

## ENGLISH NEWS.

From London Papers.

Col. Juddrell and Col. Shaw are the officers who are to command the brigade of the 9th and Coldstream Guards ordered for service in Canada. Col. Campbell (brother to the Admiral) and also the Colonel of the 7th, has been selected to command the artillery. Col. Campbell is at Woolwich, and has only raised a few months from the command of the Artillery in the West Indies. Two Companies of Field Batteries, (three six pounders and one eight inch howitzer to each), one troop of Horse Artillery, (two guns, with the Rocket troop), will form the brigade.

Major General Sir T. Pearson, from his knowledge of the French language, and from having served in Canada as Inspecting Officer of Militia, to have direction of all Militia and Volunteers; the 43d, 55th, and 2d battalions of Rifles to form the third Brigade, and to be placed under the orders of Sir A. Norcott. A brigade of Artillery, with long twenty-four, to be added to the Force. Major General John Chibrow, formerly of the Scots Fusilier Guards, has been appointed to command in Liverpool on Tuesday. The undernamed Officers sailed from Liverpool for that Colony on the 8th ultimo:—Lieut. Colonel Cox, Majors Williams and McPhail, Captains De Rottenburgh and Swan. The following embarked on Tuesday:—Lieut. Colonels Gascoigne, Patterson, Nickle, and Loring Major Head and Captain Creigh.

Out of the five squadrons intended for America, three are to be taken from the King's Dragoon Guards, and the remaining two from the 7th Hussars, thus leaving at home a squadron of each Regiment.

The 2d battalion of Grenadier Guards and the 2d battalion Coldstream Guards embark the last week of February.

The various battalions of the Household Infantry have commenced heavy marching duty, similar as it on active service, in Hyde and Regent's Parks, for the purpose of training the recruits to that important duty. The excellent order in which they marched, and the appearance of the men, presented an interesting spectacle. A number of persons who witnessed them, supposed that they were under marching orders, for the purpose of embarkation for Canada. The troops will be daily exercised at Hampton, Highgate, and the suburbs of the metropolis, until the recruits are thoroughly trained.

The light-regiments, sent to Canada, and for embarkation, viz.—the 43d, 71st, and 85th are to be clothed in grey—clothing very much the colour of the bark of the tree. This is a very proper change, as there will be much bush fighting, and our red coats will not be so good an object for American and Canadian riflemen.—The two battalions of the Rifle Brigade will be added to the force, 1st, 2d, of the Rifles to be attached to the Guards.

The depot of the 85th Light Infantry, is ordered to make up with all expedition a draft of 134 men, to embark at Cork for New Brunswick, to join the service companies—thus leaving the depot a mere skeleton.—Capt. O'Connor and Lieut. Honble. W. Crofton marched from Tralee on Thursday with the draft. The depots 1st, 15th, 24th, 32d, 34th, 43d, 69th, 83d, and 85th, are ordered to send out drafts to the service companies in North America. They must be men of not more than six years' service, and without the encumbrance of wives.

The 25th is beating up for recruits in Limerick. All regiments are to be immediately recruited up to their full establishments, which will give an addition to every corps (excepting those in India, which have already) of eighty rank and file.

Thursday, the 73d depot from Cirencester, consisting of ten officers and 208 rank and file, marched for Cork, there to occupy the barracks until Wednesday, when they are to be in readiness for embarkation to join the service companies at Gibraltar, now under orders for Canada.

An immediate move of all the regiments in Ireland will be the consequence of the withdrawal of troops now under orders for Canada. The 1st bat. of the Coldstream Guards, at present in Dublin, will most likely return to London, and take share of the Household duties.

A correspondent of the *Gazette de France*, at St. Jean de Lue, who writes on the 4th ult. also mentions the arrival of an English frigate at St. Sebastian, and adds that it brings 1000 uniforms and 1000 muskets, for arming and equipping the men of the Legion, who are to be transported to serve in Canada. Another English vessel is to take the men who cannot be accommodated in the frigate.

The service companies of the 11th, in place of proceeding direct from Gibraltar to Quebec, are to be disembarked at Bermuda, and then remain until their services may be required in America.

The *Hercules*, 74, is to take on board 500 men intended for the service companies in Canada. The *Inconstant* has already embarked a portion of the 93rd Highlanders, and the headquarters and remaining companies are to be conveyed by the *Pique*. The *Bondica* freight ship, is to take out the draught of the 11th and 73d to Gibraltar.

Orders have been sent to Portsmouth, to expedite the equipment of the *Apollo*, and prepare her for a trip ship. 300 shipwrights, joiners and other mechanics, have been put on her. She will be out of the hands of the dockyard people by the end of February, and ready to put to sea by the end of March, the earliest time requisite to go to Quebec. She was a large 46 gun frigate, and will have splendid accommodations for troops.

The *Royal Sovereign* transport, Lieut. Winter, R. N., is now lying off the coast at Woolwich, to take out two companies of

Royal Engineers to Canada, and they are expected to leave in a day or two. The *Decatur* steam vessel is ordered to leave Woolwich immediately, to relieve the *Phoenix* steamer under Lord John Hay, on the coast of Spain. Orders have been received from the Board of Ordnance, to raise the bounty for recruits to five guineas, and also to reduce the standard to five feet seven, for the Royal Artillery, instead of five feet eight inches as heretofore. This corps is nearly 400 deficient in complement and recruiting parties have been sent into the manufacturing districts, to complete its numerical strength.

The number of men intended for Canada, as announced by the *United Service Gazette* is incorrect; our contemporary states the entire to be only 2900, whereas the troops at present under orders, including the Artillery amount to nearly 7000 Rank and File.—*Times*, Jan. 9.

The London papers contain the proceedings of the first meeting at Buffalo—at which Mackenzie made his debut as a leader of "patriots"—his speech—T. S. Brown's account of his escape—the affair at Missisquoi in which Dr. Cote figured—all the accounts of the absurd attempt upon Toronto—the narrative of Lieut. Weir's murder—and, in short, almost every thing relating to Canadian affairs that had been published in this city at the date of the latest arrivals from New York, which was the 20th of December.

The weather had been very severe both in France and England. Quite the reverse of what it was here at that date.

The Thames was much obstructed by ice—to such an extent in fact as to be impassable for small craft. In some parts of England snow had fallen to the depth of a foot.

Major General Sir G. Arthur, the day previous to his departure for Canada, was presented with a splendid service of plate, by the Colony of Van Diemen's Land, the principal articles bearing the following inscription:—"To Colonel Sir G. Arthur. This service of plate, of the value of £1,500, raised by public subscription in Van Diemen's Land, is presented as a memorial of the high sense entertained by the subscribers of the zealous and able administration of the government of that Colony for upwards of twelve years, and as a proof of their respect and regard for his public and private character, 1837."

The inhabitants of Westminster have had a meeting, disapproving of their representative, Mr. Leader's advocacy of the cause of the Canadians.

The Courtes France observes, that the discussion of Canadian affairs in the British Parliament has not kept pace with the rapid march of events. According to this journal, instructions should now be given to Lord Durham, not simply on the means to be adopted for pacifying Canada, but on those to be observed for preventing a quarrel with the United States. The Courtes, on this subject, concludes with the expression of a hope, that England will not permit herself to be drawn into a quarrel with the United States, as from such a quarrel European liberty would have nothing to gain.

The Canada bill was passed, and is characterized by the *Liverpool Mercury* as establishing despotism in the Colonies.

In the House of Commons, yesterday a motion was made to ask for the correspondence between Ministers and the French Government, on the subject of the occupation of Algiers.

The motion was carried, and the correspondence was laid on the table. The motion was made by Mr. St. John, and was supported by Mr. St. John, and was carried by a majority of 100. The motion was made by Mr. St. John, and was supported by Mr. St. John, and was carried by a majority of 100.

Portsmouth, Jan. 30. The *Malabar*, 61, on being ordered to sail for Cork, on the 31st, was ordered to sail for Cork, on the 31st, and was ordered to sail for Cork, on the 31st.

Representatives and the Senate in Company with Gov. Everett. He afterwards visited the Police Court Room, and also the Supreme Judicial Court Room, where the full bench of five Judges were sitting. He then proceeded to the House of Representatives, where he was received by the Speaker, and then proceeded to the Senate Chamber, where he was received by the President. He then proceeded to the House of Representatives, where he was received by the Speaker, and then proceeded to the Senate Chamber, where he was received by the President.

We trust that the reciprocation of good feelings between His Lordship and our citizens will tend to strengthen those bonds of unity which should exist between this country and England—but which some of the public presses in Canada seem disposed to ignore and sever.—*Boston Evening Gazette*, March 12.

We understand that Lord Gosford, now in this city, was treated with great hospitality and attention whilst in Boston, a just return for the polite attention he has so often extended to Americans in Quebec. Our worthy Mayor, with many of our most respectable citizens, called to pay their respects to his Lordship yesterday. He promptly returned the visit, and was received with great courtesy by his Honor the Mayor, at the City Hall. The Mayor took this opportunity to introduce to his Lordship many members of the Commonwealth and other officers of the city. His Lordship is on his way to Washington to see the President, and will return here, in time to embark in the packet of the first proximo, for England.—*N. Y. Mercantile Advertiser*.

Better.—The best soil for beets is a rich sandy loam, but they will grow on any soil if proper care be taken to prepare the ground. Manure well with long stable or compost manure, plough deeply and thoroughly, pulverize the ground by frequent harrows. Plant daily in drills from one to one and a half feet wide, as soon as the plants are about three inches high, thin them out to the distance of about one foot apart. The ground should be sown through the season, kept loose, and no weeds be permitted to choke the growing roots.

On motion of Mr. Hill, Resolved, That a humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to appoint a Commissioner to explore, and mark out a Road from the Upper Bridge across the Magaguadavic River near Brockway's to the lower Bridge across the Saint Croix; and that this House will make provision for the same at the next Session of the General Assembly, out of the next year's Bye Road money for the County of Charlotte.

Ordered, That Mr. Hill, Mr. Owen and Mr. Brown be a Committee to wait upon His Excellency with the Address.

On motion of Mr. Weldon, Whereas, from the returns from the Crown Land Office, and before this House, showing instalments due on land, sold or leased, it appears that large sums remain due from purchasers; and whereas punctuality in payment is desirable; therefore Resolved, That in the opinion of this House, lists of persons who may be indebted for land, should be printed in the Royal Gazette for the information of parties interested with a view of their making payment of any damages.

On motion of Mr. Brown, The House went into consideration of the Report from George Hayward, James Brown, and Adam Sharp, Esquires, Commissioners for an exploration on that part of the Canada Great Road lying between Camber's Creek and Burgoyne's Ferry, and which was laid before the House, by command of His Excellency, on the 31st instant. The Report being read at the Clerk's Table, the House adopted the following Resolutions:—Resolved, That the Supervisor of the Great Road from Fredericton to the Canada line be authorized to open the new line laid out from Camber's Creek until it intersects the old Road towards Sutherland. Resolved, That the said Supervisor be authorized to make the alterations recommended by the Commissioners, so far as regards the improvement of Sutherland's line and the bridge over Burpee's Creek, at Murray's be carried into effect by the Supervisor.

On motion of the Honorable Mr. Crane, Resolved, That a humble Address be presented to His Excellency the Lieutenant Governor, praying that he will be pleased to appoint three competent persons to examine and explore a new line of Road, by which it is proposed that an alteration be made in that part of the Great Road leading from the Nova Scotia line to Saint John, which extends from the said line to the Parish of Dorchester in the County of Westmorland. Ordered, That the Honorable Mr. Crane, Mr. Weldon and Mr. Leach, be a Committee to wait upon His Excellency with the Address.

On motion of Mr. Partlow, Whereas the Bridge across the Musquash River, on the Great Road leading from Saint John to St. Andrews, in a dangerous and dilapidated state, and a new one is therefore absolutely required to be built with the least possible delay: And whereas in the erection of any new Bridge across the said River it would much commodate the great lumbering establishments in the vicinity, and particularly the Lancaster Mill Company, if a sufficient Road were made in the same, to allow Vessels, Boats and Scows to pass through when required, in order that free access may be had to such establishments; therefore Resolved, That the Supervisor be authorized to erect such Bridge out of such monies voted for the improvement of the said Road the present Session as he will have to expend, should contribute a reasonable sum towards such expenditure, and lend themselves to defray any expenses which may accrue by reason of such Draw being in the said Bridge, and provided also, that no greater amount be expended by the said Supervisor than three hundred pounds out of the monies so granted.

Mr. Hill, from the Committee appointed to wait upon His Excellency with an Address of thanks, relating to the exploration of a Road from the upper Bridge on the Magaguadavic to the lower Bridge on the Saint Croix, reported, that they had attended to that duty, and that His Excellency was pleased to say

two Propositions of His Excellency Sir John Campbell, K. C. B. and G. C. H. Esquires, Lieutenant Governor, dated Government House, Montreal, 27th February, 1838; the first announcing that His Excellency, as senior military officer in command, has assumed the Administration of the Government of this Province, in the absence of the Governor in Chief, and the second declaring the continuance of Martial Law in the District of Montreal.

We have received from the United States' frontier papers some accounts of the preparations for the great movement against the Canadians, which was fixed for the 22d February and announced in the House of Representatives of the United States by a member on that day. The result will be seen in our extracts from the Upper Canada and Montreal papers. It is painful.

The United States is a trust, however, will relieve the British Government from the trouble and expense of watching a thousand miles of frontier against the predatory incursions of persons who harbour within their limits.

Both countries have suffered from the attempts of a few foolish and mischievous men, who there is law, government and justice, independently of their own will. If the United States receive them, they must receive one of them, and not let them disturb their neighbors. It is an obligation which cannot be dispensed with; and we shall be happy to hear of more of these preparations or any others, on either side, to interrupt the peace and amity subsisting between the United States and Great Britain; so that all who live within their respective limits, may apply themselves with confidence to the promotion of the general prosperity and the promotion of the general prosperity.

Both countries have suffered from the attempts of a few foolish and mischievous men, who there is law, government and justice, independently of their own will. If the United States receive them, they must receive one of them, and not let them disturb their neighbors. It is an obligation which cannot be dispensed with; and we shall be happy to hear of more of these preparations or any others, on either side, to interrupt the peace and amity subsisting between the United States and Great Britain; so that all who live within their respective limits, may apply themselves with confidence to the promotion of the general prosperity and the promotion of the general prosperity.

"Machiel has come upon mischief, mischief upon mischief," so long, that there is some danger that "mischief may perish from the ancient."—*Quebec Gazette*.

NEW BRUNSWICK. HOUSE OF ASSEMBLY. EXTRACTS FROM THE JOURNAL.

Thursday, March 4th. On motion of Mr. Hill, Resolved, That a humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to appoint a Commissioner to explore, and mark out a Road from the Upper Bridge across the Magaguadavic River near Brockway's to the lower Bridge across the Saint Croix; and that this House will make provision for the same at the next Session of the General Assembly, out of the next year's Bye Road money for the County of Charlotte.

Ordered, That Mr. Hill, Mr. Owen and Mr. Brown be a Committee to wait upon His Excellency with the Address.

It is not at all surprising that straggling parties  
of itinerant adventurers belonging to the  
unsettled state of Michigan should continue  
to infest the borders of Upper Canada, and  
by their desperation spread terror and dis-  
tress among the peaceable and industrious  
inhabitants on the confines of the British terri-  
tory. It is not surprising to find them pur-  
suing a vicious course of plunder and out-  
rage under the pretence of heroism and pa-  
triotism, because their free institutions in-  
carnate neither submission to slavery, resis-  
tance nor the observance of moral and so-  
cial accountability. The utter absurdity of  
trying to bind the numerous states of the  
American union to the observance of a com-  
mon and comprehensive rule, is glaringly  
evident by the infamous conduct of the bor-  
derers who brag that they belong to the great  
republic, and who spout and vapour about  
freedom, equal rights and the blessings of  
self-government, while the only freedom they  
enjoy is the right of manifesting to the world  
that they obey no government at all.

The ignoble incursions of such miscreants  
may continue to disturb the repose of our  
fellow subjects in the upper province for some  
time, but as soon as England finds her levies  
in the attitude to command respect, she will  
insist on the republican government restrain-  
ing the outrageous acts of its citizens, or in  
default she will take the rod into her own hand  
and punish the parent as well as the offspring.  
When the groom-porter of the Express drew  
his picture of a British cordon of troops ex-  
tending along the American lines from Hal-  
ifax to Quebec, he little dreamed of these  
points d'appui witnessing the fulfilment of  
his fears, within twelve months after the pe-  
riod of his prediction. All we want is the  
Rail Road from St. Andrews to Quebec to  
make his strategy complete, and the time is  
perhaps not far distant when that widely  
deemed apocryphal measure will crown our  
national security and administer to our pec-  
uliar prosperity.

Earl Durham is a personage of enlarged  
and comprehensive views; and it is peculiar-  
ly fortunate that men of such minds examine  
and embrace subjects which astound and  
puzzle less speculative and ignorant in-  
quirers, Lord Durham is no novice. The  
Duke of Wellington applauds his appoint-  
ment. The Duke—emphatically the Duke,  
than whom no one ever fought England's  
battles in the field and in the cabinet with  
such pure and overpowering might, the Duke  
approves of Earl Durham's appointment.

**EXPEDITION'S DISPATCH.**—The ship Pru-  
dence after discharging her ballast here, re-  
paired on the 15th of this month to Macada-  
vie, and on the 17th commenced taking in  
her cargo at noon of that day. As she had  
to stow her deals from the place of rafting  
considerable delay took place, but in spite of  
all obstacles she finished her freight on the  
24th, consisting of 227,000 feet of lumber in  
good condition and of superior manufacture.  
We refer to our friend Mr. John Mann Jun.  
for the proof of these facts.

One of those unobtrusive but valuable institu-  
tions which reflect honour on the efforts of provi-  
dential individuals, has existed in this town for  
thirteen years: it is called the **Benefit Society**  
and its purpose is the support of its members during  
sickness and relief to families in cases of death.

The annual meeting was held at the house of  
Mr. Peter Sime on 13th inst. when the Treasurer's  
account exhibited the following items; viz:—  
Lent to sundry persons on security £110  
In the St. Andrews Savings Bank 90  
Interest due on ditto 16  
Cash in Treasurer's hands for current demands 40

The proceedings of the meeting were conducted  
with character and good feeling which has  
characterised this society from its formation; and  
the integrity with which its concerns have all along  
been managed, has produced a great increase of its  
members and addition to its funds. We gave a  
historical account of this admirable institution in  
1835 since which time its capital has been enhanced  
30 per cent. It has our best wishes and is cer-  
tainly entitled to the favourable consideration of  
every provident artisan, mechanic, and trader in  
our community.

The following are the office bearers,  
Thomas Sime, President,  
Thomas Berry, V. Pres.  
Peter Smith, Treasurer,  
Miss S. Hannah, Secretary.

Committee: Messrs. Nat. Ames, Cora. Connolly,  
Peter Sime, Hugh Morrison, and W. H. Knowles.

Our harbour was visited on Thursday last  
by a long, low, black Schooner, pierced for  
ten guns, which awakened the echoes of our  
still waters, and proved to be the U. S. Re-  
venue Cutter *Crawford*, commanded by Lieuten-  
ant WALDRN, having also on board Lieuten-  
ants Noyes and Burroughs. This is the  
vessel formerly called the *Swiftsure*, Captain  
Coolidge, who so frequently rendered efficient  
services to our vessels in distress. The  
present officers on the 14th inst. relieved the  
Westmoreland of Dundee, Capt. J. S. Robb,  
and saved that brig from being wrecked on  
the rocks and shoals in Moose Pecky Bay—  
Lieutenant Noyes went aboard with some  
hands and lent every assistance in his power  
to bring the vessel up. These generous acts  
cannot be too widely known or too highly  
appreciated, and we shall take every oppor-  
tunity of bringing them under the notice of  
our merchants and of the authorities in the  
United States.

The Upper Canada and Montreal papers  
show that the "great movement" of the "Pa-  
triotists" on the frontiers of the Canadas, from  
the head waters of the Connecticut to Lake  
Huron has been an entire failure. In no  
place have they been able to obtain a footing  
on British territory, and every where their  
conduct has been contemptible.

We have to thank Geo. W. McLellan Esq. for the  
Gov. of Maine's Message on the North Eastern  
Boundary, and Mr. Forsyth's letter to Gov. Kent.

**MARRIED.**  
On Monday evening, by the Rev. Dr. Gray,  
Capt. Daniel Vaughan, of this City, to Letitia, fifth  
daughter of Israel Harding, Esquire, of Yarmouth,  
Nova-Scotia.

**DIED.**  
At Woodstock, on the 1st inst. by the Rev. S.  
D. Lee Street, Mr. Charles L. Beckwith, of the Parish  
of Malabar, to Miss Elizabeth Ann, third  
daughter of L. R. Coombes, Esq. of the same place.

**RETIRED.**  
In St. Patrick's parish, on Friday the 9th inst.,  
Robert Vardon, Esq., formerly a Lieutenant-Com-  
mander in the Royal Navy.  
Lieutenant Vardon was a native of Greenwich,  
England, he entered the Navy in his 12th year,  
and 1722, and served on board various ships,  
chiefly on the Halifax station. During the American  
rebellion, Mr. Vardon attained the rank of Lieuten-  
ant, and in the latter years of that contest  
was appointed to command the Albany ship of war.  
That ship, however, being unfortunately lost in  
the bay of Penobscot, in 1782, Lieutenant Vardon  
retired from the service.  
From the period of the shipwreck of the Albany  
Mr. Vardon lived in seclusion, devoting his atten-  
tion chiefly to agriculture; for more than 50 years  
he resided in this vicinity, where he brought up a  
large family—leaving more than 100 descendants  
at his death.

The high character which this deceased gentle-  
man sustained through the course of his long life  
of intelligence, benevolence, uprightness of conduct  
and pleasing manners, secured the respect and es-  
teem of persons of all classes who had the favour  
of his acquaintance. Mr. Vardon was to the last  
zealously attached to the religion of his forefathers  
and country. He had recently completed his 84th  
year when it pleased a gracious Providence to re-  
move him from the church and change of this  
mortal life to an inheritance of bliss that fadeeth not  
away.—*Communicated.*
