[Special to The Advertiser.]

Regina, Sask., June 30.—A cyclone which struck Regina about 5 o'clock this afternoon caused a death list which cannot be calculated now. The financial loss is estimated in the millions.

#### PATH OF THE CYCLONE.

The cyclone came from the south, and swept past the new two million dollar parliament buildings with fearful fury.

This building is of steel and concrete, and while badly shaken, still stands.

It then swept westward six blocks in width, through the fashionable residence district, along Victoria street, cleaning up the district and transferring it into a mass of wreckage.

#### AUTOMOBILES HURLED HIGH IN AIR.

Automobiles filled with people were hurled high in the air, and deposited blocks away.

From Sixteenth to Eleventh streets the cyclone carried death and destruction to 300 houses.

At Eleventh street the business section was reached, and wholesale houses, banks and retail stores were tumbled into heaps of ruins.

The whole air was filled with flying wreckage. Past Eleventh, Albert, Smith, Cornwall, Scarth, Hamilton and Rose streets, the retail district received the severest impact of the cyclone.

#### ELEVATORS TOPPLED OVER.

Then the Canadian Pacific tracks were reached. Six big grain elevators were toppled over on the tracks like top-pins, and grain and timbers were piled high in indescribable confusion on the tracks.

#### LARGEST BUILDINGS UNROOFED.

Crossing the C. P. R. tracks, the wholesale district was directly in the path of the cyclone, and several of the largest buildings were unroofed, heavily-laden floors falling in as the supports were unloosed.

Past the wholesale district the storm continued well into the settled country to the north, and reports coming in tonight indicated that there was no let up to its fury.

Two fires broke out, but fortunately the fire halls were in districts that escaped, and as there was a good pressure of water, the fires were confined to the ruins where they started.

All the power and light wires were rendered useless, and the city is in darkness with no prospect of light tonight. All the possible conveyances were pressed into service to convey the dead to the morgues and the injured to the hospitals. It is impossible at 9 o'clock to make any estimate of the actual loss of life.

#### ANOTHER ACCOUNT.

Regina, Sask., June 30.—With half the business section of the city lying in wreckage, and street after street throughout the southern and central residential portions razed to the ground for blocks at a time, Regina is tonight a city of mourning, where but a few hours ago it was a scene of almost gorgeous display in preparation for the celebration of Dominion Day.

#### FROM GAIETY TO DEATH.

Bunting and flags covered buildings everywhere, and networks of colored electric lights glinting in the sunshine were strung ready for illumination for Dominion Day. In the space of half an hour little was to be seen in many sections but building after building lying in the ruins on the ground, and scattered over the streets, swathed in their shrouds of gayly-colored bunting.

#### ESTIMATES OF LOSS.

Early estimates place the loss at between four and five millions while five hundred killed and injured is only a hazy guess at the casualties. At the present time, no idea can be obtained of the actual number of deaths. Every ambulance in the city has been working since 6 o'clock carrying the bodies to the hospitals, which were filled early in the evening, and to a number of improvised hospitals in some of the larger buildings.

#### Greetings From Montreal

Ontario people ought to flood the city of London on the 1st and uphold the hand of these men if they want their fight to be successful. The cheers of this opening of the campaign will ring through Canada, and give positive force to the cause. Abolish the Bar. Anyway, they will find the speeches well worth hearing. —Montreal Witness.

#### STREET RY. AND CITY ARE AGREED

North End Extension To Be Completed By the First of November.

#### ALL IS PEACE AGAIN

Company To Be Given Permission To Take Up Wellington Street Line and Place It on Richmond Street.

The differences between the city and the London Street Railway Company have been amicably arranged, and as a result, the meeting on Tuesday will be merely a matter of form to finally dispose of the whole question.

There were several informal conferences on Saturday relative to the matter, and the whole proposition was thoroughly discussed. It was arranged that the company would agree to do what the city desires.

It is understood that this will mean that the company will build the north end extension first of all. This has been the crux of the situation, and from the information furnished, the Advertiser, this work will be commenced as early as possible.

The company will be given permission to move the line from Wellington street to Richmond street, and will probably start a law suit, and the work will likely be held up. The company will then be compelled to leave it over until later, in fact it is thought that nothing will be done until next year.

#### New Line by November 1.

The north end extension must be completed, however, by November 1, and the operation, if at all possible, by that time.

The company will have the assistance of the city in the application to the Dominion Railway Commission for a crossing at Adelaide street. The company favor a subway, and information has come to the city that the commission will recommend that construction. The percentage of the cost to be paid by each party will be adjusted by the commission also.

The double tracking of Horton street, the Hamilton road, and York street will be undertaken after the north end line is built. The company expect to rush the work in the north end, in order that it will be completed as early as possible, and then the lines mentioned will be double tracked.

Ald. Blandford Sanguine. "I had a conversation with Mr. T. H. Smallman regarding the matter," said Ald. B. Blandford, chairman of the special railway committee. "We talked the question over informally, and I am positive that they will agree to our terms, which I consider most reasonable. Further than that I cannot say at this moment. We will meet on Tuesday, when the business will be finally disposed of."

Mayor Graham also got in touch with the street railway directors, and the whole situation was thoroughly canvassed. It is understood that his worship and the directors also came to an agreement, practically the same as Ald. Blandford. If the agreement is ratified, as is expected, the council will pass it on Tuesday evening, and the incident will be closed.

#### CONGRESS SETS ASIDE MOTION TO CENSURE

Alleged Boycott of Convention By Bishop Fallon Not Discussed.

Quebec, June 29.—The French language congress today set aside the motion of Paul Ladue, censuring Mr. Fallon, of London, Ont., for not permitting the priests of his diocese to attend the conference.

When the motion came up, Senator Choquette tried to speak to it, but he was prevented from doing so by the president, Mgr. Roy. Senator Choquette at once left the hall as a protest against the ruling of the chair.

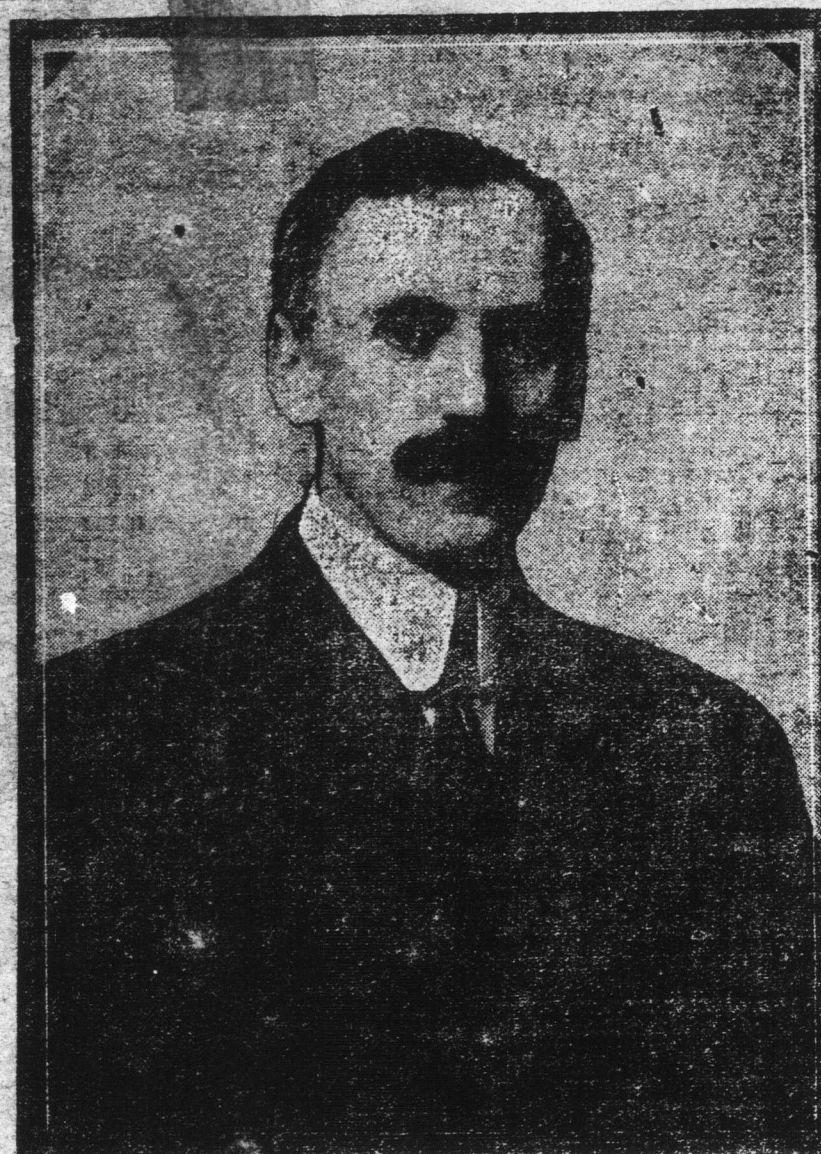

The congress passed resolutions endorsing the recommendations of the committee in regard to the following subjects:

Encouragement of national French language associations in preference to any others; celebration of St. John Baptiste Day in every French-Canadian centre; union of all the French associations of America; encouragement of the study of Canadian history and publication of books on same, and the creation of a permanent committee of the congress.

### BAR MILITATES AGAINST SOCIAL BETTERMENT, SAYS THE LIBERAL LEADER

Mr. Newton W. Rowell Tells Why He Places Its Abolition in the Leading Planks of His Platform.

### IMPORTANT THINGS TO BE SAID TO THE WORKINGMEN OF LONDON

Head of the Ontario Opposition Will Deal With Workmen's Compensation and the Control of Corporations—Premier's Attitude Towards the Western University.

So long as the open bar continues it severely militates against all efforts at social betterment.—N. W. Rowell.

Mr. N. W. Rowell arrived in the city late last Saturday evening prepared to begin his great battle for social reform. The young leader was in fine fettle when seen by The Advertiser Saturday night, and expressed much gratification at the assurances of support, which are pouring in from all over Ontario. While the abolish-the-bar slogan will be the rallying cry of the campaign, Mr. Rowell will have many other worthy issues to present to the people of Ontario, notably measures dealing with the welfare of workmen and taxation reform.

"The underlying principle of Liberalism, as I understand it, is to secure for every man equal opportunity," said Mr. Rowell. "In the past that has involved struggles for great constitutional reforms in order to secure the right of the people to govern themselves. In the future it involves great measures of social reform so as to better the moral, social and industrial condition of the masses of the people. It is my intention to press upon the attention of the people of this province the urgent need of imperative measures of social reform, and in this programme I have put first the abolition of the bar. So long as the bar continues it seriously militates against all other efforts at social reform."

In addition to his remarks on the bar question, Mr. Rowell announced that he should have a good deal to say about things of paramount importance to the workingman. Among others he mentioned workmen's compensation, and the control of corporations.

"I am in hearty sympathy with the 'Stay in Ontario' movement," said Mr. Rowell. "I think the matter of keeping our farm population at home is a most important one. I have said publicly that I believe the farmer can do as well for himself here in Ontario, as in part of the Dominion."

The Western University. Asked as to his view of the attitude of the Government toward Western University, the Liberal leader said: "There is no excuse for the manner in which the department of education has dealt with this question. The status of the university should be clearly defined. No uncertainty should exist as to the qualifications of its graduates. When the question of money for the hygiene institute was before the House I inquired whether it was intended in the interest of the university, or entirely apart from it. Mr. Beckett said it was. Mr. White said it was not. My position was that the Government should say exactly for what purpose this money was intended in order that the people might not be voting under a misapprehension. So far it has been impossible to obtain any statement concerning the Government's attitude toward the London school."

Strong for Temperance. Returning to his temperance policy, Mr. Rowell announced that reports from all sections showed the utmost enthusiasm for the cause. "Not in many years," he said, "has Ontario Liberalism been so active and confident. Conservatives, as well as Liberals have assured me of their support in this campaign against the bar."

Warning From the United States. After discussing the issues in Ontario, Mr. Rowell glanced at the political situation in the United States, which in his opinion is fraught with a great lesson for Canadians.

"The most significant factor in the whole situation," he said, "is the evidence afforded at both conventions of that social unrest which is rousing the people of both parties against what they look upon as domination of the moneyed interests."

"We should remember that as our country continues to grow and develop we shall ultimately face the same conditions in Canada. The only remedy lies in legislation which shall put corporate wealth under proper restraint now before the struggle has reached the acute stage manifested by conditions in the republic."

More Meetings. Mr. Rowell announced that his opening address would be followed by another in Belleville. At the end of July he will start north and make a tour through Northern Ontario for the purpose of getting in touch with the needs of the newer parts of the province.

### DEMOCRATS TAKE 26 BALLOTS WITHOUT SELECTING CANDIDATE

Woodrow Wilson Makes Notable Gains While Clark Drops Back—Bryan Spurns Tammany and Throws the Convention Into an Uproar.

Convention Hall, Baltimore, June 29.—The Democratic national convention at 11 o'clock tonight adjourned until 11 o'clock Monday morning. The convention had cast 26 ballots in a vain effort to choose a presidential nominee.

The motion to adjourn was made by Delegate A. Mitchell Palmer, of Pennsylvania, a Wilson supporter.

Palmer's motion followed close on the heels of an announcement that Speaker Clark had left Washington for Baltimore.

The standing of the candidates on the 26th ballot was:

Clark	463½	Foss	43
Wilson	407½	Harmon	39
Underwood	112½	Bryan	1
Marshall	30	Absent	1½

Harmon Re-Enters. Clark continued to lose strength on the 26th ballot, though few of those who deserted him went to Wilson.

Harmon re-entered the race with 29 votes from Ohio. Wilson also took the two in Massachusetts which had been going for Clark. The result was: Clark 469, Wilson 405, Underwood 108, Foss 43, Marshall 30, Harmon 29, Ollie James 3, Bryan 1.

Before the 22nd ballot the Clark forces asked for a recess. The Wilson men objected and demanded a roll-call, which was ordered.

The result as first announced showed the motion carried, but on a recapitulation ordered by Chairman Jones, the result was shown to be 547 against to 629½ for. The convention, therefore, proceeded at once with the roll-call on the 22nd ballot.

The first surprise of the ballot was the switch of 34 votes to Foss. The remaining two were for Clark. Harmon's vote in Ohio left him, 28½ going to Clark and ½ to Wilson.

Clark Leaves for Baltimore. Washington, June 29.—Speaker Clark left Washington suddenly for Baltimore tonight.

Baltimore tonight. Speaker Clark left at 10:15. The

## FOREIGN STUDENTS GET ADVERTISER'S BOOK

Advertiser's Dictionary Aids Many Embryo Citizens.

Almost as noticeable as the high class of business and professional men who are taking advantage of The Advertiser's generous offer of Webster's New Illustrated Dictionary for six coupons clipped from consecutive issues of this paper, as a distinguishing feature of the steady stream of persons carrying away books in great quantities from the Dictionary Department, is the number of foreign residents who are anxious to get the book. This is the book that will aid foreigners in learning the language of the country of their choice. In this "melting pot" the dictionaries are destined to play no small part in making Canadians of the strangers within our gates.

Of course, most of the foreigners can speak and write the language to a considerable degree before feeling the need of an English dictionary, but the many pictures, colored charts and simply worded explanations and definitions of the New Webster's are a great aid in making progress in a language which is said to be most difficult to comprehend.

## COPPERS AND COUPONS FOR COVETED COPIES.

If you have ever noticed the industrious foreign-born boys plodding through their lesson books and acquiring by constant effort a knowledge of English you will realize how much in earnest the foreigners, young and old, are who are invading the Dictionary Department and exchanging their coppers and coupons for coveted copies of the book which they know means much to them.

One visitor secured two dictionaries, after refusing to examine them, saying:

"They must be all right, because The Advertiser says they are. You say that the book looks like a Bible, but I want to tell you that the Advertiser has better be a Bible in our family. I have read your paper all my life."

Among the striking illustrations in the dictionary are:

Dogs, Paris fashions, Races of mankind, Birds, Cattle, Flags of all Nations, Fowls, Fruits and their Blooms, Precious gems.

#### DEMOCRATS TAKE 26

Continued from Page One.

Clark, announced that he would not vote for him again while New York was included in the Clark column. He changed his vote to Woodrow Wilson, and he declared that he would change again if "Mr. Murphy" and "the Ryan-Belmont-Morgan crowd" should vote for Wilson.

Bryan was assailed from the floor by many delegates who demanded that his speech be stopped, and by other who demanded to know if he would support the nominee. Bryan said he expected to do so, but he also expected the convention to nominate a man without the support of the interests.

Bryan Pale.

Bryan was pale and haggard as he stood on the platform facing the tumult before the convention. He bowed low to the crowd, and then he turned and from time to time mopped the dripping perspiration from his forehead. With one hand he held the iron railing in front of him, and with the other he nervously wiped a big palm leaf fan. When he spoke he had a defiant gleam in his eye. His voice was husky. Occasionally he was in the hold of the iron railing to shake a warning finger at the delegates.

Bryan held the stage for nearly an hour. It was thought that his last stand before the convention, he declared that if the right man was nominated he would introduce a resolution authorizing the candidate to appoint his own campaign committee and not be handicapped because of a national committee on which "the interests" were represented.

Bryan's sensational move interrupted the fourteenth ballot, and seemed in the opinion of "most of the leaders" to finally dispose of the Nebraska as a possible candidate. The antagonism to him was intensified.

Mr. Bryan rose in his chair in the Nebraska delegation as the poll was ordered. He was interrupted by "Vote, vote," as he asked to explain his vote. Acting Chairman Palmer ruled that nothing was in order but the actual vote. Bryan persisted in explaining, and amid shouts of "Vote, vote."

Bryan said: "As long as New York's votes are cast for Clark, I withhold my vote from him. The convention was in an uproar."

Senator Stone, of Missouri, shouted above the din, pleading with delegates and galleries to listen to Bryan.

Bryan remained mounted on his chair. Senator Stone made his way to the platform to ask for time for Mr. Bryan to explain his vote. Above the din a motion granting unanimous consent to speak was declared carried and the convention proceeded to the platform while cheers and shouts of derision mingled.

Confusion Reigns.

Great confusion continued as Bryan motioned to the crowd for quiet. He spoke deliberately, explaining in detail his vote, amid an impressive silence. Bryan read from a prepared statement.

he said Nebraska had always been a progressive state.

In this convention, he said, the progressive sentiment was overwhelming, and no candidate would have a chance if known not to be progressive. The resolution adopted against any candidate subservient to Morgan, Ryan and Belmont showed the desires of the convention, Mr. Bryan said.

The vote of New York represented the wish of one man, Charles F. Murphy, declared Bryan, and he represented the same interests that sought to dominate the Chicago convention. He and his associates of the Nebraska delegation, he said, were unwilling to accept the names of any man who was receiving the benefit of Murphy's leadership.

Shouts of approval constantly interrupted Bryan with occasional parliamentary protests, but he pushed on. "I shall not be a party," declared Mr. Bryan, "to the nomination of any man who will not be absolutely free to carry out the anti-Morgan, Ryan, Belmont resolution, and make his administration reflect government of, for and by the people. I shall withhold my vote from Mr. Clark as long as New York votes for him."

Will He Stay Regular?

Gov. McCordle, of West Virginia, interrupted Bryan to ask: "If the choice of a Democratic candidate is made with the vote of New York will you then support the candidate?"

As Bryan began to answer, a delegate shouted: "Are you a Democrat?"

This nettled the commoner, and he shouted: "If that man will give you his name I will record it beside that of Messrs. Morgan, Belmont and Ryan."

Answering Gov. McCordle, Mr. Bryan said it was a different thing to oppose a man in a convention and oppose him after a convention. Nothing, he said, would justify the supposition that he would not support the nominee.
