DRESS AND MANTLE MAKING

The Fashionable West End. To the Ladies: We have during the past two years contemplated the establishment of a Dress-Making Department, in connection with our other branches. The difficulty of obtaining a suitable person to take charge, has, up to the present time, only prevented us from doing so. We have now great pleasure in informing you that we have secured the services of Miss Morrison, of Toronto, a lady of first-class abilities, highly recommended to us, and we believe eminently qualified to give complete satisfaction in every respect. Miss Morrison has for the past ten years occupied the position of cutter and fitter in one of the leading Fashionable Dress-making Establishments in the City of Toronto. Miss Morrison is also an experienced Mantle maker, and all orders entrusted to her will be executed in a style equal to anything that can be obtained in the largest cities. Orders for these departments will be received on and after Monday next, the 17th of May. A. O. BUCHAN, Fashionable West End Dress, Mantle and Millinery Establishment.

Guelph Evening Mercury MONDAY EVENING, JUNE 16, 1873. Town and County News. Coor.—Refrigerators at Bond's.

MR. ALEX. METKLEJOHN, Reeve of Harrison, and his wife have left on a trip to Scotland.

INCORPORATION.—A By-law is to be introduced to the next meeting of the County Council, for the purpose of incorporating the Village of Acton.

An indigent old man named Smith fell to-day, while stepping off the floor of the Market Sheds, and broke one of his ribs. The Relief Committee intend sending him to the old country, whether he wants to go.

WINHAM had a thrilling sight the other day, being nothing short of a child four years old seen suspended outside a window 30 feet high, holding on to the sill by her tiny fingers until she was rescued from her perilous situation.

A fortune awaits the man that invents a Ladies-Patent-Adjustable-Bustle-Fitting-Seat-Back, so that a lady can sit square down without pulling up her back. Watch one try to arrange her unfortunals when she seats herself in church and you catch the idea at once.

Too Slow.—A correspondent from Hillsburg sends us an account of the base-ball match which took place between Erin and Hillsburg on the 24th ult., and which resulted in a victory for the latter. We are glad at all times to receive intelligence of any local items, but this is too slow, as our columns contained a notice of the match some time since.

THE DEPUTATION.—Messrs. Adam Robertson, Mayor; John Mair, Warden; and Joseph Hobson, President of the South Wellington Agricultural Society, left on Saturday afternoon for Quebec, to invite His Excellency the Governor-General and the Lieutenant-Governor of Ontario to open the forthcoming Central Exhibition, which commences here on the 16th September.

DOMINION DAY.—Acton intends having a celebration on the 1st of July and not only that but will have two concerts in the evening, viz. the Sons of Temperance and the English church. The Temperance people have secured the services of the Acton Band and the English Church have engaged the Silver Cornet Band of Guelph.

To Whom it may Concern.—We would call the attention of the chairman of the Road and Bridge Committee to the condition of the culvert on Queen street, opposite the house occupied by Mr. Brookings. There has already been one or two accidents at the place, the last of which narrowly escaped costing the town a nice little sum. The horse broke through, and being unable to extricate his leg, was thrown violently on his side, but fortunately without breaking any bones, though the "scratches" were numerous and severe. "A word to the wise," &c.

RAIN.—Everything that can be nourished by rain is suffering from the protracted drought. We were told by a gardener this morning that the ground was as dry as powder to the depth of several inches, and that it was only by persistent watering that vegetables could be induced to live. A great deal of useless chaff was manifested on seeing the rain pass by on Saturday. At several points around us, we hear of delicious showers doing much good. As we write, there are clouds looming up, from which we hope the rain will descend copiously ere long.

POLICE COURT. Before T. W. Saunders, Esq., P. M. Monday, June 16. Oliver Henry and D. McCrea for abusive conduct and using abusive language in Ellis's Hotel on Saturday evening, were fined each \$10 and costs. Peter Crawley was charged with using abusive language. The complainant did not appear. Susannah Hill was charged by Mrs. Lothman with using abusive language. Case dismissed with costs. Joseph McGinnis for using abusive language was fined \$2 and costs.

JUST RECEIVED at the Golden Lion—Chance & Williamson's noted cheap store—one case of Jovian's two-buttoned knit gloves in all shades and sizes. The best glove made at \$1.25.

Local and Other Items.

WINOHAM has penny readings. SMASH UP.—A smash up took place on the Great Western Railway on Saturday. A wood train ran off the track east of Meriton. APPOINTMENT.—Hedley Leeming Anderson, Esq., M. D., of the village of Clifford, has been appointed an Associate Coroner within and for the County of Wellington. SUICIDE.—Mrs. Logan, wife of Andrew Logan, a very respectable farmer living in the township of Matilda, cut her throat on Friday morning. The cause is insanity. PAINFUL ACCIDENT.—On Monday evening last Mr. Alex. Allen, postmaster, Riverstown, was kicked on the lower part of the abdomen by his horse, and suffered severe injuries. G. W. R. AIR LINE.—The Haldimand Advocate is informed that the Great Western Railway Company intend to open the Air Line for local freight on the 16th inst. Over 8,000 young salmon were placed in Dean's Creek, near Grafton, on Saturday last, by Mr. Wilnot, of Newcastle. They were about an inch and a-half in length, and one month old, and perfect little beauties. HAIL STORM.—A most terrific hail storm, accompanied with very heavy rain, visited New Lowell on Saturday afternoon, doing considerable damage to crops and property. The streets of the village were literally covered with hail stones some much larger than ordinary sized marbles. LABORERS WANTED.—The dearth of laborers in Montreal seems extraordinary. The city surveyor cannot by any means obtain the number he wants. He is prepared to give employment to 300 laborers. It is said a thousand could find instant employment in the city from \$1 to \$1.50 per day. CABLE COMPANIES AMALGAMATION.—Resolutions confirming the terms of the amalgamation of the Anglo-American, French and New York, Newfoundland and London Cable Companies were unanimously passed by the shareholders of the French and Anglo-American Companies on Friday. On Friday evening the Conservative members for Lower Canada of both branches of the Legislature, to the number of fifty, met at the St. Lawrence Hall and unanimously elected Hon. H. Languevin as leader of the Conservative party of the Province of Quebec, in succession to the late Sir George E. Cartier. VILLAGE DESTROYED BY FIRE.—An extensive fire occurred in Maxwell village on Friday, destroying nearly all the village. The cause of the fire is unknown, but it spread so rapidly that in less than an hour and a half the whole business part of the village was destroyed. The only houses saved were those of three blacksmiths. BURN AND STABLE BURNED.—During the absence of the owner from home, last week, the barn and stable of Mr. Hugh McEwen, Lot No. 6, 5th concession, Preston, caught fire, it is supposed by a spark from a neighbor's log heap, and before assistance could be secured the flames had made such progress that it was found impossible to save the buildings. A yearling calf, a fanning mill and sleigh were also destroyed. SEARCH FOR THE POLARIS.—It has been ascertained that the Junonia will proceed to Discie and Upper Navik in about a week. Her commander will be instructed to make enquiries at those places concerning the Polaris, and whether she has been heard from during last winter or spring. In the meantime the department will fit out another vessel to leave about the 10th of July to search for the Polaris, should her safety be not reported before that time. DEPUTATION TO MANITOBA.—The General Assembly of the Canada Presbyterian Church have appointed the Rev. Wm. Cochrane, of Brantford (convenor of Home Mission Committee) and Rev. Robt. Ure, of Goderich, a deputation to the Province of Manitoba, to visit the Mission Stations and enquire into certain proposed arrangements regarding higher education in Manitoba. SAD ACCIDENT.—A sad and nearly fatal accident happened in Collingwood on Saturday, to a carpenter named Matthew Anderson, who was proceeding down the Northern Railway wharf. He observed a woman walking on the track, apparently not hearing a train, which was approaching from behind. He at once rushed to her rescue, and succeeded in saving her, but he was himself knocked down and run over, the wheels passing over his left arm and leg, mashing them into a complete jelly. BRITISH JUSTICE.—The hanging of Carruthers in Barrie, Canada, yesterday, says the New York Herald, is another instance of the promptness with which our cousins across the border grapple with the criminal, and mete out full justice. As stated in our special despatch elsewhere to-day, the man in a fit of jealousy brutally beat his wife to death in the presence of their three children in December last. He had accused his wife of infidelity, but the law of the land admitted of no palliation on this account. After every legal effort had been exhausted to prove him insane, and the experienced counsel had threaded their way through all the intricacies that encompass the statute-book, inexorable justice stepped forward and proclaimed him a murderer, and the Judge very properly sentenced him to death. No false philanthropy or political sentiment was admitted in mitigation of the terrible penalty. He was executed on the day and hour appointed. Here is a lesson for New York that should be carefully read and considered. GO TO THE LION FOR lace and muslin curtains.—Chance & Williamson.

THIS MORNING'S DESPATCHES

The Pope Recovered. Conference with the Pope. Spain and Cuba. Wife-Murder. Murder in a Saloon. The Emperor's Condition. Rome, June 14th.—The Pope has completely recovered from his indisposition. During a drunken brawl in Hughes' East Houston St. Saloon, last night, Edward Kirtland, a ruffian, plunged to the hilt a long knife into the breast of James Duffy, a labourer, aged 23. Duffy threw up his hand exclaiming "I am done for," and fell dead. The murderer escaped. James Curtin, while drunk, abused his young wife at 24, Oak street, when her brother John, aged 16, and supposed to be an idiot, brained him with an axe. He will die. Mrs. Curran, of Newark, N. J., woke up yesterday to find herself sleeping with the corpse of her companion Catharine, wife of a jail bird, having died during the night. Pius Denzinger, a stone cutter of Newark, cut his wife's throat from ear to ear last night. Michael Thomas, a German aged 42, a book-keeper, at No. 65, Avenue "C," put a bullet through his head yesterday. Cause depression of spirits. New York, June 15.—The Herald's London correspondent says:—Emperor William continues seriously ill. Private advices represent his condition to be alarming. OUT-SIDE SPORTS. BASE BALL. MUTUALS DEFEAT BALTIMORES—11 to 8. On Friday, in Baltimore, the Mutuals defeated the Baltimore in their 5th game, by the above score. The game up to the end of the 6th innings, was first-class, the score standing 4 to 3 in favor of the home club. After Hall and Craver had dropped two easy flys, 6 runs were scored by Mutuals on 1st base hits, three of which were let in by York's wild throwing to home plate. Time 2h. 20m. The runs each innings are: Mutuals.....2 0 1 0 0 6 8 2 0 1 Baltimore.....0 2 1 0 1 0 0 2 2 8 A match was played on the grounds on Saturday afternoon between 7 of the let Mutuals and the 2nd nine, which resulted in the defeat of the former by a score of 14 to 7. Of course, it was all in the family, so it don't matter; the 2nd nine ain't to be sneezed at. The Pastimes of Ogdensburg and the Prescott Club had a game on Saturday, in Prescott, which resulted in favor of the former by a score of 61 to 11. The Newcastle "Beavers" went to Bowmansville on Saturday to administer justice to the Young Ontarios of that place, but went home down in the month 20 runs behind. Collingwood and Thornbury also had a match on Saturday. The score was Collingwood 92, Thornbury 15. CHESS. A scratch match was played on the grounds of the Guelph Club on Saturday afternoon between two elevens, headed by Mr. Cutten and Mr. F. J. Chadwick respectively. After a spirited match, each side playing one innings, the result was Cutten's side 48; Chadwick's side 37. A cricket match was played in the Oshawa and Whitley clubs was played in Whitley on Saturday, resulting in a victory for the Whitley Eleven by seven wickets. A match came off on Saturday, between the Young Ontario Lacrosse Club and the Young Shamrocks of Toronto on the Toronto Lacrosse Grounds. The first game lasted 1 hour and 20 minutes; the second game was won in 20 minutes; the third and last game lasting two minutes. The Young Ontario won three straight games. JUST RECEIVED at the Golden Lion—Chance & Williamson's—one case of hosiery in all sizes and colours. The best make of hosiery kept at the Lion.

Assembly Canadian Presbyterian Church.

June 12. Rev. C. Steward read the report of the Committee on Church affairs and College matters. Among other things the report recommended that Principal McVicar's salary be \$2,500, and Prof. Cochrane's salary be \$1,600. The report was adopted. Rev. D. H. Fletcher read the report of the Home Mission Record. It showed that the circulation of the Record had not varied much during the past year. The circulation exceeds 8,000. The receipts were \$2,822.84 and the expenditure \$2,813.09, and a balance of \$9.75 remained in hand. Rev. Dr. Waters moved that the salaries of Professor M. Laren, in Knox College, Toronto, and of Professor Garapell, in Montreal College, be the same as that paid to the other professors—namely \$2,000 per annum. The motion was carried. The Rev. Mr. Cochrane read the report of the Buxton Mission Fund. Professor Gregg, in seconding the motion for the adoption of the report, took the opportunity to testify in the most direct, strong and emphatic manner his perfect confidence in the whole of Mr. King's conduct in the management of the Buxton Mission and every other matter connected therewith. He would be glad indeed were this expression of confidence in Mr. King, after the slanderous manner in which he had been referred to by a certain portion of the press in connection with his work, circulated far and wide. Rev. Mr. McEherson said he had long been a member of the Committee on the Buxton Mission, and he had always found the finances properly audited and extremely correct—audited by the parties appointed for that purpose, he could assure the Assembly that he had never seen the slightest grounds for suspicion as to the management of the funds of the mission. On motion of the Rev. Mr. Torrance, the customary votes of thanks were passed, and after a brief address from the Moderator, the business of the Assembly was brought to a close. Crop Items. The Colorado potato bugs are again making their appearance in Saltfleet—Hamilton Times. Fall wheat and seeds in Manvers are splendid this year. Farmers are in good spirits.—Lindsay Post. Last Thursday, and the succeeding night, there was quite a heavy frost, which did considerable damage.—Goderich Signal. The fall wheat on the heavy clay lands in the south of Haldon and Peel Counties will not be more than half a crop.—Globe Cor. The farmers are complaining of the dryness of the weather. The fall wheat looks well in the vicinity of Seaforth.—Huron Signal. The caterpillars this season are unusually numerous, investing the shade trees and in many instances completely stripping them of leaves. They have also done considerable damage to the fruit trees.—Utah Citizen. Our reports from the different sections of this county say that the quantity of seed put in the ground this spring is much in excess of previous years. In many places our farmers, taking advantage of the highly favorable weather, have sown and planted very extensively.—Maritime States, Orford, N. S. The chances for the fruit crop of this year being a good one are considerably lessened by reason of the cold mornings we have had of late. Gardeners look gloom, and say they won't have any plums to speak of. The blossoms and leaves of the trees have dropped and look as if they had been frost nipped.—Hastings Chronicle. Thanks to several refreshing showers since our visit, vegetation has taken a new start and everywhere grain and root crops are reported flourishing. The potato bug has not yet made its appearance, but as it is reported this side of Belleville, it will probably reach us before long. Fall wheat is everywhere magnificent. Barley and oats are very promising. Corn, which will this year will be late, has been sparingly sown.—Cornwall Gazette. An Accommodating Editor. A local editor in Pekin, Illinois, introduced himself to the public a few days ago as follows: "Sensational, distressing details of revolting murders and shocking scandals respectfully solicited. Bible class presentations and ministerial donations parties will be 'done' with promptness and dispatch. Keno banks and their operations made a specialty. Accurate reports of Sunday School anniversary guaranteed. The 'local' will cheerfully walk seventeen miles after Sunday school to report a prize fight. Funerals and all other melancholy occasions written up in a manner to challenge admiration. Horse races reported in the highest style of the reportorial art. Domestic broils and conjugal infidelities sought for with untiring avidity. Police-court proceedings and sermons reported in a manner well calculated to astonish the prisoner, magistrate, and preacher. Prompt paying subscribers and good advertisers, when stricken with mortal illness, will be cheerfully interviewed, (when lying at death's door, with a view to obtaining obituary items, and the greatest pleasure will be taken in exposing your private affairs to the critical gaze of an interested public. The St. Catharines News says that a printer belonging to that establishment was charged extra on entering the circus owing to the fact that, being cross-eyed he could see double. Bowden, the St. Catharines express thief, has been nabbed in England, and Sir Thomas Henry, the Bow street Police Magistrate, has committed him to take his trial in Canada. The warrant of arrest bore the Ontario Provincial Seal. The Sultan of Zanibar has signed a treaty with Great Britain for the suppression of the slave trade, which was negotiated by Sir Bartle Frere. A manufactory of silk velvet is to be established in St. Hyacinthe, by Mr. Mathevan, a French immigrant, so says Le Courier. Small-pox has claimed a couple of victims within a few days in Toronto.

Changes in the Government.

After the funeral obsequies of the late Sir Geo. E. Cartier, Sir John A. Macdonald set to work to fill up the vacancies in his Cabinet, and to-day the names of the new Ministers are announced. Mr. T. N. Gibbs, member for South Ontario, who has been hanging round Ottawa for some time, has been appointed Postmaster General. The Hon. Mr. Campbell vacates that office, and has been appointed to the Bureau of Minister of the Interior. The other appointments are not positively announced, but it is definitely understood that Mr. Masson member for Terrebonne, will become Minister of Militia in place of the late Sir Geo. Cartier, and that Mr. Stewart Campbell, of Guysboro, N. S., will be appointed President of the Council. These new men will add little or any strength to the Government. Mr. Gibbs has never been distinguished for anything but blind subservency to John A. Macdonald and his tortuous policy. He has dabbled a little in financial matters, and it was rumoured at one time that he was to take the place of Sir Francis Hincks, when he retired, but Mr. Tilley took the management of the finances, and now Mr. Gibbs has been made Postmaster General. By means of local and other influences he has managed to retain his seat for South Ontario, but if a strong man were now being brought out against him to oppose his re-election we question very much whether he could secure his seat. Mr. Gibbs simply as a follower of John A. Macdonald, as the upholder of his Government and the defender of his every course, was bad enough, but his position as a member of the Government, and his consequent closer connection with it will certainly naturally tend to arouse more opposition, and set the Reformers to work to make a strenuous effort to ensure his defeat. We do not think that the appointment of Mr. Mason or Mr. Campbell will bring any accession of strength to the Government, either in Quebec or in Nova Scotia. The power which the late Sir Geo. Cartier controlled in Lower Canada for so many years has been disjoined, and in a great measure broken up, and no single member of Parliament or Minister can ever bring together the scattered elements. Mr. Langevin tried his best to act as the leader of the Quebec members during the late session, but it failed, and though he has since Sir Geo. Cartier's death been formally proclaimed such, yet he will never be able to exert a title of the power and influence which was exercised by the late Baronet. Sir John Macdonald, in making these appointments, has merely filled the vacant seats in the Cabinet—he has added no strength and no great amount of talent to his Government.

FATAL ACCIDENT.

On Friday last, the youngest daughter of Mr. Joseph Styles, of Mount Forest, aged about eighteen months drank some lye which had been left in a cup placed upon a table. Medical aid was obtained as speedily as possible. Remedies were applied, but proved of no avail—the little one dying in about twenty-four hours, after suffering acute pain.

The Orangeville Advertiser understands that legal proceedings are about to be taken to quash the By-law which has been voted on for the Hamilton and Northwestern Railway on the ground that illegal means were used to secure its carriage.

THE LION!

THE LION!

GREAT COMMOTION IN THE DRY GOODS TRADE

and a Tremendous Rush at our Mantle and Millinery Rooms.

On all hands we hear of dull trade: "Nothing doing," says Tom, Dick, and Harry, but it is not so at THE LION. Times better than ever. Still great bustle and activity at the leading house. The spring trade is opening beautifully, thus encouraging us to greater endeavors in the public weal; and the reason of our success is apparent. Our Goods are all direct from the manufactory, and none can do a successful business only those who buy from first hands, for which our Establishment has long been noted, and has raised the standard of our House (combined with the energy of the proprietors of the firm) to the present proud position, and more especially for the last two years, so that our daily sales are almost equal to the combined trade of the same character in the Town of Guelph.

OUR MILLINERY DEPARTMENT

Our Millinery is a complete success this spring, the taste inherent displayed by Miss McDonald is captivating all hearts, and places her high in the ranks of first-class Milliners. Combined with the genuine popularity of Miss Sutherland, thus making our rooms the centre of attraction.

5 cases New Hats and Bonnets, registered styles, secured only for our House; 3 cases, third lot, of those splendid Black Silk Parasols, supplied with the double sword—the only ones in Guelph.

\$1,000 WORTH of New Plain and Shot Silks, lovely shades, combining all the latest tints, amongst them will be found many of the new azurean green, real gems in color and brightness.

2 cases New Dress Goods this week from Bradford, Eng.; 2 cases New Fresh Black Goods.

Another arrival of 500 pieces more of the best Prints, light and dark, worth 16 cents: we will sell them off at 12 1/2 cents.

FOR SALE—A desirable Villa near Guelph, being part of Lot 35, Division A, Township of Guelph, lying on the north side of the Guelph and Fergus Road, 14 miles from the Market Square, and familiarly known as the "Valentine" lot, containing about 9 acres of land, beautifully studded with natural trees, and having two remarkably fine springs of pure water, which might be used to advantage by a lover of pisciculture. There is a very comfortable brick cottage on the property containing 7 good sized apartments with stable and driving shed. There are few such properties to be purchased around Guelph.

Also the Lot adjoining—known as the "Hubbard Lot"—containing five acres, having natural shade trees interspersed throughout. The river Speed forms its eastern boundary, and presents a very eligible site for a private residence, being a convenient distance from the town on one of the best roads.

Plans for both properties liberal, and may be learned by applying to Charles Davidson, Land, Loan, and General Agent, Town Hall, Guelph.

CHAPTER XXV.

PHILIP WESTON AND JIM FOTTS IN THE FAR WEST.

Taking advantage of the power of thought, which annihilates time and space, which can in a moment bound back into any century of the past, or away to any portion of the world how ever distant, we shall quit England for the present and carry the minds of our readers to the regions of the far west, to the sublime recesses of the American backwoods, where lies and spreads itself on every side in gigantic proportions a veritable new world—new by reason not only of its comparatively recent discovery, but also of its strange, unworked features, its limitless ranges, its different moles and manifestations of life, whether animal or vegetable, its magnificent sights and singular sounds, and on the whole the utter contrast it presents in all its experiences to those common manifestations of European life and scenery.

The golden glory of an autumn day had spent itself on the vast forests and mighty prairies of Kentucky, and the shades of evening were fast gathering and deepening over the stillness of the impressive solitude, as three men lay under a tree at the edge of an extensive clearing. They lay there to rest after a long day of arduous wandering, and meant to pass the night on the spot, for it afforded all the shelter which could be had in the locality, and was better situated for safety and protection than any place they had seen since the descending sun had warned them that darkness approached, and that they must bivouac for the night.

The place was far distant from any white settlement. The country around for a great distance still lay in its state of primitive wilderness—gloriously rich in beauty and fertility, but unpossessed as yet by the sons of industry, who would in time people and cultivate it, and turn to account its splendid possibilities of wealth and blessing. The tide of civilization, of commerce, of vital human action was surely approaching it. The pioneers of these had for some time been penetrating its silent, untrodden recesses; and now and again the forms of white men, either isolated or in companies, had traversed the glades and crossed the level prairies. But these harbingers of the change that was coming were as yet rare. The primeval conditions of the region remained almost intact, and travelling was both difficult and hazardous to a great degree. Wild beasts, in the form of wolves and other savage animals, prowled in search of prey, and the tribes of Indians, wilder and crueler still, roamed in savage freedom over what had been their own and their fathers' hunting grounds from all generations, but from which they were in rage and fury slowly driven back by a stronger race, against whose advance they were contending with all the subtilty and ferocity of their nature. Their resistance was, however, in vain, though often when adventures hunters fell into their hands, or when they made their dreaded descents on the lonely outlying settlements, the vengeance they took and the tortures they inflicted on those they overcame or captured were of a fearful character. To travel through this unpeopled region of the far west was therefore perilous, and required great courage, watchfulness, and endurance, so we can understand what was the situation of the three men who were encamped for the night under the tree just within the fringe of the forest. Repose and safety were by no means assured to them. Dangers possibly lurked near which it was necessary vigilance should detect and guard against. They therefore lay in the deep shadow of their bivouac listening to every sound, and ready to act on the defensive should attack be made upon them either by man or beast.

The reclining forms were, as we have said, three in number, and, lying motionless, could not be seen in the increasing darkness for no gleam of watch-fire lit the gloom, lest its light or smoke should betray them to cunning Indian eyes, whose near neighbourhood they had reason to suspect, for they had come upon a fresh trail that afternoon, and the experience of one of them had discovered it to have been made by a party of red men on the war path. Nothing more likely therefore than one or more of the savages might be prowling near, whose observation it was all important that they should escape.

GOLDEN LION.—Still another shipment; 502 pairs of lace and muslin curtains direct from the manufacturers.

THE POLARIS INVESTIGATION.—The Secretary of the Navy does not hesitate to say, in advance of his official report, that the testimony elicited shows that Capt. Hall died a natural death; and that the separation of those on the ice floe from the *Polaris* was accidental. He is desirous, however, of hearing the story of Capt. Bullington and his party, that both sides of the story may be fully known.

THE ACTIVE MILITIA.—Jennings, of the 19th Hussars, an officer well-known in Canada, is mentioned as the probable successor to Col. Robertson Ross, as Adjt.-General of the Canadian Militia. The report of Ross's speedy retirement, gives utmost satisfaction to all classes of volunteers. His notorious incapacity, favoritism, and frightful muddle he has made of Militia affairs, demand his removal as early as possible.

MONEY ORDERS.—From and after the first day of July next all money order offices in the Dominion will have authority to issue money orders payable at any place in British India, and vice versa to pay money orders drawn by the money order offices of British India upon them. The rates of commission will be as under, and no one order can be drawn for more than £10 sterling, but any sum may be obtained by means of two or more orders. The following rates of commission will be charged for orders:—Under and up to £2 sterling 30c.; for orders over £2 and up to £5, 25c.; for orders over £5 and up to £10, 20c.; for orders over £10 and up to £20, 15c.; for orders over £20 and up to £50, 10c.; for orders over £50 and up to £100, 5c.; for orders over £100 and up to £200, 3c.; for orders over £200 and up to £500, 2c.; for orders over £500 and up to £1000, 1c. Special care will be required in regard to the parties entered into the orders, but all the necessary information will be supplied by the postmasters. From and after the above named date, also, money orders will be procurable at all money order offices in the Dominion, and at the post-office at Fort Garry, Manitoba, at the same rates of commission and on the same conditions as orders are now granted, payable within the Dominion. In like manner Fort Garry will issue orders on any money order offices in the Dominion.

A LIVING CURIOSITY. — On Saturday morning, Mr. A. E. Kinmer, merchant, of Glen Major, informed us that Mr Stewart Marrow, farmer, residing about a mile from the village of Glen Major, has a colt, fourteen days old, which has been milked from the first hour it was born, and such is the flow of milk from it that the operation has been performed about every hour, having a bag as large, if not larger than that of its mother. The little colt is a very fine specimen, having a well developed body, of the ordinary size, and is very motherly looking. Can any of our breeders account for this prodigy, or give a similar instance? We may add that the mare and colt are doing well and in excellent health, and both will be gladly shown to any one who may feel disposed to pay a visit to the owner. Already crowds have visited the colt and we believe it creates an show astonishment as Barnum's show. — *Usbridge Journal*.

Among the quantities of publications received by us none are better than DEMOERST'S MONTHLY MAGAZINE. Iron in the Blood

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protective Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. Being Free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, insuring strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and in delicate cases, especially those from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, insuring strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

See that each bottle has PERUVIAN SYRUP blown in the glass.
