'Clearing Rapidly,' Washington Hears

Paris Advances Cause Relaxation of Tension Over the Italian Situation; Premier, Meanwhile Warmly Acclaimed in Italy

Washington, April 26.—The Italian situation in the peace negotiations is "clearing rapidly," according to advices from Paris received today at the White House.

It was stated that the action taken by President Wilson was "endorsed everywhere." Just what developments were taking place were not disclosed, but it was evident that the message, the tension which has prevailed in administration quarters for the last three days was considerably relaxed.

INTERESTING BITS FROM THE INSIDE

Paris, April 26, 5.35 p. m.—(By the Associated Press)—The peace conference has been severely shaken by the Italian crisis and the extent to which its work will be affected is receiving the anxious attention of the delegates. The American storm has broken and the air has cleared in that quarter, but in other quarters a less optimistic view is taken, the feeling being that an element of confusion has been introduced which will result in more or less delay at the moment the German delegates are arriving.

In French and Italian circles the situation is regarded as serious and some quarters even represent it as desperate, but this extreme view is not generally held.

Several of the committees met today with the Italian members present, and the secretary of the American delegation said no notice had been received of the withdrawal of Italian participation. Pending formal action, no break in relations would be assumed, it was added. But the departure with the Italian delegates and announcement of the departure of Foreign Minister Sonnino and former Minister Salandra, to occur on Saturday, creates an anomalous situation, as it is not known whether Italy will be represented at the plenary session of the conference on the 29th or the 30th of the treaty, including the League of Nations covenant, will be finally signed upon.

French reports represent the final meeting between President Wilson and Premier Orlando before the latter's departure as highly dramatic in character. One version is that the Italian prime minister in addressing the American president, said: "You have contested the authority of the Italian government before the world and I am ready to go before the representatives of the Italian people and say to them: 'Decide between Mr. Wilson and me.'"

To this President Wilson is reported to have replied: "That is certainly your right." In American quarters it is said that the foregoing version of the incident is probably a reflex of Premier Orlando's public statements in which he referred to the president addressing directly to the people.

It is also said that the chances of reaching an accord at the final meeting were good if Premier Orlando had remained a half hour longer. But the approach of the probable result worried him and his feeling that he should consult the Italian people finally caused him to withdraw while the plan that might have brought an agreement was still under discussion. The basis of this presumptive accord is said to have been the partial internationalization of Fiume, like Danzig, with the Jugos-Slavs occupying the Dalmatian mainland and the Italians the outlying islands.

The territorial issue is now felt to be less important than the personal issue which the Italian premier has raised by his plan for going before parliament and asking a vote of confidence. Should this be done it is thought probable in some quarters that it would renew the Italian issue before the council in a more pronounced form than either President Wilson or the council as a whole has thus far been willing to admit. Should it not be given, the probable result would be cabinet changes, bringing a new delegation, with a new policy, to the conference.

There are evidences that President Wilson has avoided using anything which might be construed as economic pressure upon Italy, although some quarters suggested that he might do so. Opinions in Austria.

Vienna, April 24.—(By the Associated Press)—The withdrawal of the Italian legation from the peace conference was received here with elation, the people generally being glad to see the Allies in conflict with each other. The Neue Freie Presse says:

"Premier Orlando is bluffing, probably in order to square his position in Italy toward the interventionists. It is impossible for Italy to withdraw, as she is still by the Americans."

The newspaper adds: "President Wilson's position is based on the idea of right and justice, and it is hoped he will stand in the same way toward Bohemia and Tyrol, where the people will be drawn to desperation if subjected to Czech or Italian control."

Appeal to Clemenceau.

Rome, April 25.—(Havas Agency)—Professor Luigi Ezzetti, former premier and minister of the interior, has sent a telegram to Premier Clemenceau of France, appealing to his friendly sentiments toward Italy and asking him to exert his best efforts to obtain satisfaction of Italy's demands. The telegram concluded: "All Italy, in this hour of passion, trusts in you."

Will Back to Orlando.

Rome, April 26.—Senators are reaching Rome on all trains and show confidence that the cabinet will approve Orlando's action in leaving the peace conference.

Not Wilson Street Now.

Rome, April 25.—A demonstration today at Genoa in protest against President Wilson's attitude, culminated in the changing of the name of the street that had been named after the American president to "Fiume street."

THE STORY OF THE DUMBBELLS, THE FAMOUS CONCERT PARTY OF THIRD CANADIAN DIVISION

Top row—John McCormack, William Redpath, Elmer A. Belding, Frank Brayford. Second row—Bertram Langley, A. W. Plunkett, Ivo E. Ayer, A. W. Murray, George Thorne, jr., Ross D. Hamilton, William L. Tennent. Seated—E. G. Charter.

Drawn From All Branches of Service—Maritime Provinces Well Represented—Appeared Before King Albert and Queen Elizabeth—Made Great Hit in London Theatres and in Mons and Brussels—Every Performance in France Free to the Soldiers—Gen. Lippe's Tribute.

Much has been said and written about the contribution to the morale of the troops overseas by the concert parties whose entertainments were such a welcome diversion for the men when they came out of the trenches. The most famous of the Canadian concert parties was that of the 3rd Division known as The Dumbbells. Its members were selected from all branches of the service and all its expenses paid by the 37,375 Canadian and was the only divisional party whose performances were always free to the soldiers.

WILL BRITISH WEST INDIES COME INTO CANADIAN FEDERATION?

Kingston, J. A., 26.—Harry J. Crowe of Newfoundland addressed a gathering here last night relative to a commercial and political union between Canada and the British West Indies. He said the Canadian premier was willing to receive a deputation from the islands to discuss the matter.

WOMEN'S COUNCIL Annual Meeting Begun—Eloquent Address by Mrs. A. E. Smith

The annual meeting of the Local Council of Women was begun in the lecture room of the Natural History Society at 11 o'clock this forenoon, Mrs. L. Atherton Smith, the president, in the chair and Mrs. Amelia Haley in the secretarial position with Mrs. Alfred W. Estey as corresponding secretary. The session was opened by the recitation of the Lord's Prayer and the reading of the minutes.

The holding of a morning session was a departure and an outcome of experience of former years when congestion of business in one afternoon session proved very unsatisfactory. The attendance was fairly large but this afternoon the lecture room is packed with representatives.

The secretary's report stated among other things that the Local Council of Women is made up of twenty-eight affiliated organizations, representing a membership of close to 4,000 women. The treasurer's report showed a cash credit balance and told of the various money-raising activities in which the council engaged last year, notably the effort for the Children's Aid Society, the gift for Princess Patricia, etc.

A WARNING TO CYCLISTS. Commissioner Thornton remarked this morning that the revival of cycling in St. John has been brought to the attention of the police by the number of young folk who are using the sidewalks as speedways. This is contrary to the law and reports, arrests and fines are among the possibilities for offenders.

Not Coming to St. John. New York, April 26.—A deputation of fifteen Liverpool city council men and engineers will leave England on May 1 on the steamship Caronia to study electric railways, lighting equipment and improvement in Canadian and United States cities, Toronto and Montreal are included.

Sergt. Good of Bathurst Here For Discharge

Arrives Unheralded and Hopes to Get Quietly Away on Train for Fredericton This Evening—He and Two Others Captured German Battery

One of this province's greatest heroes, Sergeant Herman J. Good, V.C., arrived in St. John from Bathurst last night. He was in the city all today, the most of which time he spent in getting his discharge which was an exceptionally lengthy procedure, as everybody, everywhere, wished to have the honor of shaking his hand and congratulating him.

Sergeant Good was gradually, though reluctantly led to talk of how he won the Victoria Cross. It was hard to withstand the questioning hail. He spoke very modestly, merely mentioning in a matter of fact way that he had captured an artillery battery with the aid of a couple of men. Just imagine! Three men capturing a whole artillery battery!

Those who were able to get away ahead of the rest, but the determination to capture the battery was the same. They rushed the battery, scattering the garrison and killing many by their directed bombs.

Sir Thomas White Takes Part Charges That Opposition Listens to Promptings of Private Ownership—Lemieux Replies—Looked Like Closure

Ottawa, April 25.—Daniel D. McKenzie was enthusiastically cheered by his followers when he crossed swords with Dr. Michael Clark of Red Deer in the House of Commons this afternoon and when the members took recess for dinner they were acclaiming him as the savior of the great railway.

A little while before this stirring episode, the New Brunswick hero had already captured three German machine guns, single handed, so one may be already certain that the Victoria Cross he has won represents for him wonderful courage, absolute fearlessness and magnificent devotion to duty.

Good's two brave comrades were taken there in the Victoria Cross. He went over originally with the 53rd Battalion from New Brunswick, a regiment which was broken up in England, and was drafted to the 18th Royal Highlanders early in 1916. He has been through the battles of the Somme, Hill 70, Passchendaele, Vimy Ridge and Amiens. In the battle of the Somme, in 1916, his brother, Ernest, who was in his own platoon, was killed.

Re returned to England from France in October last year and was invested with the V. C. by the King at Buckingham Palace on October 29.

A Times reporter had the honor to conduct him from the Arras station to his headquarters, where he was warmly received by General McDonnell and the staff, and had an audience with him of more than half an hour. From there he went to the pay office, where he received his first month's gratuity. Everywhere he was effusively welcomed.

FOR BALKAN HOSPITALS Mayor Hayes had an interesting visitor this morning when Mrs. H. O. Aldridge called upon him in connection with her campaign in the interests of hospital work in Serbia, Montenegro and Macedonia.

BANG IN POLICE COURT In the police court this morning while a witness was giving evidence an amusing incident happened. A bottle of two per cent beer was on the window sill in the court room and suddenly it blew the cork to the ceiling. Considerable commotion was caused and comments were made.

PANTRY SALE A pantry sale under the auspices of the Windsor Chapter of the I. O. D. E. was held in the Imperial Theatre last night for the benefit of patriotic purposes. The sale was in charge of the regent, Miss Lawson. The tables were loaded with a large assortment of dainties and home-made candy.

JUDGMENT AGAINST DOCTORS Judgment was given today in the case of a local doctor charged under the liquor act as before mentioned. Magistrate Ritchie said that Mr. Justice Stevens in an English case said the courts should consider the object of the enactment which in the case before him was to support temperance. The same was the object of the intoxicating liquor act in 1916. His honor concluded: "I have seen the witnesses, have heard the testimony and have considered the case and after careful reading of the evidence, I have no doubt whatever but that there was a violation of the law. The defendant will be found guilty and sentenced to six months in jail."

The doctor asked for a copy of the proceedings and some words used brought an apology later.

SIR THOMAS WHITE TAKES PART

Charges That Opposition Listens to Promptings of Private Ownership—Lemieux Replies—Looked Like Closure

Ottawa, April 25.—Daniel D. McKenzie was enthusiastically cheered by his followers when he crossed swords with Dr. Michael Clark of Red Deer in the House of Commons this afternoon and when the members took recess for dinner they were acclaiming him as the savior of the great railway.

It all happened when "Red Michael" started out to give Hon. Rodolphe Lemieux rousing Mr. Lemieux has been saying that the government was acting like a lot of drunken sailors with regard to the building of new railways in the west. He added that it would not earn enough money to buy axle grease. He was just as wrong in his day as they were in theirs, and it was only because of wonderful possibilities, would give solid support to a government which was making an honest attempt at government ownership of a great railway.

Mr. McKenzie observed that Saul of Tarsus has become Paul the Apostle "for the inklers" scarcely dry on a speech made by Dr. Clark two days ago in which he warned the government that every ten cents spent must be absolutely necessary. Of course the member for Red Deer was able to grasp the gravity of a \$500 salary increase to a deputy minister but when it came to spending millions on railways he "at sea" and falls into the current and goes along with it. It was no use to economize on ten cents pieces and plunging in expenditure of millions. The Grand Trunk Pacific was located in the glorious west in which Dr. Clark prided himself so much and it was in the hands of a receiver. Dr. Clark was a Conservative Englishman, Conservative in the sense of being careful when he came to this country, but it was only recently that he had become a Conservative in politics. (Laughter.)

Dr. Clark—If it will remove his impression that I succeeded I can say quite sincerely that he is by far the nearest approach to a prime minister that I can see when I am looking at the faces of the men on his side of the house."

Dr. Clark—"I want to assure my hon. friend that if I seemed to sneer it was furthest from my thoughts."

Hon. Jacques Bureau—"But it was on your face!"

Dr. Clark—"If it will remove his impression that I succeeded I can say quite sincerely that he is by far the nearest approach to a prime minister that I can see when I am looking at the faces of the men on his side of the house."

Dr. Clark—"With regard to his prophecy that I will be prime minister before I am I can only fall back upon the saying of the well known Mrs. Magalloway, giving it, however, improper emphasis, that comparisons are proverbially odious."

GOOD THINGS COMING TO THEATRES OF ST. JOHN

MILDRED HARRIS IMPERIAL MONDAY

Story in Which Defiant Atheist Preaches Word of God in Saloon

"On Sunday morning I shall preach the word of God in this very hell-hole of sin—I shall conduct divine service in this saloon."

When "Eagle" Ryan, one of the most notorious outlaw leaders in the west—now masquerading in the garb of a minister in order to promote a plot to steal a \$50,000 gold ingot—made this announcement in the "Wild Dog" saloon in Oatman, the crowd stood aghast. Some of the men sneered, and even those who had seen him whip Ben Grault, the bully who controlled the town, shook their heads doubtfully.

But Ryan did preach a sermon on Sunday morning. "Eagle" Ryan, the man whose aversion to belief in God had prompted him openly to defy the Creator to master him, spoke with an eloquence that surprised even himself—an eloquence that swayed that crowd of rough men as nothing else ever did. He went straight to their hearts with a story of his own youth, spent in a reform school, and he found in their enthusiastic response that joy which comes with a knowledge of power.

For the moment he forgot his aversion to belief in God, forgot about his plot to steal the gold, and thought only of the new power he had gained and of the girl he had grown to love. Through her tender influence he became a changed man. He determined the proposed theft should not take place and he carried this determination to the point of defying his own gang when they tried to go through with it. Then he confessed to the girl.

It's a wonderfully inspiring story and it has been filmed in "When a Girl Loves," the six-act Jewel Program in which beautiful Mildred Harris—Mrs. Charles Chaplin—will appear at the Imperial Theatre on Monday and Tuesday.

FINAL INSTALLMENT

CANNIBALS PICTURES

At the Unique First Three Days Next Week—Most Sensational Feature of the Year

Thousands will remember the wonderful showing of the Unique Cannibals pictures taken by Martin Johnson in the South Sea Islands, many regretting at the time that this second and final instalment was not available for the following week.

At much expense, however, the Unique is fortunate in securing the further adventures and escapades of Mr. and Mrs. Johnson from death at the hands of the cannibals. Never, it is said, has anything indicating the untold possibilities of motion pictures been conveyed to the screen as in these final five reels of the cannibals in the face of South Seas and doubtless all who saw the first chapter and hundreds more will avail themselves of the second opportunity. Matinees at 2:30, evenings, 7 and 8:30. Prices, matinee 10-15; evening, 15-25.

YOU'LL LIKE IT AT THE OPERA HOUSE TONIGHT

What is the Opera House like for tonight? Some people still ask this question although the great majority know that it is bound to be all right, from the high standard that has been maintained week after week, to the long period. The programme for tonight includes Mme. Clifford, the mind reader and psychic medium, who tells past, present and future happenings, answers questions from the audience and amazes even the sceptics by her uncanny knowledge of things. There then is the Hawaiian Duo in a high class singing offering, something real good, too, with an appeal to music lovers; Jimmie Duffy, a "funny" fellow who stories a little, sings some and plays on the saxophone; and a rattling good comedy sketch of rural happenings by Billy Lehr and Company, a quartette of good fun makers. The sixth chapter of the western serial, "The Terror of the Range," makes up the picture part of the programme. Tonight at 7:30 and 9-10 o'clock.

BILLY REEVES COMING

The big feature of the Opera House vaudeville programme opening on Tuesday next will be Billy Reeves and supporting company in an uproarious farce comedy, "The Right Key, but the Wrong Flat." Of course you know all about Billy Reeves, the famous motion picture comedian and star from the English music halls. You have laughed at him hundreds of times in the comedy pictures—now you will have a chance to see him in the flesh on the Opera House stage.

PIANIST OF NOTE

For those who appreciate piano talent the following will be of interest—Miss Schuren is an accomplished and pianist of merit. Her execution was perfect, and her ability to adapt herself to the mood of composer and singer made her a worthy support to the singers. Her technique is thorough, and of beautiful clarity.—From the Columbus (Ohio) State Journal.

Miss Schuren is with the New York Light Opera Singers, coming here May 8 and 9 at New Theatre, Cliff street, in the new Cathedral school.

GERMANS SAY THAT 733,000 DIED BECAUSE OF ALLIES' BLOCKADE

Berlin, April 26—(By the Associated Press)—The imperial health ministry has issued a memorandum on the results of the blockade. It says that from 1915 to 1918, as a result of under-nourishment, 768,000 persons died in Germany and a further 150,000 died from influenza, owing to the loss of their power of resistance.

The fall in the number of births during the war exceeded 4,000,000 for the empire, and more than 2,500,000 for Prussia.

The memorandum calculates at 56,800,000 marks the damage inflicted by the hunger blockade, in which it includes such curious items as unborn people and the loss of wages due to reduced working capacity.

FURTHER BENEFITS FOR WAR VETERANS

Ottawa, Ont., April 26—The special prices granted by manufacturers of farm implements, harness and other farm accessories to soldier settlers who apply for the land and loan benefits of the Soldier Settlement Act will be extended to any bona fide settler who is eligible to secure the benefits of the Act by reason of his own military service, but is unable to purchase his own land.

Heretofore only those soldiers who had served their military term and were unable to purchase their own land and pay the cash requirements of the Act were eligible.

Each applicant under this new arrangement must submit documentary proof of military service, also proof by affidavit or statutory declaration that he is a bona fide settler residing on and farming his own land, and the goods applied for will be for his own use and benefit. The same arrangements have been made with regard to the purchase of stock through the board's live stock department.

JITNEY'S COLLIDE, SEVEN KILLED

Camp Merritt, N. J., April 26—Seven were killed and four injured when two jitneys, each carrying nearly a score of passengers, crashed head-on into one another in the government reservation here last night. The drivers were held without bail as neither was able to explain how the accident occurred.

The dead included Major Stanley A. Baldwin.

THE RAILWAY BILL IN OTTAWA COMMONS

Ottawa, April 26—At ten minutes to three this morning all the non-contentious clauses were passed, and the postponement of the contentious clauses was moved by Hon. Arthur Meighen. This left the way clear for the application of the closure rule, and he moved that on Monday the bill should be the first order of business and that its consideration should not be further postponed.

Dr. G. G. Melvin, chief medical health officer of the province, left yesterday for Westmorland county in connection with a rather serious outbreak of smallpox in the adjoining parishes of Sackville and Dorchester.

SPRING OPENING

In New Housefurnishings Extension and Art Section of M. R. A. Ltd. Today

Home loving people of St. John who visited this delightful new room yesterday found them a most interesting and many improvements, recently made there, all of which are so effective in helping customers to see to the best advantage many materials or articles under their consideration.

New glass show cases and fixtures, increased space and tastefully furnished alcoves together with a very charming display of all that is new in MADE-UP CURTAINS, CURTAIN MATERIALS, RICH FABRIC FOR HANGINGS, MATTERING, CITY GLASS, CHINA, SILVERWARE, ORNAMENTS, FLOOR AND TABLE LAMPS, odd pieces in BRASS, MAHOAGANY, and IVORY make this entirely new section attractive indeed.

This is only one of the many improvements made in this progressive store, of higher education of women in the problems that pertain to our national life. It deals with the very fundamental principles of Canadian citizenship. At the National Council meeting in Ottawa, the ladies from all over our dominion displayed their every righteous cause—board, immigration, education, citizenship, child welfare, reconstruction, soldiers' dependents, land settlement schemes, the metric system, vocational training, single tax, juvenile courts, mothers' pensions, etc., etc.

"May I ask what does the ordinary woman of today know about these vital problems? We are now citizens bearing the responsibilities of such. At the national meeting it was unanimously agreed to formulate a woman's platform, though not necessarily a woman's party."

"The well-being of the public body, the public mind and the public soul is the duty of good citizenship."

We rejoice today that the many earnest appeals made by the National Council for years to the federal government on behalf of public health, citizenship, child welfare, etc.—appeals which were at first rather derided by some—now almost universal support throughout the land. When the great world conflict was in its climax we all realized that unity was the essential factor in winning the war, and so in like manner the great possibilities of our nation, no less than the future of the world, can be attained only through single purpose, unity of effort and brotherhood of outlook.

The president eloquently closed her address by referring to the sacrifices of the people in blood and treasure since the last annual meeting and made feeling reference to the brave mothers who gave their sons and wives who gave their husbands. She prayed for a broader, more humanitarian national life as a result of the death struggle through which we have passed.

MARINE NOTES

St. John may have a direct weekly shipping service next winter. The Canada Steamships Lines Limited, has entered into an agreement with a French shipping company to establish a service between Montreal and Halifax and a service between Montreal and Havre will be opened in June. If the service is continued all winter it is likely they will use St. John if they get accommodation here.

THE WOMEN'S COUNCIL

(Continued from page 1)

some urgent civil, need presented itself, or perhaps a social welfare matter or the many phases of a city's life demanded co-operation, attention, the larger unit, the parent body stood a ready and responsive army to do the task thoroughly.

"From a long experience in public effort," said Mrs. Smith, "I can conscientiously say that the National Council of Women is in a sense a university for the education of women in the problems that pertain to our national life. It deals with the very fundamental principles of Canadian citizenship. At the National Council meeting in Ottawa, the ladies from all over our dominion displayed their every righteous cause—board, immigration, education, citizenship, child welfare, reconstruction, soldiers' dependents, land settlement schemes, the metric system, vocational training, single tax, juvenile courts, mothers' pensions, etc., etc."

KAISER'S SON REPORTED AT NEW ITALIAN MONTE CARLO

Geneva, April 26—(By the Associated Press)—Swiss newspapers say that Prince Joachim, youngest son of Czar Alexander Emperor, among German and Austrian aristocrats, was in this city without passport, who has fled to the "New Italian Monte Carlo" at Capri, fishing Lake Inganno.

PERSONALS

Captain James Rollins, C. C. S., and Mrs. Rollins, St. Andrews's, Feterboro (Ont.), announced the engagement of their daughter, Jessie Kathleen, to Lieutenant Harry Christie Barker, M. C., of the Royal Canadian Regiment, younger son of the late Mr. H. W. Barker, of St. John.

Mr. and Mrs. Charles T. Nevin left for New York this week to attend the graduation of their daughter Nevin, which takes place from St. Luke's Hospital (N. Y.), April 29.

Mr. and Mrs. Lawrence McMann, who have been spending the last three weeks with the Rev. T. J. and Mrs. Deinstadt, 242 Duke street, leave today for their home in Toronto.

Alexander Gibson, formerly M. P. for York county, N. B., is critically ill at his home in Marysville.

Mr. and Mrs. F. Curran and family left last evening for Toronto, where they will reside in future. Mr. Curran formerly was news agent at the union station.

Mrs. William McLeod of West St. John is leaving this evening for Brockton, Mass., on account of the serious illness of her sister, Miss Hattie Nice.

Miss O'Neill of St. George returned home today after visiting friends in this city.

on the peace conference will appear before the Italian parliament next Monday, according to the Petit Parisien. This newspaper says—"We are able to affirm that whatever the outcome of this session of the Italian parliament, the premier and his fellow delegates will immediately start for Paris and that the Italian delegation will be in full strength at Versailles on May 1."

Demonstration in Turin

Turin, April 26—When Vittorio Orlando, Italian premier, reached here today on his way from Paris to Rome, he was greeted by an immense throng.

"For the last six weeks," he said, "I have been defending Italy's rights, but at last I was conscious that my responsibility had to end with a 'No.' Doubt has been expressed whether this monosyllabic truly corresponds to the thoughts behind it and whether it has echoed in your hearts. How should I have answered?"

"Thereupon there arose a great united shout of 'No,' the whole crowd repeating the word again and again, and waving flags, hats and handkerchiefs. The demonstration lasted for ten minutes. When his train left for Rome at 3:45 o'clock there was great cheering from the people."

PUBLIC WORKS IN NEW BRUNSWICK

Federickton, N. B., April 26—Hon. P. J. Veniot today announced that the programme of work outlined by his department for this year involved an expenditure of more than one and a half million dollars, and this, he said, would provide a great deal of labor for the period of transition from war back to peace conditions.

In the last few weeks, the minister said, he had awarded twelve contracts for permanent bridges and five returned soldiers have been appointed as inspectors on this work. He outlined the proposed expenditures of his department for this year under the following headings: Permanent and ordinary bridges, \$1,000,000.

Permanent roads, \$400,000.

Ordinary roads, \$150,000.

This does not include the road tax money.

Mr. Veniot will go to Ottawa next week to consult with A. W. Campbell, federal commissioner for provincial aid for permanent roads, with reference to the policy to be pursued in the construction of permanent roads in New Brunswick.

HELPLESS, ADRIFT IN A SEAPLANE

Chatham, Mass., April 26—Submarines and submarine chasers set out today to search for a seaplane which became disabled yesterday and which is believed to be drifting helplessly in the sea. Three men were in the machine.

KILLED HIMSELF AT DOOR OF HOME OF GIRL WHO REJECTED HIM

Montreal, April 26—Because Angelina Jeannette, twenty-one years of age, refused to marry him, Steven Lenkenvitch, twenty-eight years of age, a Lithuanian, shot himself dead at the door of her father's house in Howick Westway.

TURNING IMPERATOR OVER TO ALLIES

Copenhagen, April 26—The Tagellish says that the German steamship Imperator will proceed to Cuxhaven today to take on bunker coal and from there will go to England to be turned over to the Allies.

The Y. W. C. A. office in Canterbury street will remain open, although no more troupphers are coming to St. John. It will be used in connection with the Canadian girls in training programme during the summer. Miss Perry, who has been in charge of the port work, has been appointed to take charge of the port work in Quebec.

SQUEEZING THE POOR.

Is it true that quantities of butter are being hoarded to profit by a continued rise in price due to export demand? It is not easy to believe that no action can be taken to reduce the price to a reasonable figure.

And why should the export be permitted when butter is so greatly needed at home? The people have the very best ground for protest against present conditions.

There is another question. Why should oleomargarine be about forty cents per pound here when report says it can be got at eightpence or ninepence (sixteen or eighteen cents) in England?

In street parlance the people of Canada appear to be getting a raw deal. The cost of living is coming down faster in England than in Canada.

The anti-dumping law have abolished competition and enabled combines to fix prices to please themselves. The consumer is warned that he must not talk about the tariff or anybody's profit, or say anything that would frighten capital or the producer.

The feeling grows that Italy will withdraw from the peace conference.

ST. JOHN'S DISGRACE.

The Temple of Honor has invited the Evangelical Alliance to a conference on the question of enforcing the prohibitory law. The action is timely. It is because of a disgraceful public apathy that the bootlegger flourishes.

The state of New Hampshire has determined that all foreign born citizens must learn to speak and write the English language. The state legislature has adopted a bill carrying a sufficient appropriation to organize and carry on a system of what are termed "Americanization schools," which adults who cannot speak and write English must attend.

Of the trend of prices in Great Britain an exchange says—"The ministry of reconstruction is convinced that while prices in Great Britain may be expected to fall from the present war record, it is out of the question that they should fall to anything like the 1914 level in the near future. In fact, the general level for the next decade may be 25 to 30 per cent higher."

Sergt. Good, V. C., came into St. John last evening to get his discharge. There was no announcement of his coming and he wanted none. When a newspaper man this morning suggested that he be introduced to the mayor, and that something be done to do honor to so distinguished a visitor, Sergt. Good replied that he just wanted a quiet day to see St. John with a friend who had promised to go about with him.

Union with Canada is being discussed in Jamaica but is not likely to make much headway.

The promotion which has come to J. Richard Clancy from the Canadian Pacific Ocean Steamships Ltd. means that St. John will lose one of the best and most courteous and popular officers engaged in the winter steamship service at this port.

If there is a lot of snow up there it may as well come down, but why did it wait so long? The grass and the robins are here and the weather is giving them a cold touch.

The Soviet government in Hungary is steadily losing ground. Bolshevism is making no headway in Germany, and even in Russia the murderers are losing ground.

The railway debate took an interesting turn last night when Liberal critics were charged with playing the game of the C. P. R. and trying to strangle public ownership.

HAD HACKING COUGH COULDN'T SLEEP NIGHTS

Hacking coughs are very wearing on the system. The constant coughing disturbs the rest, and keeps the lungs and bronchial tubes in an irritated and inflamed condition.

Don't neglect the hacking cough. You can get rid of it with a few doses of Dr. Wood's Norway Pine Syrup; the most prompt, pleasant and perfect cough remedy known.

Miss Catherine M. McLean, Craft, Sask., writes—"Last winter I caught a heavy cold and was laid up for some time. I had such a hacking cough I couldn't sleep at night. I didn't think I would get over it. One day a friend dropped in to see me and was surprised to see how bad my cough was. She advised me to try Dr. Wood's Norway Pine Syrup. The next day I sent for a bottle, and I soon got relief, and by the time I had taken two bottles, my cough was all gone, and now I am able to do my work again. I don't think there is anything to equal it."

There are plenty of "pine" preparations on the market trying to live on the reputation of "Dr. Wood's." The genuine is put up in a yellow wrapper, three glass tins the trade mark, price 25¢ and 50¢ a bottle. Put up only by The T. J. Bilburn Co., Limited, Toronto, Ont.

ST. PAUL'S JUNIORS. The Juniors of the Women's Auxiliary of St. Paul's church gave a delightful entertainment in the school room last evening in aid of the mission fund for the children of China. Dr. Mabel Huntington was the principal speaker and she talked very interestingly of the life of Chinese children. An excellent programme was given by

Junior members, including Margaret Moore, Jean Dickson, Louise Betz, Muriel Foster, Jean Dickson, Ida Lyon, Gertrude Gunn and Kathleen Woodley. The grand finale was a playlet, "Mother Goose and Her Family as Missionary Workers." Baden-Powell Delayed. The steamer Baltic, on which Sir R. S. Baden-Powell and Lady Baden-Powell had engaged passage, has been held up owing to the strike at Liverpool, with the result that the date of the arrival of these distinguished visitors in St. John is indefinite. In the police court yesterday afternoon the case of Mathew Ramsey, charged with supplying liquor to two men, was dismissed owing to the absence of the liquor inspectors.

DUNLOP Gibraltar RedSpecial BELTING

"The Original Red Belt" "The Long-Grain Friction Belt"

Dunlop "Gibraltar RedSpecial" is the proven benefactor of many an industry in this country which has felt the need of offsetting rising costs by speeding up production and by the elimination of belt trouble.

"Gibraltar RedSpecial" is a real rubber belt. It may be compared to other brands of belts only as a powerful magnifying glass might be compared with the object whose imperfections it brings into the limelight.

The first belts of this brand sold have been in use for years and have proven that scientific research—combined with approximately one quarter of a century's experience in the rubber goods manufacturing industry—could offer no more in belt merits than those features for which this Dunlop Product is so well and favourably known.

We believe Dunlop "Gibraltar RedSpecial" cannot be made better. It is a red, frictioned-surface belt, constructed of the highest grade rubber, and specially-woven duck of tremendous tensile strength. This accounts for its great tenacity, its enduring flexibility and its absolute uniformity throughout.

Provision has been made in "Gibraltar RedSpecial" against drying out and rotting. The richness of the rubber—compounded to retain its pliability indefinitely—waterproofs the duck as well as holds the plies securely together. It also serves to minimize internal chafing due to the constant bending of the belt. All unnecessary stretch is taken out in the manufacturing process.

You will find Dunlop "Gibraltar RedSpecial" Frictioned-Surface Belting doing daily duty the year round in Pulp and Paper Mills, Iron Foundries, Steel and Rolling Mills, Saw and Lumber Mills, Mines, etc., in a truly efficient manner.

We also specialize on Conveyor and Elevator Belts to meet every need.

The Dunlop Unreserved Guarantee. If you have a difficult drive anywhere in your factory drop a line to our Head Office, or to our nearest branch, and we will send a man experienced in belt engineering to consider your requirements. If it is an instance where "Gibraltar RedSpecial" Belting may be suitably employed we will recommend its use, and we will stand behind our recommendation with the fullest guarantee ever issued by a firm producing rubber products.

Heavier than Shepherd Floss. Colors are peacock, asteria blue, cardinal, old rose, white, garnet, burgundy, helio., mid. brown, amethyst, purple, old blue and African brown.

QUEEN ALEXANDRA FLOSS

In Skeins or Laps, 20c. Each
Colors are light blue, Copen., pink, old rose, lavender, purple, yellow, resida, black, white and cream.

NOTE:

Ball Yarn is a time-saving idea. You are saved the tedious work of hand-balling and you are sure the yarn will reach your needles with all its original elasticity, avoiding the loss of good yarns by snarls and tangles. As the ball draws from the centre, you may place it in your bag and use without further handling.

SPRITURED HOUR IN COMMONS OVER THE RAILROADS

(Continued from page 1)
Mr. Bureau-"To the man who makes them."
Mr. McKenzie-"If the hon. gentleman feels the odium he had better move out from where he is sitting. The hon. member for Red Deer (Dr. Clark) wanted to fasten upon the member for Mis-sion the imputation of being in favor of the Canadian Pacific Railway, of being a corporation man, a man who was trying to deprive the people of the best of their rights in favor of some corporation."
Mr. Bureau-"Shame."
Mr. McKenzie-"I am surprised that a gentleman who is usually so fair should in such an adept at small Tory politics."
Mr. Bureau-"Ask him what company he keeps."
Mr. Vien-"Bad company."
Mr. McKenzie said he had a public debt of two billions and we shouldn't bankrupt the country for the sake of building railroads in the west. His country was 200 years old. There were settlers in it who were 100 miles from a railway and they were not clamoring for a railway when the country couldn't afford to build one.
Sir Thomas White.
Nor did the debate lose interest when Sir Thomas White took the floor and charged that the incentive behind the obstructing methods of the opposition was private ownership, which meant the C. P. R. Lemieux's speech this afternoon, he said, was the one that revealed the nigger in the woodpile. There might be few public ownership men among the opposition, but if Mr. McKenzie had to depend for support upon the public ownership men on his side of the house he would not have a corporal's guard. The acting premier insinuated that even Mr. McKenzie himself was a mouthpiece for some one else.
"The voice was the voice of Jacob, but the hand was the hand of Esau," he said, referring to Mr. McKenzie's remarks. "Are we going to give public ownership a chance for its life or are we going to strangle it in this chamber?" asked the Acting Premier, amid applause from his followers.
He declared there was more real Lib-eralism in one row of members on the government side than in the entire op-position. Public ownership, he declared, has come to stay. The opposition charged they were taking over a lot of bankrupt railways. What made them bankrupt?
Private ownership and politics. "They tell us we are Huns, Goths and Vandals. It is not true. We are trying to com-plete the railways and make them fruit-ful and productive, and their duty is to help us. Both parties are responsible for this railway situation, for the over build-ing of railways. If we were to save this country."
"Let me appeal to Hon. Gentlemen op-posite to be paid a price in public own-ship which alone can save these railway children of the West," pleaded Sir Thomas. "When I came to the finance depart-ment, I found two half starved, emaciated, puny, dirty ragamuffins on my doorstep. I nursed them and clothed them and now they are not bad young-sters."
And what have I got for my pains? Nothing but abuse from ungrateful par-ents and laughter and applause. He urged the opposition to listen no longer to the promptings of private ownership but to get out and hustle for the people of Canada.
The acting prime minister closed with a plea for unity in the work of re-con-struction. If Canada was to grow and become a great nation, parliament must look forward to the future with faith, hope and courage. The only policy which could meet with success was one of construction and he warned the leader of the opposition that he could never win the confidence of the Canadian people with a destructive policy. The new national railway system must be able to compete with the other great Canadian system, but Sir Thomas White expressed the view that there was room in Canada for them both.
Replying to the acting prime minister, Mr. Lemieux declared that he was not advocate nor champion of private inter-ests in the House and during the twenty-four years he had been a member he had never championed private against public interests.
Sir Thomas, Mr. Lemieux continued, had referred to a legacy of dirty habits from the Laurier government. That was not Gladstonian language. Sir Thomas forgot, Mr. Lemieux added, the com-plaints he paid to these habits and the course of those habits some years ago. Here Mr. Lemieux read an extract from the first budget speech by Sir Thomas on which he emphasized the prosperity of the country and contained the state-ment that "railway construction, espe-cially in the west, proceeds apace prepar-ing the way for settlement in districts not yet opened up for trade." Sir Thomas, Mr. Lemieux remarked, could not forget the Laurier railway policy en-

BEAVER BOARD FOR BETTER WALLS & CEILINGS

12 Years Ago an Idea now a world-wide building material

Such is the progress of Beaver Board. In the short space of a dozen years it has grown from a pioneer specialty to a staple building material in general use throughout civilized countries. For the home owner there are endless advantages. From the attic down through the house to the very basement waste spaces can be utilized, rooms made beautiful, old cracked plaster and unsightly paper covered up.

MR. CLANCY TO GO TO HIGHER POST IN TORONTO

Able and Popular Agent of C. P. O. S. Ltd. Wins Promotion—Two Presentations to Him

An important promotion, and one which those acquainted with him and his work will recognize as richly deserved, has come to J. Richard Clancy, agent for the Canadian Pacific Ocean Service, Limited, at West St. John. Mr. Clancy has been appointed freight representative for the C. P. O. S. for Ontario, with headquarters in Toronto, and will leave in a few days to take up his new duties. This appointment is a fine tribute to Mr. Clancy's thorough knowledge of matters relating to ocean freights and his reputation for executive ability.

CITY FATHERS BUMPED.

Sussex Record—All the principal cities and towns in the maritime provinces have adopted daylight saving except the city of St. John. The city fathers think more of being re-elected when their term of office expires than they do of the public welfare.

BIRTHDAY PARTY.

A party of young friends called last evening at the home of Mr. and Mrs. George Oldford, Duke street, to celebrate the birthday of their daughter, Jean. A fine brooch and signet ring were presented to Miss Oldford by Miss Maudie Prime on behalf of the gathering and the evening was pleasantly spent.

NOT SO LATE AFTER ALL

Some people today thought the heavy snow flurry was most unusual since the town had almost dried up like in May, but we have had much later snow storms than this. A notable instance was about three years ago when a near-blizzard set in on May 29. While the temperature was too warm to allow the snow to accumulate, it nevertheless made the streets very wet and slushy. In Montreal about a week ago there was a tremendous snowfall and people were wading through it to their ankles for two days.

MRS. MARY A. DONAHUE

The death of Mrs. Mary A., widow of James Donahue, occurred this morning at her residence, 55 Exmouth street. She leaves to mourn four sons, William, Harry and Kenneth of this city, and Leonard of Montreal; also seven daughters, Margaret, Maud and Jennie at home, Mrs. James Trainer, Mrs. William Good, Nellie of Boston, and Sister Mary Diomedes of Notre Dame, Baltimore. One sister, Mrs. T. Wood of Bedford, Mass., also survives. The funeral will take place on Tuesday morning. The death of Mrs. Donahue will be learned of with regret by a large circle of friends of the family.

BIBLE EXAMINATIONS

The Junior boys' Bible class in connection with the Y. M. C. A. membership was given examination papers last night in Bible history, quite a large percentage of the little lads writing the paper. The examination was given in one of the class rooms, and the boys were supplied with pen, ink and writing pads. The religious educational work of the Y. M. C. A. is one of its distinctive features and the enthusiasm displayed in last night's examination showed that the boys were as keen for study as for the running track and the tank.

BURIED TODAY

The funeral of Mrs. Sarah Manning took place this afternoon from the residence of her daughter 292 Lancaster St., West End. Services were conducted by Rev. G. A. Kubring and interment was made in Fernhill.

The funeral of Mrs. Ella Vall took place this afternoon from her late residence City Line. Services were conducted by Rev. E. A. Westerland and interment was made in Cedar Hill. The funeral of Howard Jones took place this afternoon from his late residence 288 Guilford street, West End. Services were conducted by Rev. W. B. Robinson. Interment was made in Fernhill. PORTLAND EPWORTH LEAGUE. The Senior Epworth League of Portland Methodist church held election of officers last evening in the Y. M. A. hall. Frank W. Merrill was re-elected president for another year. Reports of the last year's work were read and they showed that the league was in a flourishing condition. Rev. Neil J. McLaughlin, pastor of the church, presided at the meeting and a large number of members were present. The result of the election was as follows: Honorary president, Rev. Neil McLaughlin; president, Frank W. Merrill; first vice-president, Mrs. John Howe; second vice-president, Miss Hattie Wright; third vice-president, Miss Kathleen Bilzard; fourth vice-president, John Howe; fifth vice-president, Miss Grace Brown; recording secretary, Miss Christie Higgins; corresponding secretary, Miss Laura Finlay; treasurer, William Leck; pianist, Miss Elizabeth Leck; assistant pianist, Miss Mary Kirk. WELL DONE, MONCTON. The Children's Aid Society of Moncton will erect a Children's Home at an estimated cost of \$8,000 to \$10,000, with accommodation for more than twenty children. Moncton's new school building, the Edith Cavell school, will be 168 by 82 feet. The building will have concrete base walls with a superstructure of brick. Every part of the new building will be wired for electric lighting. Pipes for vacuum cleaners will also be installed. There will be fire drill alarms and a direct alarm for the city fire system. Floor drains will be installed in the corridors of the ground floor for the little ones.

THE GLENWOOD E.

There is nothing magical about cooking or baking. Any woman can be a good cook—provided, of course, she has a good cooker.

As impossible to do the best work in a second rate stove as it is for an artist to paint his best picture with a mop.

The housewife who has a Glenwood E working for her knows that her work is three-fourths done.

Good results are as certain as the sun; and the oven indicator (which really indicates) on the Glenwood E stops the fire from running away with the oven.

You'll want a Glenwood this year, and thus be listed with 4,500 other practical had-to-be-shown homekeepers in St. John.

MORNING NEWS OVER THE WIRES

A detailed draft of the peace treaty, which may run to 100,000 words, is to be cabled to Ottawa for publication when released.

been approved, will be named in honor of Edith Cavell. Captain J. P. Walsh, assistant manager of the C. P. O. S., has been appointed manager of that company for Montreal.

TABLET UNVEILED.

A brass tablet commemorating the splendid life and heroic death of Lieut. Jack B. Hipwell, C. F. A., son of Mr. and Mrs. David Hipwell, was dedicated in Stone church last evening by the rector, Rev. G. A. Kuhring, and unveiled by his sister, Miss Mary Hipwell, in the presence of immediate relatives and a

deeply moved congregation. The tablet, a gift from the Misses Annie and Mary Hipwell, beautifully inscribed, is placed on the southern wall of the church. Mr. Kuhring made a very appropriate address, in which he said Lieut. Hipwell needed no eulogy. All who knew him loved and admired him, while many followed him. During the address, Mr. Kuhring read many letters written by his most intimate companions which spoke so truthfully of his virtues and which showed the high esteem in which he was held.

The formal dedication followed and the inscription on the tablet was read. Miss Mary Hipwell then drew aside the Union Jack of silk which covered the tablet, after which a prayer was offered and the service closed by singing the hymn, "The Roseate Hues of Early Dawn."

In 1775 the first post offices in Maine were established at Kennebunk, Falmouth and Bath. The mails were carried by carriers on foot or on horseback and the average week's mail did not amount to five letters at each office. The rates were high, 6 1/4, 12 1/2, 18 3/4, 25 and 37 1/2 cents, according to the distance the letter had to be carried and double the rate when the letter was on more than one sheet of paper.

The Need is Still Great. Do not forget that even if the war has ended, the need for more is great. These special pills will be in great demand. A small quantity of this special pill is being sent to you free of charge. Full particulars on request. Royal College of Surgeons, Sept. 28, Toronto, Ontario.

John Lamun of Springfield, Ill., aged ninety-six, has never voted and says he never will vote. Will eat nothing that ever breathed life. Keeps his clock three hours ahead of standard time. Will make no statement under oath. Insists the correct way to spell his name is "Lamun," instead of "Lamoun," as relatives claim is proper. Relatives have tried to have a conservator appointed for him, but County Probate Judge Jenkins says "No."

Not An Age For Weaklings-- Nation Demands Men of Blood and Iron

Physician Says Iron is Absolutely Essential to Greatest Development of Physical and Mental Power.

How Organic Iron—Nuxated Iron—Helps Put Renewed Vim and Energy into the Veins of the Weak, Run-down, Infirm and Aged. Often Increases Their Strength in Two Weeks' Time.

This is not an age for weaklings—War-time methods of living have raised the physical standards of the nation. So many modern men and women have more iron in their blood today as a result of eating coarse foods and living in the open that their vigor and energy are being sapped. It is in sharp contrast to the weak, run-down condition of those whose blood is literally starving for want of iron. To possess the power, energy and endurance that win we must keep the blood rich in strength-giving iron and our foods it must be supplied in some form which is easily absorbed and assimilated by the system. For this purpose physicians below explain why they prescribe organic iron—Nuxated Iron—which by enriching the blood and creating thousands of new red blood cells often quickly transform the feeble, bloodless, listless and pallid cheeks of weak, anemic men and women into a glow of health. It increases the strength of delicate, nervous, run-down folks in two weeks' time in many instances.

In commenting upon the probability of building up a stronger race of people by increasing the supply of iron in their blood Dr. George H. Baker, formerly Physician and Surgeon, Monmouth Memorial Hospital of New Jersey, says: "Just as lack of proper foods for their soldiers saps the strength of a nation, so does want of sufficient iron in the blood of men and women reduce their power and make an easy prey to the thousands of disease germs constantly around us and always ready to attack the constitutions of the weak and run-down. It is not the quantity of food you eat which makes you strong, but the amount which is assimilated and taken up by the blood.

Iron is absolutely necessary to change food into living tissue, muscle and brain. The refined foods and modern methods of cooking have robbed us of much of the iron which nature intended we should receive and there is no doubt in my mind that the coarse foods of war-time, with their greater percentage of strength-giving iron, have materially aided in building up a stronger race of people. But unless this iron is obtained from our food it is easily assimilated if we want to possess power, energy and endurance, increasing this deficiency and increasing the red blood corpuscles, I know of nothing more effective than organic iron—Nuxated Iron. From a careful examination of the formula and my own tests of Nuxated Iron, I feel convinced

THE STORY OF THE DUMBELLS, THE FAMOUS CONCERT PARTY OF THIRD CANADIAN DIVISION

(Continued on page 1.) They, however, were too anxious to get home to Canada, and these offers were declined. The Canadian government also asked them to tour Canada from coast to coast in the interest of patriotic work, but this also was declined. Every member of The Dumbells had been overseas three years and all had seen at least a year and a half active service in the line. When the great German drive began in March, 1918, they offered to go back into the line, but General Lapote, informed their leader that they were doing too much for the morale of the troops to be spared for further actual fighting. The maritime provinces provided two members of The Dumbells and a third who had lived for some time in New Brunswick. Elmer A. Belding of St. John was second tenor and assumed other parts. Ross D. Hamilton of Antigonish was one of two female impersonators and deserves to take rank with the best artists on any stage. William Redpath, baritone, was for a time accountant in the Bank of Nova Scotia in Fredericton, and later was manager of the bank's branch in Fairville.

The Dumbells were organized in August, 1917. Captain M. W. Plunkett of the Y. M. C. A. secured authority to select from the 3rd Division a group of men to form a concert party. They were selected from the infantry, the artillery, stretcher bearers, signallers, supply column—in fact from every branch of the service. They came together under Captain Plunkett's direction, with their own property man and electrician and at once began rehearsals. Costumes were secured in England. It is worthy of note that their very first performance was given to the Fifth Brigade, composed of the 22nd, 24th, 25th and 26th battalions. They usually gave two performances a day when it was possible. At the outset one motor lorry moved them and their scenery. Toward the end of their performances it required four. Most of their appearances were in tents or huts, but on one occasion they gave a performance in a deserted church in Bethune. At times they were quite close to the front, as for example at Nouvelle St. Vaast, just behind Vimy Ridge, where they slept in dugouts. On one occasion they found their scenery was too high for the roof of the hut. Thirty Chinese coolies were bribed with bully beef, haricots and cigarettes to take up the floor and dig down at one end of the hut so that the platform could be lowered sufficiently to place the scenery. Colonel Peck, V. C., was there that night. The performance did not begin until nine

Women as Brave As the Men

THEIR STRUGGLE SHOWS A REMARKABLE SPIRIT.

Talk of the bravery of men, but where can you find a finer spirit than among the half-sick women who are fighting and struggling to do their duty against severe odds of ill-health, and who will not give up. One woman in every three is struggling against weakness. Most of them are not exactly sick, but, oh how miserable! The burden and misery of it all has its foundation in the blood which is thin and watery. The red cells are too few. The very stream of life is reduced in vitality. Weakness and inevitable ill-health are the certain result. Every ailing or weak woman can quickly regain her health in this very simple way: By filling the system with the nutrition that change for the better will result. To accomplish this, take two chocolate-coated Ferronone Tablets after each meal. You'll feel better immediately for the simple reason that Ferronone renews the blood. It gives you vim, vigor, endurance, restores a tired, worn-out system very quickly. You'll feel like new all over once you get Ferronone working through your blood. It puts color into faded cheeks, brightens the eye, quickens the step, brings back that wonderful feeling of youth.

One of the finest things Ferronone does is to make you eat lots and digest it as well. With keen appetite, sound sleep, strong nerves and lots of nourishing blood you're bound to regain robust health. Any sickly girl or ailing woman that Ferronone won't cure into a healthy one, there is a secret power in Ferronone and it is worth a trial at all events. Fifty cents per box, six for \$2.50. which are so necessary to success and power in every walk of life. Therefore, I strongly advise those who need the need of a strength- and blood builder to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble, then purchase only Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength, again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form. And this after they had, in some cases, been doctoring for months without obtaining any benefit. Manufacturers' Note: Nuxated Iron recommended above is not a secret remedy, but one which is well-known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by Wassons Drug Store and all other druggists.

HAVE ROSY CHEEKS! LOOK PRETTIER! FEEL BETTER!

Simplest Thing in the World to Do at the Small Cost of a Quarter

You seldom see a woman who is pale, dull-eyed, thin-checked, and utterly worn out, who doesn't suffer more or less from headache and constipation. Her poor looks are more largely due to neglect than anything else. Most women can have sparkling eyes and rosy cheeks if they will but use regularly a blood cleansing and laxative medicine like Hamilton's Pills. Just follow these simple directions: Tonight take two Dr. Hamilton's Pills and note how much fresher you feel tomorrow morning. Your face will be clearer, your appetite better, your spirits brighter. Next night take one or perhaps two pills again. Gradually reduce the dose as mentioned in the company directions. Day by day you will note a steady gain. You'll quickly have back those happy girlish looks you once were proud to think of. Try these other medicines: Hamilton's Pills of Mandrake and Butternut. Sold everywhere in 25c boxes.

o'clock, but the crowd of soldiers patiently waited because they knew what was coming. Imagine, for example, a comedian representing a real estate agent selling lots on Vimy Ridge with "fine sand" and cellar already excavated, with buyers rushing in at intervals to announce that their lot had disappeared. There was a grim humor in the patter of the comedians which a civilian would perhaps not appreciate, but which was really entertaining to the men in the line. So popular were these performances that men began to line up at 4 o'clock for one which began at 6 and there was never room for all who sought admission.

When The Dumbells went to London they played the theatres for four weeks, three of which were professional engagements at the Coliseum and Victoria Palace. They also appeared in the Palace Theatre, Adelphi and Little Theatre. They played continually to packed houses. Pictures of the party and of individual members appeared in the illustrated papers, and the daily papers gave them long notices. One critic described them as without exception the best concert party he had ever seen perform. One paper said:

"Seldom if ever in the history of the Victoria Palace has such a scene of enthusiasm been witnessed as that which greeted The Dumbells upon the conclusion of their act on Monday. It was a reception, too, that was splendidly described in the best features of modern entertainment are embodied in the turn, or rather series of turns, contributed by this clever amateur combination of amateur artists. Each and every number has been finely produced, and detail and finish would do credit to many West End companies. The settings are novel and artistic, and the dresses and lighting effects all that could be desired. Add to these desirable qualities bright singing, sparkling comic touches and not a moment's wait during the whole of the time the curtain is up, and the pleasure of a night's entertainment is complete."

When The Dumbells sang Pinafore in Mons and Brussels they were forty-two strong, including the orchestra, and it was described as a finished performance. Of the members of The Dumbells, Elmer A. Belding is home again in St. John. Ross D. Hamilton has been visiting relatives in Nova Scotia. William Redpath, who is a native of Edinburgh, is in England studying music and will probably go on the operating stage. William L. Tennant is back in Winnipeg, singing in his old church. He was leading tenor in the Winnipeg Amateur Musical Company before the war. E. G. Charters, a very bright comedian, was in real estate in Winnipeg before the war, but is now engaged in the two weeks' engagement on Sir John Butt's circuit in Great Britain at \$100 per week. Bertram Langley, baritone, sang in British Columbia in 1908-9 and has gone back there on a year's contract. He is a fine baritone singer. Geo. Bennett, who is a light comedian and in Thorne, who joined The Dumbells in 1917. He is the son of George Thorne, the great comedian of the D'Oyly Carte Opera Company. He took his discharge from England with the rank of sergeant there. Allan Murray, a wonderful female impersonator and dancer, was office manager for the Imperial Theatre before the war. He is still overseas. His dancing partner, and a very clever one, was A. W. Plunkett, also a light comedian, and brother of Captain Plunkett. He is presumably at his home in Orillia, Ontario. Frank Brayford of Edmonton was a fine

tenor singer and character man, and received his vocal training in Birmingham, England. The basso of the party was John McCormack of Toronto, who was also clever in comedy work. He is still on the other side. Ivor E. Ayer, the musical director, was leader of the Star Theatre orchestra in Toronto before the war, and composed all the dance music and both words and music of some of the best numbers put on by The Dumbells. The properties were in the hands of David L. Michie of Winnipeg and John Kidd of Montreal, both of whom were capable of filling in on the bill. The electrician of the party was Andre Catrano, an Italian who was operating a moving picture plant in the west before the war, and who will now open a movie in the city of Nice.

Had The Dumbells remained together they might have toured the empire and scored a continuous success. General Lipsett was undoubtedly right when he said they made a notable contribution to the morale of the troops, and every one of them had himself seen active service in the line. It was never a question of buying a ticket, but of squeezing into the crowded tent or hut, or theatre where they appeared.

FRANCE TO APPEAL TO PEOPLE FOR NEW LOAN

Paris, April 25—Louis Klotz, minister of finance, announces he will substitute a new bill for that which he withdrew as a consequence of the opposition to it in the chamber on April 19. He will ask authority for the treasury to borrow up to three billion francs from the Bank of France, the amounts borrowed to be paid off with the proceeds of the next loan. The measure also proposes to raise the limit of the note issue of the Bank of France to 40,000,000,000 francs.

SMOKE MACDONALD'S INDEX

At the monthly meeting of the Farm Settlement Board held here yesterday it was decided owing to the unsettled conditions abroad to hold their policy in abeyance for the present.

"Is this the genuine Dr. Chase's Nerve Food?" "Yes, madam, we do not offer substitutes, nor do we believe there is anything to take the place of this great nerve restorative."

"WELL, it has been so strongly recommended to me that I do not want to make any mistake in getting the right medicine." "You are not making any mistake in this, for we think too much of our reputation to try to talk you into taking something else."

"Do you sell much of Dr. Chase's Nerve Food?" "It is one of our largest sellers, and gives such universal satisfaction that it is a pleasure to recommend it to our customers."

"But do you know of cases in which it has actually cured people of sleeplessness, headaches, irritability and nervousness?" "Scores of them, madam. Some people never say anything about the medicines they buy, but scarcely a day passes that we do not hear of some case in which Dr. Chase's Nerve Food has effected a cure. It is also great for anaemia, and all ailments arising from a thin, watery condition of the blood."

"Well, I am going to try it. How much is it a box?" "Fifty cents a box, or six boxes for \$2.75. Better take the six, for you save a little on the price, and you need that many to give it a fair trial."

"Do you think I will?" "Oh, yes, the process of building up the nervous system is necessarily slow. You will no doubt feel benefited after the first box or two have been used, but too many make the mistake of neglecting the treatment then instead of keeping on until the nerves are fully restored."

"Do me up the six boxes, then, for I hear of so many people being benefited by using the Nerve Food that I am going to give it a thorough test." "If your dealer does not have Dr. Chase's Nerve Food in stock, write direct to Edmondson, Bates & Co., Ltd., Toronto."

Health and Happiness

Women of today seem to listen to every call of duty except the supreme one that tells them to guard their health. Home duties, church duties, war activities, and the hundred-and-one calls for charitable enterprises soon lead women to overdo. Nervousness, headaches, backaches and female troubles are the inevitable result.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which, added to my weak condition, kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness. Health and happiness? Yes, I have both now."—Mrs. J. WORKMAN, 2915 North Taylor Street, Philadelphia, Pa.

The majority of women nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down nervous condition with headaches, backache, irritability and depression—and more serious ailments develop. Avoid them by taking in time

LIQUOR AND DRUGS.

(Moncton Transcript.)

A favorite argument advanced in this country is that the enforcement of prohibition has a tendency to encourage the drug habit. When these critics speak of the drug habit, they ignore that intoxicating liquors themselves are in a sense drugs, which intensify the appetite for this form of drug. Therefore the very argument which they are using for the suppression of the unrestricted sale of habit creating drugs applies with equal force to alcoholic drinks. In England it has been found that the drinking of intoxicating beverages has created an appetite, which craves for something stronger and now that something stronger is being demanded in the objectionable drugs. An Exchange writing on this subject says:

"Despite free access of both sexes to the bars in the Motherland women have recently resorted to the use of methylated spirits. Many cases have arisen where women have gone to oil and paint shops with the plea that the spirit was intended for mixing paint. Seven times stronger than ordinary whiskey, and containing a number of ingredients considered sufficient to stop any desire to drink it, the Liverpool licensing justices assert that its use as a beverage is increasing. Its effect has been shown as ter-

ESCAPES MINE BY BUT TEN YARDS

Giant Liner Leviathan With 12,000 Soldiers Aboard

Desperate Whirl of Wheel Gives Ship Margin of 30 Feet Safety From Floating Mine Off Grand Banks

New York, April 26—The giant troopship Leviathan with 12,000 soldiers passengers, the last of six transports to arrive here yesterday bringing 22,972 men, missed a mine by only thirty feet while off the Grand Banks of Newfoundland on Tuesday morning.

Officers of the ship said the Leviathan had been warned to look out for a floating mine the day before by the transport Mount Vernon, which had preceded them. The course of the Leviathan was changed and she sailed nearly 100 miles to the southward of the location of the mine as given by the other transport.

The floating infernal machine was sighted, the officers said, at 10.30 a. m. by Lieut. Commander Harold Cunningham, who was on the bridge, dead ahead of the transport. Quick thinking and quick action averted a collision. A desperate whirl of the wheel sent the steamship past the mine with a margin of safety of ten yards.

None of the soldiers aboard knew until they docked how close they had been to danger.

CAN EAVESDROPPER ON PARTY LINE SUE FOR LIBEL OVERHEARD?

Quebec, April 26—An interesting test case regarding eavesdropping and talking over the telephone has been submitted to the Quebec superior court, which is asked to decide whether a conversation heard over the telephone constitutes proof of a libel.

The case is that of Joseph Roy, a dealer at Broughton Station, Que., who has filed an action for damages against M. Trotter, manager of the National Bank at Broughton, claiming that Trotter held a conversation over the telephone with another person, and that Trotter spoke of Roy in terms which the latter finds detrimental to his credit and name.

Roy admits that he heard the conversation by eavesdropping, listening over the party line. He says that, in the town, the telephone service is furnished over a party line, that is, a number of subscribers are all connected on the same line. Roy says that he went to the telephone to call Central, but the line was engaged, and he heard his name mentioned over the wire, and says he recognized Trotter's voice and heard Trotter saying things that, to Roy's mind, were detrimental to him.

The court will have to decide whether a conversation heard over the telephone,

which is supposed not to be listened to, constitutes proof of a libel.

THE ANNA CASE RECITAL.
The exchange of advance tickets for the Anna Case song recital in Imperial Theatre, Friday evening, May 2nd, opens at the theatre box office at 10 o'clock Monday 28th, and as the selection of seats for a musical event of this nature is rather an important matter to many people, it is expected there will be a very brisk demand. Advance tickets are still on sale at Gray & Richey's book store, and at Imperial Theatre as well as from the female patriotic societies. The recital already gives promise of being a very brilliant event, not only in

an artistic sense, but socially. The box parties already arranged include the Military Command, the Governor, the Premier, the Mayor and other officials.

How America Views The New Peace League

The out-and-out opponents of the League of Nations covenant apparently have not been won over by the amendments adopted in Paris to meet their objections. The New York Tribune (Rep.) finds the "denatured covenant" powerless for either good or evil, while the New York Evening Sun (Ind.) goes further and declares that "it is both an all-round invasion of sovereignty and at the same time impotent for the enforcement of peace." In many quarters, however, it is thought that the recognition of the Monroe Doctrine and other changes "will win for it many votes and may prove sufficient to secure its ratification" by the Senate, to quote the Republican Philadelphia Press. It adds that the credit for these changes is due to the constructive criticism of such Republicans as Mr. Taft, Mr. Knox, Mr. Lodge and Mr. Root.

Be sure to read THE LITERARY DIGEST this week. All angles of public opinion on the League of Nations covenant are presented in the leading article. Other subjects of immediate interest to all thoughtful readers are:

The lower the grade of gas the easier it is for a Hot Spot Chalmers

THE great engineers of the automobile industry are discussing nowadays the low grade gas situation more often than the number of cylinders a car should have.

Not long ago one of them said that automobile engines would have to be redesigned to use the inferior gas of today.

This the Chalmers engineers did when they built into the great Chalmers engine the now famous Hot Spot and Ram's-horn manifold.

These two devices convert low grade gas into high power.

For any engineer will tell you there are more thermal units or power in a gallon of low grade kerosene gas than there is in a high test gas.

The Hot Spot puts the gas in shape for power results. It breaks up into tiny vapor molecules the gas—so fine that it really becomes "dry."

Then the Ram's-horn drives it to the cylinders by the quickest route ever devised and when the explosions come there is so little power to escape through the exhaust as to be well nigh negligible.

One short ride in a present day Chalmers will tell you the story far more eloquently than the English language can express it.

QUIT IN HALIFAX BOUT; NEAR RIOT; BOXING GETS A SET-BACK

Halifax, April 25.—The quitting of Harry Sketcher, advertised as one of England's best light-heavyweights, in a scheduled fifteen-round boxing bout tonight with Roddie McDonald of Glace Bay, nearly caused a riot in the vicinity of the theatre after it was over, and a squad of policemen was called out to keep order. McDonald, middleweight champion of the maritime provinces, was handing out a severe beating to the Englishman who quit cold in the middle of the first round and refused to continue. This caused the fans to hoot and hiss and several free fights took place in the centre of the theatre. The theatre was packed to the doors and many expected a great bout, but the manner in which

TRAIN TRIP OF THE 26TH TO THE PORT OF HAVRE

Traveled by Freight But it Was on the Way to Home, Sweet Home

THE FAREWELL AT TAMINES

Belgian Folk Gave Hearty Send-off to New Brunswick Boys Who Had Helped Restore Them to Their Own

The following is from an officer of the 26th—a joyous letter written on the way home from France on April 7.

Le Havre, France, 7-4-19
We're on our way home at last. We arrived here about three o'clock this morning, but slept about the train until six when we detrained. It was a good thing we did, for it is not likely many of us would have had any sleep at all for sleep was quite impossible when the train was in motion. It was entirely a goods train, or, as we used to call it at home, a freight train. The men had the floors of their cars covered with straw on which they put their blankets and were quite comfortable. We had bunks in our cars. I was unfortunate enough to have an upper "berth" and I am still dizzy in consequence.

"We were two nights on the train, having left Amiens about noon on Saturday and the only time it was possible to sleep was when the train was halted. The driver on that train seemed to have a grudge against all on board, judging by the way he stopped and started. The sensation was like being slammed against a stone-craiser, then back against a brick wall, then a few horrible moments of dire suspense, then back to earth again.

The first night aboard when we were coming once again through the war swept regions we had left behind last September and October—the waste of shell holes, crater and trench—the chaps were betting two francs to one that the driver was "taking a short cut overland instead of sticking to the trench-mats."

However, we're here and in a couple of days we shall be once again in Bligny. We expect to reach Southampton on the 10th and go from there to Witely, not Bramshot, as at first supposed.

Farewell at Taminés.
We had quite a farewell on leaving Taminés. We had hardly believed there were so many people in the town, but they answered the last muster in great numbers and were out in such force to bid us goodbye that it was with difficulty we pushed our way through their ranks. Many eyes were damp (among the circles), there was a lump in many a manly throat, as for the last time our band played "Le Brabant" and saluted our colors with "O Canada." Loud and hearty were the cheers of these good Belgian people as we moved off from in front of the Hotel de Ville—good, honest cheers, regret and good luck intermingling in their meaning. "Au revoir," "bon chance," vive le ving-sixième—these and other cries were heard as down the cobble street we marched on our way to the station, leaving behind us a village in which for more than two months we have been well at home, hospitably treated, feeling rather citizens thereof than guests therein.

In almost every haversack was a lunch of some sort made up by some kindly-faced madame for her "enfants" as our chaps were fondly called in the various households, a parcel of bread and cheese, eggs, Belgian cakes, or all combined, for, said Madame, "You may be hungry on the train."

And again, as we passed in the train through the village nearly two hours later the crowds still lingered for a parting glimpse of their Canadian friends, a hand clasp and a last loving wish of "bon voyage." We shall always carry with us kindest memories of our stay in Taminés. Quiet and slow it seemed, old-fashioned in its ways, and every often were we "fed up" with the deadness of the place, but its people were the essence of kindness and did their best to make

RED ROSE TEA "is good tea"

ASSAM is the original home of the tea bush. In this section of Northern India, the plant finds the most suitable soil and most congenial climate. In the crack plantations of ASSAM are grown the richest and strongest teas in the world—and it is of these teas that Red Rose chiefly consists. That is why Red Rose has such an exquisite aroma, a rich, satisfying flavor and a strength that makes it economical.

Always sold in sealed packages.

RED ROSE TEA "is good tea"

pleasant our stay. They have greatly suffered in the last four years and perhaps the tranquility of their village is but the continuing sorrow of the massacre by the Huns in August, 1914.

On the Train.
Our staff organization so far as the welfare and comfort of the troops in transit are concerned seems to have greatly improved. We were two days and nights in the train, but everyone was happy, well fed and comfortable (so far as is possible in box cars.) There were frequent stops for food, rest and cleaning up, and with song, games and the joyous thoughts of our home-coming the trip passed very smoothly. So well were our chaps looked after that one of them, an old-timer who had known reverse conditions remarked to his pal, "Say, Bill, they're givin' us a good wind-up—they must want to put us in good trim so we'll join up again in the next war."

Here are a couple of choruses which were among the many the boys sang as we came along. The first is to the tune of "Goodby-ee."
«Cherio-ee; here we go-go,
To our home, o'er the foam,
Tho' it's far away, we know,
We're just tickled to death to go,
To part-ee, toute de suit-ee,
We're the 26th Battalion from N. B.-ee.
Bon soir to France, tooleoo Belgium,
Napoo, Germany, Goodby-ee."

The second is to the tune of "Keep the Home Fires Burning":
"Clean your belts and rifles,
Pack your duds and trifes,
Say au revoir to Mad'moselle,
You're tout-fines,
No more dodging bullets,
No more pinching pullets,
The 26th it's bit's done well,
We'll now part-ee."

IN INTEREST OF THE CHRISTIAN MEN'S FEDERATION OF CANADA
Members of all the city church brotherhoods were present at a meeting held last evening in St. Luke's church under the auspices of the Christian Men's Federation of Canada. It was explained that the work of the federation was an effort to bring all the men of the world to see the ideals of Jesus Christ which alone would make secure the league of the nations proposed by the statesmen. Mr. Ward told of the efforts now being made to hold an international brotherhood con-

ference in London during the coming fall. The visiting speakers were William Ward, honorary secretary of the international brotherhood movement; William Heal, a member of the national executive committee of England; and Thomas Howell, general secretary of the Christian Men's Federation of Canada. The local clergymen assisting were

Rev. I. W. Williamson, Rev. G. F. Dawson and Rev. J. C. B. Appel. George Knight sang.

E. Roy Fenwick, manager of the St. John branch of the Dunlop Tire & Rubber Company, has been appointed to the management of the Montreal branch. He will leave for Montreal in two weeks' time, his family following in the autumn.

A Maxwell Grows Better the More You Drive It

THAT is the test of anything good. The more you use a good watch the better it runs. The older your friends grow the better you like them.

And nothing is more pat on a Maxwell than this. Hardly a day goes by that some Maxwell owner doesn't take his pen in hand and write that he is now passing a mark of 30,000 miles or 20,000, or 50,000.

To purchase such a man's Maxwell from him would be like trying to buy an heirloom from a rich man.

But these Maxwells of today are far better cars than those of yesterday.

For it is the policy of the Maxwell Motor Company to keep on building and building on the original chassis plan set down 5 years ago.

300,000 Maxwells have been built on this program. 1000 refinements have been made since the first car was built.

Each new Maxwell is better than yesterday's.

For doing one thing always results in doing it well.

This Maxwell you see today is so vastly improved in appearance that you may think it a new model.

But it isn't. Just a better looking Maxwell. And a better car.
