ALLIES DRIVE AHEAD ON RIGHT BANK OF YSER

German Attacks Between Dixmude and Lys Not so Energetic—General Advance of Russians is On

Paris, Nov. 5.—The French official announcement this afternoon says: "On our left wing the allied forces have made slight progress to the east of Nieuport, on the right bank of the Yser."

ALLIES ADVANCE IN WEST FLANDERS

London, Nov. 5.—The Daily Mail correspondent at Rotterdam says he has received official confirmation of the advance of the allies on all of the west Flanders front. He adds: "I have learned from reliable sources that last week's transfer of the ninth German army corps from Belgium and France to East Prussia has been completed and that only half of their number has been replaced by volunteers."

GENERAL RUSSIAN ADVANCE

London, Nov. 5.—Further details from the scene of the fighting in the east indicate that the forward movement of the Russians has become general. Even the Russian left wing, which has been held stubbornly by the Austrians or weeks, has joined in the advance. This is admitted by a conservatively worded official report given out in Vienna, which declares that the Austrians, "having maintained their position on the Lyssago, where the Teutonic allies pivoted in order to let the rest of the army complete its wheeling movement to a new line, are now retiring. At the same time, Austria sets forth certain minor successes along the line from the river San to Jaroslav."

RUSSIAN VICTORIES IN EAST PRUSSIA

Paris, Nov. 5.—A late official communication from the Russian government is contained in a despatch to the Havas Agency. It says: "The losses sustained by the Germans in the East Prussian front, are considerable. Of certain companies only eighty men remain."

CLOSING IN ON TSING TAU

Tokio, Nov. 15.—It is officially announced that the bombardment of Tsing Tau, continues vigorously. The Germans, on the night of November 8, made a summer attack which for a time hindered operations. The attacking forces, according to the statement, are now gradually closing in. Shells are falling in the streets of the town, and the power house has been destroyed.

The Balkan States

London, Nov. 5.—A despatch from Sofia, to the Times says: "The Bulgarian government has received formal assurance that the Greek neutrality is determined to maintain a mobilization. The Serbian minister also announces that Serbia will offer Bulgaria her moral support should Turkey attack Bulgaria. No friendly advice has been received from Roumania."

REBELLION IN SOUTH AFRICA FIZZLES OUT

London, Nov. 5.—A Capetown despatch to Reuter declares that the rebellion of General Christian Frederick Beyers, in the western Transvaal, and the mutiny of Lieutenant-Colonel Solomon Gerberus Maritz in Northwest Cape Province now appear to be completely crushed.

French and Joffe Satisfied

Paris, Nov. 5.—The French and English commanders, in the opinion of French observers, are satisfied with the result of the effort they made yesterday, as well as with the general situation.

Commissioner Russell has completed investigation into the charges that one of the city guards at the West St. John warehouses were intoxicated while on duty.

The charges finally sifted down to the case of one man, and in its case, as the evidence was not conclusive, he was let off with a warning. The other guards were entirely exonerated.

Phelix and Pherdinand WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, R. F. St. Paul, director of meteorological service. Synopsis—A disturbance which was over the Great Lakes yesterday has moved to the Gulf of St. Lawrence with diminishing energy. The weather is unsettled and showery in Quebec and for most part fair in the other provinces, with a tendency towards lower temperature in Ontario and the west.

Maritime—Moderate to fresh westerly winds, fair and mild; Friday, northerly winds, cooler with some local showers. New England—Fair tonight and Friday; colder tonight, moderate west to southwest winds.

Another German Cruiser Put out of Action

London, Nov. 5.—The Times today prints a report that the German cruiser Koenigsberg has been put out of action in the Indian Ocean.

The Koenigsberg is a protected cruiser and was laid down in 1905. She is of 3,348 tons, is 354 feet long, and has a speed of 23 1-2 knots. Her main battery consists of ten 4.1-inch guns.

London, Nov. 5.—The German cruiser Yorcke has struck a mine in Jade Bay and sunk. Jade Bay is a shallow sea, on the mouth of which stands Wilhelmshaven. The Yorcke was an armored cruiser, built in 1903, of 9350 tons, carrying a complement of 638 men, four 8.2 inch, ten 5.9 inch, fourteen 3.4 inch and three smaller ones, with four torpedo tubes.

ST. JOHN YOUNG WOMAN WHO WAS IN WAR SCENES

Miss Adeline Newman Home After Thrilling Experience

WORTH MILLION BUT NEVER AGAIN

She Was With Geraldine Farrar, Famous Singer, Through War Ridden Countries and Tells Gripping Tale of Incidents

"Sherman said War is Hell and Sherman knew what he was talking about." This was emphatically expressed by Miss Adeline Newman yesterday, after telling a Times reporter of her exciting experiences in Germany, where she was nursing at the time war broke out, and during which she had seen the horrors of the front.

While in the hospital, Miss Newman nursed German soldiers who had been wounded and from them heard thrilling and touching stories of the awful scenes at the front. She was told by one soldier of the treacherous defeat of an army of 200,000 Russians which was planned by General Von Hindenburg, who is supposed to be one of the cleverest of the German generals.

The party traveled in an automobile, Miss Farrar is an American, her nurse was a French woman and their chauffeur was a Belgian. Miss Newman, proud of being a Britisher, found it difficult to conceal that fact in order to insure her safety.

NOT A GERMAN, BUT A CITIZEN OF STATES, LONG TIME IN CANADA

Rumor About Publisher of Excellent Illustrated Book on St. John Was Entirely Unfounded

The Times regrets that a statement should have appeared in last night's issue which gave currency to a rumor that the gentleman who got out the illustrated book on St. John was a German and possibly a spy. The rumor is entirely without foundation. The gentleman in the case is a native of the United States, and has lived for the last fifteen or sixteen years in the city of Montreal.

He and his family have spent thirteen months in St. John and are still here, and have friends throughout Canada, who would be greatly surprised at the mere suggestion that he is other than a good Canadian citizen. Moreover, his wife is a Montreal lady and has been deeply pained by the utterly unfounded rumor referred to.

It should be added, as the Times said, that it is a very valuable book, well written and a splendid advertisement of this city.

SIX DIE IN A NEW YORK FIRE

Thrilling Rescue of Others From Lodging House in Early Morning

New York, Nov. 5.—Six men were burned to death, some of them in their sleep, in a fire which swept through a four story lodging house at 422 Eighth avenue this morning. Fifty men were sleeping in the structure when the fire was first seen. Firemen made many thrilling rescues.

VON KLUCK DEAD?

Paris, Nov. 5.—The correspondent of the Excelsior at Havre says he has, from a source which he cannot designate, news of the death of General Von Kluck ten days ago in a hospital in Namur, where he was treated for a wound in the head. The news of the alleged death of the correspondent says, has been carefully concealed in Belgium, and Germany.

OUR SOLDIER BOYS IN ENGLAND

Special Letter to The Times From Salisbury Plain, Telling of Their Life There

(Special Correspondence of The Montreal Star and St. John Times). Salisbury, Eng., Oct. 30.—The last of the Canadian boys who have passed through avenues of applauding people. Today, the last of them, the great majority of them, came marching into Bustard Camp, and work at once began.

They came, thousands of them, over the roads that lead to Salisbury Plain, over the historic downs, where the Romans fought their way, striding up the hills which had seen the march of Cromwell's Roundheads and the Cavaliers. They had followed the route of William of Orange who landed at Plymouth.

All this has had its result. It is of importance to note how the troops are quartered, and what they are doing, but after a day spent among them, it is at once apparent that what they have seen will mean a great deal when they reach the continent, when the long days of waiting in the trenches finally come. The morale of the troops has been heightened.

Official Report Tells of Several Victories

SOME SHARP FIGHTING

Anti-German Feeling in Beyrut Because of the Plunging of Turkey Into War — Ambassador Leaves London

Petrograd, Nov. 5.—The following official communication has been received from the Russian general staff: "In Caucasus, one of our columns suddenly attacked the enemy near Ardost fifteen miles south of Kars, near the boundary of Turkish Armenia. The Turks fled, abandoning their wounded. Having dislodged the Turks from the village of Id (about sixty miles west of Ardost, over the line into Turkish Armenia), we took a great quantity of food. After a violent combat, our troops seized Khorsaan (in Turkish Armenia), thirty miles southeast of Id and Colak-abad. One hundred Cossacks attacked the trenches of the enemy and captured the Turkish infantry."

"One of our columns having passed through difficult roads for a distance of fifty-three miles in thirty hours, encountered the Turks at Myssoune, and Dyzain (about thirty miles west of Dyzain, which is the capital of the Senjak of Bayid). We dispersed a large body of the enemy and occupied Dyzain, where we took munitions of war and many prisoners. On November 3 we occupied Bayazet, where we routed the Turkish troops who resisted strongly."

"The Turkish authorities tried to prevent the departure of the British officials and other foreign subjects from Beyrut, but the intervention of the American consul was successful. It was explained that the idea of the detention was not to keep them as hostages but to avoid the semblance of a final rupture between the British and the Turks. The Germans for plunging Turkey into the war."

"The presence of the American cruiser North Carolina is expected to exercise influence on the popular feeling." London, Nov. 5.—Tewfik Pasha, the Turkish ambassador who was handed his passports yesterday, left the embassy this morning with his staff for the Charing Cross station enroute to Constantinople.

Anxiety as to Fate of Sir Christopher Cradock and His Flagship, the Good Hope — German Warships Leave Valparaiso

London, Nov. 5.—Naval news looms large in London today. The British public is seeking further details of the action of last Sunday off the coast of Chile, but no continued efforts are being made to minimize this disaster.

Great anxiety is felt concerning the fate of Rear Admiral Sir Christopher Cradock, which probably will not be known until it has been definitely determined what has become of his flagship, the cruiser Good Hope.

The British public, however, is not left without some comfort as Berlin officially admits the loss of the cruiser Yorck, blown up by a mine near Jade one of the outlying defenses of Wilhelmshaven, while in shipping yards in London. It is declared that the career of the German cruiser Koenigsberg in the Indian Ocean has been ended.

Sir Percy Scott, England's greatest gunnery expert, and a champion of the use of submarines as against dreadnoughts, has rejoined the admiralty. As he has been known in the past as a supporter of Baron Fisher, it is expected that he will uphold the new policies already inaugurated by the first sea lord of the admiralty.

FURTHER WORD OF PACIFIC FIGHT

London, Nov. 5.—The Times today, under Valparaiso date, prints the report of Admiral Von Spee, regarding the fight between British and German cruisers off the Chilean coast on Sunday night, which report, the despatch says, was made to the Chilean authorities.

No other news of the fight is available to date, and there is no news of the Glasgow, Good Hope or Otranto. The Times despatch says that it is believed that all of the Monmouth's crew were lost and it also relates that the German officers testify to the great gallantry of the crew of the Monmouth, which while sinking, attempted to hit the German vessels.

The universal opinion in Valparaiso is that the German squadron was always well provided with wireless information while the contrary was the case with the British squadron.

HAVE LEFT VALPARAISO

London, Nov. 5.—The German armored cruisers Scharnhorst and Guesenau and the light cruiser Nürnberg steamed away from Valparaiso at noon on Wednesday, according to a despatch to Reuter from Santiago.

CHILEAN NEUTRALITY

London, Nov. 5.—The Chilean legation has received information by cable showing that the neutrality of that country is being effectively guarded. Chilean warships, it is learned, are conveying within their territorial waters the merchant ships of belligerent countries, which are threatened by warships in the vicinity.

The statement also shows that the Chileans are preventing the shipment of abnormal quantities of coal or excessive provisioning. The use of wireless in their waters is also prohibited.

BIBLE SOCIETY BUYS BUILDING

Will Be Established in Germain Street After May 1 — Bibles For the Soldiers

An interesting announcement following the meeting of the New Brunswick branch of the Bible Society Auxiliary yesterday afternoon in the Bible Society rooms, is that the society has purchased the Magee building in Germain street, opposite Trinity church and will establish a Bible house there about May 1.

It was also decided that copies of the New Testament should be presented to all soldiers in New Brunswick engaged in home defence. This is in addition to the assistance rendered in giving Bibles to all Canadian soldiers leaving for the front.

The interest in the work of the society is evidence in the constantly growing contributions made by the people of New Brunswick.

Those present at the meeting yesterday were:—His Honor Judge Forbes, president; Rev. A. F. Newcombe and Rev. Dean Schofield, Frederickton; B. T. Hayes, George A. Henderson and James Miles, St. John; James S. Armstrong, Fredericton, and the district secretary, Rev. H. R. Boyer.

THE REMOUNTS

The fitting of the steamer Anglo-Columbian with accommodation for horses is practically completed, and it is expected that the work of placing the remounts tomorrow. It is now planned to have the boat clear of the wharf Saturday. Work on the Anglo-Saxon is progressing favorably.

More Letters of Interest From St. John Soldiers in Old Land

Mrs. Murray MacLaren has received an interesting letter from her husband, Dr. Murray MacLaren, who left here in charge of the Canadian Hospital Corps for the front and Mrs. Michael Ryan has had a letter from her son, Dr. E. J. Ryan, who is surgeon to the Strathcona Horse.

Both letters were somewhat similar, in that neither physician knew to what station he would be sent. Each said that he and those with him had enjoyed the trip across the ocean, and that all had been given a splendid reception on landing. Doctor MacLaren was then at Salisbury Plains, while Doctor Ryan had not yet reached that camp, but said there was a possibility of his regiment being sent to France very soon.

There would have been many anxious hearts in St. John if the news that was spread broadcast over Great Britain a fortnight ago had been published on this side of the water. In a letter to his wife, Dr. G. G. Corbet of this city, with the hospital staff of the overseas contingent, remarks that she must have been anxious when she heard the report that three of the transports carrying Canadian troops had been sunk at sea, especially as one of those named was the one on which he was traveling. He says that the report, with the names of the transports supposed to have been sunk, was published in nearly all the British papers, although it had not been learned where the story arose.

Needless to say there was no ground for the report and the fact that the story was not used by the news agencies before it could be disproved showed a consideration for the feelings of the relatives of those on board which saved many persons from heart rending anxiety.

An artillery officer from St. John, writing from the camp at Salisbury plain, gives an interesting description of its surroundings. He says that the rolling downs on which the camp is located give a very beautiful setting for the camp. This is the district in which the scene of Sir Conan Doyle's story, "The Hound of the Baskervilles" is laid and is not far from the historic Druid monuments at Stonehenge. The camp is well located and the officers and men have little opportunity to get away and very little of anything else to distract their attention from their work. They have found that they are somewhat hampered by the lack of shops within reach and find it harder to get extra supplies than they did at Valcazier.

They expect to move from their tents into winter quarters within the next month. They are told that they need not expect much snow, but considerable rain during the winter. So far as he could learn the St. John men thought that they were likely to be kept there until the opening of the spring campaign, probably in February.

The wife of one of the St. John officers has received a message to be conveyed to Mrs. E. W. O'Connell, but has not been able to learn her address and asks that she call up Main 1182.

(Frederick Gleason) Letters have been received by his wife from Capt. H. G. Deedes, officer commanding A. Co. of the 12th Battalion.

"We went to see some of the wounded Belgians who are here (Plymouth), and got tips from them as to the Germans' methods of fighting," writes Captain Deedes. "Nearly all the bullet wounds were in the arms and shoulders, which healed quickly. We also saw many mangled wounded and Belgian men and boys with their hands cut off. Right then and there A. Co. swore to fight the Germans in their own way and take no prisoners."

"The boys are very keen to be rushed to the front, in fact I never met a crowd of men so anxious to get to the firing line. A. Co. has a great lot of men in fact in all my military experience I never saw a better class of men. I would wish nothing better than to lead them against the Germans."

The new treatment for tender skins
Many people with tender skins have been misled by the superstition that washing the face with soap and water is bad for the complexion.
Dr. Pusey in his book on the care of the skin says: "The layer of dirt and fat that such persons accumulate on the skin is a poor substitute for a clean, clear skin and is a constant invitation to various disorders."
The following treatment with Woodbury's Facial Soap is just what a tender skin needs to keep it attractive and resistant.
See what a difference it will make in your skin
Just before retiring, dip a soft washcloth in warm water and hold it to the face. Do this several times. Then make a light warm water lather of Woodbury's and dip your cloth up and down in it till your cloth is "fluffy" with soft, white lather. Rub this lathered cloth gently over your skin until the pores are opened and thoroughly cleaned. Rinse the face lightly with clear, cool water and dry carefully.
Use this treatment persistently for ten days and your skin will show a marked improvement—a promise of clear, coolness which the steady use of Woodbury's brings to a tender, sensitive skin. Woodbury's Facial Soap costs 25c a cake. No one hesitates at the price after their first cake.
Do this today—now! Tear out the illustration of the cake below and put it in your purse as a reminder to get Woodbury's and try this treatment. Tear out the cake now. Take it to your druggist today. Begin tonight to get the benefits of this Facial Soap. For sale by Canadian druggists from coast to coast, including Newfoundland.

THE WAR NEWS.

Last night's cables convey the impression that the Germans, having utterly failed in their raid on Calais by the coast route through Belgium, are concentrating their forces near Ypres, a little farther south, and that a supreme effort will be made to break the line at this point. They will be opposed by the British forces and heavy French reinforcements will be brought up if needed.

All the correspondence tells the same story of sanguinary fighting and very heavy losses; but the German losses have been much greater than those of the allies. It is declared that the proportion of old men and very young men in the German ranks is steadily growing. They have also suffered the loss of great numbers of officers. If they should be defeated in their present operations in the neighborhood of Ypres, as seems altogether probable, the defeat would be a veritable disaster.

The only news that comes from East Prussia, Poland and Galicia comes from Russian sources; but it claims that the Russian armies are making progress all along the line. So far as the Turks are concerned, both Russia and Britain have taken prompt action; but the situation has not yet sufficiently developed to indicate the extent to which Turkey will be able to hamper them. It appears to be clear that any attempt to arouse Mohammedan fanaticism will be a failure, and with that element out of the reckoning the power of Turkey is not formidable enough to cause anxiety as to the final outcome of the struggle.

The Kaiser is said to be at the front encouraging his army to press forward and drive the British out of the region around Ypres. He has already suffered many disappointments in this war, and the indications are that many others are in store for him.

St. John would be a tempting mark for a German cruiser, because of its importance as a seaport on one of the great trade routes of the Empire. Happily there is no evidence that there are any German cruisers along this part of the Atlantic coast.

The business of recruiting should now be given serious attention throughout this province. After the second contingent has gone there will still be recruiting to do, and it is important that the people everywhere realize how deeply the interests of New Brunswick are involved in the outcome of the war.

Lord Fisher, the new first sea lord, has his work cut out for him. The disaster on the South American coast, if the news is confirmed, added to the losses in the North Sea, and to the destruction of British merchant vessels by German raiders in the Atlantic and the Pacific, naturally arouses a feeling of anxiety. There is a feeling of alarm in British Columbia at the present time, lest a German squadron should visit that coast, and levy upon Canadian cities, bringing the terrors and misfortunes of war very close home to the Canadian people.

By no strategical consideration to any one sea area, but at complete liberty to divide so as to suit the conditions which came into view at the beginning of hostilities, the Admiralty would have been in a position immediately to hunt down the German vessels on the trade routes of the Empire. Thus not only would the lines of communication between the United Kingdom and the Dominions on the one hand, and between British and neutral markets on the other, have been rendered free from peril, but no inconsiderable loss due to the enemy's depredations would have been saved. The economies of peace are the extravagances of war. Nelson's repeated cry was 'more frigates, more frigates.' The lesson which may be deducted from experience of war on the sea may be expressed in modern terms, more cruisers, more cruisers—and swift ones.

The United States is now suffering from the worst outbreak of foot and mouth disease among cattle ever known in that country. This is likely to have a serious effect upon the meat supply.

Out of seven states in which woman suffrage was an issue in the United States elections, the women were successful in Montana and Nevada, and also claim Nebraska. Missouri, Ohio and both Dakotas voted against equal suffrage.

It is now estimated that the Democratic majority in the U. S. House of Representatives will be only eighteen, and in the Senate fourteen. No doubt because of the war there was somewhat less interest than usual in the election campaign, but the Democrats have had a very close call.

The rumor that German-Americans are planning a raid on Canada will not cause any trepidation on this side of the border. The United States government would not permit its territory to be made the base of an attack on a friendly nation.

The chief difference between King Albert and Kaiser William is that the latter does most of his fighting orally. A clergyman having performed the marriage ceremony undertook to write out the usual certificate, but being in doubt as to the day of the month, he asked: "This is the ninth, is it not?" "Why, parson," said the blushing bride, "you do all my marrying, and you ought to remember that this is only the third."

No Danger An old woman was thundered into the long tunnel.

NO ALUM

TO "THE NIGHT" You toasted "The Day," And boasted your might. Now "The Day" is far spent, Do you think of "The Night?"

You marshalled the weight of a nation's fate, In twice two million men, You ruined a land at your lord's command That fought you one to ten. The roads are red where your armies tread, With peasants' and women's blood, And at your back is a smouldering wreck For the people pay for all, Ringed round with steel your armies tread.

From the banks of Marne to Alsace, And in the East the ravens feast On your hundred thousands slain No house in your State but is desolate, Your land is a hospital, And famine waits at your cities' gates For the people pay for all, Ringed round with steel your armies tread.

And homeward draws the fight, If this be "The Day" for which you pray, God help you when comes "The Night."

You drank to "The Day"; You boasted your might; But "The Day" is far spent, Now darkens "The Night." C. W. Lane, in Beck's Weekly (Montreal).

These are all left to mourn the loss of a kind and affectionate mother and sister.

Stops Stomach Pains in Two Minutes

The recent discovery by a leading specialist that pure bismuth magnesia will almost instantly relieve pains in the stomach resulting from indigestion, dyspepsia or acidity is of the greatest importance to thousands of people suffering from various forms of stomach trouble. As it is well known nine-tenths of all stomach disorders are directly traceable to excessive acidity. A teaspoonful taken in a little water, after meals not only neutralizes the acid and stops the pain, but quickly overcomes the cause of the trouble, soothes the inflamed lining of the stomach and in a short time effects permanent relief.

To Free Your Skin of Hair or Fuzz

(Boudoir Secrets) No toilet table is complete without a small package of deodorant for with it hair or fuzz can be quickly banished from the skin. To remove hairs you merely mix into a paste enough of it powder and water to cover the objectionable hairs. This should be left on the skin about 5 minutes, then rubbed off and the skin washed, when it will be found free from hair or blemish. Be sure you get genuine deodorant.

Prepared Especially for This Newspaper by Pictorial Review

A SMART SLEEVE EFFECT.

To make this waist requires 3 yards of 44-inch or 2 1/2 yards of 36-inch material. If the batiste is 30 inches wide 1/2 yard will be sufficient for the trimming.

First fold the crepe before arranging the pattern parts upon it; then along the lengthwise fold place the back and back belt sections. On a lengthwise thread arrange the outer front, front belt section and collar, sleeve and cuff. Make and fit the lining; then place the outside front, creasing on slot perforations, after which the folded edge is brought to small "O" perforations and stitched. Close under-arm and shoulder seams; gather lower edge and join belt sections as notched. Close center-back seam of collar indicated by single large "O" perforation. Sew vest, collar and belt to front and back; notches and center-backs even, and bring seam of belt to under-arm seam. Roll collar as illustrated. Center-front is finished by large "O" perforations in vest. Arrange on lining, centers and under-arm seams even; stitch lower edge of outer front and back along lower edge of lining.

Jardiniere green crepe de Paris waist, showing a novel treatment of the sleeves and having vest and girthing in one.

HAVE YOU A NEEDLE ECONOMY HINTS FOR THE HOUSEWIFE

BY MARGARET J. BLAIR
(Lecturer on Home Economy, University of Minnesota.)
(Copyright, 1914, by Margaret J. Blair.)

If I had a dozen sons I'd dress every one of them in Norfolk suits.

The Norfolk is the only suit that looks well on all boys—the thin boy, the chubby boy, the boy that's "overgrown"—all look well in Norfolk.

Fortunately for the mother who is pondering on ways to keep her boys neatly dressed, despite the advancing price of clothing, the Norfolk is easily made at home.

If she has just a little time to give to the task, they can make pretty linen, and even flannel or serge suits that will keep their shape and color through repeated tubbing.

Setting the Overhand Patch.

Herewith I give directions for setting the overhand patch.

Figure 1.

- 1.—Cut the patch.
- 2.—Cut the 6 1/2 inch square with a stripe on each edge.
- 3.—Cut a hole in the center four inches square, having a stripe on each edge of this also.
- 4.—If the checks of your material are small, cut the patch four squares larger than the hole; if they are large, cut it two squares larger; have a stripe on each edge.

II.—To Set in the Patch.

- 1.—Set the corners of the hole in diagonally 1/4 inch. (Fig. 1.)
- 2.—Cut the corners of the patch off diagonally a little less than two small squares. (Fig. 2.)
- 3.—Lay the patch on the hole to see which way it must be laid to match perfectly. Be sure that the warp threads run the same way.
- 4.—Turn back one edge of the patch two squares.
- 5.—Turn back the same width on the edge of the hole that this turned edge of the patch matches.
- 6.—Hold the material with the wrong side toward you, and the turned back edge of the hole at the top.
- 7.—Turn over from you the upper part of the material down to the hole. Do not crease, but hold it in place between the thumb and first finger of the left hand.
- 8.—Hold the patch with the wrong side toward you and place it over the hole so that the two turned edges lie together.
- 9.—Paste the patch to the material along its side about 3/16 of an inch from the edge. Be careful that your checks match exactly.
- 10.—Overhand the two edges together, being careful to sew exactly to each corner.
- 11.—Pull out the bastings.
- 12.—Turn back the next edge of the square and of the patch in the same way you did this one.
- 13.—Repeat the two edges together, and overhand.

Bagain Sale of Winter Coats For Children and Misses
Commencing Friday Morning

Here is the kind of an opportunity mothers have been wishing for, as it will mean a considerable saving and provide coats that are warm, and at the same time, styles and durable.

The coats are manufacturers' samples and odd garments, ranging in lengths from 24 to 36 inches, for ages from 2 to 10 years, and described as follows:

- \$1.50—Navy Frieze, brown and grey Tweeds, self and fancy trimmings; coats buttoning close to neck, plain or fancy backs.
- \$2.00—Brown and Olive Tweed Coats, buttoning close to neck velvet trimmings, with and without belts.
- \$2.50—Coats in Navy Frieze, with red and brown trimmings; also grey and brown Tweeds, belted backs.
- \$2.75—Coats in Brown Checked Tweeds; also in Navy Frieze, red trimmings, brass and fancy buttons, belted backs.
- \$3.75—Teddy and Nap Cloths; brown, grey and blue; also coats in Mid Fawn Tweeds with fancy buttons.
- \$4.50—Coats in Scarlet Blanket Cloths, with blue piping; also Brown and Fawn Checked Tweeds, Nap and Blanket Cloths, belted effects.
- \$5.00—Cord Cloths in golden brown and light blue; buttoning close to neck, full lined.

There are a few of these Coats only, but they are decided bargains if you come in time to get them. They are in lengths of 42, 45 and 48 inches, suitable for ages 12, 14 and 16 years.

- \$3.75—Coats in Olive, Brown and Navy Tweeds; buttoning to neck, plain and stripe effects, full belts.
- \$4.50—Tweed Coats, in dark blue and brown, wide round collars, button trimmed skirts, belted backs. Some of these coats are 48, 49 and 50 inches long, and would be suitable for small women.

SALE WILL START PROMPTLY AT 8.30 O'CLOCK IN COSTUME SECTION—SECOND FLOOR

"TOMMY" AS A PRISONER
Good Natured and Willing to Work, Says Berlin Observer.

The daily life of the British war prisoners at work in the concentration camp at Dohberitz, the large open drill ground at Dohberitz, twenty miles from Berlin, is described in a recent issue of the Vossische Zeitung received here. "Tommy," according to the German newspaper, shows no ill-feeling whatever toward his Prussian guards, and works well.

"He cultivates the land in the neighborhood under Prussian direction. He repairs the roads, works in the fields, pulls up weeds in the stretches laid out as gardens, and levels the ground where necessary. It is prisoner's work, but not slave's work, that he does, and everything is done quietly and good-naturedly. One hears no bad or angry word, no summons to be more diligent, and one notices no unfriendly glances. Often enough the German Landwehrman superintending the party shows how things must be done by taking the tools into his own hands; and Tommy is quite willing to learn. He even takes pains with his work. Many of the men come from the country and love the soil. "Each gang is in charge of one of its own non-commissioned officers, and is superintended by a man of the Prussian Landwehr. Only the rank and file work; the non-commissioned officers, who, according to military prescriptions, cannot be required to work, stand about smoking cigarettes. Communication between the English and the Germans is carried on by signs for not one of the 8,000 Englishmen at Dohberitz either speaks or understands a word of German."

Electrical Storm
A severe electrical storm visited the city last night and continued from about 8.30 to 10 o'clock. A very heavy rain-fell and the streets were practically deserted all evening. A fire alarm box in Gilbert's Lane was struck and sounded intermittently during the night. A house owned by Frank Shannon in Wright street was struck and also a barn in Gooderich street but little damage was done in either place.

To Cure A Cold in One Day
Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. Price 25c.

Intelligent Busen.
Mrs. Wealthy—"Are your berries fresh, little one?"
Margaret (experiencing for the first time the trials of a berry-render)—"Yes, ma'am. Our bushes don't raise anything but fresh ones."

It is Every Man's Ambition to Own His Own Home Read This! It Tells of Your Opportunity The ambition of every home-loving man is to own his own home, to free himself of the regular monthly rent burden, become independent, give his family the right to live as they should live, his children every opportunity to grow up under the best environment. These conditions cannot be found in the crowded tenement districts of every city. Therefore, what has a man to do to realize his ambition? Take an opportunity, pick out a lot of land in a good section within a short distance of the city, where land values are increasing and street car lines has been extended, then arrange to purchase on easy terms and build a home according to his own requirements. With little money you can start building a home paving the way to independence and realizing your ambition of "Owning Your Own Home." Call in and see us. We will be pleased to give you particulars of our Great Marsh Road lots and also show you how you can collect rent instead of paying it, thus having money coming in instead of money going out.

Royalty Done

A refreshing little incident of royalty without its crown was reported recently. Accompanied only by his dog, the old King of Wurtemberg takes many long walks along the shores of Lake Constance during the summer. Recently he crossed in a little tourist steamer to Horshach, on the Swiss shore. As a simple traveler he entered a restaurant and ordered a sandwich. "You have a beautiful dog there," remarked the waitress. "Yes, more beautiful than I am," the king replied. "That is true," said the girl, simply, "and certainly he is far younger." "You are perfectly right," the king departed, leaving a gold piece on the table. The girl ran after him, to say that he had forgotten his change. "Oh, no," the king said, "you are to keep the gold piece as a remembrance of the King of Wurtemberg, to whom you have paid the unaccustomed compliment of sincerity."

LAST NIGHT'S WAR NEWS CABLES

London, Nov. 5—1.20 a. m.—The Admiralty has issued a statement in which it says it has received from German sources details of a naval engagement off the Chilean coast...

The Admiralty announces that one officer and twenty men were lost in the sinking of the British submarine D-5 by a German mine in the North Sea yesterday.

Santiago, Chile, Nov. 4.—A steam collier which has arrived at Valparaiso reports having seen eight Japanese warships at Easter Island...

Copenhagen, via London, Nov. 4.—6.45 p. m.—A large German trawler has been destroyed by a mine south of the Danish Island of Langeland...

Now that Turkey has aligned herself among the nations at war speculation is rife as to what the other Balkan powers will do.

Next to the Turkish situation the appearance of German warships off the coast of England is causing most of the discussion in this country today.

The official reports of the fighting on land, as issued today, recorded only advances at various points, and repulses of enemy attacks at others.

Yes, having been driven out there by the flooded country and the gun fire of the allied troops and warships.

The Germans, however, have kept up their attacks on the Allies' lines around Ypres, where the British troops are fighting.

Military men here say that the Allies have just as good means for bringing reinforcements to their lines as have the Germans...

COST OF WAR SESSION. Cheapest and Shortest in History of Commons.

Ottawa, Nov. 5.—The special war session of the House of Commons, held last summer, cost the country \$800,000, as far as the House of Commons was concerned.

"Did you see the pleased expression on Mrs. Bink's face when I told her she looked no older than her daughter?" asked Mrs. Brown after the reception.

"No," said Mrs. Jones. "I was looking at the expression on her daughter's face."

HAD NO POWER OVER THE LIMBS. Locomotor Ataxia, Heart Trouble and Nervous Spells Yielded to Dr. Chase's Nerve Food.

It would be easy to tell you how Dr. Chase's Nerve Food cures locomotor ataxia and derangements of heart and nerves, but it may be more satisfactory to you to read this letter.

Mrs. Thos. Allan, R. F. D. 8, Sombra, Ont., writes: "Five years ago I suffered a complete breakdown, and frequently had palpitation of the heart. Since that illness I have had dizzy spells, had no power over my limbs (locomotor ataxia) and could not walk straight.

At night I would have severe nervous spells, with heart palpitation, and would shake as though I had the ague. I felt improvement after using the first box of Dr. Chase's Nerve Food, and after continuing the treatment can now walk, eat and sleep well, have no nervous spells and do not require heart medicine.

I have told several of my neighbors of the splendid results obtained from the use of Dr. Chase's Nerve Food. Dr. Chase's Nerve Food, 50c a box, for \$2.50, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

AN EASY WAY TO GET FAT AND BE STRONG. The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods, rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched.

You cannot get fat until your digestive tract assimilates the food you eat. Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood.

This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh builders. Sargol aids through its regenerative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body.

You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh.

Sargol is absolutely harmless, inexpensive, efficient. Leading druggists of St. John and vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

Caution—While Sargol has given excellent results in overcoming dyspepsia and general stomachic distress, it should not be taken by those not wish to gain ten pounds or

Canada First! Keep your Cash in Canada

Awake to the greatest chance Canada ever had! Awake to the fact that YOU are the man who can give her that chance. YOU now have the opportunity to put Canada on a wave of prosperity that will carry her into an eternal haven of commercial safety. KEEP your cash in Canada!

The European conflict, has stopped tens of millions of dollars of imports into Canada from European nations. It has especially stopped about fifteen millions of dollars worth of imports from Germany.

Adopt as a motto "CANADA FIRST." Keep always in your mind "I'll spend my cash where I am getting it—in Canada, on Canadian-made goods."

Remember that every dollar you spend in Canada means more work for Canadian workmen, more money to spend on Canadian improvements, more money to reduce Canadian taxation, more money in circulation, cheaper food, better living and lasting prosperity for our homeland of Canada.

This applies to all Canadian manufactures and to all imported goods. There is very little made abroad that cannot be made in Canada just as well, as cheaply and as efficiently.

RED CROSS GIN is the only gin made in Canada. In the twenty years of its manufacture it has crept so high in public favor that few Canadian households are without it. Some gin is imported that should rightly be made in Canada.

Be a true Canadian! If you drink gin ask for RED CROSS GIN, Canada's own home-made product. Support "Made in Canada" goods. Keep the cash you pay for gin,—in Canada.

By buying Canadian-made gin, you help the farmer who grows the grain, you assist the lumberman, and box maker, you aid the bottle maker, the printer who supplies the labels, you even help the manufacturers who make the nails and the other things that are used in putting the finished product on the market.

"RED CROSS" GIN is made from selected grain grown in Canada's golden west. It is delightfully flavored with the aromatic juniper berry, a medicinal berry with powers over health that have been recognized for generations.

ELLIOTT'S HORSE ST. JOHN MAN'S FINE WAR GIFT

Hardy Body of Troopers in Montreal on Way To England

RAISED BY R. T. ELLIOTT

He is Son of Late Thos. Elliott of St. John and Visited Here Three Years Ago—Could Not Travel Through States Owing to Neutrality

The following from the Montreal Star of Oct. 29 is of local interest because R. T. Elliott, referred to, is a St. John boy. His father, the late Thomas Elliott, left St. John for British Columbia about 1880. R. T. returned to St. John later and took a course in Ker's Business College. He has been very successful, being solicitor for MacKenzie & Mann. He visited St. John three years ago. The Star says:

"After being held up and prevented from going through United States territory, there arrived in Montreal yesterday a troop of hardy-looking veterans, known as 'Elliott's Horse.' They have traveled across the continent from Vancouver, B. C., and are on their way to England, where they hope to be given an opportunity to go to the front at once.

It was planned that they should go from Victoria to Seattle, and thence across the United States to New York, to take steamer there for England. One of the main reasons for this plan was that a saving of several thousand dollars in transportation would be effected. After boarding the steamer at Victoria, however, it was learned that they would not be allowed to pass through the United States, as it would be a violation of neutrality, so arrangements were made to take the Canadian route and sail from Montreal.

An Independent Corps

"Elliott's Horse" is an independent organization. It has no connection with the Canadian Militia, nor yet with the imperial forces. The corps was raised and equipped by R. T. Elliott, K. C. of Victoria, and named after him. Mr. Elliott also financed the men through six weeks' training in barracks at Victoria, and is paying their transportation to England. The commanding officer is Capt. G. Smith, who is already on his way to England to make arrangements for the men on their arrival there. The acting commander with the troop is Capt. W. A. C. Underwood. Other officers are Lieutenants Holgate, Roberts and Sloan.

"Some of the men are veterans of several campaigns, and only men who had seen active service were accepted. The men assuredly give the appearance of being able to give a good account of themselves. They are big, strapping fellows and are very impressive in their khaki uniforms and wide sombreros.

"When they arrived in Montreal yesterday, they were met by a committee not call for some time, the problem of sleeping accommodation had to be solved. With the assistance of Colonel Stewart and Major Long, they secured quarters in the old High School Building. The troopers are amusing themselves in taking the sights pending their departure."

ENDS HIS LIFE WITH A BULLET

Cook on Steamer Here Worried Over Non-Receipt of News From Family in Italy

Worried because of not having received letters from his family in Genoa, Italy, Louis Denarigo, aged about fifty-five years, a native of that country, shot himself this morning and his body now lies in the morgue in King street east. He was chief cook on the steamer Anglo-Columbian, lying at the Ballast Wharf, and the shooting took place there this morning about four o'clock. This is one of the remount steamers. Denarigo had been employed aboard the steamer since last December and had been a quiet, inoffensive fellow, who was said by officers today not to have been addicted to drink. According to the statements of those aboard he had given no intimation that he would do away with himself. This morning the stillness of the early hours was broken by the sharp report of a revolver, and when his companions rushed to his room they found him lying in his bunk with blood pouring from a wound in his head. He died in a few seconds.

Captain W. F. Roberts was summoned and gave permission for the removal of the body. No other reason could be given by his comrades for his suicidal act than worry and anxiety wrought by his not hearing from his wife in Genoa.

ROYAL GOVERNOR'S APPRECIATION OF FINE C. P. R. GIFT

A message from H. R. H. the Duke of Connaught, has been received at the offices of the C. P. R. in this city, expressing appreciation for the donation of a day's pay to the patriotic fund by each employe. The text of the message follows:

His Royal Highness the Duke of Connaught, president of the Canadian Patriotic Fund, desires to express to the officers and employes of the company his admiration for and appreciation of their generous contribution of one day's pay, amounting in the aggregate to nearly \$145,000, for the care and relief of the families and allies who have gone to the front for their country's sake, and his conviction that this generous action will be appreciated throughout the length and breadth of the Dominion."

QUEBEC FIRE WAS SERIOUS; FIREMEN DID GREAT WORK

Quebec, Que., Nov. 5.—Gale Brothers shoe factory, located in an industrial centre, is on fire. It is feared many lives are lost. The fire is gaining headway and other factories are threatened.

Later, fire breaking out, presumably, from the boiler room and spreading so quickly that it endangered the lives of scores of factory hands. The fire gutted the entire east wing of the Gale factory in Valler street after ten o'clock. Within ten minutes the fire had enveloped the whole structure, a building four stories high, and the firemen did fine work in checking the flames, saving every person in the building and protecting the many surrounding factories.

TO GUARD AGAINST ACCIDENTS AT FAIRVILLE CROSSING

Wise Precaution by Street Railway Men—New Baptist Church Club

So that no further accidents may occur on the Fairville line of the street railway, at the C. P. R. crossing extraordinary precautions are being taken following orders received a few days ago. The motorman must now bring his car to a standstill seventy-five feet from the railway track, while the conductor gets out and walks to the crossing, and then, having satisfied himself that there is no train within the danger zone, he gives the signal and the car proceeds on its journey.

From now on the nights are particularly dark and traffic over the C. P. R. to Bay Shore becomes much heavier, trains being obliged to pass across Main street constantly, both day and night, so this endeavor to protect the public at a really dangerous spot would seem commendable.

At a men's meeting in the Baptist parsonage on Tuesday evening it was unanimously decided to form a club in connection with the church, with a two-fold object, a study department in affiliation with the Bible Class conducted on Sunday afternoons by Rev. P. R. Howard, and a social meeting once a month at the homes of various members.

The society is starting out with a charter enrollment of twenty-five men and a committee was appointed to select a name and nominate officers for the organization. Those behind the movement are enthusiastic over the interest manifested in the scheme and plans are being arranged for an extensive winter programme.

With Friends

When the manufacturer's advertisement appears in the newspaper it is "among friends."

The local advertisers are personally known to many of the readers.

Their stores are familiar, their advertising an old standby.

The new advertiser gets the benefit of being in this good company. Like the new member he gets all the prestige of the lodge.

It is only one of many reasons why newspaper advertising is so effective to the national advertiser.
