Mr. Jacob Brunner, Reeve of Downie, and a German by birth, is spoken of as his opponent.

Principles, Perhaps.
(From the Brockville Recorder.)
The Editor of the Guelph Herald has been airing his eloquence at the Conservative Convention at Toronto and giving his views upon the political situation. His remarks in reference to the Hon. C. F. Fraser cannot, be considered complimentary. We trust the Hon. member for South Grenville will not resign his position in the Cabinet in consequence of the strictures that have been funiminated by the young orator from Guelph. He must talk; it is chronic or constitutional, we are at a loss to decide which. He varies his views to suit the company in which he may be found. At one time a ramp.nt Grit—the next month a duplex Tory of the first magnitude. At the Aucaster pic-nic, at which Mr. Somerville was presented with a valuable testimonial for his services to the Reform party, ye editor of the Herald was present, and in the course of his remarks declared that he would suffer the loss of his right arm before he would prove untrue to the cause. We beg to enquire middy, very mildly, Where have you buried that arm? We would not for a moment mention the word "renegade" is connection with this subject, and we spare the Guelph Herald the trouble of convincing us that the change has been superinauced by broader views and better lights, shed by increased age, upon the political questions of the day. We are willing to acknowledge all this and even more, and we would scorn to entertain for a moment the idea that a nomination for the Local would for a moment influence in the slightest degree, of disturb the firm foundations upon which the political priciples of the editor of the Herald are based.

THE WESTERN FAIR.

The Western Fair, opened on Tacsday under very favourable auspices. The grounds are in excellent order, the buildings are in good trim, and everything is favorable for a large and successful Exhibition. The statements about the entries are somewhat contradictory. The Globe's correspondent say they are considerably less than lastyear. The decriticar again makes the unone—7000 in all on Monday—and on Tuesday evening states that 2000 more had come in. The Free Press gives them in detail on Monday, and makes the total 6155. To these must be added those made times Monday morning. The attendance on Tuesday was very small, though the weather was highly favourable. A large portion of the atticks exhibited were shown in the late Provincial and Contral Fairs.

But, lo! what a Commotion there is now in the Camp of long prices and long profits, and well may there be that Commotion, because the WONDERFUL JOHN HOGG is up and at it again.

The First Concert of the Season.

The concert season was opened on Tuesday evening by an entertainment given in the Town Hall, under the auspices of the Guelph Division Sons of Temperance. The concert was in commemoration of the inception of the Order in Cauada during the year 1644. A lengthy musical programme had been arranged, and was fully carried out.

The sttendance was fair, but not as large as the character of the entertainment deserved.

The programme opened with an overture from Vale's Quintette Band, which was rendered in their usually excellent manner. Miss Nolan, of Brantford, appeared for the first time before a Guelph audience, and sang "Esmeralda" in good style. This lady appeared also in the second part of the programme, and «Killarney," with much acceptance. Mrs. Cuthbert, of Toronto, formerly of Guelph, was heartily greeted on her appearance. She sang "Waiting," with all her old power, and received a hearty encore, in response to which she gave "Roll", Adair," with excellent taste. Later on in the first part she sang very sweelly "Sing, Sweet Bird." The seriocomic songs of Mr. Webling, of Brantford, gave comparative satisfaction, although we cannot commend his selections, He has a good voice, and is altogether a good singer of this class of songs, but motto songs like "I'd like to be a swell," and "Just the thing for Frank," are not just the thing for a select andience. Not that there is anything bad in them, tall. Mr. Webling appeared in character and gave a meeley entitled "Robinson Crusce," which smacked rather strongly of the pantomimic. In the song "Hame cam' our Guid Man at Elen," given by Mr. Maitland as an encore to "Man the Life Boat," there is a true humor that is irresistible. Mr. Maitland's songs are always highly approximated. Herr Carl Ritcher, of Toronto, on the pinnoforte, and was ac-

Matitand's songs are always highly appropried. Herr Garl Ritcher, of Toron.

L. was changed after his programme has been made up, and gave an instrumental selection on the pianoforte, and was accorded an emerge. Miss Gerrie sang very sweetly the "Three Fishers," and "Her bright smile haunts me still," and for the latter piece was recalled. She responded with "Bonnie Dundee," given with spirit. The second part of the programme was opened, like the first, by the Quintette Band. Mrs. Cathbert again appeared and gave "I love My Love," with excellent vocal effect. Messrs. Vale and Dewey played a violin duet tremarkably well. The programme concluded with a song by Mr. Webling | followed by the National Anthem, in which all took part. Miss Cossitt presided at the piano, and performed her part admirably.

We cannot close this notice without remarking the excellent appearance of the Town Hall since the much-needed cleaning it received recently. The obnoxious galley has been removed, and it is most conspicuous by its absence.

Palmerston Correspondence.

Erron.—By mistake on the part of the printer, the contract price of the new school-house in this village is made \$1,875 instead of \$1,375. We might here remark that the progress of Palmerston is well shown by the increase of the school population. The part of the village in the Township of Wallace formed a part of S. S. No. 9 in that township until this year. The average attendance in that section in 1871 was less than 40; in 1873 it was upwards of 70. The average attendance at the Palmerston school for the first half of this year was 67, and since the holidays it has been 90. The new building will contain two rooms, but if the present rate of progress continues it will be necessary to make an addition before the first of January, 1876.

Church Building Paconess.—The exterior of the Presbyerian Church, with the exception of the stairway leading to the upper story, has been finished for some time. The plastering of the upper portion is also completed. The Wesleyan Church has been plastered and the outside painted. It is of two colors, intended to imitate stone, but the imitation is not good, as one of the colors is unlike any stone we ever saw.

Others Buildings, the residence being erected by Mr. Joslin R. Brand, train despatcher, will be a very fine one. Colcleugh's Hotel, Main street, is being pushed on rapidly. Bell's Hotel, Queen street, is also well advanced. The frame of Gamble & McBain's grist mill was raised last Wednesday and Thursday. The first story is of stone, and is ten feet in height, From the stone work to the plate the frame is twenty-eight feet high, making the total height, from the ground to the plate, thirty-eight feet high, making the total height, from the ground to the plate, thirty-eight feet was \$1,475, and some extras brought it to about \$1,500. Mr. T. Robertson of Harriston was the contract-or, and the work has been done pretty satisfactorily. Palmerston Correspondence.

Robertson of Harriston was the contract-or, and the work has been done pretty satisfactorily.

ACCIENT.—Mr. Wm. Moore, of this village, was accidentally shot in the shoul-der by a pistol last Thursday morning in Toronto. The bell is still in his shoul-der, but he is doing as well as could be expected.

Winterbourne correspondence.

The late rains will much increase the root crops as well as the quality of fruit in this vicinity. Turnips and other roots have taken a new start, and promise to give a good yield. The fall wheat is looking green and healthy. The rains have caused the grass too, in the pasture fields, to start up as green and luxuriantly as in the spring, thus furnishing fodder for cattle and material for buttermaking before frost sets in.

Fires in the Province.

On Sunday morning, about six o'clock, the flax mill owned by W. Young & Co., New Hamburg, was discovered to be on fire. The alarm was given, and the townspeople turned out, and with great exertion got the fire extinguished with very little damage done to the mill. The fire originated in a heap of chaft, which is supposed to have become heated and took fire.

On Sunday night, about eight o'clock, a fire broke out in the stables of the Albion Hotel, Galt, kept by Mr. Peter Leven. The steamer was quickly on the spot, but was not required, as the fire was put out by means of buckets. There was very little damage done.

On the same evening a fire broke out in the village of Newboro, and before its ravages could be checked, twelve or fifteen buildings were destroyed.

On Monday morning, in Lennoxville, a fire broke out in a stable belonging to Mr. Brooks, and before it could be got Under control nearly the entire business part of the place was destroyed. Over thirty private residences are burned. The total loss is estimated at \$100,000.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING.

The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS NOR SCALES. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheating Felt can be made water-tight at a small expense. The Sfate Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron.

No Tar is Used in this Composition, therefore, ii does not effect the water from the roof, if turned off from the cistern before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaird. Orders Respectfully Solicited.

On reference to all our advertisements since commencing business in Guelph seven years ago, it will be seen that we never offered "To Slaughter Goods," "To Sell at Half Price," "To Sell at a Great Sacrifice Prespective of Cost," "To Sell 50 per cent. under other Houses," "To Keep the Largest and Best Stock in the Dominion."

We have carefully abstained from exaggeration, giving cts and figures only, leaving it to the buyers to judge for

Our aim has been to buy low, sell cheap to increase our to allow no house to undersell us, to give our customers a of profits, and make only one price.

Theresult has been that we have done a steady, prosper-nd increasing business, retaining old and obtaining new news. Some left us to obtain goods "at half price," but returned, as "actions speak louder than words." Hence we ontinue to conduct our business on the same principle.
