## NAVAL POLICIES MATTER OF TALK WITH GEDDES

Conference With Earl Curzon and Lloyd George

German Disarmament Matter up on January 25—Churchill May be Next Colonial Secretary—The New French Cabinet.

London, Jan. 17.—The question of the naval policies of the United States and Great Britain will be one of the principal subjects discussed at a conference here by Sir Auckland Geddes, British Ambassador to the United States, Lloyd George and Earl Curzon, foreign secretary, so it was stated in authoritative quarters yesterday.

Paris, Jan. 17.—Prime Minister Lloyd George and Premier Briand will meet on Jan. 25 for a conference on German disarmament and other matters now awaiting settlement.

The date was first fixed for January 19, but a postponement was made necessary because of the Italian cabinet, which was developed here on last Wednesday.

London, Jan. 17.—(Canadian Associated Press)—Lord Milner states that his resignation from the colonial office will take effect at the end of this month. It is understood that Hon. Winston Churchill will succeed him.

The times says that Mr. Churchill, in addition to the usual responsibilities of colonial secretary, will have charge of the mandated territories assigned to Great Britain under the terms of the peace treaty.

London, Jan. 17.—Winston Spencer Churchill, the war minister, it is reliably, although unofficially stated, has accepted the post of secretary of state for the colonies in succession to Viscount Milner, who resigned the portfolio on January 7.

Italy and the Treaty.  
London, Jan. 17.—It has been unanimously decided by the Italian cabinet, says an Exchange Telegraph despatch from Rome, that in the coming supreme council in Paris it will be impossible for Italy to support any measure calculated to force Germany to fulfill in their entirety the obligations of the Versailles treaty or any measure which would accept the present disposition as regards the Near Eastern situation.

The New French Cabinet.  
Paris, Jan. 17.—The general impression in political circles is that the Briand cabinet is a very powerful element, although many are deploring the absence of Mm. Poincare and Viviani from the combination. M. Briand has succeeded in forming his seventh cabinet, which, he himself says, embodies "national unity."

Paris, Jan. 17.—Little enthusiasm was today evidenced by newspapers of Paris over the new Briand cabinet. Expectations of a "great national administration" raised by Raoul Peret who announced his failure to form a cabinet, were not realized in the cabinet chosen by M. Briand. Most journals expressed mild satisfaction or reserved judgment.

## THE EMBARGO AT SYDNEY IS OFF

Men Will Handle Dominion Steel Freight

Sydney, N. S., Jan. 17.—The embargo declared by the Brotherhood of Railroad Employes against the shipment of steel products from the plants of the steel companies of Cape Breton has been called off.

Sydney, N. S., Jan. 17.—Steel freight is now being moved by local C. N. R. switching crews, and twenty-five cars of steel products, principally ship-plates consigned to the department of marine and fisheries, left the city at eleven o'clock over the eastern lines of the C. N. R. lines bound for Trenton, Montreal and other points.

Authority for calling off the embargo was received by local heads of the Brotherhood of Railway Employes from their grand officers, who have been in conference with W. A. Kingsley, general manager of the eastern lines of the C. N. R. at Montreal.

L. McLean, chief of the Sydney subdivision of the C. N. R. Brotherhood of Locomotive Engineers, admitted he had received instructions from brotherhood headquarters to move the freight, but would not make public the text of instructions.

Montreal, Jan. 17.—A conference by officials of the C. N. R. the Brotherhood of Railway Employes and the federal department of labor was held here yesterday. The railway officials announced this morning that all Dominion Steel Co. freight at Sydney was moving freely.

It is understood that as a result of the meeting here, the brotherhood officials sent instructions to C. N. R. employes at Sydney that they must handle the Dominion Steel's freight.

## S. A. ELECTIONS Ten Seats by Acclamation, Seven of Them for South African Party.

London, Jan. 17.—(Canadian Associated Press)—Nominations in the South African elections, which will take place on February 8, were on last Friday. In the 134 constituencies ten members were elected by acclamation, seven of these being to the South African party, one to the Labor party, one to the Nationalist party, and one an independent.

A cable to the Times from Cape Town says that General Smuts' tour of the North Transvaal has been brilliantly successful, and that as a consequence the optimism of the South African party is increasing.

The Daily Telegraph's Cape Town correspondent states, Gen. Smuts is more popular, but says it is unlikely that his party will win seats from the Nationalists, though it is probable that the South African party will capture a fair number of seats from the Labor party.

This correspondent thinks it unlikely General Hertzog is the really party leader returned unopposed, but Messrs. Duncan Merriman and Fechtman are among those who have enjoyed a walk-over.

## APART AND U. S. ASKS HARDING NOT TO SMOKE CIGARETTES

Topoka, Kansas, Jan. 17.—Miss Lucy Page Gaston of Chicago, representing the national anti-cigarette league, announced yesterday that she had received a reply from President-elect Harding in response to a letter in which she had asked him to refrain from the use of cigarettes, as an example to the youth of the nation.

"I think it is fine to save the youth of the United States from the tobacco habit," says Mr. Harding's reply, "I think, however, the movement ought to be carried on in perfect good faith and should be free from any kind of hypocrisy or deceit on the part of those who are giving it their earnest attention."

The correspondent of the Associated Press, who has just returned to Tokyo after a visit to many of the larger cities of the Far East found some uneasiness everywhere regarding relations between Japan and the United States.

In well informed circles these misgivings appeared to be based more upon what was described as "Japan's resentment to any American policy calculated to curb Japanese expansion in Asia," than upon the California question.

The latter problem, while touching Japan's national prestige and the interests of Japanese in the United States, is apparently not regarded with the same seriousness as the question of Japanese vital interests near Nippon.

In diplomatic circles here the opinion prevails that the situation does not justify the pessimistic noticeable outline the borders of the Japanese empire. On the other hand, it takes the view that the attitude of both the Tokio and Washington governments is based on conditions that a solution for troublesome matters now in the foreground will be discovered.

## IMPORTANT TO RETURNED MEN

G. W. V. A. President in Ottawa for Conference—Complaint by J. Harry Flynn.

Ottawa, Jan. 17.—R. B. Maxwell, domestic president of the G. W. V. A. arrived in Ottawa on Saturday to confer with the executive of the association on various matters of importance and said he hoped a statement of the affairs discussed and the results arrived at would be ready for public reading in a day or so.

Asked about unemployment in the west, from whence Mr. Maxwell has come, he said that, although the question was a serious one, it seemed to be far less grave than was the case here. The dominion president attributed this to the existence of the G. W. V. A. representation of the official committees and commissions in Winnipeg.

In the west, according to Mr. Maxwell, a perfect organization for dealing with unemployment exists, a link is formed, and from the provincial governments downward all are working in co-operation.

This being attempted here in Ottawa, but, according to the Ottawa branch here, the scheme is not yet in shape to be considered satisfactory or efficient.

## AT ODDS WITH PREMIER DRURY

Bit of Row is On in Ontario Politics

Secretary Morrison of United Farmers of Ontario Reported Full of Fight and Defiance of Premier.

Toronto, Jan. 17.—The Toronto Globe this morning, in its news column, gives prominence to the controversy between Premier Drury and Secretary Morrison of the United Farmers of Ontario.

The controversy over the position of the United Farmers of Ontario in politics has broken out afresh. Premier Drury, who has for some time favored the "broadening out" process for the party which he leads, was unusually blunt in a speech at Milton on Friday night, when he remarked: "The farmers cannot and ought not to rule the country. To do so would be a sort of tyranny. We are in a minority, and we must not attempt to do it, because we are a democracy."

"There is no doubt that the farmer members who meet in the legislature January 25 will support Mr. Drury to the hilt. The great majority of the labor members are with him too. But the influence of Mr. Morrison must not be underestimated. He has much strength with the rank and file of the organized farmers throughout the province. His speech was received with cheers in Middlesex. Mr. Morrison is a master in making the farmers feel their power. His speeches arouse them to action and his organizing ability is second to none. If the fight goes further to a show down it will be an interesting battle."

The western Canada farmers declared themselves in favor of Mr. Drury's idea. Mr. Morrison alone is the big power to the contrary.

J. J. Morrison, the secretary of the U. F. O., addressed a meeting in Middlesex county, on Saturday, and he warmly repudiated considerable of what the Premier said.

"If Mr. Drury threw down the challenge at Milton, I am prepared to take it up," said Mr. Morrison. In a lengthy speech, full of fight and defiance, Mr. Morrison took up cause by certain remarks made by Mr. Drury, and disagreed with him on every one, and promised war to the bitter end on behalf of the farmers' party.

"The farmers party made Mr. Drury, and only for the moment he would speak in favor of the Premier. He is still playing a lonely furrow at Crown Hill. So long as the Premier sticks to the principals as head of the U. F. O., he will remain the head of the government, but no longer."

## POLICE COURT

Case Heard Behind Closed Doors—The Matter of Humphrey and Police.

A case was taken up in the police court this morning behind closed doors, when William Nearn faced a charge, and Beatrice Morris, aged ten years, and Jennie Morris, aged eight years, children of Mr. and Mrs. Arthur Morris, 61 Paradise row. The older girl said that the accused called her to his house, across the yard, and asked her to run an errand for him. She said when she returned he took her in a room, but she ran home. The younger child also told of a similar incident. The accused cross-examined the witnesses. The case was postponed, and the accused remanded.

A case against Herbert Humphrey, charged with assaulting George Grayley in Brunswick street, also assaulting Policeman Thomas, was resumed, and Sergeant Scott told of arresting the accused, who, he said, was abusive while being taken to the police station. The sergeant said the accused choked him, and he told Policeman Thomas and Detective Saunders to take the man to a cell. When Thomas returned, his mouth was bleeding.

Detective Saunders said that the accused struck Thomas and also was abusive to Sergeant Scott.

The accused said that the officers were handling him roughly, and he pushed Thomas against the wall in attempting to defend himself.

William Brown, who was with the accused on the night in question, said that they went to Brunswick street, and later the police arrested the accused, but he did not put up any resistance. The case was postponed.

BUSINESS HONESTY.

Leslie's Weekly warns its readers that the American people need to put religion into their business in order to save the national honor. In an article which declares that the slump in business ethics is a far greater loss than the slump in business it gives point to the assertion as follows: "The British Board of Trade has sent to the United States Chamber of Commerce for their action more than \$20,000,000 worth of contracts which have been broken by American business men. Similar complaints come from other foreign countries. This is in marked contrast with the English tradition of scrupulous observance of contract which, as a New York banker says, has given the English market and the English bill their enormous prestige."

THE CAFETERIA

We stand with trays and wait our turns, a long, long line of hungry guys, while appetite within us yearns for Hubbard squash and custard pies. Before us there are many jays who fool and fiddle, which is wrong; and so we wait and wave our trays and wish the bunch would move along. One graybeard can't make up his mind between roast pork and shredded veal, and while he doubts the mob he must eat all the pieces of hunger.

There are about a hundred members in the Rotary Club of St. John, each representing a different business or branch of business, or profession. There is no limit to what a hundred men may do in such a cause, for the work is sympathetic touch with intimate and systematic touch with many thousands. The citizens at large cannot be wholly unacquainted of those mere boys from this city who are in Dorchester penitentiary, or those others who have been sent to industrial homes, or the lads who are stealing milk cans and molasses, or breaking into houses to steal, or forming gangs to plot mischief, or the older ones who think it mischievous to get a bottle of poisonous liquor to be shared in secret.

The Rotarians rightly see that there is an economic as well as a moral side to this whole question. As business men, if they engage the services of a youth, they want him to be honest, clean, intelligent, well-informed and industrious, so that he may advance and be a source of strength to the business, becoming himself in time a successful, business man. He should not lack the capacity to advance because of neglect in his boyhood days.

M. Briand is again premier of France. One of his early acts will be to confer with Premier Lloyd George on disarmament and other matters of international importance. Relations of close friendship between Britain and France are very desirable at all times, and especially so at present.

A NOVA SCOTIA EXAMPLE. The Canadian National Committee on Mental Hygiene, following a mental survey in Nova Scotia, recommends a provincial institution for the feeble-minded. It did the same in British Columbia, and its advice was promptly followed, with the result that the Pacific province is now taking far better care of its mental defectives.

The crime wave in New York has developed a series of waves that ought to arouse the citizens to the point where they will demand efficiency in the police department. New York is a notoriously ill-governed city.

Apparently Dublin as well as Cork will soon be under martial law. The tension there is growing more serious again. So long as the Sinn Fein leaders demand a republic no hope of a peaceful settlement can be entertained.

Textile workers in the United States talk of fighting a reduction in wages. The conditions are not as favorable for such a struggle as they have been for some years past.

WOMEN BEST VIOLINISTS. SAYS FAMOUS COMPOSER. London, Eng., Jan. 17.—"I will never conduct an orchestra without women in future; they do their work so well," declared Sir Henry Wood, England's foremost composer. "Women have great talent for the violin. They have a wonderful delicacy of touch. They are sincere. They do not drink and they do not smoke as much as men."

THE LOST CHORD. (By Adelaide Anne Proctor.) Seated one day at the organ I was weary and ill at ease, And my fingers wandered idly Over the noisy keys. I do not know what I was playing Or what I was dreaming then, But I struck one chord of music Like the sound of a great Amen, It flooded the crimson twilight Like the close of an angel's psalm, And it lay on my fevered spirit With a hush and a holy calm. It quieted pain and sorrow, Like love overcoming strife; It seemed the harmonious echo From our discordant life. It linked all perplexing meanings Into one perfect peace, And trembled away in silence As if it were fated to cease. I have sought but I seek it vainly That one lost chord divine, That came from the soul of the organ And entered into mine. It may be that death's bright angel Will speak in that chord again, I may be that only heaven's hand I shall hear that grand "Amen."

LIGHTER VEIN. Heavy Loss. Little Bobby—Say, Uncle Jack, Uncle Jack—Well, what is it, little pal? Little Bobby—Who loses all the fault our neighbors find?

A Weather-Beaten Bud. "Mabel told me that this is her first year out." "Why, she's been out four seasons." "Well, I suppose she counts four seasons to the year."

Not So Bad. "I hear you're in your dad's office." "Yess." "And how's the business, Bertie?" "Not so bad. I get down in time for lunch and there's time for the matinee."—Detroit Free Press.

Price of His Life. Diggs—the footpad said, "Money or your life!" so I gave him two shillings. Mrs. Diggs—Huh! You're always gettin' taken in, Henry!—London Ideas.

Civic Improvement. "Say, mister," the particularly objectionable vagabond demanded of the prosperous appearing citizen, "would you give \$2 to greatly improve and beautify your town?" "What's the idea?" was the suspicious response. "For two bucks I'll move on to the next village," the objectionable one exclaimed. "Here's the money."

Warned. Clergyman (who has sat down next to slightly intoxicated man)—"Do you know a drunk on this car?" Conductor (low voice)—"It's all right, so long as you don't get me."

THE WEST IS GOING AFTER MORE FARMERS (Canadian Finance) Hon. C. A. Dunning stated recently in the Saskatchewan legislature that the acreage under cultivation in Saskatchewan in 1926 was over 1,000,000 acres less than in 1919. In 1919 23,285,000 acres were cropped but in 1926 the acreage dropped to 22,340,000 acres. For many reasons, but some other reason seems to have been an important factor. Perhaps it is summed up in the question: "More production means more wealth coming in. More employment means more production. More production and trade means more business for the railroad and a consequent decrease in transportation charges. More population means a decrease in the per capita debt of the country and an increase in the producing power of the community. All these things mean greater and more intensive development of our natural resources."

JUDGE ORDERS THE ARREST OF TEN SOLDIERS Birmingham, Ala., Jan. 17.—Ten members of Company M, Alabama National Guard, were ordered arrested last night by Judge Horace Wilkinson, special solicitor, who is conducting an investigation into the lynching of William Baird, a miner, at Jasper, Ala., on last Thursday. Baird was being held in jail in connection with the killing of Private James Morris, of Company M, on Dec. 22.

### TRIBUTE TO J. F. ROBERTSON

Eloquent Sermon by Rev. G. A. Kuhring—Resolutions by Merchants and Women's Canadian Club.

In a sermon of moving eloquence and deep feeling, Rev. Canon G. A. Kuhring, preaching in St. John's (Stone) church yesterday morning, paid a glowing tribute to the memory of the late James F. Robertson, who passed to rest on Saturday morning, January 15, in the eighty-second year of his age. The text was taken from the Job xxxvi: "Thou shalt come to thy grave in full age, like a shock of corn cometh to his season."

Canon Kuhring's address was as follows: "It is seldom that I allow myself to speak of those whom God has called from our midst. But, today, I am constrained to refer to one (James F. Robertson) who yesterday entered into rest, because he filled such a large place

in life and his going has left behind a place which it will be hard to fill, a loss which we are all sharing today. There is hardly a sphere of life, commercial, social, philanthropic or religious which is not affected and our hearts go out in sympathy, especially to the family circle, where being best known, the loss will be most keenly felt.

"It is not upon the scene of our loss and bereavement that I would dwell today; rather would I express our gratitude to God for the many years of a well spent life. He died in a good and age, full of years; and as he desired, working up to the last, keeping a keen interest in all the labors of his heart and hands and serving in his day and generation.

"It is granted to few men to see the success of all their labors but his life is a completed story, with its varied chapters at the end of which could be written with satisfaction and no regret the simple word 'finis'. It had in it a chapter of the struggle of a young son of a clergyman, knowing straightened resources, yet by sterling integrity, sound judgment, devotion to business, becoming a merchant prince. And what is better still that chapter being illumined by his unflinching sympathy and generous consideration to all in his employ—their cares he made his own.

"Another chapter was his record of faithful stewardship as God gave him riches. He delighted to share—not to hoard. Many bishops and others have been his guests and without solicitude he has sent them away with their burdens lightened with his gifts of thousands of dollars and his sympathy.

"The chapter on patriotism is an open one. Every object worthy of a claim met with a rich response. He loved the flag, he loved his king and his interest in the sailors and soldiers was evidenced by his gifts and his presence at their gatherings, even at their personal convenience. The flags which decorate our church were his personal gift—he loved them.

"Part of his book of life was a chapter of interest in secular and religious education. Rothery College School is a monument to his faith and energy and gifts and owes its existence to his foresight and devotion. His interest in the education of men for the ministry was seen by his providing bursaries at Wycliffe College and a generous yearly subscription to its maintenance. It was a great joy to see his interest in the many young men he had helped through their early education, and one day he said to me that he thanked God for such a privilege as many were today successful members of his congregation.

"The record of his life would not be complete without its chapter on his love of nature. Like all great men, he was intensely human and loved his recreation. The very simplicity of the forms of his pleasures showed him to be of the same spirit as Peter, and Van Dyke: 'I go fishing'. He found these excursions to the heart of nature helped him to retain his own simplicity and his ideals of life in its purity.

"It is fitting to close his book with a glance at his religious life. Well balanced, deep convictions, prayer backed up with doing things, he expressed a humble hope not in his great doings but in the claim to a share in the Saviour's work and the consciousness of a 'Worthy Judge Eternal'. He spoke little about the secret things, not because he had not experienced them, but because they were very sacred to him and they were between him and his Maker. From what I have been able to observe during fifteen years that I have been his rector and I trust, friend, the following words of a hymn seem to me to express best the simplicity of his hopes and aspirations:

"When on my day of life the night is falling,  
And in the winds from unsummed spaces blow,  
I hear far voices out of darkness calling  
My feet to paths unknown,

"Thou, who hast made my home of life so pleasant,  
Leave not thy tenant when its walls decay;  
O Love Divine, O helper ever present,  
Be thou my strength and stay.

"Be near me when, all else is from me drifting—  
Earth, sky, home's pictures, days of shade and shine,  
And kindly facts to mine own uplifting  
The love which answers mine.

"I have but Thee my Father, let Thy Spirit  
Be with me then to comfort and uphold;  
No gate of pearl, no branch of palm I merit,  
Nor street of shining gold.

"Suffice it if my good and ill unreckoned,  
And both forgiven through Thine abounding grace—"

At an executive meeting of the Women's Canadian Club held Saturday afternoon, the following resolution was passed by Mrs. James F. Robertson.

#### RECENT DEATHS

W. I. Wood Rowan.  
The death is announced of W. I. Wood Rowan who was a well known member of the Liverpool Cotton Association. Mr. Rowan was at business quite recently and was operated upon last Sunday. Mr. Rowan was sixty-one years of age and had been in the cotton business for forty-five years. He served his apprenticeship with Mason & Ryder. He was keenly interested in all kinds of sport, but had a special interest in yachting and riding. Mr. Rowan had the great misfortune to lose his three sons within recent years. The eldest son was drowned in Canada and the other two died in the recent war. In memory of his three boys three coats were named after them in the Leasowe Children's Hospital. He was an active member and sidesman in St. Nicholas's church, Blundellsands—Liverpool (Eng.) Post and Mercury, Dec. 30, 1920.

Friends of Mr. and Mrs. Herbert L. Marks of Fredericton, will sympathize with them in the loss of their infant son, Herbert Leslie, who died on Saturday after a brief illness with pneumonia.

Mrs. Mary E. Holden died yesterday at the Victoria Hospital, Fredericton, at the age of sixty years. Besides her daughter, Mrs. H. L. Merrithew, with whom she made her home, she leaves one daughter and two brothers.

John E. Keith of Corn Hill, died on Friday after a lingering illness. Besides his wife he leaves three sons, one daughter, three sisters and one brother.

Frank A. Dickson of Barker's Point, died on Saturday night after a short illness with pneumonia, at the age of sixty-five years. He was a brother of

the late Hon. Walter B. Dickson, M. P. for Albert county and speaker of the legislature. He leaves his wife, one daughter, five stepsons and three stepdaughters.

#### MRS. A. L. SLIPP PASSES AWAY

Fredericton, Jan. 16.—Mrs. Elizabeth F. Slipp, wife of Arthur L. Slipp, K. C., formerly solicitor-general in the provincial cabinet, died suddenly late tonight after an illness of about a week. Mrs. Slipp was a daughter of the late Thomas Logan of Fredericton. Besides her husband she leaves to mourn three sons—Halman, of Brantford (Ont.), and Donald and Carl, at home.

#### MORNING NEWS OVER THE WIRES

Secretary of Labor Wilson yesterday granted Lord Mayor O'Callaghan of Cork, who arrived in Newport News recently without a passport, permission to land in the United States as a "seaman."

"During the storm of Friday night, Mrs. W. Tilly Hall left her home at Heathland, near St. Stephen and it is feared that she has met her death in the river. Mrs. Hall, an estimable woman about forty years of age and the mother of several children, had been in a slightly demented condition in recent weeks and had made two unsuccessful attempts at drowning. Early Sunday morning Mrs. Hall's coat and skirt were found on the bank of the river.

The execution of Joseph Murphy, who was condemned by a court martial in Dublin for leading an attack in Cork, October 8th, against the military, has been postponed for further hearing.

Right Hon. Charles Doherty, Minister of Justice, returned to Montreal on Sunday from abroad. Mr. Doherty stopped off at London on his return journey from Geneva to discuss amendments to the British North America Act with the British authorities.

John F. Coffey of Montreal, has been arrested in connection with the shooting on Friday afternoon of Wm. A. Holland by Major R. M. Griffith. Coffey has admitted to detectives that he was an eye-witness of the shooting but became alarmed and ran away. He was to appear before Judge Lanctot in the police court this morning.

Gas from a broken main in Winter street on Sunday morning entered the home of Michael Isaacs, corner of St. Paul and Winter streets and he and his wife and three children escaped only after they were partially overcome. They were asleep when the odor was first detected. A search is being made for the break.

#### CHRONIC CATARRH

Follows Repeated Colds When Blood Is Impure.

Your body suffering from a cold does not properly attend to digestion and elimination. As a result your blood becomes impure, it inflames the mucous membrane and brings about that condition in which chronic catarrh occurs and on which it depends.

Purify your blood, make it clean, by taking Hood's Sarsaparilla, and if your bowels are not healthfully active, take Hood's Pills. These medicines have relieved and prevented thousands of cases of chronic catarrh. Economy is one of the strong points of Hood's Sarsaparilla—100 doses in a bottle. Why not get it today?

#### A FAMOUS ACTOR LOCATES IN ORCHARD BELT

(Farm and Home, Vancouver.)  
The coming of Sir Forbes Robertson to live for a time in the Okanagan Valley reminds us of other actors of renown who found a real unexplainable joy in getting from Art to Earth, and who undertook the work of arborists, at ten shillings a day, during the year 1918.

Two of these actors, Race Dunrobin and William Sauter, after the harvesting of the 1918 fruit crop in Sumnerland, learned of other actors living near Kelowna and, in co-operation with them, organized the theatrical company known as The Orchard Players. David Garrick was one of the plays put on and wherever they appeared, their reception was enthusiastic, their play a delight, and their success assured. Before their second season was declared, Race Dunrobin was appearing in "The Brat" last season, and William Sauter in "Peg of My Heart." We believe that at present they are both in Los Angeles, but

it comes to us very forcibly that with Sir Forbes Robertson and other British actors buying orchards and living in the Okanagan, that Race Dunrobin and William Sauter will come back, pick up The Orchard Players where they so carefully laid it, and enhance the renown of Art in British Columbia fruit valleys as wonderfully as the labor of the growers have made good, the word over, with their fruit.

A break in the water main on Britain street between Garnarthen and Sydney streets, caused a flood in some of the cellars in that vicinity. A crew from the water department was put to work this morning to make repairs. The water supply in that area will be turned off until repairs are completed.

Miss Nan Synott of Chatham, was united in marriage at Holyoke, Mass., on December 27, to Everett Bardsley. The ceremony was performed in St. Jerome's church by Rev. Father Kelly.

MRS. SYLVIA FOSTER, of Buffalo, N. Y., who says she wishes she could go into every home and tell how Tanlac completely restored her health after she had lost all hope of ever being well again.

"They had given up all hope of my ever being well again but thanks to Tanlac I am feeling as well now as I ever felt in my life and I only wish I had time to go to every home and tell every sick person about this grand medicine."

"My heart palpitated so dreadfully at times that it seemed like it had stopped altogether and I would think my time had come. I was so weak that I couldn't go up the steps without holding to the railing. It was impossible for me to do any housework. I was so nervous that I couldn't drink my tea or coffee without spilling it."

"My appetite is just splendid now, my nerves are strong and steady, my housework is a real pleasure and I can sleep like a child at night. In fact, I never felt better in my life than I do now."

The above remarkable statement was made by Mrs. Sylvia Foster, of 206 S. Division St., Buffalo, N. Y., a well known and highly respected resident of that city.

Tanlac is sold by F. W. Munro and the Ross Drug Company.

T & B contains only genuine, imported Virginia leaf.

The men in the Tuckett organization responsible for T & B know that thousands of smokers rely on "good old T & B" to give them always a cool, a fragrant and a satisfying smoke.

quick, to foresee the change from iron to steel, and to profit therefrom. He was perhaps the first great manufacturer on this continent to appreciate the value of scientific research in the advancement of industry, and with the aid of chemistry he revolutionized the business of iron founding.

Carnegie had already published his Gospel of Wealth when, in 1910, the opportunity came for him to dispose of his vast industry. He set his price and Morgan accepted it. He took nothing for the common stock, worth, at that time, one hundred millions, and he set about, almost at once, distributing his wealth, giving five million dollars to those who had served under him in the steel works. The idea of building libraries was not a new one with him. His father had been one of five men in Dunfermline who had put their books together for the use of their neighbors, and his own life as a boy had been brightened by Colonel James Anderson's work in founding free libraries in Western Pennsylvania.

OUR Portrait is of Mr. E. P. WHEELER, of 22, Regent Street, Balby, Doncaster, England, who writes:

"About two years ago I had a nasty wound break out in my big toe. I had it attended for about three months, but during that time it had spread to all the toes, with the result that I had to undergo an operation, but with no avail. Then, after another operation, as it did not get any better, I thought I would give your 'Clarke's Blood Mixture' a trial. After taking the first three bottles I could walk better, and now after having nine bottles the wound has quite healed, and I am pleased to say I have not seen any sign of it breaking out since."

Sufferers from Bad Legs, Abscesses, Ulcers, Glandular Swellings, Piles, Eczema, Erysipelas, Rheumatism, etc., should realize that lotions and ointments can but give temporary relief—only the complete and lasting benefit, the blood must be thoroughly cleansed of the impure waste matter, the true cause of such troubles. Clarke's Blood Mixture quickly attacks, overcomes, and expels the impurities, that it is why so many remarkable recoveries stand to its credit. Pleasant to take, and free from injurious ingredients.

HOUSING IN THE MOTHERLAND

United Kingdom Short Million Residences

Some of the Work of the Last Year—A Scheme Which May be Enlarged Into State Building Department.

London, Jan. 1.—(A. P. by Mail)—It is estimated that London is short of 180,000 houses and Premier Lloyd George speaking in the House of Commons, has placed the total house shortage for the whole of the United Kingdom at roughly 1,000,000. A house for rent notice board in London quickly attracts a crowd.

Housing is a department of the Ministry of Health and by legislative act, local authorities are required to submit housing schemes. Thousands of schemes have been submitted, but progress has been very slow.

Perhaps the chief reason for this has been the economic factor. Houses which cost three or four times as much to build as before the war, cannot obviously be let or sold at pre-war figures.

Nevertheless, according to government statistics some 60,000 new houses were started in 1927 and the number contracted for has risen during the year from 10,408 to 138,501.

One striking feature of the effort to provide houses is a housing scheme conducted by the Office of Works, which was empowered to spend £6,000,000 spread over eighteen months. Its operations started in Camberwell, a south London borough. An arrangement was made by which the Office of Works supplied the plans, material and supervision, while the local federation of trades unions supplied the labor and the Borough Council assumed responsibility for the finances. The plan worked smoothly and houses were built for 2780 apiece, a saving of at least £300, making a total saving to taxpayers of £200,000. This scheme may become the embryo of a state building department.

The financial difficulties connected with the housing problem have been responsible for the creation by local authorities of interest bearing "housing bonds" which are in some localities a fairly popular investment.

In the north of England, concrete houses have become popular, as machinery largely replaces man power in erection of them. In some parts of London, too, such houses have been built recently, owing to the shortage of brick, the high rate of wages and other difficulties.

LABOR RALLY IN WASHINGTON

General Meeting to Consider Attacks Being Made on Union Movement.

Washington, Jan. 17.—Representatives of the 109 national and international unions affiliated with the A. F. of L., have been called to meet in Washington on Feb. 23 to consider attacks now being made on the trade union movement, according to announcement by F. Morrison, secretary of the federation. The call was sent out by Samuel Gompers, federation president.

The statement declares that the attacks include attempts to establish the anti-union shop, wage reductions, anti-strike laws, compulsory arbitration, labor injunctions and a publicity that would mould the public mind to accept these backward steps.

## SOCIALIST PARTY IN ITALY SEEMS NEARING BREAK

Spirited Scenes at Meetings Yesterday—Norway's Labor Party Splits.

Leghorn, Jan. 17.—Prospects of a break between the communist and moderate elements of the Italian socialist party appeared to be taking more definite form when the conference met today.

At yesterday's sessions there were several personal encounters between opposing delegates, and insulting remarks and jeers were exchanged almost continually.

Christiana, Jan. 17.—Norway's labor party has definitely split on the proposal to adhere to the third international of Moscow. Four hundred delegates to the party's congress, in session here, have decided to oppose joining the international, and will found a new party to which most of the labor leaders in parliament will belong.

### LOAN TO CHINA TO HELP STARVING

Peking, Jan. 17.—A loan of four million taels by British, French, United States and Japanese banks, to be applied to the relief of the famine stricken districts, has been concluded by the ministry of finance, with the approval of diplomats assigned to the Chinese republic. The loan will be secured by a customs surtax amounting to ten per cent. the date of the application of which has not been fixed.

### TO COME HERE FOR "HEALTH WEEK"

The Toronto board of health at its last meeting passed a resolution authorizing the medical health officer, Dr. C. J. O. Hastings to be present at a "Health Week" to be held at St. John's commencing on January 30. Ald. Cowan read long telegrams which had passed between the M. O. H. and Dr. Wm. F. Roberts, minister of health for New Brunswick. The first telegram from Dr. Roberts asked Dr. Hastings to attend, but the latter replied declining the invitation. To this the minister sent an-

other long telegram urging Dr. Hastings to reconsider his decision. In view of these facts, and also on account of New Brunswick being the only province with a minister of health, Ald. Cowan thought Dr. Hastings should try to attend. Dr. Hastings said such trips were "pretty strenuous," but he promised to consider the matter again.

### DISCRIMINATION ALLEGED.

What seems to be a piece of discrimination against St. John is reported to the Times by a well known local miller man who complains that cornmeal can be shipped from Halifax to Yarmouth, a distance of 260 miles at the rate of thirteen and one-half cents a hundred weights while from St. John to Yarmouth, a distance of 112 miles via Digby, the rate is twenty-two cents a hundred.

### BOSTON CHURCH BURNED.

Boston, Jan. 17.—An hour after a young people's service had ended and the Brighton Congregational church had been closed last night, the sexton saw flames coming through the chapel floor from the furnace room. The edifice was ruined. The church, a wooden structure, which stood at Washington and Dighton streets in the Brighton district, was insured for \$68,000.

FOR UNEMPLOYED WAR VETERANS

Further details of the federal government plan for assisting unemployed veterans have been received in the city. Generally the order-in-council is along the lines suggested by G. W. V. A. officials in their conferences with the department of soldiers' civil re-establishment.

January 17, 1921. Office of George T. Creary, Exclusive Semi-ready Tailoring, No. 87 Charlotte Street. DESBOROUGH AND BYNG SUGGESTED FOR GOV.-GENERAL (Toronto Globe). The principal thing so far gained in the beginning of the new year appears to be greater steadiness in sentiment, and when with that is associated the news of some increase in industrial operations through plants reopening and wage difficulties being adjusted there is a greater feeling that, whatever the next few weeks may hold in store by way of necessary jobs, they will be accepted with more equanimity.

LADY FOSTER NO STRANGER TO CANADIANS

(Ottawa Correspondence Canadian Press). A Scots woman in whom dignity and charm are admirably blended, the new Lady Foster is a welcome comrade to the ranks of cabinet ministers' wives at Ottawa. She is both wide-awake and well-informed, and having been the daughter of a British parliamentarian, is highly qualified for her position as the wife of Canada's veteran statesman.

USE The Want Ad Way. It is interesting to note that Lady Foster did not meet her husband until he was in London to attend the Imperial Conference. Subsequently they were passengers on the same liner crossing the Atlantic ocean.

BETTER OUTLOOK FOR NEW YEAR

(Toronto Globe). The principal thing so far gained in the beginning of the new year appears to be greater steadiness in sentiment, and when with that is associated the news of some increase in industrial operations through plants reopening and wage difficulties being adjusted there is a greater feeling that, whatever the next few weeks may hold in store by way of necessary jobs, they will be accepted with more equanimity.

cles seem to feel that December was low-water mark and that further troubles of settling down will be met with more sense of meeting inevitable. The improvement in foreign exchange has been an outstanding favorable development, and, as spring approaches there is naturally the increase in outdoor employment to meet the needs of commodity supplies that are far from saturated.

without the crop of failures many feared. As a general rule, any event universally predicted does not come to pass. This is not saying that business mortality will not run higher than the average for that is bound to be the case, but we think it altogether probable that failures of big units in various lines of industry will not materialize.

BELGIUM'S SHIPPING BOOM. Brussels, Belgium, Jan. 17.—During the first ten months of 1920, 7,369 vessels, totaling 9,275,480 tons, entered Belgian ports, and 7,900 vessels, totaling 9,250,822 tons left, an increase of more than 4,000 ships.

FERRIS WHEEL CARRIAGES BUNGALOW FOR HOMELESS. Paris, Dec. 31.—(Associated Press by Mail)—The carriages for passengers are being taken from the big Ferris Wheel here and sent to the devastated regions of France where they will be used as bungalows to provide homes for homeless. They are just big enough to make a diminutive home containing one living room and a kitchen.

**GOLF.**  
Cone Family Triumph.  
Pinehurst, N. C., Jan. 17.—One of the most curious coincidences in the entire history of tournament golf occurred here in the third match round of the Winter Golf League's tournament, when, in a total field of 190 players, Mrs. Arthur S. Higgins of St. Andrew's and Mrs. Clarence Cone of Inwood found themselves opposed to each other in the women's section at the same time that their respective husbands came together as opponents in the men's department.  
Both matches were all even when they reached the eighteenth hole. Both went to extra holes. Mrs. Cone finally won from Mrs. Higgins. Mr. Cone and Mr. Higgins played all the afternoon and into the evening, arrived all even again at the thirty-sixth hole, and Mr. Cone finally won the elongated contest on the fortieth green.

the blades. Joseph Tebo, who is a returned soldier, has installed an electrically driven pump, which he uses to flood his rink. It is one of the most modern of its kind, but the installation cost a large sum of money. However, with this modern acquisition he is able to keep a good sheet of ice on a large rink he has made in front of his pavilion. Owing to the size of the rink it is an ideal place for local skaters to get in trim for their proposed trip to Lake Placid, where the international skating championships will be held in February. There is some talk of various societies securing permission from the park authorities to hold races there during the winter. Owing to the bill overlooking the rink, there are many points of vantage from which to view races.

MANY MOURN THE DEATH OF JAMES F. ROBERTSON

Large Attendance at Funeral This Afternoon—Business Houses' Flags at Half-Staff.

Silence reigned today in the large building of Manchester, Robertson Allison Ltd., there was no man of business among those who came, and, for a chief of the big St. John mercantile house was being laid at rest in Fernhill. Flags on the buildings of the firm were at half staff in honor of the memory of James F. Robertson and a like tribute was paid by other business establishments.

The funeral of Mr. Robertson was held this afternoon from St. John's (Stone) Church, following a private service at his late residence, 4 Carleton Street. The services at the house and the church were conducted by His Lordship Bishop Richardson of Fredericton, Rev. Canon Kurling, rector of St. John's, Rev. Canon Daniel of Rothesay, and Rev. Dr. Hibbard of Rothesay College School, with a full choir and D. Arnold Fox as organist.

The mourners were met at the door of the church by the clergy and the Scripture was recited as the body was borne to the chancel. The opening voluntary was Chopin's funeral march and during the service the choir sang the hymn "King of Love my Shepherd is" and the 90th Psalm. After the reading of the lesson His Lordship Bishop Richardson addressed the congregation and the funeral service concluded with the Dead March from Saul.

DAYLIGHT TIME IS CONSIDERED BY CITY COUNCIL

Damage to East and West Side Ferry Floats—Further Consideration of Water Estimates—Talk of Changes in Department Offices.

Reports of damage done to the west side ferry floats during the stranding of the steamer Sussex and of an accident at the east side floats this morning were presented by Commissioner Bullock at this morning's committee meeting of the common council. The questions of daylight saving and harbor commission were touched upon and further consideration given to the estimates of the water department.

Commissioner Bullock reported on the damage done to the west side ferry floats during the stranding of the steamer Sussex on the Navy Island bar. He said that Mr. Knight, of J. T. Knight & Co., could not get the owners to assume responsibility and the matter may have to go to the admiralty court. He said the damage would be considerable, but he did not want the amount to be made public in view of the possible court action.

Mr. Bullock moved that the matter of damage be referred to the select committee. He said he thought the stand taken by the steamship company was due to the fact that the tug Neptune was concerned in the damage.

Mr. Bullock also reported that the oak facing of the north wing at the east side ferry floats collapsed this morning, due to underflow and currents. Team traffic was interfered with and the wing could be taken away. Temporary work was being put in until arrangements were made to put in a new wing with wharf backing as proposed some time ago.

The matter of daylight saving was brought up, and Commissioners Bullock, Frink and Thornton spoke in favor of the measure. Mr. Frink said the matter will likely come up at the council meeting on Wednesday afternoon. The mayor suggested that someone bring forward the matter of harbor commission to take a plebiscite at the same time.

The common clerk said that under the act this could not be done as an amendment to the Harbor Commission Act was made.

Commissioner Frink moved that it was the opinion of the council that a plebiscite on the daylight saving question be held and that a report on the time and plebiscite be made by the mayor. Last year the daylight saving was in effect from May 22 to September 11. The motion was carried.

Water Estimates.

The commissioners took up consideration of water department estimates. Referring to expenditure of \$2,228 for gasoline last year, the mayor asked if a comparative statement of the cost of cars and horses could be made.

Between 25 and 30 tons of coal was used each year, he said to heat the office building in Carmarthen street.

The estimated water revenue for 1921 Mr. Martin said, was \$240,000 as compared with about \$245,000 last year. The expected falling off was on account of the low price received for fishing privileges and the shutting down of some industrial plants in the city.

The 1920 estimates of the water department were \$220,000 and expenditures were \$215,000. The 1921 estimate was \$240,000.

Mr. Bullock said that the surplus of revenue over expenditures in the water department was \$25,000 and this amount was sufficient to pay for sewerage maintenance.

Mr. Jones thought the matter should remain as at present. He did not see why the \$8,000 estimated for fire hydrants should be charged against the water department. He said that material washed from the streets into catch basins was removed by his department while it might appropriately be charged to the public works department.

"This would be a new job," remarked Commissioner Frink.

Commissioner Thornton said if the public safety took over the fire hydrants the cost on the tax payer would be the same, but he thought that sewerage maintenance was a proper charge against water revenue.
