REVIVAL OF FIGURE-SKATING.

(Toronto Globe.) By presenting a trophy for competition in figure-skating between the ladies of Canada, the Duke of Devonshire will do much to encourage a healthful and fascinating exercise already promoted by predecessors at Rideau Hall, notably Lord Minto and Lord Grey. Skating, like other sports, languished during the war, but there is a great revival of it this winter, and the competitions in figure-skating for the amateur championship of Canada, to be held in Montreal under the auspices of the Winter Club on February 20, will bring together a great array of experts, both ladies and gentlemen.

SMALLPOX AND THE "SLEEPING SICKNESS" IN ONTARIO PROVINCE.

Toronto, Jan. 29.—An increase of sixteen cases of smallpox in Ontario last week was reported by the provincial board of health yesterday. The total number of new cases is 304, as against 288 the previous week. There was one death last week, and that was in Toronto. This city reported 142 cases last week. In twenty-two municipalities the disease made its first appearance last week.

Eighteen cases of "sleeping sickness" were reported for the month up to last Saturday, and eight deaths. Sleeping sickness is not a reportable disease, and it is feared that there are many cases which have not been made public.

MAKES ATTACK ON CATHOLIC CHURCH

Montreal Delegate to One Big Union Convention—Finnish Confederates in Ontario Lumber Camps Spread Terror.

(Canadian Press Despatch.) Winnipeg, Jan. 29.—The feature of yesterday's session of the One Big Union convention was a bitter attack on churches for their alleged attitude towards organized labor, particularly the Catholic church, by a Montreal delegate. The Catholic church, he declared, opposed the eight-hour day and compulsory education. There are more than 87,000 illiterates in Quebec province owing to the action of the church, he asserted.

Secretary V. H. Midgeley complained of failure to send dues to the dominion executive which, he said, had brought that body perilously near to bankruptcy. Representative votes by delegates was the main subject discussed. It was decided that if a roll call was desirable, a representative vote would be taken, no man receiving more than one vote.

Fort William, Ont., Jan. 29.—One Big Union Finlanders are terrorizing various lumber camps near here by strikes and an open display of firearms. At a camp near Innes, a manifesto drawn up by the camp committee demanded among other things, the serving of afternoon tea and a morning luncheon. Armed with revolvers, the Finns compelled all workers to leave camp and come to Fort Arthur and demanded their pay, which was refused. The matter will be threshed out in the courts.

Winnipeg, Jan. 29.—The establishment of a labor college was advocated by the One Big Union conference yesterday, and until that could be established, a labor correspondence school. The representatives of the provinces to cope with a possible outbreak of influenza. Dr. Melvin, provincial health officer, only returned yesterday from Philadelphia, where his wife was ill, and Dr. Roberts gave all the more of his own time to the work. So instead of going to Toronto he sent a communication.

Hon. Dr. Roberts Was Unable to Attend

Hon. Dr. Roberts was unable to attend the National Conference in Mental Hygiene in Toronto this week. It was necessary for him to attend a session of the Kings county municipal council to explain the public health act, but more important still was the need of organizing the province to cope with a possible outbreak of influenza. Dr. Melvin, provincial health officer, only returned yesterday from Philadelphia, where his wife was ill, and Dr. Roberts gave all the more of his own time to the work. So instead of going to Toronto he sent a communication.

The health minister was not only honored by an invitation to attend the Toronto conference, but was to have been one of the speakers this afternoon. Dr. Boucher, Premier Drury, Sir George Burn, Lt.-Col. C. K. Russell, M.D., and Mr. David A. Dunlop were also on the list. The purpose of this conference is to give a boost to the subject of mental hygiene in Canada. Among those present are Dr. A. H. Desloges, of Quebec; Dr. J. D. Page, chief medical officer, of the department of immigration; Dr. J. C. Clark, of Toronto University; Dr. C. F. Hinks, Lt.-Col. Chas. F. Martin and many other men of note.

The presence of Hon. Dr. Roberts was desired because the advanced health legislation in this province especially in regard to vital statistics and medical inspection of schools, and the establishment of a health department with a minister in charge, has attracted attention all over Canada and the United States, all over Canada and the United States.

Bishop Critical of Group Government

Kingston, Ont., Jan. 29.—The group system of government was deprecated by Bishop Lawler in his annual charge to the Anglican Synod of Ontario here yesterday. He said there was a dangerous tendency in political life towards the formation of groups representing certain classes of the community, which, however lofty their profession of governing in the interests of all alike, were apt to modify these professions in the direction of vital statistics and medical inspection of schools, and the establishment of a health department with a minister in charge, has attracted attention all over Canada and the United States.

CHILDREN DEAD

Little John Lesly McBeath, aged two and a half years, son of Mr. and Mrs. Wesley Duncan McBeath of 73 City road, died yesterday afternoon of diphtheria in the Epidemic Hospital after a short illness. On January 28, Mrs. McBeath was called to Amherst by a telegram from her brother, notifying her of her niece's illness. She took her little son with her and became ill there. They arrived home on Tuesday night and it was found that the little lad had diphtheria. Death came yesterday afternoon at the household of the last of a happy family of children. Mrs. McBeath will be felt for the bereaved parents.

POLICE COURT

In the police court this morning one man arrested on a drunkenness charge was fined \$8.

LIKE OLD TIMES WITH THE BOSTON FIRE DEPARTMENT

Boston, Jan. 29.—Horse-drawn pungs have been used by the fire department here this week for the first time in more than twenty years. The heavy snow fall led to a search of the department stores and at least a score of old pungs were found. These with others hired and equipped with fire fighting apparatus were placed in the suburban stations, where they have proved their usefulness in hilly districts.

REPORTS ON "FLU"

Montreal, Jan. 29.—(By Canadian Press)—During the period Jan. 20-27, there were forty-six cases of influenza reported to the Montreal health department, seven deaths from the same disease and thirty deaths from pneumonia and broncho-pneumonia, according to figures given out yesterday by Dr. S. Boucher, medical health officer. Dr. Boucher concludes that this number of cases reported in eight days is a low figure for the time of the year and does not indicate that influenza is spreading in Montreal. He says the number of deaths is also normal.

NO INCREASE ASKED

It was said today at the office of the board of school trustees that the figures published yesterday concerning proposed increases in salaries to members of the office staff and the superintendent were incorrect, and that no increase had been asked for. The figures given under the heading "present salary" were those for 1914, while those in the second heading were what they had received in 1919.

A PLEASANT EVENING.

The staff of the C. H. Townshend Piano Company, Ltd., together with their friends, numbering twenty-seven in all, left the city on Tuesday evening for a sleigh drive and dance at the home of J. H. Tonge, Little River. Soon after arriving at their destination a bounteous supper, supervised by Mr. Tonge, was partaken of. During the evening dances were participated in to music furnished by Mr. Vincent on the accordion. The evening's pleasure was greatly enriched by several comic selections given by Mr. Tonge, who kept the crowd in an uproar of laughter between dances. It was about 1 o'clock when the gathering broke up and made for the sleighs. All are of one accord in pronouncing the evening one of the most enjoyable and are looking forward to a repetition.

MR. JOSEPH KNOWLES

To the younger generation the news that Mr. Joseph S. Knowles has gone to his rest is merely a chronicle in the day's events. To those whose memory goes back thirty to fifty years the name recalls much that was joyous and sprightly. In times when the play of wit and humor added spice to a life far less strenuous than men lead today, "Joe Knowles", in those years was the life of every group in which he moved. His good humor was irresistible, his laughter contagious. The humorous side of every incident or characteristic appealed to him, but there was no sting in his comments on men and things. His store of jokes and funny stories was inexhaustible, and by the turn of a word or a phrase his nimble brain provided laughter for all. His nature was sunny, his social instinct highly developed, and his companionship of the lovable sort that inspires confidence and wins friendship. There was a deeper side to his nature, which made him sympathetic toward all who suffered pain or loss. He developed a talent for humorous writing, and a publisher, but without continued success; although his Gripesack is remembered with pleasure by the old-time men of the road, for whom as for many others it brightened many an hour; and earlier publications of a humorous sort to which he contributed are still the subject of appreciative comment by the older generation. There is a song of which you are sure—"Brighten the corner where you are." This might be described as the motto of Mr. Joseph S. Knowles. He was without an ardent Canadian and lover of British institutions, and retained to the last his keen interest in all that went on about him. In all the comment evoked by his passing there will be none but kindly words such as he himself would speak of others.

TURKS AND BOLSHEVISTS

That Bolshevism is contrary to the religious training and patriotic sentiment of the Turks is the assertion made by Mustafa Kemal Pasha, the leader of the nationalist movement in Asia Minor. A recent cable says he denied that his adherents in the nationalist cause were league with Eaver Pasha or others reported to have been converted to Bolshevism. "Bolshevism is against every national idea that we cherish and if a peace is made for us that will help us to maintain our ideals," he said, "we shall rise from the ruins which are the result of too many wars. Of course, if the allies force a peace on us that furthers the destruction of our land, it is difficult to predict what will happen. Our people might make some sort of a temporary alliance with the Bolsheviki, but Bolsheviki they will not be at heart. Their religion and their patriotism will save them from it." The question of the future of Asia Minor is giving the Allied nations a good deal of trouble. Turkish claims and Greek ambitions, to say nothing of the demands of different sections of the population make the problem one of extreme delicacy, and the failure of the United States to accept its share of the responsibility adds to the general embarrassment. The Bolshevists would be very glad if complications in the near east would divert attention from their doings in Russia, and would do all in their power to promote discord. It is the task of the Allies to compose differences and have as little trouble as possible with the Turks.

A REAL SUNSHINE CLUB

A citizen remarked to the Times-Star the other day that he had cultivated the habit of speaking to those he met on the street, whether he knew them or not, and derived a degree of pleasure from the passing salute. Noting the fact that the Winnipeg Life Underwriters' Association recently decided to inaugurate a "smile and speak-first campaign," Canadian Finance heartily approves of the custom and says:— "We talk co-operation; we preach co-operation and we tell the other fellow the value of it—why not live up to our ideas and put co-operation into actual practice. Before we can co-operate successfully we must know one another and what better method is there of doing this than to say, 'How'd'ye do' to the men you meet. Did you ever calculate the benefits you derive each time you have a conversation with one of your fellow men? How often have you found that the man who did not appear to you as a desirable companion finally became a much valued friend—why? Because you gradually became acquainted with him and you discovered qualities in his character that you never dreamed were there—and all because you spoke to him and broke down this artificial barrier which tends to isolate the average man from those whom he does not know intimately." Of course there are difficulties. If on a morning when the thermometer registered fifteen below zero one gave a cheery smile and word in passing, only to be met by a cold stare of superiority or amazement, the mercury might go still lower. Nevertheless the habit is worthy of cultivation, as part of the get-together campaign for community betterment. It is one that would require considerable

cultivation in St. John, whose people are marred by somewhat of reserve and self-restraint in their ordinary intercourse.

SHARING PROFIT AND LOSS

An agreement has been made between a knitting company and its employees in Wakefield, Mass., by which the employees agree to share the losses as well as the profits. This has been the crucial question between capital and labor. According to this agreement the employees would have to be content with smaller wages in a year of unsuccessful business. Being real partners in the business, it would be to their interest not only to do this but to practise thrift in profitable years, so that the lean years would not find them without resources. Under such an arrangement the twelve hundred employees of the Wakefield factory will have the strongest incentive to honest work, in order that the greatest production may be secured at the minimum of cost. Their stake, it is true, is not as great as that of the owner of the plant, since they are free to throw up the work and go elsewhere, but it may be assumed the well-paid employees in a profit-sharing enterprise would seek to have homes of their own, and would thus have a stake in the community; and in the case of the Wakefield Company there is a provision by which the workers may take over control of the business. They would naturally be in no hurry to do this, since management is a science in itself, which calls for special knowledge and training such as the artisan could only gain by special study and practical experience covering a period of years. Where employers and employees are in perfect harmony such an experiment as that at Wakefield should be an effectual guarantee against labor troubles of any kind.

Of the late Mr. Z. A. Lash, K. C., the Toronto Globe says:—"His death removes from the scene of his manifold activities the greatest of Canadian authorities on commercial law. Mr. Lash might have held the highest judicial places in the Dominion had he desired to do so. He became Deputy Minister of Justice five years after Confederation, and had he cared for public life might have entered parliament and become a minister. He turned his back on the career which was then considered customary for leaders of the bar, resigning from the Department of Justice in 1876, and thereafter, as a partner of the Blakes, devoted his time and his admittedly great talents to commercial law."

Those who would fight influenza with alcohol will be interested in the protest of Health Commissioner Robertson of Chicago against Congressman Sabath's effort to obtain legal permission to use whiskey for influenza and pneumonia; "Alcohol is one of the greatest predisposing factors we ever had for pneumonia," he said. "Whiskey is not a cure for the influenza or a remedy. It does not assist in any manner in fighting either one of the diseases." "I hate the word 'prohibition,'" said Lady Astor, "and have just enough devil in me that if anyone prohibits anything it becomes the one thing I want." If silence were prohibited it is to be presumed Lady Astor would at once stop talking. She might do worse. But as she is prohibited from having more than one husband at a time, and has not grabbed several more, it is possible that she does not expect to be taken too seriously.

The January thaw made a very short visit and went away on skates. The erection of fifty houses by the Lancaster Housing Commission this year will help a lot, but what about houses in the city? "What do you work at, my poor man?" "At intervals, lady."—St. Paul Non-Partisan Leader. "The next war will be fought with water-balloons," says Captain Wedgwood Benn. The report that the army council has already ordered the Royal Engineers to construct a couple for experimental purposes is declared to be premature.—London Punch.

SOME AWFUL BREW SEIZED

(New York Post). And still they still. Despite the fact that the federal agents have made many arrests of persons having private stills in their homes, it is expected that many more will be made in the near future. One of the common contrivances, it is said, is that the liquor is made in a milk can and a whisky jug connected by copper tubing. The specifications of a certain job of a Brooklyn plumber called for ten feet of copper pipe, and when he went to his usual supply house and ordered the material, the clerk greeted him with a smile and said: "When you get the first gallon made, will you please let me have a sample of it, as I intend to go into that game myself." James C. Bell, jr., one of the federal agents, who was formerly an actor and played the part of a villain in a hair-raising drama, in one of the acts declaring that the little girl was a horse thief, describing some of the home-made whisky that he had seized, said: "It sure was strong. It had a kick that would knock you into another state—the state of unconsciousness. I believe that a fellow after the first drink would imagine that he was entitled to a match with Jack Dempsey. After the second drink he would be sure that the articles were signed and that he was sitting in his corner, facing the champion. The third would probably find him groggy and staggering around the ring grasping nothing but air. After the fourth drink he would imagine that he was lying on the flat of his back on the canvas of the ring listening to a dull voice counting off the fatal ten seconds."

QUEBEC LIQUOR REVENUE LARGER WITH PROHIBITION

Montreal, Jan. 29.—From May 1 last, when prohibition went into effect, until the last available figures, presumably Jan. 1, says a dispatch to the Montreal Gazette from Quebec, the provincial government has received a total of \$766,169 from the workings of the prohibition law. Under the old license conditions, the revenue was only a little more than \$800,000 annually, so under prohibition the revenue will be larger, since the license available are only for eight months.

THE ROUND UP. We are rounding up the Reds, and we're putting them in jail; Justice, the Avenger, treads on their anarchistic trail; retribution is in touch with the guys who talked too much, and they're cooped up in a hotch, and they need existence state. Soon there'll be another Ark sailing over the slush sea, and the Red jays will embark for old Russia, which is free; dear old Russia, freedom's home! Government is there a pome, and the Reds will cross the foam churning cargoes for these! "How their loyal hearts will yearn for sweet Russia, storied place! When they see her beacons burn they'll in ecstasy embrace; freed from Yankee tyrants' rule, from our coolers, much too cool, they will dance like boys from school, when they see the fair Russia's face. Emma Goldman may be there, waiting for them on the shore; Emma, radiant and rare, who had made the trip before; we can see her as she smirks, leading countless freaks with dirks, anxious to unpeel the works, and to spill some quarts of gnomon, while they'll the meeting be when the second ark arrives, and the exiles, wholly free, greet the flag and beat their wives; honest Reds, who hate the rich, and would plant them in a ditch; patriots who have the itch and the coolies and the hives.

CANADA—EAST AND WEST

Domestic Happenings of Other Days

WAITING FOR ACTION

The closing days of January, 1900, were very ones to the little Canadian forces that had been sent to South Africa to aid the motherland in the war against the Boers. The Canadians lay at Belmont waiting for the time when they would move up to the Modder river to strike the enemy. On the 21st of the month "A" company had a little brush with the Boers while on patrol duty. On the day before, the camp notice informed the troops that the dreaded enteric fever had appeared within the lines and warned all to exercise the most careful sanitary precautions. Two were taken ill in the camp and many others were seized later; it was a time of stress and strain. The brightest day of the weary month was that upon which the queen's chocolate was distributed to the soldiers. The contents of the boxes were welcomed by the soldiers but the cases were sent home in most instances to become a perpetual reminder in after years of the thoughtfulness of her majesty. Action was near at hand—that was certain. Officers in high command were hurrying to the front. Lord Roberts had his eye on the Canadians, a fact that was indicated when he appointed Major S. J. Denison to his personal staff. Roberts and Kitchener went to Belmont and inspected a few of the Canadians at the station. Then the dominion breathed easier for they were positive that in a few days they would receive word to move up nearer the zone of conflict, the thing they had come so many miles to do. It was only a matter of time now.

OLD SHIPS

There is a memory stave upon old ships, A weighty cargo in the musty hold,— Of bright lagoons and prow-caressing lips. Of stormy midnight, and a tale untold. They have remembered islands in the dawn, And windy capes that tried their slender spars, And tortuous channels where their keels have run, And calm blue nights of stillness and the stars. —David Morton.

IN LIGHTER VEIN

In the Cyclone Belt. The difficulty of finding a house is not exclusively an eastern problem. Out in Kansas, for instance, a notice observed a stranger looking around the ring and venturing to say, "Good morning, sir. House hunting?" "Yes," replied the stranger. "I wonder if it could have blown this far."—Boston Transcript. His Line. "What do you work at, my poor man?" "At intervals, lady."—St. Paul Non-Partisan Leader.

WINGLESS FLYING

London, Eng., Jan. 29.—The wingless flying machine in Paris will, if successful, revolutionize the art of mechanical flight. So far as its floating power in the air and its balance are concerned, the new machine may be compared with a dirigible parachute. That is to say, its support is at the top of the structure, and its steady weight will be below. The inventors, Professors Louis Lacon and Louis Dambiac, claim to have solved the problem of vertical ascension, slow flight and immobility in the air. Suspension in the air and the propulsion of the machine will depend upon the weight of the propellers, the surfaces of which are made of the material used in covering the wings of aeroplanes, but of greater strength. Speed of ascension and the velocity of horizontal flight will be regulated by altering the angles of the propeller blades. Steering will be by two small planes or rudders at the tail of the machine.

Japs Get German Trade. Berlin, Jan. 29.—The far eastern business of the German shipping companies is gradually falling into Japanese hands. Steamers of the Nippon Yusen Kaisha have recently repeatedly arrived at Hamburg with cargoes from the Dutch East Indies, and also other Japanese steamers with cargoes from the United States and Manchurian ports.

**BECOMES ATTORNEY AT 69.**

Philadelphia, Pa., Jan. 29—Former Magistrate William J. Hughes, aged 69, has passed the state bar law examinations.

The achievement of Mr. Hughes, the father of thirteen children, comes at the end of a dozen years of quiet legal study.

In passing the bar examinations, Mr. Hughes was able to accomplish a task at which scores of younger law students failed. Many of these men are university law school graduates. Members of the board of law examiners said that more than fifty per cent. of the candidates were turned down.

**R-34 FOR PASSENGERS.**

London, Jan. 29—R-34, with the sister airship R-29, which is being built in Scotland, will be handed over to an English company for commercial aviation. It is intended to reconstruct the vessels for passengers and cargo.

**THE VICIOUS CIRCLE.**  
(Campbell's Courant.)

The world is hungry for the things we eat, wear and use—stark hungry! The cupboard is bare as a bone. Prices mount to staggering figures and the cry of our worker is—more pay; shorter hours—and then a shortage shoots the price of things up another notch; again the cry—more pay; less hours.

Ye gods! Must the vicious circle continue? Shall we never see that it is more hours we need; that to reduce the cost of things we use, we must produce not less but more?

The countries Europe have nothing to sell, their shelves are bare. They want to buy—to buy from America—to buy the things that America makes—and the answer of our workers is—reduce our hours—44 hours a week instead of 60—a cut in production of 25 per cent.

Short hours in the city has made the farmer worker restless; he, too, wants short hours and increased pay. May kind Providence preserve us if farm workers ever insist on 44 hours per week or an eight-hour day.

We may keep high wages. We may keep our present scale and still reduce the cost of living by a simple remedy—work—good, hard, honest, faithful service—not eight hours, rather ten and then some. Let us for one year, at least, resolve to work and work like H—

**Suspects Wife's Ancestry.**

New York, Jan. 29—The question as to whether his wife's grandmother has negro blood in her veins was raised by Arthur E. Aaw in the trial of his suit for annulment of his marriage. He testified that he married Emma Daily and three weeks later learned that her grandmother, Cynthia Sawyer, had negro blood in her veins. The latter testified her father was an American Indian and her mother a white woman. Her niece, Mrs. Theresa Hivisch, told of how "auntie" submitted to electric treatment to make her skin white.

LUXURIES MAY TOPPLE

A recent view on prospects for price levels is thus given by Francis H. Sissons, vice-president of the Guaranty Trust Co., New York: "The high peak of prices, it would seem reasonable to assume, has not yet been reached, though it is by no means without the range of possibility that, thanks to more sensible spending, prices of luxuries may topple while those of some of the more necessary articles continue high. This may prove the first step in an adjustment of production that will bring about increased output of necessities of life—the only way the high cost of living problem can be solved."

THE WOOL MARKET. (Bradstreet's.) Wool trading has been rather quiet in a private way at Boston, most interest centering in the opening of the British auctions of Australian wools. Predicted high levels of values for the better grades of merinos were far exceeded by the actual fact, all previous records being surpassed both in the grease and on the clean basis. Top prices were \$1.68 for greasy wool and \$2.86 for Clean. New Zealand crossbreds went badly, with heavy withdrawals and little interest. Outside of this, the only feature was moderate trading in medium wools, prices at private sale being firm and unchanged. Stocks of unsold wool in Boston, made up by the Boston Wool Trade Association, as of Dec. 31, total \$7,644,233 pounds, compared with \$5,727,615 pounds, Dec. 31, 1917, when the last previous compilation of stocks was made. Government wool stocks Jan. 17, 1920, are stated to have been \$2,968,193 pounds of clothing.

ST. JOHN MAN PRAISES "LIV-RITE"

Walter Anderson, 200 Waterloo Street, Says He is Much Improved Since Taking This Great Tonic—Read His Letter.

More words of praise for "Liv-rite Tonic" have come from another local resident, Walter Anderson, 200 Waterloo street. He is in ill-health and tried this new tonic which has already made so many friends. He has written to the Maritime Drug Co., 108 Prince William street, the following letter:

"Dear Sirs,—I feel compelled because of the great improvement which your "Liv-rite Tonic" has made in my health to write you a note of what I consider a wonderful remedy. I was for some months in very bad shape physically, was run down, nervous, and irritable and unable to eat. I had tried several medicines with little or no result when I noticed your advertisement. I purchased a box of "Liv-rite Tonic" and I shall be pleased to let you publish this letter with my name if it will be of any service to some other poor sufferer who is run down, or send me an order entitling you free of charge to a consultation with a reliable local physician.—(Adv.)

TORONTO RETAIL PRICES. (Toronto Globe, Saturday.) In the butcher's stalls round roasts of beef were to be found at 20 to 30 cents a pound; round steak, 32 cents; sirloin, 35 cents, and porter-house, 40 cents. Sausages were to be found as low as 20 cents a pound, and bacon for 49 cents. Legs of lamb were 38 cents. Chickens were 35 cents a pound to 45 cents.

Woman Smoked Since 23. London, Eng., Jan. 29.—Mrs. Catherine Ann Evans, 68, grandmother of Jimmy Wilde, the boxer, was found dead from heart failure by a roadside at Cymmer. A clay pipe and some tobacco were found, and at the inquest it was said that she had been a smoker for forty-five years.

TRADE CONDITIONS IN UNITED STATES

(Bradstreet's, Saturday.) A speeding up of manufacturing output, increased buying from jobbers and sanguine views as to the future at leading western and southern centers; some slight quieting down, particularly in textile purchases at a few primary points, and an increasing projection of the discussion of money market and exchange conditions into general business, are among the salient features discernible in the week's trade reports. Every line of trade, of course, is more active than a year ago, when uncertainty ruled as to the future of both demand and prices; but it is significant that while spring trade is esteemed secure, and scarcity talk as to current supplies continues in a nearly every line, there is more disposition to discuss the further future with an eye to possible price revisions. The large majority of reports as to retail trade indicate full buying for this usually quiet season, this being stimulated by clearance sales, which are well patronized as a rule. This stimulated demand, by the way, prevents a thorough weighing up of the extent to which popular buying is likely to respond to the numerous public exhortations to cut down the volume of what have been termed unnecessary purchases, and a clear view as to this is not as yet obtainable, though emphasis is still given to the view that recent advances in primary and secondary lines, especially in

GET SLOAN'S FOR YOUR PAIN RELIEF

Just one trial convinces you Sloan's Liniment helps drive away rheumatic twinges. WHY endure pain when you know Sloan's Liniment will relieve it promptly? It couldn't remain the World's Liniment for 88 years if it wasn't highly beneficial in relieving rheumatic aches, stiff joints, sore muscles, lumbago, neuralgia, strains, bruises, exposure to weather results. Penetrates without rubbing, leaving no stained skin, clogged pores, mussiness. A pain and ache reliever that stands alone in doing what it is meant to do. Get a bottle today and keep it handy. All druggists. Three sizes—35c, 70c, \$1.40. (Made in Canada.)

GROWING DEAF WITH HEAD NOISES? TRY THIS. If you are growing hard of hearing and fear Catarrhal Deafness or if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of Parment (double strength), and add to it 1/4 pint of hot-water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.

textiles, will not be fully reflected at retail until next fall or beyond. Strength in food animal prices partially offsets some declines in other farm products, notably cotton, and in some dried fruits, but the easing in the Weekly Food Index Number is slight, and the great majority of prices are steady. It is perhaps significant that very high prices were paid this week for high-grade fine foreign wool at auction, while lower grades were rather neglected. The hide and leather markets are without much price change, but a recurrence of export buying of leather at Boston and Philadelphia, plus good domestic demand, is said to be stiffening holders' views as to the future of this product. The most strongly situated lines just at present, this being true alike of demand and prices, are iron and steel and related lines. Independent mills are reported getting \$5 to \$10 per ton more for merchant steel, pipe, and sheet bars, but while mill operations have improved, the industry as a whole is reported badly oversold. Pig iron buyers, attempting to place orders for the second half of the year, find sellers indifferent. Export iron and steel prices and wages are said to be still tending upward. Car shortage rule coal and coke deliveries are held down, with a natural reflection on mill and furnace production. The lumber and other building materials trades also feel the car shortage trouble, but a slight easing in this direction in the Pacific northwest has allowed of the resumption of many lumber mills recently shut down. A big year in building is predicted in 1920, though there are some isolated assertions, owing apparently to recent and past advances, that prices for lumber are about at their peak. Bank clearings, though smaller than in recent weeks, show big gains over last year. Failures are fewer than in recent weeks.

Weekly Food Index

This week's index number, based on the prices per pound of thirty-one articles used for food, is \$3.18, which compares with \$3.19 last week and \$4.76 for the week ending Jan. 23, 1919. This week's number shows a loss of two-tenths of 1 per cent from last week, but a gain of 8.8 per cent over the like week of last year.

NEW FORM OF INFLUENZA

London, Jan. 29.—A new form of influenza is reported in some areas of West Midlands. It takes the form of gastric catarrh, with rather severe intestinal troubles. Many persons are suffering from it.

Uncle Eb's Philosophy

"LIFE EZ I KNOWS IT" BY EBENEZER HEZEKIAH HOLDEN. "THE MAN who is a professor of athletics and tells others how to live a hundred years usually dies at thirty-five of heart failure. I never saw no sense in this physical culture, no-how. The farmer or the carpenter or the blacksmith lives to be ninety, uses his brain consider-able, too, and don't think about his stomach or his muscles all the time. I know a hull lot of people that always think about their stomachs. It's them that tell me if I stop eating meat and good wholesome victuals and take up with some new fangled bran-mash sanitary food I'd live to be a hundred in the shade, and the next day I get an invitation from the family to come to the funeral. That party that told me how to take care of my stomach died of starvation of the stomach. That was all that saved his family, for he was teachin' the whole family to live on bran-mash and cereals, or whatever you call 'em, and the family were slowly wasting away. Men who try to get TOO STRONG, I notice, usually throw out all those pieces that accumulate in your system, and put you straight, and makes you as lively as a cricket. All of Doctor Pierce's family remedies are good, 'cause they're made from the formula of a doctor that knows his business."

Now, there was my old woman after 20 years of raisin' children, steamin' over the wash-tub, milkin' the cows, carryin' wood and cookin' for the hands, she somehow got run-down a bit, was humped over in the shoulders, back gave out, and thin and weak, and that nervous cat couldn't move without her crying. What does she do but say it was all owing to her womanly weakness, and that Dr. Pierce's Favorite Prescription would fix her all right, and it did—by hump! She looked 60 afore that, but she just got strong, put on flesh, and now she's a strong, buxom, bloomin' and healthy I have to go out in the wood-shed, for peace and quiet, to smoke my pipe."

The experience of Uncle Eb is not unusual—any number of people throughout the United States depend on Dr. Pierce's standard home-remedies to keep them well or to overcome their different ills. You can consult Dr. Pierce's Medical Staff by letter, by addressing "Invalids' Hotel," Buffalo, N. Y., and get the best possible medical advice absolutely free of charge.

TONIGHT! YES! YOU MUST! You Can't Stay Bilious and Constipated. Your Liver and Bowels Need "Cascarets"—No Grip! Turn the rascals out—the headache, biliousness, indigestion, colic, the sour stomach and misery-making gases—turn them out tonight and keep them out with Cascarets. Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach. Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and cast out all the constipated waste matter in the bowels. Then you will feel great. Cascarets tonight straighten you out by morning. They work while you sleep.

There has been a lot of talk concerning the health act and the chief grievance seems to be that officials are paid salaries with nothing to do. It does not seem to have dawned on these financial critics that it is better for a community to practice preventive rather than curative medicine.

Night Coughs Prevent Sleep WEAR OUT THE SYSTEM

The dry, hacking cough, cough day and night is very wearing on the system. The constant coughing disturbs the rest and keeps the lungs and bronchial tubes in such an irritated and terrible condition they get no chance to heal.

You will find in Dr. Wood's Norway Pine Syrup a remedy for curing coughs, for curing colds, for loosening the phlegm, strengthening and healing the breathing organs and for curing coughs against serious pulmonary disease.

Mr. Fred Fairbairn, Copper Cliff, Ont., writes: "I caught a heavy cold, got a sore throat and a terrible hacking cough that I could not get rid of. I could not sleep at night. I had tried quite a few remedies, but they did not seem to do me much good until I took Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles my cough was all gone."

"I seemed to loosen the cough right away so that I could spit up the phlegm that gathered in my throat, and also took the best part of a month to get my bronchial tubes. I feel that Dr. Wood's has no equal."

Price 25c. per bottle. All dealers. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

SEEK TO GET AWAY FROM EXTRADITION OF GERMAN OFFENDERS.

Berlin, Jan. 29.—The government has announced an appeal to the Allies to revise the provision of the peace treaty regarding the extradition of German military, naval and civil leaders, declaring that the government cannot guarantee their delivery. It suggests that the men be tried by the supreme court at Leipzig, which could be applied to include representatives of the Allies.

FEVER EPIDEMIC IN LONDON.

London, Eng., Jan. 29.—Cases of scarlet fever and diphtheria are being reported from every district in London, and many patients cannot be removed to hospitals because there are no vacant beds. In one day there were 4,905 patients under treatment, 2,861 being scarlet fever and the rest diphtheria cases.

GEE, BUT IT'S GOOD FOR A BAD COLD

Nothing Can Touch Catarrhoze in Curing Quickly

You may dislike taking medicine—but coughs are best cured without medicine. The modern treatment is "Catarrhoze"—it isn't a drug—it's a healing vapor full of pine essences and healing balsams. It spreads over the surface that are weak and sore from coughing. Every spot that is congested is healed—irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and catarrh are cured. Nothing so quick, nothing so sure, so pleasant as Catarrhoze. Beware of dangerous substitutes meant to deceive you for genuine Catarrhoze. Large size which lasts two months, price \$1.00; small size 50c; sample size 25c, at all dealers.

BEGGAR BOY TO M. P.

London, Eng., Jan. 29.—"When I was a child it was necessary for me to beg my bread from door to door," said A. E. Waterson, M. P. for Kettering in a speech in the house of commons. He was elected for Kettering as a co-operative candidate, and is the only member of the house directly representing these interests.

Two-Story Plane.

Paris, Jan. 29.—A two-decker aeroplane, capable of carrying 28 people, fitted with four 800 H. P. engines, is on exhibition here. The machine stands as high as a two-story house. The engines are arranged in tiers, and so that the curious may get up and look inside the aeroplane, stairs have been built.

IF THIN AND NERVOUS Try Bitro-Phosphate

While excessive thinness might be attributed to various causes, it is a well-known fact that the lack of phosphorus in the human system is very largely responsible for this condition.

It seems to be well established that this deficiency in phosphorus may now be met by the use of Bitro-Phosphate, which can be obtained from any good druggist in convenient tablet form.

In many instances the assimilation of this phosphate by the nerve tissue soon produces a welcome change—nerve tension disappears, vigor, and strength replace weakness and lack of energy, and the whole body loses its ugly hollow and abrupt angles, becoming enveloped in a glow of perfect health and beauty, and the will and strength to be up and doing.

CAUTION.—White Bitro-Phosphate is unsparingly for the relief or nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

Chicago, according to a letter shown the Associated Press yesterday by Johnson. He says he is confident he can arrange legal difficulties in time to fight Jack Dempsey before the latter meets him before he can claim the world's championship.

The letter was written by Johnson to Charles F. Clynne, United States district attorney in Chicago. It said Johnson would go to New York by the way of Havana. Johnson requested Mr. Clynne to give him thirty-six hours of leave after he arrived in Chicago so that he might secure bondsmen and make other legal preparations.

Johnson asserted yesterday that he weighed 218 pounds, but would go to training immediately after reaching the United States.

Johnson was tried in Chicago early in 1919 on charges of having violated the Mann white slave law and was sentenced to a year's imprisonment. He appealed but before the case was argued he forfeited his bail bond of \$15,000 by fleeing to Montreal. Late in June, 1919, he sailed for Europe.

WRESTLING. Stecher in New York. New York, Jan. 28.—Joe Stecher, who is to battle Earl Caddock for the world's wrestling crown on Friday night at Madison Square Garden, arrived in New York yesterday.

Stecher had arranged for quarters he went to Bothner's gymnasium to begin his final training. He worked all morning with a few of the lesser lights who are preparing for other matches.

Stecher is still close to the form that brought him to a point where he could settle the world's supremacy with Caddock. It was the general opinion that all he required to reach his best form was a little work daily until the date of the match.

There is little doubt that Stecher will again place all his dependence upon his powerful legs. The manner in which he forced Stranger Lewis and Zbyzsko to fall victims to his body scissors hold is proof that his legs still retain their bouncer strength. He is confident that he has improved remarkably since he met Caddock two years ago, and is confident he will turn the tables Friday evening.

Caddock kept to the roads yesterday morning and his return declared he was satisfied with the way he was going along. A delegation of Caddock's friends is due this morning, including Carl Maritz, the Omaha promoter, Joe Coffey and Jack Herman wired they would leave Chicago today.

Coffey is coming here to see the match and to try to induce the winner to meet John Freeberg.

SIDE LIGHTS ON SPORT

St. John should be represented at the international ice skating championships, which are to take place on Lake Placid, N. Y., on February 18 and 19.

Charles Gorman, who won all his speed event titles in the Policemen's Sports on Tuesday night should be able to hold his own against the best skaters in America. He is a strong skater and can do equally as well, if not better, on a square on oblong rink than on the circular track in the Victoria.

When Bobby McLean, professional champion of the world, skated Gorman here a few years ago he predicted that he would develop into a great racer and his prediction is evidently coming true. In a trial heat a few days prior to the policeman's sports Gorman won the 220 yards under twenty seconds, which is better time than is being hung up at Saranac Lake. He also demonstrated that he is equally good at all distances. It would not cost much to send Gorman away, and it would be a great boost to St. John.

On Black's alleys last night the Thistles got away to a great start and it looked as if they would hang up some new records, but they had bad breaks in the last string and fell down.

The Collegiate hockey teams are playing well this year and the inter-collegiate league should be keenly contested. An endeavor is being made to get Louis Nelson, welterweight champion wrestler of the world, to come to this city and meet Bridson Green for the title. Green and Nelson met in March, 1919, and the Prince Edward Island boy put the champion's shoulders to the mat for the first time in his career. After wrestling for five hours and fifty-seven minutes the bout was called off and declared a draw.

BORDER TOWN ELECTIONS. St. Stephen, Jan. 28.—At the annual town elections in Milltown today there was no contest. W. H. Laughlin, M. D., was elected mayor. For councillors the old board was returned as follows: A. J. Manser, H. Olive, R. J. Porter, Allan McDonald, W. H. Sinclair and H. McAlister.

The old board of assessors, J. McFarlane, F. C. Murchie and H. W. Smith were returned. In St. Stephen Mayor David Johnson was opposed by Walter G. DeWolfe, who only consented to run Monday evening. Johnson was elected by 22 votes. In the various wards the results were as follows: Queens ward, D. Johnson 89, W. G. DeWolfe 123, Geo. Gay and W. G. Nelson councillors by acclamation; Kings ward, D. A. Nesbitt 107, Robert W. Dinsmore 80, elected, Leroy W. Hill 72, Geo. H. Budd 63, Mr. Johnson 98, Mr. DeWolfe 72; Dukes ward, Jas. R. Brown 104, J. R. Polley 88, elected, Clifford Mowatt 38, Jos. W. Robinson 17, Mr. Johnson 83, Mr. DeWolfe 54.

The new men at the board are Councillors Gay and Dinsmore. For assessors, H. L. Wall, John Mc-Gibbon and W. A. Hyslop were appointed.

Stomach And Liver Troubles. Once the liver fails to filter the poisonous bile from the blood, there is a clogging up and poisoning of the whole system which causes many troubles to arise. Therefore, upon the liver, more than any other organ of the body, depends the general health.

Carelessness and neglect, and oftentimes wilful disregard of nature's laws will put the system out of sorts. The bowels become constipated, the liver inactive and the stomach upset. To bring the system back to its normal state, you should take Milburn's Laxa-Liver Pills. They live up to the liver, get the bowels back to their proper condition and tone up the stomach.

Mrs. G. L. Cackett, Enchant, Alta., writes: "I have used Milburn's Laxa-Liver Pills and have found them good for both stomach and liver troubles. I have told others about your valuable medicine and they have used them with good results."

"They are also good for headache," Milburn's Laxa-Liver Pills are available at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SYMPHONY CONDUCTOR SAYS JAZZ IS NOT MUSIC. New York, Jan. 29.—"Music Week will render a great service to the people of New York by directing their attention to music, and by music I do not mean jazz," said Arthur Bodansky, conductor of the New York Symphony Orchestra, in commenting upon Music Week, Feb. 1-7. Mr. Bodansky gave a definition of jazz, or, rather, denied that anything called jazz is music.

"It may be a lot of things—exhilaration, breeziness, voluptuous expression of motion," he said, "but it is not anything canonized by the art standards of man as music."

### LOCAL NEWS

**BURIED TODAY.**  
The funeral of Miss Rose McGulgan took place this morning from the Mater Misericordiae Home. Requiem high mass was celebrated in the Cathedral by Rev. W. M. Moore and interment was in the old Catholic cemetery.

**FIRST PRIZE FOR CITY.**  
Miss Ursula MacDonald of Douglas avenue received a pleasant surprise yesterday when there was delivered to her a \$10 bill as first prize for the city won by her in the Victory loan essays. It was the first knowledge she had that she had won a prize.

**AWAY TO MONTREAL.**  
N. E. Arnold left last evening for Montreal, where he will take charge of a branch store. Before leaving Mr. Arnold was made recipient of a handsome traveling bag by the staff of the Woolworth Co. His many friends wish him success in his new field.

**HER BIRTHDAY.**  
Little Jean Cummings of 6 Delhi street gave a party yesterday, for it was her twelfth birthday—and a leap year birthday too. Some twelve of her little friends assembled and there was a jolly good time. Prizes were won by Flossie Ritchey and Edward Cummings.

**CHARLES HAGGERTY.**  
The death of a well-known resident of Fairville, Charles Haggerty, occurred this morning at the residence of his sister, Mrs. Catherine O'Brien, Mill street. He had resided there all his life and had many friends in the city. Besides his sister, one brother, Jeremiah Haggerty, of Fairville, survives.

**BREAKS REPORTED.**  
Cases of summer cottages being broken into along the C. P. R. have been reported recently and the question of the appointment of policemen in these districts is again the fore. Last week the cottage of David McPherson at Morna was entered and evidence of the miscreants having made a fire in the stove and remained for some time was found.

**HAS PEDIGREE STOCK.**  
The Anchor Donaldson liner Cabotia, which sailed from Glasgow yesterday for St. John, is bringing, in addition to a large general cargo, 100 head of cattle, thirty sheep and sixteen horses, all pedigree stock. This is the first shipment of cattle since the outbreak of the war. In former years a large number of cattle were brought here by the Donaldson liners.

**MACHINERY FOR THE DRY DOCK ARRIVING**  
Six Carloads of Permanent Equipment in and Fourteen More on the Way.

The first six carloads of machinery and power equipment for the permanent establishment of the St. John Dry Dock & Shipbuilding Company's plant at Courtenay Bay have arrived in the city and are now being unloaded. Fourteen more cars are either on the way or ready for this shipment, it was announced from the office of the company this morning. This equipment, which consists chiefly of steam boilers, motors, dynamos and other electrical apparatus, will be used in the development of power for the operation of machine shops, pumps, etc., in connection with the dry dock operations. The machinery will be stored, until ready for use, in a large frame warehouse 100 by 80 feet which is now being erected on the western side of the dry dock site.

### THE INCREASE IN THE FERRY FARES

West Side Board of Trade to Discuss the Matter—A Suggestion.

As announced, the west side board of trade has decided to hold a meeting to discuss the matter of the proposed increase in ferry rates as applied to teams. It is expected that a formal protest will be prepared for presentation to the common council meeting tomorrow afternoon.

Speaking with a Times reporter this morning a prominent business man of the west side suggested that the matter of the increase in the team traffic rates be treated in the same manner as was proposed for passengers, that books of tickets at the present rate be sold to the permanent patrons of the ferry and the increased rates put on the transients. He said that the rate now was eight cents each way for a single team and fifteen cents for a double team and if these rates were increased to the business people of the west side it would seriously affect their power to compete with the east side merchants, whereas a small increase to people who used the ferry only occasionally would not cause so great a hardship and a fair increase in revenue might accrue.

### CITY DOCTORS TAKE UP THE MATTER OF INCREASED FEES

The fortnightly meeting of the St. John Medical Society was held last evening in the physicians' club rooms, Charlotte street. Dr. A. E. Logie was in the chair. A discussion in connection with increase in medical fees was held, and a committee was appointed to bring in a report at the next meeting.

### MACHINE GUNNERS SIGNED RECRUITS LAST EVENING

Organization Well in Hand for Season's Training in 7th M. G. Brigade—Officers Named, with Few More to Come.

Recruiting was begun last night for the 7th Canadian Machine Gun Brigade, in the armory, and those in charge were greatly encouraged with the start made. Quite a number of men were signed on. As in the case of other units the "Emma Gees" intend interpolating their military instruction with recreational activities in bowling, indoor baseball and other games. Their uniform will be khaki with "British Warm" and breeches, and at least 85 per cent. of the men will carry revolvers.

The brigade will be commanded by Lieut.-Colonel C. J. Mersereau, with Major I. A. McAulay second in command, and Capt. H. H. Donnelly adjutant. The other officers whose names have been forwarded for confirmation to Ottawa are Major Bertram Smith, G. C. No. 1 company, with Captain H. O. Evans and Lieut. G. K. Shiels and Lieut. McLeod in "A" battery; Captain E. S. Rossborough and Lieut. E. C. Vincent, "B" battery, and Captain J. V. Kierstead and Lieut. H. Cunningham, "C" battery. This comprises the St. John company with some officers yet to be appointed.

No. 2 company will be located at Moncton with Major A. Le Bourque and Captain Tingley, and No. 3 company in Fredericton with Lieut. F. Clements. In each of these cases also there are more officers to be appointed. Training is to commence next week. The brigade will consist of 472 all ranks, 389 rank and file, sixty-one sergeants, two warrant officers and forty commissioned officers. Vickers-Maxim machine guns will be used, eight to a battery, and there will be twenty-four for St. John where there will be three batteries because of one company being located here—the composition being three batteries to a company.

### J. S. KNOWLES PASSES AWAY

Prominent Citizen Dead, at Age of 85, at His Home in Elliott Row.

Much regret was manifested today about the city when it became known that Joseph S. Knowles had passed away at his home, 98 Elliott row, after an illness of a few weeks. He was one of St. John's best known citizens and his friends were numbered in all walks and ages of life, for by his genial manner and his many activities he had the happy faculty of keeping in touch with young and old. He was eighty-five years of age, and a native of Nova Scotia, having been born in Granville Ferry, N. S., the son of the late Edward T. and Phoebe Knowles. He was a descendant of Harry Knowles, who settled in Newport, N. S., in 1760.

Mr. Knowles was a brother of the late Judge E. T. C. Knowles and is survived by his wife and three daughters—Mrs. C. P. Barnes Bridgman, N. S.; Mrs. H. V. Berry of Elliott row, St. John, and Mrs. R. O. Bond of Fredericton. He had one son, "Bobby," who was killed in the famous crest engagement of the 26th Battalion. Mr. Knowles was naturally very proud of the lad, for he was but a boy, and was badly shaken when the cables brought news of his death. In politics Mr. Knowles was a Conservative, and in religion a Methodist, a member of Centenary church. His funeral will be held on Saturday afternoon at 2.30 o'clock.

While he was very young he was brought to St. John by his family and had since made his home here. His father conducted a wholesale grocery business, and Mr. Knowles engaged with him for a while, later going into the printing and publishing business, in which he became very well known. Mr. Knowles was for some years secretary-treasurer of the St. John Gas Co., about up to the time of the great fire. After that he engaged in the printing and publishing business, issuing among other publications, a paper called "The Gripsack," and being of the most popular contributors to a weekly periodical called "The New Dominion," or "Two Humors." His writings were mostly in a humorous strain, for his sense of humor was highly developed and he had a wealth of material for wit. He also published various booklets and advertising circulars. It is about eight or ten years since he retired from active business.

Some months ago Mr. Knowles sustained injuries in a fall which shook him up severely. But such was his spirit that just a few days later he was out with a cheery welcome for the boys of the 26th battalion, some of them pals of his son who had been with him when he was killed. One of his friends who today "there was always a smile when he was around." He had a pleasant word for everyone, was highly esteemed by a large circle of friends and was indeed most likeable in character.

### WAR MONCTON SOLD TO ITALIAN BUYERS

Messrs. Hanssen Shipping Company of Cardiff, Wales, managing owners of the "War Moncton" and "War Fundy," reports that the "War Moncton," built by Grant & Horne in St. John, left Sydney, C. B., on Dec. 2 and arrived in Queens-town on Dec. 17. She had very heavy weather in the passage across and also in the Irish Sea. The reports of the captain were that the ship proved to be a splendid seagoing vessel and every-thing worked very smoothly in the passage across. On arrival in England the "War Moncton" was sold to Italian buyers.

The "War Fundy," which was built before the "War Moncton," is still doing good work and is making voyages between England, France and the Mediterranean.

Sir Arthur Currie will be tendered a dinner by graduates and under-graduates of McGill University on next Friday.
