SUBSBURY, Jan. 24.—(Special.)—Another day has passed without bringing comfort to many anxious ones who are sad spectators of the work in the rescue of the bodies of wreck victims at Spanish River. The fact that the bodies of persons not previously reported as missing proves that the official list of the dead and injured is unreliable, and undoubtedly is far short of the actual number.

Zodies recovered from the river today were:  
Woman (unidentified), about 40 years old, dark complexion, green silk waist, high button boots.  
Miss Agnes Milroy, 23 years old, Cache Bay, Ont.  
Little girl, about a year old, dressed in black, light hair, apparently a Scandinavian.  
Hendrick Hanson, aged 40, ticketed from Burger, Norway, to Christina, North Dakota.

Inquest to Open To-Day.  
Several bodies were raised late on Sunday night and brought to Subsbury early this morning, among them being:  
Miss Lona Therien, Nairn, Ont.  
Mrs. Henrietta Newman, Inverhuron, Ont.

Man said to be H. C. Williams, the son, and another said to be W. Ryan, address unknown.

Acting upon instructions from Attorney-General Foy, Crown Attorney Clary today arranged for an inquest, which coroner Howie will open tomorrow at 10 a.m. Coroner Howie had previously expressed the opinion that no inquest was necessary, and had said he would not hold one unless information was laid before him.

An inquest on the five bodies which were taken to Subsbury from the wreck was held there by Dr. Jones yesterday. It is said that Dr. Jones is a C.P.R. doctor and not qualified to hold the investigation, and therefore the crown attorney will disregard the Webwood inquest entirely and go thoroly into the matter.

Coroner Jones' jury returned a verdict simply that the five men had died from the death at about 1 o'clock on Friday, the 21st inst., by a railway accident at the Spanish River bridge, the cause being unknown to the jury.

It is understood the railway commission will hold an investigation as well. The following message was received today by Mayor O'Connor: "To the mayor of Subsbury, Ont.: Am desirous that if the government request you to convey their excellencies sincere sympathy to those injured by the accident on C. P. R. They hope all are doing well. Arthur F. Slade, private secretary."

The death list is now 39.9.

Will Dynamite the Guttes and Local Superintendent Spencer are still directing relief work, and the repairing of the track and bridge. To the World Mr. Spencer said that the company would dynamite the ice all about the scene before giving up the search for bodies.

It is believed that the concussion may aid in bringing them to the surface or that they are being washed away. The divers will be kept on the job to-morrow, and will be directed to explore the river for some distance down stream.

Piles were being driven to support the eastern end of the bridge, while one girder, which was broken, is being placed. Passengers and baggage are still being transferred, but pieces lose over an hour in making transfers.

Divers at Work.  
Evidences are increasing to support the theory that some bodies have been washed away by the current. Two C.P.R. divers took turns and explored the bottom of the river to-day, going down in three places, but succeeded in bringing up but one body. The others were brought up by pile poles.

The bottom was said to be smooth and gravelly, and the water fairly clear, making it possible to see for some distance. One diver worked the bottom from one side of the bridge to the other and saw nothing, but pieces of car wreckage. The diver who

## Is It Fault of the Rails?

It has been noted that the worst wrecks on the C.P.R. have occurred in the "north shore" country. According to a local report, the rails leading to a local report, the rails were not properly inspected before they were laid, and they have proved to be especially brittle and easily cracked and broken.

This may be only a rumor, and untrue, but it is a point which the inspectors of the Dominion Railway Commission should speedily clear up.

## UNIONISTS SCORE 2 GAINS IN FEW POLLS

Returns Were Scarce Last Night—Liberals Are Feeling More Hopeful of the General Result.

LONDON, Jan. 24.—The Unionists gained another seat in the Southport division of Lancashire to-day. Otherwise the few results announced tonight do not change the party strength. The newly-elected members of parliament now stand:

UNIONISTS ..... 229  
LIBERALS ..... 202  
LABOURERS ..... 34  
NATIONALISTS ..... 69

The results of Saturday's elections, as announced this morning, give the Liberals 15 seats, Unionists 1, and the Nationalists 1. The result of the bulk of to-day's pollings will be known tomorrow.

With the cessation of the stream of Unionist gains, the Liberal leaders are exhibiting a more hopeful spirit. Winston Spencer Churchill, at Poole, tonight, claimed that the Liberals would return to power with a majority practically as great as Salisbury ever enjoyed.

There was a notable absence to-day of the election excitement which characterized the campaign last week. The Unionists, notwithstanding their failure to make any material gain, continue to derive satisfaction from the constantly decreasing Liberal majorities, notably at Romford, where Sir J. H. Bethell's majority was reduced nearly 7000; at Tottenham, where the majority fell off 2000; and at Torquay, where the Liberal candidate retained his seat by the narrow margin of 11 votes.

Chancellor Lloyd-George's election from Carnarvon boroughs was announced, but his majority was not as great as at the last election.

Premier Asquith and Chancellor Lloyd-George, in their speeches tonight, said they were convinced that the government would have an ample majority to carry thru the Liberal program.

Realizing the difficulty of carrying out its complete program while dependent upon the support of the Nationalists, it is reported that the government will suggest that the resignation of the house of lords be undertaken by a conference of the two parties, and will further promise a modification in the budget of 1910-11 if the rejected budget is accepted as the financial scheme of the present year.

## ANOTHER GAIN

LONDON, Jan. 24.—(C.A.P.)—A late return from Barnet, Middlesex, gives H. C. M. Deeley (Lib., 16,751; P. Harris (Lib.), 13,575. In 1906 the Liberal majority was 416.

Still a Land of the Free, Says Lloyd-George.  
(Canadian Associated Press Cable.)  
LONDON, Jan. 24.—Lloyd-George, in Mid-Derbyshire, said he was proud to be on the Labor platform. He referred to the Conservative whip's statement to the effect that the Unionists governed the house of commons' policy in the country, and said it was true, but never expressed any such wish as to resignance. The majority they would get the Liberals would make it clear that England was a land of free institutions.

## ONE-FOURTH OF FRANCE IS COVERED BY FLOODS

Paris is Threatened With Complete Tie-Up—Conditions Generally Desperate.

PARIS, Jan. 24.—The situation resulting from the floods is fast becoming desperate. The premier and minister of the interior made this declaration to-night. All conditions indicated a further rise of several inches of the River Seine, and the cold rain, which still continues, is causing intense suffering among those who have been rendered homeless, with little prospect of relief.

M. Millerand, minister of public works, after a tour of inspection, said that if the rise continued, nothing could prevent a deplorable disaster, and the flooding of the most populous quarters in Paris.

The westbound passenger trains on the Pacific division of the C.P.R. are being held up by the snow, and heavy snow slides in the Selkirk. Enormous avalanches of wet snow, trees and rocks have literally boned Albert Canyon, Hlewaet and Cambie and stretches of unprotected roadbed. The track in many instances has been buried under immense slides.

## PETERBORO CUTS LICENSES

Reduction From 18 to 13 Passes City Council.

PETERBORO, Jan. 24.—(Special.)—The city council decided to-night to reduce the number of hotel licenses from 18 to 13.

It was decided to leave the shop licenses as they are, there being four.

A Serious Charge.  
Henry Morgan, a laborer, 56 years of age, living at 533 East King-street, was arrested yesterday charged with an indecent assault on two little girls, who live near that address. The girls are five and six years respectively.

Men's Fujs In the Big Sale.

The display contains some very exclusive furs for men, including a splendid assortment of fur-lined and Canadian coat coats. ## VOTE TWENTY TO THREE TO REGAIN FRANCHISE

City Will Ask for Power to Expropriate Street Railway—Controller Spence Argues Forcefully That Revenue Will Compensate for Expenditure.

Council Is Unanimous For Tube Legislation

For seeking legislation to enable the city to expropriate the street railway, or to be fixed by an arbitration board, Mayor George Spence, Controller, today urged the council to pass a resolution to that effect.

Controller Spence's motion to seek expropriation along the line of the city's bill of 1906, whereby the city would not recognize any claim for the value of the unexpired franchise, was supported only by Controller Ward.

Council was unanimous for getting Ald. Isham and Rowland were absent when the vote was taken.

Power to expropriate the street railway will be the important legislation sought by the city at the session of the Ontario Legislature, which opens today at a long session, which made a council last night, by a majority fairly overwhelming, voted in support of the event of the legislature, and the outcome of the appeal to the law-makers at Queen's Park will be watched with keen interest.

## MONTREAL ALDERMEN BLOCK EARLY CLOSING

No Quorum at Special Meeting Called to Consider Bylaw—Mayor Refuses to Call Another Meeting

MONTREAL, Jan. 24.—(Special.)—The Carter bylaw, which proposes to close saloons at 10 o'clock on week day evenings, with the exception of Saturday night, when they are to close at 7 o'clock, was blocked again by its opponents.

A special meeting of the city council had been called for 3 o'clock for the express purpose of dealing with it, but when that hour arrived a quorum of the aldermen was lacking.

Three aldermen then signed the book, blocking the holding of the meeting. After this had been done, several of the aldermen turned up. A demand was then made upon the mayor to call a special meeting on Friday, but this was refused pointblank to do.

Then the friends of the bylaw served notices on the city clerk demanding that he should call a meeting, according to the terms of the charter, for Friday.

It is expected that the opponents of the bylaw will be able to block this meeting, and as the council dies a natural death on Monday, that will leave the question in the hands of the new council.

## REITERATION OF PROVINCIAL RIGHTS

Speech From the Throne at Opening of the Legislature Will Deal With the Subject of Disallowance.

### Opening of the Legislature

The Lieutenant-governor will open the second session of the 12th parliament of the legislature of Ontario at 3 o'clock this afternoon.

Ticket-holders must present themselves not later than 2.30. Persons coming in carriages are requested to drive to the east entrance. Pedestrians may enter at the main door.

Entrance to the floor of the house and the press gallery will be thru the premier's quarters in the northwest corner of the first floor. The premier's chambers are reserved as a cloak-room for ladies. Entrance to the other galleries will be by the usual gallery entrances on the second floor.

The reception following the opening ceremonies will take place in the Speaker's apartments, in the northwest wing.

This afternoon, with due pomp and ceremony, Lieut.-Gov. Gibson will ascend the throne in the legislative chamber at the parliament buildings and welcome the legislators to the resumption of their labors.

While the hon. member will read the speech, a rumor is current that Sir James Whitney, and possibly some members of his cabinet, are not altogether ignorant of the sentiments which will fall from the government's lips.

It is understood that, after a reference to the good harvest and the prosperous condition of the province, the speech will proceed to deal in a congratulatory manner with the recent visit of Sir Lomer Gouin and other members of the Quebec administration.

It is not improbable in this connection that the question of provincial rights may get tangled up in the argument.

The reduction in the price of school-books may be made the subject of a brief reference, and the speech of Hon. Dr. Fyne's expansive smile is broadened.

The progress towards restoration of the library, with special reference to the generous assistance given by sister government and private donors, will be touched on.

The unprecedented expansion of the mineral industry and the successful operation of the Timiskaming and Northern Ontario Railway will furnish subjects for congratulatory mention, with possible reference to future extensions.

The work of the department of agriculture, including the district instructors in agriculture, the agricultural colleges and the immigration office in London, during the past year, will be commented on.

The completion of the labor of the milk commission, with a mention of the intimation that the report may be expected to be laid before the house at an early date.

Probably the most important question dealt with in the speech will be the progress of the hydro-electric commission, and the possibility, or rather the improbability, of disallowance of the government's estimate in this connection. It may be mentioned that the government has as yet had no word on the subject from Ottawa.

The alarming increase in the price of foodstuffs will be made the subject of comment.

Other points which may be dealt with are new central prison site, the progress made in the revision of the statutes, the report of the committee on the revision of the assessment law, the question of compensation to workmen for injuries and the buoyant state of the public revenue.

In connection with the revision of the statutes, quite a number of bills have been prepared by the revising judges. These, or the most of them, it is understood, the premier will introduce on the opening day, after the departure of the Lieutenant-governor.

An appropriation will be asked for in connection with the rebuilding of the portions of the parliament buildings destroyed in the fire.

The government program of legislation is not a heavy one, and it is not anticipated that the session will last longer than two months at the outside. The main estimates for the current year were passed at the last session, and it is believed that the supplementary estimates can get thru at a single sitting of the house.

A petition is being circulated in which the signers agree to use no meat or eggs, and it is being rapidly signed. Eggs have gone up to 40 and 45 cents on the market.

MONTREAL, Jan. 24.—The ice palace, which was to have been a feature of the coming winter carnival, has been badly damaged by the soft weather of the past three or four days and is a total wreck.

We Will Not Carry Them Over Before We Take Stock Our Immense Display of Fur Goods is Going to Be Reduced at Any Cost

There is only one way by which to make our inventory of stock look at all reasonable, as compared to other years, and that is by reducing it at least to half its present proportions.

We marked the furs. We are ready with some dizzy surprises. Furs make an expensive stock to carry over AND WE NEED THE MONEY.

Remember Tuesday starts the big Before-Stocktaking Sale. The prices given in the paper may appear low enough, but see the goods. Convince yourself of the high quality, buy if you want to, you'll not be pressed, but remember these furs will be worth seventy-five per cent. more next year.

RECOMMENDATIONS MADE BY THE BOARD OF HEALTH

Increases in Salary and Additional Officials—Verdict of Coroner's Jury in Miller Death.

HAMILTON, Jan. 24.—(Special).—Before the board of health this evening, William Farrar charged that the city council had taken over the collecting of garbage so that the alder would have the patronage. Dr. Roberts, the medical health officer, was recommended for an increase from \$1800 to \$2500 a year, with the right to engage in private practice, and the sanitary inspectors were recommended for increases from \$600 to \$720. Another sanitary inspector, a plumbing inspector and an expert food inspector were commended. The sum of \$700 was placed in the estimates for a laboratory, so that Dr. Roberts may test the milk and water supply. Thos. Crooks was re-elected chairman.

Coroner McNicol opened an inquest this afternoon into the death of Mrs. Samuel Sweet, 120 Rebecca-street, an inmate of the Hamilton Asylum, who Sunday evening set fire to her clothing. The enquiry was adjourned until Wednesday evening.

Robert Glasford left his horse tied to a post on James-street this evening and three minutes later he came back his steed had disappeared. Rev. J. Aspinall McCuaig, New York, gave an address this evening in the First Congregational Church on the "Responsibilities of the Home." The coroner's jury that investigated the death of James Miller, who was found dead in the cells at No. 3 police station a week ago Sunday, brought a verdict of accidental death. The evidence showed that he had fallen on the sidewalk and sustained injuries from which he died. The jury recommended an hourly inspection of prisoners in the cells.

The 13th Regiment band held a banquet in the armory this evening. Mrs. Smith, who was paying a visit to her son on Grant-avenue, died suddenly to-night.

A Lower Tax Rate. Controller Bailey announces himself in favor of a reduction in the tax rate to 20 mills. The objection will be asked to make a test of the quality of natural gas supplied the city. The Trades and Labor Council, which wants a fair wage clause inserted in the contracts for the erection of city buildings, will be given a hearing Friday evening.

Edward Hayes has withdrawn his application for a pool room license, and has applied for the position of sanitary inspector.

E. Fisher, a Central station fireman, has resigned. Thomas Beasley, ex-city clerk, who has had both legs amputated because of gangrene, is getting along nicely, altho in his 82nd year.

R. Russell, who was reported as being one of the victims of the Webb-wood wreck, was in Montreal.

Alfred F. Hardy, who came all the way from Boston to buy a new car, was killed and three probably fatally injured this afternoon when a motor car owned and driven by John Mahoney, a contractor of Kansas City, skidded and plunged over an embankment of forty feet into what is known as Cliff Drive canon.

RAISING SIXTY THOUSAND Unique Gathering of Toronto Baptists to Total Results.

A representative meeting of Toronto Baptist pastors and laymen will be held on Saturday night at Dovercourt Baptist Church to report on the progress of the laymen's movement in their respective congregations. The meeting was called by H. Bryans, the city chairman. The year's objective in money raised was \$60,000. On Saturday night the representatives of each church will chalk his collection on the blackboard, and the column be figured up. Over \$60,000 will, it is expected, be reported.

Secretary W. T. Stockhouse, Baptist laymen's secretary, said to 'The World' yesterday that the laymen's movement was going forward by leaps and bounds in the Baptist churches of the Dominion. The aggregate for all Canada previous to the laymen's movement was but \$55,000, contrasted with nearly \$100,000 last year. The ultimate objective for Canadian Baptists was \$62,000 a year. So far only a fourth of the Baptist churches have been brought into touch with the movement and less than a twelfth have been organized along the new lines. When this is accomplished the ultimate objective will be within measurable distance.

BOULEVARD SYSTEM

Park Commissioner Has Plan to Circle the City.

After studying conditions in other cities, Park Commissioner Wilson has a suggestion in a report made public yesterday to establish a system of boulevards in Toronto. The system will include six boulevards, which will completely encircle the city, and is as follows:

Humber Bay Boulevard, along the water front from Bathurst-street to the mouth of the Humber River.

Humber River Boulevard, following the course of the valley of the Humber from the bay to the northerly limit of the Lambton Golf Grounds, thence easterly to Weston-road.

Northern Boulevard, easterly from the Weston-road across the height of land to Baldwin's Creek, thence following the valley of the creek to Polar Plains-road, Ramsden Park and Yonge-street.

North Rosedale Boulevard, branching off from the Northern Boulevard at St. Clair-avenue and running easterly along this avenue to the ravine, thence grading down to the ravine drive in the Yorkville district.

Don Valley Boulevard, following the course of the Don against the stream to the foot of Woodbine-avenue, by which avenue a connection with the bay could be made.

Island Boulevard, following the southern shore of the lake from Woodbine-avenue to the foot of Bathurst-street, with ferry connections crossing the eastern and western entrances to the harbor.

EASE FOR PILES! "I Used to Suffer, but..."

This is the experience of a lady who used to suffer from this terrible ailment, but found a cure. The writer is Mrs. E. Boxall, of 97, Scott-street, St. Thomas. She says: "I consider it my duty to write of the benefits derived from Zam-Buk. For some months I was a constant sufferer from bleeding piles. I used a great many ointments, but got no relief until I tried Zam-Buk. Both were advised to use Zam-Buk. I have had no return of the trouble. Since my cure I have advised several others suffering from piles to use Zam-Buk, and in each instance have had satisfactory results."

If you suffer from this ailment apply Zam-Buk at night before retiring and you will be satisfied with the trial. A contributory cause of piles is often constipation, and a mild laxative will greatly aid the operation of Zam-Buk. For italtis, inflamed patches, and sores due to blood poisoning, etc., Zam-Buk is equally effective. It is a soothing, cooling balm, which stimulates the cells beneath the epidermis and epithelium to natural action. It relieves the tension which in the case of piles causes such acute agony, and in all respects will be found eminently satisfactory.

Zam-Buk is also a cure for eczema, ulcers, cuts, burns, bruises, rashes, chapped hands, frost bite, cold sores, bad leg, etc. All druggists and stores sell at 50c box, or post free for price from Zam-Buk Co., Toronto.

Baseball Schedules of 168 Games, Curling Tankard To-day, Hockey League Scores

Note and Comment

The curling weather is again among us, at least for a couple of days—just long enough for the Tankard primaries, or, perhaps, to let out sixteen more single rinks on Thursday.

The Dufferin Driving Club will give a pretentious ice meeting Feb. 9, 10 and 11 for purses aggregating \$100, the chief feature of the program being a distance race at three miles. Following directly after the Ottawa races, horses are likely to come to Dufferin Park. It is also possible that the circuit ice racers will shift to Cobalt from Toronto.

Study of the relation between the total length of life and the time required to reach maturity has brought about an interesting comparison between two men and horses. A horse at five years is said to be, comparatively, as old as a man at 20, and according to equine standards, after the manner of the average college student following summer standards, a ten-year-old horse resembles, so far as age and experience go, a man of 40, while a horse which has attained the ripe age of 35 is comparable with a man of 90 years.

With the announcement that the Latoria Jockey Club has given up its fight against the Ontario racing commission, professional book-making at all race courses in that state is expected to be a thing of the future. The commission is expected to take action within that state will be thru the pari-mutuel. How to come handbooks betting in Cincinnati on the Kentucky races is the next step to be taken by the racing commission.

Quarrelling among the promoters a short time ago threatened to stop the proposed fight for the world's championship together, but now Messrs. Rickard and Gleason have come together and settled it, that the contest will take place on scheduled time at Salt Lake or San Francisco. Jim metropolis, it is also expected that the incident will eventually result in the arrival of Jack Johnson in Toronto has given color to the belief that the fight will be between Jack and looking for Peter Lynch, the New England sporting man in Toronto, said to be his rival in the future. Information that something would sidetrack the bout.

The six-day go-as-you-please foot races seem to be a thing of the past, although one or two feeble attempts have been made in recent years to revive the sport. We no longer hear of men who have international reputations as day runners, and the deeds of the old-timers seem destined to remain on record. Among the names of the old-timers who were prominent in the New York over a decade ago will recall Jimmy Alberts, George Cartwright, Charles Rowley, Tommie Gault, Fitzgerald, George Littlewood, George Norem, Sullivan, the Bangor Ghost, and several others. The present-day followers of foot races want more speed and shorter distances.

In a flapping he held the other day in Pleasant, Ont., Macredie and a number of flyers were discussing the long-haul hit made in baseball. Macredie was so far back as the Brooklyn outfield, Wagner at this time lifted the ball, and the ball cleared the fence, and for a time this was conceded to be the longest drive made. A few years ago Mike Mitchell pitched the ball over two orchards besides clearing the fence at Pleasant. After meditating a few minutes Macredie spoke in the following manner: "The drive of Ote Johnson at Los Angeles last year was the longest I have ever witnessed. Out in center-field they had a paragon of a pitcher named Ote Johnson. In a game last season against Los Angeles, he pitched 50 feet of the pavilion. In a game last season against Los Angeles, he pitched 50 feet of the pavilion, and the ball bounced into the hands of the catcher. The ball was hit in the world. A number of New York folks were at the game, and after the battle he asked me to give him a price on Ote. I did, and a few days later the deal was consummated with the Yankees."

The Case of Jockey Powers. NEW YORK, Jan. 24.—From all accounts, Jockey Vincent Powers, who led all the riders in this country last season, over the Jockey Club stewards last year. Powers, it is said, was reinstated by the Jockey Club stewards last year on condition that he would not ride here again. Color was added to this story when S. C. Hildreth signed Jockey Stilling last week while Powers was in Louisville was a free-agent. Now P. T. Chinn has stepped in and signed Powers to a contract for the coming season. This makes two offers for Powers in a month, with extra pay for each month. But Chinn stipulates that the contract is void if Powers is not reinstated by the stewards in Canada before he comes a law. In that event Powers will ride for Baron Rothschild in England this year for a salary said to be \$15,000. Powers, it will be recalled, was signed down by the Saratoga stewards last August for rough riding and was not allowed to accept money therefor. He was reinstated when the local season had ended, and has been wearing silk in Florida this winter.

High Park Golf Club. The annual meeting of shareholders of the High Park Golf and Country Club was held last night at the King Edward. These directors were elected: J. A. Kammerer, W. E. Craig, G. J. Cuthbertson, G. W. Rous, F. W. Tanner, E. W. Sullivan and R. A. Donald. F. W. Tanner was appointed captain.

A special committee to provide permanent water supply for the greens was elected as follows: H. B. Wills (convenor), A. H. Greig, J. M. Ferguson, D. H. Atkinson, Dr. Fred Mallory. The officers for the year are H. T. Hunter and W. H. Plant.

The score at half-time stood 1 to 0. The White Point team scored overtime for the White Point team to score their winning shot.

Billy Lander defeated Joe Hoagland in a fifteen-round bout at Lethbridge, Saturday night for the championship of Alberta. The toboggan race in London has been made over again, the thaw having demolished tracks and the sport will be resumed again.

Twelve months ago the number of race horses in training at the three race tracks in the close vicinity of New York City was a little more than one hundred. Now there are more than four hundred at the tracks and less than one hundred at private establishments within two hours of New York.

ARCHIE ADAMSON AGAIN TO PLAY WITH TECHUMSERS

Inside Home Player Leaves Vancouver Suddenly—Griffiths May Also Come.

Vancouver News Advertiser: Without saying goodbye to any of his friends, but packing his little grip in one hand and an umbrella in the other, Archie Adamson ostentatiously pulled out on yesterday's eastern train for the effete and frozen east. No greater surprise than was in the city yesterday than Con Jones, the father of the pro lacrosse team, and the one instrumental in inducing Archie to tie his feet into the wild and woolly. But Archie's palm itched for home—for love and friends so dear, and Mr. Querre, and we hope Mr. Adamson will carry back a warm spot in his heart for Vancouver and those who are his friends.

Archie is considered one of the best players in the game and one in whom Con Jones was building high aspirations. He came out here some five months ago and was apparently satisfied with the treatment and the general surroundings. There is a possibility that he may come back again with the birds.

Querre Knew About It. Charles Querre was in no way surprised when told of the report that Archie Adamson was on the road home from Vancouver. In fact he had a picture-postcard from Archie last night, and the latter is visiting friends and Charlie looks also for the return of Griffiths before the season starts, with both in the Tecumseh line-up again.

THE NATIONAL LEAGUE

Playing Season Will Be Based on a Schedule of 168 Games.

PITTSBURG, Jan. 24.—The National League playing season will be based on a schedule of 168 games, and upon that basis the joint scheduling committee of the American and National Leagues is working, although its labors here were not completed to-night. Another session will be held to-morrow, and in the meantime no information will be given out by any of the members.

Chairman C. H. Ebbetts of Brooklyn, chairman of the National League committee, said to-night that the work of the joint committee was the rearranging of conflicting dates, and it was impossible to finish the work to-night. He said that, as chairman of the scheduling committee, he had been instructed by the six clubs to find the determining power in voting it into effect, and that the American League members of the committee; therefore, the arrangements with the American League were being made on that basis. Mr. Ebbetts said, further, that, as he was instructed, it would be a breach of trust to discuss any matter on the 168-game schedule.

The committee on rules of the National League, which is also meeting here, was in session all day, from 11 o'clock this morning until almost midnight, with the exception of a short time to-night, when they attended a complimentary dinner tendered by Barney Dreyfus.

When the rules committee finished its deliberations just before midnight, a statement of its work was given out. For the first time, two umpires are officially recognized in the national game, and their duties are defined. The umpire behind the plate is the designated field umpire. Aside from changes in phraseology, to clarify the rules, there were few alterations. The umpires recognized. They will be classified as errors.

During the year the league erected a large number of road signs for the guidance of touring motorists. In regard to the registration of street traffic, attention was called to the fact that a bylaw will be submitted requiring the carrying of lights on horse-drawn vehicles.

Foster Still on War Path. Controller Foster showed that his determination to wage war on the department of industry is not altered by giving notice of a motion to rescind the bylaw under which Joseph Thompson was appointed commissioner of industries.

The Hat of Legislation to be applied for went through without alteration. Controller Foster opposed getting power to spend half a mill of the city's taxes to purchase parks and playgrounds.

BALLOT BOX ENQUIRY  
WORK OF JUDGE WOOD

Man Who Uncovered West Hastings Rascality Passes Away at Madoc.

The late A. F. Wood, who died at Madoc on Saturday night at the age of 82, will be remembered by all who watched the investigation into the West Hastings ballot box rascality following the election of 1904. Had it not been for Mr. Wood, in the opinion of many, the attempt to steal at least two constituencies by the means of phony ballot boxes might never have been fully revealed, but it was the determination of the magistrates before whom the enquiry was conducted not to let the technicalities of the law stand in the way of the complete undoing of the culprits that resulted in the fleeing of Byron Lott and W. J. Shibley to the United States. Even now ingenious politicians are fugitives.

It will be remembered that on the eve of the elections E. Guss Porter, Conservative candidate in West Hastings, received information from Phil Lott, brother of the Liberal candidate, that a plot to defraud the voters was being hatched. Porter, who had been hatched by his brother and Shibley, Phil was to help a deputy returning officer, but he said his conscience troubled him and he decided to make a clean breast of it and prevent the intended rascality. Accordingly, Mr. Porter had a party go out to the Lott home and there in a few days the celebrated ballot box enquiry began at Belleville. Phil Lott was the chief witness and he weaved a complete chain of evidence against his brother, thanks to Mr. Wood. The lawyers for the prosecution were met at every turn by objections as to the character of the evidence, but in practically every instance the objections were overruled. Mr. Wood made it plain from the start of the enquiry that he would not allow the technicalities of the law to prevent the truth being brought out, and it was well known that some of the evidence admitted would not have stood the test of court procedure. In his unyielding attitude, this honest old judge was supported by the great body of public opinion. He admitted that he was not technically right, but it was the truth he was after, and the truth prevailed. In that case the rule of evidence was stretched as it never has been before.

Byron Lott was arrested at Central Ontario Junction on his return from hunting expedition, and on being released on bail he left the country. Shibley also fled and the last heard of him he was running a chicken farm near Boston.

Mr. Porter went past the Belleville magistrate, Mr. McCrimmon, and called in Mr. Wood, magistrate at Madoc, and in a few days the celebrated ballot box enquiry began at Belleville. Phil Lott was the chief witness and he weaved a complete chain of evidence against his brother, thanks to Mr. Wood. The lawyers for the prosecution were met at every turn by objections as to the character of the evidence, but in practically every instance the objections were overruled. Mr. Wood made it plain from the start of the enquiry that he would not allow the technicalities of the law to prevent the truth being brought out, and it was well known that some of the evidence admitted would not have stood the test of court procedure. In his unyielding attitude, this honest old judge was supported by the great body of public opinion. B. C. INSURANCE ENQUIRY

Three Commissioners to Investigate the Fire Companies.

VICTORIA, B. C., Jan. 24.—(Special.)—At a special meeting of the executive this morning the appointment was confirmed of R. S. Lennie of Nelson, D. H. Macdowell of Victoria and A. B. Erskine of Vancouver to constitute a special commission on fire insurance matters.

The commission is to enquire generally into the business of fire insurance carried on in the province, including the placing of insurance in British Columbia, with companies or associations in the United States or other jurisdictions, and to report the results of such investigation, and as to the advisability and best method of government supervision of the operations and the financial standing of all the companies or associations in the business, and as to compelling them to obtain licenses from the province, and to furnish adequate security to British Columbia policyholders.

No Cigaretts in Cobden.

KINGSTON, Jan. 24.—Cobden Village Council has availed itself of a bylaw on its books, and has wiped out a poolroom and also prohibited the sale of cigarettes within the municipality.

Boils and Pimples.

Whenever your complexion is unnatural, your skin is in an unhealthy condition, your face covered with blotches and pimples, when boils and festering abscesses then your blood is bad. You can best cleanse it with that purely vegetable compound, Burdock Blood Bitters, which safely and promptly renovates the blood and invigorates the entire system.

Mr. C. A. Mussen, Bawlf, Alta., writes: "I recommend Burdock Blood Bitters as being the best blood purifier there is. About three years ago I was greatly troubled with boils and our doctor advised me to try Burdock Blood Bitters and after taking two bottles I have not had a boil or even a pimple."

Mr. J. Morehouse, Zeeland, N. B., writes: "My face and neck were covered with pimples, and I tried all kinds of remedies, but they did me no good. I went to many doctors, but they could not cure me. I then tried Burdock Blood Bitters and I must say it is a wonderful remedy for the cure of pimples." For sale by The Milburn Co., Limited, Toronto, Ont.

NOVA SCOTIA LIBERAL WOULD FARM OUT I. C. R.

Black, of Hants, Wants to Hand it Over to a Corporation—Queries Answered.

OTTAWA, Jan. 24.—(Special.)—With the exception of a resolution by J. B. Black, a Liberal from Hants, Nova Scotia, calling upon the government to cease the attempt to manage the Intercolonial by direct government control there is little of interest in the house to-day. He moved a resolution that the Intercolonial be operated and controlled by one of the trans-continental companies, or such a corporation as would contribute to the development of the district. He considered that the "people's railway" was simply helping to carry the people out of the country.

**GENERAL DECLINE IS INDICATED.**

**World Office**  
 Monday Evening, Jan. 24.

Renewed weakness on Wall-street this morning had no immediate perceptible influence on the Toronto market. That it will have, is only a question of time, and it is only because speculative holders have not yet become convinced that the market has turned that prices have not had to submit to selling pressure. The specialties in the Canadian markets are as vulnerable as, if not more so than, those of Wall-street, and those who get out early will take the least loss. Investors need not worry as to the speculative situation, but a general decline is indicated by the immediate outlook.

**Wall Street Slumps Again**  
**But Market is Protected**

**New York Stocks Again Supported on Extreme Weak Spots—Locals Steady Because of Light Liquidation.**

**World Office,**  
 Monday Evening, Jan. 24.

Business at the Toronto stock market at the first session to-day was rather active but a considerable falling off in business occurred at the afternoon board.

The reaction on Wall-street was somewhat of an influence on this market, but not sufficient to incite any selling orders which might cause embarrassment.

There was an undertone of weakness in the market which needed no further demonstration than the fact that stock sales were reported at high prices, while supporting orders were well below some transactions.

The best demonstration of this was in Dominion Steel, which sold as high as 68 3/4 on the morning board, while the best bid both at the close of the morning and afternoon session was 67.

The market was not flooded with selling orders, and it required no effort to maintain the standard of prices which has been ruling for some time past.

Traders were of the impression that the market should feel the effect of the weakness at New York, but realizing and liquidating as yet are too small to make any definite imprint on prices.

At the close quotations for speculative securities were fairly substantial, but in many instances this was considered to be more for effect than representing the actual situation in the market.

Investment securities were not much influenced by the general weakness which appertains, but even in this department a certain amount of apprehension exists which might be considered to be emphasized by the selling of Commerce at 190, and the weakness in other stocks of this calibre.

Generally speaking at the close of the exchange the feeling was unfavorable to any immediate improvement in market prices.

Pittsburg steel manufacturers report large volume of new orders since new year.

Large increase in loans and cash the most striking feature of the bank statement.

Officials of the American Express Co. announce that the company has secured business of Union Pacific Railroad, superseding the Pacific Express Co.

Directors of Steel Corporation met Tuesday to declare dividend. Reports current that extra dividend may be declared. Current estimates of year's earnings \$100,000,000. Unfitted orders expected to show increase of more than \$1,000,000 over last quarter.

Joseph says: The buying of Steel between this and the declaration of the dividend to-morrow afternoon, will, in all probability be at times urgent.

Steel preferred is an excellent investment proposition, with speculative possibilities.

We believe further bullish operations are likely in Steel, in anticipation of dividend action to-morrow. The reaction Saturday was natural after sharp rise. Southern Pacific is easily put higher.—Financial Bulletin.

We look for another sharp dip in Steel, which is still worth buying on soft places for turns. Here will, we believe, be good profits among the standard rails, where Northern Pacific still seems to present extraordinary attractions. Great Northern also, and Union Pacific and Atchison should do much better.—Town Topics.

A series of severe breaks during the week in the stock market accentuated by the collapse of the hollow following Coal and Iron pool has brought about a feeling of conservatism with regard to the future. Such happenings often indicate coming slumps in business, and the question is whether general trade will affirm this letter on. After the long period of reaction it is natural that a swing in the other way should take place. Whether or not this recovery will amount to much is, as we have said, dependent upon the developments in actual business. At any rate, the blow to prices has been severe enough to bring about a waiting period and a somewhat narrow market. If business continues to grow and legislative developments at Washington are conservative, we would expect to see a rise again in prices in the spring.—J. S. Bache & Co.

The position of the market has been unquestionably improved by liquidation, and while at this writing it is not quite positive that the final turning point has been made, yet purchases hereafter on the weak spots are likely to yield good profits, and before very long the market should experience a substantial recovery. Some of our market leaders are still more or less disturbed at the prospects of legislation in Washington, but it would seem that a decline of 10 to 20 points amply discounts all fears having reasonable foundation. Besides there is no enthusiasm about either Mr. Taft's railroad bill or his federal corporation bill, and both are likely to die, or prove harmless.—Henry Clews.

Hopes the Critics Will Be Cast Out, But is Not Over-Sanguine as to the Outcome.

Hon. Sam Blake, the invincible pamphleteer, has once more girded himself to the fray. The title of the latest production is "Mr. Blake's acknowledgment of the report of the board of governors on the teaching of religious knowledge in University College ultra vires' and other matters."

Mr. Blake summarizes the report as follows: 1.—The calendar erroneously provides for teaching in University College which it should not give;

2.—The calendar must be altered so as to remove this ground of complaint;

3.—The books of reference of the class complained of must not be used or appear in connection with University College instruction;

4.—In its teaching University College has "encroached on the domain of theology";

5.—Teachers "must not trespass upon the field of theology";

6.—And "that the board of governors, thru the president, directed them accordingly";

7.—That where the teaching is "opposed to the orthodox position connected with the Bible," neither your committee nor the board of governors has any right to interfere with this.

Mr. Blake reads in the findings of the committee the almost complete justification of his charges. This leads him to express the pious hope that the unclean thing will be cast out, but there is an undertone of skepticism in the amplification of his theme, which would lead one to suspect that the doubly-doughty champion of the Bible is not over-sanguine as to the outcome.

In "The narrow meaning attached to the word 'theology' by the committee," Mr. Blake sees a call to "persistent watchfulness as to the teachers that may be appointed and as to the instruction given by them."

"We see only too plainly and painfully," he continues, "where the freedom as to discussions of the books and narratives of the Bible has already led University College."

Mr. Blake does not argue the merits, or rather demerits, of higher criticism. He takes that for granted. "I take it," he says, "that where the people of any community are asked to join in an educational institution based on the omission of teaching in religious or theological knowledge, this embraces as much the agreement to teach as the agreement not to be attacked or depreciated in the minds of their pupils as that which shall not be favorably presented, urged or forwarded."

And he continues: "To me it would be a source of deep humiliation if the Bible were withdrawn from the university curriculum and from the public schools, by it to my mind better that it should be left there the sport of the university higher critic and of his public school pupils following him, awake, thus creating an atmosphere in which it is dangerous for a Christian pupil to dwell."

### ONTARIO ALLIANCE WILL INTERFERE WITH GOVERNMENT

Consider Time Opportune for "Immediate Enactment of Further Stringent Legislation."

A meeting of the Ontario provincial executive committee of the Dominion Alliance, held at the Confederation Life Building yesterday, was the arrangements for the annual convention in Toronto on Feb. 15 and 16.

The executive committee decided that it was an opportune time to press now for the removal of the three-fifths clause, but also for the immediate enactment of further stringent restrictive legislation. It was decided to devote the morning session of the provincial convention, on Wednesday, Feb. 16, to a few days of conference to be followed by a round table conference on the general subject of: "How to Conduct a Local Option Campaign," dealing with preliminary, petitioning, and our public voters' lists, public meetings, literature and publicity, finances, the canvass and getting out the vote. This will be followed by an "Experiencing Meeting," which representatives from Orillia, Brantford, Collingwood, Galt, Stratford, Newmarket and other places will give a five-minute talk upon the campaign in their respective places.

Among those present at the meeting of the executive were: Joseph Gibson, Mrs. A. C. Rutherford, Mrs. Vance, Rev. A. P. Brace, Theron Gibson, Rev. Dr. R. H. Abraham, Rev. Dr. E. E. Ledwood, Hector Lamont, W. H. Orr, Henry Moyle, C. G. Scott, L. C. Peake, J. A. Austin, W. J. Armstrong, Rev. W. Kettlewell, James Vokes, M. Bredin, Rev. J. B. Potter, Rev. R. M. Hamilton, F. W.
