Hundred or More Miners Entombed as Explosion Blocks Exits

COULDS HOT SECTION FINALS

VIRGINIA IS SCENE OF DISASTER

Great Blast Locks in Men Soon After Day's Work Begins.

FIRE IS REPORTED

Explosion Occurs 3 Miles in From Mouth—Rescuers Blocked.

(Canadian Press.)

Wheeling, W. Va., April 28.—A few minutes after between 100 and 200 miners went to work in the Benwood mine of the Wheeling Steel Corporation near here this morning, a terrific explosion occurred in the workings. The fate of the men is unknown. The blast, according to reports from Benwood, took place about three miles back in the mine. Benwood firemen reported the mine was on fire. Clouds of smoke drifted from the main entry of the mine and volunteer rescuers were driven back. An hour after the explosion occurred, not a single rescuer worker had been able to enter the mine.

Entries Blocked.

Entries to the mine, which is a drift mine, were blocked by falling rock and debris, further hindering the work of rescuers. Deadly fumes are seeping through the blocked entrances. More than 200 miners from nearby mines rushed to Benwood when word of the disaster spread. Their first task was to clear the entries so that rescuers could go in. The rock and debris blocking the way was attacked with picks and dynamite.

Among those trapped under ground was George Holliday, the fire boss, who went in this morning to see that all was safe.

A slope fringing the mine mouth soon was crowded with men, women and children, unmindful of a drizzling rain.

Charleston, W. Va., April 28.—A report to the State Department of Mines from the Benwood Mine of the Wheeling Steel Corporation said there were only 107 men in the mine at the time it was wrecked by an explosion this morning.

MUST CLEAN UP IN Nfld. POLITICS

Biting Comment Made by Glasgow Herald on Situation at St. John's.

London, April 28.—(By Canadian Press Cable).—Discussing the Newfoundland revelations, the Glasgow Herald says the report of T. Hollis Walker, K. C., recorder of Derby, England, the royal commissioner who found Sir Richard Squires, former Premier of Newfoundland, guilty of corruption, revealed the existence on the part of both politicians and a considerable section of the public of a state of morality in connection with public funds that resembles an American state in its worst days of accusation, rather than what one is accustomed to associate with a British colony.

The only immediate step that could have been taken by the Government of W. R. Warren after the presentation of the Walker report, the Herald says, was to announce its intention of pushing on an inquiry quietly into a number of other dark places in Newfoundland's political life.

What caused the arrest of Sir Richard Squires at the particular moment when it was made, though natural enough in the light of Commissioner Walker's findings, is not quite clear, the Herald says. Saying that presumably Premier Warren would resign, the Herald expresses the hope that whoever may succeed to the head of the Newfoundland Government will not yield to the temptation of trying to shove the Walker report and ignore its findings. To do so after the attention of the English speaking world has been drawn to the contents of the report, and the low level of Newfoundland political life, in the Herald's view, would be to deal the reputation of Newfoundland a blow from which it would not readily recover.

LABOR WILL MAKE CUT IN SOME TAXES

Philip Snowden is to Deliver British Budget Speech Tomorrow.

(By HARRY N. MOORE.)

NOTHING DRASTIC

Crux of Debate will be on What Liberals Regard as Protection Wedge.

(British United Press.)

London, April 28.—Labor's first budget will be presented tomorrow in the House of Commons by Labor's first Chancellor of the Exchequer, Philip Snowden. The shortness of the period of power which Ramsay MacDonald and his colleagues have enjoyed precludes the possibility of the development of a full financial programme dependent on the Liberals for their continuance in office, acts as a check against the introduction of possible drastic changes. Among the expected changes are reductions in the tea and sugar taxes and the abolition of the entertainment tax, making cheaper seats in the theatres and moving picture houses possible. These will, of course, make a popular appeal. It is not expected that there will be any reduction in the income tax, as was the case last year.

SOME HOT SHOT FROM CHURCH UNIONISTS

Declarations that Premier Ferguson had nominated to the private bills committee members who did not represent the best thought of the conservative party or of the province, that the Anglicans should not be allowed to settle the affairs of other denominations, that the churches concerned were not to be kept alive and individual members of the legislature, were some of the more emphatic utterances of speakers in expressing their displeasure at the action of the Ontario House upon their bill.

Forty-Five Firemen Are Overcome by Smoke in New York Blaze.

New York, April 28.—Forty-five firemen were overcome by smoke, 30 horses were burned to death, and several hundred persons were driven from their homes early today by a two-story fire in a densely populated section. The fire broke out in a building of a lumber company and fifteen million feet of pine lumber. Across the street were six new Standard Oil Company tanks from which the oil was drawn through emergency pipes to Hoboken, N. J. The tanks, new ones, replacing those destroyed in a fire in 1919, were separated from the flames by a barrage of water.

The second fire was in a paper factory in a densely populated section. The horses were killed in a stable adjoining the lumber company. Fifty animals in stables adjoining the paper company were saved.

Trams and buses were delayed and traffic tied up in knots while prospective passengers indulged in prolonged obligatory farewells.

The council issued an appeal to the public to quit kissing; that is, while trams were passing.

Three Hundred Casualties in Battle of French With Turkish Irregulars.

London, April 28.—Sanguinary fighting between French troops and irregular Turkish bands is reported to have taken place in Northern Syria, says the Jerusalem correspondent of the United Daily Express.

Three hundred men were killed or wounded during the fighting, he says, and the Turks captured a great quantity of arms.

There have been recurrent reports of unrest in Syria, of which country France is in danger of immediate collapse, according to predictions in labor circles here. Much, it is said, depends on a joint meeting of the locals to be held, probably next week, to consider a circular issued by the provisional board defining the policy of the International Union, particularly its respect to the independence of this district.

During the "strike" last January a relief fund amounting to about \$105,000 was distributed among the miners in grocery stores. President Lewis of the International Union, it is said, disclaims responsibility for this expenditure, inasmuch as the "strike" was not officially declared. It has been proposed to the men of the district that there might be trouble with the occupying forces, due to the element of election campaigning, but no incidents occurred.

ALL EXPRESS CONFIDENCE IN RESULTS

Early Vote in Some Wards, Notably North End, However, is Light.

MANY CARS OUT

Fine Weather and Keen Interest Greet Workers in Civic Contest.

While the vote in some of the wards, particularly in the North End, was said at noon to be lighter than at the primaries, two weeks ago, an increased vote was reported in several of the other booths this morning and it was predicted by several that a record vote would be polled in the finals by which a mayor and two commissioners will be chosen.

There is no doubt that the interest in the result of the ballot is keen, and representatives of all the candidates today expressed confidence that their men were going to be victorious.

The Questions of the Day Today's vote will decide whether G. Fred Fisher will remain at City Hall as mayor for another two years, or whether he will be replaced by Frank T. Potts; also as to who will be the two commissioners who will give the personnel of the City Council. Their term will be for four years.

Another feature of today's election is the plebiscite which is being taken on the question of whether or not a vocational school will be built in the city. This question, however, seemed to be overshadowed by the personal contests for mayor and commissioners. One voter remembered that this question was on the ballot only after he had come from the polling booth after depositing his ballot.

Practically all the candidates were backed up by strong organizations which were making the best endeavor to bring out a large vote. In addition many automobiles were employed which tended to make street traffic more busy than usual. Today's fine weather was expected to assist in bringing out a large vote.

On account of the great interest which is being taken in the civic election, the Times-Star has arranged to give the people the best possible service in announcing the result. In co-operation with the Maritime Radio Corporation, the results by polling places will be broadcast by radio; they will also be announced by megaphone from the Times-Star office in Canterbury street and the results will be published in an election extra which will be on the street soon after the decision of the voters is known.

Indications at noon today were that a lighter vote than in the primary would be polled in Duke and Sydney wards. At 11:30 o'clock this morning in one booth for Dukes ward, the returning officer reported that at that time in the primary more than 100 had voted while today just 82 had registered, only two being women. Similar reports were made by other officers. At noon, the pace was accelerated considerably. Whether sufficient to make up for the slowness of the vote during the morning remains to be seen.

EX-KAISER RAPS PRESIDENT WILSON

Complacently Justifies Himself in Course He Pursued After War.

Berlin, April 22—Former Emperor William in a book published by Lieut.-Colonel Niemann, a personal friend, is quoted as rapping President Wilson for his stand against Germany in the World War.

"I was ready to fight the internal enemy when the revolution broke out, but I found myself deserted by the army leaders themselves. Many persons contended that I ought to have sought death on the battlefield, but I think that tempting God or committing suicide would have been morally wrong."

"I did not want to stand by and see Germany split in a fight of Germans against Germans, and I left the country rather than stand as an obstacle in the way of the Fatherland. I realize that the sacrifice did not have the desired effect—to secure better conditions for Germany—but I believe history will justify my action. Tradition and the future of my dynasty should not have been sacrificed to the hypocritical phrases of the pretended pacifist Wilson."

"I did not desert my country thoughtlessly, but only after careful deliberation. And thus did my duty to my beloved army and my misguided Fatherland."

THE EVENING TIMES STAR, ST. JOHN, N. B., MONDAY, APRIL 28, 1924

The Evening Times-Star

ST. JOHN, N. B., APRIL 28, 1924

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sundays, excepted) by New Brunswick Publishing Co., Ltd., J. G. McKenna, President.

LOOKING FORWARD.

While the citizens are deciding the complexion of the new City Council, St. John is looking forward to what should be a year of action and progress. The construction of the new hotel is an event of the first importance, because it will meet a local need of long standing, and will mean that many persons of the most desirable sort will come to the city, and that they will stay longer than if the accommodations were not so good.

It may be assumed that a good deal of attention will be paid to the tourist traffic this year. Our climate, scenery and sporting advantages cost nothing and do not wear out. They form an asset which only needs attention to yield large returns. It is evident from press reports that a greater interest in this source of wealth is felt throughout the province generally than ever before.

The new Common Council should be a leader in the work of building a greater St. John. It will not lack co-operation if it shows enterprise in this work, the most important of all the issues.

A REPLY, AND SOME EPIGRAMS.

The British Prime Minister's suggestion that the United States call the nations together for another disarmament conference has brought a somewhat guarded reply from President Coolidge. In his references to international affairs in the course of his speech to the Associated-Press a few days ago. In that speech Mr. Coolidge moralized much, upon affairs at home and abroad. He has the ingrained habit of caution. At times he launches a few epigrams. His style in places suggests a close study of Lincoln's speeches, but the Lincoln warmth is missing. He speaks precisely and as a rule coolly. Another arms conference, he suggests, can come only after there has been, through the Dawes report, a final adjustment for the liquidation of reparations in Europe.

Two lines from the Fire Prevention Number of the N. B. Junior Red Cross News Letters. "One tree will make a million matches. One match will kill a million trees." When the excitement of the elections is over there still will remain the question of a bigger and better St. John. That ought to be the chief business before the new Council.

of the world. In its final determination it must come from the heart of the people. Unless it abide there we cannot build for it any artificial lodging place. If the will of the world be evil, there is no artifice by which we can protect the nations from evil results. Governments can do much for the betterment of the world. Because they cannot do everything they must not neglect to do what they can. But the final establishment of peace, the complete maintenance of goodwill toward men, will be found only in the righteousness of the people of the earth. Wars will cease when they will that they shall cease. Peace will reign when they will that it shall reign.

As to the League of Nations, he regards American membership as out of the question, saying, "Our country refused to adhere to the covenant of the League of Nations with a decisive rejection which I believe to be final." He warns his own country against making material prosperity its supreme choice, saying that "selfishness is only another name for suicide. A nation that is morally dead will soon be financially dead."

It may be assumed that a good deal of attention will be paid to the tourist traffic this year. Our climate, scenery and sporting advantages cost nothing and do not wear out. They form an asset which only needs attention to yield large returns. It is evident from press reports that a greater interest in this source of wealth is felt throughout the province generally than ever before. Last year witnessed the expenditure of some millions of dollars in New Brunswick by tourists and sportsmen, and this year should double the amount. The money so spent is very widely distributed, and every tourist spends money that would not otherwise come into the province.

The present year should be marked by a determined prosecution of the work of getting more Canadian business for this national port. There should be nothing half-hearted about it. Falling Maritime co-operation in the interest of Maritime ports, St. John should present its own case in the most effective way. This means an efficient campaign in the Central and Western Provinces. We want a revival of the spirit that sent the late Mayor George Robertson to Montreal and Toronto to proclaim the rights and needs of this winter port.

St. John and the province generally should draw closer together during the year. It is manifest that what makes St. John prosper and grow helps the province, and that no portion of the province can flourish without a corresponding benefit to the chief distributing centre. There is no ground for room for prejudice. The whole industrial and commercial life under better adverse conditions, should move forward as a unit upon the path of development. Home investment, home buying, home enterprise and confidence in ourselves and our province are great factors in progress that should be encouraged to the utmost.

There is some talk in England—probably idle—about abolishing the post of Poet Laureate after the death of Robert Bridges. The poet is old, but he is very likely to outlive the present government. Appointing a P. L. is a ticklish job. Not so long ago, when Bridges was chosen, another bard, who had his own notion about the fitness of things, produced "The Woman With the Serpent's Tongue." A man may be a great Prime Minister and yet have no great skill in selecting one poet out of many. Since Tennyson's time—he held the post forty-two years—the country has been out of luck in this particular matter.

You should get your election news early and satisfactorily this evening thanks to arrangements made by The Times-Star and the Telegraph-Journal. The results will be announced by megaphone from the windows of the building in Canterbury street; a special edition of The Evening Times-Star will be on the street almost as soon as the final result is known, containing full details; and through the co-operation of the Maritime Radio Company the results will be broadcast from their station CJCL immediately on their receipt.

When the excitement of the elections is over there still will remain the question of a bigger and better St. John. That ought to be the chief business before the new Council. The Rt. Hon. Ramsay MacDonald says he sees no reason why there should be a general election in Britain for two or three years. But he does not say that he does not expect one before that.

should be a general election in Britain for two or three years. But he does not say that he does not expect one before that.

Press Comment

PUBLIC PLAYGROUNDS.

(Vancouver Province). The aldermen should remember the days of their own boyhood, when a game of baseball on somebody's vacant lot or a little-used road, had an appeal that nothing else could touch. That was in the country, perhaps, and certainly before the advent of the automobile, which has brought danger, as well as pleasure and profit. Boys and girls have only a few years for play, and their right to this time and to the facilities for employing it should be respected.

47 AND PROUD OF IT.

(Hamilton Herald). Mary Gaudin, singer and Impresario, applied for American citizenship the other day. She did not qualify when she was 47 and proud of it. Miss Gaudin has reason to be. Her personal charm has increased, rather than diminished, with the years. She is another living example that people need not grow old, unless they become obsessed with a fear of what the lengthening years will bring. Such is the tragedy of growing old, and it is entirely avoidable.

EMPIRE TEACHING.

(Toronto Globe). The Council of the Royal Colonial Institute, London, offers two prizes, twenty guineas and ten guineas, for written contributions from teachers in any school in the British Empire on the subject "How best can Empire teaching be promoted without the inclusion of additional subjects in the curriculum?" Contributions are not to exceed 2,000 words, to be written or typewritten on one side of the paper.

only, and the full name and address of each competitor are to be shown on the front page of each paper. Copy-right will be the property of the author, but only prize winners' essays will be returned. Contributions are to be sent to the Secretary, Royal Colonial Institute, Northumberland Avenue, London, W.C. 2, not later than Sept. 29. This will give teachers the whole summer vacation to work in. Canadian teachers should take advantage of this opportunity. The prizes offered are worth while, and the Council is wise in making the condition that the plans are not to involve any addition to the curriculum.

An Ancient Treasure Indispensable to a Modern Age. Ancient Peruvians who mined their leaking gourds with pitch which seeped lavishly from the earth, struggled with crude contrivances after their own fashion to make some use of an age-old treasure of petroleum underlying the soil of this remarkable land. It remained, however, for Canadians to modernize the primitive oil workings of Peru and bring to a needy motor car market the finest lubricating oil in the world.

IMPERIAL POLARINE MOTOR OILS. GRADES FOR LUBRICATION OF AUTOMOBILES, TRUCKS AND TRACTORS. The wheels of modern civilization revolve upon petroleum. Without the lubricants derived from crude oil, busy factories would cease to hum—countless motor cars would stall by the roadside—great liners would wallow helplessly in the trough of the sea—giant locomotives would rust on their tracks. As the world's largest consumers of lubricating oils, motor car owners should be first to recognize the vital necessity of selecting for their use only scientifically correct lubricants, made from one of the few crude oils entirely suited for lubricating purposes. Thousands of miles away in Peru, Imperial Oil Limited controls an unending supply of the finest crude petroleum to be found anywhere. Imperial Polarine Motor Oils, the product of this unexcelled crude oil, absolutely defy competition. Have your crank-case cleaned and refilled today with the proper grade of Imperial Polarine Motor Oils, as specified on our Chart of Recommendations, and you will notice an immediate improvement in the performance of your car. EACH OF THEM IS ASKING DIVORCE

Former Trainer of German Crown Prince in New York Case.

New York, April 28.—The matrimonial differences between Mrs. Marie G. Goldreich and Armand M. Goldreich, who was physical instructor to the former Crown Prince of Germany, began in Hungary soon after the beginning of the World War, and now are being continued in New York, where Mr. Goldreich is suing for a divorce and his wife has filed a counter claim, also for divorce.

Mr. Goldreich is pursuing his physical culture activities here under the name of Professor A. M. Sullivan, and has a studio at 667 Madison avenue, which was rented originally, according to the affidavit of a private detective, by Mrs. Beatrice W. Flagler, widow of John H. Flagler.

Mr. and Mrs. Goldreich were married in 1899 in Petrograd. They have a son 17 years old. Mr. Goldreich names one Martin Huttig in his action, to which his wife replies that there is no ground for the allegation of her husband, as Huttig, who is 16 years her junior, was only one of several boarders she was compelled to keep.

In her counter claim Mrs. Goldreich names Emma Dimpke as a friend of her husband, as Huttig, who is 16 years her junior, was only one of several boarders she was compelled to keep.

He was a son of the late G. L. Gates, organ builder, of Truro, and a nephew of the late Rev. George O. Gates, D. D. He is survived by his wife and one son, and by one brother, Lester Gates, of New Glasgow.

The body was taken across to the bay this morning to Clementsport, N. S., where the funeral will take place today.

The body was taken today to Windsor for burial.

DINGHY TRIALS TO BE MADE HERE

Covey Makes Olympic Announcements on Return from Montreal.

Maritime Olympic dinghy trials will be held here early in June and the best skipper will go to Montreal to compete against skippers from Montreal and Toronto on June 6 for the honor of going overseas to represent Canada at the Pacific games.

"Such trials will be held probably early in June at Toronto and Montreal," he said, "to allow these centres to select a skipper and the three crews will convene at Montreal. The Maritime representative will not be required to take his boat with him as a standard boat will be used at Montreal. He will sail a different dinghy on each three days of the trial in order to test his knowledge of handling and sailing the craft. This should prove of great interest particularly to Halifax and St. John sports and from what I have seen of sailing around here, I look forward with confidence to the outcome of the Montreal finale."

President Covey attended the Dominion boxing championships on Saturday evening and what he saw, he says, convinced him that the Maritime champions, Louis Donovan of St. John, Raymond Kennedy of Halifax, and "Billy" Cavanaugh of Westville, N. S., would have experienced little difficulty in cleaning up in their respective classes.

Mr. Covey said that the showing made by Victor McAulay in the Boston Marathon practically clinched his selection to represent Canada in the Olympic Marathon. Provided the form displayed by McAulay and John Culbert of Guelph, is satisfactory on June 20 they will go overseas for this event. Other selections confirmed were Hilton Belyea of St. John as Canada's representative at the rowing classics and Dave Johnson, now studying at Oxford, for the 40 yard event. J. Howard Crocker will be unable to make the trip as general manager and P. J. Mulqueen of Toronto, was appointed in his stead.

Mr. Covey said that the Quebec Government made a grant of \$3,000 to the Olympic fund and that the Olympic committee would ask for an additional grant of 10,000 from the Federal Government.

Health brings Happiness

The picture of health—and therefore of happiness! The woman who is healthy can't help being happy, any more than she can help being attractive. She is brisk, cheerful and contented, possessing an abundant vitality that enables her to smile her way through the sad places of life and make the most of the happy times.

Nor does the healthy woman have to worry about her appearance. Her skin is always fresh and clear, with the soft natural glow of health that no cosmetic can imitate; she greets you with eyes that sparkle joyously; radiant happiness is reflected in every line of her face and figure. She has good looks—and she keeps them.

What is the secret of health?

The secret of health lies in a clear blood stream, and the secret of a clear blood stream lies in regularity of habit. Poisonous products, or toxins, if not completely expelled from the body, enter the blood and produce tiredness, depression, headaches, dull eyes and a blotchy complexion.

All this can be altered at a cost of half a cent a day—in the Kruschen way. A small dose of Kruschen every morning quickly cleanses all impurities from the blood. The eliminating organs are gently stimulated to the performance of their duty; the whole system responds to the tonic influence of Kruschen Salts. You feel fit and happy, able to meet everything with a smile.

And you look better too. The woman who has learned the Kruschen habit preserves her youthful charm well into middle age.

4 Men in 7 Bald at 40 -91% needlessly, by tests

Our experience shows falling hair most always due to Infected Sebum. Now quickly overcome.

Costs Nothing

Unless we grow hair. The Van Ess 3-bottle treatment is absolutely guaranteed. You are the sole judge. The warrant is given by your own dealer. We require in his signature showing you have purchased a ninety-day treatment. If it fails, we refund your money. Hence you assume no risk making this test.

Note this New Way -It Massages the Treatment Directly to the Follicles of the Hair

This patent applicator makes hair treatment, at home, possible for the first time. Blood alone revives. Treatment must reach the infected area under the surface. We accomplish it, as the illustration above shows, with hollow nipples of scientifically perfect rubber massage-ap which comes with every bottle of Van Ess Hair Grower. The medicament is led directly to the follicles of the hair. At the same time the flow of blood is stimulated by massage to the hair root.

Written Guarantee to Grow Hair This New Way—or Money Refunded

This is to offer you, under absolute money-back guarantee, the new Van Ess Treatment, which, under actual tests, grew hair on 91 heads in 100.

It embodies a new principle. A principle heretofore unknown to science. Now high authorities admit baldness may be greatly diminished. For hair roots seldom die from natural causes, and this method revives them. Test it yourself at our risk.

Hair Roots Rarely Naturally Die We estimate that 4 men in 7 are bald or partially bald, at 40. Our investigation proves this to be unnecessary. Proves only about 9 men in 100 need ever be bald!

Baldness is a symptom of a disease. Note this fact and mark it. It is most frequently a symptom of infection of the Sebum—the scalp oil.

Remove this Infected Sebum and hair will almost always grow. Under the bald scalp the hair roots are generally alive. We have demonstrated this to be true in about 91% of our cases of falling hair or baldness.

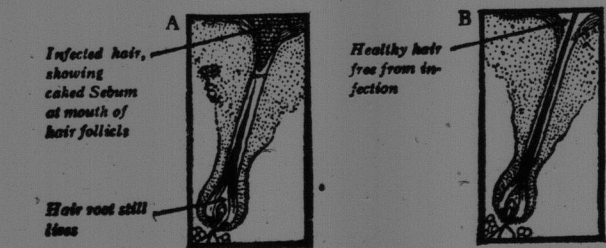

We claim this new method reaches the roots. That it makes hair grow. But the public has often been deceived. So we guarantee it. You take no chance of loss.

New Hair or No Money We make our guarantee without reservation—without strings. It is absolute. We guarantee to stop falling hair. We guarantee to grow new hair in 90 days. Sometimes it grows much sooner. But usually this treatment requires about 3 bottles of Van Ess. If we fail, your money back without question.

Note that your own dealer gives the warrant with each 3-bottle purchase. Thus you assume no risk. Over 400,000 men have made this test. It is safe for us thus to guarantee the treatment. For governments of years have proven it effective to us on 91 heads in 100. Foremost authorities approve it. Noted dermatologists now employ it—some charge as much as \$300.00 for a similar basic treatment.

We offer it in correct form for home use, at the price of an ordinary "tonic."

VAN ESS Liquid Scalp Massage Van Ess Laboratories, Inc. Toronto, Canada United States: 28 East Kinzie St., Chicago, Ill.

These two pictures show a cross section of the hair root or bulb and the case which encloses each hair from the root to surface of scalp. Generally infected Sebum causes 91% of baldness and falling hair. Remove it and hair will grow. Illustration A shows Sebum infected hair and B healthy hair.

How we save you \$3 on the Duofold As High as \$2500 in Gold Dust Reclaimed from Factory Sweepings Even Greater Savings Made Through Large Production PARKER has been shipping up to 10,000 and 12,000 pens a day in Canada and the States. We could sell more if we could make them—indeed the sales seem boundless. But Duofold craftsmanship cannot be turned on in any quantity like water. Every tip of select Iridium, for example, is skillfully fused in the extra thick gold point by hand. Then it's polished to a jewel-like smoothness, and this is slow—for this tip is the hardest metal known. Five times every point is inspected by experts. And each pen filled with ink and written with, before we let it pass. Equal skill, equal care go into other Duofold parts right up to the last loving touch—the handsome *Gold Girdle that reinforces the cap. A Lucky Boy ~ A Farseeing Dad

Twelve swift years have come and gone since Frank Cooke's son romped about the house—a lovable, rosy-cheeked baby boy.

Last Summer he passed his Entrance Examinations and entered the Collegiate.

Four years more, an ambitious, upstanding young fellow, he will be on the threshold of the most important part of his training for the battle of life—a University education.

And Frank Cooke's boy will go to the University: for twelve years ago, Frank Cooke determined that the air castles he had built for a baby boy should some day become a reality—that his boy should have a chance.

He insured his boy's future on the North American Life

Child's Endowment Plan. It appealed strongly to him because:

(1) It made certain that the boy would have a College Education.

(2) He knew that even if he himself died the North American Life Assurance Company would assume payment as planned.

(3) He learned that should the child die before his fifteenth birthday all the premiums paid plus interest would be returned, while if the boy's death occurred after that age, the full payment would be made.

You too will be interested in our booklet "Child's Endowment Plan." Write for it.

ARE HEADLINERS OF 1924 SEASON

Ruth, Sisler and Hornsby are the Big Three of Baseball.

(By Henry L. Farrell)

New York, April 28.—(United Press).—Babe Ruth, George Sisler and Rogers Hornsby should be the big headlines through another show of the major leagues. The Babe perhaps will hold chief interest during the season because of the heavy burden that he has taken upon himself.

Ruth said that he wants to make a new home-run record, to lead the league in batting and base-stealing, and win the prize again for being the most valuable player in the league. He would clutch the prize if he did the other things.

The Babe may not and probably will not make a new home-run record, but it is very likely that he can win the batting championship if he goes out after it with a serious mind. His ambition to lead the league in base-stealing is not worth the laugh that it would draw on a casual thought. The Babe is very fast for a player his size, and is a good base-runner.

If the pitchers get the expected results out of handling more soiled balls and less new ones than they have been handed in the past three years, the Babe may find the going very tough. He knows it and he accepts it with great philosophy. "If it's tough on me, it'll be the same thing on the other side," he says.

Sisler has a job in comparison to which anything the Babe has to do is small. The former Brown star is faced with the job of coming back as a player and making good as a manager.

His first time out. He has been out of the game for a year with a serious affliction of the eyes and he made a game effort to come back only because he knew his team needed him and that the club might get some place if he could go back and play first base.

It is very doubtful that he will be able to play through the entire season, and it is almost certain that his game will not reach the perfection it had before he was stricken so unfortunately.

Sisler was one of the game's outstanding players among one of its most versatile stars. He won the first prize that was offered to the player voted the most valuable to his team in the American League and he would have won many other prizes for all-around worth and efficiency if he had been put up for competition.

Rogers Hornsby may be able to pound the St. Louis Cards back into the first division. He had trouble with Branch Rickey, manager of the club, last year, and he threatened that he would not play again with the club.

It is understood, however, that everything is now lovely again. The following story about the Hornsby case written by Cullen Cain, head of the National League service bureau, is interesting:

"Every fan from Maine to Hollywood is deeply interested in Hornsby's condition and state of mind for the present baseball season. The champion batsman had what might be termed an off-year last season for him. It is true that he let his league with the stick as usual, but he was out of the game for some time with a strained tendon in his leg, and then he had serious trouble with his manager, Branch Rickey. There was talk all winter long about a Hornsby deal that would send the great player away from St. Louis, his baseball home ever since he entered the major league competition.

It can be stated authoritatively that Hornsby has settled his troubles with his club and that he is in grand shape for the 1924 pennant race. The Hornsby's state of mind and his sound leg are vital factors in the Cardinal contention for league honors this year. I had a long talk with Branch Rickey last March about his troubles and about his bad leg. We have been good friends for four years. As a newspaper man I have been pretty close to this level-headed, sensible Scotch-Irish prodigy of baseball, and he knows that in my writings I have never betrayed his confidence or embarrassed him, even when he talked frankly about things that might have made sensational stories.

Therefore, when I declare that Rogers has made up his row with his chief and his club owner and is in a content and happy state of mind and is also performing upon a knee that is as good as ever, I know that I am stating the truth of the case.

He talked frankly and most sensibly about his many troubles of last season. Only his force of character enabled him to bat and play as he did

WOULD RATHER PLAY IN MINORS

Major Leagues Have No Appeal for Southpaw Harry Courtney.

Chicago, April 28.—Pitcher Harry Courtney of the White Sox has been sold to the Vernon club of the Pacific Coast League without any strings attached.

The case of Pitcher Courtney is a most peculiar one. Possessed of enough stuff to easily win a major

league berth, he has been a "fiver" his entire career. Courtney first came to the majors as a member of the Washington club, looked good for a while, slumped, and was traded to Chicago.

Chicago soon tired of him and sent him to San Francisco, where he led the Coast League in pitching.

This showing caused Chicago to bring him back. However, he showed so little in spring training that he was sent back to the minors before the opening of the season.

"I'd rather play in the minors anyway," this peculiar pitcher said.

PRAISES AMERICA FOR OLYMPIC AID

Marquis de Polignac Says Success Due to Their Interest.

Paris, April 28.—Warm praise for the American spirit of co-operation in making the Olympic games a success was expressed by Marquis Melchior de Polignac, French member of the International Olympic Committee and Commissioner of Foreign Relations for the French Olympic Committee, in an address before the American Club of Paris recently.

"There is no country in the world," he said, "in which the Olympic idea has been developed to such an extent as in the United States. Thanks to the co-operation of the United States, Baron Pierre de Coubertin in 1896 was able to achieve the revival of the Olympic games, culminating in the competition in Athens in 1896. It was because of the participation of the United States at Athens that other countries followed suit.

"This year the United States has made it a point to be represented in every event of the Olympic calendar, even those sports in which the rank and file of the American nation is not keenly interested and in which the American athletes do not practice with regularity, such as European rugby and association football. We have a feeling that the American team will be practically unbeatable in athletics. The Olympic effort which the United States is making is tremendous, but we have upped our minds to fight them every inch of the way for the Olympic honors.

"If, as it is said, the United States loves a fighter, they will simply worship France after the Olympic games."

KENTVILLE HAS ROTARY.

The Rotary Club of Kentville, with 25 members, was formed last Friday evening at a meeting at the Cornwallis Inn, following a banquet attended by 68 actual and prospective Rotarians, including President Southam, an ex-President Pyke, and eighteen other members of the Halifax Rotary Club.

President Baker and five other members of the Yarmouth club, and two from St. John. Joseph Le Doux, St. John, was one of the spectators.

CHANCE PRAISES KAMM.

Put Quick Finish To Bakers' Lockout

Rio de Janeiro, April 28.—(United Press).—The Prefect of this city has his own little peculiar way of ending lockouts, which proved a complete success when bakery owners endeavored to close their shops as a protest against a municipal ordinance shortening working hours in bakeries.

Bakery owners of Rio de Janeiro met and decided to close shop, not considering in the least the million and a half inhabitants of this city who would probably be left breadless, until the municipal ordinance protested should be repealed.

Mr. Prefect notified the bakers that their shops would be taken over by the Government and baking would continue. Baking was continued without the Government taking over the shops.

SCOUR CITY FOR MAN ALREADY IN COURT

Inspectors Were After Jos. Smith for Giving Liquor to a Girl.

While local liquor inspectors were traversing the highways and byways this morning seeking a young man, who it was alleged had given liquor illegally to a young woman yesterday, the man was occupying a cell at Central Police Station having been found guilty and, falling to pay a \$200 fine, was ordered to jail for three months.

The girl, who said she was from Annapolis and who is now a resident here, had been taken into custody on a charge of drunkenness. She informed the liquor inspectors who gave her the drink and they secured a taxi and went in search of the young man. In the mean while the police had been called up to ascertain if he could arrange to pay her fine of \$8 and he was invited to call at the police head quarters to do so when he arrived he was escorted inside the rail and the young woman identified him as the man. He pleaded not guilty and the young woman was sworn. She said he called to the house where she resided last night and had a bottle of liquor with him. She said he passed it to her and she poured herself a glass full and drank it. In answer to a question by the defendant she said she did not know whether or not it was liquor, but whatever it was it made her drunk. She said it resembled water, but its effect was different. As the defendant had no witnesses to call the fine was struck.

The case was just over when Wm. M. Ryan appeared on behalf of the prosecution having been notified by the inspectors that they had a case coming up in court. When he arrived and learned that the case had been disposed of he smilingly went in search of the inspectors who were for their intended victim.

IS BROUGHT HERE AND IS DEPORTED

Man Had Got Into United States at Vanceboro, Maine.

F. Q. Twitchell, U. S. Immigration Inspector here, returned to St. John on Friday from Bangor, bringing Kale Lahtinen, a prisoner from the Penobscot county jail, who was deported from Finland on the steamer Montclair, sailing on Friday.

Lahtinen and two other aliens were held under \$500 bonds for the June term of the U. S. district court on a charge of violating the immigration laws. They were arrested at Vanceboro after they had been refused admission to the U. S. They had walked from Madam Jet to Vanceboro in an attempt to elude the immigration authorities. Lahtinen's two companions are being retained in jail and it is understood that they also will be deported.

Mr. Twitchell recounted an exciting experience which another inspector had with an alien while bringing him through Maine about two weeks ago on the way to St. John for deportation. The prisoner was a Finn who was being brought from the Pacific Coast and was in charge of the Buffalo inspector. Near Danforth, Me., while the train was traveling about 30 miles from the car. After he had spent two nights in the woods without either food or coat, the prisoner was recaptured at a lumber camp and brought to St. John and was sent out of here on the Mont Laurier.

Louis Jones Gets Sentence for Beating His House-keeper.

Louis Jones was sent to jail today for two months without option of a fine for assaulting Alice Moses. The defendant denied the charge. He told of bringing her here from Annapolis to keep house for him. He said she had started drinking. Magistrate Henderson found the defendant guilty and ordered him sent to jail for two months.

HE WAS PRAISING; NOT CRITICIZING

Progressive M. P. Writes of His Remarks on Facilities Here.

That he had no intention of trying to create the impression that St. John and Halifax were carrying too much overhead in the matter of facilities for the handling of incoming citizens to Canada was the substance of a letter received this morning by the Board of Trade from R. A. Hoye, one of the Progressive members of parliament who was recently in the city.

In an interview at Montreal, on the return after his visit to Halifax and St. John, Mr. Hoye was quoted as saying that both ports had too extensive facilities for the caring for immigrants and the overhead expense was much too great. Following this the St. John Board of Trade secretary wrote to Mr. Hoye and asked for an explanation of his remarks. The following sets forth his views on the matter:

"I want to thank you for your letter of April 23. It is scarcely necessary for me to say again that the trip to the Maritime Provinces was very enjoyable, very instructive and indeed on my return to Montreal on the Ingham I had in mind, and what I tried to convey, was the fact that you had built up at St. John and at Halifax great facilities for handling immigrants with the utmost despatch, and that it seemed incredible to me in view of the expenditures that had been made that more use was not made of both ports. The weather since our return here is more like spring and all the members of the party are feeling in the best of spirits."

It is likely that one or two physical attractions will be arranged for the month of May. The reopening for the fall and winter will be at the first of September.

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram H or h e a m, "how much space does it take to set down all the reasons of all the voters today for the votes they cast?"

"I guess," said Hiram, "you would get much else in the paper."

"Curious—isn't it?" said the reporter.

"Yes, sir," said Hiram—"it is so. One feller votes for a man because he done him a good turn one time. Another feller votes for a man because he don't like him. Another feller votes for a man because he kin get somethin' out of. Another feller votes for a man because he thinks he's honest and square. Another feller votes for a man that belongs to his party. Another feller votes the way some other feller asks him to. One feller swears to vote another feller plumps. Another feller votes for a man because he thinks he needs a job. But I guess, I better stop. Our space is most filled up ain't it?—an' I only just got started."

"You have not mentioned those who vote for the men they believe would make the best administrators—regardless of all other considerations," said the reporter.

"They're the salt of the earth," said Hiram. "The trouble is we hain't got enough salt—no, sir."

ALL EXPRESS CONFIDENCE IN RESULT

Early Vote in Some Notably North End, is Light. MANY CARS OUT. Fine Weather and Keen Interest Great Workers in Civic Contest.

While the vote in some of the wards, particularly in the North End, was said at noon to be lighter than at the primaries two weeks ago, an increased vote was reported in several of the other booths this morning, and it was predicted by several that a record vote would be polled in the annual by which a mayor and two commissioners will be chosen.

There is no doubt that the interest in the result of the ballot is keen, and representatives of all the candidates today expressed confidence that their men were going to be victorious.

Today's vote will decide whether G. Fred Fisher will remain at City Hall as mayor for another two years, or whether he will be replaced by Frank L. Potts; also as to who will be the two commissioners who will join Messrs. Bullock and Wigmore in the personnel of the City Council. Their term will be for four years.

VIRGINIA IS SCENE OF DISASTER

Great Blast Locks in Men Soon After Day's Work Begins.

FIRE IS REPORTED

Explosion Occurs 3 Miles in From Mouth—Rescuers Blocked.

(Canadian Press.) Wheeling, W. Va., April 28.—A few minutes after between 100 and 200 miners went to work in the Benwood mine of the Wheeling Steel Corporation near here this morning, a terrific explosion occurred in the workings. The fate of the men is unknown. The blast, according to reports from Benwood, took place about three miles back in the mine. Benwood firemen reported the mine was on fire.

Clouds of smoke drifted from the main entry of the mine and volunteer rescuers were driven back. An hour after the explosion occurred, not a single rescue worker had been able to enter the mine.

Entries Blocked.

Entries to the mine, which is a drift mine, were blocked by falling rock and debris, further hindering the work of rescuers.

Deadly fumes are seeping through the blocked entrances. More than 200 tonnes from nearby mines rushed to Benwood when word of the disaster spread. Their first task was to clear the entries so that rescuers could go in. The rock and debris blocking the mine was attacked with picks and dynamite.

Among those trapped under ground was George Hollie, the fire boss, who went in this morning to see that all was safe. A slope fronting the mine mouth soon was crowded with men, women and children, unmindful of a drizzling rain.

Charleston, W. Va., April 28.—A report to the State Department of Mines from the Benwood Mine of the Wheeling Steel Corporation said there were 107 men at the mine at the time it was wrecked by an explosion this morning.

MUST CLEAN UP IN Nfld. POLITICS

Biting Comment Made by Glasgow Herald on Situation at St. John's.

London, April 28.—(By Canadian Press Cable).—Discussing the Newfoundland revelations, the Glasgow Herald says the report of T. Hollis Walker, K. C., recorder of Derby, England, the royal commissioner who found Sir Richard Squires, former Premier of Newfoundland, guilty of corruption, revealed the existence on the part of politicians and a considerable section of the public of a state of morality in connection with public funds that resembles an American state in its worst days of boss-rule, rather than what one is accustomed to associate with a British colony.

The only immediate step that could have been taken by the Government of W. R. Warren after the presentation of the Walker report, the Herald says, was to announce its intention of pushing on an inquiry quietly into a number of other dark places in Newfoundland's political life. What caused the arrest of Sir Richard Squires at the particular moment when it was made, though natural enough in the light of Commissioner Walker's findings, is not quite clear, the Herald says. Saying that presumably Premier Warren would resign, the Herald expresses the hope that whoever may succeed to the head of the Newfoundland Government will not yield to the temptation of trying to shove the Walker report and ignore its findings. To do so after the attention of the English speaking world has been drawn to the contents of the report, and the low level of Newfoundland political life, in the Herald's view, would be to deal the republic of Newfoundland a blow from which it would not readily recover.

Shot Kills Rum Hauler 2 Miles Off

Savannah, Ga., April 28.—Walter Evans, an alleged liquor hauler, was killed by a rifle bullet fired by an 11th Infantry soldier two miles away. Evans was in a boat in Forest River when he suddenly crumpled up and fell into the bottom. There was a man with him and nearby was a power boat loaded with liquor. It was not until Evans was dead and the bullet taken from his body that it was finally determined he had been killed by a bullet fired two miles away on the Rose Olu rifle range. The liquor was confiscated.

The roadbed was damaged considerably, about 300 ties being cut up. The entire train remained standing on the roadbed. The Moncton auxiliary crew arrived about 12 o'clock. It was expected the line would be clear by 2 o'clock.

LABOR WILL MAKE CUT IN SOME TAXES

Philip Snowden is to Deliver British Budget Speech Tomorrow.

NOTHING DRASTIC

Crux of Debate will be on What Liberals Regard as Protection Wedge.

(By HARRY N. MOORE.) (British United Press.)

London, April 28.—Labor's first budget will be presented tomorrow in the House of Commons by Labor's first Chancellor of the Exchequer, Philip Snowden. The shortness of the period of power which Ramsay MacDonald and his colleagues have enjoyed precludes the possibility of the development of a full financial programme. This also, with the fact that they are dependent on the Liberals for their continuance in office, acts as a check against the introduction of possible drastic changes.

Among the expected changes are reductions in the tea and sugar taxes and the abolition of the entertainment tax, making cheaper seats in the theatres and moving picture houses possible. These will, of course, make a popular appeal. It is not expected that there will be any reduction in the income tax, as was the case last year. Protection Question.

The crux of the debate on the budget will come over the question of the abolition on continuance of the McKenna duties, which were instituted under the safeguarding of industries bill and which are regarded by the Liberals as the thin end of the wedge of protection. These apply to motor cars, clocks and watches. There is a possibility, however, that a compromise may be reached in the modification of these preferences.

A cabinet meeting is taking place this afternoon and the final touches are being put to the budget statement, but the real crisis will come on Tuesday evening, when there will be a caucus of Liberals to decide definitely what action the party will take after the proposals have been introduced. There has been a strong movement among the automobile manufacturers against any change of the McKenna duties so far as their industries are concerned and every possible pressure has been brought to bear on the government to prevent any relaxation, which would be the death of a business that has shown small signs of recovery during the last two years.

London, April 28.—Some political commentators go so far as to say that the budget position is a critical one for the administration and that its life depends upon how it handles the financial problems on this occasion. The Conservative Morning Post predicts that, whatever decision the Government takes, it will get a majority for the budget, as if the McKenna duties are retained it will be saved by the bulk of the Liberals and its own supporters will keep it in power.

Differences apparently have arisen among the ministers on the proposed abolition of the McKenna duty, and in some quarters it is predicted that a crisis may arise over the question. The first fire destroyed several buildings of a lumber company and fifteen million feet of pine lumber. Across the street were six new Standard Oil Company tanks from which the oil was drawn through emergency pipes to Hoboken, N. J. The tanks, new ones, replacing those destroyed in a fire in 1919, were separated from the flames by a barrage of water.

The second fire was in a paper factory in a densely populated section. The horses were killed in a stable adjoining the lumber company. Fifty animals in stables adjoining the paper company were saved.

GET RICH HAUL

Bandits in New York Rob Jewelry Plant of \$150,000.

New York, April 28.—Three bandits early today attacked, bound and gagged Charles Kresney in his office and jewelry manufacturing plant in Nassau street, and escaped with diamonds and platinum mountings valued at \$150,000. The robbery occurred between 7 and 7:30 o'clock. It was discovered by a foreman in the plant, who found Kresney and Josephine Sefrano, a charwoman, bound and gagged. Kresney, who was semi-conscious, was taken to a hospital. One wallet of diamonds which were stolen, it was said, contained stones worth \$75,000.

The robbery occurred on the seventh floor of an office building in the crowded downtown business section.

Too Much Kissing Holds Up Traffic

London, April 28.—(United Press).—The goodbye kiss habit must be abandoned to prevent traffic congestion, the Town Council of Bourne-mouth decided. The municipal authorities had many complaints of slow tram and bus service. Traffic experts, after a week's investigation, reported that there was too much farewell kissing in Bourne-mouth. Trams and buses were delayed and traffic tied up in knots while prospective passengers indulged in prolonged sociological farewells. The council issued an appeal to the public to quit kissing; that is, while traffic waits.

Toronto, April 28.—Resolutions of censure upon the private bills committee of the Ontario Legislature for amending the Church Union bill, and for the granting of such legislation were passed Sunday afternoon by laymen of the Church Union movement, who, representing the Unity League throughout the province, gathered here.

Declarations that Premier Ferguson had nominated to the private bills committee members who did not represent the best thought of the province, that the Anglicans should not be allowed to settle the affairs of other denominations, that the churches concerned were not to be kept alive and individual "at the behest of the McClelland and the Curries of the legislature" were some of the more emphatic utterances of speakers in expressing their displeasure at the action of the Ontario House upon their bill.

Across the street were six new Standard Oil Company tanks from which the oil was drawn through emergency pipes to Hoboken, N. J. The tanks, new ones, replacing those destroyed in a fire in 1919, were separated from the flames by a barrage of water.

During the "strike" last January a relief fund amounting to about \$105,000 was distributed among the miners in grocery orders. President Lewis of the International Union, it is said, disclaims responsibility for this expenditure, inasmuch as the "strike" was not officially declared. It has been proposed to the men of the district that the \$105,000 be made up by a levy of fifty cents a week for the next four months on every man in the district. Many miners are reported to be indignant over the proposal.

SOLDIER'S LIFE ENDS.
The death of Patrick Guilmet of Little Caraquet, N. B. occurred yesterday morning at the St. John County Hospital. He enlisted in 1916 in the 163rd Battalion and served in France. He was discharged from the army in 1918, in poor health and given treatment at the County Hospital, being discharged from there slightly improved. In December, 1922, he was re-admitted and at that time was very ill. He is survived by one brother, Albert, and one half-brother, James. The body was taken today, accompanied by his brothers, to his former home for burial. Despite the serious nature of his illness, he was always bright and cheery and was one of the most popular patients of the institution.

Henry Ford Is "At The Throttle"
Marquette, Mich., April 28—Henry Ford is learning to drive a locomotive; Harvey Firestone, millionaire tire manufacturer, is acting as fireman, while Thomas Edison encourages them when they return from the engine cab of the Ford special train touring the upper peninsula of Michigan on an inspection tour of Mr. Ford's properties.

Mr. Ford has taken to his new job with the avidity of a youngster, according to the trainmen with the party, and can handle the engine efficiently. Mr. Firestone, they said, is a fireman. Mr. Edison is taking his annual outing with the Fords. Mr. and Mrs. Edsel Ford also are with the party.

LOOKING FORWARD.

While the citizens are deciding the complexion of the new City Council, St. John is looking forward to what should be a year of action and progress. The construction of the new hotel is an event of the first importance, because it will mean a local need of long standing, and will mean that many persons of the most desirable sort will come to the city, and that they will stay longer than if the accommodation were not so good.

of the world. In its final determination it must come from the heart of the people. Unless it abide there we cannot build for it any artificial lodging place. If the will of the world be, there is no artifice by which we can protect the nations from evil results. Governments can do much for the betterment of the world. Because they cannot do everything they must not neglect to do what they can. But the final establishment of peace, the complete maintenance of goodwill toward men, will be found only in the righteousness of the people of the earth. Wars will cease when they will that they shall cease. Peace will reign when they will that it shall reign.

A REPLY, AND SOME EPIGRAMS.

The British Prime Minister's suggestion that the United States call the nations together for another disarmament conference has brought a somewhat guarded reply from President Coolidge, in his references to international affairs in the course of his speech to the Associated Press a few days ago.

There is some talk in England—probably idle—about abolishing the post of Poet Laureate after the death of Robert Bridges. The poet, it is said, but he is very likely to outline the present government. Appointing a P. L. is a ticklish job.

EACH OF THEM IS ASKING DIVORCE

Former Trainer of German Crown Prince in New York Case.

New York, April 23.—The matrimonial differences between Mrs. Marie G. Goldreich and Armand M. Goldreich, who was physical instructor to the former Crown Prince of Germany, began in Hungary soon after the beginning of the World War, and now are being continued in New York, where Mr. Goldreich is suing for a divorce and his wife has filed a counter claim, also for divorce.

Mr. Goldreich is pursuing his physical culture activities here under the name of Professor A. M. Sullivan, and has a studio at 667 Madison avenue, which was rented originally, according to the affidavit of a private detective, by Mrs. Beatrice W. Flagler, widow of John H. Flagler.

Mr. and Mrs. Goldreich were married in 1899 in Petrograd. They have a son 17 years old. Mr. Goldreich names one Martin Hurlig in his action, to which his wife replies that there is no ground for the allegation of her husband, as Hurlig, who is 16 years junior, was only one of several boarders she was compelled to keep.

In her counter claim Mrs. Goldreich names Emma Dumpeke as a friend of her husband. She also tells something about her life with the physical instructor in Europe. She says that Mr. Goldreich abandoned her in September, 1914, and that she sued him for a divorce in Hungary, but was com-

Covey Makes Olympic Announcements on Return from Montreal.

Maritime Olympic dinghy sailing trials will be held here early in June and the best skipper will go to Montreal to compete against skippers from Montreal and Toronto on June 18 for the honor of going overseas to represent Canada at the Paris games.

President Covey attended the Dominion boxing championships on Saturday evening and what he saw, he says, convinced him that the Maritime champions, Louis Domovay of St. John, Raymond Kennedy of Halifax, and "Billy" Cavanaugh of Westville, N. S., would have experienced little difficulty in cleaning up in their respective classes.

The new plant will not be for the purpose of handling hardwood from the Randolph & Baker limits on the upper St. John river which they recently purchased, but it is proposed to ship hardwood, after it has been cut at various small mills, to St. Leonard and there complete the manufacture.

Plans of the Fraser Companies, Limited for establishment of a hard wood plant at St. Leonard are said to be much more extensive and elaborate than have so far been revealed.

The Vital Spark of the Great Battleplanes

IN the thrill of allied air-fighting in the Great War, Hart Battery played its part.

On many a perilous mission the Hart became a factor of first importance in the very existence of the individual, the army and the nation.

"Contact! He's away!" Are the batteries true and staunch and dependable! What wonderful support to the aviator who gambled with death to know that the Hart would not fail!

The proudest pages from the history of Hart Batteries are recalled to make plain that in the Allied service this Canadian-made British equipment came through with flying colors in the supreme and most severe test of all.

Ask Bishop or Barker or McCudden! Ask "Tam O' the Scoots" or Eddie McKay, if you can find them! And then you will be proud to equip your car, your motor boat, your radio or farm plant with Hart Batteries.

Watch for the Hart Service Station—you'll get service with a Hart behind it.

PARKER has been shipping up to 10,000 and 12,000 pens a day in Canada and the States. We could sell more if we could make them—their sales seem boundless. But Duofold craftsmanship cannot be turned on in any quantity like water. Every tip of select iridium, for example, is skillfully fused in the extra thick gold point by hand. Then it's polished to a jewel-like smoothness, and this is slow—for this tip is the hardest metal known. Five times every point is inspected by experts. And each pen filled with ink and written with, before we let it pass. Equal skill, equal care go into other Duofold parts right up to the last loving touch—the handsome *Gold Circle that reinforces the cap. This Circle was \$1 extra—now free, due to savings made by large production and efficiency. To reclaim the gold dust, we even wash employees' clothes, and save factory sweepings. Not long ago one rubbish heap yielded us \$2,500 in gold. Yes, Parker Duofold would cost \$10 or more if made in ordinary ways and small quantities. HONOR SOLDIERS IN CHURCH UNVEILING

Window in Fairville Church Dedicated; Tablet to Basil Winter's Memory.

In memory of members of the congregation who served during the Great War, a beautiful window was unveiled and dedicated at a service in the Fairville Baptist church yesterday afternoon in the presence of a congregation that filled the church and the adjoining schoolroom. On plates are inscribed the names of those who made the supreme sacrifice, as follows: Harold Duplisa, Freeman Fowler, John Hamilton, Harold D. Linton, Eugene McLaughlin and Willard C. Miller. The service was conducted by Rev. C. T. Clark, the pastor, while the act of unveiling was performed by Mrs. A. E. Kierstead, president of the Ladies' Aid Society, which raised the funds to install the window. Members of local military units were present, including Col. Commandant J. Houston, D. S. O., Lt.-Col. H. O. Sparling, Lt.-Col. G. P. Corbett and others. Others present included Councillors J. T. O'Brien, Murray Campbell and W. Golding. The scripture reading was by Rev. J.

M. Rice, while special music was given by Mr. and Mrs. Murray Long, Marion Stevens, Percy Flewelling and E. C. Girvan.

The games of the honor roll are as follows: Lewis H. W. S. Allingham, Ernest O. Arbo, Judson O. Arbo, Lt. C. Ernest Baker, Frank Baker, Mary E. Barnhill, W. Percy Barnhill, Lieut. Chester Beveridge, Clarence Beveridge, Willard Beveridge, Ralph S. Black, Eddie Cameron, George Chambers, John M. Clark, Harold Duplisa, James Duplisa, Michael Ellwood, Freeman Fowler, Guy F. Fox, William M. Fox, John Hamilton, Corp. William Harris, William Harris, Jr., J. Gordon Huestis, Ralph J. Huestis, V. Cowan Knorr, John Knorr, B. D. Knox, Gordon S. Lawson, Lowell T. Lawson, Roland Lawson, Harold D. Linton, Corp. Kenneth Linton, Frank Lodge, Herbert J. Lodge, Walter Marshall, Eugene C. McLaughlin, Allan A. Miller, Albert Miller, James A. Miller, Willard C. Miller, George Ring, Harold D. Ring, Vincent Sege, Edith M. Sine, William H. Walters, Glendon Williams and Harold Williams.

Present-day economic problems are due to stolidity and immorality, declared Rev. P. McLeod in a forceful sermon yesterday in St. Matthew's church. He urged people to cultivate more individuality and follow their own conscience and not the crowd.

The evangelistic services in Carleton Methodist church conducted by Rev. Dr. G. F. Phelps were concluded last evening with a large congregation present. In his address he urged the people to retain their faith in the Bible. A duet was sung by Richard Dawson and F. J. Panter.

Beginning a series of sermons of events in the New Testament from Easter to Pentecost, Rev. Robert G. Fulton preached last evening in Centenary church on "The Woman to Whom the First Message Came," meaning Mary Magdalen, first at the tomb on Easter day. The congregation was very large. The flowers were in memory of the late Joshua Clawson, for many years a leader of the choir.

William Lanyon sang a solo. Rev. Ned MacLaughlin preached in the morning, exchanging with Rev. Mr. Fulton.

The sacred Easter cantata "Alleluia" written by R. M. Stults and inscribed to Christ church choir, Ridley Park, Pa., first published in January of this year, was sung last night by the choir of St. Mary's church. Mrs. H. Taylor McKim, organist and choir leader directed the cantata. The congregation thronged the church. The choir numbers 38 voices, and both choruses and solo parts were admirably sung. The soloists were Mrs. W. Osborne, R. I. Carless, Miss Eva Mitchell, Miss Edna Hunt, Mrs. John Pike, Mr. and Mrs. Douglas Olive, Mrs. Howell, J. N. Rogers and Daniel Bevans. A brief service of prayer was conducted by Rev. R. T. McKim. An exchange of pulpits was made yesterday by Rev. H. A. Goodwin, of

the Portland Methodist church, in St. John, and Rev. E. Val Tilton, of the Central Methodist church, Moncton. The choir of St. Columbia church in Fairville, and St. Matthew's church, North End, made an exchange last night and repeated their Easter music. The music was greatly enjoyed.

Seventeen members were received in the Fairville Methodist church last night when the service was conducted by Rev. J. M. Rice, pastor.

It was announced yesterday by Rev. R. G. Fulton that Rev. Campbell Morgan, the celebrated English preacher, would be in St. John for a

week this fall and would conduct a mission similar to last year. The churches uniting in bringing him here are Centenary, St. David's, St. Andrew's and German street Baptist.

Rev. G. D. Hudson, a former pastor of the Victoria street Baptist church, preached at that church yesterday morning and at the Waterloo street church in the evening.

At the morning service yesterday in Stone church there was unveiled a brass tablet to the memory of Basil Winter, the first member of the "26th" to win the Military Cross. The unveiling was done by Lieut.-Col. J. L.

POS-LAM OFTEN ENDS PIMPLES IN 24 HOURS

Whenever any of these annoying eruptions appear, dab them at night with this gentle, healing Pos-lam ointment. It is so concentrated that by the next morning the pimples have sometimes gone. If they aren't all gone then touch them again with a bit of Pos-lam. This does the trick. At all druggists.

McAvity, the first commander of the battalion, the prayer of dedication was offered by Rev. A. L. Fleming and the Last Post was sounded by Bugler Horsman.

A plea for candidates for the mission fields of the church was made yesterday by Rev. P. G. Powell of Toronto. The visiting preacher spoke at St. George's church in the morning and St. Luke's in the evening.

The service in St. Andrew's church last evening entirely was directed by the Young Men's Club, and was unique in the history of the church. Fred Smith, president, was in the chair, while Rev. J. S. Bonnell, minister, led

the devotional exercises. Everett Mcgarly read the scriptures and J. J. Murray spoke of the relation of the young men to their church. Allister Morrison told of the club's aims and Cecil Spence urged for an increased membership and more active interest in the club. Selections were given by a male double quartet composed of Thomas Guy, G. Young, Donald Young, H. Shaw, H. Finley, Wallace Brander, G. Clapp.

St. George's Day Service. The annual divine service in memory of St. George's Day was held last evening in St. John Baptist (Mission) church with Rev. J. V. Young, chaplain to the society, conducting the services. About 80 members, headed by R. G. Schofield, president, attended and listened to an impressive sermon on consecration by the chaplain, C. B. Allan, president of St. Andrew's Society, attended the service.

St. David's church was filled to capacity last evening after the regular service to hear the combined choirs of St. David's and St. Andrew's sing the cantata, "Seven Last Words of Christ." The soloists were Mrs. B. C. Ferris, Mrs. Thomas Guy, A. Smith, H. Shaw, T. Guy and C. Girvan.

Put Quick Finish To Bakers' Lockout

Rio de Janeiro, April 28.—(United Press).—The Prefect of this city has his own little peculiar way of ending lockouts, which proved a complete success when bakery owners endeavored to close their shops as a protest against a municipal ordinance shortening working hours in bakeries.

Bakery owners of Rio de Janeiro met and decided to close shop, not considering in the least the million and a half inhabitants of this city who would probably be left breadless, until the municipal ordinance protested should be repealed.

Mr. Prefect notified the bakers that their shops would be taken over by the Government and baking would continue. Baking was continued without the Government taking over the shops.

WILL WIN \$25 PRIZE. A prize of \$25 in gold awaits the winner of the correct ticket, No. 998, bought at the door of the Knights of

Columbus tea last week in their hall Coburg street. A big crowd took advantage of the brightly lighted hall and the delicious tea served by competent waitresses. Miss Kathryn Galivan made the hit of Saturday evening when she went among the crowd singing. Joseph Kennedy, at the Waterbury and Rising Ltd. store, Union street, has the unclaimed prize for the fortunate winner.

FIRE PREVENTION. This is Fire Prevention Week. It will be featured this year broadcasting by radio of special addresses by His Honor Lieutenant-Governor Todd, Premier Veniot here probably on Tuesday and Wednesday of this week. Arrangements for observance of the week have been made under the direction of Hen. C. W. Robinson, Minister of Lands and Mines.

MAY DEVOTIONS TO BEGIN. The regular nightly May devotions will begin in all the Catholic churches of the city on Thursday night, May 1.

"TO HELP OTHERS"

"TO Help Others" is the whole basis of Salvation Army activity. All its work is bound up in these three words. If it were not so, it would not be necessary to ask you, once a year, to support the Self-Denial Appeal.

There is hardly a phase of life that the Army does not touch in one way or another. The rich and poor, the sick, the feeble—those who have measured years by their sorrows—all seek the Army's helping hand.

We believe you are eager that we continue our work among the unfortunate ones. Give us your financial and prayerful co-operation and we will keep on "helping others".

The Money You Give will be made to yield full value for every dollar. It will be spent where it will do the greatest good.

Will You Give Something To-day?

Liver Trouble The Cause

Mrs. A. C. Brown, Oromocto, Ont. writes:—"I have been troubled with my liver for a few years back, and was so bad I did not feel able to do my work. I had severe pains in my stomach, so bad I could hardly stand them at times; coated tongue; bad taste in the mouth, especially in the morning; whites of eyes tinged with yellow, and had a muddy and sallow complexion. I had read a great deal about Milburn's Laxa-Liver Pills and decided I would try a vial, and after taking two or three I found I was greatly improved, and can truthfully say that I felt more like living and can now do my own work without any trouble. Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram, "you're a man because you suppose it would take to set down all the remarks of all the voters today for the voters they cast?" "I guess," said Hiram, "you wouldn't get much else in the paper." "Curious—ain't it?" said the reporter.

"Yes, sir," said Hiram—"it is so. One fellow votes for a man because he don't like him. Another fellow votes for a man because he thinks he's a good turn one time. Another fellow votes for a man because he don't like him. Another fellow votes for a man because he thinks he's a good turn one time. Another fellow votes for a man because he don't like him. Another fellow votes for a man because he thinks he's a good turn one time."

"You have not mentioned those who vote for the men they believe would make the best administrators—regardless of all other considerations," said the reporter.
