British on Poir; of Winning Rain and Mist Halt British Crest of the Albert Plateau After New Successful Drive Russian Drive Toward Hungary Gathers Fresh Impetus

IMPORTANT GAINS BY ALLIES CONTINUED IN EAST AND WEST

British Forcing Ever-Deepening Salient Into German Lines and the Whole Position is Strengthened—Russians Are Pressing Victorious Drive, Compelling Retirement of Von Linsingen's Army Southeast of Lutsk.

ONDON, July 17.—The successes of the entente allies are following each other with great rapidity. To day brought news of further important gains for them on both the western and eastern fronts, arousing enthusiasm among the British public hardly less than that caused by the reception of the first news of the allied offensive. Comparative quiet on the British front'is reported in tonight's official communication from Sir Douglas Haig, unfavorable weather having imposed a temporary check on active operations.

Tonight's official statement says: "Rain and heavy mist again interfered with the operations. Nothing of importance occurred on the British front today. "In the local actions which have taken place we have captured some

more prisoners, and the total number of unwounded German prisoners taken by us since July 1 is 189 officers and 10,779 other ranks. "The German losses in artillery are even greater than at first reported.

The captured armament already collected by our troops now includes five 8-inch howitzers, three 6-inch howitzers, four 6-inch guns, five other heavy. guns, 37 field guns, 30 trench howitzers, 66 machine guns and many thousands of rounds of ammunition of all descriptions.

"The above is exclusive of many guns not yet brought in and numbers strongholds of the enemy, together with two officers and 124 guardsmen, who formed the remnants of the brave gar-rison. The whole position is now in our hands." destroyed by our artillery bo Near Crest of Plateau.

The despatch of General Sir Douglas pressure of the British arms is foreing an ever-deepening salient into the German lines, and the commander-inday was equally important. The Ruschief for the first time produces evidence in the shape of documents captured from the Germans giving testimony as to the high price the Germans are paying in casualties.

The British have improved their position along almost the whole or their line of the battle front, capturing by assault 1500 yards of German second line positions north of the Bazentin-te-Petit Wood, a strong German position at the Waterlot farm between Longueval and Giullemont, besides completing the capture of the whole of the Village of Ovillers la Boiselle. These ains bring the British almost to the crest of the Albert plateau. where stretches the German third line.

Gained 1500 Yards. The afternoon British statemen

"Further important successes been gained by us. Northwest of Bazentin-le-Petit Wood we stormed and captured German second-line positions on a front of 1500 yards.

"The large number of German dead in this sector bears evidence of the very heavy casualties which the enemy has suffered since our advance began. East of Longueval we still further dened the gap in the German second line by capturing the strongly defended

ositions of Waterlot Farm.

"On our left flank, in Ovillers and La month ahead. He also intimated that Bolselle, where there had been conit would become necessary this week

was merely for the information of the tion today and replsed a German at tack by a counter-attack. The Germans attempted to deal a surprise blow against a trench in a sector occupied by the Russians. In the Verdun sector detachments of French troops made progress in the vicinity of Fleury, where they have

taken about 200 prisoners since Saturday. An artillery action is being fought in the Souville region. Fighting broke out in the region Ham, southeast of Nomeny, in Lorraine, when the Germans made two attacks against the French. Both these

ssaults were repulsed. The weather continues unfavorable to action. On the Belgian front the only feature was the continuance of a debombardment agains German positions in the region of Het-

Sas and Boesinghe. Ladies free at the ball game today. THE NICKEL TRUST TO HAVE A RIVAL

Our first remark this morning in regard to nickel is that we cannot recall a ubject that has excited so much public attention in the press and in every-day conversation as the unpatriotic policy of the governments, both at Ottawa and here in Toronto, and the reprimand that both of these organizations received at the hands of the electors in North Perth a week ago. We never saw a subject discussed so fully and so outspokenly in the press; and we never saw Conservative journals and Conservative supporters speak so straight to their leaders in politics. They are told in the plainest terms that this business must stop and that they must explain themselves. The Mail's pointed views are quoted all over. Here is a pretty straight condemnation, both as to the methods of the two governments and the corporations that control Ontario's nickel, presumably in the interests of

from Carada's eastern provinces, but bers are out for the stuff. They find Monell's chosen refinery subdivision, as many so-called representatives enter money subdivision, as many so-called representatives enter public life meek and in modest cfround to date, and it is now past July 12, there is not a whisper of ground being broken.
The truth of the whole thing is that the arrogant autocrats; lavish with fun people of Ontario, including North Perth, and the question naturally arises "From are getting mighty suspicious of this In- whence does it come?" Electors today ternational Nickel Corporation of New are in a critical mood and the signs York City, the Canadian Copper Co. of portend a demand for more attention to

their representatives in the Ontario Leg- less solicitude for the demands of core islature and in the Ottawa house, and porations. Yesterday morning, The Globe, which seems to have inside information in regard to nickel, had a despatch from Ottawa which announces that, contrary to the expectations expressed in The Mining News in the above article, the International people have some intention of starting work on their refining plant in Nova Scotla, as they promised the government last March; it is said they have secured a site and ordered the machinery. The Globe then goes on to show that a monopoly is not likely to be created.

Copper Cliff, their associates in Sudbury, the welfare of the general public and

The World has no faith in this prediction and if the International Nickel Company can create a monopoly for itself it will try to do so; it has been doing this all the time it has been in Canada and it has succeeded; it has a monopoly in production as far as Canadian nickel is concerned and has been a member of the syndicate that has fixed the price for all countries in the world. It is the interlocking company that ties up all the steel mills in the United States, in the armor plate rust, a thing much condemned by The Globe newspaper as regards Europe; but ever since The World has shown that the International Nickel Co. is itself the linch-pin of the armor trust, The Globe has said very little about the fearful evils that have been effected by the armor and munition trusts of the world on whom It has sought to place the plame for the great war that devastates Europel And speaking of The Globe, we wish to know not whether The World has misrepresented its despatches or not, but whether it approves of The World's contention to forthwith prohibit the export of nickel, or at least that none of it be sent into the United States to be refined unless after refinement it be returned immediately to Canada and we and the empire have the whole say as to its disposition.

If The Globe wishes to see what another Canadian Liberal paper has to say about this unpatriotic policy of the two governments it might read the article in The Manitoba Free Press of last Friday, which practically endorses everything that The World says. The Free Press has no doubt that the nickel that is now being hipped on the Deutschland is Canadian nicket.

Returning to The Sudbury Mining News, we learn from its news columns that the British-American Nickel Corporation of Canada, which has Mr. E. R. Wood of Toronto as its most active man of the administration, has closed with Mr. V. Hybonnette, the noted Swedish metallurgist of New York, for the use of his electric process for the treatment of nickel ores, and that the engineer of the concern, J. E. McAllister of Toronto, is now in Sudbury for the opening up of the Murray mine owned by that concern to go into the production of nickel on a very large scale at an early date, and that they will mine, refine and market their nickel in Canada. Mr. Hybonnette's refining process requires a great amount of electric energy and will develop that line of business as well as the production of nickel. It should be remembered that this British-American Nickel Corporation bought the immense nickel deposits controlled by J. R. Booth and M. J. O'Brien of Ottawa, and they have made all financial arrangements for securing these owners in the big payments guaranteed for the property, and have raised all the necessary money to start the production of nickel almost immediately. So, as The Mining News says in the same article, the bugaboo that Canada, for climatic reasons, cannot refine nicket OF CERTAIN U.S. FIRMS will dissolve; and what is still more to be desired is that the disastrous fumes so detrimental to vegetation, now generated by the International process, ought to cease to annoy the farmers of the Sudbury district.

But The Sudbury Mining News has another item of still more importance to the public, and that is that it calls upon the Dominion Government to erect a national refinery and smelter where every pound of nickel ore mined in Canada could be refined and every piece of nickel stamped "Canada," and Canada and the emwill issue tomorrow a list of names of business concerns domiciled in the shipping these ores to New Jersey and the Mond Company shipping theirs to Wales, both companies should be compelled to refine in Canada, and preferably in Ontario, where the ore is mined.

Perhaps the hardest thing said by The Mining News in its several articles of last week is its charge that the International Nickel Co. has evaded payment of the

: WAR SUMMARY: THE DAY'S EVENTS REV'EWED

N both the east and the west successes befell the allied arms yesterday. The Russians repulsed the Germans and Austrians beyond the Lipa River, taking 13,000 prisoners, and, more significant still, they seized points on the Hungarian frontier on the road United States and was not in the nato Kirlibaba, preparatory to threatening an invasion of Transylvania ture of a protest. The British upheld their end of the great offensive in France by carrying 1500 yards of German second line positions north of Bazentin-le-Petit Wood. They also captured a strong German position on the Waterlot Farm between Longueval and Guillemont, and they completed the occupation of whole Village of Ovillers la Boiselle.

The importance of the British gains consists in the bringing of our lines almost to the crest of the Albert Plateau, along which straggles the German third line of defence. It has always been assumed that there are no more than three defensive systems on the German front, and no room for doubt exists that there are more than have been these three in this sector between the Somme and the Ancre. But to promote a quick by this time the Germans have probably broken ground for the in advance of the making of further defences beyond the ridge, but time will be lack- usual date for making to elaborate the new fortifications. If the British troops gain the ridge, and that success seems in sight, they will be able to dominate the country to the east with their guns, and any further advances mas are most particularly attractive.

just taxes imposed upon it by the Province of Ontario, and the complete absence of any comment in The Globe or any effective criticism from Mr. N. W. Rowell that that company should be compelled to make good the taxation which it has hitherto avoided. Unless there had been some understanding between the opposition and the government no such evasion of taxation could have been effected in Ontario as has been effected up to date.

And another thing which bears on the nickel trust appeared yesterday when the news was published in The World that the Ross rifle had been discarded by the government and that an improved Enfield was to be put in the hands of Canadian soldiers in the battlefields of Europe. Where the Ross rifle connects up with the International Nickel Co. is that Hon. Wallace Nesbitt, who is the chief attorney for the Ross Rifle Co. and has been ever since that arm was wished upon the Canadian Parliament by Hon. F. W. Borden, Mr. Ned Macdonald, Hon. Sir Sam Hughes and Sir Chas. Ross, is also chief apologist for the acts and chief promoter of the interests in Canada o fthe international Nickel Trust; and if it took five years after the Conservatives came into office to get the Ross rifle matter straightened out, it is a fair Inference to make that Hon. Mr. Nesbitt will do his best to keep the International Nickel Trust-a German trust we know it to be-from being disturbed in its viola tion of Ontario law in regard to the payment of the profit tax imposed by the Ontario Legislature and to further intrench it in its unpatriotic deportation of Canadian nickel to Germany.

The criticism of Hon. Frank Cochrane is very pointed in the first article quoted above from The Sudbury Mining News; and now that Mr. Cochrane is ill and about to retire from public life we do not wish to press this matter too far, and we rather sympathize with him if the suspicion be borne out that some of his colleagues are now trying to put the load upon him which they all jointly should bear, including the Ontario Government.

We are still at a loss to know the exact facts as to how in the United States is controlled by Germany and the agents of Germany, but we have no doubt it is a large amount; and if they can get more boats over like the Deutschland they will do so and take nickel back for the use of Germany and the German army and her munitions plants and for the construction of more war vessels, including undersea boats, to the great detriment of the cause of the alijes. We therefore again condemn the government for not prohibiting the export of nickel ore out of Canada, except on the condition that every pound of the metal that is refined be returned to Canada immediately for control as to its future use and destination by the government of Canada. We were promised two years ago that a change would be effected, but to the present no change has been put into effect and will not be unless the people insist on it. But the North Perth declaration and the outspoken character of the Canadian press, including papers like The Mall, is such that no government, however indifferent to public opinion, must bow and no opposition, however careful in its manipulation, must continue to evade.

The Teronto Daily News of last night has a perfunctory defence of the International Nickel Trust and its operations up to date, and it still believes that the Hearst government is in earnest in compelling refinement in Canada; and it brags of the great steps that both governments are taking; but as a matter of fact they have done little or nothing and anything they may now do will be because of the public wielding the big stick and wielding it still more effectively in any elections which may be held hereafter or when parliament meets at the next session.

### Canadians Pass Exams.

Canadian Associated Press Cable. FOLKESTONE, July 17.—The follow ing were awarded certificates in the examination at the close of the eighth officers' course (three months) at the field, alias Hambone, and John Bing military schools: Majors Outerbridge, Maclean, Saskatoon; Burke, Wateroo; Walker, Sault Ste. Marie; Chisholm, Nova Scotia; Magladery, New Liskeard; Lieuts, L. A. Kennedy, Brito; H. A. Sewell, G. M. Sylvester, Halifax; S. B. Simpson, Charlotte-town; H. T. Higinbotham, Guelph; W. W. Pickup, Belle Isle; H. H. Heal, New Glasgow; H. G. Punnett, Sault Ste. B. F. Davidson, Hantsport; P. C. Tidy, Toronto; S. S. Jones, Oshawa; F. C. G. Maund, Sydenham; G. B. Murray, Halifax: W. Romeril, Prince Albert; C. H. D. Watson, infantry; Albert; Walter H. Curran, general list. Major Duffin, Army Service Corps. Winnipeg, is temporarily acting as as sistant director of military supplies military supplies, Shorncliffe, during the absence over-seas of Major MacAlpine, Winnipeg.

Capt. F. B. McIntosh has gone to France for duty. The following members of the Canadian Medical Corps are gracited as captains: M. G. Brown, C. L. Blight, W. G. Blair, A. E. Blackett, R. A. Dowd, J. S. Fitzsimmons, E. R. Graham, S. E. Holmes, N. H. Harris, F. D. Lomas, Egbert Gardner

Capt. F. Davy, Pay Corps, is gazetis gazetted major. Lieut. O. Berry is

gazetted captain. SEEKS TO SAVE CHILD. Prize Offered For Best Paper On Plan to Better Welfare of Children.

The importance of preserving child-life was emphasized at a conference, call-ed to consider sanitary administration under war conditions, in London. It was decided to offer a medal and \$250 for the best thesis for a scheme for maternal and child welfare work suitable for adop-tion by local authorities.

### ACCUSED OF RECEIVING changes from the flippant young granddaughter of the old clergyman STOLEN BANK NOTES

Two Men, Extradited From Chicago, Appear in Montreal Court

MONTREAL, July 17 .- Geo. Wakebam, alias Bigelow, who were extradit-Toronto; Lydiard, Kentville; Capts. ed from Chicago on charges of receiving and retaining moneys stolen from the Hank of Montreal at New Westminster, B.C., Sept. 14, 1911, were up tish Columbia; A. S. McArthur, Toron- at the police court here for preliminary hearing today. Wm. H. G. Phipps, accountant in the bank in question at the time of the robbery testified to the destruction of the safe and the disappearance of \$271,721 in \$10 and \$5 bills, and \$20,560 in gold. Bingham was identified as having changed \$200 in Canadian money into U. S. cur-rency. The case was continued to rency. Thursday.

### FLOODS KILL THIRTEEN ELEVEN ALSO MISSING

Fifteen Million Dollars' Damage Done in Five Southern States.

RALEIGH, N.C., July 17 .- Thirteen persons dead, at least ten missing and property damage estimated at around Capt. W. G. Macfarlane, general list. \$15,000,000 is the known toll of flood in five southern states in the past 49 hours. Altho the waters are receding in nearly all districts, railroad and telegraph communication still is demoralized, and reports from sections now isolated may increase both the number of deaths and the property

North Carolina, South Carolina, Virginia. Tennessee and West Virginia all suffered heavy damage from the

A temarkable picture, with the setting in the hot sands of india, is to be seen at the Hippodrome this week. It is a story of the indian mutiny, showing the defence of Cawnpore, the massacre of the English garrison who surrendered, and the thrilling escape of the four survivors. The picture, entitled the "Beggar of Cawnpore," is at Triangle release, featuring H. B. Warner, who as Dr. Downes becomes a slave to the morphine habit. Falling in disgrace with the woman he loves, the doctor disappears from his white associates and becomes a drug fiend in the lowest dives of Cawnpore. The girl marries, and at the time of the rebel outbreak her ausband shows the white feather and is shot while trying to desert. British blood runs red in the veins of the outcast, whose manhood returns and a thrilling climox follows. It is a good picture, full of life and deep with drama of the best kind.

PLAYS, PICTURES AND MUSIC

STORY OF "CHRISTIAN"

Hippodrome management. Neluseo and Hurley are a pair of slight-of-hand artists who have an unusual act that is worth special mention. Horton and La Triska, "The Clown with the Doll," produced many laughs. The "Doil" plays her part extremely well. Tracey and McBride are a splendid pair of singers and dancers and have a line of good, wholesome comedy. Their sketch is good, Josephine Davis, a pretty comedienne, who sings several hits of the season, is well worthy of her place on the bill. Her sweet singing captured the audiences yesterday. White and White are two lively dancers, and Rice, Elmer and Tom conclude the bill with some clever acrobatic stunts.

The Graham Moffatt Players, prosenting a Scottish comedy playlet entitled "The Concealed Bed," headline a good bill at Losw's Theatre this week. Altho the act has been seen in Torento before it has lost none of its light proceeding power, and the large mirth-provoking power, and the large audience which attended the theatre yesterday found plenty of entertainment in the situations caused by a young man being locked in a bedroom minus his clothes.

## MADISON PATRONS SEE Ryan and Riggs provide some excellent amusement with comedy songs and new dialog. The American Comedy Four sing several popular songs and also do everything that can be termed ridiculous. Billy Kinkaid is a Scotchman who does marvelous things with seevy bulls in the way of balancing and juggling, while the Lapalaricas

nuch im The result We have a powerful little engine attach-

ment that is simple, convenient, reliable and

safe. How much more pleasant than rowing it is to glide across the water without any

physical exertion or effort whatever. You ad-

just the Ferro Outboard Motor to the stern of

the boat by two clamps and you have a motor-

boat. A half turn of the fly wheel starts the

motor. It runs steadily and quietly and does

not shake the boat. With a Ferro you can

travel at a speed between 2 and 10 miles an hour and you are not limited to two or three

speeds. It can be reversed just as easily as sent forward and will travel 4 or 5 hours at

high speed on 1 gallon of gasoline and a quar-

ter pint of lubricating oil. The motor can be

raised or lowered to any position for navigat-

ing in shallow water. The strut protects the

propeller, this enables you to plough right thru

thick beds of lily pads. The sailor has no anx-

iety about the calm, for with a Ferro a little

sail boat goes steadily along. This clever piece

Dozen .......30 Pike size, 19 to 18. Dozen ...... .35 Muskalonge size, 18 to 16. Dozen ... .40 Bamboo Fishing Pole, 3 joints with brass ferrules. 

And Here Are Interesting Books on Fishing

NOT so very long ago fishing was just a case of throwing a rod into a body of water and trusting to luck. Nowadays though, it's getting to be a scientific game. It is necessary to know the fish, their habits and what bait they take to best and so on, and to also understand how to use the modern fishing equipment. Here are the books that we recommend for the ardent angler:

"Fishing Kits and Equipment," Samuel G. Camp .90
"Fishing With Floating Flies," Samuel G. Camp ...70 "Practical Dry Fly Fishing," E. M. Gill . . . . 1.25
"Favorite Fish and Fishing," Jas. A. Henshall . . 1.25
"Book of Camping and Woodcraft," H. Kephart 1.50 -Main Floor, James St.

Three Thousand Men Requir ed to Complete Toronto Battalions.

much improvement over Saturday. The results yesterday were 33 recruits will be trained for three months at Valentier and will be sent overseas in the 15th Battalion are on their last truction Batt Recruiting results yesterday, altho

67th (University) Battery for advance is the second draft sent overseas by ENLIST TO FIGHT

this unit within the past month. The battery is carrying out its work on the university grounds, and over 75 per cent. of the mcn are university students or graduates. The battery expects to go into summer camp at Niagara shortly, and the men are looking gara shortly. this unit within the past month. The forward eagerly to instruction and practice in equitation and mounted manoeuvres likely to be started there. Since the departure of the last draft there are numerous vacancies and en-deavors are being made to bring the

battery up to strength before leaving While it is made up almost entirely of university men and their friends, enlistment in it is open to all young enlistment in it is open to all young men possessing qualities of alertness, intelligence, steadiness and persoverance. The 67th has its orderly room in the engineering building, and Lieut. W. J. T. Wright is in command.

Calling for Men.

The Royal Canadian Engineers are calling for men of all trades as car-

under the command of Lieut.-Col. 12. Capt. Christie to the 238th Forestry structions regarding the rounding up ed artillery training in England. This rapidly at the station on the armories parade ground. There is yet an op-portunity for a number of men to join this Queen's Own Battalion. The men this Queen's Own Battalion. The men are assured of the best treatment and after passing the doctor arangements will be made for their transportation to Camp Borden, where the battalion is stationed. The recruiting tent is oven every day. There are still openings for several non-commissionopenings for several non-commission-ed officers in the battalion, and those wishing to qualify for these positions will be allowed to take the N.C.O.'s class. Authorities Disgusted.

It has recently been brought to the It has receively been brought to the ears of the recruiting officers in the city that a number of young men who are eligible for military service have become employed on night work, apparently with the idea of escaping the appeals of the recruiting officers. The officers are naturally disgusted with these men and feel that their position will not be an envisble one when the war is over. Many manufacturers war is over. Many manufacturers hinder recruiting also by refusing the sergeants admittance to their factories.

Capt. Christic to the 238th Forestry Battalion.

The 238th Battalion is opening ten rew recruiting depots in the city, three being now in operation. They are located as follows: the old West End Y. M.C.A., at the corner of Dovercourt and Queen streets: 55 West Queen, headquarters, and 730 East Queen. Others are the vinegar factory, near the Don. a tent at Farnham avenue and Yonge; northwest corner Carlton and Yonge; northwest corner Carlton and Yonge; northwest corner Carlton are the vinegar factory. and Yonge; northwest corner Carlton and Yonge; above Walton and Yonge. The new offices will be in operation Want Three Thousand Men.

Sergt Lewis, who so successfully organized the sports' days of the 204th Battalion, held at the island and at Scarbon Beach, has been assigned to the 18th Battalion.

Three thousand and forty-eight men are required to complete the Torontal Three thousand and forty-eight men are required to complete the Toronto infantry units now in the precess of recruiting. Two new overseas battalions will probably be authorized shortly, which will derive many recruits from the local militia regiments. Recruiting officers claim that the men are bolding back to join these units.

### SPANISH CHURCHMEN CONDEMN FOE'S ACTS

Five Hundred Sign Address Censuring German Conduct in Belgium,

PARIS, July 17 .-- An address criticiging acts of German military authorities in Belgium signed by 500 Spanish Catholics has been sent to Mr. Deploigne, governor of the philosophical institute at Louvain, with the request that it be placed in the archives of the reconstructed library of the Catholic City of Victoria in the forthcoming cleation.

### TEN THOUSAND HEARD **HAMILTON** HUGHES AT MONTREAL \* NEWS \* Sir Sam Would Fuse Drange of

Ontario With Green of Quebec.

### MONTREAL, July 17 .- Fully 10,000 eople gathered at Dominion square onight to hear Major-Gen. Sir Sam Hughes speak in behalf of recruiting for the Irish-Canadian Rangers' Overseas Battalion. "I wish to tell you," said Sir Sam

"that we have decided to preserve in-tact a number of new brigades and regiments. Among these are Irish-Canadian Rangers and 'Kitchener's Own' (244th Battalion, this city), under Lieut.-Col. McRobie. These two Montreal battalions will go to the firing line as units" ing line as units."

Sir Sam announced that authority would be given to the Irish-Canadian Rangers and Kitchener's Own to recruit all over Canada, so that the orange of Ontario could don the khaki and fight shoulder to shoulder with the green of Quebec as Irishmen and Britons—the orange and green uniting

### LYALL'S HANDS STRIKE ON PARLIAMENT HOUSE

Work of Clearing Up Ruins of Ottawa Building is Tied Up.

OTTAWA, July 17.—About 250 men employed by P. Lyall & Sons on the reconstruction of the parliament buildings went on strike today and as a tesult the work of demolishing the ruins is seriously handicapped. The men who worked on the "dump" have been receiving 25 cents per hour, as specified in the government fair wage scale, but claim that other contractors.

Sportsmen's Battalion left during their week-end leave of absence. Splendid quarters have been secured by the Tigers, and the men are well settled and content with their surroundings. The weather has been very hot and straw hats were provided for the officers, non-committioned officers and men, and these worked wonders.

The efficiency of the unit is increasing rapidly, and already Lt.-Col. It. R. Moodie has been complimented by the inspecting officers for the remarkable advances that the Tigers scale, but claim that other contractors are paying higher wages (30 cents per hour), and that they are entitled to the same consideration. Another grievance of the men is that they are not allowed to smoke. They also say that their immediate employers are not to blame, but that those "higher up" are responsible for the conditions. About 1500 men are employed on the build-

### FOUR SHIPS CAPTURED

LONDON, July 18, 2.05 a.m.-An American four masted schooner, pre-sumably laden with petroleum, and three Swedish steamers laden with pulp, have been captured by German torpedo boats south of Dragor, Den-mark, and taken into Swinemuende says a despatch to Reuter's Telegram Co. from Copenhagen,

### MAYOR OF VICTORIA IN BOWSER CABINET

## \* WAR SUMMARY \*

THE DAY'S EVENTS REVIEWED

(Continued From Page 1.)

that they make will be down dale and not uphill, as at the present

Owing to the prevalence of rain and mist no further advance was made in the course of yesterday afternoon by the British army after the morning gains. In local fighting more prisoners were taken. British headquarters reports that since July 1 the total number of unwounded prisoners made by the British is 10,968, comprising 189 officers and 10,779 of other ranks. The guns brought in include 54 light and heavy pieces and 30 trench howitzers. Sixty-six machine guns were also captured. Besides all these a great many cannon of various calibres are still lying intact on the captured ground, or have been smashed by the heavy bombardment. Taken by itself the British tactical operation has already become an important success. Whether the third German defensive system will be sides her husband, she is survived by pierced is a matter of the future, but prospects are good that it will two sons. Ray of this city, and Pte. pierced is a matter succumb like the others.

Reverting to the success just won by our ally in the eastern theatre he war it may be said that the ability of the Russians, tho confronted

The seth Hamilton Machine Gun tallon, and two daughters, Miss Jean at home, and Mrs. Carr of this city.

The gas troubles of this city are nearof the war it may be said that the ability of the Russians, the confronted by a strong concentration of German troops, to force the enemy to retreat ing an end. Industrial Commissione from the front southwest of Lutsk to beyond the Lipa or the Luga River, is of first rate military importance. Great as the reinforcements brought to this front by the enemy are, he will have to find still more men to maintain his hold on Kovel. But the Luga lines are practically the last defensive position between the Russians and the Bug, and they merely cover Vladimir-Volynski. The recession of the Teuton lines to the Lipa exposes those along the Stokhod River to a flank attack from the south and a retirement from the Stokhod would probably doom Kovel junction. The whole Austro-German forces would then have to retreat and there is no and yesterday Acting Mayor Morris reason once the Russians had them withdrawing why they should not announced that he would be willing to strike hard, and even secure the line of the Bug, compelling the enemy to withdraw to where he started from when he began last year's campaign.

But desperate as the Austro-German position is in front of Kovel, Vladimir-Volynski and Sokal, it promises to become still more desperate by reason of the new Russian advance on Kirlibaba and the plains of Hungary. This manoeuvre will force the enemy to find more troops to matter will have been steadily increasing. The manoeuvre will force the enemy to find more troops to matter will have to be settled by a defend Austria and Hungary, for the badly mauled Austrian army confronting the Russians in Galicia and Volhynia cannot risk the detachment of troops for the Carpathians, for it would then become too gravely weak ened and the Russians could strike and break its centre in front of Tarnopol, creating a debacle. So the Germans will have to find the men to save Hungary. So far as the present contest has gone the Germans have shown more concern about Kovel and the Austro-German communications with Berlin, than they have shown about the natural Austrian communications with Budapest and Vienna, so that by this time part of these communications has been cut at Kolomea and Delatyn. This development would naturally force the Austrians to retreat with the Germans, eventually, on Berlin and not on Vienna and Budapest.

\* \* \* \* \* \* But the Russian advance on Kirlibaba will further compel the German high command to reveal its intentions. At the sight of the Cossacks, should the Russians pursue their southward march, droves of refugees would flee to Budapest and Vienna and a great outery would go up to Germany for help. In her crying need for men, Germany must vitally weaken some portion of the front, not improbably the Balkans, to get men enough for a concentration south of the Carpathians. Then will come

the moment for further allied blows in other theatres. It may then be that the great offensive from Saloniki will begin.

On the French front operations have been quiet. The Russian contingent showed its mettle by repulsing a German attack on a trench in the Champagne by going out to meet the enemy in a counter-attack. More ground was gained at Fleury, north of Verdun, by the French and two German attacks in the region of Ham, in-Lorraine, were repulsed.

The Italians encountered a strong Austrian offensive in the Posina Valley and checked and broke it by counter-attacks in which the bayonet was brought into play.

Thirty million dollars a day is now being spent by Great Britain on the war and the chancellor of the exchequer says that it is impossible to forecast what the outlay will be a month hence. This probably forecasts the undertaking of additional operations, say, from Saloniki, before another four weeks have elapsed.

The moment for further allied blows in other theatres. It may then be dever, there were indications that new diplomatic representations would result should it develop that American citizens or firms were being discriminated against.

### NEXT MONDAY'S ELECTION

PLEASED WITH BORDEN

HAMILTON SOLDIERS

Ex-Ald. Garson Will Oppose Charles Cooper in Ward Three.

HAMILTON, Tuseday, July 18 .- Recruiting should receive a big stimulus here as a result of the glowing reports that members of the staff of the Sportsmen's Battalion left during their week-and leave as absence Splandid

markable advances that the Tigers have made in drills since getting under canvas. Despite the heavy drill the social side is not being neglected, and steps are now being taken to organize a gies club among the officers. same consideration. Another griever of the men is that they are not to swed to smoke. They also say that the immediate employers are not to me, but that those "higher up" are ponsible for the conditions. About to men are employed on the build-s.

\*\*CUR SHIPS CAPTURED\*\*

BY FOE TORPEDO BOATS\*\*

and steps are now being taken to organize a glee club among the officers and men. Sports programs of all kinds are contested during the noon hours and in the evenings, and nothing is left undone by the staff to make the boys feel that they are not being neglected. More men, however, are wanted at once by the Tiger Battalion, and as an assurance has been given by the military authorities that the 205th Sportsmen's Battalion will be permitted to go overseas as a separate unit, men

go overseas as a separate unit, men destring to sign up with this fine battalion should do so at once. Applicants should apply at the armories.

Ex-Ald. David Garson and Charles Call Conner were vesterday nominated.

Ex-Ald. David Garson and Charles Gill Cooper were yesterday nominated to run in the by-election that will take place in ward 3, next Monday, to fill the vacancy caused by the death of Ald. R. M. Roy. M. A. Pennington, who has been deputy returning officer in ward three for 27 consecutive years, was re-appointed. was re-appointed. Soldiehs' insurance and road by-laws

will be the subjects that will be dis-cussed at a special meeting of the Wentworth county council that will be held in a few days. The soldiers of the county will be insured all right but the question to decide is whether the county should carry the risks of insure the men thru the medium of ince companies.

.The local roll of honor is steadily in creasing and vesterday the names of five local men appeared on the list. Driver Harry Vickers, formerly of 1184 Barton street east; and Pte. Lewis E. Harris, 901 King street east, who were previously reported missing, are now listed as prisoners of war, Thomas Brogan, 197 Main street east, has died of wounds and Pte. Ernest N. Nichol, who was previously reported as wounded, is now in a base hospital suf ering from an illness. Pte, Ernest G. Rexworthy is said to be seriously

Previously reported wounded, now with unit—41236, Driver P. A. Ferguson, 1881 St. Urbain street, Montreal. Wounded—42590, Gunner Charles L. Stinton, 188 Harbord street, Toronto; 302622, Pte. F. A. Brooker, Virgil, Ont.; 85709, Driver W. R. Filmore, River Philip, N.S. Hamilton is to have a live stock show that will be second to none on the con-tinent if the plans of the local board of trade materialize. Arrangements are being made to secure, if possible, a pertion of the north end park as a show ground, where the necessary buildings, providing the parks board buildings.

do not raise any objections, will Mrs. Jessie Livingston, wife of W. L. Mrs. Jessie Livingston, wife of W. L. Livingston, 168 Emerald street, died last night, at the age of 56 years. Be-J. F. Livingston, who is overseas with the 86th Hamilton Machine Gun Bat-March has at last made arrangements for the securing of an expert to tell the city where it stands in the dispute

of the agreement with the Hamilton By-Product Coke Ovens Limited. About \$2000 will be the price of the expert when he comes, Slowly but surely opposition to the daylight saving scheme is bearing fruit, for reverting back to standard time in-

McNeill Queried Premier About Dumping Superfluous Politicians.

Alan Associated Press Cable. LONDON, Tuesday morning, July 18.-R. McNeill caused great amusement in the house last evening when he asked the premier if he could prevent the dumping of superfluous politicians on this country. The questioner ferred to Joe Martin, who had just taken a seat on his return from Can-ada. Mr. Martin asked the prime minister if he would take steps to insure the continuance and permanence of the present relations between the domin-ions and the United Kingdom, such relations consisting of the union of hearts in imperial matters and absolute self-government in matters affect-

ing the dominions only. Donald MacMaster, Canadian member for Chertsey, said: "Before the prime minister answers the question, I would like to ask whether he is aware of any circumstance that puts the happy relationship between the mother country and the colnies in any peril whatever?"

Mr. Asquith answered: "No, sir, annot. I do not think at the momen I can usefully add to anything I have said in public on the subject. Obviously, no change can be made a the relations between this country and self-governing dominions without the conent of the latter,"

## YORK COUNTY

### TOWNSHIP ASSURED OF WATER SUPPLY

Practically All the Arrangements Have Been Completed.

### TO AFFIX SIGNATURES

Mayor Church and Reeve Griffiths to Give Scheme Asproval.

After a long time spent in negotiations between the city and the Township of York, practically all the arrangements for the supply of water by W. Monkman, J. Paton, H. Tebo, the city to the township have been completed. This was the gratifying statement made by Reeve Griffith at yesterday's meeting of the commoil and it only remains for Mayor Church and the reeve of the township to affix their signatures to make the agreement ef-fective. This will be done on the part of the township on Thursday and the

The scheme, which is one of the The scheme, which is one of the most important ever entered into by York township, provides for the supply of water by the city at the rate of 20 cents per 1000 gallons, the township to put down the mains and charge up the cost of installing the smaller services from the big mains to the houses on the property owners as the houses on the property owners as in the city. Engineer Frank Barber was yesterday given instructions to go ahead at once with the preliminary work and acting in conjunction the council, the suburbs north, east, and west of the city will be laid off in districts as in Eglinton, Oakwood, Weston road, Humber Bay, Runny-mede and Swansea. There will be no JOE MARTIN, M.P. immediate water supply put down in the Todmorden and East Toronto districts, the city claiming that there can be no further extensions in that direc-

tion for some time.

The scheme will probably run up into a million dollars when it is all completed, althoung definite statement has been made. Work will start this fall and will provide employment during the winter months.

engineer to proceed at once with the survey of the neighborhood of Milne's bridge and the old dam on concession 2, and report at once to council as to the best means of constructing or repairing and maintaining the bridge and approaches there, and possibly the building of a new highway.

Metzgar, honors; G. Mitch, York Township's share of the good roads debenture debt and the amount

it will have to pay this year to this account is \$6,066.26, and for maintenance \$3.619.13. The Industrial Home foots up to \$2,860 and the court account is \$6,066.26, and for main-tenance \$3.619.13. The Industrial Home foots up to \$2,860 and the court house debenture account \$1.808.40. The total amount levied on the township for county purposes is \$129,140.00. for county purposes is \$129,140.00.

The hospital accounts are becoming a serious matter in the township and an order was recently passed guaran-teeing only the bills of those whose admittance was endorsed by members of the council.

### WORK ON THE "GAP" PROCEEDING QUICKLY

Everything Will Be in Running Order by Exhibition Opening.

Things are beginning to move on upper Yonge street, and it is stated authoritatively that the connection beween the Toronto Street Railway and the C. P. R. tracks to Farnham avenue will be completed by exhibition opening. A gang of men were yesterday set to work by the Toronto Street, Railway management, at Price street, straightening out the line at that point and paving the way for the extension to the price of the city. urther north. It looks as if the city will be ready to take up its share of the work. It was stated by a member of the engineering staff last night that the street railway Co. has everything in its yards ready to rush the work to Farnham. Instead of tearing up the concrete under the C. P. R. subway, the ties and rails may be laid on top and the grade of Yonge street raised. The transportation companies are characteristic content of the content c The transportation companies are objecting to the depth of the subway, and an effort will be made to get the and an effort will be made to get the city to reduce it by two feet. The plans just accepted by the street railway show a "Y" on Woodlawn avenue west, the care backing up to the Metropolitan depot on the crest of the

### ANXIOUS REGARDING WORK WHEN WAR IS OVER

minds of a number of Canadian munition workers in the Birmingham dis-trict of England, whose homes are in Earlscourt. The following letter has reached The World from a worker in Birmingham:
"We thought it our duty to write you

on the subject of Canadian munition workers in England, who left their homes to do their bit for King and country. When the war is over, which will be a sure victory for the British, we should like to know what will be done for us on our return. We think this is a question for the gentlemen who represent us in parliament. This this is a question for the gentlemen who represent us in parliament. This matter is being studied at present in Britain, and we wonder if it is being studied in Ontario. As we think it more than likely that we will be sent back in mid-winter, we trust we shall not have to shovel snow."

### INDIANS MAY NOT FISH.

Seneca Indians have now been denied by the supreme court the right to fish and hunt without regard to state laws on the 4,000,000-acre estate in western New York, which their tribesmen ceded to the United States Government in 1797, on condition that they and their heirs always should be allowed fishing and hunting privileges.

### BLOOR VIADUCT CASE BEFORE ARBITRATOR

H. Drayton Hearing Claim of Walter Hutchinson for Damages.

Harold E. Robins, real estate ex-ert, declared before Arbitrator P. H. rayton yesterday that he believed hundreds of people were of the opinion that the government had committed a blunder in selecting the site for the new evernment house. Mr. Drayton was hearing the claim of Walter H. Hutchinson, for damages to his property at 83 Castle Frank road by the construction of the Bloor street viaduct. Harton Walker, the next witness said in evidence that the beautiful

viaduct would only be a substitution for the beautiful scenery which existed before its construction.

Judgment was reserved.

HEALTH DEPARTMENT BUSY

Every Effort Made to Prevent Spread of Infantile Paralysis.

During the past few days Dr. Hastings' staff has been busy supervising visitors from Jutside points where infantile paralysis is prevalent. In order to avoid the spread of the disease in Toronto, these visitors are prohibited from attending picture shows or other places of assembly where they would come into contact with the public. The medical health officer says he is satisfied that there will be no serious asses of this dread disease in Toronto this year.

ssistance of moving pictures.

Automobile Men From All Mrs. Willoughby Cummings presided at a meeting of the Women's Emergency Corps, held yesterday afternoon in the board room, 26 East King st. The principal work was in connection with the service of intercession, which it is arranged will take place in Convocation Hall, on Sunday, July 30th, at 4 o'clock, which will be the anniversary of the Sunday preceding the declaration of war.

In this connection a circular letter ON LAKE EXCURSION Pay Visit to Alexandria Bay-

ing the declaration of war.

In this connection a circular letter will be sent to the clergymen of the city churches, asking them to announce the meeting. The appeal will be for the rulers and soldiers of the empire and filies and their ultimate victory. Addresses will be given by prominent speakers and music provided. The letter will also ask that on August 4th, the churches may all be opened and remain so thruout the day to give people an opportunity for private prayer and intercession. Willys-Overland dealers from all parts of Canada met at the King Edward Hotel yesterday afternoon. The occasion was the first annual Over-

This is the largest convention of automobile dealers ever held in Canada, and the widest in its scope. While other conventions have been held, they have been limited to a small territory, or at most a province. Never before in the history of the industry in Canada has a convention been held that brought together so many dealers selling one line of automobiles.

Yesterday afternoon J. A. Pugsley, Overland dealer in St. John, N. B., shook hands and commented on the heat with Messrs. French and Plimley, the local dealers of Victoria and Vancouver, the twin cities of the Canadian Pacific seaboard.

At the hotel, after introductions and transportation are remain so thruout the day to give people an opportunity for private prayer and intercession.

Regarding the work of women on munitions, it was announced that an application had been received that morning—Monday—at the headquarters of the Women's Emergency Corps for thirty more workers. This brings the number now employed in Toronto factories, the majority thru the corps, to two hundred and thirty. These women have either released men or have taken up new work which it would have been necessary for men to do had not women been available.

GOVERNMENT WILL NOT

At the hotel, after introductions and transportation arrangements had been made, each delegate received a neat badge. At the top, enclosed in a frame, was the wearer's name, and on the white ribbon was a crest of the allied flags draped round a centrepiece containing the Jack, surmounted by a crown. Around the centrepiece were the words, "United we stand." Underneath the crest the badge bore the words in blue letters. "Willys (Knight) Overland Dealers' Convention, July 17-20, 1916." Premier Hearst Says Ontario Minlisters Are Not Negotiating With Ottawa.

Premier Hearst says there is abso lutely nothing in the story that the government intends purchasing the nickel mines. "And as for the statement that Hon. Mr. McGarry and Hon. Mr. Ferguson were in Ottawa nego-tiating with the Dominion ministers that, too, is not founded on fact," he said yesterday. The premier declared there were absolutely no new developments in the nickel situation. The World secured an expression of pinion yesterday that it would take three years to erect a nickel refinery

### A SOCIAL BUCCANEER."

J. Warren Kerrigan, after having played several recent features of ro-manic cast staged in the mountains of southern California, now is engaged in the filming, with his company, of a modernized version of the Robin Hood plot, under the name of "A Social Buccaneer." Kerrigan is an adventurer in city high life, robbing the wealthy to distribute his gains among the poor of the tenement districts.
Opposite him is charming Louise Lovely, and one of the handsomest "sets" ever used at Universal City is a scene of the interior of a Chinese restaurant, gorgeous in its colorings and fittings.

MYRTLE STEDMAN RECOVERING

After several months of incessant work, Myrtle Stedman, Morosco star, is enjoying a brief rest at her home, to which she was forced to retire to which she was forced to retire to the control of the con adds to it.

In her dressing room at the studios, she has half a dozen of the choicest lying around. They are named after the various actors who play with her, and whenever there is a child in the cast, Miss Brockwell's great delight is to have a doll party.

to which she was forced to retire to save her eyesight from injury by the studio artificial lights. For several days it was feared an operation would be necessary, but the change from the glare of the Cooper-Hewitts to the soft cast, Miss Brockwell's great delight is not have a doll party. ### SAY INVALID PORT NOT SUFFICIENTLY MEDICATED

Ernest J. Morrow Charged With Selling Wine Contrary to

Law.

Charged with selling what is known as "Dr. Kilborn's Invalid Port Wine," without sufficient medication, Ernest J. Morrow appeared in the police court yesterday and was remanded for a

Eudo Saunders, counsel for the Ontario License Commissioners, sought to show that the liquid contained such a high percentage of proof spirit that easily, but he seems not to consider how the Gaumont-Mutual Company it could be used as a beverage, and would take defeat after investing four that the "port wine" possessed little of a medicated nature.

Claude Morrison, a government officer, proved the purchase of two botties of the wine at 1 Saunders avenue, Toronto, which he turned over to the government analyst for analysis. This led to the prosecution. The analysis showed that the liquid con-

tained 18.36 proof spirit. License Inspector Greer and Dominion Analyst Green both testified to having tasted the "port wine," and both were equally certain that it contained little or no medication.

### MANY SHARKS SEEN.

NEW YORK, July 17.—Three vessels reaching here reported the Atlantic fairly alive with sharks. The Anterican steamer Charles Beatty, from Tilt Zove, Nfid., reported sighting schools of sharks, numbering several hundred, ranging in length from six to twelve feet. twelve feet.

### Thin Folks Who Would Be Fat

ncrease in Weight Ten Pounds or More

Increase in Weight Ten Pounds or More.

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Most thin people are victims of maintirition, a condition which prevents the fatty elements of food from being taken up by the blood as they are, when the powers of nutrition are normal. Instead of getting into the blood, much of the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy, normal amount of fat, the nutritive processes must be artifically supplied with the power which nature has denied them. This can probably best be accomplished by eating a Sargol tablet with every meal. Bargol is a careful combination of six splendid assimilative agents. Taken with meals they mix with the food to turn the sugars and starches of what you have eaten into rich, ripe nourishment for the tissues and blood and its rapid effect has been in many cases reported remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural snd absolutely harmless. Sargol is sold by all druggists everywhere and every package contains a guarantee of weight increase or money back.

If you find a druggist who is unable to supply you send \$1 money order or

back.

If you find a druggist who is unable to supply you send \$1 money order or registered letter to the National Laboratories, 74 St. Antoine St., Montreal, and a complete ten days' treatment will be sent you postpaid in plain wrapper.

NOTE: Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported, care should be taken about using it unless a gain of weight is desired.

Where can the Mayor of the Palace come in?

Have we not in Canada party government? Is not the vigilant opcity's interests. position always eager to spring upon The only present help in sight is and expose any dereliction of duty on the part of the government? In theory, yes. At Ottawa the government supporters sit on one side of the chamber new privileges to the corporations. Sir and the opposition members on the other. There is much roaring, and finger shaking, and desk thumping in the debate upon the address; some acrimonious discussions are heard respecting the railway scandals of 1872, and the soup kitchens of 1873. But of these radial corporations. Why when the house gets down to the real work of the session we do not find one side proposing legislation and the other vigorously opposing the same in the public interest. On the contrary both sides seem to be influenced, and to some extent directed by an invisible

If the Bank Act is to be revised, the opposition after a show of resistance falls in meekly behind the government. The railway subsides slide thru by unanimous vote often on a Saturday night with less than a quorum in the chamber. We hear threats of the house being kept in session all summer deal goes thru without a division. Indeed the government of the day does not bring down a measure until it receives assurance from the Mannage of the matter over until 1921, with such possible meddless and adjusted in a short time. To leave the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with such possible meddless assurance from the Mannage of the matter over until 1921, with the matter over until 1921, not bring down a measure until it receives assurance from the Mayor of the Palace that the opposition has been inoculated. Scarcely a serious dispute inoculated. Scarcely a serious dispute between the two parties has arisen in our recollection on any pressing economic problem. By common consent certain subjects are not discussed in parliament.

If now and then a member like He Formerly Represented West W. F. Maclean breaks loose and protests against Canadian nickel being permitted to find its way to Germany, the Mayor of the Palace gets busy. He sees to it that the attention of the house is diverted into some less dangerous channel. Up jumps some Liberal member like E. M. Macdonald, of Pictou, N.S., who ignores nickel, but pulmonary embolism. After being confined to bed for two days his consavagely denounces the general record of the government for extravagance. Back at him in slashing style a government supporter hurls some charge of crooked dealing in by-gone days on the part of the Laurier Government. A 1904. His wife predeceased him about Quebec Liberal gallops to the front with a cry about the bilingual school issue and is unhorsed by a doughty Ontario Conservative, who reads an extract from Sir Wilfrid Laurier's speech at Boston in 1885. In the confused jangle of miscellaneous debate the nickel question is shunted to the siding where the Mayor of the Palace

desires it to remain. The truth is we have no real party government in Canada. There are This meets with favor, not only of the men able to assure the government officers, but also of all Brantford citithat opposition to this or that measure will be perfunctory. These men sat battalion here, the strength is now 557.

in with the Laurier government as MANITOBA WILL they are now sitting in with the Borden government, and they are called upon by both parties for contributions. The man who today in Canada represents the Nickel Trust, the Ross Rifle, the Bankers' Association, the Standard Application Made by That Oil and associates, and some other Government to Toronto institutions, is the real head of the state, is all powerful. He tells members on both sides of the house what to say, and newspapers on both sides of politics what to print. He is, TICKET SALE OPENED

Durwood, a blind man, was the first the present civic administration. There to appear at the wicket for his supply.

United States Have Sent Nearly Million and Have Still Plenty Left.

every year these franchises continue in NEW YORK, July 17.-Exports of operation adds a new danger to the horses and mules to Europe are picking up again, according to the department of commerce. In April the number sent in connection with the Hydro Radials, abroad was 21,789, while in May 27,876 But Chairman McIntyre would handi- head left the country. These were valued cap and obstruct this plan by granting at \$2,296,556.

The percentage of mules is steadily innew privileges to the corporations. Sir
Adam Beck knows the situation thoroly
and he is aware of the danger of permitting possible extension of the danger powers of existing companies. He has already been in negotiation with some of these radial corporations. Why should the matter not be taken up more urgently at once, before the railway board does more harm? The government of the were four horses to one mule, and now there are only about two horses to one mule, the official figures for May be ing 18,645 horses and 9233 mules.

More than 660,000 horses and 180,050 mules have now been exported since the great war began, making a total of approximately \$40,000 head, for which the warring nations have paid fully \$170,000, 000, and for which American farmers on the work of the were four horses to one mule, and now there are only about two horses to one mule, the official figures for May be ing 18,645 horses and 9233 mules.

More than 660,000 horses and 180,050 mules have now been exported since the great war began, making a total of approximately \$40,000 head, for which American farmers of the were four horses to one mule, the official figures for May be ing 18,645 horses and 9233 mules.

More than 660,000 horses and 180,050 mules have now been exported since the great war began, making a total of approximately \$40,000 head, for which American farmers ware proximately \$40,000 head, for which American farmers ware four horses to one mule, the official figures for May be ing 18,645 horses and 9233 mules.

More than 660,000 horses and 180,050 mules have now been exported since the great war began, making a total of approximately \$40,000 head, for which the ware four horses to one mule, the official figures for May be ing 18,645 horses and 9233 mules.

ment, The News said last night, is have received something more than \$100, friendly to the Hydro-Electric and 000,000. The whole number of horses in the friendly to the Hydro-Electric and radial proposals. Let it show its friendship in a practical way now, and enable the Hydro Commission to lay down a policy which will settle the vexed question of radial entrances to Toronto once and for all.

The whole number of horses in the United States is about 24,000,000, and of mules less than 5,000,000. The drain on the mule stock of the country is thus relatively much heavier than on the horse stock, yet no one has proposed that the government go into the business of breeding mules for the army.

Now that the Washington authorities have started in to buy horses and mules

Toronto once and for all.

Everyone knows that Toronto is the key to the radial situation. It is estable that the Hydro Radials should that are being consumed by wars and tha sential that the Hydro Radials should rumors of wars in the last two years.

That one million will hardly cover the whole number at the end of 1916 is the opinion of horsemen familiar with foreign and domestic trade.

And, while the panic-stricken promother than the promote that the panic stricken promote the contract of the contract that the promote that the panic stricken promote the contract that the panic stricken promote the promote that the panic stricken promote the promote that the panic stricken promote the promote that the promote that the panic stricken promote the promote that the promo control this central radial point. We believe that with Sir Adam's knowledge of the situation and the govern-

almost one million war horses here in the last two years has had no perceptible effect on the supply, as shown by current prices. The government could easily now obtain one million or more horses—or men—for the army, if it would offer fair

Miss Ianthe Constantinides, formerly on the staff of the Bishop Strachan School, is in England doing voluntary aid work in a military hospital.

A wedding was solemnized on Saturday, July 15, at the residence of the bride's parents, St. George street, when Helen Wallace, youngest daughter of Liccol. and Mrs. Hall, was married to Capt. Everard Burnside Butler, eldest son of Mr. and Mrs. E. W. D. Butler, Inglewood, Moore Park. The ceremony was performed by the Rev. Dr. Pidgeon, Bloor Street Presbyterian Church. First into the drawing-room, to the strains of the wedding march, played by Miss Henderson, was the bridesmaid, Miss Kinnear, wearing a dainty gown of pink crepe and taffeta. Then the maid-of-honor, in a dress of mauve taffeta and lace. Both carried shower bouquets of pink roses and wore the groom's gift, a pearl bar pin. Lastly came the bride, escorted by her father, and wearing a lovely gown of white satin and pearls, her veil held in place with her mother's bridal orange blossoms. She carried a shower of white roses, and wore the groom's gift, a diamond pin. The groom was attended by Mr. Keith, C.E.F. During the signing of the register Mrs. Martin sang "Love's Coronation." After the reception the bride change to a traveling gown of cream broadcloth, with hat to match. The bride and groom left on a short honeymoon before Captain Butler leaves for overseas.

Mrs. J. G. Carroll and Miss Wenonah Carroll are at the Banff Springs, Banff.

Hendrie's garden party, returned home yesterday.

The Messrs. Robert and Strathern Hay came from Petawawa camp to spend a came from Petawawa camp to spend a covernor and Lady Hendrie at Niagara-Governor and Lady Hendrie at Niagara-Governor and Lady Hendrie at Niagara-On-the-Lake. They are going to the Georgian Bay for a short holiday.

Mr. and Mrs. G. G. S. Lindsey and their sector. Rev. Walter Loucks, officiating. The bride, who was given away by her cousin, Mr. T. C. Allardice, wore a becoming gown of t aupe Georgette crepe

and taffeta, the collar and vestee formed of veiled rose silk and silver. Her hat, of a portrait design, showed a brim of the crepe and a crown of rose velvet, encircled with ostrich and small French roses. Immediately after the ceremony, Mr. and Mrs. Minty left on a short honeymoon in the east, after which they will return to reside in Winnipeg.

Mr. and Mrs. Thomas Ingram, Palmerston boulevard, left on Monday to spend a month in Atlantic City.

Mr. Alphonse Jones is spending the summer with his daughter, Mrs. Herbert Hulme, Vancouver.

Among those at the Roslyn, Niagara-on-the-Lake, are: Mrs. Fearman and her children, Mrs. Black and her baby, Mrs. Charles Boone and her children, Mr. and Mrs. Rowland, Mrs. Burbidge.

Mrs. William Ruddy, Westmoreland avenue, has left for Montreal to visit her son, Mr. Walter Ruddy, who has enlisted in the Princess Patricia Regiment and is training for overseas.

Niagara-on-the-Lake

The week-end dance at the Queen's Royal was very much enjoyed by the many visitors. Those present included: Miss Hendrie, Major-General and Mrs. Sharpe, Major and Mrs. Percival Brown, Miss Pepler, Mrs. Pepler, Miss Carolyn Warren, Mrs. A. J. Wright, Mr. and Mrs. Bleistein, Mrs. Collins, Capt, and Mrs. Bleistein, Mrs. Collins, Capt, and Mrs. Gault. Kingsmill, Mrs. Elmer Smith, Mrs. Caldwell, Mr. and Mrs. Elmer Smith, Mrs. Caldwell, Mr. and Mrs. Hugh Blain, Capt, and Mrs. Eric Ryerson, Miss Hope Rowe, Mrs. Thomas Hobson, Miss Marguerite Cotter, Major and Mrs. Black, Mr. E. Little, Mr. and Mrs. George Richmond.

### CHANGE IN RIFLE TOPIC AT OTTAWA

The Women's Club of the 35th Battalion Capital Seems Quite Agitated Over Passing of Ross Article.

CAME AS A SURPRISE

Name of New Rifle Has Not Yet Been Decided Upon.

OTTAWA, Ont., July 17 .- The sensation of the hour at Ottawa is the abolition of the Ross rifle as the war weapon of the Canadian troops and the substitution of the British rifle.

Whether the new rifle is to be named the Lee-Enfield or simply the Enfield, is not yet definitely known, but probably it will be officially referred to as the Enfield. Two changes mentioned by Sir Sam

Hughes are that it has "A straight pull," and that the sights are finer and more accurate. It is shorter than the Ross.

Several million dollars have been spent upon the Ross rifle by both governments, and it has been subjected to a great deal of criticism. How-ever it has also had just as strong supporters as critics. It was intro-duced as the Canadian arm by Sir Frederick Borden and, altho the Conservative opposition fought it strongly at the time, it found a warm supporter in General Hughes, who was the leading miliary critic of the Conservatives. Since the Canadian troops went to the front the Ross rifle has been vigorousil condemned, and by no less an author-

ity than General Alderson, commander However General Hughes intimated that the rifle had been improved and that defects in the ammunition which had caused trifle to jam had been re-

had caused trifle to jam had been removed.

Output is Heavy.

Since the war began the output of the Ross factory at Quebec has been very much increased. The gauges and specifications of the new rifle are on their way. The old Ross rifle which will be called in will be re-modelled according to the new specifications.

The announcement that the Ross rifle has been abandoned came as a complete surprise. It was thought it would continue to be the arm of the Canadian Militia. However the improvement in the Lee-Enfield, the introduction of Ross rifle features and the desire to have a uniform weapon for the empire have made the general adoption of the new weapon.

While the barrel of the rifle will be shorter, the bayonet will not be longer. Modern trench warfare has made the short rifle more convenient and is generally speaking only used in close work.

FRAUDS ARE JAILED.

Young Men Who Tried to Sidestep Enlistment Jeered By London Crowd.

Young Men Who Tried to Sidestep En-listment Jeered By London Crowd.

"Well caught" was the greeting that a number of young men met with on landing in Cardiff, on it being noised abroad that they had, under the Defence of the Realm Act, hoodwinked the law by "enlisting" as miners, who are adjudged essential to the prosecution of the war. Their trades included painters, grocers, foundrymen, greengrocers, haukiers and a couple of students. As the police escorted them to the jail the men were jeered by a crowd.

IN OLD ENGLAND

Twenty-five innings of baseball were dished up at the island yesterday for the local lovers. It was thrilling ball at that, and the first struggle, that went sixteen innings before the Leafs were returned innings before the Leafs were returned victors, 1 to 0, over the Newark Indians. victors, 1 to 0, over the Newark Indians, was of the hair-raising order. McTigue and Wilkinson, the former Canadian Witter, r.f. Leaguer, had the tightest pitching duel Ritter, 3b. of the year at the local yard, with the Achenbach, s.s. .... latter losing out when his third-baseman booted a roller in the sixteenth. The Leafs did their best to mess things up with five misplays chalked up against them, but McTigue just worked all the harder and came thru with the bacon.

This victory was the Leafs' eighth them, but McTigue just worked all the harder and came thru with the bacon. straight, and here they stopped. Our boys ran into some air-tight pitching when Kritchell.

Johnny Enzmann, late of the Brooklyn Trout, l.f. Superbas, took up the flinging for the

visitors. Five safe blows were all the Leafs could register. Little Leo Callahan, a former Leaf, found Manning for a homer and a double, and this very materially helped to beat us, 3 to 0. First Game.

The first game of the double-header was a season's record for the island grounds, when it went sixteen innings before the Leafs bobbed up winners, 1 to 0. The long row of ciphers had the fans crasy with excitement, and when the

crasy with excitement, and when the break came in the sixteenth everybody heaved a sigh of relief. Break!—that's right, for an error gave us the game. McTigue opened this innings with a single, only to be forced at second by Truesdale. Smith pulled the right play by neatly sacrificing. Ritter was all set to gather up Murray's roller, and then let it go thru his legs, and Truesdale scampered home with the run.

The pitching was grand, with the honors about even. McTigue had wonderful control for a portsider, and, while he is credited with allowing two free trips to first, both of these were given to Egan on purpose when that good hitter was up in a tight corner.

The Leafs got McTigue into some bad corners by making errors, but he kept his head and pitched himself out of them. Red Murray was to the fore again with another sensational catch, grabbing a liner off his shoelaces. Murray helped with, a sharp double-play in the fourth, which Cable opened with a single. Murray grabbed Healey's fly and easily beat Cable back to first with the throw.

Murray doubled to open the fourth, but nobody could bring him home. It went merrily on to the sixteenth, with both the state of the sixteenth, with both and the providence with a part of the visitors. Scores:

SPLIT DOUBLE-HEADERS

At Montreal (International)—The Grays and Royals played two close games here, in which heavy hitting was the feature, Montreal making 26 hits in the two sessions, Providence won the first game, 4 to 3; Montreal taking the second, 3 to 2. Scores:

and Freeman.

Second G.me.

We were never in it in the second game, Enzmann had the Leaf hitters eating quietly out of his hand, and played them along for nine innings. On the other hand, Newark got to Manning for enough hits to score three runs. Never a run did the locals get.

Witter, the Newark right-fielder, found Manning's slow ones very much to his liking, and banged out four safe hits in as many times at bat. He drove in two of Newark's three runs. Leo Callahan, the former Leaf, that broke his leg in Rochester, started trouble for Manning by hoisting one into the right-field bleachers in the first innings. He also slammed out a double before he was satisfied.

It was after two were down in the first innings that Callahan took a notion to lean against one, and the ball landed high in the bleachers. Manning got away all right until the fourth, when more trouble arrived. Callahan was the bad man again when he slammed a double to deep centre. Shorten sacrificed, and then Witter drove in Callahan. Blackburne. Truesdale and Graham pulled off a fast double-play to retire the side.

Durgin singled in the sixth, moved up to second when Murray foozled it, and rode home on Witter's single a little

### **ANKEES INCREASE** LEAD IN AMERICAN

Despite Injuries to. Players Donovan's Men March Merrily Along.

At New York (American)—Playing with a team consisting largely of utility men, New York increased its lead in the pennant race yesterday by twice defeating Detroit, 2 to 0 and 3 to 2. In the first game, Shawkey outpitched Covaleskie, permitting only one Detroit player to reach third base. In the second game, Love, a New York youngster, started his first game of the season and gave a fine exhibition until the eighth innings, when Donovan took him out after he had allowed two hits, Russell replacing him. Frank Baker, the Yankees' third-baseman, will be out of the game indefinitely. An X-ray photograph of the injuries received last Friday revealed that two ribs were broken. Boone will replace Baker at third base until the latter is able to resume play. Scores:

First game— R.H.E.

At Washington—Cleveland won from Washington for the third time since the season opened. The score was 7 to 5. The local pitchers were wild and had poor support. Score:

Cleveland .... 0 0 1 1 3 2 0 0 0—7 9 1 Washington ... 0 0 0 1 1 2 0 2 0—5 9 5 Batteries—Klepfer, Beebe and O'Neill; Harper, Shaw and Henry.

C.F.A. (Major Gordon Southam's Hamilton Sportsmen's) is now in France. The battery is attached to the new 4th Candian Division under Major-General Douglas Watson of Quebec. At an Aldershot command sports held before they left, the section under Lieut. Conn Smythe was chosen in a competition among the batteries of the 8th Brigade to represent the brigade against three other brigades, the event being an artillery contest, in which the men of the section, partially undressed with horses picketed, have to get dressed, horses harnessed, dash 100 yards and come into action. Lieut. Smythe's section won the contest in six minutes, 25 seconds, receiving a cup valued at six guineas. This section was also champion of the division at hockey and baseball. In the subsequent sports Lieut. Smythe's horse became frightened, ran into the wings, throwing him and falling on him. Smythe got off with a broken rib and some bruises and a broken saddle.

### Jim Thorpe Leads A. A. Base Stealers

Larry Chappelle of Columbus is setting the pact for the batters of the American Association. Hitting. 347, he is only one point in front of Stovall, while Beals Becker, who enjoyed the lead for two weeks, has dropped to sixth place among the regulars. Jim Thorpe of Milwaukee, the famous Indian, is far in front among the base-stealers, with 39 to his credit. Bradley, Columbus, leads in sacrifice hits, with 22; Gilbert, Kansas City, in home runs, with 3; Demmitt, Columbus, in total bases, with 124, and Gardner, Toledo, in runs scored, with 51. Kansas City, with .264, leads in team hitting. The leading batters are: Chappelle, Columbus, .347; Stovall, Toledo, .346; F. Smith, St. Paul. .325; Sanders, Kansas City, .315; Beall, Milwaukee, .311; Daniels, 1.20; Beckler, Kansas City, .315; Beall, Milwaukee, .311; Daniels, 1.20; The leading pitchers for 13 or more

The leading pitchers for 13 or more games follow: Carter, Indianapolis, won 13, lost 2; Regan, Kansas Gity, 12 and 2; Middleton, Louisville, 11 and 3; Griner, St. Paul, 6 and 4; Perdue, Louisville, 6 and 4; Yingling, Minneapolis, 13 and 6; Finneran, St. Paul, 9 and 5; Bailey† Toledo, 9 and 6; Burk, Minneapolis, 11 and 6; Slapnicka, Milwaukee; 6, and 4; Sanders, Kansas City, 11 and 6.

### HUNDREDS IN LONDON'S UNDERGROUND RAILWAY

been published that show the phenomenal operations of the London Electric Underground Railway system. When the war broke out the traffic was seriously threatened by the ultra loyalty of its operatives, and govern-ment officials had privately to use their influence to regulate the zeal of applicants for service. It now appears that out of 27,000 employes 7700 enlisted and over 6000 attested. Nevertheless each of the railways within the group report satisfactory receipts, and a big dividend has been declared for the year 1915-16.

### Old Cy Young Holds Pitching Record Twenty-Three Innings With No Hits

Tom Hughes of the Boston Nationals recently did some neat pitching when he worked in sixteen consecutive innings without allowing a base hit to be made off his delivery, but it is hardly big enough to be a major league record, althous many papers published the feat as being the best record in this line. There are many records in baseball which have the performance of "Long Tom" faded. In minor leagues the mark of pitching sixteen consecutive innings of hitless ball is by no means common, but it has been accomplished on a dozen or more occasions. In the najors the real holder of this record is no less a personage, than the Hon. Denton Tecumseh Young letter known as Cy, is the holder of several other records in unusual feats in the pitching line.

It was back in April. 1904, that Young look Winter's place in the greatest piec of pitching, the game ever witnessed.

On April 30, against the Washington team, Young took Winter's place in the ram. Young took Winter's place in the greatest piec of pitching, the game ever witnessed.

On April 30, against the Washington team, Young took Winter's place in the ram. Young took Winter's place in the greatest piec of pitching the game ever witnessed.

On April 30, against the Washington team, Young took Winter's place in the ram. Young took Winter's place in the ram. Young took Winter's place in the first own of the game, retiring the next 21 batsmen in order. Young's nevt game took place May 5, against the Athletcs, in the day and term of the payton Club of the Western Association back in 1901, on Sept. 1 of that season pitched a no-hit, no-run game against the Grand Rapids team on Sept. 4.

Addie Joss and George Mullen made their respective reputations in that the payton Club of the Western Association, didn't hold a candle to Joss and George fire to his pitched and Joss were signed by the Cleveland team and Mullen was famous fifteen inning 1 to 6 game against the big league batsmen,

## HOME GROWN FRUITS AND

Raspberries Coming in More Five Whole Acres-Only Freely on the Wholesale Market.

CHERRIES ARE SCARCE

containing 217,800 square feet, choice garden soil, and perfectly level; immediate possession, situated short distance east of Yonge street, and within a few minutes' walk of the Canadian Northern and Grand Trunk Rallways. The full price of the five acres is only \$250, that is, \$50 per acre, and can be bought on the following terms: \$2 down on the five acres and monthly payments thereafter of \$2, with the privilege of paying as much more as you like at any time; title guaranteed, and clear deed given as soon as palifor. Phone or call at office for further particulars. Stephens & Co., 136 Victoria street. Blueberries Arrived in Great Quantities and Differed Greatly in Quality.

Receipts of home-grown fruits and vegetables were light yesterday, and as revailed on most lines. Strawberries-There were only a very few on the morning train, which quickly sold at 11c, 12c, and a few at 13c per box; the afternoon shipments being slightly heavier, the berries selling at 10c to 12c per box; a few closing out at

SPECIAL week-end rates at Brant Park Hotel, Burlington, Ont. Only \$5 from Saturday night dinner to after break-fast Monday morning. Excellent table. Chicken dinner. 462 9c.

Etaspberries are beginning to come in more freely, some of choice quality arriving yesterday, which sold at 18c to 22c per box.

Blueberries arrived in greater quantities, and differed greatly in quality and pack; some half-filled baskets selling at \$1.25 to \$1.50 per 11-quart basket, while well-filled ones of choice quality went at \$1.75 te \$2.

Cherries were scarce, and brought will SELL—Three acres, majority peaches, heavily loaded: beautifully located on main road: shipping convenient; new pressed brick house, with modern conveniences. Address Box 2

at \$1.75 tc \$2.

Cherries were scarce, and brought slightly higher prices, the sour ones selling at 75c to 85c per 11-quart basket, and 25c to 40c per 6-quart, while eating cherries sold at \$1 to \$1.25 per 6-quart. and \$1.75 to \$2 per 11-quart.

Red currants are still rather small: they soldat 6c to 7c per box, and around 35c to 40c per 6-quart basket.

Gooseberries remained about stationary, medium sized fruit selling at 30c to 35c per 11-quart, while the large fruit of choice quality sold at 50c to 75c per 11-quart.

of choice quality sold at soc to 1se per 11-quart.

Tomatoes were the exception yesterday, as they were shipped in heavily, selling at \$1 to \$1.25 for No. 2's and \$1.75 to \$2 for No. 1's, the hothouse being slow at 15c per lb.

Green peppers also came in freely and sold at 85c to \$1 per 11-quart and 40c to 50c per 6-quart. sold at 85c to \$1 per 11-quart and 40c to 50c per 6-quart.

Wax beans kept firm in price at 75c to \$1 per 11-quart basket.

Green peas were of better quality than have been received lately, selling at 50c to 75c per 11-quart basket.

New potatoes have declined, mostly gelling at \$3.75 per bbl., a few bringing \$3.90.

Chas S. Simpson

PESTS ARE EFFECTIVE

Pear slug is troublesome on both sears and cherries. The small, blackish

slug-like larvoe feed on the upper sur-

face of the leaves, causing the foliage

to present a brownish appearance They can be easily controlled by spray-

ing with two or three pounds of arsenate of lead to forty gallons water

whenever the slugs are numerous nough to warrant it, unless the fruit

leaves. If you have only a few trees

Badly Damaged and Trees

Practically Defoliated.

(By Prof. W. S. Blair, Kentville, N.S.)

One plot of Kings at Berwick, con-aining three trees in 1915 was sprayed

1.008, with 1 1-2 pounds of paris green per 100 gallons. These trees were

sprayed on the same dates as other King plots. The hand pump was used

at a pressure of 140 pounds. The amount of bloom was the same on these as adjoining trees.

As a result of this application not

only was the foliage badly injured and

the trees practically defoliated, but the fruit clusters were so damaged that all

the fruit dropped soon after blosso

This experiment would show

inches. The red-headed woodpecker, besides digging insects out of bark, seizes them on the wing. In the examination of over seven hundred stomachs of woodpeckers, animal food, mostly insects, was found to constitute seventy-six per cent, of the diet, and vegetable matter twenty-four per cent. The animal food consists largely of beetles and caterpillars, and includes many harmful species.

The chickadee is another most active insect destroyer. It is especially active in the vicinity of any timber or wood chopping. The birds will become very familiar, and will readily make friends. Not being equipped, as the woodpecker is, with a long bill, they take advantage of the cutting of cordwood, etc., to secure the grubs found under the bark or exposed in the cutting. As a rule, however, they feed upon the insects of the orchard, the bush or shrubbery.

The woodpecker and the chickadee are only two of the many birds which are of great service both in the city and country. They should be protected in order that they may continue their valuable work.

PORCUPINE PERSONALS.

W. G. Barney, engineer, of Buffalo, passed thru Toronto last night on his way to Porcupine to superintend the operations of the diamond drilling plant to be installed on the Angarita claims, in the zone of the Dome properties.

George J. Miller, manager of the Miller-Independence mine, at Boston Creek, who has been on a business trip to the States, also went north last night. He placed orders for additional machinery.

C. N. R. EARNINGS. C. N. R. earnings for the week ending July 14 were \$874,900, increase \$425,200. From July 1 to date earnings

are \$1,760,000, increase \$88,900. USE OF WOOD FLOUR CREATES MORE MILLS

in the States alone, in the manufacture of dynamite and in the manufacture of inlaid linoleum. It is also used in making composition flooring, oatmeal paper and in other products. All of the industries in which wood-flour is used require a white or very light cream-colored flour having absorptive powers; spruce, white pine 'and poplar are the species of wood most used. Sawmill waste furnishes much of the raw material for making this hy-product. In the manufacture of inlaid linoleum it is mixed with cementing material. Mills for producing menting material. Mills for producing wood-flour are now scattered the world over, wherever the proper combination

### TOBACCO MADE GAINS

Heavy Selling Bore Down Specialties to Considerable Extent.

NEW YORK, July 17.—Ignoring such factors as last Saturday's bank statement, which fully rectified the adverse conditions of the previous week, receip of another round amount of British gold, a large over-subscription to the new French loan and marked relaxation in call money rates, today's stock market continued under the influence of the resumed with confidence and vigor, the motor group showing greatest weakness with extreme losses of 2 to 5 points. Munitions and Mexicans were lower by 1 to 2 points, with as much for minor metals, while Bethlehem Steel pfd. fell 8 points, with 6 for Gulf States Steel.

United States Industrial Alcohol maintained its recent reputation for irregularity, losing 5 points under steady pressure, regaining 4 and closing at a net loss of 3%. U. S. Steel held within fractional limits, and other seasoned infractional limits, and other seasoned industrials displayed fair resistance.

A few special stocks were exempt from the general selling, notably American Tobacco, which awakened from prolonged lethargy with a maximum gain of 10 points, while Sears Roebuck added 4½ points to Saturday's gain of 5½.

Activity in rails was confined to secondary Issues, like Denver and Rio Grande pfd., Lake Erie & Western and Wisconsin Central, these scoring gains of 2 or more points, with pronounced steadiness in Wabash first and second pdf. shares. Reading made a smart advance during the forenoon, all of which was relinquished in the uncertain course of the later trading.

Mercantile Mariner pfd. was the most active stock up to the final hour, when it yielded much of its 3-point gain. Total sales, 378,000 shares.

Bonds were arregular, but brokers reported a better private demand for myestment among issues of the higher grade. Total sales, par value, \$1,910,000.

ny Announces Institu-of System. HOME FROM NEW YORK. July 17.—Involving a in \$16,000,000, the Pru-Company today anditution of a system of ne of its more than rithout expense to the said to be the largest life insurance ever covany in the world.

excepting officers and Mr. L. E. Plummer of Plummer & Co., 108 Bay street, has returned from a trip east, where he completed arrangements for representative offices in Boston and New York, and is contemplating opening in Syracuse and Rochester. This is in line with plans of this company in anticipation of the extensive activity predicted for the fall.

### AT THE NORTH THOMPSON.

Mining Notes

The shaft of the North Thompson Mine at Timmins is now down a depth of over 460 feets. The intention is to continue sinking to a depth of 500 feet, and establish a new level. A crosscut will be made into the vein and drifting upon it commenced. The shaft is a three-compartment one and all four levels have been opened up with very satisfactory results. It is hoped to develop the same ore body at 500 feet. On the 400-foot level some very spectacular samples of free gold were found. The vein proper is quite wide and the ore above the average grade.

For the present no action is being taken regarding the building of a mill, plans of which were considered some time ago, pending the outcome for the proposed consolidation with the Vipond.

### DOME EX. DRILLING.

Work in the shaft and lateral working of Dome Extension has been discontinued, according to W. S. Edwards, president of the company. There were two shafts down about 200 feet and considerable drifting and crosscutting has been done. The reason for the discontinuance of development in the shaft was on account of the fact that the Dome Extension ore bodies have been located by the diamond drill to a much greater depth, so it was thought to be more advantageous to continue and explore the lower depths by diamond drill. Some ore of good grade was found around the upper levels in the shaft, but not enough to encourage extensive development at this level.

The diamond drill hole is now down 1000 feet at an incline of about 70 degrees. One very large body of good milling one was encountered about 600 feet down and this is believed to be an entirely different vein from that which dips from the Big Dome property into the Dome Extension. This latter is believed to come into the Dome Extension at greater depth and the drill will be sunk another 500 feet in an endeavor to locate it. Captain Anchor is in charge.

### VIPOND QUARTERLY REPORT.

The Vipond report for the three months to June 30 very largely explains the recent decline in the stock. Manager Poirier reports that in the three months reported on the tonnage milled was 10,185 and the bullion produced \$37.600, indicating an average value of \$3.69 per ton. As operating costs are given at \$4.45 per ton, a loss on operations was the result.

the result.

On the other hand, it is pointed out that all costs of prospecting, shaft sinking and development are included in the statement, and no ore during the period was taken out of the better grade stopes on the 400 and 500-foot levels. Preparations for stoping at the 400-foot level were completed at the end of June, and thenceforward there should be a much better grade of ore. thenceforward there should be a much better grade of ore.

The statement compares with that for the previous quarter and for the year as follows:

To March 31 ... 11.810 \$53.348 \$5.24 \$4.51
To June 30 ... 10.185 37.600 3.69 4.45
Year to Dec 31. 35.899 248.312 6.92 5.47

### BIG GOLD SHIPMENT.

Tone of Market Largely Professional-Good Buying on Recessions-Adanac Up.

Despite the midsummer quietness which has fallen upon the markets there continues to be a fairly large amount of trading going on in the nine stocks. The volume of business yesterday was craditable considering the season, and transactions totaled over \$1,000 shares. On the whole the market held firm, with some strong and some soft spots, but there seems to be no uncertainty about the undertone, which is very steady. This fact is indicated by the manner in which prices have held up, even when there was little business being done.

The levels at which stocks are selling seem to be attracting considerable

buying orders. In the Porcupine list Dome Ex. was

firm, but comparatively quiet at 35% to 36. Dome Lake evidenced a tendency to become stronger by advancing ½ point from yesterday's high, closing at 32½. Hollinger was steady around \$29.50. Homestake jumped from \$44 to 50. Junter was given but from 54½ to 60. Jupiter was given but little support and eased off further to 28, with 25 being paid for a broken lot. McIntyre opened a point down at 149, and firmed up 2 points in the afternoon, closing at 150. McIntyre Extended to 150. McIntyre Extended to 150. McIntyre Extended to 150. noon, closing at 150. McIntyre Extension was stronger at 40½ to 41. Vipond was steady between 40 and 41. Schumacher was a little soft in tone, selling back to 47, but closing better at 48. Teck-Hughes was steady at 26, as was also West Dome Cons. Newray was firm at 40 to 41

as was also West Dome Cons. Newray was firm at 40 to 41.

With silver metal up 1 point to £2 7-8, the Cobalt stocks failed to respond and several of the active issues lost ground. Adanac was the exception, this stock advancing to a new high at 189, and closing at the top price. Adanac made a gain of 3 points for the day. Beaver opened at 38 and cased off to \$7½. Chambers-Ferland sold at 20. McKinley-Darragh continued to lose ground, selling back to 57, and 56 bid on the close. Peterson Lake was inactive and easier at 22½. Timiskaming went back a point from the opening at 53½, but firmed up again to 53 at the finish. Lorrain sold at 25½ to 26.

Negotiations Under Way for Four Years-Circulars Sent to Shareholders.

The directors of the Rossiand White Bear Mining Co., Ltd., are circularizing the shareholders regarding an agreement to be made with the Consolidated Mining and Smelting Company where by the latter concern will purchase the plant of the White Bear, except the mill and oil plant, will take an option on the mill at \$25,000, and will lease he property for the mill as \$25,000, and wi plant of the White Bear, except the mill and oil plant, will take an option on the mill at \$25,000, and will lease the property for ten years with the option of renewing the lease at the end of that time. The basis of the lease will be an equitable distribution, share for share, of the proceeds of the ore after paying the expenses. It is stated that negotiations have been under way of the million of the proceeds of the ore after paying the expenses. It is stated that negotiations have been under way of the million of the mill that negotiations have been under way Ottawa: ..... between the two companies for four years, looking for some such arrangement as now planned. A meeting of the shareholders of the White eBar is called for July 18 in Toronto, to dis-cuss the matter, while the formal meeting for that purpose will be at

The report of the White Bear Mining Co., Ltd., the first statement which has been sent out since November, 1909, shows that the management has had great difficulty in conserving the property. The second and third mort-gage bondholders and the unsecured creditors have been asked to accept fully-paid shares at 5 cents for the interest due, and many have agreed to this. Some of the common shareholders have not yet paid in the fourth and final assessment of 1-4 cent a share, made in 1909, and at a meeting of the board it has been decided to allow payment to be made now, and so avoid forfeiture. low payment to be made now, and so avoid forfeiture. The financial statement shows the amount due on the calls is \$17,126, other assets being \$560,427 for properties and \$19,279 development, etc., carried forward, a total of \$596,833. Liabilities are \$512,244 stock out, \$42,800 bonds, \$35,154 advances, made by directors, shareholders and the bank, \$5,635 bills payable.
The Consolidated Mining and Smelting

vances, made by directors, shareholders and the bank, \$5,635 bills payable. The Consolidated Mining and Smelting is now developing the property.

DEMANDS FOR STEEL

IMPOSSIBLE TO FILL

It is learned from the local agencies of the large steel companies that it has of the large steel companies that it has been impossible to meet the demand for some steel products, and that no orders for these commodities can be taken for 1916 delivery at all. In normal times these articles were largely imported, Germany being in control of some of the trade, and with the cutting mal times these articles were largely imported, Germany being in control of some of the trade, and with the cutting imported, Germany being in control of some of the trade, and with the cutting off of this source and the big consumption by companies making munitions, it has been impossible to manufacture fast enough. This applies particularly to certain lines of hardware, small tools, etc.

tools, etc.

As regards general business, it is learned that the big steel companies are working to full capacity, and are benefiting materially from the high prices ruling. Quotations are still held at the top here, despite the fact that there has been some easing off of prices across the line.

### NEW YORK COTTON.

NEW YORK, July 17.—Another shipment of approximately \$20,000,000 in gold and securities, bringing the total up to \$18,946,000 since the movement began, was received here today from London via Halifax and deposited at the assay cifice to the account of J. P. Morgan and Company.

Seven automobile express trucks were required to deliver the shipment.

LONDON STOCK MARKET.

LONDON, July 17.—Money was in fair supply and discount rates were steady today. With week-end orders, mostly of a profit taking nature, the stock market and consols leading the decline. The recent activity in industrials subsided and a part from Colonial and Russian issues there was no encouraging feature, dear money more than offsetting good war news. American securities were steady but dull.

FIRM UNDERTONE AT MONTREAL. Heron & Co. had the following at the

close:
MONTREAL, July 17.—There was some improvement in the market this morning, Cement giving the best account of itself, other strong stocks being Smelters, Steamships, Steel and Iron. In the afternoon trading came almost to a sundstill, but there seemed to be a firm undertone to the mared to be a firm undertone to the mar-

### **BLACK RUST SCARE** STARTS TO PALL

Wheat Develops Weakness Despite Reports of Blight Spreading.

DOES LITTLE HARM

Crops Are Extensively Damaged by Plant Disease.

CHICAGO, July 17.—Despite word that black rust had spread into Canada, wheat prices today showed weakness, a result largely of circumstance, as actual damage from the pest seemed as yet to be relatively small. The market closed heavy, 4c to %c net lower, with July \$1.11½ and September \$1.12%. Corn finished 4c to %c off to 4c advance; oats unchanged to 4c lower, and provisions varying from 7½c decline to a rise of 12½c.

unchanged to 4c lower, and provisions varying from 7½c decline to a rise of 12½c.

Notwithstanding that the wheat market made a quick upturn when news came that black rust had penetrated into Canadian fields, the effect on traders did not prove to be of a lasting character. Despatches from experts who were obtaining first-hand information as to crop conditions in the northwest said that, althous the development of black rust has been surprisingly rapid, and the outcome might easily be a disaster, it was true that up to the present there had been very little positive harm. In addition, the influence of the black rust danger was more or less offset by signs of an increasing tendency to sell on the part of producers in the southwest. Accordingly, numerous speculative holders took advantage of all price bulges, and were active in closing out heavy lines. Unusually high temperatures in the spring crop region led at times today to considerable buying in the wheat market. South Dakota reports told of the mercury being up to 107, a stage which, according to some authorities, threatened possible injury, perhaps not second to the black rust.

Reports of scattered showers took control of the corn market away from the bulls. At first, excessive heat and dryness had led to higher prices, and to a decided broadening of demand. Oats were governed largely by the action of corn. Crop losses were reported, but did not appear to be of a serious nature.

Provisions averaged higher, owing to a decrease in warehouse stocks of pork. Toward the end of the day, however, the market tended to sag on account of lower quotations on hogs.

WINNIPEG GRAIN MARKET.

WINNIPEG, July 17.—Winnipeg wheat closed %c lower for all three months today. Oats were ½c lower for July, %c higher for October. Flax was %c higher for July, %c lower for October and ½c lower for December. The reason of the signit decline, in face of the strong cables and black rust reports, was that the advance on Saturday was too quick. The trade was extremely nervous and the prices kept hopping about within narrow limits.

The trade was medium, mostly spreading. Exporters were on both sides of the market, but no new business was reported. Cash demand was only fair.

Open. High. Low. Close.

A Little Inside Support Turns Cement Up Three Points-Market Generally Quiet.

There were no new developments in yesterday's Toronto stock market. The decline in some of the specialties was stemmed and in the case of Cement instemmed and in the case of Cement inside support was evidently given. Cement sold below 60 last week, but a small amount of support yesterday carried the price back to 63. The rally had to be attributed to something tangible and another 3 per cent. dividend gible and another 3 per cent. dividend was again cited to keep up the courage of the bulls. The only other advances made were in Smelters and Steamships. These, however, were not of sufficient importance to show any change in the temper of the market. change in the temper of the market. The volume of business was small and the feature best liked by those expecting price improvement was the belief that liquidation gave signs of exhaustion. Continued irregularity and weakness at New York is still having an influence on softiment in regard to local

fluence on sentiment in regard to local issues.

Japan is America's greatest competitor is the opinion formed by a prominent manufacturer of war munitions in the United States. A rifle sold to France in America for \$62 is sold to Russia for \$9. A shrapnel which costs the allie in the States \$26 is sold in Japan to Russia for six yen (\$3). Japan does not exact so great profits from its customers, and in this way alone they have deprived both Europe and America of many

United States exports will attain to, it is anticipated, \$2,000,000,000 by the end of the year. This figure has been made possible, of course, by the country that has hitherto held the blue ribbon for exports, Great Britain, whose ships have been otherwise employed.

No doubt the way the country that has hitherto held the blue ribbon for exports, Great Britain, whose ships have been otherwise employed.

made possible, of course, by the country that has hitherto held the blue ribbon for exports, Great Britain, whose ships have been otherwise employed.

L. No doubt the war needs of the allies figures largely in the export tables.

CHILEAN PRICES GO UP.

The high cost of living is felt in Chile and fig and barley coffees have been placed on the market as suivstitutes for coffee. Their low price is making them popular in Santiago, the capital of the republic, and this economy is practised thruout the country at large.
