ANNEX TO HIGH SCHOOL BEING CONSIDERED

9 MORE ROOMS PLANNED SAYS HEAD OF BOARD

Announcement Is Feature of High School Closing Today

UNUSUAL ESSAY

Miss Eleanor Chaisson Lauded At Exercises in St. Vincent's School

A STATEMENT by Dr. L. M. Curran, chairman of the Board of School Trustees, that the board had given consideration to the building of an annex to the present high school to give nine more rooms, and a rather unusual essay of George Buckley, of Grade 11, in which he described some of the Christmas presents he would give to Saint John, Maritime Provinces and Canada, were the features of the high school closing this morning.

St. Vincent's Girls' High School proceedings were marked by eulogies of Miss Eleanor Chaisson, winner of several high awards.

The paper of Mr. Buckley showed that he had been giving careful study to the problems of the city, and possible solutions. The chairman of the School Board made appreciative reference to the work of W. C. Bowring, who for many years has been the leader of the High School orchestra, and J. P. Brown, musical instructor in the schools.

GIFTS FOR SAINT JOHN.

In his essay on "Santa Claus in the World," Master Buckley named some of the things he would give for Christmas presents to the city. Among these he named new industries, a fair share of the grain shipments, a fair amount of the city's business, a new railway station and a new high school.

FOR MARITIMES.

To the Maritime Provinces he would give an additional 1,000,000 population and largely increased tourist traffic with the necessary hotels and steamers to accommodate them.

To the Dominion as a whole he would give several more million people made up of bringing back those who were going to the United States and selected immigration from Europe.

To the C. N. R. he would give a few dollars surplus, he would give a national debt and to one of the other of the political leaders he would give a clear majority in parliament. To the work of the League of Nations he would give a large number of members and he would make the United States a member of the League of Nations.

OVERCROWDING.

In calling on the chairman of the School Board to take charge of the part of the program calling for the present plan of the annex, Mr. J. S. Myles said this was the first time that the school had met in the assembly hall, on account of it being used for eleven weeks by Grade 12 as a class room. All departments, he said, were overcrowded and unless there was a large number of pupils and the parents to the closing.

PRIZES PRESENTED.

He then called on A. P. Blake, manager of the Atlantic Sugar Refinery to present the prize of the Portmouthe Club for English in Grade 12 to Ambrose McGourty.

The Emma Pike memorial prize of \$50 for best marks in French was won by Miss June Isabel Currier. This was presented by Mrs. Silas Alward to Miss Currier's brother, the winner being a student at Queen's University. The Governor-General's medal for Grade 10, won by Donald Fraser, was presented by Rev. J. S. Bonnell.

The High School Alumnae medal for Grade 9 was won by Mary Gray and presented to her by Mrs. Margaret Lawrence.

CHILDREN GIVE.

Mrs. W. R. Speight sends from Welford a contribution of \$5.05, the result of her savings by the little ones of her primary Sunday school staff "it gives me pleasure," she writes, "as the teacher of the Sunday school primary class of the United Church, Welford, to send you this \$5.05 which my kiddies saved for me on Christmas. Their names are, Evelyn Abbott, Ethel Abbott, Vera Parker, June Blanchard, Betty McDonald, Margaret Hamilton, Murray Speight, Gerald Wood and Miss Rae B. Swan, teacher of the New Denmark school, forwarded \$1.50 as a contribution from the children of that school. "We sincerely hope," she writes, "that our small contribution may help in giving some poorer children a much happier Christmas than they otherwise would have had."

The Clerical Bowling League sent \$10 through George W. Smith and B. L. Sheppard as a donation from the league. There also came in today \$11 from the city staff, Canada Life As-

TEN PERCENT TURNOVER LEVY IS PROPOSED

President and Premier Are Impressed By Plan

FRANC IMPROVES

Capitalization of Tobacco Monopoly For 25 Million Francs Suggested

PARIS, Dec. 18.—A loan of ten billion francs, floated in France and abroad, the interest and amortization of which would be guaranteed by a 10 per cent. levy on contribution to the amount of the business turnover of all the great French industries, is proposed by the industrialists of Lille, Roubaix and Tourcoing as a solution of the financial situation.

STOCK LEAVING FIVE PER CENT. INTEREST WOULD BE ISSUED. Ten billion francs of this would be reserved for bearers of national defence bonds, ten billion for holders of French rentes or other state bonds, and five billion for fresh money. Four billion francs of the fresh money would immediately be turned over to the state as the nucleus of an amortization fund.

FRANC IMPROVES.

Both this solution and that proposed by the industrialists have been received enthusiastically on the hour. One result was seen today when the dollar, which opened at 27.33, to the franc, rose to 27.01.

SAINT JOHN, N. B., DECEMBER 18, 1925.

COMBINED MARITIME ACTION NEEDED

The Council of the Saint John Board of Trade took vigorous action yesterday with respect to the question of diverted Canadian traffic, which has aroused so much feeling not only in the Maritime Province but in many of the larger Canadian centres, as is shown by sharp and outspoken editorials in the leading newspapers of the country.

Ports of Halifax and Saint John. The Star says opinion in the Maritimes is not reconciled to the view that the export of Canadian grain naturally ceases when the port of Montreal closes for the winter, and the bulk of our grain must necessarily be exported by way of the United States.

"We do not blame Halifax or Saint John for being fighting mad when they see millions of bushels of Western Canada grain traveling via the ports of New York, Buffalo, Boston and Portland, and huge elevators lying idle in their harbours," says the London Free Press.

NOT SO MANY EXILES.

Fewer Canadians are going to the United States, and more are returning. The annual report of the United States Secretary of Labor and Commissioner-General of Immigration, covering the year ended June 30, 1925, shows a sweeping reduction in the number of immigrants received by the United States during the twelve months ended June 30 last was 103,983, while for the year before it was 203,690.

HOW OFT AS I HER BEAUTY DO BEHOLD

So oft as I her beauty do behold, And thereafter do her cruelly compare, I marvel of what substance was that fair, Not earth, for her high thoughts more heavenly are; Not water, for her love doth burn like fire; Not air, for she is not so light or rare; Not fire, for she doth freeze with faint desire.

Halifax Calls Upon Elected Representatives To Take Lead, Urges Maritime Conference

"It is a Disturbing, an Impossible Position," Says Ottawa Protest in Respect to Large Excess of Wheat Exports Via U. S. Ports

CLARION APPEAL ISSUED AT WINNIPEG

"Why Should Canada's Seaboard Harbors Be Kept Out of Fair Share of Grain Traffic," is Question Asked at Toronto; East's Grievances Legitimate, Declaration Made in Montreal

THE demand that the rusty rails of the National Transcontinental Railway be polished by the wheels of rolling stock, and no longer neglected by diversion of traffic to foreign ports at appalling expense to Canadian taxpayers, is receiving nation-wide endorsement.

The press, true reflector of public opinion throughout the Dominion, is speaking and speaking in no halting or uncertain manner.

"It is a disturbing, an impossible position," declares the Ottawa Journal, in respect to figures showing that four bushels of wheat have been going through American ports for every bushel going through Canadian ports.

DEMAND AT TORONTO.

The Toronto Mail and Empire, pointing to the sidetracking of the seaports of Nova Scotia and New Brunswick, demands to know, "Why should the ports of the Maritime Provinces be kept out of their fair share of the grain traffic of this Dominion?"

In the course of a powerful editorial, quoted in full in this paper a couple of days ago, The Manitoba Free Press sounds a clarion call for action. "Will the Government act? Will Parliament act? If not, what is the explanation?" asks the Winnipeg paper.

IMMEDIATE ACTION ASKED.

The Montreal Star, too, has joined the chorus of protest against the starvation of Maritime ports in favor of United States ports. The Maritime grievance that the parliamentary pledge made twenty years ago has been treated with contempt is right and legitimate, declares The Star, calling for immediate Government action.

The Halifax Herald, right in the van of this campaign, urges that we mobilize Maritime demands, and suggests that a "National Transcontinental Railway conference" of the Maritime interests be convened at the earliest moment. This calls for a mass meeting backed by the Maritime Board of Trade, the Boards of Trade of the various cities and the three provincial Governments.

SAINT JOHN RESOLUTION.

Yesterday afternoon the council of the Saint John Board of Trade passed a resolution requesting the Federal Government to at once instruct the Canadian National Railway officials to employ to the fullest extent the facilities which the country is being taxed to maintain, and to retain the entire traffic of Canada within her own borders.

Here is the full account of the Halifax Herald's suggestions, and the editorials from various Canadian newspapers:

Halifax Herald

HALIFAX, Dec. 17.—Under the heading, "Mobilize Maritime Demands," the Halifax Herald will say tomorrow:

"The demand that the National Transcontinental Railway be put to work in the interests of the Maritime Provinces is receiving generous and vigorous backing in other parts of the Dominion. It is receiving the right kind of backing from the Maritime people themselves.

"Public money to the colossal amount of \$170,000,000 went into the construction of the Transcontinental, and that that outlay will be justified only when the Transcontinental begins to fulfill the purpose for which it was built. Up to this point this huge investment of public money has been permitted to remain more or less idle—with the ports and the territory of the Maritimes starving for trade. The press and public of other parts of Canada are making a determined drive to have the Transcontinental put to national work—this, as we say, largely in the interests of these seaboard provinces. And the people of the Maritimes must lose no more time.

"The Transcontinental should today be a great highway of Canadian commerce, pouring Canadian traffic over the Canadian territory and through Canadian seaports, the traffic that is flowing in tremendous and ever-increasing streams over the territory and through the ports of another country.

Montreal Star

MONTREAL, Dec. 17.—Under the heading "The Maritimes Have Grievance," the Montreal Daily Star this afternoon publishes the following leading editorial:

"Canada has invested the huge capital of \$170,000,000 in an enterprise which is a millstone round the neck of her people. The practical worthlessness of her investment in the National Transcontinental Railway to this astounding amount is due to the fact that the present operators of the road are not fulfilling the obligations imposed upon them by the government when this sum was sanctioned by parliament; they are not operating the line in accordance with the express understanding that was the whole basis of the arrangement when the government agreed to build.

WAY TO CAPITALIZE.

"Here is one way in which the people of the Maritimes can capitalize the results of the Winnipeg conference. The people of the other parts of the Dominion are well served by what we ourselves? The use of the Transcontinental is a matter that affects every portion of Maritime Canada, and every portion of Maritime Canada should be represented in the demand for that use.

"Why not a Transcontinental Railway conference, to be convened at the earliest possible moment at some central point like Amherst or Moncton—a conference representative of the whole of the Maritimes, to consider this one question alone? We urge the necessity of such a conference as a great concerted effort to realize upon this gigantic investment of public funds.

BACKING URGED.

"Such a conference should be backed by the Maritime Board of Trade, by the Boards of Trade of the several Maritime centres, by city, town and municipal councils, and all Maritime public bodies that can be interested in the drive. The governments of the three Maritime Provinces should take an active and effective interest in the conference. It is known that public men in New Brunswick favor a get-together of Maritime representatives, and we are certain that the Governments of Nova Scotia and Prince Edward Island would co-operate willingly and enthusiastically. Let us make it purely Transcontinental Conference, concentrating on that one objective and not allowing any other questions to divert the attention of the conference.

SOMETHING FOR OBJECTIVE.

"Here is something to be done for the Maritimes—an objective, the attainment of which would be of immediate and valuable assistance to every part of these provinces. Who will take up this question? Who will lead in the call to the conference? Make an agreement was eventually reached between the directors of the

son. The daughters are Mrs. G. E. Nutter, of Sussex; Mrs. T. G. Mabley, Kelwood, Man.; Mrs. L. C. Valby, of Saint John; Mrs. W. A. Colpitts, of Gray, Sask.; and Miss Edie, at home. The son is Weldon Stiles, at home. Mrs. Mabley was home from the west and all the children but Mrs. Colpitts were with their father when he died. One sister, Mrs. R. D. Robinson, of Saint John, also survives. The funeral took place Thursday at Elgin.

Deaths

James D. Beyer

James D. Beyer died at his home in Little River last evening after five days illness of pneumonia. He had resided at Little River for the last 40 years and was a successful farmer, highly respected throughout the community. His death will be a great loss to the district. He is survived by his wife, seven sons and two daughters. The daughters are Miss Teresa, at home, and Mrs. Edwin Kee, of West Saint John. The sons are Walter James, of Little River; Wilford L. of the Metropolitan Life Insurance Company, Saint John; Alvan H., fruit dealer, Charlotte street, city; Hector J., fruit dealer, Coburg street, city; Howard W., at home; William S., of Lynn, Mass.; and H. Eldon, managing director of the Equitable Agency Co., Ltd., Prince William street.

John Stiles

John Stiles passed away at his home in Elgin, N. B., on Tuesday, Dec. 15, in the sixty-ninth year of his age. He had been in failing health several months but it was not realized that his condition was critical and his death was unexpected. The sympathy of many friends has gone out to the bereaved. He is survived by his widow, five daughters and one

died, as did also Mrs. Crothers. She is also survived by two sisters, Mrs. R. Frizzle, of Truro, and Miss Roy Hickson, of New York, and one brother, Robert Hickson, of Stonehaven.

E. S. Hopkins.

FORT FAIRFIELD, Me., Dec. 17.—Eben S. Hopkins, 60, died today from apoplexy. He was one of the founders of the Hopkins Brothers Company, one of the largest business concerns of Aroostook, interested in potatoes, lumbering, automobiles, horses and operating a provision and meat business. He had served as president of the Chamber of Commerce, was a bank director and director of the Plymouth Hotel Company.

Mrs. J. Coughlan

The death occurred in the Saint John Infirmary yesterday of Elizabeth, wife of John Coughlan, 24 Sydney street. She had been ailing for some time. The funeral will take place from Fitzpatrick's undertaking parlors.

Mrs. M. P. Smith

BATHURST, Dec. 17.—After less than two weeks' illness of pneumonia, Annie P. Smith, aged 73, wife of Matthew P. Smith, died at her home in Stonehaven. She was the daughter of the late William and Mary Hickson.

She was twice married. Her first husband, Captain John Ellis, was drowned off Halifax harbor some 43 years ago. Besides her husband, Mrs. Smith leaves to mourn two sons, John Ellis, of Seattle, Wash., and William Smith, of Stonehaven; three daughters, Mrs. Longley, who resides in California; Mrs. Roy Crothers, of Sussex, and Miss Gladys, R. N., of Washington, D. C., who arrived home before her mother

Weddings

Scott-Kilpatrick.

UPHAM, Dec. 17.—A wedding was solemnized in St. Peter's church, Uplam, on Dec. 16, at 7.30 p.m. when Miss Mary Iva Kilpatrick, third daughter of Mr. and Mrs. Everett Kilpatrick, of Uplam, became the bride of Leonard Wesley Scott, son of Mr. and Mrs. Alexander Scott, Uplam. The bride was given in marriage by her father. The officiating clergyman was Rev. E. C. Budd. After the ceremony the bridal party motored to the house of the bride's parents, where a sumptuous repast was served. The bride received beautiful and useful gifts.

BODY DISCUSSES SCHOOL EQUIPMENT

The vocational committee's advisory committee on the equipment and plans of the electrical department in the new vocational school met last night in the school board room and completed its work. It will submit a report to the first meeting of the vocational committee. Fletcher Peacock, director of the school, presided and W. R. Pearce, of the New Brunswick Telephone Co., Ltd., a new member, was also present. The advisory committee for the motor mechanics department will meet to night.

Children At Hospital Get New Library

The nucleus of a library was presented by the Brunswick chapter, L. O. D. E., to the Saint John County Hospital yesterday afternoon for the use of children of school age who are patients there. The presentation was made by the regent of the chapter, Mrs. J. William Hart, who with the first vice-regent, Mrs. Herbert Mayer, and the financial secretary, Mrs. L. W. Simms, visited the children at work in the schoolroom. The members of the chapter expressed the hope that their gift would prove the beginning of a helpful library for the children. The gift consisted of 14 volumes including Highroads of History, Highroads of Literature and one year's subscription to the Youth's Companion. There were also presented 18 other volumes which, were the gift of a member of another L. O. D. E. chapter and included Highroads of Geography and the Golden Binnacle series.

Beauty is the Ballyhoo That Attracts Men, But More is Needed to Hold Them—If the Homely Girl Cultivates Charm of Mind and Heart, She Can Snap Her Fingers in the Face of Dull, Vain Beauty.

"Is beauty the only thing that attracts men to a woman? Had a girl, who wasn't around when good looks were handed out better abandon hope of getting a husband and reserve her accommodation in the Spinster's Retreat?"

DOROTHY DIX

IT IS true that beauty is woman's one best bet, and that if every daughter of Eve were given her choice between the inside furnishing of her head and the outward adornment of it, she would unhesitatingly choose brains and a noble Christian character.

For, it is not to be disputed, men have set an undue value upon feminine pulchritude and made it seem far more important to women than it really is.

From the cradle to the grave, women have to listen to men's eulogies of youth and beauty. Also they can but observe that a man's first glance at a woman takes stock of her looks and determines his attitude toward her.

LIKewise, a man's first question about a strange woman concerns her personal appearance. It is always, "Is she pretty?" Never does he inquire if she is intelligent, if she is well educated, if she is interesting, if she is good and kind.

Thus it would seem that the beauty had a walkover, while the plain sister didn't even have a show-in, but in reality this is far from being the case. To begin with, beauty is in the eye of the beholder, and every woman is just as good looking as she looks to a man.

SOME men adore women of the goddess type. Others prefer the pocket Venus. There are men who admire plump women with gracious curves to their figures, while others fall only for the anatomical specimens now in vogue.

It is an axiom, which our experience confirms, that great beauties are often old maids and seldom make good marriages, and this shows that while men admire a beautiful woman as they do a beautiful picture, they have no especial desire to possess her for their own.

After all, old Dame Nature isn't quite such a cruel stepmother nor so unjust as the plain girl charges her with being, for when she bestows an extraordinary amount of good looks on a woman she almost invariably withholds other qualities that are just as potent to conjure with as are violet eyes, a Cupid's bow mouth and a Greek nose.

FROM her babyhood she has been the spoiled one of the family, the one to whom all the other children were sacrificed, the one who was given the best clothes and the most advantages, who has been a little queen by divine right of her birthright of good looks.

KNOWING that she has no good looks upon which to depend, she has cultivated her head and her heart and her sympathies so that she is an interesting companion, able to enter into a man's hopes and plans and give him the understanding and appreciation and admiration which he craves.

Undoubtedly beauty is a great asset to a woman. It is the ballyhoo that attracts men's attention to her, but she has to have something more than good looks to hold them. She must have charms of the mind and heart as well, and if the homely girl has beauty, for an ugly woman who is fascinating is the most popular woman on earth.

News Notes From Movie Land

By RUSSELL J. BIRDWELL.

WHAT self-motto has guided the business steps of Joseph M. Schenck, managerial star of the United Artists Corporation and conceded by all in Hollywood to be the biggest figure in the entire motion picture world?

"No man is greater than his limitations," declares Schenck, under whom work such stars as Norma Talmadge, Douglas Fairbanks, Mary Pickford, Constance Talmadge, Buster Keaton, Charles Chaplin, Bill Hart and soon Gloria Swanson.

"If a man knows and appreciates his self-confessed fallings, then he may rise to any position he desires. If a man is deficient in one particular thing he can employ another, who is competent in that branch, to fill the gap."

Schenck, besides bossing the cinema destinies of countless marionette aspirants, is one of the largest landholders in the country. He is also the proprietor of many of the million dollar amusement concessions in Atlantic City and other summer and winter resorts.

"I know I cannot direct a picture, therefore I engage others to do it," Schenck continues, "though I am limited in that sphere I feel that I can judge a good picture when I see one."

"Famous works of literature are not censored just because a child should not read them," Schenck argued. "But those same books when transferred to the screen are deleted and ruined because of the foolish plea that a child should not see it."

On the first appearance of a cough or cold, do not neglect it, but get rid of it at once before it has a chance to grow worse and becomes settled on the lungs, for once it does become deep-seated you are going to have a lot of trouble in getting rid of it.

Our advice to you is that on the first sign of a cough or cold, you should procure a bottle of

Dr. Wood's Norway Pine Syrup

as by its timely use you may save yourself many years of suffering from some serious bronchial or lung trouble.

"Dr. Wood's" has been on the market for the past 37 years; so you are not experimenting with some new and untried remedy; put up only by The T. Millburn Co., Limited, Toronto, Ont.

"Kellogg's ALL-BRAN is the only thing that relieved me of constipation"

Beware of the dangerous diseases which are constipation's toll.

Constipation is dreaded, not only for its insidious self, but for the serious diseases which may be traced to it. Mr. Pallidon tells us the helpful story of his relief.

Doing hard work while constipated brought on piles, from which I suffered for two years. I tried almost every remedy without success. Finally I tried Kellogg's ALL-BRAN and it has made me well again. It is the only thing that helped me and I want everybody to know about it.

(Signed) JOHN PALLIDON, (Ladies and Gent.) You can get sure, prompt, permanent relief from constipation. Simply eat Kellogg's ALL-BRAN

ADVENTURES OF THE TWINS

by OLIVE ROBERTS BARTON

HANKA AND KUBA TAKE THE TWINS FOR A RIDE

Nancy and Nick stood still while the picture people danced around them—the girls in their gayly embroidered dresses and aprons and clumsy boots—and the young men in their funny white waists with huge puffed sleeves, and feathers in their hats.

"Come along, boy and girl," said Kuba kindly. Kuba was the boy. "Hanka and I are twins. Are you twins? You look alike."

"Yes, we are," said Nancy. "And you look alike, too."

"Just then the music of the merry-go-round started again in the distance. It went tinkle, tinkle, tum, tum, tum, bang, bang; so invitingly that Nancy and Nick had to stop talking to listen."

"Come along!" cried Kuba. "We'll get some rides."

Nobody need to be asked twice! Away they scampered, all four, and in a few minutes each one was seated on a spirited wooden steed with gorgeous trappings.

"See here, Benhova!" said Kuba to a fat woman in big earrings and huge green satin sleeves, who came around for the fares—Kuba spoke in a loudly bawling voice. "We are to have all the rides we wish, for nothing. Also our friends here, Yuzka says so and our father says she must be minded."

"Quite so! Quite so!" nodded the fat woman in the green satin sleeves. "You shall ride till the saddles get thin, my dears. It will save the donkey's backs, to be sure."

Then she rang a bell, and the merry-go-round started again on its travels. "Tinkle, tinkle! Toot, toot! Bang, bang!"

Nancy and Nick soon decided that of all the adventures they had had so far in Picture Land this one was about the best of all.

TWO MORE GO TO SHRINERS' HOSPITAL

Florenceville Boy Will Return Today Practically Cured

Two more New Brunswick crippled children left yesterday for Montreal to enter the Shriners' Hospital for treatment. Today one of the children of this province who has been under care in the hospital for about eight months will return practically cured. Mary Allan Speight, daughter of John Speight, 896 Main street, left yesterday under the care of a member of Luxor Temple of the Mystic Shrine. The officers of the Temple gathered at the station to bid the child goodbye. The second child, Florida Dempsey, left from Campbellton.

The child who is returning is George Adams, of Florenceville. He was conveyed to the Shriners' Hospital on a stretcher. The last word from Montreal was that George was now walking about on crutches and with just a little more confidence would be able to discard the crutches and get along on his own feet.

Luxor Temple will provide for George's care in New Brunswick for some time.

The Potentate of Luxor Temple, J. Herbert Crockett, said last night that there had already been 16 children from New Brunswick at the Shriners' Hospital and eight had returned cured or very materially benefited.

With reference to a child that the Saint John Rotary Club has been very desirous of getting into the hospital he said that word had been received yesterday that all the beds for tuberculosis cases were filled and the hospital authorities greatly regretted that they could not receive the child until there was a vacancy in that section of the hospital.

CLUB HEARS PAPERS ON VARIOUS FEASTS

"Festivals in Many Lands," was the title of the evening program for the Eclectic Club last night at the residence of Mrs. John McMillan, Germain street. Mrs. Murray MacLaren was in charge and read an excellent introductory paper. Members followed with readings descriptive of the various festivals. Miss Elsie Matthews' reading was on the New Year; Mrs. Silas Alward on Easter; F. T. Short, Hal-lowe'en; Gordon Macdonald, on Christmas.

GIRL SAVED BY SAINT JOHN MAN

Conductor Mullane Pulls Jessie Killam From in Front of Moving Cars

Young Woman Had Failed to Hear Warning Shouts of Danger

MONCTON, N. B., Dec. 17.—Through the heroic and prompt action of T. E. Mullane, well known sleeping car conductor on the Halifax-Saint John express of the Canadian National Railway, Miss Jessie Killam, of this city, was saved from instant death at the C. N. R. depot here about 3 o'clock this afternoon.

Miss Killam was seeing her sister away on the Boston train and was standing on the brick of No. 1 track when the sleeping cars were being shunted on the northbound Ocean Limited. She did not observe nor apparently hear the warning shouted of the approaching cars and was within an ace of being knocked down by them. Conductor Mullane rushed to her rescue and pulled her clear of the track. But for his prompt action Miss Killam would probably have been cut to pieces.

VERDICT FOR \$3,000 BUT NOT ENTERED

Lawyers to Argue Points at Law in Local Automobile Suit

After deliberating nearly four hours, the jury in the case of Long et vs. the Estate of William McLaughlin returned a verdict in the Circuit Court yesterday afternoon in which they awarded \$3,000 damages to the injured boy, plaintiff, and \$59.75 to the boy's father. No verdict was entered, however, as there still remains argument of counsel on points of law before Mr. Justice Crockett on Tuesday afternoon next, court adjourning until that time.

The case arose out of an automobile accident at Fair Vale during the past summer in which Jackie Long, who was riding on the defendant's truck, received injuries which necessitated the amputation of his left arm.

QUESTIONS AND ANSWERS.
The jurors in the case were A. H. Wetmore, E. W. Henry, M. F. Kirk, L. M. Lelacher, A. H. Patterson, A. H. Farrell and E. R. Hagerman.

The questions left to the jury to decide and their answers follow:

1. Was there any negligence on the part of the defendant's chauffeur, Rogers?
Yes.
2. In what did such negligence consist?
1st—In allowing the boy on the running board of the car.
2nd—Lack of proper attention to his duty of driving the car just previous to and at the time of the accident.
3. Was the injury of the infant plaintiff entirely caused by the negligence set out in your answer to question 1?
No.
4. Was the infant plaintiff guilty of any contributory negligence without which the accident would not have happened?
Yes.
5. In what did such negligence consist?
By staying on the car after having been asked to get off. And by standing on the running board of the car when it was moving.
6. If you find that there was any contributory negligence on the part of the

HALF CLASS 1 RAILS PAY NO DIVIDENDS

HAMMOND, Ind., Dec. 17.—Considerably more than half of the class one railroads in Western United States territory have paid their stockholders no dividends for years, C. D. Morris, representing the Western Railways Committee on public relations, declared today. "The net operating revenues of class one railroads," he said, "were \$202,000 a day less in 1924 than in 1916."

EMBALMERS MEET HERE

Demand For N. T. R. Service Given Nation-Wide Approval; Maritime Conference Urged

Continued from Page 8.
Mail and Empire

The Mail and Empire dealt with its great national issue in an editorial entitled "Canadian Grain Via United States Routes" on December 15, saying:
"Canada's exports of wheat to the British market in the month of November totalled 24,095,814 bushels. Of this quantity 18,010,910 bushels went via the United States, and only 5,485,710 bushels went through our own sea-ports."
What observer of the progress that has been made in this country in the last generation is not surprised to find that at this late date so much of our grain reaches Britain through United States channels of transportation? Hopes have been long entertained that our own ports would become the outlet of the bulk of our grain exports, but the realization of those hopes still seems as distant at the end of the first quarter of the twentieth century as it did at the beginning.

ENORMOUS SUMS SPENT
In the twenty-five years enormous sums have been expended upon our transcontinental railways, our ocean ports and the terminal equipments at the head of the lakes and on this side of the lakes.

Canada has become the great wheat exporter of the world, the destination of most of the wheat that leaves the country being the British Isles. That so much of our wheat reaches the sea by way of the United States is the more perplexing because that country has practically no consumptive demand for Canadian wheat, its tariff of 42 cents a bushel all but completely closing that market.

Besides all that has been done for the creation of our splendid transcontinental railways, for harbor improvement and for the construction of grain elevators at all points of transfer, and for enabling our banks to finance the now huge crop movement of the country a national spirit has been cultivated that looks particularly to the country's independence of our neighbor's approach to the sea.
We shall be told that as long as the balance is economically in favor of United States routes, our grain exports to be very largely shipped by those routes. But all the expenditure that has been made on our own routes, has been for the purpose of turning the economic advantage in their favor. Navigation right to the ocean was still open at the end of the nineteenth century. Government policy must become something more than a phase. It must begin to regulate in reality.

Premier King made much ado about regulating freight rates on the Upper Lakes and about cheapening the ocean transit of our grain exports. But the only result of his much talking was so much muddling. Very ghastly was the failure of his dealing with the carrying trade of the Great Lakes, and his trifling with the problem of Atlantic freight rates had in it an element of tragedy.

Canada's grain growers must have direct Canadian access to the British market. Farmers of Western Canada desire cheap and sufficient transit by purely Canadian routes to Britain. Having that, they can then feel assured that their grain, which is superior to that grown in the Western States, and therefore commands higher British prices, will not be lowered in grade by being mixed with United States grain in United States elevators.

VITAL TO MARITIMES.
To another section of the country, namely, the Maritime Provinces, the shipping of our grain through Canadian ports is of vital moment. The side-tracking of the sea-ports of Nova Scotia and New Brunswick is one of the principal causes of the sense of grievance that has become acute in that part of the Dominion. We are informed that the Empire's most important ports, and is the terminus of the Canadian National Railways System, has not handled a single bushel of the 1925 grain crop. Yet Halifax has two grain elevators, one of which was completed this year at a cost exceeding a million dollars.

Why should the ports of the Maritime Provinces be kept out of their fair share of the grain traffic of this Dominion? Why would it not be kept out of it if there was good management at Ottawa.

Canadian Business Above Normal Line

OTTAWA, Dec. 17.—For the first time in five years the "Babson Chart of Business Conditions" is registering a decided rise above the normal line in regard to Canadian business, declared Ralph B. Wilson, vice-president of the Babson statistical organization, when interviewed here today.

"This improvement is due to an increase in most of the barometers which combine to form the business index," Mr. Wilson said. "Compared with the same month a year ago, the amount of new building, bank clearings, exports, imports, newspaper production and shipments, pig iron and steel production and railroad earnings increased during October and November. Exports have risen out of proportion to imports so that the favorable balance of trade evident for the last year and a half is maintained.

SUGAR SHIPMENTS EXPECTED SOON

Advices received by New York sugar companies state that all restrictions have been removed by the agricultural bloc in Cuba and the mills resumed grinding operations. Thirty mills are now in service throughout Cuba and with new mills starting up daily it is expected that the new sugar crop will be arriving at ports for export in large quantities.

Because of the unsettled conditions in the sugar industry of Cuba, steamship operators of New York have hesitated chartering additional tonnage that is engaged every season for the sugar movement. It is expected that after the holidays chartering in this trade will show a decided improvement.

R. J. MEIKLE, NOTED MILLWRIGHT, DEAD

OTTAWA, Dec. 17.—Robert John Meikle, veteran millwright, died at his home here today in his seventy-first year. The sickness was the result of an operation to his finger. He constructed mills in Newfoundland, British Columbia and many other places in Canada and the United States.

BANQUET GIVEN CHALEUR PURSER

Empty Stocking Fund Lauded and Helped at Function

Pleasant Time Enjoyed and Presentation Made at Dinner on Board Ship

One of the banquets given annually for the last three years, by officers of the R. M. S. P. mail liner Chaleur to Saint John friends, was held on board the ship last night and proved one of the most enjoyable. The gathering was in the nature of a farewell to Alfred R. Lyon, purser of the liner, who is also president of the club. This popular officer is making his last trip on the Chaleur on the Canada-West Indies service. He is leaving for England where he is to be married in the near future. A presentation was made to the officer, and a donation of \$26.12 was given by the officers and guests to the Times-Star Empty Stocking fund. The banquet was presided over by Purser Lyon, while Chief Officer F. H. Fisher, who is vice-president, occupied the vice-chair. The menu card was neatly arranged and the repast delightful.

TOASTS HONORED.
At the conclusion of the menu there was a round of toasts. That to the King was proposed by Chief Officer Fisher and was responded to by the gathering singing the National Anthem.

FRANCE'S COLONIAL POLICY IS DEBATED

Herriot Opposes Sale of Overseas Possessions to Settle War Debts

PARIS, Dec. 18.—A lengthy debate on France's colonial policy in the Chamber of Deputies yesterday was incident with the launching at Brest of the cruiser Duquesne. It was summed up by M. Herriot, who said: "The colonies are France's daughters; a mother does not sell her children." This was in reply to rumors that France intended to sell certain overseas possessions in order to settle her debts. The cruiser Duquesne, first of the two 10,000-ton cruisers built under the 1924 naval programme, was launched at Brest yesterday. The vessel is 607 feet long, will carry 600 men, and have a main armament of eight eight-inch new model guns. The gun shields will constitute practically her only armament.

EMPTY STOCKING FUND.
During the evening mention was made of coming Christmas season, and complimentary remarks were made of the Times-Star Empty Stocking fund to provide poor children with warm stockings and other articles that will cause them to remember that Santa Claus has not forgotten them. Dr. McCoslan was appointed treasurer, and Mr. McCuskey, line collector, with the understanding that any person who interrupted a speaker during the banquet would be fined a certain amount. There were many interruptions and at the conclusion the sum of \$26.12 was given to Harry Ervin, the shipping editor of the Telegraph-Journal who was a guest.

ALCOHOL POISONING DEATHS GAIN IN N. Y.

NEW YORK, Dec. 17.—The real Rum Row has moved from the sea to the lots and office buildings of New York city with the result that a number of deaths from alcohol poisoning here has jumped from 87 in 1918 to 111 for the first eleven months of 1925, Attorney Buckner declared today.

Predicts Growth of Cattle Shipments
A. J. Cavan, of the Department of Agriculture, Ottawa, chief inspector of livestock cars and yards, is in the city on a tour of inspection. Mr. Cavan is examining the facilities for export

cattle and reports them in first class condition. He inspected the local yards yesterday and found everything satisfactory. On his way here he took in the Mont Joli feeding yard. He will leave for Halifax today to look over the yards there.

Mr. Cavan expressed satisfaction at the greatly increased number of cattle passing through Saint John and predicted that the increase would be steady. He will visit the Maritime Provinces again before the close of the winter.

PLUMBING BOARD IN SEMI-ANNUAL

Reported That Outsiders Doing Work in Province - Will Prosecute Offenders

The New Brunswick plumbing examining board met in semi-annual session in the Health Centre last night with all members present, including Miss E. G. Scheld, the secretary.

Reports for the year's work were received, showing 216 plumbers being registered to practice plumbing in the province. A directory is completed with the names and addresses of each specified in cities, towns and counties, also addresses of all district health officers, whose duty it will be to see that all in their districts are registered.

A number of reports were received of an inferior class of work being done in some communities; also regarding plumbers coming into the province from outside and doing certain jobs in this province and leaving without obtaining certificates. In the future these men will be dealt with under the act, it was said.

Reports were also received from all health officers in the province. Preparations were made for the holding of examinations dated at No. 12 Colburn street. Applications have been received from several centres.

UNUSUAL Relief

PERTUSSIN not only soothes a cough, it also helps to clear the air passages from germ-laden mucus which is usually the cause of the irritation. The relief it brings is more temporary than as it helps Nature to bring about a speedy recovery.

Its freedom from narcotics, chloroform or any harmful drug - as well as its pleasant taste - have made PERTUSSIN the ideal cough remedy.

It has been well known to physicians and pharmacists for more than twenty years and is sold at your drug store - 6c bottle 60c - large bottle \$1.50.

MAY ARRANGE FOR RAW MILK

Health Board Appoints Committee After Pasteurization Discussion

Dr. H. L. Abramson, provincial bacteriologist, asserted that the public was assuming the health risk at the present time in buying unpasteurized milk of which only about 100 quarts a day were disposed of within the city limits. It would be idle of any such thing as a guarantee of purity in raw milk.

This latter assertion however was challenged by Commissioner Wigmore and others who said that scores of families imported pasteurized milk into their country homes in summertime by choice.

SAYS BACKWARD STEP

Dr. H. L. Abramson, provincial bacteriologist, asserted that the public was assuming the health risk at the present time in buying unpasteurized milk of which only about 100 quarts a day were disposed of within the city limits. It would be idle of any such thing as a guarantee of purity in raw milk.

MR. TILLEY'S IDEA

Hon. Mr. Tilley said he had no special argument against pasteurization. He was merely a member of the Government delegation to help devise some plan to meet the demand of those who desired raw milk. He concurred in the suggestion of a register of customers and dealers for this special privilege, also list of the herds supplying the milk. Any infraction of regulations having to do with the cleanliness of herds or the health of the cattle should mean a loss of license to supply.

W. H. Golding asked if it was reasonable to expect various grades of safety from bacteriologist. If certified, semi-certified and so on down the scale. Were there not sediment tests and records of bacterial counts on file at the present time that should give light upon this matter. And would the public be free from a recurrence of this milk uncleanliness if the pasteurization producers were lifted?

CHIEF HEALTH OFFICER

Dr. G. G. Melvin, chief provincial health officer, said that vaccination was legalized to prevent smallpox. Some were not willing to be vaccinated, but were willing to assume the risk of disease. Should be general public submit to this risk? In countries where tests had been made, vaccination was obligatory as a preventive. It had been said during the discussion that Adam and Eve used the same kind of milk being used today in its raw state. That might be true enough, but under pasteurization from 300 to 400 lives had been saved by the pasteurizing of this food element in New Brunswick. It was not a question of cost, of added labor or of licenses, but of human lives. Tuberculosis, scarlet fever, diphtheria and other diseases were disseminated by milk, even certified milk. The infantile death rate was now vastly lower, and it was the duty of health bodies and health legislation to bring about this lowering of mortality statistics. Regulation could not prevent all from drinking milk, but young it could greatly lessen the number of deaths. Pasteurization might seem an arbitrary regulation to some, but it was, but the same might be said of vaccination and certain regulations protective of public health. Dr. Melvin said he was persuaded many Saint John people were greatly in favor of pasteurization. The chief medical officer said that as the outbreak was of unpasteurized milk, as he feared it would bring about laxity in the handling of cattle herds, but it had turned out that such is not the case.

15,000 QUARTS DAILY

In answer to Commissioner Wigmore's query as to the amount of pasteurized milk sold in Saint John daily, he was told it was in the vicinity of 15,000 quarts. The certified milk consumption was about 100 quarts. Dr. Curran said the members of the Government delegation were now exactly in the same position he found himself to be in three years ago when pasteurized milk was introduced. As the city representative he felt he was a servant of the general public and he strove hard to show both the dealers and the people the advantages of the new regulation. If there was any relaxing of this stricture upon milk, a scheme might be worked in which Kings County milk (a day since in reaching this city) might be pasteurized and the fresher suburban milk of Saint John sold raw.

HOCKEY CLUBS MUST AFFILIATE WITH M. P. B., SAYS STIRLING

SUSPENSION TO FOLLOW IF RULE IS VIOLATED

Fredericton, Campbellton, Moncton and Chatham Warned

A WARNING to all New Brunswick units in the Maritime Amateur Hockey Association that no player will participate in the various league schedules they must be affiliated with this organization but as this is done these playing against them will be suspended and the money they have received forfeited.

"It has been brought to my notice," said Mr. Stirling, "that several clubs in this province are preparing for a hockey season. We welcome them to this organization but at the same time I would like to point out to them that they must comply with the rules in this respect. The so-called Moncton Athletics, who have entered a team in the southern section of the M. P. B., are not affiliated with the M. P. B. and neither are the clubs located in Fredericton, Campbellton and Chatham. Until this is done, the regular scheduled teams cannot compete against them. Only a few more weeks remain before the season opens and as there are regulations to be complied with in regard to application for affiliation, I wish to point out to them that they will save themselves considerable trouble if they attend to this matter. This application must go before the New Brunswick registration committee, recently appointed by President Doyle. I would advise clubs at Moncton, Fredericton, Chatham and Campbellton to get busy. They must realize we intend to enforce the rule in this respect."

NO SANCTIONS

Mr. Stirling said he also noted that basketball teams in the province were playing match games without sanctions. "The home team in these matches is the duty of the visiting team to see that a sanction has been procured. I intend to give the clubs final warning on this matter and if it is violated again, I will suspend the guilty parties. Other teams comply with the rules and there is no reason why I cannot do so. This is my last warning," Mr. Stirling said.

Prospects For Hustling Young Hockey Sextette From Sussex Are Bright

Welter Champ

This is Tommy Milligan, welterweight champion of England, who hopes to be the next world crown-wearer of that sector. He'll meet Mickey Walker for the title in January. Milligan, who is now in this country, is highly touted by European critics.

CHAMPION IS MISTAKEN FOR LUMBERJACK

"Mickey" Walker Offered Job In Woods, So Dispatch Says.

SYDNEY, N. S., Dec. 18.—Mickey Walker's sojourn of two weeks in the wood cutting camps of the Oxford Paper Company on the North Shore of Cape Breton, has not been vain. Final proof of the success of his ventures into the wilds was accorded the welterweight champion of the world yesterday when he and his trainer, Teddy Hayes, arranged in their destination woodsman's outfits were strenuously canvassed on the streets of Sydney by a prominent contractor who wished to secure the services of the two "lumber-jacks" for work in the woods.

Walker and Hayes arrived in Sydney yesterday morning from Murray Bay. Strolling about the city in their tattered caps, flannel shirts, with breeches and high boots, they were conspicuous but were not recognized. A contractor in town to pick up some men for the lumber woods, spied the two and decided they were what he was in search of. Ascertaining that the strangers were some contractors who were on a job, Mickey very seriously replied that he would like to go but he had a previous engagement with Mr. Thomas Milligan. "That's all right," the lumberman replied, "I'll pay anything this man Milligan offers and a little better."

Mickey replied that he would be forced to decline and maintain his previous agreement. It was a matter of principle.

"Some of you fellows just don't want to work," exclaimed the disgusted contractor as he walked away, and left them.

Walker received a good reception to night from Cape Breton fight fans when he appeared in a local ring to fight a boxing exhibition bouts staged for charity causes.

He made a brief speech and said he was coming back to Sydney next year. Hayes also spoke to the crowd and gave a brief sketch of the champion's career. The main bout was between Jack McKenna and "Buddy" Lewis. The only decision Walker made was in a three round bout between two youngsters, "Young" Devereux and "Battling" Finn. The crowd clamored for a decision. "I hate to make a decision," said the champion, "but I guess this lad won," and he indicated Devereux.

"This is a good story, boys, whether it is 'bank' or not. Wonder who that prominent contractor was who offered him the job? Mickey Walker has been here, Tommy Milligan's manager," Sport Editor's Note.

Along The Sport Trail

BY JOHN J. DUNLOP

ONE of the most amusing things in a boxing champion's life is to have a challenger who, after several meetings, declines to take his proper place in the procession and allow the champ to bask in the glory of the title and sign fat contracts for the movies. These pesky opponents are like a rubber ball on water—you hit them hard and down they go only to bob back to the top. The only way to stop them is to flatten the ball right out of them. Mr. Louis "Kid" Kaplan, who won the featherweight title last year in a much-advertised fight set for Boston tonight when popo old Eddie Shevlin, New England welterweight champion for the last five years, meets young Al Mello, a southpaw of great promise. Some of Mello's backers say so many have said that every time Shevlin stepped into the ring recently that it has become like the faded cry of "Wolf, Wolf" in the forest, which has been a training partner for Mello, is also on the card.

WITH a carnival and big hockey match already arranged, the program for the week of the world's championship speed-skating meet is filling up. A basketball game probably will also be arranged.

SOUTH END TO HOLD SKATING NIGHT FOR FUND

Interest Keen In 3-mile Monday Night on West Side

ANOTHER BOOST for Christmas cheer for the little kiddies from local sport circles will come on two nights next week when the final of a series of races will be held on the South End rink, West Saint John on Monday night and on Tuesday on the South End rink will be equally divided between the Empty Stocking Fund and the Goodfellow's Fund. This generous offer was made known this morning by St. C. Payne, chairman of the grounds committee for the South End rink, which will open for the 1925-26 season tonight.

The South End has a splendid rink this year, 215 feet long and 106 feet wide, lighted by 20 two-hundred candlepower lights. A band has been secured, Mr. Payne said, and a record crowd is expected. There is no charge for skating, the only revenue for the upkeep coming from checking, Tuesday night, therefore, should see a large number present on the South End rink to help the good cause along.

OTTAWA IS WINNER

Senators Continue Climbing By Beating Canadiens, 3 to 0

OTTAWA, Ont., Dec. 18.—Only a spectacular and phenomenal goal tending by both net guardians kept the rival cages clear, in last night's game here, won by Ottawa from Canadiens, 3-0, as there were many times when scores seemed certain. In this respect, honours were about even. Rheaume played a splendid game in the Habituat cage, while Connell again held his position scores in. In the final period Canadiens claimed a goal following a scramble after Leduc had rushed, but the referee upheld the umpire's decision.

Morens led the scarlet shirted victors with another wonderful game, Joliet and Billy Boucher went in flashes only, and appeared to rest easily. On the defense end, Cotta and Mantha were steady, while Leduc stood out with individual efforts, when he was sent on.

N. B. CHAMPIONS LOST SIX MEN DURING WEAR

Promising Youngsters To Help Radcliffe, Says Record

Special to The Times-Star.

SUSSEX, Dec. 18.—Despite the losses sustained through players leaving town during the year, Sussex, from all indications, will have a hustling young team this year, capable of giving Moncton and Saint John a real tussle for the southern section title. The going of John LeClair, George LeClair, Joe Lums, Fred Reid, Frank Hunter and Eddie Brooks leaves a big gap but there are some promising youngsters ready to step into their places. Harold Radcliffe has been appointed manager and it is the belief here that no better choice could have been made than this brilliant forward, rated as one of the greatest in the Maritimes.

The Kings County Record, in speaking of the season, says that at a recent meeting, the following officers were elected: President—Ross Brown. Vice President—Everett Lounsbury. Executive—Frank DeBoo, William Holman, Burrage Freeze. Secretary—W. H. Kennedy.

It was decided that a canvassing committee be formed and Everett Lounsbury was appointed chairman. The said canvassing committee to look after one dollar subscriptions, and it is to be hoped that every one who can possibly afford a dollar to promote hockey in Sussex will sign up.

Percy Radcliffe, the defence man of many years in Sussex, and Harold Radcliffe, who will likely work at centre this year, and has been with the Sussex team as a regular for the last seven or eight years, are the only two of the old squad left, but Percy Radcliffe has with him on the defence this year, Johnny Friars, who has been spare for Sussex on the defence last year, and who is one of the greatest defence men at least in this Sussex, Saint John and Moncton league.

In the nets no doubt there will be Beverly Roach, who has shown his wares to the citizens of Sussex on several occasions, and is no mean guard of the twine. Lee Piche also is a good tender of no mean repute.

On the forward line there are many prospects and the team is going to turn out for practice on the ice this week. If the weather stays cold, and it is to be hoped that every one who can possibly afford a dollar to promote hockey in Sussex will sign up.

Two of the huskies of the last year's high school squad, who went through their league without missing a game, may also appear on the forward line. Walter Freeze and Hazen Matthews. The first game is with Moncton on Dec. 28.

EIGHT LOCAL GIRLS PASS SAVING TESTS

To Receive Bronze Medallions From Royal Life Saving Society

The members of the Y. W. C. A. swimming classes of last year were successful in the competitions for the bronze medallion of the Royal Life Saving Society in England recently. They were Miss Margaret Henderson, Eleanor Day, Jean Calkin, Helen Bell, Jean Angus, Elizabeth Armstrong, Greta Fowler and Elizabeth Stead.

To obtain this award the successful candidates showed their skill in three methods of release from the clutch of the drowning and five methods of towing. In swimming breast stroke for ten lengths of the tank and back stroke for five lengths of the tank, making a surface dive and bringing up something from the bottom of the tank, in land drill and in resuscitation. They also passed an examination in medical questions.

HAS SILVER MEDALLION

For the higher award of a silver medallion the candidate is required to swim 300 yards or more fully clothed in deep water, show more methods of towing and several different devices as well as a number of different water tests. Miss Dorothy McArthur, the Y. W. C. A. instructor, has the silver medallion. She is now giving instruction in swimming and life saving at the Y. W. C. A. swimming classes in the Y. M. C. A. tank each Wednesday morning.

The life saving classes are popular. Several girls hope to take the tests in the spring. The swimming classes are to be continued throughout the Christmas holidays.

BABE RUTH OPENS TRAINING IN GYM

NEW YORK, Dec. 18.—Babe Ruth, aiming to 225 pounds, plans to fight his way to the top of the baseball diamond. The babe crammed his way into a New York gym yesterday, took off his coat and announced that the baseball season was on. Then he tossed a medicine ball a couple of hundred times, puffed through two three-minute rounds of boxing and defeated an opponent at handball.

Then a blow fell upon Ruth, for there came an announcement from the New York gym yesterday, took off his coat and announced that the baseball season was on. Then he tossed a medicine ball a couple of hundred times, puffed through two three-minute rounds of boxing and defeated an opponent at handball.

The former home run champion says that he will work hard during the winter and that he will be in condition for the campaign, hoping for health and honours.

FEW CLYDESDALES NOW BROUGHT HERE

B. Finlayson, in City With 23, Recalls Days of Large Imports

Benjamin Finlayson, formerly of Aberdeen, Scotland, but for nearly 20 years resident at Brandon, Manitoba, is in the city to import a standard bred Clydesdale horse, with in the city during the week-end arrangement of 23 noble animals from the Anchor-Donaldson line "Carina" to the special box cars, taking the horses to the western market. Mr. Finlayson brought his first shipment of Clydesdales to Canada 17 years ago when a mere youth and is the man chiefly responsible for the introduction of that hardy breed of equine into western farmsteads.

Among the horses landed here was a \$3,000 prize stallion which won most of the awards in Scotland and for which he has a buyer waiting. The other horses range from yearlings to three-year-olds and the dealer expects a brisk disposal of them, because of the improved money conditions amongst grain-growing farmers. The Scotch dealer states that when he first began bringing out Clydesdales as many as three thousand were distributed throughout the West in a single year, but his stock has so multiplied that importation has grown less each year since. In 1924 only nine Clydesdales were brought here by him.

As an indication how Western Canada has grown in standard bred livestock, it is worthy of note that last year at the Toronto winter cattle fair a mixed exhibit from Manitoba swept the prize list almost completely, an achievement never before known.

Bathurst To Play Moncton Monday

BATHURST, Dec. 17.—H. O. Schryer, manager of the Bathurst hockey team, has completed arrangements with W. B. Keiver, of Moncton, for an exhibition game to be played here on Monday evening, Dec. 21, between the local team and the Moncton Atlantic. The boys are in splendid condition and look forward to a lively game.

The Bathurst line-up will be: Defence, Fallon and R. Cripps; center, Lawlor, Jones, Crosby and Cripps; spurs, Robertson, Kinsman, McKee and H. O. Schryer.

The team was entertained at a supper by Trainer John Barberty.

Club Bonspiel On New Year's Day

The St. Andrew's Curling Club has begun play in their rink and expects a successful season. Two rinks were laid out on Wednesday evening and the "hoop" game is expected to continue without interruption until the spring. The ice is reported in excellent condition and keen competition is already developing.

The start this year is two days earlier than last. It is probable that play will be confined to rinks within the club until New Year's Day, when a club bonspiel will be held.

Following that matches with the Thistles and outside clubs will be put on.

THISTLES TO MEET.

The Thistle curlers will transport international club at a meeting to be held in the club rooms on Monday night next.

HELL MUCK TRIAL

Mr. Justice LeBlanc Congratulates U. N. B. Law Students on Work

The students of the U. N. B. Law School held a mock trial last night. Mr. Justice LeBlanc acted as the judge, and congratulated the students, especially the counsel, and expressed his hearty approval of the principal of holding mock trials. He believed that barristers might have gained several points had they been present that evening to hear how the students conducted the case. He hopes that other judges would assist the students in later mock trials. A hearty vote of thanks was extended to the judge, George Penton, Gordon Kealey, H. W. Hickman, H. M. Nasse, P. H. Steves, Leo Cain, Ralph McCready, W. L. McDonald, C. L. Allison and J. J. Hogan took part in the proceedings.

10,000 Ford Tractors To Be Sent to Russia

NEW YORK, Dec. 17.—The Ford Motor Company has signed a contract for 10,000 Fordson tractors with equipment, plows and spare parts, to be sold to the Russian Government for an aggregate amount of \$6,000,000. News of the contract was given by the Antorg Trading Corporation, purchasing and selling agents in this country for the various Soviet industrial and commercial organizations.

Shipment of the tractors will be made in time for them to reach the agricultural districts of Russia for the next spring work.

Senators Continue Climbing By Beating Canadiens, 3 to 0

OTTAWA, Ont., Dec. 18.—Only a spectacular and phenomenal goal tending by both net guardians kept the rival cages clear, in last night's game here, won by Ottawa from Canadiens, 3-0, as there were many times when scores seemed certain. In this respect, honours were about even. Rheaume played a splendid game in the Habituat cage, while Connell again held his position scores in. In the final period Canadiens claimed a goal following a scramble after Leduc had rushed, but the referee upheld the umpire's decision.

Morens led the scarlet shirted victors with another wonderful game, Joliet and Billy Boucher went in flashes only, and appeared to rest easily. On the defense end, Cotta and Mantha were steady, while Leduc stood out with individual efforts, when he was sent on.

DOCTOR ASSAILS BEAUTY VERDICT

Objects to College Vote in Favor of Girl Wearing High Heels

NEW YORK, Dec. 18.—Dr. Norman Mattison has made public a letter he sent to the department of physical education of Barnard College, criticizing the award of first place in posture and physique to a student who wears high heels because her insteps are so high.

"Your department," he wrote, "is doubtless familiar with the following established facts, though some of them seem to have been overlooked or ignored in making this award: a foot which is accustomed to high-heeled shoes is very usually a type of contracted weak-foot; the artificial elevation of two or more inches at the heel so contracts the foot that the ball is converted into an anterior heel in order to stabilize its structure; for the same reason the toes are retracted, instead of being free to carry out their normal functions of flexion and prehension; the inner aspect of the foot, intended to be free to prop the body weight in walking, usurps the function of the outer aspect of the foot, which is intended to be in contact for weight-bearing; for this latter reason the foot rolls inward on its long axis, or pronates, and a degree of impending or actual weak-foot results; and, of most importance, the contraction of the foot makes it difficult or impossible for the region between the heel and the outer ball to be in contact with the insole or ground, and there is accordingly no bridge between the posterior and anterior heel—the beginning, and most frequent cause, of so-called fallen arch."

Soviet Makes New Move For Business

MOSCOW, Dec. 18.—Russia has made a decided move to capture more of the world's trade.

Noticing a lack of cohesion between her domestic and foreign markets, the authorities recently combined the foreign and internal trade commissariats into a united single commissariat. Henceforth this will be known as the Foreign and Internal Trade Department. Alexander Danilovitch Tsurup, a Ukrainian, has been appointed president. The new move is also intended to help the government combat speculation.

LACE WORKERS PROTEST

NOTTINGHAM, Dec. 18.—Lace workers here are loud in their denunciation of modern styles and appeal for a return to the fashions of the Victorian era. They don't mind the scanty skirts of the women of 1925, but they feel aggrieved at the scantiness of the lingerie that goes with them. In spite of all they say, they follow fashion's dictates.

FEVER BABIES

LONDON, Dec. 18.—The birth rate in London has declined at the rate of 4,800 a year for the last four years, a report of the medical officer of health shows. The birth rate has shown a consistent decline for the last 50 years, the report states, but it has fallen off alarmingly since the war. If the present rate continues the next census will show only about 10,000 children less than five years ago.

Radio sets are under a temporary ban by the Venezuelan government. It is claimed that listening interferes with the work of the nation.

GOOD THINGS COMING TO THEATRES OF SAINT JOHN

Imperial's Santa Claus Gift Contest

Now that the public schools are closed for the Christmas holidays the fun starts at Imperial Theatre in earnest. Beginning Monday of next week Santa Claus will be on hand every afternoon to greet the little ones and distribute the gift tickets to which every juvenile patron is entitled. In fact there will be two tickets, one to be used the same afternoon in deciding upon the winners of door prizes and

another one of a different color to be held until the day of the awarding of the big capital prizes. This is a gift distribution and no extra charges are made whatever. It is a merry lullaby contest for the children themselves—a real Santa Claus stunt. The prizes include a 9-foot toboggan, upholstered in grey corduroy velvet; a 10-foot double-runner, an English-made power boat, never before seen in the Maritime Provinces; sewing machine, dolls, trousseau, superior steam engine, English dolls, specially imported; semi-toy saxophone, new kinds of games, roller skates, sleds, frames, ice skates, hockey sticks, etc. etc. There will be a boy's prize and a girl's prize given away every day commencing Monday with the important capital prizes on the final day of the gift carnival, which will be the 21st.

Geraldine Farrar To Rest for Winter

RIDGEFIELD, Conn., Dec. 17.—Miss Geraldine Farrar, prima donna, whose sudden illness two weeks ago was responsible for the closing of "Romany Love Spell" after the premiere of the operetta in Hartford, will not return to the show, even should it be reopened, her father, S. D. Farrar, has announced. Mr. Farrar said that his daughter was well on the road to recovery, but that she has decided to spend the entire winter resting at her home here. She has made no plans for the future, Mr. Farrar said.

"Rex"—Wild Horse in BLACK CYCLONE

Wolves! His "Lady" in Danger! Snarling and leaping for the throat of the fair mate of "Black Cyclone"—trying with their cruel fangs to tear the coat of the who was like a Silver Flash in the Sunlight—then in answer to her call came "Black Cyclone," with the blood of battle in his noble veins and death hidden in his hoofs!

Drama!—Told in An Amazing Way! Amazing! Fascinating!—the story of a Horse, his coat as black as night, wild, courageous, noble! Of his love for "Lady," white and beautiful, like a Silver Flash in the Morning Sun—and of the coming of "The Killer," brutal ruler of the herd, who coveted her gleaming beauty.

For Your Speed Skating Friend— Alfred's Ice King Racing Outfit

This is the lightest, strongest and most finely constructed racing skate and shoe outfit made. Used by ninety per cent of the world's champion speed skaters. The skate is made of the finest quality spring steel, prepared after the Alfred Johnson Co.'s exacting analysis. It is hand finished and specially ground. Runners are made of finest quality carbon tool steel, hardened in the Alfred Johnson Company's plant by the secret process to hold a keen edge, and specially tapered for racing.

Cups are fastened to sole and heel plates by patented lock joint, instead of small rivets, and reinforces both cups and plates.

The shoe is bench made, in the Alfred Johnson Skate Company's modern plant, of a specially selected grade of yellow-back kangaroo leather. Its great strength, fine texture, light weight and close grain, insure exceptional wearing qualities, perfect fit and absolute comfort. Reinforced with non-elastic finest quality webbing, stretched on the inside. Oak sole leather corner sewed on the outside forms a natural arch support and gives the foot a perfect fit and protects the heel.

SURGERY OLD AND NEW TOLD OF

Dr. W. W. White Addresses Men's Club of Stone Church.

Great Advances Made Are Illustrated in Ratio of Successful Operations

The Men's Club of St. John's (Stone) Church, held a very successful meeting in the parish house last evening. Dr. W. W. White gave a very much appreciated lecture on "Surgery, Ancient and Modern." G. Wetmore Merritt acted as chairman. There was a large attendance of members and interested friends. Light refreshments were served at the close of the meeting.

Doctor White spoke of the early days of surgery. Then coming to more recent times told of the great advances made through the discoveries by Lister, who developed antiseptic surgery, and Dr. Simpson of Edinburgh whose work was in anaesthetics. Dr. White also spoke of the great aid which the discoverer of the use of chloroform had brought to surgical work.

He recalled that when he was a student at McGill it had been customary for the surgeon to operate in a room to wear any old worn out clothes that he had a fancy to wear, as the germ theory was not worrying anybody. He contrasted the conditions of today when the surgeon in the operating rooms used every precaution to guard against germ infection. In the old days he said it was reckoned that out of every 100 operations the patient would recover in only 40 cases. The odds were against the 60 per cent.

Today the chances of anything going wrong in an operation he believed were only three in 100. He told of some very wonderful operations that had been performed in the past. One was only recently, he said that a Boston surgeon had removed an obstruction from a vein in the center of a man's heart and the man had fully recovered from the operation and been much improved in health.

Mrs. E. Gilliland Is Dead at Age of 73

The death of Mrs. Elizabeth Gilliland, widow of Alexander Gilliland, occurred at Nauwigewauk, N. B., on December 17 after a lingering illness, at the age of 73. She leaves one son, John A., of Nauwigewauk, and one daughter, Mrs. A. E. Joseph, of Saint John. Her husband died about four months ago. She was a member of the Presbyterian church at Hammonds River, and always took an active interest in church work. Her beautiful Christian spirit endeared her to many friends, by whom she will be greatly missed. The funeral will be held on Saturday at 2:30 o'clock from the house. Rev. Mr. Elliott, assisted by Rev. C. Warie, will conduct the services.

BIRTHDAY PARTY.

Mrs. Gerald McGrath, 47 Rock street, was the hostess yesterday afternoon at an enjoyable birthday party in honor of her young daughter, who is being her 21st anniversary. MORE GRAIN HERE THAN LAST YEAR

Mark for the Period of 1924 Exceeded by Present Week's Business.

Figures of C. P. R. and C. N. R. Announced—Ships Here and on Way For Grain

Grain shipments through this port this week have been heavy and this has resulted in last year's mark being passed thus far this season by more than 285,000 bushels. Prospects are cleared excellent for further heavy shipments within the next 10 days and it is expected that by the end of December last year's total will be still further exceeded.

RECORD TO DATE.

Up to today 2,418,405 bushels have been shipped through Saint John compared with 2,033,000 bushels for the same period in 1924. The C. P. R. elevators on the West Side have delivered 2,228,000 bushels this season compared with 1,969,000 bushels last year, while the C. N. R. elevator on this side of the harbor has delivered 190,405 bushels compared with 60,000 bushels last year. The C. N. R. has hauled a portion of the grain exported from the elevators on the West Side. This railway, it was said today, has brought to this port thus far this season, including grain delivered through West Side, in storage in the C. N. R. elevator and in Island Yard approximately 900,000 bushels, while in 1924 to this date only 800,000 bushels had been handled by this line.

VESSELS HERE.

There are vessels in port now to take about half a million more bushels, while other freighters are due within the next few days to handle another half a million bushels. The steamer Auranis, sailing this evening, is taking 257,775 bushels of grain for Catania and Milazzo. Another freighter, Camilla Gilbert, arrived this morning to load a full cargo of grain for the continent, while still another grain boat is expected about the middle of next week. It is expected that there will be a considerable number more full cargo boats here this season than last year.

CANNUCKS GUESTS AT TURKEY SUPPER

Football Champions Entertained Nicely Last Evening in Fairville

The Fairville Cannucks, intermediate football champions, were entertained at a turkey supper last evening at the home of their captain, Fred Fritz. Thirty enjoyed the banquet. Mr. O'Brien presided, the toast to the King and all sang the national anthem. The Cannucks were spoken for by William Simpson, manager; Frank Campbell, coach; P. Fritz, captain. Drew Mulcahy and A. Merritt. A toast to the ladies was proposed by Leon Smith and responded to by Adlington Baxter. Addresses were given by it. Sherwood, L. Jones and H. Peters.

After the banquet the Cannucks and their friends, 60 in all, repaired to Orange Hall, where the remainder of the evening was spent at a pleasing program furnished under direction of William Simpson and I. N. Fanjoy. The hall was decorated with yellow and blue streamers, the Cannucks' colors, and the lights were covered with shades of similar colors. Mr. Fanjoy was the chairman. An orchestra composed of James Driscoll, Fred Mulcahy, A. Merritt and Fred Morrow provided musical selections; Leon Smith read verses composed by Miss Marion Black enumerating the virtues of each member of the Cannucks; Miss Isabelle Gaslin read verses which she composed in honor of the Cannucks; Miss Lucy Black sang a pleasing solo with Miss Marion Black as her accompanist. Sing-song was enjoyed and dancing ended a very delightful evening. Dainty refreshments were served by an efficient committee.
