Public Meeting Shows Enthusiasm for Civic Distribution of Hydro

References to Popular Policy and Declarations in Favor of It Greeted With Enthusiastic Applause at Meeting Held to Enable Candidates for Civic Offices to Show Where They Stand.

The intense interest of the citizens of St. John in the question of the distribution of the hydro-electric energy to be generated at the Musquash development, which has been offered to the city, was strikingly manifested at the meeting in the Pythian Castle last evening held under the auspices of the united organizations.

Civic Distribution Applauded.

The ringing, unequivocal declarations in favor of civic distribution made by Hon. R. W. Wigmore, E. J. Hillyard, H. R. McLellan and Alexander Corbett, evoked intense applause. Mayor Schofield and Commissioner Jones both advocating municipal control, declared the benefits to the consumer they would gladly support civic distribution.

Mr. Bullock said that, if instead of being completed today the job were only just being started, he felt that the interest charges would have been less. Costs would have been less. He pointed out that in thirty years the amount of \$1,200,000 would have been paid in under the head of repairs and renewals.

THAT TORY CONVENTION
Commodore Stewart of the Chatham World, who was at the last Conservative convention in St. John, does not think much of the recent hand-picked gathering at Fredericton. He says in the World: "We see by newspaper exchanges that an opposition convention was held in Fredericton on Friday. Who called it, how was it called, and who were called to attend it? It was decided, two or three months ago, at a meeting in St. John, that such a convention should be held, and the report of that meeting was all the public knew, so far as we are aware, about it. Was it open to the general public, or were notices or invitations sent out to Conservatives whose presence was desired?"

Among the yearly deaths from tuberculosis about ten per cent are children under five years of age. As we know tuberculosis is a preventable disease, the nation is therefore not taking proper care of its children. Reports show that nearly half of the child victims of tuberculosis die of tuberculous meningitis.

Several new members were enrolled at the meeting of the St. John Infirmary Alumnae held last night at the Infirmary with Sister Camillus presiding. The constitution was adopted and much routine business was dealt with.

The boys' band is of more interest in the homes of the members than any other organization in the town.

Montrealers are again in the throes of house hunting, a distress that comes once a year, only to find that the scarcity of homes has become greater, not less, and that this situation is unduly expensive to the tenant.

Landlords have had their innings in recent years, and in cricket parlance have certainly fattened their average. Newly constructed houses have not, indeed, yielded and unduly upon the investment, because of the high cost of building, but even in the case of newly constructed houses the turn is at hand.

Alkali in Shampoo Bad for Washing Hair

Don't use prepared shampoos or anything else that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain Mulified coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces.

Simply moisten the hair with water and rub it in, about a teaspoonful of Mulified is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily.

MORE MEN ARE GETTING JOBS; FEWER ARE FILING APPLICATIONS

Washington, March 28—Figures of the employment situation, which apparently indicate that the worst of the business depression is over, are made public by the President's conference on unemployment.

Reports from the Federal employment bureau show that for every 100 places listed at the bureau there were 236 applicants in January, 208 in February and 194 for March.

Lieut.-Colonel C. H. Sparling and Major Vince left last evening for Woodstock, where a war game was being held on Wednesday night.

St. John's Financial Position Is Strong

CONTROLLER'S AND CHAMBERLAIN'S YEARLY REPORT PRESENTED TO COUNCIL

\$877,000 in Bonds Issued Last Year—City Closed Year With Deficit of \$29,314—Departments Spent \$23,000 Less Than Appropriations—Bonded Debt as Statement of Assets and Liabilities.

The city's financial position continues strong as shown in the annual reports of the city chamberlain, Duncan G. Lingley, and the controller, Adam P. MacIntyre, presented at the weekly meeting of the common council this afternoon. Chamberlain's Report. The report of the city chamberlain of the city accounts for the year ended December 31, 1921, was presented. It contained amongst other things the following facts:— Debentures for \$891,000 were issued. These, with \$22,000 bonds held in the treasury, were sold, realizing \$894,258.78. In addition the city issued serial debentures to the province of New Brunswick amounting to \$56,451.84, under provisions of the Local Housing Board Act. This amount was reduced by payment of \$1,417.53, leaving a balance of \$55,034.44 outstanding. An abstract of the city's debentures shows a total of \$6,469,255.38 outstanding, with another \$2,600 due, but not presented, making a total of \$6,471,855.38 on which the interest is \$301,940.89. The increase in the outstanding debentures was \$876,004.41, and in interest liability, \$49,677.10. In addition to our own debentures of over six million, the city has to pay the charges on the board of school trustees bonded debt of \$903,600. These charges amount to \$22,904.17, also the city's proportion of the county's debenture interest of \$49,224.10. Total liability— Interest \$390,270.77 Sinking fund 125,848.39 \$516,119.16 \$175,000 of the City of St. John six per cent debentures were purchased as an investment for sinking funds. The increase in the amount of this fund was \$173,928.17. The receipts from licenses show an increase of \$7,409.83, largely due to motor vehicles. Of \$176,297.15 water assessment, total payments were \$153,168.23; discount and relief \$7,888.18, and unpaid, \$15,240.74. The Taxes. Payment of city and county taxes was disappointing. About 9,000 persons, representing about 16 per cent of the total assessment, had not paid on December 31. Some of the large cities show an even larger per cent of default in tax receipts.

I proved the receipts of your treasurer's office from their various sources. The expenditures were correct, and the amount on hand on the 31st December, 1921, was \$4,088.98. The balances due by the Bank of Nova Scotia, the city's bankers, to the city on the 31st day of December, 1921, were:— General account \$33,895.03 Sinking fund account 6,266.84 Housing annuity account 202.20 I also audited the books and accounts of the police magistrate and judge of the City Court. I found that the moneys belonging to the city, received by him, were paid to the city treasurer. The year 1921 was a most peculiar one, by reason of deflation proceeding throughout the year and the contraction in business. The interest rate on debentures by this cause was unsteady and very hard to determine, the changes were rapid, both up and down. It was not until the month of December that it took the downward grade to a more equitable price for borrowers.

**PUBLIC SEEMS TO BE TIRED OF SEX PHOTOPLAYS**

Themes of Pictures Now Require Some Overhauling.

San Francisco, March 28.—The motion picture industry stands today where the saloon business stood 20 years ago, according to District Attorney Matthew Brady, who has directed the prosecution of Roscoe ("Patty") Arbuckle in two trials, and is about to repeat it again for the third time.

"The public is long-suffering, but when it finally decides it has enough—look out for the avalanche."

"About 25 years ago the public got tired of the rottenness of the saloon. It got tired of having the corner bar a better spot for crime."

"If the decent saloon men, the men

who wanted to run high-class business establishments, had got together and worked with the police and legislators to put the abuses of the saloon and the liquor trade out of business, in all probability the saloon, as a decent, reputable business establishment, would still exist.

"But the saloon men didn't do this. They went on abetting drunkenness and lawlessness. Finally the public simply got enough of it, and rose up and put the saloon out of business altogether."

"That is just the status of the motion picture industry today."

"The public is getting tired of seeing some morally rotten but highly paid actor or actress glorified and held up as an idol whose such actors and actresses aren't fit to associate with decent people."

"The public is tired of having sex flung in their faces. The people who live decent lives, the mothers and fathers with families they are trying to raise to respect the laws and to be upright and decent, are tired of seeing film after film picturing infidelity and 'red love.' They are tired of the 'other man' as a permanent fixture in the home—according to the motion pictures."

"They are giving the producers their chance to reform from within. If the producers are wise, they will spend their money in cleaning up the industry, instead of attempting to suppress every scandal that comes up and defending every film star whose personal morals get him or her into trouble."

Your dentist will tell you that four people out of every five past the age of forty have Pyorrhoea. And thousands of younger persons are victims of this dangerous enemy.

Are your gums sore or tender? Do they bleed when you brush your teeth?

If so, go to your dentist at once and start using Forhan's For the Gums immediately.

For bleeding gums are an early symptom of Pyorrhoea which quickly loosens the teeth, until they drop out or must be pulled, and causes poisonous pus pockets to which scientists trace many serious ailments.

You can prevent Pyorrhoea, or arrest its course, by the consistent use of Forhan's For the Gums in sufficient time.

Brush your teeth with Forhan's twice a day or oftener. It will keep your teeth and gums in a healthy condition.

Remember—four out of five are caught by Pyorrhoea because they are neglectful. Start using Forhan's For the Gums today. 35c and 60c tubes at your druggist's.

**IMPERIAL PLEASES MORE BIG CROWDS**

What is the greatest joy in life? Is it riches with all they can bring, or is it peace of mind with the outstanding consolation that whatever happiness is found comes, chiefly, from within and gives rather than takes?

These questions are dramatically brought forward in a brilliant Paramount-Cosmopolitan picture, "Back Bay," which opened at the Imperial theatre yesterday. Seena Owen and Matt Moore portray the principal characters. Hester Bevis (Miss Owen), has always craved luxury. She has never been out of the town in which she was born. Jerry (Mr. Moore), was born in the same place, but the doings and the life of the greater cities have never been a call to him. Her call comes and she leaves. Her beauty soon lands her among the rich of New York with one of whom she forms an alliance which assures her wealth and pleasure.

Jerry's call came and he left for the battlefields of France. It did not seem as if their lives would ever cross each other's again. And it remains to the story to say how and why. Aiding Miss Owen and Matt Moore in a well chosen cast are J. Barney Sherry, Ethel Duray and Charles Craig.

This feature will be concluded tonight. The programme also includes scenes on the famous McDonald farm in Nova Scotia, where Professor Prince invest-

**BUSHMASTER WORST SERPENT IN THE WORLD**

A South American Snake That will Attack Both Man and Beast.

The worst tempered snake in the world is the so-called bushmaster of South America, writes T. C. Bridges in the London Daily Mail. There are three sorts of bushmasters, of which the largest, called by the Indians the "surucucu," is a yellow monster ranging, when full grown, from nine to thirteen feet in length.

This creature, which is extremely plentiful in the damp forests, attacks on sight. Without the slightest warning it comes hurtling out of a thicket and drives straight at the intruder. And its bite, to a white man, means a speedy and horrible death. The Indians, however, have some herbal remedy which protects them against the effect of this poison.

Last year a man sent on a message from one ranch in Bahia to another did not arrive. Search was made and his body was discovered with a great "surucucu" wrapped around it.

The brute was killed, and then it was found that the unfortunate messenger's body was one mass of bites. There were literally scores of punctures from the poison-dealing fangs.

The "surucucu" has another peculiarity which, so far as is known, is shared by no other serpent only. This is that it is capable of making a sound, quite apart from hissing. It is described as a low whistling—a sort of "hew! hew!" If one of these creatures is hidden in a hollow tree—a favorable resort—its presence can be detected by the sound it makes.

The smaller bushmaster is known by the Indians as the "apagafoco." The name means "lover of fire." Instead of avoiding the snake, attracts it, and by campers in wet forest the cooking fire is always extinguished before sleeping. Otherwise the man who goes to relight it in the morning will probably find one of these deadly creatures coiled in the warm embers, and possibly pay for the experience with his life.

In the swamps of Brazil and in every forest pool anacondas abound. Of these, too, there are three sorts.

The largest is the "dermidera," the greatest and most terrible of pythons. It is black in color, and its native name means "the snorer." This is the only snake which makes an audible sound, apart from hissing, a sound comparable with the loud snoring of a sleeping man. One of these snakes has been killed exceeding sixty feet in length, but trails seen in the swamps seem to indicate the existence of still more monstrous specimens.

Even the smaller anacondas will attack man, and it is highly unsafe to approach a forest pool to drink without first taking due precautions. The anacondas lie in the water, with heads just above the surface, silently awaiting prey.

The Indians of inner Brazil all speak of another snake which, so far, has not been identified by the naturalist. They call it the "salamanda," and describe it as a sort of boa about twenty feet long, but of enormous thickness.

"The Bonnie Brier Bush," a picturization of the Rev. John Watson's famous novel, "Beside the Bonnie Brier Bush," published some twenty-five years ago, will be the Imperial's attraction tomorrow. The production is in every respect a triumph of the cinematographic art. It is needless to tell the story which is familiar to every reader. It is one of general appeal and in its picturized form there is little lacking to make it one of the most interesting themes ever developed on the screen.

**HOPE TO SEND INSTRUCTOR FOR THE BLIND HERE**

A workshop to employ blind women is needed in St. John, in the opinion of H. B. Campbell, representative of the maritime division of the Canadian National Institute for the Blind, who has spent the last four days in the city studying the situation here and who left last night to return to Halifax.

Mr. Campbell is himself blind, but has wonderfully overcome his handicap. He met with the executive of the New Brunswick auxiliary of the maritime school for the blind yesterday afternoon in St. Andrew's church parlour and discussed the proposed affiliation of the New Brunswick auxiliary with the C. N.

I. B., which, it is hoped, will be consummated later. Mrs. E. Albertson Smith, the president, was in the chair.

There is not at present a home instructor for the blind in New Brunswick, but Mr. Campbell announced that it was hoped to have Miss Boudreau spend the summer in this neighborhood giving instruction in braille reading and in home crafts to the blind. Many of those to whom she will give instruction have already had some lessons and she will take up with them the new reed basket work which has been found a profitable home occupation for the blind.

Hum Sek and Hum Woo, who are awaiting judgment for a violation of the drug act in connection with the use of opium, were brought before the magistrate yesterday afternoon. He warned them they were liable to a fine of \$1,000. He then remanded them until he was able to go over the evidence again before passing judgment on them. E. S. Ritchie appeared for the defendants.

**A beauty secret 3,000 years old**

The use of palm and olive oils to keep the skin fresh and smooth is nothing new, but a secret known to pretty girls as far back as Cleopatra.

Her Palmolive came in skins and jars, and she had to do her own mixing. But the beautifying cleanser she achieved was the inspiration of the mild, soothing blend science produces today.

Take a lesson from Cleopatra, who kept her youthful beauty long after girlhood's days had passed. She used cosmetics to embellish and enhance her charm, just as women do today. But the foundation was a skin thoroughly and healthfully cleansed from all clogging and dangerous accumulations.

**Soothes and beautifies**

Palmolive is blended from the same palm and olive oils Cleopatra used—they are the mildest, most soothing ingredients science has been able to discover.

The scientific combination of these rare oils produces a smooth, creamy, lotion-like lather. Palmolive soothes and beautifies while it cleanses. It keeps the skin of the face and body beautifully soft and smooth.

**The importance of thorough cleansing**

It is absolutely essential to complexion beauty to wash your face thoroughly once a day. Palmolive makes this cleansing doubly beneficial by its mildness.

The profuse, creamy lather penetrates each tiny pore, removing the deposits of dirt, oil and perspiration which cause clogging and enlargement.

Such cleansing is the secret of fresh, smooth skins, as results prove. It stimulates circulation, keeps the texture fine, smooth and youthful.

The woman who fears that washing will age her skin has used the wrong soap. She will change her mind once she tries Palmolive.

**Don't neglect the body**

Care of the complexion only begins with the face. Your neck is just as noticeable for beauty or the lack of it, arms and shoulders should be kept white and smooth.

Use Palmolive for bathing and these results are accomplished. It does for your body what it does for the face.

If this seems extravagance, remember the modest price. The firm, long wearing cake of generous size costs but ten cents.

**Our price secret**

If Palmolive were made in small quantities it would be a very expensive soap. Palm and Olive oils are most costly soap ingredients, and come from overseas.

But the popularity which requires enormous production has reduced the price to that of ordinary soaps. The Palmolive factories work day and night, the rare oils are imported in such vast volume that the manufacturing cost is reduced.

Thus Palmolive, priced according to quality, would cost at least 25 cents, is yours for a modest price. You can afford this greatest of all luxuries for every toilet purpose.

The deep sympathy of a host of friends will go out to Mr. and Mrs. Sheehan in the loss they have sustained. The funeral will be held on Wednesday afternoon at half past two o'clock from their home, 22 Richmond street.

**DEADLOCK ON  
TAX QUESTION**

City and Lancaster Representatives Unable to Come to Agreement—Now Up to Legislature Committee.

The city commissioners and Lancaster councillors are up against a brick wall in connection with the matter of the taxation of county residents who earn their incomes in the city. The question arose from a section in a proposed bill presented to the municipalities committee of the New Brunswick legislature last week and will have to be fought out before that committee at Fredericton tomorrow.

The section provided that residents of the county should be taxed by the parishes in which they resided. The city objected to the clause and an effort was made to reach a compromise. The Lancaster councillors offered to limit the taxation to employees of the C. N. R., customs house and post office.

A meeting was held this morning in the mayor's office with the mayor, city commissioners Bullock, Jones, Frink and Thornton, Councillors O'Brien, Golding and Campbell, J. King Kelley, county secretary, W. H. Harrison, acting city solicitor, E. Murray Olive, chairman of the city board of assessors, and W. O. Dunham, chairman of the Lancaster assessors, present. The city offered to leave the assessment of the C. N. R. and C. P. R. employees to the parishes in which they resided, provided the city was allowed to collect from some fifteen post office and customs house men who were affected, but the county representatives were adamant in their stand. As no progress could be made, it was decided to leave the matter to the committee of the legislature which will meet tomorrow.

Mayor Schofield, Commissioners Frink and Bullock, Mr. Harrison and Mr. Olive will go to Fredericton tonight to represent the city when the committee sits on the bill. It is expected that some city bills will also be presented at that meeting.

**ST. PETER'S AND  
THE AFFIDAVIT**

Make Decision Not to Sign—  
Manager Speaks of Plans.

That the affidavit, which the Maritime branch of the A. A. U. of C. is making it obligatory for all amateur athletes to sign before they can secure a card, was establishing an unheeded precedent in sport and tended to brand all athletes guilty until proven innocent, was the consensus of opinion as expressed at a meeting of St. Peter's Baseball Club last evening. They decided that they would not sign the affidavit as they considered it from a moral standpoint absolutely unnecessary and uncalled for. They expressed a willingness to sign the regular forms given out in the past, but would not have anything to do with the present system.

A. W. Covey, president of the Maritime Branch of the A. A. U. of C. was present at the meeting, and was informed that a decision had been reached not to sign the affidavit.

Joseph Dever, manager of the team has announced that plans are now under way for the coming season. He said he has his team well organized and as soon as weather permits practice will be started. The outlook, he said, was bright for a successful season as it was their intention to bring a number of American teams here to play. Fans in other centres of the province would, he pointed out, be given an opportunity to see these teams in action.

## PASTEURIZATION BILL IN HAND

## W. E. Scully Presents It to Government.

Liquor Question to be Discussed in Caucus Wednesday Night—Several Speeches on Budget Yet to Come.

Fredericton, N. B., March 28.—A petition against legislation calling for the compulsory pasteurization of milk in St. John was laid before the government this morning by W. E. Scully, member for St. John city. The petition contained the names of 5,000 rate payers of the city.

It is hoped in government quarters to conclude the debate on the budget this evening. Hon. Dr. Roberts will resume the debate this afternoon. It is said that Messrs. Burdock and Gault, of the Farmer group, also intend to speak, and possibly three other opposition members. For the government, P. Melanson is slated to speak and also Hon. Mr. Veniot. In opposition quarters it is expected that the debate will continue until Thursday.

This afternoon a bill to amend the teachers' pension act will be introduced. It provides that the present minimum pension be doubled. It also provides a disability clause and also permits a teacher who has not served the full term of thirty years to receive a pension proportionate to the length of service. The increase in the amount of pensions is not expected to increase the government expenditure under this head as the increased cost will be met by increased contributions by the teachers from their government grant.

A caucus of the members of the government will be held tomorrow night, when the question of a change in the present liquor laws will be the province will be discussed by Premier Foster announced today.

G. R. Melvin and J. E. Tighe, of St. John, are in the city today in regard to legislation of interest to labor.

## SHAW LEAVES TO TAKE SEAT

Calgary, March 28.—Captain J. T. Shaw, M. P., Independent Progressive, who was declared elected after a recount in the Calgary election, left last night for Ottawa to take his seat in the House of Commons and await the announcement of judgment by the two supreme court judges who heard arguments on the petition of Hon. R. B. Bennett, K. C., to have the election declared in his favor. Judgment may be deferred for some time.

REPUDIATES IT. The sporting editor of the Times received a letter in yesterday's mail asking that he publish an acceptance by "Kid" Frontin of a challenge said to have been issued by "Cyclone" Morrison to a boxing bout, and that arrangements be made through Frontin's manager, Philip Bannister.

Today the Times was informed that Mr. Bannister had not written the letter and had nothing to do with the proposed bout. He is at present ill at the County Hospital in East St. John.

RADIO AT SACKVILLE. Arrangements are now under way for the installation of a radio service station at the Mt. Allison Conservatory of Music, so that it will be possible to link up with New York and other large cities, and listen to concerts, lectures, etc., being given in those places.

The apparatus will be erected on the roof of the Ladies' College building, which gives a height of 130 feet and 100 feet in length, for the receiving of wires. A loud-speaking amplifier will be installed, so that the college students and citizens will be able to sit in Beethoven Hall and listen to music by wireless.

Radiophones, on a more or less pretentious scale, are being installed by private citizens in many cities and towns all over Canada. K. Rogers of Charlottetown, P. E. I., the well-known radio rancher, has installed a radio station apparatus at his residence, and is able to entertain his friends with concerts being given in New York and other large centres.

When the radio station is installed here, Sackville and Charlottetown will be able to reciprocate with concerts, lectures, etc.—Sackville Tribune.

### NOW EXPECT A HARBOR SURPLUS

### Deficit is Anticipated at the First of the Year, But Business has Picked Up Wonderfully.

In spite of his former skepticism, which prompted him to ask for provision for \$200 in the appropriations for the harbor during the present season, Commissioner Bullock said that business in the port had increased to such an extent during the last few months that instead of showing a deficit at the end of the season, he now expected that the city officials would either break even or show a profit.

The commissioner said that the first of the year, the conditions were not so good as to press any earnings, but rather seemed to indicate that the city would come out on the short end, hence his provision for this emergency. He said today that even the steamship officials were agreeably surprised at the optimistic turn which the business had taken.

## PLAN TO FLY AROUND WORLD

Washington, March 28.—By direction of the foreign office London the British embassy here has requested the state department to have all proper facilities extended to Sir Ross Smith and Sir Keith Smith, British aviators, when they reach the United States on their attempted aerial circumnavigation of the world.

The adventurers will use a Vickers "Forth" amphibian plane, which, as its name indicates, can be landed on either land or water, being provided with wheels, which are withdrawn into recesses in the hulls of the pontoons when not needed.

Sir Ross, with his brother, Sir Keith accomplished a flight from England to Australia more than a year ago. Their latest venture will involve a start from London on April 20, the first stop being in France. The route lies across Southern Europe, Asia Minor, India, China, Japan and Siberia. The Pacific will be crossed at Behring Straits, lands being made on some of the Aleutian Islands and at Ounaska, in Alaska. The course will then be across Canada to Newfoundland, whence the start will be made across the Atlantic. If weather conditions are favorable, an attempt will be made to reach Ireland directly from Newfoundland, following the course taken by Hawker. Otherwise the plane will be directed to the Azores, thence to the European continent at Portugal and up the west coast to the point of starting.

### AMHERST PERSONALS.

Miss Leonora Schurman of Truro, spent the week end in Amherst, stopping off en route home from a pleasant visit to friends in St. John.

Dr. and Mrs. F. E. Boudreau have been called to Boston owing to illness of the former's brother.

Dr. and Mrs. C. O. Walsh, of Sydney, N. S., passed through Amherst on Monday en route for California, where they plan to spend the spring and summer months. Mrs. Walsh is a niece of Mr. and Mrs. W. L. Ormond of Amherst.

Seeing High Spots of Life In "Charm City of Havana"

The Noisiest Place in the World, It Has 16,000 Saloons, Gay Life in Every Form, Gambling as a National Sport, Magnificent Churches and Lavish Wealth.

(Special to The Halifax Chronicle) Havana, Cuba, March 1.—The Key to the Gulf is the designation by many when mentioning Cuba. Others call it the "Pearl of the Antilles." Like Nova Scotia she cannot be judged by the coastline, for although it is 740 miles long with its many deep harbors it has an actual coast line of about 2,000 miles. The area is 45.81 square miles. The population is about 3,000,000. Havana, the capital, has a population between 400,000 and 500,000—it grows so rapidly it is hard to keep track of it. Frequently it is called "The Pearl of the West" or "The Charm City." Havana means "The Vain One," and Cubans say "Havana" was a beautiful Indian maiden and there is a handsome pure white marble statue standing in her honor in Colon Park. The next most populous city is Santiago with 75,000 people.

The city was founded in 1515, over 600 years ago. During the vicissitudes of war it changed hands several times in the first 300 years. In 1762 the Duke of Albemarle (for whom Albemarle street, Halifax, was named) captured the island for the British, but swapped it the following year for Florida. Havana is Moorish and Spanish in architecture. The old part has very narrow streets and proportionately narrow sidewalks and the buildings have overhanging balconies where people live, to an outsider it seems a mysterious manner. The newer part of the city on the other hand has immense sidewalks or promenades, avenues, driveways, and water-side resorts. Summer resorts, surf beaches, waterland gardens and parks; here the houses are artistic, sumptuous and extensive with wide easements, great doors of carved solid mahogany and beautiful flowers in abundance.

The World's Noisiest City. For its size and population Havana holds the championship for being the world's noisiest city. No one who visits it can dispute the claim. Cubans thrive on uproar. The streets are unrelentingly noisy, the music of the city, the unbroken clamor permeates every part, even in church the worshippers here the tumult outside. This constant turbulence not only goes

on all day but all night. The streets are as gay at midday and the amazing thing is the little children with their parents in noisy cafes, restaurants and cabarets late at night. Havana is the gayest city in the western hemisphere and it is claimed that the night life of Paris cannot compare with the night life of the Cuban capital. There are two phases of it. One is from 8:00 p.m. to midnight. The other is from 1:00 a.m. to 4:00 a.m., although the latter continues to a lesser degree later. There are seven days in the week at Havana. The horse races, the saloons, the resorts, the gambling houses do their best business on Sundays, although the people are very devoted to Sunday morning, Fridays and during Lent.

"I Am So Dry." There are 16,000 liquor places in Havana—bars, cafes, saloons and restaurants where the ardor is dispensed, yet strange to say there is very little alcohol indeed in Havana. The liquor places open at 6:00 a.m. and close at 2:00 a.m., unless shutting up earlier by choice. The only people one sees intoxicated are Americans who go down there for the purpose, or visitors from the great republic who are trying to quench a prohibition thirst. Good liquors are dispensed. Drinks are from 10 cents to \$1, according to what it is and where served—whether it is at the poor man's bar, or the rich man's gilded cafe, Hennessy's Three Star retails for \$2.50 the bottle and King George or any of those high class brands for the same price. There are all the strong liquors of Scotland, England and Ireland to be had, all the choice wines and liquors of France and Spain, all the beers of England and Germany, besides the native rum, liquors and beers. One brewery alone employs 1,000 persons and turns out 15,000 bottles of beer daily. There are 85,000,000 bottles a year and there are others. Even Johnny Walker is "still going strong" here.

Then there are the smokers! Every body who smokes knows "Havana," and that the devotees of the weed reach the soothing climax with them. The value of the tobacco crop is \$20,000,000 annually, being second only to the sugar crop which has an average yearly valuation of about \$311,000,000. The largest individual sugar mill is the Toledo which cost \$12,000,000, owning 5,000 acres of sugar cane fields and 100 miles or railway.

Seeing Night Life. There are many conducted tours of the city and surroundings by day and by night. In the day time one may sight seeing any old way but when taking in the shows and gambling dens at night, although one is not motivated by the same steady study to their own affairs it is better to make this trip with a conductor and officers. A brief lecture is given telling visitors they may forget the scene, the life they witness, and just realize that they are a party of tourists on a sight-seeing trip. There are about 40 ladies and men in the crowd at the Casino de la Playa accompanied. After doing the cafes and seeing the bright life we went to the shows. Here are many large tenements, where each family has but one room to live in, and none too large at that. The so-called "red light" dwellers are segregated and have police and sanitary "privileges." These unfortunate human beings remind me of the last souls in Dante's Inferno, condemned to eternal damnation. Their present and future is pathetic beyond comprehension; it is bad enough witnessing part of a national ball game (hand ball, but not as played in Halifax, Y. M. C. A.) in an immense stadium, went to the Chinese quarter. There are over 100,000 Chinese in Cuba and 35,000 of them are in Havana, the largest "beaten" colony in the world. They have their own houses and stores, their own theatres and their own newspapers, which get the daily Press Association despatches the same as the other newspapers. We visited a Chinese theatre. The scenery and costumes are gorgeous, the music atrocious and much is left to the imagination. For instance a house is portrayed by a cigar box, a mountain by a tin and so on. The leading actress is a beautiful lady, known as the Mary Pickford of the Chinese world. The Chinese are great imitators. A lady hired one as a cook and wishing to teach the Celestial to cook English style she made a cake that called for three eggs; the first egg broken was good, the second one was bad so she threw it away and used two more good ones. Three years later the lady discovered that the junk threw away the second egg in all the cakes he made. We were taken to see the house in which Balboa, the discoverer of the Pacific Ocean and Bolivar, the liberator of South America lived. We drove through the botanical garden—Cuba's natural flora comprises over 2,350 plants—royal palm avenues, artificial grottoes and cascades, the electrical gardens with electrical fountain and flowers) to the big air-drome and to the Gran Casino de la Playa, but of this again.

Sports and Gambling. Bull fighting has been abolished in Cuba but game cock fighting is advertised and still popular. Oriental Park and Race track cost \$2,000,000 and has a seating capacity of 12,000. The attendance is enormous and it is here the ladies display the modes in latest fashions. There are seven days racing every week and seven races each day. During the season of five months 700 horses from the best stables of the United States and Canada are quartered here and contest against the best Cuban thoroughbreds. Immense sums are won and lost every day—there is no limit to the amount in form of gambling—mutuel or oral. The Cubans are good sports. The races are all for runners. There are no trotters or standard breeds. There is dancing between races. The state conducts a national lottery, tickets for which are sold everywhere. The state also owns and runs the Casino and realizes an annual net profit of from \$5,000,000 to \$12,000,000. This fact alone should teach the ordinary mortal that the "house wins," but it doesn't. The gambling fever seems to be in the blood. Of course sometimes the visitor wins. Almost every one of our party tempted damn fortune and lost from \$25 to \$100 each, but one of them got a run of luck and cleaned up \$500. One may, however, pretty safely bank on losing. The Casino is the meeting place of Havana's best social elements who always appear

SAVED FROM AN OPERATION

"Fruit-a-lives" Completely Relieved Me

3928 Union St., Vancouver, B. C. "I suffered with all the symptoms of Female trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. A doctor advised me to have an operation." "I started taking 'Fruit-a-lives' and this medicine has completely relieved me of all my misery and suffering. The terrible Constipation, and what saved me is the fruit medicine, 'Fruit-a-lives'."

"MADAME M. J. GORSE" 50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

In regulation evening dress (they seem quite amused at strangers who go there attired in ordinary clothes) by distinguished foreigners and all other visitors. Every art and lavish expense makes the building decoration, equipment and furnishings far exceed any similar places of entertainment elsewhere, not excepting Monte Carlo. Esquisite statuary, rare tapestries, gold work, bric-a-brac and other objects everywhere. Dinner is served at 8 1/2 a plate, drinks in prices up to \$2 for almost unheard of liquors, and dancing to the music of a famed orchestra. Gambling goes on under moralistic supervision till 1:00 o'clock in the morning. The principal and most popular forms being roulette, baccarat and klonk.

Churches and Other Things. Of course Morro Castle, built in 1669 by Phillip II of Spain, with its dungeon of horrors, etc., is probably the most popular of any single attraction, but

PLES Do not suffer from Itching, Burning, Redness, Swelling, etc. No surgical operation required. Dr. Chase's Ointment will relieve you of the most distressing cases. TENDER SKINS & SORE HANDS

KEEN winds make the skin harsh and rough. Lips get sore; hands crack and chap; faces itch and smart and "break out" into those blotchy eruptions known as winter eczema.

Zam-Buk's refined herbal essences soothe, and purify the tissue. They soothe irritation and smarting pain; heal raw sore surfaces and prevent "infection" of the broken skin. Cold-creams with no medicinal value, or coarse fatty ointments, are powerless to give you the clear healthy skin you desire. You need Zam-Buk the most soothing and successful skin remedy ever discovered.

Also a wonderful healer for Burns, Scalds, Cuts and all Sore Swells, and injuries. Of course, 50c per box direct from Zam-Buk Co., Dupont St., Toronto. Trial sample 1c stamp.

every visitor nearly writes about it and many books and historical works refer to it, so readers may be spared the infliction of tales. The churches are many and wonderful, with great historical associations. The Columbus Cathedral is rather plain outside, but the interior is richly painted and the floor is of costly colored marble and the altar magnificent; it was built by the Jesuits in 1734. Christopher Columbus lived here, but some 20 or 30 years ago his bones were removed to Spain. Merced church is the aristocratic one. Church of Angels is a striking edifice and the altar of San Felipe is a wonderful work of art. Other very noted buildings are the President's Palace, the National Opera House and College Club with 50,000 associates, the hospitals (86 beautiful buildings) hotels and banks (the Royal is a splendid home). In prices the big hotels have other places backed off this.

Miss M. Bayington Tells How Cuticura Healed Her Scalp. "I was troubled with a scalp trouble for several weeks. It broke out in pimples and my hair fell out. My head itched, and burned a great deal. I tried different remedies without success. I saw Cuticura Soap and Ointment advertised and sent for a free sample which helped me. I purchased more, and after using one bottle of Cuticura Ointment I was completely healed." (Signed) Miss Marian Bayington, Tremont, Maine, Feb. 27, 1921.

Keep your skin clear by using Cuticura Soap and Ointment for every-day toilet purposes and Cuticura Talcum to powder skin and perfume. Bathe with Cuticura Soap and hot water. Before bathing, touch pimples and itching, if any, with Cuticura Ointment. Dry and dust lightly with Cuticura Talcum, a powder of fascinating fragrance.

map. The opera house cost \$2,500,000; the city hall and many leading business houses are of great beauty. The railway terminal building is very fine; Cuba has 2,500 miles of railway, 250 of which are electrified, converging here. There are 10,000 automobiles in Havana, some Ford (in Lister) but many the best the world affords. The taxi fare is 30 cents to any part of the city and from \$2.50 up when hired by the hour. Street car fares are 5c; the cars have two trolleys, one on each side. When they are stopped taxis must come to a standstill not nearer than 3 feet away. Cuban Characteristics and Idiosyncrasies and

Cuba is immensely wealthy with its vast foreign trade. Many Cubans are also immensely wealthy, but are lavish spenders. The upper classes are of the fine type, proud, sociable and obliging. The middle classes are workers and also great spenders for fun and excitement; the lower classes are rather shiftless, but there are few beggars. The families of the extreme poor mostly run around their homes, yards and streets absolutely nude till six or eight years old and from that till ten or twelve with nothing to speak of.

Two hydroplanes come from Key West to Palm Beach every afternoon, doing the ninety miles in one-and-a-half hours. Each carries eight passengers. They are known as the "Cocktail Specials." They bring thirty tourists at Florida to Havana after luncheon, give them time to have a few drinks and get them back in time for dinner. There is no capital punishment in Cuba; imprisonment for long or short terms or for life being the sentences for murder or other crimes.

It is amazing how few Cubans speak English. Spanish is the almost universal language. Many of the better class of Cubans are friendly towards the Americans, but the great mass of the people show considerable antipathy to them, notwithstanding they are very favorably disposed towards Canadians, English and French. "Americanos no good." This is resented by Americans, who feel that had it not been for them Cuba would still be under the domination of Spain.

Little business is done in Havana between eleven o'clock and one—that is breakfast time. All the stores close by law at six p. m. Of the business men sixty per cent are Spaniards. The new C. P. R. Express of Britain, with tourists, is in port here. There are numerous rail newspapers—two printed half in English, which sell at 5c. each. One is running Ivanhoe as a serial story.

There is a wonderful cemetery of thirty-six acres filled with beautifully carved monuments and stones. Funerals are very impressive ceremonies. Often the elaborate hearse are drawn by six or eight coat black horses with black plumes waving and with properly attired outriders guiding them. Much hosts or "nursing houses" are driven through the streets to homes and used for suckling babies and children; sometimes two nursing from the same goat at a time. There are also traveling donkey milk vendors, used by some children and also by adults. Goats are immune to tuberculosis, hence the demand for their milk for babies and small children.

ENDORSE PLAN FOR WAR MEMORIAL. The proposal to erect a monument to the soldiers from this vicinity who gave their lives in the great war was endorsed at the meeting of the Municipal chapter of the Imperial Order of the Daughters of the Empire held yesterday afternoon in the government rooms with the regent, Mrs. J. Boyle Travers, presiding.

The meeting was the first since a serial story. The matter of the erection of a monument to commemorate the fallen will be referred to the printer, chapters of the Order and each will express an opinion before action is taken.

"I'm So Tired"

There is such a thing as being temporarily tired as a result of hard work. This condition is relieved by a good night's rest. But when you are continuously tired at slight exertion and feel the ordinary daily tasks too much for you, it is time to consider the condition of the nervous system.

You find yourself easily irritated and worried, you have not the energy and strength to carry out your usual daily program, you do not sleep well and get up tired in the mornings, you may have headaches, and you feel down-hearted and discouraged.

Your nerves are tired, weak and exhausted, and you need the assistance which is best supplied by Dr. Chase's Nerve Food.

Miss Amy L. Metcalf, R. No. 3, Arthur, Ont. writes:—

"I have used Dr. Chase's Nerve Food with the most favorable results. One spring I was very weak and run-down, and did not sleep well. I was very nervous and would cry for any little thing. My heart was weak and my head ached almost constantly. The doctor's medicine did me no good, and finally I began to take Dr. Chase's Nerve Food. After using six boxes of this medicine I felt fine. I have never used anything which has done me as much good as Dr. Chase's Nerve Food. I have also found Dr. Chase's Kidney-Liver Pills an excellent remedy."

"This is to certify that I know Miss Amy Metcalf, and believe her statement with regard to Dr. Chase's medicines to be truthful and correct."—A. R. Springer, Methodist Minister, Arthur, Ont.

down to rock bottom. Considerable progress has been made in the deflationary process. But there are other forces of a local and world-wide character which preclude the likelihood of any broad revival in the succeeding months.

The farmer, perhaps, has borne the brunt of the adjustment process. Prices of farm produce slumped further perhaps than prices in any other line. The buying power of the farmer has thereby been very materially curbed, and a certain element of dissatisfaction has been created by the relatively high prices at which all manufactured goods had been maintained in the meantime. Another factor is an abundant one, will go far toward restoring the purchasing power of the farmer.

The mid-European situation still calls for considerable adjustment before international trade can be resumed on a broad scale. Credits founded on paper currency are not conducive to trade development, and until some reorganization of the finances of a number of these states has been completed and a state of monetary stability established trade cannot flourish.

The Drug Store Averages 7,000 Sales Every Day.

"Total Sales, 13,959 in Sixteen Hours, Saturday, November 12," reads a large card posted in Kinsels's drug store, Michigan avenue and Grosvenor street, Detroit. Not that this is at all unusual for Kinsels—this card is a permanent advertisement in the store.

As in other stores, Saturday is the busiest day of the week in Kinsels's and he, taking a pardonable pride in the number of sales made in his little 57-by-44-foot store on these 16 days, has inaugurated this means of telling his customers the exact figures each week. These figures are compiled by totaling the checks from the cash registers in every department and are for the hours between 8 in the morning and midnight.

Each cash register check is numbered, so that arriving at the total number of sales made is a very simple matter—merely that of adding up the numbers on the last checks issued for the period.

Saturday, November 12, was a good day, but it was by no means a record for this store, for the total number of sales in one day at Kinsels's has gone as high as 14,658. The sales made in this store each day average more than 7,000, making the total for the year approximately 3,000,000—three times the number of people living in greater Detroit.

The foundation of our success is good merchandise, prompt service, and

courteous treatment of our customers," said E. C. Kinsel, proprietor, when asked how he does it. But there is more to the building up of such a mammoth trade than these cardinal principles of good merchandising, as John F. Boyell, manager of the store shows.

#### RUSSIANS DREAD SPRING'S RETURN

Warmth Will Release Germs of Pestilence Held Captive by Frost.

Moscow, March 4.—(By Mail)—The spring sunshine that brings warmth and soft flowers and promises of harvest, to Central and South Russia after months of winter snows is dreaded this year as the harbinger of pestilence. The winter cold, though encouraging typhus and increasing the suffering of the half-clad famine suffering of the Volga districts, nevertheless has acted also as a germicide. The bodies of the thousands of famine dead freeze stiff when they lay, and they were taken to shallow graves and handled with little danger of contagion except from typhus which is spread by a particular type of louse. The workers had no fear of cholera for the cold rendered any microbes of that disease almost harmless. The spring sun, however, will change all this. Both the Bolshevik government and the American Relief Administration physicians and sanitarians who are active in the famine regions realize the danger that warm weather will bring. They are taking all the steps that their limited facilities accord to guard the people against an epidemic of cholera in the spring.

The Young Women's League of the Jewish synagogue held an enjoyable social time last evening with about one hundred persons present. The affair was held in the basement of the synagogue. Mrs. L. Isaacs was general convener of the committee in charge.

#### MACLACHLAN FOR CHIEF DICTATOR

(Canadian Press Despatch) Sydney, N. S., March 27.—A demand for the setting aside of the constitution of the United Mine Workers and the naming of J. B. MacLachlan as "chief dictator" of the miners of Nova Scotia for the period of the present fight with the operators was put forward tonight in resolutions adopted at mass meetings of Caledonia, Dominion No. 4 and Dominion No. 2 locals, all large and influential divisions of the United Mine Workers. At Dominion No. 1 President Robert Baxter and W. P. Delaney were hissed down and refused a hearing while the miners voted for MacLachlan as chief dictator. At New Waterford No. 14 colliery has officially adopted MacLachlan's policy of striking on the job and the movement seems to be gaining headway throughout the Glace Bay and New Waterford areas.

The annual meeting of the Thorold Fish and Game Club was held last evening in the office of the secretary-treasurer. The meeting was largely attended and routine business in connection with the plans of the club for the season was transacted. The election of officers also took place last evening and resulted as follows: President, Frederick Logan; vice-president, W. G. Gunn; secretary-treasurer, George T. Polly; directors, Donaldson Hunt, Dr. L. deV. Chipman and A. W. Estey.

#### BIG ALLOY STEEL PLANT FOR SARNIA

New Company Incorporated with Authorized Capitalization of \$15,000,000.

Toronto, March 27.—The Dominion Alloy Steel Corporation, Limited, incorporated under the Dominion Companies Act, with an authorized capitalization of \$15,000,000, will establish a plant at Sarnia, Ont., and undertake the production of alloy steel in Canada. The enterprise will be an important addition to Canadian industry. According to plans made public today, construction of a plant at Sarnia capable of turning out 50,000 tons annually of alloy and high carbon steels for motor and allied manufactures will be undertaken at once. The work will be financed by the sale of \$3,500,000 eight per cent. cumulative preference stock of the company. It is understood that of this amount \$2,000,000 has been underwritten in Detroit and Cleveland and the balance of \$1,500,000 will be handled in Toronto and Montreal by a syndicate of three Canadian investment houses.

The new company will have associated with it business men who are well up in the steel industry. While the officers have not yet been named, it is understood that George A. Simpson, of Hamilton, formerly sales manager and special representative of the Steel Co. of Canada, will be one of the vice-presidents, and will act as general manager. Other directors so far named are the following: Harry B. Jones, Canton, president of the United Alloy Steel Corporation; C. Harold Wills, Marysville, Mich., formerly chief engineer Ford Motor Company; J. J. Mahon, Newark; Sir William Mac-

#### N. S. Miners Badly Led.

(Toronto Globe)

The executive board of the Nova Scotia district of the United Mine Workers has voted, four to three, in favor of the limitation of output as a means of waging war on the British Empire Steel Corporation, which owns the mines, through its subsidiaries. The four men responsible for the decision are bad advisers and dangerous leaders. They are counselling a form of sabotage as immoral as the destruction of property. In some European countries this practice, called "cat's paws," is adopted in the mistaken belief that it provides work for more men—as though it were possible to pay a worker more than the value of his output. The leaders of the Nova Scotia miners have no such motive. They aim to cut coal production to a point below the level of profit so as to compel the owners to accept the miners' terms. The federal minister of labor was justified in making an indignant protest when he learned that such a course was advocated by the miners' district secretary.

The dispute originated in the company's attempt to reduce wages by twenty-five per cent., on the plea that the cost of producing coal at wages 120 per cent. greater than in 1914 had become higher than the market price. A board of conciliation was appointed under the Industrial Disputes Investigation Act, and the majority recommended wage reductions ranging from 12 1/2 to twenty per cent. The representative of the miners on the board proposed a reduction subject to a minimum wage of \$3.50 a day. The men have continued working, but have not accepted the

majority award. The Canadian people will be loth to believe that they will try to force their employers' hand by the methods advised by their executive, and sully the honorable record of organized labor in this country.

The fire department was called out last evening by a still alarm to extinguish a small blaze in the roof of a house in Duke street, w. e., occupied by Mrs. Von Richter. The fire did not do much damage and was easily extinguished by the chemical engine.

#### POPE'S GIFTS TO BELGIAN KING AND QUEEN SELECTED

Rome, March 28.— Pope Pius has selected the presents he will give to the king and queen of the Belgians during their forthcoming visit to Rome. King Albert will receive a mosaic representing the famous coliseum, and Queen Elisabeth will be given a beautiful piece of tapestry representing the Madonna, by Crivelli. Crown Prince Leopold will receive a smaller mosaic representing "Aurora," by Guido Reni.

Conditions surrounding the milk supply of several dealers are being investigated by the board of health. A few cases of child illness have been reported within the last few weeks but there has been no direct connection established between the milk and the sickness. Dr. Warwick said yesterday that with the approach of warmer weather it would be necessary to take even more precautions than during the winter.

**Tonight's Game.**  
Toronto, March 28—Although St. Patrick's will not be able to use Eddie Gifford in tonight's game they are supremely confident of the result, as they believe they are now in their usual stride. Harry Cameron, one of the leading goal getters in the N. H. L., will be back in his usual place on the defence, but Ken Randall, the star local forward, will not be able to play. The demand for seats has never been exceeded.  
**Lauds Canadian Stand.**  
Boston, Mass., March 27.—Canadian hockey authorities are absolutely correct on the controversy which exists between the United States and Canadian officials and which has held up the proposed inter-national series for the Willis trophy, according to Charles E. Parker, a local hockey authority. In a statement issued this evening, which doubtless will be carried in the local morning papers, Parker says:—

"Canadian hockey authorities have administered a much-deserved slap to President Hadcock of the United States Hockey League and the system under which he and his associates conduct, or permit to be conducted, our so-called amateur hockey."  
"They, the Canadian officials, very abruptly halted plans for a hockey world's series between the Toronto Granites, winner of the Canadian amateur championship, and the Canadian team which won the United States title, the Westminsters of this city. They did the very proper thing, the one thing that amateur hockey needed in this country and this city."  
"While disappointment over their action is felt by the Boston Arena, which had visions of acquiring many thousands of dollars through such a series, and by local hockey fans of Canadian blood, who are displeased by losing the opportunity to witness many of their countrymen in such important roles, time will prove what a blessing such a move was for the good of hockey in this country."  
"Those of Canadian birth who are responsible for the clubous Westminister Hockey Club are indeed proved to be of a remarkable degree of, in addition to losing the possible glory of a world's title, they will miss the ludicrous percentage cut in the gate receipts, which under our amateur system, falls to the lot of contesting teams."  
"But clear-headed and fair United States hockey followers, who disapprove of what amounts to a checkmate on the team hockey and league approval of the importation of Canadian players at the expense of developing a truly United States game, and they see in the majority by far, applaud the Canadian authorities for their fine and absolutely correct action."

**Is Champion.**  
Boston, March 28.—Wm. Allen of Boston, was declared amateur heavyweight champion of New England last night after winning one bout in the tournament at Mechanics Building. He defeated Jos Conley, of Boston, and the 18 other entrants in the heavyweight class draw.

**Bout in Hamilton.**  
Hamilton, Ont., March 28.—Peeking away with his left, Bobby Eber gained a decision over Mickey Delmont, bantamweight champion of New Jersey, in a ten-round bout here last night. Delmont said after the bout that Eber was the most persistent opponent he had ever boxed. Eber out-boxed Delmont from the start and only the gong appeared to save the New Jersey champion in some rounds.

Des Lacs, N. D., March 28.—Women swept the boards in the municipal election, winning by a two to one ratio. The officers of chairman of the village council, two trustees, treasurer, marshal and justice of the peace all went to women candidates.  
"Bigger, better and cleaner Des Lacs" was the women's campaign slogan.  
**WOMEN'S CANADIAN CLUB.**  
The executive of the Women's Canadian Club met yesterday afternoon at the residence of the president, Mrs. W. Edmond Raymond, in Germain street. Arrangements were made for the visit of Mrs. E. B. Sunder, wife of Dr. Sunder, of Woodstock, who will address the club this week and while in St. John will be the guest of Mrs. H. A. Powell. Reports were received the visit of Miss Helen Mowatt, of St. Andrews, who will be the guest of the club at luncheon and will speak of an exhibit of the products of the Charlotte county cottages. Miss Mowatt is to be entertained by Mrs. John McMillan while she is in St. John.  
**FAREWELL SOCIAL.**  
A farewell social was held last evening in the Colongy street Christian church in honor of W. J. Hawkins and family, who are to leave for Black's Harbor today. After a very appropriate speech by the pastor, Rev. E. J. M. Appleman, the following programme was carried out:—Piano duet, Miss Sarah Appleman and Miss Helen Mowatt; reading, Miss Grace Dagle; dialogue, Roy Stackhouse and Bruce Mealey; reading, Clarence Horton; reading, Miss Phyllis Carson; piano, Miss Sarah Appleman; reading, Cecil Mealey; reading, Ronald Northrup; violin solo, Cecil Mealey, accompanied by Miss Muriel Leonard; reading, Bruce Mealey. The principal feature of the evening was a presentation of a purse to Mr. Hawkins by Cecil Mealey. Mr. Hawkins responded very feelingly. After refreshments were served the evening was brought to a close by singing God Be With You Till We Meet Again.

**FAKE AUTO THEFTS BARED BY POLICE**  
Four Arrests Made in Investigation of Plot to Defraud Insurance Companies.  
New York, March 23.—Extensive frauds against insurance companies were revealed in admissions by officials at police headquarters concerning an investigation of life auto squad of fake thefts of at least fifty autos in recent months, which were caused to "disappear" to enable the original owners to collect insurance. Part of the evidence, in the hands of the police includes, it is said, a Cadillac sedan, which was insured for \$5,000, and which the police bought for \$100 from the alleged plot-weaver, who has made an alleged confession that he was authorized by his owner to dispose of it.  
The police say the owner of this car is Barnett Klar of 1,164 Forty-seventh street, Brooklyn, a wealthy realty operator, with offices at 320 Broadway and a West Twenty-ninth street. Klar, accompanied by his attorney, surrendered and was released in ball of \$1,500 by Justice Wasservogel to wait the action of the grand jury.  
Three others are under arrest. One is Max E. Cohen, a manufacturer, at 40 Bond street, whose car was insured in the Home Insurance Company for \$1,200, and which, the police say, they also bought for \$100. Klar's car was insured in the Century Insurance Company for \$5,000. Both of the owners are charged with attempted grand larceny and alleged violation of Section 1,202 of the Penal Law, which relates to filing a false claim for insurance.  
The other prisoners are Joseph Singer, a chauffeur, of 608 Eagle avenue, Bronx, and Samuel King, a salesman, of 113 East 118th street, from whom the police bought the two cars. Both have been indicted and both have become witnesses for the prosecution. It is said, which is being conducted by Roy Weller, attorney for insurance companies, and Assistant District Attorney Hastings.

**HALIFAX BOXING**  
Halifax, March 27.—Purcell's sensational knockout of Fader after two minutes of boxing; O'Grady's win over McGrath, and the defeat of Champion Batter Grey in the 118 pound class were the outstanding features of the Nova Scotia amateur boxing championships here tonight.

**STEEL MEN IDLE**  
Sydney, N. S., March 27.—Sixty more men, principally employes of the mechanical and car repair shops, were laid off by the Dominion Iron & Steel Company this afternoon. There are now about 1,500 men working part time, instead of the 4,000 employed in normal times.  
**HUSBAND SUES MINISTER.**  
He Alleges Spiritual Adviser Stole Wife's Affections.  
Baltimore, March 28.—William H. Blondell is suing the Rev. John W. Pitcher of the Pentecostal Church for \$10,000 for the alleged alienation of the affections of Mrs. Blondell. He avers that the clergyman in the guise of spiritual adviser to Mrs. Blondell induced her to leave her home.  
Mrs. Blondell is reported to be engaged in evangelism in Southern Maryland.

THE GRAND JURY AND ITS DUTIES

Functions of Old English Institution Defended—Its Abolition Would Put Dangerous Power in the Hands of Officials and Government.

The grand jury, as part of the machinery for administering justice in Great Britain, was suspended during the war. The suspending act has expired, and the fact has called for a discussion of the usefulness of such an institution.

The institution of the grand jury rests upon the principle of the common law that a subject is not to be brought to trial by the act of the executive or any officer representing it, but only through the presentation of a jury drawn from the community.

A grand jury, though summoned to investigate supposed crimes in the interests of the crown, as head of the state, might nevertheless, as the form of their oath is sufficient to show, be informed of such offences by any private person, or might even (though this may be obsolete) act upon their own knowledge.

The functions of the magistracy in the preliminary stages of criminal proceedings were and are different both in origin and nature.

On the other hand, the public interests, represented by the prosecution, are also involved. It must not be forgotten that many grave matters are triable upon indictment besides the common crimes which popular imagination principally regards.

From the above short outline of the position it will be seen that the popular notion that the only function of a grand jury is to revise a commitment by magistrates is wholly inaccurate. A very little thought will show that this system has great significance, both from the point of view of the accused and from that of the prosecution.

In view of the considerations stated above, sweeping pronouncements upon the utility of grand juries are somewhat hasty and superficial. On the other hand, the system is undoubtedly cumbersome and does involve some waste of time and money.

The idea that a judge should originate a criminal accusation, another of the devices of the Grand Jury Suspension Act,

Further evidence is forthcoming, on a later occasion the indictment can then be found and a miscarriage of justice due to premature commitment is prevented. It is believed that this occurred fairly recently.

A Constitutional Right.

The first point that strikes one in this system is the novel power it gives to the executive. The attorney or solicitor-general has only to direct that an individual shall be tried for any offence, from treason downwards, and the trial takes place. This replaces the law under which such a result could only be obtained by the finding of a grand jury after a charge upon the matter by a judge in open court.

One hears it said that English justice is so pure and merciful that there is no longer of anyone being convicted upon a charge which should never have been brought, and, after all, it is said, there is always the Court of Criminal Appeal. It may, however, be permissible to question the soundness of a principle which would neglect the hazard of unjustifiable executive accusation in reliance upon no harm being done in the end.

The idea that a judge should originate a criminal accusation, another of the devices of the Grand Jury Suspension Act,

This made the committing magistrates or a judge or a law officer alternative accusing authorities.

Power of The Executive

The matter, however, does not end there. It has already been pointed out that the scope of the remedy by indictment extends far beyond everyday crime. Moreover, as every lawyer knows, the range of the criminal law is not confined to statutes. Outside of the statute law there is the wide class of misdemeanors at common law—a valuable chapter in our jurisprudence.

On the other hand, the system is undoubtedly cumbersome and does involve some waste of time and money. The question is whether for general purposes any other satisfactory accusing authority can be found. It is popularly thought, in a loose way, that the committing magistrates act in that capacity. This, as has been shown, is wrong. But at least it is implied that they ought to, and it is taken for granted that under the Grand Jury Suspension Act they have.

The idea that a judge should originate a criminal accusation, another of the devices of the Grand Jury Suspension Act,

may be shortly dismissed. A judge ought not to be an accuser, and in practice, unless he is to be the judge who is going to hear the case (which is unthinkable), he has not the materials. There remains, therefore, the question whether the putting of a person on trial is to be left finally to the magistrates.

It is remarkable that this has never been expressly proposed. The principle that the dismissal of a case by magistrates should not be a final bar to a prosecution was recognized by the Vexatious Indictments Acts and the Grand Jury Suspension Act itself. Surely few would, upon consideration, favor the idea that the fate of criminal proceedings should rest finally with the majority of a local bench, whether the question be looked at from the point of view of the prosecution or of the accused.

A Suggested Change.

Upon a review of the whole matter from both points of view, there seems much to be said for the suggestion that while the grand jury system should be retained at assizes, a system somewhat on the lines of the act just expired should be substituted at quarter sessions. These are held four times a year in every county (and sometimes in parts of counties). They are also held in numerous boroughs. In the metropolis they occur every fortnight. It is at quarter sessions that the burden of the grand jury is most felt and its practical utility most remote.

Cut Down Your Fuel Bills

WHETHER you cook with coal, wood, oil, gas or electricity, the principle is the same. SMP Diamond Ware and SMP Pearl Ware require less fuel than all-metal cooking utensils. The potatoes begin to bubble sooner. The kettle boils sooner. If you are using gas, oil or electricity, you may turn off the burners sooner. If you are using coal or wood, you may check the drafts sooner. The enamel coating holds the heat.

Test it for yourself.

SMP Diamond or Pearl WARE

A Face of Porcelain and A Heart of Steel

If you want to run your kitchen economically, use the heat-retaining Diamond or Pearl Ware. It saves fuel.

Try This Test In Your Kitchen

Take an SMP Diamond or Pearl Ware saucepan and an aluminum or copper saucepan of the same size. Measure two quarts of cold water into each. Set them on the fire—coal, wood, gas, oil or electric—and see which comes first to a boil.

In a recent test over an electric range with exactly the same heat, the water in the SMP Enameled Ware saucepan boiled in 10 1/2 minutes, while the water in the other took 18 minutes—nearly twice as long, and therefore used nearly twice as much electric current.

Diamond Ware is blue and white outside, all white inside, with three coats of enamel. Pearl is grey and white with two coats of enamel. Save fuel and ease your kitchen work by using Diamond or Pearl Ware. They wash easily and wipe sweet and clean like china.

Do you know that a Diamond or Pearl Ware pot that sold for \$1.50 last year, can be bought now for 90 cents?
