### Joseph A. Keir

Joseph Anderson Keir died at his home here Monday, Apr. 4th, a few days after his return from Florida where he with his wife had been spending the winter months. Deceased was born in Scotland 88 years ago, coming to Canada over 50 years ago. He entered the employ of the old Great Western Railway Co. as agent at Niagara Falls which position he faithfully held for a great number of years, being transferred later to St. Marys from which place he retired from active work. About 2 years ago he moved to Waterdown, making it a summer home and spending the winters in the South.

The funeral took place on Wednesday, April 6th from his late residence here to Niagara Falls for interment. Rev. J. F. Wedderburn officiated at the home and at Niagara Falls assisted by Rev. C. L. Poole at the home. The pallbearers were Geo. Horning, A. Hemingway, Robert Spence, W. Griffin, Geo. Rohr and J. C. Medlar.

### Notice to Creditors

In the Matter of the Estate of James Edward Eager, late of the Village of Waterdown in the County of Wentworth, Merchant, deceased.

NOTICE is hereby given pursuant to the provisions of the Trustee Act and all Statutes applicable thereto, that all parties having claims against the Estate of James Edward Eager late of the Village of Waterdown in the County of Wentworth, deceased, who died on or about the Third day of January A. D. 1921, at Waterdown, in the County of Wentworth, are requested to send by post, prepaid or delivered to the undersigned, Solicitor for the Toronto General Trusts Corporation, Limited, the Executor of the Estate of the deceased, on or before the 21st day of May A. D. 1921 their names, addresses and descriptions and a full statement of the particulars of their claims and the nature of the securities, if any, held by them duly verified.

And further take notice, that after the last mentioned date, the said Executor will proceed to distribute the assets of the Estate of the said deceased among the parties entitled thereto, having regard only to claims of which it shall then have had notice and that it will not be liable for the assets so distributed or any part thereof to any person of whose claim it shall not then have received notice.

W. T. EVANS  
 Solicitor for the Executor.  
 Dated at Hamilton this 7th day of Apr. 1921

### Notice to Creditors

In the Matter of the Estate of Sarah Ann Langton late of the Village of Waterdown in the County of Wentworth, Spinister, deceased.

NOTICE is hereby given that all persons having claims against the Estate of Sarah Ann Langton late of the Village of Waterdown in the County of Wentworth, deceased, who died on or about the Seventh day of March A. D. 1921 at Waterdown in the County of Wentworth, are requested to send to the undersigned Solicitor for the Administrator on or before the 2nd day of May A. D. 1921 the particulars of their claims duly verified.

And further take notice that after the last mentioned date the said Administrator will proceed to distribute the assets of the said Estate having regard only to claims of which he shall then have had notice and that he will not be liable to any person of whose claim he shall not then have received notice.

W. T. EVANS  
 Solicitor for the Administrator Reginald Langton.  
 Dated at Hamilton this 12th day of April, 1921.

### Carey-Cummins Wedding

The home of Mr. and Mrs. Edgar Carey, Millgrove, was the scene of a very pretty wedding on Wednesday April the 6th, when their daughter Leta Marie, was united in the holy bonds of matrimony to Mr. Cecil H. Cummins, son of Mrs. Lillie Cummins, also of Millgrove. Rev. C. R. Albright conducted the ceremony.

Promptly at three o'clock the bride who was prettily attired in a white satin dress with embroidered net trimmings and carrying a beautiful bouquet of white roses entered the drawing room on the arm of her father to the strains of the wedding march played by Mrs. John Drummond, sister of the bride. During the signing of the register Miss Vivian Smith, of Hamilton, very sweetly sang "Because."

After the usual congratulations the guests numbering about thirty adjourned to the dining room which looked very inviting with its decorations of pink and white where many good things were partaken of. The special feature being the bride's and groom's cakes iced by the bride's mother.

The groom's gift to the bride was a dinner set of limoges china, to the soloist a white ivory photo frame, and to the pianist a parasol. The happy young couple left on the evening train amid showers of confetti and good wishes for St. Thomas, London and other points west, the bride travelling in a brown satin dress, fawn coat and large black picture hat trimmed with French flowers.

On their return they will reside in Millgrove. The beautiful gifts show the high esteem in which the young couple are held. Guests were present from Hamilton, Brantford Waterdown and immediate vicinity.

### W. A. A. Items

The Bean guessing contest is drawing to a close. Those who have not had a guess better get in at once as the contest closes Friday night.

A matched game of baseball will be played on Saturday between the senior and junior teams. All players are requested to be on hand a 3 p. m.

The Doormats of the Hamilton Y. M. C. A. basket ball team will be out again Friday night to try and make it three straight for them. Our boys say "It can't be did."

### Village Council Meeting

The village council met Monday evening at 8 o'clock, the Reeve and all members present. The minutes of the previous meeting were read and adopted.

Communications were read from the Ontario Municipal Electric Association and one from the Ontario Municipal Association. One from the secretary of the High School Board re probable receipts and expenditures for 1921. One from O. Elliott of the Treasury Department Toronto on Pool and Billiard Room licenses, and one from the Toronto General Trusts Corporation.

On motion of councillors Crooker and Atkins the council sent the usual membership fee of \$10 to the Hydro-Electric Railway Association for 1921.

On motion of councillors Atkins and Dougherty the council placed itself on record as opposing the recommendation re the proposed tax on power users of \$2 per horse-power.

The following bills and accounts were passed and ordered paid.

R. C. Griffin, salary as collector of taxes for 1920, \$85, postage \$3.

B. Batchelor for material for fumigating, \$8.75.

G. Johnstone for teaming gravel and stone, \$10.

F. Johnstone for stone and teaming, \$1.50.

Waterdown Review for printing Financial Statements, \$27.50.

John Smiley for corporation work \$9.45.

Hydro-Electric Railway Association for membership fee \$10.

HYDRO-ACCOUNTS  
 Hydro-Electric Power Commission of Ontario, power bill for February \$202.28.

J. C. Langford for trip with auto to Burlington, \$2.50.

H. Nicol for Hydro work, \$16.50.

On motion the council adjourned to Monday, May 9th, 1921, or at the call of the Reeve.

J. C. MEDLAR,  
 Village Clerk.

CARD OF THANKS

Mrs. E. Blagden wishes to thank the Women's Institute and the Kings Daughters for their kindness in sending flowers during her recent illness.

The W. M. S. of the Methodist church desire to thank the men's choir for their services, and Mr. Sawell for flowers, at the W. M. S. services Sunday evening.

## \$5 for a Name

The person sending in the most suitable name for the new Waterdown Bus will receive \$5 in bus tickets. Names to be handed in at Review Office not later than Saturday noon April 23. Three prominent citizens will act as judges.

**A. E. MORDEN**

# The Sunday School Lesson

Lesson III. APRIL 17.  
**SIBLE TEACHINGS ABOUT WORK**  
 Lesson—Mark 6: 1-3; John 5: 17: 2  
 Thess. 3: 6-13.

Golden Text.—"In diligence not slothful; fervent in spirit; serving the Lord" (Rom. 12: 11).

The Lesson Text.

Mark 6: 1. And he went out from thence; and he cometh into his own country; and his disciples follow him.  
 2. And when the sabbath was come, he began to teach in the synagogue; and many hearing him were astonished, saying, Whence hath this man these things? and, What is the wisdom that is given unto this man, and what mean such mighty works wrought by his hands?

3. Is not this the carpenter, the son of Mary, and brother of James and Joses, and Judas, and Simon? and are not his sisters here with us? And they were offended in him.

John 5: 17. But Jesus answered them, My Father worketh even until now, and I work.

2 Thess. 3: 6. Now we command you, brethren, in the name of our Lord Jesus Christ, that ye withdraw yourselves from every brother that walketh disorderly, and not after the tradition which they received of us.

7. For yourselves know how ye ought to imitate us: for we behaved not ourselves disorderly among you; 8. neither did we eat bread for nought at any man's hand, but in labor and travail, working night and day, that we might not burden any of you;

9. not because we have not the right, but to make ourselves an example unto you, that ye should imitate us.

10. For even when we were with you, this we commanded you, if any will not work, neither let him eat.

12. Now them that are such as command and exhort in the Lord Jesus Christ, that with quietness they work, and eat their own bread.

13. But ye, brethren, be not weary in doing.

### Comments

Mark 6: 1. During the winter of A. D. 28 or 29 Jesus was in Capernaum. In this lesson, after raising the daughter of Jairus, he left Capernaum and came "into his own country" to Nazareth. This had been the home of His childhood, youth and early manhood, and the scene of His young manhood activities. He worked at the carpenter's bench with Joseph, and filled a useful place in the community. The distance of Nazareth was a walking journey of about seven hours.

Verse 2. The Sabbath, or seventh day, our Saturday, was the principal day of public worship and teaching. The synagogue was the Jewish place of public worship. He was given the roll, and after reading the lesson sat down to explain its passages. They had known Him all of His life, and were astonished. How could a carpenter be gifted with such wisdom?

Verse 3. Joseph, the husband of Mary, had evidently been married before, and those mentioned here were doubtless his sons by this former marriage. They were envious because of His superior wisdom.

John 5: 17. This passage from John is placed here by the lesson committee to show that Christ was a worker. The works described here were works of healing in which Jesus sought to relieve people from their sufferings.

2 Thess. 3: 6. Paul's second letter to the Thessalonians was written toward the close of his second missionary journey, and probably in 51 A. D. It was during his stay in Corinth when persecution was raging. Paul would have the Thessalonians to feel that whether Christ's second coming were almost upon them or a long way distant, "they were to make ready for it, not by feverish excitement and restlessness, but by the quiet, steady performance of every-day duty." What Paul condemned in this verse 5 was idleness. To withdraw means to avoid the companionship.

Verse 7, 8. Paul set the example of laborious working for his own maintenance.

Verses 9, 10. All men, rich or poor,

should be engaged in a useful calling.

Verse 11. Busybodies are those who take so much interest in other people's business that they have no time for their own.

Verse 12. The apostle considered that he had the authority of Christ for commanding people to earn their own bread.

Verse 13. Do not become tired of a work that is useful and necessary.

### Illustrated Truth.

Man's work serves the double purpose of earning his right to live and to keeping his powers alive (2 Thess. 3: 10).

Illustration.—Botanists tell us of a leafless vine known as the "dodder." It is a parasite by nature, for though it starts out with roots, it attaches itself to some other plant and begins to feed upon it. Its own roots, having ceased to perform their intended function, decay. The drain upon the plant to which it has attached itself soon causes this plant to wither away and die. It is the same with the parasite in society and in the church. He is useless, but he is not harmless. He weakens those who must do double duty to support him.

Topics for Research and Discussion.

1. Jesus Showed His Wisdom by His Works (Mark 6: 1-3). 1. Where did Jesus spend the years 28 and 29. A. D.? 2. What was Jesus' "own country"? 3. What evidences have we as to Jesus' educational training? 4. How did He spend His childhood and youth? 5. Is it a matter of surprise that the associates of Jesus did not recognize Him for what He was?

II. He Practiced What He Preached (John 5: 17). 6. Suppose Jesus were here today with His deeds and doctrine, how would He be received? 7. Does present-day society really want Christianity?

III. His Example Was Followed by Others (2 Thess. 3: 6-13). 8. Does verse 6 teach expulsion from church membership? 9. What was Paul's attitude toward the second coming? 10. Summarize the practical teaching of verses 9 to 13.

### SOWING GOOD CLEAN SEED PAYS IN RESULTS

NET PROFITS FROM SAME AREA INCREASES BY PLANTING ONLY BEST SEED.

Increasing the acreage of crops grown on the farm does not always mean greater net profits. The latter, per acre, are very frequently quite small. If the yield, per acre, can be increased without raising the cost of production the increase in yield will all go towards increasing the net profits. Let us assume that a farmer's wheat crop yields 24 bushels per acre, and that it takes 20 of the 24 bushels per acre to pay rent or interest on capital invested, and the cost of preparing the land, seed, harvesting, threshing, etc. This would leave 4 bushels from each acre as the net profit.

On a large proportion of Canadian farms uncleaned or improperly cleaned seed is sown. There is no excuse for sowing so much dirty and poorly graded seed. The fanning and grading can be done in the slack time and well ahead of the busy spring seeding. This grading would not add to the cost of producing of the crop and the larger yield secured would substantially increase or, in many instances, double the net profit. Experiments conducted with oats at Guelph over a period of seven years showed the following results:

Large seed ..... 62 bush. per acre  
 Medium seed ..... 54 " " " "  
 Small seed ..... 47 " " " "

Similar experiments with wheat, barley, rye and peas gave much the same results in each case. The small, shrunken and split kernels are much more valuable for feed than for seed. Another great advantage obtained by fanning and grading the grain for seed is that weed seeds are cleaned out. One way to prevent having weedy crops is to sow seed grain free from weed seeds. One weed seed sown may mean thousands of weed seeds produced in the next crop. Many of our worst weeds produce thousands of seeds per plant.

The British Government has established a canning school for the instruction of students and housewives respecting fruit and vegetable domestic science. Instruction is given in vegetable preservation, fruit canning, drying and crystallizing, and jam, marmalade, and jelly making.

Borrowell—Old Tightwad is a paradox. Hardruppe—in what way? Borrowell—He's so close you can't touch him.

## WHAT THE BOY SCOUTS ARE DOING

A presentation of colors marked a recent meeting of the 59th Toronto Troop—Toronto's first Troop of Jewish boys. Rabbi Brickner in an address said that under no other flag had the Jews enjoyed more justice and equity than under the Union Jack and he asked the Scouts to dedicate their lives to the ideals for which that flag stands.

The First Cochrane Troop had their third camp since last fall at Clute during Easter week. These boys, whose headquarters is almost the "farthest north" in Ontario, have no fears for the cold weather, snow and ice. They are also quite proud of the fact that the Rt. Hon. Lord Desborough, K.C.V.O. has just recently consented to be their Honorary Scoutmaster.

London is coming into its own once more as far as Scouting is concerned. During the past few months three new Troops have been formed in connection with different churches there a general revival of interest in Scout work is being felt throughout the whole city.

At his special request His Excellency the Duke of Devonshire, Chief Scout for Canada, had an opportunity to meet Fort William and Port Arthur Scouts at the former city on Tuesday evening, March 29th. There are now four very much alive Troops in the Twin Cities and three Wolf Cub Packs. The new Commissioner, Rev. H. A. Sims, is planning the formation of a District Scout Council.

Professor John A. Stiles, Assistant Chief Commissioner for Canada, addressed the Scoutmasters' Training Class of Hamilton on "The Patrol System", on Thursday, March 24th. This week he will speak on a similar subject at the Ottawa Scout Officers' Training School.

### SHE'S "AT IT," MEN!

Our wives and sisters and daughters will soon be "at it," if they are not already "at it."

By "at it" we mean, of course, housecleaning. It is vain to admit that the masculine gender loves the neutral gender of a house torn and twisted. It is almost too much to admit that the masculine gender loves the feminine gender attired in a frowzy old cap and seen through a mist of dust.

But it has to be endured and those of us who can make our hearts work under such circumstances should be sympathetic to the female of the species in this ordeal of hers. It isn't easy work, and no matter how the male person himself may feel about it at the end of an imperfect day it's pretty safe to say that she seeks her pillow with tired limbs and aching muscles. Don't make her slumbers worse by tantalizing her with your own crochety remarks about the inconveniences her poor, doleful husband suffers.

Woman is instinctively an artist, be

On Good Friday morning the 10th Hamilton Troop of Boy Scouts were hiking around Mount Albion. Scoutmaster Wallace sent the boys in different directions to locate a camping ground where a good supply of water could be had. Instead of a good water supply, however, Scout Stanley Carter discovered an illicit whiskey still and a plentiful supply of its product. He immediately reported his discovery of its product. He immediately reported his discovery to the Scoutmaster who at once got into touch with Chief of Police Clark, of Dundas, with the result that George Dazuck was arrested and on the following Monday fined \$500 by Magistrate Vance. The 10th Troop is one of Hamilton's west. It is connected with the Calvin Presbyterian Church.

One of the best Scout entertainments and demonstrations of the winter season was given recently by the troop of St. James Methodist Church, Peterboro. Besides a rather better than usual array of entertainment features, the boys demonstrated the work covered by the following proficiency badges; Signaller, Musician, Cyclist, Rescuer, Ambulance, Fireman and Marksman. A short sketch entitled "The Tramp" also provided the boys with an opportunity to show the advantages of some of their training to their parents and friends.

Cochrane Scouts held their third winter camp Easter week-end at Jacksonboro. The weather was cold and as there was still plenty of snow the boys had some good sport snowshoeing and tracking. The Cochrane Town Council has officially recognized the work of the Cochrane Scouts and has appointed two of its members as a special Troop Committee to see that the Troop's needs are properly taken care of.

### NEW POLITICAL PARTY

Steps will be taken shortly to form a new Labor political party in London, which will include unorganized labor as well as organized labor. The Labor representation committee and the Independent Labor party are the two political Labor parties in the city at the present time.

It is stated that a mass meeting of workers will be called shortly for this purpose when the matter will be thoroughly discussed.

## YOUR CHILD

A Department For Farm Mothers.

### Ask the Doctor.

If there is anything wrong with you at all, especially headache, dimness of sight, swelling of the legs and feet, or nausea scanty urine or any other trouble ask the doctor about it at once. It is easy to cure him in the beginning but often hard in the end. And there is always something the doctor can do to make you better. That is what a doctor is for. Perhaps one of the first changes you will notice is that on rising in the morning you have a feeling of nausea. This is called "morning sickness." You may never have it at all and it will pass off very soon and may not amount to anything. But if you happen to have it you will know what to do tomorrow morning.

Leave everything ready the night before for a cup of tea and a bit of toast or a biscuit or a bit of bread and butter and ask your husband to put on the kettle and make you a cup of tea first thing in the morning. Take it as soon as he brings it and then lie still for ten or twenty minutes. You will be all right. Your stomach is a little upset by the new state of affairs, but if you give it the tea and toast to work on it will take the hint and "carry on" again. You get up feeling quite comfortable and enjoy your breakfast. If this plan does not cure you, ask the doctor.

You ought also to see your dentist, for sometimes the mother's teeth need special attention and the sooner you go and have your teeth attended to the better. A little hole does not cost much to fill if you go at once.

If at any time you have any pain or have any trouble of any kind, go to bed, keep quiet, and send for the doctor at once. This is very important. You may not think much of the trouble, but you do not know. The doctor is the only one who knows whether it is dangerous or not and so the doctor must be had at once.

### FIGHT WEEDS WITH PROFITABLE CROPS

#### ONE FARMER'S SUCCESS IS CLEANING FIELD SHOWS WHAT CAN BE DONE.

Why should human labor be wasted in fighting weeds? With an ordinary single-furrow walking plow, turning a 12-inch furrow, a man will walk over 10 miles in plowing an acre once over. Add to this the walking necessary for harrowing, cross harrowing and cultivating, and then calculate how much has been wasted when the yield is only half or two thirds as large as it would have been had it not been choked by weeds. This will give some idea of the cost of weeds to the farmer. Many weeds are able to survive the ordinary cultivation given in preparing the seed bed. These veteran weeds are among the worst enemies the farmer has to fight. Quack or couch grass stands out very prominently in this class.

Weeds of this kind should be fought with profitable crops. This has been done on many of the farms in Dundas county where the Commission of Conservation is conducting illustration work. One field of seven acres which was badly infested by quack grass was plowed in the autumn of 1915 and in the spring of 1920 was thoroughly cultivated frequently to keep it from showing green until well into June, when it was sown to buckwheat at about double the amount per acre as is sown on clean land when a grain crop is the sole end in view. The farmer conducting this work reports his results as follows: "The buckwheat grew so rank and heavy that we had to let it get dead ripe before we could cut it with the binder. We threshed 40 bushels to the acre in spite of the fact that some shelled on the ground. There is not a spear of quack to be seen this fall. The soil is very mellow and we have cultivated it two or three times since harvest. We intend to sow grain on it in the spring and seed it to alfalfa as the field is naturally well drained and is now in good condition."

No surgical operation is necessary in removing corns in Holloway's Corn Remover be used.

**THE WATERDOWN REVIEW**

Issued every Friday morning from the office, Dundas Street, Waterdown. Subscription \$2.00 per year. Papers to the United States, 50 cents extra. Advertising rates furnished on application. G. H. GREENE, Editor and Publisher. Member C. W. N. A.

## OUR BOYS' AND GIRLS' CORNER

By Aunt June

DEDICATED TO EVERY BOY AND GIRL IN CANADA

My Dear Boys and Girls—Loving thanks and greetings to all who sent me good wishes for Easter.

I hope all our members had a happy holiday.

### OUR MAIL BAG.

I am pleased to welcome eight new members this week. There would have been two more only they forgot to send stamps with their letter for the badge. Try and remember to do this all of you as I like to send you a badge as soon as you write me.

Dear Aunt June—I have been reading your Boys' and Girls' corner and would like very much to join your club. Please send me a badge. I am about 15 rods from school and some of the things I do are: Sometimes I wash the dishes before I go to school, I feed the chickens and horses, clean out the chicken house and stable. Hoping to have my letter in print. I have signed the pledge so I will close.—Herbon Crew.

Dear Herbon—I wonder if you wanted to make your Aunt June very curious by typewriting a letter to her I am wondering very much what sort of a typewriter you used and when you learned to use it. You did your letter very nicely. I am pleased to send you a badge and welcome you as a member of the Helpers' League of Service.

Dear Aunt June—I have been reading the Boys' and Girls' corner and think it fine. Each morning when papa is getting up he calls me and I get up when the fire is put on. I sweep the floor and pile the dishes than I iron if there is any ironing to be done or work at other jobs. I go to Kimberley on errands (one mile from here). School is closed with measles now. As the houses are quarantined the children cannot come to S. S. so being as I have had the measles I take them the S. S. papers. I would like to get a badge so I am enclosing a stamp. I go to school every day and get along good. I have a book for being ahead of my class all year. Good-bye Aunt June, with love from

Dear Kathleen—How very busy you must be taking the S. S. papers round to the other children. I am sorry to read of them all having the measles and I do hope that you will all be able to go back to school again very soon. I think it splendid for you to be top of your class all the year and hope you keep there this year. I am sending you a badge and hope you will always wear it. Write to me again soon and let me know when you go back to school and how you are getting along.

Dear Aunt June—I would like to be a member of your club. I am ten years old and I am in the junior third class at school. I have a little brother who will be 2 years old in April. I wash the dishes and make the beds, sweep and dust and look after my little brother and I do a few other things. Wishing the club the best of success.

Dear Ethel—What very pretty pa-

### PLEDGE FOR HELPERS.

"Do a little kindness to someone every day, Scatter rays of sunshine all along the way."

I pledge myself in the service of my King and Country to do my best in my daily work, whenever it may be, to help others whenever possible, and to endeavor in every way to make myself a good citizen.

Name.....

Age.....

Address.....

Date.....

per you wrote your letter on. Did you get it for Xmas? I am sending you a badge and am glad to welcome you as a new member of the club. I hope your little brother keeps well as I am sure you must be able to play lots of games with him.

Spruce Grove, Alta.

Dear Aunt June—I have been reading the Boys' and Girls' corner every week for quite a while so I decided to join too. I have signed the pledge and hope to receive a badge soon. I passed my exams last June when I was thirteen and now I am fourteen I don't go to school any more. As it is winter we don't do much. I get up every morning and feed the stock before breakfast and while my father milks after breakfast I help to clean out the stable and haul straw. At night my little brother (who is ten) helps me feed them. I worked all summer on our summer-fallow and plowed in the fall. I have four sisters and three brothers that have left home already so my little brother and I are alone on the farm with our father and mother. Wishing your club every success.

### BILLY BOY.

Dear Billy Boy—Thank you for your very interesting letter. You are indeed a busy helper and I very glad to be able to send you a badge and count you a member of the League. I hope you get a very good summer this year and are able to work again on the summer fallow. Write and let me know how you get along on the farm this year will you? I wonder if the little brother would like to join the League too. I feel sure he will help you and father and mother and could become a member.

Caldwells Mill.

Dear Aunt June—I would like to join your club. I always read the letters the boys and girls write. They are very interesting. I am eleven years old and am in the senior second class. I like my teacher fine. I have a brother and sister. They are twins, Clarence and Gladys are their names. Clarence has long curly hair and Gladys has dark straight hair. For pets we have three cats and a Boston bulldog. He is a good watchdog. Our hens are laying pretty good and we are milking four cows. I always help to milk in the summer time gather the eggs, help to look after the chickens. I always wash the dishes and carry in the wood. I sweep the floor and help to make the meals. I am very fond of

horses and cattle. I like to get to the farm to help my father with the chores but mother always says I must learn housework first so I will be a first-class housekeeper. I think I have written a long letter. Hoping to see it in print.

VIERNA M. CURRIE.

Dear Verna—What a busy little Helper you are to be sure. I am glad to send you a badge and hope you will like it. I quite agree with mother that it is nice to be able to do all kinds of house work, but I used to feel like you do about being able to get to the farm where the horses and cattle are. I am especially fond of horses and dogs and am so sorry that I cannot have either in the city. I wonder if you can bake any cakes yet or what sewing you do. I should like to get another letter from you some time telling me of these things. Thank you for the signed pledge.

Freeman.

Dear Aunt June—I have been reading your Boys' and Girls' corner for some time and enjoy reading it. I go to school every day and am in the junior fourth book. I help mother do dishes and bake cakes and cookies and do some outside chores besides. I have a pen of White Leghorns. They laid twenty-five eggs today. I took a pair to school fair and got a prize. I would like to correspond with any girl my own age, twelve.

### FUDGE.

Dear Fudge—I should like very much to send you a badge but you forgot to send the three-cent stamp. If you will send it along I will send you a badge. What a splendid lot of hens you have. I hope you get another prize for them at the next fair. You must be sure to write and let me know.

Will a Helper of Fudge's own age please write to her, and address the letter to Miss Winifred Watson, Freeman, R. R. No. 1, Ontario.

Dear Aunt June—I like reading the letters very much. I go to school every day. I help daddy with the chores and help mother in the house. I would like to correspond with someone of my own age, ten.

### BUBBLES.

Dear Bubbles—You also forgot to send a stamp but if Fudge sends one I will send you both a badge.

Will a Helper of ten please write to Bubbles and address her care of Miss Winifred Watson, as above.

Now we shall have to save all other letters for next week. If you do not see yours on the page look again. Everyone will be answered in time. Yours lovingly,

AUNT JUNE.

## TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bisurated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of peppin pills or artificial digestants.

Get a few ounces of Bisurated Magnesia any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and in the bisurated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

Attacked by Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy is very grateful. Its help is quick, apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Minard's Liniment Relieves Neuralgia

Since the flight of William Hohenzollern into Holland, he has received more than \$25,000,000 in salary as King of Prussia.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Terminator.

## PIMPLES ITCHED AND BURNED

Face Was Badly Disfigured. Cuticura Soap and Ointment Healed.

"Small red pimples and black-heads began on my face and my face was badly disfigured. Some of the pimples feasted while others scaled over and there were places where the pimples were in blotches. They used to itch and burn terribly. I saw an advertisement for Cuticura and I tried them. They stopped the itching and burning and I used four cakes of Soap and three boxes of Ointment which healed me." (Signed) Miles V. A. Hayne, Clorment, N. C., Dec. 26, '16.

Soap 25c, Ointment 25 and 50c. Sold throughout the Dominion. Can. Div. Dept. of Hygiene, Limited, St. Paul St., Montreal. Cuticura Soap shaves without ras.

### TOO MUCH TUBERCULOSIS

Toronto Has About 5,000 Cases, Says Dr. Hastings.

Toronto has about 5,000 cases of active tuberculosis, according to a statement made by Dr. C. J. O. Hastings, medical officer of health of Toronto. "We want better team work between the doctors and their patients on the one side and the Department of Public Health," Dr. Hastings said. "For want of proper team work we have fallen down in our efforts to control tuberculosis," he added.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

The area of New Brunswick is 27,985 square miles, being equal to almost half the area of England and Wales. New Brunswick is larger than Nova Scotia by 6,557 square miles.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

"Rheumatism Routers" relieve rheumatics.

## ADVICE TO GIRLS

BY MISS ROSALIND

Registered According to the Copyright Act.

Miss Rosalind welcomes letters from young women asking for advice on any subject. All you have to do is to address your letter to

MISS ROSALIND,

34 King William St. Hamilton, Ont.

Dear Doubtful—Take your chance along with the other fellow. Ask the girl if you may drive her home from church, and that will give you an opportunity of asking if you may come over some night during the week.

Dear Estrella—If you love this man enough to marry him, and to become engaged to him for a year you should not go around with other boys except in mixed parties that include your fiancé.

Dear Scout—A girl of fifteen has no exclusive right to the friendship of any one boy. Encourage your bunch to be friendly all together.

Dear Love-born Lassie—I suppose it would be alright to write once, just in a friendly chummy way. You write a good letter, so I imagine your correspondence will be very welcome.

Dear Sunshine—When you meet this young man be as bright, friendly and interesting as you know how to be. If you are really interested in him you will act quite naturally; if he does not respond at all, you will know you are not congenial.

Dear Theo and Zula—Most girls get acquainted with boys by means of social gatherings at school, at church and at the homes of their friends. These are the only ways your mother would approve of. You cannot possibly go to public dances. Why not start a social club in your class. Get eight or ten girls together, plan a good programme of games, have nice eats and invite some of the nicer boys of your class.

Dear Rose—I hope by this time you have had some good letters, from some members of the club. I am awfully glad you found the advice helpful. It makes me feel good to have actual evidence that my column is so worth while. As for the little question you ask about street etiquette; usually when walking with two girls the young man walks in the middle.

Dear Anxious—A self-willed young man who wants his own way all the time and does not willingly give in to anybody is not a good kind to fall in love with my dear. If you can fall out of love with him, I certainly would do so, for you are only twenty and will meet other young men. It may be a pleasure to do what he wishes now; but men of his character often develop into frightful cranks.

Dear Country Lad—If the girl seems to shun you, look around for another girl. Just be friendly and nice always and you will have lots of friends.

Dear Happy Billy—Do not take a

### Cook's Cotton Root Compound

A safe, reliable regulating medicine. Sold in three doses of strength—No. 1, 2 & 3. No. 2, 50¢ per bottle. Sold by all druggists, or sent prepaid on receipt of price. Free samples. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

attention. You are fortunate to have so many good friends. Keep them all and add some interesting girl chums to the crowd.

Dear Audacious—You are quite right about it. It is not considered proper. I would not drop the young man's acquaintance, but I would certainly let him know what you think about things.

### ROTATION INCREASES YIELDS.

There are many reasons for rotating crops. Some are more important in one region; some in another. Among them may be mentioned the following:

1. Rotation increases the total crop yield.
  2. It distributes the risk of crop failure, since conditions injurious to one crop frequently do not affect other crops.
  3. It gives a better distribution of farm labor throughout the year.
  4. It allows the keeping of more Mrs. Mabel R. Brown, of Portland, Me., holds a record of twenty-one years of continuous service as a member of the Portland School Board.
- Salt beds covering an area of 40 square miles exist in Nova Scotia. One bed alone is said to be 900 feet wide by 80 feet deep and to have a purity of 98 per cent. Live stock, which favors a better use of farm crops and furnishes farm manure.
5. It allows the use of green-manure crops and the satisfactory application of farm manures, thus maintaining the fertility of the soil.
  6. It insures a better control of weeds, injurious insects and fungous diseases of crops.
  7. It uses soil moisture more completely, as different crops use water differently.

### NEW STRENGTH FOR VICTIMS OF ANAEMIA

LOSS OF STRENGTH FOLLOWS WHEN THE BLOOD BECOMES THIN.

Anaemia is the medical term for thin, watery blood. The sufferer loses strength, becomes short of breath and complains of palpitation of the heart after the slightest exertion, such as walking up stairs. There is a loss of ambition, the victim loses weight and as the disease progresses the appetite is affected, color fades from cheeks and lips and fainting spells may occur.

Anaemia is not a disease that corrects itself, and if unchecked it progresses steadily. But it can be combated by good food, fresh air and a proper tonic for the blood. As the blood becomes rich and red under this treatment, the symptoms disappear as in the case of Miss Evelyn Joyes, Westville, N. S., whose mother says: "Almost from infancy my daughter was very delicate, and was often under the doctor's care. As her father had died of consumption my friends feared she would fall a victim to that dread disease. As the years went by and she was merging into womanhood I began to fear that I would lose her. Then I decided to try Dr. Williams' Pink Pills, and I could soon see a change for the better. For the next three years, at intervals, she took the pills, always with the best of results. Now at the age of sixteen she is a fine healthy girl, and I never tire of telling those who see the wonderful change in her condition that she owes it to Dr. Williams' Pink Pills."

Miss Joyce herself says: "It gives me pleasure to confirm the statements made by my mother. Since using Dr. Williams' Pink Pills I have gained in weight, and from a sickly girl, suffering from headaches, dizziness and a languid feeling, I am now as well as other girls of my age, and I owe it all to Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills can be obtained through any medicine dealer, or by mail, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat these insidious foes of the young and helpless. It is an excellent worm destroyer, and when its qualities become known in a household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is desired.

We are made for co-operation, like feet, like hands, like eyelids, like the *Marcus Aurelius*.

**MURINE** Night and Morning. Have Clean, Healthy Eyes. If they Tingle, Itch, Smart or Burn. If Sore, Irritated, Inflamed or Granulated, use Murine often. Soothes, Refreshes, Safes for Infant or Adult. At all Druggists and Opticians. Write for Free Eye Book. Mailed by Express to, Chicago.

### MULTIPLICATION is vexation.

Division I simply hate:

I never know when teacher asks

The answer to seven times eight.

Find two teachers.

Answer—A/bside down on sleeve; upside down on shirt.

### PRINCESS BUYS WATCHES.

Gives Them Away So That Her Subjects Always Will Be Punctual.

The Begum (Princess) of Bhopal, India, who bought 4,000 silver watches to take back to her people in the central India State when she visited Switzerland in 1911, has just sent for another lot of 2,500 timepieces. She wants her subjects to be punctual and not rely on the sun for the time of day. The Begum, or Mohammedan Princess of Bhopal, probably is the only female ruler of a State in India, and is also called Sultan. The Throne of Bhopal has descended in a female line for more than seventy-five years, and many of the Begums have displayed modern tendencies in looking after the welfare of their subjects, who number 665,000. The Sultan Jahan Begum, succeeded to the Throne in 1901. Bhopal is the principal province of central India, and its capital, the City of Bhopal, has about 75,000 population.

### CRAMPS, CRAMPS, CRAMPS, HOW TO STOP THEM QUICK

When you have cramps, it is a mighty quick relief that you want. Good Old "Nerviline" is sure as death to relieve cramps in a hurry. Just a few drops in sweetened water, and the pain is gone. Buy a bottle of trusty old Nerviline today and keep it handy. Nerviline is a common household necessity, and is so useful in case of sudden illness at night, or when cramps, nausea, diarrhoea, vomiting or the like occurs. Sold everywhere in large 25 cent bottles.

Minard's Liniment for sale everywhere

FOR SMALL TASKS.

Hitt—Mrs. Pitt has engaged a servant only 3 feet 7 inches high.

Hitt—On account of the servant shortage?

The leading institution of higher education in Prince Edward Island is Prince of Wales College at Charlottetown, founded in 1836, but its present charter was granted in 1860. The value of its land and buildings is \$250,000.

Minard's Liniment for Dandruff.

Nearly \$43,000,000 are invested in the rubber industry in Canada, giving employment to about 12,000 persons.

### NOTHING TO EQUAL BABY'S OWN TABLETS

Mrs. Georges Lefebvre, St. Zenon, Que., writes: "I do not think there is any other medicine to equal Baby's Own Tablets for little ones. I have used them for my baby and would use nothing else." What Mrs. Lefebvre says thousands of other mothers say. They have found the trial that the Tablets always go just what is claimed for them. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus banish indigestion, constipation, colic, etc. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Face Hospitals" in Paris.

In Paris, in the centre of the fashionable shopping districts a "face hospital" has been opened, which is patronized by many well known women. By enduring five days' residence there and submitting a painful incision of the face in a special mould, they are able to shed their wrinkles and so emerge looking anywhere from ten to twenty years younger. Unfortunately the treatment has to be renewed every four or five years at great expense and with reduced efficiency.

### THE DRUGGISTS ALL AGREE THAT "PUTNAM'S" IS BEST

The oldest corn remover on the market is Putnam's Corn Extractor—and it is the best. Your corns will all drop out after a few treatments with this painless remedy. Failure impossible. Refuse a substitute for "Putnam's", 25c everywhere.

Minard's Liniment for Burns, Etc.

Dentists build bridges for running talk to flow under 'em.—I; Magazine.

### A Kidney Remedy

Kidney troubles are frequently caused by badly digested food which overtaxes these organs to eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Mother Selgel's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

## You Don't Taste Sugar In Sugar Cured Ham

The sugar and other materials used in curing ham add nothing to the flavor. Properly used they bring out and preserve the natural flavors of the meat—that's all. Duff's buy only prime Canadian hogs. Their special sugar cure developed during years of experience, does preserve this natural flavor—all of it. Serve Duff's Sugar Cured Ham baked, boiled, broiled or fried; you will find it delicious. Its smooth grain and piquant flavor make it welcome on any table.

Your grocer and butcher have it or can get it from us—to-day.

Shall the importation and the  
bringing of intoxicating  
liquors into the Province  
be forbidden? **NO**

Shall the importation and the  
bringing of intoxicating  
liquors into the Province  
be forbidden? **YES X**

## Your Vote Will Decide

You Voted against the SALE—  
—Vote Now against the IMPORTATION

THE people on April 18th decide by the ballot reproduced  
above whether liquor for beverage purposes shall be allowed  
to come in, or whether the door shall be shut.

Earnestly we ask you to vote—vote to clinch your former  
vote.

By your last vote against the Sale of liquor you made Ontario  
safe from within.

Now vote against Importation, to make Ontario safe from  
without.

Prohibition should apply to all alike.

Take nothing for granted. Every temperance vote is needed.  
Every temperance vote must be cast.

See that your wife and every member of your household, with  
a right to vote, gets to the polls.

Let us roll up a decisive majority today and settle this ques-  
tion.

## Get Out The VOTE

Mark your ballot with an "X" and an "X" only  
after the word **YES**

Ontario Referendum Committee

### Useless Information.

We always devour all the statistics  
we can find, says an exchange.  
They are wonderful. Listen:

If all the phonograph records made  
in one year were thrown from the  
top of Bunk's Monument they would  
break.

It would take four men some time  
to tick all the postage stamps made  
in Ottawa in one year, but we don't  
know just how long.

If all the telephone conversations  
from corner drug stores in one year  
could be recorded on a phonograph,  
nobody could listen to them.

A mule can climb to the top of  
Mt. Popocatepetl in five days. He  
can descend in five seconds.

If all the doughnuts made by the  
Salvation Army could be linked to-  
gether in one chain, they would  
reach from Paris to Somewhere in  
France.

### Manitoba.

The Province of Manitoba covers  
an area of 251,832 square miles, of  
which 178,000 square miles were  
added in 1912. The added territory,  
known as New Manitoba, contains  
424 miles of railroad, 332 miles of  
which have been built by the Cana-  
dian Government to connect the grain  
fields of the northwest with the Hud-  
son Bay.

## Farm Equipment

### SPECIAL PRICES

Splendid Farm Wagon - - \$110  
Latest Sharple's Cream Separator \$75  
2½ h. p. Gas Engine with magnets \$120

Also Manure Spreaders, Potato Diggers, Hay Loaders, Side  
Delivery Rakes and Cultivators. A few on hand at money  
saving prices. Also a few Horse Blankets to clear at reduced  
rates.

# THE MAELSTROM

BY FRANK FROEST.  
Late Superintendent of the Criminal Investigation  
Department of Scotland Yard.

"A crook of the crookedest. He ran a wholesale factory for forged currency notes in the United States ten years ago. That was broken up, and he did five years in Sing Sing. He has been at the back of a lottery swindle since he came out, and Lord knows what else. We'd lost sight of him till I happened to get hold of this copy. That's the kind of man who's the husband of Miss Greye-Stratton."

"How did you find this out?" Menzies puffed reflectively. He had no intention of completely exposing his hand. He was certain that Peggy Greye-Stratton was the woman who had given Hallett the cheques and that the latter had deliberately refrained from identifying her. Moreover, he was also convinced that she had told the young man something at lunch, though whether she was, as he affected to believe using him as a tool, he was not in his own mind certain.

The more he considered, the more he felt that she held the key to the mystery. If only she could be induced to speak. With him, with any official of police, she would be persuaded was the one man who might win her confidence without exciting suspicion. So long as his sympathies remained with her he was unlikely to be persuaded. Therefore, if possible, his sympathies had to be alienated.

"Just common sense," growled Menzies, "ordinary common sense. I learned that she had a wedding ring—though she didn't wear it—sent up to Somerset House to inspect the registry of marriages, and got this call an hour ago." He laid a hand gently on the young man's shoulder. "Better do as I advise. Anyway, take care of yourself."

He did not wait for an answer, but moved softly out of the room. He was wise enough to know when to stop. To say more might be to spoil things. Hallett might safely be left to his own reflections.

Hallett was a man whose brain as a rule worked very clearly. But now he was confused, and he strove vainly to reconcile reason with inclination. It seemed ages since the episode of the fog, years since he had looked into the pale oval of Peggy Greye-Stratton's face at lunch. Spite of the convincing proof of the marriage certificate, he could not think of her as a married woman. Anyway he told himself, if Menzies was right in that it did not follow that all his inferences were right. He had felt the ring of honesty in the story she had told him.

And yet the idea of the detective was plausible enough. He could see where things dovetailed. If he were stringing him she had been acute enough to tell him a series of half-truths. If she were a willing accomplice, as Menzies supposed, there was reason enough why she should mislead him.

He had met female adventuresses before—pretty, cultivated women, some of them—but he had not been impressed by them as he had been by her. But then the circumstances were different.

He pondered the matter as he drove back to his hotel. Suppose he did accept Menzies's version—and he admitted to himself that there was a considerable weight of probability

on that point of view. He could not see why, in that event, he should become an unpaid amateur detective. The thought of spying on Peggy Greye-Stratton, adventuress or not, was entirely distasteful to him. He had no interest in the investigation. He had been dragged into the affair entirely by accident. Let the police do their work themselves.

It was in this mood that he arrived at his hotel and refused the newspaper men who were still blockading the entrance. He avoided the public rooms. He wanted to be alone. He went up to his private sitting-room. There it was that a note was brought to him. He tore it open absently and glanced at it mechanically. But at once his interest was aroused. It had been scribbled in pencil, apparently in haste:

I am in trouble. For God's sake, come and help me. I don't know to whom else to appeal. Call at 140 Ludford Road, Brixton, as soon as you can, but alone. Ask for me.

There was no signature, but Hallett needed none. He had never seen Peggy Greye-Stratton's writing, but the small, neat characters were beyond doubt to him. His resolution to stand aside was already being put to the test. He swayed the note in his hand while he recalled Menzies's warnings. He was an important witness. Already one attempt had been made to secure his silence. Was this a trap?

Yet, on the other hand, if the girl was being used to secure his silence, she could not know that he had changed his decision to stand by her. She must suppose—the conversation at lunch would have made her believe—that he had allied himself on her side. No; the letter was certainly genuine.

He impressed the address on his memory, and, tearing the letter into little bits dropped them into the waste-basket. Then he searched in his kit-bag till he found, at the bottom, a small automatic revolver and a packet of cartridges. He loaded the weapon carefully and dropped it in his jacket-pocket.

He had no idea where Brixton was, but a study of a street map gave him its location. He did not want to have to ask questions. He had come to have too much respect for Menzies's methods in following up a trail for that. For the same reason when he went out into the Strand he turned abruptly in his walk once or twice.

The useful little book of maps issued by the Underground Railway helped him on his next course. He went into a tube station and booked for Hampstead. At Leicester Square he changed for Piccadilly Circus. There he changed for Kennington Oval. By the time he emerged into the sunlight he was satisfied that if there had been any shadows on his trail he had thrown them off.

He had selected the Oval Station because the map had shown him that the district lay on the very of Brixton. He was about to hail a taxi when his eye caught the label on one of the big electric cars swinging by. He jumped aboard.

Ludford Road proved to be a quiet road of small houses buried away at

the back of Brixton Town Hall. It was a street that might very well have been inhabited solely by moderate-salaried city clerks—retired, unobtrusive and respectable semi-detached villas, with neat squares of gardens behind iron railings. It was no street of mystery.

Hallett walked to the door of No. 140 and pressed the bell. It opened promptly, revealing a plump, shrewd ant-faced little woman with shrewd eyes and a strong mouth. Jimmie, whose right hand had been gripped round the automatic in his jacket-pocket, removed it hurriedly and lifted his hat.

"I wish to see Miss Olney, if I may," he said. The woman shook her head. "You have made a mistake. There's no one of that name lives here," she said, and Jimmie's last shred of suspicion vanished. If the note had been sent for a trap there was evidently no anxiety for him to walk into it.

"Pardon me Miss Greye-Stratton, I should have said. My name is Hallett." She smiled and flung the door wide. "Oh, yes. She is expecting you. Will you come in?" Jimmie passed into the narrow little hall and the door shut.

(To be continued.)

## HEALS INFLAMED NOSTRILS, STOPS CATARRHAL DISCHARGE RELIEVES COLDS QUICKLY

You'll be pleasantly surprised at the quick action Catarrhzone has upon Catarrhal conditions in the nose or throat. It is so soothing, so healing, so agreeable to use, so safe and reliable that thousands praise it and use it every day. No nasty medicine to take—you just breathe in the balsamic vapor of the healing essences of Catarrhzone and feel better at once. Catarrhzone is breathed through the inhaler into every air cell in the lungs, into every air passage in the throat and nostrils. No matter where the cold or Catarrh is, Catarrhzone will reach it. You can keep free from coughs, colds, bronchitis and the like by using Catarrhzone. Two months' treatment One Dollar, small size 50c. Dealers everywhere, or the Catarrhzone Co., Montreal.

## Uncle John's Ash

ON MY BIRTHDAY I TAKE A DAY OFF BUT THE MISSUS TAKES A YEAR OFF ON HERS.

## MARSHALL FOCH'S PAY

Famous French General Got \$160 Per Day Before Being Raised to \$35 a Week.

Before the war French army salaries were hardly commensurate with the cost of the regulation gold braid; but this miserable condition has been changed. Thus it appears that "Uncle" Ferdinand Foch, generalissimo of millions of the allied armies, broke the "invincible" German army and saved the world for about \$160 a day. The amount allotted to a divisional general, including the extra franc for being married, is 82,040 francs, which pushes the general's weekly wage up about \$35. Before the various supplements were added the general's salary was about \$23. French brigadier-generals draw about \$25.50 a week, while his lieutenant-colonel makes about \$4 less, if married.

## REAL FINGER EXERCISE.

Typists' fingers are among the most amazing travellers in creation, and are capable of going tremendous distances without the fatigue that would come to the feet and legs in performing a similar journey. In ordinary typewriting the hand may travel, according to an expert, 10,000 miles a year and not indicate any impairment in efficiency. This refers, of course, to the average typist in an office.

NEWSPAPER advertising insures quick, thorough and economical dealer distribution and dealer good will, because retailers are willing to sell products advertised direct to their own customers.

The volume of national advertising in the newspapers has increased more than 400 per cent in the past decade.

Successful Advertisers Use Weekly Newspapers

## WOMEN'S INSTITUTES

NEWS ITEMS COVERING THE ACTIVITIES OF WOMEN IN ALL PARTS OF ONTARIO.

### NEWMARKET.

The officers and representatives of York County and District had a very nice joint meeting in the Parliament Buildings, Toronto. Miss Sutherland and Mr. Putnam joined us, also Dr. Patterson who spoke to us very nicely about our object of meeting together to discuss the immorality on the public highways. A great deal of discussion was entered into and at last Mr. Putnam framed a resolution to be sent to the Legislature to make a law for more compulsory methods to be taken in regards to this.

L. TOOLE.

### NEW CRUSADE IN ENGLAND

Women's Institute Finds There Are Too Many Ornaments in Cottages.

The newest enterprise of the British Women's Institutes is a campaign against the over-crowding of rooms, particularly living rooms of small houses, with useless ornaments. This has long been a cause of complaint by country doctors and hygiene experts.

In country cottages mantels, overmantels, corner cupboards, side tables, and old-fashioned whatnots loaded with all sorts of articles are commonly seen. A visitor to a small Norfolk cottage was astonished to find five clocks, three of them grandfather clocks, in the parlor.

Labor-saving and hygiene are the aims of the present campaign, which has started in Dorset following a conference of women at Wimborne, where it was stated that a visitor to a cottage counted 250 articles, mostly ornaments, in one small room.

### WHEN YOUR APPETITE FAILS THIS IS WHAT YOU NEED

When the very thought of eating makes you feel dizzy, when you're run down, stomach in a bad way—you need a real housecleaning with Dr. Hamilton's Pills. They tone up the liver, assist the stomach and improve digestion. The taste becomes aware of new flavors in food you never noticed before. You'll look and feel a whole lot better after using Dr. Hamilton's Pills. Many folks use this fine old remedy and nothing else and keep in the pink of condition all the time. 25c at all dealers, or The Catarrhzone Co., Montreal.

### IMMATURE VEAL NOT ALLOWED TO GO INTO CONSUMPTION.

The returns of the Federal Live Stock Branch indicate a very heavy increase in the marketing of immature calves at Public Stock Yards in Eastern Canada. The heavy Spring liquidation of young calves is now well under way and the percentage of stock below marketable quality is unusually heavy. As a consequence, condemnations, made by authority of Live Stock and Live Stock Products Act 1917, are reaching large proportions. Of two loads of calves recently unloaded at the Union Stock

Yards, Toronto, ten per cent, were sent to the tank. It is hoped that all shippers of live stock will take precautions in this regard and keep out of future shipments any immature calves and all calves three weeks of age and under.

### STATEMENT SHOWS UNHOPED PROFITS

MINISTER OF MARINE ABLE TO POINT TO EARNINGS FROM GOVERNMENT VESSELS.

Canada's publicly-owned fleet of merchant vessels in their voyages in 1920 earned revenue sufficient not only to pay operating expenses, but also to leave a net profit of \$871,460 on the country's investment. It has been predicted by some pessimistic individuals that the statement of Hon. C. C. Ballantyne upon the operations of the Canadian Government merchant marine would show a serious deficit for the calendar year 1920. The Minister of Marine, in introducing the estimate for the completion of the Government's ship-building programme in the Commons however, showed that the ships earned in voyages which closed before December 31, \$10,927,442. Of that sum \$8,782,917 went to meet operating expenses, leaving an operating profit of \$1,293,525. From the sum the Minister deducted \$687,665 to cover depreciation, and \$27,400 for outstanding liabilities and incorporation expenses. He showed thus net earnings of \$598,460 on voyages which terminated before the end of the year. To this he was able to add a portion of the net earnings of voyages which began in 1920 and ended since January, amounting to \$183,000. The total net earnings of the Canadian Government merchant marine for 1920 were thus \$781,460.

### WAR WIDOWS RE-MARRY

Causes Reduction in British Pensions of £10,000,000.

British war widows are re-marrying so rapidly that the Chancellor of the Exchequer, Austen Chamberlain, expects to be able to reduce pensions appropriations in this year's budget by £10,000,000 sterling. This however, is only one of the factories contributed to the anticipated reduction, but it is stated that thousands of women made widows by the war have again become wives and thus automatically taken their names off the pension list. The pensions granted to widows of soldiers who died on active service are withdrawn when the widows re-marry.

## That Sudden, Sharp Pain

Which you experience at times can be removed. No woman has the right to suffer when she can obtain relief safely, certainly and promptly. Suppose you do have headaches, backaches, extreme nervousness, low-spirits and general good-for-nothing feelings at times? Your case is not hopeless. These symptoms are evidence that the delicate organism of the feminine body has become out of order and needs the help Dr. Pierce's Favorite Prescription can bestow, this is what many women write Dr. Pierce, Pres. Invalids' Hotel at Buffalo, N. Y. Many of your neighbors would say the same of Dr. Pierce's Favorite Prescription.

TORONTO, ONT.—"Less than a year ago I was in a very poor state of health; my back ached dreadfully, and I could scarcely drag myself around to do my housework. I started to take Dr. Pierce's Favorite Prescription, and I cannot praise it too highly for the great benefit I received. My back-ache and pains disappeared entirely, and I soon was restored to perfect health. I know that Dr. Pierce's Favorite Prescription is the best woman's medicine, for I have tried others that were recommended, and nothing has ever helped me so much as the Favorite Prescription." Mrs. KATHLEEN WHILLANS, 13 Brookfield Street.  
Send 10c. to Dr. Pierce's Laboratory in Bridgeburg, Ont., for a trial pkg. of Favorite Prescription Tablets.

### Hail Insurance.

Hail insurance is practically only a term in Eastern Canada, but in the West it signifies something of vivid importance. Measures known as Municipal Hail Insurance Acts are in force in each of the Prairie Provinces. These acts provide a system of mutual insurance under which rural municipalities can operate to tax each other for the granting of compensation to individuals for losses incurred by hail, which are often very serious. How the system works out, and the extent to which it operates in Saskatchewan and Alberta, are set forth in the November number of the Agricultural Gazette of Canada. Each claimant is entitled to receive not more than five cents per acre for every one per cent. of damage from hail he has sustained. To some this may not appear a very liberal provision, but when it is understood that the number of claims filed in 1919 in Saskatchewan was 7,838 and that the total indemnity paid amounted to \$1,911,776, a different view will obtain. For one storm alone that occurred in July of the year referred to claims amounting to \$1,100,000 were satisfied. In Alberta the total losses for the same year were \$506,000, against a valuation of \$12,000,000 insured. Besides the system under Government supervision, there are 36 companies in Saskatchewan that accept hail insurance, and that paid out \$1,750,000 in 1919 for losses caused by hail.

### The Wild Gooseberry.

The gooseberry when compared with other cultivated fruits is not as important in America as it is in North Europe, and especially in the British Isles where it has long been very popular, and a wonderful improvement has taken place in its size during the last two or three hundred years. When it was first cultivated in Europe—probably in the sixteenth century—the wild fruit, if it was like what it is now, would be only about one-half an inch in diameter and less than one-quarter of an ounce in weight. The largest gooseberries which have been produced in recent years average several times this size, some specimens two ounces or more in weight having been recorded. The English and European gooseberries are derived from a species native of North Europe, called *Ribes Grossularia*.

As the gooseberry is a native of Canada and is found growing wild almost or quite to the Arctic circle, its culture will eventually no doubt be extended very far north.—W. T. Macoun, Dominion Horticulturist.

### Not at Athens.

There will be no exhibit by Canadian manufacturers at the Athens Fair this year. It has been decided the notice was too short for anything but a Canadian Government exhibit, but arrangements are being made between the Government and the Canadian Manufacturers' Association for future exhibits to be made at short notice in connection with the Dominion's bid for European trade.

### No Man's Land.

In the north of the Province of Quebec there are still 250,000 square miles of unexplored country, making, with the 642,000 square miles in western Canada, a total of 901,000 square miles.
