Wm. Mackenzie is also on the Royal Edward.

## U. S. AGAIN PROTESTS

Mexico Held to Account for Injuries to Americans. WASHINGTON, July 30.—The United States has again protested to the Mexican Government, and to General Orozco, leader of the revolutionists, against attack upon American citizens and property in northern Mexico. Secretary Knox to-day officially renewed his notice of two months ago, that the United States would hold Mexico to strict account for all damages, and unofficially notified Orozco that he would be held personally responsible for damages to Americans of their property. President Madero has promised to send more troops to northern Mexico.

BROADEN DIRECT WINS THE STAKES

Fast Time in Grand Circuit Races at Cleveland—Ginger Lands a Heat and Third Money.

CLEVELAND, July 30.—Promise of fast time at the North Randall track in the Grand Circuit races was fulfilled to-day. The large crowd in attendance saw records shattered, the chief performer in this morning being Braden Direct, the black colt of Baron Direct. Entered in the 2nd race for the Grand Circuit stakes, with Logan holding the reins, Braden won the second and third heats, after having finished first in the first and second heats. He carried the hopes and money of a considerable contingent, too, being heavily backed. His best time was in the second heat, which he won in 2:08, which clipped three-fourths of a second from the stake record of 2:09, made by Ginger in the first heat, and also reduced his own mark from 2:09. Also, Braden was the winner of the world's record for four-year-old pacers—2:04—made by Unline eighteen years ago. Braden outpaced the 2:04 class, in which there were but four starters. First money in the stakes was in the second heat, won by Braden in 2:08. The bay son of The Stole was followed in order in the third and fourth heats. Major Brino and Peter the Second. The first heat was the most hair-raising of the meet, the four being neck and neck until start to finish. It was Sir M's first victory of the season, as heretofore he has been acting badly. Adon (formerly Dandy G.), with Dickerson behind, back in the race in the first two heats of the three-year-old 215 trotting sweepstakes event, surged to the front in the third and fourth heats, but changing had behaved badly until then. Manrico, the favorite, was a disappointment in the race. In the 2:20 trotting, Eva Cord was in three straight heats. Geers was to have driven, but at the last moment gave way to Mr. Jones, owner of the mare. In the second heat she finished pulled up. In a trotting purse of \$1,000, five, field divided, second division to race on Thursday: Eva Cord, b.m. (F. Jones), 1 1 1. Centerville, b.k. (Cox), 2 2 2. Miss Lavinia, b.m. (D. White), 3 3 3. Ruth Randall, br.m. (Dagler), 4 4 4. Major Russell, b.g. (J. Benson), 5 5 5. Constantine, ch. (J. Jones), 6 6 6. Lettie Lee, b.m. (D. White), 7 7 7. Andral, b.g. (Nuckolls), 8 8 8. Baron, b.g. (N. Grady), 9 9 9. Centerville and Miss Davis divided second and third money. Time—2:18.4, 2:14, 2:14. Three-year-old sweepstakes 215 trotting, purse \$1,000, three, only heat winners starting in the fourth heat: Adon (formerly Dandy G.), 3 1 1. Chag, (Dickerson), 3 1 1. George Bellini, b.c. (James), 3 1 1. Brigid, b.m. (D. White), 4 4 4. Hady McGregor, b.c. (Bagler), 4 4 4. Janico, b.c. (Duffee), 5 5 5. Junior Watts, b.c. (Darnah), 5 5 5. Brook King, b.k. (Higgins), 6 6 6. Sox DeForest, b.c. (McDonald), 6 6 6. Santos Mado, b.f. (N. Grady), 7 7 7. Sienna, f. (Schlesinger), scratched. Time—2:18.4, 2:14, 2:14. 2:05 pacings, purse \$1,000, five, two in three: Branham Baughman, b.k. (Cox), 2 2 2. Giger, b.k. (Brown), 1 1 1. Sefon, c. (Ward), 1 1 1. Goble Dillard, ch. (Snow), 5 5 5. Edward, b.c. (Valentine), 4 4 4. Don Fronto, b.k. (Dunford), 9 9 9. King Daphne, b.k. (Dean), 7 7 7. Help-at-Law First, b.l. (Shackleton), 8 8 8. Richardson, bowled Marden, 14 14 14. Judge Ward, b.g. (Hedrick), 8 8 8. Nuttomb, b.k. (Nuckolls), 11 9 9. The Manic, b.m. (Murray), 11 9 9. Ginger and Gold Salt divided third and fourth money. Time—2:04.5, 2:05.4, 2:05.4. 2:04 pacings, purse \$100, two in three: Sir R. b.l. (Murray), 1 1 1. Major Denmore, b.h. (Parker), 2 2 2. Major Brino, b.g. (Hudson), 3 3 3. Peter the Second, 4 4 4. Time—2:04.5, 2:04.5. Horse Trade Real Good. It is a fact that the horse trade during the summer of 1911 and 1912 has been real good. In former years it was very slack, but the general prosperity, which includes railway extension, has treated a better demand for horses, and the horse trade during the summer has been real good. The receipts of horses at the Repository are larger at this season of the year than in any previous year. They are splendid sale yesterday and man horses were sold. Mr. Angus Sinclair bought quite a number for contract work. M. Goldman got a b. g. for \$50. O. Rutledge bought three horses. B. Burbage got a b. m. for \$85. John Walsh secured a b. g. for \$75. J. Montgomery bought a g. g. for \$52.50. W. T. McDonnell & Co. got a b. g. for \$150. J. Knowles bought a b. g. for \$50. E. Goldstein bought a b. g. for \$115. W. Menary got a b. m. for \$110. Robert Newell got a b. m. for \$115. W. T. Merry purchased a very fine carriage mare. G. T. Sextons purchased a b. g. for \$145. Frank Kineman bought a g. for \$145. Marshall secured a b. m. for \$102.50. J. McEwen got a b. m. for \$175. Abel Boyd bought two horses. Edward Lyons bought a line b. g. C. Jones bought a b. m. for \$50. A Port Arthur lady bought a very fine show pony. There will be a lot of fresh horses in the Friday auction. There's to be a big sale of ponies next Wednesday night, Aug. 7, and this should make some interest.

Municipalities Near Quebec City Show Astonishing Disregard of Ordinary Preventive Measures.

MONTREAL, July 30.—(Can. Press.)—Utter and complete disregard of health laws in the matter of controlling smallpox is the condition of affairs which special inspectors of the provincial board of health have found to prevail in Indian Lorette and Jean Lorette, two municipalities in the vicinity of Quebec City. Absolutely no steps have been taken to quarantine the sick, to isolate the diseased, or to investigate the provincial board of health in this city report that the disease is raging in many households. In no case, reports the inspectors, has the disease been established, and on their arrival they found people in the early stages of the disease walking the streets and visiting friends.

THE MARRIAGE LAW.

The recent decision of the judicial committee of the privy council does not greatly alter or modify the situation in Canada which has existed since the passing of the civil code of Quebec. The civil code of Quebec is not interpreted by the law lords, and it has been variously interpreted by the courts of Quebec. Their lordships, indeed, decided that parliament cannot override the Quebec civil code by Dominion legislation, but the power to do so had never been asserted by parliament.

There is reason to believe that under the law as it exists today, a marriage between two Catholics in Quebec is invalid if performed by a Protestant minister. This may be due to the influence of the church to which the vast majority of the people of the province belong. But, as we understand it, the religious impediments prescribed by every other church are recognized by the Quebec code as binding upon the members of that church in the matter of marriage. This distinction of civil and religious sanctions may seem inadvisable, but, in Quebec, church and state have always been closely united.

It is easy to see how what should have been done by the government and parliament—much easier than to say how the present situation is to be dealt with. Had parliament passed a civil marriage act, it is highly unlikely that the same would have been opposed by the Roman Catholics of Canada. They would not have gone to the sheriff or the registrar to be married any more than they do to the Dominion Senate to be divorced.

Those who believe marriage to be a civil contract merely could have availed themselves of a civil marriage, just as they can now avail themselves of a civil divorce. A national civil marriage law would probably never have been questioned in the courts and, if it had been hereafter, it would have been upheld in a concrete case, because of the hardship of invalidating many marriages.

In the United States civil marriage is permissive everywhere and without restriction, as we understand it, from the Catholic population. Indeed, many of the issues which divide the Catholic and Protestant population of Canada are unheard of in the United States. Perhaps one way to induce Quebec to pass a civil marriage law would be for Ontario and other provinces to lead off with such legislation. We doubt if the proposition would excite much interest or antagonism among the Roman Catholics of this province. Such enactments, when made in the public interest, and without religious rancor, attract but little attention.

The world ventured to say something about the government was putting the cart before the horse in cross-examining the supreme court on hypothetical questions respecting the jurisdiction of parliament. We suggested that parliament should assert jurisdiction, and not apparently crave a judicial veto in advance. Roman Catholics might object to being compelled to go thru the form of a civil marriage, but they could not object to others going thru such form or to their being allowed to go thru it, if they wished. The appeal to the courts has not clarified the situation.

THE CANADIAN KIMMEL.

A man named Kimmel has been busy for the last year or two in the federal court at St. Louis, trying to persuade a jury that he is not dead. There was a "hung" jury in two trials, but he will try it again. It appears that this man formerly resided at Niles, Mich., disappeared and was not heard from for seven years. His life was insured and the beneficiaries sought to collect from the insurance companies upon the presumption that he was dead. When the case came on to be tried, the companies produced an ex-convict who claimed to be Kimmel. This man has convinced many people in Niles that he is Kimmel, but the family repudiate him. No jury has yet been able to decide whether Kimmel is alive or dead.

Reciprocity is the Kimmel of Canadian politics, and the Liberal party up to date is the somewhat befuddled jury. Foreman Laurier thinks reciprocity is still alive, while Juror Hugh Guthrie says it is dead. The Montreal Herald had just decided in one way when the Saskatchewan election raised the hopes of those who thought otherwise.

One would think that the result of the last Dominion election would have settled the question, but some Liberals

are still hoping against hope. The Conservatives could ask no better luck than to save the case of this Canadian Kimmel submitted to the electorate at the next general election.

"ABOLISH THE BAR" IN COBALT.

Mr. N. W. Rowell and his followers who make up the opposition in the Ontario Legislature, are now on a trip along the line of the government railway thru the Timiskaming country. Some time ago Mr. Rowell declared for the abolition of bars where liquor is sold, as one of the main planks of his platform, both in the house and in the country preparatory to the next election.

As there has been a good deal of abolition of the bar in the country where Mr. Rowell and his friends are now visiting. The World has been at some pains to get the facts, and our representative now with the Rowell party, spent a number of days going thru New Ontario to get the facts in this respect. The first of his letters appears this morning in connection with the Town of Cobalt, where the silver mines are chiefly located, and where the bar was abolished by the Mining Act.

We ask our readers to read with care the statement of facts, and we believe every fact therein stated is absolute. The letters will be continued thruout the trip.

POLITICS AND PARTISANSHIP.

The Globe on Monday had a long editorial objecting to the English practice of keeping matters about which everybody agrees, out of the arena of party politics. And to this it adds the gratuitous deduction that removing such questions from the party arena would stifle discussion and criticism.

Of course, as a prominent Liberal remarked the other day, only The Globe says so. The partisan spirit is as the breath of life to The Globe's nostrils. It is so vindictively and bitterly partisan that it cannot even contemplate with equanimity the possibility of the people agreeing about anything.

Probably The Globe would say, as it said some time ago, that it would not be good for the people to have perfect government, perfect harmony on great national issues would be injurious to the nation.

Would it be an unfair deduction to suppose that The Globe managers and directors fight like cat and dog, and that the business is all the better for it? There is no desire on the part of anybody to keep great national questions out of politics, but there is a crying need in the country to preserve them from partisanship. What The Globe fears, as The Mail and Empire also fears, is the independent politician.

JAPAN'S LATEST EMPEROR.

When Mutsuhito, the late emperor of Japan, succeeded the throne in 1868, the supporters of the shogun, Hitotsubashi, who had been deposed in the previous year, were still offering a futile resistance to the new government. They were soon subdued and the government behaved towards them with unexpected moderation and this led in 1869 to the voluntary surrender by the Daimios of their lands, vassals and revenues to the mikado. One of the most complete and most radical revolutions the world has known, was accomplished during the succeeding years, culminating with the change in 1889 from an absolute monarchy to a constitutional regime. The whole system of law was radically reformed on European models, education was made compulsory in all branches of art, commerce, agriculture, technical training and the higher education of women. Japan indeed assumed almost instantaneously all the outward, tangible elements of western civilization.

How much of this transformation was due to the personal initiative of the late emperor cannot be estimated, but it was unquestionably carried out with his sanction and assistance. His path was rendered less difficult by his autocratic power, and the remarkable veneration accorded him by the people. His successful conduct of the wars with China still further enhanced his prestige, and was recognized by the vote of the Diet in December, 1888, granting him \$1,000,000 from the indemnity paid by China. The greater triumph over Russia followed, and today Japan stands as the first Atlantic power to rank with the great western nations as a factor in world affairs.

Mutsuhito represented a dynasty which claims to date from 660 B.C., but his title to fame rests rather on his own remarkable achievements in the reorganization and reconstruction of the political and social fabric of the country. Bishop Evans is much concerned over the authenticity of Adam and Eve. He argues that if Adam and Eve did not exist, then he is nobody. The log: may be quite sound.

The Toronto Swiss Celebrate 620th Anniversary of Independence.

In the most patriotic and enthusiastic manner the Swiss of Toronto honored the 620th birthday of their native country by a banquet given in the Foresters' Temple Building, Monday night. As many seats as the large dining hall could contain, were occupied. Around the tables, beautifully decorated with a splendid cake bearing all the

WATCH INDUSTRY IN SWITZERLAND BOOMING The year 1913 was one of unusual activity and general prosperity in the watch industry of Switzerland. The factories increased their production to their full capacity. There was a good demand for the Swiss product and at prices which returned better profits than in any year in recent years. The export figures for the period of 1912 and at the end of the year, for 1913 delivery, indicate that the trade will be greatly augmented this year.

BOARD OF CONTROL AIMS TO COMPEL G. T. R. TO BEGIN WORK IMMEDIATELY ON VIADUCT AND NEW UNION DEPOT—ENGINEER HAZEN APPOINTED TO EXTEND FILTER.

In accordance with the order of the Dominion Railway Commission of July 15, the board of control yesterday morning instructed the city solicitor to take the necessary steps to collect the \$100 fine from the G. T. R. for every day's delay hereafter in the construction of the viaduct and new station. It was also agreed to have the solicitor apply for a mandatory order compelling the railway to commence construction operations at once.

The controllers contended that some decisive action was necessary in view of a letter which was received from President Chamberlain of the G. T. R., which stated that the company did not contemplate commencing the work till after the C. P. R. appeal to rescind the viaduct order had been disposed of by the railway commission. The letter was received in reply to a communication from Acting Mayor Church.

The acting mayor contended that the attitude of the railway company was an outrage to a commercial community like Toronto. In appealing to rescind the viaduct order, he thought that the C. P. R. merely desired to delay the operations, and he claimed that the board would not be wise to merely duplicate the plan on the basis of the present plans. Commissioner Harris, however, claimed that it might be better to reorganize the whole system. There were other questions, he said, such as the comparative value of sand and mechanical filtration, which Mr. Hazen would report upon before the extension operations commenced. Mr. Hazen has already practically been engaged in reorganizing the fee is \$100 a day. Besides this, he is to be paid 1 1/2 per cent. of the cost of construction and \$150 a month for work to be done in his New York office.

The question of repairing the dock at the foot of Dufferin-st., for the use of passengers coming to the exhibition, was discussed, but the board decided to take no action until the harbor commission had dealt with the matter. Mayor Church was most urgent in recommending the repairing of the dock, but Controller Hocken opposed the idea, and argued in favor of the harbor commission. A—The dock is not ready. B—The boats won't run there. C—The boats can't run there. It was decided to appoint the acting mayor, Controller Hocken, Ald. Wanless, Maguire and Mayor Geary as the city's representatives on the board of the harbor commission. The board agreed to pay the city's membership fee of \$100 to the Canadian Municipal League, which will meet in Toronto at half-past eight on Monday. On the recommendation of Ald. Maguire, the board of control decided to give George Goulding, the Olympic champion walker, a silver tea service. The hero from Stockholm will arrive in the city at the North Toronto Station on Monday night. The various athletic clubs will hold a motor procession down Yonge-st. to the city hall, where the presentation will be made.

FISHERY STORY.

Most of us have our own pet fish stories, but while we may not all go so far as to confirm the accuracy of the heading under which the following story recently appeared, namely, "The World's Best Fish Story," most of us will concede that it bears the earmarks of one of the "fishies."

Henrik Dahl of Aalesund was a reader and follower of Darwin. Wishing to apply his theory to the limit of adaptability of a species to its environment, Henrik procured a herring from a neighboring fjord and carried it home in a tub of sea water. He renewed the water daily for some time, and gradually reduced the quantity with so little inconvenience that the fish might in time learn to breathe air undiluted with water. Like the cat and the man, it turned out as he expected, and the water was finally emptied out of the tub never to be replaced. Henrik next removed the fish from his tub, and placed it on the ground, where it flopped about very awkwardly at first, but soon learned to move freely and rapidly. In a little while the herring was able to follow its master with-out difficulty, and then it became his constant companion about the streets of the city. On a certain unfortunate day, Henrik had occasion to cross a dilapidated bridge, which spanned an arm of the harbor. The herring, coming gracefully along, heedless of danger, now and again springing at flies, got which it had acquired a great fondness for, slipped thru a crack into the water and was drowned.

ESSENTIALS TO BUSINESS SUCCESS.

"Amongst the first essentials to success, in my opinion," states the veteran Lord Strathcona in The Strand Magazine, "is that of being interested in what you have to do. After that comes diligence, and then system. But unless a young man is interested, first of all, in his work, he cannot expect to succeed in it. I would therefore say if your heart is not in it, you are heavily handicapped in the race. As a young man I did not require any special pleasures or diversions, even if I could have indulged myself in them, because the work I was engaged in afforded me plenty of scope for variety. To many it might have seemed a lonely and dreary life, practically cut off from the world, but I was always aiming to do my best, and kept on my feet waiting for the opportunity which I knew always awaited the young fellow who does his best. I never had any hard and fast routine and I have never known any one I was ready for any job that turned up, and this sort of variety of work is quite as good as cricket or football and the other sports of the day. I have never known any one who has not been successful in his work, and my correspondence, official engagements, and personal interviews generally keep me employed until late at night. By this kind of alternation of duties, and also by never allowing myself to be hurried over anything, I have been able to do my best in every direction. Hurry and bustle I have always endeavored to avoid."

TO MANAGE ABATTOIR.

One indication that the civic abattoir is being taken seriously, is seen by the fact that Property Commissioner Chisholm has already received several applications from aspiring managers. These, the commissioner claims, all come from good men and have been put away for future reference.

Rust in Ontario Wheat.

ST. MARYS, July 30.—Many farmers in this vicinity complain of the rust which has been rusted, and in a number of fields shriveled up. Harvesting of the grain is now general in this locality.

**HEARING PRAISES LORD MERSEY**

Proposals of International Shipping Conference Warmly Endorsed—Prosecution of Captain Urged.

LONDON, July 31.—(Can. Press.)—The London morning papers comment on Lord Mersey's report on the Titanic inquiry as a masterpiece of presenting timely and practical recommendations, while, as the Morning Post observes, opening no door to panic legislation. They praise the efficiency of the board of trade and insist that drastic action should follow the court's findings. They urge the government to see to it that the board of trade obtains statutory powers to enforce improved conditions.

The Californian's inaction is severely condemned. The Daily Graphic calls for the prosecution of the Californian's captain.

The Daily Telegraph says: "This portion of the report stands out as a thing apart—a horror which in days to come will wound the human instinct of the race whenever the story of the Titanic is recounted."

A letter from the committee of the French-American League, at which Gabriel Hanot, ex-foreign minister to France, presided, was read. He said that the friendship and common aspirations between the two nations are the basis of the development of Canada since the conquest.

Mr. Borden, who followed, said that the spirit of co-operation of French-Canadian and English-Canadian was a symbol and precursor of an entente cordiale between the republic and not Great Britain alone, but the British Empire. He could assure the members of Canadian appreciation of the same.

Mr. Palmer had spoken, Hon. Mr. Adams had raised a voice in the world, and said it would be glad to be guided by the experience of the two nations co-operating, England and France. Canada desired to provide the world's peace. There was premier signed.

**QUIET AT PORT ARTHUR**  
 Militiamen Have Little to Do—Injured Are Recovering.

PORT ARTHUR, Ont., July 30.—(Can. Press.)—Quiet reigns to-night in the section where the former employees of the Canadian Ocol and Ore Docks Co. met in hand-to-hand battle with the city police and for a time a target of property and public order that the militia was called out. The staff of militiamen has been cut down to one company and tomorrow it is possible that the situation will again be left in the hands of the city and Canadian Northern police.

There were practically no developments in connection with the strike to-day. The injured men are making fair progress. Chief McLennan is improving and every hope is entertained that he will finally recover. The others are not in danger. No attempt was made by the C. N. R. to operate its plant at the coal docks to-day.

Full particulars at ticket office, 44 Yonge street, corner Wellington street.

**CADINAL FISCHER DEAD.**  
 BONN, Rhenish Prussia, July 30.—(Can. Press.)—Quintus Hubert Fischer, Archbishop of Cologne, died to-day, after a long illness. He was born in 1840 and was created a cardinal in 1903. He was one of the leaders of the so-called Cologne movement. Cardinal Fischer visited Rome some months ago in a vain effort to induce the Pope to support the Christian League Union against the "Berlin Movement."

**LOVE OF CANADA GROWS IN FRANCE**

Entente Cordiale Reaches Climax at Banquet in Which French Premier Pays Glowing Tribute.

LONDON, July 30.—(C. A. P.)—Amidst the strains of the Marseillaise and God Save the King, the premier of France and the premier of Canada enjoyed the entente cordiale and expressed the desire that the friendly feeling grow deeper and stronger. The leader of the French haute politique, finance, art, literature, army and navy, were present to applaud in person, and the French premier, regent of the Bank of France, and Messrs. Pallain, Paul, Hervieu, de l'Académie Rodin, celebrated artist; Gen. Brugere and representatives of the British and Spanish embassies.

"As years go by and the friction removed between France and Britain, the affection of France for her sons in Canada is expressed more strongly," said the French premier in a stirring speech. He looked forward to the future with confidence, because esteem and respect would prevent any possible friction as between France and Canada. He could see nothing to menace the friendship. He raised his glass to Canada and Great Britain.

**SHOULD INVEST INSIDE EMPIRE**  
 Dr. Vrooman of British Columbia, Speaking in London, Urges Imperialism in Finance.

LONDON, July 30.—(C. A. P.)—Dr. Vrooman, British Columbia, addressing the London Chamber of Commerce yesterday, made an eloquent appeal for imperial preference in investments. British money, he declared, should be invested to help build up a possible empire and certain competitors, when they were offered within the empire. Empire building must no longer be left to politicians and statesmen. Financiers, too, were responsible.

He deprecated the amateurish spirit of British capitalists, who placed their money in the hands of a country without economic security, to say nothing of the fact that money was building up the keenest business competitor of Great Britain in the far west.

**HYDRO ENTERS BIGH FARMING DISTRICT**

Continued From Page 1.

consumer got his power at actual cost. Hon. Adam Beck, in an exhaustive speech, and in reply to many questions, covered all the points of interest to the audience, all of which are familiar to the consumers in western Ontario who have nearly trebled their consumption in a year.

**May Come From Severn.**  
 There were two sources of supply for the Midland district, one from the Niagara Falls plant and the other from power sources on the Severn. It would depend on the demand whether the water would be available. The Brechin district if the demand warranted would be supplied from the Severn, which had 1000 horse-power to spare.

The meeting was one of the most solid and illustrated by declaring electric interests, and Hon. Adam Beck was much pleased with his reception. W. P. Maclean spoke on the principle of public ownership and was warmly heard. Mayor Beal introduced him as one who was foremost in all things making for the public welfare. Votes of thanks to the speakers were moved by Dr. Shier and T. C. Nicholas. The latter predicted that in a very short time the district would be covered with hydro-electric wires.

**Comforts on the Farm.**  
 Hon. Adam Beck hit the popular idea of comfort and convenience on the farm and illustrated it by declaring that the farmers should follow his own example and sleep on the verandah ten months in the year. It was too cold sometimes without an electric heater in the bed, but they could put one in for 15 minutes and kick it off when they felt comfortable and go sleep snug and healthily in the fresh air.

There is no electric power service in the district at present. The light plant in Exbridge only serves till midnight and the charge is 10 cents per k.w.h., which under the hydro scheme would be reduced to 5 cents.

**Mr. Beck's Address.**  
 Hon. Adam Beck explained his delay by the fact that he had to attend a meeting at Lambeth, near London, the previous evening and did not get into Toronto till the morning, where he was again delayed on business, and motored from there to Exbridge.

Mr. Beck began by stating the boundaries of the proposed new districts. The Exbridge district would be served from Niagara and the Brechin district from the Severn. There had been an idea that Toronto was the moving spirit in the hydro movement, but it was not so. The hydro movement was started at Exbridge, where it was estimated at first of \$12,000,000 among 12 municipalities. They had been in operation for 18 months and the municipalities had not a cent of their own money. They had been in operation for 18 months and the municipalities had not a cent of their own money.

**Leveling the Park.**  
 There had been a prediction of an enormous loss of power in transit. He wished to tell them, however, that with 20,000 h.p. they had a surplus of 275 horse-power, besides covering the loss of power in transit.

**Use 30,000 Horsepower in Fall.**  
 Exbridge had a cheap in Ontario. The lower part of Ontario must depend on Niagara. He had seen Niagara and he had seen Exbridge. He had seen Niagara and he had seen Exbridge.

**On Paying-Basis.**  
 It had been objected that the municipalities would not remain by the scheme. This had not been the intention of the plan. The success of the plan had been beyond expectation. The government had been asked not to ask for the payments on the scheme, but to let the municipalities make their own arrangements.

**Fixed Charges Remain Same.**  
 They had a surplus last month of \$3000. The fixed charges would be \$10,000 per month for interest and \$10,000 per month for depreciation. The total fixed charges would be \$20,000 per month. The variable charges would be 5 cents per k.w.h.

**Churchill May Come in August**

LONDON, July 30.—(C.A.P.)—Winston Churchill will decide within a day or two regarding the proposed Canadian visit during the parliamentary vacation.

There is only one consideration which prevents his acceptance of the invitation from Canada. In the event of arrangements being satisfactory, the first lord of the admiralty would leave during the third week in August.

**Public Utilities in Europe.**  
 The telephone service was owned by the people in Europe. For \$8 in Denmark the telephone service was more expensive than what he had himself to pay \$150 a year for seven miles from Toronto.

**New Idea in Politics.**  
 It was the duty of the government, and it was the new principle in politics and was being recognized in America, to increase the comforts and conveniences of the people. The new idea of the politicians would have to take up. (Applause.)

**Down in Montreal.**  
 The electric light companies, which had solemnly undertaken not to amalgamate, but which had got a lawyer to draw an agreement whereby they could evade their solemn obligations, and combined to make a monopoly and overcharge the people—there was no relief, said Mr. Maclean, until the people's company, the publicly-owned company, Adam Beck's company, came along and cut the light rates in two.

To Help Nature Shed a Bad Complexion

(From The Family Physician). Beauty devotees are enthusiastic over the beautifying qualities of meriolized soap. Perhaps nothing discovered with so quickly, without harm, without expense. The principle is that it works in harmony with the skin's own processes of shedding, or "curbing," complexion defects. It removes them. The soap is actually made of the aged, yellow, or blotchy cuticle, gently, gradually, causing no irritation. It is Nature's way of removing complexion defects. When the natural process is retarded because of deficient circulation of nerve tone, meriolized soap comes to the rescue. It restores the skin's own process of shedding. If you've never tried meriolized soap, use it tonight like cold cream, washing it off. It's a beautifying treatment for wrinkled, flabby skin--is to bathe the face in a lather made of meriolized soap and water. It is remarkably effective.

HOMIE PEACHES REACH MARKET

TRIED RECIPES

Baked Fish in a Creole. Boil three Irish potatoes, mash them and mix with two tablespoons of butter, one small onion chopped fine and salt and pepper to taste. Salt the fish, fill it with the potato dressing and bake in a hot oven for 15 minutes. Put in the pan at the same time two tablespoons of butter, two dessertspoons of flour, and a dash of salt. Cook for five minutes, add a teaspoonful of Worcestershire sauce, and a dash of paprika. Stir until thickened, pour over the fish and serve it with it in a separate vessel.

Chicken a la King Waldorf Style.

Melt two tablespoons of butter in a blazer or frying pan; add half a green pepper, chopped fine, and a cup of fresh mushroom caps, peeled and sliced in pieces. Stir and cook three or four minutes; add two level tablespoonfuls of flour and a half a teaspoonful of salt and cook until frothy; then add a pint of cream and stir until the sauce thickens. Set over hot water; add three cups of cooked chicken, cut in cubes, cover and let stand to become very hot. In the meanwhile broil in a broiler two eggs, add half a cup of onion juice, a half a teaspoonful of lemon juice and half a teaspoonful of paprika. Stir this mixture until the hot chicken and continue stirring until the egg thickens a little. Serve on toast.

Arrowroot Custard.

Two cupfuls of milk, two tablespoonfuls of arrowroot, half a teaspoonful of vanilla extract, two eggs, yolk, one fourth of a teaspoonful of salt, one fourth of a cupful of sugar. Scald milk and arrowroot and sugar, add yolk and cook 10 minutes. Beat egg yolks slightly, add salt, pour milk mixture on to egg, return to double boiler, stir constantly until thickened. Cool, flavor and serve in custard cups.

Rochester Clashes With Adventists

Challenge and Counter Challenge Are Orders of Business at Meeting Attended by Secretary of Lord's Day Alliance.

KINGSTON, July 30.-(Special).-Rev. W. M. Rochester of Toronto, secretary Lord's Day Alliance, was present at a meeting of the Seventh Day Adventists here. A challenge was issued by Elder Johnson, that he would give \$1000 to anyone who would produce satisfactory evidence of divine authority for keeping the first day of the week as a Christian Sabbath. Mr. Rochester thereupon issued a counter challenge, that as soon as Mr. Johnson produced \$1000 to a party agreed upon, he would put up a similar amount to same party, to be paid to any person proving the satisfaction of a committee that there was in the New Testament a specific command from either Christ or His apostles, to keep the seventh day as a Christian Sabbath.

A Kingston Heroine.

KINGSTON, July 30.-(Special).-Miss Nettie Campbell of Sunbury, proved herself a heroine to-day. She was driving with five others when the horse shied at a motor cycle and overturned the carriage into the ditch. The occupants escaped with a few bruises. As Miss Campbell crawled out from under the carriage, she grabbed hold of the horse and was dragged some distance. She had her clothes torn off, but succeeded in bringing the animal to a standstill.

# GIFT BIBLE

This is not a bible with meaningless pictures. The illustrations serve a distinct purpose. They enrich the text, but they do more—they intelligently explain it, so that many a hitherto obscure passage assumes to thousands a new meaning through these eye-teaching pictures.

The only REALLY Illustrated Bible, for the picture of each verse illustrated is inserted with the type, so that it corresponds with the accompanying text matter.

Every home needs a Bible, and one of convenient form. To appreciate this great book it does not necessarily mean that one must be a church member or a religious man or woman, but the grand educational distribution undertaken by this paper makes it available for every one, to be often referred to, and often read here and there as the most interesting of all books, as the book under whose teachings the development of civilization has been accomplished.

BEHOLD THE MAN!—John 8. 5.

MAIL ORDERS: Enclose six consecutive certificates (printed elsewhere) with the amount mentioned, and include 23 cents additional for postage.

As an EDUCATIONAL work alone, the Bible demands a place in every home—and this new ILLUSTRATED BIBLE enhances the value 100 per cent for purposes of LEARNING. It portrays ACTUAL SCENES in a way that permanently impresses the reader with the FACTS OF HISTORY.

### TITANIC'S SPEED TO BLAME FINDING OF BRITISH COURT

Proper Watch Was Not Kept, and Boats Were Inefficiently Manned—California Might Have Reached Foundering Steamer—Ismay and Sir Cosmo Exonerated—Many Recommendations.

LONDON, July 30.—The judgment of the British Board of Trade court of enquiry into the disaster to the White Star liner Titanic, which sank in collision with an iceberg on April 14, was pronounced to-day by Lord Mersey, the presiding judge, before a large audience. The court finds that the collision of the Titanic with the iceberg was due to the excessive speed at which the ship was navigated, that a proper watch was not kept, that the ship's boats were not properly lowered but that arrangements for manning them were insufficient, that the Leyland Line, California, might have reached the Titanic if she had attempted to do so, that the track followed was reasonably safe with proper vigilance and that there was no discrimination against third-class passengers in the saving of life. The court of enquiry congratulates J. Bruce Ismay, chairman and managing director of the White Star Line, and Sir Cosmo Duff-Gordon, one of the passengers, from any charges of improper conduct. The judgment recommends more watertight compartments in sea-going ships, the provision of lifeboats for all on board and more efficient drills of the crew as well as a better lookout. While the judgment was being delivered, no attempt at stonewall was made. There was no argument and no direct reference to the enquiry by the committee of the United States Senate under the chairmanship of Senator William Alden Smith. Efficiently Manned. The most important findings of the court were that the Titanic was sufficiently and efficiently officered and manned and complied with all the requirements of the British Merchant Shipping Act, regarding safety, but that the arrangements for manning and launching the lifeboats in an emergency were inefficient and that no drill had been held. The instructions for the voyage given prior to sailing, were, in the opinion of the court, adequate, but "having regard to subsequent events they would have been better if reference had been made to the course to be adopted in the event of the vessel reaching the 'region of ice.'" The outward-bound homeward southern tracks were, according to the judgment, reasonably safe for the time of the year at which the disaster happened, provided "great precaution and vigilance were used in crossing the ice region." Capt. Smith of the Titanic was not, said the court, fettered by orders to remain in the track, but naturally would keep near to the accepted route. Needed Extra Look-out. In view of the fact that on the night of the accident the moon was not shining, there was no wind and very little swell on the sea and especially

### J. L. HUGHES' IDEA MEETS APPROVAL

His Resolution Regarding Course for Teachers Through Empire Adopted by Imperial Conference.

Dr. J. L. Hughes has forwarded a copy of the following resolution (from London, Eng., which he moved in the Imperial Conference of Teachers: "That in the opinion of this conference it is desirable that teachers trained in any national training college or normal school in the British Empire should receive recognition as teachers in all parts of the empire; and that for the guidance of the departments of normal schools and training colleges in the motherland and in the colonies, showing in each case (a) the academic standards for admission, (b) the length of professional training, (c) the length of time required to complete the course." The resolution was adopted. MILLION AND A HALF Is Amount of Nordheimer Estate—Division Among Heirs. Upon the division of the estate of the late Samuel Nordheimer, the Toronto manufacturer, who for many years held the position of German consul in this city, over a million dollars will pass to the heirs. The estate amounts to \$1,546,552, of which \$330,424 is in stocks and \$670,400 in real estate. This total is exclusive of the value of Glendydt, the family home. Mrs. Nordheimer will receive the revenues from the marriage settlement, trusts, also during her lifetime a provision for the upkeep of Glendydt. Roy Nordheimer, a son, will inherit \$200,000, and upon his mother's death the sum of \$5,500 is to be divided equally between six named charitable institutions. Bequests are made to the servants at Glendydt and \$500 is bequeathed to certain old employees of the Nordheimer Piano and Music Company. Several relatives and personal friends are remembered in the will.
