WILLIAMS, 10 VICTORIA ST.

TWENTY-FIFTH

3 DEATHS IN THE ST. CLAIR TUNNEL

Six Employees of the Grand Trunk Railway Killed by Coal Gas Early Sunday Morning.

ENGINEER AND TWO RESCUERS PASS OUT AS BECOMES HEROES

Coupling of Freight Train Breaks and Stalls Half the Cars in Death-Dealing Cavern.

Sarnia, Oct. 9.—(Special).—One of the most terrible calamities in the history of Sarnia took place at an early hour this morning when six Grand Trunk employees were sacrificed in the St. Clair Tunnel. It was the result of a minor accident exposing the men to the fumes of carbonic acid gas, which at times pervades the tunnel.

A coupling having parted on a freight train, ten cars were allowed to remain in the tunnel, while the engine went out to sidetrack those still attached. The conductor, J. B. Simpson, remained with the cars. The engine returned, but was only able to take out three of the cars, as the coupling had not been made with a chain and was not considered strong enough to bear the weight of the whole train of ten cars remaining. Simpson followed with the engine, but was unable to get the train out of the tunnel.

Some Refused to Return. After the engine came out some of the men engaged refused to return into the tunnel on account of the foul air. Others were, however, secured, and the engine went down the grade. Two of the train crew, Conductor Richard Tinsley of Sarnia, Alfred Short, brakeman of Port Huron, then started to the rear to look for Conductor Simpson. Short, however, was unable to find him, and returned to the engine.

The details of what happened during the hour that the engine was in the tunnel will never be known, but it is assumed that the STEAMER "WENT" was the cause of the accident. The engine was moving slowly, and the coupling of the cars gave way, and the engine was thrown forward. The men were in the van four hours later.

Men to be Praised. When Short reached the American portal an alarm was given, and Yarmaster McKee of Sarnia called for volunteers to go with himself down into the tunnel to rescue the missing men, whose fate was more than guessed from Short's condition. A. S. BEGG, Port Huron, G.T.R. superintendent of terminals, THOMAS MCGRATH, Sarnia, conductor, 339 Vidal-street, DAN GILLIES, Sarnia, brakeman, 150 Milton-street, Sarnia, brakeman, 430 Brock-street, JOSEPH B. SIMPSON, Sarnia, conductor, 18 Vidal-street, JOHN COLEMAN, Port Huron, engineer.

These men who were in the tunnel, and a short distance within found the bodies of the men who had come by gas. Some of the party returned with him, and the rest, proceeding, found the engine and the quarter of a mile within, and the fireman unconscious, Engineer Coleman dead, and Tinsley, Short and Conductor Simpson missing.

While trying to uncouple the engine, Walter Hawn, one of the rescue party, was overcome and fainted. Those McKee, and another of the rescuers, fell by the engine and died almost immediately, and Yarmaster McKee became ill and had to be assisted toward the portal. Switchman Blake carried Hawn to the engine, and the two weak to pick up McKee or Gillies, who were evidently dead, but they were unable to start the engine, and taking on McKee and the others made the portal successfully. He was still attached to the engine, and was taken to the open air, where medical aid was summoned, and after some hours he recovered consciousness.

BEGG Started in Alone. Meanwhile at Sarnia, A. S. BEGG, superintendent of terminals, was trying unsuccessfully to get volunteers to work, and finally started in alone. He was joined by a Canadian from Wyoming, came up and followed BEGG, taking with him a party from the American portal, George Mellon. When only a short distance in they were affected by gas, but BEGG was knocked over and kept on. They found him dying on the track, and after carrying him a few feet had dropped him. Both the men fainted a short distance farther on. BEGG, Mellon and the other were taken out late by a party from the Port Huron tunnel station, but the superintendent was found to be dead. The town is in a state of great excitement, and the outcome of the coroner's inquest to-morrow morning is looked for with deep interest, as it is felt that in view of several cases of suffocation in the tunnel the company should have taken steps long ago to remove the risk. In the past six years three men have died, half a dozen have been made unconscious, and many have had to cease employment on account of the gas.

ANOTHER ACCOUNT. An Associated Press despatch from Port Huron, Mich., gives the following version of the original accident and of the subsequent happenings. The train, which had entered from the American end, was made up of seventeen cars. When it broke, Engineer Coleman realized that the accident had happened, and that the three cars that were still attached to the engine, steamed out of the tunnel into the Sarnia yards. He hastily detached the tube for the stalled cars. When his engine reached them he attempted to push them back into the tunnel, but the engine stalled. The grade proved too steep, however, and the engine and cars rolled back into the cavern. The engineer was suffocated at his post in the engine cab. His fireman, Fred Foster, with great presence of mind, jumped into the partly filled water tank of the engine, where there was a member of the rescue party, and was in a serious condition to-night.

When news of the broken train reached the American side of the tunnel, Superintendent BEGG, accompanied by the other engine, started in on foot, hoping that the train was near enough

THE DEAD.

A. S. BEGG, Port Huron, G.T.R. superintendent of terminals, THOMAS MCGRATH, Sarnia, conductor, 339 Vidal-street, DAN GILLIES, Sarnia, brakeman, 150 Milton-street, Sarnia, brakeman, 430 Brock-street, JOSEPH B. SIMPSON, Sarnia, conductor, 18 Vidal-street, JOHN COLEMAN, Port Huron, engineer.

STILL UNCONSCIOUS.

Those still unconscious are: Alexander Forbes, Sarnia, pumpman, Charles Fisher, Sarnia, conductor, Walter Hawn, Sarnia, brakeman, Fred Foster, Port Huron, brakeman.

OFFICIAL STATEMENT.

The following official statement of the disaster at Sarnia Tunnel was given out by the G.T.R. officials last night; it was sent from Port Huron:

Run No. 46, Engineer John Coleman, Conductor J. B. Simpson, seventeen cars left West Summit 6:25 a.m., broke apart in tunnel; took three cars out at 6:35 a.m.; went back and brought out one car chained up at 6:40 a.m.; returned and brought out three cars at 6:55 a.m.; returned for remainder of train and pushed it out thru American portal, when Engineer Coleman was overcome and train stalled. Brakeman Short ran out to American portal and called for help. Mr. BEGG, with Engineer McKee and Pumpman Mellon, started to assist Conductor Simpson and Tinsley, who were in the caboose, but Mr. BEGG was overcome, and while trying to carry him out, Engineer McKee was overcome, but Pumpman Mellon managed to get out at 7 a.m. Engine went in from Sarnia in charge of Yardmaster McKee, Conductor Fisher and Brakeman Hamilton, Hann, McGrath and Cameron. They found track-walker overcome and got him out. They were all overcome, but were taken out, except McKee, who died. They finally got train out at 10 a.m. and cleared tunnel.

Falling in the list of dead: Engineer J. Coleman, Conductor J. B. Simpson, Conductor R. Tinsley, Brakeman McGrath, Brakeman D. A. Gillies, A. S. BEGG, Fireman of engine 1201 saved himself by getting in tank of engine. There was a heavy fog and atmosphere very heavy. Only slight air stirring and gas and smoke came thru tunnel from the engine, making it almost impossible to do anything from west end. Mr. BEGG's body was taken to undertaker at Port Huron, and the others in charge of the Canadian authorities. Mr. BEGG's body was found about half-way between the west end of the tunnel and the east end, and was recovered by Engineer Cook, fireman, and Yardmaster Bowen. (Signed) W. G. Brownly, Superintendent.

While All Experienced Men. A. S. BEGG was the superintendent of terminals and all of the men were experienced railway employees. The heroism of the men in going into the tunnel to rescue their fellow employees is worthy of mention. The strong wind blowing from the east and the recent party going in from the west end of the tunnel accounts for the serious results, tunnel accounts for the serious results.

BOILER DOME GOES 150 YARDS.

Two Men Killed in Fatal Explosion at Galt. Galt, Oct. 9.—(Special).—A horrible accident took place here Saturday by which Elgin Fisher, a boy of 15 years, and Jas. VanEvery lost their lives. They were working at the saw mill on Adam Davidson's farm in Beverly and at 3:30, an hour after work had begun for the day, the boiler exploded.

Fisher, who was fireman, was instantly killed, the top of his head being blown off. VanEvery was mangled by lumber chock and was knocked below the saw and died from his injuries two hours later. George Bothwell, the sawyer, was standing only three feet from VanEvery at the time of the accident, and he escaped without a scratch. G. H. Raymond was knocked over a lumber pile, but was not seriously hurt.

The dome of the boiler, weighing 450 pounds, was carried 150 yards, and the mill was pretty much wrecked. The cause of the explosion is unknown. The boiler was filled with water just 20 minutes before the accident occurred. It is likely that Reeve Betsner was ordered an inquest.

The funeral of the unfortunate victims takes place to-morrow afternoon at 2 o'clock at a residence of St. George, and had several relatives here. The Fisher, a well-known farmer in the district.

ARRESTED IN BROCKVILLE.

Albert McNab Said to Have Stolen Things in Montreal.

Brockville, Oct. 9.—(Special).—An important arrest was made here yesterday when Albert McNab was placed behind the bars, on the charge of having committed the Brockville robbery. McNab's home is in Brockville, but he has been dodging back and forth between here and Montreal for some time past.

A second-hand store in the latter place missed a number of watches, rings, etc., on Monday, the 3rd inst., and from the description of the supposed thief recognized from previous correspondence with the Brockville police. He turned out to be the right man, for a portion of the missing goods was found on him. He admitted the remainder had been pawned.

In Cornwall and Montreal other charges will be placed against him. His arrest has instituted an inquiry which it is expected will connect him with many petty burglaries which have failed to unravel. He was taken to Montreal to-day by Detective Gallagher.

RICHARDSON OPPOSES SIFTON.

Chosen as an Independent at Brandon Saturday Night. Brandon, Oct. 9.—(Special).—At a large and enthusiastic public meeting held in Brandon Saturday night, which was called by J. C. Scallion, president of the Grain Growers' Association, the purpose of selecting an independent candidate to contest the constituency in favor of the government was the new transcontinental, R. L. Richardson of the Tribune, Winnipeg, was unanimously selected to oppose the Hon. Clifford Sifton. It is understood that Mr. Richardson's candidature will be endorsed by the Association on Thursday next. Mr. Richardson, in accepting the nomination, declared his adherence to the cause of the public, and announced his intention of making it a hard fight for the minister of the interior.

STEAMER GOES AROUND.

One Hundred Passengers and Mails in Danger. Quebec, Oct. 9.—The steamer St. Lawrence, en route with 100 passengers and mails, went aground last night on English Point, Pentecost River. Mr. Lester, the manager of the North Shore Steamship Line, says that all the passengers are safe. The vessel was blown left about midnight for the theatre of the wreck, with Mr. Lester on board, to take the passengers and mails and bring them to Quebec. Nothing is known yet about the condition of the steamer.

BARGE GOES ASHORE.

Port Colborne, Oct. 9.—The steamer F. H. Prince of the Ogdensburg-Rutland Line of steamers, bound for Chicago to Ogdensburg, with 50,000 bushels of corn and 30 cars of package freight, went ashore during a very heavy fog about morning, ten miles west of here, on what is known as Rock Island, small island of Burby Bay. The steamer is not leaking, and the harbor tug, having gone to her assistance, the weather is calm.

EIGHTY-FIVE TO TEE OFF.

Philadelphia, Oct. 9.—Eighty-five golfers will tee off to-morrow at the 10th hole qualifying stroke play round in the annual championship of the United States, on the links of the Merion Cricket Club at Haverford. It will be an international championship, because Great Britain's champion, Charlie Dod, and the United States' champion, George S. Sargent, will be in the field.

Sicke Gas Again Endorsed by Dr. Race of Brooklyn. The following letter was received Saturday by the Toronto office of the Sicke Gas Company: 366 Clinton-street, Brooklyn, N.Y., Oct. 9, 1904. Gentlemen,—Enclosed please find cheque as per statement. I commenced the use of Sicke's gas, in carbide, which I had left over from last year. I ordered five cans for this present year per account, and I have three cans left unopened. As near as I can figure, I used about 280 lbs., as there was some carbide in the machine, so you will see I will have enough for next year.

We used all the light we wanted without economizing at all, and I must say the machine worked absolutely perfectly. I left Toronto last Tuesday morning, having stayed over night at that place, but did not have time to call on you, as I should like to have from you your "Sicke's Gas" carbide. It certainly looked as though it could turn out a good deal of light, and it has been told me that it worked like a charm. With regards, I remain, yours very truly, James H. Race.

To the Sicke Gas Company, 81 York-street, Toronto, Canada. Dr. Race is the well-known millionaire dentist of Brooklyn, N.Y., and a tourist familiar with Sicke's gas, carbide, which he has used in his practice since he first used it at the "Sicke's Gas" works at Rosbink Narrows, one of the largest and best appointed summer palaces. That such a summer resort could be well hit for less than a dollar a week is a triumph for Sicke's "Sicke's Gas" is the largest summer hotel at Mt. Julien, which has had over 100 Sicke lights going for the past three seasons. Catalog and information at 81 York-street, Toronto.

THIEVES AT MR. EATON'S GET \$7000 IN JEWELRY.

Daring Burglary at His Lowther-Avenue Residence While the Family Were at Dinner Saturday Evening. Between 7 and 8 o'clock Saturday evening a thief or thieves entered the residence of Timothy Eaton, 182 Lowther-avenue, and secured diamonds and jewelry amounting in value to \$7,000. Mr. and Mrs. Eaton were entertaining a few friends at dinner, it was while the guests were in the dining room that the robbery is supposed to have taken place. When Mrs. Eaton had occasion to go upstairs to her room she was surprised to see that the drawers of the dresser had been ransacked, and the extent of the robbery was then discovered. The drawers had been pried open, and the jewel cabinet unlocked with keys.

Among the articles stolen are: Diamond necklace, value \$4000. Pearl collar, value \$1500. Diamond earrings, value \$500. Oxidized silver chain. Chain watch, set with diamonds and rubies. Gold bracelet. Silver bracelet. Turquoise ring. And \$100 in cash. Coachman Heard Whistles. Detective Herbert Reburn, has taken personal charge of the case. So far there is no definite clue to the thieves. If that is the case they are doubtless many miles away from Toronto with their booty. The police of other cities have been telegraphed a full description of the stolen jewelry, as it is certain no attempt will be made to dispose of it locally.

CLARKSBURG BANK BROKEN INTO ROBBERS REPLIED TO SHOTGUN.

Explosives Made an Entrance for Them, But Their Booty Amounts to Only \$1 and Some Useless Papers. Clarksburg, Oct. 9.—A daring burglary took place here at 2 o'clock this morning. The vault and safe in C. W. Hartman's Bank and office was broken open by professionals who had tampered with the safe. A box containing some notes and drafts was taken, but as there was no money in the vault, the firm has a complete list they will not be seriously inconvenienced. Nearly all the money and papers were carried off and numbered. A new electric alarm system had been put in, but was not complete, otherwise the burglary could not have taken place. Mr. Hartman, one hour here, heard the shot gun at the thieves, who replied to the shot gun. A driver with a light-colored coat was seen in the neighborhood. The driver is in the Township of Collingwood, in the east riding of Grey.

Russians Take Offensive Break the Japanese Line

Japs Failed to Fortify a Commanding Hill and Disaster Overtook Them. Simultaneously with Gen. Kuropatkin's announcement to his army that the time had come for a forward movement, there comes news that the Russians have captured Bentziapuzte, one of the strategic points held by the Japanese. The event did not precipitate a severe engagement, but the Japanese are reported to have suffered a considerable loss, the turning of their position having exposed them to a severe fire. In his address to his army, Gen. Kuropatkin asserts that the Russians have a force numerically superior to that of the Japanese, and he predicts a telling victory for his soldiers. The retirement of the Japanese on their position at Liaoyang is construed as evidencing the desire of Field Marshal Oyama to draw the Russians into an attack upon a strong defensive position. The dry weather is favorable to military operations. The best blocking post Arthur reported to be more than usually alert, watching for British ships that are supposed to be planning to take supplies into the harbor.

RUSSIANS ADVANCE.

St. Petersburg, Oct. 10, 2:55 a.m.—Gen. Kuropatkin's order of the day, announcing his determination to take the offensive, is supplemented to-night by the news that an offensive movement has already begun and that the Japanese line has been broken at Bentziapuzte, some 20 miles east and south of Mukden. The Japanese occupied a front of about 32 miles, stretched

SENATORS ELECT OF VARSITY OFFICIAL LIST NOW ISSUED

Many Familiar Names on the Card, But Several New Men Selected.

After 48 hours' almost continuous labor Registrar Brobert of Toronto University gave out the results of the voting for senator of Toronto University, on Sunday night. The count was complete with due form on Saturday night. The results follow. The names set in caps are those who are new to the senate:

RICHARD STRATFORD, 187, J. C. WETHERELL of Stratford 183, Mr. Strang 21, J. H. Thompson 2 each, Mr. Colbeck 4, Mr. Burt, Mr. Manley and Mr. Steele 3 each; Mr. Pakenham, Mr. Phillips, Mr. Radcliffe, Mr. Reid, Mr. Robertson and Dr. Seath 1 each.

The first meeting of the new senate will be held on Nov. 11.

JUMPS AND DIES.

Sudden Call to Young Man in Collingwood Sunday. Collingwood, Oct. 9.—This afternoon some young men who were going thru the town park on coming to the south-east corner of the park started to jump the fence between them and the railway track. One of their number, named Oscar Thomas, a stone cutter, clearly cut the fence, and on landing on the other side, stumbled and fell on his face. As he did not move for some time, his companions turned him over and found he had ceased to breathe. A doctor was sent for as soon as possible, but he died before he could reach the scene. The young man was only 20 years of age and unmarried.

C. B. HEYD AGAIN.

Brantford, Oct. 9.—(Special).—At the Liberal convention for the constituency of Brantford, Ontario, C. B. Heyd was selected to champion the Liberal cause. No other name was put forward. Short addresses were made by Hon. W. L. Brantford, M.P., and the gathering was well attended.

GAMEY FOR DURHAM.

R. F. Gamey is to take part in the federal election campaign in Durham, where A. B. Aylesworth, K.C., will contest the riding. Gamey has been in the riding for his appearance in the riding have not yet been fixed.

THE DERBY HAT.

The new Derby hats for fall wear are now in the show cases of the Dineen and Temperance-streets. They include all the latest English and American blocks by such makers as Hensby, Melville and Dunlop of New York. Derby hats from \$2 to \$5.

FAIR AND WARMER.

Metropolitan Office, Toronto, Ont., Oct. 9.—(8 p.m.)—Rain has fallen this morning and evening, but clear weather is in the lake region, with light showers in Canada the weather has been in most districts. Minimum and maximum temperatures: Toronto, 45-50; Kingston, 45-50; Ottawa, 45-50; Montreal, 45-50; Quebec, 40-50; Halifax, 40-50.

DEATHS.

Anderson—At her late residence, 165 Fleet-street, on the 7th inst., Agnes Stewart, widow of the late John Anderson, in her 68th year. Funeral (private) Monday, at 2:30, to Mount Pleasant.

HYDE—At his late residence, 102 Sydney-street, Saturday, Oct. 8th, Barton John Hyde, beloved husband of Elizabeth Hyde, late employee of Canada Life Company. Funeral Monday, Oct. 10th, at 2 o'clock. Friends and acquaintances please accept this intimation.

LEWIS—Entered into rest on Sept. 28, at Pasadena, California, Henry R. Lewis, formerly a resident of this city, aged 80 years, 9 months, 10 days. Funeral from the residence of his son-in-law, E. S. Shier, 32 First-avenue, on Tuesday at 3 o'clock to the Necropolis.

MARTIN—On Saturday, Oct. 8th, at his late residence, 18 McArthur-street, Toronto, Nathaniel, beloved husband of Ellen Martin, in his 65th year. Funeral Monday, at 2:30 p.m. Friends please accept this intimation.

NICHOLS—At her home, 339 Euclid-avenue, Toronto, Anne Low, the wife of John Nichols. At rest. Funeral will take place on Wednesday afternoon at 2:30 to Mount Pleasant Cemetery.

UNDERWOOD—At Kendall, on Saturday, October 8, Margaret Pallas, relict of the late Thomas Underwood. Funeral to Orano Cemetery, leaving Kendall at 1:30 p.m., Tuesday, Oct. 11.

HIS WIFE DIED ON WEDNESDAY. HUSBANDS IN A MORGUE

Little Woman Who Eagerly Expects Him at the Pier Will Find Herself a Widow.

New York, Oct. 9.—Somewhere in a ship on the blue Atlantic, straining her eyes for the land which she hopes to find her husband and her future home, is Mrs. Luigi Laperco, a little Florentine woman.

Lying in the city morgue with a gunshot wound in his abdomen Luigi Laperco, alias Peblito, forty-eight years old, awaiting the arrival of the little woman he has worked for years, his friends say.

Five years ago Laperco came from Florence to make a home for wife and child. According to a family in the tenement at 14 West Cannon-street, he had a wife and child, but the police are not so sure.

Laperco's recent move to New York was on Thursday night. He was in the police court this morning to answer to the charge of stealing a baby and a coat from the rooming house at 21 Delancey-street, where he was arrested Saturday night.

Laperco was dying moaning the name of his wife. Giovanni Gerardi identified the body as that of the woman who was shot at the shooting at Brewster. At half-past 12 yesterday morning the wounded man died.

THE BREWSTER TRAGEDY. Gerardi, before returning to Brewster, said that a bank in "Big Frank" Bianco's shanty, Bianco, Domenico Giambattista and his son chased him, but were shot at the door by two men.

FOUGHT WITH BIRD. London, Oct. 9.—An old Aberdeenshire fisherman who fishes daily in Cruden Bay has been shot by a bird while out on a northern drier, a somewhat rare bird which was a great deal for any fish it may catch.

DOUBLE SUICIDE. Paris, Oct. 9.—A farmer and his wife, named Bourne, committed suicide yesterday by drinking cyanide of potassium.

ROSE AND FELL. London, Oct. 9.—The story of how a maid named Rose, who was engaged to a young man named Fell, committed suicide by jumping from a window.

KNOCKED DOWN BY AUTO. Miss Cummins, 378 College-street, was knocked down by an automobile yesterday.

MAN DEAD, DOG FLAGGED TRAIN. A man was killed and a dog flagged a train in a recent accident.

QUEBEC NOMINATIONS.

George H. Long Will Oppose Hereafter in Benharat.

Montreal, Oct. 9.—(Special).—Several important nominations took place on Saturday in this province. Hon. T. Hackett, ex-M.L.A., received the unanimous nomination of the Conservative party in the County of Stanstead, and as the Conservative carried the county for the local a short time ago the probability of Mr. Hackett's return is conceded.

De L. B. Tache, who opposed the late Mr. Blanchet, is again in the field in the County of St. Hyacinthe, the convention taking place Saturday afternoon.

The Conservatives also nominated on Saturday Ernest Naveau in Terrebonne. He is the brother of the Hon. S. A. Nantel and of the Rev. Superior of St. Therese College.

After a great deal of trouble the Quebec Liberals have nominated George Parisien and the Premier Parent, as the opponent of Hon. Thomas Chase Casgrain in Montserrat.

The Hon. J. P. Frenette went to Valleyfield and George H. Long was nominated to oppose Mr. Bergeron in Benharat.

ENVIED OTHER PEOPLE'S GOODS.

Vegetables, Laundry, Bicycle and Cash Acquired by Thief.

Joseph Eger, 7 Fenwick-street, and Thomas Collins, 22 Woolsey-street, will appear in the police court this morning to answer to the charge of stealing a bicycle and a coat from the rooming house at 21 Delancey-street, where he was arrested Saturday night.

Edward Doyle got into the club-house of the Y.M.C.A. on Saturday night and stole a bicycle and a coat from the rooming house at 21 Delancey-street, where he was arrested Saturday night.

William Tulloch, 12 Mission-avenue, an employee of T. P. Breakwell, butcher, 80 West Beaver-street, was arrested Saturday night, charged with stealing \$17 from his employer.

TURNOG GAS OFF AND ON AGAIN.

Woman, Caused to the Jet, Was Discovers in Nick of Time.

A gas stopcock that turned completely round came near to being the death of Mrs. Ellen Anderson of 151 McCaul-street yesterday.

Mrs. Anderson has only been at this address for a couple of days, and yesterday afternoon, after a short walk, she returned and her husband was in bed, and when she did not answer, an investigation was made and the gas was turned on. She had apparently turned the stopcock round.

HEADQUARTERS FOR TRUNKS.

SUITS, CASES AND UMBRELLAS.

Our assortment is exclusive and complete; our prices right. OUR NO. 1 heavy brass mounted trunk (with lock) is the best in the market. It is made of the finest material and is guaranteed to last for years.

THREE DIE TO SAVE OTHERS.

Continued From Page 1.

to the entrance, so that they might rescue and carry out some of the crew. They had gone but a short distance when the coal gas became stifling and the men succumbed. The other two rescuers succeeded in crawling to the portal of the tunnel on their hands and knees.

Meanwhile, preparations were being made at the Sarnia end of the tunnel to receive the imprisoned train crew. An engine with a party of rescuers entered the tube and had proceeded but a short distance when they found John Haley, a track walker, lying unconscious on the track. He was taken out and again the engine plunged into the gaseous atmosphere. The rescuers were overcome, however, by the gas, and the train was reached and Brake-man McGrath died.

Switchman Blake, who was a member of the party, after a time made another attempt to penetrate the gas, and by this time succeeded in reaching the stalled engine, coupled it to the cars and ran the train out into the day-light. Simpson, Finlay and Gillis were found dead in the caboose. Fireman Forster was in the water tank of the engine nearly two hours before he was rescued, and his escape is little short of miraculous.

WAR SITUATION.

Continued From Page 1.

It is possible his advance movement will force the Japanese to withdraw in order to protect their own base. On the other hand, there seems to be a possibility of one or both of these columns threatening the railway behind the Russians and forcing a suspension of their aggressive movement.

INTO LION'S JAW.

London, Oct. 10.—The new phase of the war involved in Gen. Kurapatkin's stirring address to his army is being discussed by English military critics. In the light of probable moves underlying Kurapatkin's decision to take the offensive, it is not forgotten how recently the Russian plan of campaign was represented to be to attack the Japanese northward in order to draw their communications and hence there is greater surprise at what is considered a remarkable order.

MAIDS WORE SANDALS.

London, Oct. 9.—A strange innovation at the wedding of Lady Hermione Grimston to Lieut. Bernard Buxton, which took place at St. Paul's Cathedral, yesterday, was that the bridesmaids wore sandals.

EXPLAINS WAR SITUATION.

Bentlapuzze Captured From The Japs by the Russians. Mukden, Oct. 8.—The Russian forward movement has begun and Bentlapuzze has been captured with a small loss.

ROSE AND FELL.

London, Oct. 9.—The story of how a maid named Rose, who was engaged to a young man named Fell, committed suicide by jumping from a window.

BOSTON'S DOUBLE-HEADER
NEW YORK BEATEN 13-2, 1-0
Saturday in Boston and They Play Another Double-Header To-Day in New York.

Boston, Oct. 8.—The Boston team both games from New York to-day, and thereby obtained a fairly good grasp on the year's championship pennant. In order to win the Yankees must take both of next Monday's games, played in New York. In the first game today the Red Sox were defeated in the fourth, and the Boston score was 13 to 2. The second game was a double-header, and the Boston score was 1 to 0.

MR. ROSS ON CORRUPTION.

At Mount Brydges Premier Ross treated the subject of corruption in a statistical manner. It was not true that corruption was due to long terms of office. Sandfield Macdonald was only four years in office, yet five of his supporters were unseated after the general election of 1871, and only one member of the opposition; whereas during the long Liberal administration, more Conservatives than Liberals were unseated for corruption.

However, the fact is that the statistical method of judging corruption is not very satisfactory. The long term of office is only one of a number of causes leading to the recent extraordinary revelations of corruption. The Ontario government has been so weakened in recent years that it has been constantly at the mercy of two or three members, or constituencies; and the result is that an unnatural and mischievous importance is attached to the by-elections.

It is no use saying that the fault is inherent in human nature. In politics we must seek political remedies, and the remedy in the present case is to fix responsibility on the chief beneficiaries of corruption. When Mr. Ross says that no agent of the government was connected with the wrong-doing, he must surely forget that the attorney-general was in the South just before the election, and was warned of the disgraceful expedition of the Minnie M. Then the government candidate in North Renfrew has made a sworn statement directly connecting the government with the corruption in that constituency.

Mr. Ross denies the existence of a compact between himself and Sir Wilfrid Laurier, and says there would be nothing nefarious in such a compact, if it existed. Perhaps the real question is what effect the alliance will have upon both. It can hardly be supposed that the Ross government can bring much strength to the Dominion Liberals at this juncture; and when the federal election is over the Ross government will be judged on its merits. If both governments are to throw their resources into the by-elections, there is every reason to expect corruption on a larger scale than has hitherto been exposed.

ROSEBERY ON PREFERENTIAL TRADE.

Lord Rosebery's preface to the little volume on "Canada and the Empire" contains a curious mixture of truth and error, or rather of right and wrong thinking. He is just now in a difficult position. As a pronounced imperialist he is naturally in sympathy with all that makes for a closer union within the empire—as a pronounced free trader he views with distrust and alarm Mr. Chamberlain's efforts after the furtherance of that union by means of a mutually preferential tariff. Lord Rosebery is therefore under the necessity of placing a gloss on Mr. Chamberlain's scheme for the purpose of demonstrating that it is more likely to cause disunion than to promote agreement.

Now he accomplishes this by assuming that Mr. Chamberlain has in contemplation some fixed and ill-considered system under which a preferential tariff once established cannot thereafter be altered without the consent of all the self-governing states interested.

Incidentally Lord Rosebery professes concern that the views cabled from London to the Dominion are as favorable as the metropolitan press to Mr. Chamberlain's agitation, and he adds that to tax the British Liberal party with indifference or hostility to the idea of empire is an imperial peril.

Hero Bishop of the Arctic

Rev. P. T. Rowe a Canadian

Work of the Courageous Clergyman Has Won Miners' Hearts—Endures Great Hardships—Makes Rounds in a Dog Sled and Sleeps in the Snow.

Boston, Mass., Oct. 9.—One of the most interesting personalities at the general Episcopal Convention in Boston is the Rev. Dr. Peter Trimble Rowe, Bishop of Alaska.

A Canadian by birth and education, Bishop Rowe served most of his ministry in the Episcopal Church before his elevation to the episcopate, having been rector for fourteen years at Sault Ste. Marie, Mich. His experience in the mission work of that region, where he often traveled to outlying stations on snowshoes was a fitting preparation for the work he was destined to do in Alaska.

It was at the General Convention of the Episcopal Church at Minneapolis in 1898 that Mr. Rowe was elected Bishop of Alaska. A prolonged debate arose over the question of sending a bishop to the Alaskan territory. Some bishops ridiculed the idea as impracticable.

Finally Bishop Potter offered, in behalf of a layman of that diocese, who was supposed to be J. Pierpont Morgan, to pay the salary of the bishop for three years. He has gone as far north as the Arctic circle, where he saved the lives of several hundred miles around Anvik and other points.

Several hundred prospectors were camped on the Yukon preparing to build a house and a medical clinic when the ice went out. Several offered that they had finished their own craft, and would go down the river with the bishop.

On this first trip to the interior Bishop Rowe established a hospital at Circle City, reaching there a few weeks ahead of the Roman Catholic mission.

Edmund Scheuer, president of the Holy Blossom congregation laughed when The World man asked him last night for information concerning the reported movement on the part of a few to establish a Jewish separate school in Toronto.

"What do we want a separate school for?" he asked. "Why, for centuries our people have fought for the right to have our children go to the public schools, to enjoy the same right as other citizens of the country. To secure a separate school for our children would be a retrograde movement and one that no right thinking Jew in our church would consider for a moment."

"No, the movers of this scheme, whoever they are, are but a small minority of the Jewish community in Toronto, and more than not being in sympathy with them I would justly such a movement."

"I am brimming over with vitality—Appetite is good—I sleep well—I feel happy."

MADE ME FEEL LIKE NEW.

WARNS AUSTRALIANS.

Canadian Associated Press Cable.—London, Oct. 10.—The Sydney Daily Telegraph, the international organ, warns Australians against Premier Balfour's conference. Even if it is the limited question of closer union the pooling of colonial policies with British is objectionable from every point of view.

Drowns at Virginia Beach

Norfolk, Va., Oct. 9.—Miss Beattie Wilson of Clarksville, W. Va., niece of the late Postmaster-General, W. L. Wilson was drowned while bathing at Virginia Beach this afternoon. Her body was recovered.

WELDED WITCHES UNDER LAW

OLD STATUTES BROUGHT IN

Two Palmists and a Crystal Gazer Convicted in London, England.

London, Oct. 9.—Under the witchcraft act, which is 120 years old, and a larceny act, which passed into the British statute books eighty years ago, three London exponents of chiromancy and palmistry last week were found guilty on the double count of fortune telling and obtaining money under false pretences.

Professor and Mme. Keiro, two palmists, whose advertisements used to meet the eye at every turn through the west end, and Yoga, a crystal gazer, who is understood to have secured a lucrative practice in his special branch of palmistry and chiromancy, were defendants in the trial, which was begun at the instigation of Sir Alfred Harmsworth editor of The Daily Mail.

Yoga, a Hindu, who had been practicing medical electricity in connection with his palmistry and chiromancy, was offered to give. He was a professor of hypnotism and took pupils to study chiromancy, palmistry and graphology. He did not know anything about clairvoyance, although he believed it to be a true science.

Yoga, a Hindu, who had been practicing medical electricity in connection with his palmistry and chiromancy, was offered to give. He was a professor of hypnotism and took pupils to study chiromancy, palmistry and graphology. He did not know anything about clairvoyance, although he believed it to be a true science.

ONE MAN'S RISE.

Ashepung, Mich., Oct. 9.—Walter Fitch, one of the best known mining men in the Lake Superior region, was accepted the general management of the mines and smelters of the United States Mining Company.

Mr. Fitch, who is a resident of Marquette County and for twenty years he has been at Champion, Minn., has been in the Lake Superior region for a number of years. He has long ago attained high rank in the mining profession. The United States Mining Company, which is capitalized at \$2,000,000 and has only recently acquired additional claims valued at several million dollars. Its principal production is copper, although no little revenue is derived from the gold and silver contents of the ore.

Ashepung, Wis., Oct. 9.—A bull belonging to a farmer near Ashepung, Wis., was killed by a train on the Chicago and North Western railway. The animal charged the engine, and the train was stopped. The bull, striking the engine, rolled down the embankment and was killed. The train was delayed six hours, and the Twilight Express was delayed for several hours. The damage to the railroad's rolling stock and the disabling of telegraph, switches, etc., was \$20,000.

Easy For Young Tigers. Hamilton, Oct. 9.—The Hamilton Tigers won from the Brampton team in the hockey series here yesterday afternoon by a score of 22 to 1. The goals were scored in good shape, and lacked the experience of the Hamilton team. DuMoulin was referee and Simpson umpire. The lineup was: Hamilton (left): Back, Ecclesstone; halves, Harrison, Tope, Anderson; quarter, Whiteside; centre, Allan; wings, Halow, Morrison, Allan, Ramsay, Mitchell and O'Leary.

Seems Same All Over. Duluth, Minn., Oct. 9.—Duluth business men are thoroughly aroused over the combined action of insurance companies in advancing the rates in the downtown district. The fact that the insurance companies are not bound by the same laws as the fire department is inadequate. It is claimed that this explanation is merely a subterfuge, and that the real reason for the increase is the desire to recoup a portion of the losses suffered in other cities.

Andrew Broder Again. Morrisburg, Ont., Oct. 9.—Despite unfavorable weather, a large number of Conservatives from all parts of Dundas County gathered at the Morrisburg Hotel for the purpose of selecting a candidate for the approaching elections. Mr. Broder's name was the only one mentioned and his nomination was unanimous.

common—Bid 3 1/4, asked 3 1/2. Mackay pref.—Bid 7 1/2, asked 7 3/4. Dominion Steel (Boston)—Bid 13 1/2, asked 14 1/4.

Domestic buyers of copper are more depressed, and local extreme values are being held by producers.

It is again pertinent to note the immense importance of the steel market in the current situation, which can be said to have increased, as far as a careful estimate is concerned, as the market has advanced during the current week.

The local market has quieted down this week, and there has been less attempt to force values ahead of a following.

Some of the most substantial advances recorded by a number of important stocks this week, and this in face of the fact that some of the rumors accompanying the current payment to shareholders of N. S. Steel, have had all the Nova Scotia that present indications do not appear to be over-extended.
