KING EDWARD HOLDS SPECIAL COURT AT BUCKINGHAM PALACE

And Receives Addresses From the Civic Officials.

HIS MAJESTY'S APT

Valor of the Troops, Loyalty of the People and Bravery of the Boors Recognized.

London, June 13.-King Edward held special court at Buckingham Palace today, for the reception of addresses from the lord mayor, Sir Joseph C. Dimsdale, and the corporation, and from the London County Council, congratulating his majesty on the restoration of peace. The King took the occasion to express his sentiments on the subject more fully than heretofore, and the tactful recognition which he made of the sterling qualities of the Boers will doubtless materially aid in the work of appease-

ment in South Africa.

THE KING'S REPLY. His majesty, surrounded by the household, received the city dignitaries in the throne room, and replying to the lord mayor's address, said:

"I thank you in my own name and in the Queen's for your loyal and dutiful address and the congratulation you tender us at the close of the war in South Africa. I heartily join in your expression of thankfulness to the Almighty God for the termination of the struggle which, while it entailed on my people at home and beyond the sea so many sacrifices, borne with ad-

"You give fitting expression to the admiration universally felt for the valor and endurance of the officers and men who have engaged in fighting their country's battles. They have been opposed by a brave and determined people, and had to encounter unexampled difficulties. These difficulties were cheerfully overcome by steady and persistent effort, and those who were our opponents will now, I rejoice to think, become our friends. It is my earnes hope that by

FIGHTING IN CAPE COLONY WAS A NOTED ARTISTS' MODEL

Several Days After Peace Had Been Agreed Upon-Slow to Give Up Ammunition

London, June 13.-Hon. Joseph Chamberlain, in speaking at the Corona Club, a gathering of prominent representatives of the British colonies, said that through the peace settlement the British had obtained all they had hoped for. The government had been generous to its late opponents in regard to everything concerning personal and private matters, but had given up nothing in substance. It had done nothing to prejudice the ultimate solution of the South African question, to which it looked as its justification

of the war. Continuing, Mr. Chamberlain said: "I am sure we are delighted by the way these terms are accepted by our late opponents. If those feelings prevail we are at the opening of an era of prosperity such as that country has never known.'

The rumor is untrue that the Boer delegates Europe or the personnel of the late agency are about to take the oath of allegiance before the British minister. FATAL FIGHT SINCE PEACE WAS

DECLARED. A casualty list issued by the war office shows that four men were killed in a fight 36 miles east of Frasersburg, Cape Colony, on June 3, three days after the conclusion of peace. Gen. New York, June 13 .- The Herald says: Speechless, and with mind and wrecked, Helen Vanderbilt Wackerman, who has posed as model for several famous British art its, and whose reason gave way in London because of alleged insinuations against her character, made by Prof. Hubert Herkomer, R. Few traces of her beauty remain to

born of an apparently constant effort More pathetic even than her appearance was the young woman's unwillingness to speak. Only twice in nine to weeks has she uttered a coherent word. The first of these occasions was during a visit of her mother to her in Crayburn asylum, England, when she repeated a few lines of the

hymn, "Jesus, Lover of My Soul."

The only other time which her

ongue obeyed her brain since her troubles began, was when in the presence of her uncle, Dr. L. G. Smith, of Buffalo, she picked up a newspaper and read the expression, "Out cf my house!" which recalled her painful experience at the home of Prof. Herkomer. Then she exclaimed in apparent distress, "Oh! Oh!" and immediately tore the newspaper into shreds. Although both the girl's mother and her uncle repeatedly declared that she was not violent, and that she understood all that was going on about her, it was evident that her condition was far worse than they wished to ac-knowledge. girl to depart from his house. To this failure she attributes directly the collapse of her daughter's mind.

The incident which gave Miss Wackerman notoriety, and which was the principal cause of her mental disorder, occurred last year, when Prof. Herkomer exhibited in the Royal Academy a picture, entitled, "Seeing, I Saw Not; Hearing Not, I Heard." To those, especially of the artist colony, who observed the painting, it was patent that it was a portrait of Miss Wacker-man, but, contrary to custom, the artist had omitted to attach to the canvas the name of the model. This omission caused much comment, then it was announced that Prof. Her-komer had forbidden the girl to re-

NEVER FALTERED, having expressed himself as fully prepared for the ordeal. His neck was broken by the fall, and death appear-

ed to be almost instantaneous. THE CRIME. The crime for which Hansen was executed was the wanton murder of a eral to the counsel for the Conservaboy named Eric Marotte, in West- tive. mount, in October last. The murderer was prowling around the suburb searching for the means to buy liquor. He had fallen to such a low condition through the use of intoxicants that it had become the chief aim in life to

keep himself supplied with whisky, THE VICTIM. Young Marotte was returning home in the evening from a relative's, jing-

ling a few coppers in his pocket, when he met Hansen, who killed the boy and threw his body over a fence. Hansen went to the central police station in this city a few hours after committing the deed, and told the police that he had killed a boy in Westmount, but he was so muddled with liquor that he could give no clear account of his crime. AFTER CONVICTION.

Since his conviction Hansen had em-

braced the Roman Catholic faith, and he was apparently sincerely repentant for his crime, and on Wednesday he addressed a touching letter to Governor Vallee, of the jail, thanking him for his kindness, expressing himself repentant for his crime, and asking forgiveness from those he had wronged.

THE RECOUNTING IN NORTH GREY

Sensational Charges

The "Spoiling" Marks So Illegible That Judge Morrison Himself

Failed to Notice Them.

Owen Sound, June 12 .- The ex-parte statement by counsel for the Conservative candidate, Mr. Boyd, in the North Grey recount, caused a good deal of excitement here, but an inquiry into the circumstances shows that the in-

ferences and innuendoes were far more serious than the facts. The trouble arises from four ballots cast in polling subdivisions No. 9, of St. Vincent, which is in the farthest part of the riding, about 26 miles from

Owen Sound. FOUR SPOILED BALLOTS. The ballots were all marked plainly enough and properly for Mr. Boyd, in the space to the right of his name, but in addition they all bore a small cross in the compartment containing the name of Mr. McKay, the Liberal candidate. These latter marks were so

illegible that Judge Morrison, before whom the recount was made, passed them unnoticed. Mr. Geo. H. Watson, K.C., counsel for Mr McKay, passed them as good on a re-examination by him that two of them were discovered. The other two were found on a very careful scrutiny by Mr. W. D. McPherson, who

UNWARRANTABLE CONCLUSIONS. Yet, in the statements that appeared in the Mail and the World the inference was boldly drawn that the ballots must have been good when counted by the deputy returning officer on the night of the election, and had afterwards been tampered with and spoiled. Curiously enough, too, there is evidence to show that the Conservatives themselves knew there was some spoiled ballots among those of this subdivision. The only fair ground for the suspicion that the ballots were tampered with, as Judge Morrison himself held, is the fact that four of them occurred in the one subdivision, and against that is the fact that prohibition feeling is now high in that section, which might induce voters who felt strongly regarding it to spoil their ballots, and the further fact that from the general appearance and location of the secondary marks no two of them appeared to

have been made by the same hand. A WIDE RULE ADOPTED. The judge adopted a wide rule, so as to give every possible chance for giving effect to the intention of the voter, the result being that the number of votes polled for both candidates was increased by the recount, many of the rejected ballots being counted for one or the other candidate. through the deputy returning officer having improperly counted ballots were few. There was no suggestion by the judge or the parties on either side that the seals on the ballot box or on the envelopes containing the ballots had been tampered with. As the custom is, the judge counted the ballots, passing those marked for the Conservative candidate to the counsel for the Liberal, and those marked for the Lib-

HOW DID MR. BOYD KNOW? When the township of St. Vincent was reached, Mr. Boyd said: "We'll find some ballot-switching in this township." Judge Morrison counted the ballots-Boyd, 29; McKay, 40; just as the deputy returning officer had counted them. Mr. Watson looked them over as they were passed to him and saw nothing wrong. Then, to test the count, he went over them a second

London, June 13 .- "Col." Lynch gets little sympathy from the Irish party, the members of which were disgusted by his letter to the speaker of the of Commons, apologizing for the part he took in the Boer struggle The Irish party knows nothing of his plans or motives in challenging arrest, and regards his action with some doubt. It has been suggested that he was in communication with the Brit-1sh Government before he arrived.

TO DISCOVER AN EXPLORER. W. S. Champ, secretary of the Bald-Win-Ziegler Arctic expedition, and Dr. G. Shurkley, of New York, start today for Tromsoe, Norway, whence they will sail on July 1 on the Frithjof for Franz Josef Land, to take coal to Mr. Baldwin's ship, the America, and obtain news of the Arctic explorer. Mr. Champ expects to find the America in about 82 degrees. If Mr. Baldwin has succeeded in his dash to the Pole, he will be brought back. Otherwise the Frithjof will leave a well-equipped sledge party to search for Mr. Baldwin. The Frithjof will return Oct. 1

FRENCH FISHERIES FAIL. The correspondent of the London Times at St. Johns, Nfld., says official reports show the French fisheries on the Grand Banks are a complete fail-Fishermen at St. Pierre have been unable to procure bait because of the stringent laws. A hundred French vessels are lying at St. Pierre helpless, and awaiting bait.

SWINDLED BANK OF FRANCE. An employe of the Bank of France, who was intrusted with the care of collateral securities, abstracted a number of these documents, and through the help of a friend borrowed money on them from the Bank of France itself. The pa-pers this evening say that the sum lost by the bank amounts to 450,000 francs (\$90,000).

A WARM DISDUSSION IN TORONTO SYNOD

On Matter of Sending Greeting to Presbyterian General Assembly.

Toronto, June 13 .- There was another warm discussion in the Anglican Synod resterday. This time over a resoluion by Rev. Principal Sheraton to send fraternal greetings to the Presbyterian General Assembly in session here. There has always been objection taken by extreme churchmen to this recog-

nition of Presbyterianism. At the morning session Rev. J. Pitt place of French in Russian court cir-Lewis said from the terms of the res- cles.

was really no essential difference between the Church of England and Presbyterians. Presbyterians. That was the fallacy that had placed the Church of England of this land where she was today. If that be proven, Anglican pulpits would be open to ministers of other denominations. The church, he held, should get back to the apostolic basis. Finally the resolution was carried with but three dissenting votes, although several other members spoke against Dr. Sheraton's implication that there was no essential difference

between the churches. A resolution was passed, on motion of Mr. John Mothersill, of Oshawa, that the house of bishops at the next session demand the elimination from the history taught in the high schools of Ontario of the Roman Catholi contention that the Church of England dates from Henry the Eighth.

ARTIST DIRKS A SUICIDE

of Mice and Boys.

Overworked and Despondent-Shot Himself in His Studio.

New York, June 12.—Gus Dirks, who was known as the "Bugville" artist, because of comic pictures he drew of bugs and mice, committed suicide in his studio at 232 West Fourteenth street by shooting himself in the head. Dirks, who was 21 years old last January, had been despondent, and his room-mates, Charles Farka and John Whitmore Tarrant, with whom he occupied the studio jointly, had advised him to take a rest.

whom he occupied the studio jointy, had advised him to take a rest.

On Friday Tarrant persuaded him to take a short trip to Washington. They returned and went to the Fourteenth street studio, where they occupied a large room in the front on the third floor. Farka, who was sitting by the window sketching, asked Dirks how he felt after

his trip.
"I didn't care for it at all," said Dirks.

"I didn't care for it at all," said Dirks.

"It was very tiresome."

In the rear of the studio was a room occupied by R. V. Morrisson and Egbert M. Clark, artists, and Harry Leonard, a newspaper writer. Dirks walked in there and picked up a revolver which lay on the table and examined it carefully. Then he laid it down and walked back into his own room and into a large closet.

Farka heard the report of a pistol and looked up to see Dirks' legs sticking out from the closed door. Dirks had shot himself with a revelver of his own, the bullet entering behind the right ear and lodging near the eye.

Dirks' elder brother, Rudolph, is married and lives at 49 West Twelfth street. He is also a comic artist, being the originator of the "Katzenjammer" pictures. He was summoned at once, His father and mother live on a farm in Phillips, Wis., and Rudolph said he was going to start right off to try and let them know of his brother's death before the news reached them from other sources.

The suicide's full name was Gustavus Dirks. He was born in the province of Schleswig-Holstein, Germany, and came to this country when quite young. The suicide never had any artistic training. He and his brother were employed for a time on a comic paper called the Critic, in Chicago. They came to this city in 1897 and were employed on the Journal. Gus severed his connection with the paper a year ago and has since been a free lance.

His greatest hit had been with pictures

free lance.

His greatest hit had been with pictures of bugs and mice. Farka, who knew that Dirks was returning from Washington, had trapped a mouse for him in the morning. He had been feeding the mouse all day, so that Dirks could at once renew his work.

NEURALGIA

THIS DISTRESSING COMPLAINT IS DUE TO IMPOVERISHED BLOOD.

When the blood becomes thin and watery, as a matter of course you become weak, vitality gets down low, and there is but little power in the system to ward off disease and pain. Neuralgia hunts out a weak spot, and makes a home there, so secure that it is hard to drive out. But by using the proper remedies it can be driven from the system, never to return. To obtain immediate relief, first apply to the painful parts a good quantity of Polson's Nerviline, and then bind on a hot flannel cloth.

This local treatment will be found very efficacious, but must be followed a course of Ferrozone treatment. Ferrozone is a blood food, and a blood purifier, and quickly strengthens the system so that further attacks may never be feared. It makes the rich red kind of blood that gives strength and vigor to weak constitutions and puts them in good shape to resist neu-

ralgia attacks. This combined treatment of Nerviline and Ferrozone in Neuralgia, Sciatica, and Rheumatism, is marvelously effective, and cures after all else has failed. Because of the unique success of these remedies we have no hesitancy in indersing their use to our readers. All druggists sell them.

SOME PRESBYTERIAN STATISTICS

Progress of the Church Snown by Reports Presented to the Assembly.

Toronto, June 12 .- The general assembly this morning spent most of its time arranging its business and mapping out its work. The applications of Known for His Comic Pictures eighteen ministers from other churches and of ten students for admission to the Presbyterian ministry were received and referred to committee. There is a serious scarcity of men for the work of the church.

LORD STRATHCONA'S MUNIFI-CENT GIFT.

The feature of today's meeting of the general assembly of the Presbyterian Church was the announcemen of J. K. MacDonald that the aged and infirm ministers' fund of the church is now over \$227,000, and that Lord Strathcona had, according to promise, sent a check for \$20,000 of this total. Some time ago Lord Strathcona said that when \$200,000 has been subscribed, he would add \$20,000. It is hoped soon to bring the fund to a point where \$400 per year will be paid to all pastors of forty years' service and over. PROGRESS OF THE CHURCH.

Rev. Dr. Torrance, who is now 79 years of age, and has served for alnost half a century, asked to be releved of the cares of his position as convener of the committee of statistics, but consented, under pressure, to remain for another year. He presented a report containing carefully tabulated statements as to the progress of the church during the year. Three new presbyteries were formed in the Synod of Manitoba and the Northwest these church courts to 58. The total number of congregations and mission stations was 1,781—an increase of 373 on the previous year. The total number of ministers on rolls of presbyteries was 1,198—a decrease of 17, and in the appendix to the roll 170 an increase of 15. Self-supporting charges aggregated 783, and augmented charges 203. Of the last 143 were in the western section, and 60 in the

AGED MINISTERS' FUND.

Judge Forbes, of St. John, N. B., reported on behalf of the committee for the eastern section of the aged and nfirm ministers' fund. The balance of the fund stands at \$6,169, the deficit being \$902. Collections from congregations aggregated \$2,449; interest brought in \$1,111, and rates from ministers \$617. The annuities paid were \$4,514. The capital fund investment stands at \$40,139. An increase in congregational givings was reported. The number of annuitants in the list is 26. One died during the year.

MISSION WORK OF THE WEST. The mission work of the west was dealt with at length in the home mission report. It was urged that a James Robertson memorial fund be established, a portion to be placed at the disposal of Mrs. Robertson, and the remainder to be devoted to home mission work. The great rush into the west was described, and an estimate made that 150,000 people would be added to the population this year. Last year \$98,450 were spent on home mission, and this year \$100,000 will be There are 428 mission fields, with 1,230 preaching stations in the west. Between forty and fifty new missions were organized during the

home missions committee stated that the rapid increase of population in Cape Breton has resulted in the addition of three self-sustaining congregations to the Presbytery of Sydney. Elsewhere the decrease in population has affected the work. During 1901-02 the receipts were \$15,281, and the expenditure \$15,987. Dealing with Que-bec, the deport noted that the decrease of English-speaking families is not so perceivable as in former years, and attributes this to the erection of pulp and other mills and the building of new lines of railway. A special ef-fort was made to learn the exact debt of the church. It amounts to \$1,049,198 -a decrease of \$146,668. The debt is not 15 per cent of the estimated value of the property a year ago, and it would appear still less if the more recent value were known.

BUILDING UP CANADIAN NA-TIONALITY.

At a home mission session in the evening, Rev. Dr. McLaren, of Vancouver, and Rev. D. G. McQueen, of Edmonton, N. W. T., were the principal speakers. The former says that it would pay any congregation in the east in choosing a minister to send him west for a year's apprenticeship. In his mission work and policy, the late Rev. Dr. Robertson had done more for the cause of Canadian nationality than any cabinet minister.

Rev. Mr. McQueen said ministers in the east should say to their young men and women: "Never think of

said, amid laughter, keep young Canadians from going to the United States. Influence by voice; if necessary, by force. Mr. McQueen told in detail the stream of settlement going into Alberta, and its cosmopolitan nature. He urged that no minister be sent to do mission work in the west who was not loyal to Christ, loyal to the Presbyterian Church and loyal to Canadian nationality.

The Present Ambition of the Wizard of Orange, N. J.

Wonderful New Battery Projected by Edison.

There is a street in Orange, on which there are exactly 80 houses. To two of these establishments stables are attached. The other 78 give no outward evidence of possessing other means of transportation for pleasure or business than the occasionally hired vehicle, the ever-ready street cars or the legs of the persons who reside there.

If this array of facts seems to be commonplace, consider. It has led to the production of an invention which will go far toward revolutionizing modern methods of transportation. Incidentally, it has given another lesson on the value of close observation.

This statement as to the number of houses on the street in Orange is given on the authority of Thomas A. Edison, who told a newspaper man the other day that he had counted them him-

Moreover, said Mr. Edison, the houses were erected at a cost ranging from perhaps \$4,000 to about \$18,000, or perhaps a little more. They rent for from \$50 a month to twice or twice and

Therefore they are occupied by men who do not enjoy incomes so large as to enable them to contribute to the establishment of public libraries, or, except in the two cases cited, even to take their families on what the lamented Samantha Allen called "pleasant To the ordinary man it seems a far cry from such statistics about houses their construction and their occupants there is an increase of 1,422. The aver- to storage batteries, but according age giving per family was \$8 70, and again to Mr. Edison it was the conincrease for the schemes of the church red him on to the endeavor which rewas \$26,769 during the year; the total sulted in the construction of the battery he is now preparing to submit to tests which he hopes will be final. Mr. Edison believes that every man synod of the Maritime Provinces there desires to ride around in open vehicles for the fun of the thing, or at least likes to have his family do it.

Thereupon Mr. Edison takes up a synods. Since the union in 1873 the a diagram of a building plot sets aside number of congregations has increased a little space in one corner for the

"First place," he says, "there is the for all purposes, from \$982,673 to man. You can't keep a horse unless you keep a man to look after it. You have to feed and uniform'the man, as well as pay him, to say nothing of feeding the horse.

"And then there is the veterinary surgeon and the horseshoer, and they all keep coming around. "Now, an automobile doesn't cost anything for food, and you run it yourself and don't have to hire a man, and

there are no doctors coming around and horseshoers or that sort of thing. All you need is a little shed in the back yard that won't cost \$30 to put factory. The battery had not run up, and there you are."

Which explains one reason why Mr. Edison pursued the automobile. He says it is not his intention as yet to As before, the battery was charged undertake to do anything with his new for 70 miles. This time the run was storage battery except to use it in over a smooth road and was continuautomobiles. When that service has been developed to a satisfactory point, been developed to a satisfactory point and been developed to been developed to a satisfactory point, it will be time to consider other things which may be done. As for the battery itself, that is

something else. To begin with it is not a storage battery, or at least Mr. Edison is not yet ready to call it one. A storage battery, he says, ought to be like a gasometer, just as good after ten years' wear and use as it is when new. But the practice is just the reverse.

Nowadays storage batteries, so-called, do not last a year. They wear out. ed, do not last a year. They wear out. 20-mile battery is a small thing, about He has one at his place in Llewellyn a foot and a half long and six inches which has been used on an automobile for less than a year and it is so nearly used up now that it will not move the machine on the floor, to say nothing of taking it over a country road. So far, then, as the experiments with it have gone, Mr. Edison is ready only to call his battery a primary battery, although it has shown son sults that indicate that it will be more permanent than the ordinary so-called storage battery now in commercial use. The word "chic," so dear to the French heart, and, indeed, of very frequent use the world over, which has just secured recognition by the French Academy, is fully two and a half cen-turies old, and is of German origin. In its original form it was spelled "Schick," and was thus used by Schiller in the first piece of the Watch-meister trilogy. Two cavallers boast of their pranks and prowess to a Wachtmeister, and flatter themselves that posterity will talk of them for centuries. The Wachtmeister replies: no longer a matter of mere surmise. It | centuries. The Wachtmeister replies: "Shall these things be talked about? It is not riot and junketing that make discomfiture of the modern joker, says wit and schick."

This "schick" was doubtless a pa-tois abbreviation of "geschick," which means skill or address, and also appearance. Its expressiveness at once appealed to the French soldiers who heard it ued in Germany during the Thirty Years' War, and on their return to Fance they brought it back with them.

A more modest philologist than either Dr. Petrie or the German professor, who, because his researches and fame are as yet imited, was unwilling that his name should be used, and gave the writer some further instances of modern catch-phrases which plains of Assyria, and believes that it is a copy of a prehistoric comic paper. Among other items it contains were known and appreciated years

The Noted Electrician Will Prospect for the Metal in Ontario.

Sault Ste. Marie, Mich., June 13 .-Thomas A Edison is expected here soon to start his summer's work in the Canadian nickel belt, north of Sudbury. Edison claims to have perfected an electricial "dipping" needle which will indicate accurately the presence

of nickel below the surface.
A careful survey, under Edison's personal supervision, will be made of the nickel country. The party of miners who will accompany the "Wizerd" is already engaged.

A Canadian Should Command.

Major-General O'Grady-Haly has said farewell to the Canadian militia, and sails for England tomorrow. Socially, he has been a success, but he has done nothing to strengthen the belief that the militia forces of Canada should be commanded by an imperial officer. Great Britain has sent us a succession of very good soldiers, but not one of them seems to have understood the problem with which he had to deal. They are molded in the stiff and formal school of the British army and cannot get away from their preconceived ideas. They fail to realize the vast difference between the regular army system of Great Britain and a militia organization such as we have in Canada. The difference is rooted in the social conditions of each country. The British army is officered largely by the aristocracy, while the Canadian militia is democratic to the core, and there is little or no social distinction between the officers and the rank and file. The imperial officers who have been sent here make no allowance for the democratic spirit and constitution of our citizen soldiery, but look on it as a machine-made affair like the regular army, and the Canadian volunteer as a creature of drill and pipe-clay like the regulation Tommy Atkins. It is not to be wondered at, however, that a man who has been stereotyped in one system all his life, is not able suddenly to change his point of view. The only permanent remedy is the appointment of a Canadian officer to the command of the Canadian militia. It is only a Canadian who can really un-Canadian requirements. Surely after the experience of South lafrica there can be no argument against it on military grounds.

positions in his country's gift. Major-General O'Grady-Haly will be and competent soldier, who enhanced war. He was in contact with the Canadian troops there and learned to appreciate their qualities. There is hope that he will be a success in Canada. but the exception in his case will only prove the rule, that the present practice is wrong.

The Methodist Conferences. The local legislatures of the Metho-

dist Church, as the Conferences may be termed, have just concluded their annual sessions. The deliberations of these bodies interest a public wider than the great denomination they represent, as some of the questions handled touch the whole religious community. There were many memorials in favor of modifying the church discipline, but the conservative forces still hold the fort. In the Ham-Ilton Conference it was a clergyman who moved the amendment to make admonitory instead of imperative, the paragraph relating to dancing, cardplaying, theater-going and kindred amusements. No doubt there will be Increasing pressure from the laity for a relaxation of this rule.

The referendum was a theme in all the Conferences. A resolution urging all friends of prohibition to get out the full vote in December was adopted by own way in everything. the Toronto Conference, and a paragraph condemning the conditions of the referendum was expunged. In tha London Conference there was some fifference of opinion. A memorial from the First Methodist Church in this city in favor of ignoring the referendum, was not entertained, and the whole question was left to invididual Judgment. The Hamilton Conference agreed that while the referendum had been declared objectionable by many people, yet inasmuch as the conditions were now fixed it was not expedient to further discuss it. The proposed measure of prohibition was pronounced satisfactory and it was declared to be the duty of all Ontario Christians and Prohibitionists to leave nothing undone to secure the full quota of voters on Dec. 4. Dr. Carman, general superintendent of the church, at all three Conferences strongly urged the Prohibitionists to work with might and main to roll up the vote. This seems to be the preponderating sentiment, and is certainly a much wiser policy in the interests of prohibition, than antagonizing members of the political parties, whose votes will - needed

Our friends of the Opposition are in

very ill-humor with Mr. Ross. Na-

turally Mr. Ross has greatly offended them by getting a majority of the seats, but other Liberal Premiers have been doing that for 30 years without incurring personal resentment on that account. Why should an exception be made of Mr. Ross? What could he do other than he has done? With a majority of four, he would have no justification for resigning even if he wished to oblige the other party; and they have given him no special reason for wishing that. He has no alternative but to continue doing business at the old stand. Then why this animosity? Is it because Mr. Ross is going to the coronation? Probably so; but Mr. Ross cannot help that any more than he can help remaining Premier. The invitation came months ago, and he accepted it as in duty bound. Certainly the greatest Province of the greatest colony of the Empire ought to be represented at the coronation, and who should represent it but the Premier? Of course, it must be galling to our Conservative friends to see a Liberal getting the glory; but it is most unreasonable of them to abuse Mr. Ross for what he simply cannot avoid.

The Coal Strike. This is the fifth week of the anthra-

cite coal strike, and no settlement is in sight. The strike has spread to the soft coal miners of West Virginia, and a large number of railroad trainmen have refused to handle soft coal shipped to displace anthracite. Walter Wellman, the Washington correspondent of the Chicago Record-Herald, has been investigating the conditions of the coal mining industry, and declares that they resemble the feudal system. The anthracite coal business is a monopoly controlled by half a dozen men who control the seven railways which enter the coal fields. P.epresentatives of these railways meet every month and fix the price of coal for the ensuing month, and the quantity to be marketed by each road. Mr. Wellman says the capacity of the mines in the anthracite field is 65,000,-000 to 70,000,000 tons a year. He adds: "There are men enough here to take out that quantity, railroads enough to haul it to market. But the output last year was only 50,000,000 tons. The public would consume no more because the prices were so high. If competition were permitted prices would be lower and more hard coal would be burned, to the great benefit of the pul-Canadian should deny the eligibility lie and the men who dig the coal, and of his own countrymen for the highest now work only 200 days in the year. "If an operator attempts to stand out against the combination he is not succeeded by Lord Dundonald, a brave only charged excessive freight rates, but he has difficulty in securing cars his reputation in the South African in which to send his coal to market, this difficulty becoming almost insuperable if he cuts prices at tide water." [Canadian Magazine.] "Canada is further away from annexation today than she ever was. The corruptness of American politics, the gross materialism in American the slavery problems of the south, the child labor of South Carolina, the reckless disregard of law and authority in some of the Western States, the grave problems introduced by the conquest of the Philippines— these and a dozen other things warn Canada to beware of United States not everything, in fact, it is only a small part of the national life. Canada sees that with patience and confidence she can hew out a destiny more profitable, more glorious than anything which annexation can offer."

An Earl in Court. [Boston Herald.] Speaking of the privileges of peers of the British realm, it is interesting to

note that when the Earl of Egmoni

was hauled up before a London police

court the other day for having been drunk and disorderly on the streets, he claimed the privilege of wearing his hat in the court room. The presiding magistrate didn't object. It would have made no difference !! he had. It is the right of a British peer to wear his hat in the presence of a commoner, in court or elsewhere. All the same, the magistrate had the privilege of fining the earl five shillings for drunkenness, and he exercised it.

Sleep, martyrs of a fallen cause!
Though yet no marble column craves
The pilgrim here to pause.

Which keep in trust your storied tombs, Behold! your sisters bring their tears, And these memorial blooms.

Small tributes! but your shades will smile
More proudly on these wreaths today,
Than when some cannon-moldered pile
Shall overlook this bay. Stoop, angels, hither from the skies!
There is no holier spot of ground

By mourning beauty crowned!

Education and Money-Making.

Chattanooga, Tenn., June 13.-A fatal collision occurred on the Nashville, St. Louis and Chattanooga Railway yesterday between Hooker and Summit, two small stations about twelve miles from this city. men were killed outright, and about fifteen others more or less seriously injured. Possibly two or three of the wounded will die from the effects of

heir injuries. The train, known as the Jasper ac commodation, left Chattanooga about :40 o'clock in the afternoon. It was due at Summit at 3:08. The other train, fast mail No. 1, from Nashville, was behind time, and the meeting point of these trains had been changed from the regular station to Summit. One of the engineers overlooked his orders and ran past the designated meeting place.

THE INJURED. Fireman L. A. Rankin, of this city,

was terribly mangled and died almost nstantly. Engineer Rollins was terribly injured and is not likely to recover. Engineer George Ray, of the fast mail, is seriously injured, and it is thought fatally.

Fireman James Bernard was caught under the smaller engine and literally burned to death. A handful of cinders and charred flesh was all that could be found of him. Express Messenger Walsh, of the

fast mail train, was caught under the debris and died shortly after. The accommodation train, being the lighter one, was telescoped, the heavy engine of the fast mail plowing its way through the cars and splintering them into kindling wood. Both engines had their positions reversed and were thrown 40 yards from the track. None of the passengers were seriously in-

PROGRAMME OF FUNCTIONS THE RECOUNTING

Arranged by Their Majesties for Coronation Week.

Practically a Rehearsal of the Ceremonies Took Place Yesterday.

London, June 11.-King Edward and Queen Alexandra were engaged today in what was practically a rehearsal of the coronation ceremonies. Accom-panied by Princess Victoria, and a suite, their majesties drove to West-minster Abbey. They were quietly received by the Duke of Norfolk, earl marshal and chief butler of England, who escorted their majesties through the abbey, and in order to prevent the possibility of a hitch in the pro-ceedings Coronation Day, all the details of the procession and ceremonial were explained to them. The royal visit to the abbey was accomplished very quietly, and but a few of the persons about the building were aware of the presence of their majesties.

THE ROYAL PROGRAMME. London, Friday, June 13.—The final court of the season will be held at Buckingham Palace tonight. Their majestles will then go to Windsor and will not return to London until coronation week. The programme of functions for coronation week is as fol-

Monday, June 23.—Arrival in London of the royal representatives; dinner at Buckingham Palace and reception of Tuesday, June 24-Their majesties will receive the special foreign envoys and deputations to the coronation and

give a state dinner at Buckingham Palace. Wednesday, June 25—Reception of the colonial premiers and other envoys; the Prince of Wales will give a dinner party at St. James' Palace to the princes and envoys.

Thursday, June 26—The coronation. Friday, June 27—The procession through London, which will be a military pageant two miles long, representing every portion of the British dominions. In the evening their ma-jesties will attend a reception at

Lansdowne House. Saturday, June 28-The royal party will leave London for the naval re-Sunday, June 29-Dinners to the for-

eign princes by their respective ambassadors. Monday, June 30-Their majesties return to London; gala performance of Tuesday, July 1—Garden party at Windsor Castle.

Wednesday, July 2-Departure of the foreign princes and envoys; their majestics dine at Londonderry House. Thursday, July 3-Their majesties attend the service at St. Paul's and lunch at the Guildhall. Friday, July 4-Their majesties attend the reception of Indian princes

at the Indian offices. Saturday, July 5.-King Edward's dinner to the poor.

ONTARIO'S FRUIT CROP EPROMISES TO BE LARGE

Early Plums Alone Suffered From

Ottawa, June 13.—Acting Chief Fruit Inspector A. McNeil, of the department of agriculture, has returned from an important tour of inspection of fruit-grow-ing districts in Western Ontario with good news. He reports that prospects good news. He reports that prospects generally are extremely good in apples, plums, grapes and fruit generally. There is a surprising decrease in noxious insects. There will be a large crop of apples, which remain quite uninjured by the frosts. The only fruit at all retarded is early plums, and they have suffered very little in Western Ontario. He visited the counties of Middlesex, Huron, Perth. Oxford, Brant, Grey, Durham and Northumberland. The chief feature that struck him, apart from present fruit prospects, was that growers STRUCK BY LIGHTNING.

Wallaceburg, Ont., June 13.—Nelson Wood, the 10-year-old son of George Wood, blacksmith, was killed by lightning here last evening. A terrific thunderstorm passed over the town between 7 and 8 o'clock. Mr. Wood was working in the shop at the time. His son and another boy were near the vice bench, over which hangs an electric light. The lightning apparently followed the wires in, burnt out the lamp and struck the boy down instantly. The other boy, who was on the other side of the vice was uninjured.

In man and Northumberland, The chief feature that struck him, apart from present fruit prospects, was that growers in Middlesex, Perth. Oxford, and part of Huron do not seem disposed to plant new or renew old trees. This is considered regretable, as there are no better apple districts, not even excepting the famous Annapolis Valley, N.S. He found in Grey, Durham and Northumberland. THE PREMIER STARTS FOR THE OLD COUNTRY

To Be Present at the Coronation-Received a Hearty Send-Off.

Toronto, June 13 .- Hon. George W. Ross and his son, George W., jun., left this morning for New York, en route for the coronation. The premier was accompanied to the station by Hon. Mr. Harcourt, acting premier; Hon. Mr. Stratton, and some personal friends, who gave him a hearty sendfirst sod on the site of the Queen Victoria monument, which will be located on the eastern front of the building.

PRESENTATION AT ARVA. The Arva Auxiliary of the W. M. S. held its regular monthly meeting at the beautiful home of Mrs. W. R. Westlake at Arva on Wednesday, June 11. There were present about twenty members and friends. A pleasant part of the programme was the presentation to Mrs. (Rev.) W. H. Cooper, the retiring president, of a gold pin in the form of a five-pointed star, daintily engraved. The address was read by the corresponding secretary, Miss M. W. Hawkins, and the presentation was made by the treasurer, Miss M. Fish, on behalf of the auxiliary. Mrs. Cooper made a neat and feeling reply. Refreshments were served and a pleasant social time spent by all present.

time, and it was on this second scrutiny that he discovered two of the four spoiled ballots. Mr. DuVernet, counsel for Mr. Boyd, remarked confidently that there were probably more of them, and Mr. McPherson took the ballots to look them over. This he did very carefully, and found the other two. It was argued by Mr. DuVernet that the judge could not overrule the decision of the deputy returning officer with regard to these ballots; that he must pass them as good ballots because the deputy returning officer had done so. The judge held that he must not count them, as he had found and discarded them as spoiled. He said there was a strong suspicion, amounting almost to a certainty, that the ballots had been tampered with.

Judge Morrison, when asked for a statement of his remarks in exact terms, said the matter was still sub judice, and that therefore he did not feel at liberty so say anything. Regarding the suggestion in the Mail, however, that the ballots had been tampered with during the recount, when it had been found that McKay's majority had been reduced to two, Judge Morrison said: "There was not at the recount any suspicion, nor was any suspicion expressed, nor was there any possibility of ballots being tampered with during the recount." THE LIBERAL MEMBER.

Mr. McKay, when asked regarding the four ballots and the published stories of corruption, said: "The statement in today's Mail that Judge Morrison 'expressed the utmost reluc-tance' to declare me elected is absolutely untrue. The fact of my election did not depend upon four ballots in dispute, belonging to No. 9, St. Vincent. Even if Mr. Boyd were allowed these four ballots, I would still have a clear majority of one, concerning which fact there was no dispute. The Mail report is therefore not only untrue, but as absurd as is the sugges-tion in the last paragraph of the alleged special from Owen Sound, that on appeal Mr. Boyd will have a ma-jority of nine. Judge Morrison's decisions in the recount were eminently impartial, and will, in my opinion stand on appeal. Regarding the four ballots as to which reflections have been made, the suspicious circumstance is pointed out that all belong to the one poll, but the unquestioned standing and excellent reputation of Mr. Carson, the deputy returning officer in this polling division, render it absolutely impossible of belief that he would be a party to any irregularity or wrong-doing.

PRINCE EDWARD. Picton, Ont., June 13 .- The recount for Prince Edward county was con-cluded last evening. Dr. Currie's (Liberal) majority is 116-a decrease of 7 from the official declaration.

NORTH WENTWORTH. Hamilton, Ont., June 13.-The count before Judge Snyder of the ballots for North Wentworth election resulted in a majority of 31 for R. A. Thompson (Liberal), which is the old figures. The total vote was: Thompson, 1,526 and Wardell 1,495.

WONDERFULLY DESOLATE. For years I had tried to arrive in my mind at an idea of the general aspect of the Antarctic regions, but never had I expected to find, so far north of the polar circle, anything so wonderfully desolate as that which I now beheld. The island is very mountainous, and some of its peaks attain a height of two or three thousand feet. Between these peaks there are broad valleys, and anywhere else in the world this island would show all the contrasts of a varying nature. But now one feature only is conspicuous. Up to the highest summits everything is covered snow and ice. The valleys are filled by immense glaciers, connecting over the ridges with their neighbors, climbing the summits, and far more luxuriant than the vegetation of tropical forests. To the east or to the west there seems nowhere to be an outcrop of here rock, and only at a few places at the edge of the sea are there some bold promontories of steep cliffs. But all along the coast there are a number of rocky islets, often low, but always W. The Women's Foreign Missionary Society of St. Andrew's Church held a successful missionary tea yesterday afternoon, the gathering comprising about 150 persons. The president of the society, Mrs. (Rev.) Johnston, occupled the chair, and gave a paper, in which she contrasted the condition of mission work today, when the new King is about to be crowned, with the cause in 1837, when Queen Victoria took the throne. An interesting programme followed, among those who rendered solos being Mrs. Brownlee, Mrs. Fulton, Mrs. A. E. Cooper and Mrs. Kennedy. The tea was subsequently served in the ladies' parlor, which was decorated with poppies and daisies.

MEMORIAL TO LATE H. A. HARP-

At the annual meeting of the Alumni Association of Toronto University yesterday the memorial tablet erected by the Toronto University Club of Ottawa in memory of the late H. A. Harper and Hy. R. Suspension Almost Complete in West | Boys of Scottish Descent Under 15 | Revision Will Probably Be Done by Virginia-Trouble in Toronto.

Wilkesbarre, Pa.' June 13 .- For the first time this week there was no strike demonstration at the Lehigh Valley Company's William A. colliery at Duryea today. The efforts of the miners' leaders to have their men keep the peace were successful. The attempt to shoot a division superintendent of the Lehigh Valley Company caused the company to set extra coal and iron police about the colliery in conspicuous

places today. Late last night an attempt was made to start the pumps in the collieries of the Susquehanna Coal Company at Nanticoke, but the engineers quit work

almost in a body. President Mitchell said today that the strike was complete. He repeated his assertion that the suspension in West Virginia is nearly complete.

THE TORONTO STREET CAR MEN. Toronto, June 12.-Daniel Kilworth, chairman of the executive board of the Amalgamated Association of Street Railway Employes, arrived here tonight to try to avert a strike on the street railway if possible. wage scale of 25 cents an hour. The company has ignored the letters of the men, and it is stated will in no event recognize the union, which has, the men say, over 900 members out of 1,000 employes of the road. Postponed Until Monday Next Owing to Bad Weather.

Last night the mothers and elder sisters all over the city were filling baskets with terrapin, imported fruits, choice and costly beverages and all the season's delicacies, for the morrow's picnic. While they stuffed expensive foods into the hampers, little Willie and his sister were out on the front steps thinking of all the fun they were to have, and wondering if the big black clouds up above them meant business. When the wind ruffled the leaves on the trees and the big drops began to fall, and their mothers called them in and shut all the windows for fear the lightning would cut up any didos, they said to each other that it was a good thing it rained then—'cause it wouldn't rain tomorrow, and the harder it rained the gladder they were, for they were sure that there wouldn't be any to fall on picnic day. So the baskets were filled and put aside, and the boys and girls toddled off to bed, and were hushed to sleep by the pitter-patter of the rain drops, to dream of the ride to Springbank and of the races and

A COUNCIL OF WAR. Meanwhile the storm had started the thought machinery of some of the men who had the affair in hand. It is understood that there was a hurried consultation at which Mr. Gammage, Mr. Wm. Union School Children's Outing would not pass quickly. With his customary forethought, Mr. Ward had brought with him a copy of Mother Seigel's Almanae and duplicate copies of Hicks' horoscope for June. The al-manac was rather indefinite. All it said was that towards the end of May or in the first weeks of June, a storm would sweep the province. But the veracious Hicks said that the presence of the mercury disturbance in the Vulcan period would put the moon in perigee, causing seismic unrest, which would bring on a reactionary and perhaps fluctuating precipitation of tornadic thunder squalls and solstice downpours of rain.

THAT SETTLES IT. "That settles it for me," Mr. Ward is reported to have said. "No picnics for me under those conditions. I don't know what that means, but it must

be awful, simply awful!" But they decided to lie low until the morning and not let on that they knew all this. And this morning when the youngsters got up, what a world of disappointment there was when they saw that it was still raining. No one is more optimistic than the children, though, and they persisted in believing that the sun would get a peep through a crack in the clouds and put the rain out of business. It was not so. They trudged off to school from all parts of the city, all carrying their baskets; but the rain fell endlessly. The teachers said that if the trustees hadn't forgotten their physical geo graphy they would have known that we are now in the rain period. Anyway, this is a Friday and the 13th, too. At last it was decided to postpone the great picnic until Monday, and the teachers had the difficult task of getting the children resigned to the idea of having two holidays instead of one. The Ancient Order of United Workmen are to picnic down the river tomorrow, otherwise the school picnic would have been held then. As it is, it will be held Monday, when exactly the same arrangements as for today

Years of Age Are Eligible.

Acting upon the suggestion of Mr. Pringle, the president, St. Andrew's Society decided last night to organize a Kilties' Corps in connection with, and under control of St. Andrew's Society. Boys of Scottish descent, under 15 years of age are eligible for membership, but all candidates for places in the company must be approved of by officers of the society, and great care will be taken in making selections. Preference will be given to sons of members of St. Andrew's Society. It is expected that the formation of the corps will be of great benefit to St. Andrew's Society, and the officials believe that the higher the standard of the corps the greater the benefit will be. The corps will be dressed in kilts, the royal Stuart tartan, the tartan of St. Andrew's ciety, to be used. The estimated cost of the outfit is \$15 to \$18, and it is expected that the recruits will pay to the society about one-half the cost of the outfit, the society will contribute the balance and supply the suits. cadets are to be junior members of St. Andrew's Society, without the payment of any fee.

Attention is called to the advertisement in today's issue asking for recruits. Applications to be made to Mr. Pringle, president of St. Andrew's Society, at the Bank of Toronto, and all applications will be passed upon by the officers of the society as soon railway, in a statement this morning, as a sufficient number are received.

A meeting of some members of the Mayou, lady superintendent of Victoria Hospital, was held yesterday. It was called for the purpose of discussing matters relating to the ap-pointment of a staff for the hospital and the mode of appointing a house surgeon. The bylaws also were discussed, but not touched. The revision of the bylaws governing the hospital has been under consideration for a long time. They were drawn up some years ago, and were patterned after the regulations in force in the best hospitals of the country, but it is believed in some quarters that it is time for a change. It is probable that a sub-committee of the trust will do the revising.

DEAF MUTES' CONVENTION

Ontario Association Meets Here Saturday.

The Public Invited to Attend This Unique Gathering.

The Association of the Deaf Mutes of Ontario will hold a convention in this city, beginning Saturday. These conventions meet every two years, and are of a mutually beneficial character. It is considered very desirable that the deaf throughout the province should keep in sympathetic contact with each other in order that their mutual interests may be conserved. At these conventions topics of interest to the deaf are discussed, and an effort is made to promote an esprit de corps that will induce the deaf to merit and to claim a place and rank among their fellow-citizens corresponding to their numbers and relative intelligence and education. But the chief attraction of the convention is the opportunity it affords for renewing old acquaintances. It will continue until Tuesday afternoon. On Sunday religious services will be held at the Auditorium, and the general public is cordially invited to attend. It is said to be a most pathetic sight to see the deaf mutes "singing"

JUDGE SCORES FEE SYSTEM

Officials of Justice Should Receive Salaries.

Grand Jury's Presentment and the Judge's Reply.

The grand jury at the county court and general sessions of the peace handed in their presentment at 2 p.m. today. The presentment was couched in well-chosen language, and betokened working on the road since March. careful preparation on the part of the

jury. It was as follows: The grand jury beg to herewith make their presentment for the county court and sessions of the peace of the county REPRESENT THE DOMINION and sessions of the peace of Middlesex, just closed.

Your jury desire to express their thanks for the very lucid manner in which you explained in your opening address the cases laid before us for our consideration, and which materially aided us in dealing with the evidence. The paucity of crime in Middlesex county in recent years is very gratifying to us as citizens, and is without doubt due in part to the efficient administration of the machinery of justice, aided and directed by your honor and your colleague, the senior judge of

Your grand jury inspected the jail and found everything in a clean and sanitary condition. We were courteously received by Governor Boston, and the other officials, and given every opportunity to make a thorough inspection. The two or three improvements most urgently needed, we are informed, have already been ordered by the county council. The number of prisoners in custody was ten males and three females, the offenses charged against them being as follows: Murder 2, theft 2, vagrancy 3, assault 2, drunkenness 1, insane 2, seduction 1. The jail walls have been repaired, and the stone coping renewed, thereby adding to the security of the building as

a place of detention. QUARTERS FOR NURSES. Your grand jury visited Victoria Hospital and were accorded every attention by Superintendent Heard and Lady Superintendent Miss Mayou. A careful inspection was made of the many wards, and cleanliness and order seemed to prevail. A needed addition is the provision of a home for the nurses. The quarters at present occupied by the faithful band of nurses, who alleviate the sufferings of the sick, are inadequate, and we would like to see a more comfortable home provided

for them. The number of patients under treatment was 86. PLEASED WITH ASYLUM The London Asylum was visited, and every opportunity was afforded us of making an inspection. Many a time we laid the book upon the grass, and, regardless of cricket, fishing, boating, the warning-bell for function, or the carriage-load of visitors luncheon, or the carriage-load of visitors grinding up the avenue, we commented hour after hour on the subject of our studies, and discussed, each in his own way the comparative advantages of ancient and modern times. My boy, of course, was all for shield and helmet egainst hat and umbrella; preferred his deal Rome, with its Applan Way and its Forum, to the material London, of which he knew too well the Piccadilly and the be knew too well the Piccadilly and the tab-stands; opined that we had hardly yet recovered the effects of the dark ages; esteemed the Olympic Games far superfor to the Derby, and regretted equally the laureled triumphs glistening and winding upward to the Capital with ing upward to the Capitol. the free discussions when sage met sage in the open Athenian schools; with the glorious obstinacy of youth, adopted the glorious obstinacy of youth, adopted the trational side of the argument, and stood

Irrational side of the argument, and stood by it to the death.

But it was on the oft-vexed question of woman's mission and woman's influ-ence that my young pupil came out in his brightest colors. I have heard mili-tary men affirm that perfectly raw re-cruits, who had never seen a shot fired, are preferable to the staunchest veterans for one desperate coup de main, or rash are preferable to the staunchest veterans for one desperate coup de main, or rash haphazard attack; and in the same way I have often remarked that the boy of eighteen professes an utter contempt for his natural enemy, where the man of thirty guards every assailable point, and intrenches himself in the strongest position he can command. Then years later he will decamp vithout beat of drum, and seek safety in flight. On one occasion I hazarded the opinion that the woman-worship which came in with the institution of chivalry, and will not outlast that superstition a day, had done more than any human influence to advance our civilization and ameliorate the condition of mankind. Gilbert was up in arms at once, he disputed by position at its very outset, he denied that woman ever had any influence at all, except among the weaker minds and less commanding spirits of the opposite sex. He flushed and chafed with the subject as among the weaker minds and less commanding spirits of the opposite sex. He flushed and chafed with the subject as he threw his straw hat aside and walked up and down in the sun like a young Apollo. I ought to have been gratified with his progress. He brought all the learning he possessed to bear upon the subject, and fired off a sixty-eight pounder, so to speak, at the commencement of the action.

"Why, even old Herodotus saeers at them as mere chattels," quoth the untried legionary; "and, like a dry old fellow as he is, he gives us his real opinion when he quotes the sensible maxim of the Persians, "that to carry off women by violence is the act of wicked men, but to trouble one's self about avenging them when so carried off is the act of foolish ones, and to pay no regard to foolish ones, and to pay no regard to them when carried off, the act of wise men; that that it is clear that if they had not been willing, they could not have been carried off. We were reading it only last week, and you laughed your hand on the i only last week, and you laughed yourself, though you don't often laugh, when I construed the passage. It is clear that he didn't think them much worth troubling one's self about. Nor have I forsotten the inscriptions of Sesostris, nor the regulations of the Egyptians, which permitted no woman to enter the pre-cincts of a temple, as an inferior being, unworthy of the service of a god or god-dess; and even the Greeks, though they dess; and even the Greeks, though they were fools enough to make war about Elelen, treated their captive women as slaves, and only respected their mothers and sisters as a part of themselves, not because they belonged to the inferior sex; while the Romans, who, I have heard you say, improved as much upon the Greeks in common sense as they fell short of them in imagination and poetry, evidently considered them mere machines to rear their children, and if they did speak of them as gracing the wine-cup. speak of them as gracing the wine-cup, or enhancing the charms of a feast, apparently deemed it a matter of no moment which should be the preferred one, but lumped in Chloris and Chloe, Lydia

"Yet did the conquerors of these yery Romans, the tall Gothic barbarians, frame all their measures by the advice of their wives, nay, even bade the experience of the warrior give place in perience of the warrior give place in council to the sagas of the wise women, daughters of Odin."

I hazarded this argument with some

diffidence, knowing the storm it would bring down.

long-eved ladve light-o'-love!

"Then you scorn the institution of chivalry, Gilbert," was my reply, "and prefer the picture of Archimedes demontrating his problem during the assault, to that of Dunois bleeding to death, with his back again a tree and his face to the enemy, the while he made a Christian ending before the crucific of his sword-Dunois was a fine fellow," answered

Gilbert, "Besides, there was no woman in his case. What I protest against is the raising up of an idol and bowing down before it because it has soft eyes and long hair. You always take the other side of the question to draw me out; I know I'm right because I feel I am. How hot it is! There's my mother going out in the carriage. Don't let us read any more for today. Come and take up the trimmers we set last night and up the trimmers we set last night after that we'll go and catch a pike in the witch-pool under the elms."

I rose and followed him in silence, thinking of Anthony and the tawny-pkinned fishes, and the hook that sooner or later is in every man's nose.

The Coney Island Jockey Club's spring meeting will open at Sheepshead Bay tomorrow, the initial attraction being the Suburban Handicap of a mile and a quarter, purse \$10,000. Of the list of probable starters, Gold Heels and Advance Guard, the Toronto-owned horses, are about even favorites. Advance Guard, the most unlucky horse in America, will have at Sheepshead Bay a better opportunity to display his great prowess as a racehorse than at any other course in the country, says the New York World. The wide, long stretches with the big turns of the suburban route will just suit him. His big, sweeping stride is less \$8,000, of which \$6,000 to the wint liable to be hampered by the mad rush 500 to the second horse, and \$500 to the for positions by horses that are much faster on their feet. Tomorrow will mark the opening of the Blue Ribbon meeting of the Detroit Driving Club, and levers of the light harness horse may depend upon keen racing and good, clean sport. The meeting will end on the evening of June 13. There are any number of good ones at Grosse Pointe track, in

training for the meeting. The Anderson Wilkes mare, Sophia, that is named in the 2:09 pace, is in splendid condition, and Bob Lindsay. feels that she will get her share of the coin this present season. Who Is She, 2:161/4, a mare that made

nine starts last season, never being behind the money once, is one of Billy McLaughlin's pupils, and is considered good enough to race in the big circuit. Clarence B., by Sphinx, owned by G. T. Miller, of Plymouth, Mich., is one of the best-looking and acting pacers in training at Grosse Pointe, and is considered just as good a prospect as was Captain Sphinx, 2:081/4, at the same time last season.

Bernice Wilkes, 2:21, in Jimmie Burns' stable, is looked upon as one of the best in that trainer's string. Thus far she has not been asked to (Mr. beat 2:30 very much.

2:10 performer in Strathline. He could beat 2:15 last season. At the present time he is going miles around 2:20, which are seemingly easy for him. Redwood, a green trotter, by Nogwood, dam by a son of Lord Russell,

is one of the very good trotters at Grosse Point track. Amokin, 2:114, holds the track record to date at Grosse Pointe, having gone the distance in 2:11½. Last half is 1:02½. He will be one of the starters in the 2:09 pace at the Blue Rib-

bon meeting. Queen Wilkes is still master of the New York Speedway. The report that a nomination would be produced for her in the M. and M. is not true. Mr. Smathers, her owner, has said that he would keep her over, and more than likely name her in this same event in 1903.

Not with the idea of touting him, but because it is a fact, Sphinx S., 2:081/4, looks like the real thing for the 2:09 classes. He seems bigger and stronger than he has ever been before, and the way he can step sets the railbirds to chirping, for sure.

The great American Derby is to be run at Washington Park, Chicago, one week from tomorrow, June 21. anticipated that there will be about a dozen starters, the average about ten, so that this year the field promises to be a trifle larger. Abe Frank, Heno, Old England, Dixieline, Cruzados, Arsenal, Belle's Commoner, McChesney, Cunard, Hyphen, Inventor, Lord Quex, Jaubert, Oom Paul, Owenton, Sombrero, Corrigan, Wyeth and The Giver are among the probabilities. It is almost a certainty that Abe Frank will go to the post on June 21. This son of Hanover has been the one great disappointment of the season up to date, and yet the future books stand to pay out over \$100,000 on him should he be returned winner. For this reason alone, Abe Frank is still at a short

price for the race. Two of the eastern probabilities have loomed into great prominence, and as both are practically start in the Derby their performances are of more than usual interest. These can be no doubt as to Heno's class. Many of the good eastern judges have selected him as the best of this year's crop of 3-year-olds. His greatest feat was in gaining on Advance Guard in a stretch run, and any horse that can do that must be counted as a good one, particularly after Advance and Robinson.
Guard's showing in the recent big At Cleveland handicap. Clarence Mackay, Heno's owner, is out for the Derby. Last year he paid \$10,000 for His Eminence in order to have a horse in the race. This year he is out, not only for the honor, but for revenge.

A Derby eligible who is now pushing Heno for the three-year-old honors in the east is Old England, of the stable of Green B. Morris. Old England has been running good races in every start, but the performance that won his new admirers was in the Preakness Stakes at Gravesend recently. The colt carried 118 pounds and ran a mile and 70 yards in 1:45% on a sloppy track. Old England is only one of the cards in Morris' hands. He has Homestead, who has not started in the east, but who is declared by many trainers to be a better colt than Old England. He was worked at Gravesend, and information has been received that he will surely be a starter in the Derby. C. T. Patterson is of the opinion that Old England is a very pose of him at a mile and a quarter or a mile and a half. Morris, with these two horses will be the original favorite, has gone wrong, man to beat at Washington Park.' it is said, and will probably not start.
A list made up off-hand indicates that the following high-class performers are stabled at Washington Park, is of the

The Buffalo Racing Association which is building the new race track just north of the city line, must have a lot of confidence in Buffalo as a racing town, for it has announced an astounding list of stakes. A \$30,000 Derby is announced for 1904, and one valued at \$13,000 is announced for 1903. New York and Chicago stop this side of \$30,000. The stakes for the fall meeting, which will begin on Aug. 30, are announced as follows:

Buffalo Derby, for 3-year-olds, \$25 to accompany nomination and \$100 additional to start; guaranteed value, third; one and one-half miles.

The Seaforth Turf Club have added the following races to their programme: Five-eighth mile run, 2 in 3. purse \$100; three-quarter mile run, in 3, purse \$125. Entries close night before race. Races June 17 and 18.

The St. Louis Derby, which will be run tomorrow at the fair grounds, will be one of the richest events on the American turf. The value is \$15,000, and the field will probably be the best and largest that ever faced the starter in St. Louis classic events.

"While living in Charlotte, N. C., your medicine cured me of asthma and nasal calarb of ten years' standing," writes J. L. Lunsden, Esq., of 221 Whitehall Street, Atlanta, Ga. "At that time life was a burden to me, and after spending hundreds of dollars under numerous doctors I was dying by inches. I weighed only 131 pounds. In twenty days after I commenced your treatment I was well of both troubles and your treatment I was well of both troubles, and in six mouths I weighed 170 pounds, and was in perfect health. I have never felt the slightest symptom of either since. Am sixty-five years old and in perfect health, and weigh 160 pounds. No money could repay you for what you did for me. I would not return to the condition I was in, in October, 1872, for Rockefeller's wealth."

COST OF FOOD.

Grape-Nuts vs White Breau, Etc.

A family figured carefully on the cost of food, taking into consideration the strength and health that Grape-Nuts furnished. The report is inter-

esting. "We first took up Grape-Nuts because it agreed with me so well. I was suffering from dyspepsia that medicine did not relieve. I frequently laughed at the idea when some of my friends told of the use of Grape-Nuts; however, one day wife bought a package and we found it good and it agreed

with me. "We were accustomed to using white bread and oats, wheat or barley, mushes boiled from two to four hours. We considered Grape-Nuts too expensive, but I noticed that when had a breakfast of Grape-Nuts I felt fine, and other days when white bread and other cereals were used I felt

weak and bloated. "One day about six months ago I said to wife.'I am satisfied that Grape-Nuts is the thing that makes me feel better in between the blue spells.' Then we sat down and figured a while on the cost of living and came to the conclusion that we could live better and happier on fifteen cents worth of Grape-Nuts than on twenty-five cents worth of white bread or 'cooked at home' cereals. You see four teaspoonfuls of Grape-Nuts furnish more strength to work on than large quantities of other food, so we started on Grape-Nuts in earnest, using it every morning, and a wonderful change has come over me.

"I am gaining in weight every day. Never have any of the old bloated feelings. Feel strong and well and can endure more hard work than I could on the old diet, and this result is all without any doctor or drugs at all, but directly from using Grape-Nuts." Name given by Postum Co., Battle Creek, Mich. Recipes for many easy hot weather

Hoboken Captain Comes Back to Find His Wife Wedded to Another.

New York, June 13 .- After a separation of nearly twenty years Abraham Halsey, a Hoboken barge captain, is to join his wife again, though she had wedded another man, believing him to be dead. The husbands held a conference, and the second, Charles Rich, has started for his former home in

Kentucky. Capt. Halsey left his wife at Pittsburg in 1883 and went to California. All trace of him was lost; his wife left their Pittsburg home and, on the publication of his reported death, Mrs. Halsey married again. The captain recently returned to this city and met his wife on the street. Both are over 60 years old.

The Street Cars Pelted and Held Up by a Mob

Deputy Sheriffs Fire on the Crowd-Boy Seriously Wounded

Pawtucket, R. I., June 12 .- The city officials having declined to increase the police force to meet the unusual conditions resulting from the strike of the Union Traction Company's men here and in Providence, eight companies of infantry and two troops of cavalry are patrolling the streets today by order of Gov. Kimball.

Last evening a detachment of sixteen special deputy sheriffs was attacked by a crowd which had held up and demolished a street car. The officers were stoned and a number of persons were injured, but none fatally. There was no trouble this forenoon. Cars were run, guarded by deputy sheriffs, with some regular-

ity, but few passengers. Since the strike began on June 2, crowds have opposed the running of cars, and the guards of deputies on each car have encountered growing hostility. Mayor Fitzgerald was appealed to to increase the number of police, but he declined, on the ground that the city's financial condition would not permit of it. The national guardsmen ordered out were supplied at Providence with shotted ammuni-

About noon four cars became stalled in a crowd on Pawtucket avenue. They were each guarded by deputy sheriffs and special officers. Troop K of the cavalry and Company A were hurried over. Part formed ahead of the car and part behind. A bombardment of stones began, and several officers and men were struck and slightly injured. A volley of shots were fired by the deputies. The crowd fell back and the car proceeded. Chief of Police Rice advised the people to quit the streets, but the crowds were disposed to be insolent. Soon after, a car escorted by cavalry and filled with deputy sheriffs, was stalled in Main street by a mob. Stones crashed through the windows, and a volley was fired by the deputies. Tanner Patterson, 12 years of age, who was in the crowd, fell shot. This staggered the crowd, and the car passed on, badly battered. A doctor said that the boy was critically

injured. While the militia is policing the city, Pawtucket is not under martial law. Tonight Mayor Fitzgerald, who has been away on his wedding trip, returned, and is using his influence with the populace to maintain order. In the presence of about 1,000 persons and the militia, this evening, Adjutant General Sackett read the riot act.

HEARTLESS MASSACRE BY MEXICAN TROOPS

AFTER TWENTY YEARS Over a Hundred Women and Children Shot Down Like Dogs.

> Tucson, Arizona, June 13 .- A prominent Arizona banker, just arrived from Prietas, Sonora, gives details of a massacre of Yaqui Indians, men, women, and children, Tuesday, in Santa Rosa Canyon, 35 miles from the Monas Prietas mines, by a detachment of Gen. Torres' troops.

It appears that the Yaqui forces that were operating in that section had moved further into the mountains. leaving their women and children in Santa Rosa Canyon under a guard of 80 men. The Mexican troops came upon this camp, and without warning opened a terrible fire, sparing neither women nor children. After the first volley the troops charged down upon the panic-stricken victims and massacred all within their reach.

Of the guard of 80 Yaquis, not a single one survived, and more than 100 omen and children fell victims to the Mexican bullets and bayonets. The bodies of the dead were left in the canyon, and the remaining women and children were driven to Monas Prietas by the soldiers and from that point will be taken to Hermosillo.

TRAIN-WRECKERS AR-RESTED. Toronto, June 13. - The youngest would-be train-wreckers ever arrested n Ontario slept Wednesday night at the Children's Shelter. Their names are Wm. and James Reid, of Streetsville, aged 8 and 9 years respectively. They are charged with trying to wreck a C. P. R. passenger train near Streetsville. On Tuesday evening, at a point near Streetsville, where there is an embankment, a rail was found across the track. Fortunately the train was stopped in time to avert an accident. A watch was set, and Wednesday night the little chaps were discovered putting a stone across one of the rails. When arrested and questioned, they said that a man named "Bill," whose other name or place of residence they did no know, had given them a quarter to put the train off, and had helped them to put the rail across the track the night before. They explained in the most innocent way that they wanted to see what the train would look like off the rails. The police are looking for

A MAGIC PILL.-Dyspepsia is a foe with which men are constantly grappling but cannot exterminate. Subdued, and to all appearances vanquished in one, it makes its appearance in another direction. In many the digestive apparatus is as delicate as the mechanism of a watch or scientific instrument, in which even a breath of air will make a variation. With such persons disorders of the stomach ensue from the most trivial causes and cause much suffering. To these Parmelee's Vegetable Pills are recommended as mild and sure.
