Large Tract of Timber
in Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Com-
pany of Haliburton, (Limited.)

This company has a large tract of well timbered
land about 125 miles north-east of Toronto.
There are large quantities of Cedar, Hemlock,
Spruce, Balsam, Basswood, Cherry, Birch,
Maple, also considerable Pine, Elm and Ash on
this tract. It is well served by two railroads,
one of which is about to be extended through the
centre of the property. The Company are pre-
pared to sell this timber in blocks, ranging from
5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the prop-
erty. This would be a good opportunity for
parties who are at present cut out and looking
for a new location.

Maps and plans and further particulars can be
had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Influenced by the favorable conditions
existing across the border, Canadian
white pine is exhibiting a marked degree
of strength. When it is considered that
the building season will soon draw to a
close, that the British demand has been
less active than usual, and that there is
some uncertainty as to the volume of ex-
port trade next year, it is very significant
that prices hold so firm. It has been well
illustrated this season that our pine is
wanted in the United States, as shipments
have been made to the Chicago market,
Michigan and the Eastern States. The
buying for Michigan yards has been a
feature of the year. Small lots are still
being picked up, and the yards will carry
very light stocks at the close of navigation.
The Parry Sound mills are shipping
heavily by vessel. In the Ottawa district
trade is quite brisk and prices unchanged.
General complaint is made by operators
of the difficulty in securing men for the
woods, even though the wages offered are
higher than last year. There will likely
be a reduced cut of both white and red
pine, but particularly of the latter, which
was taken out too heavily last season.
Furniture and implement factories are
buying some hardwoods. From Western
Ontario comes the report of an increased
number of enquiries. While trade is not
brisk, the movement is sufficient to keep
prices firm.

QUEBEC AND NEW BRUNSWICK.

Whenever an opinion is expressed re-
garding the spruce trade, it is that the
conditions are favorable to a large volume
of business and higher prices next year.
Although no figures are available, it is be-
lieved that the stock now awaiting ship-
ment is very small, and that the winter
ing stock at Quebec will be compara-
tively light. Enquiries received from
Great Britain prove that buyers there are
anxious to arrange for their supply for
next year. While New Brunswick and
Nova Scotia spruce does not exhibit the

same degree of strength as the Quebec
product, recent shipments have greatly
curtailed the quantity of stock in the
hands of manufacturers, and a feeling of
confidence is exhibited by the trade.
Large shipments are being made to Bos-
ton and other eastern points, where 10
and 12-inch dimensions are quoted at
\$20, and 2 x 3 and 2 x 4, 10 feet and up,
at \$16. Higher prices are named for
cedar shingles. Some small manufac-
turers are offering extras at \$3 on Boston
rate of freight, but it is known that sales
have been made as high as \$3.20. Clears
are quoted at \$2.75 to \$2.85, second clears
at \$2.35 to \$2.40; saps at \$2.10 to \$2.20;
and extra No. 1 at \$1.75 to \$1.50.

UNITED STATES.

The reports of the United States lum-
ber market for some weeks past have been
largely a repetition, and again this week
it must be said that there is a very strong
undertone and a liberal distribution of
lumber. Freight rates have advanced
and are now quoted at \$3 from Lake
Superior to Buffalo and other eastern
points. It is thought that they will go
still higher and it seems very probable that
a large quantity of lumber purchased by
eastern dealers will remain on the docks
at the head of the lakes through the
winter. There is some doubt whether
eastern dealers will have sufficient stock
to carry them through until the spring,
particularly as the east is expected to buy
quite heavily during the next few months.
In door and mill work an enormous busi-
ness is being done, and there is a pro-
nounced scarcity in several items of stock
goods. Chicago is one of the strong
points, the condition of the white pine
market there being similar to that during
1899. If anything, the demand at present
is stronger and the scarcity more pro-
nounced. No. 1 12 inch boards are in
short supply. At a recent meeting of
Chicago dealers short piece stuff was ad-
vanced 50 cents, and long piece stuff from
\$1 to \$1.50, while one or two other items
were advanced \$2. The better grades of
white pine continue to be in urgent de-
mand and still higher prices are predicted.
Eastern spruce prices are stiffening.
Drives that it was feared would be hung up
have now reached the mills, making con-
ditions more satisfactory for the manu-
facturer. Reports regarding the hard-
wood trade are somewhat conflicting.
Some dealers report an improvement,
while others are equally certain that the
volume of trade is no greater. Furniture

manufacturers appear to be buying more liberally. Laths are in greater supply, while shingles are scarce and below the demand.

GREAT BRITAIN.

The steady falling off in the volume of imports is imparting a strong tone to the British timber market. The Board of Trade returns show that the import of hewn and sawn timber into the United Kingdom for the first nine months of this year was 7,038,369 loads, against 7,136,769 loads for corresponding months of last year. While the shipping season will not close for a couple of months, the amount of chartering shows that very little stock is likely to be imported into Great Britain during the balance of the season. There is some fear lest the shippers of Norway and Sweden should overstock the market, in which case Canadian timber would be sympathetically affected. The opinion is gaining ground, however, that by next spring the market will again be on a sound footing. The reported improvement in spruce deals has been maintained, although buying is by no means active. Business has been done at £8 per standard for 3 x 9 third quality c. i. f. London, although most agents are asking £8-10s c. i. f., or £9 2s 6d landed. Spruce deals are weaker at Glasgow than at other ports. The Timber Trades Journal says that the position of Quebec spruce in the London market is a strong one, and stocks are light, some sizes being very scarce. It is learned that a merchant accepted compensation for cancelling a transaction for 3 x 11 second spruce, simply because the shippers could not obtain the goods to fill the contract. Canadian pine is likewise stronger. Although the stock of pine deals is heavier than it was at this time last year, it is pointed out that twelve months ago shipments were made much later, whereas this year practically the whole season's import has arrived. First and second qualities are very scarce in first hands.

FIRES.

Arthur Ludlam's sash and door factory at Leamington, Ont., was burned recently, at a loss of \$10,000.
A portable saw mill owned by Walter Clendennan, of Wellandport, Ont., was destroyed by fire on the 16th inst.

[Correspondence of the CANADA LUMBERMAN
Business in local lumber circles has been brisk during the past six weeks. Quotations show no change. In the better grades the maximum figures are quoted oftener than those ranging towards the minimum. The stock available for first buyers is small. In fact the supply of one line, white pine shingles, has been practically exhausted. Lath prices continue firm. Wholesale quotations given by a leading local firm are as follows: No. 1, \$2.00 to \$2.25; No. 2, \$1.40 to \$1.75. From present indications a further advance may be expected.
During the past six weeks shipments have been brisk by rail to Albany, where

the lumber was transferred to barges for New York. As the date of the close of navigation approaches, local shippers show an increasing desire to rush stock before the higher winter rates come in force. A scarcity of cars is complained of by several dealers. The rush of North-West grain has created a demand on the rolling stock that has left the local supply short. One shipper stated to-day that he has been waiting on cars over two weeks, and expects to hear daily of the cancellation of the orders owing to delay in delivery.
The local labor market has been depleted to satisfy the demand for men for the limits. Wages have advanced to an unprecedented figure. Road cutters com-

mand \$24 a month, with free board. Experienced square timber hewers are securing the top-notch fig res, \$45 a month and board. Fully 3,500 men have been sent out of Ottawa in the last ten weeks. When the mills close next month a large contingent will be forwarded. Skilled labor is scarce. Men have been sent from Ottawa to work in the Adirondacks, as well as on Canadian limits.
The lumber kings are up in arms against the recent increase in assessment, by which the lumber stock is rated as personal property for the first time. The Export Lumber Company's figures have been raised from \$20,000 to \$100,000, the W. C. Edwards Co.'s from \$10,000 to \$75,000, and the John R. Booth's from \$40,000 to \$250,000. An appeal will be made. As much of this lumber has been sold to other parties and is merely piled here during the seasoning process, awaiting shipment to the American and English markets, the local mill-men claim they shouldn't be assessed for it.

The action of Mr. W. C. Edwards, M.P., in securing the services of a doctor in his lumber camps to guard against smallpox is looked on in high favor here. Other lumbermen are considering the advisability of following suit.

The largest lumber deal recorded in Ottawa in several years was that involving the transfer of the Klock limits in the Kippewa district. The limits, which are 228 miles in extent, were sold by R. H. Klock & Co. to Robert Hurdman, of Ottawa, for \$385,000. The timber is reported to be plentiful and of a high grade. Klock & Co. still hold a considerable area of timber lands, including some 300 miles on the Teniscamingue and Quinze rivers.

S. L. Brundage, of Windsor, Ont., has secured a contract to supply the Lake Erie and Detroit River Railway with a large quantity of ties, posts and shingles.
