General News.

Mr. Thomas Worthington, Assistant Commissioner of Customs and Excise, has been appointed head of the Excise department under Mr. Howland.
They have a queer idea of "prohibition" in Vienna. The police recently threatened a lager-beer seller to fine him heavily if he did not increase the size of his glasses.
The Methodists have twenty thousand churches in the United States, with accommodation for over six million people. It is the most numerous sect in the United States.
A new grass is springing up in the Southern States. It appears to be a dwarf clover, is very thick set, covering the earth with a beautiful carpet of green. It is much relished by cattle, and is a complete exterminator of Bermuda, joint, sedge, and other grasses.
The number of bouquets thrown to Adeline Patti at a late performance of "Sonnambula" at the Theatre Italian, Paris, was so great that the carpenters and scene shifters were required to pick them up.
The widow of Ira Aldridge, the negro tragedian, went to Russia to obtain his body, but could not afford to bring it away, because the priests exacted an enormous fee for every parish it would have to pass through.
The oldest locomotive in America was broken up at a machinery shop in Bangor the other day. It was the "Pioneer," a ten ton engine, and one of the early machines built in England by Stephenson, the inventor of the locomotive. It was built at his works, in Newcastle-upon-Tyne, in 1825, and ran its first trip Nov. 6, 1826. Its last trip was done August 16, 1867.
The difference between Sheridan and Butler is, that the former is the hero of only five Forks, while the other is the hero of as many forks and spoons as he could lay hands on.
THOMAS CARLYLE lives in Chelsea. He loves to sit on a lawn in a small garden. He is a dry, gaunt form; he wears a morning gown and cap, and draws heavy clouds of smoke from his short clay pipe, and he is called the Diogenes of Chelsea.
The proposition to build an International Church in London to the memory of Abraham Lincoln will attract attention and command sympathy on this side of the Atlantic, as well as among our countrymen in Europe. It is proposed to connect this church with the Lincoln School, recently built at an expense of £1,500. To carry out the plans at present entertained the additional sum of £17,000 will be needed.
BIRDS of passage, says the Nord, have begun their annual migration southwards through Belgium a month earlier this year than usual. Already long lines of storks have taken flight; buzzards have been killed in the neighborhood of Paris, and wild ducks have passed in such numbers that the eye cannot follow them. All this, as is known, presages an early or a hard winter.
The New York Express of Monday last says:—"Something of a sensation was created in St. George's Episcopal church, at the morning services, yesterday, by the appearance of a Presbyterian minister [Rev. Dr. Spring] in a black gown, among the surpliced ministers that were ushered from the vestry room, and occupied a place in the chancel. The doctor was there, moreover, it turned out, for more than they were shown, as he was called upon by Dr. Tyn to say the concluding prayer."
Whether this is another case for the committee or not, we do not know, but the fact there is no doubt.
Mr. Greeley's autobiography has been written down to his apprenticeship. He says of the four years of his life during which he was learning to be a printer:—"I have never since found at once books and opportunity to enjoy them so ample as while there; I do not think I ever before or since read so much profit. They say that apprenticeship is distasteful to, and out of fashion with the boys of our day; if so, I regret it for their sakes. To the youth who asks, 'How shall I obtain an education?' I would answer, 'Learn a trade of a good master.' I hold firmly that most boys may thus better acquire the knowledge they need than by spending four years in College."
HEAVY GALE.—The Sarnia Observer says: "During Saturday night and Sunday it blew a heavy gale from the north-west, preventing upward bound vessels from going into the Lake, and causing the downward bound to make all speed to secure the shelter of the river and bay opposite our Town. On this account there was quite a fleet in our harbour on Sunday morning, the number of vessels in sight from sixty to seventy. One vessel, the Butcher Boy, was driven ashore near Sand Beach, on the Lake Shore, and quite a number sustained more or less injury to their rigging and spars, causing them to lay over a day or two for repairs. The gale was the heaviest we have had this season.
A man, having rather a grim reputation, has just died at Noyon, Oise, in his 84th year. He was formerly public executioner in the department of the Oise. He was also assistant executioner at Paris at the period when Robespierre, Saint-Just and other members of the Convention died in turn on the scaffold; and used willingly to relate, perhaps with some exaggeration, the part he per-

Local News.

THE WEEKLY MERCURY.

THE LARGEST, CHEAPEST AND BEST JOURNAL OUT OF TORONTO IN ONTARIO.

THE WEEKLY MERCURY will be published early to-morrow (Thursday) morning in time for the ENGLISH MAIL, which closes at 9:30. Copies can be had at the bookstores of Messrs. Day and Shevan, and at the office of publication, Macdonell street. This will be an excellent number to send to your friends in Britain. In addition to a vast amount of local and general news, as well as the continuation of the thrilling tale "Norah Cushman," it contains editorial and literary selections—all combining to make it one of the most attractive numbers yet published. Price 5c. Get a copy.

ANNIVERSARY SERMONS.—The Sabbath School anniversary sermons will be preached in the Wesleyan Church on Sunday next, by the Rev. Charles Lavell, Chairman of Guelph District.

MR. STONE'S SALE OF STOCK.—We would again remind our readers of Mr. Stone's sale of thorough bred stock, on Wednesday next the 16th inst., at Moreton Lodge. More than this is unnecessary, as almost every one in any way interested in stock raising knows what to expect at the sale.

SUPPER.—We understand that a supper will be given in the basement of the Wesleyan Church, on the evening of Tuesday, the 22nd instant, the proceeds of which are to be devoted towards liquidating the debt still remaining on the parsonage. It is announced that the Rev. Dr. Taylor will be present.

FOR THE WEST.—The Leader says: On Tuesday evening a large number of cattle and sheep went west—the greater portion for Guelph—by Grand Trunk Railway. They were purchased in the eastern section of the province, and appeared to be in good condition.

FIRE IN CALEDON.—On Saturday evening last the barn of Mr. W. McLean, lot 20th, first concession of Caledon was completely burnt down. The building contained 500 bushels of wheat, besides peas, hay, waggon and harness, which were all destroyed. There was no insurance on either the barn or its contents.

COMMERCE OF GALT.—The Galt correspondent of the Hamilton Times says:—Galt stands the first commercial town on the list for Ontario, and though ten of them have a large number of traders, it far outstrips them all in amount of capital, having invested \$1,021,000; an amount of \$85,000 in advance of Peterboro, the second on the list; \$200,000 more than Brantford, and \$15,000 more than, or nearly double, that of Guelph.

THE GOVERNMENT OF ONTARIO.—The Leader, which we presume, must be taken as authority in the matter, says it is expected that the first session of the Legislature of Ontario will open about the second week in December. The Legislative buildings in Toronto will not be ready for occupancy before that time. This would be a sufficient reason for delay if there were no other. But it is indispensable that the Canadian Parliament meet before the Local House of Assembly.

SHOOTING AFFRAY IN GALT.—We learn from the Reformer that on Sunday evening last a quarrel occurred in Galt which came near terminating fatally to one of the parties. Two young men disputed about a girl, when one drew a pistol to intimidate the other and fired into the sidewalk. While attempting to reload, his rival endeavored to wrest the weapon from him, but the one in possession of the pistol fired, and the ball grazed the side of the other's head, cutting it severely. If this be true, and the wound not inflicted by a stone, as another report has it, a life came near paying the penalty of rivalry.

NEW BOOKS.
THE CURATE'S DISCIPLINE: a novel by Mrs. E. Elliot. This is a work inscribed as a slight memorial to the love of twenty years to her husband, C. J. G. Elliot. Published by the Messrs. Harper Bro's, New York, and forwarded to us by Messrs. W. E. Tunis & Co., Clifton. The work is for sale at Day's bookstore.

MANUAL OF PHYSICAL EXERCISES.—Messrs. W. E. Tunis & Co., Clifton, have sent us a copy of this interesting work, published by the Harpers of New York. It contains chapters on gymnastics, rowing, skating, fencing, cricket, calisthenics, sailing, swimming, sparring, base ball, &c., together with rules for training, and sanitary suggestions. The author of the work is Mr. William Wood, instructor in physical education. It is also profusely illustrated. The work is for sale at Day's bookstore, and no house should be without a copy. It is particularly suited for young men.

THE PRESENT AND FUTURE OF CANADA.—Such is the title of a pamphlet written by Mr. H. Lacroix, for the benefit of French Canadians, and which has been translated, and is published by John Lovell, of Montreal. From what we have read of it, we judge that it is cleverly written. The author apparently loves the country that gave him birth, and endeavors to imbue others with a like sentiment.

Police Court.

Before T. W. Saunders, Esq., Police Magistrate.
WEDNESDAY, 9th.—Thomas Martin was brought up this morning to answer a charge of having driven his horse on the sidewalk. He is a stranger, and was dismissed on the plea that he was ignorant of having offended against the By-law.
Wm. Carey, for selling liquor on Sunday, appeared this morning again, the case having been adjourned since Monday last. Carey was from home on Sunday, but previous to his departure he had given strict injunctions that no liquor should be sold that day. His commands, however, were not properly regarded, as it was proved beyond a doubt that his wife had accommodated two customers—the one with ginger pop and the other with whiskey. His wife

Eramosa Fall Show.

The Eramosa Agricultural Society held their Fall Show at the Centre Inn on Tuesday. The weather was all that could be wished for—genial and pleasant—and in consequence there was a very large turnout of people from all parts of the Township. The horses, stock, &c., were exhibited in a field close to the Inn, and the grain, dairy produce, &c., in the Town Hall.

The Show this year was one of the largest and best that has been held in Eramosa for a long time, and the whole arrangements were excellent and well carried out, for which the efficient Secretary, Mr. Swinford, and the Directors, deserve great credit. In the class of horses the show was very fair. Brood mares and colts were not altogether up to the mark, but in the other classes, especially working and carriage horses and hackneys, the display was very creditable. Mr. J. S. Armstrong's team of working horses, which got the third prize at the County Show took the first, and Mr. Peter Armstrong's team, which was awarded the first at the County Show got the third. There was not a very large show of stock, but generally the animals shown were superior. Messrs. Wm. and Edw'd Tolton and Mr. Charles Head had well-bred and well conditioned aged bulls. Mr. Alex'r Stewart showed a splendid one year old bull, which was greatly admired. His large size, fine points, and purity of breed make him a most valuable and desirable animal. He took the first prize. His cow, which also took the first prize, is a very superior beast. Mr. Geo. Dickieson was the only exhibitor of Galloway stock. The bull he showed is a very fair specimen of that breed. Some heavy well trained working oxen were shown by Messrs. John Dickieson and J. A. Armstrong, and working steers by Messrs. W. S. Armstrong and John Grieve. A very nice heifer was exhibited by Mr. J. W. Armstrong. We missed the very superior stock belonging to Messrs. L. and J. Parkinson, these gentlemen not exhibiting any stock at the Township Show this year. For the same reason the show of sheep was not so good as in former years. Still some of the animals in the different classes were very good, and did credit to the breeders. The principal exhibitors were Messrs. S. Kerr, J. Mckerlie, Edward Tolton, Thomas Waters and Chas. Head. There was but a small show of swine. We noticed a very superior Berkshire boar belonging to Mr. John Currie, which was brought in too late to be entered for competition, but which we have no doubt would have taken a first prize.

The display of wheat and grain was very fair. Both were excellent, the turnips and potatoes being much better than were at the County Show. There were 24 entries of turnips, and 17 of potatoes, which would have gained a prize, but being short in quantity were ruled out. There was a splendid show of apples, equal in every respect to those exhibited at the County Show. Eramosa has always been noted for raising first-class fruit, but the specimens shown this year are, in our opinion, superior to any we have yet seen. Of fall apples there were 27 entries, 24 of winter, and 5 of collections of apples. The butter was also a very attractive show, the quality, colour and make up of the different specimens being all that could be desired.—The competition was also keen in this class, there being 14 entries of salt, and 23 of fresh butter. The show of bread was excellent there being 11 entries in this class. The loaf exhibited by Miss. Plin, which took the first prize, was beautiful in colour, and in all respects of first class quality. There was a much better show of fulled cloth than at the County. Mr. John Johnston got the first prize for a piece of excellent stuff, firm of texture, and made of very fine wool. His blankets were also awarded the first prize. The home made and factory flannel of Messrs O'Brien and Abbott was also of superior quality. Messrs. John Harris & Co., of the Rockwood Woollen Factory, exhibited a pair of factory made blankets. They were not entered for competition, but the judges gave them great praise, and indeed they deserved it, for whether we regard the fineness of the wool, or the excellence of the texture and finish, they are very superior, and do very great credit to the Messrs Harris's skill. There was not a large display of ladies work, but what was shown was very good. Some beautiful specimens of needle work were exhibited, and the specimens of raised raised worsted work was greatly admired. There was not many implements shown. An iron plough of excellent pattern and good finish, also a well made pair of harrows, were shown by Mr. Wm. Forsyth. Mr. Wm. Torrance also exhibited an iron plough, and one of his turnip drills, which are so well known, and so highly appreciated by all farmers who have tried them.

The show on the whole was much larger than it has been for some years in Eramosa, passed off successfully, and to the satisfaction of all. The Judges in the different classes were—Horses, Messrs. C. J. Buckland, Guelph; H. Milroy and John Awrey, Erin. Cattle, sheep, &c., Messrs. Thos. Easton, Nassagaweya; T. bert Kennedy, Erin, and J. Watt, Pilkington. Grain and roots, Messrs. John Beattie, Erin; Henry Larter, Pilkington; Black, Garafraxa. Dairy produce, Messrs. R. Rutherford, Alex. Gibson, and A. O. Buchan, Guelph.

THE DINNER.
The dinner took place at Mr. Armstrong's at the conclusion of the Show. Quite a number sat down to a capital dinner, for which Mr. Armstrong received great praise. John McAree, Esq., President of the Society, accepted the chair, the duties of the vice-chair being discharged by John Dickson Esq., Vice-President. After the company had done ample justice to the good things, the chairman gave the usual loyal and patriotic toasts, which were duly honoured. Capt. Swinford replied to the toast of the "Army and Navy" in a few appropriate words. The vice chairman gave "the judges" responded to by Messrs. Milroy, Thomson, Rutherford and Buchan, who all expressed themselves highly pleased with the Show, and complimented the farmers of Eramosa on its success. "The successful competitors" was next proposed to which Mr. Mckerlie and Mr. John Grieve responded. "The unsuccessful competitors" followed, after which was given four visitors' coupled with the name of Mr. Alfred Hood of Erin. Mr. Hood responded in a few appropriate words.

interest to farmers. This would up the proceedings, and parties at a distance were thus enabled to reach their homes at a reasonable hour. The following is the Prize List will be given to-morrow

THE CARIBALDIAN FORCES MARCHING ON ROME.

PLAN FOR SETTLEMENT OF THE ROMAN QUESTION.

THE FENIAN TROUBLES IN BRITAIN.

(MIDNIGHT DESPATCHES.)

VIENNA, Oct. 8.—The Emperor Francis Joseph has concluded to make no change in the existing Concordat, and negotiations with Rome for the purpose of making a new Condat have been abandoned.

AUGSBURG, Oct. 8.—King William of Prussia arrived in this city to-day on a tour through South Germany.

LONDON, Oct. 8.—Despatches from the East report that a sanguinary conflict had taken place on the Turkish frontier between the Montenegrins and the Turks.

BIARITZ, Oct. 8.—The Marquis de Moustier, Minister of Foreign Affairs, and Chevalier De Nigrie, Italian Ambassador, arrived here just before the troubles broke out in Italy, and have since been in constant consultation with the Emperor. It is said that the following plan for the settlement of the Roman question has been agreed upon: Italy to take possession of the Roman Provinces; Pope Pius IX. to remain in Rome and retain the Government of the city until his death, when the temporal power of the Pope shall cease.

FLORENCE, Oct. 8.—Officers of the Papal forces engaged at Baguaria, claim that they gained a victory in that battle; that seventy of the enemy were wounded and one hundred and ten made prisoners.

LATER.

The volunteers of Garibaldi are marching upon Rome from every direction. The Florence press urge the government to anticipate them, and occupy the city with national troops. The report gained currency that the American Minister, Hon. Geo. P. Marsh, demanded the release of Gen. Garibaldi, on the ground that he was a citizen of the United States. This is denied; but it is true that Mr. Marsh had asked the government to show clemency to a distinguished prisoner. Garibaldi has issued an address denouncing Rattazzi, and urging his followers to carry on war for the possession of Rome.

Rumors constantly arising in regard to the designs of Fenians, cause much anxiety in England and Ireland. All prisoners are doubly guarded by armed policemen to prevent any attempt at rescue. Threatening indications lead the authorities to apprehend some disorder at Berwick, and proper precautions are being taken.

Dublin, Oct. 8th.—The Fenian convict, Kelly, died while in prison, and his funeral took place yesterday. There was a great demonstration of sympathy for the deceased. An immense crowd of people surrounded the house where the remains were laid out, and a long procession loved them to the grave.

Paris, Oct. 8.—Orders have been issued for the enlargement of the Cadix and French army, but the effective force will not be increased.

Liverpool, Oct. 8th.—Cotton quiet steady; breadstuffs active and nearly all descriptions material advanced. Wheat 14s 3d per cwt. and 15s 1d for Calcutta. In a

VOLUME FIFTEEN.

With this number commences the Fifteenth Volume of THE WEEKLY MERCURY. A little over five years ago, when the present publishers became connected with THE MERCURY, it was but a small sheet, and could boast of comparatively few subscribers and by no means extended influence.

We are happy to say that we commence another volume under the most favorable circumstances. During the year our subscription list has been immensely increased, and in point of circulation, as well as in other respects, the MERCURY is now far ahead of all competitors.

A REAL SENSATION.—In speaking of the latest "balloon marriage," some time ago, it was hinted that a balloon funeral would be the proper thing to do next. Somebody has now done—not exactly that, but something in that line; he has committed a balloon suicide.

Mrs. Lincoln's Wardrobe. Mrs. Abraham Lincoln has offered wearing apparel for sale. Numerous camels hair, Paisley, and point lace shawls besides dresses of the latter material, a Russian sable cape, diamonds, rings &c., are now exposed to view at an establishment in Broadway and will be sold, if purchasers can be found, after it has been made known extensively by advertising that the articles belong to Mrs. Lincoln.

It is a difficult matter to interpret aright the action of Mrs. Lincoln and the party she censures. True the late President fell a martyr to the cause of party, and it would appear to be nothing more than justice that his memory and his children should have placed a maintenance as he would have provided them had not the assassin's bullet deprived him of his life.

NORAH CUSHALEEN

HAUNTED CASTLE.

CHAPTER XXII.—THE LIFE AND DEATH STRUGGLE.

Norah had to ascend to the chamber in the tower for the light, and when she returned her father had groped more than half way along the passage.

'Oh, masha, but this is a cold, damp, lonesome place to be sure,' he remarked. 'Norah, avick, isn't it yer heavy-hearted father that's sorry to think you have to put up in such a nasty ghost uv a castle, all by yourself.'

Not quite by myself, father, returned Norah in a cheerful tone. 'You forget that I have little Malvra beside me.'

'God save the swate little crayture to be sure; but barrin' his presence, that hasn't come to the knowledge of his senses yet, ye haven't a decent Christian to speak to or to hear spake.'

'It is hard, no doubt, and far from pleasant, but it must be borne,' returned Norah, in tones, the sadness of which she strove to disguise. 'But come,' she added, 'you must be tired, dear father, with your long walk and that heavy load. Come up the stair, and I will cast the light back on the steps.'

'Oh, but it's yourself that has the kind heart, Norah darlin'!' said Michael, as he followed her. 'If I was tin times tiner than I am, the words that come out uv your swate purty lips would make me as fresh as the daisies in the mornin'.'

When half way up the stair, Michael suddenly paused. 'Bedad!' he exclaimed, 'if I haven't forgot to bar the door.'

'Ah,' cried Norah, 'that must be immediately rectified, and setting down the light, she tripped hurriedly down the stair, and came along the dark passage. The door was not only unfastened, but half open, and she immediately set herself to pile up the stones which secured it.'

Lady Blantire was crouching down close at Norah's side within a broken piece of the wall, and in her right hand she held the dagger ready to plunge it into the bosom of the unsuspecting girl should she discover her presence. But Norah completed her task and retreated without the faintest suspicion of the presence of any one in the passage.

'I might have struck the blow,' muttered Lady Blantire, when Norah's footsteps had died away in the distance. 'Ay, and I would have done it but for the child. The brat, as I heard by their conversation, still lives, and he too must be put out of the way. I will wait till the old man is gone, and then strike the double blow.'

She rose slowly from her lair, retraced the dagger to her bosom, and cautiously advanced along the passage, till she came to a doorway, and entered a dark and empty chamber. Here she remained waiting patiently till Michael should be gone, when she would be able to effect her cruel purpose.

'The poor frightened fools, to run at the sight of a weak, helpless woman,' she muttered, thinking of Malvra and his two accomplices. 'Had I been as superstitious, utter ruin would have come upon our house. Dennis must have deceived Malvra with a false story of Norah's death, and yet he saw them in the boat and tossing upon the waves. How, then, could the girl escape? Dennis himself was drowned, for Malvra saw his body; and yet the girl and her child still live. It is a mystery; but if I cannot unravel it, I shall make it harmless. If they escaped the sea, my dagger will be more true and faithful.'

Musing thus in the darkness, more than an hour passed away, and then there was a noise of voices and footsteps and a glare of light flashed along the passage.

Lady Blantire retreated to the corner of the apartment, and there crouched down, but there was no means of further concealment, and if Norah and her father came into the chamber with the light she would inevitably be discovered.

But they passed the doorway, and having parted with tender, loving expressions, Michael took his leave, and Norah carefully closed and secured the door.

'I could do it now,' muttered Lady Blantire to herself; 'one swift and sure blow in the passage and the deed is done, but I'll rather wait, and steal upon her when she is asleep.'

Her ladyship acting on this resolution, Norah was allowed to return to the chamber above. Poor, persecuted girl, little did she dream of the ruthless enemy that was lurking near—of the heart and hand steered to strike the fatal blow on herself and the darling child. She thought not of danger, imagined not that she was less secure than she had been on other nights, and prepared to go to rest with a heart cheered by the visit of her father.

When she returned to the chamber, the little boy lay on the couch quite awake, and on her appearance set up a cry of delight. He had enjoyed a long and sound sleep from which he had been aroused by the kiss which his grandfather had imprinted on his balmy lips. The tears of the old man lay like fresh dew-drops on his downy cheeks, and the laughing glance of the child's bright eyes was like sunshine on the sparkling flowers.

Norah took him up, kissed him fondly and sat down to give him his second supper. Full of health and young gushing life, he partook eagerly of the food she offered, and soon relapsed into the deep and undisturbed slumber of infancy.

It was now passed midnight. After leaving the child again upon the couch, she prepared to take her place beside him. But first she knelt down and recommended herself to the care of the Great Father in Heaven. Oh, how greatly did she that night stand in need of Divine protection, though she knew it not. The murderess was without, watching and waiting for her victims, and all human help was distant. Shall that prayer rise in vain through the midnight darkness? Shall the protection petitioned for be denied? Will heaven gaze with silent apathy on the deed of crime and blood? And will the watching angels interpose not to save the lives of the innocent? Will they not ask the God of justice to palsy the hand when raised to strike the blow?

INDIA & CHINA TEA COY.

Home Depot at London and Liverpool. Canada's Depot, 23 Hospital Street, Montreal.

THE India and China Tea Company beg to call the attention of the Canadian community to their directly imported Teas, which for purity and excellence will be found unequalled.

The Company have made arrangements whereby they have secured the entire produce of some of the best plantations in Assam and on the slopes of the Himalayas, and by a judicious blending of these magnificent Teas with the best varieties of China Teas, they are enabled to offer to the public Teas of quality and flavour hitherto unknown to the general consumer. These Teas are in high favour in England and France, and a single trial will prove their superiority.

The Company supply two qualities only, either Black, Green or Mixed. Their Black Teas will be found to possess great briskness and flavour, combined with colour and strength, and to be entirely different to the flat and vapid article usually sold as Black Tea; while their Green Teas are altogether free from the deleterious mineral powder so commonly used for coloring the leaf.

PRICES: Rich, full-flavoured Tea, for family use a real genuine and fine article 70 cents per lb. Finest quality procurable, one dollar per lb.

The above can be had either Black, Green or Mixed. To be had in packets of Quarter Pound Half Pound, One Pound, and upwards, or in tin canisters of 5 lbs, and upwards from the Company's Agents in all the chief towns of Canada.—N.B. All the packages are lined with tin foil paper, and the Tea will consequently retain its flavour any length of time.

Orders.—All packages have the Company's trade-mark, without which none are genuine.

HAVING disposed of my BUSINESS to Mr. JOHN McNEIL, who has been for a long period in my employment, I have much pleasure in recommending him as worthy and highly qualified to maintain the reputation which I flatter myself has been accorded to the Montreal Boot and Shoe Store since it was opened. MR. McNEIL has been a long time in your midst, and has an extensive connection in this County, which, coupled with PRACTICAL EXPERIENCE of his BUSINESS, and courteous manner, augurs well for his success, and I trust you will confer on him a share of your esteemed patronage.

A merchant only a short time in business fails and assigns, and then his Goods are called an old Bankrupt Stock. Does the circumstance of his failure convert new goods into old? RUSSELL WATCH!

A FEW REASONS THAT MAKE IT SUPERIOR TO ALL COMERS.

1st.—It proves itself a reliable time-keeper beyond all question.

2nd.—The RUSSELL WATCH being made on correct and scientific principles, it must follow as a natural consequence that it will keep time.

3rd.—Each part of which the RUSSELL WATCH is composed is a reflex of the perfect machine which, under skillful direction, it is produced.

4th.—Truth is the essential of each part.

5th.—Uniformity and conformity must therefore characterize the several parts in fulfilling the purpose for which they are made and brought together.

6th.—Reproduction, as regards watch work, is simply an application of the principle that "things which are equal to the same things are equal to one another," and if there is any merit, the RUSSELL WATCH possesses that merit to a demonstration.

7th.—The greatest variety of price, quality and size, that confidence and perfection will admit, afforded by the RUSSELL WATCH.

8th.—The RUSSELL WATCH stands pre-eminently above all competitors for public favor and patronage.

9th.—Proofs of the foregoing—the universal testimony of all Watchmakers who have sold, and the positive statements of the thousands in Europe, the United States and Canada, who have worn the RUSSELL WATCH.

TESTIMONIAL.

To Robert Cuthbert, Watchmaker, Wyndham Street, Guelph.

If Society was as perfect in its organization, and was as obedient to the dictates of truth as the RUSSELL WATCH, I bought from you to be in indicating time, evil would be swallowed up in good, and happiness would become monotonous.

G. RENNIE, Guelph.

MEMORIAL OFFICE, GUELPH, Ont., October 9, 1887.

Wheat—This grain comes in very slowly, and chiefly from the northern townships, such as Normanby, Carleton Place, and Egremont. It goes up eight cents since last week, so that it has now risen as high as \$1.55, which is within one or two cents of Hamilton quotations.

Spring Wheat—Supply increasing and prices advanced, within the last two days. The market for this grain is somewhat flat, and it may not be long so high as it is now. The highest price is about \$1.46, which is a cent in advance of Hamilton prices.

Barley—There was a lull in the business in this grain last week, but it has become a little more lively. The deliveries are larger and the price has greatly increased. An advance of 10c since last week may be noted. The common quality goes for 70 cents, but an extra sample may bring a little more.

Oats—Coming in slow, demand somewhat duller than for other grains; slight advance since last week.

Peas—Large delivery, with no alteration in price.

Butter—Little brought in, and the prices steady at from 12c to 14c.

Cheese—Very little home-made cheese offering, and all the cheese yet ready at the factories of Messrs. Shortland and Harland has been bought by Mr. Brill at 9c per lb.

WHAT a glorious country is the East, where they have no such chilling winds, and cold stormy blasts, to wreck the constitution. But yet, although the climate here is ordered thus, Nature has kindly endowed mankind with the conquering power of wielding an all-sufficient weapon against the enemy Disease. Diseases of the Throat, Lungs, Liver, Kidneys, Digestive Organs, &c., are here most prevalent, and for their cure we have nothing to compete with the great Shodhones Remedy. Oct 3-1m

Purify the Blood.—If the blood be pure the body which is formed from and by the blood cannot be diseased. But if there be any part of the body any affected, such as a boil or ulcer, even a bruise, the blood circulates through that part takes up impure matters from the local affection and carries it to the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if bereft by lightning.

Bereft by Lightning, Now, this can be remedied. BRADSTREET'S PILLS take all impure matter from the circulation, and save the general health, soon curing local affections also. Bradstreet's Pills protect from tedious times of sickness and often save life. It is sold by all druggists. Oct 3-1m

COUGHS AND COLDS.

Sudden changes of climate are sources of Pulmonary, Bronchial and Asthmatic affections. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should be at once had to 'Brown's Bronchial Troches,' or Lozenges. Few are aware of the importance of checking a cough, or 'common cold,' in its first stage. That which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. 'Brown's Bronchial Troches,' or Cough Lozenges, allay irritation which induces coughing, having a direct influence on the affected parts. As there are imitations, be sure to obtain the genuine. Sold by all dealers in medicine at 25 cents a box.

Mothers! Mothers! Mothers!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Winslow's Soothing Syrup, it will relieve the poor little sufferer immediately—depend upon it: there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price 25 cents. Sold everywhere. Be sure and call for Mrs. Winslow's Soothing Syrup. All others are base and dangerous imitations. Oct. 3-2m

READY-MADE CLOTHING. We have Reduced all our Ready-made Clothing 20 PER CENT. HOOGE & CHANCE.

PROOFS OF THE SUPERIOR QUALITY OF THE AMERICAN WATCH

Referring to their advertisement in a previous issue of this paper, the American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market.

They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches. They are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letters: PENN. RAILROAD COMPANY. Office of the General Superintendent, Altoona, Pa., 15th Dec., 1886.

GENTLEMEN:—The watches manufactured by you have been in use on this railroad for several years by our engineers, to whom we furnish watches as part of our equipment. There are now some 300 of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never kept time so correctly, nor have they done so good service as yours. In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully, EDWARD H. WILLIAMS, American Watch Co., Waltham.

NEW YORK CENTRAL RAILROAD. Locomotive Department, West Division, Buffalo, Dec. 24, 1886. GENTLEMEN:—I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found by experience that Waltham Watches are the most satisfactory of any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out, they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, and furnish them to all engineers and conductors. In my opinion it would greatly tend to promote regularity and safety. Yours respectfully, CHAS. WILSON, G. Chief Engineer, Brother of Locomotive Engineers, American Watch Co., Waltham, Mass.
