THOMAS DEFENDS LABOR'S CHALLENGE TO CONSTITUTION

President of British Trades
Union Congress Explains
Council of Action.

EXPECTS HARD WINTER

Portsmouth, Eng., Sept. 6.—The
Trades Union Congress, at which it
was expected many grave industrial
questions, including the coal crisis,
would be considered, convened here
this morning. It was attended by
more than 950 delegates, representing
6,500,000 workers.

One of the earliest acts of the
congress was the adoption of a res-
olution expressing "horror and indignation"
at the government's attitude
in the case of Lord Mayor Mac-
Swiney of Cork, and declaring that
labor "will hold the government re-
sponsible" for the death of the lord
mayor.

The resolution reads:

"This conference, representing 6-
500,000 organized workers, views
with horror and indignation the gov-
ernment's decision to allow the lord
mayor of Cork to die. We wish to
remind the government that rebellion
is first preached by those who are
condemning to death all others who
are fighting for the freedom of their
country. We, in the name of the
whole organized labor movement, will
hold the government responsible for
the death of the lord mayor of Cork
and remind them that such blind stu-
pidity will render reconciliation be-
tween Ireland and England almost
impossible."

James Henry Thomas, in his presiden-
tial address, justified the Council of Ac-
tion. He said that labor's course was
bold, that it challenged the constitution
there could be no doubt, and that such
change of method required an explana-
tion.

"Labor," he said, "gave an organized
expression to public opinion, and frustra-
ted the desires of those statesmen who
would drag this country at the tail
of foreign imperialistic policy, even at
the cost of war."
The council was called into being, he
added, for "the complete independence
of Poland and Russia."

TORONTO ENJOYED LABOR DAY HOLIDAY

Ideal Weather Contributed to
the Pleasure of Thousands
of Citizens.

Favored with ideal weather condi-
tions, Torontonians were out in their
many thousands yesterday, bent on
enjoying all the good things which
were offered for their comfort and en-
joyment on Labor Day. The Exhibi-
tion, of course, proved the greatest at-
traction, and the crowds commenced
their pilgrimage to the world's great-
est annual exhibition at an early hour,
and long before many thought of va-
cating their sleeping quarters, many
thousands were entering into the joys
of the fair. As everyone knows, there
is practically no limit in these exten-
sive grounds to the number of enter-
tainments, as well as instructive and
sight-seeing possibilities, and the huge
crowds did not spare themselves in
their endeavor to crush into the space
of one day all that could be seen. In
other columns the doings of the day
at the Exhibition are more fully dealt
with.

Steamboats Busy.
For those who preferred to enjoy a
day's outing on the lake, the splendid
service of the steamboat companies
was taken full advantage of. All the
outgoing steamers carried full comple-
ments of passengers to Hamilton and
Niagara Falls.

The theatres attracted vast num-
bers, and full houses were the order
of the day and night. Many found
they could not be accommodated, and,

MESOPOTAMIAN ARMORED TRAIN IS WIPED OUT BY INSURGENTS

Train Crew, Including Two British Officers,
Inflicted 500 Casualties on Enemy
Before Being Overpowered.

London, Sept. 6.—A Mesopotamia communique received by the war office
today, says that the garrison of the camp at the St. Mawas railway station,
previously reported as besieged, was withdrawn to the town of St. Mawas on
September 2.

In the course of this operation an armored train broke down and was
ruined by 4,000 insurgents. The train crew made a resolute defense, and are
reported to have inflicted 500 casualties on their assailants, but were finally over-
powered, and are reported missing to the number of forty, including two
British officers.

A field gun, a Lewis, three machine guns and forty boxes of ammunition
were lost with the train.

TWO CENTS

TORONTONIANS HURT IN WRECK IN GORGE

Of Seven Persons Injured Six Are Toronto Residents —
Scores Leap From Trailers When Collision Is
Seen to Be Inevitable.

Niagara Falls, Sept. 6.—Seven persons were injured, none seriously, this
afternoon, in a collision of two trains of trolley cars in the Niagara Gorge. Scores
of other passengers on the rear trailers of one train saved themselves
by jumping when they saw the other train bearing down upon them.

A break in the trolley line caused the first train to stall. The second train
rounded a curve and bore down upon the stalled train. Two trailers on the
first train were buckled up by the force of the collision.
All but one of the injured were from Toronto.
The injured are:
Mary Davidson, 24 years old, 31 Mount Pleasant road, Toronto.
Mollie Cameron, 19 years old, 54 Lewis street, Toronto.
John Pollock, 30 years old, 555 Gladstone avenue, Toronto.
Mrs. Oscar German, 40 years old, Leighton, Pa.
William Edgerley, 34 years old, 312 Montrose avenue, Toronto.
John Cowey, 23 years old, 218 Dovercourt road, Toronto.
Mrs. M. Cowey, 31 Albermarle avenue, Toronto.

FOOD IS DAILY OFFERED LORD MAYOR OF CORK

Is Still Desperately Hungry, But Turns His Head Away —
Denied That He Is Given Sustenance—Is
Noticeably Weaker.

London, Sept. 6.—At 9 o'clock to-
night, Lord Mayor MacSwiney was
still living, but his weakness was in-
creasing, and the prison doctor sug-
gested to his relatives that he be not
allowed to converse because of the
weakness of his strength. On leaving this
evening, his wife said: "Our only
hope now is in America. Apparently
labor in England can do nothing for
us."

On leaving the prison tonight, Father
Dominic reported: "Lord Mayor
MacSwiney is fading away. The altera-
tion in his countenance since my visit
this afternoon was very noticeable."
Press today by Father Dominic of the
Franciscan Capuchin Order, Mayor
MacSwiney's private chaplain.

Every morning food in some form or
another is brought in by the prison
authorities and offered to the starving
prisoner, in the hope that his almost
uncontrollable craving will master him,
and that he will be tempted to eat.
Every morning there is the same end,
to the act—MacSwiney, who is too
weak after a spoken refusal, crushes
his desire and turns his head away. So
it has gone on until the twenty-fifth
day of his hunger strike has been
reached.

There have been many rumors that
MacSwiney was being given susten-
ance in drinking water or otherwise.
This is indignantly denied by rela-
tives and friends, and the Associated
Press was further informed in an
authoritative quarter today that the
prison authorities have not given the
lord mayor any food in this manner.
Father Dominic also denied that the
prisoner was being fed, and added:
"Altho some people say that the
desire for food disappears after a few
days' abstinence, it is not so in Mac-
Swiney's case. He is still hungry,
but refuses to take anything altho it
is brought to him regularly."
The lord mayor looked pale, drawn
and haggard this morning when I
visited him in the prison, and the
administered the usual sacrament,
and the local rumor that he received
the last sacrament today is not
dissimilar and is only able to speak
in short gasps, owing to difficulty
in breathing, and any attempt at con-
tinual conversation is impossible."
Lord Mayor MacSwiney is in the
same room as was occupied by Sir
Roger Casement before the latter was
transferred to the tower. It is a large,
airy dormitory with seven beds, and
there is a day and a night nurse in
attendance. The prison is situated at
the end of a short lane leading from
the main road. This main entrance is
guarded by several police, who refuse
to admit any but relatives to the in-
mates or those holding official per-
mits.

OPPOSING WIGMORE UNEXPECTED MOVE

Action of St. John Liberals
Causes Surprise to Ottawa
Politicians.

Ottawa, Sept. 6.—(Canadian Press.)
—News of the nomination of Dr. A. F.
Emery as Liberal candidate to oppose
Hon. R. W. Wigmore in the St. John
by-election on Sept. 20 was received
with some surprise here. It was
thought that Mr. Wigmore would re-
ceive an acclamation as there ap-
peared little prospect of a Liberal
candidate entering the field. In gov-
ernment circles the opinion is that Dr.
Emery will not prove a formidable
candidate. It is pointed out that he
was at the foot of the poll in the last
general election—when three candi-
dates were in the field, and in a
straight fight against Mr. Wigmore,
he is conceded little chance.

GEN. WRANGLER EVACUATES THE TAMAN PENINSULA

most of his landing expeditions on the
sea of Azov and elsewhere have failed.

OUTRAGE IN DONEGAL

London, Tuesday, Sept. 7.—A de-
spatch to The London Times from
Viege, Switzerland, quotes David Lloyd
George, the British prime minister, as
saying that if guarantees are given
that the murder of policemen in Ire-
land will cease, the premier is con-
vinced that Lord Mayor MacSwiney
and the other hunger strikers will be
released from prison.

Other special despatches tend to
confirm the interview printed in The
Times.

Dublin, Sept. 6.—A band of men
disguised as soldiers descended today
upon the town of Belleek, County
Fermanagh, in motor cars, gained en-
trance to the police barracks, held up
the police with revolvers, locked them
in an outhouse, captured all their
arms and burned the barracks. Sev-
eral of the police were attending church
service at the time and a detach-
ment of the raiders fastened the
chapel door, looking in the congrega-
tion, so as to prevent assistance from
that source.

The dead and injured were mem-
bers of a party of tourists just com-
pleting a tour of the cave. With a
guide leading, the party was in the
middle of one of the four bridges in
the cave when the slide came, its
noise drowned by the roar of the cat-
aract. The guide was not touched by
the slide and his first intimation of
it came from the screams of the
women in the party.

To recover the bodies of the dead
it was necessary to take a row boat
from the Maid of the Mist steamer,
which had been run up as near as
possible to the falls and cave. It was
a hazardous venture, but the row
boat crew finally brought the bodies
out of the pool and regained the
steamer.

The accident is the first of the
kind that has occurred in the cave
since the first stairway was built in
1888. There have been slides before,
but only in the winter or early
spring.

WERE SOON TO WED.

Pittsburg, Pa., Sept. 6.—Clara M.
Faust, Pittsburg, who was killed to-
day by a fall of rock in the Cave of
the Winds under Niagara Falls, and
T. W. Lee, who was injured, were to
have been married within a few
weeks, relatives of the dead girl said
tonight. Miss Faust and Mr. Lee,
he said, had left Pittsburg last
Saturday to spend the week-end and
Labor Day at the Falls. Miss Faust
was 25 years old.

NINE PEOPLE DIE IN HOTEL FIRE

Klamath Falls, Oregon, Sept. 6.—
Nine charred bodies had been recov-
ered at noon today from the ruins of
today near Ballymoyers, County Cork.
The lorry was attacked by a large
body of civilians. The escort, however,
drove off the assailants, two of whom
were killed and three wounded. The
military suffered no casualties.

ARREST DRIVER IN FATAL CAR SMASH

Charge of Criminal Negligence Is Preferred in Oak-
ville Fatality.

William H. Jones, 30 Balmuto street,
was arrested last night by Detective
Levitt for the police of Oakville, on a
charge of criminal negligence.

Jones is alleged to have been driv-
ing a motor car which collided with
another car on the Hamilton highway,
Sunday, resulting in the death of Mrs.
Louisa Stefani, 187 Garden avenue.

Mrs. Stefani was driving in a car
with her son-in-law, O. A. Castrucci,
of West Bloor street, when a car
driven by Jones struck Castrucci's
car, hurling it against a fence. Mrs.
Stefani was so seriously injured that
she was dead when her body was lifted
from the damaged motor car.

IN THE LABOR DAY PARADE

Probably the most pleasing feature of the demonstration to the majority of spectators was provided by the Toronto firemen. The men looked extremely natty, and the engines and reels in the parade were spotless.

TWO ARE INJURED

Niagara Falls, N.Y., Sept. 6.—Two
women and a man were crushed to
death and two men were injured this
afternoon when a slide of shale forced
out a bridge leading to one of the
stairways in the Cave of the Winds
under Niagara Falls. A hundred or
more tourists who were in the cave
at the time had narrow escapes,
many being bruised and cut by the
falling rock.

The dead are: A. Hartman, 4418
Avenue P, Brooklyn, his wife, Louise
Hartman; and Clara M. Faust, 2658
Norwood avenue, Pittsburg.

The injured are: T. W. Lee, 44
Souk 22nd street, Pittsburg; and
Frank Haehling, 83 Clarendon ave-
nue, Detroit, Mich.

The dead and injured were mem-
bers of a party of tourists just com-
pleting a tour of the cave. With a

ACCUSE THREE MEN OF SHOPBREAKING

Ten Cases of Paint Alleged to
Have Been Ready for
Removal.

Three men were arrested at 5.15 last
evening, as they were leaving the
premises of the Canada Paint Com-
pany, 1 Leslie street, by Inspector
Detectives Guthrie and Policeman
Walsh, on charges of shopbreaking.
Ten cases of paint had been pilfered by
the doorway in readiness to be remov-
ed in a truck, according to the police.

John O'Brien, 38 Allen avenue;
Thomas Williams, 20 Sackville street,
and Herbert Cadrot, 184 Sumach
street, are being held on charges of
shopbreaking. William Reburn, 172
Curzon street, the fourth man in the
gang, is being held on a charge of be-
ing drunk.

William Collins, watchman of the
factory, was making his rounds when
he discovered that a sash on the win-
dow of the paint shop had been remov-
ed. On looking into the shop he
claims to have seen the three men
carrying a case of paint.

Collins hurried to a telephone and
informed the police of Pape avenue
station. Inspector Guthrie was in the
station at the time, and he motored to
the foot of Leslie street in time to
meet the men coming out of the build-
ing.

Joe's Chiming Bells!

Joe: You must appreciate, Mr. Mayor,
how much unhappiness Adam Beck causes
to our good friends who put money in
Montreal power companies.

Tommy: In what way?

Joe: Just think! If Sir Adam makes
public power cheap and plenty, the peo-
ple of Quebec may follow the example of
Ontario.

Tommy: Well?

Joe: If Quebec got cheap public power,
the private companies would have to sell
at the same low rates or offer their plants
to the province of Quebec on the bargain
counter, and the two provinces would be
flooded with cheap power.

Tommy: But cheap power would be a
blessing.

Joe: Not to the capitalists who did the
planning and think they ought to do the
profiteering. There is no money in new-
papers unless you can double the price.
Adam Beck is a menace to everyone but
the people. That is why we are asking
Premier Durney, in a round-about, institu-
tional way, it is true, to put Mister Beck
where he belongs. The Globe is coming

Tommy: Yes, he chimes like Sam. So

BROOKLYN STRIKERS CLASH WITH POLICE

One Was Shot and Several
Others Were Injured in
the Fracas.

New York, Sept. 6.—Brooklyn
Rapid Transit Co. strike sympathiz-
ers, returning from a Labor Day
celebration in Prospect Park, Brook-
lyn, late today attempted to crush a
Platibus avenue car manned by
strikebreakers, and clashed with the
police. One strikebreaker was arrested
and taken to a hospital, and several
others were injured. Two hundred
police reserves were rushed to the
scene and quickly dispersed the crowd,
using their night sticks freely. Thir-
teen arrests were made.

The clash occurred when strike
sympathizers attempted to board the
car. Police detectives, riding in an
automobile behind the car, warned
them to keep away, instead a rush
was made for the car and several
stones were thrown at the crew and
at the detectives, who drew revolvers
and fired over the heads of the
crowd. A pitched battle followed,
which ended only upon the arrival
of the reserves.

Services on the lines of the B. R. T.
today was declared by public service
commission inspectors to be equiva-
lent to that ordinarily provided on a
light Sunday. The maximum number
of cars in operation was 483, which is
said to be 30 per cent. of the normal
summer Sunday and holiday service.

UNVEIL MONUMENT TO GEORGE CARTIER

Hon. L. A. Taschereau Officiates at Quebec Ceremony—Tribute by Premier.

Quebec, Sept. 6.—(By Canadian Press.)—The unveiling of a monument to the memory of Sir George Edmund Cartier, one of the most distinguished fathers of Canadian Confederation, here today was marked by a noteworthy ceremony, which will go down in history as a striking event in the political annals of Canada.

Considerable significance was lent to the event by the presence side by side on the platform of Hon. Arthur Meighen, prime minister of Canada, and Hon. L. A. Taschereau, prime minister of the province of Quebec, as well as His Eminence Cardinal Bégin, archbishop of Quebec, and the Very Rev. the Dean of Quebec, representing the Lord Bishop of Quebec.

A detachment of the 22nd Battalion formed a guard of honor for the occasion, commanded by Major Dupuis, while the R. C. G. A. band was also in attendance under the direction of Captain Charles O'Neill.

The monument has been erected on the site of the old parliament buildings, and a stand was erected adjoining it, from which the various speakers addressed the large crowd assembled for the occasion.

Mr. Victor Châteaufort, president of the local committee, presided, and it was Hon. L. A. Taschereau who unveiled the monument. The speakers of the occasion were Mr. Victor Châteaufort, Hon. L. A. Taschereau, Hon. Judge L. P. Pelletier, Hon. Arthur Meighen, His Eminence Cardinal Bégin, Dean Schreive, Hon. Antoine Gauthier, minister of public works, Ferdinand Roy, K.C., baronet of the Quebec bar, C. H. Cahon, K.C., E. W. Villeneuve and Hon. C. J. Doherty, minister of justice.

There was a distinguished gathering of invited guests on the platform, and the stirring speeches delivered by noted speakers were enthusiastically applauded.

ENGLAND MEETING HOUSING PROBLEM

Viscount Cave Reports Situation Being Dealt With Satisfactorily.

Winnipeg, Sept. 6.—Viscount Cave, who is a visitor here, in an interview stated that "Canada's status as a nation as a result of her place in the League of Nations, is entirely acceptable to the British people, and the general feeling in England is one of extreme friendship of Canada. They are desirous of seeing Canada secure her full rights as a nation at the same time co-operating to the fullest extent in making the British Empire secure."

Recovering from the War. Viscount Cave said England is fast recovering from the war. The housing problem, which for many months has been an acute one, is now being handled to the general satisfaction of all, he said, but it would be some time, he declared, before a sufficient number of houses would be available. Labor troubles have been prevalent but the government has been generally successful in settling them satisfactorily, he declared. The transport workers' strike was a deliberate attempt to hold up the country, but this danger had been averted.

THIEVES ENTER BANK OF COMMERCE BRANCH

Thieves broke into the Bank of Commerce local branch at Birch Cliff between the hours of 3 and 6 a.m. yesterday, and forced open the safe. No money was found and apparently nothing was stolen. The men entered the building by cutting the panel and removing the bars from the back door. The local police were notified by neighbors, but the men are still at large.

FACTORIES HELD BY METAL WORKERS

Confederation in Milan Says Their Movement Is Fully Justified.

Milan, Sept. 6.—The representatives of the General Confederation of Labor, and the "committee of action" of the Metal Workers' Federation and Trades held a meeting today at which it was decided that the movement organized by the Metal Workers' Federation was justified.

The delegates promised to assist in adjusting the dispute, but hope was expressed that the employers would not adopt an uncompromising attitude which would compel all workers to make common cause with the metal workers.

A meeting of the executive committee of the Federation of Labor will be convened September 10. In the meantime, workers are in possession of virtually all metal establishments in Italy. They are also rejecting claims from employers for last week's wages, which were refused because of the possession of the shops. Strikers at Turin, the despatch says, have announced that if troops are used in an attempt to drive them out of factories, they will wreck the machinery.

Italian metal workers, says a Rome despatch, to The Herald, organ of labor, have decided that all factories which deny them necessary materials will be occupied. The despatch quotes the Rome newspaper, Avanti, as saying: "If the government interferes, a general strike will follow."

EDITOR OF LONDON FARMER DECLARES CANADIAN STOCK NEVER REFUSED ENTRY.

Winnipeg, Sept. 6.—(Canadian Press.)—"We have never refused to admit Canadian cattle to Great Britain," said J. S. MacDonald, editor of The London Farmer and Stock Breeder, discussing the embargo on cattle stock in Great Britain, "but we prescribe the conditions under which they are accepted. We insist that imported cattle shall be gotten ready for slaughter."

"It is not implied that there is an American embargo on the British market, but it has now become a settled policy from which stock owners have gained much confidence and the industry is being reassured more power. I see in the newspaper press frequently used as a headline, 'Let me say that there is no special embargo. The not in a fat state and from whatever source outside of the British Isles.

"It is difficult to realize the conditions on the other side to realize the importance of our live stock resources. Fattening is a small industry by comparison, but its importance is not to be minimized, very little and destined to be local would be the support given to a suggested change of policy.

"The power to regulate imports is taken under the diseases of animals act, but it is the main statute bearing on the subject, but it is a completely unjustified inference that all store sheep and cattle included must necessarily be under a cloud of suspicion."

EXHIBITION CROWD IS BIGGEST KNOWN

(Continued From Page 1.)
Remarkable Spectacle.
One of the most remarkable spectacles presented was the sea of human beings within the grand stand enclosure. All the reserved seats had been sold out early in the day and the 17,000 chairs were occupied before 6:30 o'clock, and the lawn was crowded almost to capacity before 7:30. It was estimated that 30,000 people had seen the performance from the enclosure. Certainly such a crowd was never seen before on the lawn.

Owing to the pressure of work on the farms, the attendance of farmers has not been so large so far this year as in former years, but the big end of the live stock exhibition comes this week, and the rush from the rural districts may be expected to improve.

Today is "American Day" at the Exhibition, when recognition will be given by the board of directors to the support which the annual fair receives from the United States. Each year has seen a big growth in the attendance from across the line, and thousands of Americans already in Canada for the holidays, there is likely to be a still heavier invasion this year.

The handling of Monday's big crowd was a more than ordinary task for the Toronto street railway, and with the help of the police force, the job was done quite well. Of course, not fifty per cent. of the people patronizing the street cars had new supplies to arrive or leaving the fair, but with so many thousands to be transported in a few hours, this could hardly be expected. Most of the cars will seat only about five to six persons, and the average load on cars arriving and departing from the grounds all day was well over one hundred.

A World reporter checked up several arriving at the eastern gates between 11 and 12 a.m. and the tallies ran from 114 to 127 per car. A check extending over half an hour at the Dufferin street exit, showed the P.A.Y.E. cars loaded in about 70 seconds, and the others in about 55 seconds. There were ticket takers on the front of all the P.A.Y.E. cars, and passengers entered at both ends.

Sixty-six cars, including thirteen trailers, were sent away from the Dufferin street exit in 20 minutes at the early stage of the rush before nine o'clock. A similar check on the eastern exit around 10 o'clock showed 48 loaded cars dispatched in 30 minutes. The space at the eastern entrance permits the loading of four cars at once, but it was noticeable that longer time was taken here to get the cars full. In fact, except at the high tide of the rush, the people were taken away as fast as they arrived, while there was always a considerable wait at the western entrance. The World's check indicated that persons going up Bathers street or to the eastern part of the city, would get away quicker by going to the eastern exit, and the distance to the car is really no farther from the central part of the grounds than to the western exit. Based on the half-hour tally, it is estimated that about four thousand motor cars handled probably fifteen thousand Exhibition visitors yesterday.

PRISON DOCTOR THREATENED

Dublin, Sept. 6.—The acting medical officer at Cork prison, it is officially announced, received today a letter signed "one of the first brigade of the Irish republican army," ordering him to leave the jail forthwith and the country within 24 hours, as his professional attendance on the hunger strikers "gives a tinge of legality to the slow murder perpetrated upon them."

In the accompanying statement from Dublin Castle, the government emphasizes its sole responsibility, and says that the doctor had recommended the release of the prisoners on medical grounds, which the government could not accept, and that the doctor's responsibility was confined solely to medical measures.

TALK OF REVISING TIMISKAMING COURTS

Public Service Commission Urged to Use Magistrates, Not Justices.

Halifax, Sept. 6.—Police courts in Timiskaming should be administered by paid traveling magistrates, devoting their full time to their duties, and should not be handled by justices of the peace, the Ontario Public Service Commission was told at the hearings this body held here today. Magistrate Atkinson, of Halifax, and Dempsey of Coburn, agreed on this point, and they had the support of Crown Attorney Smiley, Tom Magliadery, M.P.A., and other witnesses. Both magistrates thought two of them could handle the district, but Mr. Magliadery would divide the country at Fortcup and appoint three magistrates, two of them for the southern section.

There are 75 J.P.'s in the district, of whom only 11 have handled cases within the past two years, according to the crown attorney. The crown attorney was of the opinion the grand jury could be abolished, claiming its "duties do not warrant the expense," and he would bring all cases before the assizes as a matter of course.

A district jail was urged for Timiskaming, instead of using the Nipissing jail at North Bay and the claims of the Children's Shelter were urged by Mayor McAulay and License Commissioner Smith.

KITCHENER-WATERLOO STAGE FINE PARADE

A full program of sports was run off, several bands providing musical programs. Basket lunches were served to all. The picnic was the largest that has ever been held in the Twin City district. The picnickers were welcomed to Waterloo by Mayor Rohlander, who is prominently identified with the Waterloo Labor Club, under whose auspices the event was held.

See the Demonstration of the "Vacuum" Oil and Gas Saver

It will be of interest—that's if reduced gasoline consumption and the saving of oil are of concern to you.

The "Vacuum" oil and gas saver instantly stops all oil leaks, regardless of the condition of engine gaskets.

And produces the maximum economy in gasoline without the addition of expensive carburetors.

The "Vacuum" oil and gas saver saves oil by maintaining a partial vacuum in the crank case, sufficient to hold the oil and prevent it from leaking out through bad gaskets and around the front bearing.

It also keeps oil to front connecting rod and main bearing. These are always the first bearings to cause trouble and the installation of this device will entirely eliminate this trouble as far as lubrication is concerned.

The "Vacuum" oil and gas saver creates additional vacuum at the needle valve, which makes it possible for the needle valve to be turned at least one-third and frequently three-quarters of a full turn from its original running position.

Kingston and Holley carburetors, which are standard equipment on all Ford cars, are transformed in this way from "open" type to "vacuum" type carburetors.

And also note that there's also a demonstration of "Primolite" lens, with new holding feature, which insures lens being held in correct position—now going on in the Auto Accessory Section, Fifth Floor, Main Store.

THOUSANDS VIEWED FINE PRIZE BABIES

George A. Cowan Sweepstakes Winner — Audrey and Eileen Bowling

"Hurray! Blue wins." This was a motto that might have been inscribed on a pennant and hung high in the dairy building yesterday at the Exhibition. When the returns of the judge in the baby show were announced, blue is the symbol of hope and optimism. So uniform was the fact that blue in some way was connected with the prize babies, that it would almost seem as if the wise mothers and the cute tots themselves were versed in the science of things that bring luck in their own way.

George Albert Cowan, of 158 Shaw street, the handsome sweepstakes winner, had beautiful blue eyes that looked wisely at the strange doings going on, wondering what they were all about. George is a real Saxon, with fair hair standing up in curls about his well-shaped head, and with the pink cheeks and sturdy little limbs that tell of health. When Dr. King took George in his arms and carried him about the circle of the dairy to show him to see the conqueror, the young monarch of the ring took the honors smilingly, but without any undue elation at his success. He was evidently accustomed to being considered lord of all he surveyed. Of many strong points in his favor, the intelligent blue eyes of George were probably a strong winning asset. His mother, too, wore a blue dress. So much for the sweepstakes.

Three Sets of Twins. Three sets of twins were in the first class merit. So much so that Dr. King, the senior judge, declared that in the last five years there had not been occasion for such close competition. The babies were considered singly and collectively by the doctor-judges, who stood in a group, their red ribbon badge showing this office, and the earnestness with which they considered their problem was written in their faces. At one end of the row of babies sat a young fair-haired mother, who had blue eyes and wore a blue sweater. The twin girl on her knee had blue eyes and was also wearing a blue sweater, and it was the same in the case of the other two sets of twins. When judgment was given, it was the blue-eyed babies, well-shaped heads, pretty features, and attractive expression and the mascot in the shape of blue eyes and sweaters that were held up to the gaze of the crowd. Their names were Audrey and Eileen Bowling, twin girls of Mr. and Mrs. Bowling, of 59 Valley road, East Toronto. They were the prize winners, and as the mother expressed it, the twins are "like one another" to their toes.

Disappointed Mothers. It was hard for the other mothers to see their beautiful pets outshone by someone else, but they were game and one whose fine brown-eyed babies that had come to her as a gift on Christmas day, looked up bravely as the winners were shown and while tears shone in her eyes with disappointment she was magnanimous to say, "they are beautiful babies." By the way, this brown-eyed pair were the only breast-fed babies shown in the two classes and for some time this fact held weight with the judges. Dr. King announcing that this was what they wanted to encourage. Other points, however, in the winning babies overruled even the points in favor of the brown-eyed twins that feeding.

About 335 entries in all were made and the coming and going of the army of Canada's youngest recruits for citizenship eclipsed in interest even the Labor day parade and the hundreds of thousands of grownups. From 11 in the morning until about 12.15 watching went on in a tent opposite the dairy building. The proud mothers brought their most precious treasure and handed it over to that old friend of the babies, C. H. Collins, since there was a baby show, "as he puts it, has placed the sometimes quivering, crying or quite delighted bundle of baby and pretty clothes upon a flag-covered basket and then handed it back to the mother while the ticket for reference when the other steps in the judgment took place. Seven nurses from the Victorian Or-

der assisted this year—a much increased number to this Mr. Collins attributed the fact that the weighing was got thru in less time and much more expeditiously in every way than in former years. Outside the tent, where the weighing and measuring was done, was one still larger, where the babies were taken to the dairy building. Here were seven doctors, a dense crowd of spectators and several policemen who kept the surgeons and interested flood of humanity from breaking in over the ropes and inconveniencing the mothers and their babies.

The Sorting-Out Process. To examine and inspect nearly four hundred hot, restless little ones was no easy matter, but Dr. King and his assistants succeeded in drawing not a few smiles as they went from babe to babe, eliminating from every class until half-dozen or so were left in the "finals." The experience gained thru 13 years of practice at the Exhibition has made some of the doctors very expert in forming a judgment, and their decisions are accepted without a murmur. On the whole, the babies were announced to be "a fine lot" and doubtless the annual competition is an incentive that helps even mother-love in doing the best possible for the health and best welfare of young Canada. Assisting Dr. Edmund R. King were Doctors F. C. Harrison, Allan Adams, M. P. Crawford, E. C. Hodgson, A. H. Percival, and J. McCollum. The points considered were: healthy appearance, good looks, methods of feeding, breast feeding v. artificial feeding, absence of physical defects—especially as to rickets, cleanness, neatness of attire, proportion as to height, weight, circumference of head and chest.

The Prize-Winners. The following is the list of prize-winners:

THAVIU CAPTURED HEART OF AUDIENCE

Splendid Musical Programs Provided for Exhibition Crowds Labor Day.

Right into the heart of Labor Day multitude went Thaviu and his fine musical organization when they took possession of the main band stand at the National Exhibition yesterday. They were received by a record-breaking audience, who filled the seats, sat on the grass up to almost the edge of the stand, and stretched out, standing in great numbers, in which dramatic pause is as effective as artistic execution of notes. When Thaviu conducted, his whole body came into motion. His expressive face showed a magnetic quality, and his eyes gave the impression that he was looking into the eyes of every listener. He was a capable unit of an admirably artistic combination.

Thaviu, who has won honors galore in the neighboring republic, and who was the only conductor commissioned to play a return engagement at the National Exhibition yesterday, was a magnetic leader, and gave an electric battery to his men, whom he can work up to tremendous, thunderous fugues and climaxes, or lead thru delicate passages, in which dramatic pause is as effective as artistic execution of notes. When Thaviu conducted, his whole body came into motion. His expressive face showed a magnetic quality, and his eyes gave the impression that he was looking into the eyes of every listener. He was a capable unit of an admirably artistic combination.

The organization also comprises a trio of singers, who from the World had the pleasure of hearing at their first appearance. Lillian Cummings, the soprano, has a high, clear, vocal quality, and her voice was given us the highly-colored compositions of Russia to enrich modern repertoire. They are also old friends and leading soloists—Thaviu with the cornet and Wolf playing the baritone. In the programs for the week will be found compositions from Verdi, Gounod, Tchaikowski, Liszt, and other composers, as well as many popular numbers.

A BIRDSEYE VIEW OF CANADA.

The huge topographical map of Canada, one feature of the Canadian National-Grand Trunk exhibit at the fair, is attracting many visitors to the railway building. Occupying over a hundred feet, it makes a very instructive display, graphically illustrating the extent of the twenty-three thousand miles of the National System of Railways. The background of the map depicts the mountains, lakes and rivers and is in colors, the line of the railways being shown in a broad band of red. The names of the important cities are illuminated, and by an ingenious arrangement of flashing lights the observer is taken, in fancy, on a transcontinental tour from Halifax and the Sydney on the east, thru the principal cities and the capitals of each of the nine provinces, to Vancouver, Victoria and Prince Rupert on the west.

Adding considerably to the interest of the exhibit is the indication on the map of the growth of Canada's merchant marine. The fleet of sixty-six vessels is pictured, and the many routes from Montreal, Halifax, St. John and Vancouver are charted on a map of the world, which forms the background of the exhibit. The exhibit contains a series of maps showing Canada's effort in giving an idea of the growth of the country and the throngs of people who view it daily are the best evidence of the interest it has created.

THE PURITY FLOUR BOOTH

This is an especially interesting display in blue, with white trimmings and special lighting effects, located in the main aisle of the manufacturers' building.

The central part of the booth illustrates the wonderful progress in flour milling from ancient Egyptian times to the 4500 B.C., pictured on a mysterious miniature stage, showing the woman of early Egypt laboriously grinding flour with the ancient saddle stones. Progress in milling to 500 B.C. is shown on the same stage, in the scene of early Roman milling, and the donkey-driven mill is shown producing flour.

The Purity Mill directs attention to the great progress in flour milling, as exemplified in the handsome reproduction of several of the company's massive modern mills, with a total daily capacity of 100,000 bushels of flour. The deep blue of the booth lends itself to the display of the company's extensive advertising signs and hangings of all kinds.

BEAVER RESTAURANT.

Beaver Restaurant maintained its high reputation on Saturday, when the Exhibition was visited by the largest gathering of the season. It equally maintained its reputation yesterday, when the crowds sought to beat the record attendance of 189,000 made last year. There are many eating houses which can lay claim to being airy and clean, but there are very few which can lay claim to hospitality in its best sense as evidenced in service with heart attached thereto. This is accomplished by the Beaver Restaurant, and forms one of its greatest assets, giving it a psychological touch which other houses will find hard to beat.

WOMEN'S INTEREST AROUSED

One of the exhibits which is attracting the attention and interest of large numbers of women at the fair is that of McDonald & Wilson, Limited, in the new electric building, where the Trojan Electric Washer is being demonstrated. The Trojan is a household help, and is being used by these washers are in use daily in this city. But the really wonderful way in which it solves the laundry problem for any home shows what a blessing electricity has become in lightening the heavy tasks of housekeeping. Electric washers are as rapidly superseding the tub and washboard as an electric light has the coal oil lamp, and the Trojan shows to what a high state of perfection electric washers have now been brought.

EXHIBITION NOTES

This is American day at the Exhibition. One thing sure—we shall be able to show our cousins from over the border how to run a really great "Exposition."

George Albert Cowan, a blue-eyed baby dressed in blue—his mother similarly attired—won the blue sash at the Exhibition Baby Show yesterday. It was no "blue Monday" in the ordinary acceptance of the term for the Cowan family.

Manager J. G. Kent was well pleased with the efficient manner in which the Labor Day sports were conducted, and he handed out the following bouquet: "The Labor Day athletic meeting was a credit to the Exhibition and to the men in charge of the Labor Day sports. Because of the splendid program it was felt that they could not be run off in the time allotted. It was necessary that the sports be over by 4.45 in order to allow in the great crowds lined up waiting for the evening performance. They were run with speed and precision by Secretary Ralph and the capable committee in charge and the program was over on the minute. We never had a better handled set of sports and labor must be congratulated."

There were thousands of Americans in yesterday's crowd, many of them being summer visitors at the Canadian resorts while others were here just for the day. Four special trains came from New York and two from Cleveland, loaded with Exhibition visitors.

THOUSANDS EAT AT MUMBY'S.

To handle thousands of patrons and send them away happy and satisfied, the surprising and accomplished yesterday by J. A. Mumby, who conducts the first-class restaurant under the west end of the grand stand. Full course meals of admiring listeners, were served and appetizing in their entirety, were enjoyed by thousands yesterday, and as many more were served at the cafeteria. The prices brought her again to the front of the Exhibition is fortunate in having Mumby at the fair.

BIRD'S BIG DAY.

Yesterday was a record-breaker at Bird's Restaurant. Thousands enjoyed a full course meal, and admiring listeners were overheard, complimenting the management on the quick service, good menu and exceptional value obtainable.

SPLIT IN RANKS OF LABOR MARS SUCCESS OF PARADE

Marchers Number Only About 2,300, But Many Attractive Floats and Plenty of Music Please Crowds—Taggers Busy Collecting Funds on Behalf of James Simpson.

It would appear that labor men yesterday concentrated on the success of the Exhibition features of their program rather than on that of the preliminary parade. Whatever the cause, however, the annual march was somewhat of a disappointment, only 2,340 parading as against about 6,000 who marched last year. Labor officials expressed the belief that statements made by the committee giving publicity to the possibility of strife in the parade deterred many of the more moderate unionists from taking part. In details other than attendance the parade may be described as excellent those of former years. The floats were particularly well designed and more than 200 floats of all kinds were featured. Wars and rumors of wars regarding the Simpson defence fund failed to materialize, nor were there any disturbances to mar the procession.

The Simpson defence fund was active during the whole morning. Women workers canvassed the crowd with tags in aid of the fund, and banners in the parade besought the support of the public and declared that the fund was a "booster for Labor." It was noted, however, that many of the labor men did not respond to the appeal of the taggers.

General Marshal H. E. Oakley succeeded in starting the public utilities section of the parade shortly after 10 o'clock. The civic employees followed and were in turn succeeded

by the street railwaymen, the postal clerks and railway carriers, the street-railwaymen, the printing trades, the miscellaneous trades, and the building trades. Probably the feature sections of the parade, were the firefighters in their trim uniforms and the stationary and hoisting engineers in their shop overalls. The latter carriers also appeared in uniform and maintained a martial bearing to the strains of the band music. The floats were attractive, both for their novelty and general interest. The postal employees reproduced skillfully an ocean mail steamer and also mounted on the department trucks with a model house at the door of which the postman was shown delivering his mail. The civic employees featured their section with an exhibit of the wagons constructed by the department of street cleaning, a scene showing the street cleaner in action, and a manual training display from the education department. There was also in this section several excellent floats depicting the work of the parks department. The electrical workers mounted a mammoth float representing an overhead telegraphic construction, and occupying on of the largest floats in the parade. The marshals mounted on horseback were one of the usual features of the walk, also this year's incumbents displayed an adequate knowledge of horsemanship. A pair of the marshals, however, the parade illustrated strikingly the passing of the horse, all the floats being mounted on motors.

Samuel Foster stated that the Booster Club, at yesterday's meeting held in the auditorium of the building, elected the following officers: President, Dr. Bradley-Linnett of Brantford; vice-president, Dr. E. W. Slason of Port Dover; secretary—treasurer, Samuel Foster, Toronto; directors, Messrs. B. Major, Toronto; W. T. Ferguson, Smith's Falls; J. S. Lucas, Sarnia; Charles Weaver, Merrittton; J. C. Quabury, Port Dover; C. W. Hodge, Florence.

Another well-known club which elected officers for the next year was the Rhode Island Reds Club. H. H. Doyton, superintendent of the poultry show at the Exhibition, was elected secretary-treasurer. This is a position he held for three years some time ago. Other officers elected were: President, James E. Polley, vice-president, H. B. Grainger, Calgary; second vice-president, R. W. Stewart, Newmarket. The Rooster-Rooster Club elected the following representatives: Alberta, R. D. Stark of Calgary; Manitoba, J. Davis of Winnipeg; Saskatchewan, A. A. Moreton of Saskatoon; British Columbia, Lee Barnes of Victoria, B.C.

One of the novelties of Labor Day, which proved highly amusing to kiddies and grown-ups, was the shower of paper balloons and flags, which were shot off in the air, where they soared for some time before coming to earth to be captured by one of the watchers on terra firma.

The Thaviu Band, which had been playing at the DesMoines Fair before coming to Toronto, reached Toronto three hours late yesterday morning, having had the misfortune to lose their baggage for three days. The lost, however, was found on reaching the city.

Large crowds were noted at the poultry show at the Exhibition yesterday, where nearly 6,000 birds of all descriptions and of all hues were pluming themselves for the special benefit of those assembled. Very beautiful birds were exhibited including Jacobins of strange form, fantails of many colors, Chinese owls and blue pigmy pouters—beautifully frilled,

CROWD AT "CHU CHIN CHOW." Another crowded house greeted the great spectacle play, "Chu Chin Chow," which began the second week of a record-breaking engagement at the Royal Alexandra last night.

MAY ROBSON MAKES HIT. There is as delightful a little three-act farce-comedy as "Princess" this week as has been seen in many a day. It is "Nobody's Fool," by Alan Dink, the well-known theatrical writer.

SHEA'S BRIGHT OFFERING. The holiday crowds which filled every available seat at Shea's popular Victoria street home of vaudeville at both per-

formances yesterday were amply rewarded for their patronage. The offering was one of the best and there was a moment's business from start to finish.

BILLIE BURKE AT LOEW'S. The complications ensuing from her preference for an aeroplane in place of a husband provide the basis for the photoplay, "Away Goes Franchise," featuring Billie Burke and headlining this week's bill at Loew's Theatre.

PRETTY GIRLS AT STAR. Comedy in abundance, sparkling and catchy songs and dance numbers feature the offering at the Star Theatre this week.

INTEREST AT HIPPODROME. Film fans had a treat presented to them at Shea's Teraulay street Hippodrome yesterday when "One Before Dawn" featuring H. B. Warner, was received with much enthusiasm by large crowds at all performances.

SEA WOLF AT STRAND. The pictureization of Jack London's "Sea Wolf" is the feature on the bill this week at the Strand. "Sea Wolf" is the captain of a sealing schooner, a man of violent temper who handles his crew on the principle that might makes right.

THE TORONTO WORLD. The picture shows the winner of the sweepstakes in the baby show at the Exhibition, George Albert Cowan, and his mother, of 156 Shaw street.

They are picked up by the Sea Wolf, outward bound from San Francisco on his way to the sealing grounds in the Behring Straits.

CHARMING STORY AT REGENT. "The Prince Chap," the feature picture at the Regent this week, is a charming story. Thomas Meighan is cast in the role of the "Prince Chap," William Peyton, who is first introduced as an ordinary young American schoolboy.

BURLESQUE AT GAYETY. Pleasant scope for burlesque of the highest order is afforded by "Joy Bells," the vehicle in which Al. Reeves' beauties appear this week at the Gayety Theatre.

COMEDY AT STAR. Comedy in abundance, sparkling and catchy songs and dance numbers feature the offering at the Star Theatre this week.

FIRE FIGHTERS ED LABOR DAY GAMES

Unofficial Canadian Record Made in Standing Jump by W. Beamish.

EVENTS HANDLED QUICK

Officials of the Labor Day sports at the Exhibition yesterday stated that the attendance at the sports was far above the average. Entries were large and an excellent program was listed. Firefighters were the champions of the occasion, gaining 40 of the 85 points noted by the sports committee.

The next in line were the printers, with 16 points to their credit. They came the electricians with eight points and the street railwaymen with five points to their credit.

It was stated unofficially that a Canadian record was established when Walter Beamish, firefighter, made a distance of 10 feet one inch in the broad jump. Another good performance was that of Bullock, putting the shot making a distance of 33 feet 11 inch.

The best-known men running for places were Wardrop of the West End "Y" and Charlie Kelly of the Firefighters' Union. Kelly is also a well-known member of the "Y." Al Latham was another well-known "Y" man as was W. G. Arnot. In fact, the "Y" was very well represented but the absence of the best Canadian athletes at the Olympic games "over there" prevented the entries from being as good as they might have been.

TORONTO PLAYERS TO FORE MONDAY

Some Sparking Tennis Is the Order at the International Tournament.

Niagara-on-the-Lake, Sept. 6.—(Special.)—The first day's play in the international lawn tennis championships took place today on the turf courts of the Queen's Royal Hotel here. The courts were in splendid condition and the draw brought together as representative a group of tennis experts as has ever been seen here.

In the men's open singles Toronto players faced very well. Gurney beating Schmidt of Pittsburg, while Henderson beat Meigs of Niagara Falls and Wagner of Chicago. The Chicago player, however, was a pretty game to watch and Gordon was beaten by Miller of Cincinnati. Tewkesbury of Cleveland showed up in the match with Donnington, as did Harold Taylor, who handled the play until after six o'clock, when the last game was played.

The most interesting feature of the day from the spectators' standpoint was the exhibition doubles match in which Harold Murray and Ralph Burns faced Lindley Taylor and Jimmy Weber and best them in three sparkling sets. The speed and accuracy of the game, at times dazzling, as they each in turn would serve and get what seemed the impossible.

A SHAKSPEARE SIGNATURE.

The discovery of the signature of William Shakspeare, scrawled 314 years ago on the wall of the "haunted gallery" of Hampton Court, has been made in London. Shakspeare authorities pronounce it authentic. It is a matter of history that the Shakspeare company visited the palace in 1606 and played "Hamlet" before the then King Christian of Denmark. The company dressed in the "haunted gallery" near a great hall where the play was enacted. The gallery, according to ancient tradition, is haunted by the ghost of Catherine Howard, one of Henry VIII's six wives, who was imprisoned there. History tells that she escaped from confinement while the king was praying in his private chapel, and that her flight was discovered by the court guards, who dragged her screaming to the king, interrupting his devotions.

The first day's play in the international lawn tennis championships took place today on the turf courts of the Queen's Royal Hotel here. The courts were in splendid condition and the draw brought together as representative a group of tennis experts as has ever been seen here.

NEW YORK HONORS LABOR'S OWN DAY

Parade of Over Ten Thousand Workers Held in Brooklyn.

New York, Sept. 6.—A triple anniversary featured the Labor Day exercises here today, for it was not only labor's annual holiday, but also the sixth anniversary of the first battle of the Marne as well as the anniversary of the birth of Lafayette. The principal celebration in Greater New York was held in Brooklyn, where there was a parade of more than 10,000 workers. Striking employees of the Brooklyn Rapid Transit Company were given a place of honor in the line, many of them wearing uniforms of the army, navy and marine corps.

In the parade was a large number of banners, a majority of which were devoted to labor subjects, while some had inscriptions expressing Irish sympathy. The parade terminated at the Lafayette statue in Prospect Park, where appropriate exercises for the three anniversaries were held. Franklin D. Roosevelt, Democratic candidate for vice-president, was the principal speaker.

The socialists selected the day for the holding a series of protest meetings, the principal speaker at which was William D. Haywood, leader of the I. W. W. He spoke on ball after having been convicted and sentenced to 20 years' imprisonment for violation of the espionage act.

He devoted his speeches mostly to a defense of the I. W. W. Labor Day, usually one of the largest of his year, but at last he staggered to his feet and rushed into the jaws of the lines of the Brooklyn Rapid Transit.

And then to the joy of the onlookers a muffled voice was heard from beneath the coat folds: "Get me out of this, you fellows, or I'll be smothered." In trying to leave the tent McInroy's foot had caught in a rope and the whole falling canopy had come down upon him, hurting the table and a few cane chairs over him. His escape had been miraculous. The truce in one of his swags, purposeless thrusts had pierced the ground between Mac's arm and his ribs, pinning his Afghan coat into the earth.

SURGICAL OPERATIONS AT SEA. The operation for appendicitis performed on the engineer of the American liner St. Paul, while the ship was traveling at 16 knots an hour, is not a unique instance of skilled surgery at sea, remains a medical writer. The captain of a merchant vessel tells us that while transporting troops in the first Australian convey from Albany to Suva, in the early days of the late war, an operation for appendicitis was performed upon one of the "Diggers" by the ship's doctor. The hospital accommodation being unsuitable, the operation was performed on the saloon table, and quite successfully. The ship was steaming ten knots against the S. W. monsoon in the Indian Ocean.

HONEY AS MEDICINE. A honey demonstrator, who has worked in cities and towns all thru the eastern part of the United States, says she had more call for honey as a medicine than in any other way. That would be deplorable except for one thing—there are people who are determined to take medicine, and it is better for them to dose themselves with good food, such as honey, than to injure their digestion with harmful drugs.

MIRACULOUS ESCAPE FROM MAD ELEPHANT

A British officer tells of the escape of a friend of his in India had from a mad elephant. The brute had been making mighty efforts to wrench up stakes to which it was chained and at last it succeeded. With the first desperate bound forward the heavy ankle chains, frayed and worn in one link, had snapped asunder, and with the huge stake trailing behind it the elephant charged down on the camp with a scream of fury.

The cry was raised: "Run, run, Sa-hib, the tusk has gone mad! He has broken loose!" The white men started to their feet and ran. The servants fled in all directions. One man was seized and killed, another was seized and flung into the river; and then the maddened beast vented his fury on the tent.

From the other shore of the river the Britishers could see the elephant who had thus scattered them in a perfect frenzy of rage, kneeling on the shapless heap of cloth, furniture and poles, and digging his tusks with savage fury into the hanging and canvas. He was in the very abandonment of rage.

Then they realized that their friend and companion, McInroy, had been left in the tent. They held their breath and dared not look into one another's faces. Everything showed as clearly as if it had been day. They saw the elephant toasting the strong canvas canopy about. Thrust after thrust with harmful drugs.

ANOTHER RESTAURANT LIFTS DRINK PRICES
Following the lead of the Bowles Company, prices for tea and coffee have been raised to ten cents a cup at the McConkey restaurants, 117 Bay Street and 23 West Queen Street. The action taken did not come as a surprise, as Ernest McConkey, the proprietor, had intimated that such a price jump was impending. In the meantime steps are being taken by the civic authorities looking into the contention of the restaurants that the five-cent rate does not permit a profit on the beverages.

QUEBEC MEETING OF MUNICIPALITIES

Provincial Union Discusses Problems—Urges Longer Terms for Mayors.
Montreal, Sept. 6.—Today marked the opening session of the United Municipalities of the Province of Quebec, with Mayor Joseph Beaulieu, of Outremont, president of the union, in the chair. Mayor Martin, honorary president of the union, extended a welcome on behalf of the city.

Among those who read papers on the problems which confront municipalities in the province Quebec were G. E. Marquis, head of the provincial bureau of statistics; Oscar Martin, deputy minister of municipal affairs; Dr. J. E. Laberge, of the contagious disease branch of the city health department.

Treasure of Rural Mayors.
Mayor R. Prieur, of Pointe aux Trembles, secretary of the union, presented a review of the work of the union during the past year. Secretary Prieur stated that the union had, among other matters, approached the government on the subject of the extension of the term of rural mayors from two to three years, and that while no definite promise had been given, the government had agreed to give the matter most favorable attention at the next session. Another question, which had been taken up, he stated, was in regard to the secretary-treasurer of municipalities. The law as it now stands provides that such official must have lived in his municipality for at least a year and must be resident therein during his term of office, and it frequently happened that eligible men under these conditions could not be secured, and it is sought to eliminate the stipulation that such residence be essential.

BELLEVEUE OPENS ANNUAL EXHIBITION

Bellevue, Ont., Sept. 6.—(Special).—The annual fair of the Bellevue Agricultural Society was opened this morning at 10 o'clock. The exhibition is held in the grounds and took part in the official opening of the fair, M.L.A. for East Hastings, president of the Fair Association, made a few remarks and called upon Hon. M. Doherty, provincial minister of agriculture, who spoke at some length in an optimistic manner. He referred to the necessity there was of unity between labor, agriculturists and the general public, and that the classes of citizens. The harvest this year in Ontario was the best in many years. The wheat crop in Canada was estimated at 250,000,000 bushels. The prosperity of Canada rested almost entirely upon agricultural products, and the greater portion of the debt of the country would have to be paid out of the top six inches of soil. Prices in grain might fluctuate some, but live stock was sure to command a good price.

LABOR UNION DUES

Hon. Mr. Doherty closed his address with an appeal for unity in making Canada the country it is destined to be. The chief attraction for the afternoon was a baseball match between St. Michael's of this city and Deloro team. The former won by a score of 6 to 4.

U. S. Merchant Marine Act May Cause Trouble With Japan

Honolulu, Sept. 6.—Eight leading chambers of commerce of Japan have adopted resolutions declaring the United States merchant marine act as at direct variance with the spirit of commercial treaties between the United States and Japan, and that it may cause diplomatic complications, according to Tokio cable advices to Nippon Jiji.

Parade and Plane Stunts Feature Labor Celebration

St. Catharines, Ont., Sept. 6.—Labor day was celebrated here and in Thorold by parades and athletic contests. "Bobby" Leach, of Niagara Falls, Ont., was the chief attraction of the Thorold demonstration. He made a drop of 500 feet by parachute from an aeroplane.

DUE AT QUEBEC TODAY
