FIVE-HOUR BATTLE WITH POLICE AND FIREMEN LEFT ONE DEAD, 3 INJURED

Remarkable Scenes in Montreal Before Veteran Book Agent is Arrested on a Trivial Charge—Detective Carpenter Wounded.

REVOLVER FUSILADE WAS WATCHED BY BIG CROWD.

MONTREAL, April 6.—(Special).—For five hours this afternoon and evening, John Smith, a book agent, 60 years old, kept a large posse of the Montreal police force and a detachment of the fire department at bay, killing one constable, wounding another and chief Detective Carpenter before he was finally shot during a fusillade which a large number of police poured in on the house.

All the while a crowd numbering several thousand surrounded the house and witnessed the most strenuous effort to make an arrest in the history of the Montreal forces.

The trouble began late this afternoon when Constables Focout and Shea were sent to 34 Mance-street with a warrant for the arrest of Smith obtained by his landlady, Mrs. Pritchard. Focout attempted to enter the house first and was met by Smith armed with a rifle. Without a word of warning Smith fired at Focout, the bullet striking his forehead and glancing off. Shea was immediately behind and when Focout fell, he bravely rushed in. Once more Smith fired, the bullet piercing Shea's heart.

Behind at Barriere. Assistance was summoned. By the time it arrived Smith had barricaded the windows of the house, appearing every now and then at one of them with a rifle. Orders were given to capture him alive and this the police at first attempted to do by smothering him out.

This means proving ineffectual, a couple of hose wagons were summoned from a nearby fire station. Streams were turned on from both front and rear and a volume of water poured into the place. When this was done Smith once more appeared at a window and leveled his rifle at those landing in front. Again he fired and this time chief Detective Carpenter fell, shot through the hand.

Police Open Fire. When Carpenter fell, the police, urged on by the demands of the crowd, disregarded the order to capture him alive and the revolvers of fifty men began blazing away. After a few moments the firing was stopped. Smith gave no sign of life and the police finally decided to rush the place. This they did, meeting no opposition. Smith was found lying on his bed, and submitted to arrest without further resistance.

During the fusillade of the police he had been hit in three places, the chin, breast and arm. None of the wounds appear to be mortal. He was conscious and appeared sane. He was taken to the hospital and a guard placed over him.

Smith is a well-known figure around town, having been engaged in selling recent. It is believed that he comes from the southern states and that Smith is not his right name, but really he has been drinking heavily and it was a threat to kill his landlady that led to her taking out the warrant.

PORTRAIT OF ALEX. MUIR.

Presentation of Picture to the Gladstone Ave. School.

A portrait of the late Alexander Muir, author of "The Maple Leaf Forever" and a painting of the house in which that anthem was composed thirty-five years ago, were presented last night by the ex-pupils of Gladstone-avenue school to that school, which is now known as the Alexander Muir school. The ex-pupils' organization turned out in full force to the number of about 200, while a large contingent of friends of the late patriot and singer thronged the kindergarten. Brief addresses were made by Mayor Oliver, Ald. J. G. Graham, Inspectors J. L. Hughes and W. F. Chapman, Rev. H. A. Macpherson, Principal Fraser of Crawford-street school, and Trustees Dr. Hunter and Rawlinson, Miss Crane and Messrs. Taylor and Charter of the Old Boys' Association sang solos, and H. Johnston gave a selection on the violin. The paintings are the executive of J. McP. Ross, ex-Mayor of East Toronto, and one-time pupil of the late Alex. Muir.

COL. MATHESON'S TRIP.

Hon. Col. Matheson expects to sail for England about the middle of June in connection with the new loan. It is to be expected, therefore, that the provincial elections will be over by that date.

Land for the Landless. MELBOURNE, April 6.—(C.A.P. Cable).—Mr. Bent has offered 2,000,000 acres, which he developed for the purpose of British emigrants.

Premier Deakin expects from the majority of other state premiers equally encouraging offers.

A Record Majority. LONDON, April 6.—(C.A.P. Cable).—Cape election final results are: South African party 69, with 18 Unionists; 33 Independents; 5. It is a record majority.

Watching Canadian Act. LONDON, April 6.—(C.A.P. Cable).—In the commons Lloyd George, answering a question regarding the legislation, said the importance of the Canadian act dealing with strikes had not escaped his attention, and its operation would be carefully watched.

\$100,000 FROM ONTARIO TO THE FUND

Tenders for Voters' Lists

An appeal to the people by the Dominion Government seems imminent. It is presaged by a request received yesterday by several city printers—it is whispered—to tender within 48 hours for work in connection with the issuing of the voters' lists.

The contracts are expected to total from \$175,000 up.

POSTAL RATES ON CITY LETTERS MAY DROP

The Postmaster-General Hints at Early Reduction in an Address at Montreal.

MONTREAL, April 6.—(Special).—Judging from a statement made to-day by Hon. Rodolphe Lemieux, postmaster-general, it is probable that the rate of postage on drop letters in cities will be reduced from two cents to one cent.

This was hinted by Mr. Lemieux at the conclusion of a meeting between himself and the president and members of the Montreal Produce Merchants' Association, which meeting took place in the council chamber of the Montreal Board of Trade.

Mr. Bickerdike, M.P., had called the attention of the postmaster-general to the efforts made to re-establish the lower rate of postage.

Mr. Lemieux arose and answered: "I think I may say that before the end of the present session our friends who are interested in this subject will be pleased to hear of it."

Hon. Mr. Lemieux, accompanied by Dr. R. M. Couler, deputy postmaster-general, and Mr. Gaboury, assistant postmaster at Montreal, visited the board of trade and announced the purpose of their visit was to discuss the question of the continuation of the Saturday mail service between Canada and Great Britain.

Mr. Lemieux also dwelt on the enormous possibilities of trade between Canada and Japan. The minister stated that he was surprised to note on his recent sojourn in Japan that that country was practically in the hands of American traders and manufacturers, and he did not see why Canadian manufacturers and business men did not pay more attention to the vast Japanese market. When traders reached Japan they practically reached Manchuria, Korea and all the Asiatic markets. In ten years the consumption of wheat in Japan had increased by 800 per cent, and in twenty-five years every home in Japan will have its daily supply of bread as in Canada to-day.

To-day the Japanese are purchasing from the United States flour which they say they can produce cheaper than from Canada, but there was no reason why the people who built the Canadian Pacific Railway and dredged the Lawrence to Montreal could not overcome the difficulties in the matter of freights between this country and the Japanese empire.

OGILVIE STOCK ISSUE.

Shareholders Authorize Increase of \$2,500,000 Common.

MONTREAL, April 6.—(Special).—At a special meeting to-day of the shareholders of the Ogilvie Flour Mills, Limited, the common stock was increased to \$2,500,000, the owners of the common agreeing to give the preferred holders an opportunity of subscribing for one share of the common on the basis of the increased capital at par for every two shares of the preferred held by them. Last year, under the new basis, the earnings equaled 17.2 per cent on the \$2,500,000.

It was also decided to make an increased bond issue of \$500,000 at 4 per cent, to provide capital for a separate business.

TWELVE PAGES—TUESDAY MORNING APRIL 7 1908—TWELVE PAGES

Province's Contribution to the Quebec Battlefields—Other Items in Supplementary Estimates.

The supplementary estimates were brought down in the legislature yesterday evening just before the 6 o'clock recess. The total amount is \$407,330.64. This, with the \$7,501,875.67 of the main estimates, constitutes an expenditure for the year of \$7,909,206.31, or very little short of \$8,000,000.

The item that will probably attract most attention is the patriotic grant of \$100,000 to the preservation of the Plains of Abraham, which is put down as a "Grant to National Battlefields Park and Monuments at Quebec." The Dominion has given \$850,000, and the sum from Ontario is that suggested by the national committee.

The expenses of elections are put down at \$90,000, and while this makes sure of the fact it throws no further light on the date.

The other miscellaneous items are \$5000 to the Provincial Museum for the purchase of antiquities, and \$500 for the South African Monument, London. The provincial board of health gets \$3000 for the tuberculosis campaign. For the annual meeting of the International Association of Factory Inspectors \$500 is allowed. This is included in civil government, which totals \$7894. Legislation is responsible for \$2342.

Administration of justice requires an additional \$500; education claims \$19,605 extra. Of this \$1200 goes to the Macdonald Consolidated School, Quebec; \$1000 to the principal of Ontario Normal College for special services; \$3000 to departmental masters in normal schools; \$2400 additional to agriculture training in high schools; \$2000 for the technical education plans at Hamilton, and \$8000 for technical education at St. Lawrence College.

Agriculture gets \$40,752. Of this \$20,000 goes for the Ontario Veterinary College, \$10,000 for the museum and goodwill, and \$10,000 for the staff, rental and contingencies. A special grant of \$5000 for forestry work is made.

Under public works \$10,000 appears for an assembly hall at Brockville, \$20,000 for the purchase of lands for the new central park at Brockville, and the Ontario Agricultural College—in all \$48,968.

Public works account for \$13,500 and colonization roads for \$21,428. Fire rangers, forest rangers and other forest and survey charges require \$46,778 extra.

LOOKS BRIGHT IN WEST.

Seeding Prospects Never Better—Fine Weather Prevails.

WINNIPEG, April 6.—Reports from all over the west, from the Rocky Mountains eastward, indicate that the finest weather prevails, and that seeding prospects never were better. Around Calgary seeding has already begun on land which was diced a month ago, before the recent severe weather set in. At Edmonton, the farmers will all be busy within a month. They have plenty of seed, and have a great area of land in excellent condition.

From Regina reports indicate that seeding will be general by the middle of this week, and in progress. The snow is practically all gone. Dust is flying around Wetsaskin, and at Medicine Hat plowing is in progress. Fall wheat there is in prime condition. Moosejaw district will seed 7000 acres more, and in the south, where there will be busy within a few days. Saskatchewan is later, and will not be seeding before the end of the month. In the Southwestern Manitoba points are all preparing for an early start. The 15th of April is usually considered a good time for general operations.

NEW YORK CANADIANS.

Banquet This Year to Outline All Others.

NEW YORK, April 6.—The fourth annual banquet of the Canadian Club of New York will be held in the large ballroom of the Hotel Astor on Thursday, May 14. An imposing array of speakers is announced, the list including the Hon. Mr. Lemieux, B. Borngren, Justice Longley and Hon. Chas. Marcell, representing the Dominion; the British ambassador, Hon. James Bryce; the French ambassador, M. Jusserand, and the secretary of state, the Hon. Elihu Root, also will be present.

The indications are that the coming banquet will surpass in international importance and general interest all previous affairs of the kind held by the New York Canadian Club.

PASTOR FOR COOKE'S.

Committee's Deliberations Are Bound Up With Secrecy.

The greatest possible secrecy surrounded a committee meeting at Cooke's Church last night at which the subject of discussion was a successor to the Rev. Mr. Ester, who resigned the pastorate some time ago.

MARKED WITH A "THIN RED LINE."

"SPORT" AYLESWORTH: Say, it's sinful the way Wilf'll do that man Borden with them marked cards.

OPPOSITION START OUT TO FIGHT REDISTRIBUTION

TORONTO'S EIGHT SEATS UNDER FIRE TO FIGHT REDISTRIBUTION

MacKay Talks of Thimble-Rigging and Analyzes Figures to Show That Divisions Aren't at All Fair.

Practically all day was given to the redistribution debate in the legislature yesterday, and it must be admitted by the impartial auditor that the speeches of Hon. A. G. MacKay and C. M. Bowman were not met in any direct manner. W. H. Hoyte's address occasioned many lively passages, and he hammered the opposition on their past record.

Mr. MacKay fired some hot shots into the treasury benches. Carlwell has 17,472 and Peel 18,032 population, a difference of only 560. Under the new plan, Carlwell will have 14,750 and Peel 21,475, a difference of 7000.

At the 3 o'clock sitting Hon. A. G. MacKay took up the debate on his amendment to the redistribution bill motion to go into committee. He began by combating the argument advanced by Premier Whitney that he was only putting things right after the redistribution of 25 years ago.

AN ANALYSIS SHOWS WATER ISN'T SO BAD

Academy of Medicine Expert Fails to Find Traces of Sewage Contamination.

H. J. Hamilton, honorary secretary of the Academy of Medicine, makes public the following reassuring statement concerning the condition of the city drinking water, something which the city has ceased to do:

"Analysis made by Prof. J. J. Mackenzie of a sample of water taken from the tap at the university medical building.

"April 3, 1908: "Test for the presence of colon bacillus and related forms. Result—Negative.

BAILIFFS' PLEAS WIN OBNOXIOUS BILL DROPPED

Ontario Delegation Appeals to Attorney-General and Amendment is Withdrawn.

It was the intention of Attorney-General Foy to add an amendment to the Division Courts Act, that would reduce the scale of remuneration to bailiffs and court clerks. To offset this some two score of bailiffs met yesterday morning from all parts of Ontario.

The amendment the government was going to bring down to-day affects all fees in all cases up to \$25, and Mr. Code of Ottawa, said that fully 40 or 50 per cent of the cases came under this head.

According to him, some of the division court bailiffs would make less than \$50 a year.

28TH YEAR

ASQUITH PAYS TRIBUTE TO EX-PREMIER

Leaves for Biarritz to Confer with King—Mr. Morley Renounces His Claim.

LONDON, April 6.—Herbert H. Asquith, the chancellor of the exchequer, who has been summoned by King Edward to Biarritz, crossed by the night boat from Dover to Calais to-night, on route to that place to see the King, whose absence at a time when it was foreseen that Sir Henry Campbell-Bannerman's illness must last almost invariably to a cabinet crisis, provoked criticism in the English papers. There was a rumor that the King would return to London on Saturday next, but it is very doubtful.

In his letter of resignation to the King, Sir Henry advised his majesty to summon Mr. Asquith. The latter, in fact, has no rival for the leadership of his party and the government. His accession to the premiership undoubtedly will sooner or later lead to sweeping changes in the constitution of the late ministry, but in the unprecedented circumstance of the British premier resigning during an important session of parliament it is quite possible that the new premier will content himself with the absolutely necessary changes, leaving other reconstruction and other weighty measures now before parliament disposed of, this the more especially in view of the desirability of avoiding as far as possible by-elections which would be necessitated by appointing men to new offices.

The King's Absence. It is announced that the King has conferred the Knighthood of the Garter upon the Earl of Crewe, lord president of the council, and Knightship of the Thistle upon Lord Tweedmouth. These are regarded as Premier Campbell-Bannerman's last recommendations to his majesty, and may also indicate a change of resignation of these ministers.

The Daily Chronicle, in an editorial this morning on the awkwardness of the King's absence, says that Mr. Asquith's resignation was postponed for a time in the belief that the King would find it convenient to return to London. "His absence," says the paper, "is a heavy burden upon the shoulders of the ministers. The Daily Chronicle, in an editorial this morning on the awkwardness of the King's absence, says that Mr. Asquith's resignation was postponed for a time in the belief that the King would find it convenient to return to London. "His absence," says the paper, "is a heavy burden upon the shoulders of the ministers. The Daily Chronicle, in an editorial this morning on the awkwardness of the King's absence, says that Mr. Asquith's resignation was postponed for a time in the belief that the King would find it convenient to return to London. "His absence," says the paper, "is a heavy burden upon the shoulders of the ministers."

Churchill's Outlook. The fact that Mr. Spencer Churchill, who figures as a likely cabinet candidate, contend that he would be able to carry his seat in Manchester, but taking into consideration the result of all previous by-elections, particularly that at Peckham, no Liberal seats are regarded as too safe at the present time.

In any event, however, whether Mr. Asquith declares to complete the reconstruction of the cabinet, or postpone it, any difficulty that he is likely to experience will arise rather from redundancy among the members of the party among the young members of the party awaiting recognition. It will be almost impossible to find places for all the desiring to enter, while during the reconstruction is not unlikely, thru the reluctance of the older members of the cabinet to make room.

It is an open secret that the party expects the retirement of the Earl of Elgin, the colonial secretary; the Marquis of Salisbury, secretary of state; Lord Tweedmouth, first lord of the admiralty; H. J. Gladstone, secretary of state for the home department; and Sir H. H. Fowler, chancellor of the Duchy of Lancaster, but it is very doubtful whether they can be persuaded to yield their places.

Another development which is regarded as not impossible is that Mr. Asquith will make a cabinet of Lord Rosebery to join the cabinet at some future time. Mr. Asquith is supposed to be the more in sympathy with Lord Rosebery than any other British statesman.

Beyond the fact that David Lloyd-George and Winston Spencer Churchill and Walter Runciman, the financial secretary to the treasury, will be included in the new cabinet, all is conjecture.

The two former are among the most brilliant of the younger men. Churchill, with all his historical name and fine record as a writer and politician, is the better known abroad. During his tenancy in the colonial office he has displayed industry and ability, fully warranting the confidence of his leaders. David Lloyd-George is a brilliant parliamentary debater and platform speaker. With the retirement of Sir Henry Campbell-Bannerman, he is left the undisputed leader of the radical wing. He earned golden opinions for the capacity he showed in dealing with great trade interests, and he is accredited with him engineered thru the house of commons, measures involving the delicate negotiations, without having made a single mistake.

It is admitted on all sides that the retirement of Sir Henry Campbell-Bannerman is a setback for the home affairs movement, and the Nationalists do not attempt to hide their disappointment. The only bright spot being that Mr. Asquith agrees to leave Secretary Birrell in charge of the Irish office.

John F. Reimond, the Nationalist leader, said to the Associated Press: "It is undeniable that the resignation of Mr. Bannerman is a great loss to Ireland. As to Mr. Asquith, there is nothing to say yet. I do not in-

COLLEGE OF ARMS "OPENED" CANADA

To Create an Aristocracy Thruout America—Headquarters Are in City of Montreal.

NEW YORK, April 6.—The Marquis de Fontenay in The New York Tribune, writes:

"Viscount de Fronsac, herald marshal of the College of Arms of Canada, has issued an appeal, not only to the descendants of the old seigneurial families of the Dominion, but likewise to many hundreds of good American citizens with claims to ancestry, inviting them to participate in a territorial redistribution this summer."

It is an open secret that the party expects the retirement of the Earl of Elgin, the colonial secretary; the Marquis of Salisbury, secretary of state; Lord Tweedmouth, first lord of the admiralty; H. J. Gladstone, secretary of state for the home department; and Sir H. H. Fowler, chancellor of the Duchy of Lancaster, but it is very doubtful whether they can be persuaded to yield their places.

Another development which is regarded as not impossible is that Mr. Asquith will make a cabinet of Lord Rosebery to join the cabinet at some future time. Mr. Asquith is supposed to be the more in sympathy with Lord Rosebery than any other British statesman.

Beyond the fact that David Lloyd-George and Winston Spencer Churchill and Walter Runciman, the financial secretary to the treasury, will be included in the new cabinet, all is conjecture.

CANDIDATE RETIRING.

William Rickard, Liberal, Dropping Out of Contest.

BOWMANVILLE, April 6.—(Special.)—It is currently reported here to-night on reliable authority that Wm. Rickard, Newcastle, Liberal candidate, selected at Newcastle, West Durham riding convention last summer, has placed his resignation with Thomas Baker, president of the West Durham Liberal Association.

No reason is assigned for this action, but he has contemplated relinquishing the candidacy for some months. It has been understood from the day of the convention meeting that Bowmanville Liberals were disappointed with the choice, and murmurs have been rife ever since. A strong faction favored William John Bragg, ex-county councillor of Darlington, who received the second largest vote, William Cann of Bowmanville and Thomas Baker, Solina, have also been approached.

A riding convention is being called for on Saturday, April 18, to select a successor. Bowmanville Liberals are in regard to the political course that Mr. Rickard has given them.

Death Follows Accident.

Mrs. Anne Gibson, 82 years old, of 482 Euclid-avenue, is dead of a fractured thigh bone. She was going down stairs about a week ago, and missing the last step, fell heavily. Being an old lady, the fatal termination of the accident was not unexpected. She was the widow of the stone contractor who built the King-street subway, the Union Station and many other big stone construction works.

A Baby is Born With a Tooth.

KINGSTON, April 6.—A baby was born to Mr. and Mrs. Robt. Robinson, 141 Stuart-street, having a tooth in the gum.

Medicine in the Spring Needed by Everyone

Winter weakens the system, saps the blood, leaves us tired and thin.

Great epidemics break out in spring, such as fevers, pestilences, and infectious skin diseases. In from air and water, winter shuts us in from air and sunshine. As a consequence of this unnatural mode of life, the blood becomes polluted, thin, colorless. Then we grow listless, dull, easily tired, have headaches and find our work a burden.

Reduced to this condition we become an easy prey to disease and fill hospitals and churchyards.

To rapidly form rich blood, to expel the accumulated humors that winter has stored up in the system, to call back the energy, endurance and vim that will make life enjoyable, just take Ferreroze, a spring cleanser, unequalled in medicine.

Ferreroze purifies by rebuilding nerve tissue and vitalizing the blood. The entire system soon feels the beneficent action of new rich blood; slow organs are stimulated to normal activity; expel poisons and wastes from the body, and the result is the beautifully harmonious working of the system. Weak nerves are restored and health becomes as natural as a consequence as growth from moisture and sunlight.

Men and women fortify your nerves with Ferreroze, renew the blood through its marvelous blood-forming power, regain vigor and enduring strength by its action upon appetite and digestion. Use Ferreroze if you want to be strong.

"I increased my weight seven pounds in one month and regained health that had been lost for two years—did this by using Ferreroze," writes Mrs. C. E. Maybeck of Centerville, Ferreroze brought me restful sleep and good digestion, enabled me to relish my meals and work hard all day. I consider it the finest tonic, the most nourishing medicine I ever used."

Try Ferreroze yourself, 50c per box or six for \$2.50, at all dealers

THEY WANT SHERRING AT THE OLYMPIC GAMES

Board of Trade Endorses Movement to Remove Duty on Soft Coal for Tugs—City News.

HAMILTON, April 6.—(Special.)—The local Olympic committee had a meeting at the Hotel Royal this evening, and decided to ask the Canadian Association to send W. J. Sherring to the games as manager of the Canadian team.

Permission will also be sought for Bobby Kerr, the sprinter, and Coley, the long distance runner, to leave here so that they can be in the old world some time before the games are held.

Mrs. Mills, West-avenue, mother of F. C. Mills of The Times died this afternoon.

At the quarterly meeting of the Board of Trade this afternoon the movement to get the duty on soft coal for tugs either wiped out or reduced was endorsed. John Hoodless said the way the shippers were used by the railway was shameful. One kick was the manner of dealing with claims, and H. C. Beckett was appointed to represent the board before the Dominion Railway Commission in this matter.

The board declined to interfere in the move to make arrangements so that commercial travelers might be given a chance to vote. Mr. Beckett found fault with the proposed amendment to the criminal code, placing the initiative in actions in the hands of the attorney-general, because he thought the attorney-general would be influenced by the rabble and mistaken reports of the newspapers.

William Simpson and Charles Hiltz were arrested this evening on the charge of stealing \$8 from John Woodine.

A Day of Fines.

Police Magistrate Jelfs collected fines amounting to \$312. Of that amount Charles King, Toronto, was fined \$30 and \$100 costs for obtaining \$28 in interest from Les. Coyle, and Bernard Kennedy was fined \$132 for removing his furniture to escape paying half that amount of rent. B. F. Cooley, the Walkerville man, who was begging on the strength of a fake wound, was fined \$10. Judgment was reserved in the case of Lilly King, accused of stealing \$13 from Durward, the magistrate remarking that some one was committing perjury.

J. G. Donoghue, the representative of the street railway men, who has given a minority report exonerating John Theaker, and declaring that he was dismissed on account of dishonesty, was the subject of a resolution passed at the meeting. He also finds that Mr. Theaker did not carry passengers free or accept lines of tickets at the station. The Ancaster hotelmen have decided to try to have the local option bylaw quashed.

Robbed Poor Box.

Roy Bennett was arrested this morning for rifling the poor box at St. Lawrence Church. Money had been stolen from the box several times, and a watch was set, and Bennett was caught red-handed. He was remanded for a week for sentence.

Several manufacturers are accused of importing non-union molders, and there will probably be trouble with the union.

A choir of boys in surplices has been organized at St. Mary's Cathedral.

Experienced Traveler Calling in Towns

A Necessary Adjunct.

John H. Robertson, secretary of the Canadian Fire Underwriters' Association, stated yesterday that nothing has been done so far as the appointing of a salvage corps to work with the fire department.

"But the loss by fire in North America is something enormous, and is a positive disgrace," he said. "Montreal has a salvage corps, and it is doing excellent work, and something will have to be done here before the new high pressure service is put in operation."

A Grateful Council.

GANANOQUE, April 6.—Landsdown Township council, at their meeting, last night presented Policeman Thompson of Gananoque with \$30 in recognition of his skill in locating and convicting a man named Coxy for stealing from one of the islands near Gananoque.

Lost Life Frying Doughnuts.

WATERTOWN, N.Y., April 6.—Mrs. John St. Dennis, aged 40, of Natural Bridge, was burned to death to-day when frying doughnuts. The fat ignited and the woman was enveloped in flames. Death soon followed.

Transfer Overdue.

John Tomlin tried to get a ride on a Broadview car thru the use of an overdue transfer. He was fined a dollar without costs.

New Naval Station.

A TRUE BILL FOR MURDER AGAINST GEORGE VANCE

Grand Trunk Sued for Heavy Damages for Loss of Educated Horses.

ST. CATHARINES, April 6.—(Special.)—The grand jury to-day returned a true bill against George Vance for the murder of James Patterson.

A true bill was also returned against Charles Young, Magistrate, of assault. Chief Justice Falconbridge is presiding.

The afternoon was devoted to the hearing of two horse cases, neither of which was concluded. One was the suit brought by R. F. Robinson and W. A. Briggs to recover \$1200 paid by them to Webster Haynes and W. E. Butler for a stallion, which was sold after the other was brought by Roderic Sutherland, Gimby, for \$18,000 damages from the Grand Trunk for loss of a number of trick and race horses in collision at Trenton in October.

The only evidence heard was that of the plaintiff, who claimed, on horses worth four thousand dollars, another three thousand, and mentioned various other sums as values of the animals. The horses were valued yesterday on education and speed. The judge dismissed the jury, the company acknowledged negligence, but counsel urged no liability existed as the horses had been shipped with the understanding that the liability on each animal did not exceed a hundred dollars. Sutherland had raced horses all over the continent in the summer months, and operates a large hippodrome. He claimed one horse killed was ten years old, and had never won less than third place and had been in over 30 races one season.

TAKE THE SIGN.

An enterprising just in from a trip thru the west says that everything is looking fine for a grand opening of seeding operations.

"Round about Edmonton," he says, "they were seeding as I came thru. The spring has opened up better than ever, and every westerner wears a smile like a full moon.

"Which is a good sign this year—and it looks like a bumper crop—there will be heaps of money in the west, and what is just as good, abundant confidence in things as they are."

This easterner is an observer, and what he says is a good sign.

Take the sign.

Committted Perjury.

George McEwan, charged with assaulting P. C. Lilly at Queen-street and Spadina-avenue Saturday night, when arranged in police court yesterday morning swore he had not. After being warned by the magistrate to consider the fact that three witnesses had sworn that he had, George still persisted and with the remark that he was minded to do a little spring housecleaning and get started on the prevalent pest of perjury, which was becoming too plentiful, a 60-day sentence was imposed.

New Coaling Plant.

SMITH'S FALLS, April 6.—(Special.)—The new coaling plant and coal dump in the C.P.R. yard here, which has been in course of erection for some months, were completed this week. The plant is of the most modern type, and is considered one of the most complete on the whole C.P.R. system.

Liquor and Tobacco Habits

A. McTAGGART, M.D., C.M. 75 Yonge St., Toronto, Canada.

FINES WERE IMPOSED AND WARNING GIVEN

Magistrate Deals with the Batch Arrested for Disorderly Conduct Saturday Night.

Magistrate Denison yesterday dealt with the "unlucky thirteen" gathered in by the police for participation in the disorders on Saturday night in connection with the so-called newsboys' strike.

Henry Steinhart, 15; Sam Finkenstein, 15; David Bollinsky, 14 and Moses Frankel, 14, were released on suspended sentence.

George Chadwick, 15; Abbott Wood, 14 and Arthur Turrell, 15, were fined \$1 and costs for three days.

Earl Phenix, 15, who threw a stone and smashed a \$10 plate glass, was fined \$5 and costs.

Wm. Wilson, 17, was fined \$4 and costs for ten days for having snatched papers from other boys and destroyed them. The magistrate pointed out that he had rendered himself open to a charge of highway robbery.

Fred Eavis, 21, was fined \$1 and costs for using bad language.

The magistrate intimated that more severe punishment awaited any further cases of a similar nature.

The statement of one of the accused that boys from Hamilton or anywhere else had been imported to sell papers is not true.

Alleged Theft.

William Pennock, 23; Munro-Stuehr, was arrested by Detective Nat Guttridge last night, charged with theft of \$84 from the trousers' pocket of Richard Hague. Hague was in a hotel on Feb. 24 when a man cut away his trousers. The thief transferred them both to his own overcoat pocket, and in escaping this was torn from him.

Sale of Combination Player Planos.

To quick buyers Heintzman & Co., Limited, 115-117 West King-street, Toronto, are offering at a large reduction from manufacturers' regular prices, combination player pianos. These instruments are in good condition and will be sold on reasonable terms.

Palace School Old Boys' third annual reunion at St. Charles' Cafe, Thursday evening, at 8 o'clock, April 8.

A cordial invitation extended to all ex-pupils.

THE WEATHER

OBSERVATORY, Toronto, April 6.—Pressure has become much higher in Manitoba and continues low in the Gulf of St. Lawrence and in the Southwest States. The weather has been much colder to-day in Manitoba and Saskatchewan than much milder from Ontario to the Maritime Provinces. Showers have occurred in the Maritime Provinces and light local snow in Alberta and Southern Saskatchewan.

Minimum and maximum temperatures: Dawson, 2 below 16; Astin, 2-24; Vancouver, 31-50; Calgary, 24-38; Prince Albert, 2-23; Regina, 10-20; Winnipeg, 16-26; Port Arthur, 22-33; Parry Sound, 2-45; Toronto, 32-53; Ottawa, 34-43; Montreal, 32-48; Quebec, 30-44; St. John, 32-48; Halifax, 24-40.

Lower Lake and Georgian Bay—Moderate to fresh northerly winds; mostly fair and cooler; a few light showers at first.

Lower St. Lawrence and Gulf—Fresh to strong westerly winds; mostly fair and cooler; a few light showers.

Maritime—Fresh to westerly winds; a few light showers, but pleasant on Wednesday.

Superior—Northeasterly to easterly winds; fair and cool.

Saskatchewan—Mostly fair and cold, but some light local snowfall.

Alberta—Fair stationary or higher temperature.

PURCHASERS OF REAL ESTATE. 235 MADINA AVENUE. PHONE—CROSSING 791, 792.

OBITUARY

At St. Michael's Hospital, Toronto, Capt. James Chippewa, first mate of the steamer "Ireland" in 1829 and an old mariner; born in Ireland in 1829 and for 20 years with the Niagara Navigation Company.

Thomas Meaney of Thomas Meaney & Co., wholesale lumbermen, died yesterday in Montreal from pneumonia. He had been absent from the city a fortnight and the announcement came as a complete surprise. The body will be brought home to-day and the funeral will take place from his late residence, 114 Denison-avenue, at 8.45 on Thursday morning at St. Mary's Church, near to St. Michael's Cemetery.

For some years Mr. Meaney has been superintendent of the company's operations in Quebec. A widow and daughter survive.

Rev. Dr. R. Mitchell, rector of Trinity Church, East King-street, from 1869 to 1892 in England, where he made his home the last ten years.

ORANGEVILLE, April 6.—(Special.)—John McCoy of this town, late deputy reeve of Adajala, expired suddenly at his home at 5 o'clock this afternoon. Deceased was about 65 years of age and was father-in-law of Edward Darragh, editor of The Dufferin Post.

H. R. Ranks, Undertaker, Main 2581.

ASQUITH PAYS TRIBUTE

Continued From Page 1.

tend to attack him until I see what he does or fails to do."

Parliament has been adjourned until April 14 to enable the issue of writs for the re-election of new ministers, so as to have the elections during the Easter recess. A meeting of the Liberal party is expected to be called at Quebec, at which Mr. Asquith will make a declaration of policy and invite the party to rally to it.

The meeting will give formal recognition and recognition of Mr. Asquith as the new leader of the party.

In the Commons. LONDON, April 6.—The house of commons was crowded this afternoon, when Mr. Asquith rose to make his anticipated statement on the political situation. The speaker was greeted with hearty cheers as he began to speak.

"Since the house rose on Friday," said Mr. Asquith, "I have had the pleasure to receive the resignation of the prime minister, and the government now is without a head. This is not the occasion when I will make any political statement, but I will make a statement appropriate to the situation of the moment. I will not trust myself to do more than to say that in the annals of our history there is no more important long year spent in the thick of public contention, has ever laid down the highest offices under the crown more unreservedly than I have done."

There is not a single man in any quarter of this house who does not feel that this is a personal loss."

House Adjourns.

Mr. Asquith went on to state that it was clear public business could not proceed effectively at this time, and he proposed that the house adjourn until April 14, when, after the transaction of formal business, it would re-adjourn for the Easter recess. His proposal was adopted.

Following the adjournment, cabinet discussion was resumed in the lobby.

Mr. Asquith with leave for William Turcoman, returned to the house at 10.30 p.m. on Monday, April 6th, 1909.

Mr. Redmond and other Irish leaders tonight to confer with King Edward.

Mr. Morley, who had first claim for choice of portfolios, and who was thought to have a hankering for the chancellorship of the exchequer, is now stated to have definitely renounced all claim to that position.

It is expected that King Edward will visit Biarritz for London the end of the week in order to be on hand before the definite formation of the new cabinet.

Informal conferences of ministers under the presidency of Herbert H. Asquith, chancellor of the exchequer, was held prior to the commencement of to-day's sitting of parliament.

The situation was discussed in a general way, the premier-elect being anxious to hear the views of his colleagues concerning cabinet changes since, in view of ill success at the recent elections, the cabinet is to be re-arranged.

The cabinet is to be re-arranged after to-day's sitting of parliament, the cabinet is to be re-arranged after to-day's sitting of parliament.

David Lloyd-George, president of the board of trade, is in a favorable mood, and is expected to be in the cabinet.

Mr. Haldane, who shares the Liberal-Imperialist tendencies of Mr. Asquith, is understood to be a candidate for the chancellorship.

There is no hurry, however, about the various assignments, as Mr. Asquith will retain the chancellorship until the budget has been presented to the House of Commons.

Should Mr. Birrell, the chief secretary for Ireland, be slated for a change of office, it is an open question whether he will be retained as secretary of the local government board, will replace Mr. Birrell as head of the Irish office.

Will include Lewis Harcourt.

It seems likely that Lewis Harcourt will be included in the new cabinet, and the name of Mr. Harcourt is mentioned in most of the new cabinet lists.

The elevation of Winston Churchill would involve a shift in the cabinet, and the Conservative party would probably object to such a change.

COLLEGE OF ARMS

Continued From Page 1.

perfectly free to style himself "herald marshal of the College of Arms of Canada" or any other honorable title that he may care to assume.

But whereas the Royal College of Arms in London, Edinburgh, Dublin are government and state institutions of great antiquity of honored history, and endowed by British crown with all sorts of official prerogatives and attributes their kings-arms, heralds and pursuivants, being entrusted with the ordering of all state ceremonies, and with the granting and regulating of armorial bearings, etc., the "College of Arms of Canada" has no official standing whatsoever, is some private concern of the Viscount de Fronsac, who has assumed the title of "Herald Marshal" in any official function in the Dominion or received any honor or title from the British Crown in the person of the governor-general.

Nor, with a considerable knowledge of the history and traditions of Canada and of their relations to the European aristocracy, can I quite place the Viscount de Fronsac.

It is a fact that his pretensions are not recognized by the government, and that he is not a member of the House of Commons, and that he is not a member of the House of Lords, and that he is not a member of the House of Representatives, and that he is not a member of the House of Deputies, and that he is not a member of the House of Senators, and that he is not a member of the House of Knights, and that he is not a member of the House of Bishops, and that he is not a member of the House of Priests, and that he is not a member of the House of Monks, and that he is not a member of the House of Nuns, and that he is not a member of the House of Knights, and that he is not a member of the House of Bishops, and that he is not a member of the House of Priests, and that he is not a member of the House of Monks, and that he is not a member of the House of Nuns, and that he is not a member of the House of Knights, and that he is not a member of the House of Bishops, and that he is not a member of the House of Priests, and that he is not a member of the House of Monks, and that he is not a member of the House of Nuns, and that he is not a member of the House of Knights, and that he is not a member of the House of Bishops, and that he is not a member of the House of Priests, and that he is not a member of the House of Monks, and that he is not a member of the House of Nuns, and that he is not a member of the House of Knights, and that he is not a member of the House of Bishops, and that he is not a member of the House of Priests, and that he is not a member of the House of Monks, and that he is not a member of the House of Nuns, and that he is not a member of the House of Knights, and that he is not a member of the House of Bishops, and that he is not a member of the House of SOWING FARM CROPS

Springtime Brings Around Again the Old Question of Varieties and Quantities—Preparation of Seed Bed Important—Clovers Are Great Fertilizers.

The seed time is about here. Ontario will soon be musical with the seeder and drills. The loamy soils will be worked into shape, the good draught horses will have to get down to heavy work after the long winter, and once more mother earth will be taken at her word to fulfill in the harvest the promise of spring time.

As there is a law in the physical world that whatsoever a man soweth that shall he also reap, it becomes highly important to the farmer that he know what he sows and that he plant to sow well. Because nature has dealt bountifully many times with poor cultivators, it is no argument for a continuance of good times or an excuse for lack of study of seeds and soils.

So far the winter grains and young grass seeds have come thru well, although the drying winds of last week threatened many a meadow. A walk over the alfalfa, red clover and wheat fields reveals the tiny roots as considerably heaved with air, either the plants are, quite in contrast to the vivid green of the trefol that peeps behind the first melting snowbank. However, the seeds are all right yet, and 1908 is trusted to give abundant yields. Never was it more clearly illustrated than during the past winter that the soil is the foundation from which the wealth of the country springs. The mines, the forests and the soil are great, but the greatest of these is the soil.

Treatment for Smut.

In some seasons great losses are sustained through the Province of Ontario thru the development of smut in the crops of wheat and oats. A large amount of this loss can be easily prevented by treating the seed before it is sown. It might be well for farmers to pay more attention to this, the more so since ordinary grain, untreated, has about 5 per cent. loss in smut.

To treat wheat or oats one can either do so by immersing the grain in a solution of one-half pint of formalin in 21 gallons of water, for a period of 20 minutes, or by sprinkling with one-half pint of formalin in five gallons of water the grain, as it is spread out on the floor, while stirring it to see that it is thoroughly moistened.

Sow Plenty of Clover.

Nothing returns greater profits in soil enrichment for the money invested than clover. Concerning the sowing of red clover Mr. E. J. Zavitz of the C. A. C. says that "Ontario farmers should be very careful to make the best possible use of the red clover in connection with their short rotations. It is a plant of exceedingly great value, as it produces heavy crops of exceptionally nutritive material for farm stock, and also assists largely in the improvement of the soil by appropriating free nitrogen of the atmosphere, securing valuable fertilizing elements from the subsoil, and by improving the mechanical condition of the soil at the surface."

Some farms may have been too depleted by successive grain cropping to allow of an easy catch, but then there are few farms where clover will not work a revolution in fertility. On account of the high price of seeds this year the tendency to neglect reseeded may be great, but any farmer who allows any deplorable ground reseeded will be decidedly unwise.

Alsike Per Acre.

Many of the best fields of alsike in the province are reaped from a liberal seeding. The benefits of such are a less rank growth of straw, which makes more heads of better seed. It is said by a local seeder that the best returns from alsike last year were obtained from a piece of land sowed 12 lbs. to the acre.

Against this many farmers say that they get good crops with half that quantity. It is certainly true that there are enough seeds in six pounds to seed an acre thoroughly. Much depends on the state of the soil, the freedom from weeds and the germinating power of the seed.

W. H. Guthrie of Whitby Township grew his best alsike on a plot of ground with 6 lbs. to the acre. There seems much, however, to be said for the thicker seeding. Much alsike is sown for benefiting the land, not much can be said. "It is a money-maker, if a good seeder at all," aptly rejoined a speaker at the Ottawa Fruit Institute.

Lucerne or Alfalfa.

The cultivation of Lucerne, or alfalfa, throughout Ontario is increasing from year to year. In those sections of the province where it can be grown successfully, it is an exceedingly important crop. It probably thrives best on a deep rich loam which contains a large percentage of lime and which is either naturally or artificially well underdrained. It will generally thrive well, however, on soil almost any character, providing the subsoil contains no stagnant water.

Several fields that were seeded in York and Ontario counties last year with grain crops did well and went into the winter in good shape. Apparently they are all right yet and no doubt the good crops of valuable fodder will be taken off this year.

The alfalfa crop is used for green fodder, for hay and sometimes for pasture. It is an admirable crop to use for green fodder or hay, as it supplies a large amount of feed of excellent quality. It should always be cut, however, before more than one-tenth or at most one-third of the blossoms have made their appearance. At this stage the crop produces its maximum amount of valuable food constituents, after which it rapidly deteriorates both in digestibility and in palatability. When alfalfa is grown alone for pasture purposes, great care should be exercised when first turning on the animals in order to prevent bloating.

Persons who desire to seed fields in order to obtain the best results as pasture crop will do well to follow the results of the college experiments at Guelph.

The mixture is as follows: Orchard grass, 4 lbs.; meadow fescue, 4 lbs.; tall oat grass, 3 lbs.; timothy, 2 lbs.; meadow foxtail, 2 lbs.; Lucerne, 5 lbs.; alsike clover, 2 lbs.; white or Dutch, 1 lb.; yellow trefol, 1 lb. This makes a seeding of 15 lbs. of grass and 9 lbs. of clover, or a total of 24 lbs. per acre. For average conditions it would probably be as well to omit the yellow clover or trefol and add another pound of white clover. On cold wet land the five pounds of alfalfa might be replaced by four pounds of red top. Such a mixture of grasses and clovers can often be used to excellent advantage on fields located on hillsides or at a long distance from buildings or which are not required for a short rotation.

Growing Mixed Grains.

A large amount of experimental work has been carried on at the college at Guelph within the past 18 years in the endeavor to glean reliable information regarding the different values of grain mixtures in comparison with the growing of the same grains separately for the production of both grain and straw. Most of these experiments have now been conducted for several years in succession, and the results which have already been obtained have exerted a considerable amount of influence thru-out Ontario. In a general sowing of cereals in definite proportions.

For five years in succession an experiment was conducted in growing oats, barley, spring wheat and peas separately, and in different combinations, having two, three or four grains in each mixture. The results show that the grain which was sown in mixtures produced larger yields per acre than the same kinds of grain sown separately, in from 90 to 95 per cent. of the mixtures. Of the 11 distinct mixtures the combination of oats and barley gave the highest average yield of threshed grain per acre. This mixture yielded a decidedly larger yield than any of the grains sown separately.

The amount sown is 1 bushel of oats to 1 bushel of barley to the acre, to produce best results.

FLOW OF MAPLE SAP.

Agricultural Editor: Will you kindly inform me thru the columns of your valuable paper why the sap from the maple tree will run only during the spring and not during the summer months. A reply will be appreciated by me.

An Old Subscriber.

The absorption of nutriment by the sugar maple from the soil is effected by means of the hair-like roots. The ascending sap, containing carbonic acid and nitrogenous compounds, is carried thru the vascular tissue of the tree. In the leaves the process of digestion is completed in the tree, so that the ingredients are assimilated into the plant's needs.

These leaves allow of the oxygenation of the hydrocarbons, which is returned to be stored in the tree for future use. Then when the work is done the leaves fall off.

In summer time there will be a reserve force in the tree with the water and its ingredients from the soil is taken away in sap and the making of maple syrup, draws on this reserve force.

But when the leaves begin to come out the sap and the reserve is called into play and the tree is supplied with it needs with the ingredients. This process of returning sap is known technically by metastasis. Of course in summer time there will be a little sap run, as every country lad knows, but the drain of the leaves and the call of the tissue with the accompanying natural drying of the wound caused by the spile, gets away quickly with any surplus sap. The sap will not run in summer simply because there is none to run.

VEGETABLE GROWERS

Listen to an Address by Prof. James Fletcher.

The Toronto branch of the Ontario Vegetable Growers' Association held an enthusiastic meeting in the Albion Hotel on Saturday afternoon, and listened to an interesting address entitled "Insect Pests on Vegetable Crops and How to Combat Them," by Dr. James Fletcher of the Central Experimental Station, Ottawa. The most practical address ever given was the unanimous comment at the close of the meeting. The attendance was the largest any meeting that the association has yet held. The general president, Thos. Delworth, occupied the chair. Frank F. Reeves, the hustling secretary-treasurer, was also present and succeeded in adding ten new members to the association.

"When insects are observed to be infesting a crop, an examination should be made at once to discover the nature of the insect, so as to decide on the remedy," were some of Dr. Fletcher's opening remarks.

"For destroying all kinds of root maggot, the speaker urged the use of 'The Cook Wash.' This consists of boiling one quart of soft soap or one pound of hard soap in a gallon of water. When boiling add half a pint of crude carbolic acid. Boil for a few minutes and stir thoroughly. This mixture is then sprayed directly upon the growing plants once a week from the time they appear above ground.

Dr. Fletcher laid particular emphasis on the remedy for the cut worm pest, which consists of a mixture of dampened bran and paris green scattered over the ground in the proportion of 50 lbs. of bran to one lb. of paris green.

At the close of the meeting J. Lockie Wilson, superintendent of horticulture, spoke a few words of a congratulatory nature and encouraged the association to hold these meetings regularly. "They are of great benefit to us," he said, "and nothing but good can come from these gatherings, where ideas can be interchanged and points of interest discussed."

The association will hold its annual picnic in August, arrangements for which will be made at the next meeting, to be held the first Saturday in July.

A FAVORED AUCTIONEER.

Mr. G. Jackson's winding up sale of the season is by far the largest he has been called upon to conduct this season; it takes place at Deseronto, to the property belonging to the Rathbun Co. and consists of 10 registered and high-grade Holstein cows and heifers; 160 breeding ewes and a number of draught horses. An auctioneer of Mr. Jackson's capabilities need have no fear in tackling a sale of live stock no matter how gigantic; his success in catering for these sales is his best recommendation. The season now about to close has been not only the most extensive, but as well the most profitable, so far, during his wonderfully successful career as an auctioneer, and he richly deserves the extensive patronage bestowed upon him. Port Perry Observer.

A GOOD STALLION.

Attention is directed to the sale on Thursday at Markham Village of the celebrated imported Clydesdale stallion Howell (1375), (3377), a full brother to the great Hiawatha. Any man or syndicate requiring something good should note this opportunity.

GOOD FARM STOCK SALE.

On Friday a choice lot of Yorkshire hogs, horses and milk cows will be sold at Pickering by F. M. Chapman. In horses, a choice imported filly, rising three years, by Bucevona; a Clydesdale stallion, rising three years, brown, with white markings, by Bounding Tom (Imp.), a general purpose mare in foal to Royal Duke (Imp.) and due to foal on April 26, and a roaster colt, sorrel, rising two years, complete the offerings. In milk cows several Jerseys and grades are to be sold with some young stock. A short-horn cow, five years old, and her heifer calf, nine months old, will be sold. The calf is by Royal Scott (Imp.). A choice Jersey, Queen of Sunnyside, will be fresh by day of sale. She is a fine large cow, solid color, with black switch and tongue, calved in 1899. Her heifer calf of last year is a beauty also, and is eligible for registration. Two other Jerseys and two Jersey grades fresh, or soon to be so, will be sold also.

In Yorkshire breed sows there is an exceptionally good offering. Such sows as S. H. Gainsboro IV, due to farrow on May 13, and Silk Ear, due to farrow on May 13, and June 14, respectively, constitute the balance of the herd sows. Any one of these is good. Lady Frost was one of the first prize sows in Toronto in 1906. Silk Ear is a show sow and a good breeder.

About fifteen young sows, due to farrow from May onward, which of them being well bred and in fair flesh, and bred to imported Percy, will make good returns for several years. A number of varying ages are also for sale. The imported boar, one and one-half years old, Eclipse, aged three years, and some younger boars are also for sale.

These sows are all in good condition, and are the large Yorkshire type of bacon pigs. Pigs purchased to go away to lot of three to three inches apart, and take out every other one as soon as they are large enough to use. Carrots—Chantantay, Danvers and Jubilee—sown early for early use, and about June 1 for winter use. This field to two, then to four inches.

Golden Bantam—Early-Jersey Wakefield and Wingfield. Late-Danish Round Head and Savoy. The Houser is a rough, late cabbage, the least subject to rot of any we have tried. Red-Mammoth Rock. Seed of early varieties should be sown in holed about middle of March, and transplanted to open ground about end of April. Sow seed of the late varieties in the open ground about the end of May, and transplant about July 1.

Cauffman—Extra Early Erfurt and Early Snowball. Treat the same as cabbage.

Paris—Early-White Plum. Medium—Paris Golden Yellow. Late—Giant Pascal and Evan's Triumph. Sow seed in rows or holed about May 1. Prick out into flats or cold-frame when about an inch high and transplant into trenches four or five feet apart about June 1.

Corn—Early-Golden Bantam and White Cory. Medium—Metropolitan. Late—Country Gentle and Starvation. Sow seed about May 1, and if plants are injured by cold or frost, sow again about May 24. Some prefer Golden Bantam to all other plants at intervals of two weeks for succession.

Citron—Colorado Preserving. Sow in hills about eight inches apart when danger of frost is over. Thin to three plants in hill. Eggplant—New York Improved and Black Beauty. Sow seed in seed box or holed about middle of April, and transplant in the open when danger of frost is past.

Kohlrabi—Early White or Purple Vienna. Sow seed as early as possible, and again about middle of June for winter use.

Lettuce—Black-seeded Simpson and Hanson. Sow seed as early as possible, and at intervals of a month for succession. Thin plants at first to three inches, then to two and twelve inches apart to secure good heads.

Musk Melon—Rocky Ford or Emerald Gem, Hackensack and Montreal Market. Sow seed in enriched and well-prepared soil when danger of frost is past. Hills should be five or six feet apart. Thin to three plants in hill.

Onions—Yellow Danvers, Fritzelaker and Red Wethersfield. Sow seed as early as possible. The things may be sown in enriched and well-prepared soil when danger of frost is past. Hills should have at least three inches apart for big onions, but allow to crowd for big crop.

Parsnips—Hollow Crown. Sow as early as possible and thin to six inches apart in row. Leave part of the crop in the ground over winter for spring use.

Peas—Early-Alaska and Nott's Excelsior. Medium—Gradus. Late—Champion of England and Stratagem. Sow early kinds as early as possible and others a couple of weeks later for succession.

Potatoes—Early-Ohio and Early Fortune. Late—Empire State. Keep potatoes for early planting in a warm room, in the light, for three weeks before planting. Plant a few for early use as soon as ground is fit to work, and follow with others when danger of frost is past. Plant late varieties in the open.

Pumpkin—Sugar, best for pies. Plant when danger of frost is past. Hills should be eight or ten feet apart. Radishes—Early-Rosy Gem, Scarlet Turnip, White Tip and French Breakfast. Winter-Scarlet China and Osaka. Sow early varieties as early as possible and at intervals of two weeks for succession. Sow winter varieties in summer, after crop of early peas. Rhubarb—Victoria, or any carefully-selected, pink-stalked variety. Plant four feet apart, manure liberally, cultivate early and break out seed stalks as they appear. Grow a few extra

VARIETIES OF VEGETABLES FOR THE FARM GARDEN

These Are Recommended Especially for Central and Western Ontario.

At this season wide-awake gardeners are getting in their supply of garden seeds, and making plans for work on the land as soon as the ground is ready. To have the work well planned and seeds all on hand when wanted is a good start, which counts for success throughout the season. The intelligent selection of varieties from the lengthy lists given in seedsmen's catalogs is often a difficult task, even to experienced gardeners. As a guide in such a selection, we give below a few of those which have proved best in our trial plots at the Ontario Agricultural College. A few brief notes, with regard to the time of seeding, etc., are added, which may be helpful to beginners:

Asparagus—Conover's Colossal, and Palmetto. Plant in rows four feet apart, and two feet apart in the rows; apply manure liberally, and cultivate thoroughly. Beans—Summer-Keeney's Rustless Golden Wax, Wardwell's Kidney Wax, Stringless Green Pod and Valentine. Autumn—Purple Bush Lima matures well in southern sections, but too late for northern parts of Ontario. Winter—Navy. Sow when danger of spring frost is past.

Beets—Globe, Egyptian Turnip, for extra early. Eclipse, Black Red Ball (the darkest of the Globe varieties), Long, Long Smooth Blood. For early use, sow as soon as ground is fit to work; for winter use, sow about June 1. Thin when small to three inches apart, and take out every other one as soon as they are large enough to use.

Carrots—Chantantay, Danvers and Jubilee—sown early for early use, and about June 1 for winter use. This field to two, then to four inches.

Cauffman—Extra Early Erfurt and Early Snowball. Treat the same as cabbage.

Paris—Early-White Plum. Medium—Paris Golden Yellow. Late—Giant Pascal and Evan's Triumph. Sow seed in rows or holed about May 1. Prick out into flats or cold-frame when about an inch high and transplant into trenches four or five feet apart about June 1.

Citron—Colorado Preserving. Sow in hills about eight inches apart when danger of frost is over. Thin to three plants in hill.

Kohlrabi—Early White or Purple Vienna. Sow seed as early as possible, and again about middle of June for winter use.

Lettuce—Black-seeded Simpson and Hanson. Sow seed as early as possible, and at intervals of a month for succession. Thin plants at first to three inches, then to two and twelve inches apart to secure good heads.

Musk Melon—Rocky Ford or Emerald Gem, Hackensack and Montreal Market. Sow seed in enriched and well-prepared soil when danger of frost is past. Hills should be five or six feet apart. Thin to three plants in hill.

Onions—Yellow Danvers, Fritzelaker and Red Wethersfield. Sow seed as early as possible. The things may be sown in enriched and well-prepared soil when danger of frost is past. Hills should have at least three inches apart for big onions, but allow to crowd for big crop.

Parsnips—Hollow Crown. Sow as early as possible and thin to six inches apart in row. Leave part of the crop in the ground over winter for spring use.

Peas—Early-Alaska and Nott's Excelsior. Medium—Gradus. Late—Champion of England and Stratagem. Sow early kinds as early as possible and others a couple of weeks later for succession.

Potatoes—Early-Ohio and Early Fortune. Late—Empire State. Keep potatoes for early planting in a warm room, in the light, for three weeks before planting. Plant a few for early use as soon as ground is fit to work, and follow with others when danger of frost is past. Plant late varieties in the open.

Pumpkin—Sugar, best for pies. Plant when danger of frost is past. Hills should be eight or ten feet apart. Radishes—Early-Rosy Gem, Scarlet Turnip, White Tip and French Breakfast. Winter-Scarlet China and Osaka. Sow early varieties as early as possible and at intervals of two weeks for succession. Sow winter varieties in summer, after crop of early peas. Rhubarb—Victoria, or any carefully-selected, pink-stalked variety. Plant four feet apart, manure liberally, cultivate early and break out seed stalks as they appear. Grow a few extra

Chicago Cattle Market. Receipts of live stock at the Union Stock Yards West End Market the receipts of live stock for the week ending April 4 were 9467 head.

Wheat Futures Are Extremely Weak at Chicago-Weekly Statistics of Grain Moving.

54 CARS AT JUNCTION. EASTERN CATTLE GO HIGH. Sheep, Lambs, Calves Firmer-Hogs \$6.25 Cwt., Another Advance of 25 Cents.

Receipts of live stock at the Union Stock Yards were 14 car loads, composed of 1103 cattle, 47 hogs, 100 sheep, 90 calves and 100 horses.

The quality of fat cattle was the best of the season thus far, as there were several lots, and loads of Easter cattle on sale.

Prices ranged from \$5 to \$7 for steers, and \$4 to \$4.50 for bulls, with an odd one or two of prime quality, at \$4.75 to \$5 per cwt.

Prices for hogs are higher, being quoted by dealers at \$12, 12.5, 13, 13.5, 14, 14.5, 15, 15.5, 16, 16.5, 17, 17.5, 18, 18.5, 19, 19.5, 20, 20.5, 21, 21.5, 22, 22.5, 23, 23.5, 24, 24.5, 25, 25.5, 26, 26.5, 27, 27.5, 28, 28.5, 29, 29.5, 30, 30.5, 31, 31.5, 32, 32.5, 33, 33.5, 34, 34.5, 35, 35.5, 36, 36.5, 37, 37.5, 38, 38.5, 39, 39.5, 40, 40.5, 41, 41.5, 42, 42.5, 43, 43.5, 44, 44.5, 45, 45.5, 46, Easter Blossoms

The man with the discontented expression and shabby clothes is sadly out of tune with Easter time and he is besides, not doing himself justice.

People judge mainly by appearances — It doesn't cost much to chirp up and spruce up — First there's a new hat, one with our label on the inside to guarantee it right in quality and style.

ANGLO-AMERICAN TREATY NOT YET READY TO SIGN

Distribution of Niagara Falls Power Said to Be the Stumbling Block.

LONDON, April 6.—The foreign office recently received drafts of treaties having as their object the settlement of questions pending between the United States and Canada.

These treaties were considered satisfactory, with the exception of a few minor points, which were referred back to Ottawa, and it was fully expected that a complete agreement was about to result.

The news cabled from the United States, however, of which the foreign office has unofficial advice, that a deadlock exists over the disposition of power from Niagara Falls, came as a surprise to the officials.

Negotiations for the submission of the Atlantic fisheries disputes to arbitration have not advanced to any great extent. Newfoundland has been slow in replying to the points which have been referred to that government, and in addition, Great Britain does not find it easy to reconcile the views of Newfoundland and the Dominion of Canada in preparing the case. Already there is talk of the necessity of renewing the modus vivendi.

PHYSICIANS SEW UP WOUND IN HEART

NEW YORK, April 6.—With a knife wound in his heart that was every minute bringing him nearer death, Robert Inglis, a young athlete of Yonkers, was taken to St. Joseph's Hospital in that city and within 15 minutes was on the operating table, where the surgeons opened his breast, where the surgeons opened his breast, where the surgeons opened his breast, where the surgeons opened his breast.

Snatched Thousand and Ran.

ST. LOUIS, April 6.—While Michael Horan was standing in the public banking room of the Mercantile Trust Company today, Frank Selick of New York, a bookmaker's chief writer, suddenly seized a roll of \$1000 from Horan's pocket and ran, pushing aside men and women who stood in his path.

World subscribers in Toronto Junction are requested to register complaints of carelessness or late delivery at The World Branch Office, 22 Dundas-street East, Toronto Junction, or The World Office, 85 Yonge-street, Toronto. Intending advertisers may also transact business at the Junction Office.

WEST TORONTO TO HAVE REUNION OF EX-MAYORS

Solicitor Wants Increase—York Township Council Meets—Farm Property Sells High.

WEST TORONTO, April 6.—At the council meeting to-night, Mayor Baird delivered a valedictory address on behalf of the town councillors, who are about to graduate and become city aldermen. There have been ten mayors of Toronto since its inception, and seven of my predecessors in office are still living," said his worship, "and I think it would be entirely appropriate to celebrate the passing of the old town, by a reunion of all the mayors, councillors and ex-councillors who have held office since the town came into being."

The council was heartily in accord with the sentiments of the mayor and arrangements are being made to decide on the date and other matters in connection with the holding of the reunion.

Councillor Armstrong proposed that general civic celebration be held and this also was received with favor.

The council passed a hearty vote of thanks to Dr. Godfrey, M.L.A., for his services in bringing on the passage of the bill in the legislature. Councillor Hain also added a word of thanks to Mayor Baird for his progressive energy in having presented the bill so clearly.

Solicitor Wants Increase. A. J. Anderson sent a communication asking for an increase in compensation for his services as city solicitor. The original retainer was \$300, and Mr. Anderson explained that during the six years he has filled the position he has never asked for an increase. Council last year of their own accord granted him an increase of \$50, which he appreciated fully.

A communication was read from Jas. O'Brien, divisional superintendent of the C.P.R., stating that the proposed bridge over the C.P.R. was in a state of disrepair. As the town is responsible for the condition of the bridge, he urged its repair.

Want Bridge Removed.

Mayor Baird, in making comment, stated that he recalled the fact that the desire of the C.P.R. to remove this bridge removed entirely.

A deputation headed by Mr. Davey of Quebec-avenue complained that their property at the corner of Annette-street and Quebec-avenue was flooded, and asked that a drain be put in. The matter was referred to the board of works.

"Would the council entertain the idea of establishing a town land?" asked the question of Mr. Robertson to-night. He told the meeting that the expense of 30 pieces would amount to about \$20 each.

TUGS CHASE TEXAS STEERS.

Unusual Spectacle Witnessed in New York Harbor.

NEW YORK, April 6.—A fleet of tugboats pursuing a drove of wild Texas steers swimming in the East River was the exciting and unusual spectacle witnessed by hundreds of persons on the A. Leigh Valley Railroad float carrying a carload of thirty steers, and several cars loaded with coal, sprung a leak in the East River, near the foot of North Ninth-street, Brooklyn, and sank.

Before it went down the deck hands opened the door and the steers made dash for safety. About fifty of them got clear of the float before it went down, but the others were drowned. A lively chase ensued. Passing tugboats in the pursuit of the steers were unsuccessful attempts were made to lasso the swimming steers.

Those that were captured were towed ashore where difficulty was experienced in getting them onto the docks. Several of the steers swam a long distance up the river before they were captured, and others were drowned.

MIMICO.

Township Council Will Require to Take Active Measures.

MIMICO, April 6.—The regular meeting of the Etobicoke municipal council is being held to-day at the town hall, Islington.

One item taken note of, and which must be dealt with in a practical way immediately, is the serious and somewhat dangerous condition of the road-way just west of the Mimico Creek bridge, on the Lake Shore-road. Here the recent southeast storm has washed away the outer breakwater, wall-brush stones, clay and the whole backing being completely swept away. The waves in one or two places have so eaten into the Lake Shore-road that there is barely enough room left to drive along in safety during the day-time, with considerable danger imminent at night. This wall was placed there at a great expense a few years ago, and much was hoped for from it. What to do now to save the road will need careful consideration, and means a large outlay of money.

One automobile party returned on a westward trip on the Lake Shore-road Saturday afternoon, but turned back on reaching Mimico. The great pleasure they were enjoying is voiced in the fact that they would be satisfied if they reached the city again in safety.

While some of the good people of Mimico were wending their way to attend morning worship yesterday, they were treated to the rather untimely spectacle of a number of men at work at a wagon which had stuck in a hole in the road. In due time the work was successful, but as the wagon had been there for a couple of days previous unattended, why come here from the city on a Sunday morning is the question which suggests itself.

EAST TORONTO.

Report of Inspector Compliments Teaching Staff.

EAST TORONTO, April 6.—The report of Inspector Fotheringham submitted at the regular meeting of the public school board, to-day, was of a most gratifying nature. A comparative cost of teaching with Toronto Junction shows that of East Toronto it is \$9.72 and in Toronto Junction it is \$10.00 per pupil. Total number on register is

CATTLE EMBARGO STANDS COMMONS IS INFORMED

Letter from British Board of Agriculture is Received—Variety of Subjects.

OTTAWA, April 6.—(Special.)—This was the last day for private members and a great many scraps of business standing over for months were cleared off the program. Many more that were not reached are now relegated to the repository of defunct and imperfectly incubated ideas, to come up again, perhaps, next session.

Mr. Graham informed Mr. Barker that he was not in the house, being indisposed at his home. Mr. Fisher introduced a bill to amend the meat and canned goods act. He said the purpose was to make the act more workable. He also introduced bills to amend the inspection and sale act and to repeal the canned goods act, an obsolete statute. The changes are technical.

Mr. Roche asked when the bill for the extension of boundaries of Manitoba would be brought down. Mr. Fielding said it was receiving consideration. In absence of the prime minister, he would not like to make a definite statement.

The house went into committee on several bills. Mr. Haggart wanted to know why it was necessary to bring the Ford William Terminal Railway and Bridge Company under the jurisdiction of the railway commission and Mr. Macpherson, who was in charge of the measure, said it was because the railway crosses a navigable stream. That, said Mr. Foster, would only make it necessary to apply to the Dominion authorities to cross the stream. The bill received its third reading.

Mr. Foster moved to expunge the name that no matters were in dispute between the G. T. P. Company, the government or National Transcontinental Railway Commission respecting route or right of way or works of construction or cost thereof upon the eastern division of the National Transcontinental Railway.

Live Stock Importation. Mr. Christie enquired about importations of registered cattle and horses from U.S. and was given numbers by Mr. Paterson as follows:

Cattle	Horses
1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937,
