## OPEN AIR HORSE SHOW BIG EVENT ON MONDAY ENTRY LISTS COMPLETE

Route of Parade and Details for Judging in Queen's Park—Three Military Bands Will Give a Concert.

**ROUTE OF PARADE.**  
College and Carlton-streets, To Jarvis-street,  
Down Jarvis-street to King-street,  
Along King-street West to Spadina-avenue,  
Up Spadina-avenue to College-street,  
College-street, east to St. George-street,  
Up St. George-street to Hoskins-avenue,  
Thence to Queen's Park and across the park and down the east side to the reviewing stand.

Growing more popular year by year since its inception, Monday's open-air horse parade bids fair to be an event historic in the annals of local horsemen.

The special object of holding this annual horse parade is to improve the condition and treatment of commercial horses, etc., to induce owners and drivers to take more pride in their appearance, and the public to take more interest in their welfare. This is an open-air event, free to all. The directors and officers of the association render their services, which in some cases are arduous, without any compensation whatever, and it is confidently expected that those citizens who love horses and desire pleasure or profit therefrom will render the association every possible assistance.

Judging Will Be Quick.  
Every arrangement has been satisfactorily completed, and horses will begin to muster at 8 a.m., and it is expected that by 9 o'clock everything will be in readiness for the judging in Queen's Park, which will be put into effect as expeditiously as possible and an effort made to start the parade downtown not later than 10.15 o'clock.

## 8 MEN ON DECK SLIDE IN WATER

Steamer Nearly Overturns in Running Rapids, and Many Lives Are Endangered.

**LATCHFORD, Ont., June 28.—**(Special.)—On Wednesday the steamer running north from Fork Rapids was nearly overturned. It was in the afternoon and the boat had just started on its trip north and less than 100 yards from the shore, when she refused to answer to the rudder, and, going sideways, struck a rock and went half way over.

Fifty people were on board and eight men sitting on the stern and ten oarsmen on the hurricane deck were sent over into the river. Four struggling got to shore and the fourth was sinking for the third time when a prospector, who was fortunately coming up in the rapids, and at the risk of his own life, paddled to the drowning man and got him in his canoe.

The cause of the accident is somewhat of a mystery yet. Eye-witnesses tell somewhat different stories from the occupants of the car. Just near the Catholic Church at East Toronto a turn in the road. The proper path of the motor car would be directly alongside the car track. This is the path the car was on, and the chauffeur was hitting up a lively clip. Suddenly a road was reached, and he ran perhaps 40 yards, when it struck the hole in the road. The car lurched and almost instantly struck another hole. The car then swerved and shot like a cannon towards the group of eight children, who were playing on the sidewalk. Several were rescued by another boy, a brother of Eva Warfe, and three of them were crushed by the machine. The speed of the car was 25 miles an hour.

**SUNDERLAND'S BIG DAY.**  
Carnival of Sports Will Be Held on Dominion Day.  
A carnival of field and athletic sports will be held at Sunderland on Dominion Day, July 1, under the sanction of the C.A.A.U. ## WILL PROSECUTE FAST AUTOISTS

Herman Nerlich and Chauffeur To Be Summoned — Children's Injuries Are Very Serious.

More serious than was stated yesterday are the injuries received in the automobile accident of Thursday night by Harold Baker and Eva Warfe. Harold's legs are badly broken and it may be necessary to amputate the right one. It is fractured at the thigh and also between the knee and the ankle. The foot is badly crushed. His left leg is broken also. The child is suffering from internal injuries, and Eva Warfe suffered intensely all Thursday night and yesterday. Her back is bruised and she is suffering from internal injuries. Fits of vomiting followed each other until late yesterday afternoon. Opium was administered by the physician in charge. Constable Tidberry had a consultation with County Crown Attorney Drayton, who will lay an information against Herman Nerlich, owner of the automobile, and chauffeur James, charged with them with furious driving. If the injuries to the children turn out to be more serious, a different charge will probably be laid.  
The residents of East Toronto are indignant at the accident. They are in no pleasant frame of mind towards automobiles and claim that this is the culmination of a long series of accidents with autochairs. Every night chauffeurs drive at a terrific rate of speed down the incline and act totally regardless of the rights of pedestrians and others. Some aver that a speed of 60 miles an hour is attained by some of the cars, one farmer, John Neal, declaring that he timed one machine that did some 50 miles an hour. This thoroughfare is almost continually thronged with motorists.

**Cause a Mystery.**  
The cause of the accident is somewhat of a mystery yet. Eye-witnesses tell somewhat different stories from the occupants of the car. Just near the Catholic Church at East Toronto a turn in the road. The proper path of the motor car would be directly alongside the car track. This is the path the car was on, and the chauffeur was hitting up a lively clip. **Not a Speedway.**  
The Kingston-road by no means resembles a speedway. There is constantly the heaviest kind of traffic on it and in consequence it is filled with cars. The last winter it was covered in snows, was particularly hard on it, and at present it is not an ideal highway. The rutts are numerous from the East Toronto to the Hunt Club. The rutts that are supposed to have caused the accident are situated at the water hydrant used by the street car. The first struck is the larger, possibly eight feet long and four feet wide. It would be about 4-12 inches deep at its deepest part. It is constantly wet from the overflow of the water carts. The rut is smaller, about four feet by two-and-a-half feet. Neither one looks deep enough to cause an accident if proper care were exercised by the driver. Still it is not an ideal road for fast auto driving, and judging from its condition at present, it would soundly or later be followed by serious results.

**More on Scorchers.**  
Several residents and officials of East Toronto were interviewed by The World and all declared themselves to be very indignant at the accident.  
"It's a shame," declared an official of the C.A.A.U., "that the World is so constantly the heaviest kind of traffic on it and in consequence it is filled with cars. The last winter it was covered in snows, was particularly hard on it, and at present it is not an ideal highway. The rutts are numerous from the East Toronto to the Hunt Club. ## Strawberries Will Be Dear Shipments Coming Slowly

**Canning Factories Have Contracted for Entire Output of Some of the Growers and Prospects of Small Consumers Getting Supply Are Not Bright.**  
For the first time in many years, the national holiday in this city will be marked by an utter absence of anything in the shape of business among the commission houses, more especially those largely interested in the fruit trade. In other years the ushering in of July was the signal for activity, the strawberry crop being at its best, demanding more or less attention.  
So far this season shipments of the fruit have been spasmodic. The late season joined with the fact that heavy shipments of Baltimore berries are still coming forward, has had the tendency to restrict trade.  
A leading wholesale firm estimated that the total of yesterday's receipts would not be more than 400 packages of Canadian berries, in comparison with three times that amount at the same time last year.  
Prices yesterday ranged from 11 to 16 cents per case, wholesale, the latter for choice stock only.  
Last year's quotations on July 1 were from 7 to 12 cents a basket. The bulk of the fruit yesterday came from Aldershot, St. Catharines, Jordan, and a few odd lots from Clarkson's.  
There are those who affirm that the price of strawberries this season will never approach bargain figures, and in proof of this cite the fact that the canning factories have contracted for the entire output of some of the growers at from 7.5 to 8.5 cents, delivered. The saying effected in freight and commission charges, in addition to other extras, is said to be as good as 11 or 12 cents a basket net in Toronto.  
"But all the same," said a leading commission man yesterday, "you will see two or three days when berries will touch a pretty low figure in Toronto. Watch for them. After that they will go up and stay up."

This is the spot where the driver of Herman Nerlich's automobile lost control. The car swerved, jumped the car tracks, and smashed thru the gate of the Hewitt house, seriously injuring Harold Baker, Eva Warfe and another child.

## THE PRESENT STRINGENCY-- WE MUST GO SLOW FOR A WHILE.

A gentleman who is thoroly posted on the financial situation, not only in Canada, but beyond Canada, and who enjoys the confidence of many, sizes up the financial situation as follows:  
The primary causes in my mind of the present stringency were the Boer war and the Russian-Japanese war; prior to these wars savings were increasing nearly all over the world, the rate of interest was quietly falling and funds were able to be found for all legitimate enterprises.  
War, being unproductive in any way, leads to waste, and when heavy borrowings are part of the process the result is very disadvantageous from a financial point of view. We have seen how the motherland has increased its national debt and we have seen Russian and Japanese issues hawked about in every monetary centre. The world for some time has used up its savings. British consols have dropped far below the normal quotations; no new issues are being placed upon the British market to any extent; the bank rate remains at four. In France we see a struggle to obtain gold and calls are made on other lands; for example, the United States, to repay gold France had exported; Germany wants to raise funds, and Russia is bankrupt.  
I do not see how funds just now can be obtained from the other side of the Atlantic in appreciable quantities to aid Canada.  
Another disturbing factor is that the prices of commodities are high, living is dearer and savings are less and in all this, on this side of the Atlantic more particularly, we have gone in for a tremendous burst of development. Mr. Brien's idea to say that you can't drive six buses abreast through Temple Bar. The true remedy, I think, is to spread out development until savings become available and there are excellent signs in trade returns to show that conditions are likely to improve. If we go slow, live quietly, we shall soon be out of trouble.

## DEFENCE WANTS TO PROVE GENERAL CONSPIRACY

Counsel Darrow Will Go Directly Into It—Orchard Contradicted by Easterly.

**BOISE, Idaho, June 28.—**Attorneys for William D. Haywood, charged with killing ex-Gov. Steunenberg, continued today to centre their efforts upon discrediting Harry Orchard and establishing their assertion that Orchard killed Steunenberg in revenge for the loss of his interest in the Hercules mine.  
They directly attacked Orchard's account of the Vindicator mine explosion with the testimony of a witness which made it appear accidental rather than criminal.  
Thomas Wood, a non-unionist who entered the Vindicator mine as a timber man after the strike began, swore that the night before the explosion he placed a box containing 25 pounds of giant powder at the shaft of the eighth level. He saw the powder there the next morning shortly after 10 o'clock and Easterly because he received two letters and a telephone message from Orchard on the eve of Steunenberg's murder, and it so happened that the powder was found in the shaft. Wood testified further that he had seen a revolver with a wire attached to the bodies of McCormick and Beck indicated to him that the explosion occurred between them. Orchard swore that he arranged a revolver with a wire attached to the bodies of McCormick and Beck, so that when the safety bar was raised it would send a bullet into the giant powder he had placed ready. One witness for the state has sworn that he found a wire attached to the safety bar, but Wood testified to-day that he carefully examined the safety bar and found nothing attached to it.  
W. Easterly and C. D. Copley both swore that they heard Orchard mention the fact that McCormick and Beck threatened to kill Steunenberg for it. On cross-examination the state scored Easterly because he received two letters and a telephone message from Orchard on the eve of Steunenberg's murder, and it so happened that the powder was found in the shaft. Wood testified further that he had seen a revolver with a wire attached to the bodies of McCormick and Beck indicated to him that the explosion occurred between them. W. Easterly and C. D. Copley both swore that they heard Orchard mention the fact that McCormick and Beck threatened to kill Steunenberg for it. On cross-examination the state scored Easterly because he received two letters and a telephone message from Orchard on the eve of Steunenberg's murder, and it so happened that the powder was found in the shaft. Wood testified further that he had seen a revolver with a wire attached to the bodies of McCormick and Beck indicated to him that the explosion occurred between them. Orchard swore that he arranged a revolver with a wire attached to the bodies of McCormick and Beck, so that when the safety bar was raised it would send a bullet into the giant powder he had placed ready. One witness for the state has sworn that he found a wire attached to the safety bar, but Wood testified to-day that he carefully examined the safety bar and found nothing attached to it.

Baseball Kelley's Cripples Souse the Sailors Inter-Provincial Match To-Day Turf Running and Harness Races

Buffalo Loses, But Toronto Wins Home Runs for Flynn and Phyle

Score Was 5-1 — Skeepers Bump Bisons — Rochester and Providence Other Winners — Toronto Gets Holy.

It was Toronto's turn yesterday to knock out two home runs, Flynn and Phyle being the guilty ones, and as the odds were 3-1 in the rest of the game, Toronto won from the Sailors by 5-1. Applegate, who served up the twister for the locals, was an enigma to the visitors, seven scattered safeties being registered off his delivery. Newark scoring their only run in the sixth, when Applegate hit Mullin, the first batter, the runner purloining the half-way cushion, going to the last whisker on Zacher's infield hit, and scoring on Jones' long fly to Thoney.

Games to-day—Newark at Toronto (two games), Jersey City at Buffalo, Baltimore at Rochester, Providence at Montreal.

Eastern League Record.

Table with 4 columns: Club, Won, Lost, Pct. Lists standings for Toronto, Jersey City, Newark, Rochester, Baltimore, Providence, Montreal.

Orlones Had One Bad Innings. ROCHESTER, June 28.—In the second inning of to-day's game with Baltimore two singles and a base on balls, followed by another single, gave Rochester three runs, in the sixth a base on balls, followed by a sacrifice, let Loudy, the runner, score on a wild pitch after he had stolen third. The Orlones were only able to secure two runs against these four, because of inability to hit safely with men on base.

GOLF TOURNEY STARTS TO-DAY Canadian Championships Begin at Lambton—Inter-Provincial Match.

The Canadian amateur and open golf championship tournament starts to-day at Lambton immediately on arrival of the 1.30 train from the union station. The program to-day will be the inter-provincial match between Quebec and Ontario. The Quebec team will not be picked last night, but Mr. Gerald Lees, Mr. Allen, Mr. Swabrock and Mr. Hanson of Ottawa and Mr. Malphay of Montreal will have a place on the team.

GRAPPLE WINS THISTLE STAKES AT SHEEPSHEAD Rough Riding Ruins Chances of First Mason and Hyperion II — Results and Entries.

NEW YORK, June 28.—Grapple, backed down from 16 to 5, to 5 to 2, favorite, easily won the Thistle Stakes, the feature at Sheepshead Bay to-day. There was considerable rough riding in this race. First Mason and Hyperion II were the chief sufferers and their chances ruined. Grapple was the only winning favorite.

Second Day at Listowel 3 Pacing Stakes Decided Collingwood Boy and Missouri Chief in Straight Heats and Anna V. Brino in Five at the Winners.

LISTOWEL, June 28.—(Special.)—There was another large crowd at the Canadian Circuit races here to-day and those in attendance saw some great racing. The weather and track conditions were all that could be desired.

TO-DAY'S SELECTIONS. FIRST RACE—F. S. Martin, Altan Delcanta. SECOND RACE—Ed. Ball, Ontario. THIRD RACE—Firestone, Ontario. FOURTH RACE—Electioneer, Kansas Entry. FIFTH RACE—Cachoon, Ontario, Heroditus.

Home Run with Bases Full.

MONTRÉAL, June 28.—McConnell's home run with the bases full won to-day's game for Providence. Hughes was touched in three innings. The game was without incident, and there was no feature, except for the hitting of McConnell, who has been hitting at a 450 clip the last two weeks.

Blame the Umpire.

BUFFALO, June 28.—Pitcher Pfannmiller was umpire to-day, and he gave Jersey City the victory by calling Woods safe at the plate when the man was out plainly. Buffalo could not hit Whiting very well, but the champions made as many runs on the square, as did the Skeeters, and should not have lost the game. It was a well-pitched affair, the outfielders being kept busy, especially Hanford and White, who made 13 putouts between them.

HONOR FOR HONOR.

Lieutenant-governors have pointed out many jests not always inappreciable or undesired. Yet it is an office honorable in itself and that can both give and take honor. But it is on occasion certain of its occupants have failed to reach to the full measure of its duties and requirements and if conspicuous success has not been commonly attained, there always have been and will be individual instances where the qualities that make for deserved reputation are found harmoniously compounded.

It is not easy in a democratic community and under the peculiar political conditions that are unfortunately found in Canada, to wear a brief authority with dignity, to observe the rule of impartiality and to be regarded of the limitations equally with the powers and privileges that attach to the executive head of a self-governing community. This is as true of the provincial microcosm as of the federal or the imperial cosmos. If the affairs are not so great and intricate, the desiderata of temper and judgment are nearly akin.

Ontario has had in Sir Mortimer Clark a lieutenant-governor of exceptional ability and excellence. Not only has he well and faithfully discharged his executive duties incumbent on him, but on the social side he has exhibited unflinching courtesy and that rare instinct that enables the right thing to be said in just the right way. Sir Mortimer has had to speak often and on many topics, but always with deftness and to advantage, while the hospitable functions that bulk so largely in a lieutenant-governor's daily round have gained much from his genial bonhomie. The honor which has come to him will be regarded by his fellow-citizens as but a return in kind.

CHAMPERTY.

A short time ago a man in Prince Edward County had his eye put out under circumstances which made it a corporation liable for his injury. This man had no money, but he induced a lawyer at Pictou to take his case on what was equivalent to a percentage basis. He recovered a verdict and the corporation appealed the case and it had to be argued before the court of appeals at Toronto. For this the lawyer contracted with him for \$300 additional.

Now the lawyer is in trouble and has been ordered by the court to pay back all the money that he received from his client.  
This is applied the old doctrine of Champerty, which was designed to prevent wealthy and powerful men from buying up fictitious claims and getting judgment upon them through cowardly judges and juries. This doctrine is now construed so as to protect the strong from the weak instead of protecting the weak from the strong. It virtually prevents a penniless man who is injured, from collecting damages. Such damages are collected in fact, but as a rule the lawyer who takes the case puts his gown in jeopardy.

Calling lawyers "ambulance chasers" does not change the situation.

When a man is crippled or blinded and has no money, shall he go without compensation if he has been injured through the carelessness of another? Apparently he must do so, unless our present laws against champerty are repealed or unless he can find lawyers skilful enough to evade them.

WAS IT UNLUCKY?

The Detroit Journal, under the heading, "EXTRA: THIS IS IMPORTANT," records the fact that Col. William J. Bryan lost his nightshirt on a Missouri, Kansas and Texas train out of St. Louis several days ago.  
This railway, it may be said parenthetically, runs an express known as the "Katy Flyer," an obvious pun on K.T. It is a Gould road and, perhaps, the gallant colonel suffered from that fact. But is he not to be congratulated?  
It is a matter of history that within the past ten years a member of congress from West Virginia was defeated for re-election because it was discovered that he wore a nightshirt. He stopped over night at a constituent at Horse Neck, W. Va., and the accommodations for the family and guest being confined to a one-room log cabin, his peccadillo in this respect was patent, and it led to his defeat.

In Kansas, not long ago, Jerry Simpson was elected to congress because he wore no socks, and "Socksless Simpson" has passed into history.  
Let Col. Bryan now make the announcement that this nightshirt did not belong to him—that he does not use any garment of that character, and his chances for the White House will be improved immensely. He can then say, not without reason, that his life is devoted to "days of labor and nights devoid of ease."  
Thus will Jeffersonian democracy return to the republic, too prone to ape the mannerisms of an effete civilization.

PUBLIC OWNERSHIP IN GERMANY.

Here in Canada, so far as public ownership and operation of utility and service franchises are concerned, we are accustomed to regard Britain as occupying a remarkably advanced position. Yet nothing struck the party of British Journalists that recently toured Germany more than the fact that the fatherland was so incredibly ahead of the United Kingdom in municipal development. In the words of one of them, "every city and state owns all the monopolies—docks and tramways, gas and water, electricity and railways, and, above all, land."

When a Frankfurt banker was told that all this was denounced by some people in England as socialism he laughed, and said: "Well, we Germans believe in socialism of that sort, you know—state socialism. It is either that or anarchy. How is it possible for individuals to be allowed to exploit public necessities?"  
Properly understood, public ownership of monopolies is not socialism. It is merely the declaration that what should be administered for the common good must not be diverted for private profit. In Prussia the visiting journalists were told that "the profits from the state railways are equal to the interest on the national debt." And that, despite the fact that the railways are there run for the straight benefit of German commerce and industry.

Yet what the Germans have done has simply been to pursue British ideas to their logical conclusion. "We get our great ideas, our great principles from you," said a German scientist, "and then we work them out." Many hundreds of municipalities in Germany, we are told, have no rates at all. All the public charges are met by the public ownership of land. The new municipalities of Canada can get the same benefit if they will.

MARK TWAIN'S FAREWELL ADDRESS.

The University of Oxford has had the good sense and appreciation of international relations to honor Mark Twain with a degree. Even universities at times can appreciate humor. Mark Twain is now well past the three-score-and-ten year mile-post, and in his own way makes light of that fact. We imagine that he will leave some memorial to his fellow-countrymen—certainly he is as much entitled to leave a farewell address as was George Washington, and perhaps his farewell address would receive more attention than that of the Father of his Country. And if he leaves an address it should be couched in his own style and in his own language. The political, moral and economic situation in the United States today is well worthy of that kind of satirical treatment which Mark Twain could give it, and as Aristophanes still lives by reason of the shafts he let fly at the public and social life of the Greeks, so might Mark Twain go down to posterity by a parting shot at the weaknesses of his fellow countrymen, and these weaknesses are not few, nor are they growing less in number.

THE STAGE OF SHAKESPEARE.

In the course of an article on "Elizabethan scenery" in the current *Fortnightly Review*, Miss Charlotte Stowe offers some interesting evidence tending to show that the theatre for which Shakespeare wrote was not so void of stage illusion as has been hitherto commonly supposed. Miss Stowe has instituted a search into the literature of the day, and into various extant documents of account relating to plays performed before Queen Elizabeth. Among the properties charged for is "a chariot 14 feet long and 4 broad, with a rock upon it and a fountain therein for Apollo and the Nine

THE POPULAR SONG AT PLEASURE RESORTS.

It is in Everybody's Mouth and is Invariably Pronounced "Lovely."  
The World Man, when visiting the island and Scarborough Beach during the past week, heard even when he was following words, entitled "Rest for the Weary," being sung to the old and beautiful refrain, "Penelope Parland".  
When he sang to the melody:  
I want a drink  
That quenches thirst;  
This I think  
Of "Cola-Claret."  
The drink of kings;  
Of all the joy  
And rest brings.  
It soothes my nerves,  
Relieves fatigue,  
Gives heart and tone—  
Ah, "Cola-Claret!"  
I love thee best.  
They praise it till I'm weary  
In these "Rest."  
The World Man, out of curiosity, was led to "test it," being an expert on flavor. Now would anyone in the hotel never could sing before, and always drinks "Cola-Claret." In bottles and at all good fountains, 5c.

A TRAVELER COMPLAINS.

Editor World: The Elora branch of the C.P.R. is the humble opinion of the writer of this letter, exhibits the worst piece of railway management in Ontario.  
There are four trains from Toronto to Elora, and two of them are mixed and two otherwise. None of the trains on the Grand Trunk are mixed trains. In comparison of the service furnished by the Grand Trunk with that furnished by the C.P.R. leaves much to be desired. I do not know what you can do, Mr. Editor, to urge the C.P.R. to give a little more attention to the people of this district, but if this was the means of bringing to the attention of the officials the disgraceful service we have to suffer, then my aim will be achieved.  
Disgusted Traveler.

THE HIRED MAN AND HIS BATH.

Farmers' Advocate: The agricultural Editor of the Toronto World has run up against a snag—a sunken, twisted, knotty pine-log, snagging the awkward question of hired men's ablutions, and put the matter in a pointed way: "Where can the hired man wash his feet?" This question, if it was a question, would have been answered by the farmer, and called on ministers of agriculture, with their deputes, officials of various rank, and the editors of the Toronto World, and some other weeklies to help him out.  
Such Spartan spirit deserves support, and we find ourselves involuntarily rallying to the call, not that we have any panacea for difficulties of this kind, but that we are sympathetic, having served an apprenticeship in the humble but worthy lot of hired man in more than one province.  
My toughest experience we recall was in Manitoba, on one of the great harvest excursions. The first job there was with a settler who lived in a 12x18 foot, store-and-a-half house, with one room downstairs and one above. The hired man's kitchen, dining-room, pantry and parlor combined, and was the day-time living-room of a family of five, upstairs were two beds and a shake-down. A bathroom was a superfluity, for none of the family would bathe. We had a long walk to the public house and to the bath-house. The hired man had to take his bath in a tub in the kitchen, and the water was so hot that he had to dip his feet into a bucket of cold water. He was so tired and so hot that he had to take his bath in a tub in the kitchen, and the water was so hot that he had to dip his feet into a bucket of cold water. He was so tired and so hot that he had to take his bath in a tub in the kitchen, and the water was so hot that he had to dip his feet into a bucket of cold water.

MORE ON OPERATIONS.

Editor World: The letter of Queist, in your issue of Thursday, June 13, headed, "Appendixes. Operation. Death," was most interesting. The number of deaths reported from week to week, as the result of operations, many of which are needless, and would not be advised by doctors, were it not for the larger fees demanded for their so-called surgical skill. Did anyone ever hear of a doctor announcing successful, even if the patient dies the next day, or a few days after, and the deaths are attributed to diabetes, or something else. I hold that such an operation is successful unless the patient recovers.  
Why operate at all, except in very extreme cases? That modern bug-bear, appendicitis, can easily be treated with medicine, and, in nine cases out of ten, what is diagnosed as that is simply the accumulation of gas in the bowels. It is not my physiological condition of immunity, he explained the other day. "It's just olive oil. Maybe you drink occasionally. Whenever I find that whiskey is beginning to produce more than a good stimulating effect I take olive oil with every drink and an occasional hoker of the oil by itself."  
One of the hardest drinkers in Brooklyn boasts truthfully that he never gets drunk. His friends marvel at his capacity and his apparent immunity from the intoxicating effect of alcohol. He drinks a quart of whiskey in an evening and goes home sober. The strangest thing is that he is always at his business early every morning, looking bright and fresh.

JAMES McDONALD DEAD POPULAR UNION OFFICER.

Business Agent of Street Railway Employees Succumbs to Pneumonia.

Business Agent James McDonald of the Toronto Street Railway Men's Union died at his home, 272 Logan-avenue, yesterday morning of pneumonia. The funeral will take place on Monday morning. Service will be held at the house at 2 o'clock, and the remains will be removed to St. Joseph's Church, where high mass will be chanted prior to the interment in St. Michael's Cemetery.  
On account of deceased's activity and popularity in labor circles, the funeral will be largely attended by labor men. So far as possible, the Street Railway Men's Union will attend in a body, while the board of business agents, the board of management of the Labor Temple Company, officials of the District Trades and Labor Council, the Catholic Order of Foresters and the Ancient Order of Hibernians will be strongly represented. W. D. Mahon of Detroit, international president of the Street Railwaymen's Union, will also attend. Tributes have been placed upon the casket by the labor organizations mentioned.  
Mr. McDonald had been dangerously ill since a week ago last Thursday, when he contracted a cold at an all-night meeting of the street railway employees in April, which developed into pneumonia. A few days before he was elected in ward one, caused by the death of Aid. Wilson, who, by the way, was also prominent in labor circles. Mr. McDonald was sufficiently well to be out on the street. His name was mentioned as a probable candidate for the vacancy, but he retired and announced that he would run in January. Mr. McDonald was born 47 years ago at Thornhill, Ont. His first connection with the street railway was in the time of the old horse cars, when he was engaged for several years in Toronto as a driver. He left the Street Railway Company's employ about seventeen years ago for the United States, returning to the Toronto Railway Company's employ two years later, as motorman. Since that time he has been engaged as business agent for the union, and a prominent figure in the District Trades and Labor Council. On several occasions he was a delegate to the Dominion Trades and Labor Congress, and once represented the street railwaymen at the international convention.  
Six years ago he was discharged because of his alleged activities in the organization of the Street Railwaymen's Union. Using the name of William Brooklyn-avenue. He leaves no children.

JOHN M. ALLEN SUCCEEDS AS DEPUTY HARBORMASTER.

Harbor Board Opposed to Extension of Windmill Line—To Raise Resolute.

John M. Allen succeeds the late Capt. Allen as deputy harbormaster, the appointment being made at a meeting of the harbor board yesterday morning.  
There were a dozen applicants for the position, the number including Ed Hanlan, ex-champion oarsman, and Capt. J. Conahan. Mr. Allen has been check clerk on the city dredge for the past five or six years, and the new appointment will be in the nature of a promotion. The salary attached is \$200.  
The commissioners expressed themselves as being opposed to the proposition to extend the windmill line to our sympathy, having served an apprenticeship in the humble but worthy lot of hired man in more than one province.

AT OSGOODE HALL.

The court of appeal gave judgment yesterday in a number of cases. The appeal by Edward C. Hargrave and The White Silver Company, from the judgment of Chancellor Boyd in the action of Attorney-General of Ontario against Hargrave, was dismissed with costs. The action was over certain patents for mining lands in Coleman Township, which the crown alleges were obtained by fraud and conspiracy.  
The Pure Color Company's appeal in their action against Thomas J. O'Sullivan, over a promissory note for \$3892.50, was dismissed.  
Thomas Krawley, who, while working as a deckhand on the Macassa, had a foot cut off by getting it entangled in a line, recovered \$1800. The company's appeal is dismissed without costs.  
Forbes Motr, in April, 1906, obtained a judgment against the C.P.R. Company for \$2600 for the death of his father. The company's appeal is allowed, and the action dismissed with costs if demanded.  
The appeal of the C.P.R. against a judgment of \$16,000 to the relatives of John McKay is dismissed, with costs. Justice Meredith, with the referee, brought action, claiming they were the purchasers of certain burial lots in St. Mary's Church, and the appeal also was dismissed.  
The Deschenes Electric Company against The Royal Trust Company is dismissed.  
George Edward Kingley has issued a writ against The Toronto Liquid Carbonate Company and Thomas Davy, claiming \$200 for value of a patent and attendance on the late Charles McAvoy.  
Commission on Sales.  
J. M. Wallace & Co. are suing E. W. Brown of Cobalt for \$222.96 on commission on the sales of certain shares of mining stock.  
The action of Frank Arnold, K.C., against G. R. R. Cockburn was again before the court yesterday. Robert McKay, counsel for Mr. Arnold, appealed from the order of Master-in-Chief Cartwright, directing particulars of the bill rendered.  
The Canadian Order of Foresters obtained from Judge Riddell an order allowing them to pay into court \$4000 in damages against the late Charles Whiston of Shakespear Township, Lyman Lee of Hamilton made the application.  
Patrick Maher, liverman, of Toronto, is defendant in an action brought by George M. Boyd, a horse dealer of Owen Sound, over the sale of a horse named Torrington Hotspur, claiming \$1000 damages. The action was to have been tried at Owen Sound, but Maher wanted the venue changed to Toronto. The motion is dismissed with costs to Boyd in any event.  
Settled.  
The action brought by Henry Misbun against D. Rosenberg has been settled, and upon consent an order obtained from the court dismissing the action.  
Suinn Toronto Railway.  
Matthew McGowan and Rupert Edlin have issued writs against the Toronto Railway Company, claiming for injuries received, \$2000 damages, in the case of the former, and, in the case of the latter, unstated.

THE CEDAR AND THE PINE.

Recent investigation proves them Sprung From Same Stock.  
Present study of the structure of the celebrated cedar of Lebanon is regarded as proving that it has come from the same parent stock as the pine, and that it represents the most primitive of cone-bearing trees. The most recent page of the *Cedar Forest* has shown that the wood of the cedar root possesses vestiges of the pine needle, which is a characteristic of the pine, whereas the cedars are characterized by a median canal.

COACHING PARASOLS. Exclusive Designs That Appeal to the Well Dressed Woman.

Quite as important as her gown, in the opinion of the well-dressed woman and of the man who observes and criticizes her more closely than she imagines, very often, are the accessories of her costume—the gloves, the shoes, the hat, the sunshade. Not the least of these accessories is the sunshade. Every woman knows what an effective background for her head and face the sunshade is, if it is just the right color, and even then it is not a more useful implement of coquetry. The truly nappy woman is also and when, whenever she has a new out of door look, she first orders a new sunshade. The sunshade is not only a practical thing, but it is also a work of art. It is a work of art in its own right, and it is a work of art in the eyes of the well-dressed woman. It is a work of art in the eyes of the man who observes and criticizes her more closely than she imagines, very often, are the accessories of her costume—the gloves, the shoes, the hat, the sunshade. OLIVE OIL AS AN ANTIDOTE.

From The Brooklyn Eagle.  
One of the hardest drinkers in Brooklyn boasts truthfully that he never gets drunk. His friends marvel at his capacity and his apparent immunity from the intoxicating effect of alcohol. He drinks a quart of whiskey in an evening and goes home sober. The strangest thing is that he is always at his business early every morning, looking bright and fresh.  
"It's not my physiological condition of immunity," he explained the other day. "It's just olive oil. Maybe you drink occasionally. Whenever I find that whiskey is beginning to produce more than a good stimulating effect I take olive oil with every drink and an occasional hoker of the oil by itself."

### A LONG CHASE.

Charged With Theft, Young Man Gives Detective Scenic Chase.

Truman Allen, 177 Hamilton-street, gave Acting Detective N. Guthrie a combination cross-country obstacle race run over a variety of back fences when he was arrested yesterday afternoon, charged with stealing and converting into cash a cheque for \$38.

The cheque, which Allen took the day after it was issued by Taylor's pocket at the Taylor Storage Company's premises on the Don Esplanade. The loss was discovered, but before Mr. Taylor could reach the Bank Toronto, at Queen and Bolton-streets, Allen had fled with the cheque.

When Detective Guthrie took Mr. Taylor to the young man's house to identify him that worthy fled by way of the rear door. The detective followed through a series of back lanes. A number of high board fences were overleaped, and the pursuit led on thru the clothing country, dotted with ash barrels. Sundry small dogs joined in the race, which led into the more open country.

A park was rapidly traversed, and the pursuit led on to a young man was finally run to earth between two ash barrels.

### THE NEW COMET

Is Visible After Midnight in the Southeast Sky.

Local astronomers are interested in the new comet discovered by Observer Daniells of Harvard University on June 10. The closest approach to the sun will be on Sept. 2, when it will be about 45,000,000 miles distant from that body. It is visible after midnight with opera glasses in the southeast sky.

Resolutions of condolence were forwarded to the widow of the late Jas. McDonald last evening on behalf of the Brewery Workers' and Plumbers' and Gasfitters' Unions.

George Yates, private secretary to Hon. Frank O'Hara, will leave the city for Sudbury on Monday to join the legislative party in their tour in the Rainy River country.

## HAS HEEL-COMFORTING COUNTERS

Action of a Heel-Skimming Counter

What good are these Foot-rite ball and socket counters? They're this good! Their soft leather won't skin the heel, even though it may rub at every up and down movement, but that up and down rubbing is entirely eliminated by the ball and socket suction which forces the sole under the heel, also the counter at the back and sides, to hug the heel snugly as it lifts and lowers in walking. This suction is not noticeable. Like the shoulder joint it performs its office without being felt.

Action of a Foot-rite Heel Comforting Counter

### IMPROVEMENT NUMBER THREE

Don't know what is meant by a shoe counter? Well, it's the stiff leather that fits around the heel. It's the back stop of the shoe. It forms a leather cavity into which the heel fits. If wrongly built that cavity can inflict more agony than any other section of a shoe. In nearly all shoes it's given little or no care. It's usually constructed of Hemlock tanned, scrap sole leather, hard and stiff as stone, and is latched together in the cheapest way without shape or form. Result? A rigid, unyielding, heel-skinning, pain-producing, walk-hindering counter.

Foot-rite counters are somewhat different—slightly. They're made of special oak-tanned counter stock, stout but soft, and being shaped the exact shape of a human heel, they are heel sockets, and when the heel ball fills them, they're practically ball and socket joints like the human shoulder, capable of moving in any direction and bound together by air suction.

There's a Foot-rite dealer in your town. His name's below. Ask him to show you Foot-rite Heel Comforting Counters. You'll find his door swinging inward but never outward to find a more welcome store.

Anywhere in America, Canada or Great Britain—\$4.00 and \$5.00. Every pair Goodyear Welted.

### FLOOD STILL OVER DON EXPECTS RELEASE TO-DAY

### Premier Whitney Joins Leading Citizens in Petition for Pardon.

No word has been received from Hon. A. B. Aylesworth, minister of justice, regarding the release of Tim Flood, the Toronto ball player, who kicked umpire Conway during a game at Diamond Park.

All the facts have been laid before him, and J. Walter Curry, K.C., Flood's counsel, expects an answer some time to-day. He is looking for Flood's release.

The petition for Flood's release will probably reach record yesterday afternoon. The officers of the Toronto Ball Club are besieged with messages from prominent people asking for a chance to sign the petition. Hon. J. P. Whitney, premier of Ontario, signed it as a private citizen. Hon. J. J. Foy did not care, owing to his official position, to sign it. Many prominent business men and professional men have signed it.

Six clergymen who were at the game the day the assault took place, signed the petition at the request of Conroy. They were Rev. Messrs. Hossack, Pearson, Stewart, O'Donnell, Whalen and Murphy.

Mayor Coatsworth was also deeply interested in the case of Flood, and sent the following wire to the minister of justice: "Believe me the ends of justice have been fully satisfied in the Flood case, and am pleased to join petitioners in asking for his release."

Among the long distance champions of Tim Flood is Police Magistrate Jelfs of Hamilton, who declares that Col. Denison was possibly without the law in sending Flood down without the option of a fine. He says that the prisoner was charged with common assault, not aggravated assault, and it is compulsory to impose a fine on this charge. This is his interpretation of the charge.

### Can't Find Warrant.

Pointed out by a fellow brakeman at the Union Station as George Fayette, wanted in Brockville for the theft of a suit of clothes in 1905, while he was running between that place and Montreal, a man who gives his name as George Fay, was arrested by P. C. Reburn at the Union Station at 7:35 o'clock last night.

Inspector of Detectives Duncan telephoned the Brockville authorities last night, but could find no trace of a warrant being issued there. It is unlikely that the man will be held.

### Wanted Twice.

A man arrested in Woodstock, under the name of John O'Brien, alias O'Donnell, has been identified by the Toronto police as Alexander Coulter, wanted here for passing a worthless cheque upon E. A. Jones, 354 West King-street.

He is charged in Woodstock with a similar offence upon the Crown Bank there.

OTTAWA, Ont., June 28.—The latest suggestion in regard to the vacancy in the cabinet caused by the resignation of Mr. Hyman is that Speaker Sutherland is to take his place in the government.

The vacancy of Speaker is put down for Charles Marcell and the deputy speaker for Archie Campbell, M.P.

### MINISTERS ENTERTAINED.

Canadians Still Cordially Inclined Towards France.

(Canadian Associated Press Cable.) LONDON, June 28.—In Paris to-day, Sir Wilfrid Laurier and the other ministers were entertained at luncheon by the British chambers of commerce. In the evening, Jules Siegfried, ex-minister of commerce, gave a dinner in their honor.

The only French comment on their visit interprets it as a sign that Canadians still are most cordially inclined towards the country from which many of their ancestors came.

### LOSES HIS LAST LASTS.

### HAMILTON'S NEW PARK.

An official on the waterfront says there are more steamboat excursions booked for July this year than in any previous year of his experience. He says this is largely due to the fact that the new amusement park on the mountain top at Hamilton is attracting many Toronto picnicers.

People are always clamoring for new features, and Hamilton's new resort not only has the advantage of being a distinctly new thing, but presents manyuring attractions. Being located on the brow of the mountain, where the air is sweet and breezy, it commands an uninterrupted view of the flourishing and picturesque city and the lake beyond, along whose shores for miles, on a clear day, the towns and cities can be easily discerned with the naked eye.

To adapt the place for picnics, the management have made a lavish expenditure of money. The palatial Mountain View hostelry has undergone extensive improvement; pavilions for dancing and luncheon have been plentifully sprinkled over the 12-acre grove; a well-ventilated roller rink, with accommodation for 400 skaters, has been erected, and a great fund of mirth-provoking entertainment features provided.

The park was always there, and the incline railway has been in operation for many years, but the liveliness which has proven a source of enjoyment and constant attraction to the thousands of pleasure seekers who have thronged the place since the official opening, May 24, is an innovation which has brought results.

Picked Up Unconscious. James McGinn, 16 Arthur-street, was picked up in a semi-conscious condition at Queen and Bathurst-streets at 7:30 o'clock last night. He had a severe scalp wound at the back of his head, and was bleeding profusely. He was not cared for and was removed to Grace Hospital.

## THE DAWN OF HOPE FOR WEAK MEN

And Those Who Suffer From Chronic Ailments.

**WHAT MY BELT DOES.**  
If you are nervous; if you have backache and rheumatism; if you are easily tired; if you lack the vigor of earlier days; if your spirits are low and you lack courage; if your sleep is restless; if your stomach fails you and your bowels are obstinate; or if your kidneys or any other organs of your body do not perform their functions in a perfect manner, get my Belt—there is youth and strength in it for you. Read the testimony of grateful men who have tried my Belt.

Give me a chance to give you undeniable proof which will convince you that in Electricity, as applied by my Belt, there is health and strength for you. You are already convinced that drugs won't help you, for you have tried them and know. Now try Electricity and you will soon know that it helps and cures.

As you feel the glowing, growing power of Electricity—Nature's sure cure—as it traverses your blood, muscles and nerves, you feel your vitality increase and pains disappear. Make a storage battery of your nervous system, and you will retain health and strength.

But some men don't believe anything until they see it. That's why I make this offer. I want to let you see it, and feel it, and know it by your own experience before I get a cent.

MR. GEO. REDDY, No. 501 St. James street, London, Ont., says: "I am well satisfied with your Belt. It has accomplished everything you claimed." MR. ANDREW W. # TORONTO REAL ESTATE

## Week's News in Real Estate

### SOME ONE HAS OPTION ON EXPIRING LEASES

#### Odd State of Affairs Reported by Yonge Street Merchants.

Merchants who want places on Yonge-street to improve or extend their business are at a loss to find out the way to get a store unless they pay thru the nose for it. It seems that by some apparently systematic manipulation somebody has an option on every place where a lease is about to expire, and there is no dearth of demand for Yonge-street store property. In fact, as one merchant remarks, "it simply means paying a big bonus and almost double rent to get into any place on Yonge-street between Queen and King-streets." The situation is regarded as serious, particularly by those merchants whose leases are expiring soon.

"Are the prices for real estate in Toronto higher than in other cities of a similar size?" a World man asked a prominent real estate agent yesterday. "No, sir," was the reply. "You see we are at a dull season now all around, and we are all still making good sales at what might be considered high prices, but taking into consideration the rapid growth of Toronto and the rosy prospects for the future, our prices are far below those of many of the progressive Western cities. You see, if you will just think, that prices are not high here at all compared with the rentals, which provide a good interest on the investment, and which are assured by the demand for houses. A noticeable feature is that a lot of people are after vacant property, and are building for themselves. That kind of thing enhances the value of any city, and we are doing more that way than any other city of our size. One house builds others around it and the value of adjacent property increases."

There are a good many enquiries for Toronto real estate, but there is not much life in them, says one agent, and his remark is endorsed by many others.

Negotiations are pending for the purchase of a prominent downtown bank corner, but the deal will not be thru for a few days.

"We have a number of good items," he tells you, "remarked one well known real estate man, "but differ from the people on the other side, inasmuch as a lot of us if we have a property to sell, avoid every publicity regarding it. Some people would not even have a board put up in front of their house in case it might tend to injure the downtown credit of the owner. You know that the women in a house don't like it to be known that the house is for sale, no matter what the reason might be. However, if there were no women we would not be here buying and selling houses, would we?"

Two large manufacturing concerns are about to locate in Toronto. The World was told that E. A. English knew all about it, but Mr. English is now retired, and only wanted to know where The World got its pointer. He

did not deny that the rumor was worthy of credence.

Some of the sales reported by F. J. Smith & Co. are 300 and 382 East Queen Street, \$7,000; No. 1 Wilton Crescent, \$4,000; 134 and 136 Lippincott St., \$6,200; 182 feet on Ben Lamond Ave., East Toronto, (south side on ravine edge), \$5,000; 60 feet on Balmoral Ave., on the hill, \$45 per foot; 50 feet on East-ave., off Avenue-road, at top of hill, \$35 per foot; 66 feet on Warren Rd., south of St. Clair Ave., \$45 per foot; 60 feet on Withrow Ave., \$42 per foot; lot on Broadway Ave., south of Queen St., \$22 per foot; 100 feet on Cottingham St., south side, east of Avenue Rd., \$35 per foot; No. 4 Whitby Ave., \$2,500; 45 feet on east side Madison Ave., \$75 per foot.

During the past week there was a sale arranged for Yonge-street store property, nearly opposite Elm-street, at \$600 per foot, which is considered a rather low price.

Some substantial improvements are to be made on Victoria-street. Just south of Sheehy's proposed theatre site there is to be a big hotel. E. J. Evans, proprietor of the Strand, that little hotel on the north side of Adelaide-street, just east of Yonge, is said to have leased the Richardson property, which has a frontage of 45 feet by a depth of 90 feet. The rental is \$3500 per year, and an hotel on the most modern lines is to be erected there.

The much-mooted talk of the Canadian Northern Railway tearing into Bimby Beach property caused considerable cold feet on some prospective purchasers, but the fears seem to have blown away, and in several sections of the Beach locality there have recently been numerous transfers. The change in the street railway service has not been felt as seriously as was anticipated. The stub line east from Scarborough Beach keeps nice and busy, and its patrons have become educated to the times when the car can likely be found.

Numerous transfers of Beach property have recently been made, and some owners maintain that the fact of the street cars running into Munn Park and bringing all kinds of people to the district is a distinct help to property values. There is a dearth of vacant lots in the Beach locality, and for the sale sign is not particularly prominent.

Notwithstanding the fact that the holiday season is now in fairly good light, and that money is still very tight, some of the real estate men are finding lucrative business in disposing of vacant lots. They don't care to discuss them, however. For instance, A. Willis, Toronto-street, when asked about a couple of transactions said to involve many thousands of dollars, replied that he knew real estate men who were not so good, and might do harm. F. B. Robins, thru one of his representatives, took a similar view. At H. H. Williams' office, no information was obtainable beyond the fact that the firm has found it necessary to establish another office at 28 Victoria-street, several doors north of the main office. The new place has been fitted up with the evident expectation of a largely increased business.

The demand for cheaper houses is being recognized and the estate of Joseph W. Gibson, on the east side of Dufferin-street, north of St. Clair-avenue, has been purchased by a local syndicate, represented by F. B. Robins. The property paid was \$13,000 for 14 acres of land, and a large brick house. The property will be named Toronto Heights.

### ONE OF THE CITY'S NEW CHURCHES.

The Splendid Edifice of the Avenue Road Presbyterian Church, which is now nearing completion.

and is deserving of the name, for it is supposed to be the highest point in Ontario. The land is to be divided into building lots, and no prohibitive restrictions will be put upon the builder.

There has been some activity lately in transfers of real estate at summer resorts outside of Toronto. Several sales in the Georgian Bay Island district are reported.

The Massey-Harris Co. has just bought a block of real estate east of their present property on King-street. Of the acquisition Stafford-street is on the east, King-street to the north, Wellington-street to the south. The corner store at King and Stafford-streets is not included in the purchase. There are 20 houses on the property, but they will not be demolished for some little time. The price paid was about \$10 to \$12 per foot on King-street and \$75 to \$85 on Stafford-street.

### FREE LIBRARY FOR BLIND.

Institution at Markham Will Be Opened on Monday.

On Monday the Canadian Free Library for the Blind will be opened at Markham. It is the first of the kind in Ontario. It contains 195 volumes in the raised lettering legible to blind people. A reference library containing everything necessary for the course of study to obtain a university degree is a feature of the institution. The circulating branch has already 26 members.

E. F. B. Robinson, M.A., who is the librarian, is himself a blind graduate of Trinity College.

The government made a grant of \$300 for the library, but further funds are required. E. W. Hermon, Toronto, is the treasurer.

### MANSSION FOR LISKEARD.

Toronto Architect Preparing Plans For Finest House in New Ontario.

The largest and finest residence in the New Ontario silver fields district is being constructed for Barrister H. Hartman in New Liskeard. The plans of which were prepared by Architect H. Simpson of Toronto.

The house will cost over \$10,000. It will be built of brick and stone, with a slate roof and finished in hardwood throughout.

In architectural design it is to be of the massive colonial type, two storeys and a half in height, and will contain twelve spacious rooms. The heating will be effected by a modern hot water system.

The exterior will display two large verandahs and a conservatory for potted flowers.

Mr. Harry Simpson is also preparing plans for a large 8-room brick public school at Port Arthur on cost approximately \$35,000. It will be steam heated.

### PERMITS AT JUNCTION.

Since June 18 building permits aggregating \$30,000 in value have been granted by Building Commissioner Leigh of Toronto Junction.

These include:

A two-storey and attic solid brick house on Western-avenue, owned by W. J. Armstrong and valued at \$2300.

Two \$2500 solid brick houses at 12 and 14 Lansdowne-avenue, property of G. Dentleigh & Son.

A \$2800 solid brick house at 124 Clara-street, owned by Annie Minto.

Additions to store at 62 and 64 Dundas-street, valued at \$1000.

Frame kitchen at 11 Main-street, property of Frank C. Collings, valued at \$200.

A \$2800 solid brick house at 74 Fairview-avenue, the property of Wm. Stuckey.

A \$2500 solid brick store and dwelling at 91 Hook-avenue.

A \$2500 detached solid brick house at 494 High Park-avenue.

A \$2500 detached solid brick house at 465 Quebec-avenue, owned by W. S. Stuart.

Two detached solid brick houses, valued at \$2000 each, at 94 and 96 May-street.

A \$700 brick addition to James Scott's store at 250 Dundas-street.

### Changing His Office.

Architect Fred Herbert is moving his offices from the York Chambers building to the Eastmuir & Lighthouse building, No. 65 East Adelaide. He will occupy the entire second floor.

The creditors of J. W. Milne, Ferguson, are called to meet at the office of Richard Tew, Scott-street, on Tuesday next.

### ADMIRAL ROAD EXTENDED OUT TO ST. GEORGE ST.

#### New Street One of Finest Residential Locations in City—Stringent Building Restrictions.

One of the most desirable residential situations in the northwestern part of the city has just been opened up by the extension of Admiral-road from Bernard-avenue to St. George-street, about 300 feet south of Dupont-street. This work has been done by H. H. Snydam, the well-known real estate dealer at 20 Victoria-street, who has moreover divided the property abutting on the new street into building lots of such size and under such building restrictions as will ensure the erection of detached houses only. During the summer the thoroughfare will be beautified by handsome walks and a substantial pavement will be laid. No poles of any description will be permitted on the street, and the telephone wires will be brought into the houses from the rear.

Mr. Snydam has already disposed of number of the lots, with frontages varying from 40 to 55 feet, and it is the intention of the purchaser to begin building at once. Plans have already been prepared for some of these residences, and to judge from these none but houses of a really superior class will be erected.

Another advantage possessed by these lots, which cannot fail to strike purchasers, is their depth. They vary from 120 to 135 feet, which will permit of building a fairly large garden. To those attracted by quiet and the charm of semi-rural surroundings, the neighborhood offers every inducement to purchase. It is the intention to make the street as beautiful as it can be made by means of boulevards and fine houses of the middle class. Purchasers, moreover, will be protected by the restrictions, and anyone wishing to build for himself a charming home, and at the same time have the absolute assurance that everything on his street will be in keeping with his own property, should visit this district before selecting a site elsewhere.

### LOOK TO OTTAWA.

Architects Want to Be Made Close Corporation.

A bill to make a close corporation of the architectural profession is to be brought into the Dominion parliament next session. A similar measure was thrown out of the last session of the legislature.

The bill would create an institute of architects and none but members would be allowed to practise the profession. Exceptions would be made for those practising before the passage of the bill. Only members of the institute would be able to sue for payment for professional services. Messrs. Edmund Buzotte, H. B. Gordon, and Eden Smith are mentioned in connection with the promotion of the bill. A good deal of opposition among those affected is anticipated.

### NEW SCHOOL BUILDINGS.

Extensive Alterations to Be Made at Mimico.

When the contemplated alterations to the four older buildings of Victoria Industrial School are made, many architectural mistakes which were not considered 20 years ago will be rectified.

Operations have already begun on the proposed alterations, which will necessitate an expenditure of \$15,000, and which will convert the old buildings as nearly as possible into modern institutions. It is calculated to install a steam heating system, by which all the buildings will be warmed from one centre. This will mean the addition of another boiler to the boiler-room.

The ventilation will be copied after the system employed in the new school, which provides for a constant influx of warm, fresh air and an exit of the foul by means of draft tubes communicating with the outside world.

The wooden floors in the basements will be torn out and replaced by concrete, and the basement walls will be lined inside and out with concrete to prevent the leaking in of moisture.

Cottages Nos. 1 and 2 will be materially enlarged by annexes to the rear. The staircases will be transferred to the rear, and the office will admit of cloakrooms and separate lavatories for each dormitory. Bathrooms and showers will be provided in each building. Baths will also be provided for the officials, communicating with their apartments on the ground floors.

The present floors in the dormitories, halls and reading-rooms will be torn out and replaced by hardwood; every staircase will be made of indestructible fireproof material and the ceiling in nearly all the halls, dormitories, reading-rooms and basements will be covered with artistic sheet metal.

### BUSINESS BRIEFS.

Some Items of Interest to the Mercantile Men.

E. J. Spence, general storekeeper of Sibleybury, has assigned to Richard Tew, Toronto, who will call a meeting of the creditors.

The weekly report issued by the department of trade and commerce, Ottawa, contains trade enquiries for ax handles, gold and silver leaf, eggs, oysters, steel pins, boards, picture frames and a host of other things.

Many fire underwriters regard the situation as serious, especially in view of the approach of June 30, when semi-annual statements must be made. Many of the companies that survived the San Francisco conflagration found themselves at the first of the year with narrow margins in the way of net assets. Five months of 1907 the losses have been \$20,000,000 ahead of the normal experience for that period. Partly because of this, but also because of a general reduction in commercial activity and a lowering of the stocks of

manufacturers and merchants, the general volume of premiums has been reduced.

"With premiums decreasing and losses very much increased, another serious element is introduced by the marked depreciation in the value of the securities in which the companies' assets are invested. Fire insurance companies invest more largely in stocks than do the life companies, and stocks have suffered severely, many companies showing a depreciation of from 10 to 20 per cent. in their holdings since the first of the year. These combine to make the outlook doubtful in the matter of semi-annual statements, and rumors of re-insurances are being renewed."

A pretty event took place at the residence of Rev. Dr. Miligan, on the evening of the 26th, in the marriage of Miss Agnes Livingston, eldest daughter of Hugh Livingston, Glasgow, Scotland, to John F. Ross, only son of John Ross, Govan, Scotland.

The bride was becomingly dressed in cream voile over silk, with hat trimmed with ostrich plumes. Miss Jessie A. Coutts of Toronto, as bridesmaid, was beautifully dressed in white silk and lace with pale blue hat. Mr. John M. Innes of Newbury, Aberdeenshire, acted as groomsmen. The following are a few of the principal guests: Mr. and Mrs. W. Lamberton of Govan, Scotland; Mr. and Mrs. Barclay, Mr. and Mrs. Terry, Mr. and Mrs. McMullan and Mr. F. W. Craig. After the ceremony the party sat down to a

bountiful repast at the Williams Cafe, Yonge-street.

The groom's present to his bride-maid was a beautiful pearl crescent. The happy couple departed on the midnight train for Cleveland, O., on their honeymoon.

### NEW-COMERS TO CANADA VICTIMS OF FATALITIES

Fraternal Societies Will Take Steps  
to Assist in Pro-  
tection.

Editor World: The accident at the foot of Bay-street on Victoria day by which two Scotchmen lost their lives, has brought to me, as a result of the decision of the Scottish Societies to have the matter thoroughly investigated, a great deal of information about other accidents to recently arrived immigrants. From the information thus received I find that since the first day of June, 1906, 20 Scotchmen and eleven Scotchwomen have met with unnatural and sudden deaths in this country, and that during the same period sixteen Scotchmen have met with accidents which have maimed them for life. None of these men or women had been quite twelve months in the country, and most of them had only been here for a few weeks. During the same period the number of Englishmen killed and injured, and who were also recent arrivals in Canada, was considerably in excess of the fatalities to Scotchmen, and no one seems to have any idea how many Italians or other foreigners are killed or injured. The Dominion government returns of the state and other accidents in industrial Canada are even still more ghastly reading. We do not desire the impression to go abroad that all these accidents are due entirely to the indifference to human life so often characteristic of some railways and other corporations, but our investigations so far seem to make it quite clear that at least eighty-five per cent. of them could have been prevented, had there been the same rigid enforcement of the law and the same safeguarding of human life prevalent here, which is found in Britain. Notwithstanding the fact that the railway lawyers may say, it is with no desire for vengeance that we are pressing the investigations into these fatalities. Our sole desire is to put an end to the terrible toll of human life which is yearly collected in the efforts of great corporations to reduce working expenses to a minimum, regardless of what the result may be to workmen and the public.

Too Easy With Corporation. A condition of affairs has arisen in this country for which the great corporations are not altogether to blame, but for which we as a public must assume our share of responsibility. We have allowed these corporations to have too great an influence in Parliament, and I am afraid we must add in several other directions, with the inevitable result that it has been difficult to bring to justice the really guilty parties when an accident such as that of Victoria day occurred. British railway managers are more humane than are the managers of Canadian railways, but in Britain the law is strictly enforced, and British judges have long since learned to allow mere technicalities to stand in the way of the poorest litigant, when suing a big corporation for damages for the death or injury of workmen or of any member of the general public. The terrible loss of human life in Canada by really preventable accidents has become such a serious matter that the disasters to which I have been referring cannot be allowed to pass into forgetfulness, but must be used as a means of awakening public opinion to this blot on our country's good name. It is the duty of the corporations will, as did the British corporations, oppose all legislation looking to the greater protection of human life, but we believe that like the British companies, the Canadians will find that it pays financially to spend money in the prevention of such

calamities, and that it does much to create a friendly feeling between the corporations and the public, which saves them their franchise.  
Fraternal Societies to Unite.  
It has lately become the fashion to prosecute workmen for railway accidents, but these prosecutions do not get at the root of the evil. We have had to investigate a number of these accidents, and we find that long hours are the cause of most of them. It is not perhaps the long hours worked during the week, or even the month of the accident, which leads to the disaster, but the long hours worked for a year or so, which reduces the workmen's physical condition, so that when he is faced with a condition of affairs requiring all his nerve and energy, he is unable to bear the strain and disaster follows.  
The beneficiary and fraternal orders of Canada, including the railway orders, have paid during the past ten years more than \$500,000 for death and partial disability, and for sick pay as the result of railway accidents. No wonder, then, that in the face of these facts many of the members of these orders are arranging to put the matter before every candidate for parliamentary honors, and to have from each a declaration that he will support measures for preventing railway men working long hours, and for the protection of level crossings in

all populous centres. Should it be necessary to seek further legislation we will not hesitate to do so. Our aim is to make the life of the ordinary citizen as safe from railway accidents as are the premises of the Dominion and provinces, and the lives of railway workmen made as safe as the roads are, and that if death or injury should befall any of them, the damnable water in even a matter of minutes concerned will find the way to protect life, than to allow such accidents to happen.

#### TWO DRIVERS DROWNED.

OTTAWA, June 28.—(Special).—Two young men have been drowned at the Gauchaire Club, on the Ottawa river. The young men, whose names are R. Rouleau and Oenezine Godin, were working on the drive of McLachlin Bros. Their bodies have not been recovered. They lived at Calumet Island.

#### BUFFALO OLD HOME WEEK.

Former residents of Buffalo, N.Y., are requested to send their addresses to the "old home week committee" in order to receive souvenir invitations to "Old Home Week" in Buffalo, which will be from Sept. 1 to 7. James W. Greene is chairman of the publicity committee.

She Wanted to Go.  
She said she wanted to go to Hamilton the worst way to spend her holiday, but her friend corrected her, advising her to go the best way. The young man, who has been in Buffalo, and is now in Hamilton, is the subject of the story.

#### Not One Penny in Advance Nor on Deposit

Not a cent unless you are made well. I make this offer to show men what faith I have in my own remedy, and I can afford to take the risk because not one in a thousand when cured, will cheat me out of the small amount asked. It pays me and my patient. My business more than doubled last year. Each ad I put in and receive my personal reply. I will also send my descriptive book, scaled, free of charge. I have thousands of recent testimonials from grateful patients. Would you care to read some of them?  
Let me take charge of your case at once. I will put new life into you in two weeks' time. Don't you do the worrying. Put that on me. I will take all the risk. I have something to work for. Unless you are cured I get no pay. Address

### EXPERIENCE COUNTS

**JAMIESON'S** 35 years' in the clothing business places him in a position to secure the closest prices on his purchases, and to offer to his customers the maximum of style and finish at the minimum of cost. Added to this, Jamieson makes up all his own clothing, thereby cutting out the middleman's profit, which goes into the pockets of the buyers of Jamieson's goods.

His tables are filled with clothing of all sorts, fashionable and at the same time serviceable, and specially adapted to the season in which they are offered.

That is why his June sales have been the largest in the history of his store, and to bring the month to a fitting close he eclipses even his own previous offerings by giving the public an opportunity to buy on Saturday at these prices.

### BEER MAY BE TO BLAME FOR FRENCH TROUBLE

American Beverage is Replacing Wines—Advances in Last Fifteen Years.

NEW YORK, June 28.—The Herald Paris cable says: Perhaps it is beer that has caused the wine trouble in the south, and "force est avec nous." Perhaps wine in the meridional districts is like corn in Kansas, while the product of the brew continues its invasion.

Beer was once a sort of exception in France. It now relieves the cultivated thirst of that population of France. Only fifteen years ago in Paris "la bière" was a comparative rarity, measured with the quantity of other refreshers in current use, but to-day half the terraces exhibit the various shades of amber reflected by the fermentation which, according to one authority, dates from the days of Oesir.

French and German beers naturally lead in the work of quenching local thirst. English pale ales and stouts have established a very progressive school on this side of the channel, but American brewers have also discovered dry spots on the continent and are bidding for custom.

The American flood is yet rather light as compared with the European article, but it is growing. The beer that made Milwaukee famous is provided by Messrs. McKinney & Co., 20 rue des Capucines. Mr. Orie McKinney said yesterday:

"Schultz does not need an introduction to Americans, but we are engaged in making it known to French customers. People over here at first find American beer rather sweet, but this objection soon disappears. Schultz made Milwaukee famous, and we want it to make fame for us here."

Other American cities made famous by the same process are represented in the list of firms which have received the award of the gold medal at the exposition in Paris. The firm of Paul Cuvillier & Co., in the Rue de la Paix, in the French capital, is provided by Messrs. McKinney & Co., 20 rue des Capucines. Mr. Orie McKinney said yesterday:

"The American beer business is not enormous," remarked Cuvillier yesterday, "but we are filling orders and the custom is likely to increase."

Cuvillier asserted incidentally that the custom supplied by Messrs. McKinney & Co. is paid by quantity, to say the least.

"Americans wonder why they are charged higher prices in Paris than in America for American articles," he said. "They are wonderful business men at home, but in Paris they forget that they are not Americans. The exchange charges, the breakage and waste."

Milwaukee's fame is claimed for other brands. How about Pabst? Mr. Burth, proprietor of the Pabst brewery, supplies the East export article. Burth also reports that the Pabst beer has the same trade here in American beer is not placid but good-growing.

"I have a good clientele for Pabst beer," he continues, "and I have a very good one. It is not only a side issue, answering to Johnny Relf, says he won't have any other, and it does not appear to affect his weight."

At the Grand Cafe, Victor, who pushes glasses in front of him all day, says the statement that beer is crowding out other aperitifs in all the cafes of Paris is true. "Coffee, he declares, is the winner, and has been for a long time. Of course, from all parts of the continent, the clientele of the bourgeois to a large extent, but has not superseded other beverages in the cafes as much as the laity imagine."

### LIKE PETAWAWA CAMP.

Advantage Guard of 9th Field Battery Reach Home.

The 9th Field Battery will arrive today from their two weeks' training at Petawawa Camp.

On Monday the Dominion Day salute will be fired at the old fort. The battery will parade in review order at the armory at 10 o'clock.

Members of the battery are enthusiastic over the new camp, and predict great things for it in the next few years. The water supply is excellent and plentiful. Shower baths are being erected at various points throughout the camp.

It is a remarkably healthy place, as the total absence of sick cases in the hospital shows.

The Ottawa River, on which the camp is situated, has a beautiful sandy beach and perfectly safe for bathing.

The order of dress for all drills was gray shirts and straw hats, which was a departure from the usual order of things that the men greatly appreciated.

The Royal Canadian Dragoons leave today for Petawawa. The ride will take about three weeks.

### C. P. R. EARNINGS.

Net Profits Show Increase Over Last Year.

MONTREAL, Que., June 28.—(Special.)—May, 1907: Gross earnings, \$9,987,185; working expenses, \$4,617,777; net profits, \$2,519,288.

May, 1906: Net profits were \$2,187,668, and for 11 months ending May, 1907, figures are as follows: Gross earnings, \$85,989,818; working expenses, \$46,511,613; net profits, \$22,885,203.

For 11 months ending May 31, 1906, there was a net profit of \$21,038,282.

The increase in net profits over the same period last year is, therefore, for May, \$1,846,921, and for 11 months ended May 31, there was an increase of \$1,850,906.

### PLAN IS ABANDONED.

Proposal for Ordnance Factory at Ottawa Stopped.

OTTAWA, June 28.—(Special.)—The proposal which was made to the government some time ago for the establishment in Ottawa of an ordnance factory to supply munitions of war for the Canadian militia, has, it is understood, been abandoned for the present at all events.

### Charges of Conspiracy and Forgery.

NEW YORK, June 28.—Indictments charging conspiracy and forgery against George R. Scragham, manager of the international policyholders' committee, and Charles A. Strupar, an employee of the committee, were returned today by the grand jury.

An indictment for conspiracy was also found against James Carrington, another employee of the committee.

### Only One Cure for Earache

### TENDERS.

### COUNTY OF PEEL DEBENTURES FOR SALE.

The undersigned, C. A. Irvine, Warden of the County of Peel, will receive tenders for the purchase of debentures of the County of Peel, A. D. 1907, at the hour of eight o'clock p.m. on Tuesday, the 2nd day of July, 1907, at the office of the undersigned, at the City of Toronto, for the purpose of receiving the proceeds thereof for the improvement of public highways the sum of \$100,000 by the issue of debentures bearing interest at the rate of four per cent. annually, repayable in thirty years.

### TRUSTEES GOT THE JOB

After Having Helped in Awarding the Contract.

AMHERSTBURG, June 28.—County Judge McHugh, on July 8, will hear quo warranto proceedings instituted to unseat Francis Pare and Joseph Meloche, trustees of school section No. 6, Anderson Township.

It is alleged that the two men voted to lay a walk in the school grounds, afterwards they were engaged by Drouin to do this work on Tuesday.

The School Act provides that trustees cannot do any work for the board and receive payment therefor.

### Retention Merchants' Convention.

The Hamilton branch of the Retail Merchants' Association of Canada are making extensive preparations to entertain the delegates, who will be present from all parts of Ontario to attend the eighth annual convention of the association, which will be held in the Hamilton Conservatory of Music on Tuesday night next.

### Did Hotel for \$100.

BRANTFORD, June 28.—(Special.)—George Metcalfe, a clerk who came here a short time ago from Hamilton, was arraigned today on a charge of defrauding a local hotel out of \$100. He was remanded till July 4.

A public farewell was tendered Rev. L. W. Hill, P.A., and family by the Euclid-avenue Methodist church on Thursday evening. Grateful testimony was given concerning Mr. Hill's splendid work in connection with the building of the new church. A well-filled purse was tendered Mr. Hill and a beautifully framed picture of the Ladies' Aid to Mrs. Hill. Rev. Dr. Baker was tendered a reception as the new pastor. Broadway Tabernacle will be Mr. Hill's new field for the next two years.

**Nose Broken at Old Fort.**

Corporal R. Spicer of the O. S. C. had his nose broken at the Old Fort yesterday morning. The accident occurred while Spicer and his companions were unloading a wagon of camp equipment from Niagara-on-the-Lake. A bundle of tent pegs was thrown him and when he missed them he was struck in the face, with the result stated.

**Views of Hanlan's Point.**

The ferry company are exhibiting two splendid panoramic views of Hanlan's Point and the athletic field at their Bay-street office. The pictures measure 41-2 x 11-2 feet and 8 feet 9 ins. x 1 foot and give a good idea of the general appearance of the place.

**WHO INSERTED THE AD IN A SCOTTISH PAPER?**

Allan Studholme, M.L.A., Looking After Interests of Labor Men In Brantford.

Allan Studholme, M.L.A., came to Toronto yesterday morning from Brantford, where he has been looking after the interests of organized labor in the criminal proceedings against the Buck Stove Company. A despatch from Brantford says:

The case was the first of its kind tried under the statute referring to such cases. James W. Matthews, one of the striking stove mounters, charged Chas. Parker, secretary-treasurer of the Wm. Buck Stove Company, with inserting in The Falkirk (Scotland) Herald an advertisement for stove mounters and moulders intending to mislead by stating that there was no strike or labor troubles at the Buck works. An advertisement in question appeared in the Scotch paper of May 11 last under the name of Alexander Cameron, steamship agent of Glasgow. W. T. Lee, secretary of the Trades and Labor Congress, appeared for the complainant and G. D. Hoyd for the defendant.

The members of the Buck firm, Mr. Charles Parker the secretary-treasurer, and two of the firm's stenographers testified that they had no knowledge whatever of the advertisement nor had they heard of known of any communication with Cameron, the secretary of the Employers' Association, or with the secretary of the Manufacturers' Association of Canada with reference to the matter.

When cross-examined, Wm. Buck was about to give his surmises as to how the advertisement got in the Falkirk paper, but Magistrate Woodyard ruled the question out.

Mr. Lee in addressing the bench, stated that there was no case whatever against Mr. Parker, and consequently the case was dismissed.

The case, however, is one of interest in legal circles, as was intimated by Mr. Lee. The action was brought under the Dominion statute of 1905, Ed. VII, ch. 161, sections 5, and 6, and is the first case coming under the statute which has been tried in Canada.

The amendment to the Shipping Act makes it a criminal offence for any person to insert an advertisement in a paper with intent to lure workmen from Britain or to induce them to accept of a lower rate of wages than those in force in their respective countries. The amendment also provides that any person who does so shall be liable to a fine of not more than \$100 or to imprisonment for not more than three months, or to both.

Who inserted the advertisement in the Falkirk paper, and whether it was the work of the Buck firm, or of some other person, is still veiled in mystery. The matter, however, may be still further probed, as Mr. Lee secured a copy of the evidence from the court.

Mr. Studholme intends to begin proceedings under the statute in the case of the Buck firm, and to request the Dominion government.

**Five Hundred Dollars Disappeared.** KINGSVILLE, Ont. June 28.—On May 29 Ernest Brown, a Wm. Kingston, Ontario, man, who was in charge of the stage business of the town, who in turn gave it to his driver, Clay Cooper, to deliver to Edward Liddle, the agent at the Pears Marquette Railroad. Liddle denied that Cooper had given him the parcel, although the stage driver said he had. Wilson has made good the amount.

**Thousand Islands and St. Lawrence.** Many who annually take in this trip consider the month of June the best time of the year. You can leave Toronto at 10:15 p.m. in the Pullman sleeper via the Grand Trunk and the morning make connections at Kingston with the P.O. steamer for a trip thru the Thousand Islands and the St. Lawrence River. Full information may be obtained at city office, northwest corner of King and Yonge-streets.

**Dominion Day.** The Grand Trunk will issue round trip tickets at single fare for this trip to the Muskoka Navigation Bays Navigation Co. and Lake of the Islands Navigation Co. and Northern Navigation Company to Parry Sound division in Ontario, and return to Toronto on or before July 1. Valid tickets and full information call at city office, northwest corner King and Yonge-streets.

**Public Library Institute.** The first meeting for the Brantford district of the Public Library Institute will be held there on Thursday, July 11. A good program has been assigned for the afternoon and evening sessions.

**Russian Finances.** ST. PETERSBURG, June 28.—An imperial ukase directs M. Kokovoff, the finance minister, to issue \$25,000,000 in four per cent. rentes for purposes set forth in the budget, including famine relief.

The council of ministers has invested the commandants of all the imperial palaces with exceptional powers.

**To Break Up Old Warships.** Frankel Bros. of Toronto are tendering for the purchase of two British warships lying in the dockyards at Bermuda, and which will be broken up for old junk. The two are the Rupert, a coast-protection vessel of 500 tons, and the Columbine, a supply vessel of 3000 tons.

**CANADA COMING TO FRONT IN FURNITURE MAKING**

Total Output of 175 Factories About \$8,000,000—Import Quantity of Fine Lumber.

Canada now contains some 175 furniture factories. These factories are valued at nearly \$8,000,000. They employ nearly 7000 hands and distribute annually more than \$2,000,000 in wages. Their annual output is valued at nearly \$8,000,000.

Furniture making in Canada has been coincident with the evolution of the Canadian home, says The New York Commercial. A generation ago the majority of Canadians lived in the cotton and wood bedstead, the hand-made table and the heavy, common chairs. To furnish an average country home meant to buy a dozen chairs, two bedsteads, two tables—one for the kitchen and one for the dining-room, whatever the weather—and occasionally one also for the parlor, if that also happened to exist.

A cupboard served double duty as both sideboard and dresser, even before the common bureau came in. The furniture maker was able to furnish almost everything required in the way of heavy furniture for the village and the farm house.

The average Canadian home to-day is a vastly different institution. Travel on the part of townspeople and social intercourse among country folk have widened the sphere of luxury. The manufacturer employed skilled labor and division of labor. A degree of specialization among the plant and the tools made in the old-fashioned way in the country the evolution of the furniture factory began at rather an earlier date than most other industries, for Canadian people were learning how to furnish homes.

**Canadian Homes Well Furnished.** After a few decades of home evolution the direct economic relation between the home and the furniture factory became established. The parlor became a fact in the farm house and the drawing-room in the city. Today the best city homes of Canada will compare favorably with the best homes on the continent. As there was more ground room per capita than in older and smaller countries, and as building materials were then cheap, scale, they were built on a large head of population. To-day an average city home is nearly every inch of the furniture in these homes the exclusive product of Canadian factories, employing Canadian labor and still manufacturing largely from Canadian woods.

As regards art furniture, so rapidly has the demand outgrown the supply that manufacturers have been compelled to go abroad for high grades of woods and veneers which cannot be procured in Canadian forests. In furniture, the people are satisfied with maple, elm and beech. Normally such material would not have been used in Canada. But Canada's real oak and the white oak, most of it into ships, since by the settler, had been used for rail fences and log houses. Only three years ago there was no furniture made in Ontario, a farmer who owned a log house built it solid walnut.

**Large Importations of Wood.** In 1904 Canada imported for purposes of manufacture as follows: Sawed boards, \$74,773; pulping manufacture, \$63,372; veneers of wood, \$148,222; chestnut, gumwood, hickory and white oak, \$42,100; mahogany, \$138,888; oak, \$1,492,571; maple, \$228,737; Spanish cedar, \$463,000; walnut, \$37,770; ash, \$97,478; teak, ebony, etc., \$6473.

These imports were for all purposes, and not specially for furniture making. White oak, for instance, which bulks to more than any other wood combined, was used for home furnishings, for office buildings, etc.

With the recent enormous production of furniture in Canadian factories there has been an over-production, to cope with which factories have been run on slightly reduced hours. This does not affect the manufacturers of springs and mattresses, robes and bedsteads and office furniture. In all such distinctive lines there is still an expansion tendency. In general, the furniture industry is still in its infancy.

**WEARS WHITE DRESS SUIT.** The white dress suit, Mark Twain's invention, has broken out in Chicago. It appeared for the first time on the person and presence of Millionaire Billy John Farnon, at the June fête at Pleasant Home, Farnon's mansion in Chicago.

The dress suit was a real affair, except that it was pure white, faced with white satin, and was long in the tail and short in the front, and every indication of having been made by a tailor under instructions from the white dress suit was conspicuous. It was a wonderful waistcoat of pale cream satin, embroidered with delicate, diaphanous and new pink and yellow. And John Farnon was very happy to have it on. It was clearly to be seen that he wore it from choice. The white dress suit was one more thing that he had thought of and it had made good from the first.

**The King of Birds.** In Berkshire we call the tom-tit the king of birds, says a correspondent in The County Gentleman. The birds one day agreed that the one who could fly the highest should be the king of birds, so they all tried in turn. The lark rose higher than most, but he soon got tired and had to descend. Then the eagle soared far above the rest, and he thought he was certain to be the king; but a little tit had hidden himself beneath the eagle's wing, and when the eagle fell he was certain to be the highest still, so from that time he has been the king of birds.

**Ice Drivers Will Strike.** NEW YORK, June 28.—A strike of ice wagon drivers in the employ of the American Ice Company has been determined upon to take effect immediately. Between 2000 and 2500 men will be involved. The strike, if successful, will cause great suffering. The movement is to force recognition of the union.

**The "Apostle of Temperance."** Francis Murphy, the "Apostle of Temperance," has been in the city campaigning because of falling eyesight. He has been in the temperance field for nearly 30 years. He addressed more than 25,000 meetings in this country and abroad. According to the statistics of temperance organizations, he persuaded fully 12,000,000 persons to sign the pledge. He was born in Ireland in 1836 and served in the Union army through the civil war.

COBALT --- Good Vein Struck at 60 Foot Level at Beaver Mine --- COBALT

REPORT IS NOT LIKED BY MINING MARKETS

Traders Use Pressure on Foster Quotations on Account of Pending Increase in Stock.

World Office, Friday Evening, June 28. The result of the Foster meeting was evidently not to the liking of traders in the mining stocks. The supposition that a new block of Foster stock will shortly come into the market was received by speculators as detrimental to the price of the present shares, and short-selling and liquidation was proceeded with at the opening of the markets this morning.

COULD NOT SELL BONDS.

Attempt to Dispose of \$29,000,000 Worth Failed.

NEW YORK, June 28.—An attempt to dispose of \$29,000,000 New York City 4 per cent bonds, for which bids had been offered for several days, proved a failure to-day. When the bids were opened it was found that only \$2,500,000 of the bonds had been subscribed for. There were 57 bids, all of small amounts, at prices ranging from 100 to 100.25.

Comptroller Metz announced that the amounts subscribed for probably will be allowed to bidders. The remaining \$26,500,000 will be re-advertised. Mr. Metz said no advance will be made in the interest rate. He ascribes the failure to the present condition of the money market. At the last sales of city bonds in February a little better than par was realized.

LATCHFORD, June 28.—(Special)—The visit of the Hon. Frank Cochrane to his constituency closed with a day spent by him and the Hon. Dr. Reumeau at Latchford and up to the Montreal River. A banquet was tendered the visiting ministers at the King Edward Hotel. The party left to-night for North Bay, and will go west to the Fort Arthur and Ratny River districts.

PREFERS RUNNING CREEK.

Editor World: I have read with much interest the letter re "Where shall the hired man wash his feet?" I was particularly struck by the one in which the hired man thought it a great hardship to go to the creek for a bath. Now, we have in our home bath accommodations (which the hired man is welcome to use), but I like to betake myself to the stream, lot, where after a good rubbing down with clean coarse sand, take a plunge in the water for five or ten minutes, then dress and take a good sharp run for 50 yards or so to warm up. Such a bath is more refreshing and invigorating than any bath with the finest toilet soap and the best of bath towels, and why should the hired man think it a hardship? George Lee, Connor, June 20.

THE HIGHEST RECOMMENDATION

for the shares of the LUCKY BOYS GOLD MINES, LIMITED, is the fact that large blocks are being rapidly subscribed for at Cobalt, Halleybury, New Liskeard and Larder Lake. We are receiving letters from mining engineers and miners every day reserving large blocks of LUCKY BOYS shares.

LUCKY BOYS

At One Dollar per share or more. We strongly urge the immediate purchase of these shares. We are placing our own funds in it and we are willing to stake our reputation on the merits of LUCKY BOYS.

6 CENTS PER SHARE (Par Value, \$1.00. Fully Paid and Non-assessable.)

It should be noted that all of the Directors of the Company are well-known and successful business men—not men that are simply interested in a mine—but men that are miners in every sense of the word, and who know how to operate, maintain and conduct a mine in a business-like manner.

The mineral production during the current year has been remarkable as compared with former records, and it will be still greater in 1907. Remember, when you see the enormous advances in the prices of Larder Lake mining securities that are coming immediately and that will continue for months and months, if not for years, that we told you to select one or more good stocks, and that a small investment in them will yield inside of a very short time enormous profits that would be impossible in any other industry.

We are not trying to sell stocks of LUCKY BOYS to uneducated or half-witted people. We are trying to interest legitimate business men in a proposition that we believe will turn out to be one of the greatest of its kind the world has ever known, and again we say, if you are not in a position to hold this stock until such time as the LUCKY BOYS GOLD MINES, LIMITED, properties are developed, we do not want you to buy it.

When we offered the first block of Blue Bell shares, we predicted that the Larder Lake district would be the greatest gold district in the world, and our predictions are being endorsed daily by miners arriving from the golden north with the beautiful specimens of pure free gold.

A year ago very few white men had trodden the trail through the Larder Lake district. Today the greatest stampede the world has ever known is taking place. Capitalists, mining engineers and prospectors are now "hitting the trail" and hurrying through as fast as they can.

WICKSON AVE. EXTENSION IS A WARM LOCAL ISSUE

Large Deputation Wants Work Carried Out, But Stubborn Opposition is Shown.

The proposal that Wickson-avenue should be extended was responsible for the appearance before the civic works committee yesterday of a large deputation, ladies being in the majority, to urge that the work should proceed.

As opposed, on behalf of clients owning valuable property that, it was asserted, would be adversely affected, there were present: Solicitors W. J. McWhinney, Ballantyne and others. Mr. McWhinney, who represented S. W. Black, declared that the making of Wickson-avenue a thru thoroughfare would open up connection with a much less desirable class of buildings on Oaklands-avenue and would rob the neighborhood of its exclusiveness and privacy.

W. B. Charlton, housing a candidate erecting a good class of residences in the neighborhood, declared that the district to the west would be spoiled as a residential locality. R. J. Gibson spoke strongly for the petitioners for extension, declaring that it would be unwise to give the favor of the great body of residents in extension was necessary to provide access to Cottingham-street school and Cottingham-square.

Harbord Street Extension. The determined opposition to the conditions under which it is proposed to extend Harbord-street thru to Ossington-avenue decided the board to appoint a sub-committee to go exhaustively into the subject.

Wont' Widen Duncan Street. It would cost too much to widen Duncan-street, as Controller Hubbard views it, and a straight continuation of McCaul-street, there was no urgent need for widening.

Victim of a Neglected Cold. You hear it every day about someone who has had a cold that has turned into consumption. Care the little cold to-day. Use Catarrhine and it's gone to-morrow. TORONTO JUNCTION.

TORONTO JUNCTION, June 28.—A fire broke out in the C.P.R. oil house, near the depot, at 11 a.m. today. The fire damaged to the extent of about \$30. A telephone call was sent in, and the firemen quickly responded. The cause of the fire is unknown. The regular council meeting will be held next Tuesday evening in accordance with Monday being a holiday. So much building has been going on lately around the junction that the local loan companies have had to shut down for the present on account of scarcity of money.

A hawker yardmaster at the C.P.R. shops, was summoned this morning for having cars obstructing the highway at Argyle-road and Albany-road. Police Magistrate Elliott reprimanded him for sentence, with the understanding that the C.P.R. will not block the highway in future.

Willie Cuddakee, 10 years old, of Osler-avenue, was arrested this morning charged with vagrancy. The boy was found this morning sleeping under Weston-road bridge. Sentence was suspended and he was allowed to go home with his mother.

The Black-Melrose assault case has been adjourned till next week. The Robinson of Lakeview-avenue is having a detached brick house built on Lakeview-avenue, valued at \$200.

The kindergarten rooms of Carleton and Annettoe-street schools were closed this morning. A number of trustees and parents of the children were present. One hundred and sixty school pupils finished their entrance examinations to-day.

A breakdown occurred at the pumping station this morning which necessitated shutting down the big engine and starting up the smaller one.

NEWMARKET. NEWMARKET, June 28.—A despatch received from Ottawa states that the contract for section 2 of the protected canal will be awarded to Holland Landing has been awarded to John Riley of St. Catharines. Excavation will begin shortly. The Women's Institute will meet at the home of Miss Bales, Yonge-street, on July 4.

The ladies of the Methodist Church held a strawberry festival on the model school grounds to-night, which was well attended, and netted some \$50.

The Carlton-street Methodist Church choir came up on a special car last night bringing an organ with them, and while here rendered a number of vocal selections. Considerable disappointment is expressed by the fact that the Hamilton Seniors, who had arranged for an exhibition match with the Talagoos here on Monday, are unable to come.

Benjamin Goddard, offered for sale, brought a bid of \$175 only, and was withdrawn.

The special freight switch connecting the Metropolitan and C.N.R. is being put in by a gang of men. The new barn on George Dean's farm, taking the place of the one destroyed by lightning some time ago, is making good in October last.

A large number—about 80—are writing on the entrance examination being conducted by R. Shaw, B.A., principal.

UNIONVILLE. Ladies Score Great Success—Auto Grows in Favor. UNIONVILLE, June 28.—The annual lawn social of the Ladies' Aid of the Unionville Methodist Church, on the grounds of Thomas Hagerman to-night, was a great success. The weather was ideal, the attendance good, and receipts satisfactory.

Edward Smith, who has been ill for some time, is slightly improved. The council are putting in a pipe drain in front of the residence of Mrs. Braithwaite, on Main-street.

Charles Silver's new residence, north of the postoffice, is going ahead rapidly. J. F. Davison, the town's worthy councillor, has purchased a modern, elegantly appointed automobile.

Crops in this vicinity have seldom, if ever, looked better. Another new canoe has been added to the small fleet of pleasure craft on Stephenson's pond.

HUMBER BAY. Work is Now Under Way—Lake Shore Road to Be Remodeled. HUMBER BAY, June 28.—Charles Nurse, former proprietor of Nure's Hotel, has purchased the lot just west of the old stand, 200 feet frontage, on the Lake Shore-road, running back to the lake. He is started to-day that he intends to build an up-to-date hotel on the property.

The work of improving the Lake Shore-road was started this morning by a gang of men in charge of Isaac Scott. There is \$7500 to be spent in improving this road from the Humber to New Toronto. The Etobicoke Township Council has voted \$5000 for this purpose, and Deputy Reeve Warner has collected \$2500 by private subscription.

of our high school, and Mr. Thompson of Aurora public school. Messrs. Joshua Horner and Walter Eyer are spending a week among the lakes of Muskoka.

A splendid time was enjoyed by all who took in the Presbyterian Sunday school picnic to Lake Wilcox. W. Savage and family are making preparations to leave the Palmer House. They will shortly enter the house now occupied by Miss Brown. The ice cream social held by the Senior and Junior Leagues on Monday gave great pleasure to a large number.

HUMBER BAY. Closed as Hotel—Open as Restaurant.

HUMBER BAY, June 28.—Quite a few years have passed since Nure's Hotel at Humber Bay presented such a dismal appearance as it does at present. It was always a favorite resting place for Torontonians who wished to enjoy an evening in the suburbs, but on Saturday last the property was sold to the premises and Mrs. P. V. Meyer took possession.

On Saturday night the license commission for 1908 were unanimous in refusing a transfer of the license. The commissioners claim that Mr. Nurse did not make application to this effect, and to-day the premises look as if local option had struck the neighborhood. It is the intention of the present proprietor to run a first-class restaurant and pleasure ground, even in the event of no license being granted.

MIMICO. Etobicoke Township Plans a Good Work. MIMICO, June 28.—At the last meeting of the Etobicoke Township Council \$5000 were voted to put the Lakeshore-road in proper repair, on condition that \$2500 would be raised by private subscription. The Deputy Reeve Warner states that this amount has already been raised, and the work will commence as soon as County Engineer McDonald can give the necessary levels.

The part of the Lakeshore-road that will be repaired lies between North and New Toronto, a distance of almost five miles. The road will be graded and macadamized, and the necessary drains put in at various intervals. An 18-inch drain will be laid across the road opposite Mrs. Hughes', and thru the ravine.

The contract was let by the Township of Etobicoke, but was not done satisfactorily, and Deputy Reeve Warner ordered the inspector to reconstruct the drain.

MARKHAM. Opening of First Library for the Blind in Ontario. MARKHAM, July 28.—The opening of the free library for the blind at Markham on Monday marks a forward step in this direction. The library, the first of its kind to be established in Ontario, will for the present at least be located in the residence of Dr. Robinson, whose wife, E. F. B. Robinson, M.A., a blind graduate of Trinity College is the librarian. Mr. Johnson is president and E. W. Hermon is treasurer.

There are 126 volumes, and already there are twenty-six members. The books are divided into two classes, one circulation and the other for reference. Last year the legislature gave a grant of \$300 toward its establishment. The Sewell site, on Main-street, has been approved for the postmaster-general as a proper one on which to locate the new postoffice. It is expected that the plans will be ready by Aug. 1.

The fact that the Township of Markham has reverted to the old system of statute labor seems to be working out well, many of the main roads being in better condition than for a long time past. That leading from the village at the south end of the town to concession 7 has been improved to a most splendid shape. Others are being similarly treated.

Washington Post. President Roosevelt on horseback seems a quite different personality than when afoot. While decidedly a daredevil rider, not even his most ardent admirer can call the president astride his horse. When walking or standing his muscular system is taut and strained, but when riding his mentality, when riding horseback, however, all the muscles in his well-knit body seem to loosen almost to the point of flabbiness.

There is scarcely perceptible a bend of his knees, and his legs dangle and jostle with the movement of his steed. While a cowboy on the plains he acquires the habit of ramming his feet completely thru the stirrups, with the heel of his shoe touching the edge of the stirrup. The result is that he sits full and flat in the saddle, his body slightly inclined forward, and usually he holds the reins in both hands, leading down the girth. A companion the president keeps up a rattling fire of conversation, and manages to do nearly all the talking. It is only when his horse is going at a lively gait that the presidential muscular system is rigid and the presidential knees are bent. Then he hugs the horse's body tight with his legs, holds the reins in one hand, and keeps the other arm free. He seldom carries a whip, but carries a pistol, which holds the reins in one hand, and keeps the other arm free. He seldom carries a whip, but carries a pistol, which holds the reins in one hand, and keeps the other arm free.

The SusPICIOUS Man's Fate. "To be unafraid, to be prejudiced, to be suspicious," said Governor Sheldon of Nebraska to the Indianapolis Star. "The suspicious man falls into error and makes a fool of himself." "There was a very suspicious countryman who went to New York to see the sights. Coming to the Metropolitan Museum, he was amazed to find that the admission to this splendid building cost nothing. He accepted the offer and entered. "Your umbrella, sir," said a uniformed official, extending his hand. "The countryman looked back his umbrella, laughed scornfully, and turned on his heel. "I knowed there was some cheat about it when yet got it free," he said.

Local Option and Pianos

How to get a piano is a problem in some homes. One way to get an instrument is to stop all leaks. One of the worst leaks is the bar. What some people spend in the bars would soon buy a piano. Judging from appearances one would infer that some men have greater enjoyment in pouring poisonous liquor into their stomachs than in seeing accomplished musicians. Give the piano a chance by getting a plan. Local option will help bring the piano. Vote local option.
