GRAND TRUNK PACIFIC WILL OPERATE A PACIFIC FLEET

President Hays Also Announces That the Company Will Have Terminals in Vancouver and Seattle as Well as in Prince Rupert.

SEATTLE, Wn., Aug. 13.—Sir Charles Rivers Wilson, of London, President of the Grand Trunk Pacific System, and C. M. Hays, of Montreal, President of the Grand Trunk Pacific, arrived in Seattle last night on their way to Vancouver and Victoria to look after the interests of the road.

After talking for a minute with Mr. Tilton he retired, first asking the clerk to have a pitcher of ice water sent to the Barker House, where he was a guest. Mr. Redford, who for the past two or three years has represented Tooka Bros. of Montreal, arrived in the city on Wednesday on his regular visit and spent last evening at his sample rooms with several of his customers, returning to the Barker House between nine and ten o'clock.

The train was riddled with shots from the men hidden about the yards, behind boxes, cars and any other form of temporary fortification which could be found. Later the scene of the battle changed to a corner of the railway yard in front of the company's boarding house, when a mob of more than 200 strikers opened fire on 20 special constables.

WITNESS SAYS LOGS WERE HELD UP FOR TWO MONTHS

John D. Colwell was the only witness at this morning's session of the St. John River Commission. His evidence chiefly related to conditions at Van Buren. He told of the big jams there in 1904 and 1906 and of the delays to the logs from this cause which in one case amounted to two months.

WITNESS SAYS LOGS WERE HELD UP FOR TWO MONTHS

The efforts of Mr. Jones to secure reports of conversations which the witness had with others, led to several vigorous protests from Mr. Follows, but the evidence was admitted, Mr. Follows remarking that he wished his objections also to go on record in order that others reading the evidence should not have the opportunity of laughing at him for having let it pass.

WITNESS SAYS LOGS WERE HELD UP FOR TWO MONTHS

Synopsis of Canadian North-
west Land Regulations
Any person who is the sole head of
a family, or any male over 18 years old,
may homestead a quarter-section of
available Dominion land in Manitoba,
Saskatchewan or Alberta. The appli-
cant must appear in person at the Do-
minion Lands Agency or Sub-Agency
of the district. Entry by proxy may
be made at any agency, on certain
conditions, by father, mother, son,
daughter, brother or sister of intend-
ing homesteader.
Duties—Six months' residence upon
and cultivation of the land in each of
three years. A homesteader may live
within nine miles of his homestead on
a farm of at least 50 acres solely owned
and occupied by him or by his
father, mother, son, daughter, brother
or sister.
In certain districts a homesteader in
good standing may pre-empt a quar-
ter-section alongside his homestead.
Price \$5.00 per acre. Duties—Must re-
side six months in each of six years from
date of homestead entry (including
the time required to clear his land,
stake and cultivate fifty acres extra.
A homesteader who has exhausted his
homestead right and cannot obtain
a pre-emption may take a purchased
homestead in certain districts. Price
\$20.00 per acre. Duties—Must reside
six months in each of three years, cul-
tivate fifty acres and erect a house
worth \$20.00.

mile southwest of Cape Cod.

STRIKERS AND
POLICE CLASH

Pitched Battle at Fort
William—Several

Used Guns
Battle Lasted 15 Min-

an immense crowd gathered, about 200
in all, and it was plainly to be seen
that they were out for trouble. They
stood waiting for an hour, when finally
the C. P. R. policemen marched out
and went across the road to the C. P.
R. boarding house and then started.
The men at once declared that they
would not let them go back. While
the constables were eating breakfast,
Ald. Rankin came down and made a
speech, stating that the C. P. R. were
willing to give 20 cents for day work
and 25 cents for night work.
Would Hardly Listen
The strikers would hardly listen at
all and watched the boarding house
like hawks. Finally, about 11:30 the
constables started to come out, and one
of two was outside of the door be-
fore the shooting started. The first
constable to come out was told to go
back, and he immediately pulled out
his revolver and threatened to shoot.
One of the strikers in the lead started
to raise his stick and threatened to
hit him, and the constables at once
pulled their revolvers and then there
was a regular fusillade of revolver
shots. Guns appeared as if by magic,
and it was scarcely a minute before
there was a battle in progress in the
centre of the street. Strikers used re-
volvers first and so did the police, who
finally drove the strikers back some-
what and managed to reach the shed-
der of a car drawn across the road at
the entrance to the freight sheds.
"Bring rifles," was the cry of the
strikers, and about a dozen men rushed
into nearby houses and came out
with rifles. Sheltered by corners of
houses they continued the battle and
showed no signs of retreating. Men
with rifles were encouraged by their
fellow strikers, and two or three could
be seen in the group around the man
with the gun showing him how to
shoot. Men were running back and
forth, in and out of houses for ammu-
nition, and as fast as it could be
brought shooting continued. It lasted
for fifteen minutes.
The Royal Canadian Rifles left Win-
nipeg for Fort William this afternoon.

PORT WILLIAM, Aug. 12—Eight
men were wounded in a pitched
battle between police and strikers here
today at the docks. The fight was a
hot one for some time. This morning
a body of C. P. R. special police and
strikers to the number of two hun-
dred or more, engaged in a pitched
battle at the corner of McTavish
street at the C. P. R. sheds and seven
or eight men were wounded, some of
them seriously. The exact number of
wounded cannot be learned as yet, but
from what can be gathered, five C. P.
R. special constables brought in the
wounded, none of them seriously. They
had lines of box cars drawn across the
tracks at protection and their wounds
are mostly in the legs. Dickenson, a
Times-Journal reporter, also received a
wound. Sergt. Taylor of the local police
also received slight injury. The
strikers were also injured, one of them
being the leader amongst the men and
he received a bullet through the arm,
while the other was shot through the
groin.

Uncle Walt
The Poetic Philosopher
How often, my friends, when the long day is ended, and all of its labors
are gone to the whence, when the shadow of night on the earth has de-
scended, we gossip with neighbors across the back fence;
we tear into rags Gaffir Gray's reputation, and call him
a miser who ought to be shot; we say that old Brown's
wife was taken to the nation, and blame the police that he's
never been caught. Relating old scandals with elegant
diction, our bosoms are filled with the sweetest of bliss; when we run
out of facts we are ready with fiction, and any old fable will not come amiss.
When we have exhausted our stock of romances, and taken the hides off of
friend and of foe, we go to that sleep (as the evening advances) which only
the moral and virtuous know. At noon, as we go to our various labors, in
office or stable or ice works or store, we often meet up with those terrible
neighbors, whose records we shredded the evening before. With sunny
smiles on our faces we greet 'em, and make a great fuss in our glad, cordial
way, and people might think we were going to eat 'em—for Brown is a
daisy, and so's Gaffir Gray!

AMUSEMENTS

ARMCHAIR STRATEGISTS are wont to tell
what will happen if the Japanese ever
invade North America, and today at
the Nickel the great Kalem picture
will give a visionary conception of the
result. It is an excellent war pic-
ture and with artillery thundering,
spirited cavalry manoeuvring, infantry
in great battalions and a thrilling plot
to the string of film, watchers will be
greatly interested. A distinctly other
class of picture is the Biograph story,
The Cardiacs Kindly Conspiracy.
Two foreign pictures are Brown's
Moving Day (Gaumont), and The
Rival Sisters (Luz). Last evening the
Bush string quartette charmed several
hundreds of people to another deli-
cious bill, which is to be repeated today
and Saturday. Miss Mary Wylie Bush
was enthusiastically encored for her
artistic 'cello solo, Evening Star, from
Wagner's Tannhauser. The ensemble
numbers were: Schumann's The Voice
of Love, and Keler-Bela's wondrous
Hungarian Lullaby. Mr. Buchanan
made a sensational hit in Tom's
Good-Bye to double orchestral accom-
paniment. Big shows tomorrow with
funny novelties for the children and
half-holiday folks.

NEW PICTURES AT H. H. H.
TODAY.
But I've done more than for you
to see Prof. Hammon's miniature cir-
cus, and if you have not yet seen it do
so, for it's well worth seeing. Prof.
Hampton has the only educated goose
in the world, and everybody, who has
seen it has been astonished to think
that the supposed to be foolish goose
can be educated to tell the number of
days in the week, and the year, to
multiply figures, and many other
wonderful tricks. Dare Devil Spike,
the loop the loop monkey, continues
to make a hit, and the dogs, they are
wonderfully clever. Yesterday Edna
Phin and Hehr made a big hit in their
new song programme. Matrimonial
Squabbles is a comedy conventional
hit with the married folk. Once Again,
a pretty solo, was splendidly sung by
Mr. Mumpkin. There's Something Nice
About You, is a very catchy conversa-
tional duet, and generous applause was
STEEPLE CHASING AT "STAR"
TONIGHT.

Over in Star Theatre, North End, to-
night one of the famous Escalier
steeples-chasing events will be held and
onlookers will imagine themselves as
being on the scene. Besides this big
feature there will be the following pic-
tures: "Saved From Convict," "The
Pretty Fisherman," "A Real Good
Omen" and "The Youthful Couple's
Elopement." In all this there is travel
and sporting interest, comedy and
drama. Miss Edwards will sing a new
ballad and there will be a grand
good music. On Monday the "Star"
enhances the quality of its picture ser-
vice with a new contract with the
Kinograph Co. of America for a
complete new set of pictures, three
times weekly, pictures entirely exclu-
sive and of the finest quality. Particu-
lars later.

SCULPTOR IS ENJOYING
HIS VACATION IN JAIL

Cool and Quiet, He's Not Bothered by
Etiquette of Dress.
NEW YORK, Aug. 12—Having served
four months of a six months' im-
prisonment for contempt of court, Ros-
coe Hinton Perry, sculptor, is well
satisfied with the advantages of a
summer vacation in Ludlow
jail. Perry was sentenced because he
refused to pay alimony to his first
wife.
Leaving the blistering heat of the
lower East Side, a reporter found one
of the foremost advantages of a
keeper led him into the dim, cool re-
ception room of the jail. Perry came
down from the cell floor, attired in
slippers, light trousers, and a thin
sweater, light shirt, open at the throat.
"This is one of the primary advan-
tages of being in jail," said Perry.
"Whatever some of the other advan-
tages?" was asked.
"First of all, there is no more con-
duct to be deep thinking and study. While
somewhat monotonous, the life here is
decidedly better than the same variety
of life to be had at 10. I arise at 6 and
have my fruit, bread and coffee. I return
to my cell, which is really a room
with two windows and a comfortable
bed, where I stay until 10 o'clock. Then
we are permitted to roam about until
dinner time. There is the yard to ex-
ercise in and fairly congenial prison-
ers to chat with or play cards with.
Some of us play handball. Sensible
hours, good plain food, plenty of light,
and an exercise—such a life should
put any one in good physical trim.
"Of course I shall be glad when
September comes and I am free.
"I have commissions to execute and
there are more in sight. My imprison-
ment has not hurt me professionally.
I believe I could not pay all the
money my first wife demanded, and I
had the choice of leaving New York
state or going to jail. My professional
future would be jeopardized by banish-
ing myself permanently from New
York so I took this way out of the dif-
ficulty."

COLLIERS DECLINE BATH.
LONDON, Aug. 12—Only 150 out of
1500 miners employed by the Pffe Coal
Company have accepted the company's
proposal to provide bathing accommo-
dation for its employees, at a cost of
one penny each per week.
"Dat's de cat!"
"Whut's de matter, girl?"
"Ch, de cat went to sleep on my
new hat and I wore her down town
and back!"
Mrs. Dehob—Believe, told me she
saw Mr. and Mrs. Hobson going to
church this morning. I wonder what's
the matter?
Mr. Dehob—Athy, either Mr. Hob-
son has had another attack of heart
trouble or Mrs. Hobson has a new
hat.

ST. JOHN STAR.

ST. JOHN, N. B., AUGUST 13, 1909.

A SUGGESTION.

The Tuberculosis Association in St. John, N. B., has been distributing throughout the Province in the hope of educating the people in the proper treatment of this disease. The course being adopted is a laudable one. Pamphlets and leaflets containing essential information on this important subject when placed within the reach of every resident of the Province should be of immense value along educational lines. The objection which the Star sees in this is the expense. If it is to be effective the literature must reach everyone and in order that this may be accomplished a very large amount must be expended in printing, and even a larger amount for proper distribution. No doubt the results achieved will be well worth the money, but the question arises whether better results could not be accomplished with a less expenditure of money, and this question seems to be of some importance in view of the fact that the finances of the Association are somewhat limited. The Star suggests that the consideration of those in charge of the work, a plan by which a great deal of good could be accomplished at a minimum outlay. In this Province there are a score or two of newspapers, dailies and weeklies. It is not too much to expect that ninety per cent. of the intelligent residents of the Province read one or more of these newspapers every week. Why not engage a qualified physician, or other expert, to prepare a series of articles of say, from four hundred to six hundred words in length each, for publication in all provincial papers? This work would no doubt be undertaken by a competent man for a remuneration not well beyond the means of the Association, and there is not the least doubt that every newspaper in New Brunswick would willingly agree to publish these articles absolutely free of cost. As a starter the Star hereby offers to the Tuberculosis Association or whatever its name may happen to be—a column of space in this paper on every Saturday for a year, for the purpose of educating the people of St. John and outside points, against consumption.

It would be a comparatively small matter for the executive of the Association to send to all the papers in the Province, these articles, to be printed weekly and by this method a very much larger number of persons would be reached than can possibly be their attention drawn to the literature which the Association proposes to distribute. If the newspapers were to charge advertising rates for the publication of such matter as this, the plan would be beyond the reach of the Association, but it is safe to say that under the circumstances no charges would be made by any of the newspapers and \$1000 a year should fully cover all expenses, including preparation of the articles and weekly distribution to the newspaper offices. However, as the executive of the Association has in the past given evidence of the belief that newspapers are no good for the dissemination of information, it is probable that the suggestion here made will not be entertained. It is needless to say this does not make it any the less worthy of consideration.

WATER POWER AND THE TRUSTS.

The charge that a gigantic trust is endeavoring to secure a monopoly of the water powers of the United States has recently been made, and the evidence produced seems to give reasonable proof that it is not merely a dream. In a report to President Roosevelt last January, Herbert Knox Smith, Commissioner of Corporations, drew attention to the existence of an organized effort to bring all water power concerns under the domination of one group of men. The charge was again given prominence a few days ago by Pinchot, the U. S. forestry expert. That a certain group of men have almost unlimited control over the development of this resource has been clearly demonstrated, and Pinchot's Morgan is credited with being the genius who has planned the big trust and carried the plans well on towards fulfillment. The campaign leading to this achievement has occupied many years. First one and then another industry has been added to the list under control of the trust until now it is estimated that fifty per cent. of the electrical power generated by water in the United States is earning money for the group of capitalists who planned the coup. The fact that practically all the electrical equipment used in the United States is made by a trust which is affiliated with the group higher up first leads the promoter of a water power to the doors of the monopolists. Then the fact that he finds himself unable to raise sufficient money to finance an enterprise involving an investment of perhaps millions, anywhere except in New York has given

the big trust the opportunity to get their hooks into him. The most important engineering contractors are allied with the same group of capitalists and can be depended upon to do their part. Finally the ability of the money interests to get what legislation they want past both state and national governments gives them their final grip on the situation. Time and again the game has been worked. Local capitalists start to develop water power in their vicinity and after a struggle with mysterious circumstances which seem to balk them at every turn have found themselves stripped of both their money and their water rights.

Some of the methods employed by the trust to carry out this scheme read more like the imaginings of a sensational fiction writer than the record of actual events. The technicalities of the law are usually depended upon to secure the desired results, but in cases where it was deemed necessary actual violence has been used. The willingness of governments to part with water rights on the promise of industrial development has made the progress of the trust fairly easy, but there are signs that the people are beginning to wake up to the value of the franchises, which have been so carelessly given away. In several states legislation has been introduced with a view to making all water power the property of the government. In this they are following the precedent of Switzerland which has for some time recognized the rights of the people and the necessity of protecting them from exploitation for private gain.

In Canada the same problems must be faced. We have hardly begun to develop our water power resources, but those plants which have been erected are in almost every case taking the power which should belong to the people and turning it into private hands for the watered stocks of private corporations. Right in our own province we have the spectacle of two rival companies warring over water rights which are estimated to be worth in the vicinity of a million dollars. It might have been thought that the people of the province would have some rights in the matter, but apparently they have not. It is too late to do anything but except regrets, but there are other water powers in the province which have not been exploited and it rightly managed they should be of sufficient value to more than offset the provincial debt.

EXPECTING WAR BETWEEN TURKEY AND GREECE

Turkey's Answer an Ultimatum—Forts are in Readiness.

BELLEVILLE, Aug. 12.—Telegraphing from Constantinople the correspondent of the Tagblatt says that Turkey's answer to the Greek note will have the character of an ultimatum. He adds the opinion that war is unavoidable between Turkey and Greece and that the outbreak is near at hand. The forts around Saloniki, the correspondent declares, are ready for war.

CHEAP FARES TO TORONTO EXHIBITION

Remarkably cheap fares are announced by the Intercolonial Railway for the benefit of those who desire to attend the Canadian National Exhibition at Toronto. This great annual fair will be held this year from August 24th until September 13th, and will have many new features and special attractions. Apart from the attractions of the Exhibition, a trip to Toronto at this season of the year is always enjoyable, and the reasonable rates that will prevail should prove an additional inducement to many travellers.

Round trip tickets will be issued on August 26th, 28th, 30th and 31st, and on Sept. 1st, 2nd, 7th, 8th and 9th, at first class one way fare. On August 27th and September 3rd, round trip tickets will be issued at a rate still more reasonable. All tickets will be good for return up to September 13th. These reduced rates afford chances for a cheap and enjoyable trip, and those travelling by the Intercolonial Railway will be enabled to reach Toronto by the shortest and quickest route from the Maritime Provinces. The Ocean Limited, which arrives in Montreal at 7:30 a. m., connects with the Grand Trunk International Limited, which leaves Montreal at 8:00 a. m., thus saving hours of time. The Maritime Express, arriving in Montreal at 8:30 p. m., connects with the Grand Trunk express for Toronto, leaving Montreal at 10:30 p. m., and the Ocean Limited, leaving at 7:30 p. m. daily except Saturday.

BASEBALL COMMERCIAL LEAGUE.

Last evening M. R. A. played Brock and Paterson, beating them by a score of 8-4. Battery for M. R. A., Girvan and Brock; Brock and Paterson, Macdonald and McDonald. This game ties Brock and Paterson with Vassie and Co., for first place and also ties M. R. A. with Macdonald Bros. With several games to play.

Look at any store in the city and try to imagine what it would be if it had never been advertised.

I. O. O. F. IS TO MEET NEXT YEAR IN TRURO

District Deputies Appointed Last Evening.

Officers Installed and a Lot of Reports Adopted—Session Wound Up—The Secretary Honored.

The I. O. O. F. Grand Lodge completed its business last evening. During the afternoon session, Fredericton was named as the next place of meeting but later in the day advice was received that a sufficiently large hall for the gathering would not be available in the capital city. So Truro was chosen.

The motion to give the provinces authority to apply for a dissolution of the Grand Lodge of the Maritime Provinces and the establishment of separate jurisdictions was warmly discussed. Finally the motion to allow the matter to remain standing for another year was carried without a division being called.

The appropriation for an Oddfellows hall was also held up for another year. The Grand Master was authorized to appoint a special committee of three to report on the matter at the next Grand Lodge.

The evening session was largely taken up by the adoption of the new constitution. The amendments were adopted as printed with few changes. The committee appointed to consider the reports of the officers submitted their reports.

Before dispersion votes of thanks were moved by the visiting delegates to the St. John Oddfellows, and the major and citizens generally for the hospitality extended.

The elected and appointed officers were installed in office by the retiring Grand Master Johnson, and at 10 o'clock one of the most strenuous sessions of the Grand Lodge came to an end. At the close of the meeting the enthusiastic admirers of the Grand Secretary, John McKinnon, of Charlottetown, showed their appreciation by carrying him on their shoulders to his hotel. Hearty cheers were given for all the grand officers and to the delegates who dispersed to their homes. Very few left the city last evening. Some of the visitors will remain over for another day to enjoy the sights of the city.

TREASURE TROVE OF SARACEN ARMOR

Remarkable Discovery in a Church in Constantinople

Has Laid There 400 Years—Date From Crusades—Finds Most Valuable Collection in the World.

LONDON, Aug. 12.—Dr. K. F. Martin, an expert sent by the Swedish Government to Constantinople to collect data relating to the sojourn of Charles XII. in Turkey, reports that he has accidentally come upon an immense collection of ancient Saracen armor, which is unrivaled by any museum, public or private, in the world. The collection has been kept in locked vaults since 1517 in the Church of St. Irene, the only Byzantine church in Constantinople, that has not been turned into a mosque and access to which has been hitherto strictly forbidden.

Only a few officers of high rank know of the existence of this collection. Hundreds of cases containing exquisite specimens of ancient armor are piled up pell-mell in subterranean chambers, where they have lain since they were put there about four centuries ago by the orders of Sultan Solim, the conqueror of Syria and Egypt. The discoverer is enthusiastic about the rare headpieces, swords and suits of mail dating from the Crusades and says that the collection is bigger than all European collections of that class put together.

It is said that in the Mint of the Old Yildiz Palace in Topkane and in the arsenal on the Golden Horn other quantities of valuable ancient arms are stored, but no one takes an interest in them. The Turkish officers are entirely ignorant of their value, and especially under the present conditions they have no time to study medieval armorial lore. The Swedish expert urges that the Ottoman Government should appoint a commission of European experts to classify the collection. Should this be done, Dr. Martin is of the opinion that the whole history of the art of Gothic weapons will have to be rewritten.

DEFICIT IS ONLY \$375 THIS YEAR

A special meeting of the Baptist and foreign mission board was held yesterday afternoon at the mission rooms, Prince William street, for the purpose of passing upon the report of the treasurer. This report will be presented at the annual convention to be held in Halifax, August 21 to 25.

The report was presented by the Rev. W. E. McIntyre and showed that during the past year there had been a deficit of only \$375. It was also stated in the report that there had been a most gratifying increase in the amount of gifts to the board. The following is a comparative statement of the amounts received in 1907-8 and 1908-9:

'07-'08. '08-'09.
Nova Scotia. \$5,900 \$3,900
New Brunswick. 3,600 4,600
Prince Edward Island. 300 400

During the last year the ladies' missionary societies had raised the sum of \$14,000. During the year previous they had raised \$12,300. The receipts from all sources had been \$21,000. The total expenditure had been \$22,175, leaving the deficit mentioned above. In these figures, however, is not included a deficit of \$1,827 carried over from the preceding year.

Lord Lacland took his rejection much to heart. "Cher up," we said, "stapping the young fellow on the back. 'There's plenty of fish in the sea.'"

"But not goldfish," his Lordship observed, gloomily.

TOOK FATAL DIVE WITH JEST ON LIPS

"If I Don't Come Back, You'll Know Who I Am," Were Last Words of John McPherson.

SMITH'S FALLS, Ont., Aug. 12.—Mr. John McPherson, son of the late Peter McPherson, in his lifetime a well-known resident of this vicinity, met a tragic death by drowning at Elk Lake on Saturday. The deceased was induced by some companions to go in swimming, though when first asked to do so he refused, stating that it always gave him a severe headache. He went out some distance on a boom and then turned and said, "Well, boys, if I do not come up you know where I am." After uttering these words he dived into the lake and that was the last seen of him alive. When he did not come up at once his companions dove down down in quest of him and kept up a continuous search, assisted by a life preserver, for the unfortunate young fellow, but not until Sunday night was the body recovered. The deceased was 23 years of age and unmarried. He was employed in the mines there and was highly thought of by his employers and fellow-workers. The body will arrive here tomorrow and will be interred in the family burying ground near here.

TIMBER PREY OF BIG FIRE

BIDDEFORD, Me., Aug. 12.—Scores of houses along the Pool Road, five miles from the centre of the city, were in danger today and tonight by a fire which swept over five hundred acres of timber land, most of it covered with a pine growth. Hundreds of volunteers from this city and from the summer money at Biddeford Pool, and Fortune Rocks, assisted the fire department and the millitiamen of company G of the National Guard, who were brought into service by a riot called off by the fire alarm. They worked desperately to save the homes of farmers and summer residents along the road, setting back-fires and carrying their buckets of water to the roots of the dwellings which were threatened constantly by showers of sparks.

At 10 o'clock tonight, although the fire was still burning unchecked, all the houses in its path had been saved and it was believed that there was help enough at hand to prevent any destruction of real estate. The loss on the timber growth was conservatively estimated at that hour at \$50,000.

was said last night that he would re-introduce the motion at the first regular city council meeting in September, "it's up to the city to act at once," said Ald. Maguire.

"There is grave danger of something serious happening so long as these shows are allowed to establish themselves in frame buildings in the middle of blocks. One of these days there will be a dozen or so lives lost, and then there will be preventive measures."

Ald. Maguire's motion was side-tracked by the civic fire and light committee, which directed that the public safety would be sufficiently guarded by having the committee pass upon individual applications for the right to establish picture shows.

ANOTHER TRIUMPH FOR 'ALL RED' ROUTE

MONTREAL, Aug. 11.—The mails from the Allan line stmr. Victorian arrived here tonight at half-past nine from Rimouski. The Victorian left Liverpool at 6 o'clock last Friday evening and letters posted in London last Friday will be delivered here tomorrow. The Toronto and western overland mails were sorted in time to make western connections tonight. The Canadian mail route has thus secured another triumph over the New York route, as the New York boat, which left at the same time as the Victorian, has not yet been reported.

FINANCIAL AND COMMERCIAL

THE HEINZE CASE IS GETTING WARM
Young Broker Arrested But Says Other Powerful People are Behind Him.

NEW YORK, Aug. 13.—Donald L. Perch, an ambitious young financier, whose office constitutes merely a desk room in a downtown note broker's office, is in the Tombs in default of \$30,000 bond, and thereby hangs a tale of tangled finance through which somebody in Wall Street slipped P. Augustus Heinze, the once noted copper king, for \$400,000. Perch is specifically charged with the larceny of \$40,000, a profit made by the sale of 15,000 shares of Ohio Copper common, and 4,000 shares of Davis-Daly Copper common, which an agent for Heinze placed with the Windsor Trust Company of this city, as security for a loan of \$50,000, in some manner as yet unexplained, the stock was not held by the bank, but was turned over to a clerk acting for Perch, and at the latter's order, thrown on the curb market, and sold for approximately \$60,000. How Perch obtained the capital to carry through the deal, and why the stock was relinquished by the trust company, are points yet to be cleared up.

PEOPLE HIGHER UP.
 After his arrest Perch intimated that there were men "higher up" in the transaction, but he refused to say more, upon the advice of counsel. He was arraigned late yesterday afternoon before a magistrate, and after unsuccessful efforts of his lawyers to have bail reduced to \$25,000, was committed to the Tombs, although his counsel later procured a writ of habeas corpus returnable today. His examination was set for Friday.

COULD PUT UP \$50,000.
 In opposing the reduction of bail, Assistant District Attorney Nett, who is conducting the case, said:
 "There are other powerful people behind this man, your honor. They will put up for his appearance, and he should have no difficulty in furnishing \$50,000."
 "On August 6th," he continued, "this man had \$45,000 in his possession; \$50,000 bail is not too much."
 The court agreed with him.
 Perch was arrested on John Sherwood, another note broker, who was called to the district attorney's office. Perch requested the securities from the Trust Company, after having procured from L. Heald and Company, dealers in curt stocks.

HAT MAKERS STRIKE MAY SHORTLY BE SETTLED
Negotiations Toward This End are Under Way—Terms Not Yet Made Known.

NEWARK, N. J., Aug. 13.—It was learned today that a plan for the settlement of the strike of hat makers which has been in progress in Newark and the Orange since January, was agreed upon in a conference between the manufacturers and John A. Moffatt, President of the United Hatters, held at Seagirt last night. The conference was held at the residence of the President of the United Hatters, and the terms of the settlement are not yet made known, but the agreement is in the hands of the Governor and is to be signed by both parties to it within five days. It will affect only the hat makers in this vicinity and does not include the New York men. The Newark and Orange manufacturers are now preparing to place the strikers at work.

TODAY THE DAY.
 Today is the opening day of the mammoth clothing sale for men, women and children now being held at the store lately vacated by Henderson and Hunt, next to F. S. Thomas, 565 Main street. Great crowds were there this morning but bumper crowds are expected there tonight. This stock market is being sold and the public have fourteen days to take the benefit of the wonderful low prices. Don't wait until the last day but hurry up now. Sale to close Aug. 23rd.

COMPETITION KEEPS DOWN THE PRICE OF POWER

Engineer Says a Dam Further Down the Gorge Would be More Expensive Than the Plan Involving the Hayes Property

At the hearing before Commissioner Winslow in the Admiralty court room this morning in the dispute between the rival power companies at Grand Falls over the lease of the Hayes property, evidence was given by Engineers MacRae and Lee in support of the Grand Falls Power Company. F. R. Taylor, who appeared in the interests of the land owners in the case, conducted a sharp cross-examination of Engineer MacRae. Colonel McLean, who is also acting in the interests of the land owners, was present for only a few minutes. He left for Sussex at eleven o'clock.

Colonel McLean stated at the resumption of the hearing that he had communicated with T. Whitcomb at Fredericton. The latter had consented to read a statement of the timber limits of the Hayes property in relation to Grand Falls and vicinity. It would take him a day to prepare the information, but the statement would be obtainable on Saturday morning. Mr. Powell contended that there should be no delay. He asked the right to reject the statement, if he desired. It was finally agreed that a case of the Hayes property should proceed to Fredericton to hear the evidence of Mr. Whitcomb.

J. B. MacRae, of Ottawa, consulting engineer, was recalled by Mr. Powell. He said the land, Lot A, extended below the base of the falls. The development of Lot A would be less than down as far as the Suspension Bridge. He was not prepared to state the distance below the falls that the Hayes property would be necessary for immediate deliveries. Under these conditions there was no necessity to carry any large amount of insurance and, consequently, the premiums showed material decrease.

Holdings of large life insurance policies let go some of their holdings, and the industrial business, too, which covers policies of small amounts, began to fall off because of the temporary shutting down of factories and plants employing large numbers of men.

Within the last few months, however, insurance rates report an increase in both life and fire premiums.

WITNESS SAYS LOGS WERE HELD UP FOR MONTHS
(Continued on Page One)

over to the rear compartment of the steamer. Captain von Emmenke, of the Royal Dutch Packet steamer Van Spilbergen, said that he was on a recent voyage, according to advice from Sydney. On the way from Batavia, one of the passengers, Mrs. Winfield, was stabbed in the throat in her cabin by two Malays who had entered the cabin to rob her when the steamer was seven days out from Batavia.

The woman was not seriously injured, the knife having missed the jugular vein, and she followed the Malays, shouting for help as they ran from her cabin. The stewardess hurried to her assistance but the Malays escaped. When Mrs. Winfield reported the matter to the captain all she could say regarding the identity of the assailants was that "one of them wore blue pants" — and nearly all the Malays on board wore blue breeches.

But Captain von Emmenke was equal to the occasion. He had the whole crew mustered at once on the deck in rows, and as they stood there in the midnight gloom the captain passed along the ranks and felt each man's pulse and placed his hand over each man's heart. The blood curdled normally through the veins of the Malays, and the captain had him placed in iron.

Another man's hands were very cold, having just been washed, and he also was arrested. The two were placed in separate rooms and finally confessed to the robbery and attack.

Both were satisfied that the captain was allied with the devil. Both were turned over to the Dutch police in the Aru group for trial.

H. GASSAWAY DAVIS IS DESCENDANT OF KINGS
Former Senator's Ancestry is Traced Way Back to Charlemagne.

LONDON, Aug. 13.—Mrs. Albert Levin Richardson, of Baltimore, who has been in London two years making researches in reference to the English origins of seventeenth century American colonists of upper classes, has lately discovered that former Senator Henry Gasaway Davis' forebears trace their descent away back to the time of Charlemagne in 814 through many generations of Italian Kings.

Considering this very interesting, when taken in connection with the recent engagement of the Duke of Abruzzi and Miss Katherine Elkins, Richardson submitted her proofs to the Herald's College here, the authorities of which rigorously examined the documents.

The proofs were passed as absolutely impeccable, and the fact is now recorded in the annals of the college of which the proofs now form a part of the official records. A certificate was granted to Mrs. Richardson, who, by the way, is a public record commissioner for the state of Maryland.

SEVEN WERE DROWNED OFF CAPE BRETON COAST

When the Schooner Myrtle Was Dashed on the Rocks—No Trace of the Missing Men.

SYDNEY, Aug. 12.—Further reports from North Lincoln Head seem to bear out the opinion that the wrecked schooner lying there is the Myrtle and no tidings having been received of the crew, little hope is entertained for their safety.

Boats put off to the wreck yesterday and found the schooner was the Myrtle. The crew could be found on Newfoundland vessels. One hailed from Burin and the other from Grand Falls. The one hailed from Burin is still at North Sydney, and Captain J. Salter's sons, ship brokers, of North Sydney. The one hailed from Grand Falls is still at North Sydney, and Captain J. Salter's sons, ship brokers, of North Sydney. The one hailed from Burin is still at North Sydney, and Captain J. Salter's sons, ship brokers, of North Sydney.

Government Officials Claim That Frauds Committed by Half a Dozen Corporations Will be Exposed.

DENVER, Colo., Aug. 13.—Within a month a hearing will begin in Seattle, Washington, that government officials here assert will disclose proof of gigantic frauds in coal deals in Alaska. The points to be investigated are known to Secretary of the Interior, and General Land Office, and the general land office. The investigation will be conducted by the general land office. The investigation will be conducted by the general land office.

AN ARMY OF BLACKS.

France Will Probably Enlist 40,000 Negroes.

PARIS, Aug. 13.—Is the negro destined to be the soldier of the future? France is so pleased with the record of the 2,000 black men in her army that she is considering the idea of recruiting from her West African possessions an army of 100,000 negroes available for service in France or wherever French troops are called.

BODY OF YOUNG LADY RECOVERED

BIDDEFORD, POOL, Me., Aug. 12.—The body of Miss Margaret Harvey of Biddeford, who lost her life on the night of July 20, when the power boat in which she was riding was struck by the Saco River, came ashore today. It was carried by the current to a point nearly three hours better than her previous voyage. Her average speed was 25.65 knots and her daily run, beginning Sunday week, 57, 65, 62, 60, 62 and 57 knots.

LUSITANIA CUTS THREE HOURS OFF THE RECORD

NEW YORK, Aug. 13.—The Cunard liner Lusitania reached port tonight with a new record to her credit. She crossed by the long course in four days, sixteen hours and forty minutes, nearly three hours better than her previous voyage. Her average speed was 25.65 knots and her daily run, beginning Sunday week, 57, 65, 62, 60, 62 and 57 knots.

NEW ENGINEER FOR THE QUEBEC BRIDGE

MONTREAL, Aug. 13.—Four new engineers have been added to the Quebec Bridge Commission as consulting members. They are Henry Holgate of Rids and Holgate, Philip Johnson, chief engineer of the Dominion Bridge Co., Montreal; Paul Wolff, Philadelphia; and Alfred Noble, Philadelphia. While no official statement has been issued, it is believed that the present staff will be utilized. Noble and Holgate have submitted their report to the commission and a meeting will be held here next month to decide that and the question of whether it will be a cantilever or a suspension bridge.

CHAUTAUQUANS GATHER AT OCEAN PARK

OCEAN PARK, Me., Aug. 12.—The annual recognition day exercises of the New England Chautauquans Association were held here today, brought out a large attendance of graduates and one graduate to represent the class of this year in passing through the "golden gate." Rev. E. W. Hickox, of Biddeford, was chief marshal of the procession of graduates and the recognition day address was given by Rev. Putnam Cady, of Amsterdam, N. Y. Miss Agnes Cornforth, of Saco, Me., was the young lady who represented the graduating class.

FOREST FIRES THREATEN MAINE SETTLEMENTS

BIDDEFORD, Me., Aug. 12.—The militia was called out by a riot call today to save the town of Biddeford from a forest fire. One hat of a square mile was burned over. A large settlement of houses was threatened. The wind was blowing strong and was feared nothing but rain would stop the flames.

SUCCESSFUL FLIGHT OF WILLARD'S AEROPLANE

MINNEOLA, I. I., Aug. 13.—What is said a record for cross-country distance flight for an aeroplane in this country was made by C. Foster Willard in the Golden Flyer today, when he covered twelve miles in 12 1-3 minutes. This exceeds the ten-mile flight made by the Wright brothers aeroplane from Fort Myer to Alexandria and back several weeks ago. Much longer flights within a short time, however, have been made by the Wrights and longer cross-country flight, leaving Mineola, where a number of friends gathered to watch his flight, Willard sent the machine about 120 feet in the air and going off at a fast clip his machine was quickly a speck on the horizon. It disappeared behind the trees and for nearly ten minutes the watchers, fearful of an accident, but hopeful of his success, and began to glide slowly downward and land in a field between Mineola and Westbury, about two miles from Mineola. Jumping in an automobile the watchers found Willard's machine undamaged by the landing and with the aviator tinkering with the mechanism. That part of the mechanism which provides for the speed for the ignition of the gas was deranged, but Willard said the aeroplane glided easily to the ground and alighted without a mishap after the power was shut off.

BISHOP DERRICK COMMENTS ON TEMPERANCE WORK

And Talks of the British Sabbath—Many Reports Deal With at This Morning's Session.

This morning's session of the African Methodist Episcopal Conference opened in St. Philip's church at 11 o'clock.

Bishop Derrick presiding. During the session his lordship referred to temperance work, complimenting Rev. A. A. Grant and his fellow-workers on the admirable and practical manner in which they had dealt with the evil in St. John.

"The world is growing better daily," said his lordship. "Every hospital is a victory for religion and testifies to the spirit of goodness asserting itself for the betterment of mankind."

On Sabbath observance the bishop stated that no nation held the day in reverence as did that governed by the Union Jack. He cited Toronto as undoubtedly the most loyal city to Sabbath observance in the world and claimed that it was no uncommon remark for travellers in foreign lands to say of a quiet Sunday: "This is something like a British Sabbath."

Reports of various committees were read and approved, his lordship making timely comment on each.

After the opening prayer the minutes of the previous meeting were read, approved and passed.

Reports from Presiding Elder Kerry were asked for, but not read. Papers on education and temperance were presented, but his lordship sent both back to the committees for reconstruction.

Rev. M. Gibbs presented his report for St. Philip's, which was accepted, and complimentary remarks made by the bishop on the splendid showing in his first year's pastorate.

The committee on first and second years studies reported Austin Morgan president and recommended him for ordination as deacon. The memorial committee's report before being adopted brought forth high tributes from the bishop and members of conference, to the memories of the late I. T. Richardson and A. B. Walker.

Rev. Mr. Pearson presented his committee's report on the state of the church, which was accepted.

The session closed with a prayer and singing of the doxology, to resume at 2.30 this afternoon, when further reports will be dealt with.
