DEMOCRATIC PLATFORM CARRIED BY CONVENTION; PRESIDENTIAL NOMINATIONS BEGIN

PEOPLE MUST WAIT WEEK FOR NAME OF NEW PREMIER

Government Leadership Decision Depends Party on Letters From Members of Parliament—Feeling Swinging Toward Meighen.

Ottawa, July 2.—(Special).—The National Liberal and Conservative leadership will not be decided for a week or probably longer. About half the members have written their views to the prime minister, but all the letters expected on this subject will not be received before the middle of next week. In the meantime and afterwards the prime minister will consult prominent Canadians without parliament on the leadership question. The letters from members and senators to the prime minister are confidential and will remain so, so that the only indication of the trend of sentiment is to be secured from the members remaining here. It is generally conceded that Hon. Arthur Meighen will be first choice of at least seventy-five per cent. of the letter ballots forwarded to the prime minister. During the past week there has been a strong swing to the minister of the interior, especially among Ontario Unionists. Support Mr. Meighen. It is estimated he will secure the support of a majority of the Liberals on the government side, while among Conservatives he will have a great following. Conservatives from the

Alberta's Liquor Law Is Quashed by Courts

Decision Means Liquor Importation Into Province Continues as Before Recent Legislation—Ruling to Be Contested.

Calgary, Alta., July 2.—The appeal division of the supreme court in a ruling handed down at Edmonton on Wednesday has decided that the legislation passed by the provincial government with regard to the import into and export out of Alberta, of liquor, is ultra vires of the powers of the local house. The decision of the court means that importation of liquor into the province will be continued as before the recent legislation. Hundreds of orders for points in British Columbia and Saskatchewan are in the hands of local wholesalers, and the next few days will doubtless be busy ones in this line. Edmonton, July 2.—The attorney-general's department will enter an appeal in the supreme court of Canada against the decision of the Alberta appellate court in the Gold Seal liquor export case. It is the intention of the department to carry the case, if necessary, to the privy council.

BOARD PROPOSES, MILLER DISPOSES AND PUBLIC PAYS

Food Board Rates Shorts at \$34, But It Sells at \$56.

BRAN IN FLOUR DELIBERATION NEEDED

"Bulletin No. 9 of the Dominion food board set the price of bran at \$26 a ton, with 50 additional for each bag, and \$58 a ton, with 50 for each bag also. This was the regulation set by the board, and, although they have gone out of existence, this regulation still stands," said a man who deals much in foodstuffs to The World yesterday. "But the product known as shorts, or what is sometimes called 'middlings,' is selling today at \$58 a ton." Asked why the increase, the reason was given that last December an order was issued taking \$1 off feed and putting \$1 on flour for every 100 lbs. of each. At the same time, The World was instructed, an order was issued that there was to be return to the war custom of putting about half the amount 'feed' product back into the flour. That is, in every 70 pounds of whole wheat to make 100 pounds, or one barrel of flour, there are 30 pounds lost in grinding, and about 70 pounds of bran and shorts, but the half of the latter is put back into the flour at \$1. The miller then sells his flour at about \$32 per barrel, and the feed product is one-half less in quantity; therefore, one reason, at least, for the raise in the selling price of flour, is that, per ton, as set by the food board, to cost price to the consumer today of \$56.

FEARED TROUBLE IN HALIFAX SHIPYARDS

Halifax, July 2.—City police who were sent to the Halifax shipyards this afternoon as a precautionary measure, because of the possibility of some serious trouble as a result of the activities of strikers' pickets, were not molested when the workers left their employ at five o'clock. John Jones, one of the strikers who was arrested during the day, was arraigned in court this evening. Watson, no evidence was taken. Jones was remanded until Tuesday, and released on \$400 bail.

BORDEN'S MANTLE NO EASY GARMENT

Premier's Successor Will Have No Light Task, Says New York Paper.

New York, July 2.—"The coalition government in Ottawa has shown none too much strength, even as such a tried leader," says the Evening Post, in an editorial today, regarding the resignation of Sir Robert Borden. "Whoever is chosen as his successor faces a difficult task," the newspaper says, "and faces in the new Liberal party, a determined and aggressive opposition under the leadership of Mackenzie King. The coalition, moreover, has suffered in unity during the long absence of Borden in England and the United States. It has set forth no clear program; and great were its achievements in winning the war and beginning reconstruction, it has been regarded as an emergency organization."

CONSTABLES KILLED IN SINN FEIN AMBUSH

Cashel, Ireland, July 2.—A party in ambush attacked four policemen today between here and Ballinure. Sergeant Toyn was killed and Constable Brady was wounded. The attacking party escaped.

Kingston, Ja., July 2.—Kingston and St. Andrew were shaken by an earthquake at 11:30 last night. No damage has been reported.

McADOO LEADING IN FIRST BALLOTS; PALMER RUNNER-UP

Democratic Convention Settles Down to Business of Naming Candidate.

TWO BALLOTS TAKEN

San Francisco, July 2.—The first two ballots taken on presidential nominations tonight by the Democratic National Convention were without a nomination. McAdoo led on both ballots with Palmer second and Cox in third place.

All three of the leaders made gains on the second ballot, McAdoo picking up 13 and making his total two hundred and eighty-nine; Palmer receiving ten additional, making two hundred and sixty-four; while Cox gained 25, giving him a total of one hundred and fifty-nine. The Palmer forces who had opposed an adjournment following the adoption of the platform were now anxious to discontinue balloting until tomorrow, but the McAdoo people would not consent and passed the word around that they expected their candidate to go over on the fourth ballot. They were determined to remain in session.

Former Representative Fitzgerald, New York, moved an adjournment as soon as the result of the second ballot was announced and the motion was defeated.

Alabama, the first state to be called, split its strength many ways, but McAdoo got the lion's share of it, nine votes. Oregon, too, had a wide edge, taking four of the six votes, more than any other candidate in the Arkansas delegation. Ten of California's 26 went to McAdoo. When the first state from which Palmer got a plurality was Colorado, Connecticut cast her 14 solidly for National Chairman Cummings, who was aided Florida both scattered their strength widely, and then Georgia cast her 15 all for Palmer, and Idaho followed by giving 10 to McAdoo. Palmer got the best of the vote in Illinois, taking 25 of the 58. When the 29 votes of Kansas were cast solidly for McAdoo, it became apparent that the race for the best showing on the first ballot would be between McAdoo and Palmer, unless there was an upset further in the roll of states. Many of the states were distributing their strength as a

JAPAN FRIENDLY TOWARDS AMERICA

Says Prominent Japanese Banker—Rumors of Ill-Feeling Hearst Propaganda.

While it is an undisputed truth that the great war was a serious blow to Great Britain and the allies, it is true that Japan did not suffer thus, but on the contrary, very much benefited. At least, this was the assertion made to The World last night by K. Hirooka, president of the great Japanese insurance and Banking Company, Tokio, Japan. Mr. Hirooka, along with M. Matsu, director of the company, N. M. Vories, secretary of the institution, and his brother, is touring America and Canada, and is in Toronto for a few days, stopping at the King Edward Hotel.

"Japan is in a better state today, both financially and politically, than it ever has been before," was Mr. Hirooka's emphatic assertion. During the war Japan was called upon to supply foodstuffs and merchandise to the belligerent countries in quantities which were unheard of in any other of our industries prospered. "Also, and what is more important, the effect lasted. The acceleration given to our industries has not been a passing fancy, but has become a permanent feature. In this respect we have it over the United States, where the exchange has not decreased, but rather increased. Again our laboring classes have been benefited. We had a few labor troubles, but the increased prosperity of the classes has made them contented, and everything appears to be running smoothly."

Japan and U.S. "But what is Japan's attitude towards the United States?" asked The World. "I understand that there is considerable hard feeling between the two countries."

"Not at all," was the emphatic reply. "Japan is more than friendly towards America. The Hearst papers undoubtedly tried to create hard feeling, but its nefarious aims went for naught. Some of the uneducated classes in both countries feared trouble, and thought bitter thoughts, but those with vision have never anticipated any trouble between the two countries. That is as it should be, because we have so much in common."

BISHOP BRINGS MOTHER IN AIRPLANE TO TORONTO

Owen Sound, Ont., July 2.—When Lieut.-Col. Bishop, V.C., left Owen Sound for Toronto last night he took with him his mother, Mrs. Bishop. They left this city at 6:18 and arrived in Toronto at 7:18. Mrs. Bishop had enjoyed a short flight in the afternoon and decided to attempt the journey to Toronto with her son.

DEMOCRATIC PLATFORM CARRIED BY CONVENTION IS MUM ON PROHIBITION

Peace Treaty Endorsed and Sympathy for Ireland Expressed—Bryan Put Up Hot Fight for Acceptance of His Bone-Dry Plank, But Was Overwhelmingly Defeated.

San Francisco, July 2.—The Democratic platform as framed in the resolution committee declaring for the peace treaty, saying nothing at all about prohibition, came down through a furious floor fight today and was adopted without amendment in a great avalanche of applause.

W. J. Bryan led the fight for adoption of his bone dry plank, but it was buried after a dramatic day of debate by a majority so overwhelming that he did not even ask for roll calls on the four other minority reports which he had prepared.

A rider, wine and beer plank championed in an emotional speech by W. Bourke Cockran, New York, also was thrown out by the convention, along with a plank for prohibition of the Irish republic, backed by several organizations of Irish sympathizers. In the battle for the platform as framed, the administration forces were led by Secretary of State Coby and Senator Glass, Virginia, during a debate, in which both sides carried a great number of spectators to repeated bursts of emotional enthusiasm. Mr. Bryan got a warm demonstration of 23 minutes after his plank opposing the bone dry plank, but when the balloting began it became apparent that the march of the enthusiasm was a personal tribute to Bryan as a member of the party, and not an expression of sympathy with his present views.

When the platform committee reported with no prohibition plank, and minority reports on Irish and other issues, the convention developed into a debating society. William Jennings Bryan as the oratorical center of things. By a vote the debate was limited to three hours and a half.

Mr. Bryan presented five planks. One was his "bone dry" prohibition, another asked for publication of a governmental bulletin to deal with profanity. The other three were a plank opposing compulsory military training in times of peace. His league plank asked for an amendment to the constitution for ratification of the League of Nations by a majority vote of the senate.

For the vote, W. Bourke Cockran of New York offered a plank permitting the consumption of cider, light wines and beer. Edward W. Clarke, California, brought in the Irish plank. It was, in part, the measure for which an unsuccessful fight had been waged by organized Irish sympathizers in the committee, but as it read it did not contain a declaration for recognition of the Irish republic. A minority plank on soldiers' relief was presented by Tom Lyons, Oklahoma.

Opening the debate, Bryan confined his argument on prohibition largely to the bone-dry plank, which he said would open the door to a breakdown of the whole prohibition law. Quoting freely from the constitution, he attacked his audience with flashes of his old-time oratory.

"If you can't get enough alcohol to make you drunk, why do you want a license at all?" he demanded.

The Lie Given. Speaking of his league of nations plank, he said that he wanted the constitution changed so that the United States could "get out of war as easily as they could get into it."

Alabama briefly supported the dry plank. He started something when he charged that there was a conspiracy on foot against the constitution. Representative A. K. Sabath, Illinois, passed the lie, and it was some time before order could be restored. Mrs. Peter Gleason, Miss Mary Weakness, Mrs. Bryan plan, "in the name of the motherhood of America."

"These ladies and gentlemen speak as if the constitution had been abolished by the amendment," said Mr. Cockran, replying to the drys. "It has not. The result has been that where the average drinker used to be jolly, now he is paralyzed. He used to touch the bottle to spur his enterprise. And now he gets no further than the bottle which in itself becomes his enterprise."

"I ask you not to bring back rum," he continued, "but to bring back to the localities the right to govern themselves."

Mr. Cockran was given a mighty ovation by the delegates. The Irish question came on. Representative Lonergan, Connecticut, declared that to do less than recognize the right of full self-determination would be to throw overboard the teachings of President Wilson.

T. J. Duffy, East Liverpool, Ohio, said it seemed to him that it was impossible for Ireland to win her independence by the sword. The Irish had, however, given the world a noble lesson. "I have seen the world," he said, "and I have seen the Irish people. Shall we say to the Irish people, 'he went on, 'that we are not going to recognize their intelligent and peaceful methods, but are going to force them to take the sword and kill in order to win the liberty they are bound to have.'"

Charles X. O'Brien, Jersey City, N.J., also spoke for the plan, followed by Senator David J. Walsh, Massachusetts. Mr. O'Brien urged the fight for the Irish plank in the committee. "Circumstances connected with the fight of the Irish people for freedom

of the Irish people for freedom

he said, "require that there be something more than a mere expression of sympathy. No word spoken during the war so thrilled the oppressed people of the world as the statement that the United States was in the war to apply the principle of self-determination."

Principle of Self-determination. "Is there a principle of self-determination? If there is, where on the face of God's earth should that principle be applied if not in Ireland, where we find the only English-speaking people in the world that is fighting for a government of its own. It is only by peaceful means that the principle of self-determination can be applied."

The first and most important step in that direction, he said, had been taken when the Irish people, by every possible means, had informed Great Britain and the world what their desire was, and how overwhelming was the sentiment supporting Irish independence.

When the debate was in progress an attempt was made to reach an agreement for a recess for dinner as soon as the platform had been voted on. The McAdoo people were inclined not to agree. The soldier relief plank was briefly debated. Then Bryan took the platform to close his argument. He had 20 minutes.

Bryan Closes Argument. When he came to the convention of nations Mr. Bryan told the convention that no one had made more speeches than he for satisfaction of the "Ten Commandments" resolutions. It had become apparent, however, that satisfaction without reservations was impossible.

"Shame on the man," he continued, "who talks of making this a party question when the world is on fire. I should give a guarantee that the world will not drift back into war while we are debating reservations."

"Praying provisions of the treaty," he declared the path toward world peace had been cleared by the provision for disarmament, open diplomatic negotiations and investigations of international differences.

"They will never be able to arise from the pages of history," he continued, "these great principles to the world. You can't call me the enemy of 'Woodrow Wilson. Why was my name placed on the ticket to Paris, and I have done all I could to help him get it ratified. If I could secure its ratification, let him have the credit of it. I'd gladly walk up to the scaffold and die for such a cause. But it cannot be done. And I do not care to go to the judgment seat of God with any blood on my hands. I do not propose to have it said that women and children were killed while I was talking politics."

Standards Torn to Shreds. As Bryan closed his speech with an oratorical picture of the benefits that would come to the world if the treaty were given a great demonstration, a parade was soon organized on the convention floor, the Texas state being the first to get into action. A score of others followed. The din was terrific. The cry of "Woodrow Wilson" which has been heard at every Democratic convention since the death of the only distinguishable yell in the history of sound.

There was a fight over the California standard, and in the end it was torn to pieces. A woman, borne on the shoulders of other women, carried the Alabama standard, and was carried to the speaker's stand, where she waved the remnant triumphantly.

The Alabama standard was also torn to shreds, and there were fights over others. At the height of the excitement a woman dressed in a Grecian costume of white to symbolize peace, went to the top of the speaker's stand and set the demonstrators going again. It was 15 minutes before the chairman could restore order.

Defends Platform. Criticizing Mr. Bryan's treaty stand, Mr. Colby said in so many words that no one could have brought back a better treaty than Wilson did. He says no one could have brought back so good a treaty. Then if that is true for God's sake let us ratify it.

The senate, said Mr. Colby, had had its day in court with the treaty and the day had passed for the treaty. He said the senators apparently had suffered from "intellectual lockjaw."

"The question comes to a higher tribunal," he continued. "We want to throw the matter out in a new way and a new field. The Democratic party is for the league of nations without reservations that impair its integrity. Of course we are, because when the United States goes into a thing it goes in honestly. It goes in to get it done."

Mr. Colby closed with a tribute to the president, and this caused another demonstration lasting ten minutes.

Senator Glass moved the platform committee, followed. He protested take the credit for the platform to the party from the president and give it to Henry Cabot Lodge.

As for prohibition, declaring that he had voted for that long before Mr. Bryan did, Senator Glass said he saw no reason to put into the platform any declaration on either side. The committee had not wished to become involved in the issue of peace.

"The question of peace is a complex and troublesome one. The Democratic party has long been in sympathy with the Irish people. But we have obligations, and say what we may we are in the platform the best that we could do."

Mr. Glass dealt briefly with the other minority planks, and then the convention reached a roll call on the Bryan dry plank. There were eleven sub-planks in all pending.

Bryan's Plank Defeated. State after state registered a majority against the dry plank, amid cheering from the wets. Mr. Bryan was simply snowed under, 193 1/2 to 15 1/2. Eight delegates did not vote. A sub-prohibition plank proposed by Mr. Hobson, Alabama, was rejected by the convention without a roll call. The beer and wine plank of W. Bourke Cockran, New York, was defeated by a vote of 728 to 318. Without a roll call, the convention voted down Mr. Bryan's plank for the publication of an official newspaper by the government and against profiteering in peace time. The Bryan league of nations shared the same fate.

A plank for a commission to investigate the feasibility of silver bonus was also rejected without a roll call. The sub-licensing plank was next in order, and a roll call on it was ordered. This proposal, which declared it to be "the purpose of the nation to recognize the independence of the Irish Republic," was voted down.

Platform Carried. This disposed of the last of the sub-planks, and the platform again stood exactly as it was when the resolutions committee presented it to the convention early in the day.

Then Chairman Glass moved the adoption of the platform itself, and it went cheerily as framed with a roar. With a cheer, the convention, freed from all preliminaries, at last turned to the first ballot for president.

MAY BE BY-ELECTION. Ottawa, July 2.—Writs, it is expected, will shortly be issued for the election in East Elgin, Ont. The vacancy was caused by the death of David Marshall. A Farmer representative is the only candidate so far nominated.

INDICTED FOR SALE OF POISON LIQUOR

Druggist Faces Charge of Killing Over 100 With Alcohol

New York, July 2.—Indicted in connection with the sale of poisonous alcoholic liquor that caused the death of more than 100 persons in the New England states last winter, Samuel K. Slesby, a Brooklyn druggist, was arraigned in the King's county court today on a charge of manslaughter, and was ordered held in \$25,000 bail for trial next September. Another man also has been indicted and his arrest is expected within the next 24 hours.

The indictments grew out of a five-months' investigation by federal agents and local authorities in New York and New England states. The investigation disclosed, the police say, that the week before Christmas truck loads of poisonous liquor were transported from this city to Massachusetts and Connecticut saloon keepers. According to the investigators it had been found that 100 gallons of wood alcohol stolen from a Manhattan party, a few hours before it was to be shipped, had been loaded aboard ship for England.

The alcohol, the police said, was to be sold in England for \$1,500, but the "whiskey" which was taken by the New England saloon keepers brought \$21,000.

DENY RUMOR THAT PLANT OF AMES-HOLDEN CLOSSES

Montreal, July 2.—A denial of the rumor that its plant was closing down was today issued by the Ames, Holden, McClelland and Company, 170 St. W. Reider, president. Mr. Reider stated that the company had temporarily suspended manufacture of certain lines, of which it has an ample stock. Mr. Reider said that production on certain other lines much in demand could be enormously increased if labor was obtainable.

Mr. Reider stated that shoe prices cannot be expected to come down overnight because of the still high price of hides, leather and other materials.

Organize a Rural Mail Contractors' Association

Ottawa, July 2.—(By Canadian Press)—At a largely attended meeting of rural mail contractors here yesterday, the Canadian Rural Mail Contractors' Association was formed. It includes in its membership all the members of the Ontario Rural Mail Contractors' Association, and will have many contractors from Quebec, New Brunswick, Nova Scotia, Prince Edward Island, and Saskatchewan.

India Removes Restrictions On the Export of Silver

London, July 2.—The Indian government announces the removal of restrictions on the export of silver coin and bullion from India. These restrictions have been in force since September, 1917.

OLYMPIC SHOOTING MATCHES.

Antwerp, July 2.—The Olympic shooting matches began at Antwerp July 24, and run thru to July 31. There have been entries for the rifle teams, which will be from Canada, Great Britain, Belgium, Brazil, Denmark, Spain, the United States, Finland, Holland, Italy, Norway, Roumania, South Africa, Sweden, Switzerland and Czechoslovakia.

KILMER TO SELL

New York, July 2.—It was reported at Jamaica the other day that John Sharp Kilmer soon would dispose of his entire racing stable. Mr. Kilmer is the owner of the famous Sun Bird, which it was said, ran a mile in 1:34 in a private trial at Saratoga two years ago. Mr. Kilmer's exterminator captured the Kentucky Derby in 1915, and is the best horse in his stable.

A JOKE 3,000 YEARS OLD.

Planned by the ancient Egyptians over 3,000 years ago, a joke has just come to fruition, writes Prof. Hilders Petrie, the noted archaeologist. "While we were trying to find a way into a queen's pyramid," he says, "we discovered on a rock face a door which was so beautifully and exactly fitted that it was difficult to see the joints. We immediately set to work on this, thinking that it was a trap set for us. We had found at last an entrance to the inner chamber. After a considerable amount of work we removed the door and found—solid rock! It was a carefully arranged blind, to deceive anyone who wanted to find the entrance into the royal tomb, and had been made about 3,000 B.C. by someone with a sense of humor."

TOM MOORE SPEAKS AT NIAGARA FALLS

Declares Hydro Always an Opponent of Eight-Hour Principle

Niagara Falls, Ont., July 2.—A public meeting was held in the city hall tonight, and addresses were given by the local leaders and Tom Moore, president of the Canadian Labor Congress. The speeches were largely a restatement of events leading up to and since the strike. The keynote of all the speeches was the expressed opinion that an ulterior motive is behind the shutdown. Cost of construction, it was stated, has far exceeded the original estimates of pre-war prices of materials.

Tom Moore in caustic criticism castigated Beck and members of the Hydro Commission. The history of the Hydro Commission is a history of determined opposition to the principle of the eight-hour day, Mr. Moore claimed. The deliberate intention behind the commission's attitude is to force a ten-hour day on labor. Has the increase in cost been due to the fault of labor or blundering in the original estimate? he asked.

TORONTO TRADES OUTFIELDER SPENCER

New York, July 2.—The trade of Benny Kauff, New York outfielder, for Outfielder Vernon Spencer, of the Toronto Internationals, was announced here tonight by Secretary J. J. O'Brien, of the New York Giants. The exchange was transacted by telephone with the management of the International club, he said, and Spencer is expected to appear in the lineup here tomorrow.

LEMBERG CAPTURED BY THE BOLSHEVIKI

London, July 2.—The Bolsheviki have captured Lemberg, Ukraine, according to news from Poland sent by The Daily Mail's correspondent.

Lemberg, which formerly was the capital of Galicia, and belonged to Austria under the delimitation effected by the peace treaty, became a part of Ukraine. It is 35 miles east of the Ukrainian-Polish frontier. The town fell to Austria in the partition of Poland in 1772.

WM-WRIGHT KILLED BY A STEEL PLANE

Hamilton, July 2.—Wm. Wright, 42 Alkman avenue, was instantly killed at the plant of the Canadian Westinghouse Company this afternoon, his head being crushed on a steel plane machine. Wright, it appears, was operating the machine, when some trouble developed and he shut off the motor to investigate the trouble. While bending over the machine his foot inadvertently touched the lever which set it in motion, and he was instantly crushed. Death was instantaneous. Chief Coroner Dr. Rennie is conducting an investigation.

Hamilton, July 2.—The official opening of Hamilton's playgrounds took place this afternoon. Each of the four playgrounds was packed with happy kiddies on the occasion. Prior to the opening, there was a meeting of supervisors at the Y.W.C.A., with Capt. J. J. Sykes as chairman, and an address being delivered by Mr. Wood, president of the Hamilton Playground Association.

EMPLOYMENT AGENCIES FOR WORLD'S SEAMEN

Genoa, July 2.—The draft of a convention establishing a system of employment agencies for seamen with no fees of any kind attached, was approved by the International Seamen's conference at its session today.

"Each country ratifying the covenant of the league of nations," says the convention, "shall guarantee the seamen freedom of choice of ship and to shipowners freedom in the choice of crews."

SALARY SCHEDULE IS RAISED AT O.A.C.

Manning Doherty Announces Higher Pay for Agricultural College Staff.

Guelph, Ont., July 2.—(Special)—In a letter to the new president, J. B. Reynolds, who assumes his duties here on Monday next, Hon. Manning Doherty, minister of agriculture, announces the new schedule of salaries to go into effect at the O.A.C. in the July pay list. In most cases the changes date back to the first of November last. The minimum salaries are provided for as follows: Fellows, \$750; demonstrators, \$1,400; lecturers, \$2,000; associate professor, \$2,500; professor, \$3,000. No arbitrary maximum of rate of increase is adopted as elasticity on these points will no doubt make easier the recognition of merit and the proper remuneration for outstanding services. In the new schedule the professor of animal husbandry and the professor of field husbandry, who were formerly at its maximum have been placed at a salary of \$4,200, and the other salaries range from the minimum mentioned upward in accord with length and value of service. The amount of increase for those naturally varies, having regard both to the salary at present received and the length and value of service. In a number of instances the salaries being paid were obviously low for the services rendered and hence a very much larger amount is required to bring the salary up to standard.

WHO RULES AIR WILL RULE TRADE

London.—"It does not take a very vivid imagination to foresee a time, not very far distant, when aerial traffic will have a serious, if not a predominant, influence on international commerce," said Prof. H. Melville Jones in the course of a paper read before the Royal Aeronautical Society, "when the times come," he added, "the nation that is disadvantageously placed aerially will be in much the same position as the unfortunate nation that had bad seaports when sea traffic was becoming an important factor in international trade."

He did not wish to be interpreted as thinking that this time was immediately upon them, he continued, but it was bound to come sometime, and it might come sooner than one was apt to think in the present period of temporary aeronautical depression that had inevitably followed the termination of the war. They could not pick up their heads and transport themselves to a more favorable position, nor could they alter the weather, but they could see to it that they pushed along with their every means that would improve long-distance flying in bad weather and so at least reduce their natural handicap.

HAMILTON Status of Imperials.

Several ex-imperial service men are stumped in Hamilton. They were ordered by the overseas settlement board, which, however, failed to provide for them after their arrival in this country. To make the situation worse, they applied to the local soldiers' aid commission, only to find that there was provision by which that body could not assist them financially. This is certainly not as it should be. These men, who have saved lustre on British traditions by volunteering in the House of the men who have been appointed specially to look after their interests. Let us hope that this incident is but the forerunner of a similar one in the machinery of the overseas settlement board, and that there will be no further instances of the kind.

New School Inspector.

The necessity for new schools and additional teachers ever follows the growth in the school population of a municipality. Coincident with this, the need is felt of an increase in the number of school officials. Faced with this condition, the board of education, in an endeavor to bring the local educational system to a higher standard of efficiency even than now obtains, has decided to appoint another public school inspector. The man recommended for the position is Frank Perry, B.A., English master in Hamilton Normal School, and who has had wide experience both as a public school teacher and in training teachers. He also has eminent professional qualifications for the office.

GENEROUS AND JUST.

MRS. SOLOMON SAYS—

Being the Confessions of the Seven-Hundredth Wife. BY HELEN ROWLAND. (Copyright, 1920, by The McClure Newspaper Syndicate.)

My Daughter, hearken unto the revolt of a Bachelor, who perceiveth his life in a canoe, by moonlight! He doth walketh wearily amongst women. "Help, help!" cryeth the Bachelor. "Now is the hour of my confusion. Now is the reason of mine eternal vigilance!" "For lo, all the world conspireth to lead me into bondage, and to fasten a ball and chain upon my feet!" "Behold, one by one, I witness the downfall of my friends; and they seek to lure me with them, and to entice me to their wedding!" "I am arrayed in a long-tailed coat, and decked with a foolish flower, and made to lead felly damels down the white-ruffled aisle, and to sit beside chattering dowagers at the bridal feast." "Lo, I dare not chide a maiden's hand, lest there be a HOOK therein; I cannot permit her arms to encircle my neck, lest she place a YOKE thereon." "For, this is the season of folly and flirtation and silly sentiment, when even the moon and the waves, and the perfume of winds, and ALL the elements are banded together for a single man's undoing!" "Go to! Go to! Ye snare in petty penance and in trainings in tulle and tatum!" "Ye may lead me beside the Blue waters in broad sunlight, but ye cannot lure me into a canoe, by moonlight! Ye may babble unto me of ART, or of suffrage, or dirigibles; but ye shall not win me with LOVE, and tell me of your soul-yearnings." "Ye may cover me with scorn or with pearl-powder, when I dance with you, but ye shall not anon me with violet extract, and hyacinth sachet, that ye may mark me for your OWN!" "Ye may hold my hands—but ye shall not read the lines thereof; neither shall ye MANICURE them. For I am wise to all your little 'stunts,' and I know the end thereof." "Yes, by THESE things fell the Benedictines!" "Oh, ye match-making matrons, I will bring you ice, and sit beside you between dances, and hearken unto your servant problems; but think not to talk to me of your Daughters. For I shall not listen!" "Verily, verily, all my words shall be discreet, and all mine actions cautious and self-restrained." "I shall insulate my vanity against you, and put my sentiment away in a capbox, and my affections in a cold storage, until the season of the Love-Moth hath passed." "Yes, tho I may lose my heart an hundred times, I shall NOT lose my head!" "Therefore, waste not your wiles and your smiles upon me, for 'Preparedness' is my slogan, and my motto is:—'Give me one more year of liberty, or give me death!'" "Setah.

TURKS DEFEATED WITH HEAVY LOSS

Many Prisoners, Fifty-Four Cannon and Much Ammunition Are Captured.

Constantinople, July 2.—Occupation by the Greeks of Baloukessar, 50 miles north of Soma, in Asia Minor, after stubborn resistance by the Turks on a line extending eastward is reported in a Greek communique issued under date of July 1. The Turks are declared to have lost 1,500 prisoners, 54 cannon and much ammunition and to have suffered many casualties in killed and wounded. The Greek losses, the communique adds, were relatively small.

On the eastern front a Turkish detachment surrendered to Greek outposts. The capture of Baloukessar by the Greeks is taken here as indicating that they have overcome Turkish opposition in the Pergama vicinity, defeated the Turkish flanking effort and that the Greeks are advancing along the railway towards the Sea of Marmora.

TORONTO GIRL SUICIDES.

Montreal, June 2.—Identification was established today of the body of the woman who committed suicide at Labelle several days ago. She was found to be Miss Baron, of the Girls' Friendly Society Home, of Toronto. This was established by her sister, Mrs. Farrar, of Toronto, thru the contacts of the woman's purse and other belongings.

Favorable Location for Aerial Traffic Will Be Factor in Future Greatness.

London.—"It does not take a very vivid imagination to foresee a time, not very far distant, when aerial traffic will have a serious, if not a predominant, influence on international commerce," said Prof. H. Melville Jones in the course of a paper read before the Royal Aeronautical Society, "when the times come," he added, "the nation that is disadvantageously placed aerially will be in much the same position as the unfortunate nation that had bad seaports when sea traffic was becoming an important factor in international trade."

ON FIRST BALLOTS

As the roll-call went on there were few states outside of those having favorite sons that did not scatter their total among several candidates. Texas was an exception, giving her solid delegation of forty to McAdoo.

The four leaders on the first ballot were: McAdoo ..... 286 Palmer ..... 256 Cox ..... 139 Smith ..... 109

At 8:07 o'clock a second roll-call began. The start of the second ballot looked very much like the first, the first four states passing without more than a half-dozen votes being changed.

When Massachusetts had been passed Palmer had one hundred and eighteen, a gain of four over the first ballot. McAdoo 104 1/2, which was a gain of 14 1/2, and Cox 87 1/2, a gain of 7 1/2.

TO RAISE SHEEP IN MONGOLIA

It is noted in a recent despatch from Tokio that arrangements have been made for the organization of a Sino-Japanese enterprise, capitalised at 10,000,000 yen, to promote sheep raising in Mongolia. The company plans to raise sheep on a large scale and contemplates purchasing but 100,000 acres of pasture land in Mongolia for that purpose, which is about six times the pastureage conducted by the south Manchurian Railway in North Manchuria, said to be the largest of the kind in Manchuria.

### REPORT ON BEST METHODS FOR CHOOSING SHERIFFS

Whole Question of Outside Civil Service Employment to Be Considered.

#### MEMBERS NOMINATED

The appointment of a commission to consider and report upon all matters pertaining to the placing of outside civil service officers upon the most efficient and businesslike footing, was announced yesterday by Attorney-General Raney. Walter D. Gregory, barrister-at-law, Toronto, was named as chairman of the commission, and the other members are: Norman Sommerville, barrister, Doncaster, of Toronto; Albert Helyar, farmer, of Arthur township; Dr. Horace L. Brittain, director of the Citizens' Research Institute of Canada, and Arthur E. A. Pocock, editor, Labor, G.W.V.A., London.

Albert Helyar, former U.F.O. member for East Wellington, retired in favor of Attorney-General Raney when the latter entered the Labor-U.F.O. cabinet at Queen's Park. Mr. Helyar is a brother-in-law of J. J. Morrison, of the United Farmers of Ontario.

The commission's powers are outlined as follows: "To inquire, consider and report upon the best mode of selecting, appointing and remunerating sheriffs, local magistrates, deputy clerks of the crown, local registrars of the supreme court, court registrars, crown attorneys, clerks of the peace, county clerk, notaries, registrars of deeds, masters of titles, police magistrates, justices of the peace, issuers of marriage licenses, jailers and turnkeys, and any duties and officers connected with the operation of the land titles act throughout the province. This commission shall also inquire into and report on the advisability of extending the operation of the land titles act throughout the province. This commission was promulgated by the government during the last session, when a private bill was brought in to effect too late in the session to be considered.

### SIR SAM DISLIKES NAME OF NATIONAL

Thinks Unionists Should Have Reverted to Name of Liberal-Conservatives.

Ottawa, July 2.—(By Canadian Press).—The name of the newly-constituted National Liberal and Conservative party does not appeal to Sir Sam Hughes. Sir Sam wanted to return to the name of straight Liberal-Conservative party, and this morning he expressed dissatisfaction with the choice of yesterday's caucus. As to the leadership and the future of the party, he was very much in doubt. "I was not elected as a Unionist," declared Sir Sam to the Canadian Press. "I was and am a Conservative, and the name Liberal-Conservative is the one which should have been adopted. I have supported the government and will do so, only so far as it carries out along the lines of Conservative policy."

### TO SAFEGUARD YOUR DIGESTION

The Blood Should Constantly Be Kept Rich and Pure.

If you suffer from any form of indigestion, your diet should be carefully chosen. Over-eating is always harmful, but at the same time one must take enough food to supply the needs of the blood. It must be remembered that the blood has to carry nourishment to every part of the body, and find fuel for energy and defence against its enemies, as well as the requisite juices for digestion. Hence, when the blood becomes weak and fails to do its work, indigestion begins, the blood still further suffers. Therefore, to safeguard your digestion the blood should be kept rich and red, and this can best be done by taking a course of Dr. Williams' Pink Pills. These pills are a blood-building, nerve-restoring tonic and through their use your digestive system will respond naturally, your appetite will improve and your food will do you good. The value of Dr. Williams' Pink Pills in cases of stomach trouble is shown by the experience of Mrs. J. H. Alexander, Barrie, Ont., who says: "Some years ago I was in a terribly broken down condition. I had indigestion of a severe nature, and sharp pains of agony all through me. My stomach was so weak that it was difficult to retain food, and often after eating I would have vomiting spells. I was under medical treatment, but as I did not improve my nerves went in a terrible condition and I was always much misery. One day I read of Dr. Williams' Pink Pills and I decided to try them. The result can be summed up by saying that after taking the pills for some weeks I was completely cured, could eat a hearty meal and was again enjoying life. If I feel run down at any time I take Dr. Williams' Pink Pills and always get benefit from them."

### FORMA COMMITTEE TO SIDE INTO RURAL CREDITS

Hon. Manning Doherty Considers Advisability of Agricultural Banks. PROBE ALL SYSTEMS

Announcement was made yesterday by Hon. Manning Doherty, minister of agriculture, of the appointment of a committee to inquire into the subject of a system of rural credits for Ontario. Those selected by the minister to compose the committee are: Prof. W. T. Jackman, political economy department, University of Toronto; Thomas McMillan, farmer, St. Catharines; Melville H. Staples, B.A., farmer, Millbrook.

"I have long felt," said the minister, in making the announcement, "that some system of rural credits would be of much advantage to agriculture in Ontario, but I am convinced that any system should be safe and sound, and should be provided to meet the peculiar needs of the province. Conditions here differ from the conditions in the newer provinces in the west, where rural credit plans have been carried out.

The committee will be expected to inquire into the different plans adopted, both in the different provinces of Canada and across the line. They will do this both by a study of the legislation and to some extent probably a personal investigation among those farmers who have taken advantage of these schemes. They will also later on probably arrange to meet farmers in various parts of the province of Ontario, so as to get not only full knowledge of the needs, but a complete understanding of the views and desires of the farmers on this subject.

### DEMAND PRINCIPAL BE REINSTATED

Dismissal of Harper From Mount Dennis School. Rouses Ratepayers. WANT REASONS

Insist on Trustees Explaining Their Action in Matter.

After a stormy meeting of three hours last night in a crowded school, the ratepayers of S.S. No. 28, Mount Dennis and Silverthorn, passed a unanimous vote, demanding that Principal Harper be reinstated as principal of the school. The trustees were also asked to explain their reasons for the dismissal of the principal, and to act upon the decision of the committee if favorable to the reinstatement of Principal Harper. Early in June both Principal Harper and Principal Robertson of Silverthorn School, were given notice, the only grounds being interference with the details of the trustees' work. Lack of harmony was added to the dismissal of Mr. Harper, who was secretary of the meeting, and the inspector, A. Campbell, was present and stated his dissatisfaction with the dismissal, and Mr. Harper, who was secretary of the meeting, asked the inspector to make an inquiry into the matter.

The meeting was called, specially to deal with the dismissal of Mr. Harper, of the Dennis field, of 18 acres, for \$20,000, being the choice of both trustees and inspector. This is in the Rosedale district and 11 minutes' walk from the school. The proposition was turned down by a vote of 17 to 6, and the whole question thrown back upon the trustees of the school, who are jammed and perspiring, as many more out in the corridors. A. Gilbert was chairman.

### JUDGE H. A. ROBSON DROPS CONTROVERSY

House Having Prorogued, Sees No Necessity to Take Up Murdoch Charges.

Winnipeg, July 2.—(By Canadian Press).—H. A. Robson, K.C., former chairman of the board of commerce, announced to the Canadian Press this morning that, parliament having prorogued, he saw no necessity for carrying out his intention of proceeding to Ottawa to take up there the Murdoch controversy.

"Last week," said Judge Robson, "there was a despatch from Ottawa, indicating the certainty of an enquiry against ministers and members of the board of commerce, in respect of the board of commerce. Parliament was then sitting, and, it appeared, would not immediately prorogue. I intimated my intention of leaving for Ottawa. I had not been in communication with the government, and had no idea what they were doing or were going to do."

"The government, as everyone now knows, put its foot down on the whole business and officially terminated it. Therefore, the authority to whom, and to whom alone, I was responsible, having terminated the matter, I need do nothing further."

"This is entirely different from the question of the merits of the legislation. I have never, as has been falsely represented, advocated the abolition of the board. It can, in my view, perform many useful functions unquestionably within federal jurisdiction, but the fair prices part should, I think, certainly exempt original farm and live stock production. The part of the act dealing with combines is, I think, constitutionally unsound, and, in the hands of men judicial in temperament, should be of great public service."

### WAR VETERAN DIES

Guelp, Ont., July 2.—(Special).—Charles McNamara, a returned soldier, who served overseas with the 18th Battalion C.E.F., died at Speedwell Hospital this morning following a lengthy illness. His parents, Mr. and Mrs. Charles McNamara, reside at Freepont, Ont.

### ROUND THE BAY TRIP

Beginning on Monday the Toronto Ferry Company fleet will not be used in the regular run during the afternoon when the weather is fine, but will cruise around the bay. The first regular cruise will start at half-past two, and will last two hours. The boat will have a band of music and kiddies who will have the women's inclination to go across the lake. The trip is a great boat in the service, and there will be a special double-decked boat for the outing doubly enjoyable. To make the trip a first-class orchestra in attendance adds a special feature. Prices: Adults, 25 cents; children, 15 cents.

### WARM WORDS PASS BETWEEN TRUSTEES

Question of Appointment to Riverdale Collegiate Inflammes Meeting. ADVANCES APPROVED

Foreman Carpenters to Receive \$300 Extra on Yearly Salaries.

Dr. John Noble had to call for order when personalities began to fly at the board of education meeting last night. Rev. F. H. Powell made objection to the confirmation of the appointment of Miss Katherine St. John to a temporary vacancy on the Riverdale Collegiate staff. He objected to special favors to these girls, the St. John sisters, two of whom will now be on the staff.

Dr. Beer made a stinging criticism of Trustees Powell for bringing such "petty" criticisms up in the board as the recommendation of the high school principals and the management committee should settle such matters. Rev. Mr. Powell warmly resented Dr. Beer's attack as ungentlemanly, but was called to order, and the Miss St. John appointment was approved.

Trustees Bell and Trustee E. J. Brown vigorously opposed an advance of \$300 each to the foreman carpenters over union wages—\$3800 a year. The objecting trustees considered that the fact that the foreman received two weeks' vacation with pay, and pay on statutory holidays, barred them from any, excess over the usual union rate.

Trustee Douglas pointed out that the foreman received no overtime pay, and the advance was approved. Memorial to Alex Muir.

Trustee Dr. Carolina Brown moved that the tablet committee place a memorial in the administration building as a tribute to the late Alex Muir, author of "The Maple Leaf Building."

The household and manual arts committee reported that arrangements for the exhibition on the board of education to erect a portable building on the Exhibition grounds, suitable for holding a household arts exhibition during the exhibition season in conjunction with the board of education department of education having proved of same, and agreed to provide the necessary equipment and pay the teachers during such day of the Exhibition.

Recommendations Adopted. The following committee recommendations were adopted: That tenders for the completion of four rooms at North Toronto high school, in accordance with plans and specifications prepared in the architect's department, be accepted. Jobs: Masonry, Frank Armstrong, \$158; carpentry, Fred Wilson, \$158; plumbing, A. D. Grant, \$4,487. That the tender of one hundred and Hardware Limited for hardware in accordance with specifications prepared by Mr. D. R. Franklin, Architect, be accepted. Jobs: Gleason Robertson School, \$3,091; Gleason Robertson School, \$3,312.

That the tender of Frank A. Bowden for lumber for the new sewing room in Ryerson School Annex, in accordance with specifications prepared by the architect's department, for the sum of one hundred and seventy-five dollars (\$175.00), be accepted.

In accordance with the recommendation of Mr. D. R. Franklin, Architect for Gleason School, Messrs. Sheppard & Abbott, who were awarded the tender for oil burning equipment for that school, be released from their contract and that the lowest tender, viz., that of the Foss Oil Burners of Canada, Limited, which will mean approximately one thousand dollars, (\$1,000.00) more than the original tender, be accepted.

No Medical Photos. Rev. F. E. Powell and Trustee McClelland opposed granting the request of the medical officer of health to be allowed to take photographs in connection with the medical work in the schools.

Trustee Bell considered Dr. Haast's request outrageous. On Trustee McClelland's motion, the request was refused.

Rev. F. E. Powell asked that as a matter of expediency the privileges be given to separate school children to play in public school grounds during the summer vacation.

Dr. Noble stated that this could only be done in the case where the playgrounds were taken over for the summer by the civic playgrounds authorities.

## Personal Banking Service

The service policy of the Sterling Bank is based on a firm belief that expanding business needs personal banking service; and that only by helping our clients grow can we grow.

Collections are handled rapidly, systematically—with better results to the client. No note or draft is returned without a full and adequate reason—saving time and the cost of double drawing.

In the Credit Department, personal contact and close cooperation between the client and ourselves results, in the majority of cases, in a much better understanding when matters of credit are discussed.

To the man who needs such a personal banking service in his business, the story we have to tell will prove of value. We will be glad to see him at any time—in his office or ours.

## PHILADELPHIA MEN VISIT TORONTO

Fifteen years of traveling, during which time he has been nine times around the world, once to Alaska, now on his second trip to that country, is the record of Edwin C. Atkinson, of Philadelphia. Mr. Atkinson is visiting Toronto for a few days en route to Alaska, and staying at the King Edward Hotel. His party is a party of fifteen, all persons of prominence in Philadelphia's social and business life. Included in the party are Judge Howard A. Davis, of Philadelphia supreme court; Mrs. D. Grange, wife of the president of the Philadelphia stock exchange; J. William Elliott, Robert C. Whiting, Jr., and Allen E. Whiting, Jr. The party came from their homes in Niagara Falls, and thence they will go to Fort William by the Great Lakes route, thence thru the western provinces to Vancouver. From the latter city they will take the Canadian Pacific steamer to Skagway, Alaska. A trip into the interior will then take place, the line of route being thru the White Pass, where the gold rush was, as far as the Alaskan coast. They will return by way of Mount Ranier, the first stop being down thru Yellowstone and other national parks. They will return to Philadelphia about the middle of December. Mr. Atkinson is a naturally restless man and appeared not so want about his extensive traveling. "I have been at it for fifteen years, and I am getting somewhat up in years, I have not tired of it yet. That is about all I have to

## AWARD DELIGHTS MANY RAILROADERS

### Promises Eleven Cents Increase—First Good Boost Since 1912 to Some.

The award of the board of conciliation respecting the maintenance of way and other employees of the C.P.R., granting a total increase of \$300,000, to about 700 employees was received with favor among members of the Canadian Brotherhood of Railway Employees yesterday. This, if accepted by both the men and the company, will give the men about \$285 a year increase or more than five dollars a week. This would mean an increase of more than eleven cents an hour on the basis of a 48 hour week. For some of the men, especially, this award comes as a distinct boon since they have received only two cents an hour increase since 1912, this increase being granted in 1912. Among these men are yard engineers and yardmen.

Chief Justice Mathers was chairman of the board. Fred Bancroft represented the men on the board, and W. J. Christie represented the company. General Superintendent Muir and Traffic Superintendent Belrose stated the case for the company, and E. Booth, Victor Costello and F. A. Hunter of Montreal presented the case for the men.

The award covers the Dominion from Quebec to Vancouver.

## TWENTY A WEEK AS STRIKE PAY

Twenty dollars a week as strike pay. This is what is being given to the members of the International Brotherhood of Machinists on strike at the Bawden Manufacturing Company's plant on Stirling road. Yesterday, while members of the press were visiting the offices of the union, at 163 1/2 Church street, the secretary called one of the strikers over and asked him what he received this week as strike pay. He showed his cheque for \$20. This is what the strikers will receive every week until the strike is over. There are 80 men out at the Bawden plant.

## Hoisting-Engineers' Union Fight for Supremacy

Two rival unions of hoisting engineers, the Canadian Hoisting Engineers' Union and the International Union of Hoisting Engineers are fighting for supremacy in Toronto. The International has a membership of 130 bona fide members, all fully qualified hoisting engineers, and the Canadian Hoisting Engineers' Union has a membership of 130 members, likewise fully qualified and actually bona fide. These are reports handed out by the business manager of the respective unions, Comrade O'Brien of the Canadian Union of Hoisting Engineers and Frank Dennis of the International Union.

Penstangishone bakers have affiliated with the Canadian Federation of Labor. This was the information given out yesterday afternoon by Charles Clay, general secretary of the federation. Tom Watek addressed a large gathering in this town last Tuesday.

## TWENTY-THIRD APPLICATION

Application for a charter with the Canadian Federation of Labor has been received by General Secretary Charles Clay of the federation from the Twin City Bakers' Association of Fort Arthur and Fort William. Mr. Clay stated to The World that this made the 23rd application received and acted upon by the federation since the beginning of the year.

## TOM MELLILIEU WITHDRAWS

Tom Mellilieu, one of the most widely known men in the labor movement in Toronto, stated yesterday afternoon that he was withdrawing from nomination to the office of secretary of Toronto Trades Council against A. W. Mance, the secretary now officiating. This will practically re-elect A. W. Mance by acclamation.

## PILING UP THE LIST

Stationary and hoisting engineers of Calgary, Edmonton, Lethbridge, Medicine Hat and Cardiff have stated their intention of affiliating with the Canadian Federation of Labor. All told, the membership numbers 1,200.

## HAVE DARK HAIR AND LOOK YOUNG

### Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea.

Grandmother kept her hair beautifully dark, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and strand at a time by morning the gray hair disappears; after another application or two it is restored to its natural color and looks glossy, soft and beautiful.

## TORONTO MAY HAVE OMNIBUS SERVICE

Leyland buses may soon run the streets of Toronto. Controller Gibbons is in receipt of a letter from the representative of the Leyland Bus Manufacturing Co., Ltd., London, England, looking to Toronto city council for orders. This man points out that the Leyland buses in general use by the London General Omnibus Company are built to carry 23 passengers seated, and ten more standing, or a total of about 43 people. Controller Gibbons, discussing the matter, stated that routing might be possible on the less frequented thoroughfares of the city. The matter had not yet been taken up by the city council. Jarvis street, Isabella street, University avenue and many other such thoroughfares are considered in connection with bus routes.

## BUSES SUPPLEMENT STREET CAR SERVICE

### Information on the Subject Compiled by the Bureau of Municipal Research.

Facts and figures dealing with the operation of motor buses are given out in a bulletin issued yesterday by the bureau of municipal research. Following are some extracts from the bulletin:

"Would an experiment in motor buses for Toronto be justifiable?"

"It is impossible to estimate, without detailed study, how many people would patronize the motor bus, if installed as an auxiliary of the street railway in any particular section of Toronto, but the cost of operation can be estimated, and the number of passengers required in order to meet expenses at a five or ten-cent fare can be determined.

"Taking the maximum unit costs reported as a basis for computation, the cost per mile per bus in Toronto would be 45.51 cents. This cost might prove to be even greater, due to the higher cost of gasoline, and also climatic conditions. Assuming these costs to be approximately correct for Toronto, at a five-cent rate, at least 10 fares per mile would be necessary in order to make the system profitable. At a 10-cent rate, five fares per mile would be necessary.

"Would an experiment bus line in North Toronto be worth while attempt to solve its transportation problems?"

"North Toronto has, according to the assessment department figures, a population of about 12,110 persons. This is an increase of 40 per cent. over that of 1914.

"The civic transportation committee reported in 1914 that the passenger movement into North Toronto from street cars and jitneys was about 4000 persons in one day. If this be increased by 40 per cent. (the rate of growth of population), there will be at least 5600 people now requiring daily transportation to and from North Toronto.

"Eight buses in Akron carried at the rate of about 5600 persons per day for 82 days in 1919. These buses cost about \$48,000, and are operated on a 'no profit, no loss' policy at a five-cent fare. They traveled over brick-paved streets, which were in bad condition as a rule. North Yonge street is macadam, in fair condition, and there are several cross streets paved with concrete.

"It must be noted that in every city in which buses are being operated with any degree of success, they supplement rather than supplant street cars and rapid transit systems."

## Toronto Builders' Exchange Appoints Business Manager

Major L. C. Reynolds, formerly Canadian representative for Arthur Young & Company, industrial engineers, has been appointed business manager for the Toronto Builders' Exchange, Incorporated. Major Reynolds is a returned officer, having served in France with the Canadian Infantry. He is well-known as an industrial engineer, specializing in the construction industry and has had a wide experience in organization work.

## REFUTES RESPONSIBILITY

Tom Moore, president of the Trades Congress of Canada, when shown a report to the effect that he favored compulsory acceptance of awards of boards of arbitration, stated yesterday afternoon that this was a misrepresentation of his opinions, and that he was always opposed to any compulsory rulings in the matter. "I would rigidly oppose any extension of the act to any industries not now within the act unless the clauses providing for penalties for strikes or lockouts pending the decisions of boards of conciliation were eliminated," said Mr. Moore.

## MAKE NEW WILL

Charles H. Stock, secretary of the Independent Soldier Citizen party, Moscow avenue, issues a word of warning to young soldiers who married since the close of the war and who made their will in favor of their parents or other relatives prior to going overseas. Mr. Stock points out the advisability of making a new will as soon as possible, as in the event of death the will made on the form provided in their army pay book stands good and the pay book is in the majority of cases in the hands of the military authorities at headquarters, Ottawa.

## APPOINT ARBITRATOR SOON

Council will shortly be asked to appoint an arbitrator to represent the city in the negotiations pertaining to the taking over of the Toronto Street Railway. Many members of council are in favor of appointing Sir Adam Beck, if the Hydro obtain will consent to act.

### Western Crop Reports Decidedly Encouraging

The crop report of the agents along the National Railway lines west of the Great Lakes in Canada, for the week ended June 26th, received at the head office here today is decidedly encouraging in its general tone. The country along the lines of the publicly-controlled system appear to be almost entirely outside the zone extensively affected adversely by high winds and grasshoppers. As a matter of fact this report mentions grasshoppers at but a few points in the prairie—one of the three great operating divisions into which the C.N.R. western system is divided—while there is no mention whatever of this menace to the crops in the central and western divisions. Where notice of the presence of grasshoppers occurs it is stated that the damage resulting is but slight; likewise there is mention made of high winds, also in the prairie district with but slight result and damage. The moisture is said to be ample throughout the country served, with but very few exceptions, and the growing conditions excellent.

The Crops and the Harvest.

On the whole the crop reports from all over the Dominion are of an encouraging character. There will be a scarcity of men for the harvest in the east and in the west.

The prices of wheat, oats and corn will be governed largely by the output of far away countries like South America, Australia, Russia, Asia.

Clinging to Office.

The government of the day at Ottawa is being continually accused of "clinging to office."

Now, the cabinet is merely a committee of the house consisting of members of the house, and a majority of the members of the cabinet or bring them to judgment before the people.

But the argument seems to go further and is to the effect that the members of the house are, in some mysterious and unconstitutional way, "clinging" to their seats.

The government is being constantly invited to end the life of parliament and go to the country, but the invitation is always coupled with the assurance that they will be badly beaten at the polls.

thru. Yet to hear the talk in some of the Liberal papers you would imagine that they had been there for some great period of time and were clinging to office in some mysterious way long after their term of service had expired.

A Hint From Ottawa.

The Democratic convention at San Francisco, which has been in session since Monday morning trying to construct a platform and select a party leader, might well take a leaf from the book of the new National Liberal and Conservative party of Canada.

The hotelkeepers in San Francisco do not seem any more humane than their brethren in Chicago, and the delegates to the Democratic national convention say they simply have to get out of town by Saturday night.

Decorating Up-to-Date.

JUDITH OF BLUE LAKE RANCH

By JACKSON GREGORY.

CHAPTER VII. Continued.

"You hit the bell that time!" laughed Tripp, and Judith smiled with him as there came to their ears the faint tinkle of the telephone bell in the office.

Judith excused herself and hastened to answer the summons. Hastened because she wanted to be back with Tripp as soon as might be. So, knowing her way so well about the big house, she went quickly thru the dark hallway without turning aside to switch on the lights and came into the office, dimly lit by the stars shining thru the windows.

"Doc!" Her voice rang out suddenly and Tripp sprang to his feet, wondering what had put that note into her exclamation. "Doc! Come here, quick!"

He ran into the hall that was suddenly illuminated as at last Judith's groping hand found the office switch. He saw Judith running ahead of him, out of the door and came into the veranda and down into the courtyard.

"What is it?" he asked sharply. "There was some one here," she told him quickly. "He went out that way, I think. Look thru the liacs."

She ran on one way, Tripp hurrying the other, wondering. They saw the liacs standing still in the starlight, saw the thick shadows thrown by the columns and grape-covered trellises, heard the murmuring of the fountain.

"Jose, perhaps," suggested Tripp, coming at last to her side. "No!" cried Judith. "It wasn't. It was somebody in his stocking feet, standing in the hallway, listening to me. I heard him run before me; I saw him for a second, framed against the square of the window as he slipped thru and out on the veranda. Who could it have been, Doc?"

But a close search thru the shrubbery showed them nothing. It was clear that if a man had been listening at the door he could have had ample opportunity to slip away into the darkness. He would not be listening here now.

The telephone bell was still insistently ringing and they turned back to the office. "Judy," said Tripp solicitously, "don't you go and get nerves, now."

"You think I imagined the whole thing?" She looked at him with clear, confident eyes. "Don't you fool yourself for one little minute, Doc. Tripp, I'm not the imagining kind—yet!"

"Hello," said Judith. "Who is it?" It was the telephone operator in Rocky Borden's office. A message for Miss Judith Sanford from Pollock Hampton, San Francisco. And the message ran: "What were you thinking of to chuck Trevors? Thorough excellent man. You should have consulted me. Don't do anything more until I come. Send conveyance to meet Saturday train. Bringing five guests with me."

Pollock Hampton. Judith turned frowning to Tripp. "As if I didn't have enough on my hands already," she exclaimed bitterly, "without Hampton dragging his flop guests into the mix-up! I could sleep his face!"

CHAPTER VII. THE HAPPENING IN SQUAW CREEK CANON.

Busy days followed for Judith Sanford and for every man remaining upon Blue Lake ranch. A score of men, including the milkers; Johnson, the irrigation foreman, and his crew of laborers, had quit work, going openly to Bayne Trevors at the Western Lumber camp. He had worked there for every man of them, and Judith

was not the only one upon the ranch who came to wonder how much Trevors—or the lumber company—was prepared to spend in fighting the Sacramento. She found the list of names short-handed.

Almost her first answer to Trevors' coup was to telegraph San Francisco with an expert sent out by the First Company to install and superintend its working for the first few days. At the same time she hired from one of the Sacramento dairies a man who was to be foreman of her own dairy, a capable fellow with an intimate practical knowledge of automatic milkers. He, with a couple of strippers, and in caring for the big herd, aged until the dairy crew could be built up again. Her new foreman from the first took the greater part of his burden off her shoulders.

Mrs. Simpson, who had been at Rocky Bend, arrived, true to her promise, and, motherly soul that she was, took a keen interest in Judith's efforts, and in caring for the big herd, which she immediately was proud, with an air of semi-proprietorship. Jose from the first, bestowed upon the cheerful, bustling woman a black hatred born of his thwarted Latin jealousy. From this or other corner, appearing unexpectedly, he ruffed her pluck and suggested to her lively imagination various visions of knives in one's back, brought an actual thrill into Judith's long days of routine.

Busy days for Judith, too. She had already begun the education of a string of colts. Busy days for Tripp, who, unhampered, trusted, and confident, as he was, by the fact that he had been in the employ of a ranch from dawn until dark, had the ranch live stock, all but feeling, and taking temperature of horses upon the colts, calves, hogs and mules. He stopped the calf sickness, attended in every case excepting one, and the rest of the stock he finally made a clean bill of health.

Busy days for Casper. Painstakingly he estimated, to the head, the number of cattle the pastures should carry, counting from long experience upon the hard months to come from August until December; estimating values; appearing at the week-end to suggest the purchase of a pair of calves from the John Peters Dairy Company, to be had now at a very attractive figure. And suggesting, most insistently, upon buying a certain shorthorn bull worth twice the price of the others, to be had now at a very attractive figure. Judith and Doc Tripp had sought and found some trace of the man who had listened at the door in the hall. They had found nothing. So that episode, as well as Trevors' himself, was shoved aside from their minds, in the stress of active demands attention everywhere.

### KIDDIES' STORY HOUR IS POPULAR

Living Figures at Grange Instructive and Interesting—Many Art Works.

Many choice and attractive pictures hung on the walls of the large airy room at the Grange, but the prettiest picture of all was that of a group of living figures, which claimed first attention. It was that of a young girl with fair hair loosely coiled in a bun, who sat in a large chair with a book open on her lap. On the floor about her sat some score of children from four to ten years of age, offering almost as much variety in nationality as in number. The girl was telling a story and the kiddies were listening as children do with eyes, ears and mouth, their admiration and attention divided between the story teller and the story she had to tell.

The Story Hour, that has been inaugurated at the Grange every afternoon and evening for the benefit of the little ones and the pictures on the wall were a special collection lent by Mrs. J. E. Elliott, recently hung. The color of the mural scenes was scarcely surpassed by the colors of the little group. There were a little Rhiya with golden flossy curls, a four-year-old Abe with his large brown eyes, and a laughing Helen. There were the bright twins, Percy and Murray, who had been promoted into the "Junior Third," and the little colored girl, whose face and eyes reflected her enjoyment as she eagerly followed the progress of the story. Later came neat little Thelma in rose sweater and dainty white frock. Thelma carried a fair-haired doll called Sara, and Thelma had expected to find moving pictures, but was quite content when she was told that the pictures were standing, not moving. "I can see moving pictures at the shows," was her comment.

My Lost His Mate. The story in narration was that of a barnyard family and the picture of the lord of the household was vividly given when the narrator told the little group that "the turkey walked about as proud as proud could be." As the story progressed, it transpired that the red-crowned aristocrat, his mate and that despite his haughtiness he condescended to look into even the remotest corner of the barnyard, but even with the help of all the feathered neighbors that came to his aid, Misses Turkey failed to be found. One day, however, she came of her own accord and brought with her a surprise. The question the children were asked to answer was: "Where do you think she was and what was the surprise?"

Hands went up and guesses were made, but so cleverly had Mrs. Turkey concealed her plans that it took some prompting from the story-teller before the little ones knew that the "where" was "beside the wooden fence" and the "surprise" was twelve baby turkeys, which followed Mother Turkey, who walked ahead almost as proudly as did Mr. Turkey himself when he first sallied forth on his search.

Kiddies Find the Turkey. As the story was concluded, the children were asked who could point out the turkeys among the pictures on the wall. Again hands shot up, but the first kiddie who was detailed to make the attempt mistook chickens for turkeys and the second also made a failure. It was a little girl who was proved the one best acquainted with the feather family. Then from wall to wall went the story-teller and her little flock pointing out different dwellers in the barnyard until geese, ducks, chickens, bunnies, and piglets had all been visited and their pictures impressed on the minds of the visitors.

It was an interesting half hour in the course of which works of many painters—all among the best—had been introduced. There were the wonderful dogs of Landseer, Aesop's Fables, illustrated by Milo Winter and Edward Detwold, and the Turkey family and others by R. de la Nazere. A striking pair were the "Camel and his Master," artist unknown, in which

the gorgeous trappings of the king of the desert with the crossed stars and crescent outlined in vivid scarlet and gold made splendid foil for the white turbaned and white-robed beaumont. Other artists represented were A. J. Munnings, Carlton Moorepark, Swan, Cecil Alden, Robert McQuinn and Lucy Mabel Atwell.

Better Than School. The leader was Miss Coldecott, official story-teller of the Grange, who during the month of July—except this Saturday—will entertain and instruct all the children who are sure to flock to hear so many things that will benefit them and which they will enjoy and learn without any suspicion of "school" encroaching upon the holidays which they prize so dearly. The "Story-Hour" for the kiddies is one of the re-introduced arts which makes for good results and in lending her pictures as she has done on this and on former occasions Mrs. Elliott is doing a fine piece of service for the little ones.

### MEASLES RECORD IN TWENTY YEARS

With Exception of March, 1916—Number of Deaths Small.

The report on communicable diseases, issued by the provincial board of health for the month of June shows that there were 3613 cases of measles during the month. This is the largest number recorded in any month for twenty years, with the exception of the month of March, 1916, when there were over 5000 cases, with 47 deaths. Out of this number, however, there were only 22 deaths, compared with the previous month, when 46 deaths occurred out of 2264 cases. Smallpox is again on the increase, as indicated by the report, there being 842 cases for June, as compared with 290 cases in May and 305 cases in April. Diphtheria cases show a decrease of 32, with one death less than for May. The reports for scarlet fever give 12 fewer cases than the month of May, but two more deaths.

### G.A.U.V. CLINIC FOR PENSIONERS

Men Dissatisfied With Pension Awards Will Have Service of Clinic.

Dr. Harris McPhedran will be in charge of the G.A.U.V. clinic, which has just been instituted for the benefit of returned men and their dependents, mostly for pensioners. Officials of the G.A.U.V., in interviews with the press last night, stated that it was their intention to so arrange the clinic that pensioners dissatisfied with the awards of the board of pensions commissioners could receive a thorough diagnosis of their cases, which, if genuine, would be accorded a signed statement describing their case in full. Dr. McPhedran himself making the necessary investigations and having before him always the history of the pensioner for ready reference.

Thore Examination. In these circumstances men would not be passed over indiscriminately, but would be very thoroughly examined, and where it was found, for instance, that a man had a history showing bronchitis, pneumonia or other illnesses, acquired thru service at the front or on active service, these would be noted, earmarked and treated by the clinic as acquired thru service.

Princess of Wales Post, G.A.U.V. will hold a special meeting next Tuesday night for the purpose of reorganization and the election of officers. The meeting will be held at 21 East Gerrard street, the headquarters of the G.A.U.V. Among other matters discussed will be the question of co-operative stores. It is the intention of the G.A.U.V. to institute coal depots, and co-ops will be left on the sidelines at various points in the city, to be used as distributing centres for the families of veterans. Arrangements to this effect are being made.

LIQUIDATOR SUES TRUCK CO. Action has been entered as Queen's Hall by G. T. Clark, liquidator of the Clyde Care Co., of Canada, Ltd., against the Clyde Care Motor Truck Company, to recover \$1,626.67, alleged due on nine promissory notes.

PLAINTIFF WINS. In the county court Judge Williams awarded Thomas Ranford \$100 in the action brought by him for \$100 against P. F. Heyworth, as commissioner on the sale of defendant's business at 161-2 Yonge street.

ACCIDENTAL DEATH. A verdict of accidental death was returned by the coroner's jury at the morgue last night, in the inquest into the death of Tony Tyoid, 21, who died in 1924, who died in St. Michael's Hospital from injuries received when he was struck by a motor car at the corner of Queen and John streets on June 28. The jury added a rider, absolving the driver from all blame, stating that he used every possible precaution.

TOO MANY COOKS SPOIL THE BROTH. Municipal Council Consider the Hydro Shortages Due to Surplus of Officials.

The New Toronto municipal council committee disposed of several important municipal matters at their regular committee meeting held last night. Consideration was given to a claim put forward by one of the residents, T. Rigby, for \$75 damages, covering the doctor's fees in connection with injuries received by his daughter, who fell in a ditch near the highway, the ditch, it is claimed, existing as a result of negligence on the part of the council. After discussion an award of \$50 was granted, existing as a result of negligence on the part of the council. GUARD BABY'S HEALTH IN SUMMER. The summer months are the most dangerous to children. The commonest of these, which are cholera, infantum, diarrhea and dysentery, come on so quickly that often a little one is beyond aid before a mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to babies as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

FROST IN NEW ONTARIO. New Liskard, Ont., July 2.—Reports reaching here today indicate a sharp frost occurred in the country districts on the morning of Dominion Day, doing some damage to potatoes and some garden vegetables.

First Woman to Fly Over Niagara Falls. Mrs. George O'Neill, wife of the manager of the King Edward Hotel, the first woman to have flown over Niagara Falls in an airplane. With Mr. Love of the Clifton Airplane Company as pilot, she ascended from Clifton on Friday and took several snapshots of the falls and surrounding country.

### GUARD BABY'S HEALTH IN SUMMER.

The summer months are the most dangerous to children. The commonest of these, which are cholera, infantum, diarrhea and dysentery, come on so quickly that often a little one is beyond aid before a mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to babies as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Report of Board of Managers Emphasizes Need of Co-operation.

Over two thousand delegates attended the morning session of the Baptist Young People's Union convention at Walmer Road Baptist Church, J. S. Newell of Nashville, Tennessee, president of the union, presiding.

Next at Cincinnati. The report of the board of managers was presented and adopted by the convention.

The convention declared in favor of securing one million tithing signatures and one million members of the prayer and bible campaign league in Canada and the United States by July 1, 1922 and to secure five thousand Baptist ministers by the same date.

Rev. H. H. Bingham gave a brief devotional address and conducted the quiet half hour.

The afternoon was devoted to a series of conferences: missions and philanthropy, Dr. W. A. Hill, junior of Toronto, W. Fred Reynolds, stewardship, Rev. C. B. Aitford, the group plan, Rev. W. Earle-Smith, city, and socialization organizations, Edwin Phelps, ministers, Prof. J. H. Farnier.

A praise service was held at night, with an eloquent presidential address by Dr. D. J. Evans.

After three consideration on the part of the executive committee and considerable correspondence with the members of our Canadian constituency the keyword "Co-operation" was finally adopted as the key-word of the 25th anniversary convention of the union.

We meet this year in Toronto on the invitation of the Baptist Young People's Union of Ontario and Quebec and the Baptist Ministerial Association of Toronto.

Minutes of board of managers' meeting, executive committee meetings and reports of all conventions, from the beginning of the union, have been assembled and bound up to and including the Cedar Rapids convention.

The young people from Ohio presented invitations from the Baptist Young People's Union of Miami Association, Cincinnati Baptist Ministers' Conference, Ohio Baptist Convention, North Kentucky Baptist Young People's Association, Cincinnati Hotel Men's Association, mayor of Cincinnati and the Cincinnati Chamber of Commerce.

It was the general feeling of the young people in convention at St. Louis that the convention should go to Cincinnati in 1921. This was not voted officially by the convention, but the board of managers of the union do hereby express their sincere desire that the convention meet in Cincinnati in 1921.

Following Are the Officers: President, Dr. D. J. Evans, Missouri; vice-presidents, J. S. Newell, Missouri; Mr. Marion Wright, Ohio; W. Fred Reynolds, Ontario; recording secretary, J. C. Dancy, Tennessee; treasurer, Orlo O. Montague, Illinois.

"Daddies"—Robins Players Striving to surpass the high standard that has always marked the productions of the Robins Players, Edward H. Robins has for next week secured the first playing rights to the latest and most successful of David Belasco's comedies, "Daddies" which recently closed its long run of forty weeks at the Belasco Theatre, New York.

Not only has he secured the comedy but he has also obtained permission from Belasco to allow Lorna Volare, credited with being America's greatest child actress, to appear in her original role just as she plays in such manner that the engagement of the piece in New York Tom Wise, of course, will be seen in the leading male role and Edward H. Robins himself will again be in the cast after several weeks of the casted rest. Mr. Robins will have one of those delightful light comedy parts that seem to have been written just for him.

The leading female role will be in the capable hands of Reina Caruthers. Practically the entire company will be utilized and have been cast in such manner that the best production possible of "Daddies" will be seen. The scenic presentation will be as usual of the Robins Players, and no detail being omitted or slighted.

The matinee will be as usual on Wednesday and Saturday. "The New Henrietta" will be the offering of Edward H. Robins and his players at the Royal Alexandra for the week of July 12th. Tom Wise and Edward H. Robins will be seen in the leading roles, supported by the entire strength of the Robins Players.

At Loew's Next Week. The job of marrying off two sisters and an elderly aunt so that the brother of the girls may be free to wed the woman to whom he has been engaged six years is some job, but it was undertaken by Babe Harcourt, played by Constance Talmadge in "The Love Expert," which will be shown at Loew's Theatre on Monday.

"The Courage of Marge O'Doone," Vitaphone's splendid screen version of the powerful novel by James Oliver Curwood, which will be seen at Loew's Theatre on Monday, is a veritable "Call of the North." And a clarion call it is that this splendid, vigorous story of the frozen northland sends out from the screen after being pictured and made into a superb big special photodrama production. The magic of the motion picture turns out from the screen after a masterly story into a pulsing, living drama whose sheer charm and realism carries one away to that vast white country "up there," north of the fifty-third, with all of its grim glory and grandeur. It breathes the breath of life into the staunch and sturdy men and the courageous and beautiful women of this story. And in the deep rich colors and splendid hues that the painted world could never find it has painted a background for the romance and tragedy—the villainy and valor, the stirring mystery and the startling surprise. That is the call of the north—and everybody answers it.

Dorothy Dalton at the Strand. That great favorite of the screen, Dorothy Dalton, will be seen at the Strand Theatre next week in her latest Paramount-Artcraft picture, "The Dark Mirror." It is based on Louis Joseph Vance's popular novel of the same name. The story is a fascinating one of dual identity, and Miss Dalton is seen in the widely contrasted roles of a society girl and of New York's "upper ten," and a girl of the slums. As Priscilla Maine, the society girl, she is troubled with strange dreams, in which she sees herself as a Bowers girl, and has many thrilling adventures. She is mistaken for Nora O'More, a Bowers belle, and is kidnapped by a gang of criminals from that district. Then she has experiences in reality, outdaring her dreams in exciting surprises.

This is the last day at the Strand for Wallace Reid, Theodore Roberts, and Ann Little in "Excuse My Dust."

Upon recommendation of the general secretary, the records of the union have been bound and placed in the vaults of the library of the Southern Baptist Theological Seminary of Louisville, Ky. The library has promised to bind additional copies of the official organ and to hold this splendid collection of material for reference.

Remainder of Dr. Glover's Patients Responding Well to New Serum.

The fourth death out of a total of sixty patients treated by Dr. T. G. Glover with his cancer serum took place yesterday. The case, that of an elderly woman, was considered almost hopeless when it came under Dr. Glover's notice. The dead patient was a woman of 70 years of age, who was suffering with cancer of the kidney. The patient, according to the house physician at St. Michael's Hospital, was admitted for treatment about a week ago and has been in a semi-delirious condition all the time. Only very slight hopes were held out for her recovery from the first.

Generally speaking, the remainder of the patients are all keeping up well, according to a statement made yesterday by Dr. J. R. Glancy, who is looking after them.

A patient who received his first treatment a few days ago for cancer of the face and neck was reported by the doctor as being considerably improved. "The right side of his face and his lower left jaw were swollen to quite a size when he first came in and yesterday the swelling was softened and diminished in size," said the doctor. "He seems to be getting on splendidly."

"I think it my duty to tell you how much your medicine has done for me. I suffered for three years with terrible Eczema. I consulted several doctors and they did not do me any good. Then, I used one box of 'Sootha-Salva' and two boxes of 'Fruit-a-lives' and my hands are now clear. The pain is gone and there has been no return. I think it is a marvelous cure because no other medicine did me any good and I tried all the remedies I ever heard of, without benefit until I used 'Sootha-Salva' and 'Fruit-a-lives'."

**THOUSANDS LEFT BEHIND ON QUAY**

Whole Families Spend Night in Open Owing to Overcrowded Boats.

Many people who took a lake voyage to Lewiston, Queenston or Niagara-on-the-Lake on Dominion Day are now sorry they did not stay at home. The crowd was a record one, and it took several steamers to take all the people over, but there was little or no inconvenience to anyone. It is impossible to get a quart of water into a pint jug, and it was equally impossible for the steamship company to convey three or four boat loads of passengers on one steamer. It seems from the information given out yesterday, that the great majority of the lake tourists on Thursday desired to return by the last boat, and in consequence of this, a very bad mix-up occurred at Lewiston and Queenston.

Knowing that the morning traffic had been heavy, the steamship company sent the Cayuga over to Lewiston in the afternoon to make a special return trip at 6 o'clock, but she could only collect some 1700 passengers.

On Dominion night, when the Chippewa left Lewiston, crowded to capacity, she left behind her some 3500 passengers. These people, many of them mothers with children, were compelled to camp on the wharf until relief came. The steamship company, on learning how matters stood, dispatched the Cayuga to Lewiston and Queenston. It arrived at midnight, and the scene of the scramble to get on board the boat is described as a good Irish fight. The steamer embarked 2200 of the waiting passengers, who arrived in Toronto at 3 a.m. and found to their dismay that there were not sufficient street cars to convey them all home.

During the early hours of Friday morning, the Chippewa made another trip and brought home the remainder of the holiday-makers. They reached Toronto at 7 a.m. yesterday morning, tired out, and by no means good-tempered.

For some thousands of people, Dominion Day, 1920, was not a happy one.

GILLESPIE AND GRANT LEFT FOR GOLF FINALS

Algary Player Beat Montreal Youth by Three and One

Beaumont, C. B. 7-1, Gillespie and Grant to the victors in the semi-final round of the Canadian golf championship, played here today.

Mr. Gillespie, the younger brother of T. H. McCulloch, the young champion to topped over such men as George Lyon of Lambton and Fritz Marston of Milton, by 3 and 1, and Mr. Grant, who had his club-mate, C. H. Turpin, beat Montreal, 4 and 3, Monday.

Mr. Gillespie and Mr. Grant met in the final round after a brilliant, but erratic, game. The first half of the 36 holes played in the semi-finals, young McCulloch was the victor in the first hole, but he had the advantage at the first hole, when he made a perfect stroke, and the next when he missed a putt after he had been put into a bunker.

McCulloch won the hole, but he did not have the hole, McCulloch putted badly at the hole, and Gillespie took the hole in two, one stroke.

This put him one up. He took the next after making a perfect putt. He also took the eighth from the hole, and was only one down when he won the hole by almost missing a putt, as he did the fourteenth.

Gillespie missed a putt at the fifteenth, but he took the hole, Gillespie made a wonderful recovery on the sixteenth, and drove into the rough, but got out and halved the hole.

McCulloch drove into the rough at the seventeenth, but he got out, and finally took the hole and the match with a two-hole advantage.

McCulloch won the second eighteen by taking the first. Turpin was next two, and the next three were both made. A mistake in the sixth hole. After that Turpin continued to make mistakes, but Turpin continued to make mistakes, but Turpin continued to make mistakes.

As a result of the consolation games included today follows: J. E. Keith (Beaumont), 7 to 1 on C. B. McCall (Grant), 7 to 2 on J. W. Yule (Royal Montreal), 4 to 3 on H. MacKenzie (Ourselves), 4 to 3 on B. Corbett (Beaumont), 1 to 1 on H. (Winnepeg).

Yanks Mixed Doubles Final

London, England, July 2.—Play in British tennis today was exciting, as the British ladies' title-holder, Miss Maud Watson, was defeated by Miss E. Beaman and Miss M. L. B. Beaman in straight sets, 6-1, 6-0, and 6-0.

Beaman and B. Beaman, who were the victors in the consolation games, defeated Mrs. Moxley and Miss Kane, 6-3, 6-2.

WEST'S CROP OUTLOOK. AVERAGES UP GOOD. Winnipeg, July 2.—(By Canadian Press)—A careful survey of crop conditions throughout the west shows that 90 per cent of the crop is good, and a very fair average of the past ten years, according to a report issued yesterday by the Canadian Agricultural Railway. The report further states that the crop, on the whole, is from 10 to 14 days later, and the yield in all probably be decreased to three bushels per acre on this account.

Find of Copper and Silver. Is Made in Cape Breton. Sydney, N.S., July 2.—Discovery of copper and silver, associated in gold-bearing quartz, has been made on the Boisdale Mountains, Cape Breton, by Roderick O'Hanley, at one time located here as superintendent for Poupore Brothers, contractors, and now at Barrachois Harbour. The area are reported to contain a rich deposit.

SEND FOR A COPY OF THE MINING DIGEST WHICH CONTAINS LATEST INFORMATION ABOUT THE MINES

KEEP IN TOUCH WITH interesting developments in the mining camps of Northern Ontario by reading THE MINING DIGEST, published in the interests of mining investors.

THIS IS AN OPPORTUNITY to purchase selected mining stocks, because prices are ridiculously low in comparison with the well-known merit of these companies.

THESE ARE ESPECIALLY ATTRACTIVE because of the stability given by the fixed, non-fluctuating value of the yellow metal, together with the gradual increase in its purchasing power by the decline in commodity prices.

THESE GOLD STOCKS SHOULD BE BOUGHT NOW. Send the attached coupon and have your name put on our mailing list to receive the MINING DIGEST regularly.
