The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent le méthode.

#### GROUND COFFEE

OTTAWA, October 3, 1910.

WM. HINSWORTH, Esq.,  
Acting Deputy Minister of Inland Revenue.

SIR,— I have the honour to submit you herewith a report upon samples purchased throughout Canada in June and July last, as Ground Coffee. The following is a summary statement of the results of their examination:—

	Samples.
Collected by ; Sold unground.....	2
mistake. ( " as compound.....	9
Found genuine.....	260
" adulterated.....	26
	297

Of 26 samples found adulterated, 15 contained chicory only, and in amount not exceeding 10 per cent. These samples I have thought it right to indicate as *technically adulterated*, since it is fair to assume that no intention to defraud the purchaser exists. An article offered as coffee, should undoubtedly be nothing else than coffee, but so many consumers prefer a small addition of chicory that dealers frequently add an ounce or so to the pound in order to meet a known expectation of the customer.

This does not hold where the amount of chicory present is excessive (I have drawn the limit at 10 per cent), nor does it hold where roasted grain, or other starchy material is added.

The following table shows the results of coffee inspection in Canada since the year 1888:—

Year.	Reported in Bulletin.	Total samples examined.	Found adulterated.	Found genuine.	Percentage found genuine.
1888.....	3	85	41	44	52
1892.....	29	140	55	51	38
1892.....	31	141	39	102	72
1904.....	100	75	19	45	60
1909.....	172	449	45	391	87
1910.....	216	297	26	260	88

Samples not accounted for in the columns headed 'Adulterated' and 'Genuine' were classified as 'doubtful,' or 'sold as compound.' It is very satisfactory to observe that a great improvement in the character of this article is evidenced.

At first sight it might seem practicable, and perhaps even desirable, to fix a limit for chicory, beyond which the addition of chicory to coffee, without declaration of the fact, should be regarded as actual adulteration. Such suggestion will not bear criticism, and the only tenable procedure would seem to be the distinct declaration that chicory is present, whenever it has been added in any quantity however small.

I beg to recommend the publication of this report as Bulletin No. 216.

I have the honour to be, sir,

Your obedient servant,

A. MCGILL,  
*Chief Analyst.*
