## RUSSIA DEMANDS AN APULON BRITISH REINFORCEMENTS MOVE

Gen. Wogack Will Not Accept Walderssee's Arbitration and Adds Insult to Injury—Gen. Barrow's Refusal to Bow to Russian Insolence Supported by Home Government.

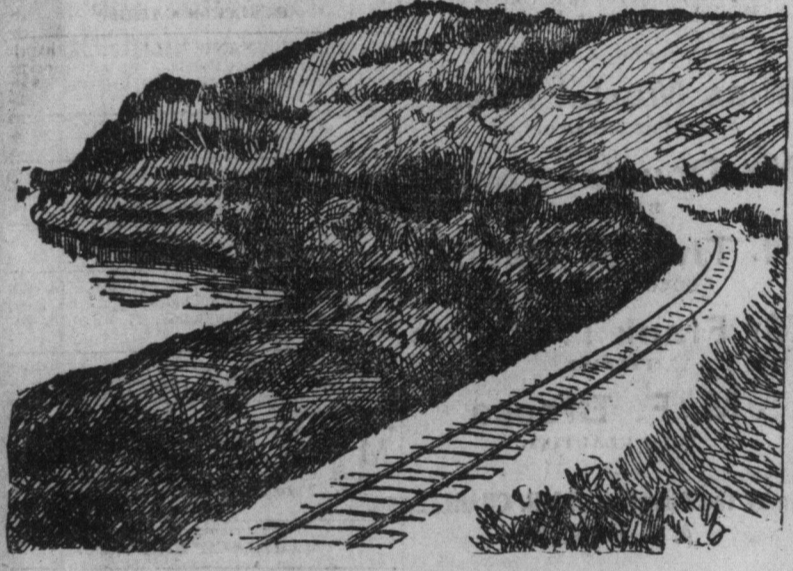

LONDON, March 21.—"Gen. Wogack has refused to accept Count Von Walderssee's arbitration at Tien Tsin," says the Pekin correspondent of The Daily Mail, wiring yesterday, "and demands that the British not only withdraw, but apologize for removing the Russian flag."

"Gen. Barrow refuses to do either, and in so refusing has the support of the British Government. British reinforcements are being sent."

"Russia's proceedings in Corea," says the Kobe correspondent of The Daily Mail, "are now openly aggressive, and it is believed she is about to make further demands in connection with Ma San Pho."

### BRITISH UNDER ARMS.

Tien Tsin, March 20.—In addition to the Australians, outposts from the lines of communication are coming in to be ready in case of necessity. The British are under arms to prevent the settlement being rushed, but they do not anticipate such extremes.

### THE RAILWAY IN DISPUTE.

#### CLAIMS BRITISH TRESPASS.

Gen. Wogack Makes an Interesting Statement—British Must Leave.

New York, March 20.—The Herald's representative at Tien Tsin sends the following statement from General Wogack on the Russian position: "The question over which we unhappy are at odds is not whether the disputed ground belongs to us or the Chinese Government or to the railway company, but whether the English will make good their trespass."

"At the time the British attempted to take possession of the ground was protected by Russian flags and a clearly defined boundary of stone. These flags were returned and thrown away by a working party of Russian pioneers and coolies, who went on with their work until driven off by our guards. I discuss the question of ownership, the British, who are still to some extent on our ground, must withdraw. Once the British have withdrawn, I assure the Russian Imperial Government will ignore all previous agreements, and will defend and listen in a most friendly spirit to whatever the British Government may have to say regarding the definite possession of the disputed territory. No sane person can for an instant doubt that the English requested permission to build a switch of side track on our ground. It would have been immediately granted."

"Unfortunately, however, they sought their ends by forcible means. The British troops must be withdrawn from Russian territory. There can be no other settlement."

## MILNER BOERS' WORST ENEMY, SAYS ERASMUS, A BOER OF BOERS

Thinks British Army Can Be Defied for Years, for an Enormous Stock of Ammunition is Still Available—Kruger Alone Can End the War.

New York, March 20.—The Herald's London correspondent writes: General Louis Botha won't make peace. What is going to happen now?

"That that is being asked in the House of Commons. That is what is being asked by the man in the street."

"It just so happened that I met yesterday the very one man in the whole of London who may be the best qualified person in the United Kingdom to reply to the question of Commons. That is what is being asked by the man in the street."

"It just so happened that I met yesterday the very one man in the whole of London who may be the best qualified person in the United Kingdom to reply to the question of Commons. That is what is being asked by the man in the street."

## BOJANSKI MADE TROUBLE.

Donkubors Appeal to the World Not Known to Hon. Mr. Sifton.

Ottawa, March 20.—(Special.)—Replying to a question in the House today, Mr. Sifton said "a petition was received from the Immigration Commissioners at Winnipeg under cover of a letter, dated July 10, 1909, proposing to be signed by 29 of the Donkubors, making certain objections to the land, drainage and regulation laws."

"The department sent a copy of the petition to Mr. Maude in order that he might communicate with the signers of the petition and remove this misapprehension in regard to Canadian laws."

"The department is not aware that Donkubors had issued an appeal to all the nations of the world, asking if they would give a refuge to Canadian exiles. The department is informed that a Russian (not a Donkubor) named Bojanski undertook to make trouble with Donkubors. He set up the original petition referred to and has now caused to be printed a document to which reference is made in a Winnipeg paper, known as the Voice."

"The department has no reason to believe that the utterances of Mr. Bojanski represent the views of the 1300 Donkubors who are settled in the Northwest or any substantial portion of them."

Up-to-date men dressers are customers of Hoberlin Bros. & Co., 182 Yonge street. There is something that is distinctive about the cut of all their clothes. Their customers know what is fashionable and know how to cut garments accordingly.

Marvella of Beauty. The lilac trees in full bloom, the bright yellow azaleas, the tulips, daffodils and other seasonable varieties of cut flowers are now at their best at Dunlop's, 5 King street west and 445 Yonge street.

The Hubbard lecture is to-night. Get seats at Tyrrell's Bookshop.

## MR. CHARLTON THINKS A BOMB AMONG THE CABINET MEMBERS

### With the Exception of Hon. Dr. Borden the Leaders of the Liberal Party Left the House When the Member For North Norfolk Arose.

### Came Out Strongly on the World's Platform of Tariff for Tariff and Favored an Import Duty on Lumber to the Extent of the American Duty—The Most Self-Respecting Policy.

Ottawa, March 20.—(Special.)—John Charlton, who took the floor from Sir Wilfrid Laurier's professed policy and virtually from the Liberal party this afternoon. He applied the name of his recent Boston speech with strong emphasis to the Canadian lumber industry, and reiterated Mr. Laurier's principle of tariff for tariff as the best and most self-respecting method of dealing with the United States. The Government knew what was coming and every Cabinet Minister, with the exception of Hon. Dr. Borden, left the House before Mr. Charlton rose. When Mr. Edwards was put up to reply to him Sir Wilfrid Laurier and Mr. Peterson came back with the latter to receive a warm but unadvised lunge from the member for Russell, who he denounced the biggest lumber free traders who are protectionists of their own interests. The debate was the most interesting of its kind that has been heard during the present session.

**Duties on Lumber.**  
Mr. Bennett moved that the opinion of this House be expressed on the question of the duties on lumber imported into Canada, corresponding with those now existing upon lumber entering the United States. After Mr. Fielding's announcement that no change would be made in the tariff, Mr. Bennett said he supposed his remarks would be ineffective, but it was a duty he owed to his constituents to press the matter upon the attention of the House. Canada took the last year 1909, 274 million feet of lumber, valued at \$190,000,000 worth of crooked timber, besides a considerable quantity of heavy duty levied upon Canadian lumber by the United States and the abundance of wood in Canada, this importation should be taxed.

**Devis a Free Trader.**  
Mr. T. D. Davis, opposing the resolution as a free trader. Cheap lumber, he said, was one of the attractions to immigrants offered by Manitoba and the Northwest.

**Theory vs. Practice.**  
The theory of free trade is all right. Its application, in many instances, works most injuriously to the interests of Canada. It is a matter of common knowledge that the lumber industry in which he was interested, was a certain loss to the country. Mr. Edwards declared: "Protection is the curse of the lumberman; protection is the curse of the farmer; protection is the curse of the miner and the fisherman. It is the curse of the manufacturer, it is the curse of the natural resources and wealth of Canada." (Loud laughter.)

"Oh, Mr. Speaker, I know what hon."

## LOOTING A FRENCH BARQUE

Newfoundland Coast Folk Rife the \$50,000 Cargo of the Wrecked Aquitaine.

WRECKERS ASSAULTED THE CREW.

Little Hope of Saving Any of the Valuable Wines—French Inhabitants Wrathful.

St. John's, Nfld., March 20.—Fifty thousand dollars worth of first-class French wines and liquors, together with a large cargo of miscellaneous goods, are being looted from the wrecked French barque, the Aquitaine, which was wrecked on the shore near the Burgo Islands, on Friday last, bound from Bayonne to St. Pierre, Miquelon.

The Aquitaine was one of the first large French fishing vessels sent out for the season on the Grand Banks. She overran her distance and plumped into the coast at Cape La Hune. Her crew left her in terror the moment she struck, and the coast folk took charge of the ship and began receiving from her everything worth taking. When the crew returned and interfered the wreckers assaulted them. The crew took the lifeboats and rowed along the coast to a place where the nearest mariner's aid station is situated. The French inhabitants in St. John's, however, a schooner, boarded by coast guards, police and civil authorities, is hurrying towards the scene.

"There is little hope of saving the cargo, however. The wreckers have things practically in their own hands, and will probably have stripped the ship and secreted the entire cargo along the coast before the mariner's aid station can reach the barque."

On board the Aquitaine were 300 cases of wine, 100 cases of cognac, and 100 cases of gin, besides a general cargo, which made her the richest prize found on this coast for many years. The customs department has sent a tug with officials to the scene.

The crew insist that the vessel could be refloated, and, therefore, the tug will attempt to effect this. The French inhabitants in St. Pierre are very much wrought up over the affair, especially over the alleged ill-treatment of the crew, and they will demand that the matter be fully investigated. The colonial government will prosecute a revenue cruiser to search the coast and restore all of the cargo that has been taken.

**Tonight at the Church of Christ, Cecil St.**  
St. B. Hayden will give God's Message to human lives.

**Cook's Turkish Baths, 204 King W.**

**Mr. C. J. Way's Water Colors.**  
Our representative had a very pleasant visit to the exhibition now being held at Mr. Townsend's Gallery, of Mr. C. J. Way's water colors. The artist's work is of the picturesque landscapes of Italy and Switzerland, the great variety of subjects, and the delicate treatment and the beautiful color all show the great artist, and one feels ready to buy a picture. We understand that the exhibition will be closed today, when the pictures will be disposed of by auction.

**Cook's Turkish and steam baths, 204 King W.**  
Cook's Turkish and steam baths, 204 King W., corner Cook and Dundas streets.

**Turkish Baths at Pemberton, 750**

## CAMPBELL'S BILL PUT THROUGH

Liberal Majority of the Railway Committee Stood by Their Colleagues With Votes.

BUT THE FIGHT IS NOT YET OVER.

Mr. Clarke Will Move an Amendment to Secure Government Control—Governing Queries.

Ottawa, March 20.—(Special.)—The Liberal majority of the Railway Committee to-day put through the bill practically as it was drawn, the only change being in the name of the bill, which was changed from the Railway Bill to the Railway Act. Mr. Clarke moved an amendment to secure government control of the railways. The bill was passed by a majority of 100 to 40.

## NORTH BRUCE IS IN DOUBT

With the Probabilities in Favor of Mr. Halliday, the Conservative Candidate.

Mr. McKinnon, Who Was Thrown Out Because of Corruption, Again Has a Majority.

Warton, March 20.—The Dominion election in North Bruce to-day proved to be a very close contest, and the result is still in doubt. The returns received up to 11 o'clock to-night give Halliday, the Conservative candidate, a majority of one against three places to beat from. These places were Conservative last fall, and are expected to give Halliday about 20 majority. The other two places were held by Mr. McKinnon, a Conservative, and Mr. McKinnon.

## STEEL SHIPBUILDING IN CANADA ABOUT TO BECOME A REALITY

Provisional Directors Met in Montreal Yesterday to Prepare to Float Their Company, With a Capital of \$3,000,000—Canada Will Be Given Preference.

Montreal, March 20.—(Special.)—The first meeting of the Provisional Directors of the Steel Shipbuilding Co. of the Lower Province took place here to-day. Among those present from St. John were: J. H. Thomson of the well-known shipbuilding firm, George MacAvilly and Harvey Harding. The capital of the company will be \$3,000,000, and it promises to be a success. During an interview Mr. Thomson said: "During the last five years we have put about nine steamers of the Battle Line, and the next twelve months will see five more built. Each of these steamers represents a capital of \$200,000, or very nearly \$3,000,000 in all, and 85 per cent of this has been Canadian money."

Mr. Thomson says that the Clyde firm were comparatively slow with their work, generally, a year being given to the launching of the ship. He calculated that if a company were installed in Canada five steamers could be put on, and the first steamer would be delivered in six months. There is no doubt, he added, about the methods adopted in the American yards being the most modern, clean, those of the Clyde. In the Old Country, for instance, the riveting is done by hand, while at Clyde and elsewhere on this side of the Atlantic the same work is done automatically. "It," added Mr. Thomson, "is a plant erected in Canada, we would, of course, give our own country the preference in all our work, the volume of which is rapidly increasing."

In answer to another question, Mr. Thomson said that only one of the Battle Line steamers has been lost, and their profits had been from 15 to 20 per cent.

## C.P.R. AND CROW'S NESTERS WILL PROBABLY BURY THE HATCHET

Hon. Senator Cox Given as Authority for the Statement That an Agreement Based on Mutual Concessions Has Been Reached Between the Companies.

Montreal, March 20.—(Special.)—It is stated upon the authority of Hon. G. A. Cox that there is a strong probability of the Canadian Pacific Railway abandoning its hostile position to the Crow's Nesters and the new railway.

"It would be hardly fair," said Mr. Cox, "to go so far as to say that the agreement has been actually completed, but the negotiations which have been in progress for some time warrant the belief that the company will, in view of certain conditions, which our company is prepared to give, withdraw all opposition to the bill to authorize the construction of the new line, when it comes before the House."

## TRAITORS SHOT AT DEAR

Three Train Wreckers Who Were Sentenced by Court Martial Have Paid the Penalty.

KRITZINGER'S INVADERS BEATEN

Johannesburg Mines Partially Put in Operation, and More to Follow.

Cape Town, March 20.—J. P. Minster, S. Minster and J. A. Newwood were shot at De Ar yesterday evening for treason and murder, in pursuance of the sentence of a court-martial. The death sentence was passed a week ago in connection with the wrecking of a train near Transvaal, by which five men were killed. Gen. Kitchener confirmed the verdict. The garrison was paraded and the prisoners were led out at sunset. Death was inevitable. A Dutch minister and relatives remained with the prisoners till the end. Two others concerned in the train wrecking were sentenced to terms of five years' penal servitude.

## FREEMASONS AND IRISHMEN

Were Specially Favored by the King Yesterday in His Majesty's Reception of Delegations.

Addressed to the Members of the Craft and to the Trinity College Men of Dublin.

London, March 20.—At St. James' Palace this afternoon, King Edward, wearing a rich maroon uniform, received between 40 and 50 delegations from various parts of the Kingdom, bearing addresses of condolence and congratulations. His Majesty made an acknowledgment to the general body, but made separate replies to the representatives of the delegations from Trinity College, Dublin. The Duke of Connaught presented the Freemasons' address. The King expressed his great regret at relinquishing the Grand Mastership. King Edward is becoming more and more exacting concerning the formalities on such occasions. A few hours before the reception of a recent delegation, His Majesty asked the Lord Chamberlain what dress they would wear. "Frock coats, Your Majesty," replied the Lord Chamberlain. "For the last time, then," said King Edward. "In the future, uniform or court dress must be worn. This is not a republic."

He promised as Protector to continue watching over their interests and to rejoice over their prosperity and growth. He also announced his great satisfaction that "one near me in blood and united in sympathy with the freemasonry" had been chosen as his successor in the Grand Mastership, referring to the Duke of Connaught.

**Words to the Trinity Men.**  
To the Trinity College (Dublin) delegation, King Edward said: "I echo the words used by my late Majesty on his last visit to Ireland, and have full faith that in the time of strenuous activity which is before us the sons of your ancient institution will, each in his place, play his part in the maintenance and government of the Empire. In the development of which your countrymen have figured so conspicuously, and for the benefit of which the long roll of names of Irishmen who have rendered distinguished services in the various branches of human activity."

**Rain or Shine—He Must Have It.**  
The weather doesn't seem to care for any discerning man knows that the sun is going to show up at the most unexpected moment and show up the "trusty" spots on his winter hat or make his fur cap too hot for him. Patrons of the sun will appreciate this fact and have their new hats and coats in the English style, made in London, in exclusive colors, fashionably large, in exclusive colors, fashionably large, in exclusive colors. The most popular for the last year. Soft hats, stiff hats, stiff hats, and the quality was guaranteed.

## ANOTHER BRANCH OF WINTER.

Metropolitan Office, Toronto, March 20.—(8 p.m.)—The centre of the storm, which was approaching us from the west, has, during today, remained stationary over Lake Michigan. Rain has fallen throughout Ontario and light snow in portions of Quebec. The weather has become much milder in Manitoba and the Northwest Territories.

Minimum and maximum temperatures: Victoria, 28-54; Kamloops, 49-82; Calgary, 26-52; Edmonton, 22-46; Prince Albert, 4 below-28; Winnipeg, 8 below-24; Fort Arthur, 4-14; Toronto, 24-40; Ottawa, 12-30; Quebec, 10-24; Halifax, 18-32.

**Probabilities.**  
Lake and Georgian Bay—Westward to northwesterly winds; unsettled and moderating, colder, with occasional light snow. Ottawa and Upper St. Lawrence—Unsettled, with occasional sleet or rain. Lower St. Lawrence—Strong wind, unsettled, with snow or rain. Gulf—Strong winds, unsettled, with snow or sleet. Maritime—Easterly wind, increasing to gale; sleet or rain. Lake Superior—Northerly and northwesterly winds; clearing; with sleet or rain. Manitoba—Fine and milder.

Oak Hill Clubhouse are showing overcasts that will increase trade without an argument.

BIG FIELDS AT TANFORD \$3.25 Will Buy a \$5.50 Pair of Boots.

President Williams Has Thirty Days' Option and Oakland is Closed for the Present.

TOPMAST AT 13 TO 10 IN FRONT.

Seven Races Declared at New Orleans and All the Favorites Failed.

San Francisco, March 20.—(Special.)—The weather to-day was fine, and the track fast. Oakland is idle these days, Tanford being conducted under the direction of Prince Poulatowski.

While Mr. Williams has a thirty-day option, the deal may be closed within the next few days.

There are a number of rumors about the people behind the deal, and it is not clear whether the deal will be closed within the next few days.

Meanwhile, Prince Poulatowski is awaiting developments, while he exchanges caustic comments with Mayor Phelan on the subject of the contract.

Top Mast at 13 to 10 in front. The weather to-day was fine, and the track fast. Oakland is idle these days, Tanford being conducted under the direction of Prince Poulatowski.

Seven Favorites Lost.

New Orleans, March 20.—Weather that track heavy, all the favorites were beaten.

First race, 6 furlongs, selling—Momentum, 108 (Walt), 4 to 1 and 6 to 1; Cursey, 85 (Wilkinson), even and 1 to 1; Time 1:58 1/2.

The Toronto Daily Star Will Have a More Complete List

T. EATON CO. LIMITED

190 YONGE ST., TORONTO.

A pretty wedding was solemnized yesterday at the residence of the bride's sister, Mrs. W. J. McWhinney, 314 Bedford-road, the contracting parties being Miss Beatrice Thompson, daughter of Mr. William Thompson, and Mr. Franklin B. Poisson of the Polson Iron Works. The nuptial knot was tied by Rev. W. G. Wallace of Bloor-street Presbyterian Church, assisted by Rev. A. H. Baldwin of All Saints Church, and was witnessed by a large number of friends of the contracting parties. The bride was attired in a handsome gown of white duchesse satin, en train, with draperies of Honiton lace, and wore a veil and orange blossoms. After the wedding the couple were tendered a reception, at the conclusion of

which they left on a honeymoon trip to Florida. On their return, Mr. and Mrs. Poisson will reside at "The Homestead," on Pemroke-street.

You need not cough all night and disturb your friends; there is no occasion for you running the risk of contracting inflammation of the lungs or consumption, while you can get Bick's Anti-Consumptive Syrup. This medicine cures coughs, colds, inflammation of the lungs and all throat and chest troubles. It promotes a free and easy expectoration, which immediately relieves the throat and lungs from viscid phlegm.

The Umbrella Season. The weather man says we may expect the rainy season, and a special bulletin will be issued to the people. "Send your broom umbrellas to Eaton's for repairs. Have stout new silk covers put on at once." Very often a few smart repairs will make an umbrella worth \$3 again. One which you might think irreparably ruined may be made as strong as new for a small price. Eaton's makes umbrellas. They sell them direct from the factory to the buyer. Eaton's umbrellas are worth half as much more as store umbrellas at the same price.

Government Wins. The Michigan lumbermen have definitely abandoned their suit to test the power of the Ontario Government to pass legislation requiring timber to be sawed within the province. The Court of Appeal decided in favour of the Government, and the lumbermen intended carrying the case to the Privy Council.

Illiterate Voters Disfranchised. Annapolis, 30th March 20.—The new election bill, having for its object the practical disfranchisement of most of the 50-000 illiterate voters of the state, has passed the Senate and the House.

Little Faith. Many women have little faith in advertisements. Consider PEARLINE. Could it have been advertised so extensively for twenty years if our claims for it were not true? We say it's better, easier, quicker than soap. Saves work and clothes. Try PEARLINE on the faith of the millions who use it. You owe it to yourself to try it.

A TERRIBLE COUGH.

If people would only treat coughs and colds in time with Dr. Wood's Norway Pine Syrup, there would be fewer lung decays.

The severest coughs and colds, bronchitis and croup, and the first stages of consumption yield readily to this powerful, lung-healing remedy.

Read what Mrs. Thos. Carter, Northport, Ont., says: "I caught a severe cold, which settled on my throat and lungs, and could scarcely speak above a whisper. I also had a terrible cough which my friends thought would send me to my grave. I tried different remedies but all failed to do any good until I took Dr. Wood's Norway Pine Syrup, and the contents of one bottle completely cured me."

THE TORONTO WORLD

ONE CENT MORNING PAPER. No. 58 YONGE STREET, Toronto.

Daily World, 25 per year. Sunday World, in advance, 52 per year. TELEPHONES: Business Offices, Editorial Rooms—523 Hamilton Office 19 West King-street. Telephone 1217. H. W. Wilson, P. M. Large Agent, 145 Fleet-street, London, N. W. York City at the news stand, St. Denis Hotel, cor. Broadway and 11th-street.

CONTAGIOUS GENEROSITY.

Mr. Carnegie's generosity is commendable, not only in itself, but because it has aroused the benevolent instincts of many other people. His offer to build sixty-five public libraries in New York City had an immediate effect in bringing forward at least eleven citizens who announce their willingness to give land to the city, on which corners of the libraries can be built. According to The Brooklyn Eagle, there need be no surprise if the city found it unnecessary to buy a single site. "There are sixty-five generous minds in this city," says The Eagle, "ready to assist in popular education in this way, and there is bound to be a rivalry for the privilege of co-operating with Mr. Carnegie in the work of carrying books to those who need them to the people." It is not to participate directly in Mr. Carnegie's generosity, there is no reason why its wealthy citizens should not profit by the noble example he has set. There are scores of people in Toronto who would give away from one hundred thousand to half a million dollars without missing it. There is nothing this city sees to lack so much as the spirit of philanthropy among its wealthy residents. Millions are coming to the city very rapidly in Toronto at the present time. The lack of generosity on the part of our people cannot be excused on the ground that they have no money to give away. The trouble lies in our want of education along this particular line. It is to be hoped the example set by Mr. Carnegie will exert an influence among the wealthy people of this city. There is, probably, ten dollars given to charitable and philanthropic institutions by the people of Montreal to every one dollar given for the same purpose by the people of this city. The wave of philanthropy set in motion by Mr. Carnegie has reached Hamilton, where a hospital for the treatment of outdoor workers has been organized by Mr. John Billings. We trust the few who may spread to this city and that they may find a healthy culture ground for its development.

PROSPECTS OF DEVELOPMENT.

The smelting prospects that would be opened up by the proposed railway connection between the Crow's Nest Pass coal fields and the Great Northern system seem very troublesome to the opponents of that railway project. It is urged as an excuse for obstructing the smelting enterprises in the Crow's Nest Pass that the policy of isolation, and that the proposed railway connection would not improve Canadian smelting prospects. If this were true, it smelting could succeed under a policy of railway monopoly and no other. If smelting prospects would be improved by the proposed railway link, it would not justify Parliament in refusing a charter. But as this is the only argument advanced in opposition, it may be worth while to have a look at the facts. It is admitted that dry ore bearing silver require, as a blend, the lead or wet ores such as are found in abundance through the country adjacent to the Crow's Nest Pass coal fields. The fact that many Canadian dry ore so far developed are not of the high grade necessary to make a profitable blend with the Canadian lead ores. A smelting expert must consider financial as well as physical results. The pig lead which he turns out is low in value. The gold, it costs quite as much for transportation to the refinery, and also for refining, as if it were rich in precious metals. The richer the blends the lower is his proportionate cost for the smelting and process of refining or separating the precious metals from the lead. The limit of richness in his blends is fixed by the ore available, and by the necessity of making a mixture that will melt without wasting fuel. Another difficulty in regard to blending Canadian wet and dry ores is that the latter frequently contain copper, which makes an undesirable mixture with silver-bearing ores. The fact that many Canadian dry ore are low-grade and contain copper is not said in disparagement of them. It merely shows that they are not the ore required for a profitable blend with the lead ores of the Kootenay country. They will be required by smelting experts, and will find markets where their special ingredients happen to be in demand. Canadian ores now find a market not only at various points in the United States, but as far south as Peru. Markets must be varied as the chemical composition of the ores from different mines. Ore from one mine may find a market close at hand, whereas from another mine it may have to be transported to another continent. This shows the absolute need of freedom in transportation and commerce for the adequate development of mining and smelting. The dry ores required to make a profitable blend with the wet ores from the North Star and St. Eugene mines are scattered abundantly thru the adjacent States close to the Canadian boundary. This is a fortunate accident so far as the Crow's Nest Pass coal district is concerned. The coke and lime are there in abundance.

CARRYING THE WAR INTO AFRICA.

It is sometimes difficult for United States manufacturers to secure agents for handling their goods in Germany and Great Britain. An enterprising German-American proposes to get over the difficulty by reaching European consumers directly. His project is nothing more nor less than a regular mail service, under American management, in fifteen different cities in Germany and Austria, the cities in which there are to be stores; including Berlin, Hamburg, Frankfurt, Cologne, Munich, and Vienna. The first of the stores to be opened will be in Berlin the last of next week. Not only will the stores be American in management and stock, but even the American agents, who will be in charge of the stores, will be followed, and no business will be done on Sunday. This is in marked contrast to the German custom of keeping open till 9 o'clock, and doing business seven days in the week.

TAX REFORM.

The State of Colorado some time ago appointed a commission to investigate the tax laws of New Zealand and New South Wales. Senator Bucklin of Denver proposed a bill to amend the tax laws of Colorado in accordance with the findings of the commission. The bill is now before the Legislature and the majority of the vote of the people. An amendment to this effect was passed by the Senate by a vote of 20 to 6, and by the House by a vote of 50 to 11. With this substantial majority, it is pretty certain to receive the support of the popular vote, which will give local option to any of the municipalities in that State to abolish taxation on improvements.

Luncheon to Britishers.

Paris, March 20.—The Minister of Foreign Affairs, M. Delcasse, gave a luncheon today, in honor of Earl Carrington and the other members of the British mission appointed by King Edward, to announce officially to the French Government and to other Governments the death of Queen Victoria, and His Majesty's accession to the Throne.

The Law Bankrupted Him.

London, March 20.—In the Bankruptcy Court at Burton-on-Trent today Lord Waverley appeared for examination and declared his assets. The cause was due to the compulsory sale of his property in Ireland, under the late Mr. Gladstone's Land Act of 1881. He said he had thereby lost £23,000. His liabilities of the debtor amount to £26,000. His assets were £200.

Well-Known Vocalist Succeeded.

St. Louis, Mo., March 20.—H. Charles Humphries, a tenor singer, leader of the choir at the Second Baptist Church, and a well known society man, committed suicide in his studio today. Mr. Humphries, who was 32 years old, was well known in musical circles through the country as an oratorio singer.

Free Cooking Lessons.

A series of free cooking lessons will be given under the auspices of the School of Practical Home Economics, at the Ontario Agricultural College, during the week ending March 24th. Ladies cordially invited. Bring flour, soap and napkins.

Geophysical Railway Bill.

Ottawa, March 20.—There was a very hot debate in the House today on the Geophysical Railway Bill. On behalf of the corporation of Geophysical an amendment was offered enabling it to nominate additional representatives to the Board of Directors. The amendment was carried, and the bill was reported.

A GOOD STORY

A certain young lady in delicate health was advised by her doctor to take a half-teaspoonful of Scott's emulsion of cod-liver oil after dinner—once a day—and found herself almost suddenly growing robust.

So small a dose is by no means the rule; the rule is whatever the stomach will bear—not more. Another rule is: take it on every least occasion, but not too much; don't overdo it.

We'll send you a little to try, if you like. SCOTT & BOWNE, Chemists, Toronto.

Will the Company Agree?

Changes Made to Metropolitan Bill Which Makes It Agreeable to City Legal Officers.

CITY'S RIGHTS SAFEGUARDED

And a Special Meeting of Board of Works Will Be Held To-Day to Ratify Amendments.

The Special Committee dealing with the Metropolitan Railway bill had two meetings yesterday afternoon, and, at the latter meeting, a definite understanding was arrived at. The bill will be supported, or, at least, that is the committee's recommendation, providing that the following amendments be made to the bill as it now stands:

1. The amendments to the bill are so framed as to give the City of Toronto a right of veto over the proposed railway. The amendments are so framed as to give the City of Toronto a right of veto over the proposed railway. The amendments are so framed as to give the City of Toronto a right of veto over the proposed railway.

Company's Standing.

Corporate: Ontario Fullerton: Is it true you cannot get reasonable terms from the Toronto Street Railway?

They Get the Grant.

At yesterday's meeting of the Board of Control, Mr. J. P. Good made the case on behalf of the Canadian Loan Association, and his request for a grant of \$200,000 to assist the organization in defraying the expenses of the delegates from Toronto to the annual convention, was readily acceded to. The Legislation and Reception Committee had previously recommended that the application be granted. Last year the association had a grant of \$10,000 for the same purpose. The number of delegates to the annual convention of over 10,000, will have a better prospect of the convention.

Contracts Awarded.

The board awarded the following contracts yesterday: Asphalt pavements Huron street, Cecil College, at \$4000, and Leopold street, from Junction to Bowling, at \$2925, awarded to W. G. McKeandrick; Farley-ave. from Huron to Toronto, at \$425, awarded to Barber Asphalt Company.

City Health Notes.

Dr. Sheard has raised the smallpox quarantine hospital in the St. Michael's Hospital are doing well. The hospital estimates have been forwarded to the Board of Control. They amount to \$85,000, the same as last year. The City Clerk has received a letter from Elizabeth Ward, a daughter of Jane Ward, who was a witness in the Bon Bridge murder case many years ago.

Complaints of Cars.

Residents of the upper part of Broadview-avenue and vicinity are complaining of the poor service that has been given by the Street Railway Company during the winter. Yesterday morning, for instance, no car got above Withrow-avenue until 8.30 o'clock. A large number of working people who live north of this point were obliged to wait half a mile to get a car. This is not an isolated case. It is claimed that the service on this route is inefficient whenever the weather is bad. Another complaint is made about the style of cars on this line. The company appears to have put all its old rolling stock on the Broadview-avenue route, and there is a great deal of kicking from those who use the cars.

Stickers and Gendarmes.

Marseilles, March 20.—A conflict here today, owing to a strike's endeavor to break thru the cordons of the troops protecting the men working on the docks, resulted in three gendarmes and a soldier being injured with stones. A revolver was fired on the side of the strikers, of whom 15 were arrested.

Concert in McCaul-street Church.

The annual concert by, and for the benefit of, the choir of McCaul-street Methodist Church, is announced to take place this evening in the church. Some of Toronto's best soloists will take part. The choir will contribute a number of choruses from classical works.

Clear, Healthy Skin.

A Clear, Healthy Skin.—Eruptions of the skin and the blotches which blanch beauty are the result of impure blood, caused by unhealthy action of the liver and kidneys. In correcting this unhealthy action and restoring the organs to their normal condition, Farnham's Vegetable Pills will at the same time cleanse the blood, and the blotches and eruptions will disappear without leaving any trace.

**New Trimmings.** Gloves and Ribbons.

Mail Orders for Goods or Samples Given Prompt Attention.

**MILNER BOERS' WORST ENEMY**

Continued From Page 1.

British army. But I can assure those present that I am not a man who is easily won over. I have seen the British army in action, and I know that it is a fighting force. I have seen the British army in action, and I know that it is a fighting force. I have seen the British army in action, and I know that it is a fighting force.

What I mean to say is that the British army is a fighting force. I have seen the British army in action, and I know that it is a fighting force. I have seen the British army in action, and I know that it is a fighting force. I have seen the British army in action, and I know that it is a fighting force.

Too Late for Peace. "But, when the Boers returned to their homes and found their farms burned and their families gone, they knew not where they were ruined men. From that day on, it should be well understood, the war became one of revenge, and no longer one of patriotism. Pictures to your mind of the British army in action, and I know that it is a fighting force.

Free Site for a Public Library Has Been Offered to the Board of Education. The Metropolitan Railway service north of York Mills was blocked all day yesterday. A large gang of men were engaged for work on the line.

It Don't Always Pay to Be Skeptical. When a newspaper writer and proofreader who works nights on food himself out of dyspepsia, which most all that class suffer with, it is worth while to know the ill of food used.

At the Board of Trade. A meeting of the Railway and Transportation Committee of the Board of Trade has been called to-morrow afternoon at 4 o'clock, to consider the question of the development of New Ontario.

Archibald McQuarrie's Estate. Formerly Archibald McQuarrie of Vaughan was worth \$10,000, mortgaged for \$3,000, and worth \$15,000 in personalty. The estate is valued at the widow and children.

My Beefsteak or Chop in the Morning Than Go Without "Malt Breakfast Food."

A Southman of position and well known to thousands of Montreal citizens says: "I have been a vegetarian for some time, and I can assure you that I am not a man who is easily won over. I have seen the British army in action, and I know that it is a fighting force."

Dr. Arnold's Catarrh Cure. Cures all forms of Catarrh. No matter how long it has been in the system, you just sniff it naturally. It gives instant relief, never fails to cure. All druggists sell it.

Ye Old Firm of Heintzman & Co.

**The Harmonist**  
The Perfect Piano-Player.

As manufacturers of what is universally admitted to be the best and finest high-grade piano in Canada it would be a mistake for us to touch anything in the line of piano manufacture that would not stand out first in its line.

This is one reason why we are introducing the Harmonist to the Canadian people—the perfect Piano-Player. There are other piano-players, but only when we found that the idea had reached perfection would we have anything to do with these instruments. This perfection is found in the Harmonist—and in it only.

In point of pedal motion, automatic expression stop contrivance for setting the time, adjustable bridge, and in many other respects the Harmonist stands unique and exclusive.

We invite investigation of the Harmonist at our handsome warehouses, and solicit correspondence from outside.

YE OLD FIRM OF . . . Heintzman & Co. 115-117 King St. West, Toronto.

KAY'S—"We Cultivate the Artistic in the Home."—KAY'S WALL PAPERS.

SUCCESS OF OUR NEW DEPARTMENT.

It is only a few days since we announced publicly that we had added Artistic Wall Papers to our stocks of Artistic Carpets, Curtains and Draperies. Shoppers have been quick to appreciate this step, and encouraging orders are reaching us from the city and through the mails from outside.

First in our assortment, which in size and variety you will admire, is a range of Zuber's celebrated French Wall Papers—par excellence the artistic papers of the day, and for which we have secured the exclusive control for Ontario.

But art shows itself on every roll of Wall Paper on our shelves whether you start modestly at 15c a roll or wind up at \$4 a roll.

It would surely be a mistake to put paper on your walls without first seeing our assortment, or if out of town, writing for samples.

The beauty of the home depends on the kind of paper you put on the walls. It costs as much trouble and money to use a common paper as it does something artistic.

W. A. GURRAY & CO. Limited

Here's a Friday bargain, important enough to crowd our basement, even if there was nothing else to command attention. The Gowns are handsomely made of imported fancy Eider Flannelette, new Princess style, waist trimmed with fancy braid. Colorings are fawn, blue, cerise and new green. When we tell you the materials are such as sell at 15c to 20c the yard, it makes the bargain all the more impressive. May seem strange to you that we'd be willing to sell such splendid gowns for so little a price, but the size question urges the quick clearing price, chiefly 34 and 36 bust, a few, very few, 38 and 40, reg. \$2, some were even \$2.50, Friday, in the basement, each . . . . . 75c

Black Silks, in the Basement, 35c. A collection of black taffeta, black pure silk, Surah and Black Pure silk, all in this offering. The quality is regular. 50c and 65c kinds suitable for shirt waists, coat lining, too, if you wish. Will be surprising indeed if there's a single yard left by 9 o'clock. Black silks, you know, always sell quickly, particularly at a bargain. Out of orders that come in, mail will be provided for. Sale in the basement, per yard . . . . . 35c

Colored Dress Suitings, Regular values in this case ranged from 75c to \$1.25 the yard. A group of suitings for tailor made costumes, two toned-taffetas, fine styling twills, spiral twills, 44 to 46 inches wide, including the new green, 75c and 80c values, Friday, per yard . . . . . 35c

Colored Silks, in the Basement, 35c. A splendid gathering of plain and fancy silks, some were \$1.00, but 75c represents the average value—lovely French Broches, pure silk, pretty checks and stripes for shirt waists. Plain colored taffetas, in shades of mauve, cerise, heliotrope, fawn, brown, gold, pink, lovely French dress foulards, these latter being regular 75c and \$1.00 qualities. Takes two tables to hold the collection, about 2700 yards, all grouped at one price for Friday, sale in the basement, per yard . . . . . 35c

Fancy Checks and Plaids for Waists, 35c. These are 75c to \$1.00 values, a splendid range in the offering—checks in brown and white, blue and fawn, blue and white, pink and black, green and black, blue and black, heliotrope and black, green and black, other pretty combinations for shirt waists—a goodly assortment of silk mixtures, too, some that were priced above the dollar a yard, for Friday's selling, in the basement, your choice, per yard . . . . . 35c

VICTORIA LAWN AT 10c. A thousand yards Extra Fine Quality Lawn, good, 15c the yard value, on sale Friday, in the Print Section, per 100 pieces . . . . . 10c
