## MY FRIEND TALLOW-POT TORONTO OPENS HER ARMS. A TIT-FOR-TAT POLICY

Grand Lodge of the Brotherhood of Locomotive Firemen Still in Session—The Ladies' Society Held a Public Address—Sympathy for a Deceased Brother—Deaths of Interest Caught Casually—More Names on the List

Toronto is full of them. They have left the steel monsters inert and helpless. From Texas, where wild horned cattle and ranging gauchos, wild sage brush and alkali sea past on the route of the engine. From California, where the languorous climate of the south, from every State and Territory, town, village and hamlet in the broad expanse of the United States and Canada, come the men who feed the modern locomotive, bridging continent and country, ranging the haunts of the wild eagle and grizzly, the blue-grass of Kentucky and the hum of New York City.

They are men who must be ever-ready and energetic; their lot is not easy, for their work lies in all extremes of climate—they dash through blinding snowstorms and sweeter in the fierce heat of burning suns. They are ever at the mercy of a false tick of the telegraph, the murderous mind of the wrecker or a flaw in a casting. They are frequently separated from their wives and sweethearts for days together and they know long cold rides and the damp of exhaustion. Perhaps the public does not realize, but the fireman does, the science necessary to make his run with the least waste of coal, the forest stops to water, and above all the grim menace that, come anything, those slightry orders must be obeyed, and to the letter.

Toronto has stretched forth the glad hand to them and they have grasped it. The red badge and the badge of silver and gold and of a hundred other varieties make bright spots on the form. Brawny forms sit at the theatres, and roam through the parks, burly forms stretch easily in hotel chairs and talk is of who got suddenly wedded before coming to the convention and tried to keep it secret; and how the boys got on to it and tried to play a joke; and how the boys got down to the little boy who will clean the windows of the new court house (whose parents are yet courting) that their visit to Toronto may be bright and profitable and that they may again.

That the visitors admire Toronto in all its aspects is evident from their remarks. At the expressed wish of a great number who wish to see the city, but do not know where to begin, The World would point out the following places of public interest, which should be seen by all visitors to obtain any adequate idea of the city. The Parliament Buildings, Queen's Park, costing over a million and a quarter, where dwell the lawmakers of Ontario. The view of Toronto from the tower cannot be equalled from any other point. The park may be reached by any belt line car, and also there may be seen the monuments of the heroes of Ridgeway, Sir John A. Macdonald and George Brown, University College of Toronto and the park itself, which is well worth a visit.

The Lieutenant-Governor's residence, corner King and Simcoe-streets; Custom House, Yonge and Front; Exhibition grounds and Crystal Palace, on west; Provincial Lunatic Asylum, Queen-street west; Osgoode Hall, Queen-street west, opposite York; College-avenue, Queen and York-streets; Horticultural Gardens, corner Gerard and Sherbourne-streets; Normal School, Museum, etc., Gould-street; St. James' Cathedral, King-street east; St. Michael's Cathedral (R. C.), Shuter-street; St. Andrew's Church, corner King and Simcoe-streets; the new Court House, corner Bay and Queen-streets; Postoffice, Adelaide-st.; St. Lawrence Hall and market, King-street east; Public Library, Church and Adelaide-streets; Central Prison, Strachan-avenue; Exhibition rooms, Society of Artists, King-street west, near Simcoe; Knox College, Spadina-avenue; Trinity College, Queen-street west; McMaster Hall, Bloor-street west; the theatres; Board of Trade Building, corner Front and Yonge-streets; Canada Life Insurance Building, King-street west; Temple Building, Bay and Richmond-streets; the drive over the Ravine by way of the new bridge to Rosedale will give visitors a view of the finest scenery in this part of the country. A fine Sunday trip is out west as far as the King-street cars run, thence by another line along the lake shore, to New Toronto.

**A Big Hat To-Night.**  
Grand Lodge will be in session all day today and in the evening a grand complimentary ball will be tendered the delegates and visitors by Canadian lodges and the City Council in the Horticultural Gardens Pavilion, where the Band of the Royal Grenadiers will furnish music for the brave fireman and his wife or other female friend, or otherwise, as the statutes say, to trip the light fantastic. The Pavilion is situated at the corner of Sherbourne and Gerard-streets. Strangers in the centre of the city may reach it by taking a Belt Line car going east on King-street, which will pass the Pavilion. A gay time is expected and all arrangements have been perfected to give the visitors an enjoyable evening. There are now about 1500 people in town in connection with the Brotherhood of Locomotive Firemen.

**Yesterday's Session.**  
Yesterday morning a communication was read from the International Cigar-makers' Union, asking permission to address the delegates on the subject of the union label, which request was cheerfully granted. The lodge was visited by representatives of the affiliated bodies of organized railroad workers, amongst whom were: E. H. Clark of Cedar Rapids, Iowa, Grand Chief of the Order of Railway Conductors; P. H. Morley of Peoria, Ill., Grand Master of the Order of Railroad Trainmen; W. V. Powell of Peoria, Ill., Grand Chief of the Order of Railroad Telegraphers; Patrick

per, as fresh and bright as the American newspaper, but without its vulgarity. Then again, with its interviewing on all possible subjects is played out, it's day is gone. "If a man came fresh from Manila to London, wouldn't English people want to hear his story?" "Certainly, the up-to-date English newspaper man would interview for anything as live as that, but a man is tackled on a subject on which he is an authority and only on that. We wouldn't, for instance, ask a man as soon as he arrived, 'What do you think of our country?' or as the Americans did interview Hobson on social democracy."

"I believe the time has come when every Englishman will ask for his paper to be entirely free from advertisements. The times already places all its advertising matter on a supplementary sheet, and The Daily Mail is going to do the same. Mr. Harmsworth's idea is that an Englishman would rather pay his six or 12 cents eternally than have the advertising matter eternally thrust upon him." "Three points," continued the London paper man, "that have gone far to make The Daily Mail the great success it is—the circulation is close on half a million copies a day—are the Imperial Federation idea; refusing to allow your paper to be dominated by the advertising agent, and in the place of reporting Parliamentary speeches going in for descriptive writing and character sketches of the interesting personalities of the House. If readers want speeches, read Hansard."

The conversation now drifted to Newfoundland. Beckles Wilson had been up there, and knows the country like those of Toronto's own Muskoka. He wrote a book on his travels, entitled "The Tenth Island," which had a big sale in England, and the mention of the French question to him was like speaking to General Pando de Cuba.

Demanded by the Canadian Manufacturers of Pulp and Paper—Important Meeting at Montreal Yesterday, With All the Big Firms Represented—Political and Other Items From the Business Metropolis.

Montreal, Sept. 13.—(Special.)—There was an important meeting here to-day of the pulp and paper manufacturers of the Dominion, when, after a full discussion, the following resolution was adopted: "It is the sense of this meeting that an export duty be immediately placed on all pulp wood exported from Canada (no matter in what shape or size), which would be equivalent to the present import duty on Canadian pulp, entering the United States, unless the United States admit all Canadian pulp, both chemical and mechanical, free of all import duty."

**Another Lord Here.**  
Lord Brassey and suite arrived in the city yesterday morning from Niagara Falls. The party visited the Boisdale cricket grounds in the afternoon, and witnessed the Anglo-Canadian cricket match which was in progress. Lord Brassey will remain in town until Thursday.

**Like-wise Distinguished.**  
Two distinguished guests that are now in the city are Hon. R. B. Wilbraham, brother of Lord Skelmersdale, who was defeated in Southport by Sir Naylor Leyland, and Mr. Ireland, official reporter for the House of Representatives at Washington.

British Admiral Gives Edhem Pasha 48 Hours to Deliver Ringed-Islands and Disarm.  
Candia, Island of Crete, Sept. 13.—Rear Admiral Gerard Noel, commander of the British naval forces in Crete waters, today issued an ultimatum to Edhem Pasha, the Turkish Military Governor of Crete, demanding that within 48 hours he should deliver up the ringed-lands of the recent outbreak and massacre, surrender the fort and ramparts commanding the town and disarm the Mussulman troops.

**NEW WESTMINSTER FIREBOG.**  
Man Named J. Sheppard Arrested and Arraigned—Bollermakers on Strike at Vancouver.  
Vancouver, Sept. 13.—(Special.)—A man living across the river was arrested to-day, charged with setting fire to New Westminster, and he was remanded for one week. His name is Jack Sheppard, and he is an ex-convict. If guilty, he is a prototype of an illustrious namesake who burned Newgate some 200 years ago. Sheppard confesses to burning New Westminster. The Editor of the New Westminster Columbian has said: "I did it."

**CHINA'S TROUBLES.**  
Revolution Against the Manchou Dynasty Seems Inevitable.  
London, Sept. 13.—The Hong Kong correspondent of the Daily Mail says: "A revolution in Central China seems inevitable. The rebellion in Hsianan and the Province of Kwangsi is being led by thousands of the literati, who are bitterly opposed to the Manchou dynasty."

Gentlemen of refined taste are well pleased with our new fall suits and overcoats. The quality, style, fit and finish leave nothing to be desired, while the moderate prices—eight, ten, twelve, fourteen and sixteen dollars—represent a saving of nearly half merchant tailors' prices.

Continued From Page 1.

Phillipsburg, N. Y., to Montreal to attend the funeral of J. McKenna of Montreal, who was killed en route. The following resolution was unanimous: Resolved, That we, the delegates representing the Brotherhood of Locomotive Firemen in this the sixth biennial convention assembled, do hereby express our deep sorrow on account of the untimely death

JOHN J. HANNAHAN, President Vice-Grand Master, B. L. F.

of our brother, James McKenna of Lodge No. 15, Montreal, Canada, who met his fate while en route to this convention; and be it further Resolved, That we tender to his sorrowing wife and other relatives our most heartfelt and sincere condolence in their sad bereavement.

THE LADIES' SOCIETY.

The President Delivers a Brilliant Address of Welcome—Other Items.

The Ladies' Auxiliary, or, as officially known, the Ladies' Society of the Brotherhood of Locomotive Firemen, held a session in the morning in the Auditorium. The president, Mrs. J. A. Leach, of Beattie, Missouri, occupied the chair. The purpose of the auxiliary is to assist and encourage the Brotherhood of Locomotive Firemen in their entire work and ambition, and to elevate the social and intellectual standing of both organizations. Their membership aggregates 1350, with 90 lodges, a large increase over the last convention, when their membership was only 877. This is the fourth biennial convention of the Ladies' Auxiliary. Their present officers are: Mrs. Moore, Grand Secretary, Stratford; Mrs. Clark, Grand Vice-President, Hornellsville, N.Y.; Mrs. Ball, Past Grand President, Stratford. The society has \$1000 in the treasury, and the members carry an insurance of \$100 each. The Grand President's address was as follows, in part: The President's address was as follows, in part: To the officers, delegates and sisters of

On the Twisting Trolley. Last night a string of the Toronto Railway Company's electric cars, marked "Private" and gaily lighted in colors, took the delegates and visitors on a night trip over the city. One could see the garb of New York and other states, and hear the different intonations of speech, the enquiring eye and the interrogatory tongue which marked the stranger, and on roving citizens saw the gay procession and heard the cry, "What's the matter with Toronto?" and the answer, "It's all right."

The Ladies' Society of the B. of L. F., in fourth biennial convention assembled. Two years have passed since we met in convention at Galveston, and once more I come to you with hearty greetings from all our societies far and near. The Grand President is pleased to see so many faces that are familiar to her and so many new ones, and trusts that every delegate has with her something for the good of Grand Lodge and of the society, which she represents. Changes are observable in the past two years. Grand Lodge officers have not been free from cares and difficulties, but it has always been the endeavor to adjust everything to the satisfaction of all. Past Grand Vice-President Slater Groner is mentioned as being responsible for the rapid growth of the order at Huntington, Ind. Sister Moore at Elmira, N.Y., and the members have been true to their trust.

During the past two years the Grand President has visited Three Star Lodge, No. 32, Kansas, Mo., where she left them amicable and flourishing; No. 25, Argentine, Kansas; Golden Rod, No. 25, Topeka, Kan.; Comrades, 200; Society No. 71 of St. Louis, Mo., a new lodge on Aug. 23, but now doing good work; Holly Grove, No. 70, Buffalo, N.Y., the largest society; at Rochester, N.Y.; Hornellsville, N.Y.; Lodge Unity, No. 14, No. 5 of Meadville, Penn.; No. 62, Elmira, N.Y.; and Omaha, No. 5; No. 28 at Carbondale, Penn.; Keystone, No. 20, at Susquehanna; Fort Jersey, the oldest lodge in the country; and the Birchplace of the Brotherhood; Eastern Lily, No. 50, all of which were prosperous. The Grand President mentioned the lively treatment she met with in all her visits, everywhere she felt she was among sisters, and she hoped to see this spirit woven through all the society work. On Feb. 7 she attended the convention at St. Louis, Kan., and from there attended a union meeting at Boone, Iowa, one of the finest meetings she had ever attended.

Words of Wisdom. Wise words of counsel were delivered to the delegates; she hoped that every contributor to the cause of the order, laws would be thoughtfully considered before being proposed. Comment is made on the improvement in insurance, in which convention a debt of gratitude is due Sister Wheeler.

In closing, the Grand President thanked her co-workers in office for their efficient work and ready sympathy. She hoped wise choice would be made of officers for the ensuing two years.

SIFTED CINDEBS.

Items of Personal Gleaned From Personal Chats. D. S. Moore and W. S. Whitman of 75 are the champion eaters of the East. Sam Dixon, a delegate from Barre, Conn., is one of the old-time convention trotters. Since the 70's he has been attending the biennial meetings, and is known to the boys as "Dixie" the veteran. There is a notice in the committee report that a bicycle run will take place this afternoon at 2 o'clock from headquarters.

Del. George W. A. Murray has a special buyer in Paris for some time, and all the patterns are in his hands. His tailor-made gowns have to be seen, as they are beyond description.

Costume Section. In the mantle and costume section are shown all the latest fashions of up-to-date, stylish, capes and wraps, all personally selected in the fashion centers of Berlin, London and Paris. A variety of coats, such as waterproof, beaver, cheviot and covert cloth, and others with such fur as sable, Persian lamb, chinchilla, mink and fox. Trimmings are shown, both jackets and capes, and a variety of hats, and a variety of wraps in a variety of materials, and a variety of wraps in a variety of materials, and a variety of wraps in a variety of materials.

Things Look Better. Feeling Between Americans and Insurgents. London, Sept. 14.—The Manila correspondent of The Times telegraphing Tuesday says: "A better feeling prevails between the Americans and the Insurgents, probably induced through the influence of the insurgent leaders assembled at Malo on 70-day Aguinaldo sent an order to ask permission to move a detachment of troops from Tondo, one of the suburbs of Manila. The request was promptly granted and a large detachment of insurgents entered Tondo this afternoon, marching through the American lines in the direction of the water-works and receiving proper military honors on route. Both parties seem anxious to avoid a conflict."

A Pointer. The best table water, Mr. Clemens Sprudel, R. H. Howard & Co., agents. One of the most noticeable features of the life is how far in advance the genuine Heilmann & Co. is of all the other makes. The instructions for use are to ask permission to use their way in all the homes of the wealthiest citizens all over the entire Dominion. It seems at the present age, when one is seeking a tonic and a beverage that will keep in tone, touch and retain its sweet singing qualities, the favorite of all plans is selected, and that a genuine Heilmann & Co.

Army and Navy Veterans held their annual meeting last night in Cameron Hall, with President Tyler in the chair. The members will celebrate the anniversary of the Battle of Alamo by holding a banquet on the evening of Nov. 5.

That the Liquor Traffic Cannot Be Legalized Without Sin

Causes Much Variety of Opinion—Two Sessions of the Methodist Conference Yesterday—At Night the Representatives From the Episcopal Methodist Churches, North and South, Make Stirring Speeches.

At the opening of the session of the general conference yesterday afternoon a telegram from the Trustees of the Columbian College, New Westminster, B.C., was read, stating that the college building was filled with refugees and asking for aid. This was referred to the Business Committee.

After the reading of several reports, which were adopted or returned to the different committees, the discussion on the liquor traffic was resumed, and there was a "hot time" for the space of an hour.

Don't Like, Don't Buy. Rev. T. W. Jackson took objection to the reports that had appeared in the newspapers claiming that he had been nominated for a seat on the committee on liquor traffic. Dr. Carman informed him that if he did not like the reports in the papers he need not buy.

Annual Tickets Now. The only change in the schedule of important events is the adoption of annual tickets of membership, instead of quarterly tickets. The report of the Committee on Temperance was then introduced by Dr. L. H. Deane, who said that the liquor traffic cannot be legalized without sin.

MURRAY'S POPULAR STORE. The Beautiful Creations to Be Seen at This Mammoth Emporium—Dresses, Hats, Silks.

Thousands of Toronto's ladies visited W. A. Murray's store on King-street yesterday to see the fall opening. The beautiful display of goods brightened every eye, and caused countless contents of pocket-books.

Beautiful Colors. The colors of the fall season are blood red, cardinal, emerald blue, violet and a great deal of black and white. The colors are in the most beautiful shades, and are all the latest fashions.

Methodists Drifting. Dr. Sutherland then spoke at some length on the subject of the drifting of the Methodists. He said that the Methodists were drifting from their original position, and were becoming more and more worldly.

Much Lumber Burned. King Bros' Yards at Fabos, Quebec, the Scene of a Serious Fire—Loss \$75,000.

Montreal, Sept. 13.—A special despatch from Fabos, Que., says: A fire broke out yesterday afternoon in the extensive lumber yard of King Bros., Quebec, burned by a strong wind, the flames made their way to the station, and destroyed a quantity of lumber valued at \$75,000.

Had Tried So Many so-called cures which had failed even to relieve me. At last I procured a bottle of Hood's Sarsaparilla, and after taking all the medicine the headaches had left me and my catarrh was much better. I continued taking Hood's Sarsaparilla and have derived so much benefit from it that I would advise any one troubled with impure blood to try Hood's Sarsaparilla, the great blood purifier. I feel better now than I have for years, thanks to Hood's Sarsaparilla." Mrs. E. Gray, 27 St. Nicholas St., Toronto, Ontario.

Hood's Sarsaparilla is the best—It acts on the system, and is sold by all druggists. \$1.50 per bottle.

Provincial Auditors Roughly Handled—The Council Proposes to Carry the Matter to the Provincial Treasurer—A Strong Resolution.

Woodstock, Ont., Sept. 13.—The recent audit of the books of West Zorra's treasurer, Mr. E. L. Sutherland, was the subject of a three hours' discussion at the meeting of the Township Council at Youngville yesterday afternoon. A great deal of interest was shown in the subject, and the council was divided on the question of whether or not to take any action.

After the report of Auditor Macpherson was read and a supplementary statement from Inspector King, the report called upon the council to advise the township, and that A. S. Ball of Woodstock, solicitor for the township, was to submit his legal opinion for the guidance of the council.

The council was divided on the question of whether or not to take any action. The council was divided on the question of whether or not to take any action. The council was divided on the question of whether or not to take any action.

Severe Headaches Resulting from Catarrh Cause Great Suffering. The Great Blood Purifier, Hood's Sarsaparilla Cures. Sufferers from any disease caused by impure blood should never be discouraged about taking Hood's Sarsaparilla because other medicines have failed to give relief. Remember Hood's Sarsaparilla cures when all others fail. Read this statement: "Dear Sirs—I think it my duty to let you know that Hood's Sarsaparilla has done for me. I was suffering with severe headaches daily and also with catarrh. One day a paper was left at my house and in looking it over I read of your great medicine. I was so glad to find it that I at once procured a bottle. It did not cure me, although I must own I had some doubts about it, as I had tried so many so-called cures which had failed even to relieve me. At last I procured a bottle of Hood's Sarsaparilla, and after taking all the medicine the headaches had left me and my catarrh was much better. I continued taking Hood's Sarsaparilla and have derived so much benefit from it that I would advise any one troubled with impure blood to try Hood's Sarsaparilla, the great blood purifier. I feel better now than I have for years, thanks to Hood's Sarsaparilla." Mrs. E. Gray, 27 St. Nicholas St., Toronto, Ontario.

Hood's Sarsaparilla is the best—It acts on the system, and is sold by all druggists. \$1.50 per bottle.

The Points That Mark Them. Best dresses have no qualities about the cost of the garments they want. It's a matter of quality and workmanship of the highest order, the individuality in the design and a reasonable share of exclusiveness in patterns that's sought after. Henry A. Taylor, draper, the Rossin Block, has these as his strong points in making fine clothing for gentlemen.

WHO WAS RESPONSIBLE?

Uproarious Session of Spanish Senate Trying to Find Out.

Admiral Cervera Included in the Category of Those Who Ought to Have Their Names Taken Round Their Necks—Count Alameida Says That Gen. Linares Was Also Incriminated.

Madrid, Sept. 13.—There was another uproarious session of the Senate to-day, Count Alameida, referring to his statement yesterday, giving the names of the generals he recently had caught in their snares tied around their necks instead of around their waists, naming Weyler, Blanco and Primo de Rivera, after which he also included Admiral Cervera in the category, said General Linares was also incompetent and ought to be arranged. Thereupon General Weyler attacked the speaker, protesting against those charges, and General Weyler called on Count Alameida to name those generals who were accused of failing to do their duty, and he added, if the accusations were true and the culprits could not be legally punished, the generals would take the matter in their own hands and defend themselves. A great tumult ensued, the Senators standing, shouting and threatening each other. The President of the Senate vainly strove to restore order and broke his belt in attempting to do so.

When the debate was resumed, Senator Gonzalez attacked the army. He said he had been deceived first by the insurgents and then by the Americans. The speaker asked what had become of the 200,000 men sent to Cuba. He blamed General Weyler and the late Premier, Senator Canovas del Castillo, asserting that the latter was omnipotent while in power and might have done what he pleased. The Premier, Senator Sagasta, replying, said that neither Senator Canovas del Castillo nor himself had ruled long enough to change the character of the race, which was the true cause, he claimed, of the disaster to Spain.

Later, the Premier remarked: "We are an anemic country. We were attacked when acting as an honest man under the defended ourselves. I have lost my prestige, but it is because I believe the path I am following is the best."

Weyler's Violent Speech. General Weyler then made a speech of great violence, which provoked such an outburst that the Premier had to intervene and called upon the General to explain his policy. General Weyler replied that he had not threatened the Government institutions, but only those who had attacked the army. The Minister for War, General Correa, said the Government alone was responsible. The Duke of Tetuan, the former Minister for Foreign Affairs, defended Senator Canovas del Castillo, whereupon Senator Gonzalez made another attack upon the deceased Premier, declaring the latter responsible for the loss of Cuba and had planned with Senator Sagasta to sign the surrender.

SHAFER'S REPORT.

The Santiago Campaign and the Military Invasion of Cuba Explained to Washington.

Washington, D. C., Sept. 13.—General Shafter's report submitted to the War Department his report on the Santiago campaign, covering not only the battle of Santiago but the entire progress of the military invasion of Cuba. The report is a voluminous document, covering with the supplementary reports of division commanders about 200 typewritten pages. Of this General Shafter's report forms about half. It was stated that the report would not be made public for the present, the reasons being its place in the hands of the President and Secretary of War and allow sufficient time for a consideration of its contents. After that there is little doubt the material portions, and perhaps the entire report will be made public. It repeats a story already given well known, although there is much interest in the view which the commanding general takes of several features of the campaign.

GEN. HUTTON'S POLICY.

The New Commandant Favors Security in the Militia—Improvements Proposed.

Quebec, Sept. 13.—The local officers of the militia, who called upon General Hutton yesterday, appear much pleased with their reception. The General entertained them to refreshments in the ladies' ordinary of the Frontenac and talked to them of their profession and of the improvements which he desired to make in Canadian military matters. He reminded them that the Canadian army, to which they belonged, was really part of the British army, and he spoke of the camaraderie that should subsist in it. He wished them one and all to speak to him in case he failed at any time to recognize them.

Amongst the principal wants of the Canadian military system that he desired to supply was a system of mobilization, a medical service and a commissariat and transport department. General Hutton, if possible, intended to take command himself of the camp at Levis next year, and is considering the propriety of having the city battalions camped with him for the last couple of days.

A brigade church parade has been decided upon for Sunday, Oct. 2, and will be commanded by the General in person. It is probable that a detachment of marines and blue-jackets from the fleet will accompany the land force.

THE JEWISH YEAR 5659.

Preparations Among the City Brethren for the Feast of the New Year.

Believers in the Jewish faith are preparing now for the Feast of the New Year. Saturday will be the first day of the year 5659, and its celebration will be marked by much solemnity. Holy Mosaic Synagogue has been filled each morning of this week and will be until Friday with devotees. At 6 o'clock on Friday evening the service proper commences, when Rabbi Lazarus will preach, and again at 8:30 o'clock on Saturday like services will be held. Penitential prayers will follow the morning sermon, which of all the Jewish ceremonies is the most mournful. The 29th inst. will be the Day of Atonement, and on the fifth day following the Feast of the Tabernacles will begin. This holiday will be held for seven consecutive days. These services are not being celebrated in the synagogues alone, for many of the local halls have been secured, as, for instance, Richmond Hall, where Jews from outside parts may worship.

HAPPY HARVEST HOME.

Good People of Nobleton Celebrate an Abundant Harvest.

Nobleton, Sept. 13.—(Special.)—St. Alban's Church was very appreciably decorated with grain, fruit and flowers to-day, on the occasion being a thanksgiving service for the bountiful crop which has characterized this season. Rev. E. B. Morley of Bradford, who preached from to-day, "In everything give thanks," said that to-day the people had a two-fold reason for giving thanks, first for the harvest, and secondly, for the harvest, which the walls of the church indicated had been so abundant. A large number of entertainments were held in the hall. The Nobleton Brass Band acquitted themselves in fine style, and a program was given by the Whyte Brothers, Mr. Norris, Mr. Cooper, Master Sydney Randall and Mr. Darby.

THE BEST STORE FOR CLOTHING!

We sell all kinds of tailor-made Clothing for men and boys—all kinds but shoddy. We trust the selling only to the merit of the Clothing itself. It isn't in advertising. It isn't in much talking which leaves you in doubt as to what you're buying. A thick-headed salesman could sell our sort of Clothing—though our salesmen are not thick-headed. Qualities as good as best cloth and best work can fashion themselves. Styles and values superior to everything else the city over.

The new Richmond Street Store has been a success from the start. It makes it that men like more and more to come here. It emphasizes our interest in the every-day needs of boys and men. Manufacturers tell us our ideas are too extravagant—that we want things too good. We pay an extra price to have quality blended in with every seam and button-hole, and every garment made "on honor." It's a little investment of our own to win bigger success by still better deserving it. These prices give you a chance for intelligent comparison:

All the temporary buildings and cars in the yard were consumed, and the loss will be about \$2200.

Strong Show at Popular Prices. It is a long time since Torontonians have had such a big entertainment offered them at "popular prices" as "The Devil's Auction," this week's attraction at the Toronto Opera House. From the very moment certain rises on the first act until it goes down on the grand transformation scene there is one constant round of the most novel and pleasing attractions ever seen at a local theatre. It is a beautiful spectacle and a cleverly arranged entertainment, in which everything except the name is new. An ingenious diversion, which scores a big hit at every performance, is the fantastic dance to a melody of Sousa's marches. The sixteen ballerinas employed therein are divided into quartets and quartets, each of the melodies used: "King Cotton," "El Capitán," "The Stars and Stripes Forever," "The Bride Elect," and "White Everything is excellent, particular mention should be made of the singing of Miss Phyllis Allen, the wonderful acrobatic work of the "Brothers," the trick bicycle riding of Alexander Decca, the dancing of Little Miss Columbia and the singing specialty of Miss Marjorie Mayo. Tomorrow afternoon the Brotherhood of Locomotive Firemen will attend the matinee, a matinee will also be given on Saturday afternoon underlined for next week is "Humantia," which has never been seen here except at high prices.

A Magic Pill.—Dyspepsia is a foe with which men are constantly grappling but cannot exterminate. Subdued, and to all appearances vanquished in one, it makes its appearance in another direction. In many the digestive apparatus is as delicate as the mechanism of a watch or scientific instrument, which even a breath of air will make a variation. With such persons disorders of the stomach cause the most trivial causes and cause much suffering. To these Parmelee's Vegetable Pills are recommended as mild and sure.
