Magistrate Upholds Wife.

That his wife was justified in return he would have to pay her eight dollars separation allowance per week was the decision of Magistrate Jelis today in the non-support charge of Amy Corney, 1252 East Barton street, against her husband, Arthur Corney.

Witnesses testified that on one occasion Corney had beaten his, wife so severely that she had been laid up for three days. Corney's attempt to prove that his wife went out with other men was characterized by his worship as a "shameful proceeding for a man to try and blacken his wife's character."

### **ALLIES NEED MEN** TO CONTINUE WAR

Britain Faces Serious Crisis as Result of German Offensive.

New York, April 2.—The allies are so terribly in need of men that the military age in Great Britain probably will be advanced after the present German offensive, according to a state-ment made here today by Sir George Adam Smith, principal and vice-chair-man of the University of Aberdeen, who has just arrived here from England as a representative of the depart-ment of public information of the British foreign office to deliver a series of lectures.

"What we need from America is ships and men," he said, "but aside from the material aid. I may say that trance of America in the war is mendous. Man-power, however, is the very serious crisis, but we will hold out until you are ready."

Herman A. Metz, former comptroller of New York City, who was a witness today in the wool investigation here.
Col. Metz was, before the entry of

America into the war, a member of a firm doing a large business in dye stuffs and chemicals. He told of his efforts to get dyestuffs from Germany, and said that finally he dealt directly with the Bremen firm which had built the Deutschland. He said his firm took the dyestuffs brought to America

on the undersea liner.

"We paid three times the value of the dyestuffs shipped," Col. Metz said, "which paid for the ship and cargo." III-F. Watts. Vancouver.

### IS MAJOR BRUTINEL?

Montreal Believes That Unnamed Gal-lant Soldier Belongs to That City.

Montreal, April 2.-It is believed in Montreal, April 2.—It is believed in military circles here that the French-Canadian officer referred to in the despatches today whose machine gun detachment has been fighting with such valor and heroic audacity near Arras and south of the line, is Major Raymond Brutinel, who went overseas in command of No. 1 auto machine gun brigade. Major Brutinel is a Frenchman who had resided in Ottawa for a number of years, and who, immediately on the outbreak of hostilities, offered his services, and was put Youthful Joy-Rider.

Joy-riding appears to have been the cause of the downfall of Robert Rankin, 17 years of age, for when he appeared before Judge Gauld this morning he was charged with the theft of six motor cars. According to the Police Rankin and a 14-year-old chum took the cars and after joy-riding around the city left them high and dry. Rankin pleaded not guilty and elected to be tried without a jury.

What It Means To Be Captured

In "Captured" Lieut. J. Harvey Douglas tells graphically what it means to be severely wounded and captured by the Huns. The book describes in no flattering way the bill-of-fare in German prison camp; pictures prisoners booed and hissed by the people; tells the things a prisoner needs and how to send them; gives the experiences of prisoners, amusing and otherwise, and an account of the morale of the German people - in short, it is a vivid, true and valuable record of prison life. The illustrations from photographs taken by the author add much to its realism. On sale in the Book Department .... 1.25

Momen's institute fecturers and mbers of the provincial committee ened a two days' conference at the rilament buildings yesterday. Adasses were given by George A. Putm, superintendent; Dr. G. C. Creelin, commissioner of agriculture; Dr. and Dr. Helen

Mr. Putnam told of the requirements and plans for the season's work, and was followed by Dr. Creelman, who

was followed by Dr. Creelman, who emphasized the necessity of producing more food. He explained the snort course for "farmerettes," which will soon commence at the Ontario Agricultural College, Guelph, and urged the lecturers to assist in urging the young people to offer their services for farm work. "The high school boys were the best help we had last year," he said, "and they are going back this year."

applauded thruout.

In the second instrumental selection, the piano quartet, E Flat Major, No. 4, Beethoven, the mellow sympathetic work of the principal was delightfully apparent, and charmingly with the work

The soprano, Miss Lillian G. WIIson, in her opening number, "Queen of the Night," from "The Magic Flute," showed a voice with mezzo richness of tone in the lower notes, and fine vibrant quality in the upper register. The snger was quite equal to the elaborate technique of her number, and scored a spontaneous recall at the close, as she did-also in the next of her suite, "Lo, Here the Lark," which was given with fine musicianship and nice discernment of taste. A second group of songs, which included, "I Love Thee," by Beethoven, and "Over Hill, Over Dale," a Shaksperian song, concluded Dale," a Shaksperian song, con a charming program.

in. Now, what could a person do for a profile like that? My skin is bad, besides, and it shows up as mercilessly side face as full face.\*\*

Well, there are a lot of things one might do to improve even so hopeless a profile as this—which may not be hopeless after all. The complexion must be made perfect, and if the girl has a little color in her cheeks—as she should have, if she is healthy—the flush of the skin will greatly improve the side view of her face. A fine-skinned nose will not look so bad, even if its shape leaves much to be desired.

If protruding teeth make her mouth stand out, a good dentist might do a lot, in spacing them correctly, to overcome this. And the chin won't seem so receding, then.

The rest is a matter of hair dressing. Disturbances at Quebec Exaggerated in Britain

Canadian Associated Press Cable. London, April 2.—No need exists for misgiving in Canada, because the Quebec disturbances are taken here at an exaggerated value. The cables describing them are given prominence, but no responsible editorial opinion so far has appeared, English sentiment seemingly being that Canada's enthusiasm in the war is beyond question and no good purpose can be serveed by an open discussion of her present difficulty. Among the Canadians here, the civil and military feeling is one of complete indignation, combined with a fervent hope and becombined with a fervent hope and belief that the government will not hesitate over drastic measures.

Commenting on these occurrences Sir Robert said that it was the duty of the federal government to see that the Military Service Act is enforced. It has been enforced, he said, with impartiality, fairness, consideration and firmness, by the government in all parts of the Dominion. The Dom-inion Government would continue to do this in the future and see that federal officers are adequately protected if local officials and authorities give them the protection to which they are entitled.

Must Enforce the Act. Sir Robert said that the duty of the government to enforce the act would be recognized thruout the country, even by those who were in the first place opposed to the Military Service Act. Furthermore, he was prepared to state that if in any part of the country municipal or local authorities are mable or indisposed to preserve public order, the duty of preserving would devolve upon the Dominion

Government. Sir Robert then made the important announcement that with this end in view a number of amendments to the Military Service Act would be introduced. One of these amendments would provide that persons who engage in active or forcible resistance to this act, shall be forthwith enrolled

Sir Wilfrid Laurier.

Sir Wilfrid Laurier expressed a desire to make a few remarks, more particularly in view of the circumstance that the trouble had occurred stance that the trouble had occurred in a constituency which he had had the honor of representing in parliament for forty years. He said he would agree at once with the statement made by the prime minister that the law is to be observed. That statement would apply even to those who do not believe in it. ### **SUCCESS SURE FOR NEW INTERNATIONAL**

Provided We Get the Break, Declares McCaffery, Who is Still Working on the Job.

Special to The Toronto World. New York, April 2.-The new International League Professional Baseball Clubs, which sprang from the ruins of the old International, will probably be formally launched at a meeting of the club owners here on Thursday. Indications as to the movers in the scheme gathered for the conference foreshadowed the organization of an eight-club league sufficiently formidable to wea-

iste start, about May 15, while others prefer to get under way on or about May 1 and to continue until the middle of August.

Little difficulty in procuring sufficient players to fill eight clube is anticipated, despite the fact that all of the players of the defunct International League have been declared free agents by the National Commission, and many have been engotiating with major league clubs for positions. A large majority of them already are in line for jobs in the new circuit. It is likely that most of the players on clubs of New York State League also will be seen in the new International this season.

"The player question is not disturbing us in the least," declared Jack Dunn, "We do not expect any trouble whatever in getting enough players for all of the teams. The Baltimore Club would be able to start the season tomorrow if need be, and I dareasy a majority of the other teams would also be able to get right into action. Since we announced our decision to organize a new league I have obtained letters from many baseball men in all parts of the country congratulating us on our action. It is the general opinion that baseball will come back strong this season, and that it would have been a serious mistake for us all to withdraw from the field."

Doubt concerning whether the Jersey City Club would enter the new league in have been dissipated with the statement of Dave Driscoll, who will hold the frainchise in that city, to the effect that he already is assembling a team and hopes to make a strong bid for the title. It is Driscoll's hope that the old rivairy that obtained between the Jersey City Club would enter the new league in the least of the country congratulating us on our action. It is the general opinion that baseball will come back strong this season, and that it would have been a serious mistake for us all to withdraw from the field."

kindled.

The identity of the prospective Buffalo franchise owner still is unknown, but it is said he will be a man well known in professional baseball circles. Buffalo is believed by the promoters of the new league to be one of the richest territories in the entire circuit, provided a good club is placed there.

Action probably will be taken at the conference on Thursday to pay all debts of the International League and to pay the salaries due the players of the Buffalo Club, amounting, approximately, to \$2200, and, whatever money is left after all the league's debts are paid will probably be divided among the Montreal, Providence and Richmond Clubs.

Every precaution will be taken by the new organization to guard against extravagances. The business of the league will be conducted with every effort to retrench. There will be no high-salaried officials, at least for the duration of the war. The salary of the president, John H. Farrell, will probably be determined at the conference.

The league also will decide on a salary

at the conference.

The league also will decide on a salary limit and take steps to cut down traveling expenses to rock-bottom.

One of the most enthusiastic supporters of the new league is James J. McCaffery, president of the Toronto Club, which for several years has been one of the best-paying propositions in the organization. Mr. McCaffery has remained in this city for a few weeks attending to business in connection with the formation of the league, and is highly optimistic over its chances of success.

### T. & D. Cricketers Looking After the Boys

Secretary H. H. Roberts reports that the Toronto and District cricketers have their plans well under way for getting the boys playing cricket on the different city creases.

Five grounds have already been secured thru the exertions of the T. & D. Cricket Association, and a strong sub-committee appointed for each, whose duty it will be to organize the juveniles into clubs and see that their lists of fixtures are made.

The T. & D.'s closing party of the winter season is on tonight in Occident Hall, the chief feature being military euchre.

being military euchre.

April 17 is final grand rally night, and after that the T. & D. will give attention to the game in the open air.

ther the conditions arising from the war.

The makeup of the new organization is still a point of conjecture. All manner of rumors have been heard as to the final alignment of the clubs. It even has been suggested that a six-club league would be formed. But it was well nigh a certainty that the new International will embrace eight clubs, and that they will be Toronto, Baltimore, Jersey City, Rochester, Buffalo, Wilkesbarre, Scranton and Newark, a circuit the teams could tour with a minimum of expense and time.

The prime movers in the undertaking were still undetermined as to when the organization would start its champion-ship season. Some are said to favor a late start, about May 15, while others prefer to get under way on or about May 1 and to continue until the middle of August.

Little difficulty in procuring sufficient players to fill eight clubs is anticipated, despite the fact thet all of the reversion is season. Some are said to favor a late start, about May 15, while others prefer to get under way on or about May 1 and to continue until the middle of August.

Little difficulty in procuring sufficient players to fill eight clubs is anticipated, despite the fact thet all of the reversion is to give the fans good, fast baseball. They won't stand for the so-called bush league vind, but want to see fast; snappy play. It is up to us to make ouz clubs sufficiently formidable to satisfy this demand. If we can do this, I do not see why we should not succeed.

"The calamity-howling on the part of a few misguided individuals has been entirely unwarranted. Baseball may have suffered in some instances from lack of patronage last season, due to the war, but I saw few clubs that were playing good ball suffer."

Charles T. Chapin also is sanguine that the new league ought to prover, is to give the fans good, fast baseball. ## V YORK STOCKS

WEDNESDAY MORNING APRIL 3 1918

Day's Total Dealings Among Smallest in Almost Two Years.

**PUBLIC HOLDS ALOOF** 

No Lessened Confidence in Outcome of German Drive Shown, However.

New York, April 2.—Transactions on the stock exchange today amounted to only about 160,000 shares, the most insignificant number for a full session, with one or two exceptions, since the mis-summer of 1916.

At no time since this country's entrance into the war was public participation at such low ebb. This attitude was transmitted to the trading element, where the new tax ruling dealing with short sales imposed additional hazards. Lack of definite advices from across the water was perhaps the chief determent, but the undertone, aside from moderate heaviness of investment rails, indicated no diminution of confidence in the outcome of the German drive.

Pressure against a few special stocks,

Newray and La Rose held most of the interest, the former making a further demonstration of strength by selling up to 24 4% and the latter swinging thru a structure was the largest of any issue, in triday's final quotation. In Newras the turnover was the largest of any issue, in 17.00 shares and at the closing price of 24 a gain of 35 point was shown. Newbern known that negotiations with the McIntyre were amproaching the final stage, and now that an agreement has been arrived at an even broader market for the stock is anticipated, as the speculative possibilities of the shares under the McIntyre option are easily recontaged. La Rose opened 2 points off at 60, movel up to 66, and reacted to 62, on total declines of 15.900 shares.

In general the market was quiet and steady. Dome was firm at 8.30 and Davidson at 35. Hollinger unchanged at 5.10 and McIntyre at 1.35. ### TORONTO EXCHANGE **READJUSTS HOURS**

Quiet and Steady Market on First Day Under New Schedule.

Numerous innovations have been brought about by the war, and one of these was the opening of the Toronto Exchange yesterday at 9 a.m., an hour earlier than has long been fixed by usage, with the closing of the afternoon session at 2 p.m. instead of 3 p.m. The move was inspired by a desire to conform with the hours of the New York market under the daythe New York market under the daylight saving enactment, but the Montreal Exchange did not follow suit
yesterday, some doubt being expressed lest clearing-house difficulties
should arise because the banks have
not altered their schedule. Toronto
brokers say, however, that the volume
of business is so small that little of business is so small that little awkwardness has resulted. of business is so small that little awkwardness has resulted.

A better demand for the war loans was the only noteworthy feature of yesterday's market, business in the third issue being unusually brisk. The loans showed a tendency toward firmness, the first selling at 931-2, the second at 921-2 and the third at 913-4, the last named a full halfpoint above Saturday's close. Stocks were almost uniformly steady but the movements were within so narrow a range as to be without significance. Steamships provided the largest turnover at from 393-8 to 391-4, Brazilian was around 351-4 and General ian was around 351-4 and General Electric at 1021-2. Steady absorption of Canners continued around 24. Canada Permanent, Imperial Bank, Standard Bank and Russell Motor preferred all sold at the minimum. Twin City eased to 52 and Mackay to 751-2.
