The sergeants of the 13th Regiment have been ordered to banish the bar from their mess.

Presented With Gold Locket

The departure of P. J. Smyth from Toronto is a loss which the Massey-Harris Company, as well as many young men of Toronto are regretting. Mr. Smyth is one of the most active and popular members of the Toronto Canoe Club, having acted as president of the club for the last three years, in this position the office of rear commander. This feeling was manifested last evening when the officers of the Toronto Canoe Club and about thirty-five of the personal friends of Mr. Smyth gathered at the Victoria Hotel to bid him adieu.

By E. E. King presided, and presented Mr. Smyth on behalf of those present with a heavy gold locket. Speeches were made during the evening by Mr. Massey-Harris, J. A. Mulrhead, Treasurer A. N. Brown, Messrs. T. D. Bailey, H. C. Tilley, George Howell, J. G. Ramsay, H. H. Mason, W. Beeg and Secretary R. C. Moody, while Messrs. Ramsay, King and Sylvester supplied the musical program.

Johnny Get Your Gun

Today the open season commences for the shooting of geese, swans, grouse, hares, porcupine, pheasants, W. S. Fielding introduced a bill limiting the powers of the Auditor-General. Mr. Fielding explained that the measure was merely designed to relieve the Auditor-General from "undue responsibility for the audit of the public accounts."

**Crops in Michigan Are Very Much to the Bad.**

Manning, Mich., Sept. 14.—The County of Cheboygan and the entire upper portion of the lower peninsula, is just passing thru an agricultural crisis which threatens a host of farmers with ruin. For the past two months, it has rained almost incessantly. Rain fell on 28 days during August. Thousands of acres of grain are rotting, and the loss will be startling. The land is so soft that it is impossible to work machinery or even to walk upon it. The loss of the potato crop is already a certainty. Sultry weather for the past few days has bred a plague of flies and mosquitoes, a high fever has fallen upon all vegetation and in places the soil is covered with an unsightly fungus growth.

**IN JURY BOX WITH SMALLPOX**

Altoona, Pa., Sept. 14.—Charles Nesbit, a resident of Tunnelton, contacted a pane in the Cambria County Court at Altoona, Pa., Sept. 14. The jury box with a well developed case of smallpox. Nesbit was drawn on the quarter list, and against the advice of his physician reported for service. One of the jurors suspected that the rash on Nesbit's face was out of the ordinary, and inquiry revealed the fact that the doctor attending him had forbidden him to attend court. Judge O'Connor hastily adjourned the court, and the courthouse was quarantined for ten days. Nesbit was taken to the county hospital.

TWAS DAY OF RECKONING APPEALS DECISIONS MADE

Civil and Criminal Cases Disposed of—Proceedings in Other Courts.

Appeals were allowed yesterday at Osgoode Hall in the following cases: Richmond Navigation Co. v. Dominion Elevator Co., Ottawa Electric Co. v. Consumers' Electric Light Co. of Ottawa, Lashley v. Good Bicycle Co. (damages increased by \$1000), Glasgow v. Toronto Paper Co. (new trial ordered).

The appeal of the Water Commissioners of London against a judgment secured by J. D. Saunby for interference with his water supply, was dismissed with costs, as was also the appeal of the Royal Insurance Company in the case brought against it by J. W. Skillings.

In King v. Miller, in which the defendant was charged with negligence, through which the plaintiff's husband lost his life at Polson's Iron Works, the court affirmed the decision of the trial judge. It also dismissed the appeal in Esler against Burland, in which the defendant was found liable for interest on moneys used by him.

The evidence of P. A. Hall, solicitor, was ordered to be taken in the matter of the McLarae will case from Perth before further proceedings are gone on with.

Hearing Criminal Cases. The court, after rendering the decisions, proceeded with the hearing of appeals in criminal cases.

In Rex v. Jamieson, the prisoner was convicted by the Bowmanville Police magistrate on a charge of seduction and sentenced to six months imprisonment.

The court, after rendering the decisions, proceeded with the hearing of appeals in criminal cases.

The next was a reserved case from the County Court of Kent. Michael Dillon, a bankrupt, on the 15th of August, was charged with having obtained money on the credit of John and Mary Harrow to satisfy a claim for rent, but the claim was not in their hand, thereby resisting and obstructing an officer in the discharge of his duty.

The court, after rendering the decisions, proceeded with the hearing of appeals in criminal cases.

ICICLES IN MUSKOKA.

Buffalo Tourists' Troubles Experienced With Cold and Insects.

Buffalo News: "Good time!" said Dr. Ernest Wendt, who returned from a ten-day's outing spent in the wilds of interior Canada. "I should say we did have a good time. We nearly perished from cold, almost dropped out of sight in the mire at times, got stung by untamable, carnivorous insects and endured the horrors of unsanitary and untidy hotels en route, but nevertheless I never enjoyed an outing more in my life."

The well known specialist looks as if he must have had a very good time. He has been stung by insects until he looks like one of his own patients, when he begins treatment for some unaccountable disease. His forehead is decorated with blotches and pimples.

"Black flies did that," said Dr. Wendt. "We were attacked by three varieties of insects—mosquitoes and black flies in the camp and small domestic animals in the hotels, the kind of food that you eat when you are asleep. The mosquitoes were the most annoying."

Dr. Wendt was accompanied on his trip by Mrs. M. J. Lewis, Louis B. Hart, Dr. Willis G. Gregory and Attorney Charles White. They went by Toronto to Eau Claire, which is north of the city of Montreal, in the north-east of the Lake Nipigon region and then endured a 150-mile portage to the mouth of the St. Lawrence river, where they found a primitive spot as there is on the continent, probably.

"That portage was a caution," said Dr. Wendt. "The road was so rough that we got out of the wagons and walked most of the way, and at times we would sink into the mire nearly to our waists."

"The cold up there at night is extraordinary. Our blankets were not hot, but at night icicles would form on our tents, and we had to retain our clothes and then wrap around us all the blankets and other things we had."

But with all our wraps we couldn't get warm all the time. The mosquitoes made the mistake of taking bites and the result was while the upper parts of our bodies were warm our backs would get cold, and the only way we could warm our backs was to lie on our faces and then our stomachs would get cold. The thermometer registered about 20 degrees below zero.

"We had glorious fishing, catching beautiful speckled trout. Our fowl was partridge and our meat, venison. Where did the venison come from? I can't imagine. We didn't shoot it, as they are immune by law just now. The meat was taken from a muskrat in camp at mutton. It was the best mutton I ever tasted."

POISON FOR SEIBLITZ.

Strange and Sudden Death of W. L. McGuire.

Lakefield, Sept. 14.—W. L. McGuire of Weston, who for some time back was with Edward McClary, conducting a brokerage business in Peterboro, as the representative of McMullin and Maguire of Toronto, died this morning about 4 o'clock under strange circumstances. He stated to the attending physician that he had taken a sedative powder, but death was clearly due to opium poisoning.

Doctors Boucher, McLaughlin and E. S. Nichol visited him all night, but without avail. There is nothing to suggest suicide except the fact that he was visiting his father's home at the time. His father, Mr. McGuire was in the best of spirits on Saturday. Mr. McGuire was married about two years ago to an Orangeville woman, who survives him, but there are no children. At the present time Mrs. McGuire is visiting her father's home. The remains left Peterboro tonight for Weston, where the funeral will take place. There will be no inquest.

CASTRO WANTS WAR.

Willmstead, Island of Curacoa, Sept. 14.—From every section of Venezuela troops were sent last week in the direction of Colombia frontier and Venezuela Maracaibo, where mauser rifles, artillery and ammunition in great quantities have been stored. Venezuelans say a war with Colombia is inevitable in the near future, as a consequence of the sympathy President Castro extended to the Colombian rebels during the recent rebellion, and also because of the question of navigation on the Orinoco. His great idea, they say, is a war with Colombia.

Medical Student's Grossest Shock.

Minneapolis, Sept. 15.—The mid-year students began their first work in dissecting yesterday morning, and, as usual, a new lot of organs were provided. The class had entered the room and several had begun work, when a number, Charles E. Bennett had just drawn the cover off his subject and was about to commence work, when he glanced at the face. Before his friends could reach him Bennett had fallen in a faint. His classmates soon restored him to consciousness and he then informed them that the body which he had been about to dissect was that of a young man with whom he had been camping this summer and who was mysteriously drowned.

French Nuns for Canada.

New York, Sept. 14.—The French steam-trip to Canada will be made up by 60 French nuns, who were sent here on account of the recent laws preventing their services in schools. They will be sent to various religious houses in the United States and Canada.

DISASTERS AT THE SOO.

Several Announcements of Failures Accentuate the Situation.

Sault Ste. Marie, Sept. 14.—The condition in affairs in the Canadian Soo area at the present time as a result of the position of Consolidated Lake Superior is shown by the fact that W. D. Hamilton, lessee of the International Hotel, a property of the Consolidated, has announced his resignation, but he has not yet given out a final statement.

Along with this comes the announcement of the assignment of Cooke & Co., grocers. In connection with the news of these failures comes a rumor that the Chemical works and the Pulp mill are to be shut down, and that President Shields, beaten at his attempts to reorganize the company, will resign shortly.

These rumors are considered to have not the least foundation, but with the failures they show the panicky condition of business in the city.

POPE TO NO-KING PEOPLE.

"Be Satisfied With Your Condition, Care for Your Own."

Rome, Sept. 14.—The Pope yesterday held his first reception of any importance, over two thousand persons, for the most part working people, from the quarters around St. Peter's, being admitted to his presence in the courtyard of La Piazza, inside the Vatican. The Pontiff said that the workingman who is satisfied with his condition finds in it a true pleasure, shedding his bitterness about him: "These words," continued Pope Pius, "are the first that I address to the Roman people. Be satisfied with your condition, provide for your children, and I assure you that the blessing of God, which I wish much to give to you and your families, will be given."

WILL PROTECT HIMSELF WITH OLD-TIME SWISS GUARD.

Vienna, Sept. 13.—King Peter of Serbia does not feel that he is in security at the Konak and intends to establish a Swiss guard on the model of that of the Roman Empire. He is satisfied with the Swiss Guard. He is satisfied with the Swiss Guard. He is satisfied with the Swiss Guard.

TO CELEBRATE NEW YEAR WITH RITES OF RELIGION.

How Dawn of the 5664th Year From Creation of World Will Be Marked.

In this city, as all over the world, preparations are being made for the Jews for the month of Tishri, wherein are celebrated the three most important Jewish holidays. The first of these, Rosh Ha-Shana, falls on Sept. 22, and marks the commencement of the 5664th Jewish year. The celebration of the Jewish New Year is purely a religious festival. The year begins with the month of Tishri and is fixed on immediately after the day of the mean moon, provided the moon does not occur within the last six hours of the day, which begins and ends at 6 p.m.

Year began on the first day of the month, Nissan, on the fifteenth day of the month, Nissan, in commemoration of the Jews' escape from Egypt, which is celebrated. All of this was changed, however, during the Babylonian captivity of the Jews. The Syrians, among whom they dwelt, celebrated New Year's day in the fall of the year, and they observed of Jewish holidays the customs of the people among whom they dwelt, changed the day of the celebration to the first day of the seventh month.

On this day they had, however, observed a religious festival—that of the sounding of the trumpets to announce the approach of the Day of Atonement. The trumpets are sounded to give a summons to all Jews to assemble for the day of the Atonement. It is the belief of the Jews that on this day the deeds of men are weighed and their destinies determined.

A peculiar form of sacrifice is performed by the Jews on the day preceding the day of Atonement. Having procured a fowl, properly bleated by the rabbi, he takes it by the legs and will swing it nine times over the heads of himself and his company, and at the same time declaring the names of the sins which he has committed during the year. He then presents the fowl to the altar with a gift according to his means.

A feast precedes the fast which is not broken until the next morning. During the 24 hours from sunset to sunrise the orthodox Jews permit no one to pass their faces and spend most of the time in prayer. Every orthodox Jew over 13 years of age is expected to fast this fast, while many of the more devoted Jews fast in the synagogue during the whole period, standing upon one spot and repeating over and over again the prayers for the occasion. These prayers abound with declarations of penitence. Scripture passages, declaring the names of the sins which await repentance sinners, are constantly recited, while the rabbi emphasizes the duty of the sinner to repent, falling to point out the futility of mere verbal repentance to receive pardon.

The fast is continued until the kind committed by man against his Maker more than by man against man. In the latter class of wrongs it is the duty of the injured party to be made by the injured and the pardon of the injured personally secured.

This most mournful of Jewish holidays is succeeded five days later by eight days of fasting, which are known as the fasts of the Hebrews, which corresponds to the Christian Thanksgiving Day. It is the third of the three great feasts of the Hebrews, which lasted from the 15th to the 22nd of Tishri. The time of the festival fell in the autumn when the whole of the chief fruits of the ground, the corn, the wheat and the olive were gathered. Its duration was strictly only seven days, but it was followed by a day of holy convocation, distinguished by sacrifices of its own, which was sometimes designated as the eighth day.

TO OPEN WHITBY FAIR.

Ottawa, Sept. 14.—Hon. Sydney Fisher leaves to-morrow night for Whitby, where he will open the annual fair on Wednesday, 16th instant.

Second Anniversary.

Buffalo, Sept. 15.—Today is the second anniversary of the death of President John McKinley. The city will observe the anniversary with a day of prayer and a day of fasting. The city will observe the anniversary with a day of prayer and a day of fasting.

False Teeth Caused Lockjaw.

Philadelphia, Sept. 15.—A loose set of false teeth was indirectly responsible for the death of Mrs. Ruth Heintz, 20 years ago, of 2231 Bears-street, about a week ago she complained of her jaws being sore and stiff. She thought that an upper set of false teeth was the cause of the trouble. Dr. Altman, who was called in, found that the teeth were so loose that they were causing the formation of ulcers on the gums near the teeth, and the inflammation of her jaws was due to the ulcers. Lockjaw followed, and then death.

Another Story Yet.

London, Sept. 14.—It is stated that considerable portions of the evidence and some documents have been omitted from the report of the South African war commission issued to the public. Some copies of the evidence as given, and not as edited, were submitted for use of members of the Cabinet, and it is alleged they tell a more graphic and more convincing story than that contained in the blue book.

Best Month of Season in Muskoka.

Although the New Royal Muskoka Hotel was closed for the season on Sept. 10, there is still a large number of summer hotels on the lakes, and you cannot choose a better time of the season than the month of September for a trip to these beautiful lakes. Excellent climate for hay fever sufferers. "Muskoka" is a name that is familiar to all. For illustrated folders, tickets and all information call at Grand Trunk city ticket office, northwest corner King and Yonge streets.

LAKE AND RAIL.

The boats on the upper lakes will very soon be engaged in the grain-carrying trade and while there are now hardly cargoes enough for the boats there will soon be no few boats for the cargoes. Nearly all of the Canadian carriers of the New Ontario Steamship Company, Montreal Transportation Company and Algoma Central Steamship Line have at last been engaged carrying ore, but when the elevators at Port Arthur and Port William begin to receive the wheat from the fields of the great Northwest they will turn to that line of business with the probable exception of the Algoma Central.

The latter will continue carrying ore all fall, but may make a very few trips with wheat toward the end of the season. Wheat is one of the two lines, passengers being the other, in which the Canadian boats at Sault Ste. Marie outrival the American.

The rumor is the establishing of a new steamship company with a view to ply between this city and Hamilton has developed into something like a certainty. It now appears that the new boat will be built in Scotland and equipped with turbine engines, which will make the round trip being made with in three hours. The company, it is said, has been already organized, and the capital stock fully subscribed. These matters are in connection with the venture so far as: John Moodie, president; Cyrus Birge, vice-president, and George Hope, treasurer.

There is a possibility that next season will see the vessels of the Lake and Ontario Navigation Company calling at Toronto. They are at present carrying on a brisk carrying trade between Port Arthur and Montreal.

The steamer Garden City made her last run to Niagara on Saturday. She left yesterday for Port Dalhousie, where she will arrive on Monday. Under her revised schedule, that will be in force until Nov. 1, the Macaca will leave daily for Hamilton at 4.30, returning at 9 a.m. next day.

Comparison of Grand Trunk earnings for the week ending Sept. 7 last and the corresponding period in 1902, shows a net increase of \$129,441. The figures follow: For 1902, \$787,031; for 1903, \$916,472.

There were a couple of fresh batches of English emigrants Saturday and Monday, numbering about fifty in each. There are still thousands of applications for farm help at the offices of the emigration department.
