DECISION IN MINE DISPUTE DUE TODAY

CONFERENCE OF WORKERS AND OWNERS

Premier Hold Ministers Ready For Emergency Meeting

NO SUBSIDY

Government Committee Suggest Negotiations Over Wage Plan; Miners Hopeful

Canadian Press Despatch.

LONDON, July 29.—Whether the coal mining industry of the nation is to cease operations Friday night, ending unemployment for more than a million miners, or whether the men will continue pending efforts to devise new working arrangements is to be decided at a joint conference between the miners and mine owners today.

The Premier is to meet the miners' representatives today to discuss with them the proposition he laid before the owners yesterday. Later he will attend the joint miners-owners conference. This will be presided over by W. C. Bidgen, who has acted as intermediary in the prolonged efforts to bring the two sides together for the drawing up of a new working agreement to supersede the one expiring on Friday night.

NO SUBSIDY

The report of the government committee of inquiry into the mining situation does not, as had been rumored, suggest a subsidy for the mines. It upholds the miners in their demands for a minimum wage agreement, but the committee believes that the wage should be determined by negotiations.

Although the report, pending between the lines, shows sympathy with the miners, it does not seem to be a common-sense compromise between the two sides. It is a compromise which will withdraw the present proposals with good will. This view has the support of the British miners, which are not committed to exclusive upholding of the miners' side.

POSITION UNCERTAIN

Notwithstanding the hopeful indications, Premier Baldwin regards the situation as still so uncertain that he has asked all the ministers to cancel out-of-town engagements, and hold themselves ready to attend a cabinet meeting at any hour.

Even if an immediate stoppage of work is avoided by the decision of today's conference, it is in no wise certain that an agreement will come out of the negotiations which are to follow.

A. J. Cook, secretary of the Miners' Federation, when leaving Paris yesterday, after attending the council of the Miners' International, declared that a stoppage in the British coal mines seemed inevitable, and if it did not come this week it would come a week or a fortnight later.

British miners are greatly heartened by the decision of the Miners' International to undertake international action in the event of a British mine owners "putting their menaces against the miners into execution on August 1." They interpret this as a decision to restrict production so as to prevent interference with action by the British miners in their fight against the owners.

35 ARE INJURED IN MOTOR CRASH

Bus Runs Wild on Hill and Overturns During Height of Storm.

LARRYTOWN, N. Y., July 29.—Thirty-two men and women were injured while 15 children escaped unhurt when a motor-bus, returning from an outing, ran wild down a hill, skidded and overturned during the height of a storm last night.

Harry Gibbs, of Brooklyn, is not expected to live as the result of his injuries. Those in the bus were unable to explain how it happened that not a single child was injured while the adult passengers suffered severe cuts and contusions when the bus smashed up against a curbstone at the foot of the hill. Firemen with axes had to chop away the wreckage to rescue some of the injured.

Riffians Renew Their Activities Against the French Positions

SUICIDE NOT ROBERT SCOTT, POLICE SAY

RIOTS START IN PALERMO WHEN ORLANDO NAMES CANDIDATES

PALERMO, Sicily, July 29.—Rioting broke out here yesterday after a political meeting during which former Premier Orlando, of Italy, announced an opposition ticket in the forthcoming municipal elections. The police cleared the streets before serious casualties resulted.

Trouble started when a group of fascists eluded the police guard and attacked Orlando's automobile, smashing the glass windows with clubs and otherwise damaging the machine. The former Premier's supporters rallied to him, and great confusion existed until a detachment of troops arrived.

BRYAN'S BODY ON WAY TO WASHINGTON

Plans For The Funeral Have Not Yet Been Completed.

DAYTON, Tenn., July 29.—The body of William Jennings Bryan today started its journey toward Washington. From the cottage where he was known and admired as the fundamentalist leader, the remains of the Congressman and Secretary of State.

In Dayton tribute was paid to the funeral service. In Washington will come the laudations of those who knew him best as the political leader, the orator, the statesman.

As the funeral car headed toward Washington, pledges of his comrades in the fight against evolution came from far corners of the land. Opponents of the evolution theory will drive it from the tax-supported schools of the nation, they said.

Plans for the funeral service in Washington have not been completed.

SURVEYS CONDITIONS IN STRIKE AREA

George W. Lewis Visits Cape Breton in Interests of U. M. W. of A.

SYDNEY, N. S., July 29.—George W. Lewis, international organizer of the United Mine Workers of America, arrived here today to survey the conditions in the Cape Breton coal strike area, and to report thereon to international headquarters of the organization.

Mr. Lewis plans to spend a week in Cape Breton. He stated last night that he was taking no hand in the strike settlement proposals.

TORONTO, July 29.—Alfred Joseph Souray, nine years old of Toronto, was drowned while bathing in the Rouge River, near Pickering, Ont., yesterday.

Coolidge Sees Possibility Of Armament Conference

Canadian Press Despatch. SWAMPSCOTT, Mass., July 29.—President Coolidge hopes that once a security pact among the more powerful European nations becomes a reality, the way will be clear for another armament conference. A security agreement in his opinion, would lay a broad foundation for further disarmament by stabilizing in a measure, at least, conditions abroad.

The President's view was disclosed yesterday at White Court, with a restatement that he is anxious to initiate another conference but feels that any move to that end should be withheld until the situation in Europe is such as to offer some promise of success.

While Mr. Coolidge is convinced conditions abroad never will be perfect for the calling of another conference, he is hopeful that a tremendous stride forward will be taken by an agreement on security.

Until complete agreement is reached on security the President believes nothing could be gained and perhaps harm done by trying the armament question to the fore.

Baptizes Son

Dying of Bite

HAMMONTON, N. J., July 29.—Dying as a result of being bitten by a spider last week at a Boy Scout camp, Le Roy Letts, 12-year-old son of the Rev. Clarence Letts, known as the "Evolutionist," sent for his father and asked for baptism.

"Father," said the boy, who died a few minutes later, "baptize me. I believe I am going to the beautiful kingdom you've talked to me about so often."

When Le Roy returned from camp, a physician took a black spot, presumably the poison, from the left eye, but the boy became delirious and died in Beldgeton Hospital.

JAY GOULD'S WIDOW MARRIES VISCOUNT

Ceremony Performed in Montreal Presbyterian Church—Claim to Estate.

MONTREAL, July 28.—Viscount George St. John Broderick Dunsford, eldest son and heir of the Earl of Middlesborough, and Mrs. George Jay Gould, widow of the late Jay Gould, were married today in the well known United States financier and heiress to a large part of the Gould fortunes, were quietly married here at noon today in the American Presbyterian church. Rev. Dr. George Hanson performing the ceremony.

T. R. Kerr, K. C., personal attorney of Lord Dunsford and Mrs. Norberg, attended at Lady Dunsford, were the only witnesses at the marriage.

Mr. Dunsford and his wife, with the aid of Detroit club women, have rented a store room there and have arranged for mass meetings of protest against his execution. A campaign to raise additional funds for his defence is also under way.

Body Found in Reading Unidentified

Description Not That of Condemned Man's Brother

FIGHT GOES ON

Alienists Examine Russell Pending Hearing on Monday; Women in Campaign

Canadian Press Despatch. CHICAGO, July 29.—Scent hope is held by the police that an unidentified man who shot and killed himself in a Reading, Penn., hotel, yesterday, is Robert Scott, brother of Russell Scott, under sentence of death for killing a drug clerk in a holdup. Robert has been sought since the killing, which Russell says his brother did.

The description of the suicide, who cut all labels from his clothing and left a note, "I am nobody from nowhere," tallies only slightly with that of the missing Scott. Since Russell's escape from the gallows a few hours before the time set for his hanging attracted national attention Robert has been reported found in various parts of the country.

Two Deaths in Railway Collision

DESCRIPTION.

The dead man was described as about 25 years old, 154 pounds, gray eyes, light brown hair, five feet nine inches tall, gold tooth in upper jaw, small scar on temple.

Robert said he was 28 years old, five feet 11 inches tall, 160 pounds, blue eyes, medium complexion, heavy brown hair and slim nose, no scars.

RAILROADS OF BRITISH ISLES FACE CRISIS

Workers Asked to Reduce Wages Five Per Cent.

REORGANIZATION

Operators Must Place Industry On Modern Basis To Succeed

British United Press. LONDON, July 29.—British railroads will be the next to pass through a crisis similar to that now agitating the mining industry. The owners' proposals to the workers that they should agree to voluntarily assign 5 per cent in wages, salaries and directors' fees, in order to avoid a serious loss in running the railroads, have been rejected by the National Union of Railway men, and the owners are now considering what their next move shall be.

It is likely they will take the matter before a conciliation board, with the idea of showing the absolute necessity to make production meet working costs, and they are confident such a board will decide in their favor.

INCREASE ASKED.

As the workers demanded an increase for all grades before a reduction was proposed there is a prospect of a struggle in spite of the friendly relations which the companies and the workers, which is sure to add fuel to the industrial fire. In these recurrent crises, however, many see a hope for Britain's future if it can avoid strikes and a lockout which in the case of the mining industry would be fatal. Many British industries which were first in the field after the discovery of steam and have fallen behind in the international race for efficiency, such as mining, are now finding they have lost the advantages they enjoyed internationally 50 years ago. The younger industries are being outdone by the older ones and are able to compete successfully with them in the market.

OVERHEAD COSTS.

It is also pointed out that overhead costs have risen enormously and are out of all proportion to the industries, and it is said that as a result of the crisis through which they are now passing these industries will be reorganized and placed on a new basis which will allow them to recover a position something like they formerly enjoyed. It is notable that a court of inquiry report on the mining crisis says that the industry is inefficient and that the newest British industries such as motors and electrical projects are passing these older industries are falling down.

ARCTIC EXPEDITION CONTINUES ADVANCE

Steamers Bowdoin and Peary Are at Melville Bay—Compass Points West.

WASHINGTON, July 29.—The steamers Bowdoin and Peary of the MacMillan arctic expedition, left south of Upernivik, Greenland, yesterday morning and proceeded north to Melville Bay.

This information was conveyed in a radio message dated July 27, received today by the National Geographic Society via Seattle. It read: "The Bowdoin and the Peary out of South Upernivik, Greenland, at 4:30 a. m. today. It was clear and cold by noon, but toward 4 o'clock in the afternoon we met a thick belt of drift ice at Tuktoerort. After fifteen minutes we were through in the blue waters to the north."

"At eight o'clock this evening we are off Wilcox Head and the infamous devil's thumb—Hane of Explorers. We are in a light fog and the Peary is almost within hailing distance behind us. Tonight we enter Melville Bay which may be crossed in a day's sail and in which many a ship bound north has spent weeks or months fighting ice."

"We now have a variation of 90 degrees and the compass points west instead of north. All well."

Barker's Point Feels Shock

FREDERICTON, N. B., July 29.—Residents of Barker's Point, across the Saint John River from Fredericton, report an earth tremor this morning about 4 o'clock, Atlantic Standard Time.

Nobody could be found in Fredericton today who had felt the disturbance, although a woman who telephoned to The Daily Gleaner from Barker's Point this forenoon, said that members of her household, as well as neighbors, had felt the earth tremor. It made an oil lamp standing on a table, flicker, she said.

Great Attack Against Ouezzan Is Expected Soon

CONFERENCE PLAN

Spanish Leader to Meet Marshall Petain to Discuss Scheme of Campaign

Canadian Press Despatch. FRA, July 29.—The period of relative calm which has existed the last few days along the Franco-Riffian battlefield is showing signs of coming to an end. The enemy now appears to have completed regrouping of his forces, and is beginning to renew his activities. Thus far these have only taken the shape of raids on the villages of arles friendly to the Sultan of Morocco and the French, which have been burned, and attacks on French convoys.

There seems to be no doubt that the Riffian leader intends to try to make up for the non-success of his drive toward Fez, which was broken at Ah Aicha and Ah Matrou, by an attack on even a larger scale against Ouezzan before the arrival of all the French reinforcements. At the same time the Riffians are strengthening certain positions along the centre, notably at Djebel Ameron, in the Fez El Ball region.

PICNIC IS ENJOYED AT GLEN LOMOND

Annual Staff Outing of Francis and Vaughan Held Last Evening.

Showery skies were absolutely unworthy of notice at the annual staff picnic of Francis & Vaughan, held last evening at the camp of John H. Vaughan, Glen Lomond.

Once the fun started weather was forgotten, and the fun provided by Mr. Vaughan was such that the crowd even forgot the swim they had brought along. Before supper they fished and skinned the lake by motor boat.

After supper they danced and played games on the sheltered porch. There were gigs invented for the first time on the spot, reels of impromptu devising, a quadrille of a kind never seen before. When it came to foxtrots, one steps and variety waltzes the competition in ability was keen.

Frank Dykeman carried off this prize a dozen lollipops. Mrs. White won the dish-washing championship.

The quilt game was won by the ladies both as a team and in highest single score. Miss Kathleen Burgess pulled two fingers each of three times up and Louisa Allen came next with five fingers out of three sets.

The eating contest went to Howard Wallace, advertising man. Mrs. Vaughan and her assistants, Mrs. Knowles and Miss Gilchrist, knew how to contrive a spread.

Mr. Frank Dykeman proposed a vote of thanks to host and hostess, which was carried and the cheers and Jolly Good Fellow songs meant more than mere etiquette.

SAYS STREET RAILWAY TO BE EXTENDED

Ross Tells Little River Electors Work to Start Next Thursday

CURRENT CHALLENGES POTTS ON MILK DEBATE

Hydro, Roads and Workmen's Compensation Act Dealt With at Meeting.

At East Saint John last evening there was a largely attended meeting of the Government party, presided over by Councillor John C. Dainoff, and addressed by the county candidates, Dr. L. M. Curran and William A. Ross. The first speaker was Mr. Ross, who referred to a matter of special interest to the people of that community, namely, the extension of the street railway to Lee's brickyard corner. Mr. Ross reviewed the difficulties that had been encountered in making the chief one the unwillingness of the New Brunswick Power Company to lay the extra track.

LITTLE RIVER BRIDGE

Premier Veniot did not feel justified in spending provincial money in erecting a permanent bridge over Little River until the traction corporation signified their decision to extend the line. So finally, as counsel for the district, Mr. Ross obtained an order from the Public Utilities Board that the extension be made immediately. Preliminary work will be started Thursday next.

DISCUSSION CERTAIN

The silence of Premier King on the question of an election was not unexpected. While it is practically certain that he and his ministers had a frank discussion in regard to the advisability of dissolving parliament and going to the country in October or November, it is very unlikely that anything is decided yet.

ORGANIZER PRESENT

On the other hand it is no doubt considered advisable to be prepared for anything, and this may account for the presence of Duncan Marshall, chief Liberal organizer in Ontario, and also a number of members of parliament and supporters of the Government in the capital.

CITY TAX QUESTION

Dr. Curran pointed out to the residents that prior to 1922 many citizens working in the city and residing in the country received tax bills in both places such tax being based upon income. This injustice, he said, as a Saint John county representative, though strongly opposed by the Saint John City Council delegation, succeeded in having removed by an amendment to the Rates and Taxes Act.

CHALLENGES MAYOR

Dr. Curran issued a challenge to Mayor Potts in the matter of pasteurized milk. He stated that Mr. Potts was either woefully ignorant of the facts concerning this pasteurized milk or was wilfully misleading the people. The regulation was practically of local origin, he said, as the Saint John District Board of Health was composed of four members appointed by Mayor Potts' City Council and three by the Municipal Council presided over by Commissioner Wigmore and the chairman and five other members of the local Government.

HELD UP FOR YEAR

For over a year the doctor claimed he held up the matter of pasteurized milk, not because he was opposed to the universal method of pasteurization, but more particularly because of the manner in which it was introduced.

HYDRO POLICY

In concluding his long speech Dr. Curran dealt with the Government's hydro policy, its reconstructed roadway system and the provincial debt as means to a useful end.

MINISTER RETURNS

Rev. W. J. Bevis, minister of the East Saint John United church, and Mrs. Bevis, who were spending their vacation at the bungalow of Mr. and Mrs. Philip McIntyre, St. Martins, have returned home. During Mr. Bevis' absence the Baptist and United congregations in East Saint John have met together for services with Rev. I. D. Colwell officiating. Mr. Bevis will now take charge of the uniting congregations and Mr. Colwell go on vacation.

Federal Cabinet Meeting Adjourns After Four Hours Discussion.

NO DEAL MADE WITH LUMBERMEN

Opposition Says no Pledge of Support For Stumpage Refund.

CHATHAM, July 28—The deal reported as being made between the lumbermen and the Opposition party in a Chatham despatch to the Fredericton Gleasoner on Monday is declared by Opposition leaders here as a pure myth. The despatch referred to stated that on condition of the Opposition granting a rebate on stumpage rates and the Quebec scale, the lumbermen would put all their support behind them and contribute to the party campaign fund. Prominent members of the local Opposition declare that no such meeting ever was held and that this is purely insinuation on the part of some over-anxious correspondent.

Upper Sackville Barn Burned When Hit by Lightning—Serious Loss.

SACKVILLE, N. B., July 28—A large barn at Upper Sackville, owned by Charles S. Weldon, was struck by lightning and burned to the ground today during a thunderstorm. Four loads of hay and two calves were also destroyed, the rest of the cattle in the barn at the time being saved. But for timely assistance of neighbors two other barns close by would have been burned. The loss is estimated at about \$2,000, with only small insurance.

BELDING SPEAKS TO PENDER MEN

Congratulates Them on Offer of Free Overtime to Save Markets

Co-operative Society Discusses Suggestions for Improved Conditions.

The action of the employees of James Pender & Co. Ltd. in deciding to work overtime without increased pay in order to hold a market which has been slipping because of keen competition, has caused a degree of surprise, as well as favorable comment, both in Canada and the United States. The prevailing feeling seemed to be that men covet hardly be found in these days who would be willing to co-operate to such an extent.

Yesterday a newspaper representative was asked to attend the regular meeting of the executive of the Co-operative Society in the Pender offices. Manager Knoll was in the chair, with Secretary Gains of the office staff. Mr. Belding of the sales staff also attended.

The others present represented the problems of production and marketing, so that the whole situation might be made clear to all.

It was clear that every man was interested, and desirous of promoting efficiency in the departments, and that the management also desired to give full information.

There was a frank discussion of the problems of production and marketing, so that the whole situation might be made clear to all.

CO-OPERATIVE SOCIETY.

On adjournment the members went right on with the business of the Co-operative Benevolent Society, to which all the workers contribute, and with which the company has nothing to do except collect the dues. There is a weekly benefit in case of illness or accident, and a substantial grant in case of death; and the scale of dues is so regulated by special assessments when necessary to keep the funds sufficiently large to meet any emergency. The demand upon each employee is very small, as there are no overhead charges, and yet every one is protected in case of sickness or accident.

BELDING SPEAKS

Before final adjournment, A. M. Belding, who was present by invitation, was asked to address the men. He congratulated management and men alike on the fine spirit which

3 MADE BANK DIRECTORS.

MONTREAL, July 28—Thomas Aherm, of Ottawa, and J. W. McConnell and P. W. Molson, of Montreal, were elected directors of the Bank of Montreal at the meeting today of the bank.

Mr. Belding pointed out some of the difficulties that confront industry all over Canada at present, referred to the trouble in the coal mining industry at home and abroad, the effect of competition in manufacturing by countries where cheap money prevails, along with longer hours and lower wages, and said Canada must be content with gradual progress toward better days.

Low-Pressure Tread Gave Greater Mileage with Less Wear

THIS test tells the story! Look at the premature and undue side wear on tire A, with its unsuitable round tread!

Look at the evenly-distributed, natural wear on tire B, under identical conditions, except that it travelled 1,000 miles more.

Tire B is the new Low-Pressure Tread of Dominion Royal Cord Balloons, giving 15% to 25% more road contact—and decidedly more wear. Low-Pressure Tread also permits lower tire pressure, more cushioning—greater comfort—better traction—easier steering.

Low-Pressure Tread is an exclusive feature of Dominion Royal Cord Balloons.

SAINT JOHN, N. B., JULY 29, 1925.

WHY NOT IN THE MARITIMES TOO?

Is the C. N. R. to build a \$3,500,000 hotel in Vancouver? If so, are such C. N. R. projects to be carried on only in the Central Provinces and the far West? Is the C. N. R. to be allowed to forget its mileage in the Maritimes, and the tourist attractions of these provinces, and the fact that this is still a part of Canada?

The Vancouver hotel project is described in an Ottawa despatch to the Montreal Gazette, which says that no official announcement will be made concerning the hotel until after writs have been issued for the general election.

This despatch goes on to say that the hotel will be built on the new system of financing adopted by the Dominion Government and the Canadian National Railways, which means that a company will be formed and the C. N. R. will guarantee the bonds. The writer of the despatch raises the question of economy, discusses the burden of taxation, and questions whether the public can afford to have the C. N. R. add to its chain of hotels.

Leaving those issues aside and assuming that the C. N. R. is really committed to this \$3,500,000 project for Vancouver, the more interesting question so far as the Maritimes are concerned is as to why this territory, which contributes heavily to the cost of the National Railways, is ignored when the C. N. R. starts new enterprises.

The Maritimes have not a word to say against Vancouver, which is a great port and is destined to expand, but we have ports in the Maritimes which are open the year round and whose value to the country under any sound policy of national transportation cannot be questioned.

Hotels are built by railways presumably to increase their traffic. Like British Columbia we have the attractions for tourists as well as the ports for freight and passengers.

National expenditures should be fairly distributed. Sound national policies should be designed to give benefit to the whole country, not to merely favored districts.

Hotels alone are not in question. If the C. N. R. is to be used as a lever of development, the Maritimes have a right to just as good treatment as is given any other part of Canada.

"PITYING" THE BRITISH.

That many people in Great Britain take a grave view of our conditions is true enough, but it would be wrong to represent the country as being anything like a state of despair.

What public men over there say with respect to the many problems which press for solution represents chiefly a commendable determination to find remedies for the ills to which they resolutely direct attention.

It is rather astonishing to find in the Chicago Journal of Commerce an article which is very evidently meant to be friendly but which describes Great Britain to-day as "pathetic." The Chicago writer is urging Americans to think more about Britain, which country, he says, "should be our chief concern."

He says that while Britain's money is sound and her credit fairly well balanced, "yet physically and spiritually England is in a lower state than any of the other major European nations. There is something pathetic about England today, and the paths of it is sensed by almost every intelligent American who has returned from Europe in recent weeks." He discusses unemployment and industrial confusion, but feels that these do not represent the worst. So he continues:

"The plight of Britain goes far beyond the industrial and economic problems of this week and last. It finds root in a generally sensed but universally denied feeling of decadence on the part of the English people. The Empire is becoming a sisterhood, with the ties of sympathy constantly weakening. For 800 years the world has trembled before the gestures of England! Daily the world pays less attention to the will and words of the august little isle."

As evidence of good intention he says that the importance of the solution represents chiefly a commendable determination to find remedies for the ills to which they resolutely direct attention.

He discusses unemployment and industrial confusion, but feels that these do not represent the worst. So he continues:

"The plight of Britain goes far beyond the industrial and economic problems of this week and last. It finds root in a generally sensed but universally denied feeling of decadence on the part of the English people. The Empire is becoming a sisterhood, with the ties of sympathy constantly weakening. For 800 years the world has trembled before the gestures of England! Daily the world pays less attention to the will and words of the august little isle."

As evidence of good intention he says that the importance of the solution represents chiefly a commendable determination to find remedies for the ills to which they resolutely direct attention.

It is rather astonishing to find in the Chicago Journal of Commerce an article which is very evidently meant to be friendly but which describes Great Britain to-day as "pathetic." The Chicago writer is urging Americans to think more about Britain, which country, he says, "should be our chief concern."

He says that while Britain's money is sound and her credit fairly well balanced, "yet physically and spiritually England is in a lower state than any of the other major European nations. There is something pathetic about England today, and the paths of it is sensed by almost every intelligent American who has returned from Europe in recent weeks." Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

The Sea Serpent (Portland Press-Herald).

Every summer, until recent years, it was customary for the time the people of the coast of Maryland. For want of a better name they called it a sea serpent.

The monster was supposed to have been killed by a steamship. It was at least 40 feet long, so the mariners said, and part of it lay on the surface of the water and a part of it submerged. It had a great tubular trunk.

The serpent story cannot be discredited because the mariners did not see the monster alive and swimming on the surface of the water at a great distance. They were alongside of it and it was seen by one man, or the and the creature was three or four feet long. The monster seen off the coast of Maryland had no head that the mariners could describe. It had a tail they could not describe.

The Maryland sea serpent could not have been a giant cuttlefish, nor a school of dancing porpoises, nor a Norway shark, nor seaweed, because the mariners described it as something else—something, perhaps, not hitherto known to science. The great Sir Charles Lyell, who spent many years chasing down stories of marine marvels and reducing them to their uniformly prosaic elements, declined to pronounce upon the possibility of sea serpents; there was ample doom in the dark, unathletic ovals of our eyes thought, to house such things as the minds eye has never beheld.

Scientists in general, and hydrographers in particular, are equally careful not to erect didactic lines to put their heads to work. Professor Carver believes the Liberty bond sales during the war are partly responsible for this movement, because there was, as was the case in Canada, the war was won and in every corner of the country and created an immense new class of investors, people in most instances who never before bought even high-grade securities. Their experience with the war bonds turned the thoughts of hundreds of thousands of people to other channels of sound investment. It is felt that this growth of the number of investors in great national enterprises is bound to have a beneficial effect upon the relations between labor and capital.

The man with a stake in the country is as a rule a public citizen who stands firm against all theories and policies which menace the public interest.

Lightning (Boston Post).

Dr. A. W. Gilbert, the state commissioner of agriculture, finds that a person has one chance in a million of being struck by lightning in Massachusetts in the course of a year. But to some persons the one chance looks bigger at times than the 999,999 against.

Diamonds (Toronto Star).

The Prince of Wales has refused a 65 carat diamond in Kimberley, but has accepted one of 12 carats. Even a 12 carat stone is so large that there are very few, if any, of that size in Toronto, although they can be obtained in the regular way in New York or London.

The 65 carat stone, on the other hand, is so large as not to be a commercial proposition—comparing size, probably, with a twenty-five carat piece. A 25 carat stone is worth about \$600,000, but this value increases with the size of the stone, and the one accepted by the Prince would probably be worth \$10,000,000. It would be difficult to value the larger one.

Irretrievable Talk (Springfield Republican).

Secretary Wilbur is a very unfortunate person, or else he talks too much. A year ago at the time of a previous trip to the Pacific coast he was also making explanations as to what he had said, or had meant to say, and he was called back to Washington before he could deliver a speech which he had already prepared.

How much has been accomplished by the co-operation in the matter of avoiding duplication does not yet appear, but the figures indicate that the stern facts of traffic have forced both systems into a sharp curtailment of expenses. The position is evidently such that definite consideration of some plan of extended co-operation or unified control is bound to become an increasingly live issue.

IN LIGHTER VEIN (Flier).

"Lady of the House—'Yes, I have an old pair of my husband's trousers, but I'm afraid they're too large round the waist for you.'"

Frank—"Well, couldn't you gimme a dinner that would make 'em fit?"

One in a Thousand.

Solomon's 77th Wife—"Sol, are you really and truly in love with me?"

Solomon—"My dear, you are one in a thousand."

And she snuggled closer.—Columbia Jester.

Funny.

A little country girl went shopping in the city with her mother and had her first experience in a lift. "How did you like it?" asked the father on her return.

"Why, it was so funny, daddy," answered the child; "we went into a little house, and the upstairs came down."

Deliberate Bull.

"Never had an accident, you say," murmured the doctor to the man he was examining for life insurance. "What about the time a bull tossed you over the hedge?"

"That wasn't an accident," replied the other. "He did it on purpose."—Toronto Evening Argus.

SAYS FOSTER DRIVEN OUT BY BIG PARTY MEN

James Lewis spoke briefly and asserted that he would support the enforcement of the Prohibition Act most strongly if elected.

A vote of thanks was tendered the chairman, Mr. Turner, at the close of the meeting.

COL. HARRISON.

Col. W. H. Harrison, K.C., Opposition candidate, followed Mr. Inches and asserted that there has not been a year since 1917, that the Government have not spent considerably more than the revenue taken in. "In 1925 they spent \$500,000 more than they took in, and out of the revenue of \$3,800,000 last year \$1,400,000 went to pay interest charges."

Dealing with the prohibition question, Col. Harrison said that the policy of the Government was to sell as large an amount of liquor as possible, and that last year the Government realized profits of \$400,000. "And then they complain that the vendors are not selling enough," he remarked.

Col. Harrison closed his address with remarking that the Opposition party stood for progressive policies in the development of the province's natural resources.

MR. TILLEY SPEAKS.

"Sir Henry Thornton is receiving a salary of \$50,000 annually, he wants an increase of \$25,000, and the Union Depot is not even being patched up. This province, as well as Nova Scotia and the other Maritime provinces, has proved freight rates. We will get them if the Opposition is elected and the former Government."

MR. INCHES SAYS GOVERNMENT YEARLY SPENDS MORE THAN REVENUE.

Dealing with ex-Premier Foster's resignation from the leadership of the Provincial Government, which took place in January, 1923, and arguing that this was brought about by the alarm felt by influential North Shore supporters of the Government over the fact that as the provincial revenue had increased from \$10,000,000 in 1917 to \$20,000,000, the Government had not reduced its expenditures, C. F. Inches, K. C., addressed a largely attended gathering of supporters of the Opposition party at the Palace theatre, North End, last night.

The Opposition candidates also spoke. Mr. Turner acted as chairman for the evening.

Mr. Inches asserted that Premier Veniot had endeavored to keep the expenses within the year's revenue.

LUMBER INTERESTS AND LOCAL PAPER ATTACKED BY RAND

Insinuates Conservative Party Associated With Wearing of White Hoods Who Burn Fiery Crosses on Hilltops

DERIDES TELEGRAPH-JOURNAL POLICY

Alleges "Big Interests" Dictate Editorial Stand of Newspaper— Gives Hearty Endorsement to Grand Falls Development— 1,500 People Hear Minister and Former Premier Foster

A BITTER tirade against the Telegraph-Journal, a savage attack on Angus McLean and Donald Fraser, prominent lumber operators in the province, slighting remarks about prohibition, attacks on Hon. Dr. Baxter, leader of the Opposition, and insinuations that the Conservative Party was mixed up with white hoods and burning crosses, and a hearty and complete support of Grand Falls development as planned by the Liberal Government, were among the outstanding features of the address delivered last evening by Hon. Ivan C. Rand, Attorney-General for the province, before an audience of about 1,500 people in the Imperial Theatre.

In the course of his remarks he attacked several defunct papers to the effect that in his estimation it was not supporting the Liberal Government because many of the largest shareholders were connected with the "big interests," mentioning particularly the New Brunswick Power Company. He remarked that it was because of this that the paper maintained what he described as a "benevolent neutrality."

DELEGATION TO OTTAWA. He also caustically alluded to delegations to Ottawa, which he intimated "sometimes knew what they wanted and sometimes they did not, while sometimes they were newspaper stunts."

The Attorney-General was particularly bitter in his denunciation not only of this newspaper but also of Messrs. McLean and Fraser, the last named being pilloried in a savage manner as one who was concerned not with the economic welfare of the province but about its "souls" and the cause of prohibition.

FILM SHOWS ROAD WORK.

Before the meeting officially opened the citizens were entertained by a film depicting the road work being done under the present administration, including actual pictures of the road machines in action. The results of work and pictures of the bridges built were shown. This was a film without burning crosses, the efforts of Premier Veniot.

P. D. McAVITY, who acted as chairman, introduced the speaker by a complimentary speech on the platform were Hon. Dr. Foster, who also spoke; R. T. Hayes, M.L.A.; Hon. Dr. Roberts, E. J. Hensberry and Colonel Alexander McMillan, D.S.O.

RAND GLAD TO SPEAK.

Hon. Ivan C. Rand, in opening his remarks, expressed pleasure at the opportunity afforded him to address the citizens of Saint John. He declared that he was proud of the record and policies of the present administration during its seven years of office. He felt that it would be in the best interests of the province to return the Government again to power.

He said that he was here in the home of the leader of the Opposition, Hon. Dr. Baxter, he said, deserted the round table of "Little Arthur" at Ottawa and came to this province in the role of an ancient knight of the Round Table as if to rescue some fair maiden. This Sir Galahad, Mr. Rand said, apparently felt he had the strength of ten. The regalia also has appeared to change and it now is some kind of white hood and burning cross.

HEALTH DEPARTMENT.

The Opposition leader's criticisms of the administration are hard to nail down to a definite charge, said Mr. Rand. "He apparently could not find any fault with the Health Department for the reason that it had been carried on in such an efficient manner by Hon. Dr. Roberts. This department, the speaker said, had been brought to the present high state of efficiency by the present Minister of Health.

MET OPPOSITION.

When Dr. Roberts first proposed this, Mr. Rand said, he found 45 members opposed to him, but he persevered and finally convinced them of the need of the province. Unless the present life of the province, the speaker said, were given the best attention the Government was neglecting the fact that the child was father to the man. Our faulty judgment would be shown in the years to come if we faltered in this regard, he declared.

FREE SCHOOL BOOKS.

The free school books for children up to grade five were mentioned next. He said that the Government realized that in the keen competition of the world today the country could not afford to permit the children to grow up with "rusty brains." Other Governments have talked this issue, he declared, but it remained for the Veniot administration to realize it.

CROWN LAND DEPARTMENT.

In the Crown Land Department Dr. Baxter had said, the Attorney-General continued, that he would institute an inquiry into the lumber situation. If so he would find in the department a degree of efficiency never found in the department under the old administration. He would find that this was quite a change from the way the department was carried on under the Conservative regime when the public eye on account of events, especially in 1914-15. Now, when it is honest, he said, people hear nothing of the work.

THINKS REASONING BAD.

Next taking up the debt question the speaker declared that the Opposition were denouncing the extravagance of the Government on the roads, but he pointed out that this far they had not suggested that they would abandon spending money on roads. Permanent roads were here to stay. Dr. Baxter said in Moncton last November, continued the speaker, that the road policy of the present Government was necessary. However, since he could not apparently put his finger on any definite

cause the latter had questioned the local Government's development at Grand Falls. He said that when Mr. McLean and other interests failed to secure all the reductions aimed for in the lumbering industry requested from the Liberal Government he suddenly had made the discovery that \$30 per horsepower was too high for the Best-hurt Company, Ltd. to pay for power from Grand Falls and they could not handle it.

"SHOWED THEIR TERTLE."

The speaker said that some time ago Mr. McLean had declared that \$70 was the cost of horsepower due to supply light at Newcastle and today they were paying the company \$75 for it. "Now the company will perish, he said, if it has to pay \$30 for power according to Mr. McLean. He will wait until the crack of doom before he will get power at \$12 per horsepower," was statement of Mr. Rand.

"Mr. McLean and Mr. Fraser came to Fredericton and wanted the province, among other things to refund to the lumbermen certain stumpage charges paid this year, a sum of about \$200,000," he continued. "Since the Government would not do this they showed their teeth now that an election campaign is on."

VOICE FROM AUDIENCE.

"Do you couple the Fraser Lumber Co. with these charges?" a voice from the audience asked. "I am speaking generally of the lumbering interests and about matters which are common knowledge," Mr. Rand replied.

"If you have any charges to bring against the Fraser Co. your chance good," was the retort.

The Attorney-General then replied, announcing that he was speaking in Mr. Donald Fraser to whom he attributed the interruption. He told Mr. Fraser to listen carefully to what he had to say about the lumber interests.

SAYS PEOPLE WILL JUDGE.

He admitted that he knew that Mr. Fraser was feeling annoyed over the matter of the stumpage rates, but he said that he would leave it to the people of New Brunswick to judge whether the party had done right in refusing to contribute a quarter of a million dollars to the lumber interests. "Mr. McLean has consistently opposed the Workmen's Compensation Act," he said, "and he has done so through the courts and paid up his share only when forced to do so by the Supreme Court of Canada. He is strictly opposed to the policy."

Mr. Rand said he felt that if the Conservative party was put into power one of the first acts would be to change or amend this act to suit Mr. McLean and his friends.

Referring again to Mr. Fraser, he said that the latter had not signed any contract with the Government for power, and that he had been quoted Mr. Fraser as saying he would not take it. The speaker said that the reason of this was that it was being developed by the Liberal Government.

PROHIBITION REFERENCE.

This public-spirited citizen, Mr. Rand said, returning to his attack on Mr. Fraser, said that he had seen the pulp in New Brunswick and shot into Maine to be made into paper and other workmen because of the chance to save the duty.

"This man," he thundered, "is not interested in the province in any way except one. He is not concerned in its economic welfare but he is bitterly concerned about its soul. He has been strongly advocating temperance and preaching it throughout the province even in districts where the inhabitants were going around in rags and poverty and on the verge of starvation, and did not know even the taste of liquor in many cases."

SAYS OTHER HELP NEEDED.

Mr. Rand did not favor work of such kind when what the people needed and needed desperately was help to make a living and secure food. He remarked that he thought he had observed the laws of temperance as well and perhaps better than Mr. Fraser and he was not going to spend his time telling the people to abstain from drinking.

The main reason that Mr. Fraser would not sign a contract for power from Grand Falls, Mr. Rand declared, was because it had not been carried out by the Tory party.

"GIVE IT A TORY DAUB AND PAINT IT BLUE AND MR. FRASER WOULD TAKE IT TOMORROW," the speaker asserted.

NO POLICY, HE SAYS.

The Opposition had no policy, he said, and would not tell the people what they would do with hydro or with the road work or anything else. They were coming to the people holding out the Ten Commandments, and asking the voters to elect the party to power and trust them.

"DR. BAXTER REGRETS," Mr. Rand asserted, "that he ever helped put prohibition on the statute books and had said that he would like to see as any other criminal act. No doubt Mr. Fraser when meeting Dr. Baxter would look up and say, 'Ah! my knight in the white hood!'" Mr. Rand remarked.

DENOUNCES NEWSPAPER.

Turning his fiery attack from Mr. Fraser, he denounced the Telegraph-Journal. He alluded in the first place to delegations to Ottawa which he intimated sometimes knew what they wanted and sometimes they did not, while sometimes they were newspaper stunts.

He proceeded then to demand why the paper, as he put it, was keeping so "quiet" when such important issues were before the people. He held the Telegraph-Journal up to ridicule and applied several derisive phrases to the paper. He asked where "they were" editorially on the important issues and then referred to an alleged editorial which he claimed was meant to get the people to vote against the supporters of public ownership.

HIS VIEW OF REASON.

In explanation of why they were not there he apparently believed they should be, he said that Angus McLean was one of the owners of the company and was the people back of the New Brunswick Power Co. and others of the "big interests" and this was the reason he maintained for their "benevolent neutrality."

At the conclusion of his address Mr. Rand was greeted with hearty applause.

HON. DR. FOSTER SPEAKS.

Hon. Dr. W. Foster, former Premier, spoke next, saying he had felt during Hon. Mr. Rand's address that Premier Veniot was to be congratulated on adding him to his cabinet. He thanked the meeting for its confidence in him and its support in the past accorded him.

He had had the honor of appointment to the New Brunswick Electric Power Commission and wished to go into some of its duties. He thought

the Government had carried out the promises made in 1920. He reviewed promises made during the campaign of 1920, among them being the principle that the people should have hydro-electric power.

HAD CHANCE, HE SAID.

The Opposition had failed to bring forth its manifesto of what it would do when it had the opportunity in reply to the Speech from the Throne. It had now been published, he said, and he asked them to examine it to see if it would hold out any hope for an improvement of conditions.

The Workmen's Compensation Act had been changed from time to time to meet changed conditions, he declared, and he asked the workmen to inquire of the Opposition what changes they intended to make. The general purpose of the act was still what it had been originally.

They had been asked to change from the capitalization plan to the current cost plan, he said. He explained the difference in working of the plans. Were the Opposition going to change the principles? He showed the workmen to ask.

SAINT JOHN AND HYDRO.

The Saint John people might be tired of talking "hydro" he said, but they were not tired of hydro prices or the principle of power at cost. What were the Opposition going to do; were they going to hand the

power over to the New Brunswick Power Company? he asked. He only wished they would say what their stand was.

In regard to the lumber industry, he said that the Government had brought down its policy in view of the hardships of the business and the lack of profit to men or companies.

He reviewed the water power policy of the Government and declared the Government could confidently ask support on this account. He asked them to try to find any item in their tax bills for the cost of hydro light. He was proud of the Musquash development and felt that the people of Saint John were glad of it.

NOT SHELVED, HE SAYS.

He had not been completely shelved politically, he said, and he did not intend to give up all public work. He wished to say that he had not asked for or sought the honor given him as a member of the Commission.

They were going to let the Grand Falls contract in spite of Dr. Baxter's remarks in this regard, and they were going to let it without favor to the man whose figure was lowest when tenders were opened, he declared.

The vote on Aug. 10 would mean either the support or the destruction of the policy of hydro power at cost, he said, and he appealed to all to

Action Held Up On Thornton C. N. Contract

OTTAWA, July 28.—"No action whatever has been taken to date in respect to a renewal of the contract with Sir Henry Thornton," stated Right Hon. George P. Graham, Minister of Railways and Canals, today. "This matter has not been discussed in any way between Sir Henry and myself," added Mr. Graham.

Sir Henry's present contract with the government as president of the Canadian National Railways expires in October next. Under this contract, which was for a term of three years, Sir Henry receives an annual salary of \$50,000.

The meeting closed with three cheers for The King.

BOY DIES AFTER AUTO ACCIDENT

Laurence Allan Smith Knocked Down in Wall Street Two Weeks Ago

Rallied After Operation, But Passed Away Last Night in Hospital.

Laurence Allan Smith, four-year-old boy who was struck and knocked down by an automobile in Wall Street about two weeks ago, died last evening in the General Public Hospital following an operation necessitated by injuries received in the accident. He had appeared to rally after his injuries but succumbed last evening to the drain on his vitality caused by the operation. According to the report to the police at the time of the accident, July 11, the young fellow stepped in front of an automobile driven by Stockley Crow-ley, of Sandy Point Road, just as the

car was passing a grocery wagon. He was struck and knocked down before the driver could bring the machine to a stop.

STORY OF ACCIDENT.

When picked up he was crying. His father, William T. Smith, of 10 Wall Street, arrived on the scene and took the lad to the hospital. Mr. Crowley reported the accident to the police.

The boy is survived by his parents and two sisters, Doris and Betty. The funeral will be on Thursday afternoon at 2:30 o'clock from his parents' residence to Fernhill Cemetery.

The family of the unfortunate lad will receive the sympathy of many who knew him, as the little fellow was well liked.

Play Tennis With a Spalding Racquet

Because champion players and professionals find in Spalding's Sport Equipment the acme of perfection, you should consider it reason enough to follow as they lead.

Our stocks just now provide variety enough to suit each individual taste. Not only in equipment for Tennis, but also for Golf, Baseball and other seasonal games.

Spalding Goods are all thoroughly guaranteed. They'll stand all tests of quality and can be depended upon to give satisfaction. If you're interested in sport of any kind, we'll be glad to show you equipment to suit your special need. (Ground floor.)

Sale Of Trimmed Hats Imported Models \$4.50

NO APPROBATION—NO EXCHANGE

Your big opportunity to select one of the season's highest priced imported models and pay only the price of a very ordinary hat.

Assortments are large—you'll find dozens of attractive shapes, colors and types from which to make selection. There are hats from some of the world's leading designers. Many that perhaps you looked at earlier in the season and considered far too high priced to buy.

The only cheap thing about these hats is the price. Everything else is high grade and of authentic style. Better be here as early as possible. Many people will be quick to appreciate the wonderful value they are offered and best models will be selected first.

(Millinery Salon, 2nd Floor.)

This Black Satin Frock Is Trimmed With Cream Lace

By Marie Belmont

HEAVY lace in a lovely cream tone makes a very effective trimming for this youthful black frock, sketched above.

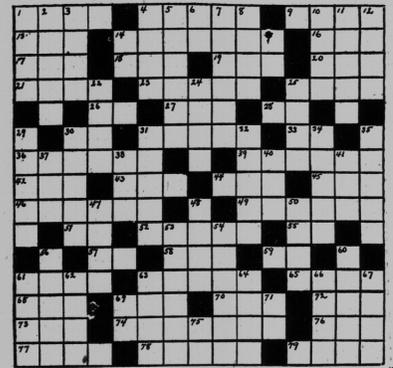

The dress is cut with a straight back all in one piece. The bodice is fitted a bit at the sides so that it wrinkles across the figure.

The front fullness which has been popular for so long continues to be used and will appear in fall frocks as well. Other fall dresses reverse the idea and concentrate all their fullness at the back.

THREE MISSION FIELDS VACANT

Bishop Richardson Announces Parish Appointments at Synod Committee Meet

Laymen's National Movement Reviewed — Purchase of Rectory Discussed.

In the Diocese of Fredericton there are now only three vacant mission fields. It was reported at the meeting of the Board of Missions of the synod held yesterday afternoon in connection with the quarterly meetings of the standing committee of the synod which were held in the Church of England Institute. His Lordship Bishop Richardson presided.

The Board of Missions discussed the purchase of a rectory property in the mission of Canning and Chipman making a recommendation to the executive committee which the executive committee at a subsequent meeting referred to the Board of Finance. The treasurer's report was received, having been forwarded by J. H. A. L. Fairweather, who is now abroad.

PARISH APPOINTMENTS.

The Bishop reported appointments to parishes in the diocese as follows: Rev. H. J. Best, to Burton and Margerville; Rev. G. I. Edsforth, to Canning and Chipman; Rev. H. S. Shepherd, to Derby and Blackville; Rev. N. P. Fairweather, formerly at Musquash, to St. Mary's, York county; Rev. Edmund Hallstone, to St. Stephen; Rev. W. Clarke, to succeed Rev. W. Wilde at Gordon and Lorne. Mr. Wilde is returning to England.

The three vacant missions are at Greenwich, Musquash and Hillsboro. The Bishop announced also the appointment of students for the summer as follows: Eldon, Arthur Coleman; New Brandon, Maurice Oldham; Welford and Harcourt, F. J. Kehle; Gladstone and Blisville, Todd G. Bennett; St. Mary's, York county, John Coyne; Greenwich, Harold H. Hoyt; Aberdeen and Brighton, Herbert J. Hoyt; Hillsboro, A. S. Coster; Musquash, Arthur Pickering; Robesay, Julian McManis; Westfield, Mr. Newton, and West Saint John, Mr. Pocock.

LAYMEN'S MOVEMENT.

The executive committee discussed matters in connection with the Laymen's National Movement and dealt with the reports of the various committees which had met previously. Amongst those from outside the city who were present at the committee meetings were Judge R. W. Newstead, Moncton, who has been prevented by illness from attending the meetings for some time; Ven. Archdeacon David Forsyth, of Chatham, and O. E. Newham, of St. Stephen; Canon A. W. Smithers, Fredericton; A. V. Daniel, Robesay, and M. C. Shewen, Sussex; Rev. E. P. Wright, of St. Stephen; Rev. J. R. Byles, Welford; Rev. P. J. Dunham, Hampton, and Rev. P. J. Haslam, Petticoke.

The Social Service Council convened on Monday afternoon with Ven. Archdeacon A. H. Crowfoot presiding in the absence of Rev. J. V. Young, chairman. Amongst those present was Rev. H. T. Buckland, Spragfield. No business of importance was brought up. In the evening the committee on Religious Education was in session and elected Rev. W. P. Dunham of Hampton, as chairman, and Rev. E. P. Wright, of St. Stephen, as secretary. Those present besides, Mr. Dunham and Mr. Wright were Archdeacon Crowfoot, Rev. J. H. A. Holmes and H. Usher Miller.

SUMMER SCHOOL.

After a general discussion on the advisability and possibility of holding a summer school for Sunday school teachers, the matter was referred to a committee consisting of the secretary and chairman, Archdeacon Crowfoot and Mr. Holmes. The committee will submit a report to the committee on religious education at a later meeting. The holding of deaconry Sunday school conferences was also subject of discussion.

Social Notes of Interest

H. Price Webber, the veteran actor, of Augusta, Me., who accompanied Mr. and Mrs. J. D. Stanley to Prince Edward Island ten days ago, when they visited their former home, was in the city yesterday with Mr. and Mrs. Stanley, who are returning today to their adopted home in Augusta. Mr. Price Webber, who is leaving with them, rejoices much in renewing old friendships and associations on "The Island" and also in Moncton, where they stopped over for a short time. Many extended a welcome to Mr. Webber when he visited some of his friends last evening.

Mr. J. B. McGinnis, of Marysville, was the guest of Rev. John Pinkerton at the parsonage, Fairville, while attending the sessions of the Saint John Presbytery. Mr. McGinnis will return today and Rev. Mr. Pinkerton will join his family at their summer camp on the Saint John River for a short holiday.

Mrs. F. B. Schofield gave a most enjoyable luncheon and bridge yesterday at the parsonage, Fairville, in honor of Mrs. A. C. Skelton, of Hamilton, Ont. Those present were Mrs. Skelton, Mrs. Andrew Jack, Mrs. Thomas Bell, Mrs. H. F. Puddington, Mrs. Walter C. Allison, Mrs. M. A. Pooler, Miss Ann Puddington, Mrs. William S. Allison, Mrs. Frank Fairweather, Mrs. G. E. Barbour, Mrs. John H. McIntyre, Mrs. Julian Correll and Miss Clara Schofield.

Mr. and Mrs. A. C. Skelton, of Hamilton, Ont., who have been visiting Mrs. James F. Robertson, went to Robesay yesterday, where they will be the guests for a few days of Mr. and Mrs. L. P. D. Tilley.

Among those who motored to Robesay yesterday and were guests of Mrs. Percy Thomson at luncheon and bridge at her residence, "Shadowlawn," were Mrs. T. E. G. Armstrong, Mrs. Herbert Schofield, Mrs. Frank S. White, Mrs. George McA. Biliard, Mrs. R. B. Buchanan, Mrs. J. Pope Barnes, Mrs. R. H. Gordon, Mrs. Gordon Saxon, Miss Edith Skinner, Mrs. G. F. Furlong, Mrs. Fraser, Sherbrooke, P. Q., Miss Mary Biliard, Mrs. Walter Gilbert and Mrs. Atwater Smith.

Mr. and Mrs. J. Lupton McAvity and Mr. and Mrs. Regina's Wright, who have been on a motor trip through

the White Mountains, returned home on Sunday.

The many friends of Mrs. J. Penwick Fraser, who has been ill in the infirmary, will be pleased to know that she is steadily improving and hopes to be able to return home next week.

Mrs. George Pilliter, of Woodstock, is the guest of Mr. and Mrs. Percy Turcot, Mount Pleasant.

Miss Helen Allison, of Robesay, is the guest of Mr. and Mrs. Robert G. Watson, Duck Cove.

Dr. and Mrs. F. L. Kenney and Miss Phyllis Kenney, who have been on a motor trip to Montreal, returned home on Sunday.

Mrs. J. Arthur McBride and Miss Eleanor McBride, who have been spending a month at Duck Cove, have returned to Montreal.

Mr. Barlow Cumberland arrived on Sunday by motor from Montreal and is the guest of Mrs. J. B. Cudlip, Robesay Park.

Mr. Everett Timmerman arrived from Montreal on Sunday and is, with Mrs. Timmerman, visiting Mr. and Mrs. J. S. Ford, Duck Cove.

Mrs. Annie G. Baxter, of 203 Main street, Saint John, N. B., and her guest Miss Helen G. Allen, of Newcastle, N. B., spent the week-end at the guests of Mr. Andrew J. Currie, Quaco Road, N. B.

Rev. Mr. and Mrs. Thomas Hicks, of Gagetown, are guests in the city, coming here to visit friends and to attend the sessions of the Saint John Presbytery yesterday. Mrs. H. E. Thomas accompanied her husband, Rev. Dr. Thomas, and Mrs. George J. Trueman accompanied Dr. Trueman from Sackville. Both ladies were delegates from Sackville.

Master Harold Stevens, of Everett, Mass., arrived in the Prince Arthur Monday and will enjoy his holidays in his grandparents, Magistrate and

BRITAIN IS HARD UP, BURNHAM REVEALS

Old Country Can't Lend Any Money Abroad Till Conditions Improve.

Canadian Press Despatch. VANCOUVER, July 28.—"There is no use living in a fool's paradise. We've got to face the facts," said Lord Burnham, chairman of the Imperial Press Conference in the course of an interview.

"After-dinner speeches about the solidity of Empire are very interesting and delightful," he said, "but we've got to have something more tangible than mutual eulogies. There is no getting away from it; conditions in the Old Country are far from satisfactory."

Asked why Britain did not send out more capital for the development of the resources of Canada, he said:

"This year for the first time in the history of Britain the country has had to draw on its capital. For many years, it is true, the balance of trade has been against us, but this adverse balance has been more than overcome by the in-

Forced Landing Reveals Liquor in Craft—Pilot Flees.

KALAMAZOO, Mich., July 28.—The forced landing of an airplane here has started an investigation of what officers believe is a conspiracy to transport liquor from Windsor, Ont., to Chicago by air.

The plane crashed in a meadow and the pilot fled. Sheriff Jerome Borden found more than 100 quarts of whisky in the craft. Letters in a suitcase taken from the machine convinced the sheriff's men that the flier left a Windsor flying field about 8 o'clock yesterday.

TO BE HOME SOON.

Rev. F. J. LeRoy, of the Good Shepherd church in Fairville, and Mrs. LeRoy are spending their vacation in Prince Edward Island, and are expected home by the end of the week when they will extend hospitality to the members of the Church Army passing through Fairville. CEMENT RUNS HIGHEST IN MONTREAL

More Than 1,000 Shares Change Hands in 15 Minutes

RAILWAYS ARE MORE ACTIVE

Initial Gains Recorded in Wall Street on Transportation Issues

MONTREAL, July 29.—Canada Cement featured the early trading on the local stock market this morning by advancing 1 1/2 to 106. It was also the most active issue, well over a thousand shares changing hands in the first 15 minutes. Next in activity came Winnipeg Railway, with a gain of three-eighths to 93-9/8. Another strong and active stock was Montreal Power, which advanced one to 194 1/2. Atlantic Sugar followed at 94 1/2, up the fraction. A few of the more important leaders were easier. Canada Car preferred was off one-quarter at 79, Bank of Montreal one at 240, Shawinigan one at 164, Steamships preferred one-half at 45, Ogilvie three-quarters at 162 1/2, and Dominion Textile one-eighth at 85 7/8. Bank of Nova Scotia, in a small lot transaction was up two to 274. The balance of the list was firm, Brazilian, Industrial Alcohol and National Breweries selling unchanged at 29, 15 and 40 1/2 respectively.

IN WALL STREET.

NEW YORK, July 29.—Renewed buying of the railroad shares, apparently inspired by the publication of statistics showing that freight car loadings crossed the million mark for the first time this year in the week ended July 18, featured the opening of today's stock market. Initial gains of a point or so were recorded by Southern Railway, Norfolk and Western and "Katy" common, while Western Pacific preferred and Atlantic Coast Line mounted to new high levels for the year. Dupont opened two points higher at the record top of 191 1/2.

CABLE TRANSFERS

MONTREAL, July 29.—Cable transfers 488 1/2.

NEW BRUNSWICK'S NEW BOOM

Since the Government's New Roadways have graced the Province from one end to another, tourist traffic has doubled, trebled and quadrupled. In addition there are over 18,000 New Brunswick-owned automobiles. Our Province is now definitely linked up with the great roadway systems of Canada and the United States. The new Admiral Beatty Hotel in Saint John would never have been erected if our modern roads had not been built. Then listen to the childish "knocking" of Opposition candidates—it's ludicrous!

A PREMIER'S BROKEN PLEDGE

L. P. D. TILLEY, K. G.

HIS PROMISE IN THE LEGISLATURE

On the floors of the Legislature Premier Veniot promised the people of New Brunswick that the question of the Development of Grand Falls would be submitted to them at a general election for their approval or disapproval before a single contract would be let.

BREAKING FAITH WITH THE ELECTORATE

That was a solemn pledge and Premier Veniot has broken it. He is letting the contracts for the development of Grand Falls, the biggest undertaking this province ever has contemplated, NOW, on the eve of the election.

WHY?

Has he read "THE HANDWRITING ON THE WALL?"

Is he convinced the people will throw out his one man government, and does Grand Falls loom up as his last chance for a big killing?

Or, are the contractors for this gigantic enterprise, started on the eve of an election, expected to contribute to the Government campaign fund from the millions which are to be paid them if Veniot is returned to power?

Whatever the answer this stern fact stares the electors in the face—A PREMIER HAS BROKEN FAITH WITH HIS PEOPLE.

He must pay the price.

In Germany a Kaiser chose to regard his solemn pledge in a treaty as only "A SCRAP OF PAPER." A whole world rose in arms and millions died to make HIM pay the price.

In a little Dutch village the Kaiser nurses his regrets.

Morning Stock Letter

NEW YORK, July 29.—There are two very bullish factors this morning, one the surprisingly good steel earnings statement and the second, the very favorable car-loading figures. Both should have its effect on the market. Profit taking was heavy enough yesterday in conjunction with the heavy sailing of oil and several motors, to bring a great deal of nervousness into the list. Stocks are at a very high level, trading is nervous, money is beginning to stiffen in anticipation of the fall demand on credit, and there are other signs that the market is approaching a culmination of this movement. At this time it seems likely that with the improvement in business stocks will continue strong for the time being. Do not hesitate to take profits on these upward movements. We believe though that certain groups in the list will sell at

Higher prices.

We look for advances in some of the steels, some rails and some specialties. Steel Common should do better and should be and the Southern Steel Companies. In the rail list look for higher prices in Frisco, Katy, N. Y.

C. D. and W. RG and SE.

In the specialties we believe Warren Bros. built by C. H. Allen, Pittsburg, Pa., has 165 parts and weighs only 19 lbs.

The smallest engine in the world.

In the specialties we believe Warren Bros. built by C. H. Allen, Pittsburg, Pa., has 165 parts and weighs only 19 lbs.

Opposition Shouting Will Not Convince Them!

The Women Voters Know How to Size Up Election Questions

MOTHERS, WIVES, DAUGHTERS, and that large and important army of women engaged in the commercial and professional fields. They help carry the home burden of expense, they enter into the pay-day plans of every household in New Brunswick.

These Matters Appeal to Their Sense of Appreciation and Fair Play:—

THEY KNOW that the Government has accomplished wonders in its nine years usefulness.

THEY KNOW that 1200 Lives have been saved each year by Health regulations.

THEY KNOW how the Household Electricity Bills have been cut down since Hydro came in.

THEY KNOW that Technical Education is the hope of many a New Brunswick family.

THEY KNOW how they have been enjoying the Good Roads throughout the Province.

THEY KNOW the Workmen's Compensation Act gives over half pay up to \$1,500 earners.

THEY KNOW what the Department of Health is doing for all classes of citizens.

THEY KNOW the Government will next term Give Free School Books up to Grade Five.

THEY KNOW that Infant Mortality has been reduced more than 400 deaths per year.

THEY KNOW the Government is Not Slow, or Afraid to improve living conditions.

ANNOUNCES THAT HE MAY RETIRE PERMANENTLY

St. Paul Heavyweight Stayed 15 Rounds With Dempsey

ST. PAUL, Minn., July 29.—Tommy Gibbons, St. Paul heavyweight, who stayed fifteen rounds with Jack Dempsey, but who subsequently was knocked out by Gene Tunney in New York, has hung up his gloves to devote his time to his family and business.

Wife Still Sick. Gibbons announced last night that he had retired "temporarily—and perhaps permanently." Illness of his wife, in a hospital here, when Gibbons fought Tunney, is given as the prime reason for the move.

It wouldn't think of fighting until this fall" Gibbons said, "and then perhaps I won't fight at all. I don't think my wife would wish to have me fight again."

Quality Price Brought Down

The achievement of the Triple C Tailors in bringing down the price of quality tailoring is worthy of notice.

Importing direct from the English woolen mills through boats landing at Saint John, they obtain prices below wholesale in top quality cloth.

35 tailor team-work, low upstairs rent, and large patronage enable them to quote tailored to order Suits between \$20 and \$35. None have so small a profit percentage, none approach their values.

SCULLY DECLINES NOMINATION

ANNOUNCES HE WILL SUPPORT GOVT. TICKET

Is Thankful, But Declines to Carry Out Wishes of Petitioners

CAMPAIGN IN CITY IS WARMING UP

Public Meetings of Both Parties Creating Considerable Interest

W. E. SCULLY, M. L. A., definitely announced this morning to The Times-Star that he would not be an independent candidate in the coming election and would support the Government candidates in this constituency. Mr. Scully said he appreciated the compliment which had been paid him by his friends who signed the petition asking him to offer as a candidate, and desired to thank them most sincerely for the honor. He felt, however, that the Government should be returned to power on its record and his influence and efforts would go toward that end. An announcement was made at a meeting of the Government party central executive this morning to the effect that, in a letter to Hon. W. F. Roberts, Mr. Scully intended supporting the Government ticket in the coming election.

CAMPAIGN WARMS UP

Since last night's meeting in the Imperial Theatre in the interests of the Government candidates, which was addressed by Attorney-General Rand and ex-Premier Foster, interest in the campaign has taken another upward climb and it is expected before nomination day on Monday the campaign will have reached its anti-climax at any rate. Mr. Scully said he did not intend making an announcement until after he had met the petitioners but after the announcement of the government party executive, he agreed that the statement was correct. He said he could make a fuller announcement this evening to the signers of the petition.

HYDRO TENDERS CLOSE TOMORROW

Electric Commission Will Meet Here Friday to Consider Grand Falls Bids.

A meeting of the New Brunswick Electric Power Commission has been called for Friday of this week to open the tenders for the main works in connection with the Grand Falls development, which closes tomorrow. It is expected that the number of tenders for this work, specifications having been sent out to several firms, one as far as Vancouver.

Venue Coming.
The main object excludes a dam across the Saint John River, just above the crest of the falls, a tunnel half mile in length, running from below the main falls under the centre of the town to the lower basin, the forebay, power house, etc.
Premier Veniot, who speaks in Fredericton tonight, leaves tomorrow morning for Shediac, where he will speak tomorrow night, and on Friday he will be in Saint John for the meeting of the commission of which he is now the chairman.

SAYS GOVERNMENT WILL BUILD TRESTLE

W. A. Ross Explains Statement Regarding Little River Street Car Extension.

Engineers of the provincial public works department will on Thursday on the survey and plans for the bridge across Little River, W. A. Ross said this morning, when asked for details about his statement in this connection last evening at a meeting in East Saint John.

He said that some time he, acting for the residents of that section of the county, had appeared before the Public Utilities Commission and asked that an order be made for the extension of the street car lines to Lee's Corner. After hearing the evidence the board had made an order that the extension be made, provided the government make the bridge across the stream, safe to carry the tracks.

To Build Trestle.
The matter had been taken up with the government and they had agreed to build a trestle on the outside of the present highway bridge to carry the street car tracks, as it was felt the present structure was good for four or five years yet. Later a permanent bridge will be built here incorporating the trestle on which the street car tracks are run. The planning on the bridge is now being renewed.

As Hiram Sees It

"Look-a-her!" said Mr. Hiram Hornbeam to The Times reporter. "What's an Attorney General for?"
"To see that laws are observed," replied the reporter.
"If you see me walking down the road with a prohibitionist," said Hiram, "what 'ud you do?"
"I would report it to the Attorney General," said the reporter.
"An' what 'ud he do?" asked Hiram.
"He would have your boot legs examined," said the reporter.
"Would he hev me fined?" asked Hiram.
"That," said the reporter, "is a difficult question. Of course a man who would deserve at least to be held up to the scorn of humanity."
"Is that the law?" queried Hiram.
"And the gospel," said the reporter.
"Good Lord!" said Hiram.
"Amen," said the reporter.

MOVE TO DELAY SCHOOL OPENING IS DEFEATED

Trustees Refuse to Postpone Date From August 26 to September 9

APPOINTMENT OF AN INSPECTOR DEFERRED

Board Decides to Lay Consideration Over Until Estimates Taken Up

At a special meeting of the Board of School Trustees, held at noon today, it was decided to postpone action on the matter of appointment of an inspector of buildings until the estimates for next year are under consideration. A motion to postpone the opening of the schools from August 26 to September 9, subject to the approval of the Board of Education, was defeated. Dr. L. M. Curran, chairman of the board, presided, and others present were Mrs. E. E. Taylor, Mrs. D. P. Chisholm, E. R. W. Ingraham, Michael Call, A. A. McIntyre, S. W. Palmer, H. A. Porter, H. Colby Smith and Thomas Nagle, with the secretary, A. G. Leavitt.

Dr. Curran said he had called the meeting on the request of some members of the board, who wished the matter of appointment to the position of inspector of school buildings disposed of, and it had been called at the noon hour because his evenings were all engaged at present. The matter had so been dealt with that it had been decided to appoint such an official, and the names of all applicants had been eliminated except 13 and these were to be voted on at a special meeting.

ACTION OPPOSED

Mr. Porter said that as chairman of the buildings committee, under whose charge the appointment would naturally come, he was opposed to action at the present time. The work for this season had been laid out and was well under way, and he failed to see what benefit it would be to make an appointment now, particularly when the need for economy was considered. He moved the matter be laid on the table until the estimates for next year were under consideration.

This was seconded by Thomas Nagle, who said there seemed too much undue haste in connection with this matter and pointed out that if any inspection was needed the board had already in its employ a man who would make it all an extra cost to the board, Mr. George Hennessy, inspector on the vocational school.

SCHOOL OPENING

The chairman said he thought the matter of school opening date might be discussed at this meeting. Mr. McIntyre said he was in favor of opening after Labor Day, provided the board would not have to pay the teachers the government pay they would lose.

Mrs. E. R. Taylor said she was opposed to any extension of the holiday period, as the request came from only a small proportion of the community, and many mothers wanted the schools open to keep the children off the streets.

FINDS DYNAMITE

Boy Makes Discovery in South End and Notifies Police.

While playing about in the rear of the Consumers Coal Co. Ltd. office in Charlotte street extension yesterday, a 13-year-old boy, George Sutton, found six sticks of dynamite.
