NIGHT WATCHMAN GAGGED BY THREE BURGLARS AT MIDNIGHT CARPET CO. SAFE BLOWN

Daring Exploit in Parkdale—Thomas Murray Awed by Revolver—Safe Demolished and Considerable Amount Taken.

Safe blowers entered the Toronto Carpet Works on King-street, just west of the subway, at midnight last night, held a revolver at the head of the night watchman, Thomas Murray, and gagged him, blew the safe and escaped with all the valuable contents.

When the night watchman was on his rounds last night he did not notice anything in particular until, while crossing the yard, to his surprise, a man stepped up from behind him and pointing a revolver told him to put his hands up. Nothing was left but to comply, as the man was joined by two others, each with a revolver. Evidently they had heard his approaching footsteps. They then entered the building, taking him along.

Bound and Gagged.

They bound his limbs and gagged his mouth so that he could not raise his voice. Proceeding with their job they resumed operations around the safe. After working for about a quarter of an hour they rose and dragged Murray into the adjoining room. Then one of the men went back to the office.

Murray heard a loud noise and the building shook. Then, after the smoke had cleared the robbers went back. Murray soon after heard them take their departure, and managed to wriggle himself free from his bonds. The safe in the outer room was a wreck.

The sides and doors had been torn off by an explosion of nitro glycerine. The ledgers were strewn around the room with the force of the detonation. The cash drawers had been stripped of all the cash.

The loss is believed to be considerable.

Police Notified.

Murray telephoned the police department and Sgt. Watson of No. 6 police station was on the spot with a posse in a few minutes.

No trace could be found of the safe-crackers, with the exception of the fact that they had taken the night car east on King-street.

All three were clean-shaven men, averaging about 30 years of age. The tallest of the crowd seemed to be the leader, and issued the commands to the others. It was he who did the final stroke in blowing the safe.

F. B. Hayes, the manager of the company, was sent for in order to obtain the amount taken, but was not at the factory when The World telephoned at 2.30.

The Toronto Carpet Works is the large brick building on the south side of King-street, at the corner of Fraser-avenue, as you go down to the baseball grounds. It has wire screens on all the windows on the ground floor.

How the robbers obtained access to the building is not yet ascertained.

RETURN THREE MILLIONS! DEATH OF MADE ON M'CURDY

Nine Separate Causes of Action Alleging Unlawful Waste and Misuse of Company's Funds.

New York, March 23.—The first complaint in a series of eight actions already begun by the Mutual Life Insurance Company against ex-President Richard A. McCurdy, his son Robert H. and the firm of Chas. Raymond & Co., the company's former Metropolitan agents, was made public to-day.

This particular complaint is against ex-President McCurdy, and contains nine separate causes of action, each charging Mr. McCurdy with the waste of large sums of money belonging to the company, thru alleged unfaithfulness and neglect of duty.

The first five causes seek recovery in the aggregate of \$295,500, as alleged contributions to political parties since January 1, 1885. These payments are said to have been "unlawful and improper," and authorized and permitted by ex-President McCurdy "thru want of ordinary care and diligence."

The sixth cause seeks to recover \$225,000, embracing the \$50,000 alleged increase of annual salary drawn by the ex-president since June 1, 1901, without authority, as is claimed.

The seventh cause seeks to recover \$600,000 as the aggregate of respective sums of \$25,000 drawn quarterly from the company for the last six years of Mr. McCurdy's presidency, on the voucher of the committee on expenditures.

The eighth cause deals with the relations of Lewis A. Theobald, son-in-law of ex-President McCurdy, with Raymond & Company, and the gratuity of that firm of commission received by that firm.

The final cause deals with the sum of \$1,282,841, received by Robert H. McCurdy, as commission from 1886 to November 1905, as superintendent of the foreign department, and charges that by reason of "unfaithfulness and neglect" by the president of these commissions had been rendered exorbitant and unnecessary.

DUTIES OF POSTMASTERS COMPARISONS ARE MADE AND QUERIES ASKED

That Dismissal at Cannington Leads Up to Question as to Why Some Officials Are Privileged to Do Extra Work.

Ottawa, March 23.—(Special.)—The house showed a disposition to-night to bait the new postmaster-general. Col. Sam Hughes directly charged him with suppressing important facts in his possession regarding the removal of the postmaster at Cannington. Indeed, that case arises almost daily to plague the new cabinet minister. This removal was made on the ground that the postmaster was engaged in the grocery business, and Mr. Fowler (King's N.E.) and others have not been slow to point out that Hon. Mr. Aylesworth, while a minister of the crown, is actively engaged in the private practice of his profession.

Mr. Hughes flatly denied that the postmaster was engaged in business, and insisted that full documentary proof of that fact had been for several days in the possession of the postmaster-general. He made some reference to the latter's connection with the Gage case amid laughter and cheers from the opposition. Mr. Aylesworth is treating property questions from the conservative side with an indifference amounting to disrespect, and there is a disposition to give him some trouble before he is chummy with his estimates.

Comparisons.

Mr. Clement (Conservative, Kent) brought up the Cannington case to-night and compared it with the situation and conduct of the postmaster at Leamington. This officer receives \$1200, as against \$900 received by the postmaster at Cannington, and enjoys besides a multiplicity of local offices, which require considerable time and bring in considerable money. He is police magistrate, collector of water rates, secretary and treasurer of the school board, etc.

Mr. Wilson (Lennox and Addington) spoke of Dr. Leonard, postmaster at Napanee. He had no personal feeling against the postmaster, but his salary was certainly double the salary enjoyed by the postmaster at Cannington, yet he had a large and important practice as a physician, and was the medical officer for the county, and also for the G.T.R.

Sunday Mail Delivery.

Enquiry was made as to what was the rule in the postoffice department as to permitting boxholders to enter boxes of the postoffice and obtain their mail on Sunday. Mr. Aylesworth answered that no postmaster was permitted to do so, unless there was a general desire for it in the community.

As to the many enquiries in the gentleman was compelled to admit that he had never heard of the postoffice. He had read about them in the newspapers, but was unable to furnish any information about the investigation.

It's Up to Fielding Now In Regard to Revelations He Was Told Some Things

Supt. Fitzgerald Passes Responsibility on to Minister of Finance—Yesterday's Session Was Quiet But Not Reassuring.

Ottawa, March 23.—(Special.)—There is a growing disposition in the insurance department to pass on the responsibility.

When Superintendent Fitzgerald first went on the stand he was quite inclined to refer examining counsel to Mr. Blackadar. This became so manifest that Mr. Fitzgerald was permitted to stand aside and Mr. Blackadar's examination began. There was, again, general sympathy with Mr. Blackadar. He seems to have been honest in his work and to have reported many transactions irregular and worse.

Still beyond a certain point he refused to accept the slightest responsibility. Over and over again examining counsel were referred by him to the superintendent. Accordingly, on Thursday morning Mr. Fitzgerald reappeared, his buoyant presence and cheery tones contrasting brightly with the address and appearance of Mr. Blackadar. The revelations concerning the Manufacturers Life depressed him a trifle yesterday afternoon, but this morning he was light-hearted and cheery as ever. At the very first opportunity he relieved himself of all responsibility.

Fielding is Responsible.

"When Hon. Mr. Fielding refers to the views of the insurance department," he explained to Mr. Shepley when shown a letter written by the minister

BURT COLLAPSES IN BOX AFTER A FUSILADE OF QUESTIONS

Crown Attorney's Endeavor to Glean Information as to Banking Methods Ended in Sensational Manner.

With the temporary collapse of G. R. Burt in the witness box shortly before half-past four yesterday afternoon, the proceedings in connection with the Phillips investigation in the police court abruptly terminated for the day.

Burt had been subjected to very stringent examination on the part of Crown Attorney Curry. Burt at last appeared to be laboring under keen bodily distress, a state of affairs which Magistrate Denison at once noticed.

"Would you like a chair?" asked the colonel sympathetically, but the witness replied in the negative. A few moments afterwards, however, he tottered and fell in the box, making inarticulate sounds. "Send for Dr. Sheard," directed the colonel. Water was procured and Mr. Burt was placed in a recumbent position on the floor with a ledger as a pillow.

The unhappy witness was soon restored, however, and that the services of the doctor were not required. Crown Attorney Curry took active part in the bringing round of Burt. The investigation ended for the day and will be continued Tuesday.

Phillips yesterday had again that smile and air of general insouciance. Miss Lillian Hudson was again absent, Georgia Hudson stating that her sister was ill.

In accordance with his information on the previous day, Crown Attorney Curry produced during the morning certified copies of the affidavit made by Joseph Phillips in which he was sole owner of the List Piano Co., and also a similar one of G. R. Burt in September, 1905, claiming that he was the owner. But Mr. Curry submitted no further one, in which Joseph Phillips stated under oath that his partnership in the List Piano Co. was dissolved.

"I can't show that," said Miss Eva Hall, when questioned as to the whereabouts of the detailed entries of the cash paid to the List Piano Co.

Robins' Story.

V. Robins, director and secretary-treasurer of the York County Loan Society, was asked by the crown attorney if there were any such security as a mortgage for a loan to Burt mentioned in the affidavit, and again as a loan. "I never saw a mortgage for it," replied Robins.

"What authority was there as treasurer to pay the first advance to Burt in 1905?" Mr. Curry asked.

The witness did not object to the figures. Minutes of the board meetings should give the information.

Robins was not aware that Phillips was the sole partner and owner of the piano company. The only person he knew of in connection with it was Burt. He could not say anything about the larger loan, nor could he witness any remembrance of the first loan, save that it did not come before him.

THE INSURANCE DISCUSSION.

"FRANKNESS" IN THE WEST.

Calgary, Alta., March 23.—The insurance companies have begun to hedge in the west. They are busy manufacturing public sentiment. The Canada Life is buying whole pages in western papers and filling them with reading matter. Here is a characteristic introduction in a full page of reading matter printed in a Calgary paper:

Men who are posted say We're the best Clothing in town. Ask any of the good dressers you meet anywhere. You'll find that they always favor this store. Any particularly nice thing you want to wear you'll be apt to find it here. It will be right, too. If it's a Suit, there will be just the right number of buttons, on the Coat—just the right roll to the lapel—Coat the right length—just the correct shape to the Trousers, etc., etc. The price of the Suit will be just right, also. In short this is a just right Clothing House.

FUNERAL OF JACOB BECK. Remains laid at Rest at Preston Beside Those of Wife.

Preston, March 23.—(Special.)—The remains of the late Jacob Beck, father of the Hon. Adam Beck, arrived this morning from Detroit and were interred beside the remains of his wife in the Preston Cemetery, where but two weeks before his sister, the late Mrs. John Clare, had been laid to rest. Four sons and two nephews of the deceased acted as pallbearers, and his son-in-law, the Rev. J. Dickie of Berlin, Germany, conducted the services at the grave. The Preston Progress in reviewing his life's history, says:

"With that keen business sagacity which was characteristic of the man Mr. Beck utilized the power of harnessing its swift flowing waters so that it would furnish power for a saw mill which he erected on the site where the wood barn of the Pattinson mills now stands. It is rather a remarkable and an unique fact that a half a century later his son, the Hon. Adam Beck, should occupy the position as chairman of the provincial government commission, whose object is to develop and render available for provincial manufacturing purposes, electric power generated by the greatest water power in the world, Niagara Falls, and that another Prestonian, George Pattinson, M.L.A., should be associated with him on that commission."

are not permissible under the law; but that he can do nothing about it. That is a matter for the policyholders to tell us; and yet probably not one policyholder in a thousand knows anything about it. Now Mr. Blackadar gives us an account of the "writing off" and "writing down" and "writing up" of the securities held by one of the insurance companies which seems to have been almost a confining to him as it is to the rest of the community. Now if the policyholders are to be protected properly, Mr. Blackadar, or somebody, ought to be able to come before us and give an authoritative statement as to what this all means—whether it was justifiable or not to the last detail—whether the securities would have been so regarded by an independent and informed party.

HARPELL REPLIES TO HOME LIFE.

Editor World: Those who are interested in and are to be benefited by a thorough examination into the affairs of Canadian life insurance, should do all in their power to protect the insurance commission against the excellent work they are doing. For this purpose I hope you will be good enough to allow me to reply to the letter of J. K. McCutcheon, managing director of the Home Life Insurance Company.

This gentleman claims that it is "most unfair" to extract startling facts regarding the management of the company from the government officials and to allow it to get into the press without giving something more, which would lead the public to believe that his company is being managed much better now. But evidently the insurance commissioners prefer to wait until they have had an opportunity of satisfying themselves on this point before taking such a course.

The manager of the Home Life does not seem to be so particular about his own statements. He says "it is quite true that the management of 1904 (which is not the management of the company to-day)." When at the same time he must know that one of the vice-presidents of his company to-day held the same position and at the same time was president of one of the subsidiary companies of the Home Life in 1904.

He claims that the information given before the commission was ancient history; whereas, as a matter of fact, it pertains to the affairs of his company, which were reported to the government report. It can hardly be regarded as ancient, if it should have been included in the last official report that has come from the insurance department. I say "should have" because, it seems to me, if the inspector had reported some of the correspondence and criticisms he is now giving to the commission in the blue book for one year, he would not have had to repeat it. But such a course, or any other for the same purpose, is simply out of the question, where an official allows his responsibility to be as lightly upon him as did the insurance inspector.

Mr. McCutcheon seems to feel that if he can leave the impression that such information is ancient history he will have proved his point that it should not have been investigated. He seems to be entirely unmindful of the fact that many of our policyholders are holders in the Home Life, when these irregularities were going on, still hold the same policies, and that the settlements of these policies will bear all the ill-effects of any mismanagement that occurred during the time that he held misstatements.

As a correspondent writes with regard to the letter to Mutual Life directors: Mr. Burrows of Belleville was properly elected a director of the Mutual Life. When the election was announced the company told him that he could not be a director and hold his contract as agent. Mr. Burrows thereupon declined the offer and was not a director. Regarding the paragraph that he had a contract so much more liberal than that of any other agents of the company, Mr. Burrows had been with the company nearly thirty years, and his liberal contract was made many years ago.

INSURANCE "WRITING UP."

Montreal Star: The more the country reads of the evidence of the investigation, the less they will like it. Nothing could well be said in favour of the security of the "trust funds" in the hands of the insurance companies than to discover the investment of the inspection department appear to be able to elicit. They seem to leap over the books of the various companies—often books, as Mr. Shepley says, showing "very interesting information on the haphazard meeting with a letter round, by an official of the interest company."

but Mr. Junkin, willingly or unwillingly, has allowed himself to become the outspaw of stronger men on the directorate who have had access to the treasury funds for their own speculative purposes.

STERLING BANK'S MANAGER.

F. W. Broughall Has Had Envious Career in Financial World.

The appointment of F. W. Broughall, a son of Rev. E. J. Broughall, rector of St. Stephen's Church as general manager of the new Sterling Bank, is regarded with satisfaction, and by the younger members of the banking fraternity, especially. Not that Mr. Broughall is a green hand in the business, for he has been connected with the Dominion Bank for upwards of twenty years, but because he is looked upon as a man who has not attained middle age.

Mr. Broughall's experience has been varied. He has occupied every position in the bank, and understands the work thoroughly. He entered the Dominion Bank in 1885 as a junior, and his position with that institution for the past year has been assistant manager of the headquarters branch in Toronto. The bank officials were quick to recognize his capacity, and within six months after his entering the bank, after being educated in the Trinity College School at Port Hope, he was made assistant cashier at the Brantford branch. For three years he remained in that town, and then was transferred to Orillia. From that place he came to take a position in the Market branch of the bank. After four years in this office he was appointed accountant in Montreal.

About five years ago he came back to the city, and was given the position of manager of the savings department at the head office. Then the Cottingham-street branch was opened, and he was placed in charge of the same, and he was promoted to the position of assistant manager about a year ago. Mrs. Broughall is a daughter of H. S. Strath, manager of the Trader's Bank.

HAVE YOU A HORSE?

If So, You Will Be Interested in Knowing About "Nerviline."

Mrs. Nellie Killman of Fredericton, N. B., says: "My father owned a beautiful horse. One day it was seized with colic, and we thought it would surely die. One or two remedies were tried, but they didn't cure the horse's suffering. We then put a full bottle of Nerviline into a pint of water and gave to the horse. It helped, and in an hour we gave him another dose. It cured. Diluted with oil, Nerviline makes a capital liniment and we can strongly recommend it."

THE BEGINNING OF THE TROUBLE

Is the Time to Stop It—And the Means of Stopping It are Provided by Dodd's Dyspepsia Tablets.

Have your meals become of interest to you simply because of the trouble they bring? Is your appetite gone? Do you get up in the morning with a dark brown taste in your mouth? Is your head muddled and sort of half-aching? Is your day's work a burden? Do trifles worry you? If you have any of these symptoms it is time to pay attention to your stomach. It has been overworked and needs help. Attend to it at once and you will drift into indigestion and from that to Dyspepsia. Help your stomach with Dodd's Dyspepsia Tablets. They never fail to tone the stomach and bring it back to a healthy condition.

AGAINST THE JEWS.

Editor World: The rather lengthy and labored article in your issue of today under the heading "The Jews" is a piece of work from one who is open to conviction on the point at issue between his co-religionists and the Lord's Day Alliance.

It must be admitted that it would be impossible for the Jewish people to guarantee in any kind of a satisfactory manner that they would do their work on Sunday without interfering with or annoying their Christian neighbors.

The rabbi states that the Rev. Dr. Hill forgets the debt he owes the Jews, etc. But let me ask, what had the Jews done for the Jew claim we owe them a debt of gratitude for doing what they could not help doing, but rebelled against, and what was only done by the working of the Spirit of God?

But apart from this even the history of the Jewish people themselves would seem to show that to permit a separated people to dwell among them and have their habit and modes of life and worship tolerated, would naturally result in the destruction of higher ideals—of the worship of Baal and other idolatries and unmentionables in the olden time.

It can hardly be contended that the Jews of the Jews of today lead to anything higher than we have, and as it is not to the religious faith, but to the Canadian people at large, that the Jews owe their present position in this country, if the latter have no sense of gratitude for it, there is all the more reason why we should continue to do our duty to ourselves as Canadians, printing by the experience and light we have, and not going back to invite unprofitable history to repeat itself.

Geo. Bell, Toronto, March 22.

SIR JOHN THOMPSON.

Editor World: Please answer thru the columns of your paper what honor was conferred on Sir John Thompson by Queen Victoria prior to his death. When was he knighted?

W. Glen, Clinton, March 21.

Sir John Thompson assisted the British representatives on the Fisheries Commission at Washington in 1887, and was created a K.C., M.G., in August, 1888, for his services.—Ed. World.

WANT THAT CONVENTION.

Laurier Club Refuses to Change Its Own Mind.

A proposition to rescind the motion recently passed by the Laurier Club in favor of holding a provincial convention of the Reform party in Toronto during the coming year was voted down at a meeting of the club in Wardens Hall on Spadina-avenue last night.

A good representation was present at the meeting, but the prominent speakers who were scheduled for the evening did not put in an appearance. They sent regrets.

Press Stays Out.

Montreal, March 23.—(Special.)—The members of the harbor commission adopted a resolution to-day excluding the press from their meetings till further orders.

The best you can say of some people is as little as possible.

CRIMINALIZE THE LIQUOR ACT

Temperance Body Objects to Local Option Voting and Other Clauses.

Approval qualified with some dissatisfaction touching certain of the provisions is the attitude of the executive of the Canadian Temperance League towards the government's new liquor license act.

"Resolved, that we place on record our approval of many features of the new license act, and believe the same to be in the interests of temperance, but as a league we deplore the clause requiring a three-fifths vote to bring local option into force as retrogressive, also the clause permitting liquor licenses to be issued to steamboats and dining cars on railways as exceedingly dangerous to the interests of the traveling public."

Wm. Munna was mover and A. M. Long second of the resolution which will be forwarded to Hon. Mr. Hanna.

In view of the opening on Tuesday of the provincial convention of the Dominion Alliance, these delegates were appointed: J. S. Robertson, president of the Canadian Temperance League; Mrs. Cox, Mrs. Partridge, Mrs. Finningley, Mr. Snooks and John Armstrong.

The convention, which will last for two days will have as a central topic of discussion the new government liquor act. Committees will be appointed the first day, and will report on the second, on such matters as campaign organization and literature, new legislation and political action.

"Wholes in the Law," and "Arguments of the Anti" are papers which will be read on Tuesday morning. Rev. A. M. Milford, Clanton and Rev. W. W. Coone for local option work, and the results of local option will be treated by R. W. Little and Owen O'Connell.

The convention will be held at the Hotel Marlborough, and will be addressed by leading workers.

Preserved in the Ice. In an almost perfect state of preservation and easily recognizable, the dead body of a guide named Nagi, a native of Aosta, Italy, who fell into a crevasse in 1877, near the summit of Monte Rosa, has just been recovered from the mountain in company with Milanese Alpinists when he suddenly disappeared, and the cord which bound him to the others was cut by a sharp piece of ice.

There are three periods of a woman's life when she is in need of the heart strength which nerve toning, blood enriching action of

MILBURN'S HEART AND NERVE PILLS

The first of these is when the young girl is entering the portals of womanhood. At this time she is very often pale, weak and nervous, and unless her health is built up and her system strengthened she may fall into a condition or be a weak woman for life.

The second period is motherhood. The drain on the system is great and the exhausted nerve force and depleted blood requires replenishing. Milburn's Heart and Nerve Pills supply the elements needed to do this.

The third period is "change of life" and this is the period when she is most liable to heart and nerve troubles.

A tremendous change is taking place in the system, and it is at this time many chronic diseases manifest themselves. Fortify the heart and nerve system by the use of Milburn's Heart and Nerve Pills and this side over this dangerous period. Mr. James King, Cornwall, Ont., writes: "I have been troubled very much with heart trouble—the cause being to a great extent due to the fact of my having been taking Milburn's Heart and Nerve Pills for some time, and mean to continue doing so, for I can truthfully say they are the best remedy I have ever used for building up the system. You are at liberty to use this statement for the benefit of other sufferers."

WEST HEARD MACEDONIA CRY GAVE MONEY TO AN IMPOSTER

"Rev. J. J. Day" Had Thrilling Story to Tell in Behalf of Imperiled Orphans.

Roseland, B. C., March 22.—In November last Rev. J. A. Day, D.D., visited this city and made an appeal for the children of the Macedonian Oppanage at Ashanta Rogea, Macedonia, stating that their parents had been foully and cruelly murdered by infidel Turks, and that he desired to find homes for them among Christian families in order that they might grow up amid moral surroundings and influences. It was only at the peril of his brother's life that he was out here seeking homes for the orphans, and his brother had become hostage for his return, and unless he went home within a certain time it was hard to tell what the Turks would do to his kinsman. He preached in the Methodist church, and his recital of the wrongs suffered by his fellow Christians and of the orphans in Macedonia left but few eyes without tears in the church. Children under ten years could be had for nothing by those who desired to adopt them, but between the ages of 10 and 15 years it was necessary to put up \$50 each to pay for their passage from Macedonia to Roseland. A number put up \$50 and he gathered together \$500 in this city and vicinity. Besides this he worked nearly every town of importance in British Columbia, and then went to Alberta and Manitoba. It is certain that in this way he got at least \$20,000. The last heard of him he was operating near Medicine Hat in Alberta.

One of the contributors in this city wrote to the Macedonian orphanage to ascertain when the orphans, whose fare he had paid was coming, and received a reply that there were no such orphans and there was no such individual as Rev. J. A. Day, D. D. The police are endeavoring to locate him.

IS A BAPTIST NOW.

Rev. S. L. Mitchell, a Wycliffe Graduate, Changes His Church.

Mitchell, an Anglican rector of Chicago, has been called to the pastorate of the First Baptist Church of Duluth, and, it is alleged, has given notice that he will accept the work.

Mr. Mitchell is a Canadian, and was brought up as a pronounced "Evangelical," and as a boy of fifteen joined the organ in the Baptist house of worship in Woodstock, Canada, at which time he was "immersed." He graduated at Trinity College, Toronto, and at Wycliffe Hall, an "Evangelical" institution. In 1887 he was ordained to the diaconate by the present Archbishop of Montreal. He crossed the international line shortly after, assuming charge of Christ Church, Eastport, Maine, and not long after accepted his most recent work, the rectorship of St. Martin's Church, Austin, Chicago.

Doctors advance different theories as to the cause of asthma. "Catharhose," and asthma won't hang round very long.

No room for doubt—Catharhose isn't an experiment. It has been used permanently and quickly, like Ed. J. O'Connor of Sault Ste. Marie, Ont., who writes:

"From my boyhood I have been a constant sufferer from asthma and catarrh. My nose and throat were always stopped up with mucus, and I had dropping in the throat."

"Catharhose was a godsend to me. It has made me entirely well, and I speak of it just as I found it."

Accountant Students Dine. The chartered accountant students held a dinner at Webb's last night, which was attended by a large number of students and several prominent members of the institute. The guest of the evening was F. H. Macpherson, F. C. The chair was occupied by H. R. Wellington, president of the association, and the arrangements were in the hands of G. Noble, as secretary.

STORY OF CHURCH MORTGAGE

Lansdowne Ave. Baptist Rejoice at Riddan of Millstone.

"The millstone has been lifted from your church's neck; the clouds have cleared; you are soon to have a pastor, and your spiritual outlook should be most hopeful," said Fred H. Tracey, chairman of the Baptist Church extension committee, to an enthusiastic gathering in Lansdowne-avenue Baptist Church last evening. The Ladies' Aid had planned the social as an occasion for jubilation for, as S. J. Moore (chairman) put it, "the church was at last lifted of the slur on its name, and they were called together to learn the settlement of old troubles and to rejoice."

SEAS MOUNTAINS HIGH.

Immigrants on Montezuma Had a Rough Time.

St. John, N. B., March 23.—(Special.)—The 880 passengers bound for Ontario and the Canadian west who arrived here to-day on the C. P. R. steamer Montezuma, have ended one of the most terrifying passages on record. On March 15, there was an alarm of fire on the ship, immediately followed by a panic in the steerage, into which smoke began to pour. It was only a slight blaze, however, in the bunkers and was easily extinguished. The voyage was one continuous contest with mountainous seas and the heaviest head winds the big ship ever passed thru.

There was one birth on board. An ape has no use for an apron, nor monkey for a monkey-wrench. You may play a pair of oars with questions, but they won't answer.

Just as soon as the weather becomes a little more sociable for that kind of thing, workmen will commence a six-story addition to the Grand Union Hotel at Front and Simcoe-streets. Ideas from the finest hotels in America have been collected by Architect J. W. Suddall, and as the outcome he has prepared plans which will place the Grand Union much further up in the front rank of Canadian hotels.

Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-treated their stomachs by eating or too much eating, by consuming alcoholic beverages, or by too close confinement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in the thin and thin-blooded person, do their work with great difficulty. As a result fatigue comes early, is extreme and lasts long. The demand for nutritive aid is ahead of the supply. To insure perfect health every vitality—such as nervous and muscle should take from the blood certain materials and return to it certain others. It is necessary to prepare the stomach for the work of taking up from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the whites which later came to the knowledge of the settlers and which are now growing rapidly in professional favor for the cure of obstinate stomach and liver troubles. These are: Golden Seal root, Queen's root, Stone root, Bloodroot, Mandrake root. Then there is Black Cherry bark. The medicinal principles residing in these native roots when extracted by glycerine as a solvent make the most reliable and efficient stomach, tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery. Where there is a slight biliousness, or nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the efficient stomach, tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery. Where there is a slight biliousness, or nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the efficient stomach, tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery.

GIVES TWO REAL GOOD REASONS

For Believing Dodd's Kidney Pills Cure All Kidney Ailments.

Cured His Backache of Twenty-Five Years' Standing and Satisfied Everyone He Recommended Them to.

Economy Point, N.S., March 23.—(Special.)—George S. McLaughlin of this place gives two splendid reasons for his belief that Dodd's Kidney Pills are the one remedy for kidney ailments. Here are the two reasons in his own words:

"I was troubled with lame back for 25 years or more, sometimes so severe that I could not turn myself in bed. One box of Dodd's Kidney Pills cured me, and I have had no return of the trouble since."

"I have recommended Dodd's Kidney Pills to a number of persons who had kidney trouble. All who have used them have been benefited or cured."

Dodd's Kidney Pills not only relieve all kidney diseases, from backache to Bright's Disease, but they absolutely cure them. But sometimes where one or two boxes relieve it takes more to make a complete cure.

Montreal, March 23.—(Special.)—Mrs. Johnny Rainville, whose husband was murdered at St. Prosper, Quebec, in August last, has given a rather strange interview.

B. Rancour is now on trial for the murder. Mrs. Rainville is only 18, having been married at 15. "She declares the accused had always been her husband's friend and she does not believe him guilty of the crime."

"I would not harm a fly," she added, and "I did not have Rancour arrested; it was the people of the court."

"Did your husband leave you anything?"

"Nothing. No house, no land and no insurance, not even a souvenir. My father-in-law was in debt and before Johnny Rainville was under ground he had sold everything in the house; they even took my clothing."

MARINE STORES BURN.

Ottawa, March 23.—(Special.)—A fire occurred this evening on Sussex-street in the building occupied by the government as a store room for marine stores, the three upper stories of the structure were destroyed and the stock of the White Star Clothing Company on the ground floor, was badly damaged by smoke and water. The loss is estimated at about \$10,000. The origin of the fire is unknown.

The geological museum, only three doors distant, was for a time in danger.

Conditions Under Which Insurance Companies' Directors May Be Guilty of Larceny.

New York, March 23.—Judge O'Sullivan in his charge to the grand jury to-day concerning insurance companies' expenditures, said:

"Contributing to a political party is not necessarily a crime. It may be, and you may presume it to be an innocent transaction. Individuals and possibly certain corporations may contribute to political parties as they may contribute to anything else and be guiltless; but they may contribute in such a manner as to render the transaction criminal. You are to inquire if in this case an act prohibited by law has been committed with the intent which makes it a crime.

"Your question assumes that the intent governing the contribution in the case of the said corporation is in the favor of political party that said political party if successful to the then ensuing campaign would prevent any legislation or investigation which might affect the pecuniary interests of said corporation, or would secure legislation which would advance the pecuniary interests of the corporation or would at least prevent the enactment of legislation which would injuriously affect the pecuniary interests of said corporation or hostile investigation of its affairs.

"Without going into the apparently questionable nature of such purposes you can not infer intent good or bad before inquiring into the facts and circumstances surrounding the transaction. But if intent to deprive or defraud the true owners of his property be established, then you may find that the crime of larceny has been committed. It is not within the province of the court to say whether there is intent. That is for you, gentlemen, to determine from all the facts and circumstances tending to disclose or mislead persons having a beneficial or financial interest in the property to dispose of you may consider that with regard to intent.

"If in order to conceal a misappropriation of property, an officer or other person in the employment of a corporation, falsifies any account or other writings belonging to or relating to the business of the corporation he is guilty of forgery under section 14 of the penal code. If you find evidence revealing such a condition you may consider that with regard to intent disposing of corporate funds.

"It is not within your province to

speculate as to how a crime might have been avoided. It is your duty to determine whether crime has been committed, and to do that you should proceed without delay to consider all the legal evidence available. If you find that a person with the intent to deprive or defraud the true owner of his property or of the use and benefit thereof, having in his possession, custody or control as trustee or officer of any corporation any money or property, appropriates the same to his own use, or that of any other person other than the true owner or person entitled to the possession thereof, then he steals such property, and is guilty of larceny. It is not necessary to find that the person taking or appropriating property does so for his own use or selfish benefit."

Some Should Be in the Money in Singles and Doubles—Notes.

Louisville, Ky., March 23.—(Special.)—The Canadians bowled their final games on the tournament alleys to-day, entering five teams in the doubles, and sending up ten men in the individual events. While no remarkable scores were made by them, the final should be within the money. The play in Cincinnati and Detroit on their way home. Several of the Toronto men attribute their relatively poor showing to the fact that their balls were over the 60-pound weight limit, caused by absorbing moisture in this climate. Five balls were thrown out by the officials for this reason. The scores follow:—Doubles—

If Reasonable Offer is Refused for Beach Right of Way—A Masonic Event.

Hamilton, March 23.—(Special.)—The Toronto and Niagara Power Company has settled with all the owners of shacks on the beach, which will be effected by its railway and power lines. The 29 owners on the north side of the canal asked \$22,000, and the company gave \$21,000, subject to a satisfactory agreement being arrived at between the city and the company. The city wants to tax the company \$26,000 for the sixty-six foot strip across the beach, and the company offered only \$3000 to the finance and harbor and beach committees this afternoon. The aldermen will inspect the beach next Tuesday, and resume negotiations in the evening. Mr. Royce, for the company, said he did not wish to make a threat, but declared it would be necessary for the company to expropriate if the city did not consent to a reasonable sum.

The Masonic trowel reached Hamilton this evening on its trip around the world. It was escorted from Buffalo by about 100 members of Washington Lodge. The visitors were met at the T. H. & B. station by the pipers band, and were entertained by Barton Lodge at a banquet at the Royal Hotel this evening. On behalf of the Buffalo delegation, W. Bro. H. Chase handed the trowel over to W. Bro. John Hoodless, W. Bro. George Moore presided at the banquet. A gavel was presented to Mr. Chase by W. Bro. C. E. Cameron, I.F.M. The trowel started out on its journey four months ago from New York, and will be forwarded from Hamilton to Detroit. No lodge may keep the trowel longer than thirty days.

It also showed that several firms had been struck off the list for cutting prices.

A new claimant to the estate of Miss Todd, who died in Hamilton, leaving \$55,000, has turned up in the person of Margaret Jordan, Brockton, Mass. She says that while in Hamilton the late Albert Williams' cafe, Yonge-street, was the place where she met the late Mr. Williams, and that she had been his mistress for several years.

Back From India.
Ex-Ald. Frank E. Walker returned this morning from a trip to the West Indies, very much improved in health. He acted as master of ceremonies at the Dominion Council Royal Temperance Convention, spent some time in the closing day of the convention in considering the question of insurance rates. It was decided to bring the older members up to the general standard by taking their attained age in 1900 (the time the new scale was introduced) and to add 15 per cent. increase all around, which was out the original scientific insurance estimate at the 1900 session. The idea then was that the increased scale would be too much for many members, but it was thought the 15 per cent. could be added safely now.

ACUTE INDIGESTION.

A Trouble That Causes Untold Suffering to Thousands Throughout Canada.

"I suffered so much with acute indigestion that I frequently would walk the floor through the long nights," said Mrs. Thomas Vincent, residing at 98 St. Peter street, Quebec. "I had been afflicted with the trouble," she continued, "for upwards of twenty years, but it was only during the past year that it assumed an acute form. There were times when I was almost distracted; everything I ate disagreed with me and the pains in the region of the stomach were almost unbearable. When the attacks were at their worst my head would grow dizzy and would throbb violently, and sometimes I would experience severe attacks of nausea. As time went on I was almost worn out by the nervousness and the food or the through abstinence from food or I tried many such remedies, but I took Dr. Williams' Pink Pills. He had used them himself with the greatest benefit, and assured me that they would help me. After I had taken three or four boxes of the pills there was some improvement, and I continued to take the pills regularly for about three months, and at the end of that time I found myself cured. I could eat a hearty meal and eat it with relish; I slept soundly at night, my weight increased, and my constitution generally was built up. I think Dr. Williams' Pink Pills will cure any case of dyspepsia, if they are given a fair trial as I gave them."

Dr. Williams' Pink Pills cure cases like Mrs. Vincent's simply because they fill the veins with that rich, red blood that enables every organ of the body to do its work properly. That is the reason why the pills cure all blood and nerve troubles such as anemia, neuralgia, rheumatism, heart troubles, diseases, St. Vitus' dance, paralysis, and the special ailments of growing girls and women of middle age. When you ask for Dr. Williams' Pink Pills see that you get the genuine with the full name, "Dr. Williams' Pink Pills for Pale People," printed on the wrapper around every box. Sold by medicine dealers everywhere, or by mail at 50 cents a box or six boxes for \$2.50, by writing the Dr. Williams' Medicine Co., Brockville, Ont.

Spurious Scotch Whisky

English Court Condemns an Enormous Proportion of the Scotch Whisky Sold in Canada as Illicit Spirits.

Pure Malt Pot-still Spirit the Only Kind Rightly Entitled to the Name "Scotch" Whisky.

English papers just to hand contain the decision of Mr. Justice Fordham in the famous test case of Islington vs. Wells and Davidge. The result is a staggering blow at the "Patent Still Fraud," a definite decision that Pot-still Whisky, produced from malted barley alone, is the only spirit that has a right to the name of "Scotch Whisky."

EXTRACTS FROM THE JUDGMENT:

"To-day there is an immense output of patent still spirit, made with very few exceptions from a mash composed very largely of maize mixed with more or less of pot-still spirit and then it is sold as 'whisky.'"

"STRATHMILL" and "SPEY ROYAL"

6 YEARS OLD 10 YEARS OLD

SCOTCH WHISKIES

Are the oldest and choicest Genuine All-pure Malt Pot-still Whiskies procurable. In Canada, it is alleged, the bulk of the so-called Scotch Whisky sold is the product of the patent still, which uses any substance, impure or diseased, that will yield alcohol. To make this raw, fiery spirit drinkable it is "blended" (?) with a little pure malt and then sold at the same price as the genuine article. But

"Strathmill" and "Spey Royal"

are distilled in the old-fashioned pot-still from the finest home-grown Scotch barley, thoroughly washed by the moss waters of the Highlands, kiln-dried with native peat, delivered pure and intact as bottled under the most careful supervision and

Guaranteed Under Act of Parliament Absolutely Pure and Genuine Scotch Whisky

Mr. Justice Fordham's decision is a most startling revelation to the consumer of Scotch Whisky. It says in effect:

GUARD YOUR HEALTH AND MORALS by examining the labels on the bottles of the spirits you consume. And refuse any Scotch Whisky that does not give on the label a pure malt guarantee.

The words "PURE MALT" on the label are the only safe guarantee that you are buying GENUINE SCOTCH WHISKY.

New York, March 23.—The Standard Oil hearing was adjourned until tomorrow to await the arrival of several of the Standard Oil counsel who are out of town. It is understood that the first witness to be called tomorrow will be Henry H. Rogers, vice-president of the Standard Oil Company. He will be followed by William Rockefeller,

As to the possibility of John D. Rockefeller being brought before Commissioner Sanborn, Lawyer Cohen, who is associated with Attorney-General Hadley, said that many unsuccessful attempts had been made since the present hearing for examination. Cohen made it a stipulation concerning the line of questions to be asked, and limiting them to matters connected with the Standard Oil Company. He said that all of such communications had been ignored.

Scene From "Why Girls Leave Home." Majestic.

"Truth is stranger than fiction." The author has drawn from the facts of one of the most sensational tragedies in recent years, in which a brother was accused of killing his sister because of her wilfulness. It is told in a plain, everyday manner, devoid of claptrap, mawkish sentiment, or morbid sensationalism.

Louise Gunning is the headliner at Shea's Yonge-street Theatre next week. Miss Gunning is singing the sweet Scotch melodies and dressed in her Highland costume her act is one of the most pleasing.

The patrons of genuine clean burlesque will find something to gloat over when the "Merry-makers" come to town. This excellent aggregation of fun makers is booked to appear at the Star next week, and if indications are any criterion this organization should play the banner engagement of the season.

IT WILL CHECK AGREEMENTS OF "EXTRAORDINARY" KIND

Propriety of Yearly-Elected Councils Making Long-Term Railway Contracts is Questioned.

Hon. Mr. Hendrie in moving the second reading of the government bill respecting steam, electric and street railways yesterday took occasion to remark with emphasis upon the need for a way of checking the "extraordinary agreements entered into by municipalities with railways which they desired to have upon their highways."

Mr. Hendrie referred to as important the clause dealing with the entrance of radials into cities, which clause was intended to guard the rights of municipalities without checking radial extension.

Mr. Hendrie stated that one of the objects of the bill was to simplify legislation, since it would apply to all railways, electric or otherwise, whereas formerly each had a bill of its own.

Touching upon the claim respecting power of land expropriation, he pointed out that street railways would have the same power as steam railways. It is this power had been given before, there would now be many railways on their own right of way.

A large number of the clauses had been built upon bills introduced from time to time. The bill appointing a railway municipal board had to be read with the act, since it served as machinery for it.

Speaking of the exclusion of passengers from the motorman's quarters, Mr. Hendrie said that it was desired to attain a high speed, such as that of seventy miles an hour, and it was necessary that the motorman should not be interfered with.

The two-cent rate per mile was justified by a comparison with roads in the United States which only charged about half the steam railway rates.

Touching Sunday regulations, he said that there had been some requests for changes, but it had been decided not to make any.

Mr. Ross agreed that the bill would facilitate railway legislation, and intimated that in a general way the principles were acceptable.

IMPURE BLOOD.

Almost every one is a sufferer from some disease caused by impure blood, but only here and there one recognizes that in his blood lurk the seeds of disease, ready to manifest themselves at the first opportunity in some of the innumerable ways so dreaded by everybody.

Every neighborhood has its afflicted, many seemingly incurable, with complaints that have gradually made their appearance, growing a little worse with each change of the season.

Such ailments, such as Stomach, Liver and Bowel Troubles, are well developed. Each takes one or more forms peculiar to such diseases, but all are due to impure blood, to the absence from the blood of some necessary vital force, or the presence of some foreign element, which impairs its power to faithfully perform its duties, causing a long series of complaints which yearly drag thousands to the grave.

To purify the blood, eradicate disease, build up the system, Vitae-Ore is without a peer among remedial agents. No other remedy can equal it as a constitutional tonic, a blood vitalizer, renovator and regenerator.

It contains the elements needed by the blood, which are absorbed by it, and, taking their proper place in the circulation, expell all foreign secretions that have been undermining the health. It supplies the wants of nature and can be depended upon to do its work under all conditions.

OVER 50 SHIPWRECKS.

Storm's Haven to Shipping on New England Coast.

Boston, March 23.—A toll of 55 lives, 54 ships, and property aggregating hundreds of thousands of dollars in value, was exacted by the storm king upon the coast of New England and the maritime provinces during the last winter.

While the season, up to the present month, was comparatively mild on shore, at sea it was one of extreme severity, particularly in waters off the provinces.

Cape Cod, commonly the scene of numerous wrecks, on the other hand, was unusually free from fatalities up to last Monday's blizzard. Vessels were frequently driven ashore on the cape, but with few exceptions they were saved with little accompanying loss of life.

In this week's storm, however, three vessels were lost on the coast. Of the 54 wrecked, 37 have been sailing craft and with one exception, all have been schooners. Nine steamships and eight barges completed the list.

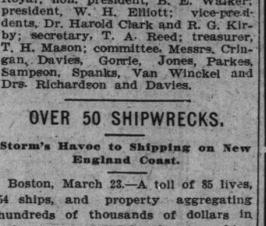

Ships flying the British flag lead those of other nations with a loss of 27 craft.

SHOT BY BANK BURGLARS.

Nightwatchman Loses Battle With Five Men—Three Arrested.

Rochester, N. Y., March 23.—Edward Pullman, a constable and night watchman at Sodus, was murdered early today by burglars, who were discovered by him in the act of rifling the Knapp Bank of that village.

The burglars, first visited the Rome Watertown and Ogdensburg Railway depot, where they blew open the large safe, stole a small safe and ransacked the express packages.

They were engaged in drilling a hole in the safe when discovered by Pullman. Although five men were engaged in the job Pullman gave battle. A fusillade of shots followed during which the constable was instantly killed by a bullet passing thru his right lung. Previous to the time they had stolen a horse and cutter and another horse.

At the Spider Hotel heard the shooting and five men went west on Main street, but supposed they were boys who had been firing blank cartridges.

When Pullman did not reach home at the usual time the family became alarmed.

Three men suspected of being implicated were arrested early this afternoon. One with a bullet wound in his leg, "Big Bill" Kelly, of Boston, and the thickest and most desperate bank robbers in the country.

C.T.R. NOT RESPONSIBLE FOR CIRCUS TRAIN WRECK

Detroit, March 23.—Judge Swan, of the United States circuit court has taken the \$30,000 damage suit of George Clough against the Grand Trunk Railway from the jury and directed a verdict for the defendant. Clough was an employe of the Wallace Shows and was injured in the wreck at Durand, in 1903, in which 23 circus people were killed.

The defendant contended that he was not even a common carrier, but furnished the motive power for transporting the circus trains over its lines.

He guarantees a positive cure for all chronic, nervous, blood and skin diseases, which he accepts for treatment. He not only cures the condition itself, but like wise all the complications, such as rheumatism, bladder or kidney troubles, blood poison, physical and nervous debility, lack of vitality, stomach trouble, etc.

The doctor realizes that it is more than a mere claim and another thing to ask for money unless he cures you and when you are cured, he feels that you will willingly pay him a small fee. It seems therefore, that it is to the best interests of everyone who suffers to write the doctor confidentially and lay your case before him, which will receive careful attention, and a correct diagnosis of your case will be made free of charge. If you desire to gain and nothing to lose, you must remember, you only pay when you are cured.

All medicines for patients are prepared in his own laboratory to meet the requirements of each individual case. He will send a booklet on the subject, which contains the 14 diplomas and certificates, entirely free. Address him at 116 Dr. S. Goldberg, 205 Woodland Ave., Room 101, Detroit, Michigan. Medicines for Canadian patients sent from Windsor, Ont., consequently there is no duty to be paid.

BIG INDIAN POW WOV.

10,000 Expected to Attend—Memorial to King.

Victoria, March 23.—Chief Geo. F. Caplan of a tribe of Indians is making a tour of the provinces addressing the tribes and bidding their chiefs attend a great convention of the tribes of British Columbia, to be held at Kamloops on April 15 and following days.

The Caplano chief is a man of seventy, speaking English and French fluently, as well as seven native tongues, Euculaw, Nanaimo, Westminister, Comox, Slaam, Sechelt and Chinook.

After discussing various matters, such as readjustment of reserves, the chief at the Kamloops conference will prepare a memorial to King Edward, which will be presented in person by a delegate selected to make the journey to England. There will be over ten thousand Indians in attendance at the convention, according to present plans and the gathering will be the most important of its kind in Western Canadian history.

RETREATS FOR AGED MEN IN CANADA AND FLORIDA

Chicago, March 23.—The Anti-Age Limit League believes that it has solved the problem of the men who are unable to obtain employment in Chicago because they have passed the age limit.

If plans are successful, such men are to be sent in great numbers to colonies in Canada and Florida, where they will become the ministers, the school teachers, the business men of the newly-created towns.

Negotiations are now being carried on with the managers of three colonization projects, one of which owns land in Northwestern Canada.

TWENTY YEARS FOR LAWYER WHO COMMITTED FORGERY

New York, March 23.—Henry Huffman, a lawyer, who recently was convicted of forgery in the first degree, was sentenced to serve the maximum penalty of twenty years in prison. Brown was convicted of forging a bogus claim to the estate of Eddie Peterson in the Bronx.

PARENTS OPPOSED MARCH SLAYS GIRL AND SELF

Mansfield, Ohio, March 23.—Miss Grace Zellner, aged 28, was shot and killed by Roy Shanks, formerly of Ashland, Ohio, who then committed suicide.

She and Shanks had been sweethearts for some time against the wishes of her parents.

ABYSSIAN WARRIOR DEAD.

Jibuti, French Somaliland, March 23.—Ras Makonnen, governor of Harar, Abyssinia, is dead.

He commanded the Abyssinian force which defeated the Italian troops at the battle of Adowa, Abyssinia, in March, 1896, when some 2000 to 3000 soldiers and camp followers were reported to have been killed.

Cafe Coach Service to Buffalo. The Canadian Pacific 7:50 a.m. train to Buffalo will from now carry a moderate equipped coach, serving attractive meals at moderate prices.

On Sundays it will be attached to train arriving at 9:45 a.m. and it will return from Buffalo each evening at 6:00 p.m., arriving here at 8:05 p.m.

The train will be a boon to the through passenger from the east to Hamilton, Ontario, as well as the early traveler from Toronto. The car and its appointments will be in every respect equal to the Canadian Pacific Railway between Toronto and Buffalo.

Unhappy Russia. St. Petersburg, March 23.—Columns of the newspapers are daily filled with records of murders and robberies and side by side are brief chronicles of condemnations and military executions of political offenders.

The majority of the political offenders are of revolutionary nature and everywhere the revolutionists are fighting their oppressors with bombs and revolvers.

Detroit River Ice-Blocked. Amherstburg, March 23.—Shifting winds have driven Lake Erie ice into the mouth of the Detroit River, and for the first time this year it is blocked with ice. The heavy winds and cold weather prevailing will cause a postponement of the general opening of navigation until about the middle of April.

Patronize In Church and State. W. H. Hoyle, M.L.A., will address an open meeting of the Young People's Association of the Church of the Ascension (corner of Richmond and York streets) on Monday evening next at 8 o'clock. The subject will be "Patriotism in Church and State."

Money for Fair. Washington, March 23.—The house committee on industrial arts and exhibitions met today and decided to recommend an appropriation of \$1,500,000 for the Jamestown exposition.

Or Until Monday. Algiers, March 23.—The next meeting of the Moroccan conference was today postponed from Saturday until Monday next, owing to the continued indisposition of Her Majesty's representative, the German minister.

ONE MONTH TO SLAY BEER WILL LESSEN ACCIDENTS

Game Commissioners Declare That More Money is Needed to Enforce Law.

The annual report of the board of game commissioners has been submitted to the legislature. The commissioners say the law is not properly enforced. They make several recommendations as to the organization for enforcing the law, but say that these recommendations cannot be carried out without much more liberal expenditure than has been allowed since 1897. From the department was established the revenue has increased, but the expenditure allowed has not increased in like proportion. During ten years ending December 31, 1901, \$58,535.18 has been expended, while the total revenue has been \$143,131.77. In 1905 the revenue was \$26,655.10, the expenses \$15,521.80. This is a penny wise pound foolish policy. If the law is not enforced it will be impossible to maintain the game. It is recommended:

That the present system of wardens be not abolished.

That the chief warden be relieved of the charge of a district, and that at least four additional wardens be appointed, who with the chief warden, should form a headquarters staff to travel about the province. It should also be understood that the resident wardens should exchange districts and assist in other districts when ordered.

That deputy wardens should be paid by salary.

On waters along the boundary between the province and the U. S. power launches are an absolute necessity. County game protection associations should be encouraged and moderate financial assistance given to associations taking active measures to enforce the law.

That an annual fee of \$1 be charged for the privilege of carrying and using guns and rifles. No permit to carry guns or owners of rifles for use on rifle ranges.

That a report on the value of game to farmers be prepared and distributed. That the protection of game in provincial parks be committed to the department.

That the offices of fishery overseer and deputy warden be united wherever possible.

Close Seasons. The board recommends a uniform open season for deer, moose, and caribou, from October 23 to November 19, inclusive, but licenses should be decided on the open season and a reasonable period thereafter. It is suggested that pheasants and grouse imported from Britain be allowed to be sold at all times.

Deputy Wardens Dismissed. Speaking of deputy wardens the report of their recommendations should be confined to the open season and a reasonable period thereafter. It is suggested that pheasants and grouse imported from Britain be allowed to be sold at all times.

The board has found that altogether too many deputy wardens have been appointed, many of them upon the recommendation of persons not specially interested in game protection and has, therefore, dismissed and cancelled the appointments of all deputy wardens who have passed a regulation providing that none of the appointments be reappointed and no new appointments made, except upon the recommendation of the warden for the district in which the applicant resides, or is intended to serve.

The board favors the employment of licensees, guides, and finds strong opposition to the proposal. There is recommended that hunters be required to make a return to the department within two weeks after the close of the season of game killed and of any violations that may have come under their notice. The fee to non-residents of Quebec should be increased. Residents of Quebec should be required to take out non-resident licenses.

The provisions exempting Indians and sets from the operations of the act have been greatly abused. The board recommends that the word "settlers" be struck out and "farmers" substituted. It is recommended that licenses be granted only on the recommendation of a professor or lecturer of the department of biology or ornithology of one of the universities.

40 MILES AN HOUR GAIT FOR HAMILTON-GAIT RY.

Gait, March 23.—You can say we will equip our road with palace cars and give our travelers a forty mile an hour gait," said Hon. Chas. D. Haines today, speaking of the projected Hamilton and Gait Electric Railway.

The line is laid out from Ancaster, through back of Rocketts, thence to Sheffield on the south side, not following the road, but varying 50 to 100 yards off. From Sheffield the route is south to the Stone Corners, from there the Stone-road is taken, and from the street, Gait, thence down Dickson-street, when that shall have been arranged for.

Acquatic Club for West End Y.M.C.A. An aquatic club is about to be organized by a number of members of the West End Y.M.C.A. Already 50 of the boys have expressed the intention to join and immediately a canoeing class will be started. About 30 are ready to enter the class.

The purpose of the club is to teach those members who love the water better than the land the science of swimming, sailing, rowing and paddling.

The officers of the club will be elected in a few days.

HALL & RUCCIA, New York City.

This provision is now evaded by parties bringing out two deer apiece, although only one or two at a time may be allowed to kill more than one doe.

The provision that ruffed grouse and partridge which are prohibited from sale till 1910 should be more effectively enforced.

Quail have been protected for two years, but shooting should be allowed this year can be decided after the breeding season is well advanced and action can be taken if necessary by order in council.

No change is recommended in the open season for duck.

The board recommends that the use of automatic guns be prohibited.

The cold stock of game should be confined to the open season and a reasonable period thereafter. It is suggested that pheasants and grouse imported from Britain be allowed to be sold at all times.

MAKE AN EXCLUSIVE BODY OF THE GRADUATE NURSES

Nevertheless Mr. Crawford's Incorporation Bill is Strongly Supported.

Mr. Crawford in moving the second reading of his bill in the legislature to allow graduate nurses of Ontario to become an incorporated body, claimed that it would be decidedly in the public interest. The profession of nursing was second only to that of medical practitioners who had been allowed incorporation. The public suffered thru the enervating of nurses not properly instructed. It was probable that a like bill would be introduced in the British parliament.

Mr. Graham favored the principle of the bill, but thought it might be too strong. Nurses who had gone thru a course of training should be given a certain standing by legislation. In four cases out of five the recovery of a patient was due more to nursing than medical skill. He thought it was too drastic to ask that government should not go to the expense of the Nurses' Association were employed. The object of the people in supporting these institutions by subscription should not be hampered. Subscribers might hold contrary views and contributions would fall off. He would like to see that clause eliminated.

Dr. Lewis was unqualifiedly in favor of the bill. Every town and hamlet had its quota of nurses, and it was necessary that the bill be fitted.

Dr. Nixon objected to nurses who graduated from small hospitals at St. Catharines, Guelph and other places having to go through examination before a board to be appointed by the association.

It is an exclusive corporation, and I object to it," he said.

Mr. Preston (Brampton) held like views on this point. He also opposed the stipulation that the council be made up only of British subjects.

Mr. Hoyle contended that the association would be given power to decide what hospitals were of good standing. Medical experts were in charge of these hospitals who were qualified to decide what nurses were competent.

Mr. Smith (Sault Ste. Marie) referred to the nursing work carried on by nuns in Roman Catholic institutions in New Ontario. It was a very useful work, and all these nurses would be disqualified.

Hon. Dr. Fyfe agreed that the bill would mean hardships to outlying districts. There were many clauses in the bill that needed consideration. Many of the government institutions didn't employ really skilled nurses. In many of the asylums they were not required to have scientific and technical knowledge, and they would have to be safeguarded. He suggested that a special committee be appointed to take up the clause, which was agreed to.

A second reading was also given Mr. Carstairs' bill to amend the Municipal Act so as to restrain municipalities whose taxation had reached a certain point from borrowing money.

CONSENTED TO REORGANIZATION. Chancellor Boyd yesterday gave his assent to the scheme proposed for the sale of the assets of the Henderson Electric Bearing Company by the provisional liquidator in order to reorganize the insolvent company. It will be done on the terms of a mortgage, to be prepared by the reorganization committee.

THE VALUE OF CHARCOAL. Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the acids, salts and poisons always present in the stomach and intestine, and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onion and other odorous vegetables. Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best is in Stuart's Charcoal Lozenges, which are composed of the finest powdered willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant-tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will sweeten the breath, improve the complexion, and give a better condition of the general system, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefits.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in the stomach, and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and also in some cases a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

A GREAT PIANO

The Gerhard Heintzman

At the last three International Exhibitions, namely, at Tokio, Japan; Buffalo and St. Louis, U.S.A., the committee appointed by the Dominion Government to select a piano to represent Canada chose a **Gerhard Heintzman**.

When the citizens of Quebec wanted to present Lady Laurier with a piano they chose a **Gerhard Heintzman**.

Lately when the C. P. R. wanted a grand piano in special architecture, for their new \$1,500,000 hotel at Winnipeg, a **Gerhard Heintzman** was chosen, this being the sixth of this make that the company have selected for their hotels.

The above, with a great many other noted occasions too numerous to mention, when Gerhard Heintzman pianos were selected, as well as the selection for their use on the public platform, without *bonus* or *fee*, of some of the world's greatest artists, such as Pugno, Galski, Nordica, Sembrich, Campanari, Marie Hall, etc., etc., bears out the statement that the **Gerhard Heintzman** is the **Great** piano of Canada and the **most popular in every way**.

COAL RECEIPTS DWINDLING EFFECT OF STRIKE PROSPECT

Increased Demand on Other Side is Cutting Off Shipments to This City.

Thos. Wisner, representative for C. M. Underhill, coal dealers of Buffalo, returned yesterday from the Bison city and says there is every likelihood of serious trouble both in the bituminous and anthracite fields and that railway companies and large manufacturing concerns are busy storing large supplies. "The steel companies," said Mr. Wisner, "never before laid by such large supplies because of the lack of facilities to store it, but nevertheless the situation is looking so dangerous that they are ordering large shipments every day, and the demand for bituminous coal is much greater than the coal dealers on strike."

In the event of a strike the navigation companies will receive the hardest blow. There is practically no supply in the docks, the companies help coal for themselves from harbor points. The last four or five days has seen a great reduction in the shipment of coal on the railways. Last week the Grand Trunk were bringing into Toronto an average of 50 carloads a day, while this week only half that number is recorded and there is a steady falling off every day. It is not thought, however, that the manufacturing companies here will suffer much in case of a strike, because the very large shipments this winter have left them with a good quantity on hand. Besides, the coal dealers are reported well supplied. There has been over a million tons shipped into this city in the last year. One coal firm received telegraphic advice yesterday to get all the coal it could as soon as it could.

THE MANUFACTURERS' LIFE.

A Statement Made by the Managing Director.

J. F. Junkin of the Manufacturers' Life Insurance Company, on being interviewed yesterday, made the following statement:

The reference that appeared in our yesterday's papers concerning the evidence before the royal commission as to the affairs of the Manufacturers' Life Insurance Company is very misleading. At the proper time the company will no doubt have an opportunity of laying before the commission the details of each transaction. At present, however, I wish to offer a very brief statement with reference to the several items:

1. As to the Pellatt loan, it was made to appear that the company paid an excessive amount for the C.P.R. stock in question. This is not so. The stock was obtained at market value and sold subsequently at a profit; and as to the amount of the loan, it is referred to as a registered mortgage and by other collateral held to cover the advance. No matter who states to the contrary.

2. No sheet from any loose leaf ledger or other book was ever abstracted, no matter who states to the contrary.

3. The Manufacturers' Life never lost one dollar in call loans of any description at any time.

4. As regards Prudential Securities Company, the Manufacturers' Life Insurance Company had invested in certain securities which the inspector of insurance would not pass, and the directors agreed to take a security, paying to the company in cash their exact cost. There was no juggling, but the directors in question personally assumed responsibility, paying their actual cash for the securities.

5. As to the King Edward Building Company being in need of more accommodation, we agreed with some other financial institutions to jointly purchase 80 feet on King-street upon which a building for the accommodation of it was to be erected, however, that it would be more satisfactory to be the sole owners, and therefore purchased the interests of the other parties at actual original cost. For several reasons, one of which was the excessive cost of building at the present time, we came to the conclusion not to build, offered property for sale, and have lately sold same at a good profit.

MUNICIPAL PAWNSHOPS FAVORED BY GRAND JURY

Would Be Help to Poor Man Who Must Needs Have Money in a Hurry.

In a presentment which was characterized by Judge Winchester as one of the best in the whole of his experience on the bench the grand jury of the general sessions yesterday complained of the treatment accorded by the presentments of previous grand juries, which had not only been overlooked, but ignored.

The large number of crimes of violence, such as assaults and theft from the person, call for especial comment, reads the presentment. "There apparently comes a time in the career of criminals when repeated imprisonment does not afford proper punishment. Recourse should be had to corporal punishment in the case of second offenders. Possibly it is within our province to suggest that the entrusting of young men, subject as they are to the enhanced cost of living in the city, with great responsibilities and the handling of large sums of money, on salaries which, to say the least, are insufficient, is a very frequent cause of breaches of trust from time to time committed."

INSURANCE COMPANIES LOOK ASKANCE

AT A MAN IF HE CANNOT ANSWER THE QUESTION, "HAVE YOU EVER HAD RHEUMATISM?" WITH A GOOD HONEST "NO!"

So you see how it bars happiness and comfort if you neglect the means to prevent and cure—the great

South American Rheumatic Cure

is the effective means, and while lack of provision for your "loved ones" from such a cause may be counted secondary to a life of suffering to oneself, it is one of the many sides in the study of health that we should take in dead earnest. Every disease has its symptoms—every ailment that flesh is heir to has its note of warning, and it's for us to heed or suffer the consequences; and who does not know the signs by experience or observation?—fever, chills, sweating, shooting pains, numbness, aching muscles, stiffened and swelled joints.

The great South American Rheumatic Cure gives ease from the first dose and it gently and effectually eradicates the trouble from the system. It gets at the root of the evil and it gets there quickly—most stubborn cases cured in one to three days. Influential physicians prescribe it as the best and surest cure they know of.

ALL DRUGGISTS AND MEDICINE DEALERS SELL IT. SOUTH AMERICAN NERVINE makes blood that is poor and pale rich and red—and that means good health.

SEVERE LAWS RE MOTORING HARMFUL TO THE INDUSTRY

The parliamentary committee of the Canadian Manufacturers' Association yesterday afternoon passed a resolution asking that the law be left as it is in governing the speed of motor vehicles, because the suggested change would do great harm to an important and growing industry.

A resolution was also passed approving of the Assessment Act and commending the proposition to reduce the business tax from a 60 per cent, to a 50 per cent, basis.

Sonsa's Band at Pure Food Show.

The box office is now open at Massey Hall for the sale of seats for the Sonsa Band concert next Saturday, the 31st inst., afternoon and evening. Those wishing to hear this celebrated band will do well to secure their seats early, as they will no doubt be rapidly taken up on account of the remarkably low prices. The price of general admission is 25 cents, and only 10 cents extra for reserved seats for the afternoon performance of the band, and 25 cents for the evening performance.

Soft Coal Prices Go Up.

Chicago, March 23.—Soft coal prices are advancing daily in Chicago in view of the growing feeling among coal dealers that a strike in the bituminous regions at least is certain. There was little western soft coal to be had in Chicago to-day. The price has advanced from \$1.10 a ton to \$1.50 a ton within the last few days.

How to Build a Warm Home

Wooden frame work, covered with METAL SHEETS of imitation stone or brick, make a house that is warmer in winter and cooler in summer, than stone or brick.

With metal walls, ceilings and shingles—the house will be dampproof and fireproof—and far cheaper in the end than any other building material.

CENSURE FOR CONSTABLE.

Arrests Discharged Prisoner in Court Room for Previous Offence.

Windsor, March 23.—There was a rather sensational termination to the case of the two Woodstock boys, Daradis and Mortimer, who were brought into court to-day for sentence for having stolen two diamonds from Howell Bros. jewelers, here.

Magistrate Bartlett told them that they could have been sent up for seven years, but on account of the good reputation they had had previous to this act he would release them on suspended sentence.

DERRICK UPSETS AGAIN.

One Man Slightly Hurt and Others Have Narrow Escapes.

Guelph, March 23.—(Special).—The derrick used in lifting the girders at the Grand River bridge, on the Guelph & Goderich Railway upset again this afternoon, but no person was seriously hurt. The accident occurred in the deep cut approaching the bridge. The derrick was standing on the track without a load. The high wind caused the boom to swing, and there being only ten tons of ballast on the car it turned over. The engineer and fireman jumped, escaping injury, but several of the workmen had close calls, one of them, George Billings, receiving injuries about the face.

CHEATING THE RAILWAYS.

Thousand a Day Shipments That Are Wrongly Billed.

New York, March 23.—The inter-state commerce commission began an important hearing to-day on the reported under-billing and misrepresentation of freight by shippers in New York and other eastern ports.

UNPRECEDENTED INFLUX

Over 1000 Immigrants Passed Through City This Week.

This week has been unprecedented in the amount of business transacted at the Ontario immigration bureau and the numbers of emigrants who have obtained employment with farmers. The total number is close upon 1000, of whom about 700 were registered or picked up by farmers in the last three days. There were nearly fifty families in which there were four or five little tots clinging to mothers' skirts. The best contingent consisted of Scotch lads. A small train load are expected to-day and between 300 and 400 will arrive on Tuesday.

TEACHERS WIN SCHOLARSHIPS.

The following teachers have been awarded by the minister of education scholarships at the Macdonald Institute, Guelph, for the session commencing April 5:

F. C. Anderson, B.A., Napanee; Geo. Anderson, Cobourg; J. A. Keays, B.A., 371 Gerrard-street, Toronto; F. J. Newhouse, St. Catharines; John Patton, Kemplville; H. S. Sherwood, Lowellville; Jessie Burnett, Britton; Mabel C. Buckle, Amherstburg; K. A. Evans, Corbin; Marie J. Hockey, Welland; A. M. Legge, Bethany; Bella McDiarmid, Avonmore; Kate M. Stewart, Meaford; Aggie Thorburn, Gore Bay.

Removal of Judge Deuel.
New York, March 23.—The application for the removal of Joseph M. Deuel, justice of the court of special sessions, because of his connection with "Tow's Topics," was heard by the appellate division of the supreme court to-day. The court took under advisement the question whether it should appoint a referee to take evidence.

SAVES A MAN'S LIFE ACT NOT APPRECIATED

To be assaulted for saving a man's life was the reward served out to the gatekeeper of the Sunnyside level crossing of the G.T.R. yesterday morning.

A train was approaching the crossing shortly after 9 o'clock and the gatekeeper had lowered his gates to prevent accident. A stranger appeared and attempted to cross the tracks in front of the rapidly approaching engine. He paid no heed to the warning cries of the gateman.

John Kemp Dead
After having been in the hotel business in Toronto and vicinity for more than forty years, John Kemp, for 21 years proprietor of the City Arms Hotel, West Market-street, is dead, in his 70th year.

He was known to almost every farmer within forty miles of the city. He took an active interest in horse breeding, and was an importer several years ago of heavy draught horses, which he helped to introduce into this section. He originally came from York-shire, Eng., and leaves a widow, three sons and three daughters.

FEATURES FOR MARCH 25

Site of the New General Hospital

Excellent panoramic view of the site chosen for the new General Hospital, extending from College-street to Christopher and University-avenue to Elizabeth-street, including a portion of "The Ward." Capital picture of an exceptionally interesting section of Toronto.

Britain's Greatest Battleship

The Dreadnought, launched by the King on Feb. 10, will be the most powerful battleship in the world. It will be capable of throwing an 850-pound shell twenty-five miles, and will carry ten guns of heaviest calibre.

Ready for the Coal Strike

While the miners are agitating for increased privileges, the coal operators are busily engaged in storing coal in preparation for the impending strike. On the lines of coal-carrying roads in Pennsylvania immense mountains of coal have been, and are being, built up, sufficient to meet all demands for many months in case the mines are closed down by the operators. There's a picture of one of these "coal storage" mountains.

Toronto's Observatory

The civic authorities are making a strong fight for the retention of the meteorological observatory. A picture in The Sunday World shows the building housing the valuable instruments. It is not much to look at, but the bureau is exceedingly useful here, much more so than it could possibly be in Ottawa.

Local Groups

Picturesque group of officers of St. Patrick's Chapter, Royal Arch Masons.
Fine portrait group of the choir of the Church of the Messiah.
Doric Quartet in the quaint costume adopted by them for lodge work.
Splendid portrait group of the Eastern League baseball magnates, who revised the schedule here on March 17.
Excellent group picture of the T. Eaton Co. baseball team, champions Toronto Manufacturers' League, 1905.
Board of Aldermen of Halleybury, rising town of Cobalt district.
Broadview senior hockey team, winners of the Toronto League, 1905-6.

Portraits

Portrait from a new photograph of Prof. A. B. Macallum, recently elected a Fellow of the Royal Society of London.
Lady Ashburn, a member of the famous "Florodora Sextet," who has wedded rich Lord Ashburn of England.

WOMEN OF FEEBLE MIND.

Request Made for Accommodation for Them at the Mercer.

The utilization of the industrial refuge quarters at the Mercer Reformatory as a home for feeble-minded women was suggested by a deputation of ladies representing the National Council of Women, the Infants' Home, and other women's associations, which waited on the provincial secretary yesterday. They were told that some such provision was being considered, and that an appropriation had been set aside for finding out of the way of feeble-minded women who needed government care.

Confused by Trains.

Montreal, March 23.—Peter Maggroy, aged 30, was killed at St. Henri today by a G.T.R. express. He got in the way of one train, while getting out of the way of another while trying to cross the tracks.

The Emperor's Health.

Vienna, March 23.—It was again announced here today that the grave reports published in Europe regarding the health of Emperor Francis Joseph are unfounded.

WOULDN'T MAKE CHANGE.

The municipal committee of the legislature yesterday despatched Mr. Pratt's bill to compel townships to maintain roads which branched into them from an outside county.
No decision was arrived at on the bill to allow a police village to buy fire appliances to a value of \$3000 without consulting the ratepayers, and the bill to allow a county or township council to meet in an adjacent township or county.

Car Frowns on Editor.

St. Petersburg, March 23.—Alexis Aleksevitch Stourouin, editor of The Russ, was arrested last night as the result of the rejection by Emperor Nicholas of his appeal against the sentence of one year's imprisonment in a fortress imposed in January last for publishing the manifesto of the workmen's council announcing that the government had declared civil war on the proletariat and that the challenge must be accepted.

Private Bills on Monday.

The house will on Monday consider in committee a list of private bills which passed their second readings yesterday, among them Mr. Penne's bill respecting the Kingston, Portsmouth & Cataract Railway.

BALLOT HAS NUMBER ON IT—FAC SIMILE IS PRODUCED

Legislature Gets Busy on Friday, But Members Break Away for Home.

The Kingston ballot concerning which there has been so much talk, was laid on the table of the legislature yesterday. Afterwards it was inspected in the office of the King's printer. The ballot has a number on the back corresponding with a number on the stub. Consequently it is a "numbered" ballot. As to the extent that it is secret there are several opinions. The same form of ballot was used in the by-election in North Toronto.

The house put in a busy afternoon with public bills, a number of which were advanced a stage. It was the intention of Premier Whitney to have a night sitting, but the members broke away in ones and twos, to catch the afternoon trains for home, and when the adjournment was moved there was scarcely a quorum present. Mr. Hendrie's railway bills were read a second time, and Hon. D. R. Keame brought down a motion to extend the time for the operation of the Good Roads Act to 1907.

Debts of Officials.

Mr. Gamey enquired if the government is responsible by bond or otherwise for debts owing by officials. Col. Matheson said it had been the practice of the old government to give a guarantee to the banks, and if the amount was not satisfied to stop it out of salaries. There were five amounts owing—\$475, \$2946, \$400, \$290 and \$1050. The present government would not give guarantees for such debts. At the request of Mr. Gamey, the treasurer withheld the names of parties owing the debts. Col. Matheson gave Mr. Ross the figures, showing the amount of arrears remitted by the treasury department on taxes chargeable under the Algoma Land Tax Act for 1905. There were no remissions other than those provided for by statute. Under the act of 1905 the Nepean Mining Land Company paid \$20,428.22, the principal of the interest to Dec. 31, 1905, remitted under the act was \$16,866.65. Under the act of 1906, 50 per cent. of the gross amount of principal and interest would have been accepted in two annual instalments of 25 per cent. each.

In reply to Mr. Morrison, Dr. Reame said net fishing licenses have been granted for 1906 in inland lakes. The Dominion Act requires a 12-inch extension net. No net fishing licenses have been granted in the Bay of Quinte and the Rivers Trent and Moira and tributaries. The government intends to grant protection to fish in these waters. Mr. Lucas moved for a return of agreements between the inspector of prisons and Patrick Lewis Connor for the manufacturing of binder twine and cordage at the Central Prison; copies of assignments and agreements between Connor and Wm. Field, and from Wm. Field to the Independent Cordage Company and other parties relating to the subject. The motion passed.

Brockville Licenses.

Mr. Graham asked for correspondence between the chairman of the license commission of Brockville, the license inspector of the province, and the department with reference to the enforcement or non-enforcement of the License Act, or to the granting or withholding of Licenses to Imperial Hotel or to Samuel Johnston.

Hon. Mr. Hanna said the department had received letters complaining that the Imperial Hotel was merely a saloon. The inspector visited the place and reported that the complaints were not justified; in fact, a number of persons were being served with dinner. There had been some difficulty between the Ministerial Association and the license commissioners with reference to the enforcement of the act, and to the transfer of a license to Samuel Johnston, who had been deprived of a license in another hotel, but this was due to a misunderstanding, and the trouble was satisfactorily arranged. He would lay the correspondence on the table.

First Readings.

Several new bills were read a first time. Hon. Dr. Reame submitted an amendment to the Good Roads Act, extending the time in which county councils may take advantage of the act and share in the provincial grant for road improvement to 1907. It is also provided that where there is a group of counties one of them may be designated as the legislative reference to the scheme.

Notices of Motion.

Mr. Lucas—Bill respecting service of notice of intention to exercise power of sale in mortgages.
Mr. Atkinson—How many stenographers, temporary clerks, messengers and other temporary help have been taken on since Jan. 25, 1905, in the parliamentary buildings, normal school or educational department and other public buildings under government control in the City of Toronto. The dates of their appointments and rate of wages per week?
Mr. May—Is it the intention of the government to give increases to certain teachers in the Provincial Model School, Ottawa, so as to place them in the same position in the matter of salaries as the teachers in the model school, Toronto?
Mr. Harcourt—Have the Temiskaming Railway bonds been fully underwritten by responsible underwriters in England? If not, to what extent have they been underwritten? Who are the underwriters, and what are the amounts underwritten by each respectively? Is it the fact that the public have subscribed for only 13 per cent. of the whole amount offered?

INJUNCTION AGAINST DAWKES.

An injunction was granted yesterday by Justice Mabee against Cedric G. Dawkes from taking any of the furnishings of stock away from the store at 47 West Queen-street, which was sold recently to Samuel Fuchs. In purchasing the business Fuchs paid \$300 down and gave a chattel mortgage for \$500. On this mortgage Dawkes made a seizure a few days ago.

WINDSOR TABLE SALT

Had Lost the Use of His Limbs.

Bright's Disease and Liver Trouble Completely Cured at Age of 55.
I had Bright's Disease and Liver Trouble and was so weak I could not stand on my feet. I had really only lost the use of my limbs. I had already tried every remedy I could hear of and had consulted and treated with all of the best doctors hereabouts to no avail, so that I had become resigned to what I considered the inevitable, giving up all hopes of a cure. One day a friend advised me to try Vitis-Ore, calling my attention to the manner in which it was prepared for trial. I concluded that I would like to see what it would do for me. I bought a package on trial. The package showed a remarkable improvement and I was making three times as much money as I had been doing. I had never felt so well and active, and I tell them all the credit belongs to Vitis-Ore. FRED CURTIS, Swanton, Ohio.

V.-O. WILL DO AS MUCH FOR YOU

as it has done for hundreds of readers of this paper if you will give it a trial. Send for a \$1.00 package at our risk. You have nothing to lose but the stamp to answer this advertisement. We want you to be the judge. Can anything be more sure? What sensible person who carries a cure and is willing to pay for it, can hesitate to try Vitis-Ore on the liberal offer. One package is usually sufficient to cure ordinary cases, two or three for chronic obstinate cases. We mean just what we say—do just as we suggest. Write for a package at our risk and expense, giving your age and address, and mention this paper.

It Is Different

from anything ever before offered, from other treatments you have used, and is pure milk from the earth and water of the brilliant sunlight from a tallow candle. It flows like life through your veins, purges the system, and acts in a different manner than any other medicine. It is different from all others and can be differently used. If you are suffering from any of the above named disorders, in all of which V.-O. is of special value, don't let another day go by before you send for a trial package.

We Take All The Risk—You Have Nothing to Lose

WE DON'T CARE if you are skeptical, we care not if you have no confidence, it makes no difference if you give no credence or belief, it matters not even if you lack the dust of one of which man was first made, and it flows like fire through the veins of the sufferer, and cures what he believes in it or does not believe in it. It is not cost you a single penny if it does not help. We will be glad to begin with, nothing at any time if you are not satisfied. You are to be the judge. Address: T. W. DEPT. THEO. NOEL CO., LIMITED, Yonge Street, TORONTO, ONT.

But

NOT UNTIL YOU SAY, "Here is the dollar, you deserve it, not until you HAVE EARNED IT, not until you are WILLING to send it to us, not until you want to send it to us, not until you are SATISFIED to pay it, not until we HAVE PROVEN TO YOU that we have what we claim, not until VITAE-ORE HAS DONE FOR YOU WHAT YOU WANT IT TO DO FOR YOU. That then, you pay us NOTHING. After that, you will be willing to pay, GLAD TO PAY, as hundreds of the readers of this paper, you even thousands, have been willing and glad to pay. YOU ARE TO BE THE JUDGE. We leave it to you entirely for you to decide.

If you can say that we and Vitae-Ore have earned the dollar, we want our pay, as we say at the top, but not otherwise.

You are to be the Judge

From the Earth's Veins to Your Veins.

Vitis-Ore is an ore-substance—a combination of minerals—mined from the ground, from the Earth's veins. It contains iron, sulphur and magnesium, three properties most essential for the retention of health in the human system, and one package of the ore, mixed with a quart of water, contains the medicinal strength and curative value of nearly 800 gallons of the powerful mineral waters of the globe, drank fresh at the springs. The mineral properties which give to the waters of the world their healing and curative virtues, come from the rock of MINERAL ORE through which water forces its way to the surface, only a very small proportion of the medicinal power in the ore being absorbed by the liquid. Vitis-Ore is a combination of these medicine-bearing minerals, powdered and pulverized, requiring only the addition of water to make a most remarkable healing and curing draught. Thousands have pronounced it the marvel of the century for curing such diseases as Rheumatism, Bright's Disease, Blood Poisoning, Heart Trouble, Anemia, Dropsy, Catarrh of Any Part, Liver Kidney & Bladder Troubles, Stomach & Female Disorders, Nervous Prostration, General Debility.

Was Badly Crippled.

Goys Back to Work After using Three Packages.

When I first started to use Vitis-Ore, I could not lift my hands to my face. I was so badly crippled. Shortly after I had used three packages I was able to get up and down the stairs. I had not done in weeks. After using three packages I had gone back to my work and am still working and feeling better than I have for years, in fact I have never felt better in my life. I had tried much medicine, from doctors both in Canada and the States, but all failed me. It was a lucky day for me that a neighbor, who had been using Vitis-Ore, told me about it and advised me to try it. I think God for the good it has done me. Jas. Stack.

Jeff McCombe will preach on "Gospel Preacher versus a Sea Captain." A solo will be rendered in the morning by Miss Maud Olmstead, and a duet in the evening by Mrs. Reginald German and Mr. Carphan.

Collision at Sea.

Boston, March 23.—The steamer Persian is here with the captain and crew of six men of the schooner LeJok, which was in collision yesterday off Sandhook. The LeJok was in a sinking condition when abandoned by her crew. The schooner Governor Ames is at Vineyard Haven with a big hole in her bow, and it is believed she was the vessel in collision.

10 YEARS AS WARNING.

New York, March 23.—A sentence of 10 years' imprisonment was imposed on Albert Oremann, a street car conductor, responsible for a collision which resulted in the death of a mail wagon driver. "As a warning to careless motormen and chauffeurs," said Judge Foster to Oremann, "it is my duty to impose a heavy sentence."

SPARRING FOR MORE WIND SIR HENRY PELLATT MUM

Doesn't Want to Be Unfair to Government Commission—What Mr. Junkin Says.

"It would be unfair to the government commission for me to offer explanations at this stage of the enquiry, so that I must decline to make any statement whatever."

That is what Sir Henry M. Pellatt said yesterday in regard to the statements made regarding the stock transactions between the Manufacturers' Life of which he is a director, and the firm of Pellatt & Pellatt. Sir Henry Pellatt had just returned from New York. Sir Henry Pellatt is an officer in the following companies:

Electrical Development Company of Ontario; Roman Stone Company; Toronto and Niagara Power Company; and Toronto Electric Light Company.

Vice-president of the British Canadian Loan & Investment Co., Canadian Lake & Ocean Navigation Co., Crow's Nest Pass Coal Company, Dominion Telegraph Company, Manufacturers' Life Insurance Company, Toronto & Hamilton Railway, director of British American Assurance Company, Canada Paint Company, Canadian White Company, Dominion Iron & Steel Co., King Edward Hotel Company, Richelieu & Ontario Navigation Co., Sao Paulo Tramway, Light & Power Co., Toronto & York Radial Railway Co., Toronto Railway Company; governor of Grace Hospital and governor of Trinity University.

WOMEN ANGRILY AROUSED ALL OVER THE DOMINION

Information from various Provinces of Canada points to the fact that many women have been deceived and induced to use the weak and adulterated package dyes put up by unskilled and unscrupulous manufacturers to imitate the popular DIAMOND DYES.

Our Canadian women, thoroly aroused, after loss of time, money and valuable materials thru the use of muddy, blotchy and weak dyes, have directly laid the blame for their losses on the retail merchants who sold them the deceptive dyes.

This section of indignant women has caused many of our retail and wholesale dealers to pack up and return to the manufacturers responsible their worthless and dangerous dyes.

Moral—When ladies decide to do home dyeing work, it pays to use the celebrated and popular DIAMOND DYES, which have been the home dyers of the ladies for over 25 years.

When buying, see that each package handed to you bears the words DIAMOND DYES, which have been the home dyers of the ladies for over 25 years.

Send your name and address to Wells & Richardson Co., Ltd., Montreal, P.Q., and you will receive free of cost, new dye book, card of dyed cloth samples and booklet in verse, entitled "The Longjohn's Trip to the Klondike."

TRUSTEES AND SAWBONES ARE JUST AS FAR APART

No Nice Feature of Conference With Controllers—Fullerton's Comment on Railway Bill.

Nearly all that can be said about it is aptly embodied in the words of Mayor Coatsworth, who remarked when it was finished, "It was educative, illuminative and inconclusive." That was all he had to say regarding the peace conference held in his office yesterday afternoon when the representatives of the hospital board met the board of control, and Dr. Steacy, who is the fighter for the medical profession on the one big question as to whether patients paying only \$3.50 per week shall have the privilege of being attended in the hospital by their own physician if they so desired. The pow-wow was attended by J. W. Flavell, M. J. Haney, Cawthra Mulock, Dr. Brown, Secretary A. F. Miller of the hospital board, the mayor and controllers, Ald. Dr. Harrison, Dr. Sheard, and Dr. C. E. Steacy, the latter representing the complainers.

For some time the smoothing iron was in operation, but it wasn't warm enough, or something, for after the conference the condition of affairs remained the same. The hospital trustees are standing by their position that the city's gift of \$200,000 should have no strings attached to it, while the doctors insist that they and their colleagues should be entitled to the consideration which is embodied in the clause in the city bylaw regarding the grant. The controllers do not think as one on the matter, and there is the prospect of a battle royal between the whole thing gets settled, if it ever does get settled. Controller Ward doesn't make any objection to stating that he is not in accord with some of his brother controllers.

Ald. Dr. Harrison doesn't see any ray of hope, and Dr. Sheard left the melee to attend to his duties in the prospect of a meeting of the board of control at noon to-day. So far none of the controllers can give a forecast of what it will be and all to the World can hear it will simply be a helpless recommendation to the council to do what that astute body asked the controllers to do after the long discussion at the special meeting last Monday.

SEED SWINDLER CAUGHT.

Local Too Many Merchants "Exclusive" Privilege in Town.

Uxbridge, March 23.—A stranger claiming to represent the Vandyke-Winters Company, seedman, of New York and Chicago, arrived here today with a lot of bulbs and sold several merchants stock, guaranteeing to each the exclusive right of selling.

He delivered and collected on the spot. One merchant after another got into the game before the swindler left town, with the result that he was arrested and returned the money to the complainants.

BAD MAN IS SENT AWAY.

Ten Years in Penitentiary for "Blue Tom" McLeod.

Cornwall, March 23.—(Special.)—J. McLeod, better known as Blue Tom, who has been a source of fear to women and children of the neighboring townships for a couple of years past, was found guilty of burglary before Judge O'Reilly this afternoon, and was sentenced to ten years' hard labor in the Kingston Penitentiary.

On March 7, the store of Phillip McDonald, Grant's Corners, was forcibly entered and about \$15 or \$20 worth of clothing was carried off. As Blue Tom had been in the neighborhood he was suspected and followed by McDonald, who, after a long chase, captured him in a schoolhouse at Curry Hill. Some of the stolen goods were found in his possession and most of the rest was recovered from parties to whom they had been sold.

Blue Tom was in trouble a few months ago when it is alleged that he threatened to burn down the village of Maxville. Several charges were then proceeded against him, but none of them could be proven.

He has been roving thru this end of the province for two or three years, and his reputation was such that women and children held him in terror.

CRUSHED UNDER TREE.

Peterboro, March 23.—Yesterday in Otonabee Township, about five miles from this city, a lad, aged 14 years, son of Mrs. Evely, while assisting the farm servant in felling trees, was struck, crushed, and instantly killed by a lodged tree, which was suddenly released.

HE'S CHIEF NOW.

Wm. Phillips, who was for many years on the chemical engine at Bay-street fire station, and who resigned from the department and went west, has been appointed chief of the Nelson, B.C. fire department. Mr. Sargeant, whom he succeeds, will return to Toronto at once.

A NEW HOTEL.

On the northwest corner of Church and Richmond-streets a new seven-story hotel will be erected this summer by the Windsor Hotel. The site was purchased last fall for \$10,000. There will be a front of 32 feet on Church-street and 46 1-2 feet on Richmond-street.

FIVE IN A DAY.

Somewhat of a record was established by the Grand Trunk Railway Thursday by the demolishing of five locomotives in various wrecks on the company's lines.

should be narrowed, as at present it apparently enables a street railway to change its character, and become an electric railway, and therefore within the general clauses of the act, by building its lines, or one of them, beyond the distance of a mile and a half from the city.

"The distance a railway may go along the highway should be so defined that restriction should be placed on powers to branch railways, otherwise very large powers are given.

"There should also be some restriction placed upon the powers given with reference to imposing tolls and entering upon the lands, etc., lying along the intended route of the railway.

Telegraph and Telephone.

"By section 59 (1) the powers of the general act respecting telegraph companies are conferred upon the railway company. This is objectionable. The special clauses of the Dominion Act in regard to telegraphs and telephones should be incorporated with necessary changes, so that the kind of poles, their location, the manner in which they are to be kept, the height of poles and wires, provisions in case of fire, etc., are under ground in future, and a number of other things should be provided for.

"The widening of level-strips would probably have to be done at the cost of the city and would involve a very large amount.

Fares to be Charged.

"Section 170 fixes the fares for passengers, and sub-section (2) makes certain provisions for pupils attending schools. These provisions are different from those contained in the city's agreement with the Toronto Railway Company, and it should be seen that they do not override the provisions of the agreement.

"Section 210 limits the length of street railway franchise to twenty-five years, and gives municipal corporations power to assume the ownership of the railway upon giving six months' notice to the company. If such notice is not given, the privilege of assuming the ownership may be exercised every fifth year. This should not be allowed to interfere with the city's right under the Toronto Railway Company Act of exercising such privilege in any succeeding year after the expiration of the franchise.

'Twas Cold Yesterday.

Lower temperature was recorded at the Toronto observatory early yesterday morning than has been the case since March 23, 1883, when the thermometer registered eight below. The coldest day ever recorded for March was in 1888, when 15.6 below was registered.

Sunday at Massey Hall.

The Canadian Temperance League held closing meetings in Massey Hall tomorrow at 3 p.m. and 7 p.m., with Rev. F. H. Jacobs of New York, and Rev. Melvin E. Trotter of the Torrey-Alexander Mission as speakers. The Alexander choir, augmented to 400 voices, will conduct the singing at 7 p.m. and evening. With solos from Mrs. Grace Carter Merry, Mrs. D. McCutcheon, Mr. Jacobs and Jack Davies. Souvenir pledge cards are to be distributed.

Bank Losses.

In a suit to recover \$384.85, the Crown Bank has lost in its action against Joseph Brash of Woodstock. The amount was composed of eleven promissory notes, Brash and G. C. Campbell were in business together, and it is held by Judge Tieszel that the notes were made by Campbell without the knowledge of Brash.

Radial Railway Question.

"It involves the whole controversy as to the franchise of the radial, and will permit of the entrance during the existence of the street railway as owners," say the corporation counsel and city solicitor to the board of control regarding the proposed new Ontario Railway Act. In this connection they add: There seems at present to be no clause providing for franchises where the railway is owned by a municipality.

"By sub-section (4) the privilege to be granted as to a radial line is limited to the unexpired term of the franchise of the street railway company, but by sub-section (5) power to grant a renewal if the parties cannot agree is given to the board, and by sub-section (6) (which does not seem to be quite as clear as it might be) it is apparently intended that the board can't grant a renewal where the city or town interested has the right to take over.

PROBE ALL INSURANCE.

Belief That Royal Commission Will Extend Its Inquiry.

It is improbable that the resolution passed by the insurance department of the Canadian Manufacturers' Association asking the government for an investigation of fire insurance will be presented at Ottawa. Manager Heaton of this department stated yesterday that he did not think it would be necessary, as the investigation now being undertaken by the commission appointed will have all it can attend to for some time to come investigating life insurance, and the association is both to ask for another commission.

It is considered that since active work has begun on the investigation it will be continued into all branches of insurance. Should this not be realized, however, the association has the resolution ready to be presented for action.

WEAK MEN, LISTEN!

I HAVE CONFIDENCE ENOUGH IN MY TREATMENT TO GIVE YOU MY ELECTRIC BELT ON TRIAL UNTIL YOU ARE CURED.
I CAN MAKE YOU STRONG

Have you lost the fire and strength of youth? Have you "come and go" pains in your back and shoulders? Are you growing old too soon? If you have those symptoms or any other sign of breaking down of your nerves and vitality you will find new life in electricity as applied while you sleep.

DR. McLAUGHLIN'S ELECTRIC BELT

is for you—it is the best way to use electricity. It pours a gentle stream of life into the weakened parts continually for hours every night. It refreshes the nerves, expands the vital powers, enriches the circulation, and makes you feel bright, active and vigorous in one night's use. You get stronger each day, and in a few weeks you are stronger and younger in the fire of youth. It cures to stay cured Nervous Debility, Weakness, Rheumatism, Lumbago, Kidney and Stomach Trouble, Indigestion and Constipation. It is grand, this method of mine. BUSINESS MEN, PROFESSIONAL MEN, MINISTERS, ATHLETES, MEN OF NATIONAL RE-NOWN and men in every walk of life who have used it are praising it.

THE FOLLOWING WERE CURED AND ARE NOW HAPPY:

- JAS. JOHNSTON, J.P., Ottawa, Ont., says:—"I was cured of heart disease and stomach trouble in August, 1903, and have never experienced a return of it in over two years."
- HERMIE SCANLON, Ancaster, Ont., writes:—"In one month's use of your Belt I have gained seven pounds. No bladder trouble, constipation or headache any more, and have developed a lot of muscle and strength. Thanks for your help."
- C. H. McLAGUE, Roland, Man., has this to say:—"After ten day's use of your belt the losses have stopped, my stomach is digesting its food and the constipation is a thing of the past. You have my sincere thanks."
- J. LARGESS, Box 5, Yankton, Hill, Ont., reports:—"The lameness in my back is all gone, the varicose is better, and I am getting better health generally, and have gained a good deal in weight."

Dr. McLaughlin's Electric Belt will give back the old vigor of youth. The loss of your health causes Kidney Trouble, Rheumatism and Stomach Ailments. You know it's a loss of vital power and affects every organ of the body. Most of the ailments from which you suffer can be traced to it. It never fails, and to prove this statement I offer you my appliance

FREE UNTIL CURED.

So pronounced are my cures, so strong is my belt to cure the human ills, that I do not hesitate to make you this offer. All I ask is that you give me security for the Belt while you wear it. I have cured thousands who have squandered the savings of years in useless doctoring.

My Belt is easy to use; put it on when you go to bed; feel the glow of heat from it (no sting or burn as in the old-style belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a 2-year-old.

What ails you? Write and tell me, and no matter where you are I think I can give you the address of some one in your town that I have cured. I've cured thousands, and every one of them is a walking advertisement for my Belt.

Who e who have used it recommend it, because it is honest. It does great work, and those whom I have cured are the more grateful because the cure costs so little.

Birds Without Wings.

Large sums are paid for the eggs of the apyrornis or moa, a gigantic wingless bird of from twelve to fourteen feet in height, which as long ago as 200 years was already dying out in Madagascar. In appearance the bird much resembles the ostrich, and its egg was one foot in length. The first specimen was brought to Europe (Paris) by a French merchant in 1851, and caused quite a sensation from the amount of interest it attracted.

GIVE YOUR BABY Lactated Food

AND YOU WILL SOON NOTE A HAPPY CHANGE.

Many mothers upon perceiving that their little ones are not growing as healthy babies should, ask the question, "What shall we feed baby on?" We answer, without hesitation, "Lactated Food," the only nourishment perfectly adapted for infantile growth and expansion. Lactated Food is rich in every strength, it prevents dysentery and diarrhoea, it enables the child to rest and sleep well, and mother is relieved of all care and anxiety. Lactated Food makes strong babies. All Druggists recommend it.

WORK COUNTY AND SUBURBS

Toronto Junction, March 23.—At the police court this morning Wm. J. Brown, proprietor of the Weston-road Hotel, was fined \$50 and costs for selling liquor without a license. He pleaded guilty. The man Blake who was summoned for selling bags of potatoes under 50 lbs. was fined \$2 and costs, and was given one hour to pay the fine or go to jail for 15 days. He paid. The magistrate told Blake that if he ever came before him again on this charge he would not give him the option of a fine.

There are some complaints being made as to the way building permits are being secured. In some cases the plan of the building was roughly sketched on old brown paper, and then, in some cases the building was not in accordance with the plans. The opinion amongst town authorities is that a blue print should be filed with the town clerk.

Application was made to the mayor this morning for assistance in the removal of a family who were recently found on the verge of destitution, to more comfortable quarters. It appears that certain local carters refused to do the work without anything more substantial than the woman's promise to pay. The town's team did the work to-day.

The Sons of Scotland, Lord Aberdeen Camp, held a concert and dance in St. James' Hall to-night.

The first collection in the schools for the Penny Savings Bank was made to-day, and in the neighborhood of \$300 was collected. The success of the first collection passes all expectation.

The Late Mrs. Carberry.

The many friends of Rev. Father Carberry of Schomberg will regret to hear of the death of his mother in this city on Thursday. Mrs. Carberry was a resident of Toronto for over 58 years, having spent her childhood in County Limerick, Ireland. Her husband died 28 years ago. The funeral services were held in St. Michael's Cathedral yesterday morning.

An Interesting Case for Farmers.

In the case of John Martin against Robert Cowan before Justice Magee, the jury brought in certain findings which resulted in the plaintiff's action being dismissed with costs. Both plaintiff and defendant come from the Township of Scarborough, where they are both well known and the action was of considerable interest to the farmers of Scarborough, the court room being crowded. The plaintiff, Mr. Martin, was in charge of a cutting box and the defendant, Mr. Cowan, was in charge of an engine which operated the cutting machine. The plaintiff lost two fingers in the machine and claiming that the defendant started the machine in operation without any warning, sued for \$2000 damages for the loss of two fingers. The defendant contended that the accident arose thru the plaintiff's own carelessness. Considerable evidence was given to the custom in regard to giving warning. On the findings of the jury, Justice Magee dismissed the action with costs. Herbert Lennox, M.L.A., appeared for plaintiff and Mr. Mullock for defendant. This case is of further interest in view of the fact that there is now before the legislature a bill respecting stationary engines.

Balm Beach.

The formal opening of the new clubhouse last night was in every respect a most enjoyable event. Fully 150 were present. In the absence of W. A. Lyon, president, who is in British Columbia, the chair was taken by W. J. Brandham, vice-president. Among those contributing to the pleasure of the evening were Mr. Landell, W. F. Archibald, Harvey Lloyd, F. M. Baker, Mr. Hardy, Mr. Riley, R. J. Winsor, Barker and Miss Mayflower Smith in song and musical selections. Miss Kay contributed a recitation and Miss Landell a piano solo. On behalf of the town council, John McP. Ross welcomed those present. Dancing was kept up until an early hour. The floor was in charge of Jas. McIvor, while refreshments were looked after by T. P. Hodgson. The assembly-room was beautifully decorated.

CARTOONS TELL THE STORY.

"I judge no one's money is safe in any insurance company," said Magistrate Denison, when George R. Burt of the Liszt Piano Company said he had a policy in the Toronto Life, "but I gather that from the newspapers, not that I read the insurance articles, but from looking at the cartoons."

Says Lawson in Romancing.

New York, March 23.—Alexander E. Orr, president of the New York Life Insurance Company, in an interview today denied the accusations made by Thomas W. Lawson of Boston, that agents of that company have been giving rebate on policies and giving away policies in return for proxies.

BURT COLLAPSED IN BOX
Continued From Page 1.

the board of directors. Mr. Phillips inquired if there is any money, kept and fled away, showing to whom and for what amount these payments were made?

"There would be the cheques to show the amount."

"If a loan of \$6000 had passed, and \$3000 were paid, and the former were to apply to you personally for the other \$3000, would you pay it?" the witness was asked. He replied in the affirmative.

As He Was Told.

"A queer business," was the comment of the court, followed by Crown Attorney Curry's remarks, "and withheld knowledge whether there was a mortgage or not." To that the witness assented by the word "Yes." He added that he was there to do as Mr. Phillips authorized. He made no particular enquiries as to the securities for this loan. Their solicitors had told them there was a mortgage that covered the whole amount. The building of the piano factory did not come before the board of directors at all. He had heard the place was going to be built. Witness was not present at a meeting of the board of directors in October, 1903, that being the meeting at which the \$60,000 loan to Burt was sanctioned. Witness did not know the why and the wherefore of the payment of \$3000 to the City Realty Company. But he explained that a cheque had been made out, taken to the bank and cashed, and the money brought back to the office. It was credited to interest account. He did not know the amount of interest. He did not think that that would pass to the government as being interest on a mortgage supposed to be in existence, but that really did not exist. Neither witnesses nor the Messrs. Hall could throw any light on the item.

Referring to the action of the board of directors of the Toronto Life from any claim for rebates against the York Loan, witness said that that would be a benefit for the Toronto Life as against the York Loan. He had resigned to go into business for himself. He could see no future for himself, as the idea was to merge the company into a permanent company. That was in August, 1905.

Phillips' bank and cheque books from 1903 to the present were brought to the court in the afternoon, in pursuance of a subpoena.

Visits Registry Office.

Burt again took stand in the witness box and was closely questioned concerning his visits to the registry office—one of these being with Phillips—to make declarations. The witness expressed at the outset a good deal of ignorance. The declaration as to the dissolution of partnership was made on Sept. 6, 1905, by Joseph Phillips, and witness claimed that he himself made the suggestion that the formality should be carried out.

Burt explained that the affidavits which Phillips had made on Oct. 5,

1903, to the effect that he himself was sole owner of the Piano Company, was a pure mistake, and that as soon as it was found out, two years later, witness made the affidavit that he was the owner.

"Surely you do not expect us to accept that explanation. It does not satisfy me," said the crown attorney.

"It does not matter whether you are satisfied or not," replied the witness.

"Yes, but I am the one that must be satisfied before this investigation is ended, with the permission of his worship," replied the crown attorney.

"I am going to wait until the end of the enquiry," said Magistrate Denison.

In reply to the crown attorney, Burt said that if Sanderson had stated that Phillips got the pianos for \$135 or \$150 he had told an untruth.

Witness said that when he borrowed the money it was his intention to carry on the business on his own account.

Magistrate Denison suggested to the crown attorney that it would be well to warn Burt in case he should be indicted for conspiracy.

The crown attorney said he did not intend to prosecute him for conspiracy in the matter. But he was going to use him as a crown witness and would protect him as far as he could and would make representations with that end in view to the attorney-general.

What Books Show.

Considerable time was subsequently spent by the crown attorney and witness in going thru the bank books of the Liszt Piano Company regarding loans received from the York Loan Company, and deposited in the bank. Burt said that he drew whatever sums he required. No amount had been fixed as his salary. It ranged from \$15 to \$40 a week.

Regarding a loan to which statements had been made, Mr. Jones said that evidence in connection therewith was contained in a written document made some time since. It was in the possession of the liquidator.

Mr. Curry sent for the document.

The following series of questions which led up to the witness' collapse. There were records of payments and collections made by the York County Loan agents and handed over to Burt. The bank book, it would appear, showed deposits of only a small percentage of these, but a ledger had entries of the money, for which there were no corresponding items in the Dominion Bank book.

"Where was the balance put?" asked Crown Attorney Curry. "Did you own another banking account? Was the money put in any other bank than the Dominion?"

"I think there was another banking account," followed the witness. "My secretary tells me there was."

"What bank was it?"

"I do not know."

The question was repeated, and after some hesitation, witness said, "I think it was the Sovereign Bank, or the Montreal."

"Where did you deposit the rest of the money?" witness was asked. "You said it was yours. You ought to know." "I think it was in the Bank of Montreal."

"If it were your money you would know distinctly where it was deposited," said Crown Attorney Curry. "If it is not yours, you would not know. Where was the money deposited?"

"In the Bank of Montreal."

"Have you the bank book?"

"No."

"Who has it?"

"Miss Hudson."

The crown attorney called Miss Hudson for the book and at the moment the lady stepped forward, Burt collapsed.

BENCHERS' ELECTIONS.

Candidates Who Are in Field for Election or Re-Election.

Interest in the benchers' elections is growing keen. Already the secretary of the Law Society, has received several voting papers, but these will be rejected, as the only ballot papers that can be counted are those received within the stated period, March 28 and April 4, both days inclusive. Those who have already sent in a ballot should apply to the secretary for another ballot paper, fill it in and forward it within the proper time. The scrutineers will commence the counting of the ballots on April 6 in the presence of the treasurer of the Law Society and of C. H. Ritchie, K.C., who has, pursuant to statute, been appointed by convocation to preside. Mr. Ritchie's appointment does not render him ineligible for election.

No official list of nominations is made, but as far as can be learned candidates now in the field are:

For re-election: Allen Bristol Aylesworth, Toronto; Walter Barwick, Toronto; Richard Bayley, London; Alexander Bruce, Hamilton; Francis Henry Chrysler, Ottawa; Alfred Henry Clark, Windsor; George Christy Gibbons, London; James Morrison Glenn, St. Thomas; Donald Guthrie, K.C., M.P., Guelph; William Drummond Hogg, Ottawa; John Hos-

Sept., Toronto; William Kerr, Cobourg; Gordon Alton Lash, Toronto; George Lynd-Stanton, Hamilton; Samuel George McKay, Woodstock; Donald Ban MacLennan, Cornwall; William David McPherson, Toronto; John Wallace Nesbitt, Hamilton; Wallace Nesbitt, Toronto; William Renwick Riddell, Toronto; Charles Henry Ritchie, Toronto; George Ferguson Shely, Toronto; Edward Sidney Smith, Stratford; Henry Hutton Strathy, Barrie; Daniel Edmund Thomson, Toronto; George Hughes Watson, Toronto; William Robert White, Pembroke; Matthew Wilson, Chatham.

Those announced for election: I. F. Hellmuth, K.C.; F. E. Hodgins, K.C.; James Bicknell, K.C.; F. W. Hartcourt, official guardian; H. M. Mowat, K.C.; C. A. Mastan, K.C.; E. B. Ryckman, K.C.; W. M. Douglas, K.C.; A. C. McMaster, John Cowan, K.C.; Sarnia; W. B. Northrup, K.C., M.P., Belleville; A. J. Wilkes, K.C., Brantford; C. H. Ritchie, K.C.; E. F. B. Johnston, K.C.; A. E. DuVernet, K.C.; R. M. Dennistown of Peterboro, Col. Farewell, Whitby; Donald McIntyre, K.C., Kingston.

A. B. Northrup, K.C., M.P., has been selected by the Hastings County Bar Association as their candidate. The Bay of Quinte district was for nearly a third of a century represented by the late John Bell, K.C., of Belleville. Since his decease no one has been elected to fill his place. By the death yesterday of Dr. Walkem of Kingston the district between Cobourg and Cornwall is not now represented on the benches, and Mr. Northrup's friends feel that he should be elected to represent the important County of Hastings.

The Frontenac Bar Association yesterday decided to support Donald McIntyre, K.C., of Kingston.

Victor The Standard Manly Shoe

Every other shoe of advertised standing has increased its price. Higher expenses and higher prices for leather have forced this move on the part of the manufacturers. The Victor Shoe is the exception. We control its manufacture ourselves. The standard Victor price is \$3.50, and at \$3.50 it will remain. We haven't cheapened the standard quality of the Victor a single cent's worth either, as any honest test will easily show.

Spring styles now ready. All popular sizes and widths.
