PROVIDE FOR "HOME FLEET"

Admiralty Issues Statement Out-

lining Intention of Government

in Distributing Force-"No

London, Oct. 23 .- With the view ap

parently of meeting recent press attacks on the "Starving of the Navy,"

the admiralty has issued a circular to

the navy, which indicates, the not ver?

explicitly, the intention of distributing

The circular announces that a distinct

fleet will be constituted from the re-

serve ships, to be called the "home

fleet," under the supreme command of a flag officer with the status of commander-in-chief and headquarters at

Sheerness. This fleet will in every re-

spect be organized with the view of enhancing its value as a fighting force. It will make frequent cruises and but-

Continuing, the circular declares that

the admiralty will, from time to time, decide the strength of the nucleus ercws on a sliding scale, so that the essels first required in war will have the largest complements. The distribution of ships between the Channel. Mediterranean, Atlantic and reserve leets will be altered to permit of the rganization of "the home fleet."

The circular also makes the following

"No ships will be paid off; no men will be sent to barracks or instructional chools, and no alteration will be made in the proportion of officers and men The Daily Telegraph, in an editorial on the admiralty circular, regards it as most gratifying. "It is realized that the centre of gravity has shifted," the

mportant announcement:

the naval strength anew.

de manoeuvres will be held.

Ships Will Be Paid Off."

REPEAL OF SALARY GRAB VS. PUBLIC WORKS REAL ISSUE IN NORTH BRUCE BY-ELECTION

W. F. Maclean Exposes Record of John Tolmie When That Gentleman Sat in the House of Commons as a Patron-Hon. A. B. Aylesworth Defends Increased Indemnity and Laurier Attack on Provincial Rights.

THE CANDIDATES.

ABRAM McCLELLAN, Conservative. Plat-ABRAM McCLELLAN, Conservative. Platform—Repeal of the salary grab; support of all measures to regulate the great corporations and to reduce the tolls and feres exacted from the people.

IOHN TOLMIE, Liberal. Platform—"No constituency can hope for public works if it votes against the party in power."

He intimates that he will support W. F. Maclean in an effort to repeal the salary grab.

Speaking for the Conservative candidate
W. F. Maclean, M.P. for South York,
exposed the record of John Tolmie, patron M.P. for Bruce in the parliament
of 1896-1900. Tolmie voted against putting express companies under the jurisdiction of the railway commission. He
shirked the vote on the issue of the twocent railway fares and was absent when
the vote was taken to compel railways
to give access to their stations to independent telephone companies.

this afternoon to attend the joint meeting that followed the nominations in North Bruce. James Walmsley, the returning officer, presided, and speeches were made by the candidates, followed by addresses from W. F. Maclean, M.P. for South York, and Hon. A. B. Aylessorth, minister of justice; Richard Blain, M.P. (Peel), W. H. Bennett, M. P. (East Simcoe), and Peter H. Mackenzie was evident when Mr. Bowman spoke. He made a non-partisan addresses dress, declaring that there were no prominent men in attendance.

The Conservative nominee is Abraham McLellan, a well-to-do and substantial farmer of Kincardine Township; his opponent is John Tohnie expectation. He urged the electors of Sputhampton to vote for Tolmie, in order to help the town in the way of getting public works.

Mr. Bowman Mr. Tolmie and his speakers were quite disheartened by the failure of his supporters to turn out. One result of this was evident when Mr. Bowman address, declaring that there were no politics in this election. He urged the electors of Sputhampton to vote for Tolmie, in order to help the town in the way of getting public works.

The following meetings are announced by the Conservative committee: W. F. Maclean, M. P., at Tara. Oct. 25; Kincardine, Oct. 26; W. H. Bennett, M. P., at Arkwirght, Oct. 26, Allenford, Oct. 27, E. and the document of the bridge of the house he voted against the two-cent fare, and against every important bill to curb corporations. He now claims that he is a Liberal and no longer pretends to any friendship for the farmers.

Mr. Blain denounced Mr. Aylesworth for his remarkable performance this afternoon. The minister had announced that no riding could expect any public works unless it sent a government supporter to Ottawa.

The following meetings are announced by the conservative committee: W. F. Maclean, M. P., at Tara. Oct. 25; W. H. Bennett, M. P., at Arkwinghi, Oct. 26, Allenford, Oct. 27, E. A. L. Borden, and Mr. Tolmie followed in a new present of business, declaring that there were not be a conservative of t

He is a good mixer, but has crippled his cause by circulating the silly canard that his opponent can neither read nor write. He tried to wriggle out to-day when charged with it on the platform. Mr. McDellan spoke briefly but to the point. Mr. Tolmie spoke at greater length and concluded by an appeal for "Honest John Tolmie."

A People's Candidate Robifaille, an Independent Liberal,

A People's Candidate. Mr. McLellan was received with great applause. He is PLEDGED TO REPEAL THE SALAR GRAB; TO SUPPORT ALL MEASURES TO REGULATE THE GREAT CORPORATIONS, AND TO REDUCE THE TOLLS AND FARES EXACTED FROM THE PEOPLE. In opening, Mr. McLellan said: Mr. McLellan said:

"Mr. Chairman and Gentlemen,-I am o platform speaker, as you all know. I am an old-time farmer. Mr. Tolmie has circulated a slander to the effect that I cannot read or write. If you send me to Ottawa, gentlemen, you will find that I cannot only read and write, but that I can also think and vote. Certainly, gentlemen, you will all agree with me that I could not do less for the farmers of North Bruce than did Mr. Tolmie during his eight years in the house. (Laughter and applause.)

Tolmie and Public Works. Mr. Tolmie was visibly rattled by bec County to fill the federal vacancy confidence in the Liberal government. He first denied that he had circulated the reports about Mr. McLellan. He said that he had merely stated that he did not know whether or not they were sulted to-day in the election of Lo-

NORTH BRUCE.

Port Elgin, Oct. 23.—(Special.)—The campaign in North Bruce was fairly launched to-day by the official nomination of Abrama McLellan, Conservative, and John Tolmie, Liberal.

The issue is the salary grab, and the curbing of corporation influence on the one side and public works for the constituency.

on the other side.

Tho John Tolmie makes no attempt to defend the salary grab, and indeed half-heartedly supports the program for its repeal, his chief spokesman to-day, Hon. A B. Aylesworth, defended it and put up the novel argument that the house had no right to reduce his salary, as he was elected on the \$2500 basis.

The chief Liberal argument is that North Bruce needs a Liberal in particular who will be able to secure the averaging the content of the chief Liberal argument is that North Bruce needs a Liberal in particular who will be able to secure the averaging the content of the chief Liberal argument is that North Bruce needs a Liberal in particular who will be able to secure the averaging the content of the chief Liberal argument is that North Bruce needs a Liberal in the chief Liberal argument is that North Bruce needs a Liberal in the chief Liberal argument is that North Bruce needs a Liberal in the chief Liberal argument is that North Bruce needs a Liberal in the chief Liberal argument is that North Bruce needs a Liberal in the chief Liberal argument is that North Bruce needs a Liberal in the chief Liberal argument is that North Bruce needs a Liberal in the chief Liberal argument is that North Bruce needs a Liberal in the chief Liberal argument is that North Bruce needs a Liberal in the chief Liberal argument is that North Bruce needs a Liberal in the chief Liberal argument is that North Bruce needs a Liberal in the chief Liberal in the c

The chief Liberal argument is that North Bruce needs a Liberal in parliament who will be able to secure the expenditure of public money. This is being worked for all it is worth. The contest promises to be warm. John Tolmie enjoys a considerable personal popularity, while his opponent is just a "plain farmer," who knows the needs of the people and is pledged to support a people's platform.

NO POLITICS IN N. BRUCE IS PURELY A BUSINESS DEAL

diction of the railway commission. He shirked the vote on the issue of the two-cent railway fares and was absent when the vote was taken to compel. railways to give access to their stations to independent telephone companies.

Hen. A. B. Aylesworth, minister of justice, defended Tolmie. He opposed two-cent railway fares and justified the coercion of the new provinces on the ground that they were satisfied. As to the Hyman election scandal, Gray and the London Conservatives were "probably just as bad." Mr. Aylesworth defended the salary grab and took credit for the government for the repeal of the pensions in the face of Conservative opposition.

Liberal Speakers Appeal for Tolmie Because Tolmie Dock and told the people that their postoffice was a discontinue until you get a member with different politics."

He defended himself for voting against the two-cent fare was established, it would the North Bruce campaign this afternoon, a stirring speech by W. F. Maccent fare was established, it would be impossible to sell excursion tickets or round-trip tickets. He thought now that this was not exactly true; neverthal the house.

LIBERALS SCORE BOURASSA. Belcourt Club Condemns His Action in Quebec Election.

After One of the Hardest Fights lution, disapproving of the stand of misrepresentation on the part of agents Henri Bourassa, M. P., in the Quebec of the company and its prospectus. The County election, was passed last night writ also asks for an injunction reat a largely attended meeting of the straining the bank from carrying on Relcourt Club, the French-Canadian further operations.

Reference was incidentally made to the fact that, tho Buckingham, Que, is in the constituency of Labelle, Bourassa did not show himself there during the strike and try to effect a settlement. The impression of the meeting seemed to be that he should have been attending to the interests of his own county, rather than of electioneering in Quebec County.

Likewise, the club reaffirmed its full confidence in the Liberal government.

"The bank has headquarters in the Stair Building at Toronto, but has not yet started to do business.

The bank was incorporated in July, 1904. The time allotted to the bank to start business expired without their having received a charter, but an extensions was granted.

this morning, when the report of state of religion, presented by Rev. J. Cameron of Toronto, was under cussion, the deason remarked that scussion, the deason remarked that neing, professing Christians, often t too soon into the water, and that a Baptist could drift into other urches, the training that he receivbore evidence of being defective. This afternoon President Warren. ently speaking with the authority the convention, took occasion to reark that the onslaught made by acon Graham on Sir Wilfrid Lau-

Twelve Ordinations. The report of the state of the work showed 12 ministers had been ordained during the year, seven of whom had attended McMaster University. There had been 113 changes in the pastorates as compared with 119 of last year. The average length of pastorates had been about three years. Eight churches had been organized, and 20 church edifices had been erected. The numerical statistics showed that 3098 bapequator is revolving at the rate of several series as against 2823 of last year; the net gain in membership was 1741; the net loss 107; present membership 47, 245. During the past five years 12,317 baptisms had been made. About one-half of the baptisms had been made on home mission fields, and one-half from the Sunday schools. During the year the churches expended \$406,724, as against \$408,918 last year; \$90,051 on work abroad, as against \$78,234 last year. The total expenditure at home and abroad was \$496,775, as against \$408,715 as against \$78,234 last year, and \$1.90 for work at home pared with \$8.56 last year ago. The average of six member of \$10.51, an increase of six member of \$10.51, an increase of six heat we are held on this six of the series of the six of the series of the six of the series of the advantage of the control of the series of the serie year, and \$1.90 for work abroad. compared with \$1.59, or a total giving per member of \$10.51, an increase of six cents on last year. During the past world by the force of gravity, the central force of the earth would yet be thrown \$2,250.822. The past financial year was at once into space.

"The foundations of the earth, I con-

abroad-\$391,816, a total expenditure of \$2,250.822. The past financial year was the finest in the history.

Salaries of Pastors.

"Rev. J. B. Kennedy M.A. offered a resolution regarding pastors salaries. Forty per cent. of the churches had made no increase in pastors' salaries during the past five years. He believed there was a close connection their ministers a salary of at least the constant change in the pastorate. The resolution respectfully asked the churches to provide for their ministers a salary of at least this should take the first place in their financial efforts Mr. Kennedy said that churches gave contributions of missions and McMaster University and left the pastors salaries unpaid. Denominational representatives should his set that the churches should pay the pastor first, before they gave to other objects. Mr. Kennedy moved his resolution regarding pastors' salaries. It was moved in amendment that the motion be deferred minister a mencal pastors salaries. It was moved in amendment that the motion be deferred moved his resolution regarding pastors' salaries. It was moved in amendment that the motion be deferred ministers as force which makes it revolve."

Topacco Trilist Reale on the charge of the dearth, I contend at the north and such that the churches to post the earth, I contend at the north and such the north and such that comes within range of the G. N. W. Telegraph Company. Join Jamieson will be made manager of the G. N. W. Telegraph Company. Join Jamieson will be made manager of the G. N. W. Telegraph Company. London, Oct. 23 .- "To get from Lor

That is the statement M. K. Ryan. ditor of Civil Engineering, the Lon-

ments which have taken place during the last few months in airships of various kinds, and space does not permit me to enter into details. Suffice to say that arrangements have been made to manufacture them in large quantities during the coming winter and next season ballooning trips will be nothing unusual. The explorer who affects arrives at the north pole will do first arrives at the north pole will d ark that the onslaught mass acon Graham on Sir Wilfrid Lauer was only the expression of a print at opinion, and not the voice of the athering.

"I regret exceedingly," he said, "that more impression has gone abroad that Deacon Graham expressed the santiment of this convention as a body, and I further regret that the convention has been used by a private member of viving utterances of a political state of the counter questioned:

"I regret exceedingly," he said, "that ind probably will discover the foundations of the earth and dispose once and for all of that ridiculous and absurd theory that the world is revolving in space."

Force to Make It Move.

Mr. Ryan was asked on what he based his theories. He counter questioned:

"On what proven facts do astronomy of the satisfied."

"The explorer with the said, "that the north pole will do so, I expect, in some form of airship, and probably will discover the foundations of the earth and dispose once and the world is revolving in space."

T. H. & B. to Buffalo to pay a visit to Washington Lodge.

Edward Burke was this morning sent down for a year by Judge Snider for assaulting Samuel Smith, a bartender at the Big Four Hetel.

"The washington Lodge and the samuel of the world is revolving in space."

Force to Make It Move.

Mr. Ryan was asked on what he based his theories. He counter questioned:

"The what arrives at the north pole will do sartship, when the proven distribution of the will do will do when the will do wh

nination raised \$1,849,784; for work trifugal force of the earth would yet be as been arrested on the charge of much greater and we would be thrown the past financial year was at once into space.

the earth revolve for 182 minutes, and then come down—in New York,"

Mr. Ryan has startled the British scientific world with a harmless looking little editorial paragraph in the October number of Civil Engineering. It reads as follows:

'It is not generally known, even to the engineering public, the developments which have taken place during the last few months in airships of the last few months are last few m

mers and other scientists base their present day theories? I have as much right to put forth a theory as they have. I have studied the sciences, and particularly astronomy, for years. I contend that the world is on a solid foundation. If it is moving there must be a force to make it move. Then that force should be the force of gravity, and that would be the force of gravity, outside the earth. Therefore, the force of gravity outside the earth. Therefore, the force of gravity outside the earth would be greater than the force inside.

"Astronomers tell us a point in the equator is revolving at the rate of seventeen, miles a minute, but that we are going so fast that we don't appreciate it, or are not sensible of it. They

Nurses Organize Club. special meeting of nurses was held terday in the theatre of the Noryesterday in the theatre of the Normal School to discuss a program of work for the coming winter. It was decided to form the Toronto Nurses Club, in order to bring the nurses of the different schools together, and provide a field of work for nurses who have graduated outside of Toronto. Miss Brent, lady superintendent of the Hospital for Sick Children, was chosen to preside over the club.

An interesting program has been arranged for the winter months, consisting of lectures, travel talks, philanthropic work and demonstrations in nursing. The public will be welcome to these meetings of which further nursing. The public will be welcome to these meetings, of which further notice will be given. The price of the course ticket will be \$1; single admissions 25c. Further particulars may be had from the secretary, Miss Land, 314 Markham-street, or Miss Barwick, Nurses' Central Residence-

Mariboros Have Parted.

London, Oct. 23.—News that the Duke of Mariborough and his wife, who was Consuelo Vanderbilt, had agreed to a legal separation, has caused a sensation here among those counted among the friends and acquaintances of the duchess.

When W. K. Vanderbilt left New York for London, two weeks ago, it was known that the trip was made at the solicitation of his daughter, the duchess Friends of the Mariborough family realized that the trouble which had been brewing was nearing a climax and saw in the visit of Mr. Vanderbilt a final attempt at reconciliation. His efforts were in vain.

It is not believed by those intimate with the Vanderbilts that the estrangement of the duke and his wife will culminate in the divorce court. They base their belief on knowledge of the temperament of the duchess, who is devoted to her children and naturally would shrink from the notowho is devoted to her children and naturally would shrink from the notoriety of the extreme step. Society is wondering who is the other woman in the case, whose name in connection with the duke's lends an aroma of scandal to the sequel of one of the most brilliant marriages made by an American stell

American girl.
Mr. Vanderbilt is staying with his daughter at Blenheim, but the duke

daughter at Blenheim,, but the duke is not there.

Reynolds' newspaper says that it appears the duchess sympathized deeply with a charming young woman on the continent who had been the victim of severe domestic trouble and invited her to England, where she became on most familiar terms with the family. After a while the duchess noticed that the duke was paying her fair visitor more attention than was necessary.

to the young Duke of Marlborough, in St. Thomas' Church, New York, on Nov. 6, 1895, was New York society's greatest event. The wedding, accord-ing to the English view, assured the rehabilitation of the Marlboroughs, and in America it save the and in America it gave the greatest possible social distinction to a young woman who had not yet made her for-

Miss Vanderbilt was given a dowry of \$5,000,000 by her father.

Checked Velvet Gowns.

On the first cold days the prettiest of checked velvets, all in lovely shades, made their appearance. One particularly charming dress was a combination of black and red, the skirt and bodice trimmed with black of the cremony took place in the drawing room, which was decorated with smilax, ferns and pink and white chrysanthemums, the bridal party taking up their position, beneath a beautiful arch of greenery, relieved by pretty settings of Japan's national flower. The officiating clergyman was Rev. E. F. Torrance, D.D. skirt and bodice trimmed with black silk passementerie. The bodice was shaped like a bolero, fastening in front above a high black satin girdle. The wedding march from "Lohengrin," with Miss Eva Irwin, sister of the for uric acid tight fitting back was finished to the waist with a narrow, undulating band of velvet.

bride, accompanying on the violin. Miss Lizzie Irwin, sister of the bride, was maid of honor, and the brides

Evening Coats.

An attractive coat for evening wear was made of ivory white cloth, with facings of pale blue or rose colored velvet braided with silver tinsel, and lined with white satin. Another handsome coast is of the cellular tinsel, and some coast is of the cellular tinsel. some coat is of thin silky faced cloth in delicate biscuit shade, with collar cuffs and broad stole fronts of velvet of a slightly darker tint, ornamented with a conventional scroll pattern in fancy braid woven of pale pastel blue silk and silver tinsel thread.

Ostrich Feathers in Vogue, Ostrich feathers will be the most popular form of hat decoration this

"There is no more becoming trimming than a fine ostrict feather," a milliner said yesterday. "It is equally and on the first Monday and on the first Tuesday of each at home on a large picture hat, a smart French model, or a tiny fur

"Some ladies grumble because a feather soon goes out of curl, but of shaken for a couple of minutes before a fire it curls again as well as on the

"A good plan when wearing a long plume on a fur toque is to fasten the feather in with a jeweled buckle. It can then be removed if the weather be very wet, and a bunch of quills substituted.

Rogers-Kirkpatrick.
Yesterday afternoon, at the residence of the bride's sister, Miss F. M.

The Canadian Institute, this afternoon, Mrs. Wellesley Holmsted will give a paper on "Plea for Canadian Artists."

CAUTION—Be careful to enclose above illustration and send size of pattern wanted. When the pattern is bust measure you need only mark 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When miss' or child's pattern write only the figures representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order. Do not send stamps.

[Special Note,—Always keep duplicate of all orders sent, and send this duplicate in making enquiries about patterns that are not received promptly.]

Address The World Pattern Beauty of Simple PRESCRIPTION

separate the Duke and Duchess of Mariborough have been of public knowledge in London for more than two years. For the last is months they have been together but little.

The duke has made no attempt to conceal his dislike for his wife's family. This dislike, it is said, was intensified by Mr. Vanderbilt's second marriage.

Nothing annoyed the duke so much as the frequently printed reports of his having received magnificent precents of more than the presence of only the new received an opportunity to deride these rumors.

The wedding of Consuela Vanderbilt, wis first wife, now Mrs. O. H. P. Belmont, to the young Duke of Mariborough, in St. Thomas' Church, New York, on Nov. 6. 1885. was New York society's greatest event. The wedding, according to the English view, assured the renabilitation of the Mariboroughs, and in having a large plant for that purpose.

LONDON PREACHERS WAR OVER ELECTION SCANDAL

Messrs. Clark and Sage Exchange Views on the Situation Thru Pulpit and Press.

London, Oct. 23.-The political pot is oiling merrily here, and the preach A Torento Clergyman's ian Church, Rev. W. J. Clark on Sun Success in England (with a very neat and carefully-prepared de-The statement read is as follows:

the investigation which has been carried on in Toronto. I was out of the country when it commenced, and am not fully acquainted with all that has transpired. I have nothing to do with the investigation, but have something to do with the formation of a correct public opinion, and in view of the discussion which has taken place in the press and among the people, I have felt it a duty to say a few things to you, and that I might be less likely to blunder in the form of expression, have written that which I wish to say:

1. Let it be remembered that only a small percentage of the citizens have been shown to be guilty of an impros an insult, and, in my judgment, ar

rant nonsense.

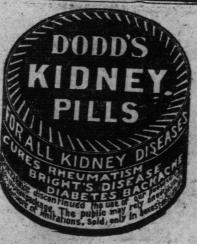

2. We have no right to make large assumptions as to the wrong-doing of this or that man without other evidence than inference and suspicion. It is a first principle of British law to hold a man innocent until he is shown to be guilty.

3. A number of men have confessed to receiving money paid them for the nurpose of influencing their votes. This is wrong and disgraceful. Bribetaker and bribe-giver should be disfranchised for a term of years at least. This would sum the appropriate

(Pure), which are put up under various names, such as Concentrated Oil of Pine, Pine Balsam, etc. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably produce pauses and never is so, and the attempt to de comply in the city, and elsewhere to cease attempting to make party capital out of this affair, for the evils depoint and if greater on one side than the other it is impossible to prove that it is so, and the attempt to de comply in the city and elsewhere to cease attempting to make party capital out of this affair, for the evils depoint and if greater on one side than the other it is impossible to prove that it is so, and the attempt to de comply in the city and elsewhere to cease attempting to make party capital out of this affair, for the evils depoint and it is impossible to prove that it is impossible to prove t

of the exhibition in the railway companies' advertisements as they recognize its value to the country. Chairman Frankland announced that Mrs. Mortimer Clark and a dozen society ladies of the province would judge the decorated tables. The private subscription list is coming up well toward the prize list.

Indignation. I am smarting under the intelligence that another batch of London Westers are summoned to Toronto this morning. After all, while I have no wish to condone election corruption in any form. I have a great deal of sympathy with these men who are taken away from their work, their homes and their families. Neither these men, nor Jerry Collins, nor Tom deal of sympathy with these men who are taken away from their work, their homes and their families. Neither these men, nor Jerry Collins, nor Tom Lewis, are the real offenders. The real offenders. The real offenders are those men who sit in high places, shining this morning with the whitewash of Mr. Clark's platitudes. The real offenders are those men who supplied the funds. Here is the fountain of evil. Mr. Clark's statement smacks of kindersibility upon the over zeal of the press of this city. The system of letting government contracts without tender

reports from the mines all that is needed to publish the railway returns, which, of course, would be of quantities and their source, is the consent of the government.

The World submits that action is needed in the direction taken by the British Columbia mining authorities, and the sooner the better.

How much ore has been shipped out of Cobalt?

GRAIN MEN'S TRICKERIES.

Exposed at Opening Session of In-

Kansas City, Mo., Oct. 23.—Evidence of favoritism to the manager of the Kansas City elevators of the Chicago, Milwaukee and St. Paul Raliroad, in reducing grain rates; the existence of a rule in the Kamsas City board of trade, threatening its members with suspension for dealing with "irregular" grain men; a combination of members of that organization to fix prices, and therats by grain dealers' associations to boycott the board of trade members who might buy from farmers and others against whom the associations had issued orders, were some of the points brought out here to-day, at a hearing before the interstate commerce commission.

E. W. Shields, elevator agent for the Chicago, Milwaukee and St. Paul Railroad, and active manager of the Simonds-Shields Grain Co. of Kansas City, testified that he was in Chicago last fall, when he was called upon to advise about a special export rate on corn. He helped make a rate, effective several days later.

Then he came home and bought corn right and left. He shipped three and a half million bushels of corn under the special rate. He haid bought more than a million bushels before other dealers learned that the reduced rate would be made.

THE WESTERN CA

EASTERN ISSUE OF

2,000 TEN PER CENT. (10%) PREFERENCE SHARES OF \$100 EACH

NOTE—The two thousand shares of this issue are 10% Preference Shares. The Western issue having been wholly taken up by the Ranching, Farming and Commercial Men of Western Canada.

CALLS—\$10 per share on application and \$10 per share on allotment, and the balance in calls of \$10 per share as required at intervals of not less than two months.

A limited number of shares are reserved for the several Provinces of Eastern Canada.

WINNIPEG. WESTERN CANADA (INCORPORATED UNDER THE COMPANIES' ORDINANCE, 1906.) \$1,000,000 CAPITAL.

In 5,000 Shares of Ten Per Cent. (10%) Preference Stock and 5,000 Shares of Common Stock.

Cheques and Drafts should be made payable to the Company's account at the TRADERS BANK OF CANADA, or the MERCHANTS BANK OF CANADA, Winnipeg, Man., from whom Prospectus and Application Forms may be obtained. SOLICITORS:-Messrs. FERGUSON & RICHARDSON, Barristers and Solicitors, Winnipeg.

MANAGING DIRECTOR: FREDERICK H. MALCOLM (Formerly General Manager of the New Zealand Canneries, Limited, The Burrard Canning Company, The False Creek Canning and Packing Company, Limited, The Table Bay Canneries of South Africa, Limited, Etc). AUDITOR :- D. A. PENDER, Chartered Accountant, Merchants Bank, Winnipeg.

TEMPORARY OFFICES:

Over Imperial Bank of Canada (First Floor) Corner McDermot Ave. and Albert Street, Winnipeg.

This company has been organized amongst western men, and a large number of the principal farmers, cattle ranchers, and commercial men of Alberta, Saskatchewan and Manitoba are already shareholders. This issue of shares is for Canadians only. A portion of the stock of the company is being arranged for in London, England. Sufficient capital for the first two canneries is subscribed, so that its immediate organization is assured. Plans and specification for cannery buildings are being prepared and lumber ordered.

PROSPECTUS.

THIS COMPANY is organized with special powers under its charter to engage in the business of a General Canning and Packing Company, and for that purpose will acquire, erect and operate Canneries in convenient localities adjoining the lines of railroad having communications throughout the Province of Manitoba and the Northwest Territories.

EFFICIENCY.—The Company, with its superior equipment, will handle in an efficient and organized manner the enormous meat, dairy and agricultural produce supplies of the Province of Manitoba and Northwest Canada on the systematic, organized and efficient basis for which the great packing houses of Chicago and the United States have become famous throughout the world.

The control of the Company will be wholly in the hands of its Shareholders, each share entitling its holder to one vote at all General and Special Meetings.

The whole of the cash capital derived from the sale of shares will be devoted to the purposes of this Company, the same being deposited to a special account with the Company's bankers.

GOODS PACKED.—The principal staple pack of the Company will be canned meat, of which beef is the most important, the material for which the extensive cattle ranches and farms on the prairies of Manitoba and the Northwest Territories furnish abundant supplies at exceptionally low rates, unsurpassed as to quality and quantity elsewhere.

In addition to these meat products, the Company will also pack and can butter, cheese, poultry and other products of this western country, to the great advantage of the farming population and the business community generally.

butter, cheese, poultry and other products of this western country, to the steady advantage of the farming population and the business community generally.

DEMAND.—Owing to the virgin field open for the Company's operations, coupled with the general rise in the price of canned beef and other foods, the profits of the Company cannot fail to be large; and a trade that is thus based on the requirements of the masses of the people, not only in this country, but throughout the world, is one in which capital may be safely invested, and in the present instance especially so, as, being first in the field in this great producing region, it will have great advantages, in fact a practical monopoly, and should soon assume an unassallable position, unequalled by any other company in the Pominion of Canada, and possibly on this continent.

CANNERIES ESSENTIAL TO-PROGRESS.—The establishing of this industry, with ample capital, is one of the pressing needs of Western Canada: in fact, it is of vital importance to the Ranching and Farming Community, owing to the extremely low prices ruling for all classes of live stock, especially since the British embargo upon Canadian cattle has reduced prices to the lowest ebb, rendering the establishment of this industry one of the most important essentials for the prosperity of Western Canada.

In Northwest Canada the trade of canning and packing the vast supplies of foodstuffs produced has not yet been touched, this accounting for the present exceptionally low price of cattle, ranging from two to four cents per pound live weight; and, this being the first company organized for that purpose, it will be self-evident that, with proper management, this Company cannot fail to take a commanding position, and should within a short time be well known in the markets of the world.

The Company will commence immediate operations, and will, as rapidly as possible, erect and equip factories in other centres in the producing region, especially at Regina. Medicine Hat, Calgary, Brandon, Edmonton, Portag

FIELD UNLIMITED.—The field for the Company's operations is practically unlimited, and, being the only Cannery existing in Western Canada, assures a practical monopoly of the field covered by its operations.

As with Chicago, all the elements of a great packing industry are here, and the City of Winnipeg last year handled more wheat than the centres of Chicago, D'luth and Superior combined, although only a fraction of the land is yet under cult' va'ton.

MONEY CIRCULATED.—In addition to the above, the purchase of the raw material required for the Company's operations will place large sums of money in the hands of the rural producing population, and senable them to secure a market and staple prices for many products of the farm and ranch that have hitherto remained unsalable, or have not been produced for want of a market.

ONLY CANNERY IN CENTRAL CANADA.—Strange as it may seem, this is the first undertaking on these lines attempted in Canada west of the Great Lakes, although all the essentials of a meat-packing industry, and raw material, are here in abundance, and can be purchased in unlimited quantities, at prices much lower than they can be secured by the great packing houses of Chicago.

The management is in the hands of an experienced and practical man of over twenty years' standing, as general manager of canning and packing factories in both hemispheres.

CENTRAL POSITION.—Western Canada (being the great centre of the agricultural and pastoral industries of the Dominion) will without doubt very soon become the centre of the packing industry of Canada, if not of the North American Continent.

MAGNITUDE OF OPERATIONS.—The magnitude of the operations involve is hardly yet realized in the Dominion, but an idea may be conveyed when it is stated that the output of the Chicago packing establishments exceeds a gross value of three million of dollars per day, the output of which is mostly sold several months in advance; the produce of the packing establishments form also the basis of the daily operations on the Chicago and other Exchanges, in the same manner as stocks and bonds elsewhere.

REMUNERATIVE BUSINESS.—So profitable has the business proyed in the United States that most of the canneries are close corporations, and their shares can only be sold to other members of the firm (or pool) if at any time the members desire to realize on their holdings; and as a matter of fact the shares of these packing houses, capitalized at enormous amounts, are still held in the families of the original founders.

PROFITS.—The profits of this business are well known to be very substantial, and the magnitude of the operations may be gauged from the business of the united States, the profits of most of them amounting to many times their entire paid-up capital annually, ranging from 400 to as much as 1,200 per cent, per annum on the original investment. This is owing to the fact that the value of the cattle slaughtered and packed every much exceeds the amount invested in the cannery itself, including the entire machinery, plant and equipment, and as the profit is on the turnover (which can safely be gauged at not less than six times in the year), it will readily be appreciated how such profits result from continuous operations.

It will thus be readily understood how the large packing establishments of the United States have made their owners many times millionaires, and such a power in that country as to control many of the railroads in the United States.

The Company has been organized by its Managing Director, Mr. F. H. Malcolm, who is its incorporator, and the Directors will always be elected from amongst the Western Shareholders at each annual meeting of the Company.

LOCATION.—The reason that Medicine Hat has been selected for the Com-

amongst the Western Shareholders at each annual meeting of the Company.

LOCATION.—The reason that Medicine Hat has been selected for the Company's first cannery is that, in addition to being the centre of a large cattle-producing region, fuel, also an important item, equalling elsewhere some 15 per cent. in cost of production, is entirely saved, as the natural gas on the ground at a pressure of some 500 lbs, to the square inch, supplemented by ample coal deposits in the immediate neighborhood, turnishes abundant fuel for all purposes, light, etc., and power; also by the exhaust from the engines, which can be driven by direct natural gas pressure.

BUILDINGS.—The Western Canneries of Canada, Limited, will commence business in substantial premises, specially erected for its use on its own freehold land, chosen after much deliberation by men of long and varied experience in

RAHLROAD FACILITIES.—Being on the main line of railroad all the utilities of the great cities are available, notably natural gas, electric light, power and water, and a large market for its by-products, such as manure, bone dust,

etc.
The Canneries being erected on the line of rallway, and on the banks of important rivers, will command the main arteries throughout the whole of Western and Central Canada, thus commanding regular supplies of raw material at first hand, and cost with a minimum of transportation.

The railway tracks will run through the Company's property, and a siding will be constructed at the Cannery itself for the Company's use.

canning industry report,—Extract from Report, June 30th, 1905:

"An interesting brochure published by Swift & Co., the Chicago packers, gives statistics of, the past year's business. The total sales for the year aggregated over \$200,000,000, representing shipments of 350 carloads daily. In a single day were slaughtered in the Company's seven packing plants 11.875 cattle, 16.553 beep, and 34.562 hogs. Over \$2.20,000 head of live stock were slaughtered in the twelvemonth. A quarter million visitors visited the plants, 4.279,080 letters and 1.388,100 telegrams were sent and received, and the products of the Company were distributed through wholesale houses in over 300 cities in the United States, to say nothing of the enormous export business in canned meats, etc., carried on with all countries throughout the world."

"The firm will also add to their equipment at an early date, a plant for the eanning of vegetables, the demand for which almost equals that of other lines litherto packed by the firm."

OUTPUT-WESTERN CANNERIES.—On completion of the machinery and plant, the capacity of the cannery will be 2,500 cases of four dozen per day, in value from \$14,000 to \$25,000 at the factory.

EXTENSIONS.—The Company will increase the capacity of the building, machinery and equipment as required, on a scale commensurate with the requirements and the vast resources in raw material available in Central and Western Canada, now ranidly assuming importance as one of the most prolific sources of the world's food supply.

STAPLE GOODS.—The lines of goods handled by the Company are practically cash in the markets of the world, the consumption being unlimited and world-wide.

LOCAT CONSUMPTION.—Although of minor importance, yet it may be mentioned that the local consumption of canned goods in Western Canada is by no means inconsiderable, exceeding for the year 1905 \$4,750,000, nearly all of which was imported from the United States, paying heavy freights, and intermediate profits, the whole trade of which will be commanded by this Company as a matter of course, at a profit of at least 200 per cent. on the cost of the

PLANT AND EQUIPMENT.—This Cannery is to be thoroughly equipped with a plant capable of packing 2,500 cases of canned goods per day of ten hours, and will pack or can beef, pork, mutton, butter, cheese, etc., in all its various forms, and also utilize all the offal, bones, by manufacturing gelatine, etc., and the various subsidiaries in commercial economy now general with well-conducted

DOUBLE SEAMING PLANT.—The double seaming system of making and closing cans is the latest and most approved up-to-date method employed in canning operations. This type of plant has lately been adopted and installed

throughout the packing department of the great and progressive houses of Messrs, Armour of Chicago, and many other houses, both in the United States and Europe. For packing butter, cheese, vegetables, and other delicate products of the farm, the double seaming machinery will be used exclusively, in order to avoid muriatic acid used in soldering, as with this system no solder is used.

The double seamed can overcomes this difficulty, and renders it possible to pack the contents in a wet state, with such quantity of liquor, gravy, jelly, etc., as may be desirable.

SOLDER AND ACID ELIMINATED.—By its use, solder and acid are entirely eliminated from canning operations, thus entirely removing the objections, theoretical or otherwise, long entertained by consumers of these goods, against the use of canned goods.

It is also found that the discoloration often found in canned butter, and other delicate products of the dairy, vegetables, etc., arising from the acid vapor used when soldering cans, is entirely obviated, besides which there are many other advantages, the least of which being that the cans are manufactured at a lower cost than the soldered article. Again, with a soldering machine the contents must be packed dry, as the presence of any liquor in the can is inimical to soldering. Specimens of these cans may be seen at the Company's offices at Winnipeg.

SOLDERING MACHINERY—THE CANNING DEPARTMENT will be equipped with both the rapid delivery, continuous automatic soldering machinery, having a capacity of 160 cans per minute, and also with the double seaming machines for both round and square cans.

AUTOMATIC RUN 160 CANS PER MINUTE.—Whilst the Company will have a large soldering plant installed of the usual type, their new type machinery will enable them to pack all the varieties of canned goods in all sizes and shapes of cans, the machines being adjustable at will.

enable them to pack all the varieties of canned goods in all sizes and shapes of cans, the machines being adjustable at will.

GENERAL.—The shares of the Company are vested in the incorporator, to whom applications must be made upon the forms provided for that purpose, and consist of 5,000 shares of ten per cent. (10 per cent.) Preferred Non-cumulative and 5,000 shares Common Stock.

Consequently it will be impossible for any outside interests or influences to secure control of the Company, which will be conducted under the control of the shareholders, in whom the voting power is wholly vested and in the interests wholly of the shareholders.

The expenses of organization are restricted and fixed at the actual expenses incurred, and a commission of five per cent. (5 per cent.) on the capital allotted for organization and brokerage, and there are no salaries payable to any officer of the Company until after commencement of operations.

STOCK GILT-EDGED—The Preferred shares are entitled to a preferential dividend at the rate of ten per cent. (10 per cent.) per annum upon capital paid in non-cumulative, and after this has been paid then the Common Stock of 5,000 shares shall be paid a dividend of 10 per cent., after which further profits shall be divided equally between the Common and Preferred Stock of the Company.

In order to give an idea of the value of this class of industrial stock, the original founders' shares of the first issue of similar stock in the U.S. of America have been sold for as much as \$140,000 each share, and prices from \$6,000 to \$40,000 are quite common on reconstruction, the shares having brought dividends to their holders equivalent to those values.

The demand for the Company's shares of this issue has been very large, especially in the cities and towns, but it has been decided that at least half the capital of the Company shall be reserved for purely western allotment among the producing community of Western Canada.

After the Shareholders of the Company have received dividends at the rat

PROFITS.—The average cost of canning and packing, including the cost of cans, cases, labels, contents and labor for 2 lb. cans, 4 doz. cans to the full case, at present prices is \$4.34, and the market price (at \$2.25 per doz. upwards) being \$9 to \$12.50 per case of 4 doz. cans. For the local market the goods are mostly produced in quarter and half cases of 2 and 1 doz. cans respectively. The capacity of the cannery to be first operated by the Company is 2.500 cases per day, and the fact that the plant will be worked regularly throughout the year, that the equipment for the trade is of the best kind, that the cans of all grades in which the goods are packed by the Company are greatly superior in finish to anything yet attempted in Canada, shows that the Company is prepared to take a foremost position in this most important branch of industrial operations.

STAPLE ARTICLES ONLY.—In conclusion, the organizers desire to point out that this Company is incorporated upon strictly legitimate lines. The commodities handled are staple articles of commerce for which there is always demand and ready sale. It will thus be evident that, as an investment, it is as free from all element of chance, and even from ordinary commercial risk. MARKETS WORLD-WIDE.—The Company's commodities being practically cash lines in the markets of the world, and only limited by the capacity of the Cannery and the supply of raw material available in Northwest Canada.

The western issue was taken up wholly in Western Canada, amongst the shareholders whose names appear on pages 2 to 13 of this Prospectus.

GOVERNMENT SUPERVISION.—It is intended that each process of pre-paring the products of this Company's canneries shall be under Government sup-ervision, and the cans themselves, as well as the labels, will, in that case, bear an official stamp, guaranteeing quality of contents.

FOREIGN MARKET.—Whereas Chicago packers use almost exclusively inferior grades of meat for their canned goods, for the purpose of catering to the cheap trade, the select portions being reserved for the fresh meat home consumption, this Company purposes utilizing the entire carcase, and thus put on the market only superior products, which will then contain all the natural flavor of fresh-killed meat, without using any kind of preservatives or other artificial means, other than heat processing, in hermatically-closed cans.

The Company's grades of Beef will thus be much superior to the meat canned by similar concerns using only the refuse portions for canning purposes, and should be equal in grade to Argentine, New Zealand and Australian canneries, where only the best portions are used for canning, there being little, if any, local market.

Goods packed in this manner will cartainly compand the fooding market.

Goods packed in this manner will certainly command the foreign market, both for domestic, foreign, army and navy consumption, being much superior to the ordinary American canned meats.

HOME INDUSTRIES.—With the establishment of canneries in the Northwest the export business in live stock is bound to decrease proportionately with the amount of beef used in the cannery factories, to the great advantage of producers, and the price of cattle will rise in direct ratio to the growth and development of beef manufacturing industries.

BRITISH IMPORTS.—The above statements are amply confirmed by a late order issued by the British Government authorities, dated London, June 9th, 1903, that owing to the disclosures in American meat packing, that in future all canned meat requiremnts for the use of his Majesty's Army and Naval forces and the Government service, shall be obtained from Colonial sources, instead of from the United States of America, as heretofore, Also that all Customs Officials be instructed to exercise greater supervision in connection with the admission of this class of goods into British ports.

The above order speaks for itself, and has been followed by similar orders issued by several other Governments of Continental Europe. We have now unquestionably the greatest opportunity that Canada has ever had of establishing a sound, profitable, staple and extensive meat industry in the Dominion.

STOCKS OF PACKING HOUSES. Profits Earned on Operations, With Ratio of Dividends Actually

As the stock of most packing establishments elsewhere is watered down to about 90 per cent. of the cash invested, in order to avoid the appearance of excessive dividends being paid to shareholders, it is evident that a company organized on the sound basis this one is, that an annual dividend of two hundred (200) per cent, per annum is a very moderate anticipation.

In prospectuses of this kind it is no doubt usual and fashionable to estimate probable dividends at from 8 per cent. to 15 per cent, per annum, but in this instance our foundation members have our entire confidence, and taking the present low price of beef into consideration, and the fact that the shares of the Company are not watered down to a low percentage basis, also that the capacity of each cannery is 2.500 cases, equalling about \$25,000 daily, on a profit fully explained on pares 13 and 16 herein, that an estimated profit of 200 per cent, is very modest indeed, and in the present instance more likely to be exceeded; if the canneries of the Company are kept in continuous operation, and the supply of raw packing material available adequate to the Company's requirements.

The present price of Beef ranges from 2 to 4 cents per lb., live weight, with a falling market value, in sympathy with the downward trend of prices in the United States.

The value of the canned product is from 10 to 20 cents, per lb., and it may The value of the canned product is from 10 to 20 cents, per lb., and it may also be observed that it is practically impossible to glut the markets of the world, the Company's manufactures being meat staples of universal consumption

IMPORTANT,

The privilege of becoming a Shareholder of this Company, now open to representative Canadians, and thus securing a voice in the control and profits of this important industrial undertaking, will be open for a few days only. Early application is, therefore, essential for securing an interest in this issue of stock (i.e., 2,000 shares), of which a few are still available.

NOTES. Prospectus and application forms for Preference Shares will be forwarded

through the post upon receipt of written request for same.

Shares will be allotted by priority of application.

Qualification for a Director of the Company is a minimum of Five Shares (\$50) fully paid to date.

(\$50) fully paid to date.

All Shareholders have one vote for each share registered in their name, at all General or Special Meetings of the Company.

Shareholders desiring to pay their Shares in full will be credited with interest at the rate of 5 per cent. per annum (in addition to dividends declared) until calls

The whole of the capital derived from the sale of shares is devoted to the Company's use and requirements, and for building, organizing and equiping canneries and packing houses, etc.

The western issue has already been subscribed by Western Canadians The Company will commence immediate operations in building and equiping their canneries on completion of this issue of shares in Eastern Canada.

The following Shareholders have all paid their money on equal terms, and have subscribed for the western issue of the Company's stock.

Other representative Eastern Canadians are invited to join the undertaking, hus securing the absolute control of this business for the future in the hands of

THE WESTERN CANNERIES, LTD. IMPORTANT ANNOUNCEMENT. The organization of this Company cannot fail to have an important bearing upon our future prosperity, and, if carried portance and magnitude to the changes effected by the construction and opening for traffic of the Canadian Pacific The Constitution The possibilities and changes the operations of this Company will probably effect in our economic conditions are indeed great, and hardly realizable by the majority of our readers.

readers.

To give a slight idea of the magnitude of the operations involved, it may be mentioned that one Chicago packing-house alone (and that by no means the largest) effected sales millions of dollars, and the amount of money directleted amongst the ranching and farming community for the purths and the amount of money directleted chase of raw material is simply colossal.

The subject is so vast that we cannot do better than refer our readers to the prospectus itself, which is a very comprehensive and carefully-written document, containing much valuable statistical information, and should receive the careful consideration of all those who have the welfare of Western Canada at heart.

The Company appears to be organizing on the right lines, retaining the present and future control of this important matter in the hands of the Canadian shareholders.

We wish the Company every success, as it is unquestionably a move in the right direction.

Manitoba Free Press. (Financial Column.)

THE WESTERN CANNERIES, LTD. The Company in a formative condition has just made a very important announcement in the columns of The Free Press.

very important announcement in the columns of The Free Press.

In so vast an expanse of country that is peculiarly well fitted for raising cattle it is somewhat surprising that packing-houses have not been started earlier. At various times they have been talked of, but no practical steps have ever been taken towards their establishment. This is all the business has created some of the largest individual fortunes in the United States. There is, or appears to be, no reason why the natural products of the luxuriant pastures of the west should not be turned to advantage to a greater extent than it hitherto has been, and this Company in course of organization offers an opportunity of so doing. It is a matter in which all Canadians are vitally interested, and the success or non-success of the proposal depends entirely on themselves. They have the enterprise and the business ability to turn it into profit. The prospectus, which appears elsewhere in this issue, should be carefully studied.

Winnipeg Daily Tribune, July 23rd, 1906.

Winnipeg Daily Tribune, July 23rd, 1906. (Commercial Column.) WESTERN CANNERIES, LIMITED. The prospectus is a very comprehensive document, and contains the names of over 600 well-known westerners as subscribed shareholders. The Managing Director is Mr. F.

Matcoim, it is proposed to start the first cannery at Medicine Hat, which is located in the centre of the ranching district, and afterwards others will be established at different central points. Canned meats will be the first commodity to be handled, but afterwards the prospectus indicates the Company will turn its attention to other Hues.

DAN, HAMILTON, Rancher, Neepawa, Si,000,010, of which it is said enough has been subscribed to start the Medicine Hat Cannery.

Cannery.

From a slight perusal of the pamphlet, it would appear that the prospects of an industry such as is proposed are exceedingly good, and it would have the effect of securing for the farmer a steadier price for his cattle, and also a more regular market, and at the same time substantial dividends for its shareholders.

THE WESTERN CANNERIES.

PROJECT POPULAR.

The decision arrived at of establishing canneries fit Western Canada appears to have been received with a promptness that is very closely akin to enthusiasm. In discussing the project with business men it is freely admitted that the groundwork for a profitable business along the lines indicated in the prospectus of the Western Canneries, Limited, is excellent. If there is any difference, it arises solely on the score of management. Given competence in this respect, no fears are entertained but that a cannery enterprise can be carried on and be a business success.

There are many others newspapers of Western Canada which have favored the metallic and the statement of the progressive development of Western Canada.

Another statement made by the witness was that he would rather have a company invest in traction bonds than municipal debentures, on the ground of safety. He said that the Sun Life had lost money on Toronto Junction, New Westminster, Brandon, and Sault Ste. Marie debentures, Mr. Langmuir expressed surprise at this stand taken by the witness.

The fact of its contact the customers of the disturbances to which life insurance companies have been subjected, it is to be hoped that the outcome will be of distinct advantage to the life insurance business.

"It is probably not too much to say that the need of life insurance, as well as the enature of it, is much better understood to-day than it ever has been. This in itself will, when the dis-

The troubles in the United States.

The stock as a bonus.

The plants, etc., in Illinois. In 1903, the sake the proposal to transfer a large volume of business from one of the American companies to one of the English offices. The spirit of an accident at the Colgate Syracuse

The question will be further discussed to-morrow.

Of the \$750,000 bonds of the latter company, the Sun Life got \$406,000, Mr. McKiniey \$250,000, and persons in Montreal, some of whom were Sun Life directors, \$94,000.

Investments of Directors.

The witness discussed with Mr. Shepley the advisability of the directors joining with insurance companies in any investment.

Mr. MacAulay declared that it was advisable, because if the directors bought the same securities as the company, it showed they had confidence in the enterprised into which they were taking the company. It was an entirely different state of affairs, when the company bought securities of companies which were controlled by directors.

Another statement made by the wits the disturbances to which life insurance companies have had to contend with the fearful catastrophies of San Francisco and Valparaiso. In the case of the disturbances to which life insurance investigation have been made, those who were most active in demanding an investigation have been made, those who were most active in demanding an investigation have no doubt been very disappointed that so little wrong dough that so little wrong dother shown to have existed. Since the work of the royal commission is not yethover, it is too early to say anything in regard to the outcome. The past year seems to have been particularly subject to disturbances of one kind or another. We have had, as stated, the life insurance investigations of various kinds in various particularly subject to disturbances of the United States and Canada. The disturbances have not by any means been confined to life insurance companies, since the fire companies which were controlled by directors. cisco and Valparaiso. In the case of the disturbances to which life insur-

insurance business.

"It is probably not too much to say that the need of life insurance, as well as the enature of it, is much better understood to day than it ever has been. This in itself will, when the disturbance has quieted down, be of distinct advantage to the life insurance agents. The insurance investigations is also directly responsible for the formation here in Canada of life underwriters' associations which, in bringing together the agents of combringing together the agents of competing companies so that they may be better apquainted with each other, should be of great assistance in ridding the business to some extent of undesirable features."

Fire Insurance Actuaries. Mr. Papps drew attention to the improvements in fire insurance methods, and said that the successful fire insurance man of the future must have a good knowledge of the vari-ous subjects called for in the Sylla-bus of the institute. He must also be in a position to advise his clients in regard to the necessity and advan-tages of fire protection. It might not be too much to prophesy that the day would not be far distant when the fire insurance actuary might not be un

Professor Whitney's report on the proper use of the co-insurance clause treated this both from an arithmetical and algebraical point of view, and showed how, by means of a collection of statistics, rates may be so fixed as

We may give thanks and take coursely little 'twisting' in Canada to day. other speakers, including the editor of

He then repeated the familiar fallacy that if passenger fares were regulated, all excursion rates would cease and that freight charges would be increased.

Touching the autonomy bills, Mr. Aylesworth declared himself, in a general way, as favoring provincial rights, but he justified the coercion of 1905 by saying that the provinces of Saskatehewan and Alberta were not complaining.

NEW CONSERVATIVE CLUB.

Preliminary Meeting Towards North Toronto Organization.

A meeting was held in the King Edvard last night with the object of organizing a Young Men's Club for North Toronto on the lines of the Toronto Conservative Club for Young

President Allan of Canadian Life Underwriters Addresses National Convention.

royal commission."

Mr. Allen said in part:

"In Canada we are yet young, but it has not unaptly been said that enthusiasm is the prerogative of youth. The twin evils of 'twisting' and rebating force themselves upon your notice. The former is of such a nature that probably no legislation can effectively reach it. If there is a more contemptible speciment of humanity than a 'twister' in existence, he is, like the legendary animals of Central Africa, yet to be discovered. You and we can do much thru our various associations to eradicate this evil. We we can do much thru our various asso-clations to eradicate this evil. We will not readily extand the hand of fellowship to a convicted 'twister,'

tude of the results the life insurance men have achieved in the Dominjon of Canada? They are directly reof Canada? They are directly responsible for placing and keeping upon the books of the companies it censed by the Dominion department at Ottawa, the enormous sum of \$630.000.000, which sum represents the insurance in force at the end of 1905. When you realize that this amount is \$118,000,000 in excess of the total public deposits in the chartered banks of Canada at the same date, you have some idea of the position the life business occupies in our financial world."

Car Runs Into Laundry. Ottawa, Oct. 23.-A Gladistone-avenue car going north on Bell-street to-night, jumped the track, knocked a telegraph pole down and crashed into a Chinese laundry. One passenger, Mrs. Hollington Le Breton-street was slightly injured, being cut about the head. The motorman, a new hand, lost control.

With good, vigorous health everything possible—wealth, happiness, success, Without it there is only failure. Electricity furnishes all that goes to build up a strong, hale, confident, successful manfron for the blood, vim and fire for the nerves and brain, strength for the muscles, good digestion. It does all that medicines do, as well as what they fail to do. my forty years' success I have proven this by the thousands of wrecks I have restored after other treatments failed. To convince every sufferer from debility, varicoccle, loss of power rheumatism, laint back, etc., I give my famous Electric Bell

COBALT---An Increase in Capital of Nipissing Mines is Rumored---COBALT

U.S. Capitalists Still Eager to "Get In" - Prospects Selling Well.

Cobalt, Oct 23.—(Special Correspondence).—Geographically speaking, the centre of the Cobalt mining camp is easy to locate, but when one seeks to find the financial centre, he is apt to became confused. Real mining activity pervades the entire camp, as the increased number of shipments of ore, the building in and around the mines, the extensive development and steadily growing number of men employed all give ample testimony.

Thruout New Ontario a wave of prosperity has been sweeping for the past three or four years, but the discovery and development of the mining resources during the past 18 months have produced many millionaires and budding millionaires.

In Toronto one might seem to be in

budding millionaires.

In Toronto one might seem to be in the financial centre of the camp. The successful flotation of the Foster, Trethewey. Watts, Hanson and scores of others, involving sums running from the thousands and tens of thousands of dollars to the hundrers of thousands of dollars, and the spirited enlargement of mining stock speculation there seems to justify the claim of Toronto.

made.

Shortly after the find an option was given at \$250,000, which seemed a high figure for a property in that location.

Development went on and in five days 465 bags of high grade ore were sacked, and this the result of only five blasts. The property could be readily sold to-morrow for \$400,000.

The McKinnon and McDonald property has passed into the hands of the new owners, realizing \$40,000. It is up in the Portage Bay district and many more sales in that vicinity are reported.

reported.

The La Rose is one of the mines that many have expected to see stocked. The wish was father of the thought, no doubt.

The denial by Mr. Dunlop has set at rest for the present the idea of its going on the market. Many have tried to buy it, without result.

In the camp there is a belief that the recent trip of Mr. Earle and Capt De la Mar will be followed by important announcements of the acquisition by the Nipissing Co. of at least one other working mine.

other working mine.

Changes are also predicted at the McKinley-Darragh-Savinge, the outcome of a visit to Cobalt by representatives of Pittsburg mine operators.

THE SOLITARY SURVIVOR FOUND AFLOAT ON RAFT

New York, Oct. 23.—The solitary survivor of 33 men who went adrift on the barge or houseboat, Halfy, from on the barge or houseboat, Halfy, from C. Lower Matacombi Key, on the coast of Florida, during the terrific gale of Oct. 18, was brought into this port today by the steamer El Paso.

He is John Russell, and he declared that he saw eight of the 32 others drowned and believes that all of them went down when the barge foundered.

Russell was adrift in a stormy sea for nearly two days and one night clinging to bits of the barge, which he gathered together to form into a makeshift for a raft.

return ticket at one-way fare only, daily until Nov. 6. Good to return until Dec. 8, with liberal stop-over privileges. These tickets cover every hunt-er's requirements.

members stated, will be fair both to the manufacturers and to the consumers. Active steps will be taken to incorporate in the measure before congress a clause exempting automatic reproductions of all kinds from the provisions of the bill.

A Good Offer for hunters going north. The Grand Trunk runs to all the principal hunting grounds where big game abound, and rate of single fare is in effect for round trip, good returning until Dec.

INDIANS STILL PAGAN.

Those in Lake of Woods District Are Averse to Christianity

Winnipeg, Oct. 23.—Rev. J. Samans Indian agent, has just completed his annual trip among the Indians on the Lake of the Woods and the Lake Winnipeg districts, and he states that the indians both in Western Ontario and Manitoba as far as he has visited them were in the best condition, having plenty of money, an abundance of food and being in an excellent state of health

INTER-UNION SQUABBLES.

Chicago Employers Present Ultima-tum to Gompers, Which He Acts on

Chicago, Oct. 23.—President Samuel Gompers of the American Federation of Labor has been asked by leading Chicago manufacturers to compel the local unions to cease fighting among themselves. If this fighting was not stopped, he was told, the "open shop" would be established in the large woodworking factories of the city, involving as many as 6000 or 7000 skilled factory workers.

hastened to the scene.

makeshift for a raft.

Hunting Along the C.P.R.

Without doubt the finest shooting in Canada is to be found on and north of the Canadian Pacific Railway's main line, particularly west of North Bay. The vast region so reached is well stocked with game of all descriptions, moose and deer abound, and every visiting sportsman is more than satisfied; it is impossible to make a mistake in selecting this country for one's hunting trip. An important point that should be kept in mind, too, is that in the whole country north of the C.P.R. main the the law allows shooting to spermitted south of the line, and extends until Nov. 15, this giving a full month for the open shooting season. Any C.P.R. office will sell a hunter's return ticket at one-way fare only, dally until Nov. 6. Good to return until the state of the commences at 2.30 this afternoon, and continues to-morrow afternoon.

Opening of Massey Hall Meetings, leges. These tickets cover every hunter's requirements.

To Protect Music Copyrights.

New York, Oct. 23.—At a meeting at the Hotel Astor, associated interests representing \$70,000,000 of invested caplatal in the musical industries of the country perfected the permanent organization of the American Musical Copyright League, the object of which is to pass a copyright law, which, members stated, will be fair both to the manufacturers and to the consum-

On Rumors of Reorganization-Market for Cobalt Shares Has a Better Tone.

Will Capitalization Be Increased?

It is rumored that the large noiders of Nipissing Mines are desirous of increasing the capital stock of the company to several times the present figure. When the original capital was decided upon it was not recognized that the property of the company was anything like as valuable as it is now adjudged to be, and it is suggested that the rumored change is to bring the actual capital more in unison with the intrinsic value of the property. The rumored increase will not cail up more capital, but will, if carried out, as suggested, only increase the number of shares held by present owners, according to the ratio of increase in present capital to the new basis. Associated with the rumor is the story that the reorganization will embrace other properties, and Buffalo and Foster are named in this connection. The local interests in Foster, when asked regarding the truth of this, denied that they were attempting any amilgamation, and asserted that they would sooner preserve their identity by working out the valuable proposition they were satisfied they had. The trip of John Hays Hammond to Cobalt recently is thought to portend that an announcement of moment will be shortly made.

A trip to Pritsburg, Boston and Cleveland shows that in those large and wealthy cities men of strong firmancial standing are anxiously trying to get in on the ground floor of mithio doilar propositions, but today it looks as if New York were the real firmancial centre of the Cobalt and all other mining camps.

The Nipissing, Kerr Lake and Buffation are largely owned and the president and amany of the directorate of each live in New York.

On Walkstreet, on the stock exchange and on the curb the Cobalt stocks have made after fortunes for lucky investors. The new deals are being financed there and no mining camp today looms bigger in the financial world than Cobalt.

Much has been sald as to amount of capitalization, but to date over capitalization has been fairly well avoided.

Schenectady, N. Y., Oct. 23.—A trolegated there and no mining camp today looms bigger in the financial world than Cobalt.

Much has been sald as to amount of capitalization, but to date over capitalization, but to date over capitalization, but to date over capitalization has been fairly well avoided because the color of the Schenectady Railway.

Schenectady, N. Y., Oct. 23.—A trolegated the camp and getting out special Cobalt numbers. Prospects bring a bigh figure and partially developed properties are eagerly sought for.

The Township of Bucke has received a boost by the recent sale to New Schenectady and McClellan-streets this morning, and dashed into a huge pole, turned over on its side and injured a score of the city of the Organization in the street with a cuff on a portion of the tracks, caused by the sample of the organization of the organization of the organization of the complex of the compl

Captain John Trethewey, who was connected with the celebrated Silver Islet Mine on Lake Superior for 11 years, took a look at the ore from the Silver Queen yesterday. The captain has not hitherto been able to give much attention to the Cobalts, and ne was thoroly taken aback when he saw the splendid sample that this company have from the 70-foot level. "Why," he remarked, "this must be pretty nearly half silver," as he addressed Mr. Culver, "You people certainly have a rich proposition." And then, as he handled the nugget: "Thas yein is about eight inches wide." The captain was then shown the nickolite ore, when encompasses the silver vein to a width of about four inches on either side, at which the expert evinced further singrise. Growing reminiscent, Captain Trethewey stated that the Silver Islet had taken over \$3,500,000 out of the rock on Lake Superior, which was only eight feet above the water level and, with a surface measurement of 80 feet by 70 feet, "There should be great days ahead of Cobalt," he opined, as he made further particulars of the Silver Queen property.

Two Other Properties Go to N.Y.

O. W. Davis of O. W. Davis & Co., New
York brokers, was in Toronto yesterday.
Mr. Davis has just returned from Cobalt,
having secured two prospects for a New
York syndicate. He was enthused over
what he saw there, and sadly berated his
fate that he had not gone to the silver district several months ago, when his inclinations led him that way. Mr. Owen has
dealt in iron properties for many years,
but thinks he sees much greater opportunities in Cobalt silver properties than he has
hitherto experienced.

w York, Oct. 23.—The home missis board of the Presbyterian Church e is having constructed, for shipter of the presbyterian insections to the Panama Canal ne an entire church structure and arish house building for the use of the Presbyterian mission there. The hurch structure is to cost \$10,000.

interests were not supporting them aggressively, they sold both Union Pacific and Scuthern Pacific fearlessly. There is a large short interest outstanding in Atchison, which could be made to help in a material advance shore the present supports. son, which could be made to help in a material advance above the present quotations. There is also some good buying going on, with a view to the next dividend distribution. The we do not expect any important advance in Atchison for some time, it will be perfectly safe in our estimation to trade in it on the long side.—Town Topics.

Notwithstanding the Shaw relief measures for the money market, daily operators should not neglect profits, for the raily is very swift, and another drive may take place. Especially do we recommend that you do not buy on these bulges, for the patience of the holder may become exhausted. The best kind of buying is reported in A. C. P., which should be taken whenever soft and averaged. Smelting has established its supporting level now from 153 to 154, according to our reports, and could be rallied further with ease if insiders are so inclined. Union Pacific bears were not able to jam the stock thru the 180 buying orders of Harriman, and we advocate purchase of U. P. on any soft spot, with averaging. On all recessions, large or small, U. S. S. seems to us to be a good purchase, information and merit being in favor of betterment. Reading has established and found new support from the old pool, we under-

think that purchases should prove prontable,

Charles Head & Co. to R. R. Bongard:
To-day's stock market was in marked contrast to those of the recent past, the trading quieting down materially, without important price movements in either direction. In the early dealings there was a general disposition to take the selling side, on the theory that the recovery from Saturday's low levels had been too rapid to hold, and the larger interests were evidently not in sympathy with any attempts to force higher levels at this time. Prices declined from one to three points on a moderate volume of transactions, and the stocks thus sold were apparently taken by strong interests, aitho they were again freely supplied on a subsequent moderate rally, the intention evidently being to hold the speculation in check. There was no news of importance, and nothing beyond technical reasons was assigned to account for the movements in the various leading issues. Money rates continued comparatively easy, and it was reported from London that Secretary Shaw's with larawal of the privilege of receiving treasury deposits against gold import engagements had

A BONUS FOR COMMERCE SHAREHOLDERS

Bank of Commerce had declared a bonus of 1 per cent, in addition

to the regular dividend of 31-2 per cent, for the half year. The rapid advance in the shares of the bank a few weeks ago led to

the belief that the dividend was to be increased from 7 per cent. to

8 per cent. To-day's news was thoroly unsatisfactory to the mar-

ket, as bonuses are not regarded in the best light. Comment was

also severe on the leak that had undoubtedly taken place as to the

directors' decision, and the announcement was contrasted with

some of recent date, in which the market movements of the par-

ticular stocks conveyed no indication of what was happening in the inside management. The prevailing impression is that the

Commerce could reasonably have retained the increased payment

to shareholders as an addition to its reserve fund.

The announcement was made to-day that the directors of the

bank, which was the last one filed before the bank failed, is that one in
regard to current loans and total assets and liabilities. The assets were
given in August as \$17,371,862. In the
September return they are quoted as
\$15,920,307. The total habilities in
August were placed at \$14,991,479, and
in September at \$15,272,271. These
figures would apparently give a showing of \$1,718,328 worse than the previous month. The current loans in

ing of \$1,718,328 worse than the previous month. The current loans in
Canada in August were \$13,725,227. In
the curator's statement they are \$12,*
287,691. There is only \$6000 difference
in the call loans, that of September
statement being the highest.

The capital in both instances is the
same, being \$1,500,000, and the reserve
\$700,000. The note circulation has
risen in September to about \$100,000.
Deposits payable on demand were \$2,*
918,922 in August and \$2,965,088 in September. Deposits payable after no-Denver 40 40½

Of Ten Decrees Granted, Three

A divorce was refused a woman, who was married in Lambeth, Ont., and lived in Ingersoll, because she had accepted \$700 from her husband, and signed an agreement not to bother him further. Henry Rockett secured a divorce because his wife refuses to leave her Canadian home to live with him, They formerly lived in Manitoba.

PRESENTATION TO MAJOR BECK.

Goderich, Oct. 23.—(Special.)—About 300 citizens of Goderich and scores of residents from surrounding townships assembled in the Colborne House to tender a farewell banquet to Major Joseph Beck, who leaves to take up his residence in Toronto, where he has been residence in Toronto, where he has been appointed to a position in the crown lands department. Major Beck opposed J. T. Garrow in 1898, losing by one vote. Altho a Conservative, the responsors to the various toasts included many leading Liberals. A gold-headed cane and purse of gold were presented, together with an illuminated address.

Among those present from outside

ST. LAWRENCE MARKET.

thèr wheat forward. The shortage of cars is not an unmixed evil. Wheat is coming forward fast enough to supply the present export demand, which is not excessive, and is allowing a small surplus to accumulate at Fort William. The increase in stock at Fort William. The increase in the United States.

"As long as the wheat is in the farmers' account in country elevators, it does not figure in the visible supply, and is, therefore, not a depressing factor, in the world's markets. Prices of Canadian wheat would be sure to suffer from any heavy increase in the visible supply, much more in proportion than American, for the simple reason that Canada's home consumption is relatively small in proportion to her production, while in the United States the surplus for export is small in comparison with their home consumption. I consider the outlook is for steady export at reasonable prices."

Speaking of widening the market for Canadian wheat, he said:

"I think it would be quite in order for the government as a general policy be subsidize steamship lines for carrying our product beyond the seas, just as they have in the past subsidized rallways to carry produce to the sea, board."
